Little Parasite Can Cause Trouble

Austin. — A puny little parasite no more than a quarter inch long when it's full grown can turn a champion weight lifter into an anemic cream puff.

Even while it's still a baby, this pernicious parasite can make a wheezing weakling out of a top field hand, and turn a stout boy's muscles to the texture of soft butter.

It's a hookworm. State Health Officer Geo. W. Cox, with understandable disdain, puts the finger on it as the cause of so-called toe itch, dew itch, ground itch, and summer scratch.

Says he: "All these itches are provincial ways of saying hookworm."

Dr. Cox says his department has been waging a ten-year battle against hookworm in Texas, and that deep inroads have been made into its natural habitat, especially in eastern and southern sections.

Hookworms live a double life, the health official says, half in the intestines of a human being and half in the soil around an open pit privy.

Eggs pass from the body, and hatch within 24 hours. Then the young worm lies in wait for the first unsuspecting barefoot person—usually a youngster—to come by.

"It is a disease," Dr. Cox says, "that stunts the growth of children, causes skin discoloration, loss of weight, and anemia."

SOCIAL SECURITY INCREASE

Each of the 2600 social security beneficiaries in the area will receive a substantially larger insurance check during the week of October 1, according to Ralph T. Fisher, manager of the Abilene office of the Social Security Administration.

The amendment, signed into law by the President on August 28, provided that larger payments should begin for the month of September.

The increased September payments will be made automatically to all those who received August checks and are still eligible.

Increases range from 100% for those who were receiving the lowest amounts under the old law, to about 60% for those whose payments were in the higher brackets.

Each new monthly benefit payment is based upon a table of increases set forth in the law. The table shows exactly what each new payment is to be, depending upon the previous benefit rate.

State Health News

Austin, Oct. 15—Old style, palate tickling, succulent smoked hams like you used to prepare for special dinners are giving way to the tenderized and ready-to-eat varieties.

Increased danger of spoilage comes with the change. State Health Officer Geo. W. Cox says.

Used to be you could salt down a ham, then home-smoke it slow and easy. When done, you could hang it on the back porch easily accessible for a quick slice.

Those days are fast waning, for city bound folks. Ask your butcher for a smoked ham nowadays, and you get two choices: "tenderized", or "ready-to-eat." They look the same, and have some of the old sweetness. But there the similarity ends, Dr. Cox says.

Since less preservation salt is used in the smoking process, today's ham products have to be placed under immediate refrigeration, the same as any other

Salvation Army Ready To Operate In War

Dallas. — The Salvation Army in Texas is alerted to the needs of the war emergency, and is organizing in every Texas city and town where it operates to provide its familiar Red Shield services for the men and women of the armed forces, Lt. Col. John A. Morrison, Texas divisional commander, announced today.

The Salvation Army already is financing and operating a number of Red Shield clubs throughout the country which formerly were under the direction of United Service Organizations (USO). "These centers will be increased as the need of the military personnel demands," The Salvation Army Commander announced.

Colonel Morrison said that some thought has already been given by The Salvation Army to a national campaign to raise money for the servicemen's clubs either through Community Chests, or as an independent campaign. "This will not be necessary,"

meat. "Tenderized" hams are smoked at a temperature of approximately 129 degrees, Dr. Cox says that means they have to be cooked before eating in order to kill any trichina larvae that may be present.

"Trichina larvae, which causes trichinosis, are killing at a temperature of 137 degrees F," the health officer cautioned. "That's internal temperature."

He warned that "ready-to-eat" ham products are smoked at approximately 160 degrees, and cured with less salt than regular smoked hams. They'll spoil easily unless kept under refrigeration until eaten.

Here are the health officer's recommendations regarding these meat products:

1. They cannot be stored in temperatures above 50 degrees. Neither can prepared dishes or sandwiches made from the products.

2. Strict sanitation should be observed in handling them.

3. They should be handled in refrigerated equipment from packing plant to consumer.

4. Cook-before-eating must not be confused with ready-to-eat meat products. Always ask the retailer about the meat to make sure of the cooking procedure.

J. L. Stewardson Of San Saba Receives Santa Fe Award

Galveston. — Fifteen more young Texas members of the Future Farmers of America today were named as winners of the Santa Fe Railway educational awards which will enable them to participate in the annual National Convention to be held in Kansas City, Missouri, in October.

The winners were named by Vannoy Stewart, Texas Future Farmers Supervisor, following announcement of the eligibility by area vocational agriculture supervisors.

Since the railway inaugurated its program, many Future Farmers have earned the awards based on their FFA activities, and many are among the foremost farmers of the State today, according to state leaders. Those receiving the Santa Fe educational recognition are entitled to an all expense free trip to and from the convention and during the four-day period in Kansas City.

Winners are: Weldon Mason, Meadow; Billy Charles Mikeska, Eden; Wallace Colburn, Buckholts; Cecil Barton, Rising Star; Harold R. Dunk, Junction; Danny Burkard, Rowlett; Billy Paul Russell, Pittsburg; Jerry K. Johnson, Nacogdoches; Joseph H. Fortson, Mexia; George Allen, Tyler; Walter Jefferson, Jasper; Frank Dusek, Harlingen; Bobby Warren, Dimmitt; J. L. Stewardson, San Saba; and Curtis Feller, Fredericksburg.

President F. G. Gurley of the Santa Fe, in announcing renewal of the awards this year, declared that support of the FFA educational program "helped the future of the great American agriculture industry."

Elgean and Richard Shield and John Hardy Blue were home from Austin, where they are students at the University of Texas, visiting over the week end with their parents.

he said, "if USO is reactivated." He pointed out that USO is still a legal corporation and can be reactivated by the President, if and when the need arises. In that event, the Salvation Army would transfer the interim services which it is now mapping into the USO or which it is an integral part.

Do You Have Or Need Cleaning Solvent Social Security Cards? Are Dangerous

Students who expect to work during the summer vacation should see that they have their social security cards ready for immediate use, according to a statement made by Ralph T. Fisher, Manager of the Abilene office of the Social Security Administration.

If you go to work for wages in private business or industry, card promptly. If you have had a social security card and are going to need one soon, you should go to the local post office and get an application. Fill it out and mail it to the Social Security Administration, Abilene, Texas. You will receive your card in just a few days.

If you have lost your social security card now is the time to ask for a duplicate. Get an application at your post office, fill it out showing that you have had a card and lost it, and mail that to the Social Security Administration, Abilene, Texas. You will soon have a new card with that same number.

There are some jobs for which you will not need a card. If you are going to work on the farm, for the city, state or federal government, or if you are under 21 and working for your parents, you will not need a social security card. Do not apply for a card unless you are fairly sure to need it. Then get one promptly.

AUSTIN—There's a lot of punch corked up in that little bottle of cleaning solvent out on the back porch. State Health Officer Geo. W. Cox called them "hazardous, when special precautions are not used."

It seems that solvent vapors are heavier than air, which means according to Dr. Cox, that they will collect at floor levels. The danger of using solvent for such household chores as taking spots off the linoleum, or cleaning dirt or grease off the back steps, is that you have to get on your knees to do the job.

And when you're on your knees, you're closer to the accumulation of solvent vapor. The state health officer proved his whole point with this story.

A man attempted to remove the grease from the underside of his car by spraying it with a spray gun he had brought home from his construction job. He was found dead under the car, suffocated by the vapor of the cleaning agent.

Proper use of cleaning solvent, says the doctor, call for opening all the doors and windows when cleaning floors, the underside of household furniture, or clothing. The idea is to get as much ventilation as possible.

When doing a job of this sort, work for a short time—avoiding inhaling the vapors as much as possible—and then get into the fresh air for a minute or two.

The first symptoms of vapor poisoning are nausea, dizziness, headache and fatigue. When you notice them, get outside as soon as possible, the health official advises.

Growing in Prayer
Lesson for October 22, 1950

LIFE MAGAZINE, which does not set up as an authority on religion some years ago carried a story about a little girl who was going to be confirmed in the Episcopal church. In describing the requirements for confirmation, the reporter said she had "graduated from 'Now I Lay Me' to the Lord's Prayer."

Most Christian ministers, including those of the denomination in which she was confirmed, would agree that (1) if that is as far as she had "graduated," she still had a very long way to go in learning about prayer, but (2) the little girl had got about as far as thousands of "Christians" ever go. They learn the Lord's Prayer when they are children and that's that. When they grow up they don't actually pray themselves; they leave it up to Grandma or the preacher—or the tiny tots who "sound so cute" saying "Now I Lay Me."

Dr. Foreman ever go. They learn the Lord's Prayer when they are children and that's that. When they grow up they don't actually pray themselves; they leave it up to Grandma or the preacher—or the tiny tots who "sound so cute" saying "Now I Lay Me."

The Lord's Prayer

THIS is not meant to say anything against the Lord's Prayer, or to imply that we are wrong every time we use it. But our Lord did not mean that prayer to be used as a magic formula, he did not intend it as a substitute for our own free prayers. We know this is so, because in the first place he himself never used that prayer again, and in the second place, although dozens of prayers by Apostles and others are recorded in the New Testament, the Lord's Prayer, as such, is never used. Then what is the Lord's Prayer?

It is his suggestion as to the lines along which, and the spirit in which, we ought to pray. (See the book by William Douglas Chamberlain on the Lord's Prayer, "The Manner of Prayer.")

One truth suggested by the Lord's Prayer is that we are not alone in the world. Every verb, every pronoun referring to the one who prays, is in the plural—OUR Father... forgive US... lead US... We have to remember that God is Father of others, not of ourselves alone; that we dare not be selfish in asking special favors of him for ourselves.

Maturing in Prayer

PRAYER at its lowest level is nothing much more than "Gimme." The untaught prayerer may even talk to God as if he were a personal servant, a kind of celestial bell-boy on call whenever we ring for him.

The growing Christian will grow in prayer as in all things; he will grow to the point where,

To proclaim a new birth of freedom all over the world, Lieut. General Preston A. Weathered, Texas Crusade for Freedom Chairman, today called on every organization and individual to "ring a bell with the Freedom Bell" on United Nations Day, October 24.

At 11:03 A.M. Central Standard Time, the giant World Freedom Bell, symbol of the Crusade, will peal out for the first time its message of hope from Berlin's City Hall in the shadow of the Iron Curtain.

Simultaneously with the Freedom Bell first clap bells in all the free countries will toll as evidence of our determination to build a free world at peace, the General said.

General Lucius D. Clay, national chairman of the Crusade for Freedom, will give a special dedication statement in the freedom ceremony and read the declaration of freedom that millions of Americans have signed recently.

The Freedom Bell's first sound will be broadcast over international radio and will be carried on NBC, CBS and ABC national chains in the United States.

General Weathered urged every Texan who has access to a bell or whistle on October 24 to join in the freedom ceremony.

The purpose of the Crusade is to smother the communist lies

even when he prays as an individual, he will be remembering how many ties bind him to other individuals; he will pray less and less for his own necessities and more and more for what he may share with others.

The beginning Christian, the childish Christian, will pray as a child prays. If his prayers were all arrows they would all point toward himself. As for the mature Christian, if his prayers were visible arrows they could be seen pointing into all the world; he will have those in every land for whom he prays, for his heart bears their names in love and faith.

Learning God's Will

A GOOD deal of worrisome argument has gone on over the question: Can prayer change the will of God? We shall be less bothered by that question when we discover two truths.

One is that in the Lord's Prayer, and in the Bible generally, we have already revealed to us the lines along which God's will moves; and the other is that prayer itself is a means of learning God's will.

If we know that God's will is against something, then, if we have any sense, we know there is no use in praying for that thing. If we know God's will desires something, then we can be confident that our prayers, in that direction will be heard with favor.

A study of the Lord's Prayer, from this angle, will teach a Christian how to pray in accordance with God's will. Paul knew this. When he prayed that his Philippian friends "love may abound more and more," he knew very well that this was precisely in line with the will of the Father who is eternal Love.

Mrs. E. H. Wylie left on Thursday of last week for Whitesboro, to be present with all the other members of the family, for the observance of her mother, Mrs. U. G. White's 90th birthday on Friday.

Mrs. Judge Woodruff visited several days at the weekend in Fort Worth with her son, Wallace Woodruff and with Don, a student at N.T.A.C., Arlington.

Mr. and Mrs. Doug Moore and Linda, attended the State Fair in Dallas Sunday.

Mrs. John Perry, Mrs. Sam Grant, and Mrs. J. F. Goen, attended the all day meeting of the County Council of the H.D. Clubs in Coleman, Saturday.

Mr. and Mrs. Bob Johnson of Abilene were weekend visitors in the home of her parents, Mr. and Mrs. B. L. Parks.

Mrs. Lou Blevins and Mrs. Mae Ferguson of San Angelo visited with their granddaughter and niece, Mrs. John Gregg, from Thursday until Sunday. On Sunday another aunt, Mrs. D. O. Sholar and cousins, Mr. and Mrs. C. W. Chance also from San Angelo visited in the Gregg home, and took the other visitors home.

This issue of the News has been processed under very difficult circumstances. Our main squeeze, John C. Gregg underwent an appendectomy early last Friday following a nights rest in the hospital Thursday night. His operation was a difficult one for appendicitis, but his Surgeon, Dr. Huckleberry, the Surgeon and general practitioner of the Sealy Hospital, never ceased his efforts until he ran that little thing down, retrieved it, finished up the job and set the boy on the road to recover. He is making fast progress toward getting well again, already returned to the office to see how things were showing up, and threatening to go back on the job. The writer has been weaned from doing printing office work, or any other kind of work-in so far as the word implies, but we managed to procure the cooperation of our fellow printers and publishers in Coleman, and have succeeded in getting out a paper, whether it measures up to your standard of requirements or not. Heres hoping we get by with it, and John never throws another such spell, necessitating us to exert further efforts to assemble and publish a newspaper. The remainder of what we might have to say would look better not in print. J.J.G.

Our WASHINGTON Letter

Communism is losing ground in Western Germany, according to the views of most of the people with whom I have talked here.

But the ideological war is terrific here and the Russians are fighting hard for converts in the industrial Ruhr, as well as elsewhere in Germany. Their best foothold is in the Ruhr Valley.

There are several factors which seem to account for our success in the war of ideals thus far.

1. The Marshall Plan which has undoubtedly had a vital stabilizing effect.

2. Our victory in Korea, which has had a strong effect in bolstering the will to resist in Europe.

3. The progress of efforts to unify the democracies militarily, and the stepped-up preparedness program in the U. S.

4. Counter propaganda thru the Voice of America, newspapers picture shows, and thru other methods. At the same time, the Communies formerly had a dozen newspapers in Western Germany; now there is but one that could be called pro-Communist.

We flew from Western Air Force Base, Mass. via the Azores, to the Rhein-Main Airport near Frankfurt. This city, on the barge-choked Rhein, is the headquarters of the American Military Government. It was practically destroyed by bombs during the war, but reconstruction has been rapid. The fields are green and crops are good. Unemployment throughout Germany has dropped a lot during the past year. Post-war recovery has been achieved in Germany faster than in any of the other war-

stricken countries. While in Frankfurt a group of people from the Ruhr, 100 miles away, came to see and talk with us about their struggle against Communism in that area. A Mr. Dutling, who operates a third of the Ruhr Valley coal mines, told the story of Communist tactics and of the things being done to combat them. A considerable number of the coal miners who had been Communists or pro-Communists, have recently joined up with a Moral Rearmament movement and they claim this has done a lot of good in getting rid of the "class struggle" complex, which is a keystone of the Red scheme for conversions.

A German labor leader named Fritz Heske, who accompanied Dutling, told us of his repudiation of Communism during the past year.

"I finally learned", he said thru an interpreter, "that Communism instead of being beneficial to the workers is a fraud and destroys the freedom of people when it is imposed."

Heske, who was a CP member for 20 years, and who was in a German concentration camp during the war, went with Dutling and others in the coal mining industry to the annual conference of the Moral Rearmament movement in Caux early this year. And the mine workers' leader is now leading the fight against Communism in the Ruhr Valley.

The occupation, military and economic picture in Germany was presented to us by our High Commissioner, Mr. John J. McCloy. Lt. Gen. Thomas Handy, who is our occupation Military Commander, and others. There seems to be a lot of sentiment over here in favor of Mr. Atchison's proposal to accept German troops into the MCAP (Mutual Defense Aid Program) with proper precautions against giving them any control over production of arms and military equipment. Most of the people you talk with don't believe Stalin is ready to march on western Europe, although they are very cautious in their optimism and there are a lot of "ifs" connected with it. If we continue to rearm, and if an effective western European

Texas Truck Driving Champs

Champion truck drivers of Texas for 1950 are pictured with their employer and the trophies they won in the annual Texas Motor Transportation Association, Inc. rodeo in Dallas. Frank M. Pannell (left), of Dallas, drove a Dodge 1 1/2-ton F-152 with van to win the straight truck event, while X. Z. Ballard (right), of Houston, drove a Dodge 4-ton YA-130 tractor with trailer to win the tractor semi-trailer event. Both men won the same events last year in the 1949 Texas rodeo. Their proud employer, Henry English (center), head of Red Ball Motor Freight Lines, of Dallas, served this year as president of the American Trucking Association.

Haley-Constable

Marion Haley, daughter of Mr. and Mrs. A. P. Haley, 833 South 17th St., became the bride of Darwin Leon Constable of Abilene in a double ring ceremony performed at twilight Saturday evening at the Novice Baptist Church.

The bridegroom is the son of Mr. and Mrs. A. D. Constable of Santa Anna.

The Rev. C. F. Cloud, pastor and uncle of the bridegroom, officiated. Vows were exchanged before an altar banked with greenery and dahlias, and candlelight.

Music was given by Imelda Price, pianist, and Jean Baldwin. She sang "Ah, Sweet Mystery of

Life" (Herbert) and "Because" (D'Hardelot). "Loves Old Sweet Song" was played while Louise Constable, sister of the bridegroom, lighted candles, and "Indian Love Call" (Friml) was played during the ceremony.

The bride, given in marriage by her father, wore a light blue suit with navy accessories. Her corsage was of gardenias and she carried a white Bible.

Mrs. Billy Harvell, sister of the bride, was the only attendant. She wore a brown suit with matching accessories and a corsage of white carnations.

Jack Bland was the bridegroom's best man.

The bride attended schools in Clarksville and is an honor gra-

Kingsberry-Park

On Saturday Oct. 14th Suzanne Park, daughter of Joe Park was married to Henry Williams Kingsberry son of Mr. and Mrs. H. T. Kingsberry of Santa Anna.

The double ring ceremony was held at Rose Hill, Port Arthur, home town of the bride.

The bride given in marriage by her father, wore a gown of bridal slipper satin, designed along simple lines, with a fitted bodice, and long fitting sleeves. Her voluminous skirt, terminated in an authentic cathedral train. Her veil of sheerest Belgian illusion, fell the full length of the train.

She carried a cascade bouquet of lilies of the valley, and stepanotis, centered with an orchid, and showered with white satin ribbon.

Following the reception the young couple left on a wedding trip to Florida.

Upon their return they will make their home at Northway Arms Apts., at Beaumont. A number of prenuptial courtesies were extended the couple.

Those attending the wedding from Santa Anna were, Mr. and Mrs. H. T. Kingsberry and Tom. The latter served his brother as best man.
