Get Involved

Maxfield Elementary would like to encourage parents, grandparents, community members, and every caring adult or young person to take a more active role in improving education in our community.

Thirty years of research show that when children can count on their family and community, in addition to their teachers, for involvement in their education, it makes a significant difference in their learning. A survey by *Money* magazine found that the factor determining the best school districts in the country was the amount of support they received from parents and the community.

YOU can get involved! Families, employers, and community members -- every caring adult and young person -- everyone has something to offer, something to share, and something to gain by participating in the education of our children.

Spend time reading to a child. Let children read to you. Recruit and organize tours. Mentor a child in math or some other subject. Help start or expand an after-school program. Volunteer time to assist teachers. Use your own talents and resources to get involved!

Take a moment, relax, and think about yourself. What do you have to offer the children in our community -- tomorrow's leaders?

To find out how you can help contact Maxfield Elementary at 254-734-2617.

Glover Awarded Scholarship By TILF

Janice Elaine Glover, a graduate of Gorman High School, has been awarded a scholarship by the Texas Interscholastic League Foundation.

Glover received a Carl B. and Florence E. King Foundation Scholarship in the amount of \$8,000, payable \$1,000 each semester for four years. This year the King Foundation awarded a total of 16 grants to students who have participated in the University Interscholastic League Academic State Meet and who have compiled an outstanding record of academic and extra-curricular achievement.

This year the TILF awarded 315 new awards and will renew approximately 220 awards for a total of 535 scholarships for 1998-99 with an approximate value of \$836,000. Recipients may attend any approved college or university in Texas.

Glover competed in news, editorial writing at the state level and placed 5th in feature writing. She ranked first in her class and was president of National Honor Society, and of Future Homemakers of America. She was involved

wife and homemaker throughout their marriage. She also worked as a substitute teacher at Southside and Reydon Public Schools. Mrs. Overstreet has been Sunday school teacher in several different churches that Rev. Overstreet pastored.

Although retired from pastoring, both Eddie and Vesta are still vitally involved in ministering to others.

COACHES CORNER

If you didn't catch the scrimmage last Friday night, you missed a good one. The boys played well and this has our coaching staff very excited about having a great season this year. The panthers managed to score 4 times in the scrimmage, while holding Perrin-Whitt to 2 scores. Scoring for the Panthers were Ben Longoria scoring twice, Michael Lynch scored once by catching a touch-down pass from Longoria, and David Seaton scored once on a 45 yard pass from Cody Foster. The defense shined as well by recovering 3 fumbles and intercepting 3 passes. That is 6 total turnovers for the panthers, and we hope in a ballgame that 6 turnovers would turn into points for us.

I would like to thank the members of the spirit club, and all others, for making homemade ice cream which was served after the scrimmage to all of the players and fans. Thanks again.

The junior varsity, and varsity football teams will be traveling to Millsap this Friday for the second scrimmage, which will be our final chance to have a practice with a neighboring school before the regular season gets started. Make sure you are there to watch the panthers. The junior varsity will start at 6:00 p.m., and the varsity will follow.

Tuesday night, September 1st, the Gorman Spirit Club will have an organizational meeting to plan for the upcoming year. This meeting will be held in the cafeteria, and all parents of our athletes are encouraged to attend, as well as anyone else who would like to become a member of the Spirit Club. This organization's only goal is to benefit all of the athletes in our program, and we hope to have a very strong and active club. It means a lot to the young men and ladies in our programs to know that they have a lot of fan support, and being a member of the spirit club is the best way of showing your support. I hope everyone will plan to attend. We will meet every Tuesday night at 7:00 p.m. Each week we will have a coach give a report on their teams, and how they are doing. If you have a child in athletics you should be a member. So mark it on your calendar for September 1st at 7:00 p.m.

The Gorman girls volleyball teams, both Junior Varsity and Varsity, won their first district games against Gustine on Tuesday. Next Tuesday, September 1st, the team will travel to Hico, and that game will start at 4:30 p.m. These girls have been working extremely hard, and are really proud when we can fill the stands.

Hope to see everyone at the spirit club meeting on Tuesday night as well as the volleyball games, and the scrimmage.

MAMMOGRAPHY CAN SAVE YOUR LIFE!!!

If you are a healthy woman over 40 who never has had a mammogram, the American Cancer Society recommends that you have this simple life-saving procedure now. Since one woman in 10 develops breast cancer at some point in her lifetime, the urgency is real.

A screening mammogram is an x-ray of the breast using extremely low dosages of radiation (usually compared to dental x-rays) and is designed to find very early cancers.

A female technologist who is highly trained in mammography will perform the examination. These images are then interpreted by a Board Certified Radiologist, and a report is sent to your own doctor. It takes only a few minutes, and can detect incipient breast cancer as small as the period at the end of this sentence.

Early detection (18 months sooner than a lump can be felt) not only permits treatment before the problem becomes serious, but the cure rate is over 90 percent. Mammography cannot only save your life, but help you avoid the need for disfiguring surgery, too.

You don't need to have been a previous patient of our to receive this screening, but you do need to make an appointment at a time convenient to you.

Notice of Public Hearing on Tax Increase

The City of Gorman will hold a public hearing on a proposal to increase total tax revenues from properties on the tax roll by 6.8 percent. Your individual taxes may increase or decrease, depending on the change in the taxable value of your property in relation to the change in taxable value of all other property and the tax rate that is adopted.

The public hearing will be held on September 3, 1998 at 5:00 p.m.

FOR the proposal:
AGAINST the proposal:
PRESENT and not voting:
ABSENT:

The following table compares taxes on an average home in this taxing unit last year to taxes proposed on the average home this year. Again, your individual taxes may be higher or lower, depending on the taxable value of your property.

	Last Year	This Year
Average residence homestead value	\$ 16,446	\$ 16,581
General exemptions available (amount available on the average homestead, not including senior citizen's or disabled person's exemptions)	\$ 0	\$ 0
Average taxable value	\$ 16,446	\$ 16,581
Tax rate	.55092	.55092
Tax	\$ 90.60	\$ 91.34

Under this proposal, taxes on the average homestead would increase by \$ 0.74 or .008 percent compared with last year's taxes. Comparing tax rates without adjusting for changes in property value, the tax rate would remain same by \$ 0.00 per \$100 of taxable value or remain same percent compared to last year's tax rate. These tax rate figures are not adjusted for changes in the taxable value of property.

CAPITOL COMMENT

with U.S. SENATOR
KAY BAILEY HUTCHISON

DROUGHT LEAVES TEXAS HIGH AND DRY

Drought is nothing new to Texans. As Junction native Rana Williamson points out in her wry little book, *When the Catfish Had Ticks*, this summer's dry conditions are part of a "cyclical, meteorological struggle dating back to the 15th century, when an early occurrence destroyed the Antelope Creek (community), a native culture on the Canadian River."

Her book is a charming compilation of homespun humor related to the weather. It is a recommended read for anyone who finds consolation in Texas wit, such as: "It was so dry in Jones County, the trees started chasing the dogs."

But familiarity with drought doesn't make it any less painful for the farmers and ranchers who have been left high and dry.

The Texas Agriculture Extension Service estimates Texas' loss in hay production will cost \$175 million statewide this summer. The loss of direct income to agriculture producers totals \$517 million so far, with cotton producers having experienced an estimated loss of \$157 million. People all across the state are hurting.

This situation requires that we immediately bring into play all existing federal government resources that can be of help. On June 23 I alerted Agriculture Secretary Dan Glickman to the extremely hazardous conditions that Texas is experiencing this summer, and asked that he release Conservation Reserve Program (CRP) acres to provide Texas farmers and ranchers with emergency drought assistance.

This drought is more than an agricultural disaster. Insufficient rainfall across Texas has resulted in extreme fire conditions in 207 of Texas' 254 counties. And the National Weather Service is predicting above-average temperatures and no precipitation for much of the state through the summer.

We've all seen what this summer's horrendous wildfires have been doing to Florida. We don't want a repeat of that scenario in Texas.

Federal assistance is now making available several programs to help Texas firefighters, farmers and ranchers prevent conditions from deteriorating further. Emergency loans, CRP haying and grazing, and crop insurance are some of the important tools that could do more to assist our producers.

Earlier this summer, at my request, the U.S. Department of Agriculture's Risk Management Agency agreed to delay making some proposed changes in the way crop insurance policy claims are appraised on seed that fails to grow due to a lack of rain. The original appraisal period, seven days, remains in effect. The agency's draft regulation would have deferred these appraisals to 25 days after the final plant date, a proposal that worried many growers.

In a Senate Resolution offered in June, Secretary Glickman was instructed to:

- * Ensure that local Farm Service Agency offices are equipped with adequate personnel in drought-stricken areas to assist producers with disaster loan applications;
- * Direct the U.S. Forest Service to assist the State of Texas and the Federal Emergency Management Agency in pre-positioning firefighting equipment and other appropriate resources in affected Texas counties;
- * Authorize haying and grazing on CRP acreage (so far 35 counties have been released for grazing only);
- * Implement an emergency plan to help prevent wildfires.

As is the case during any drought, all Texans have a stake in its outcome. While farmers and ranchers are feeling the pinch now, over the long term everyone will suffer the consequences in the grocery store check-out line and elsewhere in our economy. While the possibility of wildfire presents an immediate threat, over the long haul drought can depress property values, reducing the tax revenues on which school districts and local governments depend. And inevitably, drought increases the competition for scarce water resources among municipalities, agriculture and wildlife preservation efforts.

There's an old joke that says the success of a "Rainmaker" depends on his timing. We can't change the weather. But what we can do is work together, as Texans always have, to limit the damage wherever we can.

(For more information on the programs mentioned in this column, contact the Texas Department of Agriculture at (877) 429-1998, toll-free.)

PRESCRIPTION FOR THE REST OF YOUR LIFE

by Leo Williams
Desdemona, Texas

Turning seventy this year, my wife said to me,
For the infirmities you have,
A doctor you should see.
So I humbly agreed, with some reservation.
To know of one's health raises dire speculation.

The professor checked me over from head to toe,
Mr. Williams, he said "There are things you must know.
Your time here is short, if there are those to forgive,
Get on with it, my son, you've only six months to live.

"But I'll write a prescription,
For your remaining time.
And to make you feel better,
I won't charge you a dime."

"Take that cycle trip o'er the rockies,
And then there is more.
Drive Frisco Bay to view ocean's shore.
Then try a bungy jump thrill,
From Royal Gorge heights.
It will bouy your courage and
enhance your delights."

"Then a hang-glider trip
From Pike's Peak summer sky.
And discover earth's granduer
Through a bald eagle's eye."

"A sky-diving venture would
rekindle your nerve.
And for nature's review, a purpose to serve."

"When you return home
Your spouse you will greet.
With home-cooking in mind,
In your favorite retreat."

"For breakfast, a treat,
Prepared with a blender.
Then sweet ecstasies,
From the opposite gender."

"But your time has run out,
St. Peter, you must face.
And from all that I've heard,
You'll need all his grace.
Yet, I'll wager your fare,
He'll not think less of you,
For heavens a place,
That loves laughter too."

"And if, by perchance, your plans go awry.
The alternate route may doom you to fry.
Yet if, to that other place you must go.
There you will find many others you know."

The moral of this little verse is quite plain,
Time waits for no one, waht ever their claim.
If you have things to say, places to go, and adventures to do,
Do them now!
For time waits for no one, not even you.

Notice of Public Hearing On Tax Increase

The Eastland County Commissioners Court will hold a public hearing on a proposal to increase total tax revenues from properties on the tax roll by 26.2 percent. Your individual taxes may increase or decrease, depending on the change in the taxable value of your property in relation to the change in taxable value of all other property and the tax rate that is adopted.

The Public Hearing will be held on September 8, 1998 at 10:00 a.m. in the Commissioners Courtroom of the Eastland County Courthouse, Eastland, Texas.

FOR the proposal: County Judge Scott Bailey, Ken Lyerla, Calvin Ainsworth, L. T. Owen, and Reggie Pittman

AGAINST the proposal: None

PRESENT and not voting: None

Absent: None

The following table compares taxes on an average home in this taxing unit last year to taxes proposed on the average home this year. Again, your individual taxes may be higher or lower, depending on the taxable value of your property.

	Last Year	This Year
Average residence homestead value	\$19,083	\$19,519
General exemption available (amount available on the average homestead, not including senior citizen's or disabled person's exemptions)	—0—	—0—
Average taxable value	\$19,083	\$19,519
Tax Rate	\$.40470/\$100	\$.50/\$100 proposed
Tax	\$77.22	\$97.59 proposed

Under this proposal, taxes on the average homestead with increase by \$20.37 or 26.3 percent compared with last year's taxes. Comparing tax rates without adjusting for changes in property value, tax rate would increase by .0953 per \$100 of taxable value or 23.5 percent compared to last year's tax rate. These tax rate figures are not adjusted for changes in the taxable value of property.

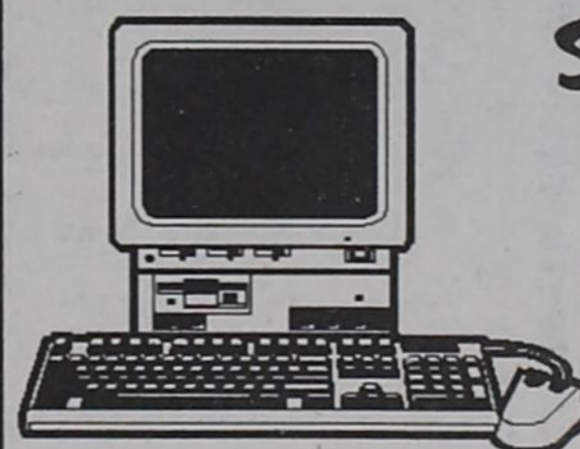

Criminal Justice Mandate (for counties)

The Eastland County Auditor certifies that Eastland County has spent \$102,200 in the previous 12 months beginning July 1 1997 for the maintenance and operations cost of keeping inmates sentenced to the Texas Department of Criminal Justice. Eastland County Sheriff has provided information on these costs, minus the state revenues received for reimbursement of such costs.
