Following a meeting of the Board of Directors of the telephone company, the Gorman City Commission met with the officials of the new company and discussed matters of concern to the telephone users of the Gorman area. The City Commission appeared especially anxious to see that improved modern service will be made available for the Gorman people in the very near future and that telephone rates would not improved. The company assured the commission that such would be the case. Maymend this new company to Gorman and looked forward to continued growth and improvement for the Gorman and area residents.
