We still seem to be getting skipped over as far as rainfall is concerned. And it's no different for most all folks in the surrounding area as no rainfall has been recorded anywhere around us for quite a spell. That darned high pressure area that has been hovering over Texas just seems to be anchored down and just won't move. And until it does then we will probably continue to be passed over on the rain as everything revolves around the circulation area and just makes a circle around Texas. Oh well, maybe our luck will change soon, because if it doesn't the dry land peanuts and the watermelons and cantaloupes will die on the vines.

Noticed that Anna Louise Spence is having siding installed on her home. The new windows and doors have been in place for awhile and now the siding is being installed. It sure is looking nice and will really be pretty when the project is finished.

Also I have failed to mention that Frank and Mozelle Rhymes have installed siding on their home. The project has just recently been completed and it has really changed the appearance of the home. The gray siding sure looks great. Sorry I had not gotten around to mentioning it before "Moz" but Frank told me not to. And if you believe that I have some swamp land in Louisiana for sale.

Mr. and Mrs. Hershell Cordell have opened the Silver Coin and will be serving lunches every day during the weekdays from 11:30 to 1:00. They have been operating a recreation business in the same building and will continue to do so. Please look at their ad elsewhere in this issue for full details on the Silver Coin.

The Gorman Panthers will open their season this Friday night when they travel to Hico to take on the Tigers. The Panthers and Tigers have had a good rivalry going for many years and always look forward to playing each other. They always have great games and this one should be no exception.

The Big Red looked good in their scrimmage game with Perrin on Friday and should be ready for the season opener.

The Panthers are improving each week and the experience the new players are getting will help the team get better as they go along, as their is no substitute for experience and the only way to get it is to play the game. We look for the Panthers to play a great game at Hico.

The City of Gorman is in the process of a paving project on several of the streets in town. Also some individuals are taking advantage of the paving people being in town and are having some paving done also. So be alert to the paving equipment on the streets. This paving will really improve a lot of our streets which needed some work done on them.

We compliment the commissioners of the our city on getting this project done.

Premature Baby Beating Odds For Life

Allison survives complications, 1-pound 14-ounces birth weight

By Joann Schulte - Medical Writer of The Dallas Morning News

Picture by John Rhodes

The odds were against tiny Allison Welch a month ago when she was born 2½ months prematurely, but at 2 pounds and 3 ounces, she's starting to weigh in as a winner in her struggle to survive. Allison came home to Texas this week with her parents, Doyle and Elizabeth. When she was born July 24 — weighing only 1 pound and 14 ounces — neither doctors nor her parents knew if she'd be alive to make the trip. Now her parents are sure she'll do fine in the neonatal unit at Parkland Memorial and "will be a real handful before long."

"We didn't know if she'd be able to breathe on her own because she was only 28 weeks old. But she's a fighter. The doctors said they knew she was unusual because she cried right after being born, something not many premature infants do," Mrs. Welch said. The birth was a surprise to Mr. and Mrs. Welch, who were seeking relief from the Texas summer in De Leon, Comanche County, with a vacation trip to Ouray, an old mining camp in southwest Colorado.

When Mrs. Welch went into premature labor, the couple rushed 30 miles to the tiny hospital in Montrose, a mountain town of 5,000 population. "The doctors there were quite worried because they couldn't stop my labor. At first they hoped the contractions could be controlled and I'd go to full term," she said. "And after they did a sonogram, they said it appeared the baby was about 24 weeks old. They told us they didn't have the setup to handle a case like this."

Mrs. Welch was still in labor when an air ambulance carried her over the Continental Divide to Denver, where a team of medical specialists waited at the University of Colorado Medical Center. Mrs. Welch's husband and their 4-year old daughter, Melissa, were in the plane with her.

"We were concerned because the doctors told us they didn't know if the baby was 'viable' — if she had developed enough to survive. We didn't know until she was born that she was actually 28 weeks old, which gave her better chances of pulling through," Welch said.

Mrs. Welch had been in labor 24 hours before Allison's normal delivery, but Denver doctors told the couple the next 72 hours would tell the story. Premature infants such as Allison are considered high-risk patients because their immature organs, especially their lungs, are seldom ready for life outside the womb. "Premature babies often stop breathing simply because their lungs aren't big enough and can't stay expanded. They often experience apnea (stop breathing) and bradycardia (slow heartbeat)," said Melanie Hurt, the registered nurse who is clinical supervisor of the neonatal unit at Parkland. "Many need to be on a respirator. The best way to get them through is with constant attention."

But during the critical first three days, Allison gave the Denver doctors medical proof that her small size didn't limit her staying power. "She's never been on a respirator, and that's very unusual. All the doctors have told us she's a fighter," Welch said.

Even though Allison's lungs are mature enough to permit adequate exchange of oxygen, she still needs close attention, said Dr. William Engle, an assistant professor of pediatrics and gynecology at the University of Texas Health Science Center in Dallas. Allison's covered crib is temperature-controlled, and she has to have constant care to make sure she keeps gaining weight and doesn't develop problems. Premature infants weigh so little that it's hard to keep them stable and progressing. Engle said. Parkland nurses will watch Allison around the clock until she weighs 4 pound and 8 ounces, which is expected to take at least a month.

"Two weeks after she was born, the staff in Denver said she'd improved enough to that we could bring her back to Texas," Welch said. "But it took me another two weeks to decide on a hospital in this area. I came back and talked personally with the different hospital staffs. Since Allison can't be with us, we think it's important our whole family do as much as we can to become close to her while she's still in the hospital. They seem to encourage that attitude here at Parkland," he said. Allison's grandparents are Mr. and Mrs. Bill Parr and "Shorty" Welch of Gorman.

Panthers Open Season At Hico Friday Night at 8 p.m.

The Gorman Panthers will open their season this Friday night when they travel to Hico to play the Tigers. This rivalry has been going on for many years and these two teams always look forward to playing each other.

The Panthers looked pretty good in their scrimmage game last Friday night at Perrin and the players are really looking forward to the season opener after the past weeks of workouts.

The Big Red will be a changed team this season as graduation cut their ranks rather heavily and several new faces will be playing in new positions. However, the players have been getting some good experience in these scrimmage games and get better as each week passes. If the players filling the new positions come thru, the Panthers should be real tough again this season and could be a strong contender.

Phillip Osborne has joined the team since we printed the list last week. He will add experience to the squad as he had seen action with the team previously.

The Big Red will have the same look on defense, as they will use the same defense as in past years, which has proven to be effective. And if the players in new positions continue to improve the Big Red should be tough on defense.

The Tigers have a strong team and will be looking forward to giving the Panthers a real test.

The Panther backfield will feature the running of Jacky Johnson, Mark Swanner, Eddie Pettit, Rhett Harrison, Ricky Hunter and Jeff Seaton who will be playing the quarterback position.

The Panthers are returning five seniors this season and also Bill Crain has joined the squad. Bill should really help the Big Red effort as he gains more experience. Junior returnees number seven. There are eight sophomores and ten freshmen.

If you haven't gotten your billfold size Panther Schedule cards, drop by the Progress and pick up some. We still have several on hand for Big Red fans.

See you at Hico Friday night. Get 'Em Big Red! —GP—

TWO TERMS IS ENOUGH
Texans have a healthy skepticism of their elected officials, a wariness of entrenched power that they have embodied in the state constitution. They have historically refused to keep top state officeholders more than a few terms.

Now my opponent comes along, having spent nearly ten years in the Lt. Governor's office, one of the top state policy-making offices. Mr. Hobby wants yet another term to make it 14 years in that crucial job. That is unprecedented. Never in Texas' history has any Lt. Governor served that long—or wanted to. His desire, frankly, puzzles me. You would think he would have other goals, other challenges he might want to tackle. As his primary opponent this year said, "If he had anything to get done, you'd think he would have done it by now."
My opponent will tell you that experience is what counts. I think voters need to look at the experience they have had with him. After ten years, our highways are in bad shape, the quality of education has declined, we still do not have a new, statewide water plan and he has refused to tackle the growing crime problem. We can't afford more of that kind of experience. I have a long-held belief in what I call the citizen-politician: someone who holds a job, serves his country or state for a reasonable time, then returns to that job and private life. For that reason, the first order of business after I am elected will be to have a constitutional amendment introduced in the legislature limiting the Lt. Governor to two terms—eight years. That is enough time for anyone. Too great a concentration of power for too long is bad. That is a principle of democracy. If you have any thoughts on this subject, please write me at 1213 W. 34th, Austin, 78705.

IT'S THE MOST!

The most lemons in the world are produced by the United States, which packed more than 29.4 million boxes in 1975. Italy is the second largest producer, followed by Argentina, Greece, Turkey, Spain, Lebanon and Chile. The chief lemon-growing states in the U. S. are California, Florida and Arizona.

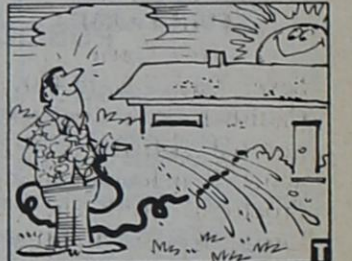

Lemonade is America's most popular lemon drink. A good-tasting economical version is made with a convenient, new powdered drink mix, Minute Maid Lemonade Crystals, which is made from lemon juice with no artificial flavors or colors.

WATER FACTS AND FANCIES

WATER CONSERVATION

People who want to be water wise around the home only have to remember five basic conservation tips, according to the American Water Works Association.

There are plenty of other things that can be done, the Association points out, but these five will ensure that water is not being wasted.

1. Check every faucet in the home for leaks. Just a slow drip can waste 15 to 20 gallons a day.

2. Check all toilet tanks. They can silently leak 100 gallons a day or more through faulty fixtures.

3. Don't shower too long or fill the tub too full. Five minutes for showers and five inches for tubs is plenty.

4. Use automatic dish and clothes washers with full loads only.

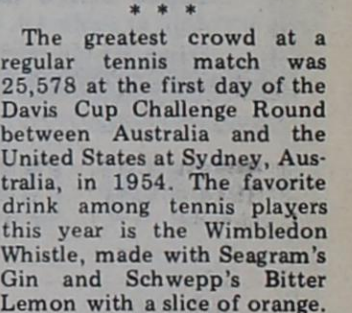

5. Water lawns and gardens with good sense, not too much or too little at a time and mostly early in the morning before the sun gets too hot.

Which of the five is most important? The last one, experts say. A single lawn sprinkler spraying only five gallons a minute uses 50 percent more in just one hour than a combination of ten toilet flushes, two five-minute showers, two dishwasher loads and a full load of clothes.

ODDITIES-HELPFUL TIPS

By Joy Miller
A well-loved game is tennis and though it came to us from England in 1873, America now boasts well over 10 million active players and more than 150,000 courts.

The greatest crowd at a regular tennis match was 25,578 at the first day of the Davis Cup Challenge Round between Australia and the United States at Sydney, Australia, in 1954. The favorite drink among tennis players this year is the Wimbledon Whistle, made with Seagram's Gin and Schwepp's Bitter Lemon with a slice of orange.

A deuce of a tip for your backhand is to hold your wrist stiff during the swing. The racket should be almost level when the ball is hit. In the follow-through, the racket is well out from the body and brought beyond the right shoulder.

FUNDAY FESTIVITIES SET FOR SEPTEMBER 11

Congressman and Mrs. Charles Stenholm will return to Texas for the 4th. annual Funday Festivities, Saturday September 11, sponsored by the "Friends of Charlie" and the Stenholm re-election committee. The annual Texas-style barbecue and picnic will be held at the Fricksdahl Grounds near Stenholm's hometown of Stamford.

Despite a heavy schedule in Washington this summer, Stenholm traveled the 17th. District and held 21 "Chat with Charlie" meetings in late June and early July throughout the 17th. District. "At Funday, I hope to bring folks up to date on the latest legislative matters we're dealing with in Con-

gress and answer any questions that they may have since our town hall meetings this summer", Stenholm said.

Stenholm will be honoring the county coordinators leaving 17th. district due to redistricting.

Tickets to the Funday Festivities are \$10.00 per person. We will serve fried chicken and barbecued beef with all the trimmings, and for desert De Leon iced watermelons. Funday begins at 5:00 p.m. and usually ends with night fall. For tickets or information call or write, The Stenholm Re-election Committee, P.O. Box 1032, Stamford, Texas 79353 or phone (915) 773-5521.

SUMMER VEGETABLES TO RELISH

Don't panic if you've got a sudden abundance of vegetables, either from your own garden or roadside stands. Instead, make family-pleasing relishes that perk up any meal. This trio of relishes, created by The Lipton Kitchens, are all simply and perfectly seasoned with marinades made mainly with bottled salad dressings.

Bottled salad dressings are so convenient, so easy to use. They're not only good marinades for meat and poultry.

When making these relishes, you might want to double the recipes so that you will have enough for gifts for neighbors and friends. The relishes will keep up to a week when stored in the refrigerator.

KOKOMO NEWS

By Zelda Jordan

I didn't get the Kokomo News in last week because we were in Abilene at the West Texas Medical Center with my parents, Mr. and Mrs. Jim Lewallen. My dad suffered a heart attack on Tuesday morning early August 23, while visiting here with us, and we took him first to the Blackwell Hospital in Gorman about 1:30 a.m. and

he was transferred by ambulance to West Texas Medical Center in Abilene at 4:00 a.m. He remained in the ICU until Thursday. I am happy to report that he is doing well, and returned to his home in Floydada on Tuesday, August 31.

Jamie Lewallen and Ted Jordan of Floydada, Jess and Laverne Winn of Muleshoe,

Arvel Lewallen of Lubbock, D. C. and Barbara Bell and Jamie of Denver City came to Abilene also. Roddy and Glenda Miles and family and Audree Winn and friends Tracy and Melinda of Abilene were there with us too.

Other visitors were Mother and Daddy's pastor, Bro. Guess of Floydada, Mr. and Mrs. Willie Brandon of Eden, Mrs. Dora Garrett and Mrs. Jimmy Little of Kokomo, Mr. and Mrs. Kenneth Rogers of Abilene and Mrs. Eva Treadway of Eastland.

We all want to express our love, thanks and appreciation to everyone for their prayers, phone calls, cards, visits and loving concern in any way. A special thanks to Dr. L and the nursing staff at the Blackwell Hospital and to James Swanner and Alicia Cornwell of the ambulance staff. We are so fortunate to have such good and dedicated doctors and staff in Gorman. Also a special thanks to Dr. Travis and staff at the West Texas Medical Center for the good care they gave, and to Glenda and Roddy Miles and Audree Winn for opening their homes to us. We pray that God will bless each and everyone of you with his richest blessings.

Plans Are Underway For Senior Citizens Bazaar

Plans are underway for a big Eastland County Senior Citizens Bazaar this fall. This is an annual county-wide event and everyone is invited to participate.

The Senior Citizens Bazaar will be on Thursday and Friday, November 4 and 5. The Bazaar will be in Eastland. The place will be announced soon.

All exhibitors should be 60 years or older and residents of Eastland County. Any handicapped person 50 years or older may participate.

Mrs. Janet Thomas, County Extension Agent, states that the rules for this year's Bazaar will be the same as last year. Exhibitors will be

responsible for their own sales. All money from the sale of articles will go to the owner. No extra tables will be furnished. So exhibitors should bring their own card tables.

**Cool carefully
and help hold
down your bills.**

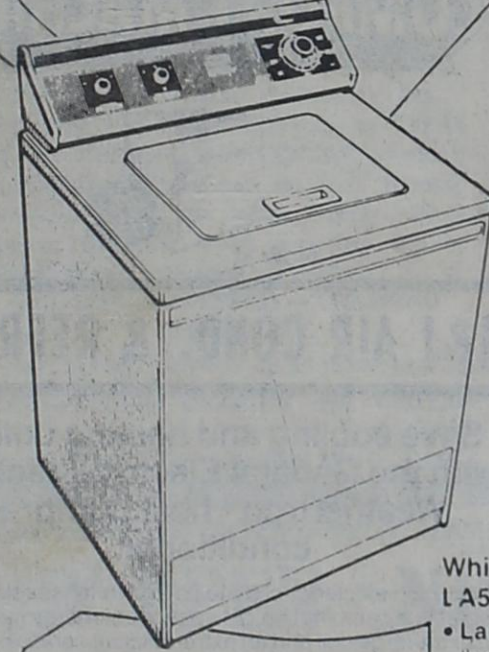

In many homes, summer air conditioning uses more electricity than all other appliances combined.

To help hold down electric bills, use it sparingly. Set your thermostat at 80 degrees or higher, and use a fan to circulate the air. You'll be surprised at how cool you'll feel! You may not even notice the difference - except on your electric bill.
