PRESS POINTS
Joe Bennett, Publisher

Things are really moving around here this week as folks are busy getting ready for the 30th Annual Homecoming at GHS. Many things are planned for the big day, which will be climaxed with the homecoming game with Blanket Saturday night. Local folks are looking for a very large number of Exes to return home this year and several classes have planned get-togethers for the event.

We express thanks to our advertisers for making it possible for the Progress to publish the Homecoming Edition. We seem to always get such great support from our advertisers when a special edition comes up. We hope to have some pictures of old school days in this issue if all goes well.

Don't forget to turn your clocks back one hour when you go to bed Saturday night or you'll wake up at the wrong time Sunday morning. Some like the time change one way, some the other - I only wish they would set it one way and forget it.

The Alvis Sciterns were hit with a very costly fire at their place northwest of town in the wee hours of the morning Wednesday when a barn containing tools, a tractor, a pickup, four loads of peanuts, a three-wheeler, a mower, and many, many other items went up in a devastating fire believed to have started from a peanut dryer. This is a very hard blow to the sciterns and they have the sincere feelings of the entire community for the heavy losses. We hope to have a picture of the fire for next week.

heard someone saying this morning that we can never thank our firemen enough for their untiring efforts to protect our homes and property during times of fire. I really don't know what folks would do without these unselfish men, who are always ready to drop whatever they are doing to fight a fire, either dangerous or otherwise, to help protect us. I am sure the Sciterns feel very, very deeply to the firemen for their gallant efforts at the fire and appreciate them more than someone who has never had a fire themselves. Great job guys.

Wanted to get the following in this week:

I am enclosing my check for renewal of the Gorman Progress for one year. Every year I keep hoping to get back to homecoming, but thus far I have been unable to make it.

It rather amused me to read of the total number of students in the Gorman Schools. I retired last year after 24 years with the San Diego Unified Schools. The last school where I worked was grades Kindergarten through fifth grades. Besides the children automatically enrolled from the previous year, we usually enrolled about 350 new students during the first week of school. We also had about eight languages to

PANTHERS BLANK EVANT 28-0; HOST BLANKET AT HOMECOMING SATURDAY NIGHT AT 7:30

GAME AT A GLANCE

20	First Downs	9
233	Yards Rushing	76
85	Yards Passing	27
5 of 11	Passes Completed	4 of 11
3	Interceptions	1
1 for 31	Punts, Avg.	2 for 27
8 for 65	Penalties	6 for 75
1	Fumbles Lost	3

The Panthers took advantage of three fumbles and three interceptions to down the visiting Evant Elks by the score of 28 to 0 in a District 8A contest at Brogdon Field. The Big Red defense held the Elks to a total of 103 yards during the game and were really hitting.

The Panthers wasted little time in showing they were ready to play as they took the kickoff on their own 37 and went the distance with Glen Burgess capping the drive with a 3 yard run with 8:27 left on the clock. A pass to Don Rodgers from Scott Gressett for the two pointer to make the score 8 to 0.

The two possessions later the Panthers got another drive going following a fumble recovery at the Elk 47. The Panthers scored in 7 plays with David Gibbs getting the

final 8 yards on a nice run with 11:22 left in the second period. Glen Burgess added the two pointer on a run and the score went to 16-0.

The Panthers got another drive going late in the first half but were stopped at the Elk 16 by an interception.

On their second possession following the halftime intermission, the Big Red took the ball on the Elk 37 and scored in 5 plays with Randall Gibbs getting the final yard for the TD with just 54 seconds left in the third. The drive featured a 12 yard run by David Gibbs and an 11 yard scamper by Burgess. A pass try for two points failed and the score went to 22-0.

The final Panther score came with 9:52 left in the game when Glen Burgess ramblled in from 12 yards out to cap a drive that began at the Elk 32 after an interception by Joe Rodgers. The drive featured a 12 yard pass to Don Rodgers to set the Panthers up first and ten at the Elk 19. The run for two points failed and the final score was 28 to 0.

Burgess again led the Panthers with 108 yards on 20 carries. Randall Gibbs had 67 on 11 tries. David Gibbs got 40 on 9 trips. Gary Browning had 8 yards on 4 carries.

Don Rodgers got 6 yards on 2 keepers while playing at quarterback and Brandon Gilmore got 4 yards on 1 carry.

The Panthers substituted rather freely during the latter part of the game and most all of the players got some playing time, as the Panther defense played good ball, controlling the Elk offense and letting the Panthers enjoy the edge of being ahead throughout the game.

The defense did a tremendous job the whole night even though some players were in at new positions in the defense. The entire defense did great.

The Homecoming Exes will be treated to a good game this Saturday night at 7:30 when the Panthers host the Blanket Tigers in yet another crucial District 8A contest. The Big Red must keep winning if they are to make the playoffs this year, as they were defeated by Rising Star in district play. The Tigers will really be looking to knock off the Panthers, and it will have to be an all-out effort by the Panthers and some real great support by the Panther fans to give the Panthers a victory in this one.

So come on out and join the Exes in backing the Panthers on to victory in the homecoming game. Get 'Em Big Red!

TIME TO SET CLOCKS BACK

Central Standard Time will begin at 2:00 a.m. Sunday, October 29 - Clocks and watches are to be set back one hour Saturday night in order to have the correct time Sunday morning.

Beginning next year people will contend with. So it was quite a challenge.

I still enjoy the Progress and surprisingly, still remember a lot of the people.

Sincerely,
Dorothy J. (McMullen) Ainsworth
Box 254, Santee, CA 92071

Noticed that Brent is having some repairs done on the front of his building. This project is looking good already and should really add to the looks of the building.

Also Gerald Scitern has just completed a repainting project on the front of Movies Galore and More and it sure looks great also.

Election day on November 4th is getting closer and closer and the politics is really warming up in a hurry now. The gubernatorial race is really heating up as both sides continue to make statements against the other. Things are really getting sticky as the mud is sure flying. I really wonder of this does any good at all, or maybe even hurt the candidates in the long run. Anyway it makes for some real stormy remarks as it goes on. And when the smoke clears, all of us will vote for the one we like best.

It doesn't matter what your choice is in the upcoming election, you should exercise your right and vote. If the majority doesn't vote, then the majority doesn't have a chance to have a voice in what goes on.

The Panthers looked pretty good last week against Evant. However, they could have looked better at times. They were a little flat during portions of the game, but were never really tested completely during the game.

The Big Red will really have to be ready this Saturday night when they host Blanket in the homecoming tilt. The Tigers are always ready to play the Panthers tough and this one is expected to be no different. Come on out and back the Panthers to victory in the homecoming game Saturday night at 7:30.

And remember to smile -- because God Loves You!

set their clocks ahead an hour on the first Sunday in April. Under a 1966 law, daylight-saving time has begun on the last Sunday in April.

Supporters of the change claimed it would save energy and cut down on highway deaths, since drivers would spend less time on darkened roads.

This law will also provide one more hour of daylight leisure time for all Americans.

Dennis Fenter Final Rites Held

Dennis W. Fenter, 75 of Gorman died Tuesday at his home.

Services were at 2 p.m. Friday at the De Leon Church of Christ with Francis Holt officiating, assisted by Charles Marsh. Burial was in the Oakland Cemetery near Gorman, directed by Nowlin Funeral Home of De Leon.

He was born in Hammond, Oklahoma and moved to Gorman in 1978.

He was employed by the City of De Leon and was an auto mechanic.

Survivors include his wife, Fern Senter Fenter of Gorman; four daughters, Joyce Cabaniss of Lubbock, Wanda Jackson of Hatfield, Ark., Edythe Fenter of Rockwall and Deborah Mauney of Goldthwaite; three brothers, Vernon Fenter of Roswell, N.M. and Earl Fenter of Ceres, Calif., and Weldon Fenter of Billings, Mont.; three sisters, Mattie Lewis of Grand Prairie, Myrtle Wikes of Cisco and Mildred Park of Bridgeport; and seven grandchildren.

AMERICAN CANCER SOCIETY

This is an interview with my good friend, Mary Faircloth, Dir. of Senior Citizen Center of Ranger. And a well known Rangerite.

Question, Mary are you a smoker?

Answer, I used to be but I quit.

Q. How long did you smoke?

A. Oh, 40 years.

Q. How many did you smoke a day?

A. Over a pack.

Q. Why did you quit?

A. I decided it was time I quit.

Q. Was it easy?

A. No, One night I asked the Lord to help for I couldn't do it by myself. It hasn't been easy, but I haven't smoked since January. It has improved my health, I'm doing better. I would say to anyone, Make up your mind you are going to quit and stay with it.

TRYING TO BREAK LOOSE — Shown above is Glen Burgess trying make it around two Evant Elks in game action Friday. Glen had total of 108 yards in the game.

PANTHER DEFENSE IN ACTION — Randall Gibbs, Don Rodgers and Ricky Morrison and other Panthers stop an Evant drive for no yardage in game action Friday night.

METHODIST LORD'S ACRE FESTIVAL SET NOVEMBER 6-7

The First United Methodist Church has set November 6 and 7 for the annual Lord's Acre Harvest Festival.

The festival will be held at the church again this year, and chicken and dumplings, stew, chili and beans, fruit cobbler and drinks will be served each day in Fellowship Hall.

Coffee and tea will be served with cookies, cake and candy throughout the day.

There will be a special bake sale of homemade cakes, pies, cookies, candy and bread.

A trash and treasures sale with something for everyone will be available. Also a large selection of

arts, crafts, and a large selection of clothing.

All events will be housed in the church and regardless of the weather you will be comfortable.

The public is invited and urged to come and browse and visit.

Homemakers Class Met With Grace Townley

The Homemakers S.S. Class of First Baptist Church met on Tuesday night October 14th in the lovely home of Ben R. and Grace Townley for their Monthly Business Meeting and salad supper and Fellowship with Lula Vermillion are Co-hostess.

We all enjoyed the delicious salad supper and had Anglefood cake, Mince Meat pie, Pecan and Pumpkin pie served with coffee or hot spiced apple cider which we all enjoyed.

We then went into our business, last months minutes read and approved. Then we discussed our outreach program and each one

ing were Joe and Sheri Miles of Abilene and Kyle Jordan of Wellington. Joe's friend, J. L. Taylor, also attended. A grandson and wife, Robert and Diane Miles of Abilene, were unable to attend as they were in Dallas celebrating their second wedding anniversary, which was Oct. 20.

Following the dinner they returned to the Miles home and the beautifully decorated two-tiered cake inscribed "Happy Anniversary" was served. The cake was baked by Glenda Miles.

The Jordans were married on October 18, 1946 in Eastland.

On Saturday they attended the 9th grade volleyball tournament at Cooper High School to see Sheri Miles and her Merkel 9th grade teammates play volleyball. Merkel didn't win, but the girls played exciting games.

Earl Frazier and little Grandson of Ft. Worth visited with us on Saturday afternoon.

Jack and Sharon Boen of De Leon, Jackson, Becky and Elizabeth Boen of Lingleville enjoyed supper on Saturday night with Patsy and J.C. Moon.

Tammy Merryman and children of Stephenville spent Friday night with Patsy and J.C. Moon.

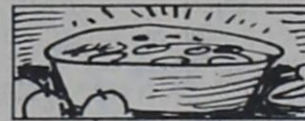

We were saddened to learn of the death of Russell Roberson. He lived in Lingleville most of his life. His family have our deepest sympathy.

Leslie Riddell and Tim Goetze of Stephenville, Jimmy and Tena Dennington of De Leon visited with us on Sunday. Tena and I went fishing but didn't have any luck.

I gave one of our little pigs some sugar. William asked why on earth I did that. I said, "Have you never heard of sugar cured Hams?"

When William married me he said he loved a woman with a good head on her shoulders. He hates neck.

He had a mule that was real sick. He asked one of our neighbors what he did when his mule was sick. The neighbor told him that he gave the mule a pint of turpentine. William went home and forced a pint of turpentine down the mule. He dropped dead. (The mule, not William) he told the neighbor about it. The neighbor said, "Well, That's funny. My mule did the same thing."

Soak cut apple pieces in salted water for ten minutes. They'll remain crispy longer and won't turn brown.

MESSAGE TO WASHINGTON

FDR'S TEXAS VISITS QUESTIONED

MESSAGE—As a researcher for the Gregg County Historical Commission, I am interested in contacting the proper government agency or archives to be able to document former President Franklin D. Roosevelt's whereabouts in Texas during his Centennial year visit in 1936 and 1937. Did he make a side trip to Kilgore to the home of Tom Potter, an independent oil operator? If so, the Potter home would certainly qualify to be designated a Texas landmark. Where can I find the records of his travels? H.G.—Kilgore

SENATOR BENTSEN RESPONDS—Officials of the National Archives and Records Administration advise that—according to the Franklin Delano Roosevelt Library of Hyde Park, New York—in June 1936, President Roosevelt did pass through Kilgore. He was on a train going from Little Rock to Houston that went through Kilgore at about 2 a.m. Because of the hour, Roosevelt did not stop to visit the Potters. He did not visit Kilgore in 1937. In a letter to the Potters, however, the Secret Service did thank Mr. Potter for piloting his private airplane to Fort Worth and Amarillo carrying the agent in charge of the President's 1938 Texas trip—and for allowing his open limousine to be used by the President for tours of those cities with Kilgore's chief of police Jack Freeman acting as driver.

MAIL FORWARDING REQUEST LOST

MESSAGE—My husband and I moved here two months ago and we still do not receive our mail from our old address. My cousin moved into our old house and I asked him to turn in the change of address card that we had filled out. I was told it would take 10 days to start forwarding mail, but it's been much longer. This whole thing upsets me because we pay money for our magazines and aren't getting them. Please help. W.N.—Mineral Wells

SENATOR BENTSEN RESPONDS—Postal Service officials inform me that they cannot forward your mail, which is still being delivered to your old address, because they have not received a change of address card. They contacted your cousin in an attempt to track down the exact date he had submitted the card and were told he had not done so because the card was misplaced.

Do you have a problem with government? MESSAGE TO WASHINGTON cuts through the red tape to get answers to your questions about Social Security, veterans benefits, immigration matters and other problems you may have run into in your dealings with the Federal Government in Washington. Write to MESSAGE TO WASHINGTON, c/o Senator Lloyd Bentsen, U.S. Senate, Washington, D.C., 20510. Inquiries to MESSAGE TO WASHINGTON sometimes are edited before publication, but the intent and substance of the inquiries are maintained.

DEMOCRATS, REPUBLICANS JOIN GRAMM IN OIL INDUSTRY RECOVERY BILL

Describing it as a step "that can speed the day when we can make the energy industry competitive," U.S. Sen. Phil Gramm brought his Oil & Gas Revitalization Act to the Senate floor.

Gramm was joined in pressing for the legislation by a bipartisan group of senators, including Democratic Sens. Bennett Johnston of Louisiana and David Boren of Oklahoma and Republican Sens. Pete Domenici of New Mexico and Don Nickles of Oklahoma.

During the Senate's discussion of the bill, Johnston said he was "delighted that the package has been brought up for discussion here because it renews our resolve, those of us in the oil and gas producing states, to be ready next year to fight with renewed vigor..."

"I am very pleased that the senator from Texas has indicated it will be his intention to bring this forward as a bill early next year and we can get action on it as soon as possible," added Boren. "I look forward to being a part of that effort."

In the 75 days before Congress reconvenes, Gramm said, a series of conferences will be held by congressional sponsors, officials of the Departments of Energy and Interior and representatives of the oil and gas industry to refine the legislative package.

The bill already has the support of

GIBBS ON THE RUN - David Gibbs is shown about to be tackled by two of the Evant Elks in game action Friday night.

State Comptroller Bob Bullock Wednesday said the recently-ended special session improved, but did not solve, the state's financial problems. "The tax bill and spending cuts and bookkeeping maneuvers have chiseled away at the problem and the projected deficit is not about \$983 million," Bullock said. He said the spending cuts and temporary tax package reduced the deficit in funds affecting certification

from \$2.3 billion to just below \$1 billion. He said the preliminary calculations show that the spending cuts will amount to about \$482 million and the tax bill will bring an additional \$764 million between January 1 and August 31, 1987. Bullock said about \$108 million in additional taxes will be produced under the bill but will not be turned

into the state until after September 1, 1987, which will be credited to the next budget period. "These tax and budget issues will affect only the current budget," Bullock said, "and the next Legislature will start off with nearly a \$1 billion deficit." The Legislature has given the state some breathing room by narrowing the budget gap.

CATFISH STOCKING

Recent rains are refilling stock tanks. According to Ron Bailey, Soil Conservation Service, now is a good time to stock ponds with fish before cold weather hits in November or December. The Upper Leon Soil and Water Conservation District is presently taking orders for catfish fingerlings, bass, bluegills, and fathead minnows. Stop by the Soil Conservation Service office in the Farm Bureau Building or phone 629-1480 to place your order by October 20th.

The volt, a unit of electrical measurement, is named for Count Volta, inventor of the electric battery.

Stanfield Trumpets Running's Benefits

By SAM PHELPS
Star Sports Writer

A distinctive gleam appears in the eyes and a definite excitement fills the voice of Denman Stanfield when he speaks of running and its benefits.

That's why the retired American Consul spends most of his time either promoting the sport or taking part in it.

"My desire is to get more people — young and old — interested in running and take advantage of the health benefits derived from running," said Stanfield. "The health benefits are amazing. You have more energy and you feel better. Now I feel as though I'm missing something if I don't run."

Stanfield was one of the founders of the Harlingen Running Club in 1982 and plays an integral role in organizing the numerous running events around the Rio Grande Valley.

The 67-year-old Stanfield also attends clinics and running camps throughout the country and makes yearly visits to Dr. Kenneth Cooper's aerobics center in Dallas — the foremost fitness clinic in the world.

"The clinics give me a chance

to learn more about running and get involved in the comradeship of runners," said Stanfield. "I get a complete physical at the Cooper clinic and they give me a complete report and advice on what I should be doing with the running. They say I run too much."

The doctors at the Cooper clinic also report that Stanfield is in top physical condition, with a fitness category rating of "superior."

Get this. The maximum heart rate of the average 67-year-old is about 153, but Stanfield's maximum is a lofty 172 — about the same as the average 48-year-old male.

Stanfield has also increased his Balke treadmill stress test time by about 10 minutes since he first began yearly visits to the Cooper clinic in 1974.

Stanfield began running in 1968 — preceding the "running boom" that occurred in the early '70s.

While awaiting a flight from Miami to Costa Rica, he stumbled across Cooper's first book *Aerobics* at the airport lobby.

He was then a 185-pound, pipe chain-smoker just a bit

worried about his health. Cooper's book changed all that.

Stanfield put down his pipe and picked up a pair of running shoes, gradually working his way up to three to five miles per day. He also lost 20 pounds along the way.

One of his funniest running experiences occurred while he was stationed in Monterrey.

"The police wouldn't let me run by myself because the consulate before me had been kidnapped," recalls Stanfield. "So I had to have a police escort whenever I ran. The policemen took care of stray dogs and we would just run through red lights. The only problem was that the police cars kept breaking down and I would have to stop running."

Stanfield's first race was the Dallas White Rock half-marathon (13.1 miles) in 1974.

Since then he has competed in numerous races from distances of five kilometers to the 26.2-mile full marathon.

Dozens of trophies and plaques threaten to overflow Stanfield's downtown office where he provides a typing service.

Stanfield has finished two marathons and is now preparing for the Marine Corps Marathon to be held in November at the nation's capital.

He is currently training 40 to 55 miles per week. His workout

Consumer Update

Nearly 300 Texas public school districts could reduce their annual utility costs by as much as 30 percent through potential savings identified in a program sponsored by the Energy Resource Center for Texas Schools (ERC).

The extra \$3.5 million in

regimen also includes 30 minutes a day on an Airdyne stationary bicycle, in addition to running on a Pacer treadmill.

"The treadmill saves pounding on the legs and heels," explains Stanfield. "You can also do hill work by adjusting the elevation level. It's also nice to have on rainy or hot days."

That's quite a routine for a man of his age, but Stanfield wouldn't have it any other way. "Besides the health benefits, running gives me peace of mind. That's why I try to get others involved."

And judging from the benefits he has already received, Stanfield will have plenty of time to continue promoting the sport that changed his life.

Denman is a native of Gorman and is the brother of Mrs. Stanley Porter.

potential savings is good news for school officials trying to make your tax dollars stretch to cover rising costs, decreasing income and increasing service demands.

In order to better equip school administrators with energy-related information, the 68th Texas Legislature established the ERC as part of the Public Utility Commission's Energy Efficiency Division.

The Resource Center's programs and services stress energy-efficient maintenance and operations procedures in school facilities, energy-efficient design and construction techniques, and energy education and communications.

Hundreds of school officials have tapped into a variety of services tailored to meet their district's particular needs by making a single phone call to the Center during its first two years of operation.

One of the major programs and services offered by the ERC is the *Direct On-Site Energy Evaluation Service*. This service helps school districts focus on affordable energy management options which pay back in three years or less. Potential annual savings already identified by the service total nearly \$3.5 million.

While energy costs can be

reduced by 25-30% in many existing schools by initiating low-cost/no-cost actions, cost-cutting opportunities double (to as much as 60%) when energy efficiency is considered from the beginning of construction planning.

Energy-conscious new school design is the focus of all *New Facilities Programs* at the Center. Seminars help school board members and administrators work with the design team to ensure that energy efficiency is planned into new construction projects.

In addition, the *Design Evaluation Project* enables energy design evaluators to work with architects of prospective facilities to determine the most effective energy-conserving strategies for the new school's climatic zone.

Energy education and communication services provided by the Center include sponsoring energy managers' networks (five of which now exist), a bi-monthly newsletter, and classroom materials for teachers and students. Articles produced by the Center also appear regularly in several professional educational association journals.

THE GORDON SPOT

By DeMarquis Gordon, CEA

New infestations of fire ants were confirmed in both Eastland and Cisco recently. In fact the infestations in Cisco are quite wide spread. There are indications that they have been there for at least two years. Two different groups of ants were confirmed in two different locations in Cisco and a third location will probably be confirmed this week. I except the fire ants could be in any location in Cisco and Eastland.

The new infestation in Eastland was found in a backyard on West Main street, but not far from a location where ants were found last year.

In my opinion, the unwelcomed guests are here to stay. The best you can do to control the fire ants is to learn to identify nests or mounds and treat those areas where they are a threat to you and your family.

Most people are surprised to learn that the fire ants are so small. Most mounds we have found are one to four inches tall and appear to be a small pile of loose soil. When the soil on the mound is disturbed you immediately see thousands of small dark red (almost black) ants moving around very rapidly. If your hand or foot is near the mound the ants will

quickly attack and begin stinging.

The Texas Dept. of Agriculture's Fire Ant Program was of of the cuts made by the Texas Legislature in the special session last month. Therefore, no more ant bait or technical help is available from the TDA fire ant control. However, the Extension Service will continue it's educational program on fire ant control. We have a very informative publication, B-1536 "Fire Ants and Their Control" available at the County Extension Office. This publication gives a complete description of the ants and all known control methods including home remedies, non-chemical control methods as well as chemical control methods. It also contains a long list of insecticide products registered for fire ant control. These insecticide products are available at many businesses in the county who sell insecticides.

All cattlemen in the county should make plans to attend the Tri-County Cow-Calf Clinic Wednesday, October 29. It was planned and is being conducted by livestock committees in Eastland, Stephens and Palo Pinto Counties. The clinic will be held in the Cowboy Sports Arena which is five miles south of Mineral Wells on Highway 281 on the west side of the Highway. It is located 9 miles north of Interstate 20 on Highway 281. Registration begins at 9:00 a.m. and the program begins at 9:30 a.m. and the program will end about 3:45 p.m. and a free lunch will be served. A good program with good speakers has been planned.
