AIRMEN DETERMINED TO CONTINUE FLIGHT

BANDIT GANG DISARMED, BUT EVADES ARREST

Arsenal in Ranger Raided and Guns Seized; Only Dim Trail to Follow.

An embryo gang of bandits was disarmed, a band of sneak thieves disturbed, when John Shannon and Charlie Surrbrook raided an arsenal established by the "bad men" in a vacant garage building near Mr. Shannon's home and seized the guns found stored away. Two rifles are now at the Ranger police station awaiting identification and the police are searching for the gang.

Mr. Shannon was seated in his automobile close by his garage in the dusk of Friday evening when he saw four persons, either big boys or young men, coming across a field from the direction of Surrbrook's home. He saw them disappear behind the vacant garage building and a little later come out and disappear across the field in the opposite direction. He thought they carried a bundle when they entered the building and did not have it when they emerged.

Coming into the city he met Surrbrook and told him he suspected some thieves had entered his home. They decided to investigate and they together to Surrbrook's home. Nothing was found missing there. They then inspected Shannon's home and found some doors open that should have been closed, but everything seemed to be in its place. Taking flashlights, they then visited the empty garage. On the floor they found a bundle of miscellaneous clothing, some of it appearing pretty good, and in a half left they found an army rifle, a target rifle, a shotgun and an automatic revolver. They took the guns to the police station and, with officers, returned to the garage, but when they got back they found the gang, which must have been watching them, had carried off the bundle of clothing.

Later Mrs. T. L. Lauderdale identified the revolver as the one kept in her home for protection when her husband was away. Dr. Lauderdale thought the shotgun might be his, remembering one he had, but he would not be sure until he had visited his office to see if he might have left his gun there. The two rifles are held at the police station.

Sneak thieves have been active in Ranger recently and the police will try to run down the gang whose arsenal was raided and seized.

Accidents At Grade Crossings Claiming Far Too Many Lives

AUSTIN, Aug. 9.—There is practically one person killed every three days and nearly an average of one daily injured in grade crossings in Texas. Clarence E. Gilmore, chairman of the railroad commission, issued a statement Saturday urging action by the public and officials to aid in working out some plan whereby this great toll of life and injury may be reduced, if not eliminated altogether.

There were 48 persons killed and 99 injured in grade crossing accidents in Texas the first five months of this year, the report said.

WOMEN'S WESTERN GOLF TOURNAMENT AT FINALS

LAKEHURST, Ill., Aug. 9.—It will be two champions in the finals in the women's western golf tournament at the Oenswentsia club, Monday. Miss Miriam Burns of Kansas City, defending champion, defeated Miss Dorothy Klotz of Chicago, and Miss Edith Cummings, national champion, won from Mrs. Lee Mide of Chicago, the scores being the same, 3 and 2.

So far as individual records were concerned it was Miss Burns' day today. Even though the course was still water-logged after recent heavy rains and rain was threatening today, Miss Burns turned in a score of 37 for the first nine holes, which is considered good golf.

FLOODS CAUSING GREAT LOSS OF LIFE ON FORMOSA ISLAND

TOKIO, Aug. 9.—Terrific floods have swept across the island of Formosa, drowning more than 700 persons, according to messages received from there. Upwards of 10,000 houses have been demolished in the large inundated area, the report says.

COURT FINES DEFENDANT.

CHICAGO.—"My wife is a vamp. That's why I struck her." John Cherneski, 79, told Judge Thude. "Let's see her," said the judge, and Mrs. Cherneski appeared. She was 76 and looked her age. "Twenty dollars fine," said the judge disgustedly.

Fire In Plant Of Dupont Powder Co. Destroys Buildings

WILMINGTON, Aug. 9.—Fire of undetermined origin today in Plant No. 1 of the Dupont Powder Co., at Carney's point, N. J., destroyed six buildings, including two magazines where smokeless powder was stored, according to information reaching here. The report brought no mention of any casualties.

REPARATIONS CONFERENCE AT CRITICAL POINT

French Premier Uncertain of French Sentiment on Evacuation of Ruhr.

LONDON, Aug. 9.—There is a lull in the reparations conference over the week-end. Premier Ramsay MacDonald has gone to the seaside. One German representative returned to Berlin by airplane. Premier Herriot is on his way to Paris for the purpose of disentangling and clarifying the French position on the most vital phase of the conference—namely, military evacuation of the Ruhr.

Minister of War Maillot is reported to differ radically with the French premier on this point, the former opposing evacuation.

French Minister of War and Premier At Parting of the Way

PARIS, Aug. 9.—In spite of official denials, the morning papers today persisted in stating that the return of Premier Herriot from the London conference was due to differences between himself and General Maillot, his minister of war, regarding the security of France after adoption of the plan for evacuation of the Ruhr.

Herriot desires unconditional acceptance of the proposal of British Prime Minister MacDonald that France and Belgium evacuate the Ruhr at once, following German acceptance of the Dawes program as a basis for settlement of the reparations question. The French premier is unwilling to sign any agreement unless the entire cabinet upholds him and the resignation of General Maillot is foreshadowed.

Walton Patches Up Sort Of Truce With Central Committee

OKLAHOMA CITY, Aug. 9.—The dove of peace alighted over the democratic central state committee tonight. The Ku Klux Klan and Jack Walton, ousted governor and senatorial nominee were the issues. The Klan issue was straddled with the adoption of the platform of the national convention. Walton had previously pledged himself to the democratic platform and to remain in accordance with the democratic party in Oklahoma and to lay aside his bitter fight against the hooded order in Oklahoma.

A second resolution, empowering the central committee to proceed with the general campaign for all candidates was presented, but Walton refused to agree on the grounds that he would make no formal statement on his campaign movements until his nomination has been certified.

The ousted governor, who attended the meeting, declared he would make the Klan the chief issue of his campaign for the senate. He assured the committee, however, he would not denounce any democratic nominees who were Klansmen. The committee was expected today to pledge support to the ousted governor and there was indication of the first open break in the party's ranks as a result of Walton's nomination. Mrs. O. H. Casky, vice chairman of the committee, avowed last night she would resign her post if the committee moved to support Walton.

GOVERNOR NEFF REAPPOINTS TWO WATER ENGINEERS

AUSTIN, Aug. 9.—Governor Neff has reappointed A. H. Dunlap and C. F. Clark, as members of the state board of water engineers. The terms of both men expired some time ago. Clark serves until August 31, 1927, and Dunlap until August 31, 1929.

TERRELL NAMED ON RAILROAD COMMISSION

Secretary of State Appointed State Treasurer and His Clerk Promoted.

AUSTIN, Aug. 9.—Governor Neff today appointed State Treasurer C. V. Terrell of Wise county as a member of the Texas railroad commission to fill the place made vacant by the resignation of Dr. Walter Splawn who, Aug. 1, became president of the University of Texas.

Terrell has resigned as state treasurer and Secretary of State S. L. Staples of Bastrop has been appointed to succeed him. Finis E. Johnson of Johnson county, for some time administering the blue sky law in the state department, has been appointed secretary of state. All appointments take effect Aug. 15.

Terrell will go before the new state democratic executive committee, which is to be named at the democratic convention to be held in Austin, Sept. 3, and ask that his name be placed on the ballot as nominee for railroad commissioner, to fill the place of Splawn. In the event the committee declines his request, Terrell, who was nominated without opposition for re-election as state treasurer, will not resist, but will be in the race for re-election as state treasurer in the general election next November.

CITY PRISONER MAKES BREAK FOR LIBERTY

Ranger Police Prove Themselves Fleetest and Recapture him Quickly.

C. L. Collins, 34, held in the Ranger city jail for investigation in connection with the looting of Frank Brown's garage, tried to break jail Saturday, and was caught by Officer Jim Daniels after an exciting chase that lasted for several blocks.

Collins, it is said, under the plea of wanting to be asked for permission to sweep the police sergeant's office. This request was granted by the day desk sergeant, who gave Collins a broom and told him to go to work. Watching for the back of the sergeant to be turned for a second, Collins bolted for freedom.

Proving that their sprinting abilities had not suffered for lack of exercise the police, aided by civilians who happened to be on the spot at the time, ran him down in two blocks. Officer Jim Daniels was the champion sprinter of the crowd and recaptured the prisoner near Pine and Marston streets. Collins is now back in jail in close quarters and will be kept in a cell as long as he is an inmate of the city jail.

The police have not yet obtained a confession from Collins relative to the china missing from Frank Brown's garage. He told them at one time yesterday that he knew where a quantity of jewelry was secreted and might let them know some time, but he knows anything about the missing china he is keeping mum about it.

IMPROPERLY LIGHTED CARS IN EASTLAND AT NIGHT DRAW FINES

Charges of violating the law with reference to lights on their cars were filed against thirty car drivers and car owners Thursday night by Eastland officers.

City Manager Cheatham stated Friday that those who had come to the city hall, as directed by the officers, had been let off with a fine of only one dollar and the warning that the second offense would be heavier.

"We don't want to be hard on anyone, but the law must be respected and we are going to treat all alike," Mr. Cheatham said.

HOUSTON LABOR CIRCLES TO IRON OUT DIFFERENCES

DALLAS, Aug. 9.—Disagreement in labor circles at Houston, where building construction has been tied up for several days, will probably be ironed out next week, Lucian M. Angler, president of the Houston Labor and Trades council, indicated today.

Angler was optimistic in his belief that the labor trouble would be settled by agreement soon. He will attend the Texas farm-labor political conference at Fort Worth Monday and Tuesday.

Lightning Strikes Oil Tank In Tulsa, Causing Heavy Loss

TULSA, Okla., Aug. 9.—During a terrific rain storm this evening, lightning struck a Constantine Oil Refinery company tank causing a spectacular fire in which 37,000 barrels of crude oil burned at a loss of \$50,000.

GOMPERS FOOLS HIMSELF SAYS LABOR LEADER

First President American Federation Says Vote Can't Be Delivered or Influenced.

CHICAGO, Aug. 9.—American labor, organized and unorganized, will support the republican ticket at the November elections, the first president of the American Federation of Labor, Powers, declared today. Powers who was associated with Gompers in the organization of the American Federation of Labor and was president until succeeded by Gompers, said that labor leaders would be unable to deliver the vote or influence to any great extent the vote of organized labor.

"Like other Americans," he said, "members of organized labor vote according to their own dictates. Labor leaders who attempt to sell politicians the idea that they are able to influence or deliver the vote of organized labor are kidding themselves. When election time comes men will see organization and unorganized labor voting for Coolidge and Dawes."

RODGERS CAMPAIGNS IN EASTLAND COUNTY FOR MRS. FERGUSON

Senator W. J. Rodgers of Eastland opened the Eastland county campaign for Mrs. Miriam A. Ferguson for governor in a speech before a large crowd at Carbon, Saturday afternoon, in which he defended her candidacy, condemned the candidacy of Felix D. Robertson and denounced the Ku Klux Klan as a political and economic menace.

"The issue in this campaign is whether we shall have continued strife or whether we shall have peace restored; whether we shall have tolerance or intolerance; whether we shall have hate or brotherly love," he said. "The issue is whether we shall have a governor dictated to by a disreputable triumvirate of bed-sheet fame or a noble woman seeking to vindicate a cherished name. It is whether we shall have a governor who hides his face and his shame under a mask or a saintly woman whose face is covered only by a sunbonnet with all its cherished memories."

"The issue in this campaign is whether we shall have Robertson in the governor's chair administering the laws from the cow-pastures and river bottoms or whether we shall have them administered by a good woman, counseled by the ablest men and women of this state, in the open and the shining rays of God's eternal sun."

Senator Rodgers was a member of the house of representatives at the time James E. Ferguson was impeached as governor and voted against him on each of the 21 counts.

WEST TEXAS GINNERS ELECT NEW OFFICERS

ABILENE, Aug. 9.—The annual session of the West Texas Ginnners' association was held in Abilene Friday with approximately 100 ginnners and gin machinery men in attendance.

New officers elected were W. Homer Shanks, Clyde, president; R. W. Maxwell, Abilene, vice president; Roy S. Curtis, Abilene, secretary. The executive committee is composed of John Reed, Sylvester; J. S. Smith, Stamford; Sid Ross, Ovalo; J. M. Lynn, Winters; R. W. Maxwell, Abilene; H. B. Smith, Abilene; N. B. Newman, Sweetwater.

TEXAS FARM LABOR UNION ARRANGES SALE OF COTTON.

DALLAS, Aug. 9.—Practically all the cotton belonging to the membership of the Texas farm labor union will be sold through the state sales office here, it was decided at a meeting of more than 100 county union farm representatives, that closed tonight. Pooled cotton will be sent to Galveston warehouses for storage while the staple cotton will be graded and classified here under the direction of Oscar Adams, state sales agent.

STATE CALLS ITS ALIENISTS TO TESTIFY

Determined to Send Loeb and Leopold to Gallows or Insane Asylum.

CHICAGO, Aug. 9.—A smashing assault will be directed next week against the structure of irresponsibility so carefully reared around Leopold and Loeb. State's Attorney Crowe tonight completed plans for return fire. He said that he would call 50 witnesses, including two girls, former sweethearts of the millionaire youths, to show them normal in every respect. He hopes to prove that the boys are legally sane and therefore fully responsible, or that they are legally insane and then force a jury trial on their mental status. If Crowe can prove them sane he feels that Justice John R. Caverly will have no recourse than to order them hanged. If he can have them adjudged insane by a jury they will be sent to an asylum for the criminal insane.

Clarence Darrow, chief attorney for the defense, is concentrating his fight against the boys sentenced to life imprisonment. He and the parents of the youths are fighting as hard to keep them from the insane asylum as to keep them from the gallows.

Four State Alienists.

Dr. Harold S. Hulbert, last of the defense alienists, will finish the medical case for the defense Monday. Crowe announced that he would put on the stand Dr. H. Douglas Finger, William O. Krohn, Archibald Church and Hugh Patrick, all alienists, the same number the defense produced.

The state's alienists will seek to show that Leopold and Loeb are absolutely sane. Crowe will insist that there is no middle ground, that disease of the mind and legal insanity are one and the same. All of the alienists have agreed that the youths have diseased minds.

The new trend of the case shows Loeb the master mind with Leopold as the follower. Dr. Hulbert stressed this testimony today, when he told how Leopold tried to influence Loeb to postpone the kidnapping of the boy. The alienists agreed that Loeb was the master mind in all the crimes committed. Leopold being a passive tool. Dr. Hulbert said Leopold was highly over-sexed and this was one of the real reasons for continued associations with Loeb's defenses.

As a result, the legal and medical observers are discussing the possibility of different sentences on the youths, the court dealing more leniently with Leopold and more severely with Loeb.

Crowe has asked Susan Lurie and Marion Doctor to testify that the youths are normal. The girls "kept company" with Leopold almost up to the time of his arrest. Darrow said tonight that he would show in his closing address to Justice Caverly that the state's alienists agree with the defense alienists that the youths are paranoid.

Would Be Perfect Slave.

Dreams centering on king play fantasies made Nathan Leopold Jr., what he is today, Dr. Harold S. Hulbert, alienist, testified today at the hearing of Leopold and Richard Loeb for the slaying of 14-year-old Robert Frank.

Leopold's king's slave fantasy started when, as a child, it was given emphasis by the reading of the story of St. Christopher to him by his governess, the alienist said. As Leopold dwelt on the subject of being a perfect slave, he sought for someone to enact the role of the perfect king. His hunt for a perfect king culminated in finding Loeb, the witness said.

Leopold thought Loeb was much superior, possibly attaining his idea of the super-man, said the alienist. The urge to be the perfect slave drove Leopold to commit every crime brought out at the hearing, including murder, according to the witness.

"Nathan told me he seemed to lose his inspiration after his mother's death, which I believe was about 3 years ago," said Dr. Hulbert. "As a small boy he was interested in religious and studied the doctrines of various churches, but finally he gave up all of them and decided there was no God. His philosophy called for a world, not a universe, whirling through space like a piece of mechanism."

ONE OF THREE BANDITS HIDING IN COLORADO MINE MAY BE WOMAN

GRAND JUNCTION, Colo., Aug. 9.—Confident that the quarry had not escaped, postal inspectors today were trying to starve out the bandits believed hiding in the Palisade mine, near here. Officers are convinced that at least two of the three robbers who took refuge in the mine a week after robbing a Palisade post-office of \$1,500, are still barricaded within it.

One of the bandits in hiding is believed to be a woman, the inspectors having found dainty footprints about the mine that check with footprints found near the postoffice.

Thompson's No. 1 Flows 200 Barrels After Being Shot

J. L. Thompson's No. 1 well, located on the northeast one-quarter of section 43, block No. 6 of the Texas & Pacific survey in Stephens county, which came in the first of the week, was shot with 10 quarts of nitroglycerin Friday at noon and is now making an estimated 200 barrels.

The well, located 12 miles north of Ranger, came in the first part of the week for approximately 75 barrels. Pay sand was struck at 2,055 feet and the well was completed at 2,130 feet. The new lease adjoins the holdings of the Thompson Oil corporation, on which a number of good producers have been brought in.

BOY SCOUTS OF RANGER OFF ON LONG RAMBLE

Scoutmaster W. R. Pettit Conducting Nearly a Score on Trip Into Colorado.

Members of the Ranger Boy Scouts left Saturday morning about 8:30 for Denver, Colo., Estes Park and points of interest in the Colorado mountains.

The boys are under the direction of W. R. Pettit, scoutmaster. A trip for the boys during vacation time has become an annual affair and is looked forward to by the boys throughout the year. Last summer the trip was through South Texas, and this year it was decided to take them farther away and give them a chance to see another part of the country.

The trip is being made in a two and a half ton Service truck with W. L. Lawson as driver. The truck, driver and cook are being furnished by G. C. Barkley of Ranger. The boys will be gone about four weeks altogether and will have no work to do except have a good time.

"Last year," Mr. Pettit said, "the boys studied and worked on the trip to South Texas, but this year the trip will be for pleasure only."

Among the boys accompanying Mr. Pettit are: James Garber White, Nicol Crawford, Billy and Charles Terrell, Tom Lauderdale, William Shaw, Sissler, Harry Heath, Dick Barkley, R. L. Morey, Charles Maxey, Jack Sandefer, Truman Bohanan, Cull Pratt, Dewey Lawson, Egles Burns, Si Cole and a few others.

French Cabinet In Apparent Accord On Evacuation Of Ruhr

PARIS, Aug. 9.—The French cabinet today fully approved of Premier Herriot's declarations regarding the international conference at London and adjourned at 1:30 o'clock. A communique issued at Elysee, where the cabinet was meeting with President Dourmergue, stated that Herriot, in agreement with General Nolte, gave a detailed account of all problems discussed at the London conference. Marshal Foch was present but left at 11 p. m. and this was taken as an indication that the military problems involved in the proposed evacuation of the Ruhr were not troublesome.

INDIANA SUFFERS FROM FURY OF TWO STORMS WHICH SWEEP STATE

INDIANAPOLIS, Aug. 9.—Two violent rains and hail storms accompanied by high winds, swept across Indiana during the night, killing five persons, injuring a dozen others and inflicting heavy property damage. Wires were torn down and crops were leveled.

William Erwin 50, and Russell Steinhilber 21, laborers, were killed when struck by lightning which hit a steam shovel beneath which they had taken refuge. Several other workmen were stunned by the same bolt. Virtually the entire state felt the fury of the two storms.

TYSON DEFEATS SHIELDS FOR SENATE IN TENNESSEE

NASHVILLE, Tenn., Aug. 9.—Gen. L. D. Tyson defeated Senator John K. Shields for the democratic senatorial nomination in Thursday's primaries by approximately 14,000 votes, almost complete returns showed today.

Governor Austin Peay's plurality for renomination was 52,181.

ITALIAN AVIATOR FOLLOWING U. S. FLYERS NORTHWARD

BROUGH, England, Aug. 9.—Lieutenant Locatelli of the Italian air service, who is flying from Pisa to New York, hopped off today for Kirkwall, Orkney Island, in the north of Scotland. He will follow in the path of the American aviators,

WORLD FLYERS WILL NOT STOP BECAUSE OF ICE

Will Refuel Planes in Open Sea If Necessary; Going on This Week.

REVKJAVIK, Aug. 9.—Whatever the obstacles or perils the American round-the-world flyers are going on, probably late next week. If the ice packs along the eastern Greenland coast repel landing, the airmen will refuel in the open sea. The only thing impossible is the abandonment of the flight. No conference was called to consider the calling off the flight, Rear Admiral Magruder told the United Press.

Merely An Obstacle.

The flight has reached the first serious obstacle encountered, that is all.

Lieutenant Lowell Smith, commanding the expedition, is determined that obstacles shall be overcome. An indefinite postponement is impossible because the ice will grow more forbidding as the year winds on. Lieutenants Smith and Nelson here since Sunday, were unable to go to Angmagssalik, Greenland, because packed ice has caught and carried southward the Gertrude Rask, Danish supply ship, which has fuel and supplies for a base. The steamer cannot get through to Angmagssalik until the ice yields.

The navy and army airmen flying around the world have not even considered calling off the flying or postponing it until next season. Rear Admiral Magruder, commanding the naval units operating with the aviators, told the United Press today. He said that no conference had been called to consider calling off the flight, but, on the contrary, the meeting yesterday had been called to discuss ways and means to provide for the next leg of the airmen's journey.

"We had to modify our earlier plans when the Danish supply ship, the Gertrude Rask, got caught in the ice," he said.

Storm May Break Ice.

Cold gray clouds floated out of west into the radio room of the Cruiser Milwaukee telling of a storm along the west coast of Greenland, which airmen hope will move eastward and break up the packed ice which has imprisoned the Rask, attempting to make Angmagssalik and establish a base for the Iceland-Greenland leg of the world flight.

But whether the Supply Ship Rask makes the lonely windswept Greenland port or not, they have no intention of abandoning the flight. With more than 21,000 miles of the journey completed, Lieut. Smith and Nelson are determined to continue and reach the home shores before fall sets in. They may arrange to refuel their planes at sea.

EASTLAND COUNTY HAS MANY STUDENTS AT SIMMONS COLLEGE

Eastland county Friday afternoon filed suit in the Eastland county district courts against former County Attorney C. G. Hazel, alleging in substance that he is due the county approximately \$7,000 for excess fees collected by him during his term of county attorney.

It is understood that a similar suit is to be filed later against H. A. Collins, former county tax assessor, and possibly some other former county officials.

In the suit against Mr. Hazel his bondsmen, P. S. Wolfe, R. E. Sikes and Cyrus B. Frost, are made parties to the suit.

LIGHTNING CLAIMS TWO VICTIMS DURING STORM THAT SWAMPS ILLINOIS

CHICAGO, Aug. 9.—With two dead, wire communications badly hampered and crops damaged, Illinois waited tonight for the predicted continuation of the stormy weather that has swamped the state. The worst of the storm is believed to have passed. Towns in the vicinity of Springfield and LaSalle and Princetown apparently were the hardest hit.

Mrs. Marvin Morey, 23, wife of a farmer, was struck and killed by a bolt of lightning. She had sought shelter under a tree. Lafitte Bennett, 3, of Forest Park, was killed by a bolt of lightning which struck a tree and went on to a tricycle the child was riding.

BIBLE THOUGHT.

THE LOVE THAT SAVES:—
 For God so loved the world that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life.—John 3:16.

WHY DO YOU ADVERTISE?

"Why do you advertise?" This question often is asked the successful business man, sometimes to obtain information and sometimes in a spirit of envy, as if reluctant to acknowledge that one factor contributing to his success was a comprehensive plan of winning the friendship of the public by a truthful presentation of what he had to offer the people in the way of trade and what he expected from the people.

The successful business man knows why he advertises. He does so because it has brought him success and he knows that by continuing to advertise he will continue to have success. If he gives a critical analysis to the result of advertising, he learns that advertising may be attractive or unattractive and that while both will bring such results as he seeks, for publicity always draws trade, the former will bring better results than the latter.

The successful business man who studies advertising learns that it has become a science that includes among its exponents some of the brightest minds in the country. It may fascinate him so that he gives it more and more careful study, and as he improves in his manner and method of talking to the people through his advertising he sees that he is obtaining better and better results. If he is asked, "Why do you advertise?" he may answer that he does so because he likes to, but behind that is the consciousness that he does so because it brings the results he is in business to obtain and the better the advertising the better are the results.

Public utilities and even some industries appear to have no competition and yet they advertise. Why? Because at the head of these activities are successful business men who, either in that line along which they have worked from the bottom to the top or in some other line which has brought them success, they have learned that the people are the customers to be pleased, whether there be apparent competition or not, and the closer they keep to the people and the more they take the people into their confidence the better results they will obtain. They may not see any direct result in the early stages, but they learn to realize after while there is a certain and very material result in added prosperity.

If those who ask the question, "Why do you advertise?" will take the trouble to study the underlying cause of the success of successful business men they will soon become convinced that advertising is done because it brings success.

MISSES DRAGOO DELIGHTS BIG AUDIENCE AT ABILENE

As concert solists at the initial performance of Abilene's Little Symphony orchestra, Misses Wilda and Wanda Dragoos of Eastland were given a brilliant ovation. Even before time for the performance to commence standing room only was available. The Abilene Reporter said of the artists:

"A feature of the program was the grand violin concerto played by Miss Wilda Dragoos, with her sister, Miss Wanda Dragoos playing a brilliant accompaniment. A finished artist, Miss Dragoos won praise from her listeners because of her splendid technique, her wonderful bowing, perfect control, and excellent execution.

Another artist from Eastland to play in the concert was Frank Williamson. A look of surprise and joy spread over the audience when Mr. Williamson appeared on the stage with his rare and beautiful instrument, the bassoon. Mr. Williamson is unusually musical and could have a very brilliant future as a musician.

EASTLAND HIGH GAINS CREDITS OF AFFILIATION

Progress Has Been Steady During the Last Five or Six Years.

In view of the receipt of recent information concerning additional credits of affiliation for the Eastland high school, it might be of interest to patrons, pupils and the general public to know of the progress of the local high school along that line, and when and by whom the credits of affiliation in the various subjects were obtained.

The school obtained its first credits of affiliation in the year 1918-19 under the supervision of E. A. Bills, superintendent, and J. M. Moreau, principal. Seven and a half credits were obtained at that time; 1 in history, 1-2 in civics and 1 in algebra by Miss Belle Wilson; 3 in English by Miss Mildred Foy (now Mrs. Carl Springer); 1 in general science by J. M. Moreau, and one in algebra by E. A. Bills.

The following year C. A. Peterson became superintendent and J. C. Allison principal, and during the three years of their administration the school raised its affiliated credits to 20; 12 1-2 additional credits being obtained as follows: Three in history by Miss Belle Wilson, one in physics by T. J. Yoe, two in mathematics by J. C. Allison; four in Latin by H. C.

Owen, one in chemistry by H. S. Parker, one in biology by Hob Gray, and one-half in domestic economy by Miss Mamie Montgomery.

During the past two years with S. A. Peterson as superintendent Hob Gray as principal, the total number of credits have been raised to 25 1-2, 5 1-2 additional credits being obtained as follows: One and a half in domestic economy by Miss Zola Campbell, two in Spanish by W. O. Freeman, one-half in physical geography by B. Q. Green, one in English by Miss Louise Boren and Miss Leova Stiman, and one-half in public speaking by S. R. Featherston.

CLUB TO AID MEXICANS FORMED IN WICHITA FALLS

AUSTIN, Aug. 9.—Incorporation has been granted here to the Benito-Juarez club of Wichita Falls, no capital stock.

The club was incorporated for the purpose of "assisting the Mexican population of Wichita Falls financially and educationally and to assist the minbecoming citizens of their adopted country."

Incorporators were V. G. Sanchez, Francisco Alejandro, and Pedro Lozoya.

T. C. U. TO HAVE STADIUM WITH 7,000 SEATING CAPACITY

FORT WORTH, Aug. 9.—Texas Christian University will open its football season in a new \$37,000 stadium, with a seating capacity of more than seven thousand.

Erection of the stadium was under way this week, framework of the two stands, one on each side of the field, will be of concrete. The seats will be wooden. Spectators will have an easy view of the playing field, since the most distant seats are located on the ten yard line. The front row stands will be four feet above the level of the field.

EASTLAND COUNTY SUES FORMER OFFICIALS ON EXCESS FEES CLAIM

The McCullum Construction company began the latter part of last week the work of re-surfacing the Eastland-Carbon highway and it is expected that this piece of road will be finished within a short time.

There is still some work to do on the Carbon-Gorman end of this highway, but present plans are to rush it to an early completion also.

The work on the Cisco-Rising Star road was finished during the early part of last week.

WOMEN VISITING VATICAN MUST BE MODESTLY CLOTHED

ROME, Aug. 9.—The pope in the future will grant no audiences to women not regarded by the Vatican authorities as being modestly clothed. Special cards giving instructions for papal audiences have been issued by the papal entente chamber.

So far none of these cards have been distributed, but it is planned to include them in envelopes carrying invitations.

Ladies not wearing strictly high-neck clothing and long sleeves will not be admitted to the pontifical apartment. The vatican also is considering a model dress for use by women at papal audiences throughout the year.

28,000,000 bushels above the department's July estimate of the crop, which was followed by skyrocketing prices.

The average price of all wheat on farms on July 15 was \$1.058 against

89.6 cents last year, the department reported.

The corn crop will amount to only 2,576,000,000 bushels against 3,046,000,000 last year with the crop 70.7 per cent normal on Aug. 1 against 72 per cent normal July 1.

BALLOON TIRES ADD EASE TO AUTO RIDING

Hudson-Essex Adopts Them As Standard Equipment; Makes Surer Steering.

Full size balloon tires bring amazing riding ease to a motor car, but the car itself must be designed with the balloons' special qualities in mind, according to Jack Gullahorn, Hudson-Essex dealer. Mr. Gullahorn feels qualified to speak because the present Hudson-Essex line is the first instance in which a large producer of motor cars has equipped his entire line with genuine balloon tires as standard equipment.

"Most of the unfavorable talk about balloon tires," said Mr. Gullahorn, "comes from the fact that they have been simply added onto cars which were not designed to handle the exceptional grip which they have on the road. Such cars without doubt, develop undesirable habits of performance."

"When Hudson-Essex decided to adopt balloon tires as standard equipment, its engineers went thoroughly into all the new problems which the balloon would bring. They made the necessary alterations to handle the new conditions which the big tires brought about."

"The result is the easiest steering and surest driving Hudson ever built. We ask old Hudson owners to check up on this statement with us. The full size genuine balloon tires have brought an ease of riding which is simply delightful."

"With this new equipment we now have this line of new cars: Essex touring car and coach, and the Hudson speedster, phaeton, coach, and the five-passenger and the seven-passenger sedan."

"The popular car of course is the coach. It is the coach which first offered motorists enclosed car comforts at open car price. The coach is the car which took the first step in what is now a trade tendency—a more moderate price for closed cars."

"When we reach the general position where open and closed cars sell at about the same price, the coach will deserve all the credit as the pioneer."

"Other cars are popular, but three-quarters of our business is the coach."

At Open Car Cost ESSEX COACH
Built by Hudson

Genuine Balloon Tires
Standard Equipment

The outstanding buying choice this year is "Closed Car Comforts at Open Car Cost." The Coach alone provides them. It is exclusive to Hudson and Essex. Everyone knows it gives highest closed car value. And because no other type of car shares its position it is the largest selling 6-cylinder closed car in the world.
Genuine Balloon Tires Enhance World's Greatest Value
Naturally when balloon tires had established their superiority Hudson and Essex would adopt them. They are now standard equipment. They add an even greater measure of riding ease, steadiness and good looks to the notable values of the Coach.
In workmanship, materials and design both Hudson and Essex are of one quality—built in the same factories, under the same patents. Your choice between them will rest solely on the price you want to pay.
You see the Coach everywhere in increasing numbers. Everyone wants closed car comforts. They will no longer accept half-utility when all-year usefulness and comforts cost no more in the Coach.
Consider how the growing trend to closed cars affects resale values. The diminishing demand for open cars means far faster depreciation in that type. As the wanted type, the Coach maintains exceptionally high resale value.

MEN OF THE HOUR LEADING MAJOR POLITICAL PARTIES

Calvin Coolidge, who stepped into the presidency of the United States when Warren G. Harding died, and who has been named as the republican candidate for the office this year, has for his running mate Gen. Charles G. Dawes, banker and financier, an economic expert in world war finances, and afterwards a pronounced economic success as first director of the budget on which congress relied making appropriations for the support of the government, and later achieving world fame as head of the committee of financial experts which reported a plan that has been accepted by the European allies and Germany for the rehabilitation of Germany and the payment of German reparations costs.

John W. Davis of West Virginia is the democratic nominee for the presidency. He has served in congress, was a trusted friend of the late Woodrow Wilson and was appointed by him as ambassador to Great Britain, where he served with distinction during the trouble reconstruction times, and then retired from public life to devote himself to a large and lucrative law practice.

His running mate, candidate for the vice presidency, is Charles W. Bryan, governor of Nebraska and a younger brother of William Jennings Bryan. He has been notable success as the chief executive of a progressive western state and has progressive tendencies which have made him especially strong with the people of the west.

Membership Drive Of Big Brother's Bible Class Starts

or linen collars tend to take away the apron appearance. It is nice to have at least four of these dresses, choosing each dress of a different shade. Yellow and white checked gingham is always pretty about the house and gets away from the popular pink or blue color-

scheme which most women seem to prefer. Brown and white checked gingham is also neat in appearance and holds its color well in laundering.

The house-dress of today is not supposed to look like a house-dress. It has the fit and lines of the street frock. One can run to the corner grocery without creating any excitement whatsoever in the modern working frock.

The woman who does not heavy work will find voiles in pastel shades lovely for house-wear, as they are cool and launder well. Cotton crepe is also a good material, as it is easily ironed, or may be worn without ironing.

Little aprons of cretonne may be worn over the house-frock of plain colored material. The rubberized aprons which come in colors are also lovely for housework. One may match the apron with the frock, if one so desires.

New Sports Coat.

At a nearby resort I saw, for the first time, cretonne used as a sports coat. Over a white silk skirt and white silk blouse a colorful cretonne jacquette was worn. There were no sleeves in this jacquette, and it was bound about the edges in plain color. The jacquette opened up the front with lapels as a neck finish.

STATE HIGHWAY EMPLOYEES MUST ESCHEW POLITICS

By United Press.
 AUSTIN, Aug. 9.—The state highway commissioners today warned employees of the department against active participation in the coming political campaign. The penalty for violation of the rule is dismissal from the service, according to the commissioners.

DUNLOPS

Every 2 1-2 Seconds Somewhere in the World Someone is Buying a Dunlop Tire

While you are reading the above headline someone is buying a Dunlop Tire in New York City.

In America's metropolis, Dunlops meet Dunlops, on RollsRoyces and Fords, in the crowded traffic of Fifth Avenue, and along the open boulevards.

Or Japan
 —where the better products of Western civilization, including Dunlop Tires, are adopted and used by a nation of careful buyers.

Or Paris
 —where Dunlop Tires are to be found on the little taxis that dash wildly about the palace de l'Opera, as well as on the handsome motors along the Champs Elysees.

Or Buenos Aires
 —cosmopolitan metropolis of South America, where motorists expect much from their motorcars, and Dunlop Tires are famous for the extra miles they give.

NEW FROCKS ARE BETTER THAN THE OLD STYLE ONES

By HEDDA HOYT
 Fashion Editor of the United Press (Written for United Press)
 NEW YORK, Aug. 9.—Women of large cities are apt to know very little about morning frocks. Most of them slump their apartments in last season's dinner gown, covered by a gingham apron. No woman looks well in the early morning cleaning up the results of last night's bridge party, in a dilapidated frock with decollete lines and minus portions of its beadwork. How much better a sweet little gingham house-dress looks about the home. One can choose many lovely light colors which can't be worn discriminately on the streets.

House Frocks.
 Pre-shrunk linens, ginghams, flowered cretonnes, voiles and cotton crepes are all materials suitable for the house-frock, the newest of which are made on dress lines rather than apron lines. Many women make their house-dresses themselves, using a simple straight-lined pattern which requires but two side-seams. Necks are cut rounding and sleeves are short and a sash belt is placed at a low waist-line. Pockets may be added on the sides and white organdy

OIL BELT BALL ASSOCIATION ON RAGGED EDGE

If Other Teams Follow Example of Cisco, Ranger May Claim Pennant.

C. A. Forrest, manager of the Ranger baseball team in the Oil Belt association, offered, at a meeting in Eastland last Tuesday, to sell the Ranger franchise in the league to Desdemona if satisfactory financial arrangements could be made.

Acting on the assumption that the Ranger franchise had been bought by Desdemona arranged for Cisco to play yesterday at Desdemona the game that was scheduled for Ranger to play at Cisco, and the same ar-

rangements have been made for a game this afternoon, also scheduled for Ranger at Cisco. In view of this, Cisco failed to keep her scheduled appointment to play yesterday with Ranger and it is expected will fail again today.

In the opinion of Ranger backers of the Ranger team, this means the virtual busting up of the Oil Belt association if other teams follow Cisco's example. The Ranger franchise cannot be taken away on a technicality and, while Ranger is willing to sell, no sale has been effected.

By forming new affiliations without the consent of all teams in the Oil Belt association, it is contended by baseball fans that the teams in the new affiliation will forfeit their membership in the Oil Belt association, leaving Ranger alone to claim the split season championship.

play their scheduled games with her, Ranger will continue to maintain her right to the pennant.

COLORADO GOVERNOR SAYS KLAN IS HATRED'S SYMBOL

DENVER.—In a vigorous address devoted entirely to the Ku Klux Klan, Governor William Sweet told the democratic state assembly in session here that he "unreservedly opposed the attempt on the part of the klan to secure political power and control by capitalizing religious prejudice and race hatred."

"Since the beginning of the Christian era, the cross has been the symbol of love, tolerance, good will and mercy. The klan is making the cross a symbol of hatred, intolerance and persecution. No organization can attempt to read out of American citizenship more than one-half of our population," Sweet declared.

LAKE ENNIS REPORTED TO BE TEEMING WITH FISH

WAXAHACHIE.—Indolent fishermen are warned to keep away from Lake Ennis near here unless they are all set for a busy time and prepared to go without the fisherman's usual nap.

Boyes Farrar and two companions tried fishing at Ennis with only one hook on a line. However, competition among the fish was so strong that the fishermen were forced to add a second hook.

A third hook was not used as an ornament, according to the anglers, who claimed that two fish usually followed the hooks from the water. Anyway, 300 fish were "hooked."

KNOCKS OUT FIRE IN
VERY FEW MINUTES**

Fast work on the part of the Ranger fire department prevented a serious blaze when they extinguished flames in a vacant house belonging to Mr. Williams of the Ranger Shoe company and located on Austin street, between Elm and Mesquite streets.

combination pumper, hose and chemical truck recently purchased by the city was a great success. With only one line attached and the pump opened up three notches, it was all that four or five men could do to hold the line. The flames were knocked out in a few seconds by the powerful stream of water. Approximately \$50 damage was done to the building.

Mr. and Mrs. G. C. Barkley left Saturday for Albuquerque, New Mexico, after visiting which town they will go on to Colorado and California.

DEFEATS OLDEN
BY SCORE 8 TO 6**

**Magnolias Use Three Pitchers
To Stop Dynamos; Play
Again Today.**

Breckenridge won from the Magnolias at Olden, Saturday afternoon, 8 to 6, in a game featured by extra-base hitting and great stops afield by McArdle and Supina.

Coop, left-hander, essayed to pitch for the Magnolias, but was wild and ineffective. He retired in favor of Ludwig, who got better no faster and after Breck had pounded over eight runs in three innings. Pete Supina, the Magnolias' jack-of-all-base-ball positions was called from short-field to the box. The man from Strawn stopped the Dynamos, and only one man reached third base during his six innings on the hillcock.

The Magnolias exhibited a liking for Roy Appleton's slants and knocked him off the mound in the second, but Red Gore, in the role of relief pitcher, kept the league leaders safely in check.

Homer Blankenship, Breckenridge's great right-hander, will oppose Charley Koch in Sunday's game at Olden. The game this afternoon will be called at Magnolia park, Olden, at 3:30.

**PECAN BELT ROUTE IS
PROPOSED NEW HIGHWAY**

A highway is being proposed from San Antonio north by way of Fredericksburg, Llano, San Saba, Goldthwaite, and Comanche to a connection with the Bankhead highway at Eastland. The Pecan Growers' association of Texas in a recent session at Fredericksburg endorsed the move for the road and asked that it be designated as the Pecan Belt route. Improved highways have been constructed over a large part of the route and only a few connecting links remain to be built.

**American Heavyweight Floors
British Champion Decisively
in Third Round.**

LONDON, Aug. 9.—Tommy Gibbons, American heavyweight, knocked out Jack Bloomfield, British heavyweight champion, in the third round of the international contest this afternoon at the Wimberly stadium. Gibbons was a 7 to 4 favorite in the late betting.

The fighters were slow in getting into the ring and the big crowd became impatient of the delay. Eugene Corri, well known London sportsman, was chosen for referee, and a big cheer arose when he called the fighters to the center of the ring for final instructions.

Gibbons rushed from his corner at the bell and tore fiercely into the Englishman. Apparently he had been sent out to make a short fight of it. Bloomfield was cautious and retreated before the advances of the American, sticking out his left hand to keep Gibbons from getting closer.

Bloomfield improved towards the end of the round, but Gibbons had the advantage.

Gibbons ended the fight with a right-hand punch in the third round. When Bloomfield was picked up and carried back to his corner a moan went through the crowd, which had been all steamed up with the hope that the British prestige might be restored. Sports writers had been insisting that if Bloomfield defeated Gibbons he would be a logical contender for a heavyweight championship fight with Dempsey, but when Bloomfield went down another hope of the Britons went the way of other wasted hopes.

**STEEPLECHASE JOCKEY IS
SEVERELY INJURED IN FALL**

SARATOGA SPRINGS, N. Y., Aug. 9.—William H. Keating, famous steeplechase jockey who was thrown from his mount at the race track here yesterday and was thought near death at midnight, was improved today at the Saratoga hospital. Dr. Morroarta, who also attended Earl Sande, noted jockey, whose leg was smashed in a spill earlier in the week, determined today that Keating's injury was concussion of the brain. It was first believed that he was suffering from brain hemorrhages, a fractured skull and internal injuries. He was still in a semi-conscious condition late today.

USED CAR**

**We Delivered More Used Cars in EASTLAND
During the Month of July Than Any Other Dealer**

Engineers, mechanics, garagemen, repairmen, etc., all say that a GOOD USED CAR is better than a cheap new one—and they know.

Think of the joy of driving a high-priced car with the knowledge that it is the most economical purchase you could have made.

Our first interest lies in the sale of good new cars. We are doing the largest six-cylinder new car retail business in Eastland and nearly every sale involves a trade.

This, together with our new used car merchandising plan, places us in the best possible position to make you happy with a good used car at a ridiculously LOW PRICE.

Our used car merchandising plan works three ways, viz: helps us sell new cars, permits us to CHOOSE good used cars in exchange, and to dispose of exchange cars at LOW COST PRICES.

Remember when you approach the purchase of a used car HERE you may do so with FAITH and CONFIDENCE inspired by the fact that our new car reputation is our most important business asset, to be PROTECTED by us at any cost.

HONEY BALL MELONS RAISED ON EDGE OF RANGER ARE SPLENDID

"These honey balls, raised here in Eastland county right at the edge of Ranger, are the equal of any grown in Barrant county or anywhere," said Mrs. A. O. Hinman of Ranger, as she exhibited some beautiful specimens of the delicious break fast melon. "You never saw melons grow like these," she continued. "Fifteen melons to the vine, at least, after all culls had been pinched off in their young life, and the finest of drouth resisters you ever heard of." Mr. and Mrs. Hinman live on the Ranger-Stephenville road, otherwise known as the Spring road, about a mile from Ranger. In fact, the city line runs right through their place. Mr. Hinman sells gasoline and Mrs. Hinman attends to the truck patch. The soil is a sandy loam and there is a fine strata of water only a few feet below the surface. Mrs. Hinman has nine long rows of honey ball melon vines and has raised a quantity of the fruit this year. Among those she was exhibiting yesterday were two perfect melons on one stem, growing like the Siamese twins. "The melons should ripen on the vine to get the real flavor," she said.
