DARING BANK ROBBERS ARE STILL FREE

GRAHAM, Texas, Sept. 3.—Though the county surrounding Graham has been scoured by a posse of more than 150 armed men, no trace of the three men who held up and looted the Guaranty State Bank here of between \$7,000 and \$10,000 Tuesday night has been found. After locking Vice-President A. A. Mauldin in the vault with six other attaches of the institution, the robbers, all of whom were armed with automatic pistols, fled in different directions. It is thought that they assembled at some point previously agreed on and made their get away in a high power motor car. The trio were unmasked when they entered the bank. All were well dressed. Mr. Mauldin succeeded in jamming the lock of the safe door when it was slammed by the robbers and was able a few minutes later to release himself and the other captives and sound an alarm. Members of the posse are armed with shotguns, rifles of every vintage, six shooters and the old army type Springfield single-shots.

High Price of Lap-Dogs and Lingerie Causes Two Laundry Girls to Counterfeit Money

ELIZABETH, N. J., Sept. 3.—The steadily rising cost of lap-dogs and night-giggles brought disaster to two women, Mrs. William Khruska, 27 years old and a petite divorcee and Miss Clara Bigstalls, arrested two days ago and now charged with counterfeiting. Police are making a search for men accomplices of the women. A counterfeiting outfit was found in a room, the rent of which was paid by the couple and it is thought that male co-counterfeiters assisted in the making of the spurious money. A summer cottage at Asbury Park, 35 miles from here, was maintained by the two women. In searching the cottage the police discovered an assortment of dainty feminine pretty-pretties calculated to bring the green glint of envy into the eyes of the most extravagant. A varied assortment of pretty-pretties also was found, ranging in value from Chinese doll dogs to Poodle of purest pedigree. Neighbors told the police they frequently entertained guests of the alleged counterfeiters at the cottage. On the other side of the door, the police found a counterfeiting outfit. Both of the women were arrested at the cottage. The police also found a counterfeiting outfit. The women were arrested at the cottage. The police also found a counterfeiting outfit.

HOW BRITAIN IS SOLVING
HER HOUSING PROBLEM

NEW YORK, Sept. 3.—The acute
housing shortage faced by many cities in
the United States today brought from the
Guaranty Trust Company a description
by its foreign trade bureau of how Great
Britain was meeting a similar situation.

"The program of the British Ministry
of Health—complete rehousing in three
years—is about one year behind and is
costing more than double the original
estimates," said the report.

"Local authorities in England are left
in charge of the work unless they fail
to show results in which case the busi-
ness is turned over to the office of works.

"There are housing bond campaigns all
over the country. In London, subscrip-
tions to the six per cent bonds are com-
ing in at the rate of about 100,000 a
day, while the local governments are is-
suing six per cent bonds, the British
government charges seven per cent. Bor-
rowing in the ordinary way for housing
schemes not financed by bonds is usually
seven per cent.

On July 21, the total number of hous-
ing schemes in England and Wales num-
bered 10,673, covering, in all, land for
800,000 houses. Of these 7,120 have been
approved with an area for 550,000 hous-
es. In Scotland 103,000 houses have
been authorized, the bids averaging about
1,000 pounds per house. This is roughly
about 100 to 150 pounds more than it
costs per house in England."

Twelve Men to
Be Hung in Two
Days at Chicago

CHICAGO, Sept. 3.—All records for
legal executions in Cook county and pos-
sibly the state of Illinois, will be broken
here Oct. 14 and 15, county officials be-
lieve, when twelve men are sentenced to
be hanged for murder.

Eight of the men are under sentence to
die Oct. 14 and four on the following day.

Chicago has had several wholesale ex-
ecutions in the past—the most notable be-
ing on Nov. 11, 1887, when four of the
Haymarket anarchists were hanged—but
nothing in the memory of jail officials that
approaches a death list of twelve in
two days.

Hangings in the Cook county jail take

place in the corridor of one of the main
cell blocks. There is just room for a dou-
ble gallows so it is probable, according to
George F. Lee, the jailer, that the men
will be executed in pairs. The hangings
will cost the state approximately \$5,000,
including a \$100 fee for the sheriff for
each man hung.

Those to be hanged Oct. 14 are Sam
Cardinella, leader of a black hand gang
whose members confessed several mur-
ders; Nick Viani, Thomas Errico, Frank
Campione, Sam Lopez, Joe Castanzo, Sam
Ferrara and Henry Reese, the latter a
negro.

The Oct. 15 list includes Arthur Haen-
sel, Richard Wilson, Harry Andrie and
Frank Zager, Haemel, who killed his
wife, was to have been executed last
spring but was granted a reprieve five
minutes before he was to have marched
to the gallows. Andrie was convicted of
killing a woman while robbing a fac-
tory safe. Wilson was found guilty in
the same case, although he was on an-
other floor of the building when Andrie
killed the man. The jury de-
cided that as an accomplice he was equal-
ly guilty.

LOOK FOR ITALIAN WHO AVENGED BETRAYAL OF SISTER

By JOHN STRUTT, International News Service Staff. **ROME, Sept. 3.**—The police of several European cities have been asked to search for Rosario Bilotta, who brought to a tragic end an illicit love affair between his young sister, Caterina, and an old magician, Francesco de Cicco, whose alleged powers of sorcery won him fame through all Calabria.

Cicco abandoned his wife, another famous sorcerer, who was known locally, for "The Goat" and went to live in a little cottage hidden away in the olive groves with the pretty Caterina. Caterina is only seventeen and Cicco seventy. The villagers attributed her infatuation for the toothless old man to his marvelous powers of magic.

"The Goat" did not dare to intervene directly, but she wrote to Caterina's three brothers, who were in the United States. They drew lots and Rosario was selected to avenge the family name. He arrived in the town of Lladelfia recently and spent two weeks following his sister until he learned the location of the cottage. One night he entered while the old sorcerer was asleep and nearly decapitated him with an axe, forcing his sister to a lamp under threat of death.

When news of the crime reached the next morning, Rosario had disappeared. The Italian authorities believe he has returned to America under another name.

Irrigation by Inundation to Be Tried in Mexico
TORREON, Mex., Sept. 3.—The 1920 cotton crop in the Laguna district here is expected not to exceed 125,000 bales, compared with an estimated total when the crop was planted, or 250,000 bales. The pink boll worm, lack of water and shortage of labor are given as reasons for the crop failure, which will mean a loss of several million dollars to the cotton growers.

Has More Standard Draught Horses Than Any Other City in the Country

Standard stock horses of the horses now being used in the oil territory. Most of the horses, he said, are of patrician blood. Few horses other than those of the powerful draught type are sold in this district, he said.

Ardell plans to take orders for approximately 200 horses and mules while here. This stock will be slightly higher in price than six months ago, he said, especially in the oil fields where deliveries are more difficult to make.

Incidentally, Ardell declared that a major part of the hay and feed used by the oil company stables is purchased in Ranger. Ardell has visited Ranger three times since the discovery of oil near Ranger and each time he has gone away with more orders for draught animals than he ever took in any one city or community, he asserted.

YOU DON'T HAVE TO TASTE BOOZE TO RECOGNIZE IT

DENVER, Sept. 3.—The sense of smell is just as dependable as the sense of taste where booze is concerned. This is the doctrine promulgated by Magistrate Henry Bray of the police court here.

Mrs. Frank Miltonberger, Fortieth avenue and Williams street, was arrested yesterday and charged with making moonshine whiskey. A policeman testified he had seen the liquor in her home. The woman declared he had merely seen jugs of bluing water.

"Did you taste it?" Mrs. Miltonberger demanded of the policeman.

The officer admitted that he had not tasted the stuff, but reasserted his belief that it was moonshine.

"One hundred dollars," the magistrate said laconically, as he borrowed another match from the bailiff.

ANTIPATHY TO WORK IS GREAT

LONDON, Sept. 3.—"I feel that the land must adopt some scheme for a conference or consultation between her cabinet and the leading men of her colonies—that is, if she wishes to hold them," said General Booth, the head of the Salvation Army in Great Britain, on his return to London after an extended tour to Canada, New Zealand, Australia and Ceylon.

"The war has drawn our colonies to us in a remarkable manner and the necessity to maintain this spirit of unity is some method of keeping them better informed."

"Prominent men out there, including these of cabinet rank, have said to me they feel isolated. We read in the newspapers what we really ought to know for the newspapers get it, they said."

In reference to the labor question General Booth said: "I found a constitutional antipathy to work growing throughout the world. It is a fatal condition," he concluded, "for work is the friend."

WIFE'S BODY HELD BY HOSPITAL UNTIL HUSBAND PAYS BILL

CHICAGO, Sept. 3.—Because he lacks \$75 to pay hospital expenses attendant upon the last illness of his wife, Joseph Chaper has been denied the right to remove the body of his wife from a local hospital. His six-weeks-old son, whose mother died shortly after birth, also is being held by hospital officials.

Chaper is seeking a writ of replevin for the body of his wife and surrender of his baby son.

TEXAS CO. FILES CROSS SUIT IN OIL LEASE CASE

By M. McCULLOUGH
Special to The Times.

EASTLAND, Sept. 3.—Several months ago J. B. Bennett and wife filed a suit in the district court against the Texas company to cancel a valuable lease on a 100-acre tract of land in the southern portion of Eastland county. The causes alleged for the cancellation of the lease are that the lease is unilateral, the acknowledgment defective and the lease lapsed for non-performance of its terms. It is alleged that S. W. Bishop was the owner of a third interest in the lease and that as notary public he took the acknowledgment knowing that it was erroneously taken.

Now the Texas company files its answer and cross-petition and makes S. W. Bishop, W. O. Russell and R. D. Fry parties to the suit and asks for judgment against them for \$25,000 and alleges that Bishop is liable on his surety bond for negligence and deceit and with knowing intent taking a defective acknowledgment to a lease. The lease was made by the original plaintiffs to J. G. Bishop, son of S. W. Bishop, a lawyer of Gorman. Russell and Fry are the sureties on the notary bond sued on and are charged with being responsible for the wrongful acknowledgment taken by Bishop. The Texas company alleges that it will lose a valuable lease now worth \$250 an acre because of the notary's deceit and negligence in case the plaintiffs shall win their case.

DR. BLACKWELL HAPPY; BOOSTED SUFFRAGE IN 1855

NEW YORK, Sept. 3.—Dr. Antoinette Brown Blackwell, ninety-five years old, pastor emerita of the All Souls' Unitarian Church, Elizabeth, N. J., when told that the Tennessee legislature had ratified the nineteenth amendment granting women the right to vote, declared:

"This is the happiest moment of my life; I know now that before I die I will be able to go to the polls and vote."

In 1855 Dr. Blackwell toured the United States aiding Susan B. Anthony in her campaign advocating woman suffrage. From 1855 to 1870 she was minister of the Congregational Church at Butler, N. Y., her first charge after being ordained to the ministry.

PERSONALS

Frederick was sitting on the curb crying, when Billy came along and asked him what was the matter.

"Oh, I feel so bad 'cause Major's dead—my nice old collie!" sobbed Frederick.

"Shucks!" said Billy. "My grandmother's been dead a week, and you don't catch me crying."

Frederick gave his eyes and nose a swipe with his hand, and looking up at Billy, sobbed, despairingly:

"Yes, but you didn't raise your grandmother from a pup."—Harper's.

SOUTH TAYLOR COUNTY WILL BE TESTED FOR OIL

OVALO, Texas, Sept. 3.—South Taylor county will be tested out for oil in the next few weeks, according to statements being given out by oil men who have recently acquired two large blocks of land in Jim Ned valley, where two wells are to start drilling in the next sixty days.

One of the wells has been located on the R. E. Cannon farm, six miles south of Ovalo, and will be drilled to the depth of 2,500 feet. Lumber and other material was hauled out this week to build cook shacks and the derrick.

The other well will be located in the Jim Ned community six miles east of Ovalo on the Oscar Lackey place, where several years ago, while drilling for water, oil was found at a depth of 200 feet and the well abandoned.

Much excitement prevails in Ovalo and property is changing hands rapidly on the strength of these locations and many new-comers are visiting Ovalo looking over the situation.

McLEAN'S BODY TO GO TO MONTANA; NO NEW LIGHT ON DEATH

The body of Eddie McLean, who died in a Pine street rooming house early Monday morning from some unknown cause, will be sent today by the Milford Undertaking company to Butte, Mont., where his people now live.

The only facts surrounding McLean's death which could explain it are that he had a weak heart and about two hours before he became ill he had drunk a glass of coca-cola and taken three aspirin tablets.

According to physicians, these factors could have brought about his death under the circumstances which he was found.

TO EXAMINE MEANS OF VISCONTNESS CURZON

International News Service. LONDON, Sept. 2.—Viscountess Curzon, wife of Viscount Curzon, the British foreign minister, is to be examined as to her financial means because she has failed to pay an injunction of \$40 obtained against her for the hire of a fan electro-motor.

The vehicle was hired from the Hertford Street Motor company in July, 1919, who obtained the injunction for the amount due for its hire against her as a married woman.

The application to examine her as to her financial means was made before Judge Sir Alfred Thin in the Westminster county court. The judge granted the application after it was stated that she had paid no part of the debt.

FOUND CARDUI GREAT BENEFIT

South Carolina Lady Suffered Until She Couldn't Stay Up Or Go Anywhere. Tells How Cardui Helped Her Get Well.

Batesburg, S. C.—In telling how she found relief from troubles that had caused her much suffering, Mrs. E. E. Oswald, of this place, says: "Each month I would begin to suffer with my back and head. My limbs would ache and I would chill. I wouldn't be able to stay up, no matter what I wanted to do, or where I wanted to go. My people tried giving me different medicines and teas and tonics, yet I didn't get any better.

National Capital, Bee Hive During War, Is 'Sleepy Hollow' Once More; No More 'Loots' to Ogle Beauties

WASHINGTON, Sept. 4.—The blistering sun beats down on Pennsylvania avenue, the thermometer in the kiosks moans higher and higher, a few pedestrians dodge in and out of the shady places, street cars drone along and taxi drivers sleep at their wheels in the parking places.

The national capital is "Sleepy Hollow" once again. Washington is "enjoying" a normal summer. For four long summers Washington has been ablaze with war excitement. In 1916 there was always the question of whether we would get into the war, and the war heat made Washington forget the summer heat. In 1917 we were in the war and preparing in such a heat that Mr. Fahrenheit's little instrument secured small attention. In 1918 the reports from the front and the casualty lists drew attention away from climatic conditions.

In 1919 we were at peace, but the League of Nations debate in the capital made summer but a thing of passing mention. In 1920 "Old Sol" reigns once again and Washington is all but deserted, and those unfortunates who have to stay have plenty of time to realize that "it's a hot day."

After four years of the glamour of war, streets filled with uniformed men of every nation, noted foreigners in the hotel lobbies, distinguished commissions parading thru the streets, war heroes building the center of the social stage, and thousands of pretty girl war workers to catch the passing eye, Washington is again back to a pre-war summer.

Ennui is Washington's chief stock in trade these days. The president stays bravely on in the White House. Cabinet officers do their best to stay in town, but they are mighty hard to find in their offices or their homes. Congress has fled. The distinguished visitors are no more. A uniform is infrequent—the little second lieutenants of the polished boots and spurs no longer delight the feminine eye.

Washington is a deserted city and within the city limits lies a deserted village, just as deserted as that of which Oliver Goldsmith wrote.

Down through Potomac park, stretching picturesquely over many acres in the deserted village with its rows of buildings and its well-laid out streets and the grass is growing thru the cracks in the pavements, while spiders spin their webs uninterruptedly in the doors of buildings, swallows build their nests on the ledges and mischievous young "Davids" practice with sling shots on the windows as they pass by on their way to the "old swimming" hole on the Potomac.

Little by little Washington has recovered from the war, but it was not until this summer's heat became authoritative that the recovery became rapid.

Merely has to step out into Pennsylvania avenue any day now to realize that so far as Washington is concerned the war is over.

FARMERS TO HOLD WHEAT CROP FOR BOOM IN MARKET

FARGO, N. D., Sept. 3.—Many North Dakota farmers are preparing to store their wheat on their farms after threshing to await better prices. They are building granaries of lumber and of woven wire lined with straw and are purchasing iron granaries. This is being done especially by the small farmers who raise livestock and diversified crops and whose individual wheat acreage is comparatively small.

In pursuing this course the farmers are taking the advice of J. A. McGovern, chief deputy state grain inspector and manager of the North Dakota Mill & Elevator company.

"Hold your wheat on the farm," says Mr. McGovern in a statement issued to the farmers: "Don't put it in a public elevator. As soon as you put it in a public elevator it is placed on the market and its sale will not help prices. North Dakota farmers can fix the price of their own wheat as well as the government fixed it for them. You can build or buy small granaries cheaply. But whatever you do don't allow the tinhorn gambler in grain to rob you of what you are justly entitled to."

"When the crop is threshed you will find you have not raised any more than last year, and it looks as if the weight would be lighter. Rust has hurt wheat all over the Northwest. But if you handle the marketing of your wheat in a sane and wise way, you should receive a better price than last year."

Cured Her Different

"Then your wife wasn't open your mail any more?" "Not since a Texas friend sent me a horned toad by parcel post."—Judge.

Mrs. Lowbrow: "What kind of people are they?" Mrs. Highbrow: "I hear they used to allow a quadruped of porcine extraction to browse in the most resplendent apartment of their domicile."

Mrs. Lowbrow: "I'm so relieved. Some horrid women were saying that they used to keep the pig in the parlors."—Judge.

Will Irwin, in an address in Greenwich village, on birth control, told a story of a chap named Higgins, who got home one night to learn that his wife had given birth to triplets—three healthy, bouncing boys.

Higgins, overjoyed went to the boss' office next morning and recounted the are and wonderful thing which had befallen him. The boss felicitated him heartily, and the next day Higgins was sent for.

He hurried into the office again to find the entire firm assembled there. A handsome silver cup stood on the mantel, and the boss presented to him in recognition of the triple blessing which he had bestowed upon his country.

Higgins took the cup in his hand, bowed respectfully, and said: "Excuse me, sir, but is this cup mine now, or do I have to win it three years in succession?"—Boston Globe.

Salvation Army Drive Will Hold Meeting Monday

A mass meeting will be held by the people of Ranger Monday night at the Baptist tabernacle and it will be addressed by Ben. E. Keith and H. C. Burke of Fort Worth. The object of the meeting is to lay before the residents of this city the benefits to be derived from turning over their work to the local organization of the Salvation Army and providing it with the necessary funds to carry on the work.

The mass meeting is a prelude to the drive which will be made on Sept. 7 and 8 by the directors of the Chamber of Commerce in their capacity as advisory board to the Salvation Army, to raise \$10,000 in the city for the use of the army in relief work during the coming year.

The advisory board realizes the fact that a city of Ranger's size is bound to have many charity cases. Many people have, and will, need assistance. That this work might be put on a systematic basis and fall equally on the shoulders of all, the funds will be raised to remain in the hands of the board, but for the use of the army.

After the money is raised all cases where help is needed will be referred to the local officers of the Salvation Army and help will be extended in the proportion needed.

The present system, whereby the business people and others are drained for hundreds of dollars weekly, will be abandoned.

SOUTH AMERICA HOLDS TRADE EDGE ON STATES

WASHINGTON, Sept. 3.—South America wound up the fiscal year of 1920 with a balance of \$370,000,000 against the United States. Figures made public by the department of commerce show that exports from the United States aggregated \$490,944,179 while imports from

South America totaled \$860,944,300. Argentina was the largest importer from the United States, the total value of goods shipped to that republic during the 12 months ended July 1 being \$167,146,548. Brazil was second in goods purchased from the United States, the value being \$115,029,317. Brazil led the South American countries in shipments to the United States the total being \$281,271,794. Argentina was second with \$257,783,114. Chile's exports to the United States were valued at \$112,637,825, while

imports from that country were valued at only \$41,290,985. Columbia was fourth among the South American nations in exports to the United States and in imports from this country. The figures were \$54,100,217 and \$52,123,464 respectively.

SMOKE IN CHICAGO JAIL

International News Service CHICAGO, Sept. 2.—Captain George F. Lee, warden of Chicago's famous Cook County jail, has sanctioned smoking by women inmates of the jail. Captain Lee says:

"The women prisoners are citizens just like the men. I won't discriminate. Just as long as the women follow the army code of returning their burned match ends to their match boxes and don't throw them on the floor they are welcome

to enjoy a nice little smoke like the prisoners. We are living in an age of 'women's rights,' and what's good for men must be good for women."

So great has been the rush of immigrants from Italy that now in some districts there are no men left and the women are compelled to till the soil.

Now that the Tennessee legislature has passed the woman suffrage amendment, the woman of that state will erect a \$20,000,000 memorial building.
