

## Around Town

If there were any awards for the hard luck Jaycee, I am sure that there is no doubt as to which Jaycee is qualified.

It is unfortunate that something conceived in fun should end in an injury, but that is how it happens sometimes. The president of the Cisco Jaycees, J. B. Dennie, challenged Don Yarborough, president of the Ranger Jaycees, to a bull ride, during the last night of the rodeo. The challenge was met and the two non-cowboys were committed to their honor.

Mr. Dennie of Cisco rode first. Without any disrespect for his riding ability, he drew a more tranquil steer to ride, which he did for about four jumps.

Don, on the other hand drew one that was uncooperative from the beginning. On the first attempt, the steer fell in the chute. Not to be denied his opportunity to out ride his Cisco counterpart, the steer was put back in the chute and Don again climbed aboard. This time the steer kept its footing and proceeded to unseat Don in a somewhat ungentle like manner.

For his trouble, Don received a broken collar bone, and the admiration of many of his friends, this writer included.

Those of you that were at the Saturday night performance of the rodeo, I am sure, will not soon forget the young barrel racer, Miss Claudia Schmidt. Being a victim of cerebral palsy, her activities are limited which limits her pleasures. I know she could not help being pleased with the warm reception she received here Saturday night.

John Tibbels of the Ranger Farm Store is in the St. Josephs hospital in Fort Worth. Mrs. Tibbels reports that he will be there for several days. His room is number 247.

This picture shows the range of symptoms caused by black mold disease in peanuts. Three seedlings on left show infected crowns and the two on the right show infection of the underground part of the stem. (Tops and part of roots were removed from the plants for photographing).

## BLACK MOLD IS PROBLEM FOR AREA PEANUT GROWERS

A fungus called Black Mold has caused the major portion of the problem of unsatisfactory peanut seedling stands throughout the peanut belt this spring, according to information from the local county agent's office.

J. M. Cooper, local agent, received a letter recently from B. C. Langley, Superintendent of the Stephenville Experiment Station and E. R. Spears, A. & M. Extension Service Agronomist, advising of the cause of the wide spread damage.

The fungus may infest and kill seedlings before they emerge from the soil. Most often infected seedlings emerged and then wilted and died. Some die within a two or

three weeks period from this fungus but a few die as late as six weeks after emergence.

The fungus causes more trouble where a part or all of the skin is damaged or rubbed off, or the seed is split in the planter box.

No difference in variety susceptibility to damage from Black Mold has been observed in state wide variety tests.

Black Mold is a common fungus and therefore occurs in most soils. Rapid growth and spread occurs when proper conditions are favorable for the spore development.

Several local peanut growers have complained of poor stands due to the seedling dying upon emergence.

store was still full of shoppers waiting to be checked out.

The man had been in the store for some time and had aroused the suspicions of employees and some customers.

It was reported that the man ran from the store and jumped into a blue Pontiac parked at the side of Worth store. The get-away car was driven by a woman.

Later, an abandoned car believed to be the auto used in the get-away, was discovered about five miles north of Kokomo, by residents of that area. The sheriff's department was notified but no trace of the car's occupants were found. The vehicle had a blown-out tire and was stuck in deep sand in the roadway.

Later, it was learned that the couple had been staying at a lake Leon cabin for about two weeks prior to the robbery.

After they left the scene of

## Large Turn-Out Forecast For Ranger Election on Saturday

A large turn-out of voters has been forecast as the citizens of Ranger go to the polls Saturday, July 20, to ballot on the proposition of legalizing the sale of all alcoholic beverages for off-premise consumption within the corporate limits of the city.

Voters of the city approved the proposition of legalized sales in an election last March 23 with a record 1,301 ballots being cast. After sixty days of sales, the stores were ordered closed by the 91st District Court and the new election was called on the same petitions.

A. H. Powell, appointed election judge by the county commissioners' court, announced today that everything was in readiness for the Saturday voting. The polls will open at 8 a. m. and close at 7 p. m. All voting will be at the National Guard Armory.

In keeping with the election laws, Mr. Powell said there would be no ballot counting before the polls close. Named as clerks for the election were A. E. Crawley, Ross Hodges, Bobby Patterson, Don Yarborough, Hel-

en Boen, and Eva Kay Poyner. Tally keepers will be Mrs. Arthur Deffenbach, Mrs. H. H. Oliver and Mrs. N. E. Landers.

The March victory for wet forces was by a 11-vote margin. The court ruled the election null and void after a hearing before Judge T. M. Collie on June 17. After a ruling by the attorney general, the retail beverage stores were ordered closed and the stock removed.

The court held that the election judge's use of a rubber stamp instead of signing the back of each ballot personally was illegal and the election was declared null and void.

Following the court decision, Judge Collie ruled as follows: "It is also ordered, adjudged and decreed that the County Commissioners Court of Eastland County, Texas, be, and such Honorable Commis-

## Wet Elections Have Cost \$716.80

The four wet elections held during the past year in Ranger have cost Eastland County tax payers \$716.80, according to official records on file in the courthouse.

This total breaks down like this: Judges and clerks, \$552; supplies, \$158.63; and telephone expense, \$6.17.

Ranger voters go to the polls again Saturday to mark ballots on the issue.

## 2 Observers Appointed For Saturday Vote

County Judge Scott Bailey has appointed two election observers for the Saturday Ranger wet vote after being petitioned by requests for such officials.

Named are W. M. Ross, who served in a similar capacity in the March election, and Jack Robinson.

The petition, signed by approximately 40 residents, declared the signers to be in favor of the legal sale of intoxicants in Ranger, and asked that the two recommended named men be appointed, Judge Bailey said.

Unofficial word was that the dry forces did not plan to ask for observers, however, Wednesday was the deadline — three days before the election.

Two men from each faction were named observers during the earlier elections.

## FBI ACCOMPLISHMENTS

According to FBI Director J. Edgar Hoover, new all-time highs were recorded in FBI accomplishments in all major phases of operations during the 1963 fiscal year. Mr. Hoover disclosed in his report to the Attorney General that fines, savings and recoveries in cases investigated by the FBI during this period reached a new peak of \$186,225,348 — a figure representing a return of \$1.37 for every dollar appropriated for the FBI. A new record was also set for the eighth successive year with the location of 19,192 stolen motor vehicles in FBI cases.

During the past fiscal year, convictions in FBI cases increased to 12,816, the largest number for any peacetime fiscal year. Mr. Hoover noted that convictions were recorded against 96.1 per cent of all persons brought to trial and that 93 per cent of these resulted from guilty pleas. As a result of these convictions, slightly over 37,009 years of

actual, suspended and probationary sentences were meted out. In addition, seven life sentences were imposed.

According to Mr. Hoover, a total of 11,887 FBI fugitives were located, an increase of 724 over the previous year. Included in this number were nine members of the FBI's "Ten Most Wanted Fugitives" list and 2,514 violators of the Fugitive Felon Act who were being sought at the request of state and local authorities after they had fled across state lines to avoid prosecution, custody or confinement.

Commenting on internal security investigations, Mr. Hoover pointed out that as a result of evidence developed and witnesses supplied by the FBI, the Communist Party, USA was convicted in December, 1962, for failure to register with the Attorney General under the Internal Security Act of 1950, and a maximum fine of \$120,000 was imposed. Following this action, two national leaders of this organization were indicted for failure to register for the Party and 27 additional petitions were filed with the Subversive Activities Control Board against individuals who failed to register as required by law. In addition, intelligence and counter-intelligence information disseminated by the FBI enabled the Department of State to take action against Soviet and satellite officials who engaged in activities beyond the scope of their duties in the United States.

Continuing its long-standing policy, the FBI made its cost-free cooperative services available to Federal, state and local law enforcement agencies. In this regard, a total of 3,801 local and regional police training schools were held which were attended by approximately 105,000 officers. In addition, there were two sessions of the FBI National Academy during fiscal year 1963, bringing the total number of graduates to 4,354.

The FBI Laboratory achieved new highs with the receipt of 196,057 specimens of evidence which required 247,894 scientific examinations. The FBI Identification Division, which serves as the national repository for fingerprint identifying data, received an average of almost 23,000 fingerprint cards for processing each working day throughout the 12-month period. As the fiscal year ended, its files contained 167,397,932 sets of fingerprints representing an estimated 77,387,801 persons. Additionally, the FBI Disaster Squad, a group of fingerprint experts who are available to assist in identifying bodies of disaster victims, was dispatched to the scenes of five air crashes during the period.

Mr. Hoover also reported that approximately 130,000 items of criminal intelligence information were disseminated by the FBI to other law enforcement agencies during the 1963 fiscal year. Included were items received from FBI confidential informants which when passed to the authorities, resulted in the arrests of almost 3,400 persons.

### We Like to Talk About Abstracts —

... because making abstracts has been our job for many years. And it is an interesting subject. Most every day people come to us with their title problems. Some cases are tragic. Take the example of the couples who have spent their all for a home to find out later they have no title. But most title problems are simple and the abstract helps to make them simple. So before buying real estate better talk to us about the title.

## WHO WILL PAY THE CITY'S TAX BILL?

A check of the records will show you that seven business firms close up in Ranger during the month of December, 1962. These firms paid a total of \$5,000 in city taxes, school, county and state taxes.

This lost revenue to the city will have to be made up from some source. Vote for Legal Control of the Sale of All Alcoholic Beverages next Saturday and let new businesses provide this needed tax money.

(Sponsored by Progressive Citizens and Taxpayers of Ranger)

## VOTE SATURDAY FOR LEGAL SALES

... and help correct a legal mistake ...

WHICH WIPED OUT OUR CITY ELECTION AND CLOSED DOWN A NEW \$720,000-A-YEAR BUSINESS IN RANGER.

The paid professionals raised the legal detail which voided our election BUT NOT BEFORE IT WAS PROVED:

1. Legal Sales helped business in the entire community. Other merchants showed 15 to 50% increases in the two month period.
2. Legal Sales merchants can, and will, conduct their businesses with highest integrity. (There were NO sales to minors. NO DWI cases. NO drunks as the drys predicted.)
3. Property construction and improvements, leases, merchandise and rentals added \$327,000 in taxable assets to the city.
4. Legal Sales brought in trade territory dollars and kept Ranger money at home.

We do not want outsiders running or ruining this election Saturday or misleading any young or over-age, temporary residents. If you are a true, bonafide resident of the City of Ranger then be sure and vote at the Armory Saturday.

LET'S FINISH THE JOB!

Show the folks in Abilene, Mingus, Strawn and the bootleggers everywhere that Ranger people do not knuckle under to anyone. We won't be whipped by a legal detail... or a rubber stamp.

203 MAIN — RANGER, TEXAS

A weekly public service feature from the Texas State Department of Health

## Accent on Health

J. E. PEAVY, M.D., Commissioner of Health

When the first school bell rings this September there will be 264,783 six-year-old children entering school for the first time in Texas, according to estimated enrollment figures compiled by the Texas Education Agency.

In addition to the million-and-one chores that must be performed in getting the youngster ready for school — new shoes, clothes, health examination — most school districts require proof of age for beginning students. A certified copy of a birth certificate is usually requested.

Anticipating this, the Records and Statistics Section of the Texas State Department of Health is readying itself for the onslaught of requests for such copies that comes pouring in during the middle and late summer.

The problem is, too many parents wait until the last moment before requesting their copy.

Because of this, a temporary increase in staff is necessary. It takes a sizeable staff just to open the thousands of letters received daily, let alone search out the requested certificate, remove it from the thick volume, photograph it or make a certified copy, mail it out, and then return the original certificate to its proper place.

Years of experience have eliminated nearly every bottleneck. The operation is smooth and fast. Usually, the copy is mailed within a day or two after the request is received.

However, one serious bottleneck still exists — persons who insist upon waiting until the last few days before the school begins to mail in their request.

In recent years the last-minute rush hasn't been quite so

bad, but it is still a serious problem. Requests should be sent in as soon as possible. The State Health Department fee for certificate copies is \$1.50.

Certified copies can also be obtained from county clerks and local registrars for a similar fee.

Most important aid for speedy service — aside from getting requests in early — is complete and correct information.

Parents should include the child's name, his place of birth, date of birth, and the parents' name (including the mother's maiden name).

Armed with the correct information, a certified copy of birth card will be speeded on its way as quickly as many years of experience and a well-trained staff can send it.

**Washington**

"As It Looks From Here"

OMAR BURLISON  
Congressman  
17th District

WASHINGTON, D. C. — To people in the small caribbean island he is familiarly known as old, blind Blake. The title of his favorite Calypso song is "Never Mind the Noise in the Market Place but Beware of the Price of the Fish."

It is a story in song of the plight of a poor people, but it also carries sound advice. In the open markets, peddlers try to outshout one another in extolling the virtue of their produce. The loudest voice is supposed to attract the most customers, but the fish belonging to the loudest voice may be higher in price.

While attention is demanded by the score of issues facing the Congress and our Government, the so-called balance of payments continues to be a most serious problem. It is complicated and not easily understood, although the facts are fairly clear.

The United States sells more to foreign countries than it buys. In years past this figure has run from \$4½ billion to \$6 billion. There continues to be a comfortable margin of income, rather than outgo, insofar as trade itself is concerned, but foreign aid and military spending and private investment abroad reverse the situation.

The U. S. Commerce Department reports that the outflow of United States capital during the first three months of this year was at the annual rate of \$3,800,000,000. In

other words, at this rate it would be near to the deficit was held to a little more than \$2 billion or almost half of the two preceding years.

What does this mean? It simply means that with gold reserves being reduced to near the required amount to support our currency, should all foreign nations holding obligations against our reserve demand payment in gold, it would be a serious threat to the stability of the dollar. Most foreign nations demand that a part of their request for payment be made in gold. Whereas, at the present time our gold reserves are something over \$15 billion, in theory we could be called upon to produce more than \$25 billion in gold. It would be something like a "run" on a bank when every depositor wanted his money at the same time.

There is little or no danger of such a thing occurring in the immediate future, but the seriousness of the situation is in the long run. Should governments and dealers in goods and commodities lose confidence in the value of the dollar, seriously consequences could result. The dollar remains the strongest currency in the world, simply because of the confidence in it.

Strange as it may sound, some nations which we have helped most in the postwar period, having credits in this country, are those who threaten the greatest demand. While these nations actually owe us money, and are meeting their obligations, at the same time show disposition to demand a considerable portion of payments in gold.

Since World War II, we have helped the economy of some of these nations who now compete with us and, in addition, have furnished military assistance for their protection and that of the free world. These expenditures overseas, coupled with incentives given to private businesses in the United States to invest abroad, continue to aggravate the problem in the balance of payments.

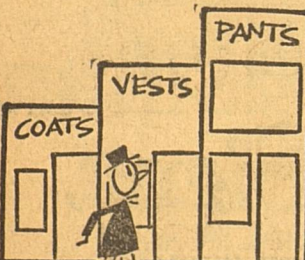

For this reason there should be a retrenchment of expenditures overseas and a demand on other nations that they assume a greater responsibility. While noises are loud on so many issues now demanding attention of the Congress and the Nation, we certainly need to heed "the price of the fish."

**Peanut Growers Association Plans Annual Meet Aug. 16**

The annual meeting of the Southwestern Peanut Growers' Association will be held August 16 at Stephenville. As has been the custom for several years, the meeting will be conducted in the Agriculture Auditorium on the campus of Tarleton State College.

This year's program will follow the theme of research which proved so popular last year with the capacity crowd which was present. Staff members from Texas A&M College and Oklahoma State University will present the very latest findings in important production phases such as disease control, weed control, insect control, varieties and fertilization and harvesting and curing. In addition, the peanut outlook will be reviewed covering the whole

realm of marketing. Following the lunch hour a panel will be formed to answer growers' questions regarding production problems. It is felt that this type program gives the grower the rare opportunity to direct his questions to those in the best positions to provide answers. Better education of growers and handlers is one of the best ways of building a better peanut industry. Many express the belief that last year's meeting which stressed improved curing techniques made a major contribution to improved quality of our peanuts. Last year SWPGA worked closely with the Southwestern Peanut Shellers' Association and research and extension branches of Oklahoma State University and Texas A&M College in the effort to make known the latest recommended practices in harvesting and curing peanuts. A committee on harvesting and curing practices was selected from the staff members of the two colleges. This committee, through a series of meetings, prepared its recommendations which were presented as a part of the 1962 Annual Meeting. In addition, the report was distributed to all peanut buyers and handlers in the Southwest. The meeting this year, therefore, is a continuation of the effort to bring about better yields and quality of peanuts produced in the Southwest.

Lunch will be served at noon, compliments of Southwestern Peanut Growers' Association. Tarleton President, E. J. Howell, Dean, Paul A. Cunyus and Agriculture Department Head, Joe Suttrey have assured Association officials of the same courteous and efficient hospitality this year as has characterized the college in the past.

## WHO ARE THE SUPPORTERS OF LEGAL CONTROL?

They are men and women who have lived in Ranger long enough to have deep roots — people who care about the progress of the community . . . people who support schools, churches, and civic projects that are worthwhile . . . taxpayers and staunch citizens.

They are law abiding people who believe in local people controlling the sale of alcoholic beverages — people who are opposed to bootleggers.

## MRS. BURNETT DIES AFTER BRIEF ILLNESS TUESDAY

Mrs. Ulala Howard Burnett, a resident of Cisco and Eastland County for most of her life, died at 6 a. m. Tuesday in Eastland Memorial Hospital after an illness of two days. She lived at 1505 Avenue D in Cisco.

Mrs. Burnett, the widow of the late Jim Riley Burnett, was stricken with a stroke soon after she dressed for Sunday School last Sunday morning.

She was found where she collapsed in the floor at her home by friends who drove by for her. A Rust ambulance took Mrs. Burnett to the hospital.

Born Dec. 12, 1882, in Magazine, Arkansas, Mrs. Burnett came to Eastland County via Comanche at the age of two years. She was in Cisco when the 1893 cyclone caused considerable death and destruction.

A member of the First Baptist Church since early childhood, Mrs. Burnett began teaching in the Sunday School at the age of 14 and was a popular teacher throughout her life. She seldom missed a Sunday and was devoted to her church.

Mrs. Burnett was connected with the schools of Eastland County for some 60 years. She taught in rural schools for 12 years and spent some 10 years in the Cisco School. She served six years as Eastland County School Superintendent, and served for over 25 years as a member of the county school board of trustees.

All of Mrs. Burnett's college training was obtained by attending summer sessions and

taking correspondence courses. While she was serving as county school superintendent, Mrs. Burnett attended evening law school conducted in Eastland by Judge Grady Owens. She and Mr. Burnett, whom she married in 1923, took the state bar exams and obtained their law licenses in 1929. They had offices in Cisco for many years. Mr. Burnett died in 1948.

A student of the Bible, Mrs. Burnett was the author of a booklet, "Handbook of Bible Rules and Remedies," which enjoyed considerable circulation.

Mrs. Burnett is survived by one sister, Mrs. J. S. Yeager, of Dallas, formerly of Putnam and Cisco; and one brother, Edgar L. Howard, an official of the MKT Railroad at San Antonio. Also surviving are 10 nieces and nephews.

Funeral services will be held at 10 a. m. Thursday at the First Baptist Church with Rev. Lee Bailey and Rev. Mart Agnew officiating. Burial will be in Oakwood cemetery with Rust Funeral Home in charge of arrangements.

## Brotherhood Of District 17 To Hold Rally Soon

ABILENE — Between 700 and 1,000 Baptist men from a dozen counties are expected at Hardin-Simmons University July 29 for the annual rally of the District 17 Baptist Brotherhood.

Featured on the program of the afternoon and evening rally will be Dr. James H. Landes, president of Hardin-Simmons. Dr. Landes will deliver two addresses, Lowell Queen, Abilene, district president, has announced.

Queen said 700 men attended the rally at H-SU last summer, and he expects that number to be exceeded this year.

The program will begin at 3:30 p. m. in the H-SU Chapel-Auditorium. It will recess about 5:30 for a steak dinner in the University Cafeteria, and will resume at 7 p. m., Queen said. Dr. Landes will speak at each session.

In addition, the program will include a talk by L. H. Tapscott of Dallas, secretary of the Texas Baptist Brotherhood, a panel discussion on "Christian Witnessing," and a demonstration of Royal Ambassador (boys) campcraft presented by the Rev. Lewis Markwood of Lueders and a team of RA members.

Music director for the rally will be Kenneth Hill, alumni director for H-SU. Jerry Malone, music and education director for the Southside Baptist Church in Abilene, will be accompanist. Clifford Leddy of Abilene, past district president, and Carlton Holder of Cisco, president of the Cisco Baptist Association Brotherhood, also will assist with the program.

Theme for the rally will be "We Be Brethern," taken from Genesis 42:32, Queen said.

Baptist District 17 counties to be represented at the rally are Knox, Kent, Stonewall, Haskell, Fisher, Jones, Shackelford, Stephens, Eastland, Callahan, Nolan and Taylor.

## New Drill Pay Plan Ready For Naval Reservists

A new program in the Naval Reserve will provide drill pay billets for scores of former Navy men in this region, according to an announcement this week by Commander Thomas Simoni, commanding officer of the U. S. Naval Reserve and Marine Corps Training Center in Abilene.

The program offers drill pay reserve status to former petty officers and identified strikers of Navy and Marine Corps service during World War II, the Korean Conflict and subsequently. Veterans of other services will also be considered and, in many cases, will be offered rates comparable to those they held on active duty and in civilian occupations.

meets on Monday nights while the Electronics Division at Brownwood meets on each Tuesday night. Officers and men in pay status receive a full day's pay for each weekly drill they attend. In addition, they are given an annual two weeks tour on active duty for training with full pay and allowances.

Former Navy men as well as other veterans and young men under the age of 18½ years were extended invitations to visit the Reserve Center in Abilene (1941 South Third Street) or the Electronics Facility in Brownwood (on the Howard Payne Campus) on any week day or drill night to obtain complete information.

Easter always falls on a Sunday between March 21 and April 26.

### A SAD STORY

Behind many "For Sale" signs there is a sad story: A family borrowed more than they could afford to pay for a home, or payments and interest rates were too high; the home had to be sold, often at a loss. This tragedy could often be avoided if the families would seek help from a home loan specialist, such as our Association.

We work with you to arrange for a loan that's as easy to handle as monthly rent.
