

## WILSON AND SENATORS CONFER ON STEP TO BE TAKEN IN MEXICAN SITUATION

### Jenkins Released by Mexicans

### TO USE ARMY IF GERMANY WON'T SIGN

LONDON, Dec. 5.—There was a persistent rumor on the stock exchange this morning that the supreme council of the peace conference had threatened Germany unless the final peace terms were agreed to.

It is said that the allies plan to occupy Essen and Frankfurt with troops should Germany fail to comply with the treaty. Yesterday Germany through the head of the German peace delegation at Paris demanded that the protocol of the peace treaty be revised, and declared that the treaty would not be signed until this was done.

Rumors here are that Germany's action in refusing to sign the protocol is a direct result of the failure of the United States to ratify the treaty.

### COERCION SUGGESTED

PARIS, Dec. 5.—Coercion is the only way likely to make an impression upon the Germans and induce them to sign the protocol of the peace treaty, according to today's newspapers.

It is said that a conclusion was reached as to what steps are to be taken at a secret session of the Council of Five yesterday, at which General Foch was present. It is reported that the address at Glasgow last night of Andrew Bonar Law in the mere threat of which brought the German plenipotentiaries to Versailles. During the meeting Clemenceau and Foch stated the unexpected departure of the German delegates from Versailles and the complicated points raised by the enemy.

The Petit Parisien says Germany considers she has gone too far and an unofficial note has been received from Berlin announcing that new negotiators will leave soon for Versailles. Foch's plan contemplated a rapid advance into Germany from the occupied zone.

### CONFER IN PARIS

LONDON, Dec. 5.—The official announcement for Field Marshal Wilson has gone to Paris in response to "an urgent summons to consult Foch in connection with the peace treaty," is regarded by some morning newspapers here as being of considerable significance.

The announcement is printed alongside the address at Glasgow last night of Andrew Bonar Law in which he said he believed the allies had the power and if necessary will exercise it to insure ratification of the Versailles treaty by Germany.

It is suggested that steps to exert pressure on Germany may be imminent.

### AMERICANS ARE WARNED TO GET OUT OF MEXICO

PASO, Dec. 5.—Border representatives of American concerns in Mexico today were preparing to carry out instructions for the withdrawal of American citizens employed by the border.

The immediate exodus of Americans from Mexico, is expected, however, American business agents are endeavoring to provide quick movement of Mexico of all Americans if such movement becomes imperative.

### YELLOW FIELD AT SIPE SPRINGS ATTRACTS NOTE

SIPE SPRINGS, Dec. 5.—The new-shallow field two miles west of Sipe Springs is now catching the spotlight, with the Dunn Small wells, and the possibilities underlying the townsite, also drawing considerable attention.

Peebles well is increasing its output and it is estimated as being good between seventy-five and eighty barrels on the pump at 280 feet.

WASHINGTON, Dec. 5, 2:30 p. m.—The Mexican embassy notified the state department this afternoon that American Consul Jenkins at Puebla, Mexico, has been released from custody.

### Bandits Raid U. S. Stores

HOUSTON, Dec. 5.—A raid by Mexican bandits on a store eleven miles south of Zapata, the county seat of Zapata county, is reported in advices received here today by General J. F. Wolters, commanding the Texas cavalry.

The report said that the owners of the store were bound and gagged, after which the place was looted and the bandits fled across the border. How many bandits there were has not been determined.

The information of the raid was telephoned by W. M. Hanson, captain in the Ranger service, serving as a special examiner for the senate investigating committee.

### RAID CLARENO RANCH. BANDITS LAST NIGHT RAIDED THE CLARENO RANCH, NEAR HERE, STOLE SOME HORSES, LOOTED A STORE ON THE RANCH AND FLED ACROSS THE BORDER. NONE BUT THE STOREKEEPER WAS MOLESTED.

### BECKETT GETS K. O. IN ROUND 1 IN LONDON BOUT

LONDON, Dec. 5.—Experts commenting on last night's fight in which Georges Carpentier knocked out Joe Beckett in the first round of their bout here, concur that the victory went to the best man because of speed and cleverness.

The Daily Mail's critic accused Beckett of "sheer stupidity."

Seventy-four seconds, as announced by the official timer, sufficed to decide whether Beckett or Carpentier should meet Jack Dempsey, the American heavyweight, for the championship of the world in June next. From the moment the referee called time Carpentier had the battle entirely in his own hands. Beckett never had a chance of hitting the agile Frenchman, who landed blows with enormous strength whenever he felt inclined.

Amid absolute stillness, most of the spectators could hear the terrific crack of the swing that put Beckett to sleep. There was a roar of cheering when Carpentier assisted Beckett to his corner, where the English boxer opened his astonished eyes and saw his opponent being carried on the shoulders of some of the enthusiastic spectators around the ring—and the Frenchman was smiling happily. The contestants presented a notable difference in appearance when they stripped and were introduced—Beckett swarthy and muscular; Carpentier white-skinned with slight figure. Carpentier looked about him as though accustomed to his surroundings. Beckett seemed somewhat nervous.

Peers, perusses, members of the house of commons, high officials of state, many women, most of whom were in evening dress, and the Prince of Wales, newly returned from his American trip, looked the fighters over critically as they squared up. As a fight, the contest was not spectacular. Carpentier was fast on his feet, dancing in and out and playing havoc with the Englishman from the first lead.

With lightning swiftness, Carpentier's left leaped out and caught Beckett on the face and a suppressed sigh was audible over all the house. A quick breakaway followed a short clinch and the Frenchman landed two more hard lefts. Beckett, with a sort of bulldog determination, forced Carpentier almost to the ropes. But this was a diversion for a moment only, for the Frenchman stepped back and then forward and with all his strength and full weight of his body, swung his right to the Englishman's jaw and Beckett went down and out.

### LITTLETON NO. 7 MAKES 800 BARRELS; SEVERAL WEE ONES TOTAL 1,000

Texas company has a fair well in J. C. Littleton No. 7, which is making 800 barrels, with pay from 3,490 to 3,520 feet. It probably will be regarded as a completion at that depth. It is the third well on the tract.

Perkins No. 4 of the Porter Wertz syndicate, in the Pleasant Grove territory, is a completion, sand 3,566 to 3,577 feet and initial production of 350 barrels.

Root, Hupp & Duff's Potet No. 3 had hard luck in its search for the lower pay, and ran into salt water at 3,580 feet. It is being plugged back and will be shot through the upper lime pay, from 3,365 to 3,405 feet, which was making 200 barrels before the shot. No. 7 on the same tract is an unusually strong gasser at 3,380 feet, with a spray of oil. It is estimated to be making 10,000,000 feet, which is a high figure for the Pleasant Grove territory. The big gas production is found north and east of there.

Hueco Ranger Oil company's Holleman No. 4 is another hard-lucker, from the shallow pay. It has five feet of sand, from 1,917 to 1,922 feet, and is pumping 150 barrels, about half salt water. A few hundred feet away, Hercules Petroleum company, on the Holleman farm, is scoring regularly with 200 to 600 barrel wells, natural flow, from the same pay, with no salt water.

Vulcan Oil company Hamor No. 4, developed as a shallow producer, sprung a surprise when the machinery for pumping was on the way out to the lease. The well was standing in oil, but had insufficient gas pressure to make it flow. The night before the pumping equipment arrived, it made a flow of 190 barrels and since has been making daily flows of 150 barrels. The pumping outfit will be rigged up, so that the well may be operated if the natural flows play out.

On the J. L. Harrison tract, Gholson, Moorman & Dorsey have their No. 12 ready to shoot, with a showing from 3,440 to 3,463 feet and 300 feet of fluid in the hole. It will be shot with 120 quarts.

### Congress Probe in Second Class Mail Handling

WASHINGTON, Dec. 5.—Reduction of second-class mail rates on publications without changing the zone system and computing rates on advertising contents was proposed in a bill introduced today by Representative Fess, who said that the bill was submitted to him by the American Newspaper Publishers' association, of which Victor Rosewater of Omaha is president.

A congressional investigation into the cost of handling second-class mail and the system of assessing charges also is proposed.

### State Will Get Royalty on Oil

AUSTIN, Dec. 5.—The state is soon to draw royalty from the vast oil development of West and North-west Texas. Sam Sparks has been given formal lease on the land in the valley of Red River on which he had a permit and on which a gusher was recently brought in. Heretofore the states' royalty has been confined to one well at Ranger and the wells at Goose creek, but if developments proceed along Red River as promised the state will get a few thousands into the treasury.

### Soviet Favored for the Germans

LEIPSG, Thursday, Dec. 4.—(Delayed.)—The congress of Independent Socialists in session here unanimously adopted a program declaring for a soviet system in Germany.

### GOVERNORS TAKE HAND IN COAL FAMINE

CHICAGO, Dec. 5.—The efforts of the governors of at least ten states to have sufficient coal mined to provide for domestic consumers and absolutely essential industries was the outstanding development in the strike of the bituminous coal miners today.

Restrictions have been placed on the consumption of fuel throughout the country from New York to the Sierra Nevada mountains as the situation at the mines shows virtually no improvement and miners are maintaining an attitude of hostility toward the 14 per cent increase in wages proposed as a basis of settlement by the government.

### KANSAS MINES BACK

PITTSBURG, Kan., Dec. 5.—Kansas volunteer coal miners went to work this morning. The weather has become warmer but continued wet. A misting rainfall is falling over the coal fields today.

The receivers of the mines are expected to be producing coal from a dozen mines today.

### GRAND JURY CALLED

CHARLESTON, W. Va., Dec. 5.—Lon R. Kelly, United States district attorney for the southern part of West Virginia, announced today that a special grand jury would be called next week to investigate charges growing out of the coal strike.

### INCREASE FOR TEXAS MINERS.

FORT WORTH, Dec. 5.—In a final effort to induce the striking miners of Texas to return to work, the Texas coal operators yesterday afternoon formulated a new offer providing for an immediate increase of approximately 15 per cent in wages and an agreement that in the event a higher increase was decided upon by Fuel Administrator Garfield or the conference of the competitive fields of the central west, it would be retroactive in Texas.

### MARTIAL LAW IN OKLA.

MCALISTER, Okla., Dec. 5.—Governor Robertson today issued a proclamation declaring military law in Pittsburg, Latimer, Leflore, Coal, Haskell and Okmulgee counties, effective immediately.

### END NEAR IN OHIO.

COLUMBUS, Ohio, Dec. 5.—Settlement of the coal strike in Ohio was very near today, according to reports to the office of Governor Cox.

### 76 ARRESTED; STEEL STRIKE OFFICE RAIDED

PITTSBURG, Dec. 5.—Seventy-six men, said to be striking steel workers, were arrested at Donora, Pa., today when troopers, state police and county officers raided steel strike headquarters.

The raid followed the explosion of a charge of dynamite under the residence of Felix Burkhardt, a workman, according to information here.

### Wichita Pipe Line Tie-Up Is Not Relieved

WICHITA FALLS, Dec. 5.—The pipe line congestion in the Wichita Falls district has not been relieved, and the general opinion that the situation has clarified is misleading, according to one of the most experienced oil men in the state. The feeling which has pervaded local oil circles since the recent advances in crude oil prices.

### SEN. FALL CHARGES "RED" PROPAGANDA SPREAD IN U. S. BY MEXICAN CONSULS

(By The Associated Press.)

WASHINGTON, Dec. 5.—President Wilson will see Senators Fall and Hitchcock at 2:30 o'clock this afternoon to discuss the Mexican situation.

Senator Fall announced this morning that immediately after the conference he would make a public announcement of the evidence on which he had based his charges in the senate that the Mexican ambassador and consuls in the United States have been circulating "red" propaganda.

Senators Fall and Hitchcock were named as a committee yesterday by the senate foreign relations committee to confer with the president and seek his views on the resolution of Senator Fall requesting the president to sever diplomatic relations with the Mexican government.

Senator Hitchcock's substitute to the Fall resolution proposing that congress assure the president its support should he decide upon a break with Mexico, also will be presented to the president. Senator Hitchcock, it was learned at the White House today, communicated with Secretary Tumulty last night regarding the conference and said it was not necessary for the president to see the senators immediately, but the president decided to have the conference today.

The senators will go to the White House after the president's cabinet has held a special meeting at which the Mexican situation will be discussed.

The meeting was called by Secretary Lansing, who spent two hours yesterday discussing the Fall and Hitchcock resolutions and the Mexican situation generally with the senate foreign relations committee.

The request of Hitchcock that the president see the senators was referred to Mrs. Wilson and approval for the conference was given by Dr. Grayson.

### RIGHT OF WAY BUILDING-LOAN ORDINANCE BY COMPANY CITY'S FIRST READING GREATEST NEED

The right-of-way for the Wichita Falls, Ranger and Fort Worth railroad, as submitted by Capt. H. F. McFarland, headquarters engineer for the Hamon & Kell interests, received partial approval of the board of commissioners at Thursday's meeting, when the ordinance authorizing the closing of the streets necessary was passed to its first reading.

The ordinance, together with the franchise which the railroad asks, was referred to Levy & Evans, attorneys, and will have that firm's judgment before the question is considered at the two next regular meetings of the board of commissioners.

R. M. Davenport, sanitary commissioner of the city of Ranger, was present at the meeting of the board of commissioners, as were all other members of the board. He was greeted with expressions of pleased surprise on arrival. Past records considered, he may be expected to attend another meeting Tuesday, June 1, 1920.

### 21 DIVISIONS OF CZECHS ON WAY TO HUNGARY

COPENHAGEN, Dec. 5.—The Czech-Slovakian government has ordered the mobilization of the three military classes, says a dispatch from Vienna received here today.

A Prague dispatch says that 21 divisions of the Czechoslovaks are advancing toward the Hungarian frontier.

CHICAGO.—With 84,000,000 dozen eggs in cold storage vaults, Chicago is today paying \$1 a dozen for hen fruit.

# W. T. C. OF C. GETS CHEAPER FREIGHT RATE

That the West Texas Chamber of Commerce is constantly at work bringing about achievements for the section it represents was again plainly shown yesterday when it announced that a new freight rate on stone-ware, pottery and similar products from Fort Worth and West Texas points to Kansas City and St. Louis territories which will put the West Texas manufacturers on an equal basis with those in Illinois and Indiana, would reduce the rate to 50 cents a hundred pounds, which is considerably lower than that hitherto prevailing.

It is believed that this new rate secured by the West Texas Chamber of Commerce will result in exploitation of the great deposits of pottery and other clays and the opening of

large plants in the west. It is stated that some of the best deposits of paint play in the United States are to be found in the central west. That these will be developed soon, it is confidently believed.

The West Texas Chamber of Commerce is known to be working on a reduction of other freight rates at the present time. Since the organization began to function it has more than paid for all monies invested in it by the several subscribing towns, of which Ranger is a member.

## DUCKS DON'T LIKE THE OIL FIELDS AT ALL

Special to The Times.

EASTLAND, Dec. 5.—Ducks and other wild birds are giving Eastland county a wide berth, seemingly, since oil was discovered here. The web-footed fliers refuse to dabble in oil, and because most of the pools in the field have oil on them, the ducks fly on.

But the hunters follow them. Down in Callahan county, near Putnam, there is a veritable ducks' paradise, according to reports of nimrods returning from that section, and nearly every train out of Eastland west carries one or more oil men to that lake to hunt ducks.

## Bad Weather Is Retarding Output

Bad weather and resultant bad roads got into the production of the North Central Texas oil field for 6,000 barrels—that is to say, production decreased that much. All of the larger producing areas show declines in production except the Desdemona field, where there was a gain of less than 1,000 barrels in daily average.

Burkburnett declined more than 3,000 barrels. Ranger dropped 2,000 barrels and Stephens county showed a decline of about 1,500 barrels.

Following are the production figures:

Field—	This wk.	Last wk.
Electra	9,800	9,970
Burkburnett	88,750	92,175
Ranger	56,700	58,700
Desdemona	35,350	34,650
Stephens county	41,200	42,775

## Gas Stove Flames Do \$750 Damage

Fire at 505 Mesquite street brought the fire department yesterday. A frame house owned by Buck Roberts

and occupied by Derby Berry caught fire from a gas stove, which was turned too high. The department put the fire out in a few minutes. Loss on the house and furniture was about \$50, with no insurance. The value of the house and furniture was \$4,000.

The trucks stuck in a mudhole on the way back and all three were more or less damaged. The fire apparatus did not get back to the station until 1:30 this morning.

# FRANKELL

A new railroad town in the center of the most active oil field in Texas, in a county heretofore without a railroad. On the line of the Wichita Falls, Ranger & Fort Worth Railroad that traverses the oil fields of Texas through their greatest length and affords railroad facilities for the entire field. Frankell will become at once the center of supplies and materials for Stephens County.

## Sale of Lots Will Begin Monday, December 8

Frankell is in the great Stephens County oil field, 12 miles north of Ranger, 18 miles north of Eastland and about 20 miles northeast of Cisco. It is on the only railroad that traverses the county.

The site of Frankell was chosen with a view to serving the biggest oil field in Texas in the most acceptable manner. There is more active drilling in the neighborhood to be served from Frankell than in any like area in Texas. The town has been designed to afford every facility for handling the great volume of freight that must reach the oil fields here and in adjacent territory and its location combines a strategic position with reference to the oil fields and an agricultural territory where crops never fail and are frequently superior to those in any other part of Texas.

More than 1,000 wells are drilling or preparing to drill in the pools of Stephens County, that must be served by the railroad at Frankell. There are more wells drilling or preparing to drill in Stephens county than in any other county in Texas. The value of the oil produced in Stephens county is in excess of \$100,000 a day. The payroll in the vicinity of Frankell is now many thousands of dollars a day and the oil fields business that will center there at the railroad will probably exceed all previous records for the oil fields of Texas and for oil field towns.

## An Unequaled Investment

There is no better investment in the world than real estate, and town lots in Frankell, the only railroad town in a great oil field, that is also a superior farming region, are the best of real estate investments.

Plats of Frankell will be available at the townsite office of Hamon & Kell, builders of the railroad and of the town, on the opening day of the sale. These plats will show the price of each lot. All business and residence lots will be sold, no lots being reserved from sale. No lots will be sold in advance of the opening day of the sale, December 8.

### WHAT JAKE L. HAMON THINKS OF FRANKELL.

"This town is located in the center of the Caddo oil fields. I can stand on the townsite and count 1,000 drilling wells. It will be the center of the supply houses for Stephens county. A town where refineries should and will be built. This, in my opinion, will be the best town I have ever platted and sold. I believe that every investor will make money and that there will be 10,000 people on the townsite of Frankell making money faster than any other like number on the American continent within ninety days. No lots will be sold through the mails. We have no advertising matter. The purchaser, in order to make an investment in this splendid town, will have to be on the townsite and make his selection and purchase. This, however, will not prevent persons making purchase of lots by agents or attorneys representing their principals. I invite my friends to make investments here, and assure them that in my opinion they will reap a splendid return.

JAKE L. HAMON.

## Terms of Sale

Thirty per cent of the purchase price will be payable at the time of sale and the balance in seven equal monthly installments.

# Hamon & Kell

RANGER, TEXAS

# ROADS READY TO TURN BACK TO OLD OWNERS

"Only an urgent emergency would cause the United States railway administration to decimate the oil-burning motive power of the Texas & Pacific in order to maintain equable passenger and freight service on some other roads," declared Passenger and Freight Agent C. B. Jonz of the Texas & Pacific, in discussing the possibility of reducing the train service on the line as a result of the rapid dwindling of the coal reserves.

"In order that Texas & Pacific oil-burning engines might be used on far northern roads, it would be necessary to equip them with steaming apparatus to keep the oil in the tender sufficiently warm so that an equal flow might be made to the firebox. The engines we now have are adapted only to moderate weather such as obtains on southern lines. Even during the very coldest weather oil-burning engines occasionally fail to respond. This is particularly noticeable on some Texas railroads burning oil in the Panhandle. Engine failures are numerous.

"The oil field traffic cannot be decimated without the maximum disruption of business," said Mr. Jonz. "Even now the Texas & Pacific has not a sufficient amount of motive power to handle its constantly increasing business, though an immense number of new engines have recently been added and more are coming as fast as the shops in the north can turn them out."

At present five passenger trains are operated in each direction from Ranger. One of these which turns at Eastland requires only one locomotive. A very large number of freight trains handled by the larger type of locomotives are also handled through Ranger.

"To pull oil burning locomotives on northern roads remote from the oil wells would be rash. For instance, they could burn only oil. This could be secured only from a distance. It would mean that a large number of additional cars would be impressed into the service to clutter the lines and demand motive power to haul in order to provide the fuel for operation of the roads. For this reason I believe it would be impracticable for diverting oil burning locomotives from the Texas & Pacific at this time."

Mr. Jonz sees signs of the formal release of railroads by the government to their owners about Jan. 1. Already a number of persons who have held responsible posts with the U. S. railway administration have been returned to their pre-war positions in the transportation system of the nation, and men who were given other tasks in the program have been reinstated in their old places as presidents and general managers. Another clear indication of early resumption under private hands is the fact that railroads are gradually disavowing themselves from the association. They are appointing freight and passenger agents and district agents, showing that when the transfer has been made the lines will again enter the much desired competition which brought the lines up to pre-war efficiency.

That's No. Joke, Either. If it were as hard to get a drink as it is for most housekeepers to buy a pound of sugar, the effectiveness of the prohibition law would be doubted by no one.—Philadelphia Press.

**A NATIONAL CALAMITY.**  
Drastic action should be taken immediately by the government to relieve the fuel situation. Just what course this should be does not at this moment appear, but it is a self-evident fact that the government is the people, and the people are really suffering severely because a handful of coal diggers refuse to work until they get what they demand. The death of one person is more to be avoided than that all the miners should receive an increase in salary. With the present severe weather prevailing all over the nation thousands of people—both poor and rich—are suffering. Many a home is denied a fire. Many a meal is not cooked. Industries are

all unlikely unless the government shortly starts active and impressive action to relieve the present serious situation.  
The press may rant and the miners and operators may lead the newspaper columns about their patriotism to the nation and use the stereotyped phrase "We can't fight our government," but it is all buncme. If the present action of these two groups is not in bold defiance of the wishes of the nation, causing untold suffering and destruction to our government, we admit that patriotism is greatly warped. The present strike is nothing short of treason. Those who are engaged in it are selfish, murderous, and unpatriotic. They would rather see the nation freeze, industry paralyze, and foreign nations gain the ascendancy, than that they should lose a few paltry dollars or give way to the other faction.

## Not a Good Idea To Take Magistrate's Coat Would You Say?

Judge G. L. Davenport had a very fine overcoat stolen yesterday evening from the cloakroom of a downtown restaurant. The coat was covered a couple of hours by a young man giving the name of Delaney Johnson in connection with the theft.  
"I want to compliment the force on their clever work in this connection," Judge Davenport stated this morning. "When I entered the restaurant I hung the coat which interested in a conversation with friends and forgot to watch it. I was in the dining room about thirty minutes and when I walked over to the rack to get my coat I found it was gone. There was only one coat on the rack that looked like mine and I had the proprietor of the restaurant ask the patrons if the coat belonged to any of them. I thought possibly someone had made a mistake and taken my coat by his own. But a man identified the coat in question, and I concluded that someone had stolen my overcoat."  
"I notified the police and to work on the case. In a man in whose possession it had been locked up in the P. M. McGee and J. P. Denning were the two who arrested Johnson. They found him at the T. & P. depot. Johnson had a Ford automobile in his possession. When he had a car he is said to have replied: "No, but I would have had had let me alone a little while."

## Thursday Meeting Shows Increasing Strength of Legion

Growing interest in the John Barnes chapter of the American Legion was shown at last night's meeting at the Baptist tabernacle, attended by twenty-five members of the post, visiting members and several other guests.  
The chapter's increasing financial strength, no longer drained by rents since the Baptist church has offered the use of its building, was reported by Bob Hansford, finance officer, who stated that last Sunday's benefit at the Queen theater, netting \$155.20, brought the total in hand to \$324.  
Plans for further gains on the same and similar projects and going as far as to provide for building a club house of roomy size were presented by Miss Marie Gibson, who was in charge of the benefit last Sunday and who has secured the Queen theater and the opera house for benefit shows this coming Sunday. A box social is planned for next Thursday at the tabernacle, to which twenty-five or more girls will be invited.  
What the legion means and what it should stand for were the subjects of talks by the Rev. Harry Lee Virden, member of the American Legion at Leavenworth, Kan., the Rev. W. H. Johnson, pastor of the Baptist church, Leon D. Brooks, Al Hastings and R. H. Hansford. Mr. Virden took a strong stand for Sunday picture shows in oil field towns.

## HYATT GARAGE ONE OF BEST IN CITY

W. A. Hyatt, well known oil and real estate operator, has built one of the best and prettiest private garages in this city in Hodges' Oak Park. The garage is two stories in height and is built of concrete blocks, plastered inside. It is lighted with gas and electricity and all modern conveniences have been installed.  
Mr. Hyatt and family plan to live

in the garage until their new home in Hodges' Oak Park is completed.  
"I played a little joke on my wife," Mr. Hyatt said. "She didn't even know I owned the lot on which the garage is built. We often walked over and looked at it while it was under construction, but she didn't know it was mine. She would say, 'Now, if this was my building I would make this change in the plans.'"  
"The next time we visited the place she would be surprised to see that her suggested changes had been carried out and she thought the matter a considerable mystery. It was not until the building was completed that I told her it belonged to us."

## Barber Addition Proving Popular

The Barber Trackage addition, located on the T. & P. alley track, north of the Muskegee Tool company, is proving one of the most popular business tracts in this city. W. A. Hyatt is agent for the property. Twelve lots were sold in two days after the addition was placed on sale. There are ten acres in the tract.  
Wood & company of Okmulgee, Okla., have purchased a lot in this addition and erected a 50 by 140-foot building to house a wholesale produce business. The company has a number of produce houses in Oklahoma and one at Burk Burnett. The business is moving so briskly here that they have an option on the adjoining lot and are planning to double the capacity of their house.

## "EVENTUALLY YOU MUST" Why Not Today? Pay Your Taxes

310 Elm Street.

## Rev. Virden Leaves Tonight for Benton

The Rev. Harry Lee Virden, archdeacon of the Episcopal diocese of Dallas, who has been busy for a week in cities of the oil fields, helping organize for missions and churches, leaves tonight for Benton, where he will talk Sunday. He expects to return to Ranger within ten days. His permanent address in Dallas is 114 North Crawford street, and he would appreciate hearing from any communicants of the church.

Knowing how to use anaesthetics we do extractions absolutely painlessly.

# DR. JEFF HALFORD

Texas' Leading Dentist

You are going to have that dental work done—why not obey that ever insistent impulse and visit Dr. Jeff Halford's Dental Office today?

When all the prominent physicians and surgeons of the country agree and say that 85 per cent of all diseases of man are due to the teeth, "CAN YOU THEN AFFORD TO NEGLECT YOURS?"

Who in business wants to talk to you if your teeth are decayed and rotten, causing a fetid breath?

Dr. Halford's dental work is made right and feels right and is absolutely guaranteed.

Having had nine years' experience in specializing on crown and bridge work, I can deliver the best work money can buy.

# News Solos of World Sung by the Wires

**OKLAHOMA CITY.**—One hundred and fifty convicts in prison have been ordered sent to state coal mines under protection of soldiers to relieve the coal shortage.

**CHICAGO.**—F. Z. Cowles, well known newspaper editor and author, died Wednesday night at the age of 74. Pneumonia was the cause of his death. He was a well known sporting and dramatic writer.

**HEMPSTEAD, Tex.**—The building occupied by and the stock owned by M. Schwartz were completely destroyed by fire yesterday at a loss of \$35,000. One-third of the amount in insurance was carried.

**SAN ANTONIO.**—H. J. Brown, convicted of participation in a \$35,000 robbery of a local bank several months ago, was sent to serve a two-year term in the state penitentiary Wednesday.

**WASHINGTON.**—The present scarcity of white print paper would be investigated by the government in a resolution which has been introduced in congress by Representative Ricketts (Rep.) of Ohio.

**ELGIN, Tex.**—Four children are seriously ill from the reaction of anti-toxin administered for prevention of diphtheria. They will be taken to a sanitarium at Temple.

**BERRIAS, Tex.**—Strong and inexhaustible veins of lignite have been found three miles south of this place. Mining will be done at once.

**AUSTIN.**—Governor Hobby has ordered that the Texas Ranger force be brought to its maximum size and that other companies be organized for Mexican border patrol services, following action of the government to remove soldiers.

**AUSTIN.**—Two persons are seriously ill here as a result of drinking wood alcohol made into "innocent" drinking beverage. Wood alcohol, in one case, was blended with gasoline upon order of a recipe claiming the gasoline removed the poison of the wood alcohol.

**AUSTIN.**—The state highway commission has secured a number of tractors and road grading machines from the government which it will lease to counties so long as needed, if used carefully. It asks that counties refrain from purchasing high-priced graders and road machinery.

**AUSTIN.**—E. S. Slaughter, 67 years old, was killed Wednesday when knocked down by a street car. A negro was injured in a collision. T. C. Parr was seriously injured in being run down by an auto.

**AUSTIN.**—For the week 1,339 motor vehicles were registered with the state highway department, bringing the total since January 1 to over 324,500.

**WEATHERFORD.**—On the court house lawn a large tent is being utilized to stage the great annual poultry show for this city. Inability to secure a building for the purpose necessitated use of a tent. Many entries have been made.

**WASHINGTON.**—The Peruvian cabinet in a body has resigned, it was reported officially here.

**EL PASO.**—Sergeant James Allen, 25 years old, tried on a charge of murder of his 17-year-old wife September 15, was exonerated yesterday.

**GALVESTON.**—The wooden shipbuilding industry at Orange will resume shipbuilding in a few days. It has been closed down since cancellation by the shipping board of large war orders.

**ROCKWELL, Tex.**—Accidentally shot with a shotgun a few days ago, Seaborn Fincher, 11-year-old son of Clifford Fincher, died Wednesday. His leg was almost amputated by the

discharge of the gun in the hands of a playmate.

**MARSHALL, Tex.**—After forty-five years of continuous service with the Texas & Pacific railroad, R. W. Thompson, ticket agent, died here Wednesday. He had been in declining health.

**DALLAS.**—An embargo on all

freight to Kansas City because of labor troubles was announced here today. The order was promulgated through the Santa Fe lines, it was announced.

**HOUSTON.**—In a police raid here this week more than \$1,000 worth of liquor was taken and destroyed.

**CLEBURNE.**—J. W. (Bland) Young, charged with murder of Jim Franks, 57 years old, has been placed under \$5,000 bond. He and Franks engaged in a fight Thanksgiving following a difficulty over payment for cotton.

**DE LEON.**—The local postmaster has received wire instructions in-

the local office. The increase was still three additional postal clerks in due to the active co-operation of the chamber of commerce with the postmaster, it was stated.

**SAN ANGELO.**—Contract has been let for twenty-six miles of highway south of this city for the Del Rio-Candian highway at a cost of \$45,252. The state and federal highway engineers must approve the award before work shall start.

**ROCKFORD, Ill.**—Dave McBride was knocked out by Sam Langford Thursday night. An upper cut one minute after fight began ended the aspiration of the giant.

**M'KINNEY.**—Construction has started on the interurban station at this place. Contract calls for completion by January 1.

**SAN ANGELO.**—Election of officers for Tom Green County Medical association: Dr. C. T. Keyes, president; Dr. J. P. McNulty, vice president; Dr. H. W. Wardlaw, secretary; Dr. W. W. Cobb, treasurer.

**ST. LOUIS.**—To conserve fuel supplies all retail stores, save drug, will open at 9 a. m. and close at 5 p. m. it was announced today.

**EL PASO.**—Whittan McIntosh, soldier, sentenced to Fort Leavenworth for murder, has escaped, it was reported today.

## BACKACHE AND HEAVY FEELING

Weak, Nervous, Restless Woman in Arkansas Hears of Cardui, Tries It and Is Greatly Benefited. Now Recommends It To Others.

Peach Orchard, Ark.—Mrs. Nonie High, who lives near here, states: "Sometime ago I began to have trouble with my back. I would ache and I could hardly get up when down. I was so weak I would just drag around and did not feel like doing anything at all. I was so nervous I felt I could scream, and such a heavy feeling I could not rest at all. It looked like I was going to get down in bed."

I heard of Cardui and thought I would try it and see what it would do for my case. After taking a few bottles I grew stronger. The bloated, heavy feeling left me. I wasn't so nervous, in fact, felt better all over. I took twelve bottles and certainly was greatly benefited and can recommend it to any one as a tonic or builder. I often tell others how it helped and strengthened me."

Cardui is a mild vegetable tonic, with no bad after-effects. Its ingredients act in a helping, building way, on the womanly constitution.

Ask your druggist. He knows about Cardui. Some druggists have sold it for forty years.—Advertisement.

AMERICAN LEGION
WILL BE FACTOR
IN SPORT WORLD

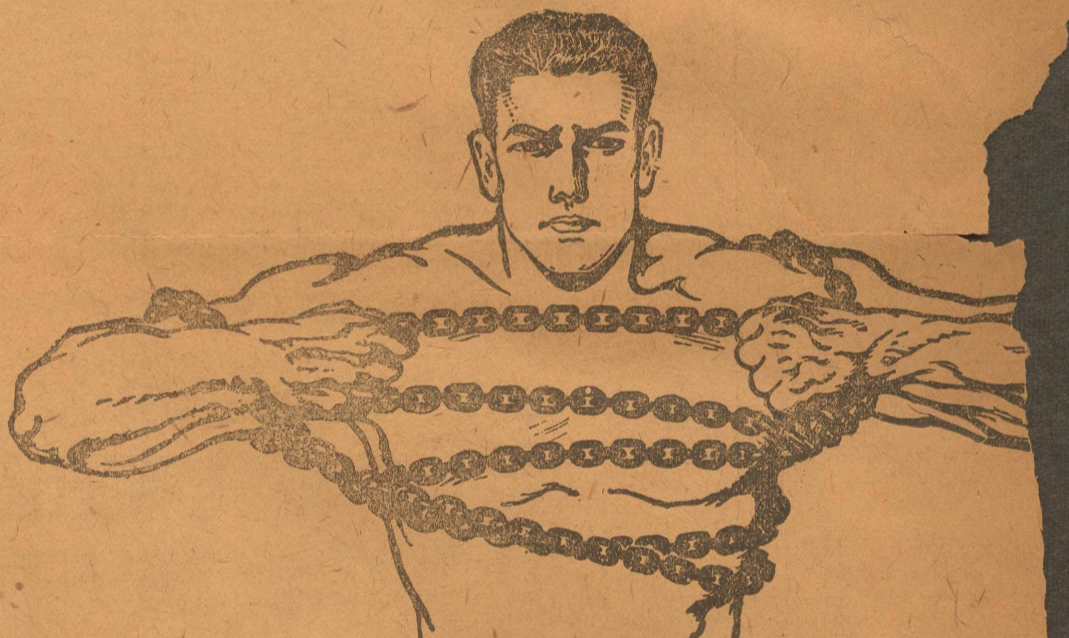

CHICAGO, Dec. 5.—That the American Legion is to become a powerful factor in both amateur and professional athletics in the United States became known as the day as the result of a series of conferences held in Chicago. The plan launched calls for the division of the nation into eight American Legion athletic zones, with a regional director in charge in each, and a series of eliminations in each zone. The champions to meet in the finals at San Diego, Calif., next fall in what the legion officials declare will be the greatest athletic tournament ever staged in America. The division into zones with headquarters will be as follows: New England states—Boston. Atlantic states—New York. South Atlantic states—Atlanta. Middle states—Cleveland. Mississippi valley—Chicago. Southern states—New Orleans. Mountain states—Denver. Pacific coast—San Francisco. The work of organizing each of these zones for participation in baseball, boxing, wrestling, track and field sports, football, bowling, tennis and golf will proceed at once. The San Diego tournament is to be an annual affair, beginning on November 1 or 2, and finishing on Armistice day, November 11. In addition to the athletic events, the legion will conduct an aviation meet, including racing events for both land and sea planes. \$300,000 ARENA IS PLANNED FOR S. F. SAN FRANCISCO, Dec. 5.—This city is soon to have a \$300,000 boxing arena to be built by Promoters Tom O'Day and Frank Lawler, if plans go through. Lawler announces that the building will be "close to the heart of the city."

DEMPSEY WON'T
FIGHT WILLS OR
OTHER NEGRO

LOS ANGELES, Dec. 5.—Dempsey is in Los Angeles to fight or do anything of the kind. He arrived with Jack Keenan, manager, coming here to appear in the movies under his much heralded motion picture contract. Dempsey was met by a movie studio delegation and then he talked with the newspapermen. Summarized, this is what he said: "He won't fight Harry Wills or any other negro fighter because he thinks the public wouldn't approve of giving anyone not white a chance at the championship. He'll fight Fred Fulton, Willie Meehan or anyone else."

FULTON SAYS DEMPSEY
COULD STOP EUROPEAN
CHAMPIONS IN 2 ROUNDS

NEW YORK, Dec. 5.—Fred Fulton, the American heavyweight boxer, who boxed several bouts in England recently, expresses the opinion that Jack Dempsey, whom Fulton desires to box again on a winner take all basis, could stop either Beckett or Jarpentier inside of two rounds, according to the homecoming heavyweight. \$35,000 Offered for Wilde-Lynch Go BOSTON, Dec. 5.—Rough matchmaker of Boston, is offering a \$35,000 offer for a 12-round decision go between Joe Lynch, westsider, and the wonderful my Wilde. Green's offer is a fide, as the backers of the club real money and do not as indulge in hot air.

Break Your Chains Be Strong and Well

Why drag along through life—half-sick, weak and tired out all the time? You can be strong and well—full of energy and vitality—growing with health, and thrilled with the joy of life. You can enjoy life. Rich, healthy blood makes the whole body healthy. Nature intended that everyone should be strong and well, and there is no mystery about Nature's laws. Oxygen is the life giver—necessary to maintain life. REOLO absorbs oxygen from the air in the lungs, carries it into the blood—rapidly—re-zing or revitalizing the red blood cells, and increasing the amount of hemoglobin in the blood, sending through the body a stream of rich, vitalizing, giving blood that nourishes the nerves, tissues, brain and

REOLO Makes Rich Red

If the supply of oxygen is not sufficient, the engine runs down, vital force wanes, the fire goes out and the whole machinery of the body stops. When the blood is vitalized with oxygen, the complicated structure of the cells of the body is broken down, and the energy liberated which serves to drive the human engine. REOLO acts on the blood, and by constantly cleansing and revitalizing it converts the blood into a vigilant guard against the insidious attacks of disease. It assists every natural force in the body. It makes it possible for the blood to build up what the stress of daily activity, overwork, over-exertion and overtaking of the body tears down—new blood is cast out—new cheeks fill out and glow with health. To the step, to the health and vigor cleared to millions of life. By special L. Reusing we have the distribution the labor positive results Large

# FINE OF \$50 FOR FAILURE TO USE SEWER

Every Ranger business man or resident whose home or place of business is within reach of a sewer line in operation is compelled to make connections, according to the compulsory ordinance passed by the board of commissioners at the meeting Friday afternoon. The ordinance was drawn up by Levy & Evans, and was without a dissenting voice. It is immediately effective and carries a fine of \$5 to \$50, with successive days of failure to constitute a separate violation assessable as such.

All restaurants and cafes must provide waste water hoppers, according to another ordinance which was approved.

The warrants in the amount of \$275,000, which will be sold to Brown & Cramer of Wichita, Kan., until such time as the city issues bonds to cover cost of paving, were the subject of another ordinance, which provides for a tax assessment in 1920 for their payment.

## THEATERS

### FARNUM'S REALISM CREATES SENSATION IN NEWEST PICTURE

William Farnum, the William Fox star, made a truly dramatic sensation lately, without intending it, in the Fox studios, when filming his latest photodrama, "Wolves of the Night," which calls for a portrayal of insanity—a strong powerful man suddenly driven insane.

When Farnum was picturing these particular scenes for the William Fox production, appearing at the Liberty today, working them up to the artistic perfection for which he always aims, he held a spellbound audience in the studio.

When, as Bruce Andrews, he comes of a mine explosion, his mind unbalanced, Farnum seems to have gone back many years to his age.

In making this scene Farnum's portrayal was intensely realistic and distinctly out of the ordinary. When present grew pale, men stood about and one little extra girl gulped. He seemed to be in very fact a madman he played.

In preparing for this picture, one of the most powerful he has yet produced, with his usual studiousness, made an investigation of every type of insanity he was to portray, for when William Farnum after realism on the screen is no child's play of the camera. With this magnificent careful actor shows the shield in the man the devoted husband and

### PEGGY ARRIVES AT THE OPERA HOUSE

"The Ace of the Saddle," the new release featuring their star, Harry Carey, starts at the Opera House tomorrow. The production even the high standard of the previous Carey pictures. "The Ace of the Saddle" is essentially a Carey picture. Of thrills and plenty, of careful conscientiousness by the star there is a voluntary member of the supporting cast deserving of praise for the part in which he performs his part as the deep-dyed "villain" to the comedians who throttle the moment that looked like it was to drag.

"The Ace of the Saddle" was written by Frederick J. Wood and produced under the experienced guidance of Jack Holt. The credit for the success of the Carey pictures, Peggy's leading woman, makes an excellent foil for the star.

Harry Carey's fast friends and associates in life and on the screen, plays the part of the sheriff of Yucca county who is sent to the life of the reformed and King Fisher (Ed) and Buffalo Bill wild west

fame, is seen in a quaint serio-comic role of "Home Sweet" Holmes, the ranch foreman. Little Zoe Rae and Howard Eastick, two of the littlest of the film favorites, have parts which carry a kiddie love story parallel with that of the principals.

### AT THE LONE STAR

A favorite with two generations as a novel, "Told in the Hills" has been adapted to the screen at the Lone Star theater today as a Paramount-Arcraft production with Major Robert Warwick as the star. No effort has been spared to make it a picture of unusual merit. The scenes were photographed in the most picturesque sections of the Rockies, and a whole tribe of full-blooded Indians act as extras.

The familiar story of "Told in the Hills" centers around Jack Stuart, faces his future to marry a girl whom

his younger brother has wronged. He redies into seclusion in the Montana Indian country. He becomes a government scout, and, after many dramatic adventures, finds happiness.

Ben Turpin, who has a dual role in the Paramount-Mack Sennett comedy, "Salome vs. Shenandoah," which will be shown at the Lone Star theater today, twice escaped death in the picture, which is a dual comedy. Ben is not the least shaky, however, and expresses regret that he was not able to establish the record for near excursions.

### THE QUEEN THEATER

If one wanted to see a reproduction of the good old days when men and women stood in line to buy tickets for the movies he had but to pass the Queen theater yesterday any hour between 2 and 10 p. m. It was by far the biggest day's run for the Queen

theater. It was a regular Barnum & Bailey circus day affair. The S. R. O. sign went up at 2:30 and at no time from then till 9:30 were seats available. The occasion for this outpouring at the Queen theater was ex-United States Marshal Wm. Tilghman and his feature picture, "Passing of the Oklahoma Outlaws," and here we would like to say that "passing" is right, for none of them got away. For he it known that Bill treats 'em rough.

J. S. Barlow, city engineer, is in Dallas for a consultation with the Henry Exall Elrod Engineering company.

## Marriage Licenses

Joe Anderson to Miss Maude Jones. Eduardo Rudiger to Miss Lucrecia Cubero. Joe H. Boon, El Paso, to Miss Velma Rieterson, Mangum. Henry E. Cruse, Ranger, to Miss Fae E. Eatherton. One certificate not for publication.

Mrs. W. H. Flowers, of St. Louis, is visiting friends and relatives in this city.

# Last Day THE LIBERTY

William Fox Presents  
WILLIAM FARNUM

in a Story of the Great Northwest and Wall Street  
"Wolves of the Night"

### ITEMS OF INTEREST IN THE PICTURE

Story of a man who wins back wife and wealth after years of insanity.  
In which a big man who believes in himself overcomes great odds and defeats a gigantic conspiracy.  
How one of nature's noblemen went through hell to give the woman he loved luxuries.  
Story of a mining engineer who turned the tables on plotters who sought his life.  
How high crime in the Northwest found a tragic sequel in Wall Street.  
In which frenzied finance becomes the victim of its own criminal projects.  
Moral strength reinforced by sublime love proves irresistible before evil.

If you enjoy the great outdoors and love to see a real fight where honesty defeats fraud, don't miss this one.  
(Signed) J. M. PALMER.
