DR. COOK DECLARED A 'CONFIDENCE MAN'

Good News is Told at C. of C. Breakfast Cotton Gin is to Be Enlarged

Plans for Ranger Trade Excursion to Be Developed at Once. Water Plant to Be Appraised in Anticipation of Being Bought by the City. Glass Factory on Way Here.

Announcement was made at the Chamber of Commerce breakfast in the McCleskey hotel this morning by Gifford Clegg that the owners of the Ranger cotton gin were so well pleased with the business they have done this year, it being more than double what they had expected, that at the close of this season they propose to substitute a new five-stand plant for the present plant of four stands. It is expected that next year's cotton crop here will be much larger than this year.

A. Joseph wanted to know what had been done towards the trade excursion for the Ranger business men. He insisted that action must be taken at once so the excursion could be held before the rush of the holiday season begins and the weather gets too cold. Secretary Bennett of the Chamber of Commerce said the matter was in the hands of the Retail Merchants' association and the Chamber of Commerce members would co-operate in every way.

President Dillingham of the Chamber of Commerce, who presided, said that plans to establish a glass bottle factory in Ranger were progressing nicely. The people of Ranger have done their part towards carrying out the proposed contract and some details of the plan are now being threshed out.

Frank Brown reported that an agreement had been reached between the Hagaman interests, owners of the Ranger water works, and the city commission calling for an appraisal of the water works property, after which the voters would be asked to express themselves on a bond issue, probably not in excess of \$200,000 to buy the distributing system and pumping plant, build a new pumping plant, a filtration system and extend mains to new parts of the city and enlarge mains that are at present inadequate. He said a contract would be entered into with the Hagaman interests for the purchase of water at 5 cents for each 1,000 gallons, and it would be possible to supply water to the people of the city at not exceeding 50 cents for each 1,000 gallons and also make a sufficient profit to pay the bonded debt within 10 or 15 years. At the same time the insurance key rate would be reduced that another saving would be effected for the people.

The breakfast party was not so large this morning as the grape fruit, fried chicken and hot biscuits justified, but all attending were cheerful and an optimistic spirit prevailed.

T. & P. ASKS LEAVE TO ABANDON MIDLAND AND NORTHWESTERN

WASHINGTON, Oct. 16.—Receivers of the Texas & Pacific rail road today asked the Interstate Commerce commission for permission to abandon the Midland & Northwestern railroad, 66 miles in length, extending between Seminole and Midland in Texas.

The application says the road is notoriously insolvent and cannot be operated except at a heavy loss.

CHICAGO, Oct. 16.—David Lloyd George reached Chicago at noon today to be greeted by cheering throngs and a reception committee headed by Brigadier General Dawes. Lloyd George was escorted through the downtown streets, decorated with the American and British colors with thousands of spectators shouting their welcome as he and his family rode to their hotel.

OIL BELONGING TO INDIANS MAY BE SOLD, RULING

Secretary Works Accedes to Request of Osage Council For Present Prices.

WASHINGTON, Oct. 16.—Storage of oil, representing the royalty interests of Osage Indians, may be sold, Secretary Works ruled today at the highest posted price on crude oil.

The stored oil, representing the operators' interests, need not be disposed of at the same time, he ruled. The interest of the Indians is estimated at 500,000 barrels, which is being increased daily at the rate of 6,000 barrels.

The Osage Indians' council asked that the oil be sold at the current price, despite the unfavorable market quotations.

Mob of Hungry Men In Berlin Menaces Peace of the City

BERLIN, Oct. 16.—Hungry and unemployed numbering 500 stormed the city hall today and the situation was regarded one of the most menacing of recent disturbances. At least ten of the mob are known to have been wounded when the police drove them five blocks from the building.

Still determined, the crowd rushed to the Bourse, where brokers were seen hurriedly leaving the building and seeking refuge from attack. The Wilhelmstrasse was closed today as a precautionary measure.

Disturbances were also reported today in several suburbs of the city.

WATERMELON GROWER TRIES BURBANK METHOD WITH GREAT SUCCESS

DENTON, Oct. 16.—The boll weevil, foe of the cotton raiser and considered one of the biggest pests of the cotton districts, is responsible for a variety of watermelon which promises to make the dreams of the most ardent melon epicure come true.

Watermelons weighing more than 100 pounds may be common on the market in a few years. One tipping the scales at 123 pounds was raised this year by John P. Carter of Garza, Denton county.

He says the boll weevil refused to let him raise cotton and he turned to watermelons. In 1916 he effected a cross of three well known varieties—the Triumph, the Mountain Sweet, and the Tom Watson. Size came from the Triumph, flavor and thin rind from the Mountain Sweet, and firmness of texture, toughness of rind, and also flavor from the Tom Watson. It was not until 1919, however, that Carter began to realize what he had succeeded in doing. That year his largest melon weighed 78 pounds; in 1920 the prize of the patch tipped the scales at 87 pounds. He then began a selection of seed for size and in 1921 obtained a melon of 93 pounds and an entire crop average of more than 50 pounds each. It was last year that he topped the 100 pound mark with a melon weighing 102.

From one acre in 1922 Carter realized more than \$300. From four and a half acres this year Carter marketed a boat \$1,300 worth of melons, all at wholesale.

CONGRESSMAN DIES
GREENFIELD, Miss., Oct. 16.—Benjamin Grubb Humphries, 58, for 20 years a member of congress from the third Mississippi district, died early today from heart trouble.

Storm Warnings Are Displayed Along Texas Coast Today

HOUSTON, Oct. 16.—Storm warnings were displayed along the gulf coast today following reports of a tropical disturbance originating several hundred miles south, being received by the local weather bureau.

The storm, reported about 250 miles southeast of Galveston and headed for the Louisiana coast, was said to have attained hurricane intensity during the night. Several ships had altered their course to escape the blow.

HOUSTON, Oct. 16.—Danger from the tropical storm in the gulf was believed to have passed at noon today, so far as Texas is concerned, the weather bureau reporting the storm would not touch the Texas coast.

Woman and Child First Known Dead In Oklahoma Flood

OKLAHOMA CITY, Oct. 16.—Two persons, a woman and a small child, lost their lives in the flood last night when a nine-foot wall of water swept through Walnut Grove, a suburb of the city. Their names were not learned.

A man and a small girl were rescued from tree tops in Wheeler Park, in the center of the flooded area, at noon today.

The river is falling slowly, but little relief is in prospect for several days. Rain fell here today throughout the morning.

OKLAHOMA CITY, Oct. 16.—This city today was facing a rush of water down the North Canadian river. During the night, 15,000 persons were hurried from their homes, many having refused to heed the earlier warnings to leave, and refugees were streaming towards the higher lands as the crest of the flood, estimated at 25 feet, roared through the city.

Hundreds of homes in the lowlands seem certain to go down and a large area of the business district is threatened. The national guardsmen have been called out to prevent looting. About 100 blocks of the city were under water at 8 o'clock this morning.

Across the main channel of the river the flood is 15 feet deep. An additional rise of 18 inches would have thrown the water into the business district.

Train services to and from Oklahoma City was problematical, rail officials said today. The city water works dam is holding safely and the danger of higher water was thought lessened today with reports from the western section of the state that the river was falling. Ten miles above the city the river has receded slightly.

DIXIE SMITH OF KENT COUNTY KILLED BY FALL

Special to the Times
SNYDER, Oct. 16.—Dixie Smith, a prominent young ranchman of West Texas, died at Spur yesterday from injuries, received when his horse fell while working cattle on his ranch in Kent county last Monday. The young man was taken to Spur for medical treatment but never regained consciousness.

Smith was the son of George Smith, one of the pioneer stockmen of West Texas. He leaves a wife, the sister of former District Judge Cullen C. Higgins, and two children.

PRESIDENT SUGGESTS LOWER FREIGHT RATE

WASHINGTON, Oct. 16.—President Coolidge suggested today to Samuel Rea, president of the Pennsylvania railroad that a freight rate reduction be put into effect for wheat designed for export. The president said he felt that such action would be helpful for the wheat situation.

TO LAY CORNERSTONE FOR WASHINGTON MASONIC MEMORIAL

George Washington National Masonic Memorial.

In the presence of President Coolidge and thousands of the highest Masons in the world, the cornerstone of the \$4,000,000 George Washington National Masonic Memorial will be laid at Alexandria, Va., on Nov. 1. Charles H. Callahan, deputy grand master for Virginia, will use the trowel used by General Washington in laying the cornerstone of the national capitol on Sept. 18, 1783. The huge memorial, of granite, will be 260 feet in height, 180 feet wide and 260 feet in length resting on the commanding summit of Shooter's Hill, a part of the Arlington Ridge, overlooking the Potomac. Priceless relics of General Washington will be housed in the memorial.

FIFTEEN THOUSAND PERSONS DRIVEN BY FLOOD FROM THEIR HOMES IN OKLAHOMA CITY

OKLAHOMA CITY, Oct. 16.—The fury of the North Canadian river which rushed like a foaming sea nearly to the center of the city's retail district appeared to have reached its climax this morning, and the people of Oklahoma City turned to the task of caring for the 15,000 homeless and checking up their losses while waiting for the waters to recede.

The progress of the water up the chief streets in the business section of the city stopped shortly after 8 o'clock this morning, but is not yet receding. A break in the city reservoir which it is feared may drain the lake 2,000 acres in extent and 50 feet deep, may delay for many hours a drop in the river at this point.

The flood continued today to roar through the city, being two miles wide in places and having many currents in the lowlands. Efforts are being continued after several hours of futile attempts to reach several families marooned in their homes. No loss of life has been reported, but city officials are apprehensive that the flood may have claimed a toll of life from some who delayed too long in leaving their homes after the city's fire siren had sounded a warning that the water in the city reservoir had been let loose.

Many residents of the lowlands who believed their homes would withstand the flood refused to leave and had to be ordered out by the police. Many of these homes have since been swept away.

Following a report that between 75 and 100 men were robbing homes, deserted by flood refugees, a force of special police were sent to the lowlands with orders to shoot to kill anyone found pillaging.

Bread and coffee lines were established by the city at two of the city's leading hotels.

Virtually every church has been opened to the refugees and many lodge and business buildings thrown open.

Adjutant General Markham, himself confined to a hospital, directed 300 guardsmen by telephone in their rescue work.

When the embankment at the reservoir gave way, the river cut a new channel through farming land and then back to the old channel.

Police say that cries for help from victims at Wheeler park, a municipal resort, had ceased their cries and the fear is felt that persons making the appeals had drowned. Repeated efforts have been made to send boats in their direction. From the cries heard, it is believed to be coming from a woman and two children.

Relief workers said that outside help would not be needed. Railroad traffic is demoralized. The Katy railroad is maintaining service except on its Wichita Falls & Northwestern lines.

The west entrance to Santa Barbara channel, between Point Conception and San Miguel islands, always has been in ill repute among seafaring men, said Captain Davis. Its nickname, "the graveyard of ships," was earned about the time of Cabrillo, who there lost his life and was buried on one of the channel islands, according to stories which become legends. It is said at no other point on the Pacific have so many ships met disaster, and always the cause remained a mystery.

Captain Davis said he recalls many wrecks along the coast near Point Arguello dating back to the time of the mystery disaster of the Golden Horn. Always, said the old sea captain, those who escaped alive from the wrecks, when any escaped, have had the same story to tell, of suddenly becoming enveloped in a fog and then, without warning, crashing on rocks. Invariably, he said, the navigators had thought themselves in mid-channel, their instruments showing them to be on a safe course, when in reality they were miles from that course.

Miss Betty Dutton Is Voted the Prettiest Girl In Ranger High School

Miss Betty Dutton, a sophomore student in the Ranger High school, is the "hi's prettiest girl," according to the result of the balloting among the boys and girls.

She received 4,619 votes, winning by a narrow margin over Miss Christina Schmuck, who is a senior.

The balloting resolved itself into a spirited fight between the friends of the two girls after the announcement of the standing Friday. Miss Schmuck gained on her rival Friday and Monday afternoon, but not enough to come under the wire a winner. The result was announced yesterday at 4 p. m.

A small sum was paid by each voter, the proceeds to go for the high school annual, "The Touchdown."

NEW POLICIES OUTLINED FOR WAR VETERANS

American Legion to Devote More Time to Americanization and Immigration.

SAN FRANCISCO, Oct. 16.—The next national commander of the American Legion will hold a position of far greater power and responsibility than held by previous commanders, according to indications today as the fifth annual convention proceeds with its work. This convention is expected to mark a turning point in the legion's policy.

Heretofore much of the work of the legion has been devoted to bonus propaganda, finance and hospitals. Many of the delegates believe the legion can better devote the bulk of its time to Americanization, immigration and similar problems.

LEGIONNAIRES PARADE THROUGH SAN FRANCISCO

SAN FRANCISCO, Oct. 16.—Another city, larger perhaps than any captured by the American forces during the World war, has fallen to invading forces represented by the American Legion, which plans to celebrate its capture today with a big parade. Admiral Conz, U. S. N., General Joseph Haller and National Commander Alvin Owsley will review the paraders.

The Knights of Columbus invited the national officers of the legion and other distinguished visitors to be their guests at a reception and lunch at noon today. The afternoon program included receptions by the various veterans' organizations.

REMOSE OVER ACCIDENT RESULTS IN DOUBLE DEATH

COLUMBIA, S. C., Oct. 16.—O. M. Rhodes, 69, a quarry worker, and his wife, aged 67 years, were dead at their home in Newport today. According to reports received here, Rhodes accidentally shot his wife while cleaning a gun, and then, overcome by the tragedy, committed suicide.

Both were shot twice. According to his daughter, after the mother had been accidentally shot, Rhodes rushed into the yard and attempted to kill himself, inflicting a flesh wound. He then re-entered the house and fired again at his dying wife and then shot himself through the heart.

TEXAS PRESS LEAGUE MEETING IN SHERMAN

SHERMAN, Oct. 16.—The Texas Press league met here today with about 50 members present. After a ride about the city they were the luncheon guests at noon of the Rotary club and will be dinner guests of the chamber of commerce this evening.

MRS. R. B. WALTHALL DIES

AUSTIN, Oct. 16.—All state departments were closed today out of respect for Mrs. R. B. (Beth Gerardin) Walthall, who died following an operation for appendicitis. She was the wife of the chief supervisor of the oil and gas division of the Texas railroad commission.

FORMER ARCTIC EXPLORER HEARS HIMSELF NAMED

Prosecutor Outlines Case Government Will Try to Prove; Joseph W. Bailey in Reply.

FORT WORTH, Oct. 16.—Evidence to be presented by the government in the trial of Dr. Frederick A. Cook for the alleged misuse of the United States mails in the promotion and sale of oil stock will show that Cook and his co-defendants were confidence men instead of oil promoters or operators, John S. Pratt, special assistant to the attorney general, declared in an address to the jury this morning. He spoke several hours.

Pratt is to be followed by Joseph W. Bailey, chief counsel for the defense, who is expected to outline the case for the defendant.

"These men promoted companies to sell stock and not to produce oil and declare dividends," Pratt told the jury. He said that S. E. J. Cox, a co-defendant also similarly charged in another case at Houston, was one of the most consistent organizers of companies in the state and that the public had invested between \$6,000,000 and \$7,000,000 in the stock of companies organized by Cook and Cox and others. He described the literature sent out by them to prospective buyers of stock as "lurid, flamboyant and untrue."

Pratt quoted from a letter sent out by Dr. Cook to stockholders of the Petroleum Producers' association declaring the association had bought holdings in the Smackover field near where the Texas company had paid \$2,000,000 for a lease. Pratt said the land purchased was 15 miles distant. Another letter told of a gusher pouring out 25,000 barrels daily, whereas, according to Pratt, the production of the well in five months was only 11,000 barrels of oil.

The law firm of Greathouse & Wade, who with Senator Bailey, are counsel for Dr. Cook, will be active with the former senator in the defense. Associated with them for S. E. J. Cox, another of the defendants, is Harry Jahn and John M. Cobb of Houston.

For the prosecution the government has assigned Judge S. R. Rush and John S. Pratt as special counsel with District Attorney Zweifel.

BAILEY OUTLINES DR. COOK'S DEFENSE

FOR WORTH, Oct. 16.—An honest effort through a series of mergers to take hold of a dozen oil companies, which had become demoralized during the depression of the oil industry and convert them into paying institutions will be the defense of Dr. Frederick Cook, Arctic explorer, and his 13 associates on trial in federal court here on charges of using the mails to defraud.

Former U. S. Senator Joseph W. Bailey conveyed this information today and said that Cook would have made a success of the enterprise if he had not been interfered with by the government.

The government will seek to prove that Cook and his associates were "confidence men," and not oil men. Assistant U. S. Attorney General Pratt outlined the prosecution to the jury. Pratt read a number of letters sent out by the Petroleum Producers company. He termed the letters as "bunk."

SIX HUNDRED BALES OF COTTON GINNED HERE

There was no spot cotton in Ranger today, except one bale that came in during the morning and which was placed in the sun for a drying out. It will be ginned this afternoon and will make the six hundred bale at the Moss cotton gin.

There were few buyers but a price of 27.75 will be paid by one buyer if any cotton is put up for sale.

EASTLAND ELKS TO APPEAR IN MINSTREL

Eastland Elks are sponsoring a minstrel show at Eastland on Thursday and Friday nights at the Connelley theatre. The Elks have named the production "In Bad."

Young men and women from several counties are in the play. It is being directed by a producing company, which makes a specialty of amateur performances. There will be black-faced comedians and pretty girls, according to the press representative of the show.

The net proceeds will go towards the Elks' charity fund.

BIBLE THOUGHT
 A MORNING PRAYER—Create in me a clean heart, O God; and renew a right spirit within me.—Psalm 51:10.

Oklahoma Boundary Suit Summarized In University Paper

AUSTIN, Oct. 12.—Scientific investigations made in connection with the Texas-Oklahoma boundary suit are contained in a bulletin of 174 pages which has just been issued by the University of Texas. The authors are Dr. E. H. Sellards, chief geologist in the bureau of economic geology; Prof. B. C. Tharp, of the department of botany, and Dr. R. T. Hill, formerly of the University of Texas. The bulletin was published by the bureau of economic geology of the university, a special fund for engraving the maps having been provided by the board of regents.

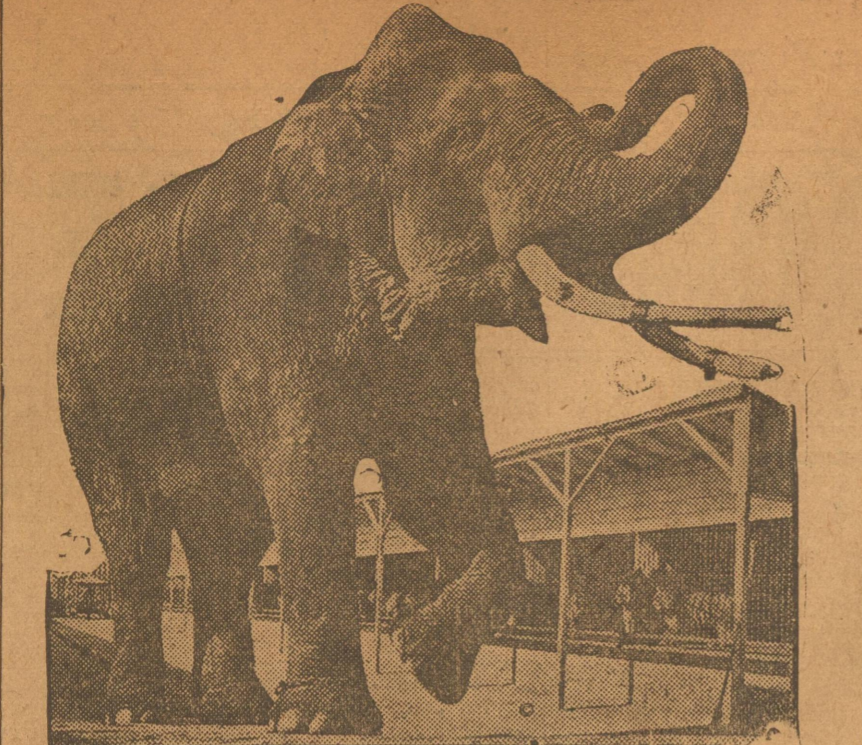

A list of maps included in the bulletin shows that 49 original maps and drawings were made by the state of Texas to illustrate testimony submitted; of these six maps and two drawings have been reproduced in the publication. Of 230 photographs submitted, 16 have been reproduced.

Defined by Treaty.
 The boundary suit which was instituted by Oklahoma, the United States becoming intervener, was for the purpose of defining more exactly the boundary line on the Red river between Oklahoma and Texas. Although somewhat indefinitely defined by a treaty made in 1813 between the United States and Spain, the actual boundary line on the Red river had never been marked on the ground. The United States and Oklahoma claimed under this treaty all of the river valley land to the foot of the Texas bluff as a part of the state of Oklahoma, to which Texas citizens now living on the land had no legal claim. This extension of the boundary line to the foot of the Texas bluff would have included as a part of Oklahoma valuable oil lands as well as the homes and farms of Texas citizens.

Investigations made by Texas were directed particularly to a determination of the age of the river valleys and to the habits of the river in building the valley lands. As a result of these investigations, it is shown in the bulletin that the valleys of the river are for the most part more than 100 years old, and hence were in existence 100 years ago when the treaty was made with Spain and thus are a part of the state of Texas.

Age of River Valley.
 In the determination of the age of the river valley land evidence was obtained from the timber and plant growth in the valleys, from the thickness, diversity and character of the soils, from the methods of the accumulation of sand dunes, and from the fossil bison remains found in the valley. The habits of the river in building its valley land are likewise fully described in the bulletin. The decision of the supreme court rejects the "island building" theory advanced by the United States and Oklahoma and accepts evidence as to the methods of land building and age of the land presented by Texas. Under this decision all of the river valley lands on the Texas side including grazing and farm lands and homes remain in the state of Texas throughout the entire course of the river, where it forms the boundary. Of the oil wells involved in the controversy the greater number including all of those located in the river valley are restored to Texas ownership while a smaller number located in the bed of the river become the property of the United States.

ELEPHANT "TUSKO" CLAIMED TO BE LARGER THAN FAMOUS JUMBO

Here's "Tusko," billed as "the largest creature that walks the earth," by the Al. G. Barnes four-ring wild animal circus, which is to appear in Ranger for two performances Wednesday, Oct. 17. "Tusko" stands a foot taller than did the famous "Jumbo," and weighs ten tons. Al. G. Barnes is convinced that the giant pachyderm is a survivor of the mastodon age and this view is shared by several scientists who have examined the beast. Owing to his massive size, "Tusko" cannot parade and can be seen only at the circus grounds.

Circus People Have To Eat Once In a While, You Know

Around the "cook tent" hangs the circus, this is one of the axioms of the tented city and if you are up before daybreak to watch the long line of gaily painted cars of the Al. G. Barnes big four-ring wild animal circus crawl into the railroad siding, you will see a hurried loading of the first car the cook tent, or rather the big red wagon of that name, quick as the boys can get her off the car, it is hooked up to a tractor, eight horses or three elephants, two pulling, and one pushing, and makes for the show lot. In a twinkling, with what seems to be a handful of roundabouts, the mess tent is up, tables, cloths are being laid, benches put in place and the circus silverware, white granite plates, cups, saucers, platters, pitchers and vegetable bowls set at regular intervals. Most of this circus silverware resembles coach dogs for color. The constant banging that the pieces get in packing and unpacking 12 months in the year quickly bumps the enamel off.

By the time the dining room is ready, the cooks and waiters have a big log fire going and the coffee is beginning to boil, the potatoes are browning and the meat is almost ready to serve to the 1089 troopers of the Barnes show, who come pouring in from all directions.

By the time breakfast is all over the water wagon drawn by two husky elephants has arrived and leaves enough water to wash the dishes and enough for cooking the lunch and evening meal.

After dinner, which is from five to 6:30, the dishes are hurriedly washed, the remaining foods packed and the cook tent is loaded on again to the big red wagon and is on its way to the station as the crowds are arriving for the evening performance.

The number of children driving automobiles to school in Grand Rapids, Mich., has so increased the parking problem that the city safety department officials are considering placing a two-hour parking limit around all school houses, thus banning the practice of the children.

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfil the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale." According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments, corrects urinary troubles and neutralizes the uric acid which causes rheumatism. You may receive a sample bottle of Swamp-Root by parcel post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also medium size bottles for sale at all drug stores.—Advertisement.

OLDEN

OLDEN, Oct. 16.—Mr. M. J. Dillinger and George Waters are suffering from cuts and bruises received last week. They were accompanying Harry Aylward to Eastland in a sedan car and started to pass another car and accidentally got off the highway and turned over. Harry was unhurt while the car was badly damaged.

Mrs. J. C. Linn is also suffering with her throat being cut when a car ran into her car and threw her through the windshield.

Another party was enjoyed at the home of Mr. and Mrs. Ollie Wilkerson Friday night. Those present were: Misses Mary Weatherall, Veta Hawkins, Alice Akens, Merle Howell, Verlie Brussard, Jewell Russell, Julia and Cecil Hunt, Edna Naylor, Flora and Lola Branscum, Pauline Lamkin, Wilma Gullett, Clara Mae and Lavell Fox, Mr. Sid Webb, Lester Brown, George Waters, Sam Reynolds, Dick Yielding, Tommie Lee Fox, George Ford, Edwin Hargett, Joe Aylward, Herbert Flemings, Walker Rice, Cap Norton, Roby

DRINK WATER TO HELP WASH OUT KIDNEY POISON

If Your Back Hurts or Bladder Bothers You, Begin Taking Salts.

When your kidneys hurt and your back feels sore don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which helps to remove the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness. Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking and no doubt you will wonder what became of your kidney trouble and backache. By all means have your physician examine your kidneys at least twice a year.

MOST EXPENSIVE PRIVATE CAR
 The most expensive private Pullman car in the world has just been completely overhauled at the Piedmont & Northern shops at Greenville, S. C. It is owned by J. B. Duke, the tobacco magnate, and was used by President Woodrow Wilson and his secretary of treasury, W. G. McAdoo during the World war. The original cost of the car was about \$175,000, nearly twice the cost of private cars that are being built by the Pullman company.

MANY CANES FORGOTTEN

More than 300 walking canes and umbrellas are taken daily to the Lost Property department of Scotland Yard, London. Thousands of them are never reclaimed, but they remain there for the claimant who may turn up even after several years. Recently an American jokingly asked if the officials had heard of a cane he had left in a taxi cab in 1920. In two minutes the missing stick was handed to him.

DALLAS—Gas companies all over Texas are preparing to send representatives to the convention of the American Gas association in Atlanta City Oct. 15 to 19.

A Good Thing - DON'T MISS IT.

Send your name and address plainly written together with 5 cents (and this slip) to Chamberlain Medicine Co., Des Moines, Iowa, and receive in return a trial package containing Chamberlain's Cough Remedy for coughs, colds, croup, bronchial, "flu" and whooping cough, and tickling throat; Chamberlain's Stomach and Liver Tablets for stomach troubles, indigestion, gassy pains that crowd the heart, biliousness and constipation; Chamberlain's Salve, needed in every family for burns, scalds, wounds, piles, and skin affections; these valued family medicines for only 5 cents. Don't miss it.

Main Drag Stuff

Himself Receives Letter Defining Love That Isn't and Love That Is, on Which He Makes No Comment.

By P. G. T.

The latest left-handed compliment received on Main Drag Stuff comes from Louie Pena, who puts nuts and bolts on flivvers for a living. "Say, Paul," said Louie, "how much do you have to pay to get that stuff in the Ranger Times?"

Speaking of oddities in invention, we hand the diamond encrusted soda straw to Joe Davis, who janitors and runs errands for the Clinical hospital.

Q.—Why do you keep the finger nails on your little fingers about a half inch long, Joe?

A.—Well, suh, ah uses them finger nails for a lettah openah. This ceases the necessary foah reachin' into my pockets for a knife and makes the operation moah hurridly.

Also we have a letter from "A Oil Driller." He says:

Dear P. G. T. For the last week or two I have been readin' this here deep stuff regardin' love by a flosifer whose name is Bruno, same as my dawg.

This here flosifer is axin fer definitions from all kinds of people as to what they think love is or ain't.

Wuz thinkin' of sendin' this here postscrap to mister Bruno, but from the langwige which he uses I am afeared this kind of wooden have no chanst to go over the top with him, but as fer as he could figger wud turn out to be a duster like Any Petroleum No. 3 did until I unbayed the gang pushers order an brang in a gusher at 300 feet deeper than he said to go.

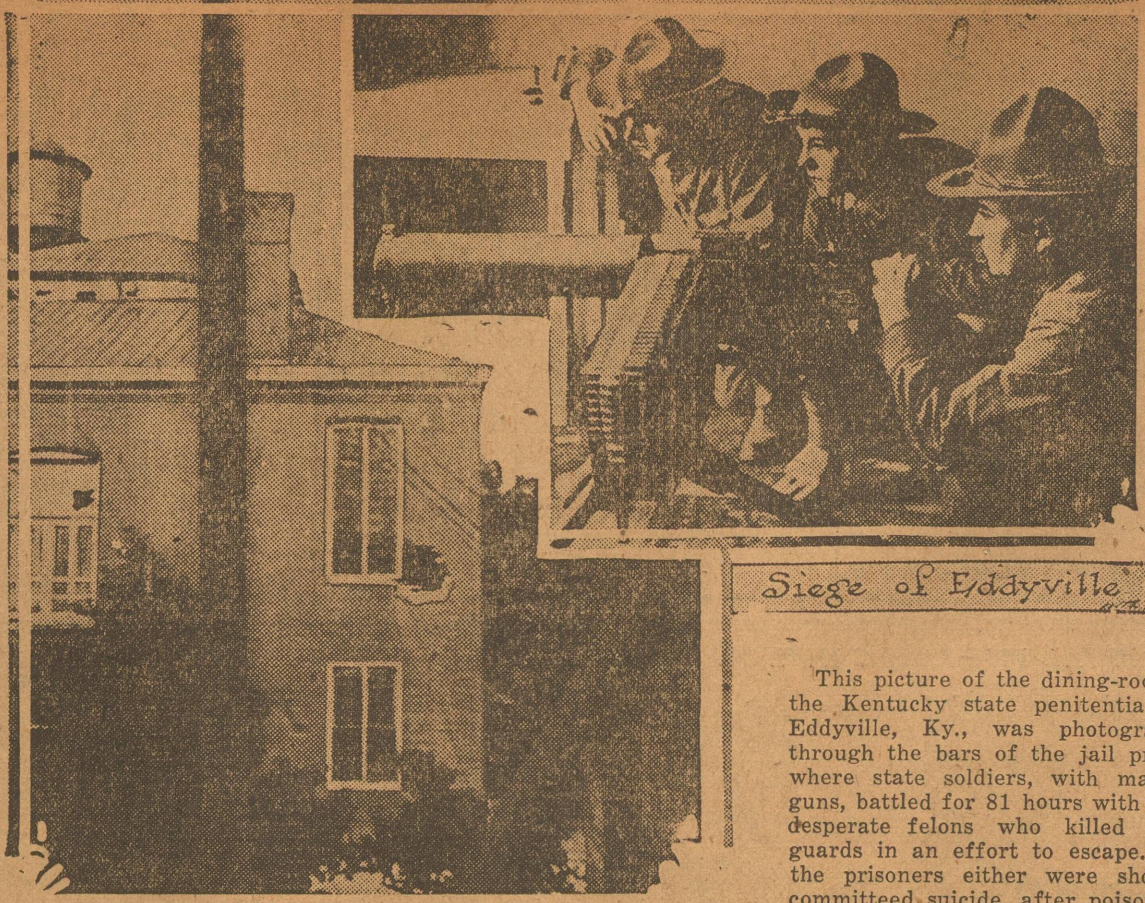

Speakin' of whof love ain't, reminds me of the first time I seen Blues Marie in a cabary. I feel just like the same as when Promoter No. 1 blew in fer what looked like about 5,000 barrels. Then after wile when I gets aquainted an watches her eat her gum an liscens to her tawk worsen I does, I feels just the same as when we started to pit some oil from that Promoter No. 1 and the boss allowed it was mostly salt water.

Then as to what love is like, the first time I notist Sally Ricker. She is a kute kid, which I figger is strange, because I ain't never noticed it befor. We walks together wadin' through mud almost nee deep and I tawks to her and she tawks to me and I fergets they is any mud. Fust warnin' I gets that the mud ain't all dried up is when I flops intr a hull lot of it bouten three fee deep and Sal has ter help pull me out.

This kinda sensashun seems like when I wuz workin' day tower and the Ramblers well on the Brode lease comes in just nice and easy at about 1,000 barrels and don't blow nothin' all to hell. I figgers it'll be steady and envies it different frum enveynin' Promoter No. 1, which comes in like a holy cuss and then comes out to be nothin' worsen a duster. Yores fer love,

A OIL DRILLER.

WHERE KENTUCY FELONS FOUGHT TO DEATH

Siege of Eddyville

This picture of the dining-room of the Kentucky state penitentiary at Eddyville, Ky., was photographed through the bars of the jail proper, where state soldiers, with machine guns, battled for 81 hours with three desperate felons who killed three guards in an effort to escape. All the prisoners either were shot or committed suicide, after poison gas fumes were poured into their barricaded fort. Holes made by machinegun barrages may be plainly seen in the dining room.

SWEDEN FINDS WAY TO EMPLOY IDLE MEN ON PUBLIC IMPROVEMENT

STOCKHOLM, Oct. 12.—The balancing of accounts at the end of the worst period of unemployment which Sweden has ever weathered shows the following debit and credit: A total public outlay of 30,000,000 to provide work for the jobless, about 1,500 miles of new and improved roads, many new bridges, new telephone lines, 46 new athletic fields, new aviation fields, new barracks, extensive forest improvements, and reforestation and opening up of large new tracts of arable land.

This information is the result of researches made by two leading Stockholm newspapers on the occasion of reporting the lowest amount of unemployment during two and a half years, the figures now being only 20,000 as against 163,000 in February, 1922. Practically all of the large funds expended have been for constructive relief work, while steadily decreasing sums have been set aside for direct subvention. At present only about 50 persons are receiving unemployment doles.

POLICE ARREST SPEEDER

Jack Boone, 25, was arrested by police yesterday on a charge of speeding. He pleaded guilty to the charge and was fined \$20.70.

AUSTIN.—Approximately 12,000 package libraries were sent out over the state last year by the University of Texas extension library but this number is expected to be greatly increased this year, according to Miss LeNoir Dimmitt, head of the division. Increased requests for books are attributed to numerous essay contests.

Church and State Must Always Be Separated Says Bishop Lawrence

WASHINGTON, Oct. 16.—Washington today is being moved by a religious appeal of vast significance. Recognized by most Americans as the political center of the United States, as the one city where politics is never adjourned, it is undoubtedly of nation-wide importance when this city takes an interest in anything not colored by, with or for politics. But, last Sunday when 28,000 or more Washingtonians crowded the great amphitheatre at the National cathedral everyone realized that politics was adjourned, at least for a day. These people, representing practically every denomination—since the public was generally invited and the Federation of Churches had joined in calling all Christians to participate—came to worship in the largest open air temple in the United States devoted to religion.

The day before, when the Rev. Dr. James E. Freeman was consecrated the third Protestant Episcopal bishop of Washington, Bishop Lawrence of Massachusetts sounded an important keynote of policy when he said that all churches in America should pledge themselves anew to the eternal separation of church and state. "We want once in a while," he said, "to put ourselves on record before the nation, all religious denominations, Protestant and Roman alike, all pledge ourselves to the eternal separation of church and state."

Bishop Lawrence said he made this statement for two reasons, one was because the president of the Continental congress and the first president of the United States were churchmen and they realized at the very beginning of our country's history that the church and state should be eternally separated. The second was because the plans of the Episcopal church to construct a national cathedral in Washington did not mean that the church expected the cathedral here to be in any sense a change in the historic policy of the Episcopal church.

Concluding, Bishop Lawrence said: "Experience has shown that whenever a church has pressed for influence upon an administration or government a boomerang has swung back that has hit it in the head. It is therefore for us to stand for the separation of church and state and for us to build up the spiritual life of the nation."

Thus the added significance of the great throng at the open air services at the National cathedral which the Protestant Episcopal church is building at Mt. Saint Alban, the highest point in the District of Columbia. Although everyone who attended the service could see the city of Washington, the capitol, the Washington monument and other government buildings in the valley less than four miles away, there was no thought in their minds of any connection between the church and state.

The service last Sunday, however, was only the beginning of great open air services which are to be held at the cathedral when the weather permits, until the cathedral itself is completed, and even then the amphitheatre of religion is to be used as a place of worship where the greatest preachers in America may be heard.

WEDNESDAY EVENTS

Rotary club luncheon 12:15 o'clock at Gholson hotel. Ad Libitum club meets at 3 o'clock with Mrs. D. L. Jameson.

PERSONALS

Mrs. C. D. Armstrong of Los Angeles is visiting her daughter, Mrs. N. D. Armstrong who resides on the Caddo highway.

MR. AND MRS. NENTWIG ENTERTAIN AT DINNER.

Mr. and Mrs. E. O. Nentwig entertained at dinner Sunday, Mr. and Mrs. J. B. Heister in honor of Mr. Heister's fifty-first birthday. In the afternoon music was enjoyed. It was planned and carried out as a surprise.

HOME-COMING AND FATHER'S DAY PROGRAM

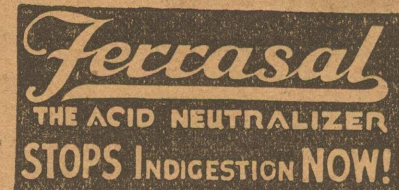

Home coming and Father's Day will be observed at the Central Baptist church on Sunday. It will be a rally day in the church from 9:45 to 12 in the morning. The aim is to have 400 in the Bible school on that day.

Father's Day service will be conducted in the evening at 7:30 o'clock, when the pastor will deliver an appropriate message. At this time special recognition will be paid to all fathers, living or dead. The Wednesday evening meeting will be devoted to preparation for these services.

ACID STOMACH CAUSES ULCERS

"I believe I had as bad a case of acid stomach as anyone ever had. I was in such condition that my food would no longer assimilate or digest and sores developed in my mouth even. My stomach was so sore from ulcers that the pressure of my clothes hurt me. I used FERRASAL and it completely cured me. I will recommend it to anyone as the greatest remedy for acid stomach, constipation and indigestion."

HENRY G. DANNELLY, 5663 Goodwin St., Dallas, Texas. Acid stomach is a seemingly harmless condition in itself. If not corrected it may result in ulcers of the stomach and then cancer. Don't neglect it. Buy a 50c box of FERRASAL from your druggist. Take regularly night and morning for a month. We guarantee relief or your money refunded.

Sold by Oil City Pharmacy.—Adv.

Calumet Expert Writes on Ease Of Entertaining

In writing on "Entertaining With Ease," Helen Harrington Downing, demonstrator for the Calumet Baking Powder says:

Delicious canned meats, boned chicken, or chicken a la king, meat loaves, all varieties of vegetables and fruits, besides relishes, cheese and other accompaniments, purchased ready to serve, all cut down the number of hours formerly spent in cooking and give the housewife more time to enjoy her family or guests.

With a small emergency shelf supply ready for unexpected occasions, and a few suggestive menus all ready to choose from, the fear of unexpected guests is entirely allayed.

An Easily Prepared Dinner.

Cream of Tomato Soup Canned Pork and Beans Sauted Potatoes Hot Baking Powder Biscuits Fruit Jelly Coffee

Standard Baking Powder Biscuits.

4 cups flour 1 or 2 tablespoons butter or lard 4 level teaspoons Calumet Baking Powder 1 level teaspoon salt About 2 cups of milk or water, more or less, enough to mix a very soft dough.

Sift flour, salt and baking powder together thoroughly. Rub in shortening with fingers, flexible knife,

Edison Records W. E. DAVIS Jewelry and Music

known as spatula, or rounding edge of a large spoon. With a little practice the spatula or spoon can be made to do better work than the fingers. Add milk or water, as cold as possible, mixing to a very soft dough. Mix with a spoon or flexible knife, in preference to using the warm hand. Turn dough on a well floured board, and roll out lightly till half an inch thick. Cut into biscuits and lay in baking pan, not too closely. Bake in hot oven from 12 to 15 minutes.

MOSUL OR NINEVEH?

Quite some agitation has arisen in British trade circles for the change in the name of Mosul in Mesopotamia, Turkey, back to Nineveh of Biblical history. Mosul stands very near to the ruins of Nineveh and some authorities maintain that it stands on the site of Nineveh's western suburbs only a mile or so from the site of the "bloody city" which Jonah saved and Nahum cursed.

\$100,000 STOCK REDUCING SALE \$100,000

Will close Saturday night. Just four days more of the greatest opportunity of all your life to get your winter supplies and have a nice bank account left to draw on for other necessities, or whatever you want to use it for.

OUR SALES INCREASE EVERY DAY

Regardless of the heavy rain all day yesterday, it was the greatest Monday's business we ever had in Ranger. Realizing the big rush is on for the next four days, we have employed extra salespeople to help take care of the crowds for the rest of the week. So come on and be one of the many fortunate people who get the best merchandise for the least money.

LADIES' DRESSES AND HATS

—arrived yesterday.. A real nice lot of Wool Dresses in good new styles. You would consider them very reasonable at the regular prices, from \$17.50 to \$39.50. On sale now from \$12.50 to \$32.75. Do you know how we do this? The great volume of business we are doing is why we can sell for less profit than our competitors. Keep the volume up, we'll keep the price down.

\$5.00 Saved Is \$5.00 Made

During the remainder of this week, we will give \$5.00 in gold to every customer that buys \$100 worth of dry goods, shoes, and clothing. This offer is just to prove our appreciation of the nice business you have given us during this sale.

COTTON

We want to buy your cotton at the highest market price.

J. M. WHITE & COMPANY

114-116 Main Street—The House of Values

SEE MRS. GRACE WHITEHALL IN OUR STORE FOR HEMSTITCHING

HIGH ELEVEN WILL BE NUMBERED IN 'BUCKAROO' GAME

Numbering of all the boys on the football team will be hailed with delight by the team's followers and also by the Times sports writer.

The latter won't again fall into the unpardonable sin of mistaking James Zarafonetz for his brother George or the other way around and give George credit for three touchdowns when he made but one.

Everybody knows Tom Yonkers by his size and Roy Wilson for his bow legs, but not every other man on the team has such "distinguishing" characteristics.

George says he is 18 months younger than his brother James but that they weigh almost the same, 155 pounds. They don't look very different physically from the sidelines.

The number will facilitate identification. They will be white and when No. 10 for example emerges from a mass play, he can be identified by consulting a printed program.

The numbers will be used for the first time Saturday at Breckenridge.

LITTLE FELLOWS OF THE RING TO GET CHANCE

By HENRY L. FARRELL, United Press Sports Editor.

NEW YORK, Oct. 16.—Some of the little fellows who didn't get near the festive tables that were set all during the summer will have a chance to pick up some crumbs during the indoor boxing season.

Practically all of the big championship cards were used up during the biggest outdoor season of years and the promoters in arranging winter bouts will have to call upon the lighter classes and the less celebrated lights to provide the entertainment.

Jack Dempsey is through until next summer, around New York at least, and Benny Leonard considers himself too big a card for "logical contenders" under a roof. They are the best drawing cards in the game.

Jim Coffroth has been talking about using Dempsey in a fight during the winter season at Tia Juana, but it is doubtful that he can find an opponent who would be a card good enough to draw the gate necessary to pay the champion.

Coffroth was talking some about matching Harry Wills and Dempsey, but from reliable information it was learned that he was using Wills only as a camouflage and that he never intended to use the colored fighter, as he considers him a very poor attraction in California, where Wills has made four very bad fights.

Wills should be able to get some work around New York if he gets down off his high horse and forgets that he is "the logical contender." As long as the colored challenger of the champion refuses to do anything asked of him, it will become more and more apparent that he does not care to take any chances and that he is desirous only of a big loser's end with the champion.

Battling Siki, being a curiosity, ought to be able to get some good purses next winter if the New York boxing commission is able to learn which of the six or seven who claim his contract is his real manager.

Tommy Gibbons ought to get anything he wants for fighting this winter, and there should be plenty of work for him. Promoters all over the country would like to use him, but he is booked up almost through the winter with vaudeville and movie contracts. Perhaps he is making a lot of money from these outside sources, but he is losing many opportunities for some fine purses.

Tex Rickard would like to put Gibbons on in three shows in Madison Square Garden. It has been suggested that Gibbons fight Floyd Johnson, and Gibbons is willing if a date suitable to both of them can be arranged. Other bouts for the St. Paul heavyweight have been suggested with Jack Renault, the Canadian heavyweight, who has been stepping along almost sensationally.

Leo Flynn, however, would want a lot of money to get Renault knocked over. He wanted \$30,000 to let Bill Brennan fight Gibbons more than a year ago.

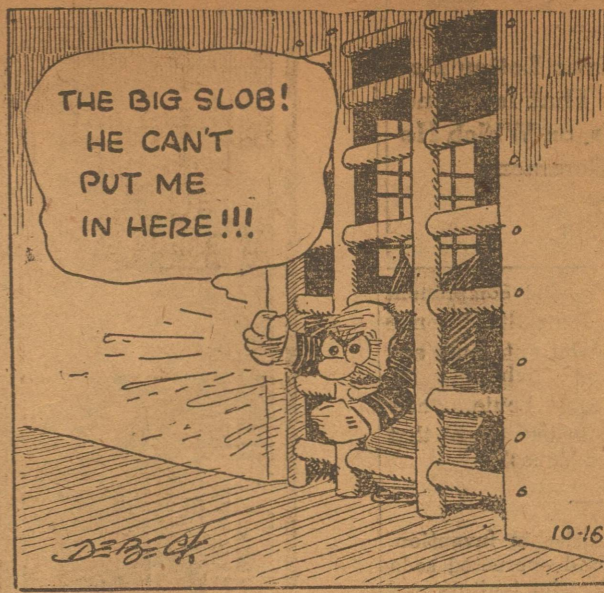

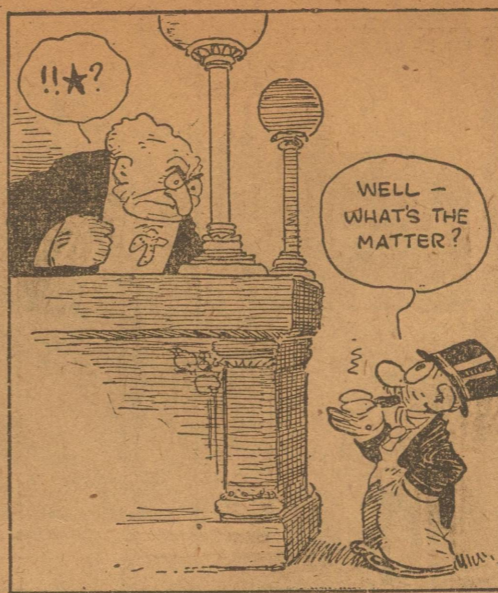

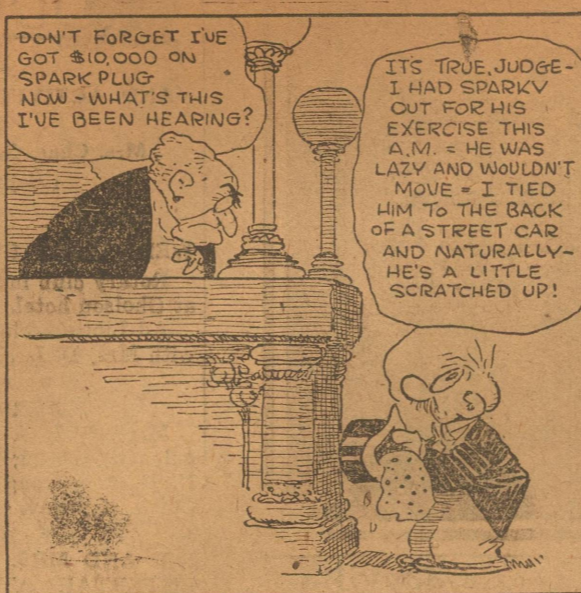

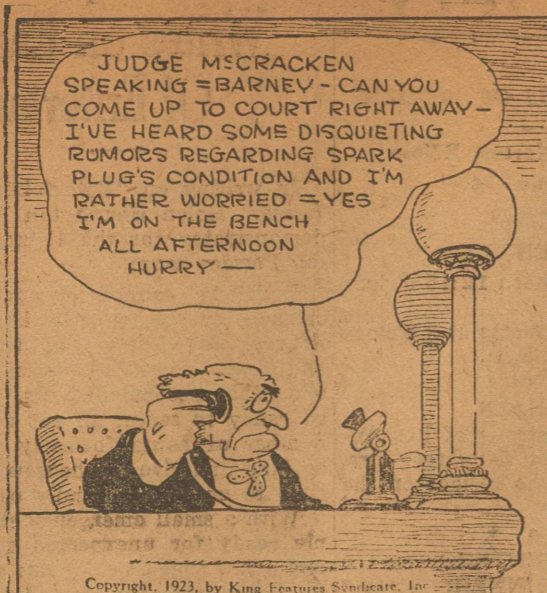

Gibbons would like to have Mike McTigue or Gene Tunney, from whom it would be possible to get a light heavyweight title, but neither one of them will have a thing to do with the only fighter who ever went the limit against the heavyweight champion.

POLICEMAN'S NOSE GUIDES TO THE "CHOC" BEER BREW

SHERMAN, Oct. 12.—A recent incident in Sherman can be used by "coppers" to prove that they should be allowed to sleep while on duty.

Patrolman Robinson of the local force was sleeping on a couch in his home when his nostrils were assailed with a wonderfully sweet aroma. He awoke but dozed off again. Again the same odor awoke him. He proceeded to investigate and discovered a neighbor manufacturing "choc" beer.

LANDIS THROWS FIRST BALL IN SERIES

Judge Kenesaw Mountain Landis, supreme power in the baseball world, is shown throwing out the first ball in the world's series between the New York Giants and the New York Yankees.

YELLOW CAT LEADS CHASE BEING MISTAKEN FOR FOX

HOUSTON, Oct. 13.—"Oh, a hunting we will go, tra la la, tra la la," sang 500 men, women and children as they ran pell mell through the streets in the industrial section here recently.

They were chasing a fox. They said so. One of the women had lost several chickens by a prowler and she had seen the animal.

Up the alleys and down the streets, with a pack of mangy mongrels in full hie and cry, led the chase. Though the classic English sport suffered from its dingy setting, the chase lost none of its ardor.

At last the beast was cornered under a bridge. Vigorously the structure was torn apart.

And the fox ran again, and it was a big yellow cat, and all the people went home again.

PERSONALS. Mr. and Mrs. Harry Pearson and little daughter, Phoebe Ann, are now living at the Gholson. Mrs. Pearson returned several days ago from a month's stay with relatives in South Texas.

Mrs. A. G. Jury is spending several days in Dallas.

COUNTY CONSTITUTIONAL CLUB MEETS IN CISCO

A number of Ranger citizens attended the meeting of the County Constitutional club at Cisco last night and reported an attendance of about 400 with some interesting talks by local speakers. The program that had been arranged with an outside speaker was changed at the last moment because of the wet weather.

BIG VALUE CLAIMED FOR UNIDENTIFIED PAINTING.

FORT WORTH, Tex., Oct. 12.—Is the copy of the fresco "The dispute of the Scriptures" missing from the Carnegie library here worth \$10,000 or valueless?

That is the question that has arisen since the copy disappeared from the library several weeks ago.

Mrs. Charles Scheuber, librarian, says it is ridiculous to value the copy at \$10,000 as J. H. Enfield, who owns the picture, claims. Enfield obtained the picture while serving in the Philippines during the Spanish-American war. He declared the canvas won first prize at the Paris exposition in 1897.

Mrs. Scheuber said a young man brought the painting to the library several months ago to be stored. It was put away and forgotten by her. Some today ago a young man called and asked for the painting and it was given to him. Later Enfield appeared and asked for the copy. He was told it had already been called for and taken.

Enfield has threatened suit against the library.

Luna, the artist who made the copy, is unknown among art critics here.

Four Years Ago In Ranger

Taken from the files of the Ranger Daily Times, Oct. 16, 1919:

The Jachamon hotel, the first hostelry to be erected in the new town is under contract. The new hotel will cost in the neighborhood of \$15,000 and will have 40 rooms. The building will be ready for occupancy by Nov. 15.

ARMENIANS TRYING TO STEAL THEIR WAY INTO COUNTRY ARE DROWNED

By Associated Press

DETROIT, Oct. 15.—Five of six Armenians in a rowboat, piloted by a Canadian, were drowned in the Detroit river near here early today when an unidentified steamer struck the boat and threw its human cargo into the water. The Canadian pilot also was drowned.

Abedes Godoshian, 40, of Delray, Mich., was the only person in the boat who was saved. The dead are: Elmas 22; Ozisanna, 18; and Hasgrat, 16, children of Abedes Godoshian, and Haig, 14, and Bagency, 16, children of his brother.

Godoshian told the police the Armenians were being smuggled into the United States from Canada.

TEXAS LEGIONNAIRES STAGE BIG STREET DEMONSTRATION

By Associated Press

SAN FRANCISCO, Oct. 15.—The fifth annual convention of the American Legion opened here this morning with more than 300 delegates from all of the states and territories and thousands of legionnaires and visitors here.

One of the largest demonstrations was staged last night on the streets by the Texas delegation. Headed by Miss Ruth Latham astride a gray horse and attired in cowboy garb, the Texans marched from the train to the hotel, where Col. Alvin Owsley is staying.

DAVIDSON WILL HAVE NO TIME TO GIVE TO PARDONS

MARSHALL, Oct. 15.—Lieutenant Governor Davidson said today that he would leave tonight or tomorrow for Austin, where he will occupy the governor's chair during Governor Neff's absence from the state.

He said that no consideration would be given by him to petitions for pardons. He declared he has already received several petitions and that during his last tenure of office he had hundreds of petitions for pardons filed with him.

"It takes entirely too much time to hear the applications and leaves no time for investigation," Davidson declared.

KANSAS CITY RACE MAY DECIDE NEW SPEED KING

By Associated Press

KANSAS CITY, Oct. 16.—The national automobile racing championship for 1923 probably will be determined here Thursday, Oct. 18, when leading drivers of the racing world pilot their roaring motors about the wooden saucer in a 250-mile speed classic. Fourteen entries already have been received for the event, which is a feature of the Priests of Pallas festival week.

Eddie Hearne, now leading in points for the 1923 racing laurels, will be here to defend his lead. "His most dangerous contender will be Jimmy Murphy, who cabled from abroad that he sailed Sept. 29 for the United States and would be in Kansas City for the race. Murphy's race points probably will be reinstated because of the demand from all parts of the country for such action, according to information to

local speedway officials from A. H. Means, secretary of the contest board, American Automobile association.

Other drivers include: Harry Hartz, Tommy Milton, Earl Cooper, Bennett Hill, Dave Lewis, Jerry Wonderlich, Harlan Duray. Several cars with unnamed drivers have been entered.

TRAIL OF MURDER BANDITS APPEARS TO HAVE BEEN LOST

By United Press

ASHLAND, Ore., Oct. 15.—The trail of the Southern Pacific murder bandits grew cold today. Heavy rains have made the further use of boold-hounds futile.

Allen Hodges, arrested Saturday on suspicion of being implicated, was not the man he was thought to be and had no connection with the crime, authorities said.
