SIMS' SPEECH ON IRISH IS CAUSE OF ROW

McCormick Wants Admiral Disciplined for Denouncing American "Hyphenates."

WASHINGTON, June 8.—Senator McCormick of Illinois, Republican, complained formally today to President Harding and Secretary Denby about an address at London yesterday by Rear Admiral Sims, in which he discussed the Irish question.

The senator asked that Denby take disciplinary measures against the admiral. He did not see the President, but asked Secretary Christian to call the admiral to the attention of the executive.

In his address Sims denounced American "hyphenates" before the English-speaking union.

SIMS MUST ANSWER

WASHINGTON, June 8.—Secretary Denby today instructed Rear Admiral Sims to advise the navy department immediately by cable whether he was correctly quoted in press accounts of his address Tuesday in London.

URSA KEEN, 44, SHOT DEAD IN BRECKENRIDGE

Special to the Times.

BRECKENRIDGE, June 8.—Ursa Keen, aged 44, manager of the T. P. casing crew, was shot in the head this morning and instantly killed.

Bob Stoker, a prominent resident, surrendered to the sheriff. He refused to talk about the shooting. Stoker, who is 45 years old, has not been living with his wife. He is a nephew of I. A. Stoker and a relative of K. Stoker, whose property produced the biggest sensation in Stephens county oil history several months ago.

Both Keen and Stoker had been riding in an automobile for the purpose of collecting a debt in East Breckenridge, when the shooting occurred.

Keen has a brother here, O. Keen, and two children, Clarence of Breckenridge and Mrs. Nola Prentice of Dallas.

SPECIAL GRAND JURY TO PROBE TULSA RIOTS

TULSA, Okla., June 8.—Charged with the duty of fixing the blame for the race riots here between whites and blacks, a special Tulsa County grand jury met here today. Evidence will be presented to the jury by Attorney General Freeling of Oklahoma assisted by a committee from the local bar association. The investigation is expected to involve public officials of high and low rank. It was predicted the jury would complete its work within two days.

POSTPONED.

TULSA, June 8.—The grand jury investigation scheduled to get under way this morning was postponed until tomorrow when only seventeen of the twenty-four prospective jurors reported for service.

STRANGE STORY!

LOS ANGELES, Cal., June 8.—Police today are searching for Annie Sturrier who yesterday told the district attorney's office here an astounding story of lost identity and then dropped from sight again.

Miss Sturrier said that nineteen years ago in Dallas, Texas, she met a man whom she remembered as Frank Lecoyne.

"I think that Lecoyne drugged me," she told the district attorney. "My mind has been an absolute blank since that time. I remember nothing until I awoke Monday morning. The sun was shining and it seemed as if a veil had cleared away. The past came back to me."

She asked a warrant for Lecoyne's arrest. District Attorney E. J. Denison asked her to return after he had made telegraphic inquiries at Dallas. When the woman failed to reappear police investigators searched. It was found that she had left her home here and had not been seen since her visit to Denison.

Officials are attempting to get in touch with George Sturrier of Abilene, Texas, and Frank Sturrier, Palestine, Texas, who are said to be brothers of the woman.

CONVICT-MURDERER SHOT

GLOBE, Ariz., June 8.—"Red Whiskers" Burnett, an escaped convict suspected of the murder of Marion Teague here in May, and for whom a search has been conducted continuously by sheriff's posse and cowboys, was shot and instantly killed Tuesday by a member of a posse.

NO BONUS—NO FIGHT!

WASHINGTON, June 8.—Prohibition of the Carpenter-Dempsey fight, scheduled for July 2, until Congress grants a bonus to those who fought in the world war is provided in a resolution introduced in the House today by Representative Gallivan of Massachusetts.

The resolution prohibits the fight for a year unless championship fighters are rewarded.

In his resolution Gallivan, a former Harvard football star, attacks Dempsey as a "big bum who dodged the draft," and says Carpenter was slow in joining the colors in his own country.

WEEKS SAYS U. S. SHOULD NOT DISARM FIRST

Doesn't Anticipate War But Sees Feverish Activity Among Our Potential Enemies.

NEW YORK, June 8.—Declaring it would be the height of folly for the United States to disarm first, Secretary Weeks in an address today to the graduating class of New York University said he hoped to see the nation prepared to defend the rights and sovereignty of its citizens until the day comes when all nations will mutually consent to dismantle their fortifications and scrap their navies.

The university conferred the honorary degree of doctor of laws on the secretary.

"I do not anticipate war but there are active and feverish military preparations among those with whom we might possibly come in contact," said the secretary. He declared the time has come when the United States must have a definite military policy. He favored the national defense act which became a law in 1920.

OBREGON SEEKS RECOGNITION BEFORE TREATY

United Press Staff Correspondent.
WASHINGTON, June 8.—President Obregon of Mexico will strive to obtain American recognition before any actual signing of a treaty by the United States and Mexico, such as has been proposed by Secretary Hughes, it was believed here today.

The Mexican president will take this course in order not to menace his position with the Mexican people in coming to an agreement with the United States government which will allow the extension of American recognition.

To this end it was predicted that Obregon may state in his next communication to the Washington government that he is willing to negotiate a treaty with the United States along the lines suggested by Hughes provided recognition be extended his government.

FEDERAL JUDGE RULES DEAN LAW AND VOLSTEAD ACT DO NOT CONFLICT

AMARILLO, June 8.—The Dean prohibition law of Texas, making it a felony to possess liquor, does not conflict with the Volstead act defining the offense as a misdemeanor, according to an opinion handed down Wednesday morning by United States District Judge James C. Wilson, and the application of Ross Jackson of Amarillo to the state court for federal court was denied.

NO CHANGE

No change in the election figures reported yesterday has come to The Times except a full report from Stephens county, which gives Burkett 78, Barker 92. These returns increase Burkett's majority by 19, as the incomplete report gave Barker 77, Burkett 44, a majority of 33.

A typographical error yesterday resulted in Burkett's Eastland county vote being given as 728. It should have read 782.

BABE IN JAIL!

NEW YORK, June 8.—Babe Ruth today was sentenced to a day in the city prison and was fined \$100 in a magistrate's court for automobile speeding.

OBREGON'S COURSE SEEMS UNSATISFACTORY

WASHINGTON, June 8.—The text of President Obregon's communication on the proposed treaty between the United States and Mexico, which has been decided upon by the American government as a fundamental condition of recognition, is still withheld at the state department. However, definite word of the course Obregon will pursue is expected to follow an early meeting of the Mexican cabinet.

Odessa Refinery to Operate

FLOODS RAGE AND MENACE TEXAS TRAFFIC

Bridges and Tracks Give Way Before Torrents in Many Parts of State

DALLAS, June 8.—Precipitation of from one to three inches is reported from various sections of West Texas. Many streams are on a rampage and railroad traffic is seriously interfered with.

Forty-six tents of the Katy bridge across the Canadian river are out. The Frisco lost a bridge across Red River near Vernon. The Katy bridge across the Red river, north of Wichita Falls, is endangered. The Post Worth & Denver lost a bridge between Chilli-cothe and Tolbert. A large steel bridge across Jim Ned creek, in the south part of Taylor county, was washed out and crops in the lowlands of that section seriously damaged. All towns between Abilene and Ballinger on the Abilene & Southern are isolated as a result.

PUEBLO GETS TRAIN!

TOPEKA, June 8.—Train service into Pueblo was restored to the extent of getting food and clothing into the city and hauling refugees out. Santa Fe officials said here today. The first Santa Fe train from the north loaded with supplies from Denver and Colorado Springs reached Pueblo today.

CANADIAN RAGING.

OKLAHOMA CITY, Okla., June 8.—The South Canadian river has overflowed its banks between Bridgeport and Norman and has inundated hundreds of acres of farm land according to advices to the weather bureau here today. The flood has swept away the approach to the wagon bridges at Norman, and has destroyed several bridges west of there, it was reported.

Owing to an unsafe bridge at Tuttle, the Frisco notified all its trains over the Rock Island system at Enid, according to local offices of the Frisco.

"PIECE SCALE" PAY FOR OKLAHOMA HARVESTERS

PONCA CITY, Okla., June 8.—Oklahoma wheat growers have adopted a new wage plan for harvest hands, it became known today. They are paying a certain sum for shocking an acre of wheat, the price usually being 35c. An expert laborer can shock from 10 to 30 acres a day, farmers claim, making his daily wage from \$3.50 to \$7.

LASKER AGREES TO HEAD SHIPPING BOARD

WASHINGTON, June 8.—A. D. Lasker has agreed to become chairman of the shipping board, it was definitely learned today.

PUBLIC HEARINGS ARRANGED ON BASIC LAW CONVENTION

ALBANY, N. Y., June 7.—Public hearings will be held by committees of the Judiciary Article of the Constitutional Convention, it was decided by the chairman of the committee today. The first hearing will be Thursday, June 9, at the House of the Association of the Bar of New York City. Other hearings later will be held at Buffalo and Albany.

Will Manufacture All Products of Crude Oil; New Company Formed

Ranger Gasoline Company and M. H. Hagaman Back of New Enterprise; Will Also Operate Hagaman Plant.

Ranger will have the only complete refinery in the entire oil fields when the old Odessa plant, north of the city, is again put into operation next week. This plant according to R. D. Lavery of the Ranger Gasoline company will manufacture gasoline, kerosene, distillates, lubricating oils and all kinds of greases to be sold both wholesale and retail by the company which will incorporate for that purpose. The incorporation will include the Ranger Gasoline company and five additional stations in the oil fields. M. H. Hagaman, R. D. Lavery and G. A. Clements are the principal stockholders. These men within the month will also put the Hagaman refinery into operation again. A chemist has been secured from the Sunco Oil Company of Philadelphia for the Odessa plant.

The products of the refinery will be sold through the company's stations at retail and will be wholesaled generally to the trade throughout this section.

There are many plants that sell gasoline and kerosene but none that works the crude down to greases and other refined product. The Odessa plant will start operation with a minimum of 500 barrels of crude oil daily. The company will have some production of its own.

The Odessa refining company which built the plant several years ago, went into the hands of a receiver shortly after operations had started and has been bought in by the Bankhead highway between Ranger and Eastland is not progressing. This action was decided upon at a meeting of the board of directors last night and a committee appointed to go before the commissioners' court at its next meeting. The committee will be seeking information. Of the thirty-three Mexicans who Chairman, M. H. Hagaman, Lytton R. Taylor, E. J. Barnes, R. B. Waggonman, L. L. Rector, Raymond Teal, W. E. Burke and M. O. Burt.

It is said that the county is taking the attitude that it is waiting on state aid to build the highway and the State highway department has said that it was waiting on plans from the county engineering department in order that it might grant state aid.

MAHER A DIRECTOR

The directors elected Edward R. Maher to the directorate of the body to fill the place of H. H. Madson resigned. It also decided that next week it would again institute the open forum meetings. The date for the forum meeting will be announced later.

COMMISSION MEETING PASSED; TOO MANY AWAY

The city commission passed its regular meeting yesterday because of the absence of the mayor and two commissioners. Mayor John Gholson is in Colorado on business. M. R. Newnam is in Abilene and Sanford Dean is visiting his children in Austin.

ESCAPING PRISONERS WILL BE CAPTURED AUTHORITIES BELIEVE

BRAZORIA, Texas, June 8.—Capture of all prisoners who escaped from the Clemens prison farm near here at midnight Sunday was expected today.

Capt. Jake Herring, chairman of the prison commission, arrived today and was directing the hunt for the nineteen convicts still at large. None of the convicts was believed armed and easy capture was expected.

SHIP SINKING!

NEW YORK, June 8.—The British steamer Seapool which struck an iceberg in the north Atlantic is thought to be sinking according to a message received by the Royal Mail Steam Packet company here at 1:30 p. m. Standard eastern time.

The message was from Captain T. M. Taylor of the liner Orduna. The Seapool's position was given as 47 51-100 north and 43 51-100 west. The Orduna was 750 miles from that point.

BULLETS SWEET DUBLIN STREETS; MANY WOUNDED

DUBLIN, June 8.—Dublin streets were swept with bullets for twenty minutes today following an attack with revolvers and bombs on a police lobby. Five constables and several citizens were wounded.

WANT WAGES CUT!

United Press.
CHICAGO, June 8.—Judge Samuel Alschuler, arbitrator between the packers and their employees, had before him an application of employers today to slash wages of 60,000 packing workers over the country.

The petition asked a five cents an hour cut for day workers and a proportionate trim for piece workers.

Packers asked that the new wage become effective June 19.

100 BODIES OF DROWNED ARE BURNED

Dead in Pueblo Morgues 45 and 27 in Other Valley Towns.

PUEBLO, Colo., June 8.—This city today settled down to a long and hard pull to get from under the mud and misery left in the wake of the mad Arkansas river.

The harvest of dead stood at 45 bodies in local morgues, and reports of 27 other dead in valley towns.

Work of cleaning up Pueblo will take months, it is said.

Railroads have started filling in breaches in the levees which will serve to protect the new tracks being laid.

Two relief trains arrived from Denver today, and one left for the stricken cities of the north. Five hundred Puebloans heard the first train to reach the station. Two motor lorries and fifty wagons were to enter today from Fort Sam Houston, Texas, for Pueblo to help restore order and dig the city out.

More than a hundred drowned in the flood were burned in great pyres on the outskirts of the city.

RELIEF MEASURE PASSES

WASHINGTON, June 8.—Final action on Colorado flood relief was taken in Congress today when the senate adopted the resolution passed late yesterday by the house. It is virtually the same resolution as the senate itself, adopted late yesterday. It authorizes and directs the secretary of war to provide temporary relief for flood sufferers in the form of food and tents or shelter.

SCORES OF BODIES.

DENVER, June 8.—Ten million dollars in Pueblo goods and scores of bodies are strewn in mire and quicksand for thirty-five miles south of Pueblo, says a dispatch to the Denver Times from a staff man.

RANGER REFINERY RECEIVERSHIP FUSS UP AT KANSAS CITY

The case of the receivers for the Ranger Refining & Pipe Line company is being heard in Kansas City before a special master. Lee J. Marks of the firm of Marks & Flaherty is at the hearing, representing Kansas City creditors.

Two sets of receivers were appointed when the firm went into bankruptcy, one out of the Kansas City federal court and one out of the Abilene federal court. The special master will decide which set of receivers should be entitled to take over the property.

BRITISH STEAMER STRIKES ICEBERG

NEW YORK, June 8.—The British steamer Seapool, which apparently struck an iceberg off the Newfoundland coast, was damaged but is safe, according to a wireless message by the naval radio station here today.

The message sent at 9:27 a. m. stated: "Proceeding on course. Forepeak full of water."

Naval radio officers said the nearest ship to the Seapool, which left Montreal for Dublin on June 2, was the steamer Orduna. She was about 260 miles to the eastward.

Icebergs have been causing trouble in the north Atlantic for more than a week. The Saxonia, docking almost two weeks ago, was the first liner to report a delay this summer due to encountering a number of the floating monsters.

Reports of a disaster today occurred at the height of the transatlantic traffic. One of the great passenger fleets since the war was at sea, many of them just now passing the region where the bergs were presumed to be most dangerous.

SPECIAL JUDGES NAMED FOR EIGHT W. O. W. CASES

AUSTIN, June 8.—Governor Neff has appointed W. H. Jenkins of Waco and John M. Scott of Ft. Worth to be special associate judges of the supreme court to sit in eight cases wherein Associate Justice Pierson and Greenwood are disqualified. The cases involve the Women of the World of which the disqualified justices are members.

Ideal Weather at Traps Makes High Runs and All Goes Merrily.

By C. E. EGGLESTON.
Ideal weather conditions and a perfect skyline contributed Wednesday to nearly perfect shooting by half a hundred trap artists in the second day of the three-day shoot for Texas state championships. Grizzled veterans of the trap and field from half a dozen states were undaunted by the second downpour of rain which Tuesday night soaked the earth anew, and shed with their rolled-down hip boots which have seen service in many a sloppy duck blind they were on hand at the scorer's first call of "let's go."

Completing the high run of 134 with 46 Wednesday morning, C. L. Du Puy of Manning, Texas, carried off the honors among a score or more of runs over 50. Du Puy was also one of those who hung up a run of 92 out of a possible 100 Tuesday afternoon. Other 95's were E. F. Woodward of Houston; M. E. Woodward of Comanche, Texas; W. F. Heer of Gutarie; F. P. Williams of Grand Saline, and J. S. Day of San Antonio got away with 98 each; E. M. Congdon, Walter Scott, Houston (professional), C. E. Adams, Amarillo, and Gus Pay of Tulsa, 97; and C. J. Pate, Wichita Falls, J. W. Speight (professional), R. W. Haney, Abilene, Andy Laggar (professional), Jack Wray (professional), and G. W. Ball of Mineral Wells, 96 each.

Dever Wins Handicap.
W. C. Dever of Conway, Texas, walked away with the Texas handicap Tuesday afternoon and finished Wednesday morning, with high score of 95 out of a possible 100 at 20 yards, winning the shoot-off with 19 cut of 20, while A. G. Deatherage of Wichita Falls scored 95, but dropped two of his 20 in the shoot-off. R. W. Colbert of Stamford and E. M. Congdon shot through on the handicap with second high score of 94 at 20 yards, while Du Puy and Ball finished third with 93. J. R. Hinkle of Denver (professional) tied with Andy Laggar (professional), with 93 at 21 yards. Gus Payne came through with high run of 97, but being an outsider is ineligible in the Texas championship.

A bunch of youngsters, like Jim Day, E. F. Woodward, John Clay and George Tucker, life-time secretary of the Texas Association of Trapshooters, and some old-timers, like Kid Colbert, were scheduled to compete for the blue ribbon in busting doubles Wednesday afternoon. They will try their eye and the speed and accuracy of their calculating machinery when they face 25 pairs at trap three.

Thursday Ends It.
Thursday, the concluding day of the tournament, will see the Texas state championship battle. There are a number of corners for the event and the spirit of rivalry is keen.

Mrs. W. D. Cook has signified her intention of taking part in this event and will be in the running for champion woman trapshootist of Texas if she participates.

In connection with the forty-fourth annual meeting of the Texas State Sportsmen's association to be held in the parlors of the Gholson hotel tonight, there will be a dance in honor of the visiting shooters under the auspices of the Ranger Club club.

RANDOM SHOTS

Gus Payne was a witness to the scenes of disorder in Tulsa a few days ago when whites and blacks bombarded each other for hours, with loss of life on both sides and destruction of much property when the black belt was fired. Gus says the affair was deplorable but unavoidable under the circumstances and believes that the race question will continue to be a source of annoyance until some definite program of settlement is found.

George Tucker of Gilmer, Texas, in Upshur county, is on hand, about six feet some odd three or four inches of him, and is making good with his favorite double gun. George is a veteran at the game and has recently been made life-time secretary of the state association.

Among the shooters from Abilene who showed up late Tuesday are Dr. R. A. Madley and Judge R. W. Haney. The judge is doing some good shooting for a lawyer.

Distance is no barrier when the Texas state shoot is on. Jack Smith of Hastings, Neb., zone manager, blew in Tuesday morning, and is taking a prominent part in seeing that the machinery is kept well oiled.

Some cases of "flinch" developed among the shooters Wednesday. Old timers know that the best of 'em will go to pieces occasionally under the nervous strain of a case of "flinch," and it takes a real fighter to overcome it.

BIGBEE GOES TO TRIAL TOMORROW FOR KILLING W. T. DICKSON IN RANGER

Ed Bigbee under charge of murder in connection with the death of W. L. Dickson in Ranger several months ago will go on trial in the Eastland district court tomorrow, according to the court calendar. Dickson was killed at Main and Austin street.

HAMON HEADS ARE HOSTS TO TRACK BOSSES

Sunday noon at the Railroad Eating house of the Wichita Falls Rangers & Ft. Worth Railroad Company Vice-president, J. H. Fraser and Roadmaster A. Martin entertained with a dinner, following with a theatre party at the Majestic, all the section foreman of the line including those of the Ringling line, which was taken over by the Ranger road.

The occasion for the dinner was the awarding of the monthly prize of a \$10.00 gold piece, set in a silver bracket as a watch charm, to be given to the foreman whose section showed the best improvement during the month. The improvement on all the sections was so marked that the committee had some difficulty in justifying themselves in making the award. The lucky foreman was H. E. (Dad) Hammond of the South Breckenridge section.

Mr. Fraser gave a very excellent as well as highly instructive talk to the men, thanking them for the splendid services they had and are rendering the Company. He and Roadmaster Martin stressed the importance of the section foreman's position on any railroad and wanted them all to realize the full measure of appreciation that this Company felt for what they had done and are doing towards making this road a credit to this part of the State.

Those present to enjoy the dinner and Theatre party were: W. A. (Bill) Schubert, J. Martin, J. H. Thurman, Tom Melton, Jim Segers, Tom House, J. H. Morris, H. E. (Dad) Hammond, E. A. Racha, A. Pairrett, J.

L. Carter, Pete Aubrey and J. H. Fraser, A. Martin and H. A. Lloyd. It seems that on all occasions like this there is always some "outsider" that manages to "horn in" on the feed. H. A. Lloyd of the Claim Department drew the lucky number at the feed rack, while fellows like J. J. O'Neil, Superintendent and Joe Strupper Freight and Passenger Agent were held outside the ropes, with only the aroma coming to them.

ONE SMALL STORY OF A CHIGGER— EACH READER BECAME A DIGGER

The power of suggestion is a terrible thing. Yesterday a Times reporter wrote a piece about the Chigger family. The reporter had no grievance against humanity; he was only trying to entertain the paper's subscribers for a brief space. The story, following the routine of all stories, left the reporter's typewriter and went to the copy desk where sits a young man who with a wicked eye pursues all copy for errors in spelling, grammar and logic. He read about the Chigger family. Before finishing the first paragraph he was squirming in his chair, the wicked gleam had left his eye and in its place was a look of pain. He had never seen a Chigger, but how he wanted to scratch. The story following the usual course left the copy reader in deep misery and went to the foreman of the composing room. He scornfully read through the opening as all foremen do and then frankly rubbed a shoe heel against a receptive ankle.

Took Both Hands.
That did not seem to satisfy and he laid the yarn down and attacked those imaginary chiggers with both hands. The foreman is a busy man and if he has to scratch he has to scratch and get it over with—he can't be bothered about the niceties of the conventions. The foreman with vengeance in his eyes sent the story on to the linotype operator. These birds, he is known, are specialists and it takes both hands to operate their machines. Neither have they any time to stop. On them the paper depends for enough type when press times comes and it has to be on the dump regardless of Chiggers of anything else.

Could Only "Shimmy."
This operator read about the Chigger family as he set the story to type but, poor devil, his hands had to keep busy and all he could do was to "shimmy," and if you have never seen a long slim young man shimmy in a straight back chair while playing on a linotype machine you have missed something.

The proof-reader is a nice little girl; she also had to read the story. As has been said before, the power of suggestion is a terrible thing. Those who had been started scratching from reading the story, through mental telepathy or otherwise, gave the disease to their neighbors. A wonderful time was had by all while it lasted.

Attached to the express trains running out of Paris are comfortable saloon carriages labeled, "Ladies only," and provided with lounge chairs and tables.

RAILWAY RATES AND WAGES.

Railway wages are to be reduced in order to enable the railways to remain solvent. If an equal solicitude had been shown for the solvency of track walkers the problem would have proven more difficult. It happens, however, that railway wages and railway rates were raised at about the same time, and that the railway employes, as consumers, have to pay more for their living when rates are high than when they are low. The excuse for a decrease in wages is that it now costs less to live than it did a year ago, and the same argument applies to rates. President Harding showed a commendable appreciation of the popular sentiment on this point when he walked over to the offices of the Interstate Commerce commission yesterday to suggest, in a discreet way, that rates be revised downward. He was informed that the inequalities caused by the horizontal increase last year were being smoothed out, to the advantage of many shippers. A horizontal decrease is not on the cards at present.

The question of rate readjustment may be approached from two directions. The railways may be considered, as most financially minded people do consider them, as sources of income to those who own them. In the railway business, as in other enterprises, there is a line of greatest profit, and this line lies somewhere between the extreme of prices so high as to discourage trade and prices too low to pay expenses. The railway rate structure is complex, and in the nature of things losses or small returns on certain commodities, such as coal, must be compensated for by larger returns on other commodities in the final price of which transportation costs are of less importance. But the general principle of the quickest possible turnover at the lowest possible rate is sound and ought to be applied. There is little evidence to show that this has yet been scientifically attempted.

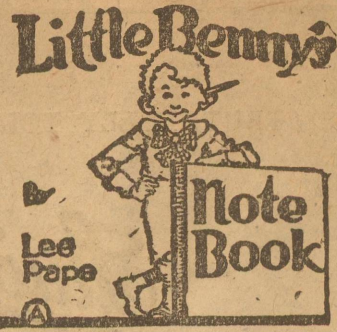

The other consideration in rate making is the common good of all the people served by the railways. Fundamentally the railways exist, not to make profits, but to carry goods. The public regulating bodies are under a moral obligation to keep faith with investors and an economic obligation not to cripple an essential service. Beyond this point the railways have no rights that all individuals and business enterprises do not have. They are not entitled to special privileges, and in a period of stringency their owners have no claim to be exempt from the risks and hardships that other people have to undergo.—New York Globe.

Ma sent me out for 6 cream puffs for dizzert yestiddy, and on the way back with them I happened to fall down twice, once on account of tripping over a stuck up brick and once on account of jest tripping, and when I got up the 2nd time, I looked in the bag jest out of curiosity and the cream puffs were all bent out of shape on account of being fell on, me think, O boy, holey smokes.

And I kept on going home, looking in the bag every once in a while to see if they were reely bent as much as I thawt they were, wich they was, me thinking, G. I better think up something funny to make ma laff before she sees cream puffs.

Wich I tried to think of some joak to tell her only I could only think of old ones not good enuff, thinking, G. I know wat, ill wawk in on my hands carrying the bag in my mouth, and ma will think its so funny shell laff like everything and then the site of the bent cream puffs wont affect her mutch. Gosh, its a good thing I bin practicing wawking on my hands a lot lately.

And when I got home ma was in the parler and I put the bag in my mouth and got up on my hands out in the hall and started to wawk in the parler like somebody giving a imitation of a dog carrying something wawking on his frunt feet, only jest wen I got inside the parler I lost my ballents on account of not having it very good enuff, and I fell over backwards and terna a summersault rite on the bag of cream puffs, wich I could feel them under me losing all the shap they had left, me thinking, Gosh, if this makes her laff ill be serprized if it even makes her smile.

Wich it didnt, and she gave me 2 fearna kraaks and we didnt have eny cream puffs for suppir on account of their looks, and ma threw them all away without even leaving me rescue eny of them by eating them.

GOING TO SCHOOL BY MAIL

(From the Christian Science Monitor)
Now that the patronage of correspondence schools has become so great that 40,000 people are reported to be "going to college" by mail in thirteen of the American universities one may look for marked changes in the social status of many individuals. It would appear that whoever lives where the mail goes is a potential college man, and in due time may be taught nearly everything in the curriculum of his alma mater, even to the college yell. Indeed, postage stamps may one day become a major item of expense in a higher education.

The Joy of Vigorous Womanhood
It's great to sense the thrill of delight which comes of the conscious possession of a strong, robust physique—to know that exquisite feeling of physical keenness which lends zest and zest to clean and wholesome sports.
The girl or young woman who cannot enter into the spirit of actual enjoyment of sports because of a frail constitution is missing half of what life holds for her. Besides, she will miss the rightful place in the sphere of womanhood while her body vigor remains below par.
It is important that every woman know of the value of FORCE in conditions of physical weakness and mental fatigue. FORCE gives strength to tired and exhausted brains and bodies, by eliminating poisonous waste matter, resulting nervous tension, replenishing the blood with rich, red corpuscles, increasing the vitality and giving the digestion. Get the best of FORCE today (all druggists have it) and you'll begin to know something of the joy of strength and health.

TINKER BOB STORIES
By CARLYSLE H. HOLCOMB.

THE POOR, POOR FELLOW.
"Well, I do declare, if you aren't the simplest fellow I ever saw." Yes, it was Tinker Bob talking to Red Fox. "Now you will just have to stay in bed for a whole week or you will never be able to see again. I don't for the life of me see whatever possessed you to plunge into that Brier Patch in that manner. You surely remember what Lady Duck taught you about getting into trouble with the briars?"

The King of the Forest was putting a bandage on the nose, and over the eyes of Red Fox who had been scratched in the Brier Patch. "I'll put you to bed here and send for Dr. Coon and when he comes we'll see what will have to be done. It may be that you have some of those ugly briars in your nose and if so they will have to be pulled out. There now, stop your crying and go to sleep till Dr. Coon comes. You wouldn't have been here if you hadn't gone into the briars after Jack, the Rabbit.

"O, don't send for Dr. Coon," cried Red Fox. "He is sure to find some of those briars in my nose and it will hurt so to have them taken out. I want them left in my nose anyway, that's what I do."

"Yes, you're afraid now that it will hurt you. Why didn't you think of that before you went into the Brier Patch? That's just what you get for not keeping your temper and letting Jack, the Rabbit, alone."
Tinker Bob tucked Red in bed and sent Silky, the Monkey, to look for Dr. Coon. Soon after Silky had gone there came a "rap, rap, rap" on the Palace door. "Come in," said the King. "Rap, rap, rap" and again the King said "come in." Then the Wood Rat went to the door and who should

stick his nose in carefully but Jack, the Rabbit. In his arms was a fine bunch of clover blossoms.

"Well, well, come right in Jack," said Tinker Bob. "You are a very welcome fellow, and tell me about the clover blossoms."

Jack walked in carefully. Red Fox raised up in his bed trying to see through the bandages. "I brought these flowers for Red Fox, for I knew he would be in bed for a long time and might like to see some of the beautiful blossoms of the meadow through which he used to run."

Red Fox began to cry for he remembered the meadow and wondered if he would ever be able to see it again. Then, too, he was ashamed to think he had showed his weakness by jumping into a Brier Patch only

"Poor, poor fellow," said Jack as he looked at Red Fox tucked so tightly in the King's bed. "Even Jerry, the Jay, tried to tell him not to venture into the Brier Patch but he would not listen."
Again at the door came a "rap, rap, rap." This time the King opened the door.

MODERN HOUSEWIFE SKEPTICAL OF SCIENTIFIC DISCOVERIES
FINDS VITAMINES TO BE THE GREATEST FOOD NEWS OF THE AGE.
The modern housekeeper is the original "woman from Missouri." She has to be "shown" at every turn of the road, and she is frankly skeptical of so-called discoveries in the realm of kitchendom until she has found for herself that they are realities, and not the vapors of some special writer's mind.
That was one of the reasons why "vitamines" and the things that the word stands for did not become quickly popular when their discovery was first announced about eighteen months ago. Since that time the experiments of many food specialists and the results which they have achieved has removed all doubt that "vitamines" is the answer to the questions that she has often asked why some foods made her children grow and others did not.
"Vitamines" is the name given by scientists to the property which some few foods possess which makes children grow and grown folks feel better. It has been definitely determined that children must be fed foods containing this property in considerable measure if they are to attain normal growth. All other food properties may be present, but if this one property is lacking, growth is not normal.
"Vitamines" are contained in considerable quantities in two foods only, butter and the yellow parts of eggs. Creamery butter provides a delicious source of this life-giving, growth-promoting property. In addition, it contains all of the other food properties in such measure as to make one pound of butter the equal of forty eggs or four pounds of beef steak. The housekeeper who uses creamery butter a plenty in her kitchen, as well as on her table, is giving her family the utmost in good nourishing food at the lowest possible cost.

NEGRO 'OIL STARS' BUMP MEX SLOW BALL ARTIST

The Mexican slowball artist who stood the "Oil Stars" on their several ears Monday at Nitro park wasn't effective yesterday. He attempted a comeback and was halloped for nine scores in the first two rounds. That was enough to send the semi-Mexican nine down to defeat, although they pounded out five runs in the fifth and sixth.

A diminutive Mexican succeeded the slow ball artist and he kept the Oil Stars steered away from the counting station for six innings. Eddie Moore of the Oil Stars pulled the stellar play of the game, through hesitation on the bases. He was on second and a compatriot on third when he grew ambitious and advanced a base. In the resulting melee the man on third was caught and Eddie, roosting safely on third, decided to steal second. He failed to get away with it.

The Oil Stars will play the Breckenridge Tigers the latter part of the week. Through a telegraphic mixup the dates with the Fort Worth negroes were not cinched.

RED HILL'S WILD HEAVE TO FIRST LOSES TIGHT BATTLE TO BRONCS

"Gasoline Gus" Holds Nitos to Three Hits; Score Was 2 to 1.

SAN ANGELO, June 8.—Only twenty-seven men officially faced Burleson, San Angelo's pitching ace, Tuesday afternoon, although five Nitos walked and three sacrificed—and the Bronchos copped the second straight game of an important series, 2 to 1. Five hits were bunched off Red Hill, who tossed his own game away in the fifth inning.

The Nitos scored in the first inning on Clopp's walk, York's sacrifice and Scoggins' failure to field Tate's grounder. San Angelo tied the count in its half. Scoggins tripped past Singleton and tallied on a passed ball by Allen after Williamson had roled out to first. Robinson's single to right a moment later, however, would have produced a run.

Three On. Ranger filled the bases in the second with two out, but McKay got York's pop-up for the third death.

Sensational Catch. Williamson, local center fielder, tied with Lovelace in handling four chances perfectly, but his work was more sensational. His running catch with his back to the crowd, robbed Singleton of what seemed certain to be an extra base poke in the eighth. Singleton was first up and a hit might have tied the score.

Lovelace walked in the ninth, was sacrificed to second by Murphy, but died there when Scoggins threw out Allen and Hill, the latter on a hard chance.

Truesdale squeezed in the winning run in the fifth after Lewis had singled, reached second on Hill's low-gled, reached second on Hill's low-gled, throw to catch him off first and gone to third* on Burleson's single to left. York tagged Truesdale on the base line but too late to peg home.

CRYSTAL FALLS WILL HAVE BASEBALL PARK

Special to the Times. CRYSTAL FALLS, June 7.—A baseball park that will rival any in the state is now being built here. The plant besides having a large grandstand will also provide parking space for automobiles, as many persons prefer to witness the games from their machines. Wesley McCallister, prominent real estate man who is financing the building of the park, has stated that the grounds will be for the use of any organized team in the Stephens county oil fields.

MUSKOGEE, OK., WOMAN TELLS ABOUT CHANGE

"I had gained twenty-five pounds by taking Tanlac and I just can't tell how happy I am to get my health back," declared Mrs. Mary E. Lowe, 440 N. Cherokee street, Muskogee, Okla.

"Three year ago whiles we were living in Rosedale, Kansas, I broke down completely and had to give up my position. My nerves just seemed to collapse, and I became so weak and run-down I could hardly get around. My liver became sluggish and I lost my appetite and didn't seem to want to eat a thing. My stomach was badly disordered and at times I felt almost deathly sick. I slept but little and fell off in weight and went from bad to worse until I was alarmed over my condition.

"But Tanlac proved to be just the thing I had been needing, and I certainly am glad I took my friends advice and tried it. Five bottles have restored my health just perfectly. I have been built up wonderfully and feel so well and strong I never will be able to praise Tanlac enough. It is the best medicine in the world and I am all the time recommending it to some of my friends."

Tanlac is sold in Ranger by Phillips Bros., and in Eastland by Butler Drug Co.—Adv.

TWO NEGRO WOMEN HELD IN JAIL UNDER HIJACKING CHARGE

Two negro women are in the city jail under charges of robbery with firearms. It is said that they held up a white man north of the Texas & Pacific passenger station at 9 o'clock last night and relieved him of \$27 in cash.

Assistant Chief of Police Murphy and Patrolman Jim Daniels made the arrests.

DEATH VALLEY NOW SAFE FOR TRAVELERS

LOS ANGELES, Cal., June 7.—Death Valley and the desert surrounding it have at last been made safe for travelers, in the belief of officials of the Automobile Club of Southern California.

Employees of the club have returned home with the announcement that they have completed the work of erecting metal guide signs in the almost trackless wastes of the valley, and that motorists no longer need fear to traverse it.

All water holes and wells have been so marked they can be found without trouble either at night or day, it is stated.

The guide signs erected were made of metal so unappreciative travelers could not use them for firewood.

More than a year was consumed in charting the valley and in making and erecting the signs.

LAST REBEL BANDIT LEADER IS KILLED

GUADALAJARA, Jalisco, Mexico., June 7.—Report of the death of La Urraca, rebel bandit leader, in an encounter with federal troops, has been confirmed by news from the village of Antequera, where he was killed. He once was associated with the famous rebel chief, Pedro Zamora.

With his death, La Urraca's followers have disbanded and the region was reported completely pacified.

GENERAL RUCKMAN DIES.
BROOKLYNE, Mass., June 7.—Brig-Gen. John W. Ruckman, commanding the North Atlantic coast artillery district, died at his home here today. He was born in Sydney, Ill., in 1858, graduated from West Point in 1883. Ruckman held the rank of Major General in the World War. He commanded a provisional regiment of coast artillery on the Texas border in 1916 and later commanded the South Atlantic coast artillery district and the Southern department. He leaves a wife, son and daughter.

Why some men seem to have all the tire luck —

YOU probably know a man whose car is a hobby with him. He knows just why it's the best little old car there is of its class.

And he'll stand up for that car against the world in any kind of an argument.

* * *

Year by year an increasing number of men feel the same way about U. S. Tires.

For a while they may try "job lot" stuff, "bargains," "big discounts" and "rebates."

But usually it doesn't take long for a man to sense the economy of the standard quality tire.

For years U. S. Tire makers have been building quality tires for sane tire users—for the car of medium or light weight no less than for the heavy car.

The tire buyers of the land have responded with a mighty U. S. Tire following.

* * *

The U. S. Tire makers meet the responsibility for supplying this nationwide following with characteristic energy.

Ninety-two U. S. Factory Branches are established, covering the entire country.

Find the U. S. Tire dealer who has the intention of serving you. You will know him by his full, completely sized line of fresh, live U. S. Tires—quality first, and the same choice of size, tread and type as in the biggest cities of the land.

"Find the U. S. Tire dealer with the full, completely sized line of fresh, live U. S. Tires."
