

School Land Deal Is Closed Up Monday

The deal to sell three leagues of school land located in Gaines and Andrews Counties, belonging to Parmer County, was closed here on Monday when the Commissioners Court executed the deeds transferring the land to Tobe Foster Midland rancher.

A contract for the sale of the land was drawn up some weeks ago, but the deal was not complete until Monday. A price of \$3.00 per acre was received for the land.

County Judge Lee Thompson said that all mineral rights on the vast acreage were retained by the county, which he considers even more valuable than the land. Considerable oil development has been going on in the general location of the land for the past several years and several producing oil wells have been brought in close to the Parmer county holdings.

Judge Thompson expressed the opinion that the money received from the sale of the land would be invested in War Bonds, since such money is not an expendable item, but goes into the County Permanent School Fund, and only the interest from the investment can be spent. It was his opinion that Parmer County funds in the amount of \$50,000 would be invested in War Bonds during the Fifth War Loan campaign.

Bill Brand Reported Slightly Hurt In Italy

Word has been received here that the War Department has notified the parents of Pvt. Bill Brand, who now reside in California, that their son "received slight wounds on May 21st while in line of duty".

Pvt. Brand is known to have been engaged in the Italian campaign. The extent or nature of his wounds were not mentioned. He is a son of Mr. and Mrs. N. J. Brand who until a few weeks ago were residents of this city, and a graduate of the Farwell high school. His sister, Mrs. Max Huber, who still lives here, was informed of her brother's injuries by her parents.

Truck Offer Ends in Bad Disappointment

Considerably miffed by the whole turn of affairs, four Parmer county men returned to their homes Monday night after having spent the weekend in trips to Fort Worth and Fort Bliss, in an attempt to purchase used army trucks and pickups.

News was received here last Friday that the Treasury Procurement office in Fort Worth had a list of "good used Army trucks and pickups" which are being released for sale to civilians, and due to the scarcity of such machines in the county, Frank Phillips, Wilbur Charles and Bill Sherley, farmers, and O. C. Sikes, local Ford agent, left immediately for Fort Worth to try to buy several.

The chase led from Fort Worth to Fort Bliss, where it was discovered that the trucks and pickups were being turned in for salvage, and, as one of the men put it, "Not a one in the bunch could be made to run by harvest time". Quartermaster officials at Fort Bliss told the local delegation that the machines were "not fit for sale" despite the fact that they were listed by the Treasury Procurement board in Fort Worth as "good" machines.

Ellis M. Mills, AAA official to whom the news first came, said today that Sikes and Charles were planning another trip to Fort Worth, to see if some decent machines could be purchased by farmers.

Garlon Harper, county agent, also reports that his office has forms by which farmers may apply for such trucks or pickups, and if the approval goes through—on both sides—Dickinson Motor Co. in Lubbock indicates that they can secure the machines.

HOMESTEADER HERE

Albert Doolittle, father of T. T. Doolittle, who homesteaded the farm on which his son now lives north of Texico back in 1906, was here this week from his present home at Lynwood, Calif. Mansell, the 13-year-old son of Mr. and Mrs. T. T. Doolittle, who has been living with his grandparents the past two years, accompanied his grandfather home from California.

Sugar, Gas Stamps Come In Shortly

A review of the ration calendar this week brought forth two dates hailed with delight by all concerned—June 16, when Sugar Stamp No. 32 will come in for 5 lbs., and June 22, when A-12 gas coupons become valid for 3 gals.

Otherwise, the calendar isn't bothering many, with lifting of meat from rationing, and the bare-foot season for school children relieving that shoe problem.

Texico Sets Bond Rally For June 23rd

W. J. Matthews, chairman of the Fifth War Bond drive in the Texico precinct, today announced that a special bond rally would be held for that community on Friday night, June 23rd.

In making the announcement, Matthews stated that the rally would be held in the auditorium of the Texico school, but added that plans for a program were as yet incomplete, and will be released in detail next week.

The quota for the present drive was not announced, but judging from reports, it will be well above any ever previously given the precinct, and workers are anxious that every person in the community cooperate to the fullest extent in putting Texico over the top.

News from the invasion continues to be encouraging, but those in charge of military affairs stress the importance of steady flows of supplies to the Allied fighters—which are maintained in a large measure through American war bond dollars.

Mrs. D. J. Brown, Texico postmaster, is co-chairman with Matthews in spearheading the local drive.

Commissioners Accept Four Road Petitions

There will be a number of new county roads in Parmer county during the next few months, if all petitions filed with the Commissioners Court on Monday are finally approved and the roads declared open.

A total of four petitions was accepted by the County at Monday's meeting as follows:

Petition of T. L. Glasscock et al. Jury of View named to make report, T. L. Glasscock, Dee Brannon, Eugene Bailey, E. C. Brown, C. B. Watkins.

Petition of John Gazamon et al. Jury of View: John Gammon, E. L. Fairchild, C. L. Mercer, Roy Daniels, Russell O'Brian.

Petition of E. L. Fairchild et al. Jury of View: E. L. Fairchild, V. L. Todd, E. B. Brannon, D. B. Ivy, L. W. Smith.

Petition of Gordon Massey et al. Jury of View: Gordon Massey, Russell O'Brian, A. H. Boatman, Ranza B. Boggess.

Sudan Loan Program to Be Discussed Monday

Details concerning a government-sponsored loan program for Sudan will be considered Monday, at Lubbock, when elevator men and producers over this area have been asked to meet.

In a bulletin received by Ellis M. Mills, at the local AAA office, it was stated that the meeting Monday would deal with such particulars as the price to be charged farmers for bagging and cleaning Sudan.

The loan program is set up at a specific rate, "with deductions for proper cleaning and bagging", and the meeting will attempt to establish, insofar as possible, a near-uniform charge for such services in this area.

Mills urged that producers who could do so plan to attend the meeting, as it will definitely be to their advantage to help determine the rates to be charged.

Sudan is undoubtedly a good money crop, and reports here are that a good deal is being raised in the county this year for re-sale as seed.

Mrs. J. T. Carter and children returned Saturday from Denton, Tex., where they have spent the past few weeks with relatives.

County Bond Machinery In Motion

Texico City Council Has Busy Session

Rain and Hail Damage Parmer County Crops

Heavy rain and hail over the past weekend did considerable damage to young crops and maturing wheat fields in Parmer County, it is learned by reports reaching here the first of the week.

Some sections of the county are reporting rains ranging from three to six inches, which fell in a very short time to wash fields and cover young crops that were just getting off to a good start.

Much replanting, some of it for the third time, will be required.

Further loss was sustained by the farmers of this county when devastating hail storms struck at widely scattered sections of the best wheat prospects in recent years. The most serious damage to wheat fields seems to have been confined to a large area extending from north of Midway almost to Muleshoe, including the Hub and Midway communities, and parts of the Labuddy section. Some farmers in the stricken area have reported total losses on their wheat, many fields of which had been estimated to yield 30 bushels and upward to the acre.

Torrents of rain fell in some sections, washing little crops under. A checkup here early this week indicated that, with few exceptions, farmers will be required to replant row crops.

The Farwell rain gauge registered a total of 2.69 over the weekend, it is reported by R. V. Ham.

Dale Moody, living south of Friona, was among the heavy losers in the weekend storms when he lost 350 acres of excellent wheat and 210 acres of young row crop. Other farmers in the stricken district suffered even heavier losses on larger acreages.

Saturday Last Date For Candidate Filing

BULLETIN—Just as this story has been placed in type, W. S. Menefee comes in and makes his official announcement as a candidate for county commissioner from the Labuddy precinct, as an opponent to O. M. Jennings.

The deadline for candidates for county and precinct office to file for a place on the ballot moved into the final stages this week with still no opposition in prospect for any of the county-wide offices.

Saturday, June 17, is the last date on which candidates for county and precinct office may file with the county democratic chairman.

As the deadline approached, it became more apparent that the present incumbents will be renominated without opposition, so far as county-wide offices are concerned.

To date, the only contested race in Parmer County is in commissioner precinct No. 1, where Dudley Robason and Bill Flippin are making a bid for the nomination to succeed Dave Moseley, who has declined to run for reelection.

Fort Worth Grain Man Visits Parmer County

Leo Potishman head of the Farwell Elevator Company at Farwell, and the Santa Fe Grain Company at Friona, was in Parmer County last week looking after his business interests and renewing acquaintance with old friends.

While in this city he announced a cash contribution of \$50 to each of the active churches in Texico-Farwell.

Potishman was very enthusiastic about the wheat prospects in this county. He gave it as his opinion, barring hail and excessive rainfall, Parmer County would produce the best crop in recent years. He expressed concern about transportation facilities and advised all farmers who can possibly do so to store their grain on the farms until the peak of the harvest season is passed.

Mrs. S. E. Morris and children were visitors in Muleshoe, over the weekend.

HOME ON VISIT—Staff Sergeant James Beller, son of Mrs. Stanley Hillhouse of Clovis, who is home for a 30-day visit after spending nine months overseas with the AAF. Sgt. Beller received a slight flak wound in the calf of his leg, a short time ago, and was later awarded the Air Medal with three Oak Leaf Clusters for outstanding service in the European theater of war.

Former Commissioner Reenters County Ring

A last minute filing has put a new face on the Parmer county political horizon, with W. S. Menefee announcing as a candidate for the office of county commissioner of precinct 4.

Mr. Menefee is well known in Parmer county, having resided in the Labuddy section for the past 20 years, where he is engaged in farming. He served two terms as county commissioner from his home precinct from 1929 to 1933. During this tenure of office, he became acquainted with the duties of the office he now seeks at the forthcoming Democratic primary election in July.

In presenting himself as a candidate, he explains that he is doing so in response to the solicitations of his friends in the Labuddy precinct. "I intend to make an effort to see all the voters personally between now and election time, but I believe in being consistent with the use of gasoline and tires," he said in announcing his plans for making the campaign. He will appreciate any consideration shown his candidacy.

NO MEN'S CLUB MEETING

Due to the extremely busy season, it has been decided to skip the regular monthly meeting of the Mens' Club, scheduled for Thursday night of this week. C. M. Henderson, chairman, announced today. "We had no definite program arrangements in sight, and since everybody is so busy, it has been deemed best to call off our meeting for this week," Henderson said.

The Texico City Council, meeting in an adjourned session on Monday evening, held one of its busiest sessions in recent years with matters of broad magnitude facing the new council, which took office only recently.

The most weighty problem up for consideration, and one which has been giving councilmen considerable worry, was a movement to attempt the settlement of a deal involving the purchase of a fire truck some years ago from an apparent swindler who never delivered the truck after allegedly receiving the money for it.

Other matters taken up included passage of resolutions pertaining to minor items of concern to the residents of Texico.

Referring to the fire truck deal, Mayor M. C. Roberts stated in an interview, "We (the Town Council) are making no attempt to take any vicious action against the old council or any of its members, but we are faced with a responsibility of working out a settlement of this matter, and are asking the cooperation of all the citizenship of Texico."

The Council in its meeting Monday night, passed the following motion:

"A motion was made by Les Means and seconded by Carl McCully that whereas the preceding Commission did purchase from R. M. Hedrick a fire engine which was never delivered and resulted in financial loss to the City—part of which is represented by a judgment in favor of Mrs. B. O. Faville and will be due in 60 days. That the City Attorney, James McNamara, is hereby instructed to consult and advise with the State Comptroller's office and Attorney General's office and then take such steps as are necessary to protect the City and the taxpayers. That this matter should be cleared up and settled in the interest of the Old and New Commissions and in the interest of the general welfare."

Other matters receiving the attention of the Council included the passage of an ordinance to the effect that no one family may maintain more than one hog on the premises within the city limits.

Resolutions were adopted (1) asking the city marshal to enforce the ordinance requiring all residents to keep alleys clean of garbage and to keep cow lots clean; (2) citizenship required to open all alleys to permit passage of fire trucks; and (3) cooperation of parents sought in encouraging children to be more careful with the use of "nigger shooters".

Ag Teacher For Local High School Chosen

Robert L. Morton has been employed as vocational director of the Farwell high school for the ensuing year, beginning on July 1st, Supt. J. T. Carter announced today.

Morton comes here from Haskell, Texas, where he taught the past year and has had three years teaching experience. He is a graduate of the Texas A. & M. College.

He will succeed T. A. McCuiston, who has resigned in order to take up farming.

Mr. Morton's family consists of his wife and small baby.

Buy a bond every payday!

The machinery for carrying on the solicitations of the Fifth War Loan in Parmer County was completed at a county-wide meeting held in Bovina on Thursday evening of last week.

Representatives from Bovina, Farwell and Friona attended the meeting, and a discussion of the best methods to be employed in raising the county's quota of \$255,000 lasted until well into the night.

No Rallies Planned

It was decided that since all people, particularly farmers, will be engrossed with the matter of preparations for wheat harvest and actual harvesting operations, it would be unwise to attempt to hold community rallies over the county, unless all other efforts fail. The value of the rallies was recognized, and it was pointed out that they proved highly satisfactory in the Fourth War Loan. But with the heaviest season of the year facing the farmers of the county, it was deemed unwise to attempt the rallies in the present campaign.

Rather, a representative man or woman is to be selected in each community, who will be empowered to select helpers, and these representatives will carry on the solicitations in their respective communities. Only four such workers were definitely decided upon early this week, with County War Finance Chairman G. D. Anderson naming the following:

- Friona, Frank Spring.
- Bovina, Aubrey Brock.
- Black, Clyde Hays.
- Farwell, H. Y. Overstreet.

Chairman Anderson said he would name the other workers before the close of the present week.

"It's going to be the biggest financial undertaking we have ever tackled, but we must raise our quota," he said. Chairman Anderson said further he felt confident the quota of F and G series would be met with little difficulty, and that he was concerned about the series I quota, which is \$140,000 to be purchased by individuals.

The series F and G quota is "already in sight", he said. This quota is \$225,000, and Anderson said he felt certain that it would be oversubscribed, with Parmer County funds taking up at least \$50,000 of this amount.

He made an appeal to all residents of the county who could possibly buy bonds in any amount to contact the banks and post offices of the county and buy their bonds early in the campaign, which officially opened on Monday and will continue until July 18th.

"Parmer County has never failed to raise its quota yet, but wishful thinking will not accomplish the task we have in front of us now—it's going to take money and some real sacrifices," he concluded.

CLIFF HENDERSON HOME

Clifton Henderson was returned to his home in this city Sunday by his parents, Mr. and Mrs. C. M. Henderson, who drove to Dodge City, Kansas, and removed him from a hospital.

Young Henderson received a broken leg and injured eyes at Mead, Kansas, two weeks ago when a tire which he was inflating blew off the rim and struck him. He has been receiving treatment at Dodge City since the accident.

He is to return to that city in two weeks for a checkup.

Miss Adabud McGuire has gone to Los Angeles, where she plans to enter defense work.

'44 Wheat Loan Details Set Forth

Wheat loans averaging nationally \$1.28 a bushel at the farm will be made by the War Food Administration's Commodity Credit Corporation on the 1944 crop. Last year the average was \$1.23.

Loans will be made on a note and chattel mortgage basis for farm-stored wheat, and a note and loan agreement for wheat stored in approved warehouses.

Wheat produced in 1944 grading No. 3 or better, or grading No. 4 or No. 5 because of test weight only, will be eligible for loan. Loans will vary from the basic rate of \$1.28 per bushel at the farm to take into account location, grade and quality. For example, the loan rate for No. 1 hard winter wheat at Kansas City

for 1944 is \$1.44 per bushel as compared with \$1.38 in 1943.

Seven cents per bushel storage allowance will be advanced at the time of the loan on all farm-stored wheat. Loans on both farm-stored and warehouse-stored wheat will mature on demand but not later than April 30, 1945. Any loan may be liquidated by the payment of the full amount advanced, plus 3 per cent interest from the date of the note. All loans will be administered in the counties by the AAA committees under general supervision of the state committees.

The following loan values for terminal marks are released: No. 1 hard winter, at Kansas City, \$1.44; at Omaha, \$1.44; at Galveston, \$1.52;

at Chicago, \$1.49; at St. Louis, \$1.49; No. 1 soft white or western white at Portland, \$1.39; No. 1 dark northern spring, at Minneapolis, \$1.46; No. 1 red winter, at Chicago, \$1.49, at St. Louis, \$1.49, at Philadelphia, \$1.60; at Baltimore, \$1.60 and at Louisville, \$1.51.

Under new policy, a charge of 10c is made for change of address. Please include this when you notify us of such change. Otherwise, The Tribune will not be forwarded to new addresses.

Plant the Garden Again For Steady Production

COLLEGE STATION—A good gardener is one who continues planting throughout the full spring period, according to J. F. Rosborough, horticulturist. He recognizes, for instance, that beans being picked now won't last all summer and makes a second planting. In that way he assures himself a continuation of green string beans until dry, hot weather stops production.

This is also true of tomatoes. In most parts of the state the early crop will be picked in late June and July. Thereafter summer tomatoes, which are of a different type, must be looked to for the home table supply. Varieties like Porter, Denmark and Cherry, though small in size, are dependable for production because the plants are resistant to heat and drought. Small plants or the seed planted directly in the row is the method of starting the second crop, but it is not advisable to prune or stake the plants. During the hot, dry weather a canopy of foliage is needed to prevent the fruit from becoming blistered or sunburned.

Green pepper, okra, squash, butter beans, eggplant, blackeye, cream or purple hull peas, and shallot onions, are hot weather, or heat resistant vegetables. Rosborough suggests that every garden should have space for them so that midsummer will not find idle places in the garden. Accordingly, if they are not already growing they should be planted in the near future.

Blackeye, cream, or purple hull peas can be planted now for late June and July production. A second planting should be made in mid-June for late July and early August production. Allow 3 feet between rows and 6 to 10 inches between plants for easier cultivation.

Don't run a victory garden on half-time, Rosborough counsels. Every foot which can be utilized and every plant which can be made to produce is going to be needed to keep the nation in food this year.

NEW USE FOR GELATIN

COLLEGE STATION—A box of gelatin may have a place with your home laundry aids, as well as in your kitchen cupboard.

Gelatin is a good remedy for rayon dresses that become limp and wrinkle easily after washing. Mrs. Dora R. Barnes, clothing specialist, says the process is simple: Just dip the dress in a gelatin and water solution.

Starching is not successful with most rayon fabrics, Mrs. Barnes explains, but plain, granulated gelatin, softened and when dissolved in water likely will give the needed "body". The amount of gelatin used will depend on the stiffness desired, but usually two tablespoons should be enough. You might use less for sheer rayon, Mrs. Barnes says.

Directions First, soak gelatin a few minutes in cold water, then dissolve with boiling water. Pour solution in a bowl large enough to hold the dress and add enough cold water to be comfortable to your hands. After the dress is washed and rinsed, dip it in the gelatin solution and squeeze it gently. Then roll in a thick bath towel until dry enough to iron. Finally, remember that ironing rayon requires low heat.

The most disastrous flood in recorded history occurred in 1887 when China's Hwang river burst through its levees, flooded an area of 50,000 miles and drowned 1,000,000 people.

POLITICAL ANNOUNCEMENTS

The State Line Tribune is authorized to make the following political announcements, subject to the action of the Democratic primary:

For County Judge:
LEE THOMPSON
(Re-election)

For County and District Clerk:
D. K. ROBERTS
(Re-election)

For Sheriff-Assessor-Collector:
EARL BOOTH
(Re-election)

For County Attorney:
A. D. SMITH
(Re-Election)

For County Treasurer:
ROY B. EZELL
(Re-Election)

For Representative, 120th District:
JOE W. JENNINGS
(Floyd County)

For County Commissioner, Pct. 3:
J. P. (JIM) MILLER

For County Commissioner, Pct. 2:
F. T. (FLOYD) SCHLENKER
(Re-Election)

or County Commissioner, Pct. 4:
O. M. JENNINGS
(Re-election)

For District Attorney:
JOHN B. HONTS
(Re-election).

Penicillin May Fail in Venereal Treatments

AUSTIN—Very deep-seated infection or insufficient dosages are likely to cause penicillin, so-called "miracle drug" to fail in its treatment of gonococcus, the bacteria causing one of the worst of venereal diseases, three University of Texas medical researchers have revealed.

Dr. J. D. Weaver, Dr. W. R. Cooke and Bacteriologist C. E. Lankford presented a paper before the recent meeting of the Texas branch of the Society of American Bacteriologists here in which they pointed out that penicillin use has been generally encouraging but that under-treatment may cause relapses in spite of penicillin's fame as a "sure cure", and that some types of cases may resist the drug.

Accelerated spread of gonorrhea and other venereal diseases during wartime makes the investigation of all angles to the problem imperative, the scientists pointed out. Other papers were presented at

the meeting reporting new methods of assaying the strength of penicillin, together with studies on leprosy, allergy, insect infestation, typhus, Bullis fever, streptococcus, and other bacteriological topics.

SHIPMENTS GO DOWN

AUSTIN—Shipments of livestock from Texas during April declined to 10,628 cars, compared to 14,245 in April, 1943, a University of Texas Bureau of Business Research says. This movement represented shipments to out-of-state points and to the Fort Worth stockyards.

Shipments of hogs rose slightly and those of sheep remained about the same, while movement of cattle and calves dropped drastically, due primarily to the fact that floods in Kansas and Oklahoma rendered it impracticable to ship cattle to those feeding areas during April.

The greatest known depth of the Atlantic ocean is five and three-tenths miles, at a point north of Puerto Rico.

NAVY UNIT EXPANDED

AUSTIN—The Navy's V-12 training unit at the University of Texas will be expanded July 1 to include 200 men supply corps and deck training, Capt. John L. London has announced. This will bring the University unit to 1,400 men.

PINT JARS PREFERRED

In recommending that pint jars be used for canning food whenever possible, Mrs. Julia Kiene, director of the Westinghouse Home Economics Institute, gives these two reasons: First, the processing time is less; second, a pint jar holds just about the right amount to feed a family of four, which eliminates much of the leftover problem.

Navy Planes Attack Palau Islands

Navy planes above their carrier in the South Pacific getting altitude and assuming formation preparatory to attacking Japanese held bases in the Palau islands. The planes are part of a Pacific fleet carrier force.

TRIBUNE ADS BRING HOME THE BACON

OPEN YOUR DOOR AND HEART!

-the Victory Volunteers are coming to your home

WHO IS THE Victory Volunteer? He (or she) is someone in your community—probably a good neighbor—who is taking time from his work to put over the 5th War Loan Drive.

One of these volunteers may call at your farm soon—on the most important mission of the hour!

America has asked you before to do something more to smash Hitler and Tojo. But now, in this 5th War Loan Drive, you're asked to go all-out with every dollar you can scrape up—for war expenditures are greater now than at any time since Pearl Harbor. Double your War Bond investments. Invest—\$200—\$300—\$400—more if you can.

Yes, it's that important. This war is mounting in fury every minute—as our fighting men plunge into the biggest and bloodiest battles of history. The men

who fought and bled and died for you didn't hesitate. Only by answering "yes" to the Victory Volunteer—only by investing to the limit—can you come at all close to matching the spirit of our fighting men. For their sake—and for the sake of your own future—open your door and your heart!

5TH WAR LOAN DRIVE—JUNE 12TH-JULY 8TH

The 5th War Loan is the greatest "war call" ever sent to the American people. You will want to do your part. Buy all you can—the biggest bond you can afford. And then, when you think you've reached your limit—buy some more! Every dollar counts—NOW!

And Here are 5 EXTRA Reasons for Buying MORE Bonds in the 5th!

1. War Bonds are the best, the safest investment in the world!
2. War Bonds return you \$4 for every \$3 in 10 years.
3. War Bonds will assure the funds to replace worn out farm equipment, machinery, and buildings.
4. War Bonds will help win the Peace by increasing purchasing power after the War.
5. War Bonds mean education for your children, security for you, funds for retirement.

Back the Attack! - BUY MORE THAN BEFORE

Parmer County War Finance Committee

An Advertisement Addressed to Buyers of BLACK MARKET Gasoline

Phillips production of 100-octane gasoline could fuel enough Flying Forts to drop 3,000 tons of bombs on the "Invasion Coast" every day!

Gasoline shortage on the home front is a grim reality, and gasoline rationing is our American system of sharing the available supplies fairly, in accordance with car-owners' essential needs.

Why is gasoline short? . . . Re-read the headline above. It is presented not in boastful spirit, but in explanation of one of the vital military uses of the gasoline which you cannot purchase.

Remember, Phillips is only one of many producers of 100-octane aviation gasoline, of butadiene for synthetic rubber, of various fuels for ships and tanks and combat cars. The petroleum raw materials which go into the literally oceans of these military

fuels are obviously not available for the manufacture of civilian supplies of gasoline.

Every Black Market purchase reduces the already greatly diminished pool of gasoline which must suffice for our country's essential transportation needs. That is why no thinking, patriotic American will be a Black Buyer. And without Black Buyers there can be no Black Markets.

So do your patriotic part to break the Black Market in gasoline: Endorse every gasoline ration coupon in your possession. Don't accept any gasoline at any price without giving up coupons. And most important of all, use the legal gasoline you buy for essential driving only.

PHILLIPS PETROLEUM COMPANY, Bartlesville, Okla.

FOR VICTORY: Buy more than before... 5¢ WAR LOAN

SALVAGE EFFORT GETS EVEN MORE SIGNIFICANT

AUSTIN—With the long-awaited invasion of Europe now in full swing the national salvage effort takes on greater significance—becomes, in fact, almost as important as each mile gained by the fighting men across the seas. Without the salvage effort those men would be denied essential materials and the miles be made infinitely harder to gain.

Complaints of patriotic Texas housewives that they could not dispose of used household fats after laboring over the task of salvaging kitchen grease have been received by the salvage division of WPB, according to A. Patrick Flood, state salvage chairman.

In all thickly populated areas of Texas there is a regular pick-up service whereby trucks collect the used fats from butchers and storekeepers.

In outlying and rural communities the storekeeper can ship his collected fats to the nearest renderer by Railway Express. There is no charge to the merchant, he merely puts his fat in a container, addresses it and calls the express office. The container is returned.

Complaints should be sent to the Salvage Division, WPB, Room 301, Scarbrough Bldg., Austin.

Meanwhile, each and every Texas housewife is urged to continue the good work she has done in the past and save every drop of kitchen grease not necessary for her own needs.

SHORTAGE TO ABUNDANCE, —AND HOW QUICKLY!

COLLEGE STATION—Homemakers who three months ago fretted about the shortage of onions, now are urged to use all they can in the next few weeks meals.

There's a good reason for this about-face from shortage to abundance. Last year in Texas the onion acreage was 28,000 and this year the figure jumped to 70,600. For the nation as a whole, this year's production will be about 50 per cent over 1943's supply, and 40 percent above the 10-year average, WFA says.

Since early onions, including the ones now reaching market from Texas farms, are not suitable for dehydration, increased consumption will be necessary to avoid waste.

CARE FOR FRUIT TREES FOR CROP NEXT YEAR

COLLEGE STATION—The blame isn't on the tree if frost killed the buds while it was trying to make a fruit crop this spring. It will bear next year if given the care a good fruit tree deserves, says J. F. Rosborough, horticulturist for the Extension Service.

Cultivation throughout the summer is basic because weeds rob a tree of plant food and moisture. The growth made this year will store up

plant food from which early sprouts and blooms originate next spring. Systematic care will assure vigorous blooming and quick setting of fruit. On the other hand, a tree receiving indifferent care will produce weak blooms which often shed without developing into fruit.

A fruit tree not only responds to good care but helps the orchardist practice it. If the foliage is slightly yellow the tree is telling him that it needs nitrogen or plant food in general. A tree should receive one pound of nitrate of soda or ammonium phosphate during the first half of June. If the soil is generally run down two or three pounds of 5-10-5 commercial fertilizer will restore a tree to a healthy green color. Scatter the fertilizer over the surface to the ends of the branches. It can

be mixed into the soil for cultivation. Looking to better returns from the growing crop, Rosborough suggests that owners may profit by thinning fruit on the branches to 4 to 6 inches spacing. Since overloaded trees never produce large fruit, thinning increases the size. Many experienced orchardists claim, that about the same poundage of peaches, for instance, will be produced per tree whether there is a large number of small ones or a smaller number of large ones.

Although covered with snow, parts of the polar regions are as arid as the Sahara Desert, having an annual rainfall of less than ten inches.

Working to forget is better than forgetting to work.

My Boss Never Fusses About My Production Because He Sees that I Have the Proper Feed

The Proper Feed

Plays a most important part in the success or failure of your dairy cattle . . . whether it be only one or a lot full.

Enriched dairy cow feed, scientifically mixed and balanced, will prove an investment rather than an expense, because it will increase your production and keep your cows in prime condition.

See us for tried and proved dairy feeds, ready-mixed and ready for use. Or if you prefer . . . we can supply you with concentrates to mix with home grown feeds.

WAR HEROES VISIT TEXAS—During a visit to Austin, Lt. Ernest Childers and T-Sgt. Charles "Com-mando" Kelly, who recently received the nation's highest honors for

heroism in Italy, expressed appreciation of fighting men for the \$5,000,000 given by Texans to the National War Fund during the past year. Here Sergeant Kelly greets

Wayland D. Towner, general manager of the United War Chest of Texas, while Lieutenant Childers and Brig. Gen. Frank A. Keating smile at the nation's highest honors for

Texans Commended By Heroes

Two of America's outstanding war heroes interrupted a tour of Army camps this week long enough to thank the people of Texas for their "outstanding contribution toward victory through the National War Fund."

They were Lt. Ernest Childers and Tech. Sgt. Charles E. "Com-mando" Kelly, each of whom recently received the Congressional Medal of Honor for extraordinary heroism against the Nazis in Italy.

"Even in the front line, we can tell the extent of war support being given by the folks back home," Sgt. Kelly told Wayland D. Towner, general manager of the United War Chest of Texas, which supervises the annual campaign of the National War Fund in the State.

"In Italy, we were sure the folks were behind us, for USO entertainment units gave shows actually within sound of the guns. We

knew, too, that we would not be forgotten even if we should be captured by the enemy, for some of our comrades who were taken by the Germans already are receiving recreational supplies and other help from War Prisoners Aid.

"It helps a fighting man to know that the folks at home are behind him all the way."

Kelly won the nation's highest military honor by singlehandedly killing 40 Germans while serving with the famed Texas 36th division in Italy.

Lt. Childers, Oklahoma Indian who won the Medal of Honor by "crawling on hands, knees and belly" to rout a German attack after being seriously wounded, asked Towner to thank the people of Texas for their support of war relief agencies.

"Texans who gave approximately \$5,000,000 through their county war fund drives made a real contribu-

tion to the war effort," he told the War Chest executive. "Every war fund dollar makes the war just a little easier for the men who are doing the fighting. If the people here at home could see for themselves the need for services to the men abroad, I don't believe they would keep a single spare dollar their pockets."

EGG SHIPMENTS SOAR

Austin—Texas egg shipments continue to soar, as 1,600 carloads of a shell egg equivalent—went to market in April. This figure compared with 1,046 cars in April, 1943. Forty cars of poultry—23 of them to out-of-state points—were shipped in April, compared to only three cars in April a year ago.

Like most substances, water is lighter in the solid than in the liquid state.

What can you say to a wounded soldier?

Never mind the sympathy—he doesn't want it! In his mind, he did his duty, and part of his duty was stopping an enemy bullet.

You have a duty, too, in this war. Part of your duty is to buy War Bonds with every dime and dollar you can.

So simply say "thanks" to a wounded soldier, by buy-

ing your full share of War Bonds in the Fifth War Loan. Don't expect credit—you can't match his sacrifice by merely lending your money. But don't be ashamed, either—if you've done your duty, you've shown your gratitude—the way he wants you to.

Say "thanks" to every American soldier—double the Bonds you bought before.

OKLAHOMA LANE

Mr. and Mrs. Ernest Foster have purchased a home in Clovis, and with their family will move there this week. The Fosters moved here from Elk City, Okla., 19 years ago and had resided at the same farm since that time.

Miss Patricia Pigg has been ill the past few days.

Little Richard Bryant, of California, is visiting his aunts, Mrs. Buddy Jones, Mrs. Elmer Kennedy, and his uncle, Alvin Mace.

Mrs. H. H. Henson Jr. and Diana left Saturday for Camp Hood to be with H. H. Henson, Jr.

Mr. and Mrs. Jack Fegan of Clovis are the proud parents of a son, born Saturday. Mrs. Fegan is the former Miss Ernestine Foster of this community.

The Friday Club met with Mrs. B. B. Summers, with the following enjoying refreshments and games of 42: Mesdames Laster Vincent, Billy Sudderth, Turner Paine, Betty Jones, Alvin Moore, Tom Lindop, Joe Magness, Wilbur Thrash, Bill Hubbell and Mrs. Summers. The next meeting will be with Mrs. Turner Paine.

Sgt. and Mrs. David Carson are visiting in the J. I. Gober home. Sgt. Carson is stationed in Lubbock.

License Issued

A marriage license was issued at the office of County Clerk E. V. Bushing on Monday, June 12, to Rufus B. Burnett and Miss Norma Schneider. Burnett gave his address as Amarillo.

Supervisor Here

Miss Myra Hayes, administrative supervisor, arrived the last of the week to spend several days checking over affairs at the local FSA office. Miss Hayes is from Amarillo.

Victory Gardens Are Damaged by Hailstorm

Victory gardens, which were the pride and joy of their owners last weekend, looked slightly bedraggled the first of the week following the hailstorm which swept the Twin Cities on Saturday night.

Some gardeners, whose plantings were at a fairly well advanced stage, reported today that they sustained almost a total loss, and were already busy replanting some of the vegetables.

Others, a little slower than their neighbors, had smaller stuff which did not receive too much damage from the hail that lasted only a few minutes.

Beans, peas, and tomatoes apparently took the worst licking from the pelting stones, while onion and radish tops showed the spots caused by hail. Lettuce beds were also ravaged and cucumber plants bore mute evidence that they had not escaped unscathed.

The majority of potato plants in the local gardens seemed to withstand the hail fairly well, but in the long run, it was agreed that most gardens would have to be replanted on a large scale, which will necessarily push harvest time into the last of the summer months.

Pvt. and Mrs. Cronin and family, of Camp Reed, Clovis, spent Sunday in the home of Mr. and Mrs. Blackie Williams.

Garlon A. Harper, Donald Watkins and I. E. Hanna enjoyed an outing to the breaks north of Melrose, on Sunday, where they spent the day.

The honeymoon is over when it is discovered that it is cheaper to cook Sunday dinner at home.

FRYERS Wanted

We have an urgent need for a large quantity of good fryers. Bring them in.

Miss Graham Becomes Bride of Lt. Thornton In The Little Church Around the Corner

In a lovely single ring ceremony performed in The Little Church Around the Corner, in New York City, Miss Eunice Graham, daughter of Mr. and Mrs. B. N. Graham of Farwell, became the bride of Lt. William Thornton, son of Mr. and Mrs. J. R. Thornton of Farwell, the past Tuesday, June 6.

Dr. Randolph Ray was the officiating minister.

The wedding vows were read at six o'clock before an altar of banked palms, interspersed with white peonies and white carnations. Lighting was cast in a soft glow by white candles in tall candelabra.

To the strains of "Lohengrin", the bride entered the chapel on the arm of Lt. Hurdly, executive officer of the groom. Her wedding gown was a sheath of white satin over which was soft imported English marquisette. An accordion pleated ruffle of marquisette followed the line of the dress down the front and circled the short, full train.

For "something borrowed", the bride wore a fingertip length veil belonging to Mrs. D. K. Roberts, of Farwell, which fell from a crown of white lilies of the valley, and for "something old" she wore a gold cross belonging to her mother. Her bouquet, which she carried on a Mount Olive testament brought from which fell long white satin from the Holy Land, was of white orchids and white lilies of the valley streamers.

Miss Iris Thornton, sister of the groom, acted as maid of honor and wore a floor length creation of soft blue net, with accents of pale pink, and had a pink lace hat. For flowers, she chose a corsage of pink carnations.

The wedding party left the chapel to the strains of the "Bridal Chorus".

Following the ceremony, a reception was held at the McAlpin Hotel, where a beautiful white cake, topped with wedding bells, was arranged in the center of fern and white candles.

Mr. and Mrs. Thornton spent their honeymoon at the Inn of Buck Hill Falls, in the Pocono Mountains of Pennsylvania, and then returned to New York, where they will reside.

Mrs. Thornton, a local graduate, received her degree from Texas Technological College, at Lubbock, and since that time has taught in Farwell, Olton and Raton, New Mexico.

Lt. Thornton is stationed at Floyd Bennett Field, in New York, with the Naval Air Corps, having returned to the States some time ago after duty overseas. He is a graduate of the local school, and for a number of years was employed at the Farwell postoffice. He was attending Texas A & M and in his senior year when called to service.

Among the wedding guests were Mr. and Mrs. Bill Ammo, of New Rochelle, N. J., and Miss Dorothy Thornton of Farwell.

Vacation Bible School To Start On Monday

Sponsored by the Methodist Church, a Vacation Bible school for children in the age groups of beginners through intermediates, will begin next Monday, June 19th. at the church.

Classes will be held each afternoon from 4 to 6, with studies in handcraft, as well as regular devotion and recreation periods. Refreshments will be served the students at the conclusion of work each day.

J. T. Carter is to serve as general superintendent of the school, with Mrs. Ellis M. Mills in charge of the intermediates, Mrs. Lenton Pool supervising the juniors, and Mrs. LeRoy Faville and Mrs. Loyd Cain working with the beginner-primary group.

Rev. Paul Tripp will conduct the devotional periods, and C. F. Bieler will assist boys of the school in individual and class projects.

The school will conclude on June 30, with a special program, details of which will be announced next week. An invitation is extended to all children of the community.

Here From Silver City

Mrs. Payne Sears, sister of Mrs. O. C. Sikes, is here to spend a few weeks visiting in the Sikes home with her sister and her mother, Mrs. S. C. Smith. Her home is in Silver City, N. M.

Guests in Moore Home

Mr. and Mrs. L. C. Moore and son had as dinner guests Sunday Mrs. Ernest Lee Smith and son, of Monahans, Tex.; Miss Gracie Johnson and Sgt L. C. Moore, of Amarillo; Mrs. Doris Billingsley, Mozelle Moore, and Mrs. Sula Vogt of Clovis.

Miss Wanda Pearce Weds Capt. Hinton

Marriage vows for Miss Wanda Pearce, daughter of Mr. and Mrs. L. A. Pearce of Texico, and Captain Percy Hinton, son of Mrs. M. C. Hinton of Lakeland, Fla., were read Sunday afternoon at the Clovis Army Airfield chapel, by Rev. W. C. Wright, local Baptist pastor.

The double-ring ceremony was performed before an altar beautifully decorated with palms and baskets of calla lilies and delphinium, with tall white tapers glowing behind the flowers.

Wearing a white satin floor-length gown with a fitted bodice and a full skirt ending in scallops, the bride entered the chapel on the arm of her father, to the strains of "Lohengrin". Her three-tiered fingertip length veil of white net fell from a coronet of white leaves, and she carried a white Bible on which rested a white orchid tied with white satin streamers.

Maid of honor was Miss Anita George, who wore a floor-length gown of blue marquisette, styled similar to that of the bride, and in her hair Miss George wore a halo of pink rosebuds.

Mrs. Pearce, mother of the bride, wore a street dress of powder blue with black accessories, and a corsage of gardenias, surrounded by sweetheart rosebuds.

Captain Merle C. Woods, of Pyote, Texas, acted as best man, with Major Ulmer J. Newman, Captain Joe Brookhart, Captain MacIntosh and Benny Compton as ushers.

Following the ceremony, a reception was held in the Officers Club with Mrs. Pearce, Mr. Pearce, Mrs. J. C. Compton, Miss George and the bride and groom in the receiving line.

The names "Wanda and Percy" were inscribed on the lovely wedding cake which was cut first by the newlyweds, after which Mrs. Richard Anderson, of Texico, presided at the table.

A graduate of the Texico high school, Mrs. Hinton has just received her degree from Eastern New Mexico College, Portales, with a major in music. She was a member of the Twin Trio, the orchestra and Euterpan, an honorary music organization; also a member of Kappa Delta Alpha sorority; Silver Key, an honorary scholastic fraternity; Pioneers, an honorary service club; and president of the student body during her senior year.

Captain Hinton received his degree from the University of Florida at Gainesville. In October of 1941 he was sent to the Philippines and served for 14 months in the Pacific theater, during which time he received the Presidential Citation, Silver Star, Oak Leaf Cluster, Distinguished Flying Cross and the Air Medal.

After a honeymoon at Ruidoso, Santa Fe, Albuquerque, and other New Mexico points, the couple will be at home at 212 Rencher, in Clovis.

Miss Dorothea Deaton left Sunday to return to work in Tulsa, Okla. after spending several days here with her parents, Mr. and Mrs. E. M. Deaton.

Birthday Celebration Held on June 6th

Iris Reed and Homer Paul were honored with a birthday party on Tuesday night, June 6, held in the home of Mrs. Ralph Paul. The honorees were each 17 years old.

After the games, packages were presented Iris and Homer by their friends.

Refreshments of cake, cookies and punch were served to Lillys Treider, Kenneth Wehunt, Clara Treider, Betty Jo Tarter, Raymond Treider, Jr., A. J. and Margaret Jesko, Raymond Skrapka, Anita Bewley, Anita Steinbock, J. R. Harris, Betty Lou Cantrell, Bobbie Edwards, Bobbie Jean Breeze, Bill Johnson, Joe Frank Paul, Dan Dunn, Beatrice Tarter, Bobbie June Treider, Carol Jean Boyce, Leroy Wilson, Merle Enson, Ralph Broyles, Wenonah Thorn, Mack Turner, C. C. Mathews Jr., Rex Steinbock, O. D. Spittler, Tom Lilly, N. J. Goodnough, Joyce Richardson, Pauline Rink, Evon Brown, Perry Barnes Jr., Anna Marie Crain, Boots Reed and the honorees.

Assisting in serving were Saahr Payne, Mae Greene, Lou Reed, Frances Treider, Pauline Paul, and Margaret Johns, of Lubbock.

Wedding Dinner Given

Mr. and Mrs. Lee Sudderth entertained at a wedding dinner in honor of their son and wife, Mr. and Mrs. Melvin Sudderth, on June 4th.

Those present were Mrs. Eddie Redden and daughter, Mr. and Mrs. Billy Sudderth and Glendon, Leon Sudderth, Mrs. Bernice Gates and son of Amarillo, Mr. and Mrs. Arlin Hartzog and daughters, of Brownfield, Texas.

Visitors Here Sunday

Mrs. Paulie Jones and sons and W. H. Jones, all of Clovis, and Mrs. Ferry T. Brown and daughter, of Sayre, Oklahoma, visited in Farwell, Sunday. Mr. and Mrs. Brown resided in Farwell a number of years ago, when he served as county attorney. Brown is now in the Navy, in command of a gasoline transport ship.

PROFESSIONAL

Modern embalming is an exact science which requires professional training and years of practical experience — in addition to passing a license examination conducted by the State. It is the basis of modern funeral service, in addition to guarding public health by preventing the spread of disease. All our skill is at the call of those we serve.

WOMEN WORKERS SHOULD NOTIFY SOCIAL SECURITY BOARD OF MARRIAGE

Women workers should notify the Social Security Board when they marry so their names can be changed on the records at Baltimore.

If they do this, they will make it easier for themselves and the board when the time comes to file claims for old-age and survivors insurance benefits.

For the woman who marries and wants to change her name, special forms, which may be obtained at the field office of the board, are provided. She should fill it out, attach the card bearing her maiden name, and send the form to the board.

A new card, bearing her present name and original number, will be issued. She thus will have only one social security number during her entire life. If she had more than one she might stand to lose her benefits.

The board keeps all information it receives from the worker strictly confidential.

Workers may obtain further information at the field office of the Social Security Board, Room 324, New P. B. Bldg., Amarillo.

PRISON LABOR LIMITED TO TEXAS PRODUCERS

COLLEGE STATION—Only 45,000 prisoners of war will be available to Texas farmers for agricultural work in the months ahead, the Eighth Service Command has advised the A & M Extension Service.

At the present time there are only one-third as many prisoners in the Command area as a year ago, Extension representatives have been told. Earlier, one-half of all the war prisoners in the United States were located in this area Command embracing 5 states, but many have been moved out to help meet critical labor needs in other areas.

A recent agreement between the commanding officer of the Eighth Service Command and Acting Extension Director J. D. Prewitt will permit movement of the prisoners to branch camps for employment in harvesting crops wherever the Extension Service consider the greatest needs exist. The commanding general is considering also the establishing of mobile camp units for use in emergencies. These units might include 150 to 250 men.

Recent regulations will prevent the use of prisoners for agricultural work such as brush clearing, cleaning ditches and building fences, according to C. Hohn, extension state farm labor supervisor. Their work must be limited to food production.

The provision that the government cannot bear the expense of furnishing war prisoners for agricultural work still stands, and farmers will be expected to pay wages, cost of subsistence and transportation. Ordinarily there is more expense attached to establishing branch camps for emergency work than in obtaining prisoners from base camps.

119,889,000 POUNDS OF MILK

AUSTIN—Farmers of Texas carried 119,889,000 pounds of raw milk to dairy products plants for conversion into butter, cheese, ice cream and other products during April.

While cheese was the only product turned out in larger quantities than in April, 1943, all three major types of products reached their peak output for 1944 in April—creamery butter, 3,535,000 lbs.; ice cream 1,687,000 gallons; and American cheese, 1,884,000 lbs.

Because every particle of fog has a minute nucleus of dust, fogs in cities, where dust is comparatively thick, are denser than fogs in the country.

Southwestern PUBLIC SERVICE Company

Health Notes

by Texas Department of Health

AUSTIN—Texas, one of the first states in the Union to establish a blood plasma program for civilian use operates through the State Department of Health, a well equipped and efficiently manned mobile bleeding unit which is sent upon request to any community desirous of its services.

Blood plasma banks have been proved an invaluable aid to all towns and hospitals, where established. The giving of blood does not cause any ill effects to the donor and blood donors are usually pleasantly surprised at the painless simplicity of the bleeding. The process

usually takes about 30 minutes from the beginning of the donation to the resumption of normal activities, and is without discomfort to healthy individuals who, incidentally, are the only ones from whom blood is accepted.

Regarding the importance of the blood plasma program, Dr. Geo. W. Cox, State Health Officer, has stated that the man at the front has long since learned to appreciate the value of plasma and would no doubt be grateful to know that it is available for use as needed by the family he has left, and to his home community.

Dr. Cox pointed out that the State Department of Health merely collects the blood and processes it into plasma, and then it is returned without cost to the community from which it came. Any civic group or other organization interested in pub-

lic health may sponsor this program locally. Contact should be made with the local health officer who can make arrangements for this service wherever requested.

SHORT CUTS

Keeping in mind canning's cardinal rule of "two hours from garden to can", the following shorts cuts are given on preparing corn: To husk, place ear on cutting board and slice off about one-half inch of stem and about one-half inch of tassel end. Husks and silks will then strip off easily. To cut corn from cob quickly, drive a nail through a small board (about 4x4x1/2); place board on waxed paper or into bottom of bowl; stick stem end of corn on protruding point of nail; hold knife at 45 degree angle and cut straight down the cob.

THE WAR ISN'T OVER

but . . .

Things are easing up—'specially for folks who have been needing gas service

Heretofore, government restrictions prohibited the laying of service lines except under certain conditions.

Today, however, these restrictions have been relaxed and your Gas Company may now handle any new service not requiring more than 350 feet of pipe, and many requiring more than that amount.

It is our sincere wish to provide needed gas service whenever and wherever possible under existing regulations. For further information regarding a gas extension to your home or business, contact our office at once.

Use Natural Gas for Cooking, Water Heating, Refrigeration, House Heating
 Telephone 2821

AID TO WAR VETERANS

COLLEGE STATION—Local advisory committees to assist returning war veterans with the purchase or lease of farms soon will be set up throughout Texas under a program advanced by the A & M Extension Service.

There is no need to wait until the post war era to help discharged men with this or other problems, J. D. Prewit, acting extension director, has notified county extension workers. He cited reports that 100,000 men are being released each month from the armed forces.

County agricultural victory councils, reorganized for war work in 1942, will form the nucleus for these committees, and other agencies in the counties will be asked to assist, Prewit said. The advisory groups can render invaluable assistance in seeing that these men are adequately informed on productive values, rental agreements, credit, and other factors involved in the purchase or leasing of a farm or ranch.

Sample surveys made among certain units in the armed forces indicate that many fighting men hope to buy farms with their mustering out pay. And they will need protection from land prices which are above cost of production, Prewit believes. He expects local farm and ranch people will welcome the opportunity to give this type of volunteer service since practically every family has contributed some member to the armed forces. Gaining some experience in helping the small numbers of veterans returning now will enable these local committees to be prepared for large scale demobilization later.

LEGAL NOTICES

Citation By Publication—Tax Suits 1143

To the Sheriff or Any Constable of Parmer County—Greeting:

You are hereby commanded to summon Harry R. Neal, Ed T. Massey, Waples Platter Grocery Co., Richard A. Tudor by making publication of this citation once each week for 2 consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in a newspaper published in an adjoining county, to appear at the next regular term of the District Court, 69th Judicial District of Parmer County, to be held at the court house thereof, in the town of Farwell, Texas, on the second Monday in July, A. D. 1944 then and there to appear and defend the suit filed in said court on the 29th day of May A. D. 1944, in cause numbered 1143, wherein the State of Texas and the County of Parmer are plaintiffs and Harry R. Neal, Ed T. Massey, Waples Platter Grocery Co., and Richard A. Tudor are defendants, and said plaintiffs pleaded The Farwell Independent School District within the boundaries of Parmer County, Texas, taxing units in said State, to appear in said cause and for each to file its claim for delinquent taxes against the property or any part thereof, described in the petition of said plaintiff. The cause of such action being alleged as follows:

That suit has been brought by the plaintiffs for the collection of delinquent taxes for the years 1921 to 1943, both inclusive, for the following amounts, exclusive of interest, penalties and costs, to-wit: \$81.09 for State taxes and \$333.40 for County and District taxes, together with interest, penalties and costs allowed by law.

Said taxes are due upon the following described lands/or lots:

Lots 27, 28, 29, 30, 31 and 32 of Block 17, of the Original Town of Farwell Parmer County, Texas, as shown by recorded map or plat of said town of Farwell of record in the Deed Records of Parmer County, Texas.

Plaintiffs allege a prior and constitutional lien upon said land for said taxes, interest, penalties and all costs allowed by law, and pray for the foreclosure of said lien and sale of said lands for the satisfaction of the same.

Each party to said suit shall take notice of, and plead and answer to, all claims and pleadings now on file and hereafter filed in said cause by all other parties therein.

HEREIN FAIL NOT, but have you before said court, on the first day of the next regular term thereof, this writ, with your return thereon, showing how you have executed the same.

Given under my hand and seal of said court in the Town of Farwell, Parmer County, Texas, this the 29th day of May, A. D. 1944.

D. K. ROBERTS,
Clerk of the District Court, Parmer County, Texas.

By DOROTHY LOVELACE,
Deputy.

Issued this the 29th day of May A. D. 1944.

D. K. ROBERTS,
Clerk of the District Court, Parmer County, Texas.

By DOROTHY LOVELACE,
Deputy.

Former Grid Star Nips 16 Japs—Wins DFC

Lieut. (jg) "Ike" Kepford, USNR, a brilliant backfield man in former days for Northwestern university, and hailing from Muskegon, Mich., has shot down 16 Jap planes and ranks as top scoring pilot in the navy fighter groups. His Vought Corsair, with "Ike" at the controls, is shown at left. Inset: Closeup of Lieutenant Kepford, taken on his return from the Pacific theater of war.

FIGHT FLIES AND MOSQUITOS

COLLEGE STATION—Two dangerous public enemies, the housefly and the mosquito, are abroad. They spread disease and annoy persons, and should be destroyed whenever found.

According to Mrs. Bernice Claytor of the A. and M. College Extension Service, families should not delay in protection their homes from harmful pests. People have an added responsibility this year for they will have to make their protective fight with the material they have on hand.

As the first line of defense, screens should be guarded carefully against damage and deterioration. Mrs. Claytor, who is the specialist in home improvement, advises seeing to it that all frames fit doors and windows tightly. Galvanized screens should be dressed once yearly with a thin paint or an approved screen paint, and as a preservative, paint the frames at the same time. During this annual renovation patch any holes or rips and when the screens and doors go into winter storage they should be protected against ac-

cidental damage.

It's a good idea, the specialist says, to put a strong spring on screen doors so they'll close quickly, have them well equipped with hooks and latches, and the lower portion protected with a guard.

Carrying the fight to the flies, Mrs. Claytor suggests attacking their origin. Destroy all breeding places, keep the yard clean; use sprays; have a sanitary toilet and, lastly, have every member of the family trained to use the swatter.

Many of these suggestions apply to controlling mosquitoes especially the use of the screens and sprays. Attacking the source, the specialist recommends draining pools and water holes, if practical; pouring oil on water where mosquitoes might breed.

NO SOAKING

It's true that foods must be thoroughly clean before they're canned for dirt is the natural home of many an organism that may cause spoilage. But don't soak the food, warns Mrs. Julia Kiene, director of the Westinghouse Home Economics Institute, or it will become soggy and lose flavor as well as vitamins. Instead, wash carefully, using fresh water several times if need be. Cold water is preferred. Scrub root vegetables with a brush.

WASH PODS

Wash pods thoroughly before shelving peas or lima beans, and you'll run less risk of contamination with bacteria-carrying soil. And don't shell more than can be processed at one time, because—and this applies to all foods that are being canned—prepared foods that stand too long before being put into closed jars are not only subject to attack by airborne spoilage organisms, but the vitamin content is apt to suffer, too.

TRIBUNE ADS BRING HOME THE BACON

THE CRUCIAL HOUR is at hand... Right now, Uncle Sam needs the help of every fighting American both at home and abroad—more than at any time since the war started.

The boys in uniform are doing O.K. Ask Adolph and Tojo! Workers in our industrial plants are turning out the planes and guns and tanks on schedule. Farmers and ranchers are breaking records in food production, despite handicaps.

But when it comes to buying War Bonds to pay for all this, we've got a job to do—the biggest job of its kind in all our history.

Uncle Sam can't go on supplying our fighting men with the tools they need and must have

to win this war unless the money is there to pay for it. The money must come from the people—from YOU. And because war costs are mounting higher than ever before, we must buy MORE BONDS than ever before.

There'll be a Victory Volunteer at your door during the 5th War Loan... a neighbor who is taking time from his work to help Uncle Sam raise the money needed to finance this war. Don't turn him down. Don't ask him to come back some other time. Don't... of all things... tell him you can't afford more Bonds. Make up your mind now that you're going to BUY MORE THAN BEFORE... Uncle Sam is depending on our boys over there and they're not letting him down. We at home have the same responsibility! BUY MORE THAN BEFORE!

And Here Are 5 Extra Reasons for Buying More Bonds in the 5th!

1. War Bonds are the best, the safest investment in the world!
2. War Bonds return you \$4 for every \$3 in 10 years.
3. War Bonds will assure the funds to replace worn out farm equipment, machinery, and buildings.
4. War Bonds will help win the Peace by increasing purchasing power after the war.
5. War Bonds mean education for your children, security for you, funds for retirement.

NEWS FROM OUR BOYS IN CAMPS

RIMER IS OVERSEAS

F/o Shelton J. Rimer, husband of Dorothy Rimer of Lariat, is now overseas and has participated in a course of training designed to bridge the gap between training in the States and soldiering in an active theatre of war. His next station will be one from which America's fighting planes take off against Germany.

JERSIG LEAVES

Capt. Shelby Jersig left Saturday for his new assignment at a Marine base in North Carolina, after spending a 30-day leave with home folks, following several months in the South Pacific. Mrs. Jersig and daughter, Shelby Ann, accompanied him, and will make their home in North Carolina.

VISITING PARENTS

A-C Joe Wesley Hromas is here for a visit with his parents, near Bovina. He has been stationed at Columbia, S. C., until recently, and will be assigned to a new station.

WHITE GETS WINGS

Announcement has come from the Victorville Army Air Field, in California, that Murray White, son of Mr. and Mrs. Jack White, of Texico, was awarded his wings as bombardier-navigator on June 10. Lt. White is to visit here before receiving his first assignment.

BOBST TO LEAVE

Pfc. Dick Bobst, who has been

here visiting with his mother and other relatives and friends, will leave this week for Salina, California, to return to duty.

SEABEE BUYS BOND

Mr. and Mrs. E. H. Young are in receipt of a letter from their son, Austin, serving with the Seabees in the Hawaiian Islands, enclosing money to buy a \$25 war bond. Austin has been overseas for some time and judging from his letter, finds the Islands quite interesting.

YOUNG IN ENGLAND

Pvt. Henry Young, son of Mr. and Mrs. E. H. Young of the Oklahoma Lane community, is in England, where he is kept "busy on K. P.," he writes his parents.

GOES TO SAN ANTONIO

Sgt. Orville London, concluding a 30-day stay at home after several months in Italy, left on Tuesday morning to report at San Antonio. London stated that he did not know whether he would be assigned to

San Antonio, or moved from there in the near future.

STATIONED AT KINGMAN

Cpl. Loren J. West, aerial gunner, is now stationed at Kingman, Ariz., with the AAF, as an instructor, according to word received here by homefolks.

PIPKIN IN ITALY

Mrs. O. B. Pipkin stated the first of the week that she had heard from her son, Jess Herbert. He is now in Italy with an American paratroop division.

Scout Troop Attends District Camporee

Eight local Boy Scouts, accompanied by their Assistant Scoutmaster, Graham Thornton, are attending the district Camporee at the CCC camp on the Portales-Clovis highway this week.

Troops from nearby towns are also in attendance. The Scouts from Farwell include Ernest Lokey, A. C. Henneman, Carrie Joe Magness, Hollis and Glennis Hughes, Martell LeVeque, Donald Ford, Warlick Thomas and Dale Nobles.

They are scheduled to break camp on Thursday.

CARD OF THANKS

To our many friends and neighbors who were so unstinting in their acts of kindness to us during the illness and death of our beloved Otis, we use this means of expressing our very deep appreciation.

Mr. and Mrs. W. G. Hurst, Mr. and Mrs. Travis Rundell, Sgt. Walter Hurst, Charles, Leon, Lousya, Wiley and Ernest Hurst; Leonard and Cathie Ann Rundell, Mr. and Mrs. W. A. Doshier.

Mrs. Ben Smart and children are visiting relatives in Amarillo.

Vacation Bible School Closes Sunday Night

Presenting a program designed to give parents and friends an opportunity to see the work that has been carried on, the vacation Bible school of the Baptist church came to its conclusion Sunday night.

Highest enrollment during the two-week program was 103, Rev. W. C. Wright, pastor said today, with an average daily attendance of from 90 to 95 children of the Twin Cities.

Handicraft, recreation and worship were the theme of the vacation school with four departments being set up. Mrs. Carl McGuire and Mrs. Garlon A. Harper were in charge of the beginners; primary work was supervised by Mrs. Bill Bradshaw Magness, Mrs. John Lockhart and mediates were under Mrs. Clyde Mangness, Mrs. John Lockhart and Mrs. Evelyn Ford; and Mrs. S. G. Billington, Mrs. Owen Ford and Mrs. Luther Moss served the junior department.

Charles F. Bieler and Rev. Wright helped the junior boys with handicraft work, while Mrs. Henry Minter assisted in the same capacity with the junior girls. Mrs. Wright served as pianist and secretary of the school.

The program Sunday night was given by students from all four departments of the school, and at the close an exhibit of the handiwork was given.

ROBERTS TO CHICAGO

Mr. and Mrs. M. C. Roberts plan to leave here Saturday for Chicago, where they will spend the next two weeks attending at least three nationally important conventions.

The first will be the American Seed Trade Association convention, followed by the American Democratic National Convention, and

FOX FOX

GIFTS FOR FATHERS DAY...

Admittedly, Father is about the hardest customer we have to deal with. But who ever saw a man that didn't need extra socks, or a new necktie—and a carton of his favorite cigarettes is always in order. Or how about a new bill fold to carry his ration stamps in, or a new shaving set?

FOX FOX

finally the Republican National Convention.

Mr. Roberts explained that the Democratic convention named above was in reality an anti-Roosevelt convention.

Mrs. Roberts is chairwoman of the Republican State Party of New Mexico and Mr. Roberts has been elected as one of the Republican delegates to attend the Chicago meeting.

LEON HURST ILL

Leon, son of Mr. and Mrs. Warnie

Hurst of the Oklahoma Lane community, is under observation for a nervous breakdown and other ailments. Mr. Hurst stated on Monday that the boy's condition was serious but not critical.

Mr. and Mrs. H. D. Mayfield and daughter, Peggy, of Friona visited briefly in Farwell, Sunday afternoon. They were accompanied here by their daughter, Mrs. Dorothy Lovelace, who had spent a week with her parents.
