

Nephew Local Man Invents Stratovision

Mr. and Mrs. B. E. Nobles, of Farwell, are justly proud this week of the accomplishments of Charles Edward Nobles, nephew of the local man, who at the age of 27 has turned in one of the outstanding discoveries of the century—stratovision.

The young inventor was the subject of the Westinghouse research broadcast, on Sunday afternoon.

According to scientists, stratovision, patented in Noble's name, will provide television and frequency modulation (FM) radio broadcasts guaranteeing clear reception and sharp images, even including color. Using 14 stratosphere planes, six miles up, the Westinghouse Electric and Manufacturing Co., of Pittsburgh, and the Glen L. Martin Co. of Baltimore, aircraft manufacturers, are cooperating in offering America the new wonder of the world.

As a youngster, Nobles was "invention-minded", and following his graduation from Texas A. & M. in 1939, has been given a free hand as a radar technician for Westinghouse.

The Nobles' system calls for a stratosphere plane, especially designed for high altitude flying, to hover over the transmission station where the program originates. Receiving the program by a low-powered ground transmitter, the plane would rebroadcast the program with its receiving and transmitting equipment. The radius of the stratovision broadcast would be 200 miles, or expressed in area, it would cover 103,000 miles.

With any other setup, eleven 50-kilowatt ground stations would be required to cover that area, while Nobles' invention, by using plants, would require only a single one-kilowatt stratovision sender. In addition, each plane could provide nine simultaneous programs, four in television and five in FM.

Only seven more television lines similar to the one in Pittsburgh would be needed to relay the program across the entire nation.

As for the planes, Westinghouse says this is no problem. A B-29 Superfortress, constructed to cut the weight to about one-third present, could be used, equipped with heavy duty engines, automatic pilots and a larger wind-spread, since the plane would spend the day hovering over its receiving station. And in the case of unforeseen weather disturbances, planes could work in four-hour shifts.

Strikes To Delay Ford Output

Mr. and Mrs. O. C. Sikes of the Sikes Motor Company, local Ford dealers, returned home the first of the week from Denver, where they attended a meeting of Ford dealers in the Denver zone and inspected the new Ford models for 1946.

Sikes stated on his return that at present it was very indefinite as to when the new models would be in the hands of dealers throughout the country. He said that strikes in the automotive industry were delaying the output and no assurance could be given as to when the new models would be available. He added that the Ford Motor Company had been making preparations to stage a nation-wide showing of the new models, at which time every dealer in the nation would have one of the new models on the floor.

"But," he concluded, "it looks now as though some of the dealers will not be able to display the new Fords on schedule, due to the strike situation."

IN LUBBOCK HOSPITAL

Mrs. Vane Petree, of Santa Fe, N. M., who formerly lived here, is in Lubbock receiving medical treatment, following an operation for the removal of a goiter. She is reported to be showing improvement and may be permitted to leave the hospital at an early date.

Under new policy, a charge of 10c is made for change of address. Please include this when you notify us of such change. Otherwise, The Tribune will not be forwarded to new addresses.

Army, Coast Guard Men File Discharges Here

Seven Army discharges and one Coast Guard discharge were filed in the office of County Clerk D. K. Roberts during the past few days, according to the records.

Matilde Martinez, W. T. Meeks, Gwynne White, Cleo C. Gee, Fred W. Helmke, Delbert W. Gunn, and Hardy W. Hardage have been released from the Army and Robert Lois Bates from the Coast Guard.

In addition, a WAVE discharge was filed, by Alleen Fay Thompson.

Martinez, a private first class, was relieved on September 7 at Fort Sam Houston, following three years in army uniform. He is from Friona, and holds the good conduct medal.

T-Sgt. Meeks, of Farwell, served overseas for two years with the 64th Troop Carrier Squadron, and holds the Asiatic-Pacific ribbon with the New Guinea, Bismark Archipelago, Northern Solomons, Western Pacific, Southern Philippine and Luzon campaign stars. In addition, he is entitled to wear the good conduct medal and the Philippine liberation medal. Discharge was from Fort Bliss on September 3.

Son of Mr. and Mrs. A. D. White, M-Sgt. Gwynne White was discharged from Fort Sam Houston on September 12. He enlisted in 1940 and was overseas with the air force for 34 months, returning to the States last summer. On his Asiatic-Pacific ribbon he wears the campaign stars of the Bismark Archipelago, East Indies, Papua, and New Guinea. His other awards include the good conduct medal, the distinguished unit citation badge and the American defense medal.

Bates, who served as a storekeeper for the Coast Guard for two years, is now back in Friona, holding down his teaching job, which he left to go into uniform. He was discharged at the New Orleans separation center on August 27th.

T-5th Hardage, of Farwell, was released at Fort Bliss on September 3. In service two and one-half years, Hardage was in the European theatre for over a year. He wears the EAME colors, with the Normandy, Northern France, Ardennes, Central Europe, and Rhineland campaign stars, in addition to the good conduct medal.

T-4th Gee, of Bovina, received his back to civilian life papers on Sept. 16th, from Fort Sam Houston. In service three years and nine months, he spent three years and one month of that overseas with the 1875th service unit, in the medical detachment. He wears the Asiatic-Pacific ribbon with one star, Western Pacific, and the good conduct medal.

A staff sergeant, Helmke was discharged on September 9, after 32 months overseas with the 4th troop carrier squadron. On his EAME ribbon he has nine campaign stars: Southern France, air combat Balkans, Northern Apennines, Salician, Po Valley, Egypt, Lybia, Tunisian, Naples-Foggia and Rome-Arno. He holds the good conduct medal, the distinguished unit badge, with one oak leaf cluster. Helmke is from Friona.

First Sergeant Gunn, of Bovina, completed five years of service, two of them in the Pacific theatre with the medics of the 16th Cavalry. His campaign stars include the Bismark Archipelago, Southern Philippines, Luzon, and New Guinea. Other awards were the good conduct medal, American defense service medal, and the Philippine liberation ribbon. He re-enlisted in the Army reserve.

The first WAVE discharge, to Mrs. Thompson, was given at the San Diego Naval air station on September 6. She served as aviation machinist's mate, second-class.

Crop Insurance Program Fails To Carry in Co.

A drive to secure sufficient applications for cotton insurance, which would have made both wheat and cotton government-sponsored insurance effective in Parmer County during the coming crop year, failed to make the grade last week.

Mrs. Eva McDaniel of the AAA office, reported today that neither program would be in operation in this county now.

Melvin Treider Liberated From Prison

Winds of Past Week Damage Wheat

The high winds of the past week, particularly on Wednesday and Sunday, have done considerable damage to Parmer County wheat fields, County Agent Lee McElroy reported today.

He said that in some cases the young wheat had blown out, and that replanting would be necessary. Other fields suffered less damage, but all of the tender growth has been hurt more or less by the high winds and sand of the past week.

Most of the damage seems to have been done in the Friona section, where Sloan Osborne is reported to have lost a half-section of young wheat. Also, reports from the Hub community say that a number of fields in that area were partially blown out and others damaged by the wind. Sunday found many farmers in the Lazbuddy section in their fields, listing up wheat lands to prevent further damage.

The winds are likewise reported to have wiped about 400 acres of wheat belonging to Joe Blair, southwest of Texico, during the past week. The winds are said to have attained a velocity of 70 mph along the east side of the county, but the west side was not so severely lashed.

Most farmers along the east side who suffered damages have sufficient moisture to replant their lands and sowing operations have already been resumed. But, unfortunately, wheat land along the western half of the county is too dry to justify reseeding at this time.

Sudan fields—and there are only a very limited number in the entire county—suffered loss of grain by being shattered out by the winds.

Bovina Enrolls More Than 200 Students

An enrollment of 205 students at the official opening of the 1945-46 term of the Bovina school on the initial day, Monday, September 10, is reported by Supt. W. O. Cherry, head of the institution.

Of this number, the superintendent added, 62 were in high school and 143 registered in the grades. He estimated that 10 or more additional students would soon be listed on the class rolls.

The complete last-minute faculty includes Mrs. Lorene Dennis, first grade; Mrs. Lillie Fuller, second and third; Mrs. W. E. Williams, third and fourth; Mrs. June Rhodes, fifth and sixth; Mrs. Edith Cherry, seventh and eighth; and in high school, Mrs. Otis M. Hoffer, social science; Mrs. Myrtle Sheets, English; John R. Sheets, principal and coach; Miss Martha Rodgers, home economics.

Ray Ford Succeeds W. Bart Osborne

Ray Ford has been named manager of the Farwell Elevator of this city, succeeding the late W. Bart Osborne, who served as manager of the local firm for many years.

The announcement was made this week by Leo Potishman, president of the Transit Grain Company of Fort Worth, and owners of the local elevator.

Ford served as manager of the newly-erected elevator at Lariat the past year, and before going to Lariat was engaged in the produce business in Farwell. He is well and favorably known.

Revival Meeting To Close Sunday Night

The revival meeting now in progress at the Methodist Church will come to a close with the Sunday evening services, Rev. Charles Walker, pastor, announced today.

Rev. F. Lee Willshire, pastor of the First Methodist Church at Hobbs, N. M., is here doing the preaching, and has been bringing some inspiring messages. He is a deep thinker and a forceful preacher.

Attendance at the services has been very gratifying, but it is hoped that the crowds will increase during the few remaining services.

Crickets produce the sound known as chirping by rubbing a file-like ridge of one wing over a scraping surface of the other wing.

Clubbers Show Pigs At Bovina Saturday

C. J. Todd, Curry county agent, has been invited to serve as judge Saturday, when Parmer County 4-H club boys who are participating in the Sears contest show their pigs at a special county exhibit, in Bovina.

The show will begin at 2 o'clock, County Agent Lee McElroy said today, with Murrel Foster, George Young, Albert Clark, Junior Matthews, C. W. Grissom, Lee Sudderth Jr., Neal Walls and Alvin Kriegel as the contestants.

At this time, Todd will select the champion in the gilts which were presented the boys last spring by sponsors of the contest, and the boy having the prize animal will enter the district exhibit, to be held at the Tri-State Fair Ground, in Amarillo, on Saturday, September 29.

The top county prize is a registered dairy heifer, which will be presented at the Amarillo show, and other prizes include various numbers of chicks or poult, to be given in the spring hatching season, McElroy said.

In addition, C. L. Calaway of the Rhea community, announces that he will present a registered Chester-White gilt to the club boy who has done the best work with his animal during the year.

Murrel Foster, who has taken care of the registered boar furnished by Sears, will attend the district show along with the boy who has the prize winning gilt, and Scotty Gohler, who won the 1944 contest, will take his dairy heifer to Amarillo for exhibit.

Rev. Hunton Called To Baptist Pastorate

Rev. Virgil Hunton, who is now pastor of a Dallas Church, has accepted the call to the pastorate of the Texico-Farwell Baptist Church, it was announced today by church officials.

Jack White, local deacon, said that Rev. Hunton would likely be here to assume his duties on the first Sunday in October. He formerly lived at Clovis, having been reared in the Forrest community northwest of here. He has been in the ministry for 18 years.

Rev. Hunton's family includes his wife and five sons, two of whom are in service. "I feel we are fortunate in getting such a man," White said in speaking of the newly-selected pastor.

Cemetery Working Set For Sept. 27

Mrs. E. G. Blair, secretary of the Texico Cemetery Association, has announced a cemetery working for Thursday, Sept. 27th, and is asking that all parties interested in the improvement of the grounds be on hand for the occasion.

Those attending are requested to come in the forenoon and bring their lunches, prepared to spend the day. Coffee will be provided on the grounds.

"We want to do considerable work that day, as well as discuss plans for other improvements," Mrs. Blair said. Attendants are asked to bring hand-working tools.

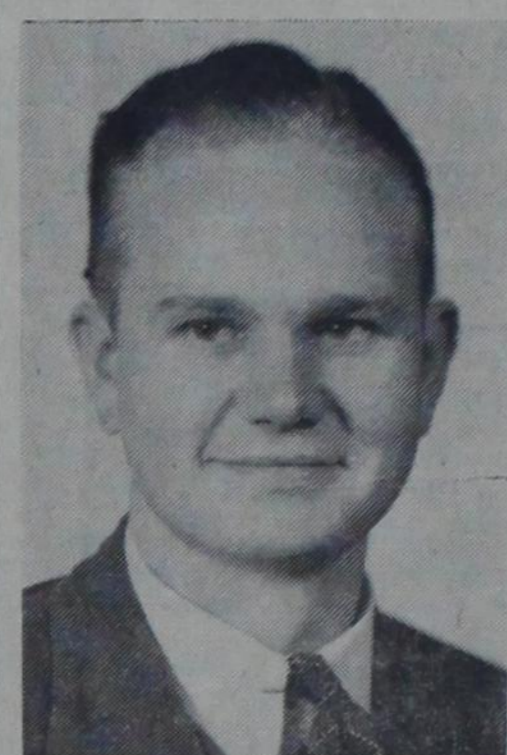

A water system has recently been installed at the Texico Cemetery and plans are being laid for considerable permanent improvements on the grounds, including more trees and shrubbery.

GROWING WEAKER

Mrs. Minnie O. Aldridge, pioneer resident of Farwell, and mother of John and Sam Aldridge of this city, who has been ill for several weeks, is reported to be growing weaker.

IN LUBBOCK HOSPITAL

Mrs. Jack White, Texico resident, has gone to Lubbock, where she will undergo an operation for sinus trouble.

LIBERATED—Pfc. Melvin Treider, son of Mrs. Otto Treider of the Lazbuddy community, who was liberated from a Jap prison camp on Sept. 7.

Davis Mercantile Buys Hardware Stock

A deal was closed last weekend whereby the C. G. Davis Mercantile Company in Farwell purchased the hardware stock of the Harrison Hardware Company in Texico.

Carl Davis, operator of the Davis Mercantile, stated this week that he would continue to operate the hardware in the Texico location for the present, but eventually the stock would be consolidated with his store in Farwell. This arrangement, he said, cannot be carried out until additional room is provided in the Farwell store, which may require several weeks.

David Harrison, who has operated the Harrison Hardware & Implement Company in Texico for little more than a year, has previously announced that he is moving to Quanah, Texas, where he will take over a dealership of the International Harvester Co. He said today that he would close out his line of implements here before going to Quanah.

He is scheduled to take over the Quanah agency on November 1st, but plans to close out his business interests here as soon as possible in order to move to his new location and look after the final details of the change-over.

Rev. Wright Goes To Cooper As Pastor

Rev. W. C. Wright, former pastor of the Texico-Farwell Baptist church was in town the latter part of last week from Field, where he is engaged in a revival meeting.

While here, Rev. Wright stated that he had accepted the pastorate of the Baptist Church at Cooper, Texas, and had moved his family to that location. He explained that he had declined the offer to go to Jal, N. M., as was stated in this newspaper recently.

Rev. Wright resigned as pastor of the local church several weeks ago, after five years of service to the local congregation. Since that time he and his family have been occupying the local Baptist parsonage, while he was engaged in evangelistic work in this section.

McDERMITTS BUY CITY TAILOR BUSINESS

Mr. and Mrs. Woody McDermitt, who have operated the City Cleaners in Farwell the past two years, have closed a deal with Mrs. Florence Wallace, whereby they become owners of the business, and the transfer has already been completed.

In taking over the business, Mr. and Mrs. McDermitt are announcing a new four-point service to the patrons of this community, which is more fully explained in their advertisement in this issue.

Friends and relatives from far and near have been gathering at the home of Mrs. Otto Treider, just northwest of the Lazbuddy school, the past week to rejoice with her over the liberation of her son, Pfc. Melvin Treider, who is reported officially to have been liberated from a Japanese prison camp, where he was held as a prisoner since the fall of Bataan on April 18, 1942.

Mrs. Treider received further assurance that her son had been lib-

ADKINS RELEASED

Word was received here late Tuesday that Tom Adkins, a former Farwell boy, was released from a Jap prison camp on Sept. 9th. Adkins, who was also a member of the 200th, worked here as an auto mechanic and was living in Clovis at the time of being sent to the Philippines and was taken prisoner in the fall of Bataan. He is a brother of "Red" Adkins, who also formerly lived here, now a resident of Clovis.

erated in a telegram, sent by the son himself from Guam with the brief, but heartening message: "Flying home feeling fine love. Melvin."

Displaying a slight emotional upset, the aged mother received visitors at the door of her farm home, where she has lived for 38 years. Often an embrace followed the meeting and tears of joy flowed down her furrowed cheeks. "I guess I'm the happiest woman in the world," she remarked to a reporter after a warm handclasp.

She led the way to the living room, where she picked up the family Bible, opened it and removed the two telegrams, one from the War Department and the other from Melvin. Both came to her through the thoughtfulness of Carl Maurer of Friona, who volunteered to make the 20-mile drive in order that the mother might be informed of her son's liberation.

"It had been so long since we heard anything, I had about given up," she said, explaining that newspaper stories had carried so many accounts of the high mortality rate among the prisoners.

Member Of 200th

Pfc. Treider, who was a member of the famous 200th, made up mostly of New Mexico boys, was in the Philippines at the time the Japs struck Pearl Harbor. The resistance they offered needs no repeating here. He was captured in the fall of Bataan and was in the "March of Death" before being removed to Camp Tokyo, where he was finally liberated by American troops.

Mrs. Treider revealed that she had received a post card from her son just last week, on which he stated that he had undergone an operation for appendicitis. The card was dated July 31, 1944, and was almost 14 months old when received by his mother. "That was the last word we had received from him," she said. Previous cards were undated and carried little information.

Believed to have been the only Parmer county soldier who was captured by the Japs, Pfc. Treider remained in the hands of the enemy from April 18, 1942, until Sept. 7 of this year. He sailed with the 200th in September of 1941.

Just when he will arrive home is a matter that was unknown by the boy's mother at the time of being interviewed. It is considered likely that he may be hospitalized on the west coast for some time before he is permitted to come home.

Father's Death Unknown

Melvin is due for more heartaches when he reaches home, to find that his father, the late Otto Treider, has died during his imprisonment. "We have never tried to get the news of his father's death to him, feeling that he had all the troubles he needed," Mrs. Treider explained.

His father died in a Lubbock hospital on June 22 of this year, from injuries received when a tractor seat collapsed and let him fall in the path of a heavy disc plow.

Relatives and friends of the Lazbuddy community, who have known the liberated lad since the day of his birth, are planning a big celebration when he puts in his appearance at the old farm home.

R. E. Mears, until recently inspector at the Texico Port of Entry, has accepted a position at the Farmers Supply Company, after resigning at the Port.

PMA Buys Potatoes From Texas Growers

To help farmers market a record potato crop, the Production and Marketing Administration has purchased 1032 of the 1546 cars of potatoes shipped from heavy producing areas around Lubbock, Plainview and Hereford, C. B. Hodges, state marketing officer, said today.

These purchases of Texas potatoes total \$783,084.40 and represent one-fourth of the 4,223 cars bought throughout the country to support prices to farmers as directed by Congress, he said.

Estimates place the current Panhandle potato crop at 1,830,000 bushels, more than a half million bushels above the 10-year crop average and 424 thousand bushels larger than last year's crop.

Hodges points out that if the PMA hadn't stepped in to buy more than two-thirds of the Panhandle crop, most of the potatoes would have rotted in the field and farmers would have taken a terrific loss after they

had increased potato production to meet wartime needs.

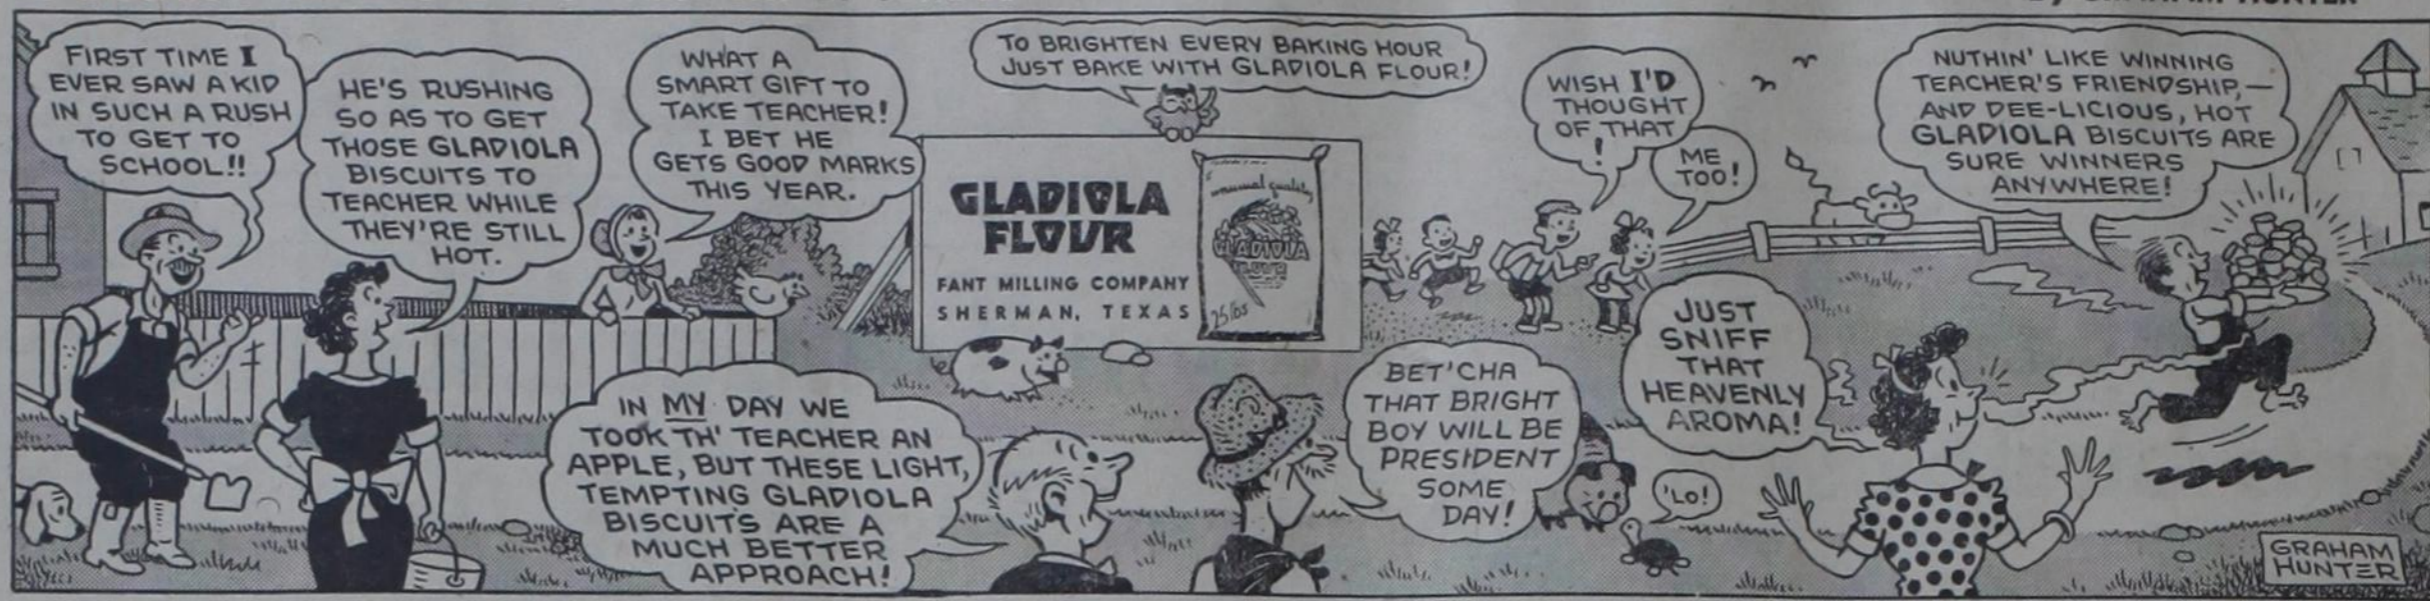

About half of the Texas potatoes have gone into cold storage to be distributed to schools participating in the Agriculture Department's community school lunch program. Others will go to public institutions, which have already used 42 cars.

Experiment stations of the USDA in Texas, Kansas, and Oklahoma have taken 33 cars of the lower grade potatoes to experiment with making livestock feed, and commercial canners have used 465 cars for government use.

Along with its price support program, the USDA is conducting an intensive national campaign to get people to eat more potatoes now that they are plentiful, because summer crop potatoes contain too much moisture for keeping in cold storage more than a few weeks.

Nation Will Can For Overseas Relief

NEW YORK—Claude R. Wickard, administration of REA, has pledged the support of REA-financed electric cooperatives in the nationwide campaign to obtain community-canned food for overseas relief.

In a statement issued today at national headquarters of the Community Canning Program for War Relief, Wickard said: "I endorse heartily the drive for community canning for the relief of peoples in the liberated areas of Europe. REA financed coops will, I am sure, add their support as leading community groups, and will make their electric resources available wherever possible to community canning projects."

Dan A. West, executive director of the program, pointed out that the canning program would be completed in 12 states this month, but will continue throughout October in 27 states, through November in six states, and will be extended much later in New Mexico, Arizona and Florida. Crops in Florida will be harvested and canned from October till April.

Vegetables, juices and unsugared fruit are being canned in tin for the program at supervised school and community custom canneries, and in church social rooms and home economics kitchens. UNRRA will ship the donations overseas for free distribution without any discrimination.

New York's Hudson River Valley is the largest producer of common brick in the world.

Stenotype

(Machine Shorthand)

The Fastest System of Recording Speech Known To Man

You cannot obtain this training elsewhere in New Mexico or West Texas.

MODERN EFFICIENCY

The little Stenotype machine not only records dictation faster and more accurately than other shorthand systems, but requires far less effort. That's because it is a MACHINE. And like the typewriter and other machines that have revolutionized almost every other office job, the Stenotype naturally makes hand methods seem old-fashioned and slow, and sadly out of step with this modern machine age.

BETTER SERVICE TO EXECUTIVES

Executives like Stenotype because its greater speed allows them to talk naturally when dictating. They like having conferences and meetings recorded word for word. They like the faster, more accurate transcription of notes—and particularly the secretary's ability to turn notes over to others for transcription, leaving more time for important "executive assistant" work.

MEET POST-WAR STANDARDS

You may obtain this training as a part of your Secretarial Course. The competent Secretary, with Stenotype training, will have preference.

Mid-Season Garden Report Is "Fair"

COLLEGE STATION—The average spring gardener in Texas took a beating from the weather this year, but produced more than a thousand pounds of fresh vegetables valued at \$106.73. That's about 21 per cent below the value of last year's spring garden.

The number of spring gardens in Texas slipped, too, about 12 per cent according to mid-season reports compiled by horticulturists of the Extension Service. A total of 611,382 spring gardens were reported for 1945, and these were valued in excess of \$5 million dollars.

As would be expected, the farm gardens far out-yielded and out-valued the city gardens. The average farm garden was valued at about \$160 in comparison with a \$38 value placed on the average city garden.

A break-down of garden numbers shows 330,001 farm Victory gardens, 35,918 4-H gardens, and 245,463 urban gardens. Extension horticulturists J. F. Rosborough and C. R. Heaton, say fall gardeners had better rally to the cause, otherwise, Texas may fall short of its 1945 garden goal of one million. In 1944 the goal was exceeded.

Reports of county agricultural and home demonstration agents showed some encouraging progress in improved garden practices. More than

half of the spring gardeners improved soil fertility of their plots with fertilizer, and about 70 per cent used seed of adapted varieties. Nearly a third were sufficiently venturesome to try vegetables they had never planted before. One out of four disinfected or inoculated seed, a practice which conclusively demonstrated its value under this year's conditions. Prolonged drought and excessive rainfall plagued various areas.

Years ago deserters from the army were branded with the letter "D" in irremovable ink or gunpowder two inches below the left armpit.

Celotex is a by-product of sugar cane.

SANTA FE CARLOADINGS

The Santa Fe System carloadings for week ending September 15 were 24,399 compared with 25,651 for same week in 1944. Cars received from connections totaled 10,780 compared with 14,318 for same week in 1944. Total cars moved were 35,179 compared with 39,972 for same week in 1944. Santa Fe handled a total of 32,147 cars in the preceding week of this year.

Insurance surveys reveal that persons 40 to 44 years of age, who are over 5 feet 10 inches tall, and who are 20 per cent below the average weight for their height, show an increased mortality of 30 per cent.

An industrial designer predicts that there won't be any fenders on new automobiles. If he waits a few more months there won't be any fenders on the old ones.

CARD OF THANKS

Words cannot express the deep appreciation we feel for our friends, who were so kind to us during our recent sorrow in the death of our son and brother, Champ. Especially do we thank those who sent the beautiful floral offerings, and our good neighbors for their kindness.
Mr. and Mrs. J. M. Landrum,
Mr. and Mrs. Oliver Landrum,
Mr. and Mrs. A. L. Hobbs,
Mr. and Mrs. Elbert Landrum,
Mr. and Mrs. Douglas Landrum,
Capt. and Mrs. Jesse F. Landrum,
Gaston Landrum.

Enrollment at the University of Texas summer field school at the National University of Mexico totals 1,050 students, Registrar E. J. Mahews reports.

PLEASANT HILL

Jack Donahey had his arm broken at school, last Friday, when he was playing ball.

Mr. and Mrs. Joe Jarrell and Jean visited Mr. and Mrs. Roy Delashaw in Levelland, Sunday.

Mr. and Mrs. Rutledge have moved here to make their home with Joe Singleterry.

Howard Whitener leaves for Santa Fe this (Wednesday) morning, to take his physical.

John Paul Ray, of the Navy, is home on furlough. He has been in the South Seas for 30 months.

Mr. and Mrs. Jack Parker have moved to Colorado Springs to make their home.

Lt. Col. John Hightower and wife are visiting with Mr. and Mrs. John Hightower, and sister, Betty Jo O'Neal. He is going to Austin, to visit his old company he was with in Europe.

John Spearman, S2-c, is home on furlough.

The community club will meet with Mrs. Joe Jarrell, Thursday.

Mrs. H. E. McCarty, of Taos, is visiting in the H. M. Hopper home, and with John, Pat and Bob Spearman.

Mr. and Mrs. Spencer Jarrell and Mr. and Mrs. Monk Horton have been to Hot Springs, on a fishing trip. They returned this week.

Shirley Spearman is visiting her family in Pleasant Hill.

OKLAHOMA LANE

Mr. and Mrs. R. H. Henchey and son of Allen, Okla., arrived Thursday to visit a few days in the home of Mr. and Mrs. Archie Henchey. Another visitor in the home is Roy Williams, of Hobbs, N. M.

Mr. and Mrs. Nelson Foster are the parents of a son born Sept. 6, and Mr. and Mrs. Jackie Brown became the parents of a girl, Sept. 8.

J. M. Finley, and Mr. and Mrs. Roy Finley have sold their farms here and purchased farms at Elk City, Okla. The community regrets losing these families.

Mr. and Mrs. H. H. Htson were Sunday visitors in Portales.

Sgt. David P. Roney, Jr., of CAAP was a weekend visitor in the Ed McGuire home.

Mr. and Mrs. Howard Billingsley and daughter of Bovina were visitors in this community Sunray.

A family reunion was held in the home of Mr. and Mrs. Joe Donaldson Sunday, those attending were,

Mr. and Mrs. Frank Edwards of White Flat, Texas, Mr. and Mrs. Clyde Sparks and family and Mr. and Mrs. Hugh Tucker and family of Texico; Mr. and Mrs. Arnold Hromas and daughter of Bovina; Mr. and Mrs. Joe McWilliams of Lariat; Mr. and Mrs. Sterling McDonaldson and daughter, Mr. and Mrs. Charlie Hromas; Mr. and Mrs. Harold Carpenter; Mr. and Mrs. Wendol Christian and Mrs. Joe Donaldson and W. M. Donaldson.

Mr. and Mrs. D. K. Roberts and Mrs. Kendrick Green and daughter visited Mr. and Mrs. George Lindop Sunday.

Veterans Are Offered Special Service at WT

CANYON—Veterans of World War II are coming to Canyon these days to receive a specialized type of service provided by the Veterans Administration through the cooperation of West Texas State College. Their destination is the Veterans Administration Guidance Center, located on the campus in what was formerly the President's home.

This Center, headed by W. R. Goins as chief, serves the 26 Panhandle counties and the Oklahoma Panhandle. Goins, a veteran, formerly was a classification specialist at Perrin Field, Sherman. He is assisted by John O. Stinnett, a veteran, serving as training officer.

Assigned to the Guidance Center by WT are Dr. T. M. Moore, chief appraiser, and William Brune, formerly of Amarillo, vocational appraiser. The Veterans Administration has a contract with the college for furnishing these appraisers.

Primary purpose of the Guidance Center is to help those veterans who have vocational handicaps. The Center helps them to determine their vocation. Then they have the privilege of institutional training, on-the-job training, or a combination of both. Veterans are given information concerning institutions which offer vocational training, but the choice of such an institution is made by them.

Those eligible for compensation are referred to the Guidance Center in this area after the degree of their disability has been determined and transportation furnished them by the Regional Veterans Administration office at Muskogee, Okla. Dates for scheduled advisement at the Center are set in advance.

The Guidance Center activities are based on the provisions of the G. I. Bill of Rights. Vets seeking advantages of the Bill obtain from the service office of any veterans organization Form 1950, which is sent to the office at Muskogee, along with a certified copy of their discharge and other required papers.

While the Guidance Center here does not have any connection with veterans' loans, it furnishes information and advice on compensation, insurance, and other matters pertaining to veterans and their dependants. More than 100 veterans called last month to obtain such aid. The volume of calls is expected to increase greatly as demobilization proceeds.

USDA Throws Light On Sugar Question

COLLEGE STATION—The U. S. Department of Agriculture holds up the mirror to the world sugar situation and predicts that production for 1946 probably will be somewhat larger than this year. Notwithstanding, this will be insufficient to meet

unrationed demands at current prices for sugar.

In a statement received by the Extension Service, the USDA forecasts that Cuban production may be slightly larger next year since the drought which reduced the 1944-45 yield appears to be broken. The outlook in Europe suggests a gradual increase in sugar beet production in the years ahead, and a similar increase normally would be expected in the Philippines. Recovery in that area, however, may be slower because of the length of time necessary to reestablish cane fields and harvest a crop. World sugar supplies in 1945 are the smallest since the war began. Accordingly, supplies available to the United States this year will be about 20 per cent smaller than the quantity used in 1944, the statement says.

Present household rations to individual consumers in the States, not including sugar for home canning, are 62.5 percent of the level permitted in 1944. Household holders will receive only about one-third as much

SAYS SECRETARY OF AGRICULTURE:

Despite Victory Used Fat Saving Must Go On!

Every woman in America should know that our country continues to face a serious fat shortage. And victory over Japan won't solve the problem immediately. We must keep on saving used fats in our kitchens!

If you have any thought that saving used fats is one of those wartime chores we can drop, now that Victory is here, please consider these facts and tell them to your neighbors.

America still needs salvaged fats. Not even at the peak of our war effort, when fats were required for mountains of shells and bombs and medicines, in addition to the ever-present need for soap, were our needs for salvaging fat greater than now. Our stocks have been drained by four long years of war, and there isn't enough on hand to meet all requirements.

Don't let "Victory psychology" blind you to this national need! If housewives stop saving fats now, the shortage will become even more critical.

Don't let a single drop of used fats go to waste! Little trimmings of fat left on the platter at the table, scraps left on plates, and even the skimmings of soups and gravies are important. It is the consistent saving of even these small amounts that counts.

Don't turn in fats that can be re-used! But some fats, such as those rendered from lamb and mutton, are not suitable for re-use. Put them immediately in the salvage can. And, with other fats, after you've got all cooking good out of them, there is always a little left. No matter how little it is, save it.

Your butcher will still give you 4¢ and 2 red points for every pound you turn in. Save consistently—save every drop you can—every day—until Uncle Sam says the job is done.

Benjamin P. Anderson
Secretary of Agriculture

Approved by USDA and OPA. Paid for by Industry.

VICTORY AND THE Telephone WAITING LIST

American arms have won a glorious victory. Our Soldiers, Sailors and Marines have defeated the enemy in the air, on the land and on the seven seas.

They have teamed up with Industry, Labor and Science to preserve the American way of life we cherish.

And now must come the adjustment inevitable after almost four years of total war.

Now that the war is won we are determined to bring telephone service as quickly as humanly possible to the 60,000 persons in the Mountain States territory now waiting.

Telephone manufacturing plants have been devoted almost completely to war purposes during these years of crisis. Reverting them to the manufacture of civilian telephone equipment is a tremendous job which will take many months. Then when all the telephone facilities we need are pouring out of the factories, before us will be the biggest job this Company has ever faced—installing the needed telephones, the equipment in the telephone offices, and the wires and cables used in furnishing telephone service.

We are glad that the employees of this Company in the armed forces will be returning to us to help in this big job.

The Mountain States Telephone & Telegraph Co.

Miss Cassady Bride Of Doyle Cummins, 12th

The first of the fall weddings was solemnized at the Baptist Church in Texico, the past Wednesday morning at 10:30, when Miss Jewel Dean Cassady, daughter of Mr. and Mrs. C. A. Cassady of Farwell, became the bride of Doyle Cummins, son of Mr. and Mrs. E. H. Cummins of Friona.

Rev. W. C. Wright, of Cooper, Texas, performed the impressive double-ring ceremony before an altar banked with roses and gladioli. A number of friends and relatives were present for the wedding.

Preceding the ceremony, Miss Twila Strickland sang "Always" and "I Love You Truly", with Mrs. C. M. Henderson at the church organ. For the entrance of the bridal party, Mrs. Henderson played the familiar strains of the "Wedding March".

Wearing a blue fall suit trimmed in white fur, with contrasting accessories in black, the bride entered with her father, who gave her in marriage. She carried a white Bible, on which lay a spray of pink carnations and as a special note to her costume, wore a strand of pearls given her by the groom.

For "something old and something borrowed" she wore an old brooch belonging to Mrs. Florence Golladay.

Miss Marie Barnes, as maid of honor, was also dressed in a blue suit with white accessories. The two bridesmaids, Miss Dorothy Cassady and Miss Sue Cummins, wore lime green and blue respectively. All had pink carnation corsages similar to that carried by the bride.

Dan Dunn, of the Lazbuddy community, served as best man to Mr. Cummins.

Following the ceremony, a reception was held in the parlors of the church, with Mrs. Ed Eason, Miss Barnes and Mrs. Bill Buchanan presiding over the lovely serving table.

The cake was first cut by the bride and groom. Floral decorations were of roses and gladioli.

Mr. and Mrs. Cummins left after the reception for a wedding trip to El Paso and Juarez, Mexico.

Mrs. Cummins graduated from the Farwell school two years ago, and since that time has been employed by the Santa Fe railway as operator. Recently she had been working in Friona. Mr. Cummins, a graduate of the Friona school, is engaged in farming near that town, and the couple will make their home there.

Student Council Names Officers On Monday

Donald Ray Summers was elected to the president's chair of the Farwell School Student Council, when the group, with advisor Jack Williams, held its initial meeting on Monday morning.

Other officers named included Max Ford as vice president and Jeatonne Morris as secretary.

Pertinent affairs of the school will be discussed by the Council, which will in turn make a report to the officials of the school. Advisor Williams told the newly-formed group, bringing out the fact that through the Council, each student could have an active part in school affairs.

In the business discussion, the group voted to take up with the various classes the consideration of a school annual, and agreed to hold regular meetings, on the second and fourth Wednesdays of each month, during the first class period.

Members of the Council include Don and Max Ford, Donald Ray Summers, Jeatonne Morris, Tommie Randol, Bob Loe, W. H. Graham, Jr., Herman Gerics and Jo Ann Allison.

Mr. and Mrs. T. F. Wortham and Mr. and Mrs. Brown, of McAllen, Texas, visited last week in the home of the Wortham's daughter, Mrs. Joe Magness.

Social, Business Meeting Held Thursday by PTA

A combined business and social honoring faculty members of the school was held at the home economics building in Farwell, last Thursday evening, as the initial meeting of the 1945-46 year for the Parent-Teacher Association.

Mrs. S. E. Morris, vice president, was in charge at the opening of the business meeting, and the members elected Mrs. W. H. Graham to the position of president, following the resignation of Mrs. Claude Rose.

The school is badly in need of playground equipment for the youngsters in the lower grades, and the association voted to buy new playthings, giving Supt. H. A. Clift a check for \$450.00 for this use. He and the lower grade faculty members are to decide on what is needed and make the purchases.

The members also agreed that the school cafeteria, sponsored by the PTA, was in need of another helper, and Mrs. Bill Bradshaw went to work there the first of the week, as second assistant to Mrs. A. Milstead, chief cook and supervisor.

Following the business session, the group enjoyed a reception for the teachers, with Mrs. Carl G. Davis, Miss Ann Nabors and Mrs. W. W. Vinyard serving as the social committee.

The table was beautifully laid with a hand-drawn Mexican cloth, and the entertaining room was decorated with bouquets of fall flowers, including roses, dahlias, and late phlox. Mrs. W. H. Graham presided at the punch bowl.

Mrs. L. S. Pool Directs Wesleyan Guild Study

Mrs. Lenton Pool directed the study hour of the Wesleyan Guild last Wednesday night, when the group met in the home of Mrs. W. W. Vinyard, in Farwell.

"Wide Open Doors for the Sick" was the title of the evening study, with Mrs. Aubrey Sprawls assisting Mrs. Pool in outlining the fields of service open to the Guild members.

During the business meeting, presided over by Mrs. Charles Walker in the absence of the president, Mrs. Frances King, the members voted to assist the Woman's Society of Christian Service in presenting the annual Week of Prayer program. Mrs. Sprawls was elected by the group to file reports of Sunday School attendance with district officers, and Mrs. Bess Henneman, secretary-treasurer, gave a financial report.

Refreshments were served by Mrs. Vinyard to Mesdames Pool, Sprawls, H. A. Clift, Walker, Vance Crume, Henneman, Boardman, M. C. Roberts; Misses Berthamae Thomas and Ann Nabors. Mrs. Clift joined the group as a new member.

Bovina ME Circles Have Meetings

The Dorcas Circle of the WSCS of the Bovina Methodist Church met at that parsonage in the regular monthly meeting, last week. A covered dish luncheon was served to Mesdames Wilbur Charles, Mable Newberry, Bob Blalock and daughter, Miss Mildred Hopingardner and Rev. and Mrs. Roscoe Trostle.

The Circle study was "Health Around the World", with Mrs. W. E. Williams present to take part.

The Marzie Lynn Circle met on Wednesday, with the afternoon being spent in packing church literature for shipment to the Philippines. This week the group begins the study of Ephesians.

Mack Nobles returned to his home in Amarillo the past weekend, after spending several days with his father, B. E. Nobles, who was seriously ill. Mr. Nobles is reported improved this week.

NEWS FROM OUR BOYS IN UNIFORM

SAIORS ON LEAVE

Bob Sudderth, Glenn Phillips and Sam Hines, recently inducted sailors, are here visiting with their respective families, following completion of boot camp in San Diego.

NOT BUSTED, JUST AN ERROR

Mrs. J. T. Hanna advises the Tribune that it was in error last week in reporting her son, Earl, as "corporal". Actually, it is Major Earl Hanna, and Mrs. Hanna adds, "It is rather embarrassing for people to ask us what happened to him."

ENROUTE HOME

S-Sgt. Van Kirtland Crume is reported by the War Department as enroute home from the European theatre, being slated to dock this week with Army personnel which is being discharged on points. He was overseas for more than a year with the 80th Infantry Division.

CAPT. WHITE VISITS

Captain Wilbert White is here for a visit with his parents, Mr. and Mrs. A. D. White, having been put on inactive duty pending a discharge from the Army Air Force. White returned to the States last summer after a year in the Pacific theatre.

IN OKINAWA

Pvt. Keith Blackburn, formerly of Friona, has advised his wife that he is now on Okinawa, serving with the Marine unit.

TO BE DISCHARGED

Lt. William Thornton, of the Naval Air Force, is expected to be discharged shortly, having signed his papers for release, he writes relatives here. Currently, he is stationed in Florida, and his wife, the former Mary Eunice Graham, is there with him.

SYMCOX IN JAPAN

One of the first local boys to actually report "in Japan" is Pfc. Vernon Symcox, who has a very low opinion of the land of cherry blossoms. Vernon writes that the country is filthy, adding, "We have been staying in Army (Jap) camps, and the fleas and other pests have nearly eaten us up."

WRITES FROM TOKYO BAY

Mrs. Mose Glasscock recently received a letter from her brother, James Bruce, postmarked "Tokyo Bay". James, a gunners mate, serves with Admiral Halsey's Third Task fleet.

RETURNS TO HOUSTON

Henry Minter, who has been spending the past several days here with his wife, left the first of the week for Houston, where he will return to duty with the Merchant Marine. Minter enlisted in the Maritime service last year, and makes his trips out of Houston.

ON BANANA HUNT

Lt. Murry White, son of Mr. and Mrs. Jack White of Texico, writes his parents that he and Corporal W. T. North, Jr., also a local lad, recently got together on Saipan and went on a banana hunt.

FROM CALIFORNIA

Billy Sudderth, a Navy lad from Camp Parks, Calif., is enjoying a leave at the home of his parents, Mr. and Mrs. Lee Sudderth.

BACK TO SEATTLE

Lt. Webb Gober, son of Mr. and Mrs. J. I. Gober, left Wednesday to report back to Seattle, Wash., after spending a few days with his wife and parents.

NOW AT BOSTON

Bert Williams, son of Mr. and Mrs. Johnnie Williams, who has been receiving training in USMTS at Brooklyn, is now at Boston awaiting shipment, his mother reported this week.

Mr. and Mrs. E. M. Roop were in Lubbock Sunday, visiting their son, Jim Bob, enrolled at Tech.

Johnston-Rector Rites Read on September 2

Miss Mary Will Johnston, daughter of Mr. and Mrs. R. S. Johnston of Bovina, and William D. Rector, son of Mr. and Mrs. J. F. Rector of Wiley, Texas, were united in marriage Sunday, September 2, at 8:30 a. m., in the library of the St. Marks Methodist parsonage with Rev. Haydn Edwards performing the single ring ceremony.

The bride wore a suit of pink and blue wool, with blue accessories. Her corsage was of gardenias.

Mrs. Randall Irvin, the matron of honor, wore a gold gabardine suit with white accessories and a corsage of talisman roses.

Sam Johnston, brother of the bride, served as best man.

Breakfast was served at the Blackstone Hotel to Mr. and Mrs. J. T. Lee of Bowie, Texas; Sgt. and Mrs. Randall Irvin and Miss Jewel Oxford of Fort Worth, Sam Johnston, of Bovina; Mrs. J. F. Rector, mother of the groom from Wiley; Mrs. R. S. Johnston, mother of the bride, and the newlyweds, Mr. and Mrs. Rector.

Club Suspends Action Until First of Year

Voting in a call meeting held the past Friday afternoon in the home of Mrs. Sam Rundell, president, the Texico-Farwell Woman's Club agreed to suspend meetings until the first of the year.

This action was taken, it was explained, due to the fact that so many of the club members are "filling in" in jobs over the two towns, and it was thought that by the first of the year the labor situation would be sufficiently improved to allow the club to resume normal activities.

Mr. and Mrs. M. C. Roberts spent the past weekend visiting in Amarillo with his mother.

"Insurance of All Kinds"

Farwell, Texas

Stewards and Wives Have Joint Social

The stewards and their wives of the Bovina Methodist Church met at the parsonage in a social last Monday evening, Sept. 10, at 9 o'clock.

Bible games were featured, and after a short business session among the men, watermelon was served to Mr. and Mrs. O. W. Rhinehart, Mr. and Mrs. J. W. Kimbrow, Mr. and Mrs. Frank P. Wilson, Mr. and Mrs. Frank Hastings, Rural Barron and Rev. and Mrs. Roscoe Trostle.

Birthday Party Held For Jerry Johnson

Mrs. Russell Johnson entertained a number of little folks, Saturday afternoon, honoring her little son, Jerry, on his eighth birthday.

Games were played and gifts were opened, after which refreshments of cake, cookies and pop were served to Leroy and Angela Williams, Allan Lockhart, Kenneth Allred, Donald Ray Engram, Virginia Hagler, Glenna Ruth Davis, Gloria and Don Johnson and Sherry, Sharon and Karen Williams of Lynwood, Calif., and the honoree.

O. C. Sikes, of the Sikes Motor Company, left the first of the week for Wichita Falls, where he is to spend a few days on business.

Pep Squad Organized

Jo Ann Williams, LaMoin Jones and Tommie Randol have been chosen as cheer leaders of the Farwell Pep Squad, formed recently, and material for the blue and white suits was received the first of the week.

Miss Berthamae Thomas serves as sponsor for the girls, and plans are underway to have all member of the squad in uniform and on hand for the various athletic events of the year.

Mrs. Auddie J. Barker and children and Tom Williams left Friday for Dallas, to spend the next ten days visiting relatives.

Dorris Massey, mechanic at the Sikes Motor Company, is off duty this week due to illness.

WOMEN '38 to '52' are you embarrassed by HOT FLASHES?

If you suffer from hot flashes, feel weak, nervous, highstrung, a bit blue at times—due to the functional "middle-age" period peculiar to women—try this great medicine—Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound HELPS NATURE. It's one of the best known medicines for this purpose. Follow label directions.

Bill the Butcher Says

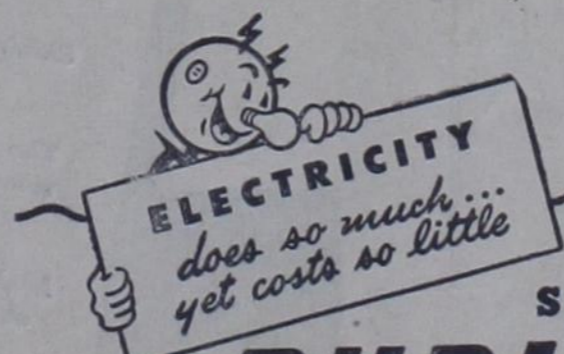

With the exception of ham and bacon, our meat supply has just about reached the pre-war stage. We are now able to get plenty of beef, pork and sausage. But ham and bacon continue to be short, and there is little relief on the cheese situation.

We are happy to announce that we have a fairly complete line of canned fruits, probably the best line we have had since the shortage began.

Surplus Plants, Land Offered For Sale

DALLAS—Seventeen plants and one undeveloped land site are being offered for sale or lease by the Reconstruction Finance Corporation, the government agency designated by the Surplus Property Board to sell surplus producers' and capital goods. L. B. Glidden, manager of the RFC Dallas agency, said nine of the plants are located in New York State, and one each in Massachusetts, Illinois, Indiana, Kentucky, Michigan, Nevada, Utah and Texas. The largest plant acreage listed is 446 and the smallest is less than an acre. The largest floor space listed is 609,767 and the smallest 10,057. The Texas plant is that of the Humble Oil & Revolving Company, at Baytown. The land of the Baytown plant comprises approximately

50 acres which is occupied by 69 buildings. Included among these are a steam generating plant, mess hall, storage building, and cooling towers of steel and brick. Production machinery consists of testing and laboratory equipment, tools and furniture. All necessary utilities are readily available. A railway siding connects with the plant.

Treat Small Grain Seed For Smut

COLLEGE STATION—Chemical treatment of small grain seed before planting is a cheap and safe insurance against losses from disease, says E. A. Miller, agronomist.

Wheat, oat and barley are subject to fungus diseases called smut. Under favorable conditions the diseases often cause reduced yields and further loss from dockage when in-

fectured grain is marketed. Accordingly, Miller urges farmers to thoroughly clean and treat their planting seed unless they are certain it is free from infection.

Wheat is affected by two types of smut disease. Stinking smut can be controlled readily by fanning the seed wheat or cleaning it by other methods to remove smut balls, and then treating it with either two ounces per bushel of 50 per cent copper carbonate, or one-half ounce per bushel of ethyl mercury phosphate called "improved ceresan".

The grain may be treated in a commercial seed-treating machine or in a homemade container with a tight fitting lid. An oil drum with a pipe soldered diagonally across it and extender about one foot from each end to permit it to revolve easily will do the job. For small amounts, any type of container will

do. The important thing is to get the powder well distributed over each kernel.

The other type, called loose smut, cannot be controlled by chemical treatment. The best safeguard is to use seed known to be uninfected.

Barley and oats smut can be controlled by treating the seed with one-half ounce per bushel of improved ceresan. Another approved method is to mix one pint commercial formaldehyde with 10 gallons of water at 60 to 70 degrees temperature. Sprinkle the solution uniformly over 40 to 50 bushels of seed as it is shoveled from one pile to another on a clean floor, or in a tight wagon box. Then pile the seed and cover it with a wagon sheet for at least four hours or overnight. It then should be sown or spread out to dry, Miller says.

RHEA NEWS

(Too Late For Last Week)

Mr. and Mrs. Paul Koeltzow have been enjoying a visit from her brother, Carl Wagner, and family, from California.

Mr. and Mrs. Paul Koeltzow, Mr. and Mrs. Carl Wagner and Mr. and Mrs. Pete Daies visited in the J. D. Stephens home, Monday night.

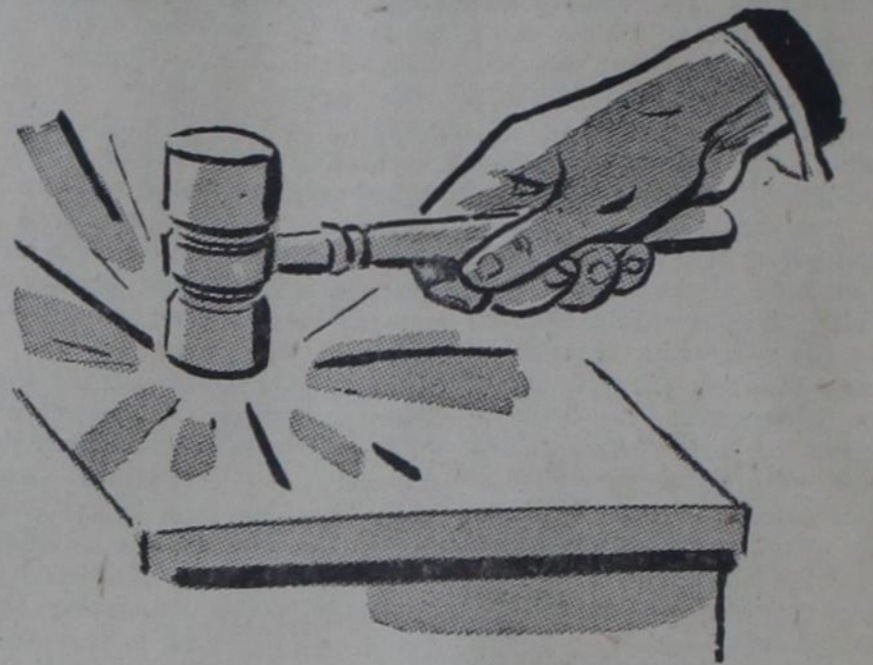

There is singing at the Rhea school house each Sunday night. Everyone is invited.

Goteloupe Drager, who has spent four years and six months in the

army, being overseas three years, has been discharged and returned home.

Glen Phipps is on furlough, visiting his wife and children, here. Mr. and Mrs. Andries Drager visited in Farwell, Sunday.

H. H. Powe, professor of petroleum engineering at the University of Texas, will spend the next two months in Caracas, Venezuela, as a consultant to the Mene Grande Oil Company, to investigate phases of production, development, and special problems such as crude oil stabilization.

Panhandle Territory Lags in Fat Salvage

Amarillo and the surrounding territory has collected 120,651 pounds of used household fats since the start of 1945. E. C. Munro, acting district officer of marketing of the Production and Marketing Administration said today.

"This is far short of the 1945 goal set for the territory," Munro said. The goal here had been set at 1,556,719 pounds.

"It seems an almost impossible task to collect 1,436,068 additional pounds of used fats between now and the first of the year, but we may be able to reach that figure if every housewife in the territory will salvage every ounce of used fats and get them to a collection point."

Munro pointed out that the national goal was 250,000,000 pounds for 1945, and the Amarillo figure is based on the population.

A Midwest newspaper heads births, marriages, and divorces, "Hatched, Matched and Detached."

Palomino Horse Show Feature of State Fair

The Palomino Horse Show at the 1945 New Mexico State Fair will set a new high record for number of entries and quality of the golden-coated horses shown, according to Mrs. Leon H. Harms, who is secretary-treasurer of the New Mexico Palomino Exhibitors Association. The exhibitors association, organized at the 1943 state fair, now has members in every county in the state. Jay Leck, Carlsbad, nationally known Palomino breeder, is president.

The 1945 show is sponsored by the New Mexico group and sanctioned by the Palomino Horse Breeders Association of America. The latter association will send an accredited judge to pass on the entries. Judging will take place on Tuesday of fair week. The horses will be exhibited by their owners each night before the grandstand, as an extra feature of the evening rodeo. They will also take part in the down-town parade at noon on Monday, Oct. 8.

Annual meeting of the New Mexico group will be held in the Hilton Hotel Tuesday evening, October 9, following an associational dinner.

Navy Advises Waiting At Home For Men

The quickest way to see your son or husband being returned from overseas, to be discharged by the Navy, is to remain at home.

That was the sage advice offered today by the Navy Department to relatives who are anxious to welcome their "boys" coming back to the States for release.

In the first place, if relatives travel to debarkation ports, it is highly improbable that they will even see their sailors, for the Navy demobilization plan calls for returning men to separation centers in their own Naval Districts. In consequence, men will not be free to visit their families at coastal ports, but will move without delay to their own districts.

Secondly, travel by dependents will only crowd the already overloaded transportation system and hamper the orderly operation of discharge.

And last, living accommodations in coastal ports are not and will not be available.

'Open Nights' at Texas' McDonald Observatory

AUSTIN—Admission to the University of Texas' McDonald Observatory, located near Fort Davis in West Texas, will be by appointment on the "open nights", the fourth Wednesday of each month, Dr. Otto Struve, director, has announced.

Because of lack of accommodations for more than 200 visitors at one time, and lack of time, persons wishing to visit the Observatory must write to Dr. Struve for admis-

sion cards. These cards will be good only for the night requested, and the applicant must inclose a self-addressed, stamped envelope in order to receive his cards. Dr. Struve should be addressed Care McDonald Observatory, Fort Davis, Texas.

OKLAHOMA—More than 40 farmers in this state are using old barns as hangars for their airplanes. In each case the farmers have cleared smooth runways in their pastures near the barns; however landing fields outnumber the hangars, for many other farmers who do not yet own a plane have cleared runways so that their flying friends may visit.

The magazine boys call hash the review of reviews.

A NEW 4-POINT SERVICE

for Our Customers

1

HOME OWNERSHIP

After two years of lease contract, we have closed a deal with Mrs. Florence Wallace, whereby we have become the sole owners of this business, and intend to devote our entire time and attention to giving our customers the very best of our efforts. It is only natural that we will be giving of our very best to the business.

2

ONE-DAY SERVICE

With the acquisition of an additional cleaner and presser, and an experienced seamstress, we are now able to offer you one-day service on rush orders. This has been our ambition all the while, but was a physical impossibility with the help shortage we have experienced in the past.

3

PICK UP AND DELIVERY

Again, with the lifting of gasoline rationing, we are offering our customers pick-up-&-delivery service, which we were forced to abandon during the emergency, and we again invite you to telephone us—No. 3621—and leave your orders for this service which we are glad to restore.

4

NEW FALL SAMPLES

Another war casualty is being gradually eliminated, in that we have been assured that we will have a complete line of fall and winter samples from which you may make your selections for winter suits. These samples are expected momentarily and we invite your inspection.

Boys Lose Tight Game, Girls Win On Friday

Opening the softball season, the Texico and Melrose teams met on the local diamond the past Friday afternoon, when Melrose took a close win in the boys' contest, 6-8, and the Texico girls ran roughshod over their opponents, to win 33-13.

Coach C. E. Sanders said the boys' game was marred by errors on the part of the locals. The worst scramble came when Baker, catcher, failed to pick up the ball after the man at bat had lightly brushed it on his third strike, and three runs came in for Melrose as the ball went wild over the heads of Texico players.

Baldock turned in the best game for the locals, walking only one and chalking up six strikeouts, the coach added. Davis pitched for Melrose.

In a swat-happy mood, the Texico girls chased Melrose all over the place, with practically every player turning in four to five scores during the game, Coach Tom Hudson reported.

The team functioned fairly well, he added, but Melrose offered little competition, and it remains to be seen how the locals will look when they run up against a tough outfit.

Schedule is Given

The complete softball schedule was released today, as follows:

- September 21, Field, here.
- September 28, Grady, there.
- October 5, Ranchyale, there.
- October 12, Pleasant Hill, there.
- October 19, Rosedale, here.

In speaking of the coming game with Field this Friday, the coaches could offer little pre-game dope, owing to the fact that the season is only barely under way, but opined that Field might be expected to give the locals a run for their money.

The first game will begin around 2 o'clock, Texas time.

Presley Landon Gets Army Discharge

James Presley Landon, son of Mr. and Mrs. J. O. Landon, residing southwest of Texico, arrived home the past Sunday having been granted a discharge from the Air Corps, at the Fort Bliss separation center.

Landon, who lacked only seven days of completing five years in the service, is a graduate of the Texico high school, and has made his home with his parents southwest of Texico all his life.

Asked about his plans for the future, he said that he expected to locate on the farm and get him some cattle, adding, "that's what I've always wanted to do."

Council Sponsors Drive To Clean Up Gridiron

Students of the Farwell School, urged on by their representatives in the Student Council, are making plans to begin work on cleaning up the old football gridiron on the west side of the school, looking forward to staging some of their six-man games there this year.

In a meeting held Monday by the Council, the group voted to act as sponsors of a campaign to eliminate the goatheads, sandburrs and other nuisances which have almost taken the Bermuda field.

They further agreed to contact the county commissioners, requesting that county road machinery be used to mow the field when the initial "weeding out" is completed, and have the county maintainer scrape the ground where cars are parked. Further, the ag department of the school will be solicited to help in re-setting the goal posts to mark off a six-man field.

The gridiron, sodded to Bermuda grass some six years or more ago, has been neglected during the past several years, due to lack of labor and cessation of football, but with boys of the school now in active practice for grid games this season, a place to play becomes a necessity.

GETTING DISCHARGE

Mrs. M. C. Roberts advised that her son, Lt. Wm. R. Roberts, who is now stationed at Atlantic City, N. J., is to receive his discharge in a few days. He will report to Atlanta, Ga., to receive his discharge.

Practice Game Dated With Muleshoe Team

The first practice game of the season for the Farwell six-man football team will be played on Friday of this week at Muleshoe, Coach Jack Williams announced today.

Muleshoe is playing eleven-man football, Williams explained, but the practice scrimmage team will be made up of prospective griders who have not been listed on the traveling squad.

In addition, Williams announced the following schedule:

- September 28th, Bovina, there.
- October 5th, Vaughn, N. M., there.
- October 12th, open date.
- October 19th, Kress, Tex., here.
- October 26th, Bovina, here.

In reference to the open date on October 12th, the coach said that it was definitely planned to have a game on the home grid at that time, even "if we have to play an inter-squad game". He went on to say that various representatives from the student body would offer tickets for the three home games to the public within the next few days, and urged that all sports fans cooperate in the move to revive football locally.

Team Shaping Up

Concerning the team, Coach Williams reported today that all members of the squad are shaping up well, despite the fact that for the majority this is the first time they have ever tackled the grid sport. He made special mention of Thomas and Booth, freshmen, who are vieing with upper classmen for starting positions.

"Most of the team," he pointed out, "is made up of students who have at least one more year to play—some of them two or three—and with a few actual games to settle them down, I think we can look forward to some home-town victories during the season."

Registered Heifer Is Given by Schlenker

Floyd Schlenker, of the Friona area, has donated a registered Hereford heifer to the Future Farmers of America club in Texico, advisor Tom Hudson reported today, for project work.

Members of the club will feed the heifer out during the school term and the summer months next year, planning to enter her at the New Mexico State Fair in 1946, Hudson added.

In addition, the boys are currently working on a booth which will be set up at the 1945 New Mexico State Fair, opening in Albuquerque on October 7. This booth will be titled "Proper Stocking for Best Advantage on the Range", Hudson said, and will emphasize increased profit through proper stocking.

Boys will go to Albuquerque on Saturday, October 6, and plan to remain through four days of the show, returning here around October 10. They plan to go via truck, and will camp out near Albuquerque.

Lazbuddy School Opens On September 10th

Supt. J. M. Baker was in on Tuesday, announcing that the Lazbuddy school was "getting started" this week for the new year, following the registration of students on September 10th.

The faculty includes Supt. Baker, Miss Grace Paul, social science; Mrs. Paul Ballin, English; Paul Ballin, science and 8th grade; Mrs. Sneed, fifth, sixth and seventh grades; Mrs. C. W. Hines, third and fourth grades, and Mrs. Frances Shaw, first and second grades.

Asked as to enrollment, Supt. Baker said he had not made a definite checkup this week, but indicated that scholastics were at about the usual average.

OCTOBER 1 DEADLINE ON BRAND REGISTRATION

County Clerk D. K. Roberts reminded livestock owners the first of the week that if they had not registered brands or other stock markings for their animals during the past two years, the deadline for such registration is October 1.

A check several years ago revealed that a large number of old brands, not being used, were on record over the state, and in order to bring the record books up to date, the legislature passed a law requiring that all brands and markings be registered with county clerks by October 1, 1945.

Any person who is using a brand that is not registered is urged to put it on record before that time, otherwise, he loses his legal claim to the brand, which may be registered and claimed by another individual.

EXPRESSES APPRECIATION

Leo Potishman, president of the Transit Grain Company of Ft. Worth, owners of the Farwell Elevator of this city, has expressed his appreciation of the late W. Bart Osborne in the following tribute:

"I would appreciate very much conveying to the people of the Farwell area the sincere, true feeling I and my associates had for our beloved manager, Mr. Bart Osborne.

"The passing of Bart, who was associated with us for more than 20

years, serving most of the time as manager of the Farwell Elevator, has been a great loss to us. We will not only feel his loss but we know he will be missed by all who knew him.

"Bart was indeed an able grain man. He loved the grain business. He enjoyed doing business with the growers. We were fortunate indeed to have been able to offer the people of the Texico-Farwell communities the services of such a worthy and able man as Bart Osborne, or such a long period of time.

"To his family, we offer our sincere and truest sympathy."
