

Chamber Plans Appreciation Day

At a special meeting Saturday morning, the Farwell Chamber of Commerce decided to sponsor its third annual Appreciation Day for patrons of the Farwell trade territory. Twelve businessmen were on hand for the meeting at the City Cafe and five men volunteered to head the committees needed for formulating plans and carrying out the program.

The celebration has been scheduled for Saturday, September 3. Merchants will be asked to participate in special promotions throughout the day which will be highlighted by a free barbecue at the Farwell football field Saturday evening.

Last year the merchants gave away cash prizes and a similar promotion is planned

for this year. Details will be worked out by the drawing and finance committee, headed by Wilfred Quickel, Chamber secretary.

Quickel is the general chairman of the Appreciation Day activity. Other Chamber members who will head the various work committees are Smokey Gast, arrangements and clean-up; Shorty Hughes, loud speaker and stage; Cary Joe Magness, entertainment; and Bob Anderson, barbecue.

According to Anderson, who is Chamber president, Scooter Queen of Bovina will prepare and serve the barbecue. No other arrangements have yet been completed, but some type of special entertainment will be one of the features.

The first Appreciation Day by Farwell

Merchants was in August, 1958. First started as a means in which to say "thank you" to patrons, the event last year was expanded into more of a community celebration similar to what other towns of the area have in connection with fairs and rodeos.

That's what is being planned this year and the "A-Day" sponsors hope that all local businessmen and area patrons will go all out to make this year's event the best ever.

Each of the committee chairmen will be needing assistance in their work, so anyone wanting to help with the program can do so by contacting the Chamber president, the secretary or one of the committee chairmen.

MIRROR, MIRROR, ON THE WALL, shows one of the new fall dresses that will be modeled Friday night at the Farwell School Auditorium. That is, providing you can take your eyes off the model, which in this case is Miss Connie Tharp. Fall fashions and the crowning of Miss Texico-Farwell will be the feature attractions of the evening's activities.

Fashion Show, Queen Contest Friday Night

The fall season arrives Friday night for Texico-Farwellites who will have an opportunity to view the newest fashions, as "Silhouettes of the Sizzling 60's", annual style show is presented by Fern's and ESA at Farwell school auditorium. Time has been changed to 8:15.

Local models will wear the ensembles from the fall collection of Fern's. Models include: Nina Glasscock, Patricia Magness, Doris Ford, Ruby Meeks, Connie Tharp, Judy Tharp, D' Rene Danforth.

Martha Blair, Clytie Dial, Harla Jean Wall, Marilyn Edwards, Avis Carpenter, Jo Schell, Edith Blair and Linda Roberson.

Also highlighting the occasion will be the selection of Miss Texico-Farwell. Nine young ladies are vying for the title and will be presented during the evening with the winning contestant announced at the conclusion of the show, says Mrs. John Getz, ESA president. Miss Jeanette Lindop, Miss Farwell of 1959, will crown the new

Farwell's annual Appreciation Day has been launched again, a 22-block paving project is about to be completed, and school will soon take up again with another record enrollment. All of which points up the fact that this community isn't nearly as laggard as some of us might think.

When you look at all these things, on the surface at least, you begin to think that an air of progressiveness does exist here, and, really it does.

As one fellow said last week, "Both Texico and Farwell have progressed a great deal in recent years in spite of everything." The population has more than doubled in only a decade, both Texico and Farwell have more paving than towns of comparable size, (a good sign), there are many new homes, some new businesses, new churches, many new recreational facilities, and quite a number of other civic improvements.

All of this, in spite of the fact that the two towns can never get together on anything, and whenever a few forward-looking individuals try to do something, support can hardly be found.

I don't know whether progress has been forced upon us, or whether it's through our own efforts that most of this has come about. Probably it's a little of both.

Anyway, a person can look with pride at what has been accomplished. He could also be aware of the fact that many things have been left undone and there's always something more to be done.

After a couple of months of indecision, the Chamber of Commerce has decided to go ahead with its third annual Appreciation Day. I wasn't here for the first two, but such a promotion is a good thing, I think, and it does warrant the support of everyone.

An undertaking of this sort does require a lot of hard work, but the end results should be worthwhile. Not only is it a chance for merchants to say "thanks" to their patrons and have special individual promo-

tion. Gene Fields, who has worked for Castor and the new owners of the Farwell Feed Lots since 1955, will be managing the business, which will be known as the Jewel Castor Farms. It is at this New Mexico location that Castor has had his farm and has grown feed crops for his feed lot operation for several years.

He will continue to produce wheat, barley and grain sorghum on the section of land for the operation of his new business. "We will also run cattle on the barley," Fields says.

Castor sold the Farwell Feed Lots last year.

Farwell Faculty Hired

With the hiring of three new teachers by the school board Monday night, the faculty at Farwell School for the coming year is complete and final preparations are being made for the beginning of school two weeks from now.

The first faculty meeting is scheduled for Wednesday, August 24, and high school registration will be Thursday and Friday, August 25 and 26. Juniors and seniors will register at 1 p.m. on the 25th and freshmen and sophomores will register at 1 o'clock on the 26th.

W. M. Roberts, superintendent, estimates that 560 students will enroll when the doors open this year. This will be about 20 more students than were attending classes at the close of the last term.

New teachers hired by the school board Monday were James Craig, library, study hall and social studies; Miss Joyce Evans, first grade; and Mrs. Peggy Woodward, junior high English. In all, there will be seven new teachers in the school system this year.

Craig, who graduated from Wayland College in 1949, has been farming near Sunray for the past 10 years. This summer he has been working on a Master's degree at West Texas State College. He and his family will be moving to Farwell at the close of the summer school session.

Both Miss Evans of Albuquerque, and Mrs. Woodward of Rogers, N. M. were graduated from Eastern New Mexico University at Portales this summer.

The complete faculty and staff at Farwell this year will be as follows:

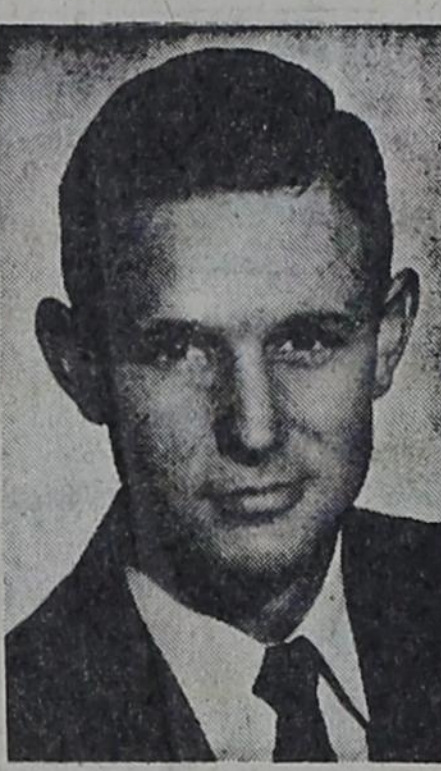

Jack Williams, elementary principal; Mrs. Elsie Cain and Miss Evans, first grade; Miss Clara Florence and Mrs. Calvin Murray, second grade; Mrs. Lenora Tatum and Mrs. Isla Rhea Huffaker, third grade; Mrs. Oleta Ford and Mrs. Claude Coffey, fourth grade; Mrs. Margaret Kennedy and Mrs. Hattie Boling, fifth grade; and Miss Maude Hicks and Mrs. Lucille Britan, sixth grade.

Cecil Dykes, junior high principal; Mrs. Woodward, junior high English; and Dan True-love, junior high coach, math

Oklahoma Lane Baptist Revival Starts Monday

Rev. T. J. Ozburn, pastor of the First Baptist Church of Avinger, Texas, will be evangelist for a revival beginning Sunday, August 14, at the Oklahoma Lane Baptist Church.

The meetings will be conducted twice daily, at 10 a. m. and 8 p. m. A prayer service is scheduled each day at 7:30 p. m. during the week-long revival which ends Sunday, August 21.

Song leader for the revival will be Howard Garner and the pianist will be Mrs. Garner.

Rev. Ozburn is a son-in-law of the Rev. Carl Coffey, pastor of the Oklahoma Lane Baptist Church.

Paving Project Nears Completion

If everything goes according to schedule, work should be completed this week on the paving and street improvement project for Farwell.

The paving of an additional two blocks was added to the project last week. "We should be through with these last two blocks by Friday night or sometime Saturday," says Moody Welch, superintendent for Centex Paving Company.

In all, the city has received 22 new blocks of paving, nearly twice as many as had been planned when the project was started. What started out to be \$24,000 worth of improvements turned into a \$50,000 investment.

The city's cost will be \$28,000, but the remainder of it has been financed by in-

dividual property owners, churches and the school. The school financed two blocks of paving, as well as one and one-half blocks of curb and gutter. Cost to the school was \$4,500.

Mayor Sam Aldridge this week expressed satisfaction with the work on the overall project, and said that the new "triple coat" paving was the best the city has ever had installed. "The cost on the entire project was very reasonable," he added.

Besides the new paving, all of the other paved streets in the city were patched and given a new coating. Centex Paving Company of Andrews was the contractor for the project and Ralph Douglas of Littlefield was the engineer.

Workmen put finishing touches on one of new paved streets

Texico School Bells Are Ready To Ring

Summer vacation is rapidly drawing to a close for students of the Texico School District. The faculty is complete and school activities will get under way a week from Monday.

A faculty meeting is scheduled for 9 a. m. on Monday, August 22. Buses will run on Tuesday morning for registration which gets under way 9 a. m. and classes begin Wednesday, the 24th.

Except for three changes, the faculty will be the same as last year, reports Buck Doran, superintendent. The entire faculty and staff for the coming year is as follows:

Mrs. Leroy Faville and Mrs. Jimmy Starkey, first grade; Mrs. Gerald Wilkenson, Mrs. C. B. Stockton and Mrs. Johnny Green, second and third grades (enrollment will determine which of the two grades they will teach); Mrs. Avis Patterson,

(Continued on page 8)

Mrs. Bradshaw Dies In Lawton

Word was received here of the death of Mrs. J. W. Bradshaw of Manitou, Okla. She died Sunday afternoon of a heart attack while attending a family reunion at Lawton. She was 80 years old.

She is survived by one son, Stafford of Farwell and one daughter, Mrs. Alice Morris of Manitou. Also one sister, Mrs. Fred Payne of Bovina survives.

Funeral services were held Tuesday in Manitou.

Campers Return

Four senior campers from the Hamlin Methodist Church returned home Friday after a week at the Methodist Assembly in the Sacramento Mountains in Lincoln National Forest.

The campers, Barbara Bieler, Billy McDonald, Bobby Tomlinson, and Peggie Teel, left August 1.

BIRDS ALL OVER THE PLACE are what Mr. and Mrs. Judge Stone found Wednesday morning, following the thunderstorm the night before. Just what killed these 216 birds, shown here in a wheel barrow, is somewhat of a mystery, but they were lying under two trees in the Stone front yard after the storm.

Roth Anniversary This Weekend

Roth Grocery will be observing its 12 anniversary in Texico this weekend, announces Mrs. T. E. Roth, owner. The store's anniversary sale is scheduled for Friday and Saturday.

Special feature of the event will be the giving away of eight baskets of groceries. An ad in this week's Tribune gives the details.

Builds New Feed Pens

Jewel Castor, who first built the Farwell Feed Lots south of town ten years ago, will soon complete construction of new feed pens across the road from his old location.

Construction on the new pens has been in progress all summer and plans are to have cattle in the pens sometime next week. Capacity of the new pens will be 2,000 now but they will eventually be expanded to 3,000 and possibly more.

Workmen this week were finishing up the loading pens. In all, there are four feeding pens, 150 feet by 160 feet and a 40 by 100 sheet metal building for feed storage. The pens are all of pipe and cable construction.

City Dads Discuss Salaries, Paving

During a two hour meeting Friday afternoon, the Farwell City Commission discussed salary increases for its three city employees and listened to a report on the paving project.

The commission raised by \$10 a week the salary of V. C. Venable, who serves the city as sewer superintendent. Raises for two other city employees, Dorothy Eason, clerk, and Douglas Landrum, were discussed but action was postponed until the next meeting.

On the paving project, the city was told that work should be completed this week. The city's cost on the improvements will be approximately \$28,000. The commission just last week decided to finance the paving of two extra blocks near the school.

Located on Avenue F, the paving will connect Fifth and Seventh Streets and tie in with two blocks of paving paid for by the school.

In other business at the meeting, the commission paid bills and briefly discussed the city's fire zone ordinance. Re-designation of the present fire zone (or mercantile zone) had been talked about at a previous meeting. No decision was reached on this subject.

Rain Measures 3 1/2 Inches

From two to four inches of rain were recorded in the Texico-Farwell area Tuesday night during a lightning and thunder storm. Most of the rain gauges in Texico-Farwell recorded 3 1/2 inches but there were some reports as high as four inches. Reports from all directions outside of town ranged from two to three inches.

Name Committees For Turkey Shoot

At a meeting of the Texico-Farwell Lions Club Monday night, President Cary Joe Magness named four committees to formulate plans for a turkey shoot the club will sponsor August 27 and 28.

Possible locations for the skeet shoot were discussed Monday night but no decision was made. Four men named to make arrangements for a site were Jack Williams, Paul Wurster, Woodrow Lovelace and Loyd Cain.

Other committees appointed included a shoot arrangement committee--Wilfred Quickel, James Ussery, Hurshell Harding, Pat Patrick and Dudley Hargrove. Equipment and supplies--Willie Roberts, Calvin Murray, Otis Huggins, and Robert Morton. Publicity--John Getz and John Zahn.

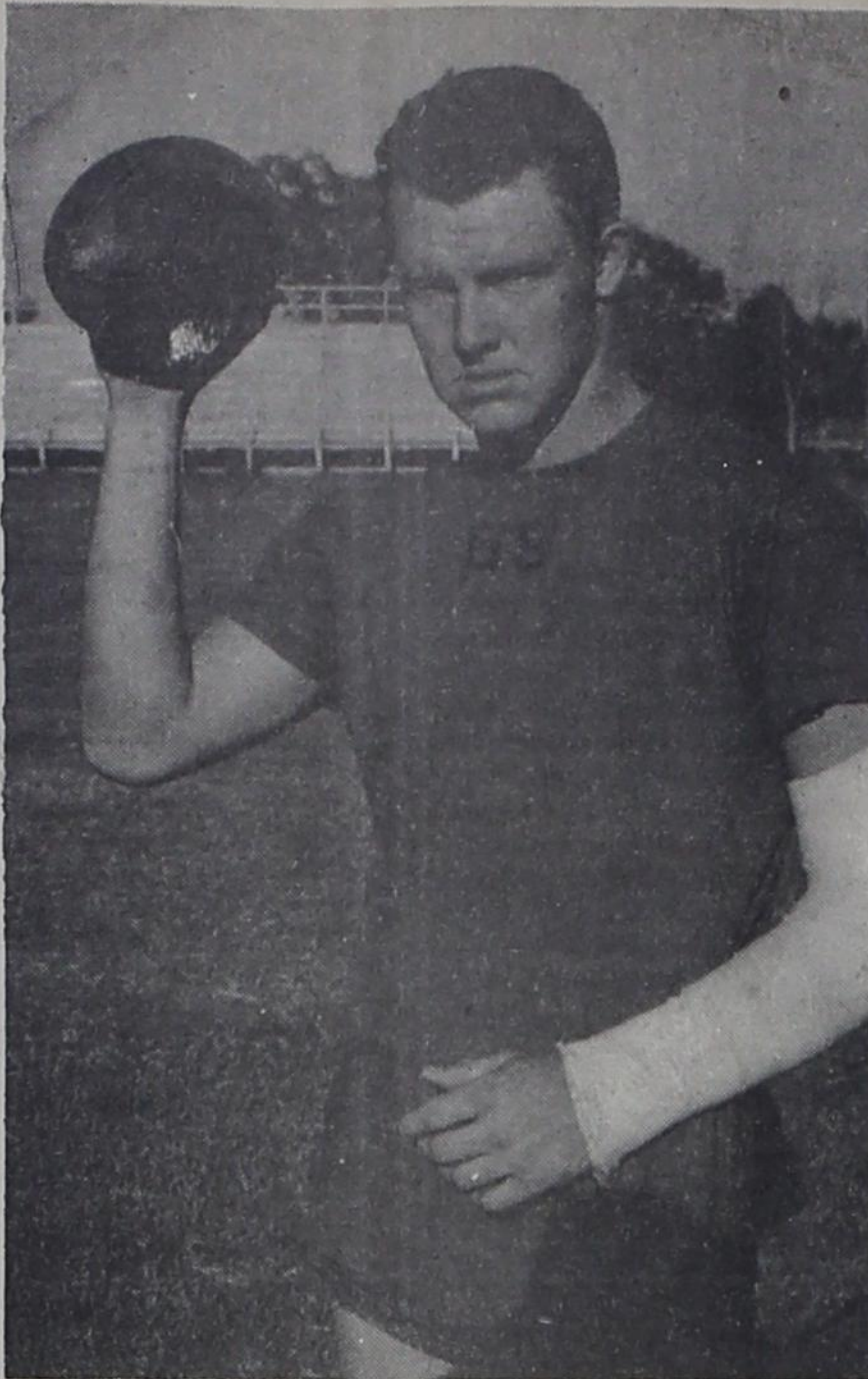

Participants in the turkey shoot will be competing in teams of five and can win either a turkey or ham.

"Since dove season starts September 1, this will give area hunters a chance to get their firing arms limbered up," says Magness.

Grandson Places Second In Race

Lester Lee Harrelson, 13-year-old grandson of Mr. and Mrs. Fred Barker of Texico, placed second in the 60 mile horse race, which promoted the recent Junior Rodeo in Clovis.

He is the son of Mr. and Mrs. Lester Harrelson of Ft. Sumner, where the race began.

Chili Supper To Net Funds For Cemetery Work

Money-making projects have been planned to gain proceeds to be used for the care of the Oklahoma Lane cemetery, according to announcement made this week, and workers are asking citizens to aid in the worthy project.

A committee composed of Mrs. M. A. Snider, Mrs. Walter Kaltwasser, Mrs. Sterling Donaldson, Mrs. Vernon Symcox and Mrs. Thelma Perkins met recently to discuss the project.

They announced that the group has decided that a home-made pie and chili supper will be scheduled November 12 at 6:30 at the Oklahoma Lane community center. All proceeds will go into the cemetery fund. Committee members asks that local residents put the date on their calendars.

Area People To Receive Degrees

The summer session commencement at Eastern New Mexico University will be August 12 at 8 p. m. in the university stadium. Dr. E. F. Casteter, academic vice-president at the University of New Mexico will be speaker.

Six people from the Texico-Farwell area will receive degrees. Receiving their Master of Arts degrees will be Elsie Cain, Curtis Miller, Gloria Miller, Jimmy Don Moss and Sidney Miller.

Lucille Singlettery is scheduled to receive her Bachelor of Arts in education.

HIS ARM IS STILL IN A CAST but Johnny Lovelace finds time to work out in preparation for the football season ahead. Considered one of Texas Tech's top sophomore prospects, the former all-state football player from Farwell recently underwent an operation on his left elbow. The cast is scheduled to come off this week and Johnny will have about three weeks for limbering up prior to reporting for workouts at Lubbock.

"Big John" Figures Big In Tech Plans

LUBBOCK (Special)--About the "least sneaky" quarterback sneak in the Southwest Conference, and perhaps the nation, will be employed as a strong weapon this fall by Texas Tech's Red Raiders.

That's when the Raiders' all-American, 6-4, 215-pound E. J. Holub, slips the ball to quarterback Johnny Lovelace of Farwell, 6-4, 212 pounds. Everyone in the stadium will know Tech's intent on short yardage plays, but the chances are that few will be able to stop it.

The duo, Holub, a senior, and Lovelace, a sophomore, pack a powerful punch, singly and together. Coach DeWitt Weaver and his staff have high hopes for

Lovelace's blossoming out at Tech comes as no surprise to those who followed his high school career under Coach J. D. Arwell. He lettered three times in football, basketball, and track. Three times Lovelace was all-district, twice all-regional, once all-state. Lovelace also was senior class president, a leadership flair that makes him a bright signal calling prospect.

His parents are Sheriff and Mrs. Charles Lovelace of Farwell. Johnny, planning to coach, is majoring in physical education. The former Farwell "Mr. Everything."

As a freshman last fall, Lovelace led the Picadors in passing, punting, and total offense and was second in rushing only to Lubbock's Coolidge Hunt. The Picadors dropped their opener to North Texas, then romped to a 4-1 mark, over Hardin-Simmons 28-9, Arkansas 26-6, McMurry 39-12, and Air Force Academy 24-7. Lovelace played key roles in all four victories.

In spring training Lovelace took on where he left off. If anything, his passing improved and he showed more deception. Lovelace won high praise from Bobby Layne, the all-American and all-pro quarterback, who worked with the Raiders in the between-season drills.

Red Phillips, Tech assistant coach, describes Lovelace this way: "The speed of his reactions will surprise you. And he loves to hit. One day he ran out of the passing pocket, and you should have seen the tacklers bounce off."

Lovelace is counted on for considerable service this fall as the Raiders make their long-awaited debut in Southwest Conference football. Ahead of him is only one upperclassman, Glen Amerson, a Munday junior, who led the Raiders in total offense last season.

McDorman To Play With Sodbusters

Larry McDorman, all-district end for the Farwell Steers last year, will be playing with the Sodbusters next week when they take on the City Slickers in the third annual Panhandle Grid Classic at the Price College field in Amarillo.

The game is scheduled for Saturday night, August 20, and will pit outstanding area players of Classes AA, A and B against their big city brothers from Classes AAAA and AAA.

McDorman, a three-year football letterman at Farwell, will be trying to help the Sodbusters snap the two-game winning

streak of the City Slickers. During the past two games, the city boys have staged great last half rallies to sew up the contest. Sodbuster coach Morris "Snake" Bailey, a former TCU standout, will have the material to give the City Slickers another interesting game. The Sodbuster roster is loaded with speed, size and experience.

Bailey will assemble his squad at the Price College field Monday, August 15 and will conduct workouts twice daily.

McDorman will be Farwell's third representative in the annual game. Tommy Lovelace represented the Steers in the first City Slicker-Sodbuster game and last year Johnny Lovelace played in the game.

Mail order tickets to the game are available by writing Panhandle Grid Classic, Box 2193, Amarillo. General admission is \$1.50 and reserved seats are \$2.00.

Texico Student Council Meets

Dwight Turner, Texico student body president for 1960-61 called a meeting of the student council Sunday. Final arrangements were made toward attending the State Student Council Workshop which will begin August 14. The group will leave Sunday and arrive home a week from Sunday.

After the meeting, Mrs. Buck Doran served the group ice cream and cake.

Those attending were Donnie Chandelier, Lucille Halsell, Willie Stover, Carol White, Judy Lovett, Donna Kay Osborn, Kit Doran, Betty Westberry, Gary Singlettery and Dwight.

The workshop will be on the campus of New Mexico Western at Silver City.

Chumleys Visit With Utsmans

Visiting in the home of Mr. and Mrs. L. T. Utsman recently was Mr. and Mrs. W. P. Chumley and family of Byers, Tex. They visited here for a week, then went on to Colorado where they will visit and go sight-seeing.

Chumley is the nephew of the Utsmans.

Niece Visiting Albert Smiths

Miss Peggy Case of Salt Lake City, Utah, is visiting with Mr. and Mrs. Albert Smith and family of Farwell. She is the niece of Mrs. Smith and will be here until early September. She came to visit the Smiths July 29, and is the daughter of Mrs. Gable Case of Salt Lake City.

Ammonia promotes peak wheat production from start to finish

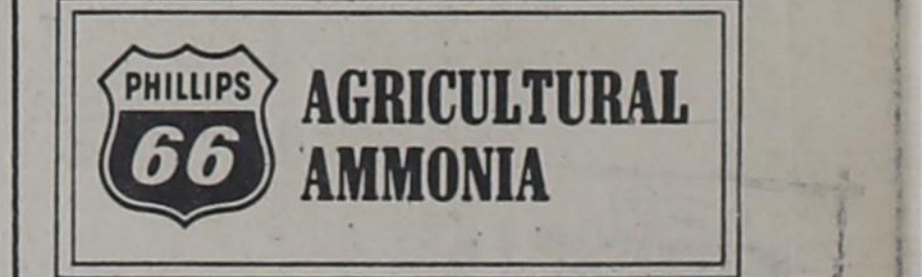

Leading West Texas farmers like DAVID ACKER put down 120-lbs. ammonia per acre on wheat land

David Acker of Nazareth, who farms 400 acres, says: "I wouldn't put in a wheat crop without applying ammonia. Phillips 66 Ammonia promotes vigorous plant growth... good color... larger heads... bigger yields. I put my ammonia down at the rate of 120 pounds per acre, usually around the end of August."

"On maize land, I put down about 100 pounds of ammonia per acre. Last year on 165 acres I averaged 5800 pounds per acre, after a 1000 to 1500-pound hail loss," he reports.

Thousands of Texas farmers are using Phillips 66 Ammonia to help assure top net profits per acre. Actual field reports prove that Phillips 66 Ammonia (1) boosts wheat and small grain yields (2) increases maize yields (3) produces more high grade cotton (4) improves forage production.

Life Is Worth Your Living

By Robert O. Tomlinson

Life is good, life is hard, life is great. For hours I was in a hospital room with a dying woman, who had shot herself through the head. Several times the head nurse would say aloud, "O life is so precious."

Yes, life is precious, for life is GOOD. A five year old boy said to his mother, "Mother, I feel so alive." We all have felt life to be good, and life is good, but life is also hard. It is filled with hard work and hard knocks, and to many it is a hard row to hoe.

It is the soft, easy life that has no purpose and little satisfaction. The great heart satisfactions and soul thrilling experience come from conquering the hard blows. The hardest and strongest steel comes out of the fire. Life is hard.

Life is also great. It's great to be alive, to be able to laugh, to lift, to love, and to live. Those that lived the greatest lives, have been those who have come through great tribulations.

A group of young people from the church were giving wrapped gifts to wounded soldiers in a hospital. One young man, with only one leg, opened his package. It was a pair of house shoes. With a smile he wheeled to another part of the ward where there was a young man who had the opposite leg missing. He put the other shoe on his foot.

Yes, life is great. It is worth living.

Morgans Return From California

Rev. and Mrs. C. C. Morgan, Charles and Wanda have returned after an extended vacation in California where they visited with their children.

The Morgans left July 25 and visited Sequoia Park where they met their daughter and family, Mr. and Mrs. J. P. Snider. En route to the park they visited their son Tommie and his family, who later met the other group at the park.

While on vacation the Morgans also visited Oak Creek Canyon and Montezuma Cliff Dwellings.

Traveling to California with the Morgans was Peter Herbrecht, from Reemes, France, who is a friend of Charles, and came from Pennsylvania with him. He is touring the United States from August through October.

Charles will leave today (Thursday) for Pennsylvania where he is stationed in the Air Force. He is lab technician in a hospital there.

Mr. and Mrs. Joe W. Sanders of Plainview were weekend guests in the home of Mr. and Mrs. Elmer Scott of Farwell.

Son Of Local Man Marries In Lubbock

DeEtte Maxey, daughter of Mr. and Mrs. Carl E. Maxey of Lubbock, was married Tuesday night to Joe Paul Cobb, son of Tom Cobb Sr. of Farwell.

The double-ring ceremony was officiated by Dr. Chess Lovern in the First Methodist Church in Lubbock.

Attending the bride as maid of honor was Miss Judy Robertson of Lubbock and Nancy Cochran, Mary Ann Willingham, Judy Pendergraft, and Nan Signor served as bridesmaids. Roxie Joe Hays was junior brides-

maid. The bride was given in marriage by her father. In carrying out the bridal traditions, she wore a blue garter belonging to Mrs. Robert J. Allen. She was the 282nd bride to wear this garter, being the second bride in the second generation. Her mother was the 11th bride to wear the garter.

Best man for his brother was Tom Cobb Jr. of Lubbock, and Dan Cobb, Richard Fifer, Charles Battin, Loyd Croslin and Brookie Stephens were groomsmen. Ushers were S. C. Arnett and Pat Melton.

Candelighters were Charles Maxey and Conrad Maxey, both of Lubbock, and Bruce Nelson was ringbearer.

Wedding music was furnished by James Moeser, organist, and Charles Signor, soloist.

A reception was held immediately following the ceremony in the parlor of the church. Members of the house party were from Lubbock and Dallas.

After a wedding trip to Nassau, Bahama Islands, the couple will be at home in Lubbock.

The bride attended Tom S. Lubbock High School, Stephens College, in Columbia, Mo., and Texas Tech, where she is affiliated with Kappa Alpha Theta sorority.

The bridegroom also attended Tom S. Lubbock High School and is attending Texas Tech.

Daughter Born To Coffmans

Mr. and Mrs. E. R. Coffman are parents of a daughter born August 3. She weighed nine pounds and one ounce and has been named April Dawn. Grandparents are Mr. and Mrs. Fred Barker of Texico.

Son Born To George Hills

Word has been received here of the birth of a son Tuesday morning to Mr. and Mrs. George Hill of Hobbs, N. M. This is the fifth child for the couple. They are parents of three older sons and a daughter.

Hill, a former instructor in Texico Schools, is manager of a music store in the New Mexico city.

Texico WMU Meets

The WMU of the Texico Baptist Church met Monday afternoon at the church for a Royal Service program on Japan. Mrs. Monte Parsons was in charge of the program, assisted by Mesdames S. G. Billington, Nora Day, D. J. Brown, and Joe Morgan.

Mrs. Parsons also presented the devotional. Other members attending were Mesdames Olan Schlueter, J. O. Ford, C. C. Morgan, and John Lockhart.

Visiting Sister

Mrs. W. C. Porterfield of Topeka, Kansas, arrived here over the weekend for a visit in the home of her sister and brother-in-law, the A. D. Smiths. She plans to remain here about two weeks.

Mrs. Wilson Visiting Parents

Mrs. Dean Wilson of Waynoka, Okla., is visiting with her parents, Mr. and Mrs. E. R.

Party Honors Mrs. Dykes

Mrs. Cecil Dykes was honored recently with a birthday party in the home of her parents, Mr. and Mrs. Russell Johnson.

Ice cream and cake were served to several of the family members.

Present for the party was the family of Mrs. Dykes, Uncle Tom Randol, Mr. and Mrs. Jerry Johnson and family and Mr. and Mrs. Johnson and Don.

Daughter Born To Bradshaws

Mr. and Mrs. Stafford Bradshaw are parents of a daughter born August 8 in the West Texas Hospital in Lubbock. She weighed six pounds and four ounces at birth.

She is the granddaughter of Mr. and Mrs. V. L. Martin of Farwell.

Teels Visit In Farmington

Mr. and Mrs. Elmer Teel and Joe visited in Farmington last week with their daughter and husband, Rev. and Mrs. Gerald Hill.

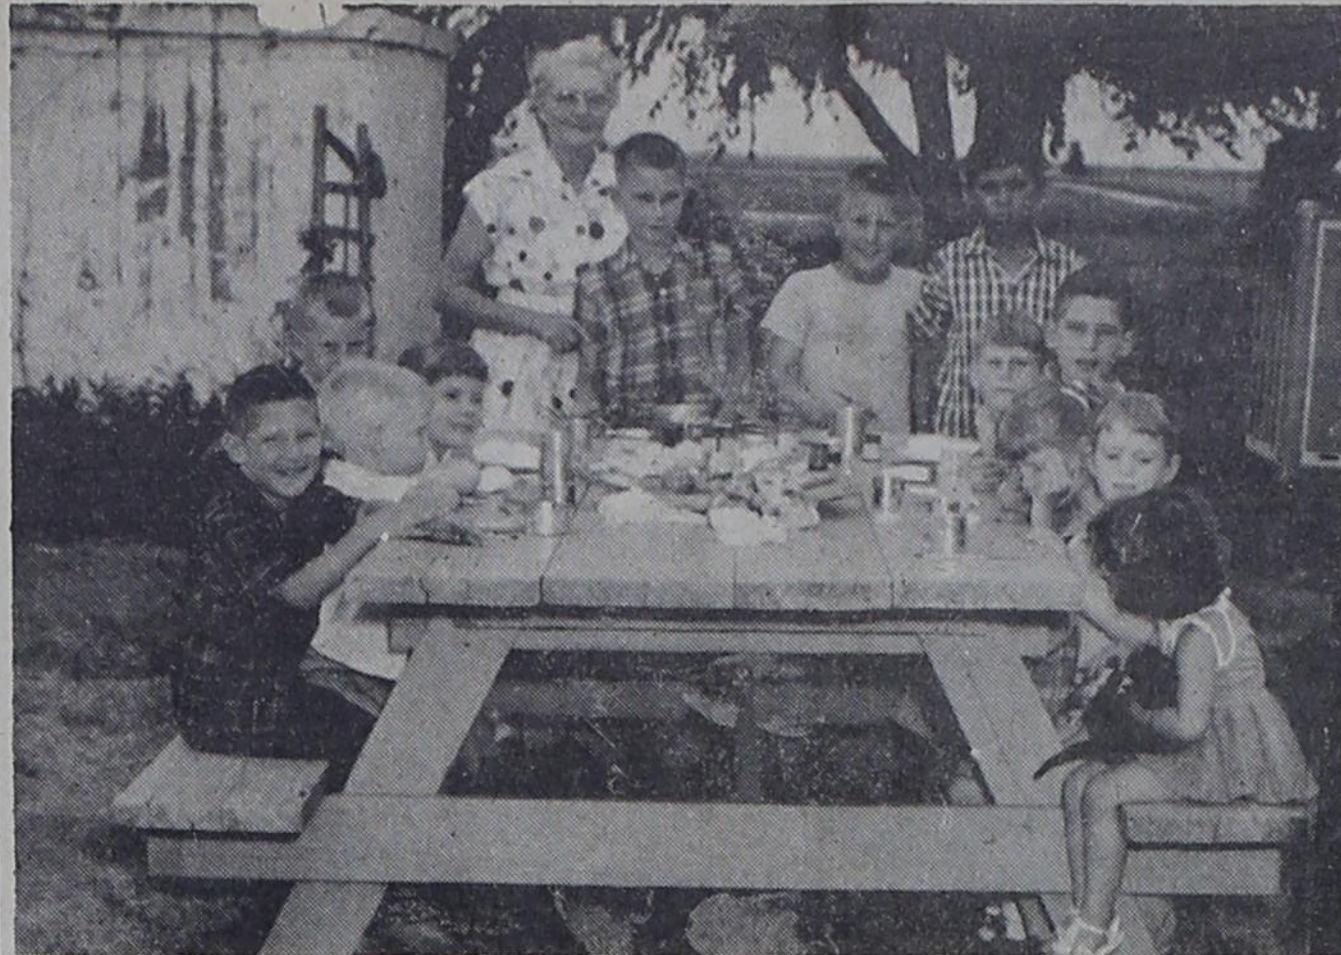

While in Farmington the Teels went fishing at Pagosa Springs and Williams Lake. The Teels left Monday and returned Sunday.

Visits Mother

Visiting with Mrs. Mable Reynolds is her daughter, Mrs. Herbert L. Miller of Houston, who will be here for about three weeks. Mr. Miller also visited here for a while.

Also visiting with Mrs. Reynolds recently were her son and family, Mr. and Mrs. E. M. Reynolds of Ft. Worth.

Mr. and Mrs. Ken Hanks were Wednesday visitors in the Texico-Farwell area. Hanks was formerly head of the science department in the Texico school.

These are the grandchildren of Mr. and Mrs. W. T. Magness of Farwell, who every summer come to their grandmother's house to do ceramic painting. They are the children of Mr. and Mrs. J. A. Bowery, Mr. and Mrs. Leroy Jupe and Mr. and Mrs. Joe White. Visiting with Mrs. Magness are Mr. and Mrs. Bowery and Mrs. Jupe. The children are Joe Allen, Charles, Irene, Cecil, Bess, Andy and Vicente Bowery, Leroy, Tommy and Vickie Jupe, and Lynne and Joyce White who live near their grandparents.

Mrs. Magness said that every day it was, "Mother, Grandmother, can I paint?"

Mrs. Stallings Honored With Farewell Coffee

Mrs. Jerry Stallings of Texico was honored Wednesday morning with a farewell coffee in the home of Mrs. Ed Combs. Stallings has been transferred to Garden City, Kan., and they will be leaving soon.

Attending and sending gifts were Mesdames George Magness, Joe Camp, Ken Stone, Jaunita Griffith, Perry Winkles, Russell Johnson and Fred Danforth. Coffee and cookies were served.

Gleaner Class Meets

The Gleaners Class of the Farwell Baptist Church met recently in the home of Mrs. Dora Johnson.

"Things that Cause People to Stumble" was the title of the devotional given by Mrs. Bruce Blair. Sunshine gifts were exchanged and a short business meeting was conducted by Mrs. M. Walker, class president.

Mrs. Johnson served party treats to the following class members: Mesdames Dale McCuan, M. Walker, Clay Henson, Bruce Blair, Joe Reed, Clytie Dial, Raymond Martin, and R. T. Langston.

Lutheran Church News

The sermon theme for August 14 will be, "Sons of God, Ears of Christ".

The junior and senior Walther League camp at Ceta Glen was well attended and all had a wonderful time.

Guests in the home of Rev. and Mrs. Sander were Rev. and Mrs. Stephen Northup and children of Bucyrus, Ohio. They will accompany Rev. and Mrs. Sander to Ceta Glen for a week before returning home. Rev. Sander is to be the music director for the camp there.

A skating party and picnic will be at the Clovis Park August 16. This is to replace the monthly family night.

Brown, T. J. Kittrell, Raymond Hadley, Don Fought, and Tena Roth, teacher.

The next meeting will be in the home of Mrs. Raymond Hadley, when officers will be elected.

Headquarters For All Your **SCHOOL SUPPLIES** Also, plenty of alarm clocks for waking you in time to get the kids off to school.

RED CROSS PHARMACY Texico, N. M.

Guild To Sponsor Ice Cream Supper

The Wesleyan Service Guild of the Hamlin Memorial Methodist Church is sponsoring an ice cream supper August 19 at the church. Donations will be accepted to help pay for the dishes and ice cream will be served from 7 o'clock to 8:30.

THE HIGH PLAINS FARM AND HOME

Time To Sample Soil For Fall Crops

Fall planting time is not too far away, and plans should be made now. Fertilizers and lime cost money, and guesswork on how much to apply is not very efficient farming. Dr. W. F. Bennett, extension soil chemist, says the only way to eliminate this guessing is to have the soil tested.

The farmer must remember that soil samples are of very little value unless they truly represent the actual soil conditions of the field. Soil samples may be taken in several different ways, but Dr. Bennett says that anyone taking a sample must remember a few basic re-

quirements. These include:
Take one sample from each uniform area in the field.

A representative sample may be obtained by taking a slice of soil 4 to 5 inches deep, and repeating this at 15 or 20 different places over the field.

Spade, soil augur, soil probe or garden trowel may be used to take a sample.

All of the small portions from a single field should be mixed and a composite sample taken and placed in a soil carton.

All blanks on the soil carton and information sheet should be filled out completely.

Samples should be taken early enough to insure plenty of time for testing. Soil cartons, information sheets, mailing instructions and additional information may be obtained from the local county agent, Dr. Bennett concludes.

Marketing Orders Increase

Texas producers have recently shown considerable interest in establishing marketing orders on carrots, onions, citrus and lettuce. Such marketing orders and agreements are designed to help producers achieve orderly and efficient marketing through industry-government cooperation. Contrary to many government regulations, marketing orders are not initiated by the government--the growers and handlers must first make a request for the desired regulations.

The Texas Agricultural Extension Service has recently published a leaflet, L-489, that discusses the items that may be authorized in a marketing order, the way an order operates and the way to obtain a marketing order. This leaflet may be obtained from the local county agent.

Irrigation Increases Barley Yield

Irrigation on barley increased returns \$29.56 per acre over dryland barley at the High Plains Research Foundation in the 1959-60 test. Cardova barley was used in the test which compared yield and returns between dryland barley and that of irrigated, fertilized barley. The dryland barley yielded 9 bushels per acre compared to 10-20-0 fertilizer per acre. At 75 cents per bushel, income from the dryland acreage was \$6.72 per acre. Irrigation cost was \$6.00 per acre and the fertilizer cost totaled \$7.72 per acre. Deducting these costs from the \$50.00 received, the net income from the irrigated, fertilized test was \$36.28 per acre. James Valliant, water engineer at the Foundation, conducted the tests.

Turkey and peaches are to get top billing on the USDA's August plentiful foods list. Watermelons and cantaloupes are plentiful as are onions and tomatoes, broilers and fryers and scallops and peanut butter. All are good picnic foods and top choices for outdoor cookery.

SOIL CONSERVATION DISTRICT NEWS

If you are a farmer you know that your farm is different from any of your neighbor's farms. Your soil is different from the soil of your neighbors and even the soil on your farm may vary from field to field. The principles of soil and water conservation are complicated for this reason.

There are certain principles that soil and water conservation must conform with. These include Hydrology (properties of water), engineering, and agronomy (principles of field crops). Both training and experience are necessary for these principles to be carried out satisfactorily.

Under the Soil Conservation Service program for Farmer County many conservation measures are being used to assist the farmer in a scientific manner. Not all conservation practices are used on each farm but some are used with each acre on your farm to protect it and at the same time improve it. "Use all land within its capability."

By signing a conservation agreement with the Farmer County Soil Conservation District you, the farmer, become a district cooperator and are eligible to receive technical assistance with your farming problems. This assistance includes a land capability inventory and a conservation plan for your farm.

Land capabilities are determined by the kind of soil (texture, depth), the slope of the land, the amount and kind of erosion present at any particular time. Also determined will be the best way to conserve your soil and water through your farming methods.

This may be done through soil improving crops, properly using crop residues, crop rotation, or many other sound conservation practices. A conservation plan can be of great benefit to you in carrying out a sound, profitable farming operation. A good conservation plan will help provide soil for your sons and their sons to farm in years to come.

To obtain a conservation plan contact one of the five SCD Supervisors: A. L. Black, Friona; Bruce Parr, Black; T. O. Lesly, Lazbuddie; Dean McCallum, Rhea; Robert Calaway, Farwell, or any of the SCS staff at Friona.

Farm Facts

Out of every dollar spent by the housewife for groceries, the farmer gets only 38 cents.

The Farmer's Market

3100 N. W. 8th & Louisiana
Amarillo, Texas

is now open for the benefit of all the farmers to sell their fresh fruits and vegetables. All you will have to do is go to the Farmer's Market and back in your truck and sell your fresh fruits and vegetables at wholesale and retail. For the first time the farmers of Northwest Texas will have an opportunity to sell their fresh fruits and vegetables direct to the consumer and get a fair value for their merchandise. Don't let your merchandise go to waste, take it to the Farmer's Market and get ready cash.

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Your Farm Bureau Legislative Chairman for Farmer County, Harry Hamilton, reported to the directors at their last meeting that, quote, "in the legislative field, things are in a mess", unquote. Some discussion followed, but there was no disputing the accuracy of Hamilton's report.

When the VI Giorgio fruit corporation of Yuba California requested 300 Mexican Nationals to harvest pears in California on July 29, this year, the request was denied by Secretary of Labor Mitchell. Basis for the denial was that on July 14, 1960, 130 of 186 domestic workers at the ranches in question were on strike. Can it happen here? The question is for your consideration and action.

If you are opposed to things like this, Farm Bureau is the largest organization on your side. You can make it stronger and larger by joining if you don't already belong.

Farm Bureau officers and leaders in Farmer County are highly appreciative of the cooperation given to the County Farm Bureau Weed Committee by cities and communities in the effort to eradicate bindweed in the county. Agricultural teachers and many others are working with the committee in this effort.

President Herman Geries asked us to tell you that we have in the office here the book published by the Americans for Constitutional Action, which gives the voting records of senators and representatives in Washington for the past several years.

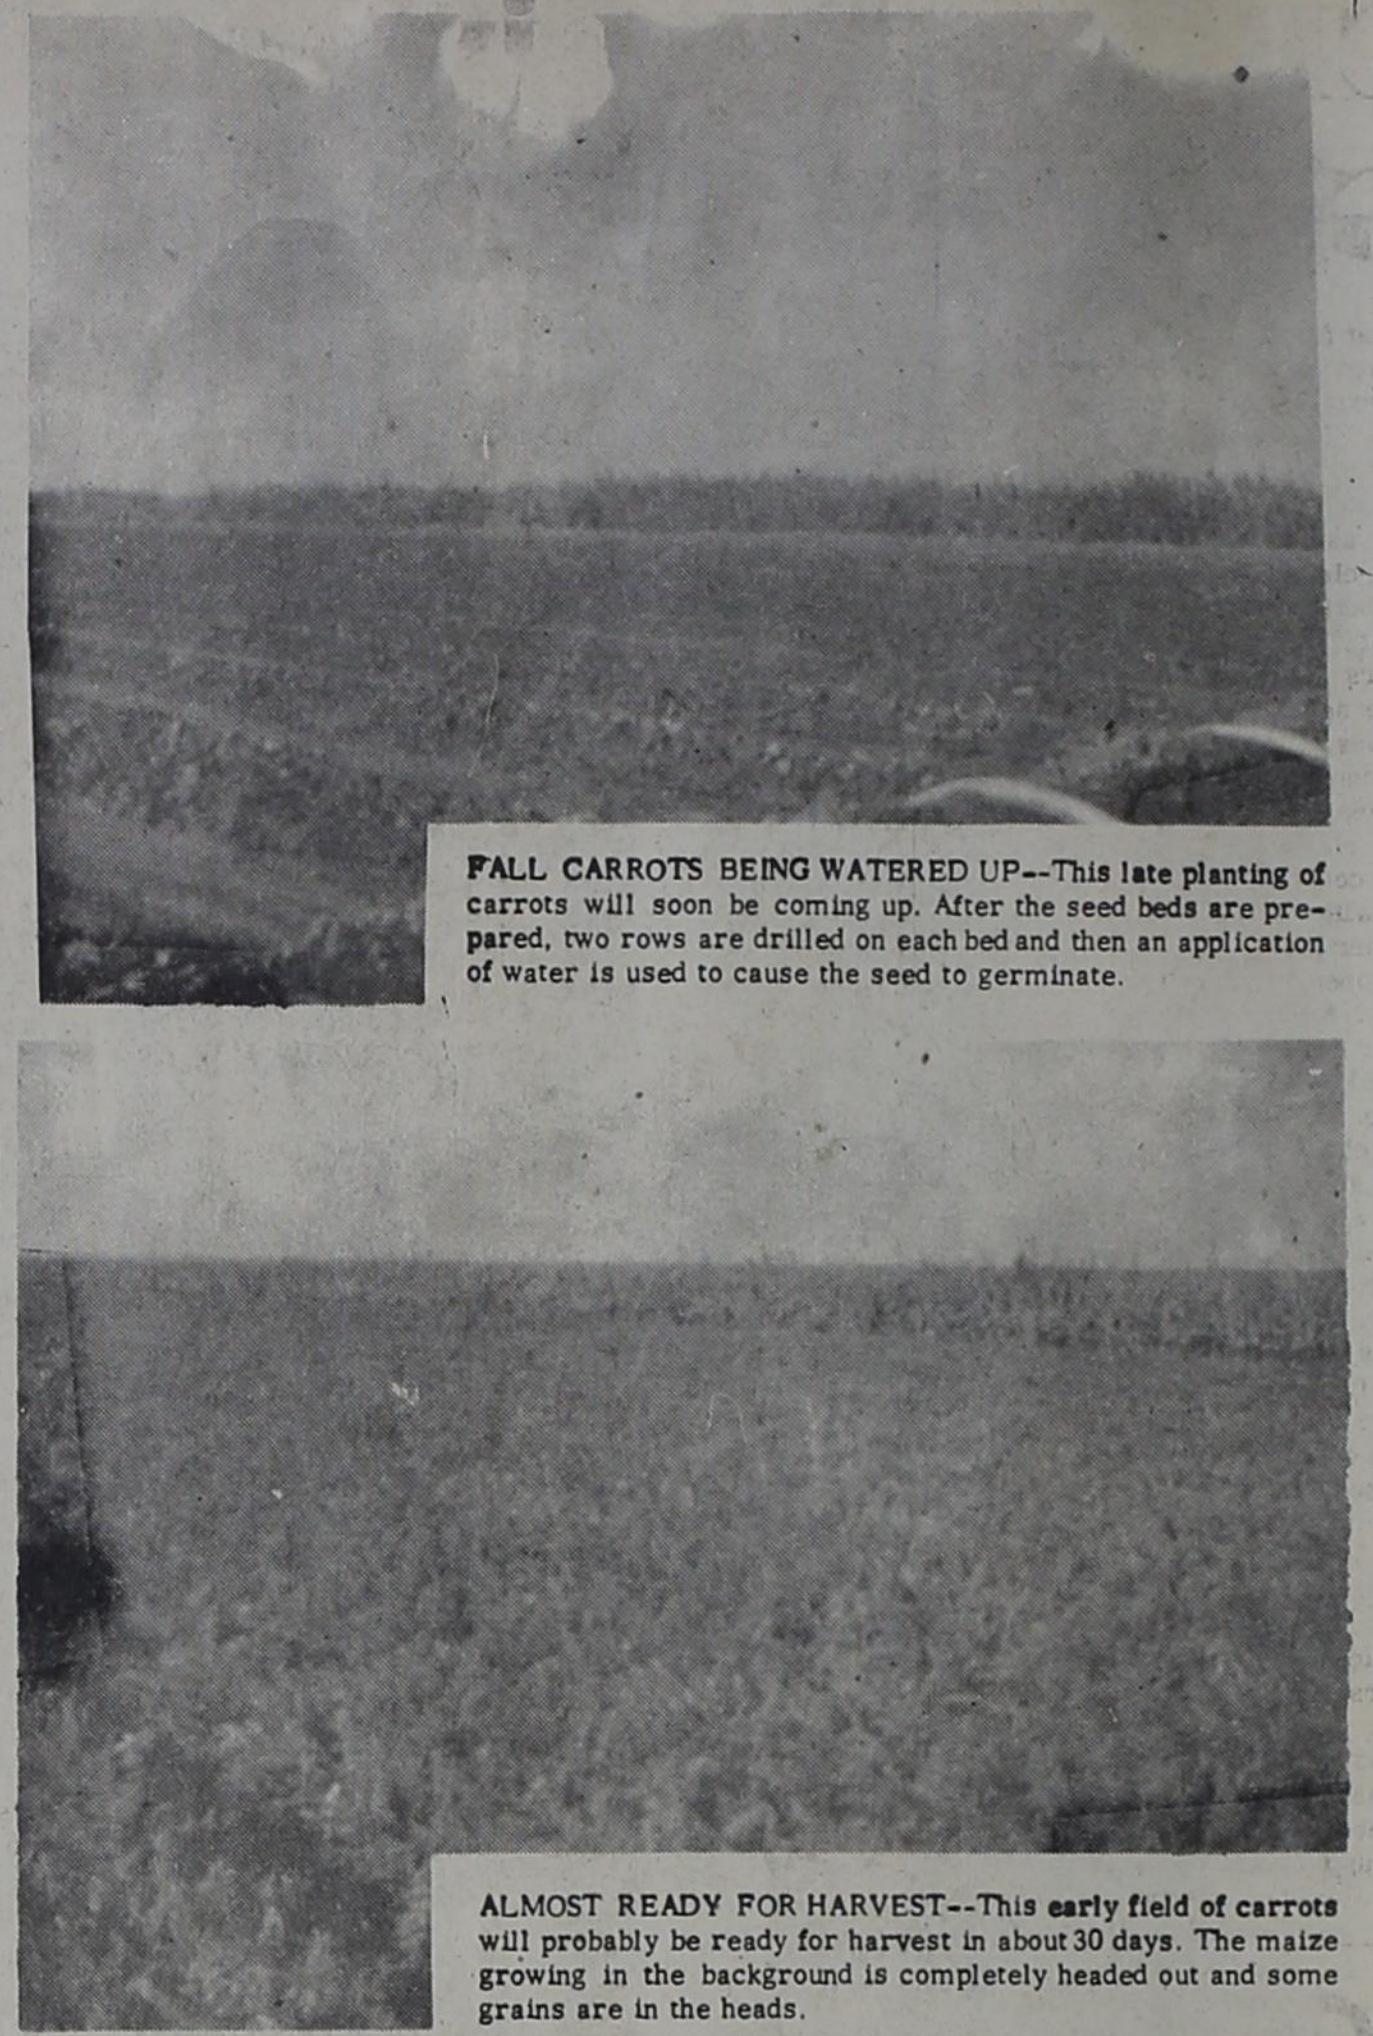

You may be surprised to read some of the information that shows how some of these men voted on subjects of vital interest to you. And although the ACA gives its opinion of the usefulness of each congressman based on his record, it is arranged so you can determine your own rating for them.

Anyway, the large book is on the counter where you are welcome to study it.

Remember to file for both Federal and State road use tax refund on farm used fuels. It amounts to nine cents per gallon.

Consider this: "There is a generation that are pure in their own eyes, and yet is not washed from their filthiness." Proverbs 30:12.

Increased mechanization marked the Texas cotton harvest in 1959-60. Machine stripping and picking accounted for 44 percent of the State's upland harvest last year... up from the 35 percent for a year earlier.

FALL CARROTS BEING WATERED UP--This late planting of carrots will soon be coming up. After the seed beds are prepared, two rows are drilled on each bed and then an application of water is used to cause the seed to germinate.

ALMOST READY FOR HARVEST--This early field of carrots will probably be ready for harvest in about 30 days. The maize growing in the background is completely headed out and some grains are in the heads.

WITH THE COUNTY AGENT

JOE JONES

Farmers should keep a close check on cotton the next three weeks for the cotton fleahopper and cotton bollworm. After that, forget the fleahopper because any fruit they might knock off would be too late to make cotton anyway, but the bollworm can continue to do damage until the cotton boll is mature.

Regular checks should be made in cotton fields every other day to keep up with any insect build up that may occur. Bollworm control should begin when bollworm eggs and 4 or 5 small worms are found per 100 terminals. Fleahopper control should begin when 15 to 35 fleahoppers are found per 100 terminals. The reason for the wide range in number of fleahoppers before beginning treatment is because you must take into consideration the amount of fruit already set that is too large for the fleahopper to knock off.

You can pick up the "Texas Guide for Controlling Cotton Insects", in my office or from your glinner.

Having a soil analysis run before seeding any crop gives you a good guide to go by. For you to get maximum benefit from the soil analysis it must be taken correctly and should be sent off in time for you to get the report returned before you apply fertilizer. I have forms showing how soil samples should be taken and the address of the State Soil Testing Laboratory, College Station, Texas. The fee for having a soil

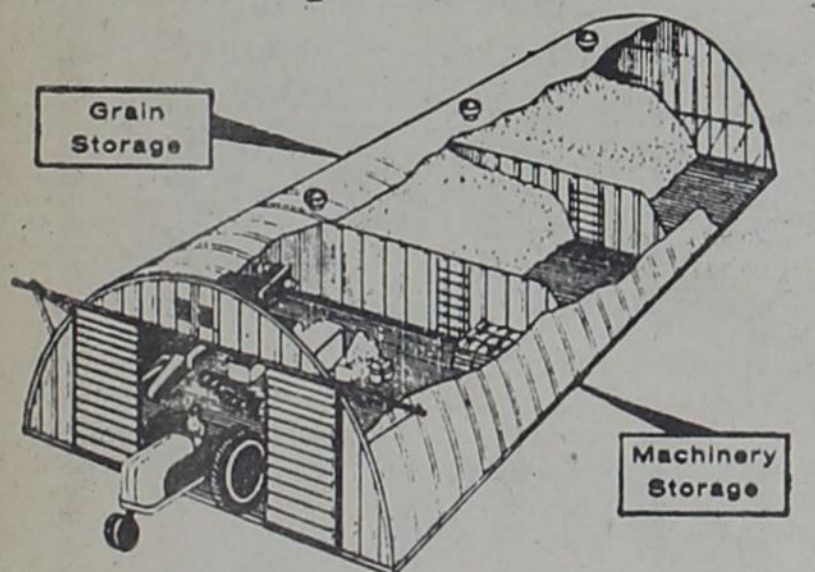

analysis run at the State Laboratory is \$1.00 up until September 1, at which time the charge will go up to \$2.00.

During the peak bloom period, cotton uses .25 to .40 inches of water per day. This period usually runs 30 to 40 days and water use begins to slow down rapidly until the crop matures.

The critical water use period on grain sorghum is during the boot and bloom stage. The grain sorghum plant will use .30 inches per day or just slightly more during this period before the water use rate begins to slow down. The grain sorghum plant takes water mostly from the top 2 to 3 feet of soil while cotton can use water effectively from 4 feet of soil if it has developed a normal tap root.

Progress is being made on bindweed control in Farmer County. Let me remind you that a lot of interest is being shown by people other than farmers. If you have bindweed on the county road adjoining your farm, meet with the Commissioners Court in the County Courtroom on either the 2nd or 4th Monday of each month. If it is on the railroad right-of-way report the spot to your station agent. If in the city, see your mayor. If on your farm go by the A.S.C. office in Farwell and see them about assistance they offer you in getting rid of this weed. If on the State Highway go by the Highway Barn in Bovina and report it to Lloyd Killough.

Two Buildings for the price of one!

LOK-RIB Machinery-Grain Building

The LOK-RIB Steel Building can be used for grain storage or machinery storage, separately or both at the same time. A LOK-RIB does the work of two buildings for the cost of one!

It protects your crop from weather, fire and rodents so you get top market prices. It cuts machinery depreciation and gives you a large, roomy work center from which to direct your farm operation.

Extended payment plan available with convenient terms up to five years - minimum down payment.

CROP Receiving Grain Over Area

Wheat for CROP is now being received at grain elevators in all parts of the Texas Panhandle. The contributors make known to the elevator manager the amount they wish to give to CROP as the wheat is brought to the elevator. By making the contribution before the total amount is credited to the growers account, added credit can be secured for income tax purposes. This is true for grain contributed to other worthy charities.

All elevators in organized CROP counties have been supplied with transfers, receipts and other printed matter needed to properly record contributions. A number of elevators in other counties have the same material. Those wishing to help the overseas needy but deliver to an elevator with out these CROP supplies can leave the wheat with instructions to the manager to put the desired number of bushels in the CROP account. The manager will contact this office and proper forms will be furnished.

Those desiring added information on the work of CROP are asked to contact any CROP worker of their county or to drop a card to P. O. Box 518, Panhandle, Texas. The demand for add d food for earth quake victims and other natural disasters is added much to the load of the Christian Rural Overseas Program. Refugees and others in free countries were needing more than CROP could supply before the earth quakes, floods etc. occurred in several parts of the world. representing these denominations receive the food as designated. All ministers of the area are acquainted with the work of CROP.

H. D. AGENT'S CORNER

Jimmie Lou Wainscott

Credit cannot take the place of income, says Eula Newman, extension home management specialist of Texas A&M College. IT CAN ONLY ALTER THE TIME WHEN MONEY IS SPENT. The day of reckoning always comes.

There are a number of cases when it may be wise to use credit. Such decisions need to be made through family discussions and planning.

In using any type of credit, families will do well to follow through on these suggestions made by the specialist:

- Get acquainted with the various credit sources available before credit is needed.
- Build up a credit rating by beginning with smaller amounts, paying promptly.
- Borrow for as short a time as possible in order to keep interest charges at a minimum.
- Borrow on the best terms available. The family with a good character, adequate capacity, or some capital, can usually get the best terms.
- Understand the terms and meet them promptly.

Dark cottons provide comfortable and fashion-right costumes the year-around in many parts of the state and nation. With proper care they can be kept attractive and new looking for a much longer time.

says Nena Roberson, extension clothing specialist of Texas A&M College. Good dark cottons should be dry-cleaned to preserve their finish and appearance, at least as long as they are used for best wear, says the specialist. Garments with decorative details, padding, interfacings and designs which cannot be removed must be dry cleaned or laundered with special care. Dry cleaning avoids any risk or spoiling the appearance of the garments.

To launder the garments, wash each one individually in softened water. Rinse completely to remove all traces of soap or detergent. Soft water helps to prevent hard water curds or lint from sticking to the cotton. Use warm, not hot, water with mild soap flakes or detergent. Soapless detergents are good for dark cottons, especially in hard water. Be sure to read the directions on the package. Some detergents are used for cotton and some are recommended for rayon. Do not use a bleach. Many of the bleaches affect the finish of the material.

When ironing a dark cotton garment, press it on the wrong side to retain the finish of the material.

Want to make those laundry jobs easier during these hot summer months? If you do not have an automatic drier, try following these suggestions given by Wanda Barkley, home management specialist of Texas A&M College:

- Sort articles as you take them out of the washer. Hang all the starched items together, as well as the flat pieces, which will be folded as they are taken from the line. Hang all items together that need to be removed before they are completely dry. Press while damp.
- Hang clothes properly. Take time to shake out items and straighten them as you pin them on the line. This will make ironing or folding a much easier job. It eliminates many wrinkles and protects fabrics that are weak while they are wet. Hang all garments at their firmest part -- usually at the seams.
- Use stretchers where possible. Rust proof stretchers and hangers are available for trousers and other garments.

Flame Cultivation research results to date will be viewed by propane and butane dealers and their guests at the High Plains Research Foundation on August 24th, starting at 2:00 P. m.

E. F. Powell, President of the Texas Butane Dealers, Ft. Stockton, and Wm. J. Lawson, Executive Secretary, Austin, set the date of the tour at a meeting of representatives of the Association at Plainview and Halfway on July 29th.

During the field day, weed elimination results to date by means of flaming will be inspected at the Foundation. Crops included in the research underway are cotton, grain sorghum, soybeans, corn and castor beans. Reports will be made on the results of weed elimination by flaming onions and potatoes. Final results for the year will be reported after the tests are harvested.

POTATOES REQUIRE MUCH HAND LABOR--This group of laborers are picking up potatoes on the Bob Jones farm southeast of town. After the potatoes are picked up and sacked, they are loaded onto trucks and hauled to the processing plant.

ificers to make arrangements for the special day on August 24th were; J. L. Weathers, Immediate Past President, Petersburg; Homer Johnson, Levelland; Harry Garretson, Hale Center; Lyle Blanton, Hereford and Jack Perry, Wolf-orth.

Plainview hosts were Bill Taylor, Gene Bompus Co., Neal Williams, Sinclair Dealer, Bill Gotcher and Staff, Gotcher Mfg. Co. of Plainview and Clarksdale, Mississippi.

Members of the Foundation staff at the meeting and tour were; Dr. T. C. Longnecker, Director; Dr. Earl H. Col-

lister, Chief Agronomist and Dale Price, Agricultural Engineer.

Nothing smells better on a soft summer evening than a steak or chicken cooking over a charcoal fire but an accident can easily spoil an otherwise pleasant occasion if the 'grill-chef' becomes careless, says W. L. Ulich, extension agricultural engineer and safety expert. Never use gasoline, paint thinner or any other highly combustible fluid to kindle charcoal and if lighting fluid is used, follow the manufacturer's recommendation, advises Ulich.

PCG Directors Favor Two-Choice Allotments

Continuation of the 1960 two-choice cotton legislative program into 1961 was favored here Monday night by Directors of the Plains Cotton Growers, Inc.

The vote to favor--"in lieu of a better program"--the retention next year of the same cotton legislative program that is in effect this year came as somewhat of a surprise move, but in view of the fact that cotton leaders fear "hasty" action when congress reconvenes in August might wreck the entire cotton program.

Present legislation calls for the two-choice program to end in 1961 with a minimum national allotment of 16.3 million acres and price supports of not less than 70 percent of parity.

In addition, the standard grade for purposes of price support would go onto "average of the crop" instead of the present middling 7/8-inch. Some observers figure cotton would bring about \$17 a bale less next year under such a program.

The 1960 cotton program provides farmers operating under the "A" plan with their "regular" farm acreage allotment and price supports of not less than 75 percent of parity. It enables growers who selected the "B" program to expand acreage by 40 percent in exchange for lower price supports of not less than 60 percent of parity.

Growers also voiced opposition to reports that an effort may be made in the future to put production controls on a poundage, bushelage or baleage basis.

In essence, the vote to continue the 1960 program into next year apparently was aimed at voicing dissatisfaction with the lower acreage allotments and a cut in price supports that are looming for 1961.

At the same time, however, it seemed likely that the Plains Growers would oppose any efforts to raise price supports to unrealistic levels at the expense of greatly curtailed acreage allotments.

"It's my guess that any sizable increase in price supports would be accompanied by the most stringent production controls we've ever had," one leading cotton observer said.

Action on the legislative meeting was taken prior to a meeting scheduled July 29 in Memphis of the American Cotton Producer Associates, where some legislative action is contemplated.

In other action PCG directors approved a \$185,000 budget for 1960-61, approximately \$47,000 of which will be used in various phases of cotton research on the High Plains at the Lubbock and Spur Agricultural Experiment Stations, High Plains Research Foundation in Hale County and at Texas Tech.

The Simple Economics Of Irrigation Water

According to the High Plains Undergruond Water Conservation District, almost every farmer in the southern High Plains who has a well is either irrigating with it or is seriously thinking about the need to water his crops.

Just as in other business enterprises, to make a profit is the motivating goal of farming operations. Economists tell us that many of our farmers have paid about \$10 per acre-foot for the water that is in storage beneath their land.

They say further that when we irrigate grain sorghum as a cash crop we can expect to make a little more than \$10 in additional income for each acre-foot of water used over what we could make if we farmed dryland.

To begin with, you can readily see that to raise grain sorghum by irrigation is just about a break-even proposition. If an irrigator wastes even a small amount of water, he probably is giving away the little profit that he would have otherwise made.

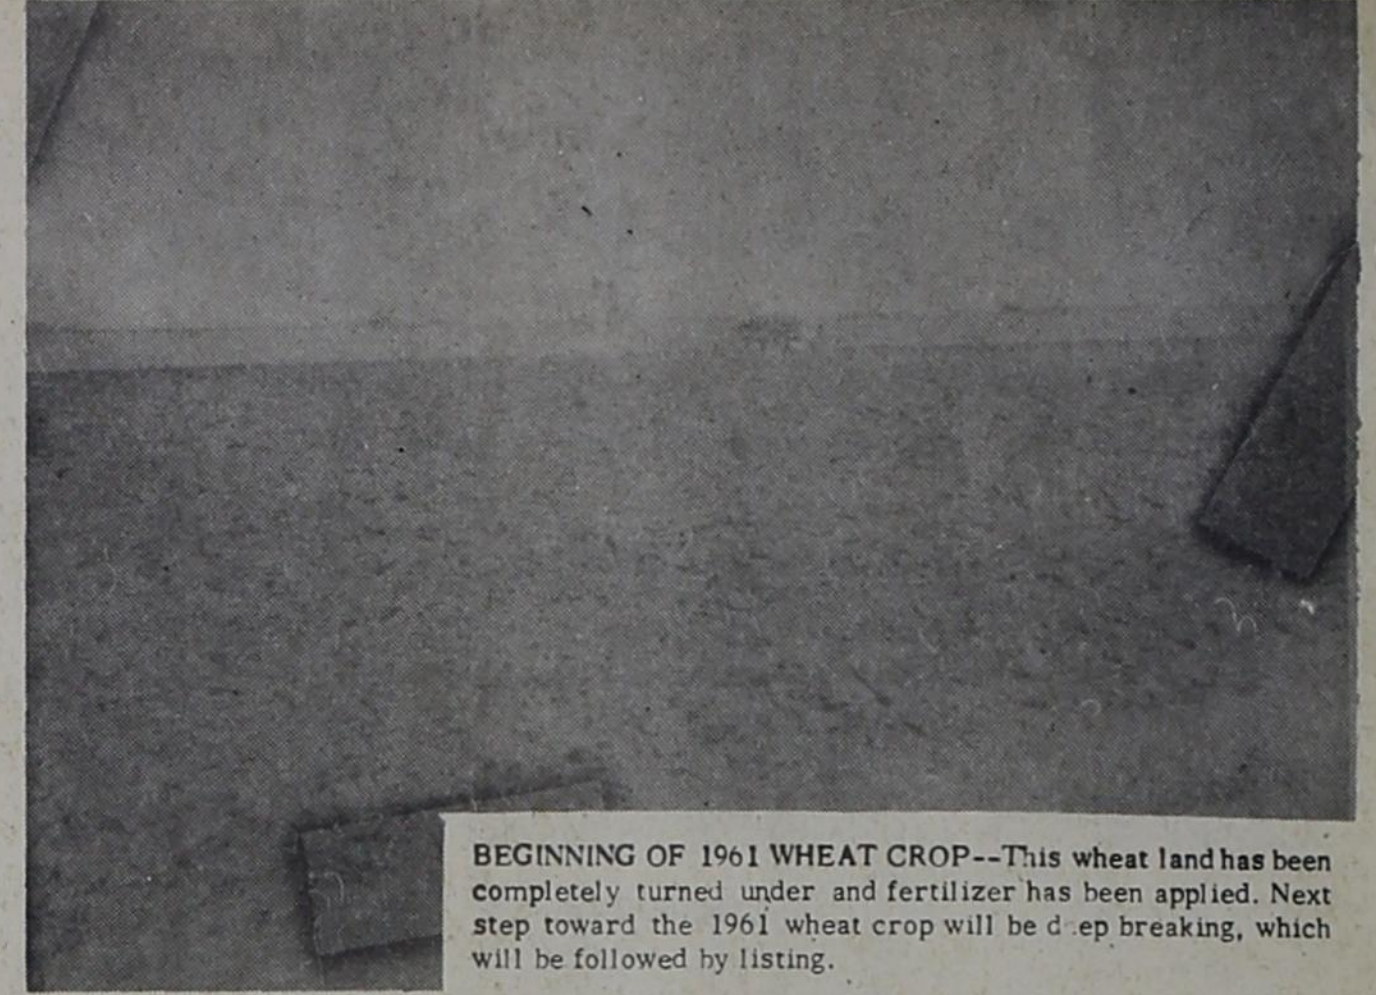

The trouble with the way most of us think, is that we completely disregard the fact that the water in the ground costs money, or has a definite monetary value. It is not free. We pay good hard-earned cash for it; consequently, when we pump water to the surface and irrigate with it, we have more

involved than just operational costs. We also are using up a portion of our capital investment.

The High Plains Water District urges all who are watering, and all who will be watering in the near future, to use the water that is needed but to use it without waste. Water that is pumped but not used to produce a crop is costly. Waste indicates a complete disregard for adequate management practices.

We live during a time when almost everyday we see more of our rights as individuals being consumed by governmental decree behind the guise of public welfare. Even so, we in Texas still maintain the right to privately own underground water. Do we like it that way? Once again, the High Plains Water District emphasizes -- if we are to continue down the road of private ownership we must minimize waste. Wasteful exploitation of our underground water supply would be playing into the hands of more government control.

On the other hand, to use what we need without waste is merely good common sense and conservation. The result of conservation is continued prosperity even for future generations that must look to us for the resources necessary for a more demanding tomorrow.

BEGINNING OF 1961 WHEAT CROP--This wheat land has been completely turned under and fertilizer has been applied. Next step toward the 1961 wheat crop will be deep breaking, which will be followed by listing.

Early Guess Is 33,500 Bales For Parmer Co.

The first estimated production total of the Texas High Plains 1960-61 cotton crop for the 23 member counties of the Plains Cotton Growers, Inc. was announced today as 1,899,000 bales.

If produced, such a crop would

be the second largest crop in history ever harvested off the High Plains, being topped only by the more than two million bales harvested in 1958. Production this past year, 1959-60 was 1,869,353 bales.

The estimated production total of 1,899,000 bales is expected off total 23-county allotments this year of 2,263,395 acres and standing acreage as of Aug. 1, totals approximately 2,175,000 acres.

Condition of the cotton crop as of Aug. 1 was given as good to excellent. Hot, dry summer weather during July enabled the crop to do some "catching up"

and most agricultural observers see the crop as perhaps somewhat late this year, but still in good shape. Some dryland cotton is reported to be in the best condition in the past 10 to 20 years. One more shower or rain in late August will insure a good production. Irrigated cotton is again being watered in some areas. Thus far insects have not been too much of a problem. Control measures have kept the situation in check.

Below are production estimates for 1960, with 1960 allotments and 1959 production by county:

Source Of Stock Fish Important

Would a farmer sow a field of oats and then deliberately sow crabgrass in the same field? Of course not--this would be very poor management. Many farmers do, however, have their farm pond properly stocked, and then add fish from another pond, from a river or from the minnow bucket. This is also poor management, but Ed Cooper, extension wildlife specialist, says this practice is one of the main reasons why many farm ponds are worthless for fishing.

Cooper says that fish obtained from sources other than hatcheries usually contain undesirable species such as shad, carp, suckers, gar, mud-cat, etc. These undesirable species will compete with the game fish for food, they will eat young game species, some will muddy the pond water, and all will be a general nuisance to the fisherman.

Another erroneous practice is to add grown fish to a freshly stocked pond, Cooper continues. This is usually done so that the owner can "catch some big fish while the small ones are growing up." The owner must remember that the grown fish have to eat, and in all probability they will eat the hatchery fingerlings. With this situation, it wouldn't be very long before the farmer had no fish, large or small, in his pond.

Pond owners are usually worried by the fact that the hatchery fish are very small when they arrive, and there doesn't seem to be enough of them. Cooper points out, if the pond is managed properly, these fingerlings will be reproducing the following year, and then the problem will be too many fish rather than not enough.

Hatcheries provide the right kinds and numbers of fish to the pond owner, and any other fish which are added will usually have a detrimental effect.

County	'59 Bales Produced	Total 1960 Allotment	1960 Est. Prod

(Production estimates by county were made in cooperation with the Lubbock Cotton Exchange.)

Fading-Out Common Trouble

Fading-out is a common summer disease of lawn grasses in all areas of Texas. It most often occurs on grasses that have suffered from lack of soil moisture in mid-summer. Fading-out is sometimes called

"melting out," "going out" or "gray leaf mold."

Irregularly shaped dead areas occur in the lawn. Isolated, scattered sprigs of living grass are usually found in the disease areas. Leaves die back from the tip end. Runners or stems of the grass may have small dead spots. These spots may or may not enlarge and girdle the stem. Roots may be rotted.

The disease is caused by a complex of Helminthosporium, Curvularia and Fusarium species of fungi. These soil molds are most active following a heavy rain or watering on grass that has previously been weakened by drought. There is an indication that soil nematodes may be associated with fading-out in some cases.

Fading-out is controlled by proper management of the lawn. Proper watering, fertilizing, mowing and aeration are important.

In lawn areas that respond slowly to proper management practices in the summer, zinc captan fungicide drenches may prove helpful. Use the above fungicides at the rate of 2 to 4 pounds per 100 gallons of water. Wet the grass with the solution down to the soil line. Use a sprinkler can or hose on sprayer for small areas. Apply drench right after mowing. Also, drench the healthy grass beyond the disease area to a width of several feet.

Local county extension agents can supply additional information on this and other plant diseases.

Reduce Cotton Root Rot

Plan several years in advance to effectively reduce cotton root rot, advises D. Harlan E. Smith, extension plant pathologist. Root rot losses of cotton can be reduced. However, a combination of practices carried on for a number of years is necessary for best results.

Deep plowing this year will help in most cases to reduce the disease next year. The turning under of a large tonnage of organic matter prior to growing cotton will help. The growing of resistant crops in rotation also helps. However, none of these are a sure control when used alone. For example, rains immediately following the deep plowing will tend to cancel out the benefits of disease reduction. Too, crop rotation helps little if susceptible weeds grow in resistant crops.

Producing early cotton will, in most cases, help the cotton to escape root rot damage. Several factors are important in producing early cotton including the control of seedling diseases.

For additional information, contact your extension agent and request a copy of the publication, MP-361, "Root Rot Losses of Cotton can be Reduced."

State's Best Grain Sorghum Farmers To Receive Awards

Attractive cash prizes await the winners of the 1960 Texas Hybrid Sorghum Production Contest, reminds Hen R.

Spears, Extension Agronomist and Ray Joe Riley, Dimmitt and President Certified Hybrid Sorghum Producers Association. The contest is sponsored by the Texas Certified Seed Producers, Inc. and the Agricultural Extension Service. The state winner will be presented a handsome plaque and \$100.00 in cash. Five cash prizes will be awarded in each district for irrigated and non irrigated sorghum. Irrigated or dryland sorghum may be entered but will not compete against each other for prizes on the district level. However, irrigated and non irrigated will compete for the

awards given the state winner making the highest yield per acre.

All farmers, 4-H Club members and FFA boys, except commercial hybrid grain sorghum seed growers and members of their families and employees, are eligible to compete. Previous state winners in either the irrigated or dryland division are ineligible for competition in the same division again.

Contestants must enroll with their county agent, who will or has set the closing date for the county, said Riley. A contestant cannot enter both irrigated grain sorghum and sorghum that is not irrigated.

A minimum of one acre is required of one of the following varieties: RS 590, Texas 601, RS 610, Texas 611, Texas 620 RS 630, RS 650, RS 608 and Texas 660.

You can shear a sheep many times but only skin him once. However, I would let a fellow skin me on a line of veterinary supplies that I am closing out. If you need any screw worm materials, we have smear 70, EQ-335, and Mar-Dane 1883. All of this material is for sale at 30 percent off. We have a limited amount of this material and first come gets it all if he wants it.

Would you be willing to spend 10 cents if it would return you \$9.10; if those numbers are too small, how about \$20.00 and a return of \$1,820.00? Tests made in Kansas have shown that these returns are possible for merely treating seed wheat with Ceresan prior to seeding. Treating wheat not only destroys stinking smut but gives some protection from seedling diseases. Combination treatments can also be made on wheat to give protection from soil insects as well as smuts. Golden West Seed Co. is ready to do custom treating on your wheat, oats, and barley. We are equipped to clean in bulk or sack your seeds if you so desire.

For every friend you buy you get an enemy free. The dove crop looks good. All you hunters better start limbering up that plunderbuss -- it might pay to knock the spiders out of the barrel first.

Castor beans are looking good these days. Most of the beans are knee to waist high and have from five to seven spikes of beans. They should set several more before frost and prospects look very good at the present time. It would pay to watch this crop and see how they turn out. If it is a paying crop, which we think it will be, we can use 10,000 acres next year. Come see us.

'66' Stations Get New Look

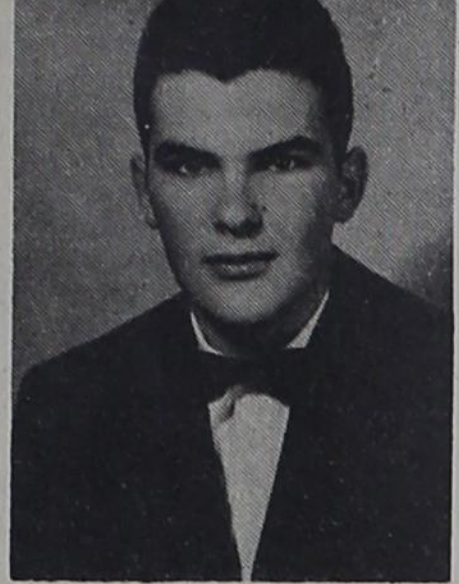

Texico-Farwell's three Phillips '66 service stations are getting a new look this week. The black and orange colors, which have marked Phillips stations for many years, are being changed to red and white. This is a nation-wide remodeling program, says Joe Helton, the Phillips 66 distributor for this area. The change has been under way for several months and the program also includes installation of new signs. Stations in Texico-Farwell being repainted are Wheeler Avenue Service Station, Jim's 66 Station, and Jones 66 Service Station.

Doran To Study Under Cooperative Program

Ursel Doran, a 1960 graduate of Texico High School and son of Mr. and Mrs. J. Buck Doran, has been accepted by the Cooperative Program of New Mexico State University to study and work in its Cooperative Student Program operated jointly by the College of Engineering and the Physical Science Laboratory.

The program covers a five year period, combining on-campus study in the College of Engineering or the College of

URSEL DORAN

Arts and Sciences with off-campus employment by the Physical Science Laboratory.

This program is open to students who plan to major in electrical engineering, mechanical engineering, civil engineering, math or physics. The work phase of the program will be performed in support of national defense effort at Satellite Tracking Stations in all parts of the world in assisting the Physical Science Laboratory in the tracking by electronic means of satellite Transit and its successors.

Ursel, being in group one will be at NMSU August 27 to begin training. The training will consist of practical work in constructing, testing, and maintaining electronic devices; familiarization with electronic supplies, equipment, and measuring instruments; training in the operation and maintenance of the satellite tracking stations to be used in the field; lectures on elementary electronics and satellite dynamics; and assigned home reading and study.

In addition to the 160 hours per semester required for the program, the students will be taking regular study courses toward their major. The program is designed so that the students in group one will study on-campus for one semester and work off-campus for one semester throughout

OKLA. LANE By Avis Carpenter

Mr. and Mrs. Kenneth Robinson of Atlanta, visited with Mr. and Mrs. James Roach recently. Recent visitors in the home of Mr. and Mrs. Joe McWilliams were Mr. and Mrs. Clarence McWilliams of Lompoc, Calif. The men are brothers. Mesdames W. E. Verner, J. M. Pruitt, Harold Carpenter, Wayne Hardage, Bernard Nelson were accompanied by Rev. C. W. Coffey and W. E. Verner to attend the WMU convention at Gorieta recently. Mr. and Mrs. Sterling Donaldson were hosts when the Deborah Sunday School class of the Oklahoma Lane Baptist church met this week. This was a regular monthly meeting and the class feted their husbands.

(Continued on page 8)

the year. Each student is given his choice of the track he wishes to work.

Ursel stated that he realized it would be a rough field but that it would be worth all the time and effort put into it. He said what he thought would be the most exciting part of the program was the "over the waters" work.

About 80 boys have been selected to study under this plan, and New Mexico State is the only university that has a plan set up in this manner.

THE STATE OF TEXAS COUNTY OF PARMER

IN THE NAME AND BY THE AUTHORITY OF THE STATE OF TEXAS To: Ruby Cowan and her husband W. T. Cowan; Linnie Hancher and her husband Clarence Hancher; Minnie Hancher Mizar, Linnie Hancher Mizar, Linnie Mizar Hancher, Linnie Mizar Hancher all of whose residence is unknown, and should any of said parties be married, then his unknown wife or wives and her unknown husband or husbands all of whose residence is unknown, and to all of the above named parties who reside outside the state of Texas and should any of said persons be deceased then their heirs, assigns and legal representatives, whose name and residence are unknown, and the respective unknown heirs and legal representatives of all the above named parties, and their heirs and legal representatives, the unknown owner or owners of the hereinafter described property and their heirs and legal representatives, whose names and places of residence are unknown, and any and all other persons, including adverse claimants, owning, or having, or claiming any legal or equitable interest in or lien upon the hereinafter described property delinquent to plaintiff hereinafter for taxes.

YOU ARE HEREBY NOTIFIED that suit has been brought and is now pending in the Honorable District Court, 154th Judicial District, Parmer County, Texas, wherein FARWELL, CONSOLIDATED INDEPENDENT SCHOOL DISTRICT is Plaintiff, STATE OF TEXAS, PARMER COUNTY and HIGH PLAINS UNDERGROUND WATER CONSERVATION DISTRICT NUMBER 1 are Impleaded Party Defendants; and Ruby Cowan deceased and her husband W. T. Cowan deceased, Ophelia Dotson, Mrs. B. F. (Buna) Hutchins, John Moore and his wife Leota Moore, Linnie Hancher, deceased and her husband Clarence Hancher, Minnie Hancher Mizar, Linnie Hancher Mizar, Minnie Mizar Hancher, Linnie Mizar Hancher, and should any of the above named parties be married then his unknown wife or wives and her unknown husband or husbands, and should any of said parties be deceased then their unknown heirs, assigns and legal representatives are defendants, by the filing by said plaintiff of a petition on the 11th day of July, 1960 and the file number of said suit being No. 2138 and the nature of which is a suit to collect delinquent ad valorem taxes on the following described property, to-wit: All of Lots 10, 11, 12, 13, 14, 15, 16, 17, 18, Block 2; and lots 1, 2, 3, 4, 5, 6, 7, 8, 9, Block 3 Lanford and Nutt Addition to the Town of Farwell, Parmer County, Texas, as fully shown by Plat of said Addition or Subdivision recorded in Volume 24, Page 412 of the Deed Records of Parmer County, Texas together with interest, penalties, costs, charges, and expenses of suit which have accrued and which may legally accrue thereon.

The amount of taxes due each plaintiff, exclusively of interest, penalties and costs is as follows: Farwell Consolidated Independent School District, \$106.00 State of Texas,

Parmer County and High Plains Underground Water Conservation, District Number One, \$90.61, Impleaded Party Defendant, TOTAL \$196.61. The names of all taxing units which assess and collect taxes on said property not made party to this suit are NONE. Plaintiff and all other taxing units who may set up their tax claims herein seek recovery of delinquent ad valorem taxes on the property hereinabove described, and in addition to the taxes all interest, penalties, and costs allowed by law thereon up to and including the day of judgment herein, and the establishment and foreclosure of liens, if any, securing the payment of same, as provided by law.

All parties to this suit, including plaintiff, defendants, and intervenors, shall take notice that claims not only for and taxes which were delinquent on said property at the time this suit was filed but all taxes becoming delinquent thereon at any time thereafter up to the day of judgment, including all interest, penalties, and costs allowed by law thereon, may, upon request therefor, be recovered herein without further citation or notice to any parties herein, and all said parties shall take notice of and plead and answer to all claims and pleadings now on file and which may hereafter be filed in said cause by all other parties herein, and all of those taxing units above named who may intervene herein and set up their respective tax claims against said property. You are hereby commanded to appear by filing a written answer and defend such suit on the first Monday after the expiration of forty-two (42) days from and after the date of issuance hereof, the same being the 19th day of September, A. D. 1960 (which is the return day of such citation), before the honorable District Court of Parmer County, Texas, to be held at the courthouse thereof, then and there to show cause why judgment shall not be rendered for such taxes, penalties, interest and costs, and condemning said property and ordering foreclosure of the constitutional and statutory tax liens thereon for taxes due the plaintiff and the taxing units parties hereto, and those who may intervene herein, together with all interest, penalties, and costs allowed by law up to and including the day of judgment herein, and all costs of this suit. Issued and given under my hand and seal of said court in the City of Farwell, Parmer County, Texas, this 5th day of August, A. D. 1960. /s/ Hugh Moseley Clerk of the District Court Parmer County, Texas 154th Judicial District. By Bonnie Warren Deputy 45-2tc

Oklahoma Lane Methodist Mentions

Sixty-two were present Sunday morning. Topic of the sermon was "A Treasure Hunt." Visitors were Mr. and Mrs. Benny Darnell and Ray from Amarillo.

Sunday night there were 54 present and the topic of the sermon was "The Way," with the visitor being Steve Foster from Abilene.

Fourteen were present for the junior MYF and eight in the senior MYF.

Wednesday evening a basket supper was held in the fellowship hall of the church. Following the supper a dedication service for the Lord's Acre was held. Rev. J. R. Wood brought the dedication and dedicated between \$900 and \$1000.

Donald Christian, Wendol Christian, Troy Christian and Leon Billingsley and Steve Foster attended Laymen's retreat at Ceta Canyon last week. Members of the church that are sick this week are Joe West, Mrs. W. T. Shely, and Murrill Ruedell.

August 18, the First Methodist Church at Hale Center will host the district seminar. Attending from Oklahoma Lane will be Mrs. C. C. Christian, Mrs. Don McMahan, Mrs. Lee Jones, Mrs. Sam Billingsley, Mrs. George Lindop, Mrs. Melborn Jones, Mrs. Donald Christian and Mrs. Troy Christian.

Tuesday morning the Ruth Circle met with four members present. "Give God a Chance" was the title of the program presented by Mrs. Melborn Jones. Also on the program were Mrs. Don McMahan, Mrs. Donald Christian and Mrs. Wendol Christian. Mrs. Donald Christian presented the closing meditation.

Tuesday night, the junior MYF was feted with a bowling party and wiener roast. Sponsoring the group were Mr. and Mrs. Wendol Christian, and Mr. and Mrs. Melborn Jones.

Texico Students To Tech Workshop

Pauline Servatius, Trudy Lambert and their sponsor, Mrs. Jimmie Allman, will leave Sunday for Lubbock where they will attend the annual Texas Tech summer workshop for journalism students. The workshop will be divided into three divisions, newspaper, year book and photography. The girls will attend the yearbook session and Mrs. Allman will take in the photography to learn to operate the newly purchased Polaroid camera. The workshop will last through Thursday.

JOTTIN'S By Jeanne

If readers find that (kerchoo) this column is a little more (kerchoo-kerchoo) erratic than usual, there is truly a rea-(ker choo) son. We are among the annual August hay-hay-hay (kerchoo) sufferers. Please pity us.

The spouse is complaining most recently because the three junior editions have become conscious of grooming--we can't truthfully say, good grooming. But it seems that they use all the hair oil--too consistently.

We had heard of the mothers of daughters who always lose the battle of the lipstick and best nylons, but we hadn't thought of the hazards of the father with sons.

The future will probably mean an unshaven spouse, whose sons used the last razor blade; the toothpaste battle has been going on for several years; it will be most interesting when sox, shirts and ties become community property.

And the elder member of the household is certainly outnumbered. This is the canning season and many women are busy making good things to be enjoyed when the snow is on the ground.

Those who aren't busy packing goodies into jars, seem to be preoccupied with the chore of getting clothes in repair for the coming school year. At our house, it isn't so much a question of repair as it is a question of enough things that are long enough. He has grown too much in length for last year's things.

Time was, in the Graham household, that when the phone rang, it was for mama or daddy, but things are changing. This summer, it isn't unusual for us to answer the phone and find that one of Ronny's friends is on the line.

Too, he often brings us the telephone directory and asks us to look up the number of one of his 7-year-old pals. It looks as though the telephone might one day present the same problem as one bathroom. There was a time when one bath was sufficient, but as the number in the family increased, the luxury of two baths was our dearest wish.

"We foresee a like problem with the telephone. Even 5-year-old Hal gets a call from one of the neighborhood youngsters from time to time. So far, John isn't so popular. This could change when he learns to talk."

If you have children in the household you might appreciate this story as much as we did. One blistering hot day when they had guests for dinner, a mother asked her four-year-old son to say grace before the meal.

"But I don't know what to say," the boy exclaimed.

"Oh, just say what you've heard me say," the mother replied.

Obediently, the boy bowed his head and murmured: "Oh, Lord, why did I invite those people here on a hot day like this?"

"I'd pay my taxes with a smile—but the government insists on cash."

M. of the first Monday after the expiration of forty-two days from the date of the issuance of this citation, same being Monday the 19th day of September, A. D. 1960, at or before ten o'clock A. M. before the Honorable District Court of Parmer County, Texas, at the Court House of said County in Farwell, Texas.

Said Plaintiff's Petition was filed in said court, on the 3rd day of August, A. D. 1960, in this cause, numbered 2144 on the docket of said court, and styled, ANNE H. OVERSTREET, a single woman, Plaintiff vs E. C. Bryant, ET AL, Defendants.

The names of the parties to the cause are as follows: Anne H. Overstreet, a single woman, is Plaintiff, and E. C. Bryant and her husband, James S. Bryant; J. T. Wilsey and his unknown wife or wives; J. S. Bryant and his unknown wife

or wives; Frank Triplet and his unknown wife or wives; and all the unknown husband or husbands and unknown wife or wives of the above named parties, and should any of the above named parties be deceased, his or her unknown legal representatives, heirs and assigns, are Defendants.

A brief statement of the nature of this suit is as follows, to-wit: Suit in trespass to try title, Plaintiff alleging that on or about the first day of August, A. D. 1960, she owned in fee simple and was in possession of Lots 17, 18, and 19, Block 27, of the Original Town of Farwell, Parmer County, Texas, as shown by plat of said town of record in the Deed Records of Parmer County, Texas, and that Defendants unlawfully entered thereon and ejected her therefrom and withhold possession thereof from her; and praying for judgment for title to and possession of said property, and for writ of possession, and further claiming title by virtue of the five-year statute of limitations, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Farwell, Texas, this the 3rd day of August, A. D. 1960.

ATTEST:
Hugh Moseley Clerk,
District Court,
Parmer County, Texas.

By Bonnie Warren Deputy.

Okla. Lane --
(Continued from page 4)

After a short business meeting and a cottage prayer, refreshments of cookies, punch and coffee were served to the following: Mr. and Mrs. Donald Watkins and family, Mr. and Mrs. Delbert Garner and family, Rev. and Mrs. Jimmy McGuire and family, Rev. and Mrs. Daniel Morin and family and Rev. and Mrs. C. W. Coffey.

Also attending were Mrs. Ludean Williams and Diane, Mr. and Mrs. Neal Stewart, Mr. and Mrs. Harold Carpenter, Mrs. Dee Brown and Mrs. Ruby White and Peggy.

Stephen Foster son of Rev. and Mrs. B. J. Foster of Capp, is visiting this week with relatives in the Oklahoma Lane community.

Mr. and Mrs. Neal Stewart and family attended a family reunion at Snyder Saturday.

The Old Timer

"Some people are more even-tempered than others... they're mad all the time."

Recreation Program Comes To End

July 27, the Pee Wee and Little Leaguers wound up the summer baseball games with two losses to the Lazbuddie teams. The Texico-Farwell Pee Wee's lost their game 25-24, and the Little Leaguers lost theirs 5-0.

According to Cecil Dykes, director of the program, the most outstanding plays were two homers hit by Rickey Hubbell in the Pee Wee league. Boys playing in the last two games were Rickey Hubbell, Warlick Dollar, Douglas Hariman, Scotty Duval, Dennis Hargrove, Tim Martin, Al Phillips, and James Chadwick. Pitchers for the league were Dennis Hargrove and Andy Duval.

Performing pitching duties for the Little Leaguers were Gary Blain and Mike Hargrove. Those players for the last two games were Jim Morton, Keith Thomas, J. B. Taylor, Randy Robertson, Bobby Chadwick, Denny Lunsford, Johnny Schell, Chuck Morton and Gregg Martin.

Dykes stated the other boys participated in the program but were not present for the final games. As many as 50 boys turned out one time.

He also stated that it was a very successful summer for baseball and he would like to thank the parents for their co-operation during the summer in bringing the boys to the games.

The program is sponsored each summer by the Texico-Farwell Lions Club.

Tribune Second In Advertising

The State Line Tribune has been awarded second place in advertising composition in a contest sponsored by the West Texas Press Association.

Competing with newspapers in towns of less than 3,000 population, The Tribune finished second to The Friona Star, another Parmer County publication. The contest was for the year 1959 when Dolph Moten was advertising manager of the Tribune.

Attending the WTPA convention in Pecos last weekend were Mr. and Mrs. W. H. Graham and Richard Hapke.

Friona Man Is Fined On Liquor Charge

Ismael Olivera, Friona, was arrested in Friona Saturday night by the Parmer County Sheriff's Department and charged with possession of alcoholic beverages for purpose of sale.

He pled guilty to the charge in Parmer County Court at Farwell Monday morning, was fined \$200 and court costs and sentenced to 10 days in jail by Judge Loyde A. Brewer.

Ole Ray Sez:

Politics is sure going to be warming up during the next few months, what with both the Democrats and Republicans trying to convince the people that their platform is the best. Yep, that's one thing you can depend on--a real hot race.

Something else you can always depend on are "hot" prices and the best of service when you trade with us.

Gerald Gober Is Lone Star Farmer

Gerald Gober, son of Mr. and Mrs. A. W. Gober, received a Lone Star Farmer's degree recently at the annual state FFA convention at Houston.

GERALD GOBER

outstanding FFA members throughout the state. Gober is the first member of the Farwell Chapter to receive the degree in four years.

Gober, along with Robert "Prof" Morton, local FFA advisor, and Dick Gerles, Farwell's delegate to the convention, were in Houston for the meeting.

A member of the Farwell Chapter for three years, Gober was recommended for the degree by his advisor. Records on all his FFA projects were checked by district and area representatives and then sent on to the state.

Gober's present FFA projects include four calves, seven pigs and a field of Hegari on the family farm. A senior at Farwell Schools, he will be president of the local FFA Chapter this year.

Texico School Bells--

fourth grade; Mrs. N. W. Peyton, fifth grade; and Mrs. B. A. Rogers, sixth grade. Mrs. Zelpha Younger is elementary principal.

Junior high and high school--Johnny Green and C. B. Stockton, social science and physical education; John Adams, driver's education and Spanish; A. D. McDonald, English and speech; Bob Teel, science; Gerald Wilkenson, junior high math and social science;

Fred Danforth, music director; Mrs. Jimmie Allman, home economics and journalism; Mrs. Fred Danforth, commercial subjects; Mrs. Buck Doran, director of instruction; and Buck Doran, superintendent.

Bus contractors are Bud Peyton, J. T. Turner, W. R. Herrington and B. J. Trower. They will also be bus drivers along with Paul Crooks, Mrs. R. E. Crooks, Taft Turner, Joan Thompson, C. C. Morgan, Mrs. Loyd Niece and Mrs. John Wall.

Custodians will be Ernest Cain and A. B. Bell. The lunchroom staff will include Mrs. Elmer Bridges, head cook; Mable Huber, Mrs. A. B. Bell, Mrs. Frank Doshier and Mrs. Nora Day.

Fashion Show--

(Continued from page 1)

Fern's will present three door prizes for a total of \$25 in gift certificates. Certificates will include a \$10 gift and two \$7.50 awards. The store will also present Miss Texico-Farwell with a congratulatory present.

Mrs. Clyde Magness will serve as commentator for the show and Miss Darlene Hromas, pianist, will play background music during the evening. Special entertainment for the show will be provided by "The Inmates," a musical group which includes Joe Hughes, Donnie Carpenter, Doug Roberts, James Usery and Jerry Utsman.

Also, Susan Blair and Chalky Morton, a couple of youngsters, will sing a number.

Citizens are reminded that the show will be well-rounded, but it will not be lengthy. All proceeds from the show will be used for community projects.

On The Line--

(Continued from page 1)

tions (which are always good for business), but it's also a good opportunity for folks to take part in an old-fashioned get-together.

I say old fashioned because that's what it is. In this day and age, you hardly ever see an entire community getting together for anything. An opportunity to meet and talk with neighbors one has never known is something that will benefit all of us.

Mrs. Marvin Beemer was resting well this week after an emergency appendectomy Saturday night at Cannon Air Force Base Hospital. She is recuperating in Ward 4 of the Bas Hospital. Mrs. Beemer is the former Gwenette Powell.
