

BY HOP, JR.

# Paul Crume, "Big D," And Lariat

"To my father, Charles E. Crume, and all the old boys with sand in their beards" reads the dedication to possibly the first book ever written with a full chapter of about 44 pages devoted to remembrances of Lariat and the country surrounding it.

Farwell is designated as a suburb by the author, Paul Crume, who grew up in Parmer County.

His dad still resides here and two of his brothers are associated with businesses here.

Paul, who for many years has written the front-page column "Big D" in The Dallas News, has given Lariat a certain degree of notoriety in his discussion of his boyhood days in this area.

The book, entitled "A Texan At Bay," includes selected columns from "Big D."

"I was born in the Arkansas Ozarks in a log cabin," Crume wrote to his publishers. "This has been my only qualification for the presidency and, so far, has been entirely overlooked. My family, which has made a habit of living close to whatever frontier was available, moved to West Texas when I was seven. Much of the country was still unsettled and I grew up in close association with horses, .22 rifles and other customary items of small boy equipment on the plains. During this time, I went along on a 1100 mile trip by covered wagon across range country where the roads were never more than wagon ruts."

"I have never had any difficulty in writing whatsoever, though people have at times complained of difficulty in reading me. I began writing when I was eight without knowing exactly what I was doing, and I have been at it steadily ever since, still not knowing exactly what I am doing."

"When I was about 11, I walked past the window of the first newspaper office I had ever seen. I never again had any thought of doing any work except newspapering. As soon as I could, I got a job at that newspaper as a printer's devil."

His job was at The State Line Tribune, with the late W. H. "Hop" Graham directing the endeavors of the budding journalist.

Crume continues, "Thus I grew up in the back shop of a country newspaper in a day when we occasionally still had an elderly gentleman-printer who could speak Latin. It is still the best place in the world for

a bookish boy to grow up."

In 1936, after graduating from the University of Texas, Crume writes that "he accidentally got a job on The Dallas News, and here I have been ever since. I have a very tolerant and understanding publisher. I do a front-page column six days a week. On most mornings the column is given over to local scenes and characters, but I have tried to produce one essayish piece each week as a change of pace. 'A Texan At Bay' is a collection of these pieces, somewhat edited.

FIFTIETH YEAR

SECTION 1

"A Texan at Bay" makes good reading for Charlie Crume, father of Paul Crume. The book, which soon will go on sale, is dedicated to the Texico-Farwell man.

Patience is not one of my virtues. I hate waiting for anything.

More and more, I think we are living in a "hurry up and wait" age. My army friends tell me that the military has a great reputation for rushing through preliminaries only to have soldiers line up and wait for the main item.

You know, up at dawn, rush through inspection, drills, and so-on, then fall in line for a long wait for chow, pay, vaccinations, or some other herd activity.

Well, life in civvies isn't much different. How about the guy who speeds and darts to and fro in traffic to get into his favorite coffee house? What does he do when he gets there? He kills a half hour waiting for something interesting to happen.

My list of favorite wait hates includes the two minutes of eternity when the blessing is postponed at the dinner table until the boys can be sent back to the bathroom for a second (probably first) going-over at the lavatory.

There you sit, your plate heaped with steaming food, your saliva glands calling for action, and you are honor-bound not to proceed without the customary formalities, the chief of which is the prayer. Perhaps the Divinity will understand why some family graces are snappy if not downright curt.

Also among the waits I despise are those that are "just a minute." You get these in all sorts of situations. There are variations on the theme.

Usually, the telephone operator says "Just a moment, please." Then she usually cuts you off and leaves you sitting there with a dead receiver against your ear. You are torn between disgust and a sense of courtesy.

You don't know whether to slam down the receiver or wait politely. The depends on the mood. Frankly, I think telephone companies would be ahead in their public relations work if they'd insist their gals say something like, "I'm sorry, sir, but I have to leave line a moment to take an emergency call" or something like that.

Even if they're really just powdering their noses, swapping gossip, or ducking out the back door for the coffee counter, it would give the poor phone user something to hold onto. Nothing is more lonesome than that hollow click after the staccato "just a moment, please" when you are cut off without rebuttal.

Little boys tell their daddys "just a minute" for a multitude of reasons. These three simple words have tremendous powers of communication. If you are observant, you can discover that they mean:

"I don't want to."

"If I stall long enough you'll do it."

Or even "You really won't make me, will you?"

"We're always having to wait for something. For red lights. 'Til you're old enough. 'Til you're wise enough. For your paycheck. And see, Right here and I'll be right back. For opportunity to knock."

Maybe that's why I'm impulsive. I have congenital resentment against waiting. Often when I do I get cold feet. If I plunge ahead I usually make out all right. If I wait and contemplate, then ka-put goes my self-confidence.

The first time I noticed this was when a boy, Twelve feet is a dizzying height above the chilly blue ripples of the swimming pool when first viewed from the high diving board. The first trip up the instep-breaking ladder will convince you that this is going to be a real hair-raising experience.

You fight off vertigo and try to calm down your shaky knee caps. On the high diving board surely everyone will see them. At the end of the marvelous timber you peer out upon what seems like an eternity of space. There go your kneecaps again.

About the time you are ready to drive yourself off the end, there is a bumping from below. You look down and a wave of relief sweeps over you. Here comes somebody else up. They want to go off.

You courteously step aside, motioning them to have at it. This wait is commonly called

(Continued on page 7.)

Farwell's lone representative at the state track meet to be held in Austin May 5 and 6 will be broad jumper Carroll Huggins. He earned the right to participate in the state event by winning the broad jump at Lubbock last weekend. He will be accompanied to the state capitol by Coach Dempsey Alexander.

## Texico School Budget Increased Over Last Year

Texico School's budget announced Tuesday at a budget hearing in Clovis will be \$213,852.00. This is an increase of \$2,034.00 over last year's budget of \$211,818.00. There have been many cuts in the school's budget. Locally the biggest cut has been in transportation and substitute teacher's salaries, supplies and services.

The reason for the increase over last year is due to the salary index schedule set up for teachers in New Mexico. The teachers are paid according to their degrees and teaching experience.

The budget was approved by state school finance director John Gott. The complete breakdown of the Texico school maintenance budget with the 1960-61 figures in parenthesis is:

Superintendent salary \$9,250 (same); ad-

ministrative travel \$400 (\$800); office supplies \$500 (\$1,000); miscellaneous \$800 (\$688); instructional salaries \$127,554 (\$121,502); substitute teachers \$500 (\$750); clerical salaries \$3,800 (same); supplies and services \$2,400 (\$3,200); faculty travel \$250 (\$500); PL 864, federal aid, \$378 (\$777.66).

Group insurance \$1,100 (same); retirement \$9,000 (same); social security \$4,700 (same); bus insurance \$450 (\$345.99); nurses salaries \$5,200 (same); nurses travel \$500 (\$600); nurses supplies \$100 (\$200); summer recreation, none (\$700); bus transportation \$34,000 (\$35,000); bus driver retirement \$500 (same); bus driver social security \$400 (same).

Janitors' salaries \$6,800 (same); supplies \$670 (\$700); utilities \$4,000 (\$4,404.01); and telephone-telegraph \$300 (same).

## Texico Thinclads Place Third At Tatum Class B Track Meet

Despite the loss of Texico's good discus thrower, the Texico thinclads won third place at the Tatum invitational track meet staged last Saturday at Tatum.

Texico's strong discus thrower, Kenneth Murdick, was struck on the right hand by a stray discus while the throwers were warming up. He suffered a dislocated thumb and was unable to throw during the event.

James Halsell won first in the shot put, tossing the shot 49-10 3-4. He tied for second in pole vault, placed third in discus and fifth with the javelin.

Leslie Winsper won first in the broad jump, placed third in the 100-yard dash and the 220-yard dash.

Dwight Turner won first in the broad jump, tied for second in pole vault and placed third in both the high and low hurdles. Gary Singleterry won the mile with his time of 5:13.0. Leon Kelly placed second in the broad jump, fifth in the 100 and 220-yard dashes. Kenneth Glaze placed fifth in the high hurdles and Willie Stover fifth in the 880-yard run.

The 440 relay team placed second, the 880 relay team third, medley relay team third and the mile relay team placed fourth to round out the record for Texico.

The boys won a total of 77 1/2 points to cap the third place slot. Tatum won second with 81 points and the champion first place winner was Fort Sumner with 112 points.

## Thirty-One On Honor Roll At Texico

Thirty-one Texico students were named to the honor roll which was released from the office of the high school principal, Paul Frederick, this week.

Members of the eighth grade class led the roll with twelve students being named to the list including Emmett Autrey, Don Baldrige, Judy Doshier, Lanny Doshier, Vivian Duncan, Linda Hadley, Gwinette Lovett, Lloyd Morris, Mike Spearman, Cynthia Spence, Sarah Walker and Kathy White.

Ranking second with six students being named was the seventh grade class. David Duncan, Linda Hudson, Terry Lovett, Teresa Luce, Gary Meler and Veda Wilson were honor students from that room.

Glendon Moss, Jeannene Campbell, Trudie Lambert, Gary Singleterry and Iwana Taylor were seniors making the honor roll, while Betty Lockhart, Vicki Lovett, Beth Peyton and Dwight Turner were named from the junior class.

Three sophomores, Georgina Lambert, Jean Morris and Linda Palmateer; and one freshman, Terry Niece, were also included on the list.

Mrs. F. E. Winegeart has opened Jim's Cafe in Texico. She formerly operated the Texico Hotel Cafe until the hotel changed ownership last week.

Jim's Cafe had been closed since December of last year. Mrs. Winegeart reports she will still specialize in home made pies and fried chicken as in the past.

The cafe will be open from 5:45 a.m. to 9 p.m.; she also stated it will remain open on Sundays.

## Dualer's Go and Whoa Opens Cafe Scheduled For Sunday

A "Go and Whoa," sponsored by the Texico-Farwell Dualer's Club and under the supervision of the New Mexico State Police, is scheduled for this Sunday, April 30, at the Texico School.

Time trials are set for 12 o'clock and eliminations are at 2 p.m.

Object of the "Go and Whoa" is to see how fast a person can drive a 1 1/2 block course without spinning or sliding his car wheels at the starting or finish lines.

Each participant will drive the course three times, and the one having the best average will be the winner. Trophies, donated by local merchants, will be presented to first, second and third place winners. A trophy will also be awarded to the person having the best appearing car.

The contest is open to anyone, and entry fee is set at \$1. Members of the Dualer's Club are not eligible for trophies.

## Street Markers To Be Ordered

Street markers are to be ordered and installed on the streets of Farwell. This project stemmed from a chamber meeting held Tuesday night in City Hall.

The project is to be accomplished through efforts of the local chamber with cooperation of the city of Farwell. A rough survey was made Wednesday to determine how many street markers will be installed.

## Insurance Agency Changes Ownership

Robert S. Shuman and Henry Haseloff, Jr., have purchased Parmer County's oldest insurance agency, the Graham-Magness Agency from Cary Joe Magness.

Shuman comes to Farwell from Vernon, Texas where he has been in the insurance business for a number of years. He will be the manager of the firm which will be known as Graham, Shuman and Haseloff Insurance Agency. Mr. Haseloff, a son-in-law of Shuman, is a well known farmer in the Oklahoma Lane community and will not be active in the business.

The change in management will become effective May 1. Mr. Magness, in announcing the sale of his business stated he plans to return to Southern Methodist University.

## Twin-City School Dates Set

Dates for commencement and baccalaureate exercises for the twin-cities' schools have been set, with Farwell seniors graduating on May 19, and Texico's graduation on May 24.

Baccalaureate services at Farwell will be on May 7 at 8 p.m. in the school auditorium, with Rev. Carrol Herring as guest speaker. Rev. M. V. Summers will be guest speaker at the commencement. The seniors will take their annual senior trip between the date for baccalaureate and commencement.

Texico's baccalaureate will be on Sunday May 21, with commencement on the 24th. School will close on May 25 after students return for their final grades.

Junior high commencement at Farwell is set for May 18 in the school auditorium, according to Cecil Dykes, junior high principal.

## Investigate Break-In

Parmer County sheriff's department is investigating a burglary that took place at Watts Service Station No. 2, Sunday night. Apparently the only thing taken was a 22 pistol and holster according to the station operator, Wesley Rust, owner of the gun.

In the spring a young man likes to get out in the open and soak up the sunshine and fresh air. . . but there are times when he must do things like Randy Crook, son of Mr. and Mrs. H. R. Crook (photo at left). . . when he could be doing things like the children in the photo at right. Clifford Thomas pulls his little sister Linda and a playmate Kent Blain, son of Mr. and Mrs. Calvin Blain. Clifford and Linda are the children of Mrs. Jewel Thomas.

Another new business building going up in Farwell is this cement block and stone structure located between Meeks Service Station and Holiday Store. The building is being built by Johnny McDonald and will house his real estate office and other offices.

**Ford To Complete Military Training**

FORT BLISS, TEX. (AP)—Army Pvt. Doyle L. Ford, whose parents, Mr. and Mrs. J. T. Ford, live on Route 1, Farwell, Tex., is receiving the final phase of the six months active duty military training under the Reserve Forces Act program at The Air Defense School, Fort Bliss, Tex. The training is scheduled to be concluded May 4.

During this final phase, Ford is being trained in the duties of a missile crewman. The Air Defense School, the

largest military school in the missile systems employed in the air defense of the U. S., by our armies overseas and by our allies of the NATO and SEATO nations.

Ford is a 1955 graduate of Farwell High School.

Mr. and Mrs. E. W. McGuire visited in Dumas Sunday with A. L. Tandy, a former resident of Farwell, who is now living with his daughter and son-in-law, Mr. and Mrs. Ollie Smith, after a recent illness.

**You And Your Chamber Of Commerce**

I went to the Chamber of Commerce meeting held in City Hall Tuesday night, and it was really a disappointment to find that there were only five men interested in the Chamber of Commerce and what it is trying to do for the community.

There are many times when the chamber is the only spokesman for a town, and if the men who head up the chamber do not know what you desire are, they can only do what they think is best, when a situation comes up. The local chamber has a good president, Hurshel Harding, who is really working to get some projects started that will be beneficial to everyone who lives in Farwell. Committees have been appointed, but they haven't functioned, a membership drive was started, some who were members last year went out on the drive for new members then didn't even pay their own dues.

Who is at fault when our chamber does not function properly or fails in many of the projects it starts? Yes dear reader it is you and I who would rather sit back, take it easy and let "George" do it while we watch our favorite tv program. Then when "George" fails to get what we want done, we just don't join the chamber next time we are asked to do so, "because they are not going to do anything anyway, so why put out good money to not get anything done."

To put it very bluntly dear reader, you should not have to be asked to join the chamber, you should go to the chamber and ask to join, let them know what you would like to see accomplished in our town, then serve on a committee and help get it done. That is the only way we will ever see many needed things accomplished in our town.

Projects the chamber desires to undertake and work on this year include purchase of street signs to be installed at intersections, and signs advertising Farwell on the US Highways leading into town, a paved crossover from Highway 84-70 to Highway 60, support of the city paving program, including the extension of Highway 84-70 as a 4-lane to 7th Street. The only way that these and other projects will be completed is for you and me to do our part, whether our part is large or small.

**Life Is Worth Your Living**

By Robert O. Tomlinson

Your life may not be worth your living, but you may live the life that is WORTH your living. This is the greatest thought in the gospel story of God sending His son to earth. Not to condemn man, for his actions do that, but to save man. He came to make the sick man well and to make him whole. That is to make man's life full, whole, and all that life should be to be lived at its best. Jesus was misunderstood by the religious people of His day because He talked about the abundant, full, rich life, and their religious life was far from that. They attacked Him because He seemed to be doing away with their religion. He was like a surgeon doing away with the diseased organs of the bodies so the people could be well, free of pain, and able to go on with life's work. Jesus wanted to make men whole and wanted the WHOLE OF LIFE to be theirs. Life without Jesus never was whole, and it never can be. There is a vital part missing without which it just won't work, and that part is Christ. He comes into life that has the important thing missing and fills it full, making that life whole. Then there is a great deep peace that the world can never give nor take away, and life becomes worth living.

**News From LAZBUDDIE**

BY MRS. C. A. WATSON

Linda Gleason, president of the senior girls 4-H club at Lazbuddie, presided when the club met Friday, April 21. Roll was called by Charolett Seaton. A report was given on the last council meeting.

During the business session members voted to have meetings during the summer at various members' homes. Mrs. Joe Jesko suggested that the girls have a covered coat hanger sale as a money making project. Further plans on the project will be made at the next meeting. Demonstration for the afternoon was given by Kay Hassell and Jeanet Slayton.

Larry Treider, son of Mr. and Mrs. Jewell Treider and a graduate of Lazbuddie school, recently had a record released. "I'm Laughing at You" and "Don't Stop" are the songs. Birthdays for this week go to Alma Monk, April 24; Patsy Chitwood and Mary Thomas, April 26; Ray Herrera and John Agee, April 27; and Wanda Farley and Mrs. Gene Fox, April 28.

Mrs. Max Crim honored her husband with a birthday dinner Sunday in their home. Attending were Mr. and Mrs. Arthur Ritchie and Dee Ann from Dalhart, Irene Ritchie from Amarillo, Mr. and Mrs. Fred Curtis and boys from Farwell, Mr. and Mrs. J. W. Crim and Mr. and Mrs. Buck Crim.

Mr. and Mrs. J. W. Crim are visiting this week in Bingham, New Mexico, with the Earl Monroes.

Mr. and Mrs. Joe Prather went to Dallas last weekend to return her mother home. The Prathers also visited in Longview, Quanah and other towns. Mrs. Annie Fowler, an aunt of Mrs. Prather's from Longview returned with them for a visit.

Mrs. L. R. Hall was in Amarillo Friday for a check up after having foot surgery recently.

Mr. and Mrs. Donald Mc-

Donald and children, Mr. and Mrs. Dwain Menefee and children and Mr. and Mrs. Preston Cargile were visitors in the Dan Cargile home Sunday.

Mr. and Mrs. John Littlefield spent two days fishing at Conchas last week.

W. H., J. W. and John Gammon attended funeral services for Manuel Rannels in Honeygrove last Wednesday.

Mr. and Mrs. John Larue and family from Clovis visited over the weekend with the Don Schumann family.

Members of the Lazbuddie Land Judging team won 2nd place in the SCS contest recently. On the team are Tom Ketchum, Doug Crisswell, Dale Vise and Jerry Engleking.

Mrs. Jack Black's seventh grade class had a skating party at the rink in Farwell Friday evening. The group had a Mexican food supper after the party.

Mrs. L. M. Hardage reported Monday that her husband's mother who suffered a stroke several months ago is in serious condition.

Mrs. Billy Mitchell, Carrie Withroe, Tommie Curtis, Dee Johnson and Beverley Houston attended the Bible clinic at the First Baptist Church in Springlake Friday.

Rev. Bill Curry is in Andrews holding a revival meeting at the First Baptist Church.

Mrs. Chester Embury had surgery in Muleshoe Friday. Glen Annears attended fun-

eral services for his father, Oscar E. Annears in Christopher, Illinois, Saturday. Mr. Annears who was 78, passed away Wednesday after a long illness. Services were conducted in the Church of Christ.

Mr. and Mrs. Annears returned only last week from his father's bed side where they had visited several days.

The Lazbuddie P-TA will meet at their regular time Monday evening, May 1. New officers will be elected and installed. All parents are asked to attend.

Mrs. Velton Morris, Eddie, Myra and Glen attended funeral services for her uncle, Benton Burton, in Maude, Oklahoma Saturday. Accompanying them were Mrs. Morris' parents, the E. G. Roberts from Portales.

Members of the Lutheran Women's Missionary League will meet on May 4 for a regular meeting. A skit, "Women Of Faith" will be presented by some of the ladies. Dress rehearsal for the program is scheduled for May 1 at 9:30 a.m.

Sermon theme for April 30 is "Music and Song in the Church Service."

**School Gets New Stage Curtain**

A new auditorium stage curtain was installed at Farwell Friday, after recent action by the school board to make the purchase.

A shield and the letters F.H.S. will be added at the top of the curtain at a later date according to W.M. Roberts, school superintendent. The curtain is of blue velvet with white fringe braid.

Visiting over the weekend in the Leroy Faville home were Mr. and Mrs. Buddy Stephens and Shawn of Canyon.

Mr. and Mrs. Elmer Langford were in Nebraska over the weekend on business.

Joan Potts visited in Amarillo over the weekend with her sister and her husband, Mr. and Mrs. Larry Pike.

Get in on Chevy's brand of savings at your Chevy dealer's

**TRUCK ROUNDUP**

Western star Roy Rogers spreads the good word for your local dealer! "Right now he's making it easier than ever to own America's easiest riding truck. That's Chevy - the truck that saves you plenty with its special brand of Independent Front Suspension."

Just pick the model that fits your job and you can be sure you're putting your truck dollars where they'll do the most good. You'll get a super-efficient power to capacity ratio, a truck that's Sturdi-Bilt clear through, a king-size cab to keep your driver happy. And savings that just naturally go along with Chevrolet's I.F.S. ride.

You save on maintenance costs. I.F.S. lengthens truck life and protects cargoes by soaking up as much as 78% of all objectionable road shock and vibration. Your truck keeps working for extra thousands of miles! How in the world can you go wrong! Especially now—during truck roundup time!

**CHEVROLET I.F.S. TRUCKS**

Chevy's famous Thriftmaster 6 does the saving in this Fleetside model. It's the most highly respected truck 6 ever put under a hood. It's best known for economy and dependability—for pulling more loads over the years than any other truck engine. The 135-horsepower 235-cu.-in. Thriftmaster's standard in all Chevy pickups.

# Retirement Tea Honors Mrs. Harry Whitley

Mrs. Harry Whitley, long time teacher in this area, was honored Monday afternoon with a retirement tea at the Highlands School in Clovis.

Two students from one of the honoree's first classes were among the more than 300 students, former students, parents and faculty members to attend the tea which honored Mrs. Whitley for her years of devotion to the teaching profession.

Former students of the woman presented her with a silver tray engraved with the words "with deepest love and gratitude from your students." She was also presented with an orchid corsage for the occasion by Jack Williams, whom she taught under at Farwell. Mrs. Whitley received many other gifts during the tea which was held from 2 to 5 p.m.

Hostesses for the social were room mothers who had worked with Mrs. Whitley through the years.

Centering the children's refreshment table was a bouquet of spring flowers set around a slate, an apple, pencils and other school supplies. The table was covered with a white linen cloth and punch was served from a crystal punch bowl.

The adult refreshment table was centered with a huge bouquet of yellow gladioli amid which had been placed on arch bearing the words "40 years" to represent the 40 years Mrs. Whitley has been a teacher. Refreshments of mints, nuts and punch were served to guests from the linen covered table by mothers who had worked with Mrs. Whitley through the years.

The state had been decorated for the occasion, with a replica of an old fashioned school room set up on one side, and a modern classroom on the other.

Mrs. Whitley who is also a long time Delta Kappa Gamma member, taught in the Farwell school system for many years before she began teaching at Highlands School in Clovis 9 years ago. She will retire in May after 40 years as a teacher.

Mrs. Whitley who is also a long time Delta Kappa Gamma member, taught in the Farwell school system for many years before she began teaching at Highlands School in Clovis 9 years ago. She will retire in May after 40 years as a teacher.

Members attending the meeting included Mesdames Joe Bufford, Alvis Clark, Maurice Clark, Joe Heinz, Eule Hart, Frank Hemke, Elmer Langford, Mason Neely, Eric Pierce, John Range, Pearl Singletery, Leroy Winkles and Donald Clark.

## Mrs. Juan Eskew Hosts PH Club

A covered dish luncheon featuring oven fried chicken was served Thursday when members of the Pleasant Hill Home Extension club met in the home of Mrs. Juan Eskew for a regular meeting.

The demonstration on covering shoes with fabric was presented by Mesdames Frank Hemke, John Range and Jim Hemke.

Visitors for the all-day affair were Mrs. Jim Hemke of Bovina, and Mrs. Orrie Guthrie and daughter, Dianne.

Members attending the meeting included Mesdames Joe Bufford, Alvis Clark, Maurice Clark, Joe Heinz, Eule Hart, Frank Hemke, Elmer Langford, Mason Neely, Eric Pierce, John Range, Pearl Singletery, Leroy Winkles and Donald Clark.

Mrs. Elmer Langford will be hostess when the club meets on May 4.

# The Women's Page

ANITA HENSON, Society Editor---Phone 481-3681

Mr. and Mrs. Jerry Bowers are residing at 400 South Avenue G, Portales, following their recent marriage. Mrs. Bowers is the former Miss Nancy Horner, daughter of Mr. and Mrs. Frank Horner, 117 W. Yucca Avenue, Clovis. Her husband, the son of Mr. and Mrs. Anson Bowers, also of Clovis, is a graduate of Texico High School with the class of '59, and is a student at Eastern New Mexico University.

## Mrs. Jerry Bowers Feted With Post-Nuptial Shower

Mrs. Jerry Bowers, the former Nancy Horner, was feted with a post-nuptial shower in the basement of the Texico First Baptist Church Thursday evening.

The honoree's chosen colors of pastel yellow and orchid were used throughout in decorations, with a bouquet of orchid hydrangeas centering the serving table which was covered with a white lace cloth over yellow. The gift table was also covered with white lace over yellow. Bouquets of spring flowers with predominating colors of orchid and yellow were used throughout the room.

Refreshments of individual squares of white cake iced in yellow, orchid punch and mints were served from the crystal and silver appointed refreshment table by Mesdames John Hadley and R. L. Day.

Carol White played soft music during the evening, and accompanied her sisters, Kathy and Susan, as they sang "Beautiful Dreamer."

Hostesses for the event, Mesdames Buddy Pearce, B.A. Kelley, Allie Burris, John Hadley, R.L. Day, Glenn Singletery, Jim Moss and Avis Patterson, presented the honoree with an ironing board.

Mrs. Bowers was assisted in opening the gifts by her mother, Mrs. Frank Horner, and by her husband's mother, Mrs. Anson Bowers.

Those signing the guest register included Mesdames Bernard McGregor, Ab Cleaman, Raymond Hadley, Jerry Henson, Murray White, W.F. Martin, Orvel Frances, Ysleta Kittrell, Orvel Brantley, John Hadley, Jim Moss, Allie Burris, R.L. Day, Avis Patterson, B.A. Kelley and Misses Jean Hadley, Carol White, Kathy White and Susan White.

Mrs. Joe Helton and Mrs. Pike Jordan presented reports on the ESA state convention Monday evening when the group met in the home of Mrs. W. H. Graham.

The local chapter was awarded second place for their philanthropic work, which includes civic and welfare projects. Mrs. Helton and Mrs. Jordan attended the convention in El Paso over the weekend. Their husbands accompanied them.

Members also decided to book showings of a film on cystic fibrosis with other civic organizations in Texico-Farwell, in conjunction with their work to aid in research on this disease.

Mrs. Mark Liethen and Wilma Liner were in charge of the program and a tape recording of a lecture on communism was played. Members heard statistics on education and other phases of development in Russia.

Cookies and punch or coffee were served to the members. Only one meeting is planned in May, to climax the year's work.

## "Space Age" Motif For Junior-Senior Banquet

Members of the Texico junior class used a "space age" motif for decorations when they feted the senior class at the annual junior-senior banquet held Friday evening at Hotel Clovis.

Spring flowers set around missiles and satellites were used for table decorations, and nut cups were in the shape of flying saucers. The programs also followed the motif with various items on the agenda listed in "space talk."

Guest speaker for the occasion was Bill Smith, New Mexico representative for the Star Engraving Company, who makes his home in Albuquerque. He used "space selling" as a theme for his oration, and pointed out to the students the need for never accepting defeat.

Smith listed the characteristics of a good salesman as "reliability, honesty, sincerity, ability, personal appearance and personal conduct" and stated that the key to success is getting with yourself, with others and with your job.

In concluding his talk, Smith added "the measure of how well we serve ourselves is based on how well we serve the public."

Others on the program were Judy Lovett, Larry Richardson, James Halsell, Beverly Cassidy, Freddie Taylor and Ronald Watts.

On the menu for the evening was fruit cocktail, tossed green salad, English peas, candied yams, baked ham, hot rolls, butter, peach cobbler, tea, coffee and milk.

Following the program the head table centerpiece was presented to Mrs. B.A. Roters, teacher of the year at Texico in 1960. Another bouquet was sent to Mrs. B.O. Faville, and three students who helped with decorations were given the

other bouquets. John Adams was in charge of arrangements for the banquet which was attended by more than 80 students and faculty members. He was assisted by Kenneth Chappell, Ronald Watts and Amie Chandler.

## Daughter Born To Bufford Watsons

Mr. and Mrs. Bufford Watson of 3307 East Baylor, Lubbock, welcomed the birth of a daughter in the Methodist Hospital in Lubbock Saturday morning. The little girl, their first child, weighed 8 pounds 10 1/2 ounces at birth. Mrs. Watson is the former Darlene Day.

Grandparents are Mr. and Mrs. R. L. Day of Texico and Mr. and Mrs. T. W. Watson of Muleshoe.

## Handwork Done At Variety Club Meet

Handwork of smocking, cross stitching, and embroidery was done Wednesday afternoon, when members of the Variety Club met in the home of Mrs. Bessie Caldwell in Bovina.

Each member brought her own work for the afternoon of visiting and handwork.

Cheese sandwiches, punch and cookies were served to the women by the hostess. Attending were Mesdames Pearl Grissom and Lola Jean, C.C. Christian, Nelson Smith, Ina West, George Lindop, Ed McGuire, G.T. Watkins and Bessie Caldwell.

May 17 is the date for the club's next meeting which will be in the home of Mrs. C.C. Christian in Farwell.

Mr. and Mrs. M. F. Sprowls of Farwell are announcing the engagement and approaching marriage of their daughter, Patsy, to Jerry Dee Owen, son of Mr. and Mrs. Dee Owen also of Farwell. Vows will be read June 4th at 3 p.m. in the Farwell First Baptist Church. Friends and relatives of the couple are invited.

## Delegates Give Convention Report

Mrs. Joe Helton and Mrs. Pike Jordan presented reports on the ESA state convention Monday evening when the group met in the home of Mrs. W. H. Graham.

The local chapter was awarded second place for their philanthropic work, which includes civic and welfare projects. Mrs. Helton and Mrs. Jordan attended the convention in El Paso over the weekend. Their husbands accompanied them.

Members also decided to book showings of a film on cystic fibrosis with other civic organizations in Texico-Farwell, in conjunction with their work to aid in research on this disease.

Mrs. Mark Liethen and Wilma Liner were in charge of the program and a tape recording of a lecture on communism was played. Members heard statistics on education and other phases of development in Russia.

Cookies and punch or coffee were served to the members. Only one meeting is planned in May, to climax the year's work.

## Homemakers See "Freezer Meal" Demonstration

"Preparing Freezer Meals" was the topic of a demonstration given by Mrs. Lillie Daughtrey Tuesday when women of the Texico Modern Homemakers club met in the home of Mrs. J. E. King for an all-day meeting.

For the afternoon program the women made corsages which they plan to sell as a money making project.

Mrs. King served a turkey dinner with all the trimmings at noon to Mesdames Ernest Woods, Paul Skaggs, Melvin Burns, Marshal Gates, Elmer Teel, Morgan Billington, Bill Dudley, Preston Martin, W. L. Martin, Leroy Williams, and Mrs. Daughtrey.

# THE HIGH PLAINS FARM AND HOME

## Questions And Answers On New Feed Grains Bill

Following are some questions and answers on the emergency feed grains bill. The questions were prepared and released by Prentice Mills of the Farmer County ASC office:

Q: Is a producer of Barley, Oats or Rye under the Feed Grain Program eligible for price support?

A: If he produces corn or sorghum on the farm in 1961 he must be in compliance to be eligible for price support on barley, oats or rye.

Q: If a man has two farms, corn or grain sorghum on one and none on the other but has oats and barley on the second farm, and does not participate with the Feed Grain Program, is he eligible for oats and barley loans on the second farm?

A: Yes, provided he does not exceed the feed grain base on any other farm in which he has an interest in the corn or grain sorghum crop.

Q: What happens if one owner in a multiple ownership farm refuses to sign the application?

A: This will not result in the others not receiving their share, as long as they are not taking his interest.

Q: How do we check the designated conserving acreage of each farmer?

A: We are going to designate the acreage at the time he signs up for the program. He will have to identify and qualify the designated acreage at performance time.

Q: If the farm is sold, who is responsible?

A: The man to whom the advance is made promised to refund the payment if the farm is not in compliance with the provisions of the program.

Q: What is the classification of grain sorghum used for silage?

A: The same as if the grain sorghum was used for grain.

Q: If a tenant operates two separate tracts owned by "A" and "B," landlord "A" makes the 20% diversion, on landlord "B's" Tract the full 20% diversion is not made, what effect does this have on the eligibility of the tenant?

A: Assuming that "A's" and "B's" tracts are combined as ONE farm, the whole farm is ineligible.

Q: Could these tracts be separated into two farms?

A: No, the farm constitution stands.

Q: To what extent will corrections be permitted on data after farmer has turned in his 532?

A: If upon appeal, the committee determines that the original data are in error, it

may be corrected.

Q: Can new planted orchards be considered a conservation use on diverted acreage?

A: Yes, if land is devoted to approved cover acceptable to the county committee.

Q: Will assignments of payments be permitted?

A: No.

Q: Will crop liens be recognized before making payments?

A: No.

Q: Should certificates be mailed to operators?

A: They may be; it is preferable to deliver in person if this is practicable.

Q: Will the individual farm yields be determined and will farmers be notified of yields before sign-up?

A: The yield will not be included on the official notice. The procedure does provide that the yield will be made available when the application is signed.

Q: What acreages will be checked for performance?

A: The corn and grain sorghum acreages and the diversion acreage will be measured.

Q: Will there be different productivity indexes on a farm where part of the farm is irrigated and part not irrigated?

A: Yes, the procedure so provide.

Q: How long must the land have been under the control of the applicant to qualify?

A: No limitation except that he have control of it in 1961.

Q: To what extent will multiple compliance be required?

A: To qualify for a payment or price support on one farm a producer must certify that the acreage of corn and grain sorghums on any other farm in which he has an interest in the production of corn and grain sorghums is not in excess of the respective base acreage.

Q: Must a producer who has no corn and grain sorghum base and grows only rye, oats or barley in 1961 make an adjustment to get price support?

A: No.

Q: How do you handle the payment problem whose landlord does not qualify because of non-compliance on other farms in which he has an interest?

A: The payment which would have gone to the landlord will be withheld, but the tenant may receive his payment and be eligible for price support on his share of the crop.

Q: If a producer elects to divert more than the minimum of 20% must the extra cut be a full

20%.

A: No.

Q: What is the farm quantity limitation on the corn and grain sorghum support under this program?

A: The quantity limitation for the complying farm will be determined by multiplying the 1961 performance acreage for corn or grain sorghums by the normal yield established for the farms.

Q: Will 1961 planting be taken into consideration in setting bases under future programs?

A: The Department will strongly recommend that non-cooperators will not benefit from staying out of the 1961 program.

Q: Will a producer be permitted to destroy excess acres of corn or grain sorghum?

A: Yes, but he must do so within the time permitted and pay for the second performance check.

Q: If a producer is in compliance on his diversion from corn and grain sorghum but is short on his soil conserving total because of overplanting of crops other than corn and sorghum may he adjust to meet the conserving acreage requirements?

A: Yes, but he must be able to meet the conserving acreage requirements in his county and pay for a second performance check.

Q: What if a producer wants to cut more than 40% of his base?

A: Payment is possible for the diversion of an acreage in excess of 40% only on a farm with a base of less than 100 acres.

Q: If a producer has 5,000 bushels in his storage structure but is eligible for support only on 4,000 bushels, will he be allowed a partial release so that he may feed the excess above 4,000 bushels?

A: Yes - as under existing procedures.

Q: Will there be a sign-up deadline?

A: Yes, as established by the State Committee, May 31.

Q: What is the maximum acreage that may be diverted from a base of less than 100 acres?

A: If base is 25 acres or less he may divert all of it. If the base is between 25 and 100 he may divert 20 acres plus 20% of base.

Q: Does popcorn qualify for inclusion in the corn-sorghum base?

A: No.

Q: On farms with both corn and grain sorghum in the base, will farmer be permitted to make a choice between the two in adjusting his acreage?

A: Yes, all that is required is that he make the minimum reduction for his farm. Individual bases will be established for each crop for purposes of computing payments. Payment will be made on the crop actually diverted.

Q: May diverted acres be pastured this spring?

A: Pasturing is permitted on diverted acres until the application closing date set by State Committee, May 31, but condition of cover must meet program requirements thereafter.

Q: What are the compliance requirements to get supports on oilseed crops?

### In Washington On Farm Bill

W. L. "Preach" Edelson of Friona represented Plains Cotton Growers at a meeting in Washington last week. The organization endorsed--along with the Grain Sorghum Producers Association--the Agricultural Act of 1961.

This bill was introduced this week by Sen. Allen Ellender and Rep. Harold Cooley. It is "the administration's" farm program legislation.

The essentials of the bill provide:

Commodity-by-commodity approach to farm problems;

Direct farmer participation in program development; and

A referendum choice by producers.

A: Compliance with feed grain program is not condition of eligibility for price support on soybeans or other oilseed crops. However, eligibility requirements have been established for price support on soybeans in 1961.

Q: How will the compliance requirements apply to the four crops of safflower, sunflower, castor beans and sesame?

A: May be planted on diverted acres but the producer foregoes diversion payment on the acreage so used.

Q: Can 1962 wheat be planted on the diverted acres in the fall of 1961?

A: Yes - if conservation use requirements are met.

Q: Must diverted acreage be devoted to a single approved conservation use throughout the entire 1961 cropping season?

A: More than one approved conservation use may be used on the same acreage. For example, a green manure crop may be turned under in the spring of 1961 and followed by another approved conservation use such as summer or fall seeded cover. Also, land on which it is impracticable to establish cover before the fall of 1961 may be protected by volunteer cover in the spring and summer of 1961.

Q: Under what conditions may land under CR contracts be eligible?

A: Land still under CR contract is not eligible.

Q: What is the deadline for multiple signatures on agreement?

A: Operator must have signed before deadline and landlord or landlords must have signed not later than 15 days after closing date, unless request for an extension of time is granted by the county committee.

Q: What is status of sweet sorghums?

A: Same as any other crop not included under this program.

Q: Does division of crop eligibility for price support have to be same as division of payment for diverted acres?

A: Generally, yes.

Q: How will small acreages of corn for roasting ears be treated?

A: Where a few rows of corn are grown in a home garden solely for home consumption, it will not be necessary to consider this corn planting in determining compliance with the farm feed grain permitted acreage. This is not true, however, in those instances where corn is grown on small acreages for marketing or feeding.

Q: May small grain fall-seeded on diverted acres for 1962 harvest be grazed in 1961?

A: Normal Conserving Acreage - Small grains seeded alone and harvested for grain, hay or silage will not qualify as normal conserving acreage. An acreage of small grain seeded as a nurse crop with a grass or legume and cut green for hay by a date established for the area by the state committee may be considered as normal conserving acreage.

Q: May small grain fall-seeded on diverted acres for 1962 harvest be grazed in 1961?

M. T. "Mose" Glascock is shown here planting cotton on his place just south of Farwell last Friday. He and several other area farmers were scheduled to start planting Thursday, but due to high winds postponed planting until the next day.

## Gas Users Elect Directors May 5

The new Farmer County Irrigation Gas Users Association will elect a board of directors by mail, and ballots have been sent out over the county. Ballots must be returned by May 5 according to Bruce Parr, president of the group.

Nominees include: Precinct No. 1--Hap Fairchild and Ellis Tatum.

Precinct No. 2--M. H. Carlson and Jim Ware.

Precinct No. 3--Leon

Grissom and Vernon Symcox.

Precinct No. 4--Fred Burch and Artie Beavers.

One man from each precinct will be elected to the board. Write-ins will be accepted. Only persons who pay association dues will be eligible to vote.

Dues are set at \$2 per irrigation well per year.

The purpose of the organization is "to obtain fuel for irrigation at the lowest possible price," says Parr.

# HD Agent's Notes

BY MISS ETTIE MUSIL

Have you checked your rose bushes lately? Not just to see how they are becoming bushy with dense foliage, but checking closer than the over-all appearance. If you haven't you may have trouble. Yes, the rose bushes are forming buds that would like to bloom out within a few weeks.

Now check the rose buds and the tender new leaves. I checked the rose bushes of Mrs. C. C. Christian of Farwell and found that her roses were heavily infested with aphids. This tiny green insect sucks the tender leaves and buds of the rose and other plants. If you have aphids or thrips on your rose bush you will need to spray or dust the whole bush if you want it to live and bloom.

Use a spray of 2 T. of 4% malathion or lindane to each gallon of water. Spray early in the day so the foliage has time to dry before night. Wet leaves at night attract the rose black spot that is a very common disease of the rose.

Have you been bothered with flies around the arborvitae shrub? Many people think this is common or characteristic of the arborvitae. Flies are attracted to this shrub because they wish to feed on the honeydew or sticky deposit left by the aphid insect. To get rid of the flies spray the shrub with the same malathion or lindane spray that I mentioned above.

Aphids do vary in colors so don't look for a green insect only. They may be yellow, bluish green reddish brown and even black. Thrips have very small slender bodies and have fringed wings. They vary from yellow to dark brown or nearly black. Thrips cause tops of leaves to wither, curl up and die. Buds of most flowers will not open normally if they have been damaged by thrips.

Hope you check your roses and other plants in time before too much damage is done. If you need more help to control other insects, do let us know.

When sorghum plants show nitrogen deficiency but have a retarded rate of growth and slow maturity, the trouble is usually phosphorus deficiency. The plants are spindling and dark green in color. The leaves and stems may become purplish in color.

Nitrogen deficiency symptoms in cotton are characterized by relatively little growth and yellowish-green color of the foliage. The older leaves are the most severely affected. Then dry up and are shed prematurely.

The most outstanding deficiency symptoms for phosphorus in cotton is a dark green color of the foliage and a generally dwarfed type of plant.

and we shall be happy to send you a leaflet "Controlling Insects on Ornamental Plants." April 29-May 6 is National Home Demonstration Club Week. "Today's Home Builds Tomorrow's World" is the theme used by the 36,000 Texas homemakers and more than eight and a half million homemakers throughout the nation. We would like to salute the 130 members of the eight home demonstration clubs in Parmer County.

I understand all of the clubs have planned a special day Tuesday, May 2 in observance of the National celebration. "Homemaker's Talent in Revue" will be held in the Oklahoma Lane Community Center at 2:30. Exhibits of shoes, hats, quilts, pillows, dresses, and special projects will be on display earlier while refreshments are served.

At 2:30 a style show will be the highlight of the afternoon. Many club members will model dresses, shoes, or hats they have made. Several children will model garments made by their mothers, grandmothers, or friends who are club members. Wouldn't you like to see this Homemaker's Talent in Revue? Come on out.

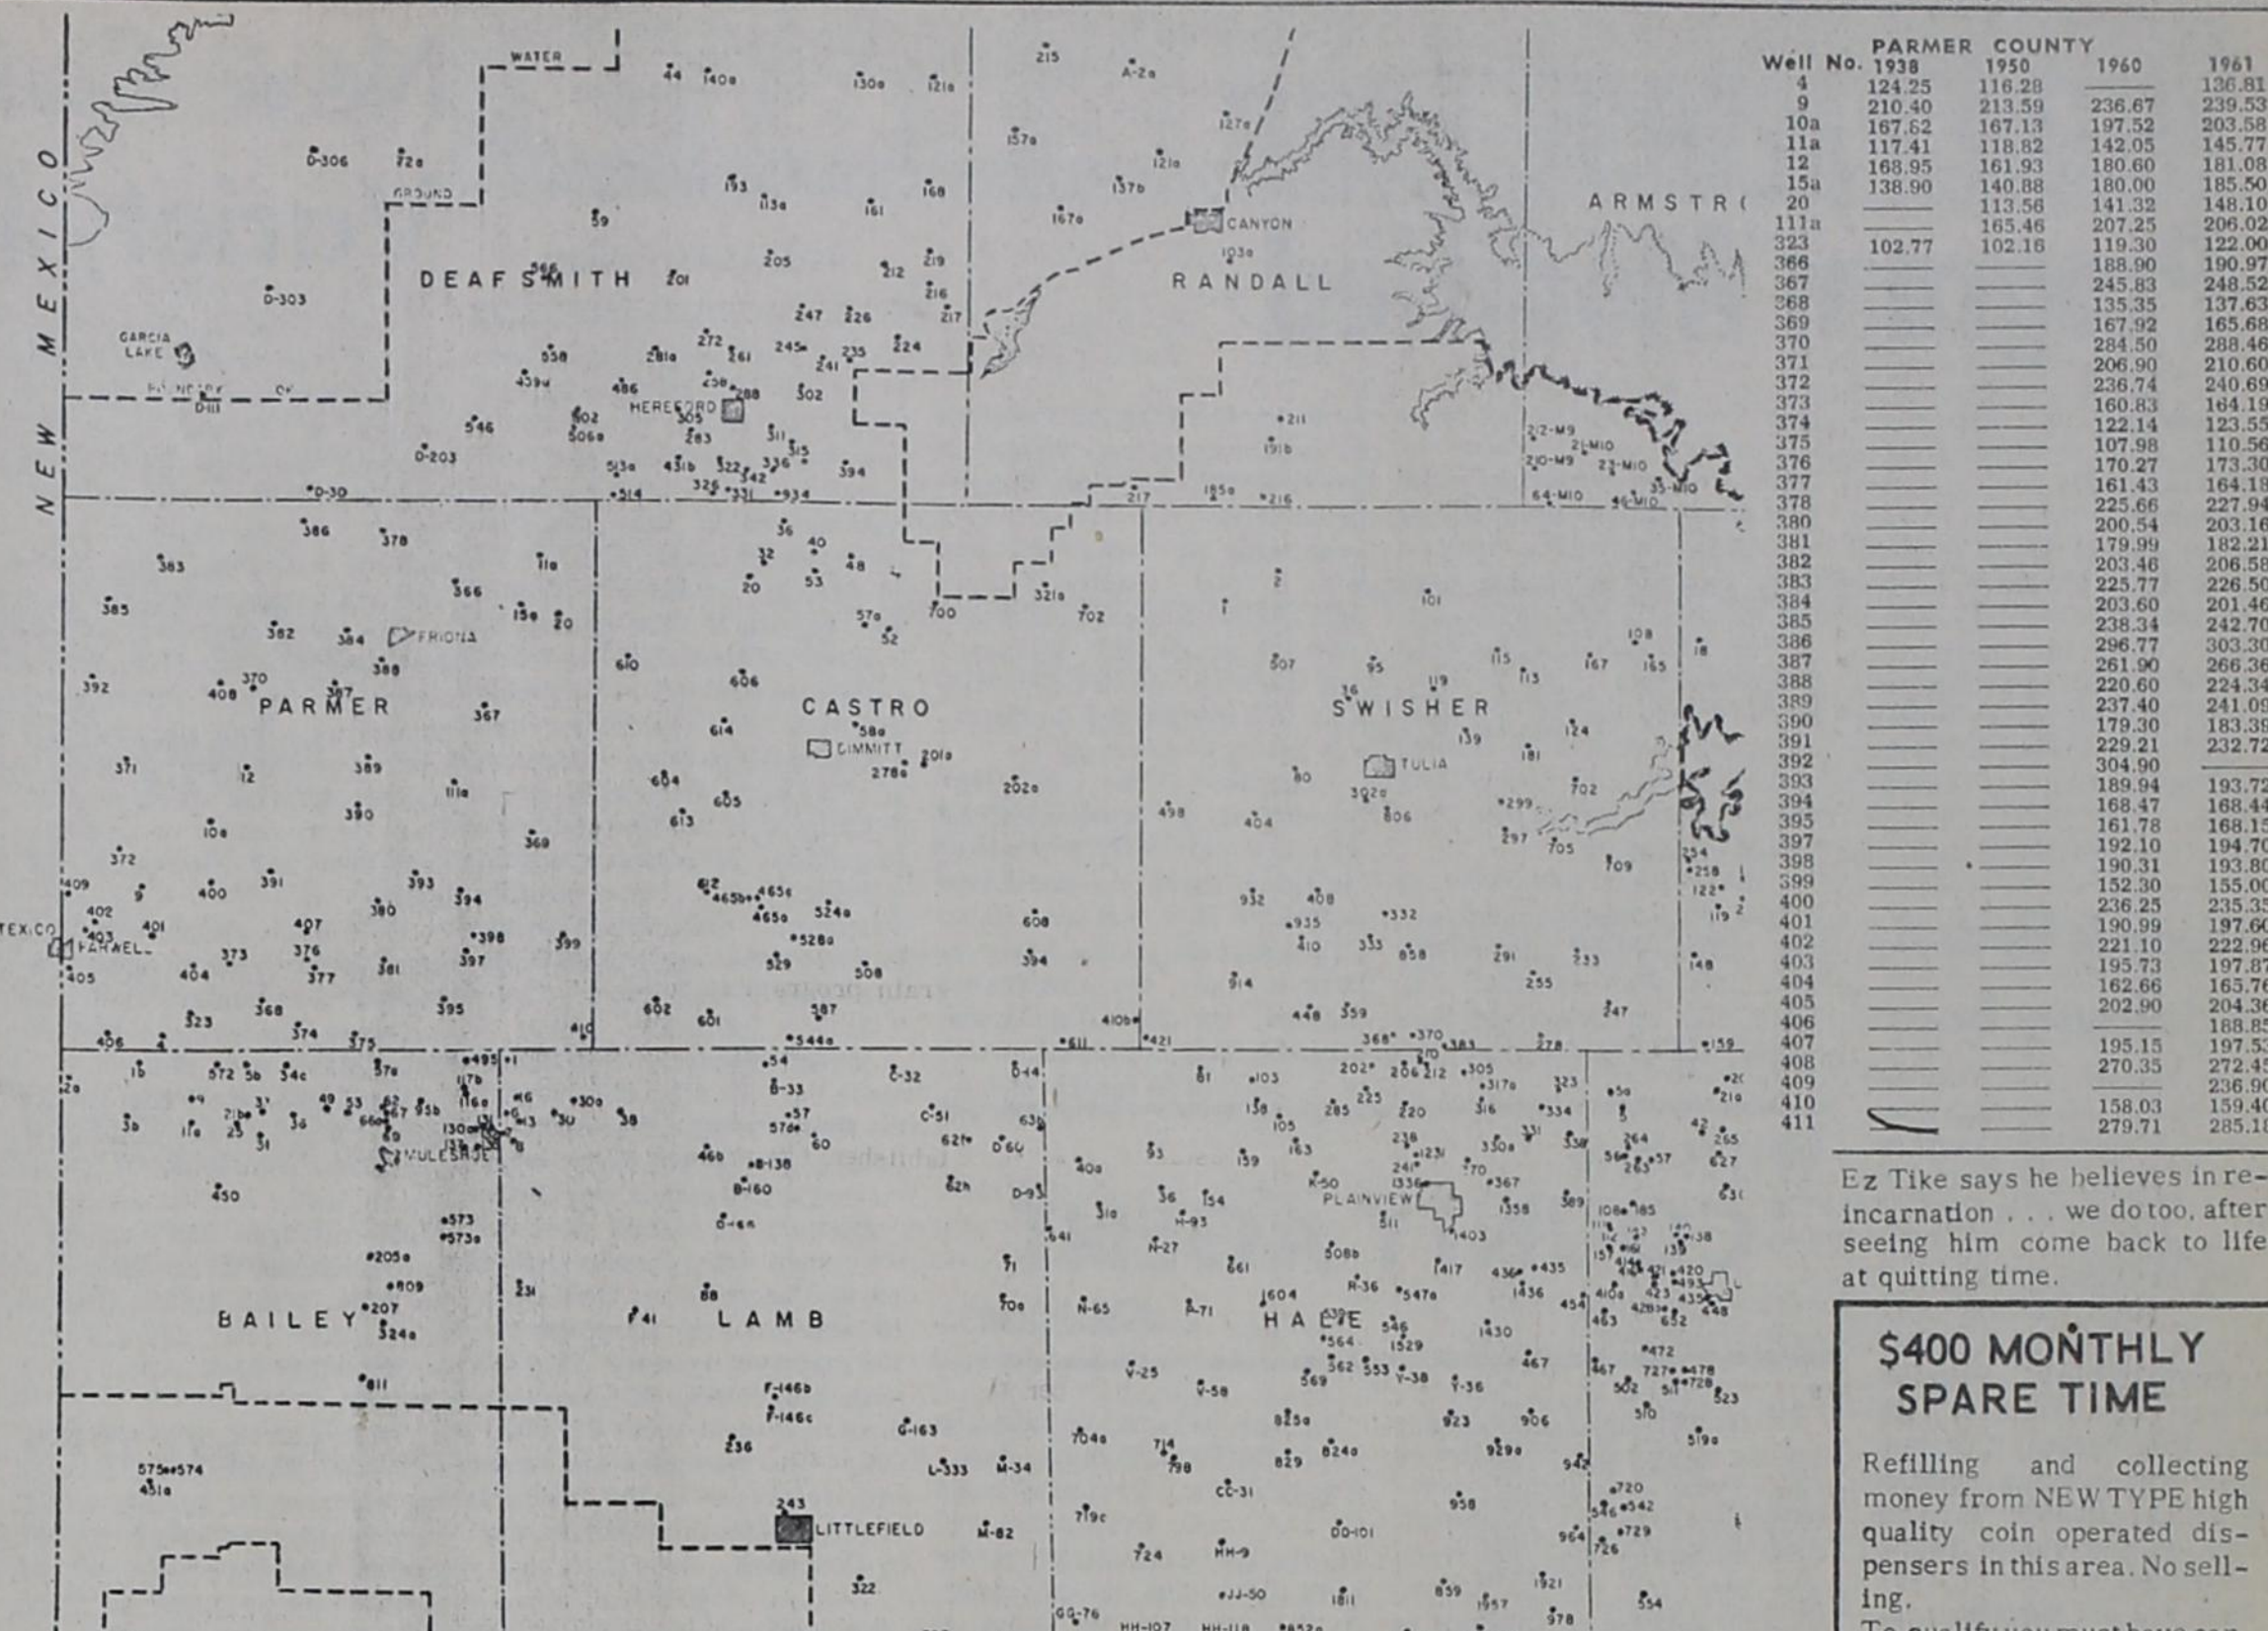

Another event of which we are proud of is the District 4-H Method Demonstration Contest to be held Saturday April 29 in Canyon on the West Texas State College campus. Our winning teams of the county Contest held April 8 will compete on the district level. We'll have results of the District Contest next week. General assembly will begin the contest at 9:30 A. M. in the Auditorium of the Administrative Building. We hope to see other Parmer County 4-H boys and girls there to learn while watching the many demonstrations.

## Miss Musil Gives Training Course

"How can one dish meals help you in your meal planning?" This was a question asked by Ettie Musil, county home demonstration agent, in a leader training course conducted Friday afternoon, April 21, in the Friona State Bank community room.

"One dish meals are ideal to serve on busy days. Not only will one dish meals or casseroles save you time and energy in preparing them, but they are ideal to use left overs as planned-overs," said Miss Musil who added "Let's don't forget that they require few cooking utensils, serving dishes and last minute preparations."

A deviled tuna casserole was prepared in the training and served to the demonstration club leaders of each of the eight clubs. The leaders will present the demonstration to their respective clubs during regular club meetings in May.

# Water Level Declines 2.32 Feet

Official water-level measurements, taken from observation wells throughout the county, reveal that the supply of underground water under Parmer County declined about 2.32 feet during the past year.

The drop was only about half of what it was during the previous year, when the statistics released by the High Plains Underground Water Conservation District showed a decline of 4.69 feet in 1959.

These measurements were made in January, during a time when most of the wells were idle, by the State Board of Water Engineers, in cooperation with the U. S. Geological Survey and the water conservation district.

## County 4-H's To Camp Planning Meet

Judy Billingsley and Richard Chitwood represented the Parmer County 4-H clubs at a district 4-H leadership camp planning meeting held Saturday, April 22 in Canyon.

During the meeting eight district council delegates, five county extension agents, and Miss Edith Wilson and W.W. Grisham, District Agents, made plans for the annual camp to be conducted at Camp Don Harrington, May 29, 30 and 31. Counties represented in the planning were Oldham, Donley, Armstrong, Randall, Deaf Smith and Parmer.

Short courses will be presented in soil and water conservation, wildlife, entomology, and safety. Each year the Texas Home Demonstration Association helps to finance this leadership camp with a gift of \$100. This year the Federal Carriage Cooperation will donate \$300 to the 4-H conservation camp.

Each county in District 1 will be allowed three boys and three girls who are thirteen years of age or older. Two adult leaders and county extension agents will fulfill the county quota. A registration fee of \$7.50 will pay for six meals and two night's lodging for each participant.

County 4-H members and adult leaders who will attend will be announced later.

LAYNE PUMPS, INC. DIAL 2921 PUMP & GEAR  
NIGHTS 2951 HEAD REPAIRS  
Sales & Service Friona ALL MAKES Texas

The average decline of the water level in Parmer County was figured by comparing the average depth (from the surface of the ground) of 49 well measurements in the county with the average depth of the same wells a year ago.

According to the figures released by the water conservation district, the average depth to water last year was 197.76 feet as compared to 200.08 feet this year.

There is a slight discrepancy in these figures as compared to the ones released last year at the time the measuring was taking place in Parmer County. At that time, the 46 wells used to establish the average depth revealed was 194.91 feet instead of 197.76.

The reason for this variation would probably be that the difference in the average of the 49 wells, which were released this year as having been measured both years, would differ slightly from the 46 that were used when the average was first figured last year.

It would depend on whether or not those extra three wells were extremely shallow or deep.

At any rate, it is a fairly well established fact that the average decline in the water level has been from two to five feet each year since measurements have been taken on a large scale.

In 1956, the average distance to water in Parmer County was 181 feet. Comparing this with the 200 foot level now, the average drop for each year would be a little over three feet.

According to experts in the know on this business of measuring water, it appears as though this three feet figure is now pretty well established and the drop each year, on the average, won't vary too much.

Parmer County is now just about fully developed as far as irrigation wells are concerned, and the depletion each year of the water-bearing sands won't be increased too much from what it is now.

One reason for the lower decline in the water level over last year could probably be the increased rainfall this year, or the combined total over a two-year period, which didn't show up last year but did affect the picture considerably this year.

Illustrating further how the omission of only a few wells in the annual measurements could make the overall picture vary would be comparing statistics released on wells this year.

In all, there were 52 wells measured in the county, three

of those being wells that weren't measured last year. The average depth of the 52 wells was 199.35 feet as compared to the 200.08 feet of the 49 wells that were measured both years.

To arrive at an average decline, however, only the 49 wells were used.

One oddity in the measuring of the wells is that a few of them showed sharp drops while on the other hand some wells had an even lower depth this year than a year ago.

One well, No. 20 in the northeast part of the county, dropped more than six feet, from 141.32 to 148.10. On the other hand, another well, No. 111A in the east central part of the county, showed a gain from 207.25 feet last year to 206.02 feet this year.

(So that interested persons may study the overall report, High Plains Farm and Home this week is reproducing in part the water conservation district map which pin-points the various wells in the county and

the depth of the wells both last year and this year).

**LOOK HOW CLEAN MODERN ELECTRIC HOME HEATING IS!**

EVEN A SNOW WHITE HANDKERCHIEF STAYS CLEAN WITH ELECTRIC HEAT

From home after home where electric house heating has been installed, you hear comments like these:

"Dusting is practically unnecessary..."

"Drapes just never seem to get dirty."

"We haven't had to redecorate in years."

And, then, electric heat homeowners volunteer information like,

"There just aren't any cold drafts or hot blasts."

"We've never felt so completely comfortable."

"It's amazing, there's just no maintenance to pay for or worry about."

Clean and comfortable — that's electric heat. And more economical than you believe possible. Ask your Public Service manager about electric heat — including a special heating rate.

## SOIL CONSERVATION DISTRICT NEWS

### OUR SOIL ★ OUR STRENGTH

Plants have a definite means of telling you their hunger signs. All crops require 10 or more different plant food elements and when the availability of any one of these becomes exhausted growth is seriously hindered.

At times it is very difficult to correctly interpret the symptoms of plant food deficiencies because of the different factors that might affect the plants. Prolonged periods of adverse weather, insects and disease may cause symptoms very similar to plant food deficiencies. When there is a question concerning the deficiency, chemical tissue that can be made for nitrogen or phosphate, which are most likely to be deficient in this area.

When young sorghum plants are nitrogen starved, they are stunted and spindling in appearance. The leaves become greenish-yellow to orange-yellow in color, the tip ends gradually dying.

When nitrogen deficiency occurs later in the growth of sorghum, yellowing of the tissues occurs first in the older leaves and follows the midribs from the tip. Later, the tip begins to dry and the whole leaf may become involved, which is frequently referred to as "firing."

Most people think "firing" is due directly to dry weather, but this is not true. Many times sorghum plants will "fire" to the heads without ever wilting. When sorghum plants are suffering seriously for moisture, there will be wilting from the top to the bottom and not just "firing" on the lower leaves.

# Farm Storage Loan Program Modified

Secretary of Agriculture Orville L. Freeman has taken action to modify down-payment provisions of the farm storage facility loan program, reports the USDA. Purpose of the measure, which the President called for in his message to Congress on farm program proposals, is to encourage storage of grain on farms and strengthen economic activity in farming areas.

able farmers to borrow up to 95 percent of the outlay for farm storage facilities which cost 40 cents per bushel or less to build. Previously, loans on these types of structures were limited to 80 percent of the cost.

For facilities costing more than 40 cents per bushel, farmers may borrow up to 40 cents per bushel or 80 percent of the cost whichever is greater, but not more than 50 cents per bushel of capacity.

These loans are made at 4 percent interest and run for five years from the time the loan is taken out. They may be repaid in four annual installments, with the

first anniversary of the loan. Since the program started in 1949, 135,991 loans totaling approximately \$149,196,000 have been made for storage facilities with a total capacity of about 546,380,000 bushels. Loans outstanding at the end of January amounted to \$43,799,000, with \$105,399,000 loaned to farmers having been repaid.

According to the USDA, approximately \$40 million will be spent by farmers for storage facilities under the broadened program. This will give added stimulus to the general economy because of the increased demand for steel, wood and other building materials.

## Wilson Is Elected To Halfway Board

All officers and executive committeemen of the High Plains Research Foundation were re-elected at the meeting of the board of trustees in Plainview on March 15.

New members elected to the board were: Orville Nash, Guymon, Oklahoma; A.W. Lott, Lorenzo; Claude Fargason, Halfway; Lane Decker, Floyd; Jack Wicker, Littlefield; Robert Wilson, Bovina; and Olan Alexander, Homer Garrison, Harry Igo, and Joe Don Scott, all of Plainview.

Matters of business conducted by the board included the acceptance of the auditor's report for 1961, setting the annual field day for September 20, and budget adjustments.

## FOOTSAVING EDUCATION

By James E. Edwards

### Do Tennis Shoes Cause Flat Feet?

No. Thinking of shoes of any kind causing flat feet is as backward as treating tuberculosis by shutting the patient up in a dark airless room. All feet are weak at first and whether they strengthen or not depends upon the exercise of good foot function.

Probably the world's worst record of foot health was compiled by selectees for military service in World War I. These young men had not worn tennis shoes because they were not popular yet and because their parents were so sure that children must wear stiff shoes to "strengthen their ankles."

When tennis shoes did become popular among the children they were blamed for causing flat feet. The feet were flat before but stiff shoes concealed the condition. Blaming tennis shoes for causing the trouble is as wrong as attributing baldness to the removal of a hat.

## WITH THE COUNTY AGENT

JOE JONES

Soil temperatures are warming up just a little ahead of schedule this year. Planting temperatures have been reached all over the South Plains. The average date for the 10 day 60 degree average at Lubbock is May 3. Better keep those thermometers in the soil to an 8 inch depth and take the reading at 8:00 A. M. each morning and know when the 10 day 60 degree average is reached on your soil.

Cold soils delay germination and results in weakened plants more susceptible to seedling diseases. Early cotton usually results in more bales of good grade cotton. With this in mind let the soil temperature and seed quality be your guide to planting and not the calendar. Keep in mind good vigorous seed is a must when planting under adverse conditions. Poor seed just will not have the push to get the job done. With this in mind you not only need to know the soil temperature, but you better know your seed quality. Some of our seed may be weak enough we need 65 degree average soil instead of the 60 degree average.

You don't want bindweed on your farm do you? If you do you are an exception. Yet lack of interest in controlling this perennial noxious weed is contributing to its spread. Traveling through the south side of the county last week I saw a lot of infestations on land that should be controlled, but nothing is being done it seems. It is high time we all wake up to what this weed can do and get on some program to eradicate it from all lands in the county whether they be city, state, or privately owned land.

### New & Rebuilt Electric Motors

For All Purposes  
Electric Motor Rewinding  
General & Starter Service

**Crown Electric**  
PO3-5433  
1320 W. 7th, Clovis

We have had good cooperation from the State Highway Dept., Railroads, Commissioners Court, A.S.C. Committee, and all the city commissioners who have been ask to cooperate. It is high time we wake up to this need and all go to work at the job of eradication.

More interest is shown each year in narrow row seeding of grain sorghum. Some of you plan to seed two rows to the lister ridge while others are going to use 28 to 30 inch rows. Yields should be increased with either row spacing, but you must remember to keep the seeding rate at or near the same level used under one row. The better plant spacing is what gives this advantage and increased seeding rates tend to cut down on this potential advantage.

### Weed Committee Plans Activities

The Farm Bureau Weed Committee met Monday night in the office in Friona. Plans were made for the 1961 bindweed control program involving public roads, individual farms and railroad right of ways.

It was reported that county commissioners will cooperate in the control of the weeds on county road right of ways as in the past. The highway department also will continue sterilization of as many plots of the weeds as it is possible for them to get to, as they have in years past.

The next meeting will be held Monday night, May 29, in the Friona State Bank Community Room. Invited and urged to attend this meeting will be all county commissioners, State Highway maintenance representatives, Santa Fe Railroad engineers, city commissioners and newspaper and radio representatives. It is hoped that a concentrated program can be gotten under way within the county so that plots of bindweed can be destroyed in their infancy.

The weed committee was organized by Farmer County Farm Bureau Directors in 1954

## NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

HB 59, exempting farm trailers and semi-trailers up to a gross weight of 12,000 pounds from registration and brake requirements when not used for hire, was passed in Austin as follows: House vote, 121 for to 16 against; Senate vote, 28 for and 1 against. The governor, however, vetoed the bill.

We feel that you will want to write the governor, expressing disapproval of his veto of the bill. Also write your Senator Andy Rogers and Representative Jess Osborn, urging them to work for a trailer weight bill, or to vote to override the governor's veto if the need arises. Do it now.

Congressman Paul Findley made the following statement in the Congressional Record dated April 10, 1961: "The corn market for the past two weeks confirmed my fears that the bill would drive market prices down. The market is down about 15 cents a bushel, and with about 500 million bushels of 1960 still unmarketed, that means an income loss of about \$75,000,000." The statement was made with reference to the new feed grain program recently passed by Congress.

We need to revise a statement made in this column with reference to the Farm Bureau Cropland Adjustment Program two weeks ago. We stated that Farm Bureau had been unsuccessful in getting the program passed although seven congressmen sponsored the bill. It is true that it was not passed in time to cover this year's feed grain operations.

However, the bill was just recently introduced to the House by eleven prominent members and is pending before the House Agricultural Committee. It is still possible that this program may become effective with the 1962 farming program.

It is designed to give more freedom of individual farm operation while reducing output of both feed grains and wheat and maintaining profitable income for farmers while doing so.

Farm Bureau Directors will hold their regular monthly meeting Monday night, May 1. As usual, you are welcome to sit in on these meetings.

Consider this: "Hear thou, my son, and be wise, and guide thine heart in the way. Be not among winebibbers, among riotous eaters of flesh: for the drunkard and the glutton shall come to poverty; and drowsiness shall clothe a man with rags." Proverbs 23:19-21.

with the cooperation of the county agent, Joe Jones in an effort to eradicate bindweed, which then was just beginning to show up as a threat to many acres of land in the area. Since then, each year the committee begins operations to continue the eradication program, and has enjoyed the cooperation of practically everyone in the program. The committee believes it has done, and is doing a good job in leading the bindweed eradication program.

J. T. Jones is chairman, Jack Patterson vice chairman and Calvin Meissner secretary. Members of the committee are, E. C. Schilling, Joe Jesko and J. B. Young. Associate members are the county agent, ASC mgr. all vocational agricultural instructors, SCS representatives and others.

When I say I'm not going to argue, what I really mean is that I won't listen any more after I've said what I'm going to.

# New Castorbean Variety Released

A new improved castorbean adapted for production in irrigated areas such as the High Plains of Texas, Oklahoma, Kansas, and New Mexico has been released cooperatively by the U.S. Department of Agriculture and the Texas Agricultural Experiment Station.

The new variety is named Hale and is a dwarf-internode which yields well and has potential as a male parent in hybrid combinations because its hybrid offspring also yielded well.

Hale is resistant to bacterial leaf spot and Alternaria leaf spot. A limited amount of Hale seed is available to seed producers for planting this year but seed for farmers will not be available until 1962.

Hale has a better root system than many other castorbean varieties. However, if it is grown under conditions of too much nitrogen and excessive soil moisture, its stems tend to be weak. Weak stems, coupled with heavy fruit set and high winds before harvest, can cause lodging.

Hale matures about one week later than Baker-296, the leading commercial variety on the High Plains, and about one week earlier than Dawn, a 1957 release. Hale produced as much as 2,325 pounds of beans per acre in 1960 on the farm trials on the High Plains of Texas. In experimental plots in the same area, Hale averaged 2,479 pounds per acre, compared with 2,057 pounds per acre for Baker-296 and 2,189 for Dawn.

Plants are well adapted to mechanical harvesting because the first fruiting spike is well above ground level and fruiting branches are erect. Seed capsules of Hale are non-shattering and are easily removed from the dry plants after frost by mechanical harvesters.

Seed weight, size, and quality

are acceptable for planting and for crushing. Seed hulling and cleaning are easy, and nearly all foreign material separates from the seed. Oil content averages 51 percent, one or two percent more than in available dwarf-internode varieties.

Hale has performed well in irrigation tests in the Southern Great Plains region of Texas, Oklahoma, Kansas, and New Mexico. It has some drought tolerance but is not generally recommended for dryland planting because satisfactory yields cannot be obtained consistently. And because of possible mold damage to the seed capsules, it is not recommended for areas of high rainfall.

## "Split" Fertilizer Test Good For Castorbeans

The castor bean fertilizer tests at the High Plains Research Foundation in 1960 disclosed that a split application of 150 pounds of nitrogen produced the most profitable yield.

The split application consisted of 100 pounds of nitrogen in a preplant application on May 19 and 50 pounds of nitrogen applied on July 27, just prior to the first irrigation. The yield from the split application was 2,050 pounds of seed per acre.

This was 537 pounds above the yield of the unfertilized plot. The net return from the split application method was \$17.09 above the unfertilized castor beans. The sidedressing of the 50 pounds of liquid fertilizer was made with the applicator chisels spaced 10 inches from the row and injected into the soil surface about 1 inch deep to avoid root damage.

This method of application, along with flame cultivation to

## 1960 Texas Cotton Crop Hit Hard By Diseases

--Diseases took an estimated \$156 million bite out of the 1960 Texas cotton crop, according to reports from 15 cotton specialists located throughout the state.

An estimated 1,116,000 bales never got to market because of diseases, said Harlan Smith, extension plant pathologist, who compiled the report for the Cotton Disease Council.

In addition to the loss to producers, businesses related to the cotton industry also suffered. Diseases were also a major factor in grade reduction and lower yields, Smith said. In many instances, the weather, soil, planting seed or ginner got the blame for the low production and poor quality when the real culprit was plant diseases, explained Smith.

The major diseases and the estimated losses caused by each were bacterial blight, 5.64 percent; root rot, 5.22 percent; seedling disease, 2.68 percent; Pseudomonas wilt, 2.1 percent; root knot, 2.04 percent; Verticillium wilt, 2.03 percent and boll rots, 63 percent. Other diseases, listed by Smith, as causing losses were Fusarium wilt and Ascochyta blight. Texas ranked second among cotton producing states in percentage loss, over 21 percent, Smith said.

Average figures don't give the true picture, the pathologist said, because in the areas where diseases struck hardest losses ran into ruinous figures. Root rot, for example, caused an estimated 30 percent loss in the Central Blacklands and increased in many areas over the 1959 losses. Bacterial blight continues to be the most important disease though it does not kill plants, Smith said.

The pathologist advised cotton growers to carefully check their fields in 1961 for disease damage. He said it is necessary to know the diseases present in order to plan a preventive program for future years.

on July 29, August 26, and September 6. Only .035 inches of rain was received between July 29 and August 26 irrigations. The moisture stress in this period undoubtedly limited production on the entire test. Rainfall from May 1 to November 1 amounted to 31.05 inches with 17.64 inches falling in June and July.

All tests were planted May 20 and harvested December 2, 1960, Mr. Langford reported.

## Faster, Cleaner Start for Your Crops with a WINPOWER ROTARY CULTIVATOR

Model NV-4 — 15' wide  
4 flexible sections

### CROSS-CUT ACTION KNOCKS OUT WEEDS

Better Cultivation Pays Off in Yields  
The WINPOWER Rotary Cultivator is the best insurance toward a bigger safer harvest. The flexible sections, with off-set, cross-cut action knocks out weeds, breaks up crust and clods, and saves the moisture for growing crops.  
End sections fold up. Coupling is adjustable for close turns. Hitches can be reversed for transport and crust breaking only. Construction is rugged, for years of trouble-free service.  
Come in and see for yourself how this WINPOWER Rotary Cultivator will make money for you. It's the cultivating tool that gives your crops a faster, cleaner start to the biggest yields ever.

# Jones Named P-TA Prexy

Melborn Jones was installed as president Thursday evening when the Farwell P-TA met at the school auditorium for the last meeting of the school year.

Mrs. Lucille Brittan installed the officers which included Jones as president, Gladys Kaltwasser, first vice-president; Rita Dollar, second vice-president; Billie Blair, third vice-president; Virginia Blankenship, secretary-treasurer; and Jack Williams, parliamentarian.

Chairmen of the various committees are Ann Glenn, membership; Gloria Mahaney, publications; and Marilyn Edwards, publicity.

The Farwell school stage band played several musical selections during the evening, and members of the FHA club presented a style show, modeling garments they had made as projects during the past year.

Room count was won by Clara Florence's second grade class.

## Hoppers--

It's great but it's habit forming. After the first reprieve from your leap you wait around for somebody else to come up. Sometimes they do and sometimes they don't. Before the crowd begins to notice (you imagine) the delay I mean.

The day I first went up the second guy never showed up. I waited as long as I thought I could and still hold my bluster.

Head first, all right, just like a seasoned artist. Such form. Landed spraddle-legged on my stomach.

Okay, men. If you're a joiner, here's one for you (provided you have the qualifications). How about a new association of fathers? Dedicated to something noble. Like the eradication of gastro-intestinal aberrations in babes-in-arms, for instance. The Burp Society, what else?

# Lazbuddie Wins Regional Track

The Lazbuddie Longhorns repeated as Class B Champs as they rolled up 82 points and set three new records. The Rule Bobcats followed the Longhorns with 39 points. Earlier reports from the regional record listed the Longhorns with only 77 points. However, Donnie Smith, Lazbuddie's pole vaulter was not given credit for 5 points he earned on a third place tie.

The "name sake" Longhorns was quickly changed by the fans in the stands to "Jack Rabbits" as Billy Hardage set a new rec-

ord in the 440 yd. dash and ran on both record-breaking relay teams. The three Class "B" records set by the Longhorns were the 440 yd. dash - time 49.9; 440 yd. relay 44.1; and the mile relay - 3:28.1. The two relay teams are composed of Freddie Savage, R. L. Porter, Odie Bradshaw, and Billy Hardage.

Other points at the meet were added by Jimmy Seaton, 2nd in the high hurdles; Jerry Glover, 3rd in high jump; and 4th in low hurdles; Odie Bradshaw, 2nd in 220 yd. dash and 6th in broad jump; Cooper Young, 5th in 880 yd. dash.

The first and second place winners will advance to the state meet at Austin on May 5 and 6th. Representing Lazbuddie will be its two relay teams, Billy Hardage in 440, Odie Bradshaw in the 220, Jimmy Seaton in the 120 yd. high hurdles, Cooper Young, Alt. mile relay, and Mike Bean as Alt. in 440 yd. relay. The Longhorns are considered a contender for the state championship.

Congratulations to Coaches Crooks and Bond who have worked with the boys. The boys who have qualified for the state meet will run in the Red Raider Relays Saturday, April 29th.

THE STATE OF TEXAS

TO: JOHN DAVID PIPES Defendant, Greeting:

You are hereby commanded to appear by filing written answer before the Honorable District Court of Parmer County at the Court House thereof, in Farwell, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 1st day of May A. D. 1961, then and there to answer Plaintiff's Petition filed in said Court, on the 24 day of February A. D. 1961, in this cause, numbered 2188 on the docket of said court and styled Elnor Pipes, Plaintiff, vs. John David Pipes Defendant.

A brief statement of the nature of this suit is as follows, to wit:

Plaintiff is suing Defendant for divorce on the grounds of cruel treatment as more particularly alleged in Plaintiff's Petition and for custody and support of their four children, namely: David William Pipes, John Kermit Pipes, Stephen Boyd Pipes and Michael Dennis Pipes; as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Farwell, Texas this 13 day of March A. D. 1961.

Attest:

# Banquet Is April 29

J. T. King, head football coach at Texas Tech, will be featured speaker at the annual Farwell all sports banquet Saturday evening. King was assistant coach at Tech last year, and took over the head coaching position this year.

The public is invited to the banquet which will begin at 7:30. Tickets are now on sale for \$1.50 per plate at the school business office.

Highlighting the evening will be the presentation of awards to the outstanding football player, outstanding boy basketball player, outstanding girl basketball player and hardest blocker and tackler. The Principal's award will be presented to the football player with the highest scholastic average, the Chamber of Commerce Award goes to a senior student who has lettered in two major sports and has maintained a B grade average, and a sportsmanship award will be presented.

# Pancake Breakfast Sunday

The Texico-Farwell Lions Club Annual "Pancake Breakfast" will be staged this coming Sunday, April 30 from 6:30 to 9:00 A.M., at the Farwell School Cafeteria.

The breakfast is a local fund raising project at which the local Lions will cook and serve the general public. You will be able to eat all the pancakes, bacon and coffee or milk, you want for only 75¢ for adults and 50¢ for students. You can purchase advance tickets from any member of the club or they may be purchased at the door Sunday morning. The breakfast is planned to be over in time for local church services.

Other Lions Club activities discussed at the Monday night meeting, was the annual spring turkey shoot which will be held on Sunday, May 21. Funds from these and other club projects will be used for sight conservation and charitable donations.

A report was given by the club secretary, Elmer Teel, that in the past year the local club paid for 11 eye examinations, and bought 11 pairs of glasses for school children whose parents were unable to do so. The club joined the ESA Sorority to help needy families at Christmas, sponsored the Summer Youth Program and Boys and Girls State.

Winners Announced

Winners of the drawings held at AA Bowl during their first anniversary celebration held last weekend, were Mrs. Fred Curtis Bowling Ball, and Adolph Haseloff Bowling Shoes. We are very proud of the reception given our first anniversary, Partin Austin, manager of the bowling lanes reported this week.

# Winners Named

Winners of the Farwell City Bowling Association's Men's Tournament, held April 18-21 were announced this week. Singles winners were: Roy Reynolds, 654, first place; Mike Salas, 651, second place; Bert Williams and Willie Nrodists tied for third place, both men rolling 649.

Winners in the doubles event are: Sam Sudderth, 720 and Shorty Hamlet, 662, (1382) to get the No. 1 spot; Pete Rundell, 651 teamed with Fred Curtis, 604, (1255) for second place; Troy Lovett, 647 and Bill Hutto, 607 (1254) came in third.

Team winners were: Worley Grain with 3116, first; Beck Gin, 3080, second; and 3-Way Chemical 3064, third.

In the all events division, first place winner was Willie Hardage with 1903; Ed Combs with 1857 for second and Pete Rundell, 1845 for third.

All the above winners received trophies from the association. The tournament was held at the AA Bowl in Farwell.

# Texico School Hires Architect

James A. Burran, Jr., Clovis architect, has been employed by the Texico school board to draw plans for the addition to the school plant. He will appear before the school board at their next regular meeting. At that time he will present them a "master plan" that will include the structure the recent bond election provided funds for, plus other buildings and needs through 1975.

At present the school is waiting to see what congress comes up with in the way of possible federal aid, as that could cause them to change their plans on the structure, according to Buck Doran, Texico school superintendent.

# Commissioners Purchase ROW, Payloader

County commissioners meeting in regular session Monday purchased a 4-wheel drive loader for precinct 3 of Parmer county. Purchase price of the dirt moving machine was \$13,500.

The commissioners also completed right-of-way purchase from H. M. Sheets along Highway 70-84 for the 4-lane highway to be constructed from Farwell southeast to the Bailey county line in the near future.

## County Clubs To Observe National HD Club Week

In observance of National Home Demonstration Week, Parmer County clubs will gather for an afternoon of fellowship on May 2 at the Oklahoma Lane Community building.

Highlight of the affair will be a style show, slogan of which is "Homemakers Talent Revue." Each club in the county will be shown as an individual unit, with their own narrator.

Crafts made by the clubs will also be shown in individual units.

Clubs participating are Black, Friona, Hub, Lakeview, Midway, Northside, Rhea and Oklahoma Lane; with Midway and Oklahoma Lane as hosts for the occasion.

The Oklahoma Lane club will be responsible for the registration and tea table, with Midway in charge of stage and assembly room decorations.

A tea will welcome guests at the affair, with registration and a fellowship hour, scheduled from 1:30 to 2:30. The program will begin at 2:30.

Women of the clubs extend a special invitation to everyone to attend the meeting and style show.

Visiting Tuesday in the home of Mrs. Effie Johnson were Mr. and Mrs. Henry Parrack of West Columbia, Texas, and Mr. and Mrs. Dick Robb of Tulla, Parrack and Mrs. Dick Robb are Mrs. Johnson's nephew and niece. The couples also visited with their cousin, V. Scott Johnson and family of Clovis.

## Friends Surprise 4-H Girls See Demonstrations Party On Birthday

Friends of Mrs. Willie Williams surprised her Saturday with a birthday party in the home of Mrs. Mitz Walling. Hostesses were Mrs. Walling and Mrs. Alvin Mace.

A large sign with the words "Happy Birthday Bonnie" in colored glitter was hung above the doorway, and the serving table was covered with a lace cloth and centered with a birthday cake which was in the shape of a hat box. The cake was iced in pink with pink and white stripes around the sides. Black icing was used to form a ribbon around the box. The cake was served to guests along with coffee.

Attending were Mesdames Buddy Jones, Glenn Phillips, W.H. Graham, Don Williams, Elmer Hargrove, Johnnie Williams, M. A. Snider, Wilma Liner, Jack Williams, M. A. Snider Jr. and son, W. A. Mace and Mitz Walling. Also attending were Lee Ann Williams, Debbie Hargrove and Edith Ann Walling.

## WMA women from the Calvary Missionary Baptist Church in Texico will sponsor a Bible school at the church beginning May 29 and continuing for ten days. Enrollment will be on May 26.

W. H. Graham Jr. of Farwell was a featured speaker at the 49th annual convention of the Texas Intercollegiate Press Association held at West Texas State College Friday and Saturday. Graham spoke on "Offsetting Your Paper's Problems -- Rise of Offset Printing."

Following the meeting Viane Lesly led the girls in songs and games. Refreshments were served by Mrs. U. L. Lesly.

Attending the meeting were Kathryn Gober, Viane Lesly, Vickie Moore, Vicky Kaltwasser, Linda Williams, Laura Gray, Jacque Gast, Kandy Meeks, Becky Terrell, Mary Coffey, Reba Lesly, Martha Coffey, Janis Billingsley, Teresa Quickel and Peggy Lesly.

## Benefit Nets \$100 For Fund

A bridge party in the Glenn Phillips home on a recent Saturday evening netted over \$100 for the crippled children's drive. The Phillipses were host and hostess for the benefit which was held in connection with the Easter Seal drive. The money was turned over to the Lubbock Cerebral Palsy Treatment Center.

Couples attending the affair were Mr. and Mrs. Mitz Walling, Mr. and Mrs. Don Williams, Mr. and Mrs. Bob Anderson, Mr. and Mrs. Bill Prince, Mr. and Mrs. Harry Sheets, Mr. and Mrs. Joe Hel-

ton, Mr. and Mrs. John McFarland, Mr. and Mrs. Darrell Norton, Mr. and Mrs. Bert Williams, Mr. and Mrs. Pike Jordan, Mr. and Mrs. Bob Hart and the host and hostess. Couples unable to attend who donated to the fund were the Junior Sniders, John Lovelaces, W.H. Grahams and Elmer Hargroves.

Mr. and Mrs. Milton Henson of Texico accompanied their son and family, the Jimmy Hensons, to Odessa Sunday on business.

## Ruth Class Meets With Mrs. Brown

Members of the Ruth Sunday School Class of the Texico First Baptist Church met in the home of Mrs. D. J. Brown Monday evening for a business and social meeting.

Mrs. Grace Jones opened the meeting with a prayer before Mrs. Helen Bowers gave the devotional "Climbing Above The Storm" which was taken from Isaiah.

During the business meeting new officers for the coming year were elected, and a discussion on class projects was held. President is Mrs. Allie Burris, Susie Schleuter is vice-president; Hazel Eshleman, secretary; Thelma Doshier, recording secretary; Alvina Cox, class ministrress; Mrs. Grace Jones, assistant teacher; Mrs. D. J. Brown, class teacher; and Mesdames Grace Parsons and Sophie McDaniel are group captains.

The meeting was dismissed with a prayer by Mrs. Tena Roth, after which the hostess served butterscotch cake, frosted pops and coffee to Mesdames Helen Bowers, Grace Parsons, Alvina Cox, Kathryn Lockhart, Grace Jones, Thelma Doshier, Ruth Reed and Tena Roth.

## Birthday Party For Sam Morton

Friends of Sam Morton, son of the Robert Mortons, helped him celebrate his 8th birthday with a party Friday.

After playing games, which were directed by Reba and Viane Lesly, the group were served birthday cake, ice cream, and pops. Favors of balloons, gum and candy were given to the guests.

Attending were Terri Edwards, Polly Dollar, Melinda Dykes, Nellabeth Craig, Debra Hubbell, Terry Joe Kraft, Mike Lemmons, Ronnie Langston and Donnie Goldsmith.
