

Border Banter

By Mike Pomper

A 2-way street

When I talk about supporting local businesses in the Clovis - Twin Cities - Muleshoe trading area, I realize it's a two-way street.

On one hand, it's so important that we recognize that our futures depend on supporting our friends and neighbors in businesses in our communities. They care about us. The foreign-owned corporations - with their big U.S. flags in front of their enterprises - don't.

The other hand means that local businesses have to reach out. I find that happening now with the downtown Clovis merchants and I want to publicly congratulate them on their efforts.

For example, last month many of the downtown merchants participated in a special Washington's Day celebration with big savings to shoppers. They included *There's More to Love, Larry's Hobbies & Crafts, Woody's, Stork Shop, Tankersley's, Ealy Furniture, Baldock's, Russell's, Enchanted Sunmark, Playmates, Queens n Teens, Torrances, McDaniels, Aucutt Paint, Duffy's, Jackman's, All About Sports, Cribbs, C&D Bicycles and LaRue Jewelers.*

What we're seeing is that the downtown merchants are organizing, realizing that there is strength through numbers. That is what is needed for downtown not merely to survive, but to grow and get stronger. I'm really proud of what they are doing.

I received a copy of *The Downtowner* last week and was very impressed by what I read. For example, let's take a look at some of their committees:

- Block leaders to keep open the communications between the project office (Casey Hazelton, project manager, 769-2103) and their area, to help with promotions, to be aware of new businesses joining in, etc.

- Promotion, to help on task forces to work on special promotions.

- Design, to help make downtown more exciting, convenient and beautiful.

- Economic development, to help strengthen downtown businesses and find new firms to fill vacant buildings.

The merchants have worked long-range, too, by planning special promotions every month throughout 1988. The next one will be the March 17 Moonlight Madness Sale - watch for it!

The newsletter also named a Business of the Month - *Contempo Quilts*. It's owned by Lori Wright and there's a strong Twin City connection to this neat shop. For example, her business features handmade items such as shelves and book racks created by Ann and Lewis Cooper. The store also offers books, patterns and supplies for quilting, knitting and crochet.

Currently, 50 businesses have joined Clovis Downtown, Inc. And I'm sure this total will grow as the cohesiveness begins paying off. What we're seeing here is evidence of local businesses reaching out.

Let's reach back.

Some mini editorials:

- They're going to put lights in Cubs Park. A sad day for all of us. Another tradition down the tubes in the name of TV money. Ernie Banks, where are you when we need you?

- I'm sick and tired of hearing politicians running for office pledging they will vote against raising taxes. This is 1988, fellas. Who are you kidding?

- Actually, what government does to avoid raising taxes is to force businesses to raise their prices, with the government getting its piece of the action. An example is the Post Office raising the price of stamps.

Haseloff shows Reserve Champ

A 223-pound light weight barrow, exhibited by Derrick Haseloff of Farwell, was honored as Reserve Champion Hampshire Barrow at the Houston Livestock Show.

Derrick, a member of the Farwell 4-H Club, raised the barrow under the supervision of County Agent Gary Patterson.

"I had no idea I was going to do so well," Derrick said. "The money I receive this year will be used to build new barns for my sows back home."

Judge Allen Keppy of Wilton, Iowa, said the Reserve Champion barrow was lighter in muscle than the top barrow, but Derrick's barrow was more extended and flexible in body muscle.

Derrick's barrow took 2nd place in its class.

Also, a heavyweight barrow exhibited by Keith Hancock of Friona took 3rd in its class.

Parmer County Agricultural Extension Agent Gary Patterson reports that 5 Parmer County youth showed hogs which made the sale at the Houston Livestock Show.

The Parmer County entries competed against 2,900 hogs from all over the state of Texas.

Derrick Haseloff of Farwell showed the reserve champion Hampshire which sold for \$24 per pound.

Chad Rhodes of Friona showed the first place light weight cross which sold for \$8 per pound.

Brent Thomas of Lazbuddie showed the 7th place light weight spot.

Greg Salyer of Friona showed the 6th place medium cross.

Bowie Hand showed the 16th place heavy weight chester.

Janet Rector of Friona had a 16th place Hampshire.

Baseball League depends on you

Pony Baseball is on its way to Texico - Farwell.

Pony (which stands for "Protect Our Nation's Youth") Baseball participation teaches youngsters the value of team work, sportsmanship, self reliance, sacrifice, and can instill a desire for improvement in personal performance.

At 7:30 p.m. CST on March 21, there will be an open baseball meeting at Luce's Restaurant. All coaches, parents, and players are urged to attend. This meeting will determine whether there is enough interest for the program to continue.

Over the past few years, there has been a decline in the number of boys and girls participating. Last year there were only three teams in the Bronco league, and it meant that one team had to play two games in one night.

The purpose of the meeting

is to make sure that there will be enough children playing in each age group to guarantee a full schedule of games without playing double headers.

Pinto League is for 7 and 8 year olds. Mustang League is for 9 and 10 year olds. Bronco League is for 11 and 12 year olds.

To have an enjoyable and rewarding season, four teams will be needed in each league. If there are too few teams, the children play so frequently that the season becomes work instead of fun.

This year's season is scheduled for May 2 through June 24.

The Pony Baseball Board consists of Virgil Fiske, Carolyn Williams, Vickie Chumley, Mary Gustin, Lynne Mahaney, Ricky Ketcherside, Brenda Ortiz, and Peggy Haseloff.

Demolition of the old Santa Fe station in Texico begins.

RIF policy adopted

The Texico School Board adopted a Reduction In Force (RIF) policy Tuesday.

"We hope we never have to use this policy, but we never know," says Supt. James Pierce.

A RIF policy sets forth the guidelines which would be followed if there is ever a need to reduce the number of staff members in the middle of a school year.

"If we employ teachers and other staff members, and then a sizeable number of students transfer out during the school year, we would have more staff members than we need. We need a policy to follow so that we would have a fair set of criteria to follow when deciding to keep or release a

staff member."

The board does not plan to implement the RIF policy at this time, but the action was taken by the board because the closing of Excel Corp. made some board members realize that factors outside of the school could have a major impact upon the school operation.

In other matters, representatives of the senior class, Bret Taylor and Jeff Horner asked the board for permission for the senior class to take a one day trip to the Panhandle Plains Museum in Canyon and to the Planetarium in Amarillo on April 25. The permission was granted.

All three principals were rehired for 1988-89.

A resignation was accepted

from Cheryl Warren, Chapter I Aide.

The board discussed a new scoreboard clock for the #2 gym.

Mary Lou Jesko was hired as head cook while Marcine Tipton is on sick leave. Mrs. Tipton had surgery at Clovis

High Plains Hospital.

The board voted to buy an upright freezer for the cafeteria.

The board voted to dismiss school at 1:20 p.m. on March 10 so that students and staff members could attend Bill Christian's funeral service.

Composite photos hung

The composite pictures of Farwell High senior classes have been hung on the walls of Farwell High School.

The original plan was to purchase Plexiglas display units called multiplexes to display the composites, but the composite pictures came in a variety of sizes and shapes, and it would have been very costly to purchase several multiplex units to house all of the photos.

Bynum says mobile home fire caused by stove

Texico City Marshal Brent Bynum has reported that the cause of the fire that took the life of Louis Vann of Texico has been attributed to a kitchen range.

The stove had been used to heat the mobile home because the furnace had stopped working, said Bynum. Bynum praised survivor Damon Vann, who helped to get the Altman girls out of the trailer. Vann had been sleeping, and he got the girls out of the trailer before he even took time to dress himself.

A fund has been set up at the Texico Branch of Citizen's Bank of Clovis to benefit the Vann family of Texico which suffered the loss of Michael Louis Vann and all of their belongings in the mobile home fire last week.

Anyone who would like to donate to the fund may do so at Citizen's Bank.

Lady Wolverines lose in state tournament

The Texico Lady Wolverines lost to Albuquerque Des Moines 51-46 in the New Mexico state finals on March 3.

The Regional Champion Lady Wolverines had a disappointing end to their season. They had a 22-6 season record. They were first at the Springlake-Earth Tournament, 2nd at the Farwell Invitational Tournament, 2nd at the E.P.A.C. Tournament, 2nd in District 6A, and 1st in Region B.

"We really thought we had a good chance to win the state tournament. Even though we lost, the girls never quit. They hustled to the very end, and I think everyone from Texico was proud of them," said coach Roy King.

"It was one of those games where we forced a lot of turnovers, but just couldn't convert them into baskets. We only hit 6 out of 41 in the first half and only 2 out of our first 12 the second half.

They were great shots, but they would not go in. You are not going to beat a lot of good teams like that.

"I feel especially badly for the seniors. They worked hard all year, and they won't have another chance. Our team is young and hopefully they will make it back next year. This is my goal and I hope it is the players' goal too."

Twilla Longo led with 16 points. She had 11 rebounds, 4 steals, and 1 assist.

Tracy Askew was right behind with 13 points, 8 rebounds, and 3 assists.

Leslie Steward had 8 points, 5 rebounds, 8 steals, and 3 assists.

Andria Chadwick had 6 points, and 3 assists. Robin Pierce had 2 points, 2 rebounds and 1 assist. Jennifer Gentry had 1 point, 2 rebounds, and 2 steals. Geneva Garcia had 2 rebounds, and 2 steals. Jennifer Williams and each had 1 rebound.

A vehicle drove into the side of the Farwell Dairy Queen on March 8.

Accident causes damage at Farwell Dairy Queen

Officer Craig Hunt of the Texas Highway Patrol reported that a vehicle driven by Pamela Haseloff drove into the Dairy Queen in Farwell at 4:15 p.m. on March 8.

Mrs. Haseloff's son, Dwayne, 11, was a passenger in the vehicle at the time of the accident. Both Haseloffs were taken to Clovis High Plains Hospital. Mrs. Haseloff remained in the hospital overnight for observation.

Mrs. Haseloff had been to her doctor's office just prior to the accident. She stopped at the Dairy Queen, ordered food from the drive up window, and then pulled to the east side of the building to wait for her order. Her vehicle did not stop; it went right through the doors of the building.

Mrs. Haseloff was not ticketed; the incident took place on private property, and not on a road.

There were at least 4 customers in the Dairy Queen at the time of the accident. Patsy Berry was cooking at the time of the accident.

"One man had a cut finger, the table he was sitting at was badly twisted, but he and the other man at the table

got out of the way in time," said Mrs. Berry. "Her vehicle stopped just before getting to a table where two ladies were drinking milkshakes."

Some white stuff falls

Last week's snow brought about 2 inches to Lariat, according to Lonnie McFarland of Sherley Anderson Grain Co., Lariat, and a similar amount to Lazbuddie, said Scott Brown at the Sherley

Anderson elevator there.

Carol Smith estimated that 1 1/2 to 2 inches of snow fell near Oklahoma Lane Gin.

The moisture helped to bring green to the grass and fields.

Now playing in Farwell

Space age technology

Space age technology has arrived in Farwell in the form of laser disc players at the Farwell High School and Junior High School.

Right now the laser discs are being used in the science classes. The school system has purchased laser discs which will augment the earth science, life science, and physical science curriculums at the school.

The laser discs look very much like shiny phonograph records, but they contain visual images instead of auditory images. They are played on a player that looks like a vcr player. Beams of light reflect images on the television screen.

"Each disc contains so much material. It would take a lot of films to contain this much material. I think there are about 55,000 images on each disc. And, they are so

beautiful," says Eva Dean Stephens of Farwell Junior High.

The laser discs are as easy to use as a VCR. Unlike films which must be exactly aligned in the projector or the film will rip, the laser disc automatically aligns itself.

In the past, Farwell teachers would order films from the service center to augment the textbook. Often the films would not be available at the time the teacher needed them because other teachers had ordered the films first, or because the films needed mending.

Anyone who has sat through a jumpy, poorly spliced film knows how maddening it can be. It is also distracting. Students begin to look for the jerky motions in the film rather than concentrating on the message the film is supposed to deliver.

Mrs. Stephens adjusts the television set.

In the laser disc player, no part of the machinery touches the disc. It is hoped that this will prolong the life of the materials.

"It puts so much more information at our disposal

than we could have had with the textbook or with the film library," says Mrs. Stephens.

"Many students are visual learners; textbooks turn them off. But, they learn so much better when they can see something happening before their very eyes," she added.

Some of the film clips on the laser discs feature time lapse photographs of things happening like a bean seed sprouting or a flower opening.

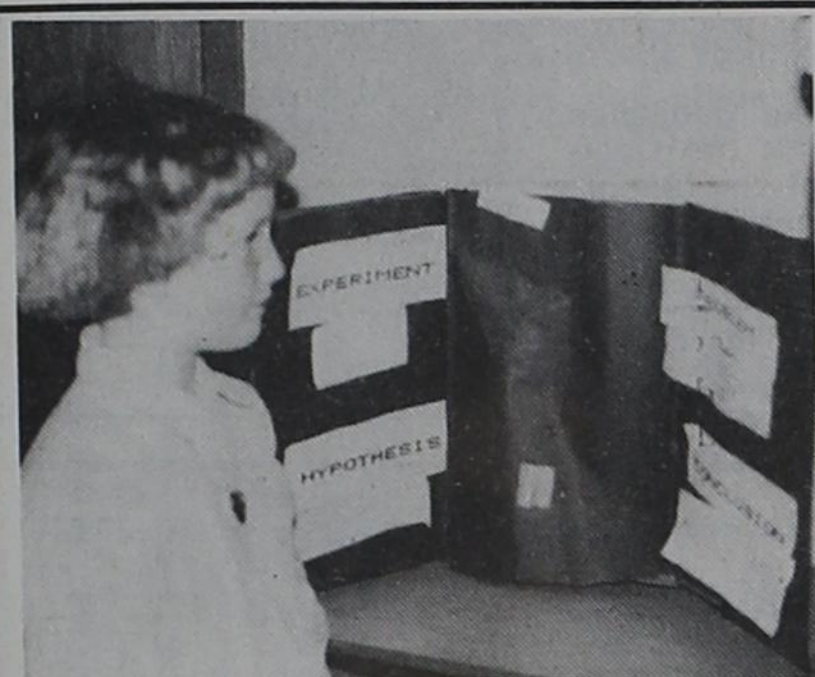

One of the options that Farwell teachers may exercise is to make a computer program to correlate the laser disc images with their lesson plans so that they will automatically know which images on which discs go along with the lessons they are teaching.

"We don't usually buy films," said school Supt. John Grigsby. "We get what we need from the service center, but the laser discs are far superior to films."

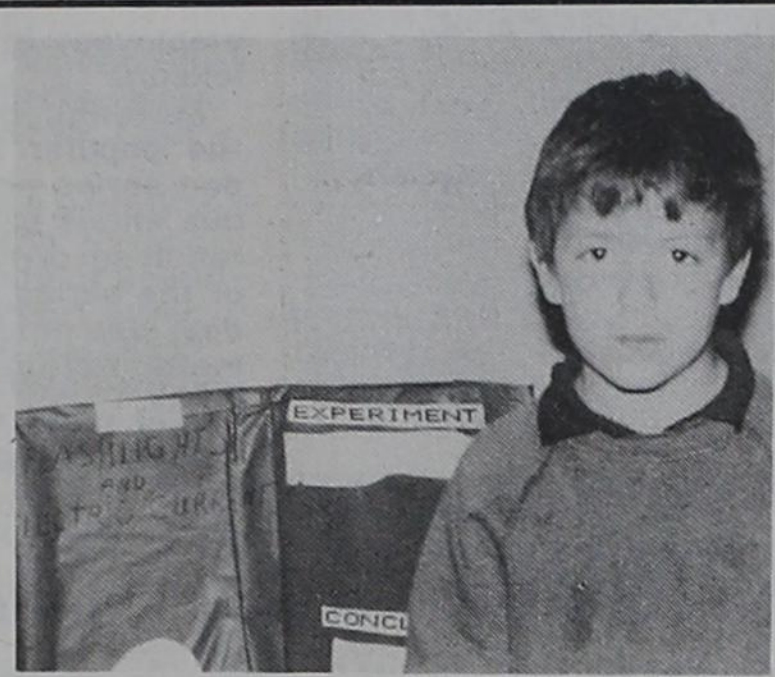

"The picture quality is far superior. There is no distortion. We can replay these images very easily. And, films deteriorate so fast. These laser discs should last longer."

Eva Dean Stephens shows the Earth Science Laser Disk which contains thousands of visual images.

Author to speak at annual banquet

Nationally known author and humorist John Erickson will speak at the Farwell Chamber of Commerce Annual Banquet at 7:30 p.m. on March 12 at the Farwell Community Center.

Tickets for the steak dinner and entertainment are \$7.50 per person.

Erickson was raised in Perryton, Texas. He graduated from the University of Texas in 1966, and spent two years studying at Harvard Divinity School.

He began writing in a disciplined manner in 1967 and continued writing four to five hours a day while working full time as a bartender, carpenter, handyman, farm hand, cowboy, and ranch manager.

In 1982, after 15 years of trying without success to place his work with New York publishers, he started his own publishing company in his garage in Perryton. Maverick Books, Inc. now ships books all over the United States and has two fulltime employees in addition to Erickson.

Maverick books publishes the popular Hank the Cowdog series about the humorous antics of canine head of ranch security. The first book of the series, Hank the Cowdog, was produced as an animated feature for CBS Storybreak.

In addition to the Hank series, Erickson has written over 500 articles and 21 books, many of the dealing with the traditions and life of the cowboy. He examines the day to day job of the modern Texas cowboy from the point of view of a man who has been a cowhand in the Texas and Oklahoma panhandles.

Erickson has also published a collection of cowboy humor and tales. The Devil in Texas, Cowboys are Partly Human, Alkali County Tales, and Cowboys are a Separate Species have received wide acclaim throughout the Western ranch country. He has also developed a radio program around the book Cowboys are Partly Human and another for Hank the Cowdog.

Erickson has written the only authorized biography of Ace Reid, the creator of "Cowpokes" cartoons.

Burger Barn bought

Max and Pat Carter of Texico have purchased the Burger Barn. It will be managed by Sue Rule.

"We've been cleaning and putting in new lighting to brighten it up," said Max Carter. "We have also set up a waitress's station."

The waitress's station contains silverware and other items the waitress needs to have handy to serve customers.

Carter says of the acquisition of the Burger Barn, "The

opportunity presented itself, and we thought we'd give it a try."

Carter is also in charge of the Texico school buses. He owns a fruit and vegetable stand which operates in Texico in the summer months, and he does plumbing work.

"We'll have daily specials, and we'll breakfast from 7:30 to 10 a.m.," said Pat Carter.

"At first we'll be evaluating how to do things best, then we'll start making some changes," said Carter.

Pleasant Hill Class of 1937 has reunion

Fifty years ago, on May 13, 1937, 10 students graduated from Pleasant Hill High School.

Six students returned for their reunion. Due to illness, the class had a belated reunion Feb. 18 at Ranchers & Farmers Steakhouse.

Those attending were: Wilma Pipkin Barnes, Dorothy Lee Zeale, Minnie Boco Franks, Pauline Kirby Greathouse, all of Clovis. Joe Talley of Friona, and Syble Bell Strongman of New York. Also attending were three of their high school teachers: Mrs. Mary Curtis Ballow, Mrs. Lois Wilkerson Cox, and Mrs. Ethel Comer Stone, all of Clovis.

Those unable to attend were: Roy Melugin, superintendent of Pleasant Hill schools, and students Betty Board Griffen of Tallahassee, Fla., R.L. Day of West Lake, Calif., and Edwin Fahsholtz of Union, Ore.

The group enjoyed a steak dinner and shared a beautiful decorated class made by class member Wilma Barnes. The evening was spent reminiscing over a period of years by showing treasured pictures, scrapbooks, report cards, athletic trophies and the school yearbook, "The Warhoop".

A special poem, "The Way We Were," and a class history was read by Minnie Franks. Letters of regret were read to the group from those absent, and plans were made to celebrate again in 1992.

Also attending were Betty Talley, wife of Joe Talley, and Joy Franks, husband of Minnie Franks.

The evening closed with a group taking pictures to be shared with those unable to attend.

Philgas gives a farmer the energy to get things done.

Half a century ago, L.P. gas was considered useless. Now, the more we look, the more we find how well it works in modern farming. Flame weeding. Warming stock tanks. Running trucks, tractors and generators. Space heating. Irrigation. Cooking. Drying crops and clothes. Even heating brooder houses.

Today, a multitude of jobs are being done on the farm more efficiently, economically and conveniently than ever before, thanks to clean burning L.P. gas.

So come by and let us show you all the ways you can put Philgas to work to make life a little easier around your farm.

Importance of West Texas State stressed

Dear Sir:
As a member of the West Texas State University Foundation Board, I feel it is time we recognize what a real asset WTSU is, not only to Amarillo and Canyon, but to the entire region. A large percentage of our graduates stay in the Amarillo and Canyon area and make major contributions to the area of banking, nursing, technology, teaching, agriculture, accounting, computer science,

and management. WTSU plays a major impact on the cultural enhancement of the Amarillo area through its faculty involvement in such groups as the Amarillo Symphony. More than 50% of the Symphony's principal musicians are derived from the Department of Music and

million to the Amarillo area on an annual basis. It is critical that business get behind this university and help it grow, if for no other reason than the economic impact it continues to have.

It is a matter of history as to what Texas Tech has become because of the support of its city and area citizens. We're all overdue to make that same commitment to West Texas State University.

Sincerely,
Pauline M. Hefley

Santa Fe depot being demolished

The demolition of the old Santa Fe railway station in Texico is under way.

The station was built about 80 years ago, and it was here to greet many of the early settlers in this area.

Plans to save the building were made by the members of the Bordertown Heritage Foundation, but they were unable to raise sufficient funds quickly enough to forstall the demolition by the railway.

"We have a meeting planned this week to make plans for returning money to those people who made direct donations to the project," said BHF official Ann Cooper.

According to Mrs. Cooper, money will not be returned to those who purchased tickets for the chili supper or those who bought copies of the print of the station because they have gotten something in return for their donations, and it has cost money to do the work of the committee and to conduct the moneymaking projects. Money raised by those projects will be used for something to benefit each of the Twin Cities.

Farwell Convalescent Center Chit Chat

By Lynne Gann Activity Director

We're making plans for April.

Among the things we wanted to plan was a shopping trip to the mall. About 10 people had shown an interest. We need volunteers to help us push wheelchairs or just go along to give assistance.

Our trip is set for April 13, a Wednesday at 2 p.m. CST. We should return about 4:15 - 4:30.

If you're interested in going with us, please let me know. We welcome all who care to share some of your time with us.

We have been trying to make our fire drills a learning experience for all of us. We ask questions like: what do you do if you open your door and there is a fire? Where are the fire exits in a certain area? If you are evacuated from the building, where do you go? We try also to reassure that you are never going to be left alone. We will take care of you. After all, fire is frightening for anyone. How nice to know no matter what the emergency there are people trained to see we are safe!

Meals on Wheels

Noon meals can be delivered to your door. For further information, contact the Farwell Convalescent Center at 481-9027. This program is for elderly, handicapped and temporary illnesses.

Tele-Care

To join our Tele-Care reassurance program created to provide a sense of security and protection, please call Linda Winegeart at 481-9027 weekdays from 8:30 - 5.
