

FROM THE  
HOPPER

BY HOP JR.

If you are a "fair minded citizen" you are sympathetic, or the union thinks you ought to be, with the strike they are staging at the Furr's warehouses and packing plant at Lubbock.

The United Packinghouse, Food & Allied Workers locals, which are affiliates of the AFL-CIO, are spending a lot of money promoting their cause in the columns of the daily press. They address their appeals to "fair minded citizens."

This makes me a pretty narrow-minded citizen by their standards, because I have not one whit of sympathy for their cause. They are resorting to force to bring an employer to his knees. This employer, Roy Furr, is a pretty big man to take on, but unions specialize in cutting big men down to size.

In this lopsided society in which we live, a group of unhappy workers can band together to do by force and intimidation what they could not legally do as individuals--force their will upon others. The law permits them to do this.

Union representatives organized the Furr workers last summer (which they had a perfect right to do) and then immediately attempted to bring concessions from the firm for the "benefit" of the workers.

They asked for higher pay, more vacations, more money for holidays worked, and other concessions. One of these "minor" demands that Furr has not yielded on is the union dues checkoff.

With the checkoff plan, dues are automatically deducted by the company from the workers' pay, and the money is turned over to the union. This is the "painless" way of collecting dues--painless to the employee (he'll never miss the money) and painless to the union (nobody will be in arrears with their union dues).

Although the practice of "checkoff" dues paying for unions has become widespread, it is deplorable that unions have succeeded in getting employers to do their dirty work. Invariably, dues collected for union activities sponsor programs that are detrimental to the firms. Why should company owners kneel to such demands?

I have never met Roy Furr, and I am sure he has never heard of me. Yet it makes me bristle to see the union striking at his hard-won gains. They are claiming much of the credit for his success.

The union advertisement states, "Mr. Roy Furr's enterprises have expanded over the years until they now include more than sixty outlets of various kinds in several states. A great deal of credit must go to Mr. Furr for this growth, but considerable credit must be shared with his employees whose services contributed so much. We earnestly believe that a large measure of Mr. Furr's success is due to our efforts and that these efforts should be justly compensated."

"Instead, we were forced out on strike, walking a picket line in bitterly cold weather isn't much fun. But we believe in principle and simple justice and we are determined to continue our strike until a contract is negotiated."

If this type of reasoning were valid, the union might share in some of the "credit" for businesses which fail, as well as those which succeed. They might suggest a cut in pay for employees while businesses were going through rough seas--but they never do.

As to being "forced out on strike" that is the most ridiculous claim of all. Who asked them to strike? Surely the Furr management did not want work stoppage. The idea to strike is the union's. That is the club, now sanctioned by the law, that they hold over employers' heads to compel them to yield to union pressure.

The people who work for Roy Furr ought to be proud that they are in an organization that has forged ahead in spite of vigorous competition. The fable of the goose that laid the golden egg has a message for today.

Is there any virtue in being neutral? I have my doubts about it.

People are of different natures, and have different ideas about their standards of conduct. Some literally go spoiling for a fight; others do anything to

FIFTY-SECOND YEAR

10 CENTS

**Waggoner Car C-C Headliner**

Persons attending the annual Farwell Chamber of Commerce banquet Thursday night (February 14) will have an opportunity to see and hear one of Texas' most outstanding personalities.

Waggoner Carr, Texas attorney general, will headline the special Valentine's Day event, which will be held in the Farwell school cafeteria starting at 7:30.

The affable Lubbock attorney, who has turned to the field of public service to make a name for himself, was elected by big majorities in both the Democratic primary and the general election last year to the state's highest legal post.

He is regarded as West Texas' and the Plains' best hope for a governor, and although that is looking down the road several

years at least, the fact that he is now attorney general signifies to his boosters that the governor's chair is beyond the range of fantasy. It could become fact.

Carr was a graduate of Texas Tech in 1940, and the University of Texas in 1947. He was admitted to the bar in 1946. He is a former assistant district attorney at Lubbock, and a former Lubbock county attorney.

He was elected state representative in 1951 and in 1957 rose in station among his fellow house members to the position of speaker. He was speaker of the House for the 55th and 56th legislatures.

The annual banquet is the Chamber highlight of the year,

and officers and directors will be introduced to guests. New officers and directors are Hurshel Harding, president; Joe Jones, vice-president; Smokey Gast second vice-president; R.

W. Anderson, treasurer; Wilfred Quickel, secretary; and Robert Shumann, Shorty Hughes, Jerry Bradshaw, Herb Potts, Tom Cobb and Bull Dollar, directors.

WAGGONER CARR

IN LAST MINUTES --

**Wolverines Lose To Melrose**

With less than three minutes left to play and trailing by 10 points, Texico Wolverines rallied to tie their game with Melrose here Friday night 40-40.

In overtime play Melrose gained one point to win the game. Only seconds before the end of the fourth quarter Wayne Hudson, junior, made a long shot from near the center line. This tied the game and the crowd was extremely excited.

In overtime play Melrose maintained control of the ball most of the time winning on a free toss.

Buddy Spence lead the home

team with 18 points and Jackie Dyer tossed in 8. Hunt and Bradley were high on the visiting team with 8 points and 7, respectively. Scoring was pretty evenly distributed among all the players.

Maintaining a losing streak Texico lost to Tatum last Saturday night 51-44 at Tatum. Spence again led the Wolverines with 15 points and Vic Harrington netted 12 points. Attoway was high point player for the host team when he made 20 points.

The local team host Elks here Saturday night for a Homecoming game.

**Randol Resigns From Farwell City Council**

Farwell City Dads meeting in regular session Friday afternoon accepted the resignation of J. E. (Ebb) Randol from the city council. He is leaving town to make his home in Muleshoe, where he has gone into business. No one was selected to replace Randol at the Friday meet, and officials after discussing the matter decided to wait until the city election in April to replace him. City election is scheduled for April 2.

Date for the regular city meeting for Farwell was changed from the first Friday of the month to the last Friday in each month. Next meeting will be February 22.

Two new street lights are to be installed in Farwell with one to be installed on the property of the Methodist Church and the other on the property of First Baptist Church.

Five building permits were issued by the city in the past month with one each going to Omer Fletcher to move a new house to the Mimo Addition; Wayne Koehler to move a house to 8th St.; Verney Towns to set

an anhydrous ammonia tank on the lots next to State Line Grain; L. L. Cooper to build a new steel gin building and one to Dale Bergegen to park a trailer house on his property on 6th St.

In other business transacted all bills were approved for payment.

**Sunday Services For Edward H. Meeks**

Funeral services were conducted at the Farwell Church of Christ, Sunday afternoon 2:30 p.m. for Ed H. Meeks 77, who passed away Friday morning at 8 a.m. in the home of his son Clarence M. Meeks. Burial was in Lawn Haven Cemetery under direction of Steed's Funeral Home.

Don Tarbett, pastor of the local church, officiated at last rites assisted by Ebb Randol, longtime friend of Mr. Meeks

EDWARD H. MEEKS

and a former pastor of the local Church of Christ.

Mr. Meeks was a longtime resident of the Farwell area, moving to this community from Oklahoma and settling at Lariat in 1918. He later lived in the Oklahoma Lane Community where he farmed until his retirement in 1957.

He was married to Avo McGee in 1915. She preceded him in death in 1959.

Four sons, Lee E., Clarence M., W. T., and Billy Meeks, all of Farwell survive as well as ten grandchildren and one brother, W. R. Meeks of Nowata, Okla.

Pallbearers were C. L. Mahaney, Kirt Crume, Harold Carpenter of Farwell and Levi Johnson, Billy Marshall and Buck Ellison, Bovina, Honorary bearers were C. C. Christian, Jack Glenn, Ted Sheets, Lee Thompson, Bill Venable, Fred Gerles, Chester Fowler and George Patton.

**Mrs. Huddleston Returns Home, Under Observation In Friona**

Mrs. Jack Huddleston is undergoing diagnostic mental tests in Parmer County Community Hospital this week, and is under observation at the Friona hospital.

Mrs. Huddleston, 35, disappeared mysteriously from her home 12 miles north of Bovina last Friday, but returned home Sunday night. Mrs. Huddleston apparently had been in Amarillo, and saw a story about her disappearance in a newspaper, and caught a bus home.

Her personal physician, Dr. George M. Anderson, said "Mrs. Huddleston definitely is suffering from a mental disorder. Her recent actions have

been entirely beyond her control, and do not constitute a social or family problem. She is definitely sick."

Dr. Anderson said he expected the tests to tell whether her trouble was organic or psychiatric. He said this type of diagnosis usually took quite a bit of time, and it would probably be at least a week before anything concrete was known.

The Parmer County woman left home Friday in the family car with \$11 in her purse, according to her husband, without a word to anyone. She was missing from home in a similar instance in December.

A few days before her disappearance, Mrs. Huddleston had been admitted to the hospital with a gastro-intestinal infection. "This is considered a good indication for doing a spinal tap," Dr. Anderson said. It was decided that Mrs. Hud-

leston should spend a few days resting at home before the tests were resumed, but she left home Friday undetected.

"Mrs. Huddleston acted upon compulsions beyond her control. She is not responsible for her actions in the past three months no more than a person with appendicitis is responsible for the pain in his side," said Dr. Anderson.

**Death Takes Jerry Spurlin**

Jerry J. Spurlin, 87, long time Texico resident, passed away at 10:20 Wednesday night. Funeral plans have not been completed.

Survivors include his wife, Mattie; one son, Rev. J. J. Spurlin, El Paso; two daughters, Mrs. Val Baumgart and Mrs. Jack Chambliss, both of Clovis. Several grandchildren also survive.

**Skaggs, Danforth Elected**

Paul Skaggs and Fred Danforth are Texico's new board of education members, following a record setting election in the district Tuesday.

The clerks at the election poll at the city hall exhausted their supply of ballots as the day's voting drew to a close, and were forced to turn to an office copying machine to produce some ballots at the last moment.

The printer had been ordered to supply the judges with 380 ballots, and there were 383 votes cast.

Paul Skaggs, Texico farmer, led the field with 207 votes. He was closely followed by Fred Danforth, Texico insurance man, with 202. Danforth and Skaggs had been boosted by a district group and their efforts had telling effect.

House of Representatives. The bill would make it virtually impossible for a town of less than 5000 population to extend the town limits. A letter was sent to Senator Bill Duckworth and also to the House of Representatives stating the opposition of the town council to such a bill.

The resignation of E. C. (Slim) Clifton town marshal was accepted and announcement made that any qualified man of voting age desiring the job could pick up an application form at the town hall. Applicants for the job will be considered at the February 15, meeting.

All bills for the preceding month were approved and ordered paid. Next meeting will be February 15.

**Steers Stumble, But May Revive**

Fans of the Farwell Steers have their hopes up again this week, thanks to the help of the Hale Center Owls, who upset the district-leading Kress Kangaroos Tuesday night, to throw the district into a Kress-Farwell tie.

Hale Center wasn't much help Friday night of last week, however. They punctured Farwell's hopes with a painful one-point loss, scoring the game-winning basket with a play that has been the object of much coffee shop talk in the local community.

Tonight Farwell plays Sudan to end the season, and should win handily. Kress meets Springlake to end their year also

and forecasters have figured that the Wolverines have a good chance to upend the Roos. If they do, and the Steers don't stumble, the Blue and White will be handed one-half of the district crown.

(The other half would have to be earned in the district tournament -- to be played at Hale Center.)

Both Kress and Farwell have lost two games in regular season play.

In the Friday night close one at Hale Center, the Steers were hanging onto a one-point lead with only 30 seconds left in the game. They passed the ball in and worked into a play and got a shot, which missed, and the Owls took the ball.

Starting play from out of bounds with two seconds left on the clock, the hosts passed the ball in, moved to deep center court, and launched a sensational shot which whipped the net.

The referees ruled that the shot was gotten away before the time ran out and awarded the Owls a 48-47 victory. Farwell fans loudly protested.

Farwell's five led the entire period until the excitement of the final seconds. They gained a four-point lead the first quarter when the score was 14-10, and picked up an eight-point lead the second quarter, 28-20.

The last half of the game, the Steers led by narrow margins, being ahead one point at the end of the third period.

Leon Lovelace and Ronnie Reed made 12 points and 10 points respectively for the Steers. Freddy Wiel and Brooks were credited with 14 points and 12 points for the host team.

**Services For Infant**

Graveside services for Melvin Edward, infant son of Mr. and Mrs. Hugh Moseley, were conducted at 4:30 p.m. Wednesday in Memorial Sunset Terrace Cemetery.

The baby was born Tuesday morning and lived only a few hours. Rev. J. L. Bass, pastor of Farwell First Baptist Church, officiated.

Survivors include his parents, and grandparents, Mr. and Mrs. Melvin Snider Sr. Farwell and Mr. and Mrs. David Moseley, Friona.

**Commissioners Approve Salaries**

Salaries for all the county officials were approved at a meeting of the Parmer County Commissioners Court January 28 in Farwell.

In other business, the court appointed a jury of view for two petitions of Richard Sims, et al. The jury will consist of Clyde Hays, Dick Rockey, A. G. Schlabs, Otey Hinds and Roy Euler.

The commissioners approved the payment of rent for an office for the Friona Justice of the Peace at the Friona American Legion Hall.

The following were designated as official locations for Justice of the Peace courts in Parmer County: Precinct 1 - Court-house, Farwell; Precinct 2 - American Legion Hall, Friona; Precinct 3 - City Hall, Bovina. The following salaries were

approved to be paid by the county:

County Judge - \$6000; commissioners - \$2400 each, plus \$600 travel allowance; County Treasurer - \$4500; County Attorney - \$3600; County Sheriff, \$5600; sheriff's deputy (Farwell) - \$4200; office deputy (Farwell) - \$2400; sheriff's deputy (Friona) - \$3900; sheriff's deputy (Bovina) \$3900.

County Clerk - \$5000; clerk's deputy - \$3000; District Clerk - \$4500; Tax Assessor-Collector - \$5300; first deputy - \$3300; second deputy - \$3000; third deputy - \$2700.

Justice of the Peace, Precinct 1 - \$1200; Justice of the Peace, Precinct 2 - \$1200; Justice of the Peace, Precinct 3 - \$1200; County Auditor - \$1200; Agricultural Agent - \$2200 plus

(Continued on Page 2)

**New Beauty Shop Opens This Week**

Newest business in the Twin Cities is a beauty shop, operated by a newcomer to the community, Mrs. R. M. Bradley.

Mrs. Bradley is announcing the opening of Bradley's Beauty Shop, located at the corner of Third and H in Farwell, this week. The family resides in a new home at 710 Third, with the business door facing the south.

Mr. and Mrs. Bradley, with their daughter, Alcidine, and her mother, Mrs. Frank Weiss, moved here from Tulla in January. Mr. Bradley is engaged in farming.

Mrs. Bradley completed her training at beauty school in Plainview.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879. Published every Thursday.

SUBSCRIPTION RATES -- Farmer and adjoining counties, \$3.00 per year; elsewhere, \$4.00 per year. Payable in advance.

## You're So Smart . . . Now Answer These!

Are you a resident of the Twin Cities? Do you think you know your community and its environs pretty well? Okay, here's a little pop quiz on the place you live in. See how well you score. If you get half of the answers right, you're average. A score of two-thirds to three-fourths right answers makes you an expert on Texico-Farwell. Fire away.

1. What is the elevation of Texico-Farwell? (If you come within 50 feet, count yourself correct.)
2. What is the name of the first draw north of town? What river is it a tributary to?
3. What is the name of the second draw north of town? What river is it a tributary to?
4. State within 100 what the combined 1960 census of Texico-Farwell was.
5. Where is the nearest commercial oil production to Texico - Farwell?
6. At the time of the inventory in 1955, what amount of water for irrigation was estimated to underlie Parmer County?
7. How old is the incorporated city of Farwell?
8. How old is the incorporated city of Texico?
9. What is the combined capacity of the grain warehouses in Texico-Farwell? (Estimate within 250,000 bushels.)
10. What is the total enrollment at Texico-Farwell schools? (Guess within 100.)
11. How many telephone listings are in the local directory? (Come with 100.)
12. How many blocks of paved streets are in the Twin Cities? (Come within 25.)

### ANSWERS

1. 4150
2. Running Water, Brazos.
3. Frio, Red River.
4. 2012
5. The Milnesand field south of Fortales.
6. 13,600,000 acre feet.
7. 1914 -- and, again in 1950.
8. 1908.
9. 7,015,000 bushels
10. 1000
11. 722
12. 106 blocks.

## Muleshoe Youth Honored

Richard Dee Chitwood of Muleshoe was honored for his outstanding achievements in 4-H club work at the Sixteenth Annual Luncheon sponsored by The Cattleman magazine in Fort Worth, Monday, Jan. 28. About 1000 stock show exhibitors and livestock industry representatives attended.

Richard's parents, Mr. and Mrs. Dee Chitwood, Rt. 3, Muleshoe, were guests at the luncheon also.

Young Chitwood is vice-chairman of the Texas 4-H Council and has served in his County and District Councils. His 4-H projects have included Cotton, Grain Sorghums and Junior Leadership. He has also been a recipient of the Santa Fe Educational Award.

Chitwood, an honor graduate of Lazbuddie High School, is a freshman at Texas A. and M. majoring in Agricultural economics.

Representatives of other major rural youth organizations were also honored at the luncheon. They were: Judy Miller of Gunter, Tex., secretary-treasurer of the Texas 4-H Council; Diane McKnight of Commerce, Tex., Area 6 president of the Future Homemakers of America; and Jerry Clark of Buna, Tex., president of the Texas Association of Future Farmers of America.

Each was presented a leather plaque by the Texas and Southwestern Cattle Raisers Association. Leo Wedler of Victoria, TSCRA president, made the presentations.

In presenting the plaques, Wedler paid tribute to the organizations which the young people represented and complimented the recipients on their achievements.

He pointed out that much of the progress in agriculture of the past decade has been due to the training which farmers and ranchers received in their youth as members of FFA, FHA, and 4-H clubs. This training has not only improved and increased farm production, but has helped to change the image of the farmer from a "hayseed" to a businessman.

Welder also emphasized the importance of supporting the screwworm eradication program in its final drive for funds.

The Cattleman magazine is published by the Texas and Southwestern Cattle Raisers Association. Henry Biederman, editor, was master of ceremonies at the luncheon.

### Hopper --

(Continued from Page 1)

avoid controversy.

Probably the most praise worthy course would be somewhere between these two extremes. A person who always must have his way, or is so vocal and insistent about his opinions that he shuts his mind to any shade of thought not in accordance with his own will, in time finds himself having earned the reputation of a crank. His words no longer carry any weight.

By the same token, the innocuous personality will withdraw into a shell of silence, or look the other way and pretend never to notice a disturbance when controversy comes noisily riding by. He isn't thought much of, either. He calls himself "neutral" but he often is in fact simply cowardly.

Nations are like this also. The bluster and braggadocio of Fidel Castro is about as outrageous as the conduct of the head of any state could possibly be. Castro offended the sensibilities of nations which had for a long time been sympathetic toward his rise to power, and he insulted and enraged the United States.

Prime Minister Nehru of India has pretended to be a neutral and advocate of the policy of non-violence. It appears that this is his policy only when it suits his intentions. He used violence to good advantage when he decided to eliminate the Portuguese enclave of Goa which had been recognized for hundreds of years as an independent territory.

Nehru used all the influence he could muster to get the U.S. to stop testing nuclear weapons "in the interest of peace" which

## Commissioners --

(Continued from Page 1)

travel expenses, \$500; secretary to County Agent, \$2700. County Health Officer - \$525; Custodian of Building and Grounds, \$3900; Court Reporter, District Court - \$1600; Secretary to District Attorney - \$708.60; Secretary to State Welfare - \$720.

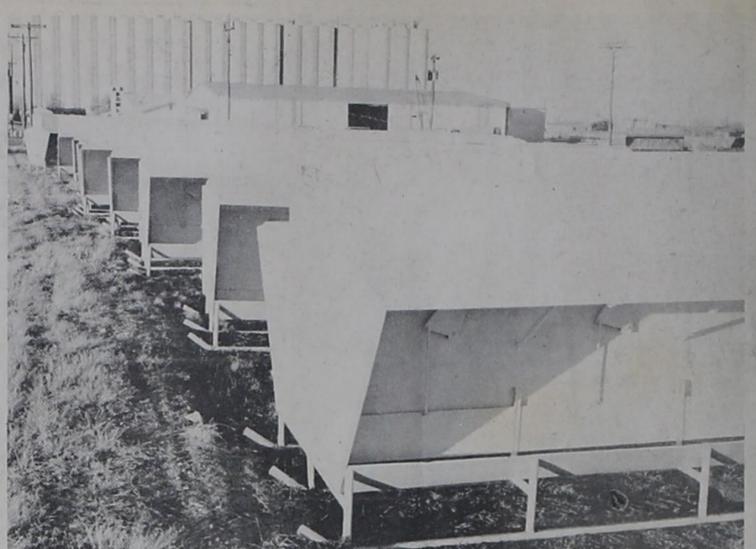

we did for over a year. He criticized us for beginning testing again last year after the USSR broke the no-test moratorium.

About this time Communist China raided his nation from the northeast. As Nehru is a great champion of the United States and has pledged for years to recognize Red China and seat them at the UN, doubtless this was a low blow to India.

This has been the result of Nehru's "neutralist" approach. The greatest moralist who ever lived, Christ of Nazareth, never considered for a moment forcing his philosophy upon others. Yet he was strong in his convictions and certainly not neutral toward the things he considered wrong in the world he lived in.

Americans have always had a well-balanced outlook, I believe. We don't go around looking for trouble, but we're not afraid to stand up to it when it confronts us. We have our principles, and we won't stand idly by and see them torn down.

With a few exceptions, I believe that America has a record that will stand the test of history.

BRAND NEW FEEDERS from the area's newest manufacturing concern, Miracle Manufacturing Company, line up south of the Farwell shop. Miracle is one of the town's busiest places these days as the firm produces products to supply a growing demand in the livestock feeding business.

Some people want to please everyone. Because of the diverse natures of people, this is probably an impossible goal. Fence-straddling soon alienates all factions, and it's pretty hard to find a middle ground that will stay that way.

Past that, however, there are many other good reasons why a person should avoid a neutral stance. For one thing, a man is known not only by his friends, but by those who oppose him as well. It should be a matter of

pride that a man has enemies. By "enemies" I don't mean to cultivate the kind who would shoot you down, but those who think, talk, and act out different philosophies of living.

"Looks like a smart dog you've got there," remarked a friend.

"Smart? All I gotta say is, 'Are you comin' or ain't ya?' An' he either comes or he doesn't."

Wife: "Oh, Henry, the lady next door has a hat just like my new one."

Hubby: "Now I suppose you want to buy another one."

Wife: "Well, it would be cheaper than moving."

Farmer: "Let me tell you, my friend, that horse knows as much as I do."

Friend: "Well, don't tell anybody else; you might want to sell him someday."

# CHRISTIANITY

## Is The Bulwark of Our Way of Life

The Measure of a Christian

It has never been an easy matter to live a consistent Christian life. It has always required real spiritual stamina to be a genuine Christian.

As it has been, so it is now. The way to heaven stretches "upward." To reach the celestial city, one must constantly overcome the force of spiritual gravitation that tends to pull him downward. And this gravitational pull has increased in intensity in our generation. Temptations are more numerous and varied than heretofore. The devices of Satan are now many indeed.

In times like these, every Christian should measure himself spiritually. In order to determine his stature in Christ. Only by such measurement can one know whether a need for spiritual growth is indicated.

The Apostle Paul gave some excellent advice about measuring. Said, he, "For we dare not make ourselves of the number, or compare ourselves with some that commend themselves; but they measuring themselves by themselves, and comparing themselves among themselves, are not wise" (2 Corinthians 10:12). These Corinthians were making two dangerous mistakes.

They measured themselves by themselves. They measured their present lives by their past lives, which had been sordid indeed. Of course, they no longer committed the gross sins of their pre-Christian days. Thus, in contrasting what they were after being saved, with what they had been before, they found it easy to convince themselves that they were pleasing God.

The mistake of the Corinthians is often repeated today. One who wishes to determine his present spiritual stature measures himself by what he was before being saved. By contrast, the life he now lives so far surpasses in excellence his past life, that he thinks, "Surely God must be pleased with me." But one can live a far better life morally than he did before becoming a Christian, and still not please God. Morality is not spirituality. One can be moral, and still not be spiritual; though one cannot be spiritual, and not be moral. To rise in the rapture one must be filled with and led by the Spirit. Only such a life pleases God.

The Corinthians also compared (measured) themselves among themselves. In trying to ascertain their spiritual stature, they measured themselves by others in their congregation. And, if they ran true to present-day form, they chose those of lesser spirituality by whom to measure themselves. Seeing that they were better Christians than some others, they concluded that they were all right.

This latter error of the Corinthians has also been carried over into modern times. How often do Christians today, wishing to determine the extent of their spirituality measure themselves by others of lesser spiritual stature. Thus they fancy themselves better than they really are. By way of illustration, if someone had stood beside little Zachaeus, he would have felt very tall. But if he had stood beside Goliath, he would have felt small indeed. This lesson is apparent: The Christian who would measure himself by another Christian should always choose one more spiritual than himself.

One of the best standards of measurement for the Christian is the Word of God. In it is found the measure of a true Christian. He who measures up to its sacred precepts will certainly be ready when Jesus comes.

## Midland Ceremony Unites Miss Garrett-Don Hicks

Miss Abbie Lea Garrett of Midland, daughter of Mrs. Mildred D. Tate became the bride of Darell Don Hicks, son of Mr. and Mrs. Jesse Hicks of Farwell in a ceremony read by Rev. L. L. Morris at First Baptist Church in Midland, January 19, 7 p.m.

The couple exchanged double ring vows before an altar arrangement of seven-branched candleabra and large baskets of white stock and carnations. The candleabra were accented with sunburst arrangements of white carnations. Family pews were marked with nosegays of flowers tied with white satin ribbon.

Nuptial music included "Ave Maria", "Because" and "Whither Thou Goest".

Mrs. Sue Garrett, sister-in-law of the bride was matron-of-honor, and Misses Della Jewell and Barbara Mitcham were bridesmaids. They wore matching suits of cherry red velveteen with small matching pill box hats and shoes. Their gloves were of white kid and they each carried a single red rose tied with white satin ribbon.

Best man was Bill E. Reeves, a close friend of the groom. Candlelighters Dub Griggs and Harold Stanford also were ushers.

Miss Garrett, escorted to the altar and presented in marriage by her brother, Hershel M. Garrett wore a bridal gown of white Chantilly lace over satin styled with a Sabrina neckline dusted with pearls. The long fitted sleeves tapered to petal points at the wrists. The full

floor length skirt was accented at either side by two roses and extended into a chapel train. Her veil of silk illusion was attached to a crown of pearls.

She carried a cascade arrangement of white stephanotis and carnations centered with a white cattleya orchid atop her satin and lace covered white Bible.

Following tradition she wore a string of pearls for something old, her dress was new, the veil borrowed and the garter blue.

Mrs. Tate, mother of the bride wore for her daughter's wedding a light blue brocade sheath dress with a matching jacket and hat. Her shoes and bag were silver.

Mrs. Hicks, mother of the groom, wore a suit of teal blue with gold accessories. Both ladies wore corsages of white orchids.

A reception was held in the church fellowship hall immediately following the ceremony. The serving table was laid with white linen cloth and centered with an arrangement of white carnations and stock. The three tiered wedding cake topped by a miniature bride and groom figurine and a crystal punch service were placed at either end of the table. After the bride and groom had cut the first piece of cake it was served with punch by Mrs. Velma Ishar, aunt of the bride, and Miss Catherine

## Ruth Class Meets In Whitener Home

Mrs. C. H. Whitener was hostess to Ruth Sunday School Class, of the Farwell First Baptist Church, Monday evening. Co-hostess was Mrs. Pansy Ross.

Mrs. Mabel Reynolds presided over the short business meeting and Mrs. E. G. Williams using the twenty-third Psalm as her scripture presented a devotional on "Much Oblige Lord".

Guests played Bible quiz games during the social hour and refreshments of heart-shaped sandwiches, cake and tea or coffee were served to Mesdames N. R. Harding, Har-rye Whitley, John Boling, E. G. Williams, C. H. Whitener, True Bell, Fairy Stovall, Pansy Ross, Mabel Reynolds, Dora Johnson and Miss Maude Hicks.

## A Daughter For Larry Boyds

Mr. and Mrs. Larry Boyd announce the arrival of their first-born daughter, February 2, 3:55 a.m. in Clovis Memorial Hospital. The little girl weighed 5 lb. 15 1/2 oz. on arrival and has been named Sherilyn Rene.

Grandparents are Mr. and Mrs. Eugene S. Boyd, Glen Beaman and Mrs. Juanita Beaman all of Phoenix.

Boyd is technician at the office of Dr. T. J. Glenn.

## THE DICK POWELL SHOW

television's award-winning series co-sponsored by Gas Appliance Dealers and Southern Union Gas Company

TUESDAY AT 8:30 KGNC-TV NBC-TV ON CHANNEL 4

## Second Daughter For Buster Wootens

Mr. and Mrs. J. D. (Buster) Wooten of Portales announce the arrival of their second daughter, February 2, 11:48 a.m. in Clovis Memorial Hospital.

The little girl, who has been named Wyn Yvetta weighed 6 lb. 11/4 oz. at birth, was born on the first birthday of her sister, Joy.

Grandparents are Mr. and Mrs. B. A. Kelley Pleasant Hill and Mr. and Mrs. A. L. Wooten, Portales.

Mrs. Wooten is the former Phyllis Kelley.

## M. T. Glasscock To Seymour

M. T. (Mose) Glasscock was in Seymour over the weekend, where he attended the funeral of a longtime friend, Garland Holt. The men had worked together as boys.

While in Seymour he visited in the homes of Mr. and Mrs. Horace James and Mr. and Mrs. Walter Melear.

He returned home Tuesday evening.

Mr. and Mrs. Chosho Hanashiro of Okinawa announce the marriage of their daughter Emiko to Corporal Owen Huffaker, son of Mr. and Mrs. C. J. Huffaker of Farwell. The couple was married in Naha, Okinawa, December 11. Huffaker will receive his discharge from the armed services in April and the couple will return to Farwell at that time.

## FBLA Launches Project

"Operation Econ" was officially launched for members of the Texico Chapter of the Future Business Leaders of America Monday in club meeting. Joe Jones, Security State Bank, spoke to the chapter on Banking.

A national project of the FBLA, "Operation Econ" is designed to bring economic understanding to the members.

"We chose to study banking," reports Donald Chandler, FBLA president.

Kinds of banks, types of deposits and the many services rendered by banks were explained to the members by Jones.

Various forms such as coun-

ter checks, personal checks, bank drafts, bank notes and monthly statements were displayed by the speaker.

"We wish to express special appreciation to Bob Anderson, Security State Bank, who made our speaker possible," Chandler said.

To promote the unit further, the club president spoke to members of the seventh grade reading class. A mimeographed booklet, prepared by the local chapter, was distributed and the president explained briefly banking functions.

Learning to properly write a check and complete a deposit slip was demonstrated and members participated individually later.

A tour to a near-by bank to view the IBM system used was conducted earlier. Seeing a film on banking is to conclude the project.

## Announce Arrival Of A Daughter

Mr. and Mrs. Troy Christian, Oklahoma Lane, are announcing the arrival of a daughter, Monday, February 4, in Clovis Memorial Hospital.

The little girl who arrived on her dad's birthday has been named Sharma Dawn. She weighed 6 lb. 11 1/2 oz. and is 20 1/2 inches in length.

The Christians have a son, Vic Darren, age three.

Grandparents include Mr. and Mrs. C. C. Christian, Farwell, and Mr. and Mrs. Hubert Ellison, Truth or Consequences.

## Okla. Lane H.D. Club To Meet Feb. 13

Oklahoma Lane HD Club members will meet at the community center February 13, 2:30 p.m. instead of February 14, due to the Valentine Holiday.

Guest speakers will be ladies from the farwell "Tops" Club. They will discuss how to lose weight the sane and safe way. Hostess for the meet will be Mrs. Gilbert Kaltwasser.

## "Get Acquainted" Specials FOR FEBRUARY

Mr. and Mrs. A. B. (Dutch) Bell, Texico Route 2, are announcing the engagement and approaching marriage of their daughter, Carol, to Kenneth (Butch) Martin, son of Mr. and Mrs. Floyd Martin 2121 Ross St. Clovis. April 27 has been set as date for the wedding.

## Trib Exchange Student Speaks To ESA

Elke Steffens of Germany was speaker when members of Theta Rho chapter of ESA met recently in the home of the president, Mrs. Mitz Walling. The International Christian Exchange student is a resident in the home of Mr. and Mrs. Vernon Estes of Bovina, under the sponsorship of the Bovina Methodist Church.

In a brief business session preceding the meeting, members voted to donate \$10 to the cancer drive. A dutch supper was planned for the next business meeting in February.

Mrs. Estes introduced the

speaker and explained the procedure for obtaining an exchange student. Elke arrived here in August and is enrolled in Bovina Schools. In keeping with the study theme of Government by ESA, she compared West Germany and America, and touched briefly on the refugee problem from the Russian zone.

She discussed the educational systems, foods, clothing, teenagers and other differences and likenesses in the two countries. As for this area, she says "I like it -- you can see so far."

## Four different ways to make going more fun than getting there

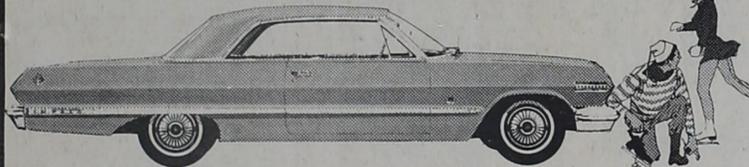

You can see why one of America's favorite outdoor sports is driving Chevrolets, with four entirely different kinds of cars to choose from. There's the Jet-smooth Chevrolet, about as luxurious as you can go without going overboard in price; the low-cost Chevy II, a good-looking car that would send any family packing; another family favorite, the sporty Corvair, whose rear-engine traction

will make you think that ice and snow are kid stuff; and for pure adventure, America's only sports car, Corvette—now in two all-new versions with looks that can stop traffic like a rush-hour blizzard. Picked your favorite already?

The next thing is to take the wheel at your Chevrolet dealer's. If that doesn't have you thinking of places to go, maybe you'd rather just have a ball around town!

## Wanda Eshleman Crowned Texico Band Sweetheart

In halftime ceremonies at the Texico - Melrose basketball game Friday night Miss Wanda Eshleman, daughter of Mr. and Mrs. Orris Eshleman was crowned sweetheart of the Texico Band.

Miss Eshleman, wearing a floor length formal dress of blue net, dusted with rhinestones and accented with net discs centered with blue roses, designed and made by her mother, was escorted to the center of the basketball court by Howard Danforth, band president, as the band played "My Wild Irish Rose". She was crowned by Danforth and presented with a gold trophy bearing the inscription "1963 Band Sweetheart, Wanda Eshleman", and a dozen red roses.

Attendants were Cheryl Lockmiller and Tim Lovett.

Miss Eshleman is a junior in the Texico School where she is active in all phases of school life, with emphasis on music. She has been a member of the band for eight years and is a

and Mrs. Robert Servatius.

Word has been received that Mr. and Mrs. Clarence Anderson, brother and sister-in-law of Mrs. Taylor and Mrs. Servatius, were involved in a car accident near Denver. Mrs. Anderson received a broken nose, broken leg and severe cuts and bruises. Mr. and Mrs. Tommie Anderson left Monday to be with Mrs. Anderson, in Denver.

Guests Sunday in the home of Mr. and Mrs. H. M. Hopper were Mr. and Mrs. Bob Loody from Clovis.

Miss Pauline Servatius spent the weekend with her parents, Mr. and Mrs. Robert Servatius. She is attending ENMU.

Mr. and Mrs. Arlie Taylor and son, Johnnie, from Hale Center recently visited with Mr. and Mrs. Roy Richardson.

Mr. and Mrs. C. O. Joplin and daughters visited with Mr. and Mrs. Alton Robbins and baby Sunday.

A bowl of sweet peas on the breakfast table is reward enough for giving them extra attention.

A few of the loveliest of annual flowers like best the cool weather of early spring and will not thrive when temperatures rise. These include larkspur and sweet peas, two annuals that many gardeners have found disappointing because they have not considered the requirement given above.

As you know, it isn't always easy to work the soil in very early spring, so preparing it in fall and sowing the seeds of these two annuals then will not only suit the flowers but also the gardener.

Larkspurs need only a shallow drill prepared for their seeds. But sweet peas like their roots deep in the cool soil; for them, dig a trench a foot deep and, if you can acquire manure, mix it with the soil at the bottom of the trench.

Then cover this mixture with two inches of soil and on top of this sow the seeds, spacing them an inch apart. Cover with soil three inches deep, then fill in the trench with any rough material like straw or hay. Leave the extra soil alongside the trench for use in spring.

As the young plants grow, thin them to stand six inches apart. Provide a support of wire or brush for them to climb on.

IF YOU DIDN'T KNOW, there are still some old-time privies around town. Though no longer functional, they serve as objects of interest to neighborhood boys, and make ideal -- though drafty -- clubhouses. Here's a two-holer with some boys surveying their domain.

### LOCALS

Hugh Tucker, Plainview a former local resident, was visiting in the Twin Cities Friday.

Mr. and Mrs. Charles Hicks visited in Olton, Sunday with Mr. and Mrs. Shorty Harrison and family.

Don Johnson, son of Mr. and Mrs. Russell Johnson, has transferred from Eastern New

Mexico University to Oklahoma State University. He is a sophomore majoring in accounting.

Mrs. N. R. Harding has returned from San Antonio where she was called to the bedside of her brother. She was gone some ten days.

Rev. and Mrs. Orvel Brantley and children moved to Anton early this week where he will be pastor of the Baptist Church. He was formerly pastor of Texico First Baptist Church.

### Texico Baptist Brotherhood Meets

Brotherhood of First Baptist Church, Texico met at the church Tuesday night for a short business meeting and program. Bill Boling conducted the business session.

Buddy Pearce, program chairman presented Wayne Hudnall, who spoke to the group on "Missions."

-FARWELL-

**Steers Nip Springlake**

Farwell Steers chilled the Springlake Wolverines Tuesday night here when they racked up a 62-53 score.

"We didn't play well the first half," commented Coach Bill Mayfield.

With a 11-8 lead the first quarter, the Steers were trailing

one point at the half-time. The score was 28-29.

Gaining momentum, the Steers tossed in 16 points the third period and 18 points the last quarter.

Leon Lovelace led the Steers with 25 points and Danny Lindop tossed in 18 points. Dale Dent and Jerry Been made 18 points and 16 points respectively for the visitors.

The Steers meet Sudan here tonight.

**FFA Boy Does Well At El Paso**

Word has been received by Robert O. Morton, agriculture instructor in the Farwell school, that the pigs shown by Larry Gregory, local FFA member, at the El Paso Stock Show this week placed second and fourth in their class. They were in competition with some 350 other animals. The pigs will be sold in the first round of animals at the sale today (Friday) in El Paso.

Other boys showing animals were Charles and Jim Morton and Mike Camp. Their pigs did not place at the show; however they will be sole before the boys return home.

Mr. and Mrs. Buck Gregory and son, Randy, have been in El Paso to help the boys care for their animals. Robert Morton, who accompanied the boys to El Paso returned home early

**Girls Romp Over Bovina**

Farwell Jr. high girls romped past the Bovina eighth grade team Monday with a score of 32-19.

Judy Gast lead the local team with 15 points and Patty Tatum made 6 points. Kirkatreh was high point on the opposing team with 14 points.

Coach James Craig stated that this team participated in a tournament January 30, February 1 and 2. They defeated Springlake but fell to Muleshoe who nosed them out by three points.

Washington has a taxicab for every 84 persons.

**Flying Queens Slate Two Games**

Practice sessions this week for the Hutcherson Flying Queens from Wayland Baptist College, Plainview, are pointing to this weekend when the six-times National AAU Women's Basketball champions play Nashville Business College Friday and Saturday nights in Plainview High School Gymnasium.

It will be a big weekend for area basketball fans as double-headers are scheduled for both nights. Friday night Claude High School will play the Queen Bees, Wayland's freshman squad in a 7 o'clock preliminary. The Queens will get underway with NBC about 8:30. Claude is defending state champion and should give the freshmen a run in the earlier game.

Saturday evening the Queens play NBC in the first game, with tip-off time slated for 7

Going Going, Gone  
While it may very well be that we've never had it so good, we've never had it taken away so fast, either.

Russian aircraft plants have promised to turn out next year 200,000 streamlined chrome-plated baby carriages.

o'clock. At 8:30 the Wayland Pioneers will play Midwestern University in an NAIA district game against the traditional foes from Wichita Falls. Midwestern has been strong in the past, but lost one of their main cogs via the grade route last semester, John Henry Young. The Pioneers currently stand 1-1 in district play.

The Wayland girls met NBC earlier this season in two games, one of which was for the league record, but lost the second game and stand 1-1 in league play. They are in second place in the Southern division of the NGBL. Next Saturday night's contest will be for the league record.

Leading scorer thus far this season for the Flying Queens is Laura Switzer who is sporting a 12.0 average for the seven games of this year. Miss Switzer, a 6 - 1 senior All-American from McLean, is also the team's percentage leader, hitting a redhot 54 per cent from the field. In second place is Rose Mary Jones, a 5 - 9 senior from Trent who is hitting the bucket at a 9.8 clip. Betty Scott, another All-American from Tonkawa, Okla., is in third place with an 8.5 record.

Tickets for all the games next weekend may be purchased at the door for \$1.

NICE WEATHER this week brought Twin City youngsters outdoors for a bit of fresh air. Sharpening up on their basketball shots are Milton Lee Walling (shooting) and Hobby Coffman.

**ARE YOU SATISFIED**

...with LESS than you pay for?

WOULD YOU BE CONTENTED with eight eggs for a dozen... three quarts of paint for a gallon... one and a half socks for a pair? No? Yet, as a matter of fact, you actually do get short-valued — on the things you buy away from home.

It's basic economics, you know... some 30% of the price tag on goods is community overhead expense — city, county, school services, and the development of better job and business opportunities for the exclusive benefit of the people who live in the community where the purchase is made.

Which simply means that trading in the area where you live is the only way to get all of your money's worth.

Buy at home... where your trade helps your own economy

Losing one and winning one was the record recently for the Farwell girls high school basketball team. Friday night they skinned past Hale Center there 37-32, but fell to the visiting Springlake team Tuesday night 27-44.

Cheryl Mills led the local sextet with 20 points while Pat Kaltwasser made 11 points. Melynn and White were high point for their team with 13 points and 9 points.

Coach Bill White stated that the girls played very well.

In the game Tuesday night Pat Kaltwasser netted 10 points and agile Dianne Lovelace earned 8 points. Dent and Gregory led the host team with 19 points and 11 points each.

**Burns To Death**

Mrs. Ernest Cain, received word of the death of her sister Mrs. Mary Chartkow, in San Diego, Tuesday. Mrs. Chartkow was burned to death in a hotel fire.

Few details of the tragedy are known locally.

Mrs. Cain was unable to go to the California city for funeral services.

## Texico Band To Participate In ENMU Festival

Members of the Texico High School band, under the direction of Gary Stelting, will be among the more than 800 musicians in Portales, on the campus of ENMU February 9, to attend the Solo and Ensemble Festival of the New Mexico Music Educators Association.

Other schools to be represented include Artesia, Tucumcari, Lovington, Portales, Clovis, Carlsbad, Dexter, Eunice, Fort Sumner, Hagerman, Jal, Melrose, Tatum, Hobbs and Roswell.

Judging will be in three divisions -- woodwinds, brass, percussion, strings and twirling. All judges are band directors from schools throughout New Mexico and the Texas Panhandle.

Paul Summersgill, a former band director in Texico, now of Roswell, is president of the NMMEA.

## Golfing

with ALEX MORRISON  
Teacher of Champions

Jess Watson, tall, strong amateur, strikes the ball with his head, left arm and hand in good positions.

JESS WATSON, 6-foot 5-inch, 250-pound strong-man, looks much like his good friend George Bayer. They wear the same size clothes. Big Jess does his best to duplicate the Bayer distance with long iron and wood shots. He could make it with more time at golf and a few swing corrections.

Watson lines up good with arms and hands, as good as his leg and foot action will permit. The latter cause his body to work against his hands during the swing. Thus Watson's strong body actually opposes his strong arms and hands with the net result that the striking force he develops is much less than he could produce with his body and hands working in harmony.

It is this harmony between movements of body, arms and hands, more than the player's size or strength, that determines the amount of force and accuracy he can enjoy in striking the ball with any club.

## Texico Homecoming This Weekend

Homecoming activities got off to a good start at the Texico School Thursday night when a pep rally and bonfire were held at the softball court. The school band also performed.

Tonight (Friday) the A and B boys basketball teams are to play at Floyd with homecoming activities to continue here Saturday night, when Texico and Elida collide on the home court.

Preceding the Saturday game will be a bar-b-que supper served by the high school student council, in the school lunchroom. Price of the meal is \$1 for adults and 75¢ for children grades one through six.

Immediately prior to the game the high school band will play the Star Spangled Banner, and the invocation will be given by an ex-student, Miss Carol White, senior and member of the student council, will give the welcome address and an ex-student will give the response. Miss White will also be master of ceremonies for the affair.

At halftime of the B game the "Homecoming Queen and King" will be crowned. Queen candidates include Misses Kathy White, Lattia Harrison and Judy Tharp. King candidates are Vernon Thigpen, Wayne Hudnall and Vic Harrington. The king and queen will be chosen by popular vote of the student body.

In ceremonies at half time of the A game, members of both the A and B teams will be introduced, as well as all school cheer leaders. The band will then play the School Alma Mater.

All ex-students are asked to register in the guest book which will be at the door of the cafeteria during the supper and at the door of the gymnasium during the basketball games.

Homecoming is sponsored annually at the Texico School by members of the student council.

With the beautiful spring weather which has prevailed this week, cleanup operations were begun at the Farwell city park by Joe Allan standing and Charles Bowery, sons of Mrs. Janie Bowery, city clerk.

**Meet Your Community Firemen**

Karl J. (Smokey) Gast has been a local resident for most of the past 26 years. He first came here with his parents, Mr. and Mrs. Karl Gast in 1936. The family lived here for a three year period, at that time, and Smokey attended school in Texico. The family moved away in 1939 and returned here the following year, settling in Farwell. Smokey graduated from the Farwell High School in 1943 and immediately enlisted in the navy.

After his discharge from the navy in 1946 he returned to Farwell and joined his father in operating "Karl's Auto Clinic." Upon the death of his dad he sold an interest in the business to Fred Curtis and they continued to operate the business under the same name. They specialize in general automotive repairs.

He is married to the former Dorothy Schoelling and they are parents of two children, Jacqueline 12, a seventh grade student in Farwell, and Kent, five. Dorothy is an employee at the ASC office.

Gast was a member of the Texico fire department for some seven years preceding the organization of the Farwell fire department, and is a charter member of the Farwell department, which he serves as secretary. He is a member of the Lutheran Church in Clovis, and serves as an elder in the church. He is also a member of the Texico-Farwell Lions Club.

## Texas 4-H'ers Capture Honors, Including Trips

For two teen-agers from southern Texas, 1962 will be long remembered as the year they captured high 4-H Club honors including all-expense trips to Chicago.

Townsend

Lowe

Jimmy Lowe Jr., 18, of Raymondville, and Joe Townsend, 17, of McAllen, went to Chicago to attend the National 4-H Club Congress, considered the top

4-H event of the year. They were among 1,500 official delegates.

Townsend was a guest of the Allis-Chalmers Manufacturing Company, Farm Equipment Division. He was awarded the trip after placing first in the

state's garden competition for 4-H'ers.

The youth, a son of Mr. and Mrs. C. E. Townsend, won the sweepstakes award in 1962 in the All-Valley Vegetable Show. He also raises hogs and cattle.

Lowe was awarded a trip by the Humble Oil & Refining Company after winning the Texas 4-H tractor program award. He excelled in driving a tractor and in maintaining it. He is a student at Southwest Texas State.

In high altitudes the Llama is used as a beast of burden.

oath-of-office to Russell Bean of Lubbock, John Gammon of Lazbuddie and Earl Holt of Hereford. Each was recently elected by residents of the district to serve a two-year term of office on the board.

Luncheon ceremonies were presided over by T. L. Sparkman, Jr. of Hereford, who along with Elmer Blankenship of Wilson, retired from the board with the qualifying of the newly-elected men.

During a business meeting following the swearing-in ceremonies, Gammon was elected to serve as chairman of the board during 1963. Henry "Chick" Schmidly of Levelland was elected vice-chairman and Bean was elected to serve as secretary-treasurer.

J. R. Belt, Jr. of Lockney is the fifth member of the water district board.

"GLUING" windshields and rear windows into autos instead of glazing with strips of rubber and sealant promises the industry annual savings of millions of dollars, the manufacturers say. In the method, used previously to fasten building windows, a thin bead of polysulphide adhesive is run along the edge of the glass which is then pressed to the metal frame. Setting takes 10 days.

of such a project spread out over a very long period of years -- possibly as long as a hundred years -- and would involve Federal, State, and Conservation aid as well as other interested and benefited organizations such as Wild Life Refuges areas and recreational areas. The Steering Committee of the project is composed of one member from each county Soil Conservation District, one representative from each commissioners Court, and one representative from each city signing co-sponsorship agreements. From the Soil Conservation Districts representatives are Leon Marks, Clovis, New Mexico; A. L. Black, Friona; Wade Mills, Nazareth; H. A. Hysinger, Olton; Woody Boston, Kress; and F. F. Calhoun, Plainview. Other members of the Steering Committee will be named by the counties and cities this week preparatory to a committee meeting to be held in the near future to continue work on the project.

Members of the committee expressed their appreciation for the efforts on the part of all county and city officials and interested

# Weather Damage To Wheat May Be Light

Parmer County's wheat crop, which some observers feared might have been damaged extensively by the extremely cold weather a few weeks ago, may not be as badly damaged as was first believed.

This was the opinion this week of Parmer County Agricultural Agent, Deryl Coker. "Apparently, the wheat may come out all right," Coker said. "The main thing we need is some moisture," he added.

Coker said that the wheat countywide has been able to develop a good root system during the dry spell, which was one advantage you could attribute to the dry weather.

The county agent revealed that some cases of the Brown Wheat Mite have been reported in Parmer County, although it apparently hasn't become widespread as yet. He advised farmers to check their wheat periodically to see if the insect has infested their field.

The simplest way to check, according to Coker, is to take a piece of white paper and shake the wheat out on it. Any mites would then be easier to locate. Best time for making the test, the county agent recommends, is early in the morning or late of an afternoon.

The actual damage the wheat may have received from "frost-

bite" due to the cold weather may not be known for sure for several weeks.

"The plants may stool out more than usual--you can't tell, we might still have one of our best years for wheat," Coker said.

# Stockmen Pledge To Keep Screwworm Program Alive

An overflow crowd of key Texas farm and ranch leaders, meeting in Austin on January 28, enthusiastically approved the continuance of the Southwest Screwworm Eradication Program and readied plans to raise the remaining \$1 million needed to insure the continuation of the project.

## Parmer County Among Leaders For Fertilizer

During the past October and November more and more farmers climbed aboard the "bandwagon" and had their soil sampled, according to William F. Bennett, soil chemist, of the Texas Agricultural Extension Service.

Samples for the two months were about 50 per cent higher in 1962 than for the same period of the previous year with the High Plains Laboratory receiving the largest increase in samples. The other two soil sampling laboratories in Texas are in Baylor County and at Texas A&M College.

High counties for the two month period were Ellis, with 197, Bell with 168 and Travis with 162, Bennett says. Hockley, Calhoun and Kaufman counties all submitted over 100 samples each, he adds.

The annual fertilizer tonnage report shows that Texas farmers used 944,901 tons of fertilizer in 1961-62 as compared to 766,055 tons in 1960-61, the chemist says. The High Plains and Trans-Pecos areas continued to be the heaviest users applying 30 per cent of the state total, East Texas, North Central Texas and the Coastal Prairie followed in decreasing order. Hale, Harris, Hidalgo and Deaf Smith Counties all used over 20,000 tons while Lubbock, Lamb, Wharton, Dallas, Jefferson and Parmer rounded out the top 10 counties in fertilizer usage.

Bennett says that all this means more soil sampling especially for spring crop planting and advises farmers to make their samples early to insure prompt return of the report. He also encourages taking good samples and using a soil sampling information sheet.

C. G. Scruggs, president, Southwest Animal Health Research Foundation, got a thunderous 'yes' when he asked the group if they wanted the project continued.

Nearly 600 representatives from over 175 Texas counties agreed to go back to the individual farmers and ranchers who helped start the program less than a year ago and ask them to raise the balance of their \$3 million goal. The group included the chairmen of county animal health committees, extension service workers, vocational agriculture teachers, and representatives of several agricultural and livestock associations.

The eradication program is in danger of being terminated because funds from livestockmen are nearly exhausted and at least 50% of the program's cost must come from non-federal sources.

Program officials told the group that the eradication effort has been enhanced by recent cold weather which has reduced the number of screwworm infestations. A good opportunity now exists to overwhelm screwworm flies that survived the cold weather by continued release of sexually sterile flies, they said.

Appearing on the program with President Scruggs were Dr. F. J. Mulhern, Director of the United States Department of Agri-

culture's Animal Disease Eradication Division; Dr. R. G. Garrett, executive director, Texas Animal Health Commission; Dr. M. E. Meadows who directs field operations at the Fly-Rearing Plant at Mission; and Mr. Jerry Puckett, Fort Stockton, Treasurer of the Foundation. Also, a panel consisting of chairmen from counties that have reached or exceeded their fund goals was led by V. A. "Bill" Clements, foundation vice-president.

Lt. Gov. Preston Smith and Sen. Culp Krueger of El Campo briefly addressed the group, assuring them of the State's interest in the eradication program.

Summing up results of the program which began last February, State and Federal officials noted that release of hundreds of millions of sexually sterile screwworm flies during the past 10 months has retarded development of screwworms, confined infestations mainly to the 5-State eradication area and Arizona, and resulted in the lowest number of screwworms east of the Mississippi River in 30 years.

Zachary Taylor, twelfth President of the United States, was a second cousin of the fourth President, James Madison.

# It's Official: County's Ginnings Top 80,000

Parmer County received official confirmation this week that its 1962 cotton crop topped 80,000 bales, highest in its cotton-producing history.

Figures released by the United States Department of Census on ginnings showed that Parmer County gins had ginned a total of 80,292 bales of cotton as of January 15. This figure compares to the total of 80,525 bales which Parmer County Newspapers derived at in a survey January 2, based on figures and estimates given by the individual ginners.

The official census count reveals that the 1962 crop will be a record yield in Parmer County by almost 20,000 bales. The 1958 crop was the former record year, with 60,579 bales ginned. There were 60,029 bales ginned in 1961.

At the corresponding time a year ago, a total of 56,996 bales had been ginned from the total of 60,029.

In neighboring Bailey County, a new record was also set, as 112,087 bales were reported as of January 15. Last year's crop in Bailey County, 101,000 bales, was the former record, being the first time its crop topped the 100,000-bale mark.

Bailey County has over 100,000 allotted acres, although much of its crop is dryland. In Parmer County, where only 49,000 acres were allotted in 1962, most of the crop is irrigated, Parmer County's yield will figure close to a bale and two-thirds per acre.

Castro County reported 70,726 bales ginned, compared to 62,184 the same time a year ago.

# County Grain Producers Meet Tuesday At Bovina

Grain producers from throughout the county will meet in Bovina School Cafeteria at 7:30 p.m. Tuesday February 12, 1963 to hear reports of and give direction to Farmer County Grain Sorghum Producers Association.

A. W. (Dub) Anthony Jr. President of the county organization says the meeting is the principal annual affair of the group and is designed to report to supporting members, the activities conducted in their interest during the past year and to seek direction for the coming year's program which will be taken to the area-wide Association directors' meeting scheduled for March 13 in Amarillo.

Sam Thomas, Agriculture Development Director of Southwestern Public Service Company of Amarillo and Vice Chairman of the Agriculture and Livestock Committee of the West Texas Chamber of Commerce, promises to challenge area farmers with his discussion of production and utilization of grain sorghum in the area economy. Thomas is widely recognized for his leadership in livestock feeding promotion activities throughout the area.

**I Get 5% Dividends On My Money At.....**

**FIDELITY SAVINGS & LOAN**  
416 Mitchell St. PO 2-2917  
Clovis, N. Mex.

Prentice L. Mills, County A-S. C. S. office manager, will outline the provisions of the 1963 Feed Grain Program as applied to Farmer County. Producers with individual questions as to how the program will apply on their farms will have an opportunity to obtain specialized information.

A report on the total Research, Market Development and Service activities of Grain Sorghum Producers Association during the past year will be discussed by Nolan Chandler, Agricultural Assistant of the Association. It is expected that he will discuss the activities of the organization in obtaining the recent nine cent per hundred price increase for grain sorghum as well as touch on some of the problems affecting local farmers through the European Common Market and

other groups which farmers themselves do not have total control of, yet which affect their income.

Anthony pointed out that the highlight of the session should be when local farmers themselves voice their views as to what they want the Association to work for in their interest during the coming months in developing the 1964 feed grain legislative programs. This open discussion will be followed by an election of of-

ficers of the County group and the naming of directors to the area-wide Association.

Also scheduled for to appear on the program is Deryl Coker, County Agricultural Agent.

Current officers of the Farmer County GSPA, besides Anthony are Bruce Parr, vice president; Tom Caldwell, secretary-treasurer and Gabe Anderson, Jr., elevator representative.

## WITH THE COUNTY AGENT

**DERYL COKER**

If you think your wheat crop could run low on plant food, especially nitrogen, it should be top dressed between now and March 1.

Top dressing is considered a good practice if there is enough phosphorus present in the soil. A chain is just as strong as the weakest link, and the same thing applies to making a good wheat crop.

Wheat that has been grazed will use about 40 or 50 pounds more nitrogen than wheat that has not been grazed.

If you are in doubt, why don't you have your soil tested to determine the level of plant food available in the soil for the plants use.

Top dressing nitrogen is a pretty good method because nitrogen will move with water. In other words irrigation water will move the nitrogen down to the root system.

Phosphorus, however, does not move with water, so it remains approximately where it is put. Since phosphorus has this characteristic, it should always be applied before planting in the fall. Phosphorus will also tie up with the calcium in the soil, and our soil is high in calcium,

so the best way to apply phosphorus is to band it in before planting. When it is in a concentrated band it won't tie up with the Calcium so bad.

Most soils are high in potash, so we don't worry about it too much.

The advantage of waiting until spring to top dress with nitrogen is two-fold. First the response in grain yield is usually a little better from spring top-dressed wheat. The second advantage is it gives the farmer more time to determine the prospect of a wheat crop, especially on dry land.

Certainly we in Farmer County want to make the greatest return from farming, but let's get our soil tested and take some of the guess work out of farming. We have plenty of soil testing boxes available in our office just for the asking.

### Platinum Bound

To protect against damage from ultraviolet rays, energetic electrons and dust erosion, the solar cells of the Telstar communications satellite are covered by clear, man-made sapphire. Platinum is used to hold the sapphire in place.

## NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

"I want you to go back to your respective states and hit above the belt or hit below the belt—but knock out Farm Bureau." So spoke Harry Schooler, North Central Regional Director of AAA to a meeting of AAA Committeemen in Indianapolis, Indiana during the winter of 1940-41.

A House Agriculture Committee in Washington, D.C. told a Dallas Morning News reporter in Washington, D.C. "the Farm Bureau is dead except for insurance programs if the wheat program is approved by the farmers."

Why would Washington bureaucrats be so intent on discrediting the only general farm organization, with representation in every state but Alaska, plus Puerto Rico? Could it be because Farm Bureau is for lessening controls of agriculture which might mean the end of several thousand unnecessary salaries for employees of a department bent on running your farm?

Farm Bureau, by resolution, is unequivocally and vigorously opposed to passage of the wheat referendum which would put into operation the strict controls demanded by Secretary of Agriculture, Orville Freeman. It is hoped that every farmer who votes in this referendum will be an informed farmer, regardless of how he votes. And may there be a majority of those eligible voting for a real change, too.

Anyway, determination of farmers to run their own business is pretty well evidenced by the increase in membership of American Farm Bureau from a few more than 900,000 in 1945 to over 1,500,000 in 1962. We don't believe farmers are yet so far down the road as to be frightened by the Secretary's threats about their future if they refuse to bow down to his demands in referendum votes.

We are glad to see the March of Dimes back on the march again under the direction of county chairman, Jack Patterson. There apparently are some people enthusiastically pushing the oral vaccine program (and their help should be appreciated) who don't know that the March of Dimes, voluntarily financed under the leadership of local people in almost every town and community of the United States made the preventive vaccines possible.

CONSIDER THIS: In the house of righteousness is much treasure; but in the revenues of the wicked is trouble. Proverbs 15:6.

"When the roll is called up yonder it will take a long time to get through the Smiths."

## Care Urged In Pruning Shrubs

Don't cut back damaged shrubs that have been defoliated or had their leaves browned by the recent record-breaking low temperatures, advises J. J. Franklin, extension landscape horticulturist. Chances are good, he adds, that only the leaves were damaged. However, he doesn't rule out the possibility of damage to twigs, main branches or even the roots of the less hardy species or varieties.

An immediate examination of the trunks may reveal heavy damage for splitting often occurs. A finger-nail test on young twigs may reveal no fresh tissue beneath the bark and this indicates damage, he says. It is easier to evaluate winter damage in the spring, after new growth starts, he adds, but even then weakened branches often put out new growth which later dies.

Corrective pruning can begin as soon as it can be assumed that new growth is lacking or will remain very sparse. Cut out the dead or weak wood well below the damaged area, leaving only strong growth, Franklin advises. Do this, he adds, after growth has started in the spring.

The best treatment, in addition to proper pruning for winter-sick shrubs, is to keep them well-watered and fed moderately, he says. A mulch of leaf mold, peatmoss or other

organic material will insure better plant health. Loosen the soil to a depth of half an inch and then apply a two-inch layer of mulch over the soil covering an area slightly beyond the branch spread of the shrub, Franklin advises.

Shrubs which show no new growth within two months after spring growth starts can be considered completely dead and those which are extremely weak at the end of the first summer after the freeze damage should be replaced, he says.

When pruning broken limbs of trees or large shrubs, more

care is required to promote healing and prevent decay, the specialist says. Stubs should not be left and all pruning cuts should be made flush with trunks. Wounds of more than two inches in diameter should be treated with wound dressing or tree paint, he says. The treated areas should be checked periodically and recoated once or twice a year.

Finally, he suggests that a copy of B-977, "Modern Pruning Methods" be obtained from the county extension office and studied before the pruning job is started.

## Bulletin Tells Difference In Steak, Cattle Prices

The difference between the price of steak and the price the producer gets for his cattle is due to marketing costs, according to a new publication of the Texas Agricultural Extension Service.

"From Steer to Steak," L-582, states that these marketing costs include all the costs of processing and distribution required to convert the live animal to the salable product. It says these costs can be divided into three groups: marketing livestock, slaughtering, wholesaling and retailing.

The costs involved in the marketing process begin when the animal is sold by the producer. The cost of transportation, sale or handling of the steer must be included in these expenses, the bulletin explains.

The next phase of marketing is slaughtering the animal and wholesaling the carcass. A U.S. Choice grade animal will yield about 59 pounds of carcass beef from every 100 pounds of live weight. Thus the value of the by-product and carcass determines the price that can be paid for the live animal, the publication says.

The final step in marketing beef is retailing and of the 59 pounds of carcass beef left 12 more is lost in trimming and cutting the meat into retail cuts. This leaves only 47 pounds of the original 100 pounds of live animal and this is not all steak. The retail price for this meat must be at least twice the live steer price to pay for the weight loss and doesn't include the

costs involved in marketing, the bulletin says.

All steer is not steak and when marketing costs are added it is easily seen why the price we pay for steak must be considerably higher than the price the producer gets for his product, the bulletin explains.

## February 10 Is Deadline For Seedling Orders

County Agent Deryl Coker reminded county landowners this week that the deadline for ordering windbreak planting stock trees for the spring of 1963 is February 10.

A variety of seedlings may be obtained from the Texas Forest Service, at \$1.50 per hundred. Coker explained that a minimum of 100 trees must be ordered.

Species of trees available include Austrian pine, black locust, black walnut, catalpa, Chinese elm, cottonwood, loblolly pine, mulberry, osage orange, ponderosa pine, red cedar, rosa multiflora, slash pine, sycamore, Russian olive, euonymus and buffaloberry.

"I wish every farmer in Farmer County would consider ordering these seedlings," said Coker. "They not only are valuable for windbreak purposes, but they will dress up our tree-less terrain immensely," he added.

# Insulation Recommended As Aid To Heating Homes

Frigid weather always brings out the long underwear, and people should think about putting long underwear, in the form of insulation, in their houses, says W. S. Allen, extension agricultural engineer.

Allen, housing and building specialist, says that such insulation will contribute much to the comfort of their home. Almost all building materials have some insulation properties, but some are better than others, he adds. A good insulation material retards the flow of heat, is resistant to decay, fire proof, and does not harbor insects and rodents.

Metal foil will help retard the flow of certain kinds of heat and act as an insulation barrier. It is commonly used to reduce the effect of heat radiation and as a vapor barrier, according to the specialist. The use of a vapor barrier is very important, especially where extremely cold winters are common, or there is a great deal of moisture in the warm air inside a building, he adds. The barrier is normally placed on the warm side of the insulation to reduce the possibility of condensation in or on the insulation material.

The insulation can be helpful in the summer as well as during cold spells, Allen says. It serves to keep warm air out as well as in.

Insulation will lower fuel bills for heating and for air conditioning, the specialist notes. These savings should outweigh the cost of insulation, Allen says, not to mention the comfort it will add. He suggests a visit with a building materials dealer for information on the type of insulation best suited for your needs.

# May 15 Cited As Best Date For Planting Grain Sorghum

Research information coming out of experiments conducted on date-of-planting grain sorghum at the High Plains Research Foundation indicates that May 15 is the best planting date. Hybrids planted on May 15 have produced higher yields with less damage from the sorghum midge and birds than hybrids planted earlier or later.

A Grain Sorghum Date of Planting test was initiated in 1961. The purpose of this test was to determine the effects of planting dates on yields of early, medium and late maturing varieties of grain sorghum. Despite the early planting damage from birds, and the late planting by midge, the results clearly demonstrate some of the advantages and disadvantages of the various planting dates.

The June 5 and June 25 fields were watered three times for a total of 12.68 inches.

Bird damage on the plots of the first two dates of planting was heavy because there was no sources of food for birds in the area. This amount of damage would not occur in large fields so can be discounted.

The midge infestation started a week earlier than the 1961 season with greater damage than 1962. The June 25 planting received the largest midge damage in 1962 as it did in 1961.

The May 15 planting had fewer

plots damaged by either birds or midge and produced the highest yields. The late maturing hybrids produced the best yields which were also highest for the entire test.

The date of planting test was conducted by Delbert Langford, Associate Agronomist for the Foundation. Full details on the test have been published in Research Report No. 52, which has been mailed to all supporters of the Foundation's private enterprise research program.

# Cold Weather Can Bring Wear For Tractor Engines

Light work and cold weather can take a heavy toll in the form of excessive engine wear on the farm tractor, says Henry O'Neal, extension agricultural engineer.

Farm tractors are designed with a large cooling capacity to prevent overheating during hot weather and under heavy loads. This capacity will prevent the tractor from reaching an optimum operating temperature in cold weather under light loads unless shutters or curtains are used over the front of the radiator, he adds.

The protective oil film and corrodes the cylinder walls, he says. Minimum operating temperatures of 140 degrees F. under full load and 160 degrees F. under part load are required to maintain cylinder wall temperatures high enough to prevent the condensation of water in the cylinders. When operating temperatures are kept above these levels, the water remains in a gaseous state and is expelled with the exhaust.

O'Neal also states that fuel consumption and power are affected by operating temperature. Fuel consumption decreases and horsepower increases as the operating temperature nears 180 degrees F.

Cylinder wear at an operating temperature of 40 degrees F. can be as much as 27 times greater than at 180 degrees F., O'Neal explains. Carbon dioxide and water, as combustion products, combine to form a corrosive acid on cylinder walls which removes

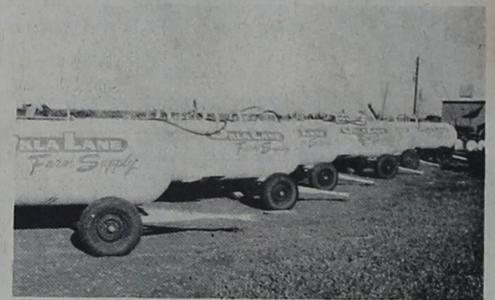

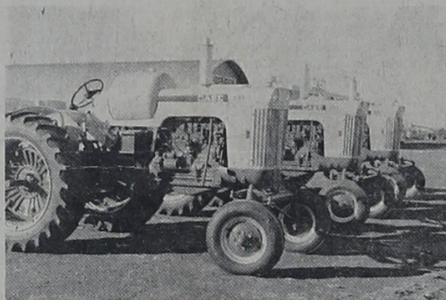

The use of shutters or curtains can bring the tractor engine to its proper operating temperature quickly, and excessive wear and fuel consumption avoided, the engineer concludes.

An abnormal brain pattern has been found among a significant number of adolescents who commit murder and other acts of violence, according to a psychiatrist writing in the Archives of General Psychiatry, an American Medical Association publication. While the exact role of this organic factor has not been determined he says, the phenomena "is linked far more than by chance to the occurrence of aggression and violence by children and adolescents."
