ILLINOIS PICNIC A BIG SUCCESS

The Illinois picnic is a thing of the past. A nice crowd gathered at the Farwell school house last Thursday. The forenoon was spent in visiting, pitching horse shoes, etc. A nice spread was enjoyed at the noon hour. Illinois people gathered from many parts of the Plains. The program in the afternoon was enjoyed by all. County Clerk B. N. Graham delivered the invocation. Mrs. Aldridge's address of welcome, was a treat. She not only gave the former Illinoisians a warm welcome, but went into details in respect to the possibilities as well as the important part that great state has taken in national affairs. Edith and Bryan Morse rendered some fine music, and were very liberal in their numbers. Mrs. Lyons sang two beautiful solos, beside rendering an instrumental solo. Mrs. Kingsbury took the crowd by storm when she rendered her readings. Miss Thelma Allen in her pleasing manner gave a very interesting reading. Miss Dorene McDowell sang "Daddy Long Legs" to the delight of all present. Vernon Hunter favored the audience with a solo which was very much appreciated. The president of the society urged all former Illinois residents, to strive to make the sort of citizens that Texas may be proud of. S. C. Hunter in his amiable manner led the singing of "America" and "Illinois." The officers were elected for the ensuing year. After the program, foot races were pulled off to the enjoyment of all. All went away feeling that the day was well spent. The Illinoisians were much encouraged to make this an annual affair.

NOTES ON THE PICNIC

W. H. McDaniels learned how to patch his new trousers. A number of Texico-Farwell people mingled in the crowd, to the satisfaction of all. The committee decided to make the picnic next year a big affair. They expect to have the day filled with something doing all the time. The place and date were set, that being the last Thursday in August, at the same place as this year. Ask J. J. Miller about running a foot race. He is gritty, but just naturally covered too much territory. Fred Maxwell is some runner. Chunky Morse would be a mighty good pitcher of horse shoes if he was the only one to pitch. Luther Rogers supplied the wants at the cold drink stand. Jamie McDowell declares that with a few more years of practice, he can be able to give his brother, Edward, a practice game in horse shoe pitching, but we doubt it. The committees are very grateful to the Farwell school board for the use of the building and grounds, and especially grateful to Mr. Carter, who had the building in such nice shape to receive the visitors. J. J. Miller brought a freezer of cream and distributed it out in cones. The Illinois people are grateful to others who helped on the program. A few years ago, when an Illinois picnic was held here, S. C. Hunter and Mrs. Craig sang "Illinois." When the Farwell paper came out in its next issue, the editor, who evidently had not heard the song before made comment on the song, "Hear the Noise." Mr. Hunter made it clear that he wanted the editors to be sure and get the name of the song correct this time when making mention of the same, although, he said, "If there ever was a set of people who could make a noise, it was the Illinois people." All the Illinois people were required to register.

LETTER OF APPRECIATION

Amarillo, Texas, Aug. 29, 1919.
James McDowell,
Editor Texico-Farwell News,
Texico, New Mexico,
Dear Sir:

Your letter of the 5th inst., together with your article relative to Maintenance of Way employes, addressed to the President of our Local, was read to our local lodge and I am instructed by vote of the lodge to thank you for the attention you have paid to this matter. This shows that you are correct in the matter and that you know what you are discussing (it is a deplorable fact that so many commentators discuss matters of this kind from a theoretical point of view, only).

You may rest assured that all of the boys are back of you in the position you have taken in this matter. I should have replied to this letter at the time action was taken in the matter, but my time has been so completely taken up with my work as secretary, looking after more than 800 members that I haven't had time to properly take care of the work, as you can readily see, by this letter.

Again thanking you for the interest you have shown in this work, for the boys, I am,

Sincerely yours,
J. C. SPEGAL, Secretary.

Several old subscribers have paid up. Even with this good showing, it is not what it should be. The business men are not supporting the paper with advertising as they should. Four months ago we told you, we could furnish you with a real newspaper. A lot of you have shocked our modesty by telling us that we have, and to our face. If the community wants this sort of paper to represent it in the many communities in which it goes, you must give us better support. It takes the kale to buy overalls. The NEWS is \$1.50 per year in advance. Send us your check.

MAITLAND COAL

We are now taking orders for future delivery of the famous Colorado Maitland Coal. The kind that has always given satisfaction. Be on safe ground. Get genuine Maitland and order now.

Withers Coal and Grain Co.

School is to commence at both schools next Monday. The time of the year, when we will hear and see in print quite often the misnomer "Prof." Professor, in the school term, is never rightly used when speaking of a superintendent of schools or principal. Professor is one who has specialized in any particular science or study, and who is capable of, and does make it his business of teaching that respective science or study. We have no professors in the common or high schools. We have superintendents and principals, but no professors. One looking in a dictionary one will find not much difference at first glance, but a careful study of the two definitions in the Unabridged one will be able to distinguish. While it is no crime to call a "Principal" a "Professor," yet the one addressed knows that it is a misnomer.

A GREAT SPEECH

We have received at our desk a copy of the speech delivered by Hon. Marvin Jones, in Congress on "Payment of the War Debt." We have not space to print the whole speech. It is brimming over with patriotism, and the suggestions contained for the payment of the debt, seems indeed appropriate. We, however, give you a few of the closing remarks:

"I believe in the United States Government, her history, her institutions, and her people. Knowing the glory of her past, I have implicit faith in her future. Never defeated in a contest of arms, I hope she may never be defeated in the more glorious contests of peace. We have as a heritage the finest form of government that was ever fashioned by human intelligence on this or any other continent, polished albet and made more perfect by the growth and experience of a just, fair-minded, and generous people. Added to this we have the greatest resources any nation has ever possessed. We have mastered the machinery of production as no other nation has ever mastered it. It is equally important to master the machinery of distribution.

"I know not whether triumph or despair awaits us in the infinite sea of the future; I know not what inventions or discoveries the genius of man may conceive. The beginnings of a wonderful garment have been woven in the loom of our country's past. I know not what form it may be finished; but I do know that if our people are given the unhindered opportunity to which their institutions, their sacrifices, and their industry entitle them the Nation's future will be triumphantly secure."

BOX SUPPER

The ladies of the Christian church will hold a box supper at the church tomorrow night, the proceeds of which will be used in making some needed repairs. All are invited to attend.

SOME GREAT REVIVALS

This has been one of the greatest revival seasons of my life. We were in Floyd County, Texas, for five weeks preaching from two to three times a day to large and appreciative audiences, met many old friends and made many new ones. My first meeting was at Cedar Hill, where I held my first meeting several years ago. At the close of this meeting we led a good many out into the same lake, where we baptised in the first meeting.

My next meeting was at Roseland, where I taught school when a young man. Here we had another real revival, where many were converted, including fathers and mothers. Mrs. Nix's parents live here and we reached one of those high hours at the close when it was my great privilege, along with others, to baptise Mrs. Nix's mother. My next place was Meteor, where we truly had one of those great meetings and reached the old time camp grounds. At the close of the last meeting we rested one day and started back to Texico-Farwell. I remember we had some great meetings here last year. In the two we had, there were about fifty conversions, but I think the revivals this summer surpass any other in my life's experience.

HOGS AND HUMANS

The federal government has taken a vital interest in hog cholera. The powers-that-be in Washington observed long ago that to allow valuable hogs to die every year from cholera was to destroy so much property and to lessen the production of food. It was good, common sense for the government to take some action which would lessen hog cholera and thus save valuable property and increase the supply of food.

As far as we can recall there was no great opposition to the movement. Farmers welcomed the aid. So did the consumers. Federal and state campaigns have done much to eradicate this food animal disease and the results are well known.

At the present time there is a proposition before congress which would appropriate \$1,500,000 to be used under the direction of the United States Public Health Service for the investigation of and causes modes of transmission, prevention and cure of influenza, pneumonia and allied disease from which humans suffer. These diseases have taken a great toll in human deaths during the year. Medical history indicates that influenza will return. The origin of the disease is as yet unknown. The germ has not yet been discovered so that an anti-toxin is not known. We have practically eliminated the dangers from typhoid and malaria and it is possible to eliminate the dangers from influenza if the proper methods are learned. The economic loss alone is tremendous, aside from the actual deaths and suffering.

Yet there appears to be quite a few people in Washington and out of Washington, who think that congress would be inflicting unnecessary taxation upon the people if it would vote a million and a half dollars to study influenza and attempt to get a cure for it.

Cure hog cholera? Yes. Appropriate money to study influenza which kills humans instead of hogs? No. It seems like queer logic, at best.

We are glad to note that J. A. Deddel, a hustler of Elk City, Okla., has decided to locate here. His family will be moved here in time for school. J. A. is a booster, and has done much to put the two local companies before the Oklahoma people. He will work from here hereafter, thus being better in touch with the home office.

NEW PARTY CAN'T STOP TEXAS SAYS GOV. HOBBEY

"Just as the world was beginning to follow Texas in her Democracy, the members of the new faction pulled away, were not satisfied, and set up the old cry; we have herd that old cry before. But such cries didn't stop the Louisiana Purchase, it didn't stop the annexation of the states, nor the Federal Reserve Bank system, nor did it stop Woodrow Wilson, nor Sam Houston, and it didn't stop the free public school system in Texas, and it didn't stop a lot of things for the welfare of our country. In the light of the new day the cry or dissatisfied politicians will not stop the onward march of Texas. Texas is more prosperous today than ever before. We have more liberty today than we have ever enjoyed, and all the cries of broken down politicians can't check our growth, our prosperity, or our happiness.

"The new party opposes national suffrage, national prohibition and the League of Nations, three things which will be settled for good before the people have a chance for another voice in the matter."

The Governor declared that the time is over for the rule of a favored few in Texas. Texas Democracy is more than ever a party for all the people, he declared and it is today a bigger constructive force for right than ever in its history.

The above speech was delivered at Van Horn, Texas last week. It seems to be the sentiment of all good Texas citizens.

THE PORTALES BAPTIST ASSOCIATION MEETS

The Portales Baptist Association held its annual session in Clovis Baptist church, beginning Thursday, Aug. 28th. It is the largest association in the state. It has 46 churches in its bounds, representing a little more than 2000 Baptists, while the other six associations in the state represent the other 5000 Baptists in the state. This was its 15th annual session.

The churches were well represented and all of them reported a marked increase of progress during the year.

The reports on the different phases of the work, such as home, foreign and state mission, Sunday school and B. Y. P. U. work, etc., were unusually interesting, but the greater part of the meeting was taken up outlining the plan for raising seventy-five million dollars in the South to take care of all phases of our work in the next five years.

Everyone seemed to be very optimistic about the great undertaking. Many expressed the opinion that instead of seventy-five million we would make it one hundred.

From 2 p. m., Friday until 5:30, the association listened to one man speak almost continually on this great movement. Then they came back at 8 o'clock in the evening and listened to him again until 10:30, but he had enough "spizzerrinkum" in his message to keep the souls of men fired so that they felt like doing things for God.

The most heart touching scene that many in the association had ever beheld was brought before us at 10:30 a. m., Friday, when "Mother" Joiner, as the children affectionately call her, brought all the inmates of our new orphan home into the association. The home was opened for the first time May 1st, 1919, and they now have twenty-four children. Four babies that have to be fed from the bottle yet. It would have touched any man's heart to have seen these four babies all lying in a row kicking and shaking their hands and seeming to say: "We depend on you."

The home is full. They cannot take any more children until they get new quarters, and twelve are waiting entrance now.

Many of the Sunday schools are giving their offerings one Sunday in each month to the home. The Sunday school here voted last Sunday to give its offering the first Sunday in each month to the home. Do you want to help?

In all it was two great days.

THE BAND WILL SOON BE READY

The band is looming up now till it looks as if we are to have a real sure enough band. There are several more to get instruments, but the following is the instrumentation of the ones who either have an instrument, or have one on the road:

Cornets: Fent Stallings, Robert Whitley, W. J. Linquist, Lusk Hiner, Oscar Thurston, Marie Moore, Dorene McDowell and the Leader.

Clarinet: W. F. McElroy, Nellie McElroy and Jimmie Loden.

Saxophone: Arthur Jenkins.

Piccolo: Mrs. Chauchon.

Altos: Mrs. Linquist, Miss Todd, and Avic McDowell.

Tenors and Slide Trombones: Marcie Linquist, Eddie McDowell, Jimmie Nash and Gus Thomas.

Baritones: Ray James and Jamie McDowell.

Basses: Herchel Thurston and Stokes Williams.

Drums: Robert Moore, Lawrence Overstreet and Bryan Morse.

Beside the above, the following have not as yet ordered their instruments, but have made it clear that they will do so and be ready to start with the rest:

Clarinet: Mike Engram and daughter.

Saxophones: Donald Thomas, Lonnie Nash and Miss Herrington.

Altos: Atty. Loky, Misses Hutchins.

As it is we have twenty-seven instruments at the cost of \$1210.00. All the departments are very well balanced, and with the others who have made known that they will go in, the band will be well represented in all sections.

Some of the members are already taking lessons on their respective instruments, and by the time the new ones arrive, the band will be ready to start off with a swing.

Mr. Hewett, principal of the Texico high school, arrived in town Wednesday. He seems to be a wide awake young man, and one who will push matters.

Rev. J. F. Nix will preach at Pleasant Hill next Sunday, Sept. 7th, at both hours. Rev. Nix has been in Texas for several weeks, where he has conducted some great meetings. He has some flattering offers to become pastor of some strong churches there.

**CIVIL SERVICE EX-
AMINATIONS REOPENED
TO DISCHARGED YANKS**

Under an opinion of the Attorney
General recently rendered to the Civil
Service Commission, United States
soldiers, sailors, and marines who
missed opportunity to enter civil service
examinations because of military
or naval service may now be
given a chance to qualify for Govern-
ment employment.

The Civil Service Commission,
wishing to give discharged service
men every opportunity to qualify for
civil positions, asked the Attorney
General for an opinion as to whether
it would be legal to open, for the
benefit of honorably discharged sol-
diers, sailors, and marines, examina-
tions which had been closed. The At-
torney General having expressed the
opinion that such action is legal in
view of the spirit of a recent act of
Congress which provides for preference
in appointment to civil positions
for discharged soldiers, sailors, and
marines, the Civil Service Commission
will open only to honorably disch-
arged service men examinations which
were pending on April 6, 1917, the
date of America's declaration of war,
or which were subsequently announce-
ed, and for which registers of eligi-
bles now exist.

Sixty days from August 1, 1919,
will be allowed soldiers, sailors, and
marines in which to be examined for
positions for which examinations have
already been held if they were dis-
charged from the military or naval
service prior to August 1, and sixty
days from the date of their discharge
will be allowed those discharged sub-
sequent to August 1, 1919.

LEAGUE OF NATIONS

When it comes to quoting Roose-
velt as to what he would or would not
do about the League of Nations if he
were still alive, here is what he

said in 1910 in accepting the Nobel
peace prize for his efforts in bringing
Japan and Russia to terms of peace.
"It would be a master stroke if those
great powers, honestly bent on peace,
would form a league of peace, not
only to keep peace among themselves,
but to prevent, by force, if necessary,
its being broken by others." That is
about as near to Mr. Wilson's League
of Nations as one could possibly pre-
dict seven years before we got into
the war. And our experience since
1910 has fully demonstrated the need.

NOTICE TO CATTLE RAISERS

The season of the year has arrived
when every feeder of cottonseed cake
is beginning to think about the price
he is going to have to pay for cotton-
seed cake and meal for his winter
feed.

Since the Food Administration regu-
lations were removed June 30, the
price of cake has advanced from \$57
to \$76 per ton, f. o. b. the mill, basis
43 per cent protein, nut size cake,
100 pounds and the market contin-
ues to advance. It is to your inter-
est as well as to that of every
feeder of cottonseed cake that im-
mediate steps be taken to counteract
the effect produced by the specula-
tors in cottonseed products. As above
stated, the price has advanced \$20
per ton in the last sixty days and the
reason for this is that all old crop
cake and meal has been practically
cleaned up and there is very little, if
any, cake or meal available for
prompt shipment, regardless of the
price you might offer. It will be sixty
days before a general operation of the
oil mills will begin. The mills
have not as yet purchased any seed
nor will they for at least thirty days
and then in very limited quantity.

The mills have been placed in this
position; they do not want to sell
their cake until they have purchased
seed and know what the manufac-
tured product is going to cost them,
but the speculators, whether they be
cowmen, dealers or exporters, are
forcing the mills to name prices for
future shipment and naturally the
mill names a price high enough that
he thinks his interest will be fully
protected. We know from direct in-
formation that the majority of the
mills in Texas and Oklahoma, in fact
the entire South, are not wanting to
sell their products at this time and
the prices they have named, they
named with the aim in view of not
selling any products and every time
they name a price and the buyer pur-
chases, the next time they name a
higher price. From this you can
readily see that your interest will be
best protected by waiting to pur-
chase your cake and meal require-
ments until the mills begin operating
which will not be earlier than Septem-
ber and we would suggest that you
hold off purchasing your require-
ments until in October, regardless of

the conditions that may exist with
you, unless you can get the cake
shipped at an early date. You will
gain nothing by buying at this time
for September or October shipment
and the probabilities are that you will
save \$15 to \$20 per ton by waiting.
Prior to the war the price averaged
about \$23 per ton, f. o. b. the mill,
basis 43 per cent protein. The Food
Administration set what they consid-
ered an equitable price. We thought
that they set the price too high, but
probably they had information from
both sides that justified the price
they named of \$57 f. o. b. the mills,
basis 43 per cent protein, nut size
cake, 100 pound sacks and while we
do not believe the conditions justify
the cost of operation of oil mills liv-
ing cost and other expenses have in-
creased, we do not see where it is
possible for cake or meal, basis 43
per cent protein, to be worth over
\$60 per ton f. o. b. the mill.

While there is a shortage of grass
and feed in Colorado, Montana and
Idaho, conditions were never more
favorable in Texas, Oklahoma, New
Mexico, Kansas and Arizona and
these sections use more cake than all
the rest of the range region of the
United States together.

The officers of our Association are
ever alert to watch your best inter-
est and by the combined efforts of all
livestock associations, we can accom-
plish much and if you will kindly ask
the association that you belong to get
out a letter to its membership on the
above subject we can be of great help
to all cottonseed cake users.

We are getting out something like
32,000 letters, sending them over the
great cattle growing region of the
United States and to seventy-four live

PROCLAMATION

Whereas, At the regular meeting
of the board of trustees of the Vil-
lage of Texico, duly held on the 8th
day of March, 1919, there was pre-
sented to said board of trustees a pe-
tition signed by a majority of the
taxpayers and residents of the
G. Clark Smith Addition to the Vil-
lage of Texico, which petition was ac-
companied by a survey and plat of
said addition; and,

Whereas, Said petition requested
and prayed that said territory de-
scribed in said petition be annexed to
the Village of Texico in the manner
and form prescribed by law; and,
whereas, said petition constitutes and
was contiguous territory to the Vil-
lage of Texico; and,

Whereas, Said board of trustees
did, on said date, duly pass a resolu-
tion consenting to the annexation of
said contiguous territory, and grant-
ing the request of said petition; and,
whereas, said petition and the survey
and plat accompanying said petition,
together with said resolution, were
duly filed in the office of the Clerk
of the County of Curry, State of New
Mexico, on the 29th day of May,
1919, and,

Whereas, I, the undersigned Mayor
of the Village of Texico, did, under
and by virtue of the statutes of the
State of New Mexico, and the power
in me vested, call an election to be
held in said G. Clark Smith Addition
to the village of Texico, and did fix
the 22nd day of July, 1919, as the
day and time for holding said elec-
tion; and,

Whereas, the vote cast at said elec-
tion has been returned and canvassed
in the manner and by the same offi-
cers as returns of the city, town and
village elections are canvassed, and in
compliance with the statutes regulat-
ing the return and canvass of the vote
cast at said election; and,

Whereas, It has been determined
by the said return and canvass of said
election that a majority of the ballots
cast at said election were in favor of
the annexation of said territory
sought to be annexed to said Village
of Texico;

Now, Therefore, I, the undersigned
Mayor of the Village of Texico, do
hereby proclaim, announce and pub-
lish that at said election a majority
of the votes cast was in favor of the
annexation of the said territory
sought to be annexed; that, therefore,
as a result of said election the said
G. Clark Smith Addition to the Vil-
lage of Texico did become and is
now a part of the Village of Texico
to all intents and purposes, the same
as if originally incorporated within
the said Village of Texico.

In Witness Whereof, I have here-
unto set my hand as Mayor of the
Village of Texico, this 4th day of
August, 1919.

G. W. Paul received the sad news Saturday morning of the death of his sister, Mrs. Naomi Walter, at Parsons, Kansas. The telegram came after the scheduled time of the morning Amarillo train, but as the train was three hours late, they were able to go to their homes in the country and get ready, returning in time to catch the same. Mrs. Walter was expected here any day now, they expecting to meet her on any train, but instead, received the sad news. Mr. Paul and family have the sympathy of the entire community in this their sorrow.

Robert Paul has returned from France. He left here in August 1918, staying in Camp Cody three weeks, six at Camp Dix, arriving in Liverpool October 25. He went direct to La Havre, France, then to La Mans, which was at that time the forwarding camp and finally the central embarkation camp of France. He then went to St. Aganin, where he remained on detached duty till ordered home on July 10. He arrived at Hoboken, July 30th. He says that he does not care to go back, and he wanted it understood that he expected to receive no communication from any of the French girls.

WHAT CAN A WOMAN DO?

She can come to a decision without the slightest trouble of reasoning on it; and no sane man can do that.

Six of them can talk at once and get along first rate, and no two men can do that.

She can safely stick fifty pins in her dress while he is getting one under his thumb nail.

She is as cool as a cucumber in half a dozen tight dresses and skirts while a man will fret and fume and growl in one loose shirt.

She can talk as sweet as peaches and cream to the woman she hates while two men would be punching each others' head before they had exchanged ten words.

She can go to church and afterwards tell you what every woman had on, and in some rare instances can give you some faint idea what the text was.

She can walk half the night with a colicky infant in her arms without once expressing the desire of murdering the infant.

She can—but what's the use? A woman can do anything and everything and do it well.

Motor Rates

Minimum horse power served on motor service 1 h. p. Rate: \$1.00 per horse power connected load and five cents per kilowatt for current consumed. The usual meter deposit will be required. Power motors only, take this special rate. Fractional horse power motors and fans do not come under this rate as the current consumption is so small that customer would not be justified in having premises wired for special circuit, and making meter deposit; and the company would not be justified in going to the expense of extra service wires and equipment.

NOTICE

We have on hand a large, fresh stock of Grogan Mineral Water, which is far beyond a doubt Nature's Unsurpassed Remedy for Liver, Kidney, Bladder, and Stomach trouble and all catarrhal conditions, a natural water fresh from the wells that is stronger in its effects and more beneficial in its results than even the highly fortified and concentrated waters.

We are now in position to offer this water to you F. O. B. Clovis, N. M., at \$5.50 per crate of twelve one-half gallon bottles, refunding you \$2.00 for return of crate and bottles which makes the water actually cost you \$3.50 for six gallons.

If you are suffering from any of the above mentioned troubles, We insist that you give this water a trial. Why keep on in the same old rut paying out \$10.00 to \$50.00 per month for something that has failed to cure you? We have letters of recommendation on file from people of about 15,000 satisfied customers; to give you copies of the letters would make a book and we do not have the time and money to furnish you this for which we are sorry.

Prominent Wichita Falls Oil Men Get In With Great Western

Excitement runs high, Crowds rush in to buy Leases as the Great Western Oil & Refining Company and other Companies prepare to steam up for spudding in.

THE GREAT WESTERN OIL & REFINING COMPANY WILL SPUD on their BIG BLOCK of leases known as the KENNA-ELIDA structure, at Kenna, New Mexico, in the heart of what we believe is the great Oil Fields. It is said that Lease buyers from the Wyoming, Colorado, Kansas, Oklahoma and Texas Oil Fields are becoming interested, and are watching the development of this great structure with much interest.

Shares Are Still \$1.00 Par Value

Every one seems to be confident that the Great Western will unearth a great pool of oil and gas. Leases and shares of stock are reported to be in great demand, and as the Great Western is one of the first New Mexico Oil companies, chartered in this state, hundreds of New Mexico people are investing in said company to help get home production if it is to be found here. The Great Western have acquired contract of purchase on some very fine acreage just three quarters of a mile from the famous Texas Chief well in the northwest extension of the Burkburnett Oil Fields, and this 10-acre block is thought by oil men to be BIG producing property when developed, and this ought to help make the Great Western a good dividend payer.
