

FROM THE  
HOPPER

BY HOP JR.

Associations and organizations of various types send a lot of junk to newspaper offices across the land every day, and most of their stuff winds up in the round file where it ought to go.

However, sometimes there are gems among the rocks. I took note of a release issued by the American Medical Association last week on-- of all things--warts.

For one thing, I was surprised that the AMA would bother to comment on such an unsung and lowly object as the human wart. For another thing, I didn't think the nation's medics could do much about warts since I'm sure that their professional approach to the healing arts would insist that they have no truck with charms and magic which, as anybody who knows will be glad to tell you, is the only sensible way to handle the wart problem.

Well sir, let me tell you that the MD's up and admitted, right there in print, that for some inexplicable reason, some people seemed to have a strange and uncanny power over warts, and could cause them to disappear with various types of hokum.

The medics are finally coming around to the basic elements of wart control, or so it would appear anyway. I can't help but wonder what caused this amazing change in their outlook. It would be funny if it turned out that the president of the American Medical Association sold a wart to somebody and it disappeared.

As the years roll by I continue to affirm things which I previously had only mildly suspected, or had lightly taken for truth only because someone who seemed to know told me it was that way.

One of these is the great and lasting influence which parents impart to their offspring. Both of my parents have been gone for a number of years now, but scarcely a day passes when I take some action that is not after reflection on the things they had taught me.

Their influence in my thought processes is enormous, and I am sure that this influence will grow rather than diminish as I become older--in spite of the fact that my recollection of their actual words and deeds grows dimmer as time moves on.

The mystical powers given to every parent are awesome in their strength and effect, and ought to be respected and cared for by adults who receive this gift.

Impressions which children receive in the home from their parents are indelible and have an amazing ability to live on and on. I have no idea how all of this works, but it is very evident that it does.

Any person considering launching out on his own in business had better be prepared to do battle for whatever he may consider to be his share as there are plenty of people prepared to take it away from him.

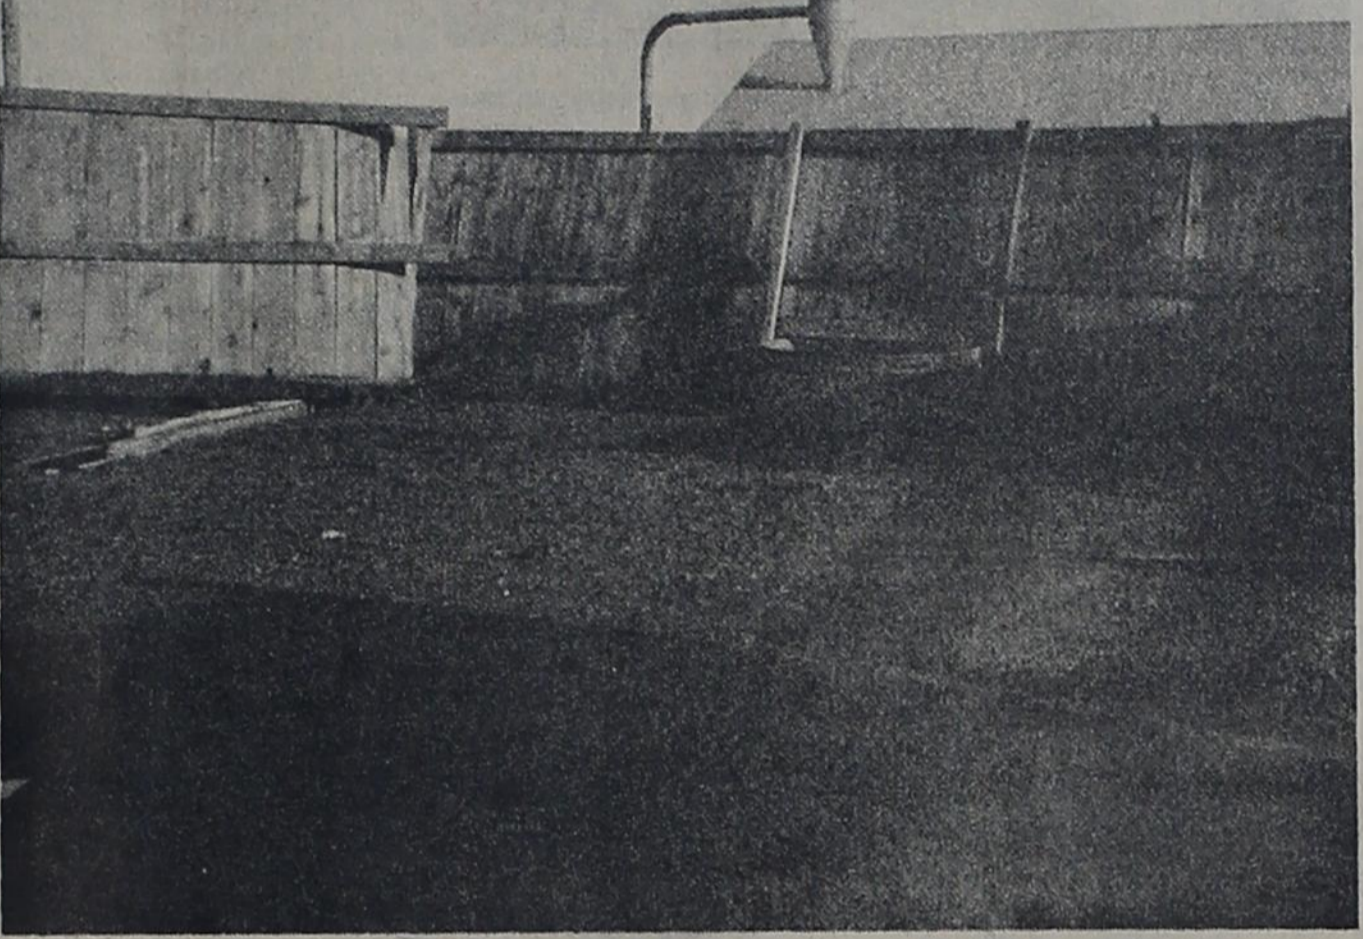

In spite of the heavy burden of taxes and regulation forced upon the businessman by his government, and in spite of the overwhelming problems of running a business in the modern society in which we live, the businessman is envied and his position is sought after.

There are no fields of endeavor left which are there practically for the taking. That is, simply setting up shop and waiting for business to come in will not work any more. The businessman who succeeds needs more than just capital and hard work, although certainly these are essential ingredients. His shrewdness and acumen is of paramount importance today.

With so many fields already filled to overflowing, with so many industries capable of producing more than the market is consuming, often the businessman finds that he must count on displacing someone else in order to obtain enough to survive. That realization breeds competition of the fiercest sort.

Persons viewing launching out into business for themselves had better bring some new ideas with them, or their chances for advancement are limited. Certainly we have ample opportunities in a dynamic and rich country such as America, but it will take some scratching to find them.

New products, new services, new markets--these are the real frontiers in American business these days.

Winds of near tornadic velocity ripped the top from a sheep shed on the farm of M. T. Glasscock, southeast of Farwell, Monday night around 10, carrying it some 40 feet before depositing it against the side of a feed barn. Shown looking over the damage, top picture, is Chase Chisman, tenant on the farm. In the lower picture, the shed is shown with one end ripped off by the wind while the rest of the building remained undamaged.

## Injury-Laden Steers Second At Kress Relays

The injury-hampered Farwell Steers came in for second place at the Kress Relays the past Saturday. They were without the services of Danny Lindop and Ronnie Reed in the finals, as both boys had to be pulled off the 440 and mile relay teams, due to having pulled muscles, in the preliminaries earlier in the day.

Coach Dempsey Alexander says he is hoping the boys will be able to take part in the district track meet this Saturday in Springlake. Time of the preliminaries at the Saturday meet is 2:45 p.m. with the finals to get underway at 7 p.m.

First place winner at the Kress Relays was Springlake with a total of 128 points as compared with 90 for the Farwell Steers.

Best event of the day for Farwell was the mile run by Gareld Chisman with a time of 4:57. Other places won by the Farwell group were 440 relay, 4th; 120 high hurdles, Butch Ford-3rd; 100 yard dash-Roy Donaldson-2nd with a time of 10:7; (he had previously run the same distance in 10:3 to qualify for the finals), 440 dash-Bob Scott Anderson-4th; Leon Lovelace-5th; 220 dash,

Roy Donaldson-2nd.

The mile relay team was 3rd; Leon Lovelace threw the shot-put 41:4, to place-1st in that event; Roy Donaldson was 3rd in the broadjump with a leap of 18:7. Leon Lovelace hurled the discus 123:21/4 for a 1st place in that event, and Ronnie Henson came in for a 3rd place in the same event.

Other teams entered in the Kress Relays were Kress, Price College, Sudan, Hale Center, Happy and Quitaque.

Coach Alexander, says the Steers are showing improvement and he has high hopes for the team winning the district meet. All first and second place winners at the district meet will be eligible for the regional meet, in Lubbock, April 20.

Farwell football fans will have more enjoyable viewing of their favorite sport next fall after major improvements are installed at Farwell Field.

Seven hundred seats are being added to the east side (visitors') bleachers and a new 8x17 press box is to be installed. But perhaps the most significant addition, from the point of the fans, will be the increase in lighting facilities.

Two special mercury-vapor type lights are being added to each pole around the field, which will boost the illumination on the field from its present meagre three-foot candlepower level to an estimated nine or ten-foot candlepower.

The Vibra-Whirl Corporation of Panhandle has been awarded the contract for the improvements, which total \$13,405. The money is coming from the local maintenance fund.

August 15 is the completion date for the improvements.

Members of the winning team are Margaret Haseloff, Pat Kaltwasser, Melody Coffman, Brenda Dale, Donna Mills, Darlene Erwin and Paula Winegeart.

Freshman girls drew a bye in the first round of play, and only had to play the Springlake crew whom they twice defeated by a score of 15-10 losing one round 15-8.

Girls playing on the freshman team are Becky Strain, Edith Ann Walling, Teresa Quicquel, Melinda Richey, Donna Dale, Diane Lovelace and Maude Stancil.

Junior high school girls followed the lead of their older sisters and defeated Kress 15-7 and 15-2 and Springlake 15-8 and 15-3 to win their section of the tourney.

Farwell boys were not so fortunate as their sister teams and were only able to come up with a second place win for the high school boys and a third place win for the junior high school team.

Members of the second place

Farwell girls gave a fine performance of last year's winning the district volleyball tourney Tuesday. They will be entered in regional play in Lubbock, April 20. All other girls' teams in the Farwell school division were winners of first place in the tourney; however they will not be eligible for regional play.

The Farwell girls took their first win from Sudan playing a round of three 15 minute games. In the first round they were victorious over Sudan 15-7; however in the second round Sudan defeated the Farwell lasses 15-7. In the third round Farwell was again victorious with a repeat score of 15-7.

Final play for the team was with Springlake, who had tournaments at Plainview and Levelland. Farwell won first round from Springlake 15-13, second round went to Springlake 16-6; however the Farwell girls came back in the final round to win 15-12.

### City Issues Three Building Permits

All councilmen and the mayor were in attendance at the Farwell city meeting, Thursday at which only routine business was transacted.

Three building permits were granted with one each going to D. C. Halle for the construction of a double garage at his home on 1st St; Security State Bank for the construction of a new bank building on Ave A, and to

Otto Lingnau and Farris Heathington to move a house to 8th St.

Owners of the property on highway 70-84 in east Farwell granted the city an easement to use a part of their property to establish an alleyway. Property owners are Rober O. Morton, G. D. Anderson, Jerald Kirkland, Calvin Blain and Oklahoma Lane Farm Supply Co.

### KELLY GREEN SEED INC.

Cottonseed; Normally we do not sell cottonseed since we feel that Lawrence Cooper or the good people at Nickel's gin should be taking care of that. But we have a very limited amount of the Ricot 90 variety that was first in production on lint in '62 out of eight test last year. This cotton is an early stormproof variety that is blight resistant and should yield better than Gregg. First come, first served on this as we have only 80 sacks of it — Texas Certified and treated.

Yes we sell Di-Syston for control of cotton thrips and early season insects. If you have never used this chemical talk to Don Williams, Elmer Hargrove, or C. L. Mahaney they used it last year and the results was good. We can also get applicators for you to rig your planters to apply this at planting time. If you need any kind of chemicals come seed us, we might have just what you are looking for.

Patrick would like to figure with you on any of your planting seed. We are dealers for Steckleys, PAG, Frontier, Lindsey, and just about anything else that grows. Our Texas hybrid 660 is grown by one of the better growers in the state of Texas and is double treated for smut and wireworm protection. If you need good Texas 660 let me sell it to you, and remember you can shear a sheep many times, but you can only skin him once. Try Patrick's shearing service.

Get out and vote Saturday in the school election, there are some good men running.

### THDA CONVENES

(Continued from Page 1)

er, state secretary. Workshops on five subjects will be presented. These include citizenship, family life, civil defense, health and safety and 4-H.

County reports will be given by presidents of each county council, telling of the work done in each county.

Also in the afternoon session, reports will be given on the workshops. An address, "How THDA Grows in Your County," will be given by Mrs. Glynn Harrell of the Castro County HDA.

Mrs. R. A. Hodges, district director, will preside over the convention. Mrs. Vernon Symcox, county THDA chairman, and Mrs. John D. Sanders, county council chairman, are co-chairmen for the convention.

One of the main items of business at the convention will be the report on resolutions to be presented at the state convention, which will be held in San Antonio in September.

The Hub Home Demonstration Club is in charge of the noon meal Thursday. Friona and Black clubs have charge of the coffee. Oklahoma Lane members will register the visitors. The Midway club will register the board members. Rhea and Northside clubs are in charge of the lunch tickets. Lazbuddie is furnishing typists for the convention.

Each of the eight clubs in Parmer County is furnishing two pages to help with the convention.

"How can I ever learn the value of a dollar when all I get for an allowance is 25¢?"

### NEW DIRECTORS

(Continued from Page 1)

so provided entertainment, with readings, solos, duets, and piano selections. Refreshments of cookies and punch were served.

All community residents are invited to attend a social at the community center, April 9, 8 p.m. Each family is asked to bring a card table and dominoes for game time, and a pie for the social hour.

Board members are urged to be in attendance as a short business meeting will be held.

### PARMER BOND

(Continued from Page 1)

first two months of 1963 were \$28,367,297 and 18.8 per cent of the 1963 sales goal of \$150,600,000 has been achieved.

"According to a report just received, hundreds of civic, fraternal, business, labor, professional and women's organizations are assisting the Treasury Department in urging all Texas families to buy a Savings Bond before the Fourth of July. Lions, Civitan, Kiwanis, VFW, Texas AFL-CIO, American Legion Auxiliary, and Texas Federation of Women's Clubs are only a few of the clubs that are cooperating in this year's Freedom Bond Drive," Chairman Spring advised.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879. Published every Thursday.

SUBSCRIPTION RATES -- Parmer and adjoining counties, \$3.00 per year; elsewhere, \$4.00 per year. Payable in advance.

### Residents Reminded Of Sticker Deadline

Farwell area residents are reminded of the April 15 deadline for obtaining their safety inspection stickers for their cars.

Although approximately 75% of the registered vehicles in the county have already obtained the stickers, Captain Alan Johnson of the Texas Department of Public Safety says unless the other 25% of the car owners begin now to have their cars inspected, long lines of people will be waiting at inspection stations.

He points out that there will not be an extension of time, as the inspections started in September.

Failure to have a 1963 inspection sticker on a vehicle after the April 15 deadline is a violation of the law and is punishable by a fine not to exceed \$200.

### Dickie Gerles Pledges Fraternity

Dickie Gerles, son of Mr. and Mrs. Dick Gerles and a freshman student at WTSC, Canyon was among the 80 men who recently pledged the four national fraternities and the one local fraternity on the college campus.

Gerles an agriculture major, pledged the Kappa Alpha Order, a national fraternity.

### Youth Arrested After Breakin

Johnny Star, Jr., 21, of Newkirk, Oklahoma, was jailed on a burglary charge last week, following a break-in attempt at the Black Mercantile store in Black last Thursday morning. Star broke the window of the store operated by L. L. Deaton, and started to enter the store when he was frightened away by Deaton, who was aroused by the noise. Deaton lives in back of the store.

Star was then picked up moments later after Deaton called Friona law officers. Bill Morgan apprehended Star as he walked along Highway 60 toward Friona, about a mile out of Black.

The colored youth told officers he "was hungry." Deaton said there were crates of bananas outside the store which had been left there by a truck earlier in the night.

Friona officers and county sheriff Charles Lovelace investigated another break-in in Friona Thursday at the Hughes Barbecue Stand, where a burglar raided the company's cigarette machine.

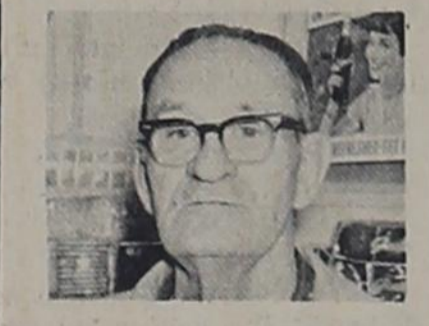

### Curry Gas Users Meet Tonight

All persons in Curry County who use gas for irrigation purposes are invited to a meeting at Farmer's Electric Coop Building in Clovis tonight, April 5, 7:30 p.m. (MST).

Purpose of the meeting is to discuss ways and means of organizing a Gas Users Group in Curry County.

Howard Whkener and Troy Lovett, Pleasant Hill farmers, will be in charge of the meeting.

### Uncle Ray's "Hot Air"

The door bell rang and the lady of the house discovered a workman, complete with tool chest, on the front porch. "Madam," he announced, "I'm the piano-tuner."

The lady exclaimed, "Why, I did not send for a piano-tuner."

The man replied, "I know you didn't, but your neighbors did."

Nowadays a husband and wife must have minds that run in the same channel--or have two television sets.

You can afford two TV sets when you shop Uncle Ray's low prices.

Six Cub Scouts were honored Saturday night at regular pack meeting. Boys receiving awards were: (left to right) Gary Erwin, wolf badge; Ted Glenn, two silver arrows; Larry Erwin, wolf badge; Eddie Meeks, assistant denner bar; and Bert Stoffer, wolf badge and gold arrow. Wilbur Bryant, who received a denner bar, was not present for the meeting.

### OUTDOORS IN TEXAS

By Vern Sanford  
Finally, fishing has received some of the recognition and official sanction it so well deserves. Recently the Governor of Missouri issued the following proclamation that so aptly describes the soul-soothing yet exhilarating sport of fishing.

from mischief (a fact which totalitarian countries totally fail to see), and;

"WHEREAS we can expect to be treated to a world-wide display of shakings of the mailed fist by totalitarian nations who make a mockery of gentle May Day;

"NOW, THEREFORE, I, John M. Dalton, Governor of Missouri, do hereby proclaim as our answer to woes besetting the world that Friday, May 4, 1962 is FISHING DAY IN MISSOURI.

"Let all who may, go forth into this commonwealth's great outdoors and enjoy the angling pleasures of her many waters, declaring to all the world that while others may bedevil them-

### Dial Stars In Green-White Game

Leading the Green team at ENMU to victory over their White opponents recently was Benjy Dial, a sophomore student at the college and a 1961 graduate of Farwell High School.

Dial passed for two touchdowns and was the game's leading rusher. It was in the third quarter of play that Dial unlimbered his arm, and tossed two touchdown strikes. One to Burrell Tucker for 13 yards and the other to Leo Brittain for 42 yards. He also hit five of ten passes for a total of 136 yards and rushed for 51 additional yards to be named the team's outstanding player.

Final score of the game was Greens 42-Whites 0.

# CHRISTIANITY

## Is The Bulwark of Our Way of Life

REV. CARL COFFEE

THE PARADOXES OF CHRIST

PSALM 126:3  
The Lord has done great things for us; whereof we are glad.

He was the Light, yet He hung on the cross in total darkness. He was the Life, yet He poured out his soul unto death. He was the Son of God, yet He died the Villian's death. He was holy, undefiled, separate from sinners, and knew no sin, yet He was made sin when he took Barab's place and died in his stead.

He bade the weary to come to Him for rest, yet on earth He had no place to lay his head. He was the Lion of the Tribe of Judah, yet He was led as a lamb to the slaughter. He was the Ancient of Days, yet He gave his life in the midst of his days. He was the Father of Eternity, yet He became the baby born in a manger at Bethlehem.

He was the Mighty God, yet He became a man, and died through weakness. All the fullness of the Godhead dwells bodily in Him, yet He took on Him the form of a servant, and was made in the likeness of man.

He spoke, and it was done. He commanded and it stood fast, yet He stumbled Himself and became obedient even the death on the cross.

He was the Desire of all Nations, yet He was despised and rejected of men. He is the Fountain of Life, yet on the Cross He cried - "I thirst".

He was the Son of God, yet He is the Savior of the world to all who will believe.

Can you understand these mysteries? No, only partially, but by Faith we can accept them, and be thankful to God that He loved us enough to give his Son that we might have Everlasting Life.

### Toughest Driver in Town

Mr. C. is one of the nicest, gentlest fellows you'd ever meet. It's not his fault that he's tough on his car. It's just that he has to use it for frequent short trips around town... start and stop driving. And that's when corrosive wear can do the most damage, because the engine may never get really warmed up.

To protect your motor under severe start and stop driving conditions (the kind of driving most of us do) your Phillips 66 Dealer offers a very special oil: Trop-Artic All-Season Motor Oil. It starts protecting at low starting temperatures, and keeps on protecting at high operating temperatures. Trop-Artic is a top-performance oil that will keep your car running better, longer.

Get Trop-Artic Motor Oil at any station where you see the Phillips 66 Shield.

## Local People Hear Bishop Smith Speak

Among the local people in Clovis to attend the Methodist Laymen's Banquet the past Saturday night, at which Bishop Angle Smith was speaker, were Rev. and Mrs. Robert Tomlinson, Messers and Mesdames Buck Doran, John Green, John Getz, Woodrow Lovelace, Loyd Cain, Glenn Phillips, James Craig, Elmer Teel, J. E. Tadlock, L. S. Pool and W. D. Howard.

Bishop Smith told the gathering that the counties "down under" have said that their whole future depends on the United States and are looking to us for help. He reported that the churches in New Zealand and Australia are not strong in evangelism; however they are strong in social work, and have established homes for the aged, and underprivileged children.

He and Mrs. Smith have just returned to the States from a seven week tour of Australia, New Zealand, Tonga and the Fiji Islands. He was representing the Council of Bishops, the Board of Evangelism, the Committee on the Structure of Methodism Overseas and the World Methodist Council, of which he is program chairman, on his visit to these countries.

He says that many persons attend church in Australia, even more than are members of the church. It is not unusual to have as many as 2500 in attendance at a Sunday evening service he says, even though the church may not have more than 1200 members.

JARILYN HENSON

## Jarilyn Henson One Year Old

Little Miss Jarilyn Henson, one year old daughter of Mr. and Mrs. Jerry Henson, was honored with a party marking the event of her first birthday,

Thursday, March 28 in the home of her parents.

A buffet meal complete with birthday cake and ice cream was served from a table laid with a pastel pink linen tablecloth centered by an arrangement of miniature pink rosebuds in a pink teddy bear vase.

The chocolate birthday cake iced in white and decorated with pink roses two ballerinas, one pink candle and the words "Happy Birthday Jarilyn" in pink, was placed to the left of the floral arrangement. Party plates and cups decorated with tiny blue flowers and birthday napkins completed the decor. Colored pictures were made throughout the evening. Jarilyn was assisted in opening her gifts by her parents.

## Jo Potts Is Shower Honoree

Miss Jo Potts, bride-elect of Rex Carpenter, was honored with a miscellaneous shower at the home of Marilyn Edwards Tuesday evening.

Hostesses were Mrs. Edwards, Mrs. Woodrow Lovelace and Mrs. M. A. Snider Jr.

A cutwork cloth covered the serving table and silver and crystal appointments were used. A footed silver candelabra held four blue tapers and an arrangement of white snapdragons and blue daisies.

Individual cake squares were iced in blue with frosted designs in white decorating the confection. Coffee or spiced tea were served with the cake, nuts and mints. Blue napkins were inscribed with the names "Jo and Rex."

Attending were mother of the honoree, Mrs. Ray Ford, her sister, Mrs. Jimmy Welch, mother of the groom-to-be, Mrs. E. Rex Carpenter, his sister, Miss Janice Carpenter, and his grandmother, Mrs. Inez Carpenter. Also Mesdames T. J. Kirtrell, Bob Hart, Harold Carpenter, G. D. Anderson, Don Williams, Don Thompkins, Johnie Williams, Eddie Traxson and Stephanie, Sterlyn Billington, Elmer Hargrove, Claude Dyer, Bob Anderson, Glenn Phillips, John Getz, W.H. Graham Jr., Mose Glasscock, Jack Porter and Miss Joyce Kaye Watts.

Sending gifts were Mesdames Willie Williams, G. D. Anderson Jr., A. F. Phillips, Johnnie Chappell, John Lovelace, Ira Wesch, Mitz Walling, Joe Magness, Carl Davis, Clark Billingsley, A. R. Jordan, Ted Magness and Clytie Dial.

Also Mesdames Herbert Potts, Larry Pike, Bill Flowers, A. T. Watts, Bill Bannister, Billie Watts, Dale McCuan, John Porter, Guy Cox, Carrie Mae Hargrove, Kenyon Dean, Verna King, Bob Donaldson, Dee Clements, Bob Kimbrough, Owen Jones, Arnold Gross and Misses Billie Jean King, Sherri and Toni Billingsley.

Attending were Jarilyn's grandparents, Mr. and Mrs. Milton Henson and Mr. and Mrs. Jim Moss, Glendon Moss, Mr. and Mrs. Jimmy Don Moss and son, Mike, Mr. and Mrs. Paul Crooks, and daughters, Jean Ann and Jana and the host family, Mr. and Mrs. Jerry Henson and Jarilyn.

## LUTHERAN NEWS

LWML met at the church April 4 with Mesdames W. Kalbas and G. Kaltwasser as hostesses. Topic for discussion was "Hymns" led by Mrs. A. R. Sander.

Sunday School training class met April 4, 8 p.m. at the church.

Regular Walther League meeting will be April 7, 7:30 p.m. in the home of the president, Lawrence Kreigel, in Bovina. This is a change in the regular meeting date due to Easter.

Church council will meet tonight (Friday) at 8 p.m. At mid-week service, April 11, Holy Communion will be observed.

## LOCALS

Mr. and Mrs. R. C. Lemmons visited in the home of Sgt. and Mrs. Richard Hancock and family last week while attending the North American Baptist Association Meeting in Shreveport, La.

Mrs. D. G. Schooling visited last week in Shreveport with her daughter and family, Mr. and Mrs. W. A. Pace.

Mrs. Carl Strange, right, Portales president district 4 New Mexico PTA, is shown installing new officers of the Texico PTA at Monday night ceremonies. Installed were Murray White, president, Mrs. Melvin Burns, vice-president, Mrs. Jack Eshleman, secretary, Mrs. Perry Winkles, treasurer.

## Miss Morris Is Shower Honoree

Miss Jean Morris, bride-elect of Wayland Thomas, was honoree for a miscellaneous shower Tuesday evening at Texico First Baptist Church. Hostesses were members of Golden Circle Sunday School Class.

The honorees chosen colors, of orchid and white, were carried out in decorations. Serving table was laid with a white lace cloth over orchid and centered with a floral arrangement of orchid and white carnations, flanked by the crystal punch service. White napkins engraved with wedding bells in silver completed table decor.

Orchid punch, nuts, mints and assorted cookies were served by Mesdames John Hill and Jess Hudson. Mrs. Erna Stone presided at the guest register.

Gift table was laid with a white cloth and centered with an arrangement of orchid and white sweetpeas and a bride doll under a huge umbrella.

The honoree, her mother, Mrs. Morris, and mother of the groom-to-be, Mrs. C. G. Thomas, were presented corsages made from miniature kitchen utensils tied with white satin ribbon. The two mothers as-

sisted Miss Morris in opening her gifts.

Attending were Mesdames J. O. Morris, O. G. Thomas, Le-Von Thomas, Buck Hudson, Jess Hudson, John Hadley, Frank Doshier, George Taylor, Peggy Elek, Ray Stone, R. L. Day, Fred Danforth, Buck Doran, Kenneth Doolittle, F. S. Thigpen Tena Roth and Jack Watts. Also Misses Kathryn Stephenson, Dianne Baldrige and Shirley Huber.

Gifts were received from many persons who were unable to attend.

## Future Teachers Guest At Delta Xi Meeting

Farwell Future Teacher club members, Misses Mary and Martha Coffey, Janice Prince and Becky Strain, along with their sponsor Mrs. A. C. Clarke were, special guests of Delta Xi Chapter of Delta Kappa Gamma Society at a salad supper meeting in Hart Saturday night.

The meeting was opened with prayer and a brief business meeting followed the supper. Miss Della Stagner, Hereford, president of Delta Xi was in charge of the business session. Mrs. Inez Robinson, high school science teacher in Dimmitt was honored by the chapter for her outstanding work in the field of science.

A TV type program, "What were you doing at That Hour?" was directed by Mrs. Ernest Osborn, sponsor of Friona Future Teachers Club. The panel was made up of Misses Sharon

Reeve, Gayle White, Clare Savage, Mary and Martha Knight, Brenda Deaton and Kay Neel.

Other honor guests were Miss Edna King and Miss Darthula Walker, retired WTSC teachers and members of Delta Kappa Gamma; along with exchange students, Elke Steffens (Germany) of Bovina; Frank Hergert (Germany) Hereford, and Heather Gordon, Hereford, whose home is in Johannesburg, Union South Africa.

Closing number on the program was by Miss Gordon, who gave a graphic picture of the conditions of South Africa. She began her talk by saying that Africa is today seeing two lights, the Red light and the White light of Democracy and Freedom.

Though Communism is banned, yet underground working of Communism is prevalent. The population is made up of native Bantus, native white and the imported colored race from India, for labor. Here complete racial segregation is practiced. Most of the people speak as many as seven languages and 85% of the people are Christian.

Heather emphasized her country's sound economy, but said help from the United States is badly needed, not financial help, but help to combat Communism. She closed with the remark that the Union of South Africa is as balanced on a sea of uncertainty, and her plea was that we might walk together and talk together in peace; that we might walk with God and stay with God.

Chapter members attending from Farwell were Mesdames John Zahn, John Boling and Claude Coffey.

## What's Cooking At School

MONDAY: Baked ham, sweet peas, tossed salad, hot rolls, butter, butter-icebox cookies, apple sauce, milk.

TUESDAY: Bar-b-que beef on bun, buttered carrots, tomato and lettuce salad, banana pudding, milk.

WEDNESDAY: Hamburger-bean casserole, buttered corn, tomato slices, lemon-upside cake, cornbread, butter, milk.

THURSDAY: Hamburger, tomato, lettuce, pickles, jelly rolls, fresh pears, milk.

FRIDAY: School will be out for Easter Holiday.

## Visiting Order Of Day At Club Meet

Visiting and needlework were the order of the day at a recent meeting of Variety Club members when they gathered at the home of Mrs. John West in Farwell.

Members were present from Oklahoma Lane, Farwell and Bovina. Next meeting was set for April 4, in the home of Mrs. W. N. Foster.

At the close of the afternoon, Mrs. West served a refreshments plate of sandwiches, pie, cake and coffee to Mesdames George Lindop, G. A. Bandy, W. N. Foster, J. R. Caldwell, Claude White, C. C. Christian, G. T. Watkins, L. M. Grissom and Miss Lola Jean Grissom.

 - Mr. and Mrs. Jerry Barton and children spent the weekend in Odessa visiting Mr. and Mrs. O. F. Barton.  
 - Mr. and Mrs. C. D. Gustin returned from Fort Worth Sunday. She had been at the bedside of her sister, Mrs. A. W. Bailey. The J. B. Jennings family also visited with Mrs. Bailey over the weekend.  
 - Mrs. Annie Vaughn and Mrs. Myrtle Steinbock visited with Mrs. J. L. Shuping in Kress over the weekend. Mrs. Shuping is the daughter of Mrs.

## Volleyball Tournament For Outsiders April 25-27 At Farwell

The Farwell Junior High girls' basketball team is sponsoring a volleyball tournament for outside teams, both men and women, at the Farwell High School Gym, April 25-27.  
 - Entry fee for the event is \$5. All entries should be returned with entrance fee and the names of players by April 12, to James Craig at the Farwell High School.  
 - Eight players will be allowed on each team and team members will only be allowed to play on one team.  
 - Trophies will be presented to first, second and consolation in both the men's and women's divisions.  
 - Price of admission is 25¢ per person each night, including players. Proceeds from the tournament will be used to buy new basketball uniforms for the junior high school girls' teams.  
 - when she became ill.  
 - Mr. and Mrs. A. C. Newsom and family attended the funeral of Henry Conner in Springlake Friday.  
 - Captain and Mrs. James Fisher, Ft. Lance Air Base, Abilene visited with Mr. and Mrs. E. A. Parham recently.  
 - Birthday greetings to Sherry Robinson, Loma Gustin, Nedda Foster, Jan Mason, Ray Vanlandingham, Joy Hall, Betty Newsum, Arthur Castaneda, Alford Steinbock, David Flores and Isidro Zarazua.  
 - Rev. Davidson announces that the First Methodist church will have special services the week following Easter. Details will be announced in the news next week.  
 - Mrs. John Hughes, Lubbock visited with Mrs. Finis Jennings last week.  
 - Mr. and Mrs. John Littlefield returned from Fort Collins, Colo. last week. They had been there on business.  
 - Vernon Goodwin, Seagraves, visited the Dan Cargiles Tuesday.  
 - Mr. and Mrs. Rufus Carter recently returned from Oklahoma where they attended the funeral of his uncle John Tate 90. They also visited with other relatives in parts of Oklahoma, and Texas.  
 - Recent visitors in the Carter home were Ora Bradshaw, Mrs. Glen Stephenson, Mrs. Kirby Mangum, and Mrs. Eugene Martin.  
 - GA's of First Baptist Church held its annual banquet Friday night. Theme for the banquet was "Pioneer Mission". Guest speaker was Miss Elizabeth Ramon from Wayland College. She has been a teacher in Cuba and gave a very inspirational and informative talk on Communism.  
 - Setting for the banquet was a desert scene. Mothers and daughters attending the banquet wore styles of 50 years ago in honor of the Golden Anniversary of the GA Organization.

## Pleasant Hill

BY MRS. BUCK TAYLOR  
 - Mr. and Mrs. Wilburn Cash were supper guests Saturday night in the home of Mr. and Mrs. Tom Hartwell at Bovina. Visitors, last week, in the home of Rev. and Mrs. Hugh Frazier were her parents, Rev. and Mrs. Bill Parson from Lynwood, Calif.  
 - Mr. and Mrs. Marion Walker spent Sunday in the home of Mr. and Mrs. Jim McCullough.  
 - Mrs. Robert Servatius and Mrs. L. D. Taylor visited in

Friona, Saturday, in the D. G. Hand home.  
 - Mr. and Mrs. Charles Adair and children, Hobbs visited Sunday in the home of Rev. and Mrs. Hugh Frazier.  
 - Mr. and Mrs. Earl Servatius, from Fritch, spent two days this week in the home of Mr. and Mrs. Robert Servatius.  
 - Mr. and Mrs. Weldon Dane, Mary and Johnnie spent the weekend in Bowle with Mrs. Effie Griffin. Mrs. Griffin is the mother of Mrs. Dane.  
 - Eugene and Pauline Servatius were visitors in the home of their grandmother, Mrs. Janie Anderson in Anton, Sunday.  
 - A warm welcome is extended to Mr. and Mrs. Weldon Tatum, newcomers to the community, who live on the Don Williams farm. They moved here from Lubbock.  
 - Mrs. Von Hukill and children, Troy and Kathy, accompanied by Von's parents, Mr. and Mrs. H. C. Hukill, are visiting in Lexington, Neb. with Mrs. Hukill's parents, Mr. and Mrs. Millard Dodge.

## Texico Student Council Attends State Meet

Five members of the Texico High School student council accompanied by their sponsor, Mrs. Ruby Doran were in Carlsbad over the past weekend to attend the state student council meeting and annual convention. The group left Texico Thursday morning and journeyed to Artesia, where they stopped for a visit at the newly constructed underground elementary school. After a tour of the school they went on to Carlsbad that afternoon and visited the Carlsbad Caverns, courtesy of the National Park Service. In the evening they attended a mixer where they met delegates from other schools throughout the state.  
 - Friday morning a general assembly was held with Jess Anderson, Las Cruces, president secondary school principals association, guest speaker.  
 - Mrs. Doran, was in charge of a clinic on "Problems of the Small School Student Council". Wayne Hudnall, president of Texico student council, and recently elected president of Eastern New Mexico District of student councils, led a discussion group on different installation ceremonies. Acting as secretary at this discussion was Miss Kathy White, also a Texico student.  
 - A panel discussion by foreign exchange students was one of the most enjoyable parts of the meeting for the local group. Exchange students discussed the difference in dating practices in their home countries, and in the educational facilities of their home countries as opposed to those in the U. S. Students taking part in the discussion were from Greece, Norway, Denmark, Germany, Iran and British South Africa.  
 - Next state meeting for the student council will be in Farmington.  
 - Attending from Texico were Wayne Hudnall, Kathy White, Donald Chandler, Linda Campbell, Weldon Walker and Mrs. Doran.

## Peggie Teel To Attend Collegiate Press Meet

Among the twelve ENMU students attending the Rocky Mountain Collegiate Press meeting in Denver this week is Miss Peggie Teel, daughter of Mr. and Mrs. Elmer Teel, Texico.  
 - The meetings will be held at Denver University, and journalism students from colleges and universities in Arizona, Colorado, Idaho, Montana, New Mexico, Utah and Wyoming will participate in the seminars in yearbook and newspaper editing and production.  
 - On Saturday night a banquet will be held for all students attending and the best newspapers, daily and non-daily, and the best yearbook will receive awards.  
 - Speakers for the occasion will be staff members of Time and Life magazines, editor of the Rocky Mountain News and Denver Post as well as faculty members from the University at Denver.  
 - Miss Teel was among the nine candidates for Dolphin Queen, at ENMU's annual Aquatic show the past weekend.

## Contract Let For Roadwork In Bovina

A contract for 1.9 miles of construction on SH 86 and FM 1731 in Farmer County has been awarded to a Lubbock firm, it was announced in Austin this week by the State Highway Commission.  
 - James C. Kerr submitted the low bid of \$119,815 on the project. Grading, flexible base, and three course surface treatment from west to east city limits of Bovina and from US 60 to south city limits in Bovina, is expected to take 100 working days, according to O. L. Crain District Highway Engineer at Lubbock.  
 - Rhea Bradley, Resident Engineer at Littlefield will be in active charge of the project while it is under construction.

## Lazbuddie FHA Conducts Cookbook Sale

The Lazbuddie Chapter of FHA is conducting its annual sale of the famous cookbook, Favorite Recipes of Home Economics Teachers.  
 - The 1963 edition of the book features desserts and party beverages. These cookbooks sell for only \$3.01 and would make a wonderful gift for weddings, graduation and showers.  
 - Over 2000 recipes are in the book which is sold only as a fund raising project by Home Economics chapter. To obtain one of these fine recipe books contact any of the home economics girls at Lazbuddie or the teacher, Mrs. Walton.  
 - Money made from the sale of the books will be used to send members of the FHA to the state meeting later this year.

**LEGAL NOTICE**

NOTICE OF INTENT TO INCORPORATE WITHOUT CHANGE OF NAME

TO WHOM IT MAY CONCERN:  
Notice is hereby given that L. D. Gallini, Mrs. L. D. Gallini and John Mortenson intend to incorporate under the name Parmer County Gin Co., Inc. without a change in the firm name which was formerly a sole proprietorship owned by L. D. Gallini d/b/a/ Parmer County Gin Co., after the expiration of publishing this notice weekly for four (4) consecutive weeks.

Dated this the 9th day of March, 1963.

PARMER COUNTY GIN CO.  
by: L. D. Gallini  
Mrs. L. D. Gallini  
John Mortenson  
Published in The State Line Tribune March 22, 29 and April 5 and 12, 1963.

THE STATE OF TEXAS  
To: HERLINDA HERRERA Defendant, Greeting:  
You are hereby commanded to appear by filing a written answer to the Plaintiff's Petition at or before ten o'clock A.M. of the first Monday after the expiration of forty-two days from the date of the issuance of this citation, same being

Monday the 6th day of May 1963, at or before ten o'clock A.M. before the Honorable District Court of Parmer County, Texas, at the Court House of said County in Farwell, Texas.

Said Plaintiff's Petition was filed in said court, on the 20th day of March A.D. 1963, in this cause, numbered 2358 on the docket of said court, and styled, RODRIGO ROBLES HERRERA Plaintiff, vs. HERLINDA HERRERA Defendant.

The names of the parties to the cause are as follows: RODRIGO ROBLES HERRERA is Plaintiff and HERLINDA HERRERA is Defendant.

A brief statement of the nature of this suit is as follows, to wit:

Suit for divorce, Plaintiff alleging that he and Defendant were married in the Republic of Old Mexico in 1954 and again in 1956, and that because of wrongs on the part of Defendant toward Plaintiff, Plaintiff permanently separated himself from Defendant, and praying for divorce and severance of bonds in matrimony, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

**CRIM'S FORECAST**

**1963's Crop Outlook About Same As In '62**

Our weather outlook for Parmer County in 1963 as benefits the crops is about the same as last year, according to J.W. (Indian) Crim, the county's official weather prophet.

Crim made his annual prediction last Friday morning, March 22 at sunup, the first morning after spring's arrival.

"We won't have any general rain -- it will come in streaks, followed by dry spells," Crim said. "But we shouldn't have as many hail storms either," he added.

Crim makes his forecast by observing a burning pile of boards at sunup each year on March 22. He said the steadiness of the wind indicated that there should not be many storms during the year, such as hail storms and tornadoes.

Crim said he expected the current dry spell to continue probably through June. "We definitely won't have enough moisture to planton, so the boys had better keep their irrigation engines in running order," he said.

He commented that it was usually the case that after a dry fall season such as we had in Parmer County, that the drought would be broken in January. But, this year has been sort of a "freak," Crim said.

The Lazbuddie farmer has been making his traditional predictions public since 1962. "We've been trying to come up with a good prediction moisturewise for the past 12 years," Crim said. It was pointed out that the last ideal crop year as far as moisture was concerned was in 1949, with 1957 coming in as a "fair" year.

Although he's been making his predictions public for only 12 years, Crim has carried on the tradition from his father each year for nearly a half-century. He said he remembered the annual "weather test" as far back as 1913. "And as far as I know, our observations have never been rained out in those 50 years," he said.

As is customary, the Crims used the occasion for a family reunion. Five of the family's six children and their families were present for the event.

Those present were Mr. and Mrs. Buck Crim, Mr. and Mrs. Max Crim and Mrs. Weldon Crim, all of the Lazbuddie area; Mr. and Mrs. Earl Monroe of Magdalena, N.M., and Mr. and Mrs. Fred Curtis of Farwell.

Another daughter, Mrs. Lovel Johnson of Garland, was unable to attend.

Joan: "Jack if you don't stop playing that saxophone, I'll go crazy."

Jack: "I guess it's too late. I stopped playing an hour ago."

CRIM CLAN . . . Seven grandchildren of J. W. Crim are shown with their grandfather at an early-morning hour on March 22. The Crims gather annually at the home of Mr. Crim near Lazbuddie, where he annually makes his weather forecast for the coming crop year.

**Texico PTA Installs New Officers**

At the Monday night meeting of Texico PTA, new officers for the coming year were installed in ceremonies by Mrs. Carl Strange, president of district 4, New Mexico PTA.

Using the objects of PTA as her theme, Mrs. Strange emphasized the importance of the duties of each of the officers before installing them. She quoted the duty of each individual officer and handed him a lighted candle. By accepting the lighted candle the officer declared his intention of doing the duties of his respective office to the best of his ability.

Mrs. Strange also discussed the New Mexico PTA scholarship grants stressing the fact that several of the grants are given each year in New Mexico. One of the major factors for receiving a scholarship through PTA is to be a graduate of a New Mexico high school and to have chosen teaching as a profession. Other factors determining the scholarship winner are character, need of the applicant, leadership qualities and devotion to the ideals of Democracy. Each PTA in the state is eligible to recommend one student for a scholarship.

Superintendent Buck Doran, was in charge of the program in the absence of Rev. Robert O. Tomlinson. He showed a film on "Shyness" a mental health problem recognized in the schools, and as a health problem by leading authorities. Superintendent Doran, stressed the fact that we as parents must let our children grow by giving them responsibilities and by letting them make their own decisions. They need guidance, in making wise choices but not absolute dictatorship from their elders, he says.

The fourth grade room of Mrs. Avis Patterson was winner of the room count. Next meeting was set for

May 6, 8 p.m. at which time all teachers in the school will receive special recognition. Mrs. Melvin Burns will be a delegate to the State PTA Convention in Albuquerque, April 18-19. She will serve as an alternate for Murray White, who is unable to attend.

**Two Local Boys On ENMU Squad**

Two local boys, Benjy Dial, son of Mrs. Clytie Dial and Carroll Huggins, son of Otis Huggins are members of the ENMU track squad on whom Coach B. B. Lees is pinning his hopes this season.

Dial is one of the two returning lettermen on the squad and was the top point-winner last year. He will be competing in weight lifting. Huggins will be in competition in sprints and broad jump.

The Eastern squad will meet Highlands University in a dual meet at Greyhound Stadium this weekend. Highland defeated the Eastern squad last year and the ENMU cindermen will be out for revenge.

Prevent a collision - erase regrets.

**BUILD for your own use**

Every one of us is a Builder. Some of us build bridges, some build houses; others build great fortunes or police records, electronic brains or lawn furniture...but each and every one of us is a Community Builder.

Because...every penny we spend to satisfy our daily needs helps to build the economy of the trade area in which it is spent...making that community a happier, more prosperous place for its citizens to live, to work, and to shop.

Which makes it profitable and wise to do our trading...our Community Building...where we get the benefit of the inevitable results of it...in the economic area where we have our own lives and talents invested...and where our children are being trained for life.

There may be nobleness and unselfishness about using our money to help build bigger and better cities for the pleasure and profit of other people...but is it practical?

**Attend Annual Convention North American Baptist**

Six persons representing the Texico Calvary Baptist Church were in Shreveport, La, last week to attend the annual convention of the North American Baptist Association, second largest group of Baptists in the South.

The meeting, which was held in the municipal auditorium in Shreveport, was attended by some 3000 persons from over the United States, including Alaska, and several foreign countries.

Choirs from Central Baptist College, Conway, Ark. and Jacksonville Baptist College provided special music at the assembly as did Timothy Shelby, a 15-year old boy from Mississippi, who was featured in solos, duets and quartets.

Guest speaker on the first day of the convention was Roy B. Filippo, Amarillo. Other speakers included Luke Wadley, Dallas, Harold Bynum, Jacksonville, and several missionaries from Brazil, Portugal, and Mexico as well as some home missionaries. Jim Krutza was in charge of congregational singing.

Mesdames Fred Cantrell, Milton Brantley and R. C. Lemmons attended the Women's Missionary Auxiliary meeting, at which Rev. and Mrs. Rufus

**Rotary Club Sponsors Dale Carnegie Course**

The Dale Carnegie Course is coming to Texico-Farwell April 15 under sponsorship of the local Rotary Club. Place of the meetings will be announced later.

Club sponsorship of this adult education program is a genuine service to the community," says Bob Crume, Rotary president. "Businessmen, professional men and women, sales people, housewives, club women, office personnel--every adult will benefit from this training. It will build a new enthusiasm, develop self-confidence, and create new understanding among the citizens of our town."

**Hospital Notes**

Guinn, Murray Snyder, Mrs. Robbie Osborn and baby boy, Mrs. Maurice Lorenz and baby girl, Mrs. Lewis Gore, Mrs. Porter McGee, Mike Hughes, Margaretto Blanco, Carl Patterson, J. W. Baxter, Mrs. Wayne Massey, Mrs. Dolph Moten, Mrs. Jerry Northcutt, Mrs. Jerry Brown and baby girl.  
 Mrs. Charles Vickers, Mrs. E. R. Barry, Mrs. Bob Williams, Geraldine Sumrall, Mrs. Dick Martin.

Crume added that clubs in other areas report that the classes have had an important influence on human relations in their communities. The course is for people from all of this area and not confined to the Rotary Club and its friends. The club is merely steering the course into Texico-Farwell.

A committee chairman was chosen at the noon meeting Wednesday for the purpose of heading up the enrollments. The class will be limited to 44 persons and a person may reserve a seat in the class without actual cost or obligation by getting in touch with one of the committee members. Chairman of the committee is Dr. Ted Glenn.

The Dale Carnegie Course which was begun in 1912 in New York City has more than 1,000,000 men and women graduates throughout the United States.

**Blain Returns**

Mr. and Mrs. Ed Blain returned to their Farwell home Monday from Corpus Christi, where Blain had been hospitalized following a heart attack. He is reported to be in good condition, by family members; although he will be confined to his home for a few more weeks. He would enjoy visits from his friends and invites them to drop by and see him.

**PFC Smith Helps Establish Scoring**

Army PFC Theodore H. Smith, son of Mr. and Mrs. Dave Aylesworth of Muleshoe recently helped to establish scoring criteria for 1st Armored Division soldiers taking the Expert Infantryman Badge test at Fort Hood.

Smith, with other members of the 16th Engineer Battalion, made a trial run of the test course to establish an average score.

A combat engineer in the battalion's Company B at Fort Hood, Smith entered the Army in November 1961.

He is a graduate of Lazbuddie High School, class of 1959, and before he entered the Army was employed at a service station in Muleshoe.

- KIOWA Medium-Early
- CHEYENNE Medium Maturing

Paymaster Seed Farms now offers five special new grain-type sorghum hybrids, each bred to special performance. Farmers may now select just the right planting seed, according to soil, climate, season and type desired.

Though the adaptability of these seeds is varied, they all have these desirable characteristics in common--high yields, sweet stalks, disease resistance, and reduced plant height to resist lodging.

There's an Indian for you. Come in and let us demonstrate how you'll profit with higher yields and better quality grains when you plant Paymaster's new Indians. See us today.

# 15-Acre Producers May Hold Key To Referendum

By Prentice Mills  
ASCS Office Manager  
(Note: The following article is the first in a series of ar-

ticles dealing with the coming wheat referendum.)

The voting or failure to vote by the 15-acre producer might very well be a controlling factor in the coming wheat referendum.

The 1964 wheat program provides for a significant change in the status of the small allotment of 15-acre wheat growers.

Under the program for 1964 and subsequent years, farms which grew wheat under the 15-acre rule will get an allotment based on their average planted acreage for 1959, 1960, and 1961, but not in excess of 15 acres.

Operators of farms such as these have not been eligible to vote in past referendums. However, it is possible for them to become eligible to vote in the coming wheat referendum.

Operators of these farms who register their intention to participate in the program (should the referendum carry) will be eligible to vote in the referendum.

If the program is voted in, and if they participate, these producers will receive marketing certificates and price support just as larger producers do.

They will also earn diversion payments. Entire farm allotments up to a maximum of 15 acres will be eligible for diversion.

In order for a small allotment farm operator to be eligible to vote in the referendum, it will be necessary that he file his intentions to participate with his ASCS office at least seven days prior to the date on which the referendum is to be held, in order that his name

be placed on the list of eligible voters.

A special notice will be mailed to each of these persons by the ASCS office approximately 30 days prior to the referendum date. This notice may be used to file his intention to participate in the program.

This procedure will have no bearing on the way the producer might vote in the referendum.

Operators of small allotment farms who do not wish to participate in the program may, without penalty, plant an acreage of wheat based on their 1959-60-61 wheat average, but not over 15 acres.

These farms will not be eligible for price support wheat certificates, land diversion payments, or to vote in the referendum.

## Date Set For Wheat Voting

The Secretary of Agriculture has announced the date for the 1964 Wheat Referendum as Tuesday, May 21.

Prentice Mills, office manager of the Farmer County ASCS said that he anticipated that his office would mail acreage notices, yield and payment figures to county wheat farmers on or shortly after April 20.

## WITH THE COUNTY AGENT

DERYL COKER

There is at the present time a great deal of interest in Sugar Beet production in Farmer County, and everyone is still in the dark as to what Holly Sugar Cooperation's schedule or plans are. They have advised me that their personnel will keep us informed.

Some of their personnel have moved into the Hereford area, and construction of their plant has started. Later on in the year they will contact people who are interested in growing beets and also start selecting growers.

Sugar beets are planted in February and March, and are harvested in the fall and winter.

Normally they are planted on 30-inch centers. Beets are not a hard crop to grow, but they are grown differently than cotton and grain sorghum.

Farm machinery dealers will handle some specialized types of sleds that will do the planting, incorporate the pre-emergence weed killers, do a precise job of planting, thin the beets, and also cultivate. These types of machines are not necessary because the flex planters we already have can be used, and flex planters do a good job.

Sugar beets require more water and phosphorus than grain sorghum, but do not require very much nitrogen.

Sugar beets will fit into your farming operations real well, especially where you have excess acres.

Our office will try to keep everyone informed as we get ready to grow the 1964 crop.

If anyone should be interested or would like to grow beets next year, we would be happy to sign you up. Our list will be turned over to Holly Sugar Cooperation later in the year.

Farmers are being faced with a decision on the 1964 wheat program. A referendum vote will be held across the nation

front are Mrs. Luella White, Midway; Mrs. Jack Shirley, Hub; Mrs. Jimmy Briggs, Lazbuddie; Mrs. W. M. Massie, Northside. Not shown is Mrs. Jack Patterson, president of the Rhea club.

## IN CONNECTION WITH PROJECT

# Locals Urged To Press For Dam Recreation Facilities

Flip Calhoun of Plainview, chairman of the Steering Committee for the Running Water Draw Watershed Project, said recently he thought the door was open for multiple purpose storage dams on the project, and recommended that local groups investigate the possibilities immediately.

In a letter to Work Unit Conservationist Jimmy Smith of Friona, Calhoun said he was very pleased with the hearing for the project before the Army Corps of Engineers in Plainview March 20.

"I feel we overcame a lot of misunderstandings concerning the project and are now in much better shape than ever before," Calhoun said.

Calhoun pointed out that in his statements representing the State Water Commission, Judge Otho Dent of Lamb County was most favorable to the project. "The Running Water Draw Watershed project was the only project mentioned by name in his entire talk," Calhoun said. "I feel that he threw open the door to us for multiple purpose storage that can be justified in our project," he added.

"If there are any groups in your area that might be interested in multiple purpose storage, they should be contacted immediately and asked to investigate the possibilities," Calhoun emphasized.

Smith, speaking on behalf of multiple purpose storage dams for Farmer County, said the county needs to get something underway by the end of April. Smith said the excellent opportunity for establishing a form of water recreation should not be by-passed. "If we let the planning for the project get underway without provision for extra water storage in one of our structures in the county, we will be missing one of the best chances for recreation the county has ever had," he warned.

Next hurdle for the project is set for April 24, when a priority hearing will be conducted. The State Soil Conservation Board will be in the area that day, and will be taken on tours of the entire watershed.

This meeting will be highly important, as the state SCS board has the power to deter-

mine whether the project can have a definite start within the next year or two, or whether it will be delayed several years.

## SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

More than a million acres in northwest Texas are presently susceptible to severe wind erosion, according to reports just received by H. N. Smith, State Conservationist of the Soil Conservation Service. This is mostly cropland on which there are insufficient residues to protect the surface from wind blasting.

The areas most susceptible are the sandy soils in the eastern Panhandle around Wellington and Wheeler. There are about one half million acres in the south High Plains that are presently unprotected.

Although the wind season has not fully started, there have already been 39 windstorms reported in the southern High Plains that have been of sufficient velocity to move soil and about 62,000 acres of cropland have already been damaged, according to reports from the SCS field offices.

The windy season, when damaging winds are most frequent, is just starting, according to Smith. March and April are the months when the greatest amount of wind damage usually

NEWS FROM THE  
**FARM BUREAU**  
BY RAYMOND EULER

WINNERS IN THE County 4-H Club eliminations at Farwell last Saturday included (back row) Janis Billingsley and Reba Lesly (senior safety), Bobby Redwine and John Gulley (junior electric). In front are James Gulley and Randy Bush (junior safety).

**Lazbuddie 4-H Clubbers Take Top Honors In Eliminations**

Lazbuddie and Farwell youngsters took all the county honors in the County 4-H Elimination contests last Saturday at Farwell.

First-place winners in each division are eligible to enter the district eliminations April 12-17 in Canyon. First and second place winners in the district contest are then eligible to enter the state contest later in the year.

Winners in both senior and junior divisions advance from the county to district contests.

First-place winners included John Gulley and Bobby Redwine of Lazbuddie in the junior electric contest; Jill Mimms, Lazbuddie, public speaking; Gary Foster, Lazbuddie, tractor operator; James Gulley and Randy Bush, Lazbuddie, farm and home safety.

Also, Janis Billingsley and Reba Lesly, Farwell, senior safety; Bruce Billingsley, Farwell, Johnny Mabry, Gerald Foster and D. H. Foster, Lazbuddie, senior rifle; Ann Blackstone, Lazbuddie, junior favorite food contest (meat).

Also, Kathy Coker, Lazbuddie, junior favorite food (bread-cereal); Patcine Broyles, Lazbuddie, junior favorite food (vegetable); Christy Ivy, Lazbuddie, junior favorite food (bread-cereal).

Also Jimmy Broyles, Lazbuddie, senior favorite food (meat); Dale Blackstone, Lazbuddie, favorite food (vegetable) and Katie Blackstone, Lazbuddie, senior favorite food (milk group).

Mrs. Bill Boling and Mrs. Vernon Symcox acted as judges for the contests.

There will be 21 counties in the district eliminations in Canyon.

County Agent Deryl Coker expressed his congratulations to all the winners, and commented that he expected more of the clubs to take an active interest in the eliminations in the future.

"I dream of the hour when the last congressman is strangled to death on the guts of the last preacher—and since the Christians seem to love to sing about the blood, why not give them a little of it—slit the throats of their children and drag them over the mourner's bench and the pulpit, and allow them to drown in their own blood; and then see whether they enjoy singing these hymns." (Gus Hall, General Secretary of the American Communist Party, speaking at the funeral of Comrad Eugene Dennis, February, 1961)

And yet, an Amarillo TV Editor wondered, among other things, if Billy James Hargis and Edwin Walker might not be trying to get the people of America "too alarmed" about the inroads of Communism in their cross-country lecture tour. Are you too alarmed? Gus Hall, quoted above, is being invited to speak to college young people in some areas. Would you be content if you knew this man was the speaker on the campus of the college your young son or daughter is attending? Or would you be alarmed enough to do something about it? Farm Bureau, in attempting to carry out the mandates of its members, is using every opportunity to try to get men like this excluded from campuses and included in prisons or our country, where the law says they belong. (The first paragraph, above, is from Thomas J. Anderson's STRAIGHT TALK, Farm and Ranch.)

"Free enterprise is an unsatisfactory alternative to government regulations for solving the farm problem." This is a quote from another man, Orville Freeman, speaking to the Midwest Regional Agricultural Convention in Chicago, Freeman, you know, is the USDA Secretary who says you had better vote "yes" in the upcoming wheat referendum, or else. Is this statement alarming, or pleasing to you? It must be one of the two. To Farm Bureau people, and many others, it is alarming.

Here are some bills we believe you will be proud to know Farm Bureau was instrumental in getting to their present status in Texas Legislature; H. B. 13, limiting annexation authority of cities and towns and setting fourth rules governing such annexation. (Passed by the House and sent to the Senate)... H. B. 386, exempting locally used fertilizer trailers from regular registration. (Passed by the House)... B. B. 50, allowing speeds of up to 70 for cars and 60 for other vehicles on certain highways. (Passed by Senate and sent to governor for signature) There are others, but these are familiar to most of you.

CONSIDER THIS: He that is soon angry dealeth foolishly; and a man of wicked devices is hated, Proverbs 14:17.

**County Agent--**

(Continued from Page A)

and the outcome of this will determine whether the proposed program will go into effect.

Between now and the date of the referendum (May 21) we want every wheat farmer in the county to have an opportunity to learn as much about the provisions of the program as possible. We think this is his decision. But our job as an educational agency is to see that as many facts as we can assemble on this program are made available.

According to Newsweek, space industry business will exceed \$5 billion this fiscal year, and will provide half-a-million jobs. Of the federal government's space budget of \$5.5 billion, 85 per cent will go to 500 prime contractors and some 8,000 subcontractors. Universities, non-profit institutions, and government facilities will get the remaining 15 per cent. In addition, private firms are expected to spend \$500 million on space research and development.

**NOTICE TO BIDDERS**

Notice is hereby given that Parmer County will accept bids at the office of the County Judge in Farwell until 10 a.m. April 22, 1963 for the purchase of the following new equipment:

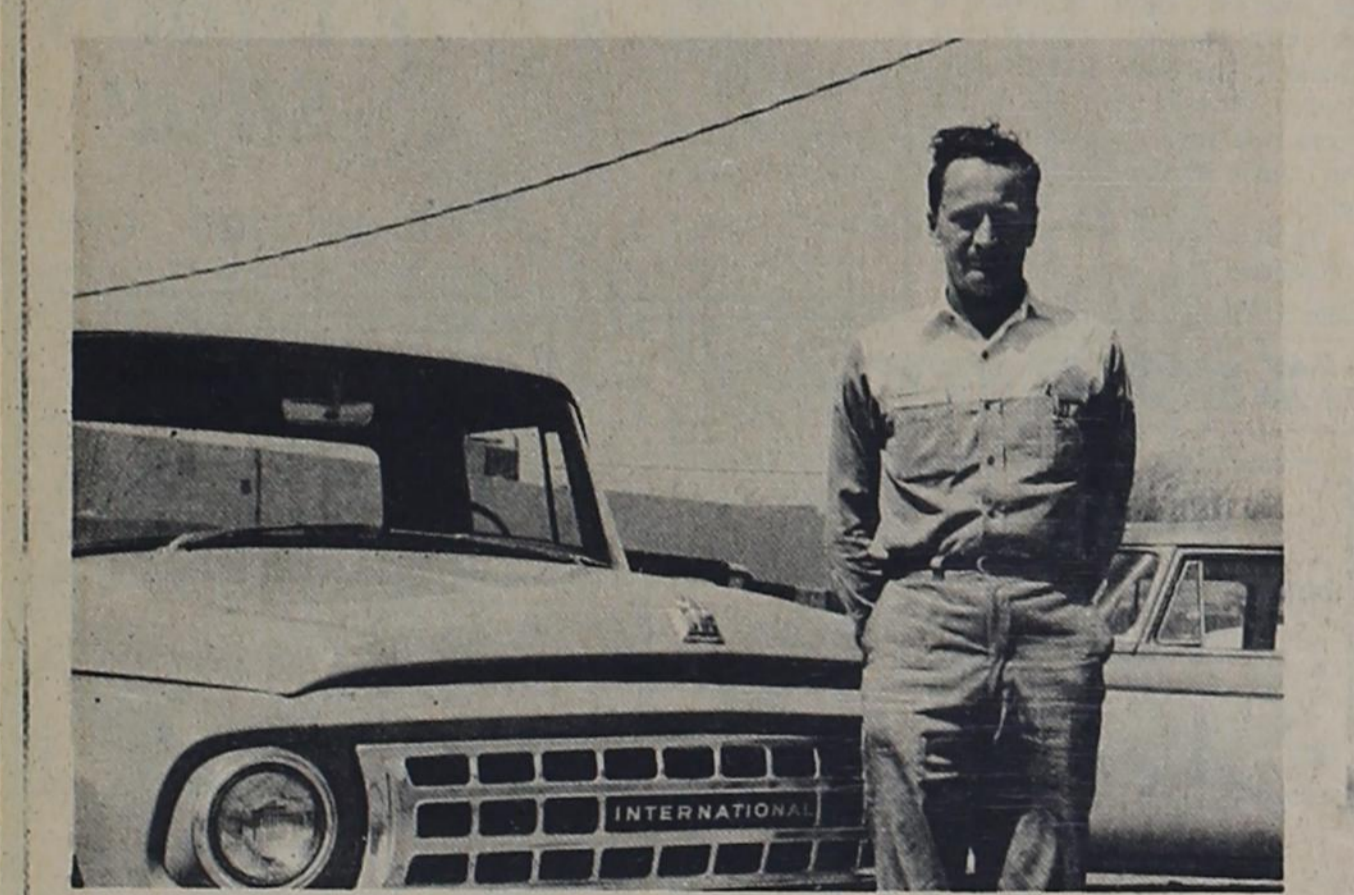

One one-half ton six-cylinder pickup, with long wheel base and four-speed transmission, heater, spare tire and wheel mounted on side, trailer hitch, four-ply tires and side-view mirror.

Successful bidder will be required to accept as trade-in a 1951 Chevrolet pickup, which may be inspected at the County Warehouse in Bovina.

**New Jewelry Fad May Prove Dangerous To Agriculture**

An astonishing fad in costume jewelry is causing grave concern among quarantine officials in Texas and the nation. Large insects bedecked with gem-cut colored stones and glass are being smuggled into the United States and sold as "living jewelry."

The jeweled beetles are being prepared and sold as curios in Mexico, USDA quarantine inspectors report. The importation of insects to the United States is strictly forbidden under the large, gaudy bugs are being smuggled across the border and sold for relatively high prices as novelties.

Many of the beetles that have been seized are about an inch long and have a small chain glued on for fastening to the owner's clothing so the bug can crawl around as a living ornament. Some have been found for sale in San Antonio as well as New York and other large cities. A prime sale point seems to be from bars where male customers buy them for presentation to wives or girl friends.

Importation of any live insect pest is restricted because of the danger that they might escape and start damaging crops, forests or ornamental plants. The two species most commonly used as "live brooches" are reported to feed on wood. They are not known to be present in this country in a natural state.

Movement of insects to new geographical areas can result in great losses to farmers and consumers alike. The Japanese beetle, an extremely damaging pest in the United States, was not considered a serious pest in Japan where natural enemies kept its numbers under control. The "living jewelry" is an unknown factor in this country and every effort is being made to prevent its importation.

This fad could possibly have serious implications in this country, Agriculture Commissioner John C. White warns. And it seems almost incredible that the ornamented bugs brought a

price as high as \$12.50 in San Antonio bars.

Agricultural Research Service inspectors of the USDA have seized a number of the jeweled insects along the Mexican border during recent months. Yet an unknown quantity is known to have penetrated far inside the borders. Customs officials recently seized nearly 200 of them in New York City.

Persons who know of the pests

being offered for sale are urged to contact Texas or United States Department of Agriculture officials immediately.

# County Helps Area To Near Record Cotton Production

Final figures released March 22 by the U. S. Bureau of the Census confirmed the fact that Farmer County's 1962 cotton crop set a new all-time production record with 80,328 bales ginned.

Farmer County, which doesn't have the cotton "history" that most cotton-producing

counties has, and therefore has an allotment much smaller than many, moved up to 16th in the state for its 1962 crop, surpassing seven other counties. Last year the county ranked 23rd in cotton production among Texas counties.

The production of 80,328 bales of cotton on less than 49,000 planted acres figured out to about a bale and two-thirds per acre. State rankings on a per acre basis aren't known, but Farmer County had led the High Plains counties in that regard for the past several years.

The High Plains of Texas came close to setting a new record for itself with 2,328,293 bales produced in 1962,

only 16,510 below its all-time high.

A 23-county area surrounding Lubbock harvested 49.16 per cent of the state's total, and 16 per cent of the total United States cotton yield.

Three High Plains counties led the state in production once again, and were ranked in the top 10 counties in the nation. They are Lubbock County, whose 296,148 bales was a new record there, leading the state as it has done for several years. Lubbock County was also sixth in the nation.

Second county in the state by number of bales ginned was neighboring Lamb County, with 224,473 bales, which also gave it eighth position in the nation.

Hockley County was next, with 223,914, third in the state and ninth nationally.

The High Plains annually produces more cotton than any comparable area in the nation.

The near-record was achieved for the area despite a 2.6 per cent cut in acreage for the High Plains and a dry crop year for dryland farmers. Another slash in acreage came for the 1963 crop, although the area received more than twice the number of reapportioned acres for this year's crop than last.

In fact, Farmer County will be the only county among the 23 High Plains counties which has more acres for planting in 1963 than it did in 1962 after the reapportionment. Farmer County's total stands at 50,024 acres, an increase of 670 acres over last year's final total of 49,354.

PUTTING THE FINISHING touches on a tailwater tank system near Bovina are J. D. Kirkpatrick, Buster Howard and Jim Howard. The tank is on the Jack Dunn farm, and tailwater

which collects from about three farms in the vicinity will be used by Kirkpatrick in his farming operations.

## Rhea HD Club Holds Meeting

The Rhea H. D. Club met March 25 in the home of Mrs. Jim Dixon. Mrs. Floyd Schueler gave the program on discipline and the family life of a home. She also showed a film on the topic.

Mrs. Schueler, vice president, called the meeting to order. Mrs. Franklin Bauer gave a Council Report.

Members present were Mesdames Franklin Bauer, Bill Brandt, Jim Dixon, Leland Gustin, Dwayne Ridley, Charles Sanders, Herman Schueler, Floyd Schueler, Walter Schueler, and Clyde Tims. Guests were Mrs. R. Armstrong, and Floyd Schueler.

The next regular meeting will be held at 8 p.m. April 8 in the home of Mrs. Joe Allen. Mrs. Bill Brandt will present the program on Home Business Centers and Storage Ideas.

## SCD News--

(Continued from Page A) occurs. The extent of the damage this year will depend largely on how severe the winds and how much moisture is received so that the farmers can list or otherwise treat their land as an emergency measure to control erosion.

State Conservationist Smith warned that the present conditions have the potential for a severe dust season. Twelve soil conservation districts out of 51 are very dry, the soil moisture inadequate to plant crops. Thirty-four have only fair moisture conditions and unless additional moisture is received, will be in poor shape to resist erosion even with emergency treatment. Only 7 counties report good moisture conditions.

Wind erosion is always a potential problem in the north-

west part of the State and when coupled with drought, conditions can get serious in a short time. The only means of controlling wind erosion is to use cropping systems that maintain considerable amounts of residues on the surface for protection, and to keep soils subject to severe wind erosion under permanent grass cover.

Soil conservation districts have been providing assistance for preparing plans that will control wind erosion. Research data and farmer experience have shown that residues left after grain sorghum harvest will provide adequate protection if they are left on the surface through the blow season. A conservation plan includes crops that resist wind erosion and provides for the management of the residues to protect the soil.

Newspaper reading is about as high in the suburbs as it is in the metropolitan areas, where it ranges from 89% to 93%.

## Cattlemen Asked To Watch For Signs Of Stock Disease

Leptospirosis, commonly known as "lepto," is a disease which livestock producers should watch for during this season. It causes losses of more than a \$100 million to cattle owners annually in the nation, points out Dr. C. M. Patterson, extension veterinarian. Swine, sheep and horse losses add more millions to the total and humans are susceptible, he adds.

Lepto now exists on farms in every part of the state and because it can cause abortions, is often confused with brucellosis, says Dr. Patterson. The peak danger period is at hand since most cases occur during and following warm, wet weather. In areas of slow moving streams or swampy and low-lying pastures, stockmen should be especially alert. "Carrier" animals can contaminate such areas and spread the disease to other animals on the farm or to those on farms downstream, the vet says.

In cattle, lepto can cause a death rate of up to 10 percent,

in calves up to 25 percent, in addition to abortions and a sharp drop in milk production. It is hard to diagnose in mature cattle. In addition to abortions and a drop in milk output, it may cause the milk to become thick, yellow and blood-tinged. Calves may become depressed, lose appetite and develop diarrhea, Dr. Patterson says. Symptoms in swine may be overlooked because they are not as apparent as in cattle.

Because of the chance of confusing it with something else, Dr. Patterson suggests that a veterinarian be called when symptoms appear in any animals. He may have to resort to rather complex laboratory tests to identify the cause of the trouble. If the diagnosis is positive, the veterinarian will make recommendations for handling the situation, explains Dr. Patterson. Vaccines are available for cattle and swine but must be properly used to provide protection.

Preventive measures sug-

gested by Dr. Patterson include keeping of livestock out of low, swampy areas and away from ponds and slow-moving streams where they can pick up the infection. Feed and watering facilities should also be protected from possible carriers and swine and cattle should not be run together. Replacement animals should be vaccinated before being allowed to mingle with the home herd if lepto has been a problem but above all, Dr. Patterson says be alert to trouble in the herd.

**Slim Clifton**

## NITROGEN FERTILIZER

**FORM** The farmer is in the fortunate position of being able to choose from a number of good nitrogen fertilizers. Compounds that supply nitrogen are available in three forms — dry, water solutions and anhydrous ammonia. These forms supply nitrogen in various concentrations. There are a number of different brands of each form of fertilizer, so the choice is broad.

We recommend anhydrous ammonia generally and Nitromite specifically for these reasons: 1) Anhydrous ammonia provides almost twice the nitrogen by volume as the next most concentrated fertilizer.\* 2) As it is in a gaseous form in the soil, it permeates freely and uniformly throughout the zone of crop roots. 3) Since it is electrostatically affixed to the clays in the soil, it is less subject to leaching and dissipation.

We recommend Shamrock Nitromite specifically because we know how it is made, how it is handled and transported, the reliability of the dealers who sell it and the collateral services and benefits offered to the farmer.

Your Nitromite dealer is ready now to put this profit maker to work in your fields. Call him right away. He has all the information on the Shamrock Farm Credit Plan.

| *% N       | COMMERCIAL FERTILIZERS | (1)   | (2)   |
|------------|------------------------|-------|-------|
| 82.2       | SHAMROCK NITROMITE     | 2,000 | 1,640 |
| 45.0       | Urea (Dry)             | 3,660 | 900   |
| 32.0 (Max) | Urea (Liquid)          | 5,120 | 640   |
| 33.5       | Ammonium Nitrate (Dry) | 4,900 | 670   |
| 25.0       | Aqua Ammonia (Liquid)  | 6,580 | 500   |
| 20.5       | Ammonium Sulfate (Dry) | 8,000 | 410   |

(1) The number of pounds of other nitrogenous fertilizers that must be bought and applied to the soil to equal one ton of SHAMROCK Nitromite in nitrogen content; and, (2) The number of pounds of Nitrogen (N) in a ton of each commercial fertilizer.

## TEXAS COTTON GROWERS REPORT:

### Entire Season Control of Thrips, Aphids and Mites...

Untreated plant at four weeks

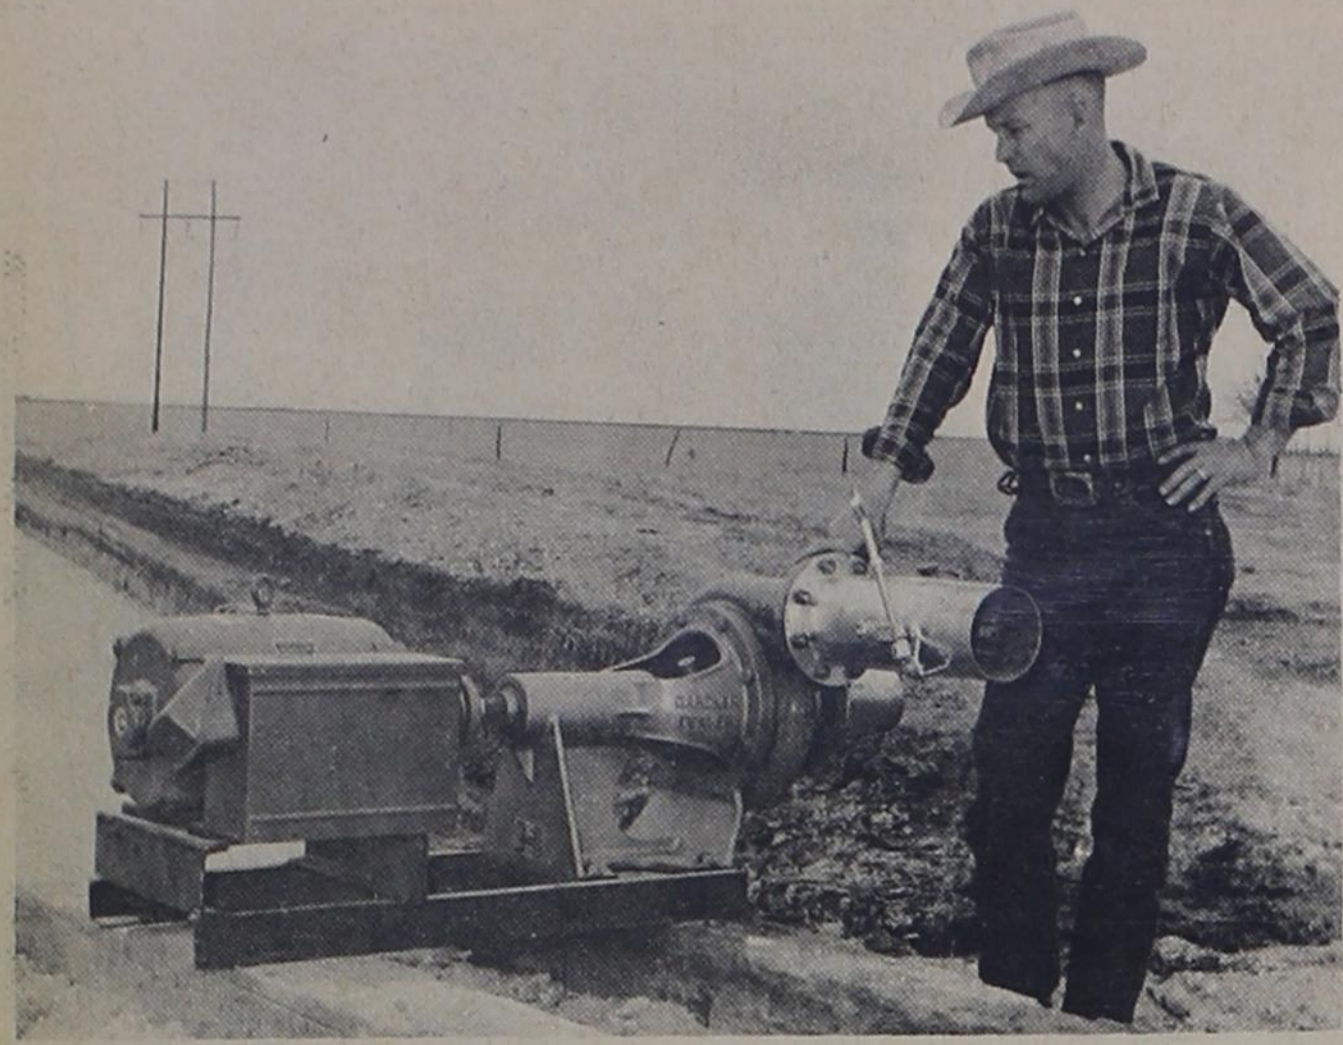

Di-Syston treated plant at four weeks

## Di-Syston Treated Plants Are Stronger, Straighter... Produce More Squares Earlier

West Texas and New Mexico cotton growers now have a new way to control thrip damage and early-season stunting... with Di-Syston granular insecticide. Di-Syston is placed in the soil with the seed or side dressed after planting. The chemical is then absorbed by the growing roots and carried to all parts of the plant through the sap stream—as soon as the plant emerges. No part of the plant is unprotected—even tender new growth as it is formed.

The result? With Di-Syston, your early cotton grows faster, has stronger, straighter stems, more vigorous foliage. Squares form earlier and the plant produces more of them. Many growers in the Lubbock area have reported full season control of thrip with just the one application. You get higher yields because of the good Di-Syston start. This year, get your crop off to a good start with Di-Syston. Complete instructions for use are printed on the label on every package. Use Di-Syston.

**CHEMAGRO CORPORATION**  
KANSAS CITY 20 • MISSOURI

TYPICAL OF MANY tailwater irrigation systems which were installed by Farmer County farmers the past winter is this one near Bovina, which will be utilized by J. D. Kirkpatrick. With irrigation water tables declining, farmers are trying to conserve water wherever possible.

Nickel in Vacuum Tubes

Many parts of vacuum tubes, such as those used in radio and television receivers, are fabricated from nickel, nickel alloys or nickel-coated materials.

AIRPLANES will be barred from disaster areas unless they are part of search and rescue operations, carrying newsmen or persons on official business in connection with the disaster, reports the Federal Aviation Agency. The new FAA ruling is designed to prevent sightseers from interfering with the safety and efficiency of airborne relief operations.

EATING PETROLEUM may soon be helpful as a dietary aid, Research engineers have developed a biological process to make proteins and vitamin supplements from petroleum products. Immediate objective

is food supplements for livestock and pets, but food-from-oil for humans may be just around the corner. . . . BEGINNING July 1, 1963, doctors, dentists and nurses will not be permitted to appear in television commercials, reports the National Association of Broadcasters, nor will actors and actresses be permitted to pose as such.

EYE ACCIDENTS are suffered by more than a half million Americans, many of them children, every year, reports the American Medical Association. . . . PLASTIC TUBAS will soon be booming on U.S. playing fields and parade routes. Weight of the bulky bass horn is cut by 40 per cent by replacing brass with polyester resin. In the new lightweight model only the mouthpiece is brass. The manufacturer claims greater projection, and greater power, also.

Wife: "Albert, the butcher won't give us any more credit. What's to become of us?"  
Hubby: "Vegetarians."

How to Plant Trees

FOR MAXIMUM GROWTH

Thin and shorten branches in a manner to preserve the natural form of the tree

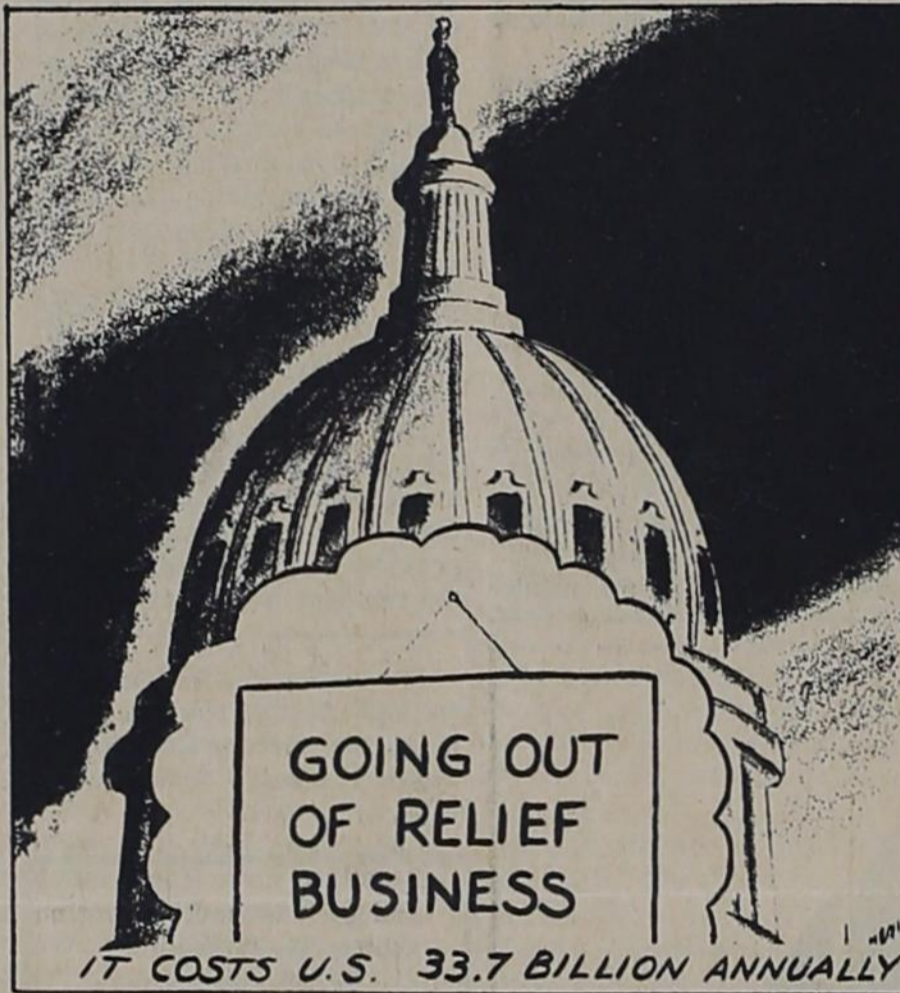

Entire lower branches may often be removed (cut close to trunk)

Use rubber hose or inner tube to protect tree from guy wire

In shortening branches, cut one fourth inch above branch or bud

IF DREAMS COULD COME TRUE

IT COSTS U.S. \$33.7 BILLION ANNUALLY

EVEN FDR URGED ENDING RELIEF

"The lessons of history, confirmed by the evidence immediately before me, show exclusively that continued dependence upon relief induces a spiritual and moral disintegration fundamentally destructive of the national fibre.

"To dole out relief in this way is to administer a narcotic, a subtle destroyer of the human spirit. It is in violation of the traditions of America. Work must be found for able bodied but destitute workers. The federal government must and shall quit this business of relief."

You are bound to be surprised when you learn who made the above statement. It was President Franklin D. Roosevelt. But ever since he made it in 1935 the federal government has pursued the opposite course by getting deeper and deeper into the "business of relief." Welfare expenditures today are 10 times what they were in 1935.

During the last 11 years, alone, these payments skyrocketed from \$4.9 billion annually to \$37.3 billion a year. Washington should lose no time in getting the government out of the relief business by restoring welfare responsibilities to states and communities.

Foundation Elects 1963-64 Officers

Officers of the High Plains Research Foundation were all re-elected for 1963-64 at the semi-annual meeting of the Board of Trustees at Halfway, March 23.

Dr. D. M. Wiggins of Lubbock was elected a member of the Executive Committee, Dr. Wiggins has been a member of the board since 1958.

New members elected to the Board of Trustees were: W. E. (Jack) Little, Muleshoe, Macyl K. Orman, Fort Worth & Denver Railroad, Fort Worth, and Cephas Glover of Littlefield. Mr. Hinn, Chairman of the Board of Trustees, appointed a nominating committee to interview prospective members of the Board of Trustees who had been suggested for membership at the meeting. These will be nominated for election on September 10 meeting of the

Board. A resolution of appreciation and for the services of three members of the Board who had passed away during the past year was presented by Graddy Tunnell, Secretary-Treasurer of the Foundation and passed unanimously by the Board. The members who have passed away during the past year were: Cleo Smith, Olton, Clyde Bray, Muleshoe and Garvin Randolph, La-mesa.

The Annual Field Day for the Foundation was scheduled by the Board for Tuesday, September 10.

The Audit of the Foundation was presented by Robert Metzger, CPA and was accepted by the Board of Trustees.

Approval of the plans for a building replacing the fire destroyed shops, storage and gin was made by the Board.

From the New York Times: "The airlines, like the railroads, have been suffering from rising costs and declining earnings. They spent a great deal to equip themselves for the jet age, which has brought a vase increase in capacity. But the growth in passengers has slowed down, so that planes are flying half empty. . . . Competition has been excessive. . . . The airlines. . . have not been able to maintain adequate earnings under such conditions."

Running water isn't the camel's concern. But it is yours—especially if your home is among the 17% in rural areas with no running water.

Do you still carry all the water you need—for drinking, for washing clothes and dishes and for personal use? If so, your home is not modern.

Running water is more than a convenience—it is a necessity. It's no accident that the highest degree of general health among rural and suburban families across the country is

found where the most use is made of pressure water systems. An automatic water system is indispensable to almost all modern comforts and necessities.

It makes possible easier food preparation, garbage disposal, up-to-date sanitary facilities and automatic dishwashing and laundering.

Give your family a break! Don't deny them the benefits of an automatic water system. Ask your rural electric for professional help in planning an electric water system today.

**Halfway Foundation Leads Nation In Flame Research**

The independent research organization at Halfway (High Plains Research Foundation) today became the nation's undisputed leader in flame cultivation research after the announcement that the Foundation had extended its research program with flame cultivation to the Rio Grande Valley of Texas. In commenting on this expansion of the Foundation's research program, Dr. Earl H. Collister, director, stated that the Foundation would conduct

**SPORTS AFIELD**

By Ted Kesting

Just a few weeks ago it seemed that all gaps in the array of factory cartridges had been filled; there apparently was no possible need for further wildcatting. The thought of it was a little saddening. Gunshop experimenters and basement researchers have been a tremendous influence in creating a demand for new and interesting cartridges. Cartridge developments and constant change in gun design have provided a healthy stimulant to all of the shooting sports.

Aside from the immediate interest in the .44 Magnum, recent attention has been focused on the smaller-caliber high-velocity Magnums. This has been true in pistol, varmint and big-game cartridges. We've seen a rash of the flat-shooting, go-getter Magnums. There have also been a few developments in the big and powerful elephant poleaxers. In the short- and medium-range heavies—between the .44 Magnum and the .458 Magnum—it looked as if the standard .35 Remington, .358 Winchester and the faithful old .45 70 pretty well met the demand.

Two avid gun enthusiasts, of Phoenix, Arizona, have hit on an idea that could upset any possible status quo in the cartridge business. They have come up with a more powerful cartridge which can be put into the popular Model 94 Winchester and 336 Marlin lever-action carbines. They have done it without having to make any alterations in the frame or breechblock! Alteration involves carrier, cartridge guides and chamber.

This wildcat .44 development was kicked into the open by E. Van Houten and then pursued by him and Fred D. "Lucky" Wade. Van got the idea of trying to shape a cartridge with more powder capacity. He was primarily interested in .44 caliber, which not only has a lot of glamour behind it, but, given enough impetus, the heavy bullet travels with a tremendous clobber factor. These two men pooled their talents and went to work. Fortunately, they could go back and tap some previous experience that flowed neatly into this new project.

part, fresh out of the butcher's showcase. Freeze-drying combines the best features of quick-frozen foods with dehydration. The food does not change its basic character; it retains essential nutritive elements; it rehydrates readily and rapidly, absorbing a volume of water approximately equal to the amount removed in drying; and it is stable without refrigeration. From the standpoint of preservation alone, this method may be called the greatest invention since the metal can. Combine all this with space-saving, light weight, ease of preparation without trimming, peeling or long waiting, and one can see that this deal deserves a long, interested look from all outdoorsmen.

Easy to Clean  
Because it is hard, tough and corrosion-resistant, nickel stainless steel is one of the easiest materials to keep clean, and if given proper care its attractive finish will last indefinitely.

# Annual Weed Conference Scheduled At Bushland

The 16th annual Weed Control Conference sponsored by the Texas Weed Control Association, will be held at Southwestern Great Plains Field Station in Bushland Thursday, April 18.

Chairmen for the day-long meeting are Ed Jacobsen, president Texas Weed Control Association and Fred Dines, chairman of the Farm and Ranch Council of the Amarillo Chamber of Commerce who are co-sponsors of the Conference.

Experts will discuss latest procedures for an expected 250 guests meeting in morning and

afternoon sessions. "Moisture Loss Due to Weeds" will be discussed by Ronald G. Davis and Joe L. Pafford of the Southwestern Great Plains Field Station. E. D. Robinson, Range Scientist, Texas Agricultural Experiment Station at Spur, Texas, will speak on "Control of Woody Plants on Range Land." His speech will be followed by instruction on "How to Form a Weed Control District" by Douglas Degge, Supervisor of the Floyd County Noxious Weed Control District.

The afternoon program will include "Spraying Equipment for Weed Control" by Lambert Wilkes, Agricultural Engineer, Texas A & M College, and a "Progress Report of Weed Control Research" by Dr. Allen Wiese, Agronomist at the Field Station at Bushland.

Lunch will be served at noon at \$1 per plate by the Potter County 4-H Club.

# Lake Wells Will Get Federal Aid

The High Plains Underground Water Conservation District has received word from the State Office of Agriculture Stabilization and Conservation that the State ASC Committee has approved the expenditure of federal funds for constructing pits in wet-weather lakes, and for installing pipelines from lakes to cropland.

Lester Young, Chief of the Agriculture Conservation Practices Division of the State ASC Office in College Station, in a telephone conversation with the Water District Office, stated that funds could be made available immediately by local ASC County Committees. They will need only to amend their county handbook to include such practices.

Young said that any county that presently has Practice C-14 (construction of reservoirs) available, could supplement it by including the construction of pits for channeling lake water to re-circulating pumps; and where Practice C-12 (irrigation system construction) is available, it may be supplemented to include the construction of permanent pipelines from re-circulating pumps in the lake back to the farm's irrigation system.

The State Committee's action culminates several years of efforts by the High Plains Water District and others to make funds available for salvaging rainwater and irrigation runoff water that collects in the lakes.

The State ASC Committee consists of Frank Moore, Plainview; E. B. Smith, Lampasas; W. W. Poole, Sinton; Ralph Price, Bryan, and Jim Goad, Rosebud.

# Coker, Ellis Attend Wheat Conference

County Agent Deryl Coker and co-workers from some 20 other wheat-producing counties were to meet in Amarillo Thursday to obtain detailed information on the approaching wheat referendum.

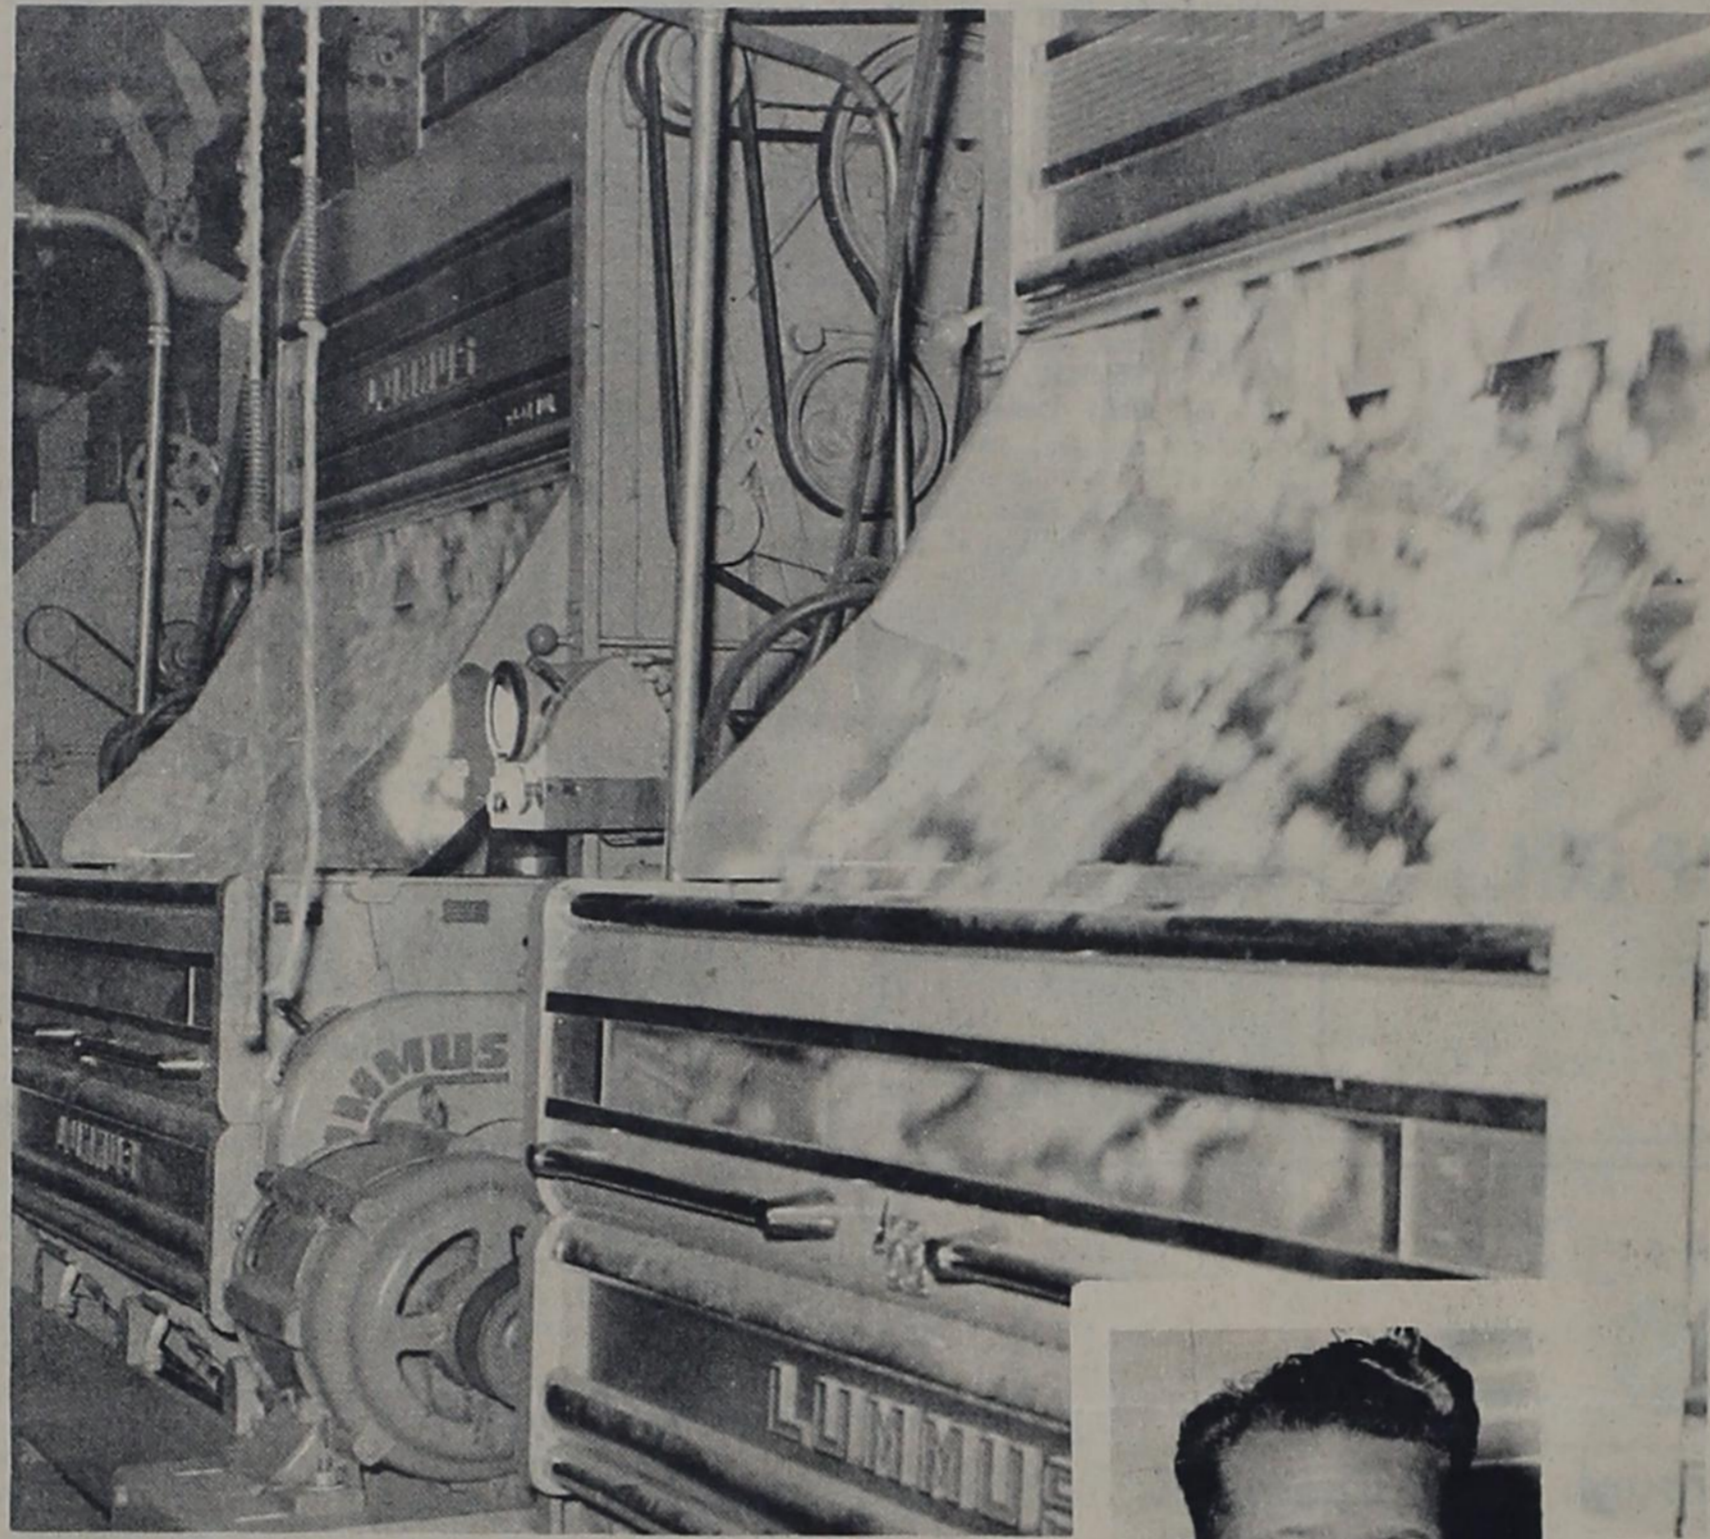

Bill Ellis of Friona was to accompany Coker to attend a special press conference for area newsmen earlier in the day.

Similar meetings will be held in six other Texas cities, all conducted by a panel of Texas A&M College specialists headed by John E. Hutchison, director of the Texas Agricultural Extension Service.

In the series of meetings, agents will receive training and material which will prepare them to conduct needed educational programs that are designed to acquaint producers with all aspects -- pro and con -- of the referendum, Coker said.

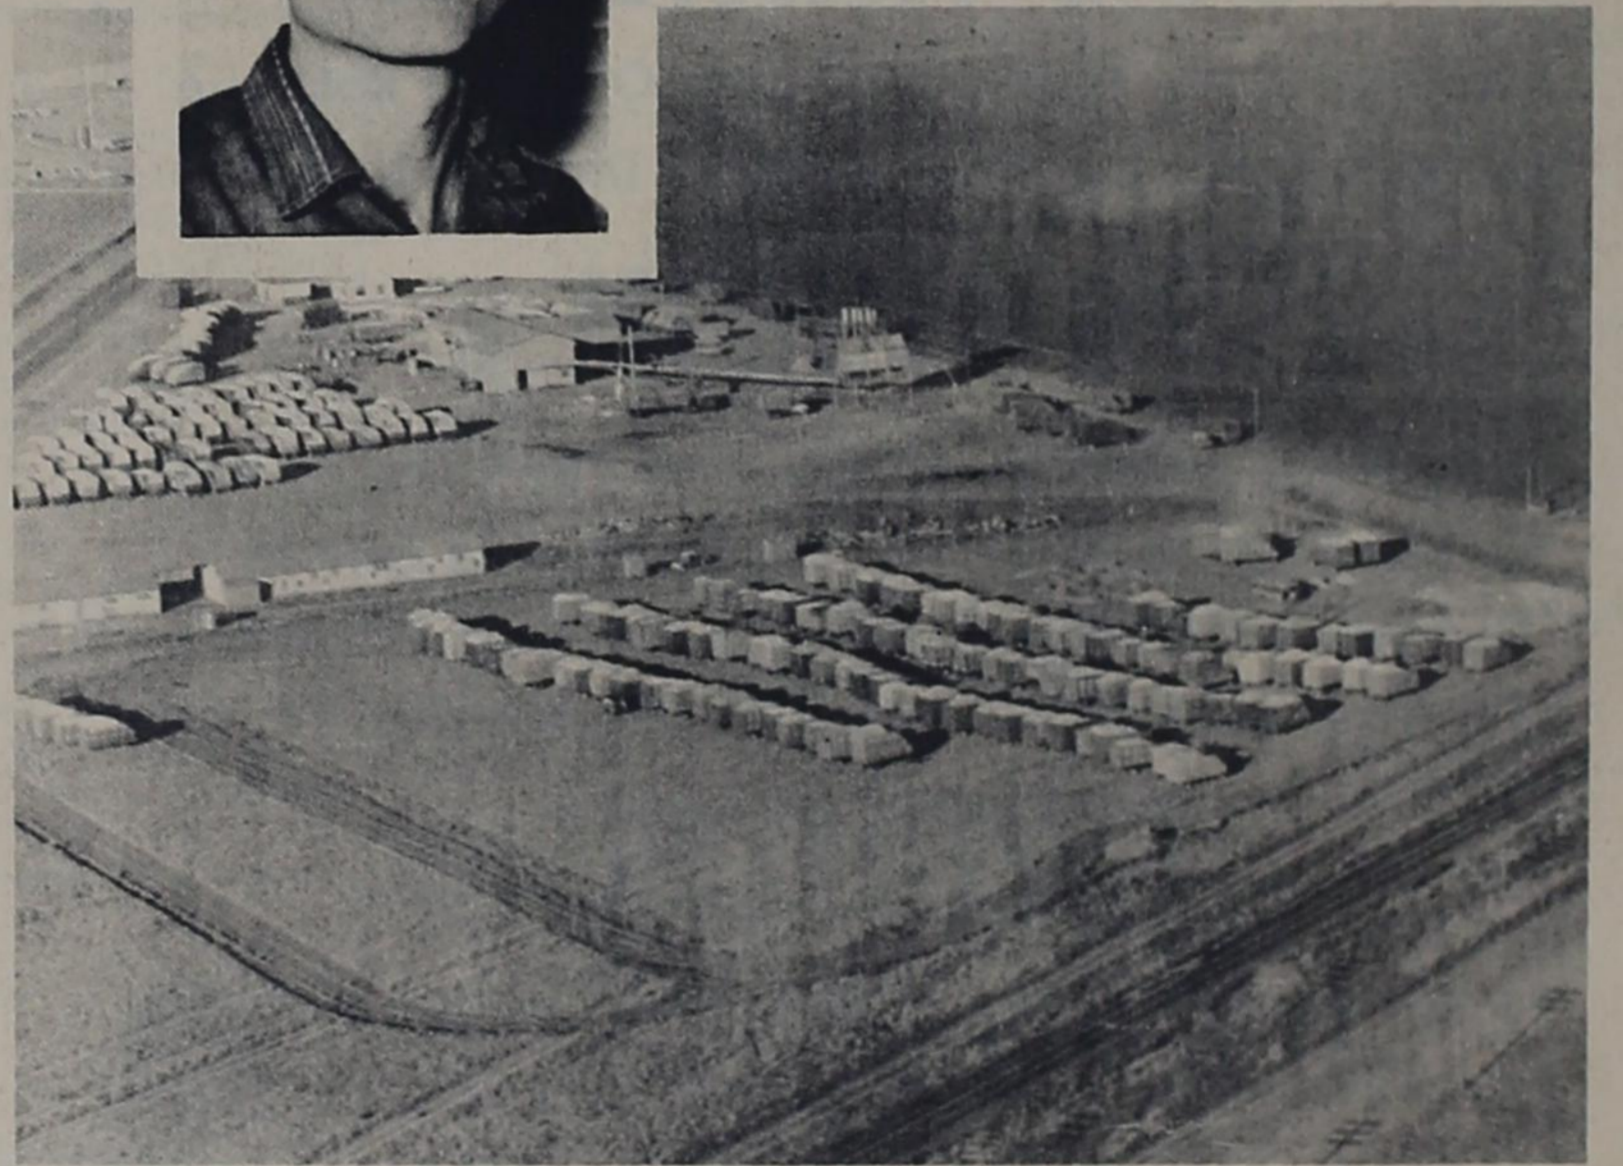

As in the past, county Extension agents will take no sides in the issue, but will present factual, unbiased information so that wheat growers can decide for themselves whether they wish to vote "yes" or "no," Coker said.
