Hearing Is Requested On Water Problems

Attempting to step between the deposits of water in the Bailey County sand hills, and the announced plans of the city of Lubbock to develop the area as a source of supply for its own use, the Bi-State Water Board has filed a request with the Lubbock City Commission asking for a hearing in the matter.

The following is a copy of the letter that this week was mailed

to Lubbock city officials:

We of the Bi-State Water Board of Bailey County and surrounding territory have received what we consider to be reliable information, indicating that the City of Lubbock, acting by and through your body, has concluded to advertise for bids for the purpose of building an underground pipeline for the purpose of carrying water from the Bailey County area to the City of Lubbock, within the next very few days, and we feel that the least your Honorable Commission can do is to give the people of this area, represented by the Board of Directors of this Bi-State Water Board, a fair hearing before any such action is taken, in order that the equities of all concerned may be considered fully before any action is taken that would be extremely and permanently prejudicial to the rights of everyone in this general area that depends in any degree upon the underground water for his livelihood.

We feel that your commission will want to be fair, just and right in its treatment of the farmers in this general area and representatives of the City of Lubbock advised numerous Bailey County residents and residents of the surrounding territory in the year 1952, and at approximately the time when the water rights in question were acquired by the City of Lubbock, that no wells would be drilled for the purpose of transporting water therefrom to the City of

Lubbock until approximately the year 1970, and even at that time, only a few wells would be drilled and that the underground water strata upon which the farmers of this general area rely for their livelihood would not be adversely affected even then. We feel that these representations were made in good faith, and certainly they were accepted by us in good faith at the time they were made, and the least that the people in this area are entitled to would be an explanation for the reversal of policy on the part of your honorable commission, and we do not feel that your commission would want to be in the position of refusing a fair hearing to the people in this area who depend so completely upon the underground water resources for a livelihood.

Your commission is apprised of the fact that the people in this area sincerely and genuinely feel that they know that the taking of the water which you propose to take from the wells in Bailey County will ultimately and completely destroy the economy of the whole general area, and before any arbitrary power is exercised by your Commission, we earnestly and sincerely solicit a hearing before your Honorable Commission at the City Hall in Lubbock at 10:00 A. M. on Friday, April 20, 1956, and we feel that we know also, in an effort to be fair with the people of this area that you will want to give up a hearing at that time and before any action is taken by you

Hardage Car Wins At Hobbs Auto Show

Gerald Hardage returned to Farwell with a trophy this week, after his entry in the custom sports car class won a first place at a Hobbs auto show.

The contest, under sponsorship of the Paisano Club of Hobbs, was based on appearance and not performance. Visitors to the show cast ballots to determine the winner.

Hardage, who is a student at Farwell High School, entered his 1956 Plymouth Fury. Also attending were Lavon Jones and Mr. and Mrs. Walter Hardage.

Berteau's Mother Dies In Wichita Falls

Mrs. Mary Berteau, mother of Tom Berteau of Farwell, died Wednesday night at 11 o'clock in Wichita Falls. Also surviving is a sister, Alice, of Chicago.

Funeral arrangements are under the direction of Patterson Funeral Home, Sweetwater, and burial will be made there. The local attorney left Farwell Wednesday night as soon as the news reached him.

Mrs. Berteau had been in poor health for some time, and became acutely ill about two weeks ago.

IN TOURNAMENT

Texico's junior and senior high school volleyball teams are participating in the district tournament being held at Melrose today (Thursday) and Friday.

Black Wins District Community Contest

By Mrs. Dick Rockey

The Parmer County community of Black was off to a good start toward winning a state community improvement contest championship this week, when Wednesday it was revealed that Black placed first in district judging.

Residents of the area met at the Community House Tuesday and prepared a dinner for the judges, who were on hand from 11:30 until 2 o'clock.

Judging the contest were Garland (Cotton John) Smith, Amarillo; Mrs. Mona Hildreth, county HD agent from Canyon; and John Brazzil, Randall county agent (also Canyon).

Out-of-town guests at the big occasion were District Agent Knox Parr and District HD Agent Doris Leggett of Amarillo; Jess Stan-

ford and Roberta Campbell, Hereford; Mr. and Mrs. Frank Spring, Charles Allen, and Rev. and Mrs. C. M. Fields of Friona; and Mr. and Mrs. W. H. Graham Jr., Ronny, and County Agent Joe Jones of Farwell.

The judges were taken on a 37-mile tour which took one hour and 15 minutes to complete. Immediately on the completion of the tour, the cafeteria-style dinner was served. About 90 attended.

Committees were called in for reports of work done in the contest, and Bruce Parr projected a film on activities of the Black community.

The contest is sponsored by Farmer-Stockman magazine, in cooperation with Extension Service. State judges will be in the community sometime in May.

ANOTHER TROPHY—Publisher W. H. Graham Jr. of The Tribune hangs another bronze plaque into place after the staff returned from the Panhandle Press Association convention last week. The Tribune received three awards at the meeting.

Tribune Receives Awards

Three awards were presented The State Line Tribune over the weekend for outstanding journalistic achievement. They were in connection with contests sponsored by the Panhandle Press Association, and were made at the annual convention in Amarillo over the weekend.

Winning first place in column writing was W. H. Graham Jr., publisher of The Tribune, who is the weekly author of "From the Hopper." The prize-winning entry was a column recalling the colorful days of newspapering in which W. H. "Hop" Graham used to blast out of the Tribune's heating system. His method was to pitch water on a bed of hot coals, and the resultant discharge of steam did the trick.

The Tribune was judged second best in typography and make-up, being topped by the Ochiltree County Herald at Perryton. A third place award was received for last year's Christmas edition.

Attending the convention from here were Mr. and Mrs. John Getz, Mr. and Mrs. Ronny Ferguson, Mr. and Mrs. C. M. Henderson, Mr. and Mrs. W. H. Graham Jr., June Hensley, Richard Hapke, and Mr. and Mrs. Dolph Moten of Bovina.

W. W. Williams Rites Held Here Wednesday

Funeral services were conducted at 3 p. m. Wednesday for W. W. Williams, former Texico resident, at Hamlin Memorial Methodist Church with Rev. Casey Cantrell, pastor of the church, and Ebb Randol, officiating.

Williams lived in this area for a long time prior to moving to Truth or Consequences, N. M., some 15 years ago. Funeral services were also conducted at Truth or Consequences for Williams. Burial was in the Texico Cemetery with Steed's of Clovis in charge.

Survivors include one son, three brothers, two sisters, five grandchildren and one great grandchild. Mrs. Tom Nunn, one sister, resides in Clovis; and his sister-in-law, Mrs. W. J. Matthews, Texico.

Pallbearers were John Hadley, Presley Landon, Ted Engram, Bub Snell, Levi Reid and Claude Curry.

Texico Ag Boys To Make Trip

Fifteen boys from the agriculture classes of Texico High School and five sponsors will leave Saturday morning, April 21, for St. Louis, Mo., where they will visit the Purina Feed Research Farm. The farm is located 40 miles southwest of St. Louis at Gray Summit, but the general offices of Purina are in St. Louis.

Farmers Cooperative Elevator, Inc. of Clovis is helping to make this trip possible for the Texico group. Each boy is having to pay only about one half of his total expenses.

Guests at the research farm during this period will be bankers, feeders and feed salesmen from nals and the Milwaukee Braves.

Tom Hudson, Texico agriculture instructor, says that he had made 11 western states.

Monday the group will go on a conducted tour of the 738 acre farm where all research on feeding and management of livestock is carried on. Talks on all phases of the feeding and management program will be given to the 700 persons scheduled to take the tour.

Monday night the Purina Company will be host to a banquet and stage show for the visitors, and Tuesday the boys will visit the Purina chemical laboratories, offices and feed mills which are located in St. Louis.

Tuesday noon the boys will be feted at another banquet. They will return home Wednesday.

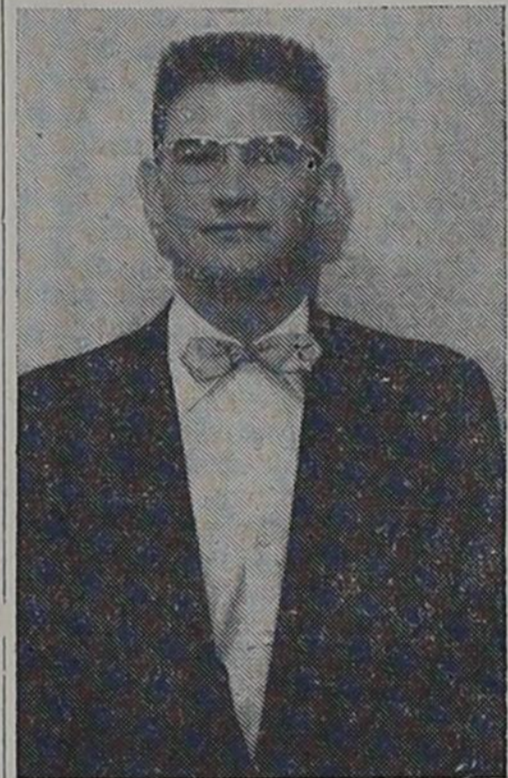

Sunday afternoon the group will see a double header baseball game between the St. Louis Cardinals trip five times and that he

learned more about feeding and management of livestock on his first trip than he did during his four years in college.

Hudson adds that he thinks this is a rare opportunity for high school students and that he is pleased that 15 Texico boys are taking advantage of this opportunity.

Texico boys planning to make the trip include Teddy Roth, Raymond Hadley, Jerry Reid, Jerry King, Dickie Adams, Nathan Tharp, Dwayne Winkles, Dick Lockhart, Weldon Bell, Joe Glaze, J. C. Kelley, Bob Spears, Leon and Lester McDaniel and Allan Kelley.

Those accompanying the group as sponsors besides Hudson will be Agrie Jones, Ray Tharp, Pike Jordan and Harry Harvey, Purina Salesman from Portales.

Rev. Looney Is New Okla. Lane Pastor

Rev. Irving Looney, new pastor of the Oklahoma Lane Baptist Church, was in charge of services at the church for the first time on Sunday morning, April 15.

Rev. and Mrs. Looney and their four daughters, Lois Marie 9, Carolyn Jean 7, Linda Joyce 4, and Barbara Ann 3, arrived in the community Wednesday of last week.

During the past year, Rev. Looney was pastor of the Skyline Baptist Church in Lubbock. Prior to moving to Lubbock in March of 1955, the Looneys had lived in towns along the Gulf Coast for about 10 years.

Rev. Looney was graduated from high school at Levelland where he met his wife, Evelyn. His college education included three years of study at the University of Corpus Christi. Rev. Looney says he hopes he can work out a schedule whereby he can continue his education.

Rev. Looney will be preaching at a revival to begin at the Oklahoma Lane church on Sunday morning, April 22. The revival will continue through Sunday, April 29, and services will be held twice daily at 11 a. m. and 8 p. m. Prayer meeting will be held nightly at 7:30 prior to the preaching service.

A cordial invitation is extended to all to attend this revival.

Farwell Senior Play Is Tomorrow Night

"Man Alive!", a three act mystery by Carl Webster Pierce, will go on stage tomorrow (Friday) night at 8 o'clock in the school auditorium as the Farwell seniors present their annual play. A. D. Daniel is director of this presentation. Admission will be 50 cents for adults and 25 cents for children.

The return of Gordon Crane's twin brother, George, who is in trouble with the law, starts trouble in the Crane household where most of the action of the play takes place.

Gordon refuses to lend money to George and the latter threatens Gordon. Excitement increases as other family members and the Crane housekeeper all become involved.

Gordon is blamed for committing a crime really committed by his twin, George, and his effort to prove that he is not guilty provides thrills and surprises for the

audience until the final curtain falls.

Playing the part of the Crane twins, Gordon and George, are Dean Jones and James Norton, respectively. Ellen Barton, aunt of the twins, is played by Betty Curtis. Jimmy Schell plays the role of Ray Alden, family friend and lawyer.

Gordon's fiancée, Grace Rollins, is played by Marilyn Austin. Della, the Crane housekeeper, is the role of Carolyn Cantrell. Elton Kesner acts as Tim Kelly, chief of detectives, and Lizzie Archer, a waitress at a small cafe called "The Dog House," is being played by Glenna Ruth Davis.

Dixie Turner plays the part of Hester Roberts a flashy babe from Chicago who is one of George's girl friends. Jayson Wheeler, a chronic grouch, is played by Bert Williams.

The senior class urges everyone to attend.

Tim Kelley, detective, played by Elton Kesner, is shown trying to take a gun away from criminal George Crane (James Norton) while attorney Ray Alden (Jimmy Schell) tries to revive the Crane's housekeeper (Carolyn Cantrell) in one of the exciting scenes from the Farwell senior play, "Man Alive!" to be presented Friday night at 8 o'clock.

Olin Hinkle, University of Texas column critic who knows his business so well he has written books on the subject, and is the co-author of a weekly column in Publishers' Auxiliary, the nationwide publication for community publishers, was looking us straight in the eye at Amarillo last week.

He says that we column writers are in a rut. We talk about drab, uninteresting things like politics, farm problems, international undercurrents, and the like.

If we know what "grass roots" thinking is, our readers couldn't tell by reading our columns, he charged in an address given at the Panhandle Press Association.

The place to be drab and dull (if we must) he says, is on the editorial page. We ought to confine our opinions there, and not let them occupy such a dominating position in our personal columns.

He pointed to the work of such men as our own Paul Crume, who authors Big D of the Dallas Morning News. Crume gets down to earth every single time he wrestles with his typewriter, which is something a lot of us small town column writers are forgetting how to do.

By Joe, the old boy is right. We are going to try to mend our ways. One of the things he said we ought to do more is to use stories in our columns that ordinarily wouldn't find their way into print.

And we received noble inspiration a few moments after hearing Hinkle when we bumped into that old scallawag, J. Claud Wells of the Memphis Democrat. This old time printer can remember the color of this part of the country 50 years ago better than anyone we know.

Claud was a printer for the Texico Trumpet about 1910, when Texico was a rip-roaring border town full of saloons and lusty living. Business must have been pretty good, too, because the Trumpet, if we remember, was a daily.

The editor of The Trumpet was one of the fearless type—of which only a few can be found today. He called a spade a spade and one day after he had made a particularly scurrilous attack on one of the village scoundrels, the target of the verbal harpoons charged into the Trumpet's office in a terrible temper.

Brandishing a loaded and cocked six-gun, the man entered the office, seized Wells and admonished "I'm going to kill you." Claud, only a printer, explained as best he could that the editor was out of town that day, and suggested that the man return some other time.

This hint did little to satisfy the man's anger, however, and he told Wells, "You'll Do!" The innocent printer grabbed the only weapon he could spot to defend his life, a poker lying near a stove, and struck the man's arm, breaking it.

Then the two men grappled for the gun, and fell to the floor in a lethal embrace. The pistol fired several times as the struggling men rolled across the floor, and Wells recalls "Every time it went off, I could feel holes in me as big as coconuts."

The commotion attracted people from outside, and the assailant told Wells to let him go and he wouldn't bother him any more. Claud says he was more than glad to comply with this request.

How's that for a story? Jeanne says that when little Hal looks at her and gurgles "Mom-ee" it tugs at her heart strings.

It also should be mentioned that when he wakes at 6 in the morning and bawls for his bottle, he tugs at our purse strings.

What farmers are keeping really accurate statistics on the water table levels? Not very many, we fear. If you have kept careful records for two or three years, or know of someone else who has conscientiously done the same, pass this news on to us. We want to print it.

Thad Watkins has been meticulous to make accurate measurements the last three years, and, suppls us with the following statistics from a well on his old place east of Farwell.

January, 1954, 211 feet; August, 1954, 215.3 feet; January, 1955, 211 feet; August, 1955, 219.3 feet; February, 1956, 215.5.

Two or three things are noticeable in these figures. First, that the table returned to 211 feet after the 1954 season of pumping. But it was a different story this year, and the level is 4 1/2 feet lower than when measurements first began. The 1956 measurement was not taken in January because a near-by well was running to water wheat, and the cone of influence might have interfered with accuracy.

After the big February snow, the well was measured, which should have allowed plenty of time for the water to seek its normal

THE TRIBUNE'S EDITORIAL COMMENT

And You Don't Pay For Federal Aid to Education?

One of the reasons why federal aid for school construction seems so attractive is that it looks like something for nothing, according to the Chamber of Commerce of the United States.

But, of course, says the Chamber, this is a fallacy. Actually, you pay twice, and more, for federal aid.

First, every federal tax dollar comes from your pocket, the Chamber points out. Under the present school construction bill, (H.R. 7535), you also would pay an equal amount in added state taxes because the bill says that every federal tax dollar must be matched by a state tax dollar. In addition, you would pay the costs of sending your money to Washington and back. And every dollar loses weight in the round trip to Washington.

But there is another cost—even more damaging—the Chamber warns. This is the very probable loss of control over school construction in your community. For the bill provides that a federal administrator would have control over priority of construction projects, standards for planning and building schools and wage and hour standards of labor. What's more, says the Chamber, you'll pay the administrator for telling you what to do.

Is this the way American parents want their schools built? Our entire history refutes this view.

We're Running Our Future Down the Bar Ditches

Most pre-watering on the rich irrigated High Plains is either completed or in its final stages, and the spring and summer pumping season is only a short time away.

In spite of the constant educational work of the High Plains Water District, the Soil Conservation Service, and others, the bar ditches on roads of the area still portray the old familiar pattern of bank-to-bank waste water.

This problem is a sore spot with many farm-

ers, as The Tribune well knows, and sometimes it seems impossible (and oftentimes impractical) to stop water from getting out of fields.

While we sympathize with the problems that some farmers face, such as uneven land or special conditions, we cannot join those who blandly say, "We have plenty of water—what's wrong with a little in the ditches?" The situation looks serious to us, especially in the case of continual wasters, who apparently run water from the ends of their rows with a "let the public be damned" attitude.

No man wants others to tell him how he shall run his farm, but when he continually violates the statutes by willfully draining the life blood of the High Plains into a bar ditch, how else is the problem to be met except through open opposition?

Both leagues will play a double round robin type season on a home and home basis. The program will get underway early in June and will last through early August.

Calvin Murray of Farwell was named chairman of the representatives.

Both leagues will begin their games at 5:00 p. m.

The Little Leaguers will play on Tuesday and Friday afternoons and the Pony League games will be played on Thursday afternoons.

Team representatives will meet again on Monday, June 4, at 8:00 p. m. in ABC Drug in Bovina.

Play in both leagues will begin Tuesday, June 5. A complete schedule of the league games will be announced later.

Corinne Stinson wrote us a brief note when she renewed her subscription saying "hello, enjoy the news each week." Brief as it is, we enjoy hearing from Corinne.

She was such an energetic person, as the number of active home demonstration clubs and girl's 4-H groups in the county show. Corinne, as home demonstration agent, assisted in getting all these groups into the organization stages. You can read a Tribune any week, and if you note what the groups are accomplishing, you will be impressed. Although Corinne had the opportunity to become agent in farm and home development for the Agriculture Extension Service in College Station, the work she did in Parmer County is still very much in evidence.

And she still takes the paper so she can keep up with what all the groups are doing.

One of our favorite columnists (except our husband of course) has long been Douglas Meador of the Matador paper. He does things with words that we wish we could do.

Last week, the quip that stuck with us was "A good character is a commodity which is purchased on daily installments extending the length of a lifetime."

We were pleased to receive a copy of The Oklahoma Daily, student newspaper for the University of Oklahoma, in which the by-line of George Duncan appeared in a feature story.

Many of you will remember George who was a part-time employee of the Tribune, during his school days in Farwell. His father was pastor of the Methodist Church here, when we moved to Farwell in 1950.

What pleases us more than receiving a copy of the school paper, is that George has the newspaper "bug" obviously. No matter how we fuss and complain about some of the headaches of our business, we still like the work so much, we always like to see capable young people get in "the same boat."

We honestly believe you meet more wonderful people on a news beat than in any other field.

At the birthday party of our little niece, Betsy, on Easter Sunday, the children were having a bang-up time. After they became tired of the games and entertainment, they were grouped around the dining room table and each was given a big slice of chocolate cake and punch.

Oblivious to all around him, each child was busily devouring the birthday cake, when one bright youngster suddenly looked up at the hostess and quizzed "Say, when we gonna have the 'freshments'?" It was easy to see he was enjoying them even if he didn't know what they were. And every American child knows you gotta have 'freshments' at a party.

We have become a fan of Black. We were out there Tuesday when the members of the community were on hand to have Black judged in Texas Rural Improvement contest. If you have been reading some of the stories in the paper, you'll realize the people out there have been mighty busy.

One of the most amazing phases of the project, to me, is that there are 58 families in the community, and every one of them filled out their project report—100 percent cooperation. When we get ALL the people to support any one project in our town, we will be able to do anything.

Some of the faces and names of the people we met Tuesday are still a little confused—but we do appreciate the hospitality of everyone.

FARWELL BAPTIST NEWS

Rev. Keith reports that attendance was low last Sunday because of sickness in the community and that he would like to urge all church members who are not sick to be in all services at the church this Sunday. Sunday School attend-

ance was 151 last week.

Sunday night after regular preaching services, baptismal services will be held. Mrs. Weldon Rundell and David Widener will be baptized.

Following the baptism, the Lord's Supper will be observed.

Each Wednesday evening at 8 o'clock, Rev. Keith is teaching a course from the book of Acts at the church. Rev. Keith says that this will be very helpful to all Sunday School teachers as current lessons are being taken from Acts. Everyone is welcome to attend these weekly courses.

Wednesday night after prayer meeting, Cary Joe Magness showed films he had taken while serving with the Army in Germany.

Mustangs Trip Farwell Steers Nip Longhorns

Throwing a no-hitter on the home diamond Friday afternoon, Darrel Read of the Bovina club led his teammates to a 6-0 shut-out over the Farwell Steers in the first conference game for both teams. Bovina's big inning came in the second when Donnie Carpenter of the Steer nine walked in four runs. Carpenter was relieved in the fourth by Owen Huffaker, and Bert Williams took over the mound for the sixth inning.

The Steers managed to edge by the Lazbuddie Longhorns 4-3 in the eighth inning of their second conference game Tuesday afternoon at Farwell.

The winning run came when Truitt Hardage made first on an infield hit to score George Washington who had been walked to first. Washington advanced to third on an error when Carpenter was at bat.

Winning pitcher was Donnie Carpenter, and Jimmy Oliver was the losing pitcher. Roy Vanlandingham relieved Oliver in the top of the seventh.

Farwell will be playing Clovis at Clovis this Friday afternoon.

Texico Students Win At Highlands Event

Carolyn Curd, Barbara Caldwell, Karen Brehm and Susan Levins, members of the Texico Business Education Club, were among the 25 students from New Mexico to win medals for membership in the "400 Club."

The medals were presented at the annual Highland's Day program at Highland University in Las Vegas, N. M. last weekend. Eleven members of the Texico club along with Mr. and Mrs. Agrie Jones and Paul Frederick,

made the two day trip to the university.

To be eligible for membership in the "400 Club," a student must pass enough tests during the year to average 400 points. This is the highest honor one can receive in the State Commerce Club.

Carolyn Curd received medals for superiority in typing and shorthand. A medal for excellence in shorthand and typing went to Susan Levins, and Karen Brehm also received medals for excellence in

both these tests.

Mikala Faville and Verlene Thigpen received medals for expert typing, and Joyce Gillean, Rebecca Richardson, Shirley Branson and Audrey Hapke received proficiency certificates in typing.

Those receiving certificates in typing who did not attend the Highland's program were Glenda Weisler, Judy Wakefield and Sue Doolittle.

Carolyn Curd, one of three Texico journalism students to receive certificates for work done in journalism this year, attended the press association banquet given at Highland Friday night for journalism students. Carolyn's certificate was presented for her work on an interview.

Betty Pendergrass received a certificate for excellence in editorial writing, and Allan Kelley was awarded a certificate for a news story he wrote.

TIPS ON DINING

Every woman's wish is to be a charming hostess when entertaining. Setting a charming table is one of the prerequisites. Here are some suggestions that will help you achieve that goal:

A good rule to remember is: "Allow plenty of room at the table for ease of service." Most authorities recommend that at least 24 and preferably 30 inches be allowed for each place.

Consider the plight of the cave-

woman when it came to serving meals. It took all of her strength to carry the crudely fashioned, thick stone plates of that era. Today's Melmac dinnerware is featherweight by comparison—a boon to housewives—and it's highly break-resistant as well.

If you're using a bare table, try to use place mats that conform to the shape of the table. Oblong place mats are adaptable to a rectangular table. If your table is narrow because of limited space, put your place mats along each side, leaving table ends for decorations and large accessory dishes. For a square table, you can use a square center mat and oblong place mats; round centerpiece and round doilies for a round table.

Do you like candles at the table? For a small table, a candelabra may be used, or you can place two candlesticks in the center of the table with a flower arrangement (always fresh) between. For a larger table, two candelabras or four candlesticks. Light the candles before your guests are seated.

Try this at breakfast time: Combine a gray-colored table cover with a similarly bright set of dishes and watch how everyone, including yourself, gets off to a cheery start in the morning. Molded dinnerware, in solid colors or multi-colored decorated surfaces is finding increased use among imaginative housewives.

LETTERS To The Editor

Box 84
Vermejo Park, N. M.

Dear Folks,

A few lines to let you know we have moved and would like for you to change our address on the State Line Tribune.

Sure do miss the paper. We now live at Vermejo Park, N. M. 40 miles back in the mountains from Cimarron and 60 miles from Trinidad, Colo. Really is pretty here. The mountains are really pretty, and some have snow on top of

them. Deer are all over the place. They come right up in our back door to eat.

We have also seen wild turkey and some bob cats. There are elk and bear on up in the mountains about 20 miles from us.

John is doing electric and plumbing work here. He has one 35 room house to re-wire. It's a beautiful place to live.

Must close now, and hope to get the paper soon.

Love from us,

(Sigh) We don't know whether we enjoy getting this kind of a letter or not. (The Editor.)

Dear Sonny and Jeanne,
Just a little note to thank you

for the subscription reminder. We had forgotten exactly when our subscription would expire and we certainly wouldn't want to miss a single copy of the paper.

Enclosed you will find the proper amount necessary for the renewal. Thank you again!

Tangy Tomato Aspic Liked By Men

Jellied salads liked by men are those with the natural flavors of foods predominating. Tomato aspic continues among the masculine favorites because of its clear and direct tomato tang. This salad is a natural too with such menu leaders as steak and potatoes. See recipe below.

Tomato aspic rates as a classic of gel-cookery, and the simple formula only calls for combining tomato juice, unflavored gelatin and seasonings. The plain gelatin, softened in cold juice and then thoroughly dissolved in hot tomato juice, introduces no flavor of its own. Its magic property is to gel the tomato juice at refrigerator temperature. Then at taste-time, each bite is firmly cool yet melting to create a very special appetite appeal.

To unmold, quickly dip the salad mold to its depth in hot water; loosen around edge of container with tip of knife; hold serving plate over mold; invert, and salad will slip onto the plate.

Quick Tomato Aspic

2 envelopes unflavored gelatin 1/4 teaspoon onion salt
3 1/2 cups cold tomato juice 1/4 teaspoon sugar
1/2 teaspoon salt 1/4 teaspoon Tabasco
1/2 teaspoon celery salt 2 tablespoons lemon juice

Soften gelatin in 1 cup of the cold tomato juice. Place over boiling water; stir until gelatin is dissolved. Add to remaining 2 1/2 cups tomato juice; stir in remaining ingredients. Pour into a 4-cup loaf pan; chill until firm. Unmold on platter; garnish with salad greens. To serve, cut into 8 portions. Serve with Roquefort cheese dressing
YIELD: 8 servings.

NOTE: For 4 servings, cut recipe in half and pour into individual molds

died.

The list of neighbors pitching in at a time of need included Tom Beauchamp, Travis Lloyd, Roy Clark, Arthur Kent, Clifford Conley, Charles Corn, John Sykes, O.

H. Jones, Rouel Barron, and probably others whose names could not be obtained.

Plans for 1956 Texas 4-H Roundup Shaping

COLLEGE STATION—Texas 4-H club members will gather on the campus of Texas A&M College on June 12-14 for their annual Round-up. They have been holding such meetings at this location for approximately a half century. A trip to the Texas 4-H Roundup has long been recognized by 4-H members as an outstanding achievement and one that is long remembered. The 1956 meetings, according to Floyd Lynch, state 4-H leader, will provide opportunities for the delegates to get training in leadership and subjects of their choice and also further acquaint them with the facilities of the college.

State winners in the different judging and team demonstration contests will be determined on June 13. Delegates will select and participate in one of the 17 subject-matter short courses being offered. The training in agriculture and home economics subjects is designed so those receiving the training may pass it on to others when they return home.

County delegations will be limited to two boys, two girls and adult leaders or county extension agents must accompany a county group. District winners from a county are not counted as delegates, according to Lynch.

The first session is scheduled for Guion Hall on the evening of June 12. The contests are to be held on the 13th and the short courses commence on the same afternoon and continue through the 14th. The popular "Share the Fun Festival" is scheduled for the night program on the 13th.

Presentation of awards to all state contest winners will be made the afternoon of the 14th. The "Chuckwagon Feed" and special entertainment at Kyle Field will

wind up the third day of activities. Lynch says all county extension agents have details on the meeting and advises 4-H members and leaders to start making plans now to attend.

Farwell, Texas

The pictures accompanying this story were taken on the farm of Nelson Coon south of Black, where about 25 acres are now being bench levelled.

Coon intends to seed alfalfa, a legume which will enrich his soil with nitrogen, and follow that with the usual grain sorghum crops.

Of this project, about four acres are included in a unique waterway, which will be grassed in to prevent erosion, and this waterway will transport surplus water from the upper parts of the field safely and efficiently. The waterway will drain about 1000 acres.

Technicians from the SCS office furnished engineering details on the Coon project, and the contracting was done by Western Dirt Service of Friona.

Work was started about a week ago, and it is expected to be concluded this week. The average cost of bench levelling is around \$35 per acre, estimates Floyd Crume, work unit conservationist.

Some other farmers who are using this practice (which is eligible for government participation under the ACP program) include Earl Drake, three miles east of Friona, 34 acres; H. C. Wells, east of Friona, 20 acres; John Underwood, southwest of Friona, 20 acres; George Haskins, 3 miles west of Lazbuddie, 36 acres; and Clifton Wariner, Lazbuddie, 15 acres.

REA, RTA Meetings Set this Saturday

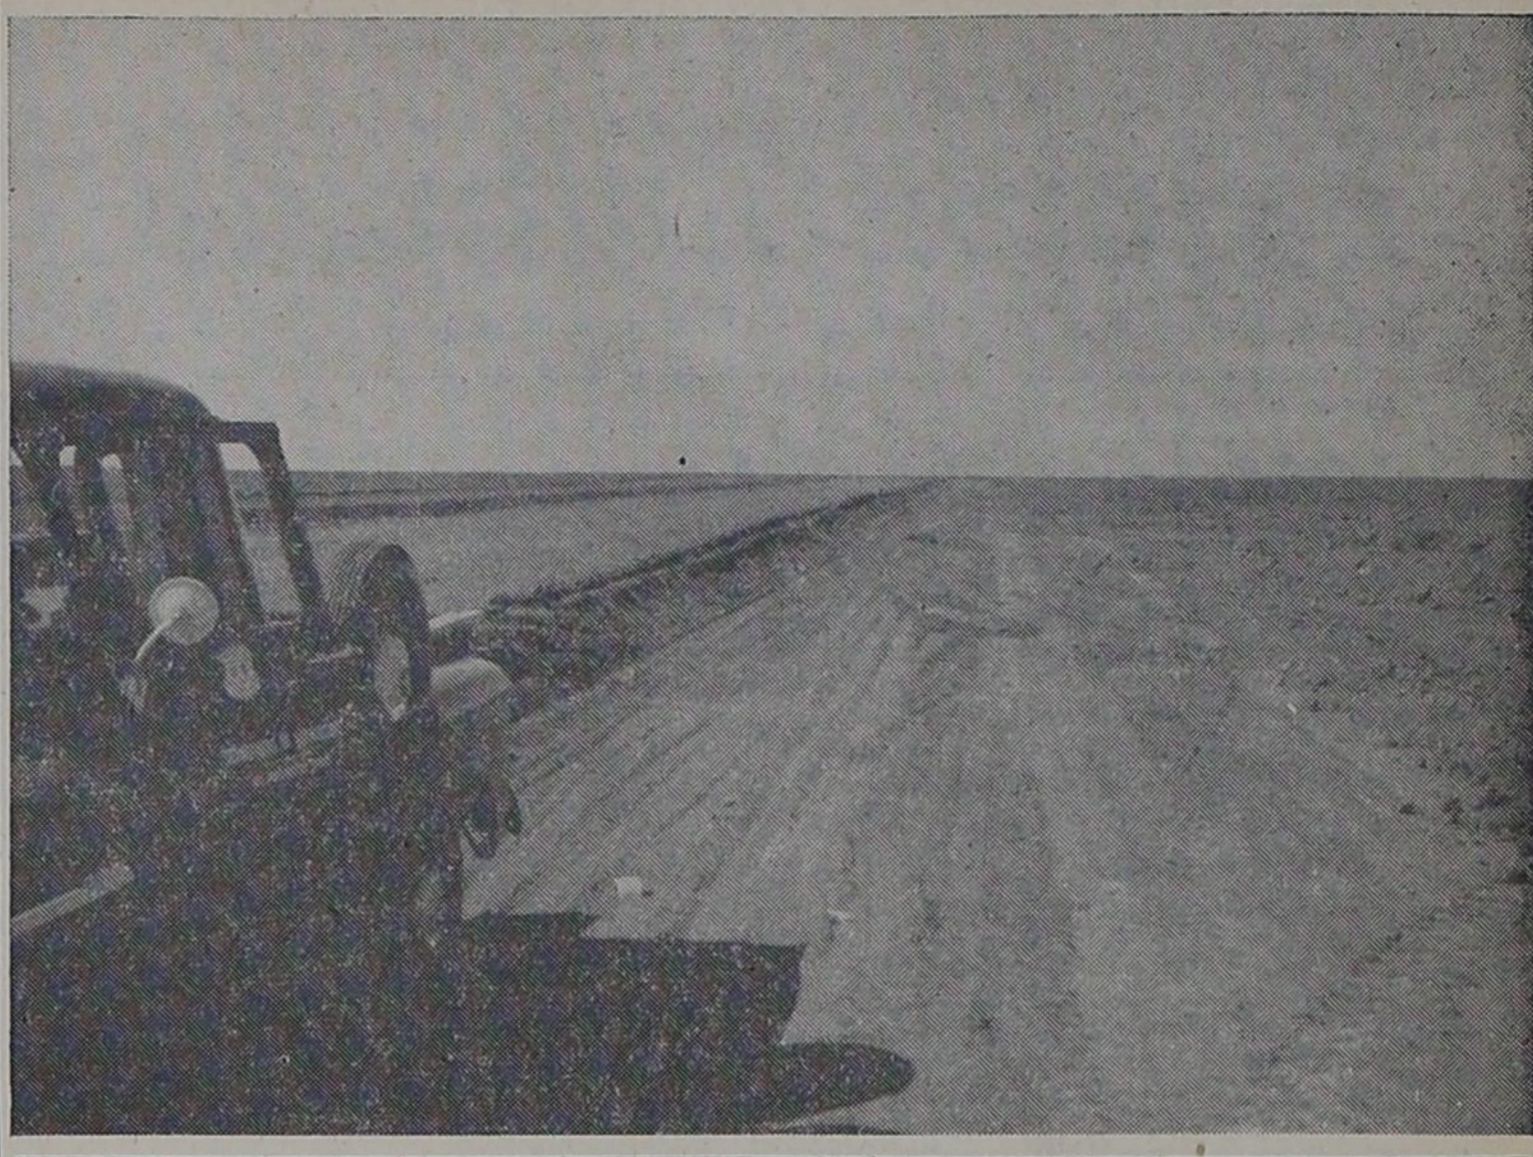

All Parmer County residents who are members of the West Texas Rural Telephone Cooperative, Inc. or the Deaf Smith County Electric Cooperative, Inc. are urged to attend the annual meetings of these two cooperatives which are to be held in Hereford, April 21. These meetings will be held in the Hereford High School auditorium beginning at 10:30 a. m. Saturday.

According to H. M. Benson, secretary of the board of directors, the telephone cooperative will elect two directors and financial and progress reports will be made. The Parmer County nominees are both from the Oklahoma Lane Community. They are Harold Carpenter and Walter Kaltwasser. Other nominees are C. R. Dameron and J. E. McCathern. Other nominations may be made from the floor at the meeting.

The REA meeting will follow the telephone meeting and is scheduled to begin at 11:45 a. m. Several items of business are on the agenda for this meeting. A report will be given on the financial condition and general condition of the cooperative. This report will include a progress report.

Rate adjustments in the approximate amount of \$90,000 will be returned to members for 1955. Two directors will be elected. A. W. Gober of Farwell and T. E. Seigler Jr. of Hereford, both incumbent members, have been nominated by the nominating committee.

Additional nominations for directors may be made at the meeting. The guest speaker will be Ancher Nelson, administrator of Rural Electrification Administration. Nelson, who lives in Washington, D. C., will also show color slides which he made in

Europe. An interesting and worthwhile discussion of the REA program will be presented.

A catering service of Fort Worth will prepare and serve a

barbecue lunch at noon. H. H. Miller, secretary, has announced that door prizes will be an electric iron, fan, clock, mixer and other valuable home appliances.

The dividend checks, which will be 10% of the 1955 electric bills, will be distributed at the meeting. Be sure to attend.

BENCH LEVELLING—These photos were made by SCS technicians while bench levelling work was going on south of Black on the Nelson Coon farm. The top picture: Two motor graders were at work building borders which are parallel and follow the contour of the field. Lower photo: Another view of the field, as a grader levels pan between borders, pulling surplus soil down slope of field. Upper right photo: An uphill view of the waterway which will be grassed to prevent erosion from run-off water.

Popularity Climbing For Bench Levelling

Water still runs down hill, and erosion. And since water seeks its when man can slow its rate to own level, the efficiency of irrigated farms can be improved to a walk, there's always less soil

an amazing degree by rendering fields level or practically so.

These factors account in a large measure for the great interest being shown by Parmer County SCD cooperators this year in bench levelling. It is a practical way of "stair-stepping" sloping fields so that soil deposits are maintained but the fields rendered level in consecutive runs.

Seniors To Sponsor Box Supper April 23

Seniors of 1956 are sponsoring an old fashioned box supper in the high school gym Monday, April 23, 1956. This informal program will begin at 8 p. m. Admission price of 10c and 25c will be charged.

Have you forgotten how much fun a box supper can be? Do you remember how to participate in the activities? Each woman and girl in the community brings an unusually decorated box which contains enough food for two persons. An auction is held and the man who bids the highest receives the privilege of eating with the person who prepared that particular box of food.

Local talent will entertain as well as talent from surrounding areas. Unusual contests are also planned, so be present and you may be an entrant.

Going to Austin with this group were two Amarillo Legionnaires, Lew Fields and George Broom. Shamrock Oil Co. and Southwestern Public Service Co. furnished the planes for the trip to Austin.

The air-travelers spent Saturday night in Austin and returned home Sunday evening.

Cast Is Chosen For Junior Play

The cast for the junior play, "George Washington Slept Here," was recently chosen. This three-act comedy will be presented in the high school auditorium May 3.

Exciting points in the play occur after an average American businessman purchases a house in the country. He bought the house, thinking that George Washington slept there, but later dis-

covered that another great person had previously resided at the place.

The house is in a very run-down condition. In trying to sell the house, a real-estate agent stated that the deepest well in the county was dug there. That was right, but...

A caretaker acts as the supervisor and tries to guide the actions of everyone. Everyone is befuddled when a cow appears in the kitchen.

Don't miss the suspense filled comedy which has the following characters: Mr. Kimber, Gerald Floyd; Newton Fuller, Don McMahon; Annabelle Fuller, Patsy Anthony; Madge Fuller, Judy Bruns; Steve Eldridge, Jerrod Sheek; Katie, Barbara Deaton; Mrs. Douglas, Geraldine Phipps; Clayton Evans, Buford Carter;

Also, Rena Leslie, Eva Woolbright; Hester, Doris McFarland; Raymond, Charles Beaton; Uncle Stanley, Don Reeve; Leggett Frazer, Burkie Hand; Tommy Hughes, Wesley Barnett; Sue Barrington, Barbara Hock;

And, Mrs. Wilcox, Phyllis Hinds; and Mr. Prescott, Joe McLellan.

Loretta O'Brian is student director and Miss Vera Ann Jones is instructing the group.

Bovina Streets Are Being Worked

The working and grading of Bovina's hard, bumpy, and unpaved streets began last Thursday.

The work is being done by the county and the city. The City of Bovina is responsible for the "watering down" of the streets and the county is furnishing the equipment and doing the rest of the work.

The work being done consists of chiseling, watering, grading, more waterings, and finally, rolling and packing.

"If everything goes according to schedule, all the streets in Bovina will be worked," City Secretary Henry Minter, who has been driving one of the two water trucks rented by the city, says.

One of the trucks being used by the city is being rented from Fred Langer of Bovina and the other from Panhandle Construction Company of Lubbock, the concern that is installing Bovina's new sewer system.

Minter says it will take another "eight or 10 days" to work all the streets in Bovina.

NEWS FROM THE FARM BUREAU

By RAYMOND EULER

A congressman recently cited figures showing that 600,000 farm families moved from agricultural areas to cities from 1950 through 1954. He added that the reason 90 percent supports have been restored to the present farm bill is that the farm economy must be stabilized in order to check the move to cities. This line of reasoning is in sharp contrast to a statement made some time ago by a man with a different reasoning.

He said, "Here I am, sick as a horse from eating green apples. Now, here you stand, telling me that the best and quickest way for me to get well is to eat some more green apples." We simply suggest that it would be well to think some such statements over seriously before applauding a person posing as a farmer's friend. Maybe he is, but just doesn't know any better.

Parmer County Farm Bureau directors have been arranging for bedding for stock shows and fairs each year for four or five years. They were almost slipped up on this time, but County Agent Joe Jones reminded them, and even told them where to get the hay last Thursday, Friday morning, President Kaltwasser and director J. T. Jones hopped in a truck and made a rush delivery to the show barn in time for the boys to bed their animals properly. The hay came from the Billie Sudderth farm near Bovina.

Members of the Farm Bureau weed committee met at Lawlis-Ely Gin in Bovina Monday night to continue plans for the summer's program of weed eradication. Bruce Parr is chairman of the committee. Other members are Raymond Schueler, Rhea; Ovid Lawlis, Bovina; L. F. Bruns, Lazbuddie; Gene Snodgrass, Bovina; Clarence Johnson, Oklahoma Lane;

A. M. Bradley, South Lazbuddie; and Roy Grace, Black.

Joe Jones serves as an associate member. Plans for the purchase of sterilants will be announced soon. Some farmers are requesting shipment of a carload for immediate delivery, supplemented by smaller amounts supplied by local dealers.

Plans are being made for cotton promotion week in Parmer County on the national date, May 14 to 19. Lions Clubs and C of C's are being enlisted to help merchants with this week of cotton sales promotion. Tentatively, a county-wide meeting is planned for cotton farmers, and finally a meeting for maximizing the week, that would have a cotton queen contest and other interesting and entertaining features, is planned.

Consider this: Of a truth, I perceive that God is no respecter of persons; but in every nation he that feareth him, and worketh righteousness is accepted with him. Acts 10: 34-35.

Cadillac

Giving In...To His Practical Side!

We will tell you, in all honesty, that this gentleman was a little dubious when he first walked into the showroom.

There was no question, to be sure, about his wanting a Cadillac!

But, quite frankly, he wondered whether or not he was in a position to purchase a motor car as wonderful as the 1956 Cadillac.

But now he is learning some facts about this distinguished motor car that are removing the doubt from his mind.

First of all, he is learning that a Cadillac is relatively modest in its initial cost.

He is finding out about Cadillac's extraordinary dependability and freedom from repairs.

He is discovering the remarkable facts about

Cadillac's traditionally wonderful resale value.

And, lastly, he is being told that, at this time of the year, his dealer is able to make Cadillac ownership even more practical than usual.

That's why we suspect that—having given in long ago to his heart—he is now giving in to his practical side. And that's a combination no man can resist!

If you have considered Cadillac the car in your future—but have postponed making the move for reasons of economy—we urge you to stop in soon.

As an experienced Cadillac dealer, we have established a wonderful relationship with fine-car motorists throughout the community. Our reputation for integrity is positive assurance of your satisfaction as a customer.

Practice Game Pits Bovina At Friona

Friona Indians, 1955 champions of the Irrigation Belt League, will play hosts to the Bovina Mustangs for a practice game on the Friona diamond Sunday afternoon, April 21, at 2:30.

John Renner, acting manager of the Indians, requests that all Friona club members report to the field at 1 p. m. Sunday. Club members will wear the old uniforms until the new ones arrive, and each player should bring his own shoes and glove.

The Indians will open league play Sunday, April 29, when they meet Nazareth there. On Sunday, May 6, the Indians will be guests

of Dimmitt for another league game. Then the Friona nine will play Umbarger Sunday afternoon, May 13, in their first home game.

Renner says that baseball fans of Friona are interested in this year's club and that with the addition of two first basemen to the club prospects, the Indians should prove to be a strong team again this season. According to Renner, a club manager will be elected Sunday.

Lindsey Davis, Jackie Vantreese and Stan Barrett are expected to do the pitching chores for the Indians. Renner says the team can use a catcher if anyone is interested in trying for this position. Dempsey Watkins and Joe Means, coaches in the Friona School system, are expected to add strength to the club this year.

Other Irrigation Belt League members are Bovina, Vega, Dimmitt, Umbarger and Nazareth.

Friona business firms donating new uniforms to the club include Rockway-Hurst, Ware's, Friona Wheat Growers, Friona Consumers, Kendrick Oil Co., McCaslin Lumber Co., Piggly-Wiggly, The Texas Co., Rockwell Brothers Lumber Co., Hub Fertilizer, West Hub Gin and Friona Motor Co.

in & around FRIONA With June

Our other half always predicts rain when skunks start moving about during the day. We hope it is a good sign. Tuesday afternoon we looked out the kitchen door and saw a very graceful black and white kitty walking slowly up the walk. Our first thought was to get the gun. Then decided to shoot him with the camera first.

This is National "Do It Yourself" Week. We saw a very clever cartoon on this subject some time ago. The woman of the house came through the door of her home which was furnished with automatic washer and dryer, and announced to her husband, "Just see the latest do it yourself gadget I've found." She held an old fashioned rub board in her hand.

It gives us a great deal of pleasure to learn that the Black Community placed first in the district Rural Neighborhood Progress contest. Congratulations to the residents of that community. We are going to be expecting a winner when the judging on the state level is made.

For the past several days we have spent most of our time sitting. This has been due to a burn on the right foot. In a day or two we expect to be up and around again. Several friends and neighbors have shown us numerous kindnesses and we deeply appreciate every thing that has been done. The people in the Panhandle are the most wonderful people in the world when anyone has trouble or misfortune.

Recently we read that a gadget had been invented whereby anyone who gets "buzzed off" on a rural telephone line cannot get back on the line without waiting three minutes. The article stated that the gadgets would be rather expensive to install. Our cooperative doesn't really need any of them since it is impossible to get back on the line most of the time anyway.

We forgot to protect our currant bushes from the expected cold Tuesday night so may not get that currant jelly we had been planning on after all.

Just know the Floyds have reared more pups than any family we know. Something always happens to them about the time they pass the stage of chewing up everything on the place. When Bimbo, the last one we had, was killed and the girls were wailing loud and long over him, we made the usual announcement, "No more pups

for us." Now, we have Noodle. * * * * *

Have you ever heard your own voice on a tape recording? Some of the children at school have heard tape recordings of reading classes and each one says, "I sound so goony on the recording." We have long wondered about the effect telephones have on different voices. Some voices come through as natural as anything over the telephone and others take on an entirely different sound. * * * * *

Friona will surely seem like a different town without the City Drug being on the corner of Sixth and Main. For a number of years directions to almost every place in town have been given with "Go to the drug store." It has also served as a gathering place for persons of all ages and will be missed by so many. * * * * *

Miss Ila Lewis Speaks At Woman's Club Meet

The April 11 meeting of the Friona Woman's Club was held at the club house Wednesday evening. The topic of discussion was "Germany." The quotation was "God grants liberty only to those who love it and are always ready to guard and defend it."—Webster.

Music for the program was arranged by Mrs. J. F. Miller. A clarinet trio whose members are Janice Miller, Marie White and Pat Cranfill, presented several numbers. Janice Miller, accompanied at the piano by Eva Miller, presented a clarinet solo.

Hostesses for the evening were Mesdames Joy Moyer, Frank Reed and A. H. Boatman.

THE BIBLE SAYS

that "God is a spirit." (John 4:24). It also teaches in the 139th Psalm that he is infinitely wise; that he is present everywhere at once; that he is able to see all, everywhere, at all times; and that he is unlimited in ability and in authority.

Comparing ourselves with ourselves we profess to be wise but compared with the Eternal God we appear as fools. Our littleness, lack of understanding, and our inability to do seems mountainous.

Since God is what the Bible claims him to be we are constantly both amazed and pleased that he has taken the time and the trouble to perform the mighty works of

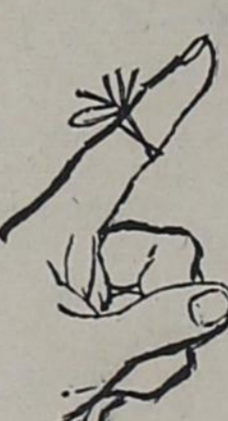

the universe for our benefit. His wisdom, his vision, his power, his mercy and loving-kindness have all been channeled into one grand effort to redeem fallen man. It seems that he has done, and is doing, all it is possible to do for the good of man.

He sent his son, Jesus Christ, into the world that he might bring "life and immortality to light through the gospel" thus making it possible for us to enjoy freedom from the guilt of past sins and have hope of eternal life with him when life here is over.

Truly it is said "his goodness... leadeth us to repentance."
