C. O. GRIFFIN IN RACE FOR OFFICE OF ASS'R-COLL'R

Appointed Year Ago By Commissioners Court As Collector

To the Voters of Lamb County: I have decided to make the race for tax assessor and collector of Lamb county. I am well acquainted with many people of the county, but owing to the fact that my business has required that I remain closely at home since I have resided in the county, and my official duties the last year have kept me tied to the office, I have not had the pleasure of meeting many voters of the county; and for the benefit of those who do not know me personally I desire to state that I am a native Texan, have resided in Lamb county for the past ten years and prior to moving to this county I lived in Lubbock county for seven years. I am therefore no stranger on the plains. I have been engaged principally in the business of farming, except for some time I worked as a rural mail carrier. I established the first mail route out of Littlefield, Texas.

On January 3rd, 1933, I was appointed by the commissioners court as tax collector of Lamb county, and on the 6th day of January, 1933, I took charge of the office, since which date I have been actively engaged in the office of tax collector of our county. I leave it up to the people of the county as to whether I have served you faithfully and well. I do desire to call your attention to the fact, however, that I have made a special effort to accommodate the taxpayers in every way possible where not limited by law. For the accommodation of taxpayers I have visited each town in the county twice during the tax paying session to collect taxes, and also appointed three special deputies to register automobiles and placed them in different localities of

High School Band To Give Open Air Concert Sunday

Next Sunday afternoon, February 25, if the weather permits, the High School Band will render an open-air concert on one of the downtown street corners. The concert will be given at 2:30 p. m.

The band was unable to give regular concert last week on account of bad weather and several of the band boys being sick. However, the boys are planning a combined street parade and concert again next week about Wednesday or Thursday. They have quite a few new pieces prepared and a splendid program is promised on these occasions.

A total of \$79.50 was collected from the subscribers to the band fund for the month of February and was paid to the director.

Just a word to the subscribers from the band:

"You can do us a great big favor if you will pay your subscription promptly and not ask us to come back later. It is a hard job collecting this fund from so many subscribers, and if we have to come back to see you the second time, it just makes the job that much bigger. We are doing our very best to give you your money's worth and certainly appreciate your help but you can make our burden lighter if you will kindly cooperate with us in this matter."

Respectfully,
"GILMER L. EAGAN."

WALKER AND WHITE SHIP 1200 LAMBS

Plan On Shipping Fifteen Hundred Additional Head Today

P. W. Walker and George L. White shipped from Littlefield 1200 lambs last week to northern markets, which, according to Mr. Walker, brought 9c per pound, on the Kansas City market.

They are planning on shipping an additional 1500 head Thursday of this week.

Mr. Walker and Mr. White who are well known stock men here, are feeding out at the present time 5200 lambs at the sheep pens north of the city wells.

American Legion To Sponsor Dance Here At Legion Hall Feb. 22

Plans for the Legion dance are practically complete for Thursday night, February 22. This affair gives promise of being one of the most unique ever held.

Lloyd Springer and his seven piece serenaders will furnish the music for the occasion.

If you enjoy dancing, don't overlook the date, February 22nd, from 9 p. m. until 12 midnight.

C. W. (Jack) SMILEY ANNOUNCES FOR OFFICE OF SHERIFF

Served As Sheriff And Tax Collector Of King Co. For 5 Years

C. W. (Jack) Smiley announces his candidacy for sheriff of Lamb county subject to the action of the Democratic primary July 28th. Mr. Smiley is 46 years old, is farming five miles south of Amherst where he has lived for three years. He is a native of Tennessee, has lived in Texas for 18 years and in Lamb county for three years. Mr. Smiley was elected and served King county, Texas, as sheriff and tax collector from 1923 to 1928 inclusive. Anyone desiring his record there as an officer may get it from any one that was living in King county during the time he was in office there. There is a number of people living in this county now that knew him in King county.

Mr. Smiley's statement follows: "I believe I know from past experience how to handle the duties of this

4-H Calf Show To Be Held At Amherst

The County 4-H Club Fat Calf show has been set for Saturday, February 24, at Amherst, Texas.

There will be a total of 40 calves exhibited by 22 boys, states G. R. Schuman, 4-H club agent.

The 4-H club boys in this county have done an excellent job of feeding this year, and the general public is invited to be at Amherst, and see the result of this year's work, before the calves all go to the district shows which are to be at Amarillo and Fort Worth. These to be held during the month of March.

Red Cross To Elect Officers Thursday

A meeting of the County Chapter of American Red Cross will be held at the city hall, Littlefield, Thursday evening, February 22, at eight o'clock.

As important business will be transacted, including the election of new officers for the chapter, and all Red Cross members are urged to be

LAMB COUNTY LEADER

Official Newspaper of Lamb County, Texas

VOL. 11 LITTLEFIELD, LAMB COUNTY, TEXAS, THURSDAY, FEBRUARY 22, 1934 No. 46

A MUNICIPAL POWER AND LIGHT PLANT

What is Littlefield going to do about our electric power and light rates? Are we going to drift year in and year out without a city-wide effort to learn what could be accomplished for this city by installation of a municipal light and power plant?

Are we going to continue to pay \$1.50 tax rate—the maximum—when other cities, one of them not more than fifty miles away, are enjoying a rate of 40 cents, because of the revenue from a municipal light and power plant?

If we are content to sleep, we will continue to contribute monthly to the cash registers of the gigantic power interests, because what we pay in power and light rates goes to make up the earnings of not only one corporation, but a series of corporations, one pyramiding on the other. It wouldn't be so bad if what we paid monthly went to maintain one institution, but the set-up of the power interests in the United States is made up of one corporation on top of another, all sucking their revenue out of the pockets of the poor cusses, who have to use power and light.

And have you ever stopped to think that the citizens of Littlefield and Lamb county, who purchased stock in the American Commonwealth Power, one of the papas of the Texas Utilities Company, fed enough money down a spout to establish one or two good healthy municipalities?

We happened to be in Brownfield recently, and visited the municipal plant, and were very much impressed with the character of the equipment and the general operation of the plant. The citizens of Brownfield are proud of their municipal power and light plant, and they don't hesitate to tell you that the power interests can come up as far as the city limits and no further.

Mayor Crockett, in offering a list of suggestions for accomplishments in 1934, included a municipal light and power plant.

What's the matter with backing our mayor? He's game. Are you?

LEGIONNAIRES TO REMODEL LEGION HUT

Contractors Asked To Turn In Bids To Chairman, T. Wade Potter

The Richard New Post, No. 301 will hold its regular meeting next Monday night at 7:30 p. m. at the Legion hall.

With the continual increase in membership, and the renewed interest being shown in Legion activities by more of its members the local Legion post is going forward in a splendid way.

Veterans eligible to membership are being given an opportunity to pay their dues for the current year by aiding in the work that will be started within the next few days. The Legion post's improvement committee have had blue prints drawn up on

One Man Arrested, Another In Jail, As Result Of Affray

Star Haile, Littlefield resident, was arrested and placed in the city jail about 10:00 a. m. this morning, and Noel Battershell, driver for the local agency of the Magnolia Petroleum Company was taken to the Simpson Sanitarium as a result of an affray in front of the postoffice today.

Battershell, according to the police sustained cuts in the back, hip and across the abdomen.

Haile was arrested by City Marshal Ab Anderson who took him to the city jail.

The affray is said to have resulted from a disagreement at a dance in Littlefield last night.

Commissioner and Mrs. Ellis Foust and Mr. and Mrs. R. E. Foust were called to Nolan, Texas, Friday night, on account of the death about three o'clock p. m. that day of Mr. Ellis Foust's aunt, Mrs. Henry Hollowell, aged 82.

SCHOOL BUSES TO BE EXEMPT FROM LICENSE

Senator Duggan Notifies Local School Of New Provision

All school buses owned by school districts, used exclusively for the transportation of children to school, are exempt from the automobile license, according to a letter by Senator Arthur P. Duggan, to L. R. Rochelle, superintendent Lamb county schools, which reads as follows:

"You will find enclosed House Journal dated February 8, 1934. At pages 100-103 you will find a copy of H. B. No. 6, which has to do with the licensing of automobiles in Texas. On page 101 you will notice a provision that exempts school busses from paying registration fees. My effort was to exempt from these fees all busses used exclusively for the transportation of children, but the Attorney General advised me that it would make the whole bill unconstitutional to exempt any car owned by

Over 1500 Cotton Contracts Executed By Farmers

Fifteen hundred cotton contracts have been turned in to the county committee for consideration, with a total rented acreage of 53,250 acres which is 36 per cent of the five year average acreage of cotton planted.

It is the opinion of the county agent that Lamb county farmers are going over the top in good shape, on this year's sign up. Based on the above figures, this would mean a total income of 1500 to farmers who are not signed up approximately \$500,000, on contracts that have been approved.

The county agent and county committee will go before the state board of review this week and the evidence from Lamb county in regard to acreage and yield will be presented for their approval.

SEASON TICKETS PLACED ON SALE FIRST OF WEEK

New Arrangements Made For Conducting Tournament

H. C. Osborn, district chairman, announces that plans are almost complete for the District Girls' Basketball Tournament to be held in this city on March 2 and 3. In making this announcement Mr. Osborn stated that extreme interest and enthusiasm prevailed throughout the 16 counties of the district indicate the approach of one of the greatest meets in the history of the girls' basketball in this district.

The fact that many of the outstanding teams of the state have developed in this district this season alone promises that a finer and more attractive type of ball will be seen in this meet. Throughout the season many tournaments have been held in the district, and this competition has created an unusual interest and concentration in girls' basketball. Sixteen of the strongest teams in the district will come as county champions and products of an outstanding season.

A new arrangement for conducting the district meet has been made by the executive committee whereby the strongest teams in the meet will all be carried into the semi-finals. The new plan will not only offer the teams a fairer basis of competition, but will do away with unbalanced games and afford the spectators more interesting games from the very beginning of the spectacle to the end.

Because of the widespread interest on the part of teams, coaches, and fans over the district it is predicted that Littlefield will have a great host of visitors during the occasion. According to reports concerning the teams to be in attendance nearly two hundred players and coaches alone will be present. The local chamber of commerce has recognized the importance of the event, and is offering every assistance to the Littlefield

ELECT OFFICERS FOR GUN CLUB FRIDAY NIGHT

Organization To Erect A Regulation Skating Course

Officers for the Littlefield Gun Club were elected at a party held at the home of Dewitt Reid last Friday night, and routine business matters of the organization were discussed. Mr. Reid was elected president of the club and acted as temporary chairman at the meeting. W. J. Chesher was chosen secretary-treasurer of the club. Both candidates were elected by acclamation. Approximately 20 members and guests were present at the party and an enjoyable evening was reported by all.

After the election of officers, a building and maintenance committee was appointed by the president, as follows: Clinton Lackey, Max Woods and Jim Davenport. The purpose of this body is to investigate the feasibility of erecting a skating course and securing the necessary paraphernalia.

A group of members of the club visited a shooting meet at Lubbock Sunday afternoon and participated in

HUNTING AND FISHING

There has been a great revival of interest in hunting and fishing and outdoor life and sports generally in the past few years. The movement for the protection of wild game, by limiting the hunting season and extending the cover of forest and brake in which they live and breed, has received a great deal of encouragement from President Roosevelt's reforestation program. There seems little doubt that the Civilian Conservation Camp movement will result in developing in many thousands of young men not only a taste for outdoor life, which they will strive hereafter to gratify, but an intimate knowledge of woodcraft and the ways of the furred and feathered denizens of the woods.

It is the dream of those who are most active in promoting the idea that some day all the poor farm land in the nation will again become a cover for game, or at least so much of it as is not turned into lumber-producing forest. Probably that dream will never be fully realized; dreams seldom are. But it is certainly true that a high percentage of so-called agricultural land is fit for nothing but a refuge for wild animals and birds. Not only is it necessarily unprofitable to let the brambles and brush overrun such unproductive land. In many parts of the country farmers are getting a revenue from the sale of shooting permits over their land, and that idea is receiving a great deal of impetus and encouragement.

The American Game Association estimates that approximately 7,000,000 men take out hunting licenses in the various states every year, while more than ten million are interested in fishing. If the New Deal produces the larger leisure for every man which it promises, the number of hunters and fishermen will be greatly increased. That will make the movement for the conservation and protection of wild life even more important.

FASHIONS FOR SPRING

Fashions for women this spring are interesting, as seen in the several shops and department stores in Littlefield. And while there have been advances in prices, largely due to NRA codes being signed, and put into effect, the merchandise may still be purchased at reasonable prices.

Variety and change add spice to life. To womanhood, especially do new fashions appeal. No need to suggest to them that they should go down to the shops and stores that see the new things, except as a reminder that Littlefield's stores continually are adding more and more to the prestige of the town as a shopping center, and as several of the merchants have reported stocking up on spring merchandise, no doubt they now have a lot of the new things you will want to see, even if you visit them often.

Horace Walker was host to the Chamber of Commerce directors Tuesday evening of last week, when an elegant repast was served. A business meeting followed, and reports of committees read and approved. A committee was appointed to solicit rural members on the basis of \$1 membership dues.

Deaths From Heart Failure Increasing

Public Enemy Number One is heart disease, according to Dr. John W. Brown, state health officer. This disease kills over 7200 people each

year in Texas and the worst part of this is that the number is increasing each year.

While it must be admitted that the deaths attributed to heart ailments are increasing, the fact remains that when a person complains of his heart, organic disease infrequently exists. Organic heart disease causes shortness of breath, swelling of hands and feet and a cough. Usually these signs do not convey to the patient's mind even the suggestion that he has heart disease.

So-called functional heart disease is usually traced to these sources, namely, nervousness, infections from another part of the body such as teeth or tonsils, to a disturbed function of the thyroid gland, to influenza and so on; and to the effects of the excessive use of tobacco, coffee or tea.

In cases where there is a disturbed heart action due to focal infection the source of which is located, the infective cause when possible is removed, as in the case of diseased tonsils and teeth. The heart, possessing remarkable recuperative ability, once the poisoning agent is definitely eliminated, in time becomes normal once again.

Home Demonstration Notes

By Miss Westbrook, H. D. A.

Grape cuttings put out last winter by Mr. George Bohner of Olton, not only rooted but put out spurs that grew from five to eight feet in length. Good mellow soil and plenty of water is necessary to produce such a growth.

In improving her clothes, Mrs. H. K. Irwin, first year wardrobe demonstrator of the Sod House Club is moving her kitchen wall and is improving her kitchen by repapering and refinishing her furniture. Mrs. Irwin is not providing closet space for herself but for her husband as well.

"My living room has so many doors on one side that it is very difficult to arrange the furniture," says Mrs. Harry Phelps of the Amherst Club, who is improving her living room. After a study of the newspaper for the room and the natural light, Mrs. Phelps decided on a medium dark coffee shade for the woodwork, which would not make the room too dark and still would be dark enough for the four doors on one side to balance the furniture on the other side of the room.

After adding a new room to her house, Mrs. Charis Webb of the Sod House Club, discovered that she had enough sheet rock to build in a clothes closet. Mrs. Webb has planned her closet to accommodate her family and is doing the work herself.

Seven Million Acres Retired From Crops

Texas will have about seven million acres retired from cotton, wheat, and corn production on its hands this year. That is roughly one-fifth the total cultivated acres in the state. For what shall this land be used? Wisely and legitimately used these acres may mean much to the farmer's welfare this year. Indifferently or illegally cropped these fields may bring losses. If handled with an eye to the future it is possible that the re-adjustment in farming brought about by the problem of these retired acres may lead to better balanced long-time farm systems.

That is about the way in which the Extension Service of Texas A. and M. College views the retired acre question. The first point to get in mind, extension workers point out, is that

land is rented in these contracts for the purpose of getting out of competitive production. A mere shift to other crops or other livestock production is against the interests of farmers as a whole and is just as illegal as it is possible for contract-writing lawyers to make it.

On the other hand there are perfectly sound and legitimate uses to which this land may be put. The chief of these in case of cotton and wheat land, but not of corn land, is to use the land for making the home living and feeding the farm work stock. This can be done under two conditions, either that the farmer has not produced his own food and feed, or that he has produced only part of it and needs more land to complete the job. He cannot, if already producing food and feed enough, merely shift that production to retired acres and use the land thus released for competitive production.

The production of feedstuffs on retired acres, especially pastures, is certainly encouraged in the national program, provided this feed is not sold nor used directly or indirectly as the basis of increased livestock production. The spirit back of the contracts is to prevent the creation of additional surpluses.

If rented acres are taken this year to establish living at home firmly on every contracting farm, the foundation of a good permanent Texas farm system will be greatly strengthened. If in addition many of these acres are made into good permanent pasture lands and otherwise used as a feedstuff balance to cotton and other cash crops, Texas farms will be shifting to a sounder base. While all this is going on there is many an acre that can be terraced and cover-cropped to fit it to compete again when international trade permits.

DEBT MORATORIUM SUGGESTED

A debt moratorium for property owners who are about to lose their equity in holdings through forced mortgage foreclosure sales, was proposed in bills passed by both houses of the Texas legislature Friday.

The house bill would have the relief stipulated terminate on May 15, 1935, while the senate fixed the expiration date at January 1, 1935.

Other main differences were the senate provided that the creditors receive rentals from the property during the life of the moratorium or pending liquidation of the debt, while the house rejected that feature and the senate stipulated that debtors more than two years in arrears in their tax payments be denied benefits of the proposed law, but the house would not favor that restriction.

Both houses refused to restrict benefits of the moratorium to residence and business homesteads.

The bills would empower a district judge to suspend foreclosure sales, or continue suits for a judgment, on showing by the debtor forced execution would not be equitable and that the borrower has reasonable expectations of meeting outstanding obligations if given time.

The house adopted its bill 104 to 21 and the senate passed its proposal 21 to 9.

EXCISE TAX ON OIL

An excise tax of five cents per pound on all coconut and sesame oil, estimated to bring in between \$10,000,000 and \$50,000,000 annually in new revenue, and designed to aid the hog, dairy and cottonseed industries, was approved Friday last by the house ways and means committee, as another item in the projected \$200,000,000 new revenue bill.

Lost 20 Lbs. of Fat In Just 4 Weeks

Mrs. Mae West of St. Louis, Mo. writes: "I'm only 28 years old and weighed 170 lbs. until taking one box of your Kruschen Salts just 4 weeks ago. I now weigh 150 lbs. I also have more energy and furthermore I've never had a hungry moment."

Fat folks should take one half teaspoonful of Kruschen Salts in a glass of hot water every morning before breakfast—an 85 cent bottle lasts 4 weeks—you can get Kruschen at any drug store in America. If not joyfully satisfied after the first bottle—money back.

CHEVROLET ANNOUNCES a revolutionary new line of low-priced trucks

Bigger, huskier models feature an entirely new engine, giving increased power on less fuel than ever!

THE 1934 line of Chevrolet trucks—truck-built for truck service all the way through—feature the Blue-Flame engine—a great new development that will be welcomed by every truck buyer in America. Here are the remarkable facts: The new Chevrolet trucks are even bigger than last year's

models—bigger in bodies, with stronger, heavier frames, huskier transmissions and rear axles, and larger brakes. They will deliver more power. They will haul bigger loads than ever. Yet, thanks to the new Blue-Flame engine, operating costs are actually lower than before—and that means the lowest

in the hauling field. The net result of all these improvements is a line of trucks like no others on the market—the first to offer such a combination of big capacity, great power and unequalled economy. CHEVROLET MOTOR CO., DETROIT, MICHIGAN

As the district tournament approaches the L. H. S. Kitties look back over a season filled to capacity. The success of the year may be judged by the few losses sustained and the outstanding victories won. Due to the fact that school was dismissed for a time last fall the Kitties had a rather late beginning, but they feel that the weatherman has been extremely kind in allowing them to fill all their appointments as scheduled.

The Kitties have played some 25 or 30 games. Their opponents have included Dimmitt, Sudan, Spade, Anton, Shallowater, Whitharral, Pettit, Meadow, Claune, Ackerly, Happy, Muleshoe, and Plainview.

They have contested in tournaments where numerous other teams have played that they did not meet in a game, since elimination practice makes it impossible for each team to play every other entry in the tournament.

Out of the six invitation tournaments attended by the Kitties four trophies were brought back to present to their school. From Dimmitt they brought a beautiful walnut shield as reward for first place. Meadow presented to them a silver figure as consolation prize. Spade gave a mounted statue as first place trophy, and Littlefield gave a silver basketball for winning the home contest.

It has been a source of joy to every member of the Girls' Athletic Club to be allowed to represent her school and community in the various places that she has played for them. Each player has realized the significance of such a privilege and has tried to conduct herself in such a way as to meet her responsibility.

Lamb County Leader

The Littlefield High School Kittens continued their steady march toward the Lamb county championship in girls basketball by defeating the Sudan team for the second time by a score of 22 to 27. The game Tuesday, February 20, was played in the Sudan gym and was a very close game. At the close of the regular period the two teams were tied with a score of 21-21. By playing an extra period of four minutes the Kittens were able to gain a good lead and win the game by five points.

In the race for the county championship the Kittens have played four games, two with Spade and two with Sudan, winning all by fair margins. The remaining teams of the county, seemingly, are uninterested in the matter. Fieldton is a possible contender but as yet has not made her claims known. Unless the coaches hear from other teams soon they will consider that they have won the championship and are duly qualified to represent the county in the coming district tournament which is to be held in this city March 2 and 3.

The coaches, entire team, school officials and student body wish to take this opportunity to express our appreciation to the business men for their expression of faith and confidence.

The coming district tournament will be a big event for the town and community. In opening your homes to the visitors you will make it possible for the tournament to be a district success. Your presence at as many of the games as possible will be appreciated. Season tickets are available for 60 cents per person for adults and 40 cents for school children.

IT IS EASY TO OWN YOUR OWN FARM— Yellow House Land Company

As she and David and Alfredo were leaving the next morning for the day's riding, they chanced to go into the pasture by way of the spring troughs.

Old Charley sat upon his horse, leaning slightly forward, his belligerent eyes on a thin thread of smoke which came from a clump of oak and mesquite, half a mile beyond the eastern boundary of his ranch.

gle window was open, but the old man could see nothing within. From the crazy chimney of stove pipe on the roof came a thin column of smoke.

"Hello, neighbor!" called Old Charley. A frying pan dropped to the floor with a clatter, but no other response came from the house.

He banged on the door. "Say, in there, I've got a message for you—from a friend."

"I ain't got no friend sendin' me no messages!" The voice behind the door rasped roughly. "What d'yuh want, stranger?"

"Old Charley almost abandoned the moonshiner hypothesis—moonshiners are more inquisitive about messages from friends. However, he tried again.

"The old man frowned. 'My name's Thare—I own the ranch, here, and I thought I'd see who's living in this shack.'"

"Like hell you own this land! I'm ownin' it myself, come another five months! I done paid my visit to the land office, Mister, and I don't feel like openin' no door. Don't like to talk noways—fat people don't agree with me."

"What! Why, you low—" "Yeah," interrupted the voice, "and, besides, I'm gettin' my supper so why don't you be a nice little fat man an' get th' hell off my property—huh?"

Old Charley's face was the color of a well-dons ham. He hit the door with a tremendous blow of his fist. "Open this!"

(CONTINUED NEXT WEEK) ROCKY FORD Mr. Editor, the elements kicked up quite a rumpus Saturday and Sunday and reminded us in no uncertain tones that we are still in West Texas in spite of the testimony of some that certain earthquakes have slid us some hundreds of miles east in spite of the sandstorms we have a good country. Some conditions are worse.

Mr. W. H. Reddell and wife left for Bakersville, Calif., last Wednesday. Mr. Otto Nixon and family are now living on the Reddell farm.

Mrs. L. L. Dunn gave a nice birthday dinner Sunday to several of the younger set in honor of her son, Joe. This evening the occasion were Mr. and Mrs. Truman Cotton, J. D. Nixon, Isabelle Dunlap, Oleta Smith, Joseph Dunn and the family.

Mr. and Mrs. Jay Parks are the proud parents of a fine 8 1-2 pound boy. Mr. and Mrs. Astell Slayton have moved to the Zed Robinson farm near Littlefield.

The little child of Mr. and Mrs. John Reed is ill with pneumonia. L. L. Dunn and wife with Frank Miller made a flying trip to Ford county last week.

Claude Rogers and family and Cleo Rogers and family visited with the Booth family Saturday night. Mrs. D. J. Dunlap is at Merkel under treatment of a physician. Mr. Dunlap has done quite a lot of improving on his farm. —Optimist.

office and in response to the solicitations of so great a number of people in this county to enter this race at this time I am offering myself as a candidate. "I believe in the enforcement of our laws as the statute directs. If the law should not suit us I think we should work to have it repealed and not violate it as long as it is on our statutes. I belong to the Baptist church and am superintendent of the Unit Sunday School at Sunnydale at this time. I believe in equal rights to all and special privileges to none. "If after your investigation, I measure up to your requirements for this office I will appreciate your support very much. Due to my financial condition at this time I may not be able to make a house to house canvass of the county but will try to meet as nearly all of the voters of the county before election as I possibly can. "If elected I promise to carry out the duties of the sheriff's office to the very best of my ability and to extend to one and all the most courteous service I can render.

pany the highway committee of the Littlefield Chamber of Commerce to Austin. It was announced that the South Plains Cotton Acreage Reduction Committee, recently appointed at a meeting at Lubbock, had aided in the adoption of the five-year average instead of the ten-year average in the cotton reduction program. Allowable production is now based on a five-year average instead of ten-year average which was at first contemplated. This will mean approximately \$2,000,000 more to this county. The South Plains committee, representing 27 counties, is now taking up the Bankhead bill which limits new land to only five per cent cotton. This will work a hardship to landowners south of Littlefield, inasmuch that most of the land has only recently been improved. This land is very efficient for the production of cotton. This committee will meet within the next few days and take up plans for making other arrangements for the cotton production on this land. It was stressed that the committee did not intend, in any way, to interfere with the national cotton reduction campaign but hoped to readjust the appointments in this state so that less efficient cotton land will be affected and not land that is especially adapted

to the production of cotton. Mr. Baton, newly appointed manager of the Texas Utilities Company, was introduced as a guest.

the matches. A regulation skeeting course is maintained by the Lubbock club, and plans are being launched by the Littlefield club to erect a similar course. The local club will start work immediately upon erecting a regulation skeeting course that will affiliate them with the National Association of "Skeet" Clubs. The local club boasts some expert marksmen and hope to enter some strong contenders in invitation meets of nearby organizations. Marksmen of note are: A. B. Sanders, F. O. Boles, Hays Edwards, Jack Brannen, Roy Blessing. These members have been shooting above par at the regular semi-monthly meetings of the club.

the county for the accommodation of the automobile owners. I do not think I have done anything, however, to accommodate the people other than has been my duty in office, and everything I have done to serve the people of the county has been a pleasure to me and I hope of some benefit to the tax payers. I have made my weekly and monthly reports to the state and county promptly and accurately and have remitted all monies due to the state and county on time and in full, and an investigation of the records of the county will reveal these statements to be true.

As is generally known, the state legislature recently combined the offices of tax assessor and collector, the merger to take place at the beginning of the next year. At the end of this year I will have served one term as tax collector. If I am elected tax assessor and collector for one more term at the end of the next term I promise to step down and out and not make the race for re-election for the reason I will have then served two terms, one term as tax collector and one term as assessor and collector. I believe my experience as tax collector at the time I will have served at the end of this year fits me well for the duties of the combined office.

I shall make a special effort to see each and every voter before the primary election. I earnestly solicit your vote and influence, and promise that if I am elected I will serve you

faithfully and to the best of my ability and try to make you a better assessor and collector than I have been a collector.

Assuring you that I shall appreciate your support, I am, Sincerely yours, C. O. (Clint) GRIFFIN.

"My object in having this amended this way was to save school districts as much as possible. All cars owned by the state and governments, etc., are exempt and could see no good reason why school busses should not be placed in same class.
