STORM REPORT As Reported by . Stormie Meriwether, First Grade Student

Dear Friends, This is it! The real "Nutcracker" is Saturday, Sunday and Monday!

One day at school I did not feel very well. My ear was a pain! Nurse Britt checked it very carefully. It was too red. Ears not s'pose to be red. She called my mom and I had to go to the doctor. The doctor said, "medicine or shot?" I did not want a shot! I had to think a long time"bout that. Medicine tastes kinda good, but I might not get well for"The Nutcracker". The shot hurts very badly, but I can get well fast for my program. I have to do the shot! The show must go on!

It hurt so bad I didn't even want ice cream! My dad had to carry me to the car 'cause my leg hurt so bad.

The next day I had to do it

again. That time I didn't cry too much. It hurt, but I ate the ice cream anyway.

The next day was my Birthday! My Big Family went to Mazzio's for pizza. Then we all went to my city house. I had fun with Seth and Jaeden and all the family. I got lots of fun presents! Then my mom said,""Sit down and let Baba help open the next one." I didn't know what was it. I very carefully opened the box and you can't believe it! It's a ballerina girl and boy in a snow globe! It's just like in "The Nutcracker"! Oh, it is so beautiful! I very want to be that ballerina someday. The boy dancer will pick me up and spin me around and the snow will be so pretty!

Mom said the snow globe is from her friend, Miss Paula. That is so sweet of that lady. I very want to give her a hug, but I can't hug her with my bad ear. Someday I will hug her and tell her Thank You for my beautiful ballerina globe! That's it

Looking back on hunting trips...one thing that they all had in common was our amazing lack of pre-planning and organization. It was as if we never expected to get thirsty or hungry. Without fail, within two hours of settin' out to hunt or fish, we'd wind up drinking out of the creek, because of not thinking to bring water from home.

There seemed to be this unspoken rule; You don't bring food on a hunting or fishing trip; that would be admitting you didn't expect to get anything. Another thing these trips had in common...we'd usually start getting hungry before we even got out of sight of the house. That pretty much describes one of the hunting trips that Dale Wofford and I took.

Christmas Tree Fires (For many people, Christmas trees "make" the holiday. Unfortunately they also pose a great fire hazard. Each year more than 400 homes catch on fire somehow because of Christmas trees. Tagically, nearly 40 deaths and at least 100 injuries result from those fires annually.

There are steps you can take to help prevent a Christmas tree fire. First, you should always choose a fresh tree. Select one that has green needles that are difficult to pluck from the branches. Another sign that you have a live, healthy tree is a bit of sticky sap on the trunk. Keep your tree healthy and alive by watering it regularly. As a tree dies, its needles will turn tan and become much more flammable. When the tree begins to lose a lot of needles, it is time to get rid of it.

If you use an artificial tree, make sure that it is labeled as fire resistant. If the artificial tree comes with lights already attached, make sure that it has the Underwriters Laboratory (UL) label, which means that it has been tested for safety.

If you plan to light your tree yourself, look for the UL label on the package. Check light strands for broken or cracked sockets, frayed or bare wires, or loose connections. If the light strand is damaged, do not use it - it's not worth the risk. Be sure to you use indoor lights, not outdoor lights, to decorate your tree. And never use lighted candles on or near your tree.

Electrical fires are common during Christmas time. Avoid the tragedy by adhering to common sense rules. Don't place the tree near electrical appliances or loose wires. Don't overload exten sion cords with lights. Each extension cord should support no more than 3 strands of lights. Lastly be sure to turn off all lights on trees and decorations when you go to bed or leave the house.

Tipping Trees (After fires, the only real tree-related hazard is a tree that falls over. To avoid this, place your tree in a low-traffic area so that people do not push into it. Use a tree stand that is the proper size to support a tree the size of yours. Secure it well into the base before beginning to decorate. While decorating, always use a step stool or ladder to reach high places. Many people have knocked their trees over while trying to place the star at the top. An incident like that can certainly ruin the magic of the moment!

third in the limited. Seymour year there were thirty-three wish them luck in 2011 Ranch Rodeo Dan placed third in horses shown in the junior division the open and Darby was sixth in (horses five years and younger).
