HUMAN RIGHTS BY LAW

The Commission on Human Rights of the United Nations is about to compile its "Declaration of Human Rights," which sets forth, but does not guarantee, those liberties and basic freedoms that all persons "should be given."

In other words, the declaration repre-

sents something of an essay on the rights of human beings and on the presumed obligation of government to give these rights to the people of the various countries.

The Commission was also busily engaged, for a while, on a "Covenant of Human Rights," which would have been "legally binding" upon the governments represented. The governments would be called on to enforce the "rights" if they signed and ratified the Commission's report.

We have called attention, upon several occasions, that it is foolish to expect to extend human rights by resolution or by law. Take for example, the people of India, where they are unaccustomed to the democratic processes. One wonders how a commission, sitting in various world capitals, can make an intelligent government extend certain civil rights to the ranks of uneducated, untrained Hindus.

The same illustration explains why it is impossible to extend human rights by writing sentences upon pieces of paper. These human rights will come to human beings in time but they cannot be exercised, much less enjoyed, until the people affected are able to intelligently appropriate them.

It is easy enough, as in the case of the Communists of Soviet Russia, to talk about "democracy," but it is certainly apparent that the meaning of the term, as used in the Soviet, is not what we understand by the same word in this country. The background, of course, is the fact that most of the people of Russia are utterly unfitted to exercise the privileges of a democratic government.

The same observation applies to the exercise of free speech and freedom of religious worship in countries, populated by peoples where such rights have not been enjoyed and where the people, by training, education and disposition, are not ready for them.

TEN-MEN VERDICTS

The State of New Jersey, by action of its legislature and the approval of Governor Alfred E. Driscoll, has decided that it is not necessary to require the unanimous verdict of "twelve good men and true" in civil cases.

Hereafter, verdicts will be accepted when ten of the twelve jurors agree. This will prevent many costly retrials that result from "hung" juries.

The New Jersey precedent is worthy of notice because in time most of the states will follow the example. There will be a considerable delay before ten jurors will be authorized to convict in serious criminal cases but there is no reason to be afraid of such verdicts in connection with civil cases.

BACK TO SCHOOL

Here's a sample of what style-wise coeds will be wearing when they head back to school. A lovely scholar models a cotton frock for campus wear, designed by Saba of California in plaid cotton by American. The short sleeves, big bow tie at the neck, and set-in-belt area are a nod from the girls.

SNOOTY TALK

A woman returned a smart pair of shoes to the exclusive shop where she had purchased them. "They won't do," she announced. "I simply can't walk in them." "Madam," the clerk replied, looking down his nose, "people who have to walk don't shop here."

A MATTER OF PRIDE

One night Joe came home with lipstick on his collar. "Where did you get that?" demanded the little woman; "from my maid?" "No," Joe replied. "From my governess?" she snapped. "No," repeated Joe, adding indignantly; "Don't you think I have my own friends?"

The distance between some people's ears is one block.

Through the years since 1924

A collection of your electric service bills from Southwestern Public Service Company since this company was started in 1924 would tell an interesting story.

For example, you'd see that today your electric service costs just about one-half what it did a few years ago.

Your electric service statements would tell a story of increasingly better living. You'd probably remember when you purchased your first radio, your electric refrigerator, started depending on electric service to make household tasks easier, and remember too how much more low cost electricity you're using today for better living—everyday.

Our 24-year story is a story of growth on our part, but more than that, it is a story of ever increasing benefits, in the way of better living, to all the folks we serve in the Panhandle Plains, Pecos Valley area.

Health and Beauty

By DR. SOPHIA BRUNSON
The Blood in Diagnosing Disease

You go to your doctor and tell him that you "feel all washed out." You are tired all the time. You wonder if you have malaria or some other dreaded malady. You do not want to get up in the mornings, and when you do, you just "give out" in a little while. You expect the doctor to feel your pulse, ask you some questions, and then maybe give you a prescription. Instead he sends you to the hospital for a "check-up." Now you know you are in for it and you are.

They start with your blood and go on from there until the body has given up so many of its secrets that the doctor either has a clear mental picture of what ails you or else he says that other examinations must be made.

A good many specimens of your blood went to the laboratory. Your blood contains red and white cells. The former carry the life giving oxygen to all parts of the system. The white cells are the soldiers of the body and fight infections. The red color of blood is called hemoglobin. This enables the red cells to unite with and carry the oxygen

of the air without which we could not live.

In order to determine the percentage of hemoglobin in the blood we get a little and match it with a color scale. If your color per cent is normal you are not suffering from anemia.

Under the microscope the blood cells appear as tiny round disks. Properly diluted and thinly spread out on a specially prepared glass slide they can be counted. The ratio of red cells to white is 700 to one. The blood itself contains trillions of microscopic cells. The white cells either swallow bacteria or they produce a substance that destroys them.

The Jones boy is yelling with a pain in his stomach. The doctor rushes him to the hospital and has his blood count made. His white cells are multiplying very rapidly. The illness is inflammatory. It seems to be appendicitis from all clinical indications. The white cells continue to increase very rapidly. The soldiers of the body continue bringing up reinforcements and then fighting like mad to lick the infection. The surgeon operates and the boy makes an uneventful recovery.

I Give You Texas

By Boyce House

The recent finding of oil again at the "ghost town" of Leeray (on the Eastland-Stephens county line) after the spot had been deserted 20 years ago as "played out" reminds me of the time that I started an oil boom at Leeray—probably the shortest oil boom on record.

Leeray sprang up about 1919 in a wilderness of wolves and mesquite when oil was struck. The C. & N.E. railroad, building from Cisco to Breckenridge, built through the town, which grew to a population of perhaps 6,000. Then dry holes were hit and the people moved on.

The buildings were torn down; piles of rubbish and streets, rapidly being reclaimed by grass and brush, were the only reminders of the one-time boom town.

It was late in 1923 that a friend of mine and I visited the scene. I had in mind writing an article on the "phantom city." My companion had a box camera, which he set up on a tripod, and took pictures. A small brick vault stood all by itself—thousands of dollars had been stored there. The bank building had been torn down but the little vault was considered not worth the trouble of salvaging.

The sun was shining that Saturday but it was a deceptive sunshine, as though it mocked the hopes of which Leeray was the graveyard. The temperature was cold and a strong wind added a penetrating keenness that was almost numbing. Someone saw the two visitors and assumed that the camera on a tri-

pod was a scientific device of some kind. So the report spread that Leeray was being studied for further oil development. On Monday morning, when the oil company offices in Eastland opened, landowners of the Leeray area were waiting, ready to lease their land. When the official of one company said that he was uninterested, the landowners went on to another until all the offices had been visited, then they sadly returned home. The oil company officials scratched their heads as they puzzled about the sudden "invasion" of landowners from around Leeray.

And that's how I started an oil boom which lasted from Saturday through Monday.

But like the character in the co-

mic strip who was "born 30 years too soon," I was just ahead of developments by something like 20 years. Leeray is now the scene of a revival of oil activity.

That cold, wind-swept day, I had been walking around on soil under which lay a treasure of deeper oil. Recently, six wells have been drilled in the vicinity—two of them in the townsite itself. In fact, one of these deeper producers is only 200 feet from where that old bank vault stood.

Well, anyhow I have a picture of the vault.

That board with the rusty nail in it should be thrown on the trash pile today. It may save pain and a doctor's bill tomorrow.

Local Boy Marries Borger Girl Recently

Miss Barbara Jean Dawson, daughter of Mr. and Mrs. F. A. Dawson, 419 Mc Gee St., Borger, became the bride of Neal S. Herd, son of Mr. and Mrs. E. V. Herd of Mobeetie, in a double ring ceremony at 8:30 p. m. Friday, July 30, in the Calvary Baptist Church. Rev. Jeff M. Moore officiated.

Wedding vows were exchanged before a bridal arch decorated with white gladioli. Large baskets of the same flowers and lighted candles were placed on either side of the arch. Mrs. A. S. Megert provided the pre-nuptial music and accompanied Jimmy Baldwin who sang, "Always," and "I Love You Truly".

Given in marriage by her father, the bride wore a dress of white waffle pique with pink and white accessories. Her only jewelry was a double strand of pearls. She carried atop a white Bible a bouquet of shaded carnations.

Miss Wilma Casida was bridesmaid. She wore a white linen dress accented with gold accessories and a shoulder corsage of pink carnations. Nella Rose Dawson, candle lighter, was attired in a pink frock with white accessories.

Jerry Dawson attended the groom as bestman.

After a wedding trip to Red River, New Mexico, Mr. and Mrs. Herd will make their home at 419 Mc Gee.

The bride was graduated from Borger high school and Mr. Herd attended Mobeetie high school and served 21 months in the U. S. Navy.

Out-of-town guests attending the wedding were Mrs. E. V. Herd, Mobeetie; Mr. and Mrs. Ted Spones, Pampa; and Mr. and Mrs. Elden Carter of LeFors.

A. C. Johnson Home Is Scene Of Reunion Sun.

A reunion for the Johnson family was held Sunday, August 15, at the A. C. Johnson home in Kelton.

A delectable dinner was served to the group at the noon hour. Centering the table was an arrangement of gladioli.

The immediate family present was: Mrs. R. O. Johnson; Mr. and Mrs. L. H. Tucker, Beverly and L. H.; Mr. and Mrs. J. D. Rutherford; Mr. and Mrs. Geo. Davidson, Georgiana and Steve; Mr. and Mrs. A. C. Johnson and Rena, Mr. and Mrs. Sonny Johnson and Gary, Pampa, Mr. and Mrs. W. H. Murchinson of Sundown; Mr. and Mrs. Lige Cospier and Robert; Mr. and Mrs. Donald Richards and Georgia of Hardesty, Okla.; Mr. and Mrs. Joy Robertson, Mr. and Mrs. Melvin Robertson, Detroit, Mich.; Mr. and Mrs. Walter Johnson, Wayne, Bob and Elizabeth, Mrs. Mary Johnson and Lloyd; Mr. and Mrs. Jim Johnson and

Larry; Mr. and Mrs. Claude Rust, all of Springdale, Ark.; Mr. and Mrs. John Johnson, Madge, Ellen and Jean of Muleshoe; Mr. and Mrs. Bill Johnson and Mrs. Truett Johnson and Larry of Hereford; Mr. and Mrs. David Johnson of Dallas; Mr. and Mrs. C. A. Whitener, Mr. and Mrs. Lester Robertson and Jimmy; Mr. and Mrs. Buddy Tappool and Terry; Mr. and Mrs. Herbert Whitener, Katherine, Marilyn and Patricia; Mr. and Mrs. Loran Rhine, Barbara Ann, Loran E. Roy and Virginia of Ft. Worth; Mr. and Mrs. David Hamilton and Patty, nephew of the late R. O. Johnson of Mc Ado and Mr. and Mrs. Herman Whitener, Billy Jack, Gloria Donna and Shirley of Levelland.

A large number of friends were present for dinner and a number called during the afternoon.

All but four grandchildren and four great-grandchildren were present.

Traylor Family Holds Reunion At Lugart Dam

The Traylor family held their annual reunion at Lugart Dam, Okla. Saturday and Sunday, August 21 and 22.

The two day affair was enjoyed by all present and each day was highlighted by some real music by the Dodson bunch.

Those present were: Mr. and Mrs. Otho Talley and family; A. D. Weiser, Leon J. Miller, James Underwood, all of Dodson; Mr. and Mrs. Doyle Sain and Alona, Ed Thompson, A. A. Thompson of Hollis, Okla.; Mr. and Mrs. Joe Hall, Mr. and Mrs. E. E. Chumley, Vernon; D. S. Traylor, J. D. Traylor, James Cummings and Gary Don Cummings of Panhandle; John and Charlie Traylor of Allison; H. G. Traylor and family, Mr. and Mrs. Alfred Turner of Mangum, Okla.; Mr. and Mrs. O. E. Roper and family of Sayre, Okla. and Mr. and Mrs. F. A. Traylor, Billie and Betty, Doris Magruder and Patricia Hubbard of Wheeler.

Mrs. V. L. Barkdoll Honored At Dinner

Mrs. Victor L. Barkdoll, the former Miss Maude Loyd of Abilene, Kans. was guest of honor at a dinner at "Lena's" in Abilene Wednesday evening of last week. Mrs. Barkdoll was presented a lovely gift from her friends.

Those present were: Mesdames Charles Powell, Harry Armstrong, Jack Grubb, Doris Hood, John Allen, Orrin Condit, Doster Chase and Misses Irene Martin and Miss Bernice Masten.

Mr. Barkdoll is a former resident of Wheeler, having left to make his home in Kansas only a few months ago.

Homemade Sandwich Buns

Just plain good food is the keynote of a quick menu of well-done hamburgers on enriched sandwich buns, served with plenty of garden fresh salad.

A serve-yourself meal which features hamburgers and relishes is certain to draw many comments of "what fun this is!" Sandwich buns from the bakery or made at home give the burgers that wonderful special flavor. When made at home, the buns are easily shaped from a plain yeast dough by rolling into small balls and flattening to the desired shape.
With the picnic season in full swing, it is a good idea to bake enough buns at one time to take care of sandwich needs for several days. Careful storage preserves their fresh quality. Incidentally, the buns taste wonderful when toasted over an open fire.
On other occasions you may wish to let the nearby friendly baker save you time and energy. The enriched sandwich buns he supplies also provide the important B-vitamins and iron of these home-made buns.

Sandwich Buns

2 packages yeast, compressed or dry
1/2 cup lukewarm water
1 cup milk
1/2 cup sugar
2 teaspoons salt
1/4 cup shortening
2 eggs
4 1/2 cups sifted enriched flour (about)

Soften yeast in lukewarm water. Scald milk. Add sugar, salt and shortening. Cool to lukewarm. Add eggs. Beat until blended. Add softened yeast. Mix well. Add remaining flour to make a soft dough. Turn out on lightly floured board and knead until smooth and satiny. Place in lightly greased bowl. Grease surface. Cover. Let rise until doubled (about one and one-half hours). Punch down. Shape into number of buns desired by rolling into small balls and flattening to form sandwich buns. Place on greased baking sheets. Let rise until doubled (about one hour.) Form remaining dough into smooth ball. Grease surface lightly. Cover and put into refrigerator. When wanted, remove dough from refrigerator and punch down. Mold at once, or if preferred, let dough stand in warm room for an hour before molding. Let rise until doubled. Bake in moderate oven (375 degrees F.) about 18 minutes.
Yield: two dozen four and one-half inch buns.

DEEPER DRILLING MEANS More Gas FOR YOU

More than half of all the proven natural gas reserves of the nation are right here in Texas. Geologists tell us there are still more deposits of gas at deeper levels—a fact that is being borne out by test drilling in many sections of the Gulf South.

Union Producing Company, a part of the United Gas family, has drilled many deep wells—some productive, some dry. One in South Texas was drilled to a depth of 13,728 feet—a distance equal to the height of eleven Empire State buildings stacked one on top of the other!

Each year, a substantial part of our budget is ear-marked for exploratory drilling and drilling in proven fields. This is one of many functions of the United Gas organization... all of which have the ultimate purpose of assuring a continued dependable supply of natural gas for our customers.

UNITED GAS ...
Union Producing Company
Serving the Gulf South

Formations favorable for the presence of oil or gas are determined by geologists and seismograph crews. A location is selected, a derrick erected, drilling machinery rigged up, and the new well is begun or "spudded in."

A string of pipe of large diameter is cemented in the upper part of the hole to protect against cave-ins or contamination of freshwater sands. Heavy fluids, called "mud," are pumped down through the drill pipe. As they flow back up through the hole, they carry cuttings and at the same time guard against blow-outs at all times.

Formation samples, or "cores," are taken from the hole at various depths, and are carefully examined in every detail in field and laboratory. Oil and gas are found only in porous formations, sealed off by impervious strata.

A HELPING HAND

The 98 pound jockey married a woman at least twice his weight. After the ceremony he asked some of the guests to drop over to his flat. The best man looked doubtful.

"Thanks, Sammy," he said, "but after all it's kind of late. Maybe your wife wouldn't approve of company at this hour."

The jockey shrugged. "Oh, I don't expect you chaps to stay long," he explained. "All I want is for you to help me carry the bride across the threshold."

INFORMATION FOR BENEFIT OF VETERANS

Q—Can I, a veteran of World War II, get a guaranteed loan to go into any type business I want?
A—Yes, you are permitted to get a guaranteed loan for any type of legitimate business on which the lender is willing to lend you money, provided your ability and experience as well as the conditions under which you propose to operate your business are such that there is a reasonable likelihood you will be successful. Also, the total cost must not exceed the reasonable value of the business.
Q—Am I going to be trained under Public Law 16 and would like to know if I can borrow money from Veterans Administration in case of need when I enter training?
A—Yes. Loans from a revolving fund, provided by Congress, not exceeding \$100 in any case, may be made to trainees commencing or undertaking vocational rehabilitation.
Q—I am in training under the G-I Bill and am writing a thesis for my Ph.D. Will the Government pay the cost of publishing this thesis?
A—No.
Q—Is it true that if I secure a guaranteed loan, VA will pay part of the loan without cost to me?
A—Veterans Administration would pay to the lender, for credit to your account, an amount equal to four per cent of the guaranteed portion of the loan. For example if the guaranteed portion of your loan should be \$2,000, the lender would receive \$80 from VA to credit to your debt and you would not have to repay this amount.

WONDER WHY?

"Did you ever write anything before?" asked the young man.
"I wrote a confession story once," said the pretty young thing.
"Did the editor send it back?"
"He did better than that. He brought it back himself."

Going away for the holiday?

To make sure yours will be a carefree holiday, let your Conoco Mileage Merchant check and service your car. Above all, be sure he drains out contaminated old oil and refills with fresh, clean Conoco No. 4 Motor Oil.
That's the surest way we know to leave worry behind. Because the moment No. 4 Oil (Patented) enters your engine, an extra, added film of lubricant fastens itself so closely to metal that cylinder walls are actually OIL-PLATED! Because OIL-PLATING stays up... won't all drain down, even overnight, you're extra-protected against destructive "dry" friction, against metal-eating combustion acids, against power-choking sludge and carbon due to wear. For an extra-happy holiday...

1944 almost 600,000 persons died from infectious and parasitic diseases in the U. S. A. Half the deaths were caused by TB; half were divided among over 40 other causes.
In 1945, the latest year for which figures are available, approximately 53,000 persons died from TB. The average daily census in tuberculosis hospitals and sanatoria was estimated at 80,000 persons. About 120,000 persons were admitted to tuberculosis hospitals or sanatoria. Approximately 200,000 persons received treatment in tuberculosis institutions.
Experts estimate that about 500,000 persons have TB at this time.

STATE OFFERS FREE SERVICES

Many people do not know that the State of Texas gives free educational training, furnishes trade tools and supplies, finds jobs, and buys hearing aids or artificial limbs for handicapped civilians to help them prepare for good, steady jobs.

Anyone 16 years or older who has a permanent physical handicap is eligible for services of the State Rehabilitation Division. The State program is not just for veterans; it is for any deserving handicapped citizen.

The State Rehabilitation Division can:

- 1. Pay fees and tuition to college or business, trade, beauty, barber, or technical schools to help a person become a skilled worker.
2. Furnishes hearing aids, artificial limbs, or occupational tools and equipment.
3. Pay for hospitalization and surgery to correct an employment handicap (such as a rupture) if the person can not pay for the operation.
4. Pay board and room during a short vocational course.
5. Arrange and pay for on-the-job or employment training.
6. Help a handicapped person find a permanent job or career.
People with employment handicaps because of any crippling condition, T. B., diabetes, heart trouble, loss of vision in one eye, hard of hearing, speech defects, etc. are usually eligible for help from the State Rehabilitation Division. Anyone interested is invited to write to or visit the Panhandle District Office for additional information.
Address: State Rehabilitation Division, 212 Mays Building, Amarillo, Texas.

Good Economy to Chop Foods

By ALICE DENHOFF
"CHOP-CHOP" may indicate Oriental speed, but it is also the American housewife's way to flavor and economy when she says it to her meat dealer. Chopping turns the less expensive meat cuts into mouth-melting morsels, for it divides the connective tissues in the meat; chopping brings out the hidden flavor, adds variety to menus.

When a hearty supper dish is in order, serve Catsup Supper Roll. Soak 1/4 c. bran in 1/2 c. buttermilk. Sift 1 1/2 c. flour, tsp. baking powder, 1/4 c. shortening until mixture is like coarse corn meal. Add soaked bran; stir until dough follows fork around bowl. Turn onto floured board; knead lightly; roll or pat into rectangle, 1-inch thick. Combine 3 c. cooked ground meat, 1/4 c. catsup and tsp. salt; spread mixture on dough. Roll like jelly roll; bake at 425 F. 25-40 min.
