**DEAR ALEXA:** 

I went out with a guy off and on for over 2 years. Over this time I have fallen very much in love with him and he says he is in love with me. There is only one problem. We haven't been together for over a year and there is no foreseeable future. I keep telling him I love him and he says he loves me too, except he cannot stand to be hurt again. I tell him I won't hurt him and he just says that's what I said before. I did hurt him badly, but I know now what I want out of life-and that's him. I know I played the field much too much over the last year but how can I get forgiveness for this when I can't even forgive myself. Please try to help.

DEAR WISHING IT COULD BE THE SAME:

I don't know your age. I assume you're old enough for marriage. First thing you need to do is, talk with your parents. If this situation is serious. So many marry too young, and this sometimes turns out to be a mistake.

Now we are going to look at the word love. The meaning of the word love-a deep and tender feeling, fondness and devotion. Devotion means being very loving and loyal. Loyal means faithful.

When one meaning is subtracted from the word love, there is always hurt. When faith is subtracted, I feel this is the hardest to gain back. Faith may be what he has lost in

You can give back to him what you subtracted, if you don't, forgive yourself.

Sometimes two people can be in love, and the time is not right for marriage. Don't stop living. Be yourself. Stay sweet and don't let your feelings rule when it comes to him. Have faith and pray your Lord helps you through this time.

I have found that nothing stays the same. I also find with faith, things get better.

If you're not old enough for marriage, this letter is not for you, and you are trying to grow up too fast.

I don't know if I have helped. Whatever happens, I hope it is for your good.

than talking. Really listening Listening is especially important when teens are upset, angry, hurt or sad; teens have problems; you don't understand what they are saying, or you are upset or sad.

> Talking out a problem helps shrink it down to size. When teenagers or adults tell a friend what is troubling them, the troubles seem to grow lighter. So create opportunities to be alone and talk with your teenagers. It gives them a chance to talk and gives you a chance to listen. Wash dishes together or go fishing. How can you know what is on their minds when you never have a chance to talk together?

Use suggestions rather than orders with your teenager. Adults are good at giving orders such as "Do your homework," or "Turn down the stereo". But teenagers

don't like being ordered around anymore than you or I do. Try suggestions such as "It's time to do your homework," or "The stereo is so loud it hurts my ears". It is important to "ask" rather than order. Also, show appreciation when they respond to your suggestions.

Use kind words to build up your teenager and avoid unkind words which put them down. Kind words make teenagers feel good about themselves. They make it possible to discuss problems openly and to come to an understanding. Kind words are things like "thanks for cleaning up the kitchen", "you did a good job", or "that sounds good".

Sometimes adults expect young people to know how good they feel about then even though they never tell them. They are not mindreaders. You still need to put the feelings into words.

Unkind words don't help any situation; they only make it worse. Avoid criticism, ridicule, shame and name-calling. Unkind words such as "You eat like a pig", or "You are acting like a baby", hurt and humiliate.

Good communication helps teenagers develop self-confidence, feelings of self-worth,' and good relationships with others. It makes life with them more pleasant.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socio-economic level, race, color, sex, religion, or national origin.

## **4-H Boosts** Leadership

The best way to learn leadership is to lead.

4-H offers young people many opportunities to lead as well as to study leadership

4-H'ers suggest five steps that can be taken to be a good leader:

1. Study the qualities of recognized good leaders. Quserve their actions and techniques of leadership.

2. Study yourself, picking out your weak and strong points. Capitalize on strengths and minimize weaknesses.

3. Develop yourself as a good follower. You will learn that someone who cannot obey cannot command.

4. Learn as much as you co

about groups in general and what "makes them tick". Make sure you really understand your group.

5. Follow a definite plan of training and improvement in leadership.

Develop skills in communications, management and decision-making.

Be prepared when the leadership opportunity comes

Effective leaders usually have a desire to achieve goals, to serve others and to leave things better than they found

However, leadership is a function, something that is done; it is not just a group

personality traits. 4-H offers leadership training as well as leadership in action. Get in on the action; join 4-H. If you are interested in joining, contact Linda Daughtry, County Extension Agent, Box 505, Wheeler, Texas, 79096 or call 826-5243.

Their boys, Curtis and Gary helped too. And one day at the thickest point. O'Neal Jones came up just to see if I was alright and to find if I needed anything. I

address was delivered while I was at church last Wednesday night, so I had a video tape ecorder set to record it in order that I might watch it after service was dismissed at church. I am glad that I did that. The speech was so inspirational and uplifting that it made you feel good about being an American. I was so moved by it that I decided to turn the machine off and go to bed on that good note. Since it was taped, I could thus watch the Democrat's response later. You see, I am an American that loves God and my country. I am not a epublican or a Democrat. I have more

interest in "what" is right than I have in

trying to figure out "who" is right.

Well, after watching the Democrat's program, I am very thankful that I did not watch it before retiring for the evening. I'd rather go to bed feeling good. I found it interesting that an important part of the program included a meeting of people listening to the Governor of Nebraska, the state that persecutes Christians ore than any other in the Union. The scenes we were shown were of citizens meeting there manifesting their trembling and fear at having to live in Ronald Reagan's America. Their have become. message in a nutshell was that under the Reagan Administration, the world has moved closer to war, and the principal reason is America's military buildup. No one in that room with that governor was bothered, seemingly, by the Soviet buildup that precipitated the actions of the United States. The attitude

Reagan's policies. Are we really supposed to believe this stuff? I certainly don't believe that Jimmy Carter or

President Reagan's State of the Union Mondale or Cranston are to blame for tension and conflicts in the world. I don't believe anybody in America is the reason for aggressive criminal behavior of an empire that would massacre innocent people in a Korean jetliner. Are we really supposed to believe the Democrats telling us that the real enemy of peace in the world is that genial old actor in the White House? The Democrat's program showed video

footage of interviews of supposedly ordinary citizens telling us what a rotten country we have become during the last 3 years under Ronald Reagan's leadership. One left the State of the Union address feeling lifted, but finished the Democrat's program feeling lousy. Would they have been happier if the President had agreed with them that this is a terrible place to live and it looks like there is no hope? Evidently, the Democratic Party believes it can build itself up by tearing America down. I guess they actually believe that we American people will rally with great enthusiasm toward the party who do the best job of telling us what a miserable nation we live in, what and unfair and warlike society we

President Kennedy didn't lead his party to the White House by saying that America had gone down the drain under Eisenhower. He told us that America was a great country, only it needed to be made better. He appealed to hopes and dreams, not anger, resentment, and fear.
