Mrs. Jeff Seitz Home Destroyed

The home of Mrs. Jeff Seitz which is located 2 miles west of the county line was a total loss in a fire which was discovered about 8:30 Monday morning.

The loss was estimated at \$10,000 with three fire departments on the scene to prevent damage to a brand new four bedroom brick home a few yards from the fire. The Pampa Fire department and the Wheeler fire department were able to prevent the blaze from scorching the new home. Due to the danger involved, no effort was made to save any of the furnishings of the home as the house was completely engulfed in flames by the time the fire departments arrived on the scene.

Mrs. Seitz had for some time been staying in McLean with a daughter.

Carillons to Ring At Meth Church

The carillons of the Methodist church of Wheeler will sound on Friday, April 16th at the traditional hours of the last words of Jesus from the cross. The scriptures tell of seven words which Jesus spoke almost 2000 years ago from the cross. The carillons will sound at these times to remind all the residents of this community of his death and passion.

Since Jesus was on the cross for three hours, the carillons will sound at the beginning of his crucifixion and at the hour of his death at 3 p.m. The words will be remembered at the following times: 12:15 Father, forgive them for they know not what they do. 12:45 Today, thou wilt be with me in Paradise. 1:00 Mother, behold thy son. 1:30 My God why has thou forsaken me? 2:00 It is Finished. 2:30 Father into thy hands commit my spirit.

The chimes will not sound on Saturday remaining silent as a sign of mourning during the time that Jesus was in the tomb. On Easter Sunday April 18 the carillons will sound at 6:00 a.m. in addition to the regular Sunday hours of 9 a.m. and 6 p.m.

PROGRESS IN WHEELER OUR TOWN IS CONSTANTLY ON THE MOVE AND IMPROVING

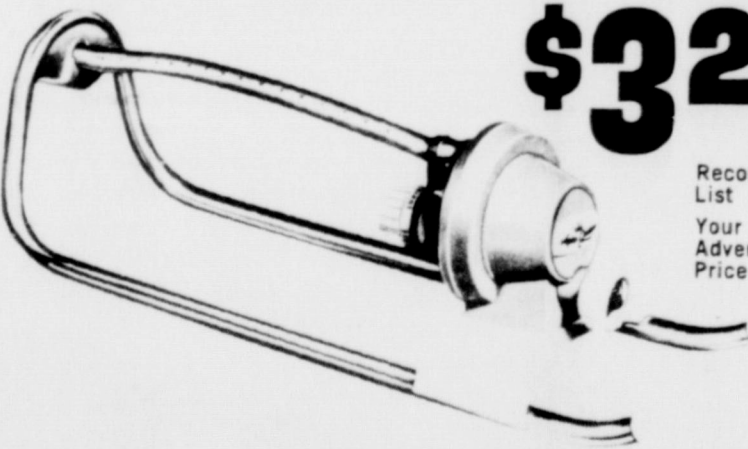

PRACTICING AGAIN: Dr. H E Nicholson Sr. has opened what was formerly the Wheeler Hospital as the Harold E Nicholson Jr. M.D. Memorial Clinic in memory of his son who practiced in Wheeler for 15 years. Dr. Nicholson himself has practiced medicine for 55 years with 50 of those years spent in Wheeler. The Clinic was built in 1936 and operated as a hospital until October 1961 at which time health prevented Dr. Nicholson to continue his practice. The clinic was opened March 20 of this year. In his many years of practice he is proud to know that one of the Astronauts was delivered by him several years ago when the hospital was over the City Drug. This Astronaut is Allen Bean. Dr. Nicholson has redone the interior and spends the entire day at the Clinic. Welcome back into practice, Dr. Nicholson.

STRHOL-HATHAWAY EXCHANGE VOWS

Palm and arrangements of yellow and white mixed flowers enhanced the altar of the First Presbyterian Church, Champaign, Ill., for the Sunday afternoon marriage of Barbara Jean Strohl and A.C. Glen R. Hathaway. Parents of the bride are Mr. and Mrs. Robert Strohl, Champaign, Ill. and the bridegroom is the son of Mrs. Tom Hathaway, Mobeetie and the late Mr. Hathaway. Dr. Oscar Plumb officiated at the double ring ceremony at 2 p.m. Mrs. Mary Bates of Urbana, Ill. was the organist. Given in marriage by her father, the bride appeared in a floor length gown of clipped Chantilly lace. Iridescent sequins adorned the scalloped neckline. A long lace bodice featured the traditional wrist-length tapered sleeves. The full skirt was highlighted with large cabbage roses of the same fabric.

A Swedish crystal crown secured her veil of imported English illusion, and she carried an orchid on a white Bible, a gift from her grandmother.

The bride's sister, Miss Linda Kay Strohl, was maid of honor, and Miss Jill Wetenkamp, Champaign, Ill., a friend of the bride, was bridesmaid.

The two attendants were identically attired in long gowns of jonquil yellow taffeta. The bodices featured short sleeves and bateau necklines. The long skirts were fashioned with Watteau trains. They carried cascade arrangements of white carnations, and matching yellow bows held their short veils. A friend of the bride-

groom, Larry Castenbater, who is stationed at Chanute Air Force Base, Ill., served as best man. Groomsman was Charles Rowe, and guests were seated by Raymond Kline both of Chanute.

Honored guests at the wedding were the bride's grandparents, Mr. and Mrs. Claude Newlin, Robinson, Ill., and Mr. and Mrs. Clarence Strohl, Champaign, Ill.

Immediately following the ceremony, a reception was held in the church parlor. Guests were registered by a cousin of the bride, Miss Betty Madix, Champaign, Ill., and the gift table was attended by Miss Patricia Ann Strohl, sister of the bride, and Miss Marilyn Wertz, Urbana, Ill., cousin of the bride.

Serving the wedding cake and punch were Miss Barbara Hill and Miss Joanne Neupauer, both of Champaign, Ill., assisted by aunts of the bride, Mrs. James Madix,

Champaign, and Mrs. Charles Wertz, Urbana, Ill.

After a wedding trip to Mobeetie, the bridegroom will be leaving the Thailand, where he will be stationed for a year with the Air Force. He is presently stationed at Chanute, Ill.

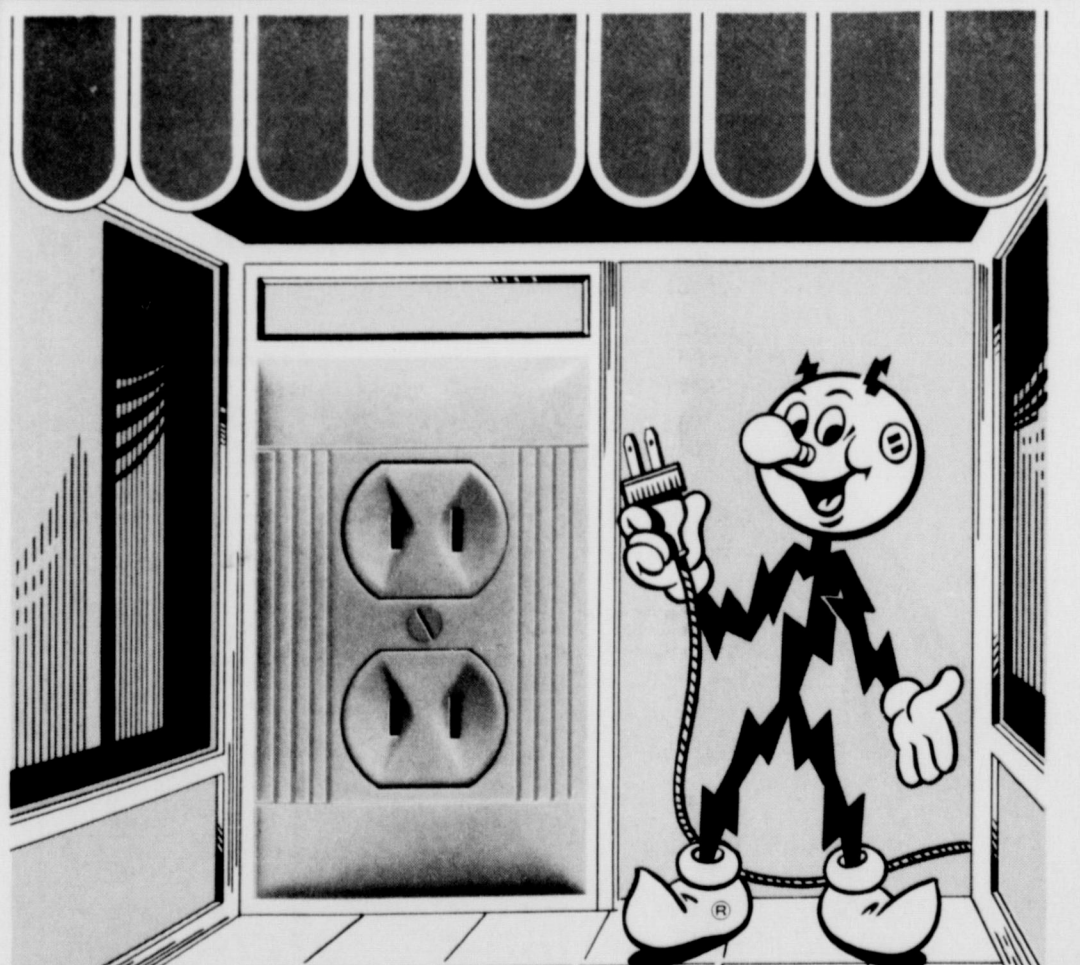

The bride is a 1963 graduate of Champaign High School, Ill., and is now employed in the office of Goldblatt's. She will be residing with her parents until her husband returns from Thailand.

SCD NEWS

With the greening of grass and budding of shinnery farmers and ranchers, particularly the older ones, thoughts turn to Brush control and summer pastures. Now is the time to take a close look at your shinnery and sage. From all indications this will be a good year to spray. Soil moisture is very good. The shinnery is a little late in budding, but should come on fast once growth starts. If there is anyway to rest the ranges for the summer they should

This will give the grass an excellent chance to regain their Vigor and to increase the stand.

If you have plans for sprigging Midland Bermuda grass this year the time is now. This hardy, high producing grass has proved to be adapted to certain conditions in this district. It is best adapted to land best adapted to land that can be irrigated. It is also suited to soils having a high water table or can be planted on waterways or other areas to receive extra water. For best results a custom sprigger should be used. The

normal sprigging rate is 16 bushels per acre in 40 inch rows or 20 bushels per acre in 20 inch rows. For additional information contact SCS personnel, The county agent, ASCS office or FHA supervisor.

CHANGE OF PERSONNEL

Mrs. Grady Harris, a long time worker in the county Superintendents office, requested the county board, at their last regular meeting to relieve her of her duties in the superintendents office because of her health. Mrs. Harris had been on leave of absence for about 60 days hoping to regain her health and resume her duties after a period of time. Such it seemed was not the case.

The county board received Mrs. Harris' request and commended her for more than eight years of efficient service in the county superintendents office. They expressed the hope that Mrs. Harris would soon regain a full measure of health, and that she would soon be her happy, bright and cheerful self again.

Mrs. Harris has been succeeded in the superintendents office by Mrs. Charles Uzzle of Mobeetie Mrs. Uzzle has had several years of experience in clerical work and she is well qualified to take over the duties she will be called to

perform. Mrs. Uzzle is the wife of Rev Charles Uzzle, Pastor of the first Baptist Church of Mobeetie, Texas

Zing into spring!
in a new **Chevrolet**

If you've been sitting tight waiting for just your kind of car, with just your kind of power, at just your kind of price--wait no longer!

Chevrolet. It's a bigger, more beautiful car this year. Which is why that handsome silhouette could be mistaken for cars costing a thousand—even two thousand—dollars more.

Chevy II. No car so trim has a right to be so thrifty. But thrifty it is, with money-savers like brakes that adjust themselves and a long-lived exhaust system.

Chelle. This one's got lively looks, spirited power, a softer ride—and remarkable room atop a highly maneuverable wheelbase. No wonder it's today's favorite mid-size car.

Corvair. Ask any '65 Corvair owner how it feels to drive a car with such easy steering, tenacious traction and responsive rear-engine power. And be ready to do lots of listening.

FARMERS HOME ADMINISTRATION

Mr. L. J. Cappleman, state director of the Farmers Home Administration, announced that 247 loans to individual families have been made in Texas under the provisions of the Economic Opportunity Act of 1964, which is one of the powerful weapons of the United States department of Agriculture being used in President Johnson's All-out war on poverty program.

These loans were made to individual farmers and rural residents in most sections of Texas. A farm family is a family who is operating a farm they own or lease and is producing at least a portion of their subsistence from crops or livestock. A rural resident is classified as one living in a town of not more than 2500 population.

Economic Opportunity

loans to farmers may be made to improve their farming operations; to buy more land, livestock, machinery and equipment; construct needed farm buildings; and to pay annual operating expenses for feed, seed and fertilizer. These loans may be obtained by farm and rural families to finance rural-based, but non-agricultural enterprises. Funds may be used to purchase land, construct buildings, buy and install equipment and pay normal operating expenses of a variety of non-agricultural enterprises such as a farm machinery repair shop, TV and radio repair shop; ladders, spraying equipment and tools to be used by painters and carpenters, blacksmith shop, septic tank and sewage disposal system servicing; custom grass setting and land

preparation; saw and lawn mower sharpening shop; post and wood cutting equipment; portable sheep and goat shearing equipment; etc.

Economic Opportunity Loans are for the purpose of helping low-income rural families raise their income level. Rural families who need a small amount of capital to improve their incomes may borrow up to \$2500 for 15 years at 4.18 percent interest. These loans are secured by the borrower and a loan agreement scheduled in accordance with his ability to repay.

Families and single individuals with incomes which are too low to cover basic needs, and who, with the assistance of the Farmers Home Administration county supervisor, are suc-

cessful in developing a plan of operation which will provide a reasonable prospect of increasing their earnings through a small amount of credit from a farming operation or other non-agricultural enterprise and who are unable to obtain adequate credit on reasonable terms elsewhere, are eligible to receive the loans.

Mr. Cappleman also advises that economic opportunity loans may be made to finance processing, marketing, purchasing and service type cooperatives which directly benefit low-income families living in rural areas. These loans may be scheduled for repayment over periods up to 30 years at an interest rate of 4.18 percent. The cooperative must pledge as security for the loan a property lien and pledge of revenue.

Some examples of cooperatives which might receive a loan are those packing, selling and shipping products grown on members' farms; marketing items constructed in home workshops of members, such as handicraft items, processing farm products; providing custom farm work for members and wholesale buying of essential farm operating items such as machinery, seed and fertilizer. These loans may be made to established or newly formed cooperative associations made up of a membership 2/3 of whom are low-income rural families, are serving predominately families in this group.

Mr. Cappleman stated that additional information concerning this program may be obtained from county farmers home administration personnel, county and home demonstration agents, vocational agriculture teachers, soil conservation service and agricultural stabilization and conservation service representatives and other United States department of agricultural agencies as state agencies. Applications may be filed in any local farmers home administration county office in the state. There are 133 county offices servicing every county in Texas. Applications are usually filed in the county in which the farm family or rural resident resides. Wheeler, Hemphill and Roberts county are serviced from the office in Wheeler. John L.
