Response to Dollar Day is Satisfactory

Reception of Special Trades Day by Public Reaches Previous Expectations

Wheeler merchants yesterday united efforts in the first of a series of "dollar days" or "trades days," intended to better advertise this city as a shopping center and to acquaint people throughout the county and nearby territory with the merchandise values, both "special" and regular, to be found here.

The response was very satisfactory and came up to previous expectations. Practically every business house in town reported considerable extra business for a Wednesday. A number of places had repeated calls for the 'dollar day'' specials as advertised.

Allowing proper credit for the drawing power of the cotton checks, which arrived Tuesday, and which attracted more than the usual run of folks to the county seat, the consensus of opinion among business men is that the trades day idea can be developed into something very much worthwhile to Wheeler and the people roundabout.

It was known beforehand that a little time would be required to build up the project to extensive propor-

In the matter of registration for the drawing to be held on the next dollar day, July 11, the response was very gratifying. The names have not as yet been tabulated, therefore it is impossible to give the exact number, but the total will run close to 500

It is expected that with the opportunity to register on the next trades day at any time before the drawing is made, that probably twice that many more will be registered.

Already plans are under consideration to offer a "swapping" feature in the near future, possibly at the next dollar day. Farmers and others who have livestock, farm products, machinery, furniture or other commodities which they wish to dispose of, will be invited to bring in the stuff and take advantage of finding others who may want to "swap" or the goods can be sold at public auction. t several more names could Very little if any cost to the owners of such merchandise will result in the transaction.

Old Settlers Picnic Widely Advertised

Window Cards and Circulars Distributed Besides Newspaper Publicity

The past week has witnessed rapid strides in advertising the Old Settlers Picnic and Reunion to be held at Wheeler on Thursday and Friday, June 28 and 29. The Times office has printed a large order of window cards and circulars and these are communities to call attention to Wheeler's big two-day event.

Next week's issue of this paper will carry additional advertising for the picnic. Committees have been busy this week placing quantities of tickets with merchants of the town, who will assist in their distribution to patrons of the celebration.

Among the recent additions to a full two-day program might be mentioned horse races, which will occur on both days, instead of one, as planned at first.

A huge parade of floats, scheduled for Friday forenoon, is expected to be one of the big drawing cards. Also the donkey baseball game, billed for Friday afternoon. A small fee, to help meet expenses, will be charged for the ball game, as is also the case with the old fiddlers contest.

An important feature and one which may be of interest to many people, is the political speaking which has a place on the program. Arrangements are being made to bring a number of state candidates or their representatives here for the occasion, thus affording an opportunity to see the candidates in person or to hear their views expounded by those qualified to do so.

Probably no other picnic in this part of the state will offer so many free attractions as the Old Settlers Picnic and Reunion at Wheeler. In this connection, it might be pertinent to remark that it is not a money-making scheme in any sense of the word. It is presented as an opportunity for neighbors and friends to get together and enjoy a good old-fashioned visit, with amusements available if desired. Especially the old settlers of Wheeler county and adjoining territory are invited to Wheeler and urged to consider this event for their pleasure

Good Rainfall Visits Region

Wheeler and Wheeler county received a fine rain on Tuesday night of this week. Precipitation varied in different localities, with some places getting only a moderate amount. Fully an inch fell in Wheeler, according to estimates. Another light shower fell here Wednesday night. No hail or wind damage accompanied

However, practically the entire county suffered great inconvenience from a windstorm Friday night. In some areas, notably the northern part of the county, considerable damage resulted to small buildings, windmills, etc. At times the blow almost reached the intensity of a hurricane. Crops suffered to an undetermined degree, especially in the sandy area, northeast of here

Saturday night also experienced a stiff wind, approaching storm proportions, but not so severe as Friday's gale. Neither storm brought any moisture to speak of. Therefore Tuesday night's downpour was doubly welcome, since crops in some localities were needing moisture badly.

MRS. LIZZIE COATS DIED AT LOCAL HOSPITAL SUNDAY

Mrs. Lizzie Coats, widow of the late J. B. Coats, died Sunday at the Gaines hospital. She had been in poor health for several months.

Mrs. Coats was born July 14, 1872, in Tennessee, and died June 10, 1934, in Wheeler. If she had lived until July 14, she would have been 62 years old. She is survived by four sons: Dan, of Ft. Worth; Walter, Frank and Joe, all of Chillicothe; and her niece, Mrs. Al Jolly at Twitty, where she made her home.

Funeral services were conducted by Rev. S. A. Ribble of Shamrock, Monday afternoon at the Church of Christ in Twitty.

Mrs. W. B. Wofford **Died Last Sunday**

Died Here Following Serious Operation-Had Lived in County for Many Years

Mrs. Viola Dee Wofford, of Shamrock, wife of W. B. Wofford, and a long-time resident of Wheeler county, passed away quite suddenly at a local hospital Sunday afternoon. She had been in ill health for some time and had resorted to an operation in being placed in distant towns and hopes of benefit, and seemingly was recovering nicely until a short time before her death.

A host of friends throughout the county were shocked to hear of her death. Her life was distinguished by a spirit of never-failing kindness and a deep interest in religious activities. Many friends and acquaintances mourn her passing.

Mrs. Wofford was born March 23 1880, and moved to this county from Hartman, Ark., 25 years ago. She was married in 1898 to W. B. (Ben) Wofford, and he and six children survive. The children are, Mrs. Inez Garrison, Craig, Peyton and Frank O'Neil Wofford, all of Shamrock; Harry of Wheeler, and Ben jr., of Springfield, Colo. She also is survived by two small grandsons, Harry Garrison and Joe Craig Wofford, and one sister, Mrs. W. M. McMurtry of this city.

Mrs. Wofford had been a member of the Baptist church for the past 42 years, and had served faithfully in church work in Shamrock, and will be remembered for this, her interest in all local enterprises and her ability to make many friends whereever she might be.

Funeral services were conducted at this city. the First Baptist church in Shamrock Monday afternoon, with Rev. E. T. Smith, the pastor, in charge. Interment was made in the Shamrock

M. L. Clark, who has a 60 acre orchard, mostly in peaches, 41/2 miles east of Wheeler, brought in some samples of his improved early Wheeler peaches Friday. The largest one weighed 71/2 ounces and measured 91/2 inches around, and 3 1-6 inches in diameter. Clark expects 1,200 bushels of this variety. They will begin ripening about June 20. Other kinds in his orchard are J. H. Hale, Elberta, Elberta Clings, Stinson October and others.

"Housewives will have to select small specimens for pickling," declared Clark. "These big fellows won't go into a fruit jar without cutting them up."

He expects different varieties to be ripening at intervals from the latter part of this month until October.

Late reports from other nearby orchards are not available, but this region has the best promise of an abundant fruit yield for years.

Baseball Games Saturday-Sunday

Announcement was made this morning by Jim Risner that Wheeler fans will have a chance to see two good ball games this week end. A Dodsonville traveling club will meet the locals. The visitors are rated as classy ball tossers and are said to have not lost a game this season.

Games will be called at 3 p.m. both Saturday and Sunday afternoons. The local club is sponsored by the American Legion post of this city.

HAS RARE KEEPSAKE

A. Denham, who lives in the Corn Valley community, west of Wheeler, was in town Saturday displaying a rare curio in the form of a "powder gourd," carried by users of the old-fashioned muzzleloading firearms. This particular gourd, about the size of an orange, was used by Denham's grandfather, Owen Martin, in the war of 1812. Denham, now 64, was about four years old when his grandfather died at the age of 84.

The keepsake passed to Denham's mother, who left it to him at her death, 20 years ago.

Denham also had a silk handkerchief 48 years old, which he bought for his first sweetheart at Weatherford, Texas. The kerchief is badly damaged by moths and age, but still shows the original pattern. He also has a number of other old curios at his farm

Commissioners Court Orders Election at Monday Session-Precinct Vote No Good

Advocates of legalized sale of beer in Wheeler county received a hearing Monday before the board of county commissioners, at which time that body ordered a county-wide election to decide the question on Saturday, June 23.

Supporters of beer sales in this county have been agitating the matter for some time. A few weeks ago an effort to hold precinct or town elections, especially in Shamrock, was made. Methodists to Conduct Vacation Church School

Two-weeks Session Starts Next Monday-All Children of Community Are Invited to Attend

A Vacation Church school, to be conducted at the Methodist church, will open Monday morning at 9 o'clock and continue for two weeks, ending June 29. Competent and interested teachers have been secured to carry on the work. Four periods will be observed each day, conforming to the following schedule:

9:00 to 10:00 a. m.—Study. 10:00 to 10:30-Worship. 10:30 to 11:00-Play

11:00 to 12:00-Art Craft. There will be four divisions: beginners, primary, juniors and interchildren aged from 4 to 15 years.

"All boys and girls in the community between these ages," declares Rev. J. Edmund Kirby, pastor of the church, "are invited to attend this school. We invite the parents of the community whose children are within these ages to send them for this two weeks of religious education and training in co-operative work and good citizenship.

"We especially invite the boys and girls who have no church relationship, and do not attend Sunday school at all, to be with us during this Vacation Church school.'

SAPPING INDUSTRY

Anyone who looks dubiously on the argument that taxes stand in the way of businesss recovery would do well the court intends to do in August. to take a glance at the experience of American industry during the past few years.

Here, for example, is what happened to a concern which has a gross income of about \$220,000,000 a year In 1929, a year of boom prosperity it paid out 11.17 cents in taxes for each dollar it took in. In 1931 it paid out 13.14 cents. In 1933, when conditions were extremely bad, it paid out 16.38 cents. And the pro portion will probably be higher still in 1934.

That particular business is a big one-but small industries are in precisely the same position. As a matter of fact, they have had tougher sled ding during depression that have larger concerns with great cash reserves and have seen a rising proportion of hard-earned dollars go to the government. Money that could have been used for expansion, for raising wages and shortening working hours, for putting more men to work-the tax collector got.

Every worker and investor has felt the adverse effects of that, and the Palace Theatre here, had a narrow problem constantly grows greater escape last Friday, at Miami, when Honest tax reduction, that really re- he was mistaken for a bank robber duces the cost of government and Worley walked into the bank at that doesn't simply shift the burden by po- place with dark glasses on. KEEPING THE MONEY AT HOME

Last week the commissioners' cour cut the county tax valuations a horizontal ten per cent, and, because the county's bills have been pared very very closely the past two years, I would seem probable that the cut in valuations will be followed by an increase in the rate, notably in the jury fund and possibly in one or two others. This is only conjecture and i not intended as a reflection of what

However, it is a move in the righ direction, rate increases or not, be cause, while the county rate may b raised, the total tax sent to Austin will be lowered, and a greater per cent of the taxpayers' total bill will stay in Floyd County.

After all, if we assume that West Texas counties have been paying too great a per centage of the state's tax, the reduction should come on that end of the taxpayers' bill. Money has a way of not getting back to Floyd county after it goes down to Austin. If it stays at home we can see our own neighbors spending it .- Floyd County Hesperian.

NEW RULE EXTENDS USE OF CONTRACTED **CORN & WHEAT ACRES**

Modification of restrictions on the use of contracted acres in the corn-D. B. Lamb from five miles north hog and wheat programs to permit cept corn and grain sorghums has been announced by the Agricultural Adjustment Administration. This modification, made first for official drouth counties, has been extended to include all corn-hog and wheat contract signers.

As interpreted by E. M. Rogenbrecht, swine specialist in the Texas A. and M. college extension service, the new ruling means that corn-hog and wheat contract signers may plant their contracted or rented acres for grazing or for hay to any crop except corn and grain sorghums. For instance, sudan grass or cowpeas, previously prohibited on these acres, may now be planted on rented acres and used as roughness or grazed.

Attention is specifically called to the fact that these modifications permitting wider plantings and use of forage and pasture crops do not apply to the cotton program. Rented cotton acres cannot be used except as needed for living at home, other land not being available, or for soil enriching crops, or for reforestation, or for wild life refuges.

A DASH FOR WATER DAILY FARM CHORE

It's more than a daily 100-yard lash to get water into the average Texas farm home, for the average distance travelled is 331 feet, and it takes several trips per day. This is one of the amazing facts discovered by the investigators in the rural farm house survey recently completed and summarized by 57,891 farms in 56

Barely one farm home in four has water piped into the house, or has an inside pump. Only one home in seven as a bath tub or a shower bath.

Sanitation is even worse, the surey reveals. Four out of five farm omes have unsanitary toilets, mostly outdoor privies of the unimproved ype. In spite of the well known connection between disease and flies and mosquitoes, more than one farm home out of five is entirely lacking in screens. Screens for windows and doors in two thirds of the houses are in need of repairs, alterations or new installation.

"These conditions are eloquent testimony of the need of agricultural readjustment," comments Miss Horton, state home demonstration agent, extension service, Texas A. and M. college. "The facts may be a shock to many because a belief in the excellence of living conditions is one of the deepest prejudices of the American mind. We must face the facts however, and as farm income is increased through the adjustment program our farm home improvement work must keep pace. For years we have been gradually correcting these

conditions through thousands of role to that of "Little Women." She demonstrations. These have shown is the wild spirited tomboy and will how to get a cheap and convenient please all her admirers. This is not water supply, how to modernize kitchens, how to make sanitary the toilet, and how to beautify the living room and bed rooms. This work is slow but it should be faster now that the foundations are laid in th form of these demonstrations which are scattered generally over Texas," she con-

The Sundown Rider

Buck Jones comes to the Rogue Friday-Saturday in a real outdoor action western, "The Sundown Rider." His followers will be more than pleased with this one. It offers plenty of excitement and suspense, and is sure to please the Wheeler patrons who seem to think that no one can make a western like old Buck. And as further entertainment, Mickey McGuire and his gang will be here in, 'School for Romance."

Spitfire

Katharine Hepburn, Robert Young and Ralph Bellamy are featured together in a story of stories. Miss Hepburn will be remembered as the star of "Little Women." In "Spitfire," she plays an entirely different

strictly a woman's picture as was "Little Women." It is sure-fire entertainment to folks of all ages and both sexes. It is a picture far above the usual run of things. Then, too, a two reel comedy entitled, "Torch Tango" with plenty of "hotcha."

CHECK TIRES NOW. SAYS LOCAL DEALER

There is no more important time thorough checking of tires than ry Garrison, dealer for the B. F. Goodrich Rubber company in Wheel-

"Every motorist, at the start of the summer season, should have his tires checked by competent specialists to find whether they are safe for driving during the warm months," Garrison

"Tires are put through their greatest strains in hot weather. The safety of the driver and his family depends to a great extent upon their condition. Thorough inspection is the only way in which tire safety can be checked.

"Too many motorists consider only the tread of the tires in making their own superficial inspection. This is not enough, especially for driving in hot weather. Treads are important, of course, but the interior of the tire, the combination of rubber and fabric that make up the tire carcass is equally so.

"It is here that the inspection of a highly trained tire man is invaluable from the standpoint of motoring safety. It is only the tire man, trained for a long period to detect wear which might lead to serious trouble ater who can guarantee that the ires are safe for travel.

"Checking of tires has become increasingly important due to the high peeds of modern automobiles. Motorsts who want to take every precaution against accident to themselves and their families cannot afford to miss thorough inspection of their tires at this time of year."

"Serge?" "My brother."

"Well, it matters, and I've spent hours alone up here and other places wondering about it and why it does. I was just wondering, when you rode around th' wall yon-

Sonya regarded him steadily. "It does matter," she said, "what anyone thinks and does. No man lives to himself alone, as the Good Book says. To every man his place and a certain amount of influence. And to every man his responsibility, too, for that influence. You've got influence, somewhere for something."

He stirred uneasily, moved on his booted feet, felt in his pocket for a fresh cigarette.

"And something's changing in you," the girl went on, "there's been a change in you since-since the first time I saw you. In your face, in your speech. You're using more 'g's on the end of your words, for one thing, and your eyes are different."

"If they weren't when I look at you, I'd be lower than I am, and that's plenty low."

"Granted again," said Sonya calmly and watched the slow tide of red that swept up over his pale cheeks. "But the very fact of change outwardly argues change inwardly. I'd trust you now a considerable way.'

He drew a long breath of fragrant smoke and, turning away, looked out over the spread of desert shimmering under the early afternoon sun.

"Merrily We Go To Hell"

The above is a theatrical production that drew thousands of curious spectators. Of this great number of theatre goers very few gave serious thought to the subject but continued living their own uneventful lives, when there was opportunity for real service.

Many people curse rotten politics, say society is not decent, repeat the age-old adage that the young people are going to the dogs, advocate that the world is growing worse and many other things of like nature without making any effort to better the situation. What has caused all of this? "Just Tolerable." The question before the world is whether we are going to be for better or for worse.

The chaotic condition of the world has been brought about by indifference that is little short of criminal. As you awake to the situation will you answer the call of humanity and do all you can to relieve the situation? It demands your presence at the polls, your activity in the church, and your support of the institutions of the

Now is the time to decide your vote (not election day); now is the time to do your church work (not the judgment day); now is the time to stand behind the institutions of the country (not when they are gone); and now is the time to live. Make use of your opportunity, for when the day is done it cannot be recalled.

> Listen to the water mill, Throughout the livelong day, How the clanking of the wheels Wears the hours away. Languidly the autumn wind Stirs the greenwood leaves; From the fields the reapers sing, Binding up the sheaves: And a proverb haunts my mind As a spell is cast: "The mill will never grind With the water that has passed."

Take the lesson to thyself, Living heart and true; Golden years are fleeting by, Youth is passing, too; Learn to make the most of life, Lose no happy day; Time will never bring thee back Chances swept away. Oil Play Likely in **Adjoining Counties**

Nearby Northwest Counties Showing Signs of Development With Leases and Tests

The following is taken from last eek's Miami Chief:

Preparations are being made to reume the drilling of the oil well loated on the Cunningham section 74, wo miles south of the city limits of

Laying of the water line and other necessary arrangements, preparatory o drilling the wildcat well to a deepr depth, has been in progress several lays. It is expected that actual drillng will begin the first of next week. This well was spudded in in April, 931, and drilling was discontinued at a depth of 2600 feet. The new conract calls for the well to be drilled o a depth of 3500 feet.

The citizens of Roberts and adoining counties are anxiously awaiting the development of this test well, which, if it should prove a producer, will be only the beginning of activiies on a larger scale.

The Cunningham No. 1 will make he second oil well drilling in Robrts county. The Ledrick well in North Roberts is now drilling at beter than 5,000 feet.

News of prospective developments o the north of Wheeler are listed as follows by the Canadian Record:

A block of 100,000 acres of land in Ochiltree, Roberts, Lipscomb and Hemphill counties has been leased for oil tests, according to H. E. Hoover.

He says that J. B. Carpo of Idaho, was here the past week preparing a reological map of that territory. This nap has been completed. A contract will be drawn for the location of an oil test on some place to be designated by a geologist who will be here in a few days. The contract will call for a 6,500 foot test, unless production is reached sooner, it was said.

H. Allen Rispen, who registered ast week at the Moody Hotel from Dallas, is the one interesting himself in the project, Hoover said. Rispen is head of the United States Oil Corp. of America. He spent Wednesday and Thursday of last week in Canadian conferring with his geologist, Carpo, J. R. Macon of Denver and Hoover.

COUNTY OIL ACTIVITIES MAINTAIN ACTIVE PACE

The past week has marked the coninuation of much activity in oil developments work in Wheeler county, although it lost the lead in number of Gray county, with seven out of 14 new ones.

Wheeler locations are: Champlin Refining Co., W 1-2 NE 1-4 sec. 49, block 24; Harner & Rogers., SW 1-4 NE 1-4 sec. 45, block 24; Magnolia Petroleum Co., SW 1-4 sec. 43, block 24; Skelly Oil Co., S 1-2 sec. 53, block 4, all in H&GN survey.

Ritchey Announces for 31st District Attorney

In this issue of The Times will be found the announcement of Judge E. F. Ritchey as a candidate for the office of District Attorney, 31st Judicial District, subject to the action of the Democratic primary in July. Judge Ritchey's reputation as an attorney of unusual ability is well known over this district. He is also a man of high moral character and has many close friends over the district who will give him their support

and influence in his campaign.

He is familiar with the duties of the office, having had long experience in both civil and criminal cases. During the long illness of the late Judge Clifford Braly, Judge Ritchey ably served as judge of the 114th district court. So the judge is not a new man for the position but is thoroughly conversant with every phase of the office of district attorney. His many friends in Roberts county will support him as well as his legion of friends in Gray, Wheeler and Lipscomb coun-

His announcement follows:

"In announcing as a candidate for listrict attorney, of the 31st judicial district, composed of Roberts, Gray, Wheeler and Lipscomb counties, I am not unaware of the responsibilities of such an office, neither am I unfamiliar with the duties of the same. During the years that I have practiced law, my practice has been general practice, covering both civil and criminal law, and it has been my privilege to look after cases not only in the trial court, but on through all of our appellate courts. Likewise it has been my privilege to defend in criminal cases, and to preside as a trial judge in the same; hence this field of the practice is not a new one for me, and my election would not be

BUSY BEE CLUB ENJOYED GOOD MEETING THURSDAY

In the absence of Miss Jones, Mrs. C. B. Witt and Miss Leona Crossland gave the demonstration at a meeting of the Busy Bee Home Demonstration club held at the home of Mrs. C. M. Hampton on Thursday, June 7.

"Your kitchen is your workshop," declared Miss Crossland during the work." She gave a demonstration and some instructive plans on how to arrange kitchen work to make it a onestep kitchen.

Mrs. Witt offered an interesting talk on the Canning Plan and the Canning Kitchen. Wheeler county is very badly in need of one of these onveniences, stated Mrs. Witt.

The club members gave Miss Jones a handkerchief shower at her office Saturday evening. These have been mailed to her at the home of her parents at Lamesa, where she will go when able to leave the hospital at Lubbock. A message wishing her speedy recovery so she may return oon to her work here was enclosed.

Plans were made to hold a food sale to raise funds to send a member of the club to Short Course. No date has been set for the sale as yet.

Members present were Mesdames H. H. Herd, Winnie Loter, E. W. Carer, C. C. Crowder, Cleo Gaines, Rufus Watts, J. E. Willard, R. D. Underwood, C. C. Robison, J. REGISTERED PIG CHAIN SUCCESSFUL AT MOBEETIE

A registered pig chain started in 1932 by local business men with 14 Wheeler county 4-H club boys has been extended this year to farmers, according to Jake Tarter, county agent. Two years ago 14 business men each bought a registered pig and let it out to a club boy with the understanding that he return to the donor a registered sow pig from the first litter. The second year 13 more boys were recipients of pigs. This spring 12 adult farmers have been furnished registered pigs on this basis. The aim is to put a good registered sow with every farmer want-
