CWE CHAT WITH EDITOR

By Louis C. Stas

A cool 36 degrees was showing on the sign at the First National Bank as I reported for work Wednesday morning. We finished January without moisture of any kind and opened February with enough moisture to wet the paved surfaces twice on Sunday. The local groundhog would not have seen his shadow.

Mother nature is telling us spring is here with trees budded and shrubs blooming. Lawns are turning green—in my case dandy lions and other weeds furnish the green.

I understand the rumor is again circulating that the swimming pool will not open this year. The rumor started when we began having serious trouble last year with the circulating pumps during the time the pool was open. With a lot of effort on the part of the city employees and pool

management, the facility remained open for the summer.

With the closing of the pool, a contract was let to 'breakout' the cement and dig out the pipes, connecting the pool to the pumps—phase 1. This task was completed and it was determined by the council to replace the pipes which had been in use since the pool was completed in 1958—phase 2. The contracts for phase 3 will soon be let by the council; this is the replacing of the surface around the pool.

The repair work is on schedule and the council fully intends to open the pool with the closing of school in May.

It was such a pretty day Saturday. I took advantage of the warmth and went to Wheeler Co-op and purchased some pea seed and got it in the ground. We will see how this all turns out. Doyle Ramsey planted his peas the first time I mentioned the subject and Mark Frankenbery put his peas in the ground when the 'sign of the moon' was right. The only thing I do according to the moon is re-pot house plants.

The editor and family stayed home this past weekend, but intend to travel to Sherman next weekend. We did, however, entertain the Arnolds from Oklahoma City. They had to come see grandson, daughter and mother—oh yes, niece, sister and brother. I may have moved further down the line, since they had to eat 'left over' ice cream.

Area Catholics Begin Season Of Lent

The Catholics of Collingsworth and Wheeler Counties on Feb. 12 will begin the penitential season of Lent in Preparation for Easter with the celebration of Ash Wednesday. On this day local Catholics will join millions of Catholics thru out the world in the symbolic action of being signed with ashes from the burned palms left over from last Palm Sunday of 1985.

This Signing of Ashes on the forehead is a symbolic ritual reminiscent of the early Church when people did Penance in Sackcloth and Ashes.

Ain't It the Truth
BY AB GUNTER

Ain't it funny, how weather will confuse you, it has been so nice the past couple of days that I figured it was time to plant taters and it ain't even St. Patrick's Day yet. I have been runnin around in my shirt sleeves and have about forgotten where I put my coat and gloves but I bet I will be able to find them one of these days.

Speaking of St. Patrick and all that reminds me, that feller Turnbow over at Shamrock gave me a dandy Walking Stick some months ago and I was proud of it. It had Texas Sesquicentennial on it, 1836-1986, and I had it with my souvenirs. One day I went by a neighbors farm here and saw him out busting ice on his horse tank and as he walked away I saw he had a cane. He has Rumetiz I guess. I thought of that walking stick, it being made of hickory and so stout. I couldn't get it off my mind. Anyhow I got out the stick, loaded it in the car and the next time I went by Mr. Genthes place I got out and presented him with the stick. Now ain't that foolish giving away a thing that you treasure and especially something a friend had given you. No sir I don't think it's foolish at all, just being what I was raised to be, a good neighbor, just like everyone there is or should be. Ain't that right Percy?

By the way Boys, next time you got a minute I wish that you would drop by and say Hello to Terrell, he helped teach me to be a good neighbor and he would be happy to give you a lesson or two if you need it, but I'm sure you don't.

We had been gone a few days for Christmas and when we got back the neighbor across the road came over with his wife and they said "Folks we missed you" and I think the same day the ones just South of us said the same thing. That was the biggest present we could have gotten.

We love you folks.

The Wheeler Senior Citizens met Monday night, Feb. 3rd, for a covered dish supper. Claudy Brotherton led the singing of 'Happy Birthday' to Betty McNeil, Jack Hays and Sally Harris. Jack Hays gave the blessing. Doris Hays baked the birthday cake. The decoration was a Valentine theme.

so thin.
Visiting Tom and Alice Bell Helton Sunday afternoon were Virgil and Mae Helton of Wheeler. Tom and Alice Bell attended the Booster Day Saturday and enjoyed it. Earlier in the week they went to funerals for Madge Porter and Cheesey Pendleton.

Larry Nelson, president of the Briscoe Boosters was very pleased with the turn out for the Booster Day. Think they cleared about \$1800. He wanted to thank the school, the ones who worked, donated food, participated and bought things. 800 tickets were sold on a shotgun. Mrs. Hash from Canadian won it. It was a community project with many helping who had no kids involved. Thanks to everyone!

Saturday was the big Booster Day at Briscoe with Pee Wee tournament and pancake and sausage supper. There was a big crowd and lots of fun. One of the highlights was the Briscoe Cheerleaders: kindergarten girls, Londa Crownover, Tera Hefley, and Amanda Shields and Allison Johnson, who was taking sister Amanda's place. They did great. Briscoe girls beat Allison 26-20 and Kelton 19 to 15 to win first. Briscoe boys lost to Allison 25 to 35 and then beat Lela 17 to 6 to win third. Kelton boys beat Allison 39 to 18 to win first. Allison girls beat Lela 27 to 14 to win third.

Most of 4-H and F.P.A. kids and parents helped work and furnish food

for the concession stand and prepare the pancakes and sausage. Surely was good! Lot of men helped cook them. There was also an auction of cakes and pies. Ray Hudson is a persuasive auctioneer. Many thanks to all who had a part in it. Will help kids' animals bring a better price.
Briscoe local stock show will be Saturday night Feb. 15, at Wheeler County barn. The County show will be Feb. 17, and sale Feb. 18.

SESQUICENTENNIAL QUILTING Bee Set For February

The Texas 1986 Sesquicentennial Quilting Bee will be held February 21, 22, and 23 in Canyon at the Panhandle-Plains Museum. The Quilting Bee is co-sponsored by the Museum and the Texas Agricultural Extension Service, according to Museum curator JoAnne Arasim.

The Quilting Bee is the final event in the 1985-86 Panhandle-wide Sesquicentennial Quilting Project. Quilt block competitions have been held in the top 26 counties, with local quilters entering their own special quilt blocks designed to represent a specific characteristic of each quilter's own county.

The top blocks were chosen in each county by panels of judges. Entries were evaluated on overall appearance, workmanship, originality of design, adherence to theme, appropriateness of material, and use of color.

The first-place blocks will arrive in Canyon at the Museum on February 1, where on February 21, 22, 23 they will become part of a queen-size Sesquicentennial Quilt. Each county will have a block, and the remaining four blocks will represent the Museum, the Extension Service, the Sesquicentennial, and the Panhandle.

"During the Quilting Bee, area quilters will come to the Museum's front hall, and the public can watch as the quilt actually takes place," she said.

Anyone with quilting experience is eligible to participate in the quilting bee Arasim said. Each quilter will be assigned a 20-minute session. Reservations must be made in advance, and each quilter may have only one 20 minute session. The Quilting Bee will take place three days in February, she added. The days and times are: Friday, February 21, from 12 to 5 p.m.; Saturday, February 22, from 8 to 12 p.m.; and Sunday, February 23, from 2 to 6 p.m.

"We hope that quilters will join us from all of the top 26 counties of the Panhandle, because the Panhandle Quilt is the only Panhandle-wide activity celebrating the Sesquicentennial. All the names of the quilters will be entered in a special book to document the occasion for posterity. Also, the Panhandle's Quilting is the only activity of its type this year in the entire state of Texas," Arasim noted.

Advance reservations may be made by calling JoAnne Arasim at the Museum at 806-655-7191. Additional information on the project is available from Linda Daughtry, County Extension Agent, Home Economics at 826-5243 or write Box 505, Wheeler, Texas 79096.

Educational programs of the Texas Agricultural Extension Service serve people of all ages regardless of socio-economic level, race, color, sex, handicap, religion, or national origin.

Mitch Reynolds and Brady Hudson helped with Harvey Puryear's pasture roping near Texola, Oklahoma, over the weekend. Think Eddie Mayfield is also involved.

For our next Sunday night singing we are expecting Jolene Jones and a group of youth from Canadian First Baptist Church and Cindy Meek and a group from San Jacinto Baptist Church. Sounds good.

Wednesday 29th an ideal spring day. Harmon Barry got out hospital Wednesday. He was doing fairly well, last word.

I think reason the rocket blowing up was so terrible, we saw it go up and explode, they seemed to be so happy as they got in the rocket. I remember the first one I heard that went up on radio, I seldom breathed while it was up. I just did not think it could be done, even though my 8th grade teacher told us I won't see it, but you kids will, he said in space and even to the moon.

Now I wonder a lot, if God is pleased with us, messing around up there in the heavens. He was not pleased with the people back in old Bible building that tower. He got very vexed and changed their languages, they had to stop, they could not understand what the other fellow was saying.

Recently Essie oldest brother's grandson attended church. Essie said a surprise, Darrel Trent from Killgore, he went home with Essie and boys from church, they really enjoyed his visit.

Last weekend Don and Mona Reynolds came down spent weekend.

Essie went to Beauty Shop Friday and went to visit in Care Center, her sister is not so well. Glad all Essie family was much better Saturday.

A lot of sickness still around of all kind seems. Looks like my lilacs are going to bud out in spite of it being still winter. I still think its gona be some cold, I remember 2 or 3 times in May, our rain froze on north side of our post while we were out doing chores.

Saturday afternoon, Garry and Billy Parker, Latisa and Joe Stewart came to spend the weekend with us.

Ted Parker had a tooth pulled Thursday 23, January, by Sunday they had to put him in Dumas hospital. I don't know any details on this. We did not know anything about it till Garry came down Saturday. Guess he is ok, back at work. He probably didn't eat enough for his shot I would say.

Sunday morning cloudy. Zetha and Weldon came down took Colie and I or Colie and me, I never liked English. But I wish now I had studied it harder. Well to let Ben Parks know its

raining enough to be running off of cars and things. It sure made the air even smell better. Colie says yes, this could be ice in the morning.

Roy and Willene have had the flu. Sounded like they are better Sunday night.

Diana Parker's mother, Florene Castleberry, spent the weekend in Pampa with Diana and girls.

We almost lost our Terry Daugherty last week. They got in some poison gas. Terry was trying to get a locked door to a van open, to keep van from blowing up. Seems it was full of this gas. Terry went down, another boy was dragging Terry out, he went down, they finally got both out away from gas. Took them to hospital. The other boy is sicker than Terry because they were holding their breath. This other boy was or had to breathe deeper by dragging Terry. They don't bother with gas masks now because you don't have time to put them on.

W.O.W. I would probably wear a gas mask hours before, if I suspected bad gas—poison gas—how some will risk their lives. I called Weldon one night, ask him how he got or would get out of poison gas. He said, Out run

it. They have a flag dinky showing them all time which way to run—which way the wind is blowing—you run toward the wind, they say—what a job.

They said Dave Dukes was some better Sunday.

Looking Back

"Official Sanction is Given Road Project" was the heading for a story of January 2, 1936; the sub-heading read, "Final Approval Issued Monday by State Highway Department on Road East". This allowed for 10 miles

of paving east of Wheeler on what is presently Highway 152; the project "covers a 10-mile stretch beginning at the end of the present pavement and extending to the state line. This strip has recently been temporarily designated a state highway."

 "The Mobeetic Outlook" was a supplement to "The Wheeler Times"; this was written and edited by Mobeetic students.
 In the January 2, 1936 edition, an

article was headed: "Have An Extra Bed?". Local citizens were called upon to furnish rooms for the boys and girls who would participate in the Annual Basketball Tournament scheduled for Jan. 10-11. At least 25 girls and boys teams were expected for the tournament.

Surface in Leveling Process". A part of the article read: "Wheeler's business streets, on the south and west sides of the square are this week receiving an overhauling and grading long overdue. These thoroughfares, surfaced with caliche, had developed a system of 'permanent waves' that made travel over them decidedly uncomfortable. Heavy road equipment, consisting of caterpillar, tractor and grader, were obtained from Commissioner W. W. Adams in precinct 1, since the city cannot afford to maintain such equipment for the limited use required. Operations are under direction of the city council. Streets of Wheeler, generally, are being given a complete overhauling and grading, in many places this need has been apparent for quite some time."

Mrs. Joe Flowers

No groundhog shadow! Spring is on the way, we hope. Guess we'd better wait awhile before we set out tomatoes even if they are a \$1 per pound. The Japonica is bout to bloom and the tulips poking their heads up to see what's what.

Flags were at half mast everywhere Friday. It was a terrible tragedy but no worse than happens each day. We just all happened to be watching. It wasn't nearly as bad as all our soldier boys getting killed in that crash.

I'm just as space happy as anyone. Had a science fiction book in my hand from the time I could read. The preacher told me when I was about eight that it wasn't fit reading material for little girls. I sincerely hope they keep on with the space program but can't help but wonder if the good Lord might be telling us something. Maybe he doesn't want us up in His domain.

Remember the first planes. Everyone would stop what they were doing and rush madly out to watch the eleven o'clock mail plane out of sight. Now we don't even look up when a

sonic boom shakes the pictures off the wall.

My favorite story used to be about an inventor who learned to bend a clothes hanger just right and power the space ships. In another century (if the war mongers don't manage to destroy the world) man will be flying to Mars and Venus as casually as we now go to Europe. Someone will learn to bend the clothes hanger just right. We have to get away from propulsion fuels and rockets.

Mr. and Mrs. Olin Nabors are happily moved to Elk City. Their new phone number is 243-3896.

Mrs. Alta Nabors of Reydon was honored with a farewell tea in the home of Effie Bessire. She is moving to Sayre Retirement Home. Luella Trammell and Dana Yowell helped Mrs. Bessire. Attending from here were Helen Smith, Ruby Nix, and Bonnie Rice.

Here & There

BY LAURA GUTHRIE

I'm sure we all have a favorite 'grandmother' story. I've just heard one that you can enjoy. Some ten days ago, one of my friends—no other than Hannah Faye Chapman—boarded a bus and traveled 700 miles to see a basketball game. Now that sounds a bit absurd for a grandmother, doesn't it? But in defense of my friend I will say this was a special game in St. Louis, Missouri. A special player in the game was Hannah's granddaughter, aha, that makes a difference. The game was won by the proper team! Hannah went for a visit with her son Jimmy Atherton and wife Audie (Holdeman) and dated the visit so as to coincide with the game. She stayed a week and thoroughly enjoyed it. Now isn't that maneuvering a game? Or was it the visit that was maneuvered?

Doodie Phillips and Elva Wood have also been visiting out of town. The two women traveled to Lubbock together. Then Doodie continued on to Tohoka to visit a friend. Elva visited with her son, James Hubble and family, for a few days. She came back to Amarillo and visited with relatives, which included Mr. and Mrs. Earl Wallace, and at Lake Tanglewood with Mr. and Mrs. R.T. Wood. She finished the trip from Amarillo to Wheeler with W.D. and Mary Mitchell, who were there on business.

Mr. and Mrs. Alvin Cross of St. Louis Missouri have been visiting their daughter, Gay Burton and her husband Pete. Also they visited with their grandsons Dickey and Gary Don and their families.

Dickey and Carletta Burton honored their grandparents with a dinner on Wednesday evening. Other guests were their parents, Gay and Pete Burton, and their cousin Elva Wood. Last week Ed and Patricia Forrester attended a Birthday Party in Pampa honoring Patricia's four year old grand niece. It was a skating party. Oh! Oh!

Again I am grateful for our local hospital and it's services. I am expressing my appreciation for, not only doctor and nurses, but the complete staff. After all how could a patient be attended to properly without the services of every employee of the hospital.

CARD OF THANKS

We wish to thank our friends and neighbors in Wheeler and the surrounding communities for the many loving kindnesses and expressions of sympathy extended to us during the long illness and death of our husband, father and grandfather.

For the beautiful flowers, the abundance of food and your unselfish help and never ending visits we will always be grateful.

We would like also to thank the doctors and nurses in Wheeler Hospital and the personnel of the Wheeler Care Center.

May God bless each of you in the same special way you have responded to our grief and loss.

Ruby Pendleton & family

Funeral services were held last week for George Husted at Springdale, Ark. with burial in the Fayetteville Military Cemetery. George grew up out west of Sweetwater. His wife was Annie Smith of Mayfield.

Services were at Sweetwater Wednesday for Maggie Killingsworth of OKC. Burial was in the Buffalo Cemetery. She is survived by three sons, Joe, Don, and Ronnie, one girl Joy.

Services were at the Colonial Chapel in Pampa Thursday for Jesse Taylor. With burial in the Memory Gardens there. He is survived by his wife Lillian, 2 sons Dennis and Clinton, and three daughters Cyndee Parks, Brenda Simmons, and LaDonna Garza.

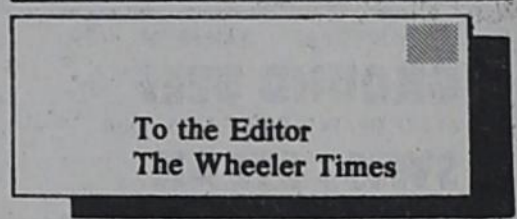

Marvin H. (Buzzer) Martin died of a massive heart attack in Richman, CA. January 23. Gerald Martin and Lorita Johnson flew out for the services. He was a brother of Dorothy Johnson.

Had a call from Norman Abla of Mineola, TX. He and his wife had been out to see his parents Mr. and Mrs. Carl Hill. Helped Lavelle celebrate her birthday. With them were Mr. and Mrs. Harvey Mize of Caddo Hills. Mr. and Mrs. Billy Hill and Fern Howell also visited during the weekend. It was real "Thoughty" of him to spend his nickel that way. I really appreciated it.

Matt and Nettie Warren told Joe they were my readers and sent me their picture? on a card. That was nice too. David didn't think it looked like them.

We sure ought to be proud of these folks that take the time to give you a rose while you live. Everyone needs a pat on the back occasionally. You can surely think up something good. Remember the old man that died and the preacher was non plused to think of anything. Finally said "well, he could whistle good."

Our niece Samye Steward has had surgery. Her new address is Box 1890, Cottonwood, AZ. 86326.

Dear Editor,
I have never seen people so afraid to speak out against the filthy smoking in our hospital and Care Center. The people that signed the petition and hundreds more want this filth out. Mayor told me past week they would not do anything. Said the board should do that, knowing that he and council can create an ordinance that would stop this filth.

Hix the Administrator said they would do nothing. All have refused to comply with the request of the petition. And all are being reported to H.H.S., Medicare, Finance Div., Tex. Dept. Health, Attorney General Office also Dept. of Health (Board) has been petitioned to adopt a rule to revise the thing they call Law 48:01. They hid behind that violates the rights of the sick and dying in hospital, care center. One minister, one Dr. had the courage to sign the petition. One minister mentioned a Law that should be enforced. Others know smoking should be out. I have only heard one minister speak against smoking here. Is it because you are afraid of your smoking members and others. This Drug Kills more people than all the rest. God does not tell us to abuse the sick, dying, cripples, the children, and old people, or any other. No wonder David asked his People of Israel, Why are you afraid? Why do you and others keep supporting the stinking Law 48:01, they hid behind. Mayor, council, administration, Dr., nurses, say smoking is alright for sick and dying in our hospital, Care Center Will challenge any of you to prove to the people smoking is good for them. I believe God is still in charge. Why do we keep defying him. Also know we people are good Just Afraid. Also will keep asking the Board of Health to have all Dr.'s, nurses, and employees of hospital, Care Center to show test for Aids.

Clarence Blevins is in the Elk hospital. Elzie Howell in the Sayre one.

Leo Swopes was injured and carried to OKC but home now. Heard he lost a finger in the deal.

I really was surprised to see in the paper that anywhere from 20 to 50% of the people in the various districts voted against their schools. At Sweetwater it was 42 out of 117. I wonder if people realized this was no special deal just the usual mills to carry on the school. If they vote the school out, they won't gain anything. Chances are taxes in a larger place would be more.

We have one of the better schools in the two counties and folks should be very proud of it. It employs around 30 odd and a lot of the money goes right back into the community. Most live here with only five commuting. Our young folks are what we have to build with. Give them support. If you have questions the school board meets each second Monday.

Saw my cousin Gerald McCathern on TV Friday. He is getting high behind about the farmers. He's the one who drove his tractor to Washington DC.

David is upset because Dr. Who is getting moved to 5:30 and Star Trek comes on Ch4 at 5. What is a person to do. We had to leave Asa and Nikki-Vikki to tend to business Friday. I wish a few firms stayed open on Saturday. Close up on Monday when the barber shops do.

Sixteen band members, Strings and Things, journeyed down to Hensley's last Tuesday for an afternoon of fun. Among the visitors were Mildred Dorsey, Betty Hill, and Mrs. Jack Mercer, Dora Farmer, Trixie Cox. Hadn't seen them in quite a spell.

We went to the fiddlers meet at the Elk Senior Citizens Center Sunday. A big crowd there, with music from everywhere. This is to be regular event each 1st Sunday afternoon.

There is a derrick up on Delbert Carnahan farm and one on the land across the road east. Really mean business, looks like.

Mr. and Mrs. Y.C. Fuchs took Elec and Beulah Atchley to OKC to see their doctor. Beulah still isn't fooling very well.

Bertha Coffey and Ida May Rutherford visited Friday with the Hobart Mayes at Elk.

Talked to the girl in Heritage, Penny Jenkins, and she said she was no kin to our Jenkins. She came from Ohio. One time we were up there and saw we could make a little jog off the Interstate and drive 8 miles in Ohio. Could say we'd been there. Wouldn't you know when we got to the spot we were in the wrong lane and had to forego Ohio.

Visited at the Star a little and nearly got me a boy. Cutest little fellow was there helping? his mama put out the paper.

Mr. and Mrs. Leonard Bryan, Lee and Frances Meadows of Spearman, Leon and Judy Farris and their girls of Ulysses, KA. visited Onah Brown and Ruth Johnson of Sayre.

Guests of Birdie Whipkey last week were Harold Dean Whipkey of Cleo Springs, Mary Bollen, Mr. and Mrs. C.R. Wells, and Leona Miller.

Juanita Coffey and Hortense Madden dropped in on the Thurston Coffeys Friday. Ruby had the flu.

Saw most of my neighbors in town Friday. Betty Turner was passing out samples of little sizzlers.

Best news—We had a SHOWER. "THIS IS THE WAY WE WASH OUR CLOTHES"

Norma Martin is a lovely lady She washes all our clothes How she keeps track of everything I'm sure nobody knows.

I've known her for a long long time She's young and active still Ruth Edwards keeps me clean and tidy And I'm (way) over the Hill.

Gail Scrivner is a wash woman She used to be a good nurses aide It seems she has a preference To what she sees that fade.

Lois Puryear is part-time help To keep our linens clean She seems so kind and nice I'm glad she's on our team.

Connie Martin also helps part-time She's a very pretty girl I wanted her to be a nurse But she gives our wash a whirl.

TEXAS GARDENER TIPS

Several frost-tender crops, including tomatoes, cucumbers, melons and squash, can be harvested a month earlier than normal if they're planted outdoors soon enough and protected from the cold and wind.

For an early harvest, you must plant well before the average frost-free date in your area. Normally, it's recommended you plant two weeks after that date. For example, if the frost-free date in your area is April 1 and you wanted to be sure your plants wouldn't be killed by a late freeze, you'd plant between April 15 and 20. However, you can plant earlier and still have healthy plants if you install protection devices, such as hotkaps, cans, milk jugs or plastic-covered tunnels. All of these help trap solar heat, store it in the soil and prevent it from escaping at night. Their advantage is that you can have production a

month earlier. These same devices also provide protection from the wind. Here's the major items used to protect plants and how they work:

Coffee Cans: Cut the bottom out of an empty 3-quart coffee can that has a plastic cover on top. Then you can set out plants when they have three to five true leaves and place the can over them, pushing it into the ground to anchor it. Whenever temperatures are expected to get below 32 degrees, place the top cover on the can.

Plastic Jugs: An empty 1-gallon jug with the bottom cut out is placed over the plant. However,

you must vent the jugs by cutting a hole at the top and bottom to prevent excessive heat build-up.

Tunnels: These are formed by pushing U-shaped wire frames into the soil and covering them with plastic. These provide good protection, but are more difficult to install and can be expensive.

Hotkaps: These are miniature, cone-shaped tents made out of wax paper. They're 11 inches in diameter and 6 to 9 inches tall. Place hotkaps over the top of the plant and secure them by placing the soil around the bottom. This device makes an efficient miniature greenhouse to trap maximum amounts of solar radiation for frost protection, but they are expensive.
