## Almost Five Inches of Rain Is Recorded In Eastland

### Third Wettest June Brings Bright Smiles

The weatherman had to go out in the rain Saturday to get a rain reading and at presstime the best rain of the year was still coming down. The official reading at 8 a.m. Saturday for the "rainy spell" in Eastland was 4.83 inches. At least an additional half inch and possibly more fell before Saturday afternoon.

### Auto Crash Victim Treated In Ranger Hospital

A Fort Worth man was rushed to Ranger General Hospital Thursday about 8:30 p.m. following an automobile accident about two and one-half miles east of Ranger on Highway 80 East.

Joe Bob Moore was treated for a broken collar bone and lacerations at the hospital. Two others riding in the car, Ronald Bradford of Orlando, Florida, and Robert Miles of Meridian, Miss., emerged from the accident without injury.

The 1956 Oldsmobile, driven by Moore, apparently hit a slick spot on the rain drenched pavement and went out of control. The automobile was traveling East and flipped into the ditch between the lanes and was setting on its wheels headed east following the mishap. The automobile was a total loss.

The two passengers riding in the automobile with Moore, had recently received their discharge from the Navy in California and were returning to their homes. They spent the night in Ranger following the accident. Moore's condition was reported good Friday morning.

The 4.83 inches pushed the total rainfall for the month here to 7.20 inches, already making this the third wettest June since records have been kept, dating back to 1911. June of 1959 was wetter, a total of 8.87 inches fell, and June of 1940 is credited with 10.40 inches. This June isn't over yet, however, and the record may snow before it stops raining.

The 4.83 official reading was low compared to many reports from around the county. Several areas reported more than 7 1/2 inches.

Lake Leon is full again following the rains and stock tanks and other lakes in the area are filling up fast. Actually there has not been much runoff considering the amount of rainfall which has fallen. The ground was thirsty after a record dry April and May. Only .15 of an inch fell in April and .64 in May. Those two months are usually good rain months here.

For the year the county is now above normal. The rainfall total stands at 16.31 inches, compared to normal rainfall of 13.85.

The weatherman says the rainfall will probably continue to fall through Sunday.

### Here's Chance... To Down Fish!

It may be the rain that's doing it, but whatever the reason Eastland County is going to host the world championship goldfish swallowing contest this year.

Bill Samuels, manager of the Majestic Theatre, made the announcement today. The tournament will be held at the Majestic May 24. More details will be announced soon. Live goldfish, that is!

## Two Countries Are Compared by Perkins

By JOSEPH M. PERKINS  
As we leave New Zealand and Australia after several happy weeks in both countries, I am inclined to make a comparison of the two, as I see and understand them.

First I will mention what New Zealand has and Australia has not or has to a lesser degree. One of New Zealand's greatest and most picturesque assets is its magnificent natural beauty, its sea coast with many picturesque coves neatly surrounded by hills or mountains, the lovely blue lakes, snow-clad mountain peaks, glaciers and fjords.

Another thing that impressed me most favorably was the high quality of food everywhere I went in New Zealand. I was particularly delighted with the butter, cream and cheese. I thought I might tire of the fish and the delicious and tender lamb that was served so frequently, but I never did. The bread was noticeably superior to that in many other countries. Food was always good even in the small hotels with limited accommodations. Worth mentioning are the labor shortage which means opportunity for those who need work. Government owned hotels for tourists, who desire the best, thermal power from deep steam borings, vast water power and its resultant cheap electric power and finally its nearness to the undeveloped Antarctic region with its future possibilities.

Australia, on the other hand, has its own originality to a marked degree. Being many, many times larger than New Zealand, it has a far greater variety of country varying from its vast interior deserts to its tropical northeast where, with plentiful rainfall, fruits, vegetables and other crops abound, naturally it has more large cities and a faster business tempo. Its beaches are among the most famous in the entire world. The growth opportunities of Australia appear to be very great. Its heavy industry is becoming well established and its mining based on large ore reserves, assures an ample supply of coal, iron, copper, aluminum, uranium lead and zinc for both the existing and future markets.

Things unique to Australia include its remote sheep stations, the flying doctors who serve a widely scattered people in out-of-the-way places, its unusual animals including the kangaroo and the koala bear, the numerous and

dangerous sharks that infest its coastal waters including the beaches and the very poisonous snakes that abound in the bush country. Strangely enough, New Zealand has neither sharks nor snakes.

New Zealand and Australia have much in common. They are alike in their remoteness from many parts of the world. Both are very British with strong loyalty to their beautiful Queen Elizabeth.

Another similarity is in their many social benefits resulting however, in very high taxes. They export quantities of their products, particularly dairy products, wool and meat; and both enjoy the benefits derived from good stable government. Each country has a remnant left of the early inhabitants, the Maoris in New Zealand and the Aborigines in Australia; many of whom still are a very primitive people. The following news item appeared recently in the newspaper and may be of interest.

"Primitive Aborigines Discovery By Police"  
"Police have come face-to-face with some of Western Australia's most primitive inhabitants during investigations into the illegal killing of cattle."  
In the far north coast of Western Australia a police party, headed by Constable M. Yarrick and including native trackers, met 11 desert natives in the Fitzroy Crossing area of the East Kimberleys.

Two men, an eight year old boy, and eight girls, whose ages ranged from five to 13, were in a group of nomads.  
All were dressed in the minimum of clothing and had been driven in from the desert by lack of food.  
They were armed only with the most primitive spears and were amazed by the appearance of the police vehicle—obviously the first motor vehicle they had seen.  
An interpreter learned that the nomads came from a distant point towards the desert on the old Canning stock route.  
Local natives believe the children of the party were all stolen from other tribes.  
All the natives were ear sick on the trip to a nearby station.  
Two of the natives will be (Continued on Page Six)

OFF TO CAMP—These four Eastland boys left for Camp Hoblitzelle Sunday morning to spend a week. The boys will enjoy the week at the camp compliments of the Salvation Army, a member of the Eastland United Fund. The boys are, from left to right, Roy Stroud Jr., W. J. Carmack, Randall Squires and Dale Carmack. Standing behind the boys is an unidentified Greyhound bus driver. At right is James Smith and Police Chief Ray Laney. Smith, Laney, Everett Plowman and Tom Wilson are members of the local Salvation Army committee. (Telegram Staff Photo).

## Telegram Announces Plans To Publish Semi-Weekly

Times Publishing Co., publishers of the Eastland Telegram and The Ranger Times, today announced operation changes which the publishers said would "... give the citizens of these two towns far superior newspapers."

The Telegram and the Times will begin semi-weekly publication this week. The papers will publish on Sunday and Thursday mornings beginning with today's issues.

A company spokesman said the change in operation came after a careful study by the local staff and newspaper experts who were called in to study the operations.

"We discovered that the best non-daily newspapers in Texas were the semi-weeklies operating in towns between 5,000 and 15,000 population," a company spokesman explained. "Newspaper experts urged us to switch to semi-weekly operation after a complete study."

Publishers of the twin-newspapers also promised a "new look" beginning with today's issue.

"There will be more pictures and better local coverage of news. We also plan to increase our circulation to better serve our advertisers."

One of the improvements announced was a plan to begin publishing a monthly newspaper section in tabloid size which will be circulated countywide. The supplement will have color, something never before available in this county.

Price of the newspaper will remain the same for mail and home delivery. Home delivery will continue to cost 15c weekly. Price of the newspapers will be 10c on newsstands, however.

### DeLeon Peach and Melon Festival Dates Announced

The De Leon Peach and Melon Festival committee is ready to announce the dates for this year's festival, Aug. 9, 10, 11 and 12.

The Festival has grown to be a homecoming time for former De Leon people. They realize they can see all their friends at the festival. But it is more than a homecoming. It is De Leon's way of telling everyone about all the fine products produced in the De Leon area, and it is De Leon's way of recognizing all the fine communities and the work they do as a community group. And it is De Leon's way of saying, "Come have a good time with us. The entertainment is free and the people are friendly!"

The usual street parade will open the festival and every business, club, or community has an invitation to enter this parade. There is no entrance fee and chances of winning a prize are good.

The Queen's coronation will include representatives from every community around with lots of entertainment especially for them.

The Community Booths, which always highlight the exhibits, promise to be even better this time because of several more active Community Clubs in the County. It is the committee's hope that every one of them will be in De Leon with an exhibit.

All of this is just to say De Leon is planning for a gala occasion and wants all her neighbors to join in the fun.

Any inquiry concerning anything pertaining to the festival may be sent to the Peach and Melon Festival Office in De Leon, telephone No. 5815.

## Six Criminal Cases Are Cleared from Docket

Six cases were cleared from the 91 District Court docket this past week and a seventh case ended up with a hung jury.

Five driving while intoxicated cases were tried and two cases of illegal sales of intoxicating beverages were heard.

A jury gave C. B. Sims a six months sentence plus a \$150 fine and cost of court on a charge of driving while intoxicated, second offense. Sims had entered a plea of not guilty.

A. L. Vinson entered a guilty plea to the same charge, second offense DWI, but waived a jury trial. Judge Turner Collie handed Vinson a six month suspended sentence. Vinson was not fined or made to pay costs of court.

Orville Lee Durham entered a plea of guilty to DWI and was fined \$50 plus court costs and given a three day jail sentence.

The seventh case ended with a hung jury. Benny Paul Zusman was charged with driving while intoxicated.

### Crocker Elected County Chairman By Republicans

Eastland County Republicans elected themselves a county chairman Friday. W. R. (Bill) Crocker, young Eastland attorney, is the first GOP chairman the county has had in recent years.

Crocker was chosen from the ranks of Republicans who met Friday in Eastland. They were called together by Herb Tanner, a spokesman for the group said that plans were worked out to get the Republican Party on a more active roll in Eastland County. The GOP has gained in strength in this county just as it has in the rest of the state in recent years. The election of John Tower as the state's first elected Republican senator brightened the outlook of county Republicans.

EMPLOYEE OF MONTH—B. D. McGraw was still a little amazed when Grover Hallmark, left, president of the Eastland Junior Chamber of Commerce, presented him with this plaque as the outstanding Eastland employee of the month. The award was the third of six monthly awards to be given by Jaycees. McGraw has been an employee of Perkins Implement Co. for the past nine years. He lives in Olden now and grew up in Ranger. (Telegram Staff Photo).

## Travis Hilliards Host Rehearsal Dinner Friday

Rehearsal dinner was hosted Friday evening, June 9 for the wedding attendants of Miss Sue Cantwell and Jack Hilliard by Mr. and Mrs. Travis Hilliard, parents of the prospective bridegroom. The dinner was held at 6 p.m. in the Olden Home Economics Building.

The table was laid with a white linen cloth and centered with an arrangement of white stock and green daisies in a crystal bowl, carrying out the bride-elect's chosen colors. Table appointments were of silver and crystal.

The menu consisted of tossed salad, fried chicken, gravy, baked potatoes, green beans, hot rolls iced tea and apple pie.

Those attending were Mr. and Mrs. Robert Cantwell, parents of the bride-elect, Mr. and Mrs. Phil Hilliard, Diane Cantrell, Carol Hilliard, Sandy Vinson, Sarah Johnson, Sam Owens, Jerry Wilson, Doyle Norton, Glyndia Wilson, Rev. and Mrs. Ralph Perkins, Mrs. J. B. Craig, Mrs. J. D. Johnson, Kaye Morton, Mrs. Alvis Rodgers, Miss Cantwell, Jack Hilliard, and the host and hostess, Mr. and Mrs. Hilliard.

The couple was married Saturday, June 10, in the First Baptist Church, Ranger.

— READ THE CLASSIFIEDS —

Miss Emma Sue Cantwell became the bride of Jack Parks Hilliard in a double ring ceremony read by Reverend Ralph E. Perkins at seven-thirty o'clock Saturday evening, June 10, in the First Baptist Church in Ranger.

Parents of the couple are Mr. and Mrs. Robert Cantwell of Ranger, and Mr. and Mrs. Travis Hilliard of Olden.

The ceremony was performed before an altar centered with a sunburst arrangement of white gladioli stock beneath a salal covered arch with white wedding bells. Arched candelabra decorated with salal and white stock flanked a satin and lace covered prie-dieu. Banked white calladiums and palms completed the scene.

Wedding music was presented by Miss Glyndia Wilson, organist of Ranger and cousin of the bride. Selections were "Bridal Chorus," "Lord's Prayer," "O Promise Me," and "Wedding March."

Given in marriage by her father, the bride was attired in an exquisite formal length gown fashioned of pure silk taffeta, illusion and chantilly lace. The bodice, adorned with lace and featuring a scalloped sabrina neckline enhanced with sequins and seed pearls and long bridal sleeves, complimented a full skirt of illusion and chantilly lace.

Her fingertip veil of pure silk imported illusion fell from a crown entwined with seed pearls and bridal bows of pure silk. She carried a cascade arrangement of frenched white carnations and pearls centered with a white orchid on a pearl studded Bible. Her only jewelry was a single strand of pearls, a gift of the bridegroom.

Miss Sarah Johnson, Ranger, was maid of honor. Bridesmaids were Misses Sandy Vinson, Diane Cantrell, Ranger, and Carol Hilliard, Olden, sister of the bridegroom.

The maid of honor wore a dark mint green street-length dress which featured a scooped neckline, tiny sleeves and bouffant skirt. The bodice was accented with a matching cummerbund with a bow and rose in the back. Bridesmaids' dresses were of light mint green identical to that of the maid of honor. They wore tiaras trimmed with seed pearls that matched their dresses. Each carried stylized bouquets of heavenly pink gladiolus.

Mrs. Alvis Rodgers and Miss Kay Morton, cousins of the bride, were candlelighters. They wore light mint dresses identical to the bridal attendants, and their matching tiaras were trimmed with seed pearls. Their flowers were wrist-let corsages of heavenly pink gladiolus.

Phil Hilliard of Commerce served his brother as best man. The groomsmen were Sam Owens, Ranger, Jerry Wilson, cousin of the bride, and Doyle Norton, Olden.

For her daughter's wedding, Mrs. Cantwell chose a champagne silk organza dress with bone accessories and an orchid corsage. Mrs. Hilliard, mother of the bridegroom, wore a sheath dress of beige silk linen with matching accessories and an orchid corsage.

A reception was held immediately following the ceremony in the church social room. The bride's bouquet was placed on the registry table. Registering guests was Mrs. Phil Hilliard of Commerce, sister-in-law of the bridegroom.

The refreshment table was laid with a three-tiered tulle cloth caught at each corner with a cluster of white satin ribbon along the edge of the table. The bridesmaids' bouquets were placed around the anniversary candle, forming the centerpiece. The table appointments were of crystal and silver.

Mrs. Jim Everett of Olden and Miss Wilma Edwards of Commerce alternated at the crystal punch bowl, and Mrs. J. B. Craig of Ranger, served the cake.

Other members of the house party were Mmes. J. D. Johnson,

O. L. Cantrell, A. F. Hughes of Ranger; J. D. Herrell, W. A. Kelly, O. H. Dick, T. M. Alford, Ed Haynes, and W. P. Edwards, all of Olden.

Music for the reception was furnished by Miss Glyndia Wilson. For the wedding trip Mrs. Hilliard selected a bone linen silk suit with bone and brown accessories. She wore a corsage of a white orchid with a purple throat center.

The couple will reside in Chicago, Illinois, where the bridegroom is connected with the missile and radar division of the armed forces.

The bride is a 1961 graduate of Ranger High School where she was a member of the Sub Debs and Spanish Club. A 1958 graduate of Olden High School, the bridegroom attended Decatur Baptist College and Ranger Junior College. At the

### Christian Science

"Is the Universe, Including Man, Evolved by Atomic Force?" is the subject of the Lesson-Sermon to be read Sunday at Christian Science churches.

The superiority of divine law over the laws of matter will be emphasized. Included in the Bible readings is the account in John (6) of how Christ Jesus walked on the sea to join his disciples in their ship.

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy will be read (p. 273): "God never ordained a material law to annul the spiritual law. If there were such a material law, it would oppose the supremacy of Spirit; God, and impugn the wisdom of the creator. Jesus walked on the waves, fed the multitude, healed the sick, and raised the dead in direct opposition to material laws."

The Golden Text is from Revelation (11): "We give the thanks, O Lord God Almighty, which art, and wast, and art to come; because thou has taken to thee thy great power, and hast reigned."

### Dividers Helpful In Freezer Storage

Whether you can or freeze fruits, vegetables and other foods, there's a space-saving, work-saving device that will be a real boon. The low cost item, available at lumber yards or in the stockpile of the farm workshop, is Masonite 1/8" Tempered Presswood.

Because neither extreme heat nor sub-zero cold will affect it, this hardboard has some excellent uses at harvest time. Its smooth, splinter-free surface is kind to homemaker's hands, too, and its durability is unquestioned. Being thin, the hardboard takes up scarcely any room, either.

In the home freezer, use this 1/8" hardboard as vertical dividers or as pull-out shelves or trays in either upright or chest models. Just round the corners and edges slightly with a sand-block or file, and bore a hole near the front edge for a finger pull. When used as trays, handholds cut out with a jigsaw or keyhole saw will make their handling easy.

You can really organize your freezer's contents with a series of trays made of Masonite hardboard and staked, with their contents, one atop another. In this way, the homemaker readily can segregate packages of peas and beans for example. On the surface of the tray, near the exposed edge, use chalk to mark the contents, so they can be determined at a glance.

An added advantage of the dividers and portable shelves is that frost will settle on them, and it's a simple matter to defrost them.

The home canner will find the Masonite tempered hardboard useful in several ways. It's ideal for cooling jars, for example. The same board then can be used for carrying the jars to the pantry or fruit cellar; in fact, it can be used for a portable shelf, so that like products will be stored together, one trayload resting on the jars below.

Jimmy Gorrell of Beaumont visited his parents, Mr. and Mrs. J. T. Gorrell, Friday and Saturday, and served as an attendant at his brother's wedding.

## Vacation In Texas Advises Tourist Agency

Why not see Texas this year from a tourist's point of view?

That is the vacation suggestion offered to Texas residents by the State's official tourist agency, the Texas Highway Department.

"Many Texans have never seen their own State through a tourist's eyes," explained State Highway Engineer D. C. Greer. "Some Texas residents plan out-of-state vacations because they are unaware of the wonderful variety of scenery, recreation, and historical attractions in Texas."

Greer offered these vacation hints: For more relaxation and enjoyment, plan your vacation early.

For help in planning it, write to the Texas Highway Department, P. O. Box 5064, Austin 31, Texas.

The Highway Department maintains a complete file of descriptive and informative literature on points of interest and special events throughout the State. This material, including Highway Department publications such as the 1961 Official Highway Travel Map, is available free of charge to prospective Texas vacationers.

Vacation outings ranging from full-fledged trips of a week or more down to shorter drives on holidays or weekends can be plan-

ned with the help of free information pieces. Vacationers writing for information should specify the area of the State they wish to visit and indicate their preference of things to see and do.

After a complete study of operations of this newspaper by members of our staff and experts in the newspaper field the Telegram—beginning with this issue is beginning semi-weekly publication.

**HERE'S WHY...**  
 After studying the operation of a large number of Texas newspapers operating in towns with population from 5,000 to 15,000 we have determined that a better newspaper can be offered our readers if we switch to semi-weekly operation. We will publish and distribute the Telegram on Thursday and Sunday mornings. Morning newspapers have become more and more popular and seem to be favored by the reading public. Oh, yes! Watch for details soon of our new monthly special section. It will have color and everything.

## AS IT LOOKS FROM HERE

For many years the Congress has sought ways and means with in the Constitution, as interpreted by the Supreme Court, to deal with the Communist menace within our borders. Many measures have been placed on the statute books for this purpose, and many have been nullified by the Courts. Some have yet to be fully interpreted.

On June 5, the United States Supreme Court rendered a decision which gives hope that, aside from the narrow legal view, the "public interest" is being taken into consideration.

In two decisions the court placed at least a preliminary stamp of approval on legislation intended to help this Government cope more effectively with the Communist conspiracy.

After ten years of litigation the

Court held that "Communist front" organizations must register with the Attorney General.

The second case upheld a section of the Smith Act of 1940, which makes it a crime to belong knowingly to an organization which advocates the violent overthrow of the Government.

The Court did not reach the proposition of deciding whether the penalties provided in the present law will be sanctioned. This will probably have to be decided later and, of course, is important to the enforcement of it.

At some time or other a conflict in the two decisions must be reconciled. In the first, it requires the Communist and Communist front organizations to file their membership lists with the Attorney General. The second makes it an offense to belong to these types of organizations. In other words, if and when they are required to register, they automatically become chargeable under the law.

The narrow issue decided was that Congress can compel an organization dominated by a foreign power to register and that the requirement is not in violation of the First Amendment to the Constitution.

In the opinion, Supreme Court Justice Frankfurter said, "The present case differs from others in the magnitude of the public interest, which the registration and disclosure provisions are designed to protect . . ."

The effect of these two decisions is to place Communist conspiracy into the most crippling device ever aimed at a group which claims to be a political organization. In other words, the Court recognizes that the Communist is not a political party at all, but a conspiracy, and it should be called that. Although the decision was split 5 to 4, it etain n n was split 5 to 4, it is encouraging and important in dealing with a situation made complex by our system, which guarantees so many freedoms and liberties. The enemies of our Nation are able to hide behind these legitimate freedoms and liberties and use them as a license, rather than for what they were originally meant.

A subsequent newsletter will discuss the next text of a measure I have introduced to provide for the denial of passports to persons knowingly engaged in activities intended to further the International Communist movement.

They are said to be the first natives to come in from the desert in the area since 1948.

One of the delightful things that we found both in New Zealand and Australia was that the people are self-reliant, hard working and very friendly. It was a pleasure to be among them.
