ETHIOPIA IS FACING CRISIS OVER ITS ARMS

PARIS, July 19.—Ancient Ethiopia faces a war that will test to the death the stubborn courage of its warriors in their fight to preserve their independence, it was apparent today.

As the expected opening day of war with Italy came near, reports multiplied of the military unpreparedness of the kingdom.

Emperor Haile Selassie will be able to muster perhaps 500,000 men in all, but they are warriors, not soldiers, undisciplined fighters of undoubted bravery but not disciplined for modern war with its requirements for clock-like movements of masses of men under fire.

There are not even rifles enough to go around.

The United Press Addis Ababa correspondent reported the regular army even now numbered hardly more than 15,000 men and it was unlikely to be increased to 30,000 in the next few weeks.

Boy, 10, Writes Edits, Finances Own Newspaper

SHEBOYGAN Wis.—Ten-year-old Bruce (Buster) Hoefler is the sole editor, publisher, reporter, pressman, copy reader, printer, business and circulation manager of a Sheboygan newspaper.

A feature in the adventures of a reporter led Buster to utilize his typewriter, some extra paper he didn't use in school, and several sheets of carbon paper to turn out the first edition of his paper last March.

It was hard work, Buster found, to do all the work himself, particularly printing his papers on a typewriter.

Unable to obtain capital from his father, Ernest Hoefler, Buster purchased a \$42.50 duplicating machine on liberal terms.

Schools Thinking, Writing, Talking Texas Centennial

President Roosevelt Holds Whiphand in Power Fight

Franklin D. Roosevelt keeps his own counsel. He does his own thinking. He is going down the line for his "must" bills. Many senators who are said to have deserted his standards returned to the fold. As for the house of representatives, it stripped all concessions to power interests and adopted all amendments to expand operations of the Tennessee Valley authority and to safeguard it from further attacks in the courts when it sent over the top the administration measure by a vote of 277 to 100.

Sam Reyburn of Texas is chairman of the interest commerce committee. He named four democrats and two republicans to the conference committee. A remainder that the senate conferees named by Vice President Garner stands 4 to 1 in favor of the "death sentence" and that Chairman Reyburn who named the house conferees is said to be first and last and all the time for the "death sentence" clause of this very important measure.

And Now the Whisperers Are Busy Again

There is "a whispering campaign on in America" concerning the health of the President of the United States, and the whisperers are men who would like to see a change—or a vacancy—at the White House. Franklin D. Roosevelt knows the tactics of the whisperers. He knows the game as it has been played in bygone years. According to his physicians, physically speaking, he is one of the most remarkable men that the republic has known.

New York police head tells his men they're salesmen and "must sell the city to the visitor." As hot prospects, how about those already holding deeds to the "Brooklyn Bridge?"

NEW COUNTY RELIEF SETUPS EXPLAINED BY H. E. DRISCOLL AT MEETING HELD IN EASTLAND

At a meeting of all county relief officers, held in the county commissioners' courtroom at Eastland Thursday night, H. E. Driscoll, county relief administrator, outlined new plans for Eastland county relief setups which will eliminate much of the administrative expense in the county.

Relief offices at Ranger, Cisco, Rising Star and Gorman will be discontinued in the near future, Driscoll explained, and the entire relief administration will be handled out of two offices, one in Eastland and one in Carbon.

The Ranger, Cisco and Eastland offices will be combined at Eastland to handle the relief work in the northern half of the county and will be in charge of the 955 cases in that section.

The Rising Star and Gorman offices will be merged at Carbon and will have supervision of the relief cases in the southern half of the county, totaling 400 in number.

The Eastland office will be under the management of J. W. Wilson, at present relief officer at Ranger, and the Carbon office will be managed by Wortham Seale, at present relief officer at Rising

J. A. Wells has been appointed to assume, today, the duties of case work supervisor of the Eastland county relief board, and W. E. Moore, present work supervisor, has been appointed as assistant case work supervisor.

Because of the centralized control so necessary the new works program coming up, this merger has been made, Driscoll explained, and to greatly reduce the administrative and overhead expenses of the relief operations in Eastland county for both work relief and direct relief.

None of the present case workers, numbering 13, will be dismissed, Driscoll said, and in most cases they will be retained in their former relief territories.

Case load tabulations as of April 4, 1935, showed 2,504 on relief, while at present the number is 1,355, Driscoll pointed out at the meeting. Four case workers were dismissed on July 11, while on July 12 three additional case workers were transferred to the rural rehabilitation department and out of the supervision of the Texas relief administration.

THE NEW STRONG MAN

New State Laws Now Under Fire Of Court Tests

AUSTIN, Tex.—New Texas laws are under fire in the courts. Texas officials are wondering if they will meet a fate like the NRA.

Enforcement of the new cigarette tax act has been halted by both state and federal court injunctions. It was passed to stop the inflow of tax-free cigarettes from other states.

A federal injunction has been asked at San Antonio against the new Texas Securities act, passed to regulate stock sales. Three judges are to pass upon its validity. Specific complaint is that the law is inapplicable to oil and gas leases because they have been held to be real estate and, therefore, not securities.

The new law for confiscation of "hot" oil won a skirmish in Federal court at Houston, also before three judges. The confiscation, itself, was not ruled upon directly but commission regulations under the same act were upheld. Most striking feature of the decision was the announcement that when validity of the confiscation feature is attacked directly, the Federal courts will see how the state courts construe the statute.

Old laws also are under new attack. The latest court ruling to date holds that the state has no valid anti-trust statute. The decision has been appealed to be no likelihood of a decision before fall.

The Supreme Court also has before it for final decision the validity of dog racing with parimutuel betting. Two appellate courts have made directly opposite rulings on the matter. The court of Criminal Appeals decided that the article under fire did not apply to horse race betting.

Likely soon to face a court test is the new law authorizing a discount on taxes paid in advance. The act has been held unconstitutional in an opinion from the Attorney General's Department. Whether courts will take the same view remains to be seen.

Texas Indigents Must Register to Work Under WPA

AUSTIN.—Texas indigents who want to work on Works Progress Administration projects must register with the U. S. Employment Service, according to a report sent to Texas Relief Commission officials.

Social service department of the Texas Relief Commission will certify employables to W. P. A., basing priority on such considerations as health, disabilities, skill, and morale. Relief clients certified will be dropped from regular rolls as soon as the first pay check is received.

Enrollment of a youth in Civilian Conservation Corps work will not preclude hiring another member of the same family on a works project, the report said.

17,897 Wells Listed In East Texas Field

KILGORE, Texas.—Major companies had 9,384 wells in the East Texas oil field and independent operators had 8,513 of the total 17,897 wells at the close of June, according to a compilation made by J. L. Greer of the records department of the East Texas division of the Railroad commission.

Of the total allowable production for the month, 13,948,119 barrels, major company allocations amounted to 7,478,429 barrels while independent allowable totaled 6,469,690 barrels, the compilation shows.

Independents completed 261 wells during the period while major companies completed 196 wells.

Try a WANT-AD!

He's Playing Baseball Again!

Joe E. Brown, who will open in the Warner Bros. comedy "Alibi Ike" at the Lyric Theatre today played in big league baseball before he became an actor. Now, in Ring Lardner's home run comedy, he does everything except stop line drives with his mouth. Olivia de Havilland is the femme lead.

DIZZY HEIRESS BESTS "MUGGS" IN COMIC FILM

For the character Patricia Ellis plays in Damon Runyon's "Hold 'Em Yale," coming Sunday to the Lyric theatre, "there's something about a uniform" that just drives her crazy.

Miss Ellis in the leading feminine role of this new Paramount picture plays a dizzy little heiress who marries every man she meets who wears a uniform, much to the disgust of her father and the discomfort of his payroll—after having bought off five or six husbands.

Some of Mr. Runyon's "citizens of Broadway" figure on cutting in on this nice little graft. So, with Cesar Romero dressed in a phony aviator's garb they entice the little girl away from home and decide to hold her until her father comes through with plenty.

The little girl turns the tables on them however, forces them to eat her cooking, wash their necks, spruce their appearances and generally makes life miserable for these "hard citizens."

When they try to get rid of her, they discover that her father won't take her back, but wants her married off to a boy at Yale.

In the comedy final sequences the gangsters take charge of the Harvard-Yale football game, contrive to make the prospective groom win and finally get rid of the "doll."

Directed by Sidney Lanfield, "Hold 'Em Yale" features Cesar Romero, William Frawley, Andy Devine, Warren Hymer and George E. Stone as members of the Broadway gang, and Larry Crabbs as Miss Ellis' final choice.

GRACE MOORE BRINGS HONOR TO THE FILMS

The movies have more than come into their own! And this fact is made public by no less than the Society of Arts and Sciences, for the venerable society's award to Grace Moore for "vitality affecting our national culture at the present stage of our evolving civilization" gives ample proof that the motion picture is an intelligent art and a great potential cultural influence.

This is the first time that motion pictures have been so honored, and, in the past, only one other woman has been awarded the society's medal—Eva La Gallienne, for her contribution to drama.

Maintaining the same splendid calibre of artistry, lovely Miss Moore comes to the Lyric theatre on Monday in Columbia's dramatic musical, "Love Me Forever," featuring Leo Carrillo and Robert Allen. In winning the award, Miss Moore automatically raised the standard of film entertainment several notches, and "Love Me Forever" is an excellent example of the demand for film fare finer in every phase.

The list of distinguished recipients of recognition from the society in the past accentuates its departure from tradition in looking to the field of popular entertainment for the current nominee. The previous recipients are:

Thomas Alva Edison, Case Gilbert, James McKee, Carrell William Crocker, Jay Downer, Frank Damrosch, John Philip Sousa, Madison Grant, Governor W. J. Kohler, Gilbert N. Lewis, William White Niles, Harlow Shapely, Albert A. Michaelson and Robert A. Milliken.

JOE E. BROWN IN "ALIBI IKE" OPENS AT LYRIC TODAY

Joe E. Brown is coming to town today.

He appears at the Lyric theatre in "Alibi Ike," Warner Bros.' home run comedy, based on the popular story by Ring Lardner.

Joe, in the title role, is both a crack pitcher and the best batter of his club. He has an alibi for everything—not just for mistakes—but for plays any other player would have been proud of.

Joe falls in love with the sister of the captain's wife, but when he alibis on his romance, the girl hears him and turns him down cold.

Thrills follow in which Joe is kidnaped by a bunch of crooks, but

he escapes, and the romance is patched up by the players in one of the most comical climaxes imaginable.

Others in the cast include Ruth Donnelly, Roscoe Karns, William Frawley, Eddie Shubert, Paul Harvey, Joseph King, Joseph Crehan, Adrian Rosley and a score of expert baseball players of national reputation.

DEATH TO INSECTS BUT HARMLESS TO MAN

Scientists have frequently pointed out that if mankind is ever wiped off the earth it will probably be the insects who do it. As civilization has progressed, wild animal and bird life has suffered.

BEGIN HERE TODAY JO DARIEN, finishing her first year in college, learns her father is out of work. Jo hunts a job and secures part time work in a marie supply store. There she meets wealthy, handsome DOUGLAS MARSH who offers her the job of hostess at his inn at Crest Lake. Jo accepts and this causes a quarrel with BRET PAUL to whom she is engaged. Jo breaks the engagement. She goes to Crest Lake. Marsh warns her that many people consider his mother eccentric. Jo no sooner reaches her room than word comes from Mrs. Marsh that dinner is to be served in five minutes.

When she felt clean and refreshed and had rubbed her hard young body's whiteness to a pink glow she found that three minutes of the five were already consumed. Piqued at the thought of having to rush so insensibly, Jo went to the telephone and got Penton at the desk downstairs. "Would you please tell Mrs. Marsh that I'm sorry, but it will be 10 or 15 minutes before I can be down?" "I certainly will, Miss Darien."

Council Calls Special Eastland Commission Election For Aug. 6

Arrangements for the special Eastland city election on Aug. 6 were completed by members of the city commission Thursday afternoon when judges were selected. The election was called at a session of the body held on the previous afternoon.

J. H. Cheatham was selected as presiding judge with the following to assist: Oscar Wilson, J. F. McWilliams, O. A. Cook, Frank Lovett and W. K. Jackson.

A vacancy in the Eastland city commission was occasioned when O. E. Harvey resigned June 5. Commissioners in session Thursday, Mayor C. W. Hoffmann, H. O. Satterwhite and T. M. Johnson, indicated the city might trade taxes owed by R. F. Jones amounting to \$469 for a deed to a lot which the fire department wants for night baseball.

City Clerk Kelly reported an increase in collection of water accounts, but stated many users had disregarded notices to pay delinquent accounts. He was authorized by the commission to send final notices telling consumers either to pay or call at the city hall to make suitable arrangements.

Automatic Tax Board Will Meet

AUSTIN.—Justification for its name will be given by the State Automatic Tax Board on July 20. The board will meet then and automatically adjourn, as automatic tax boards have done for years. Supposedly the board is to meet, receive the state tax rolls, go into a huddle with mathematicians and compute the tax rate necessary to balance the state budget.

The meeting date for the board is fixed by statute. But the tax rolls never are completed by the time the board must meet. All it can do is to adjourn until the rolls have been completed. That, usually is some time in August.

Lions Will Hold First Convention Outside of Nation

CHICAGO.—For the first time in its history Lions International is holding its annual convention in a non-English speaking country. On July 23 an estimated 6,000 Lions and their friends will gather in the capital of Old Mexico for their four-day 10th annual meeting. They will reach the Aztec capital by special train, by plane, by boat, and if the highway is in good condition hundreds of them will drive. Director General of Highways, Senor Gonzales, has ordered the Laredo-Mexico City

LYRIC SUNDAY

Watch out boys—she'll get you! Patricia Ellis having a grand time in a scene from Paramount's hilarious Damon Runyon comedy, "Hold 'Em Yale," which opens Sunday at the Lyric Theatre. In the crowd are William Frawley, Andy Devine, George E. Stone and Warren Hymer. Larry Crabbe, Cesar Romero and George Barbier are also prominently cast in this Charles R. Rogers production.

highway closed until July 15 to prepare it for the convention traffic.

The convention program will be opened at 2 p. m., Tuesday, July 23, when International President Bascall of Omaha, official of the Standard Oil company of Nebraska, will take charge of the sessions. His report, which will cover the record made by the Association during the past twelve months and will include recommendations for the new fiscal year will be one of the highlights of the business sessions.

Besides the business sessions for delegates and officers there will be an unusual amount of typical Mexican entertainment and hospitality. On Wednesday evening the president of the Republic of Mexico, Senor Lazaro Gardenas, will receive the delegates, and prior to this Ambassador Joseph Daniels will receive delegates at the United States embassy. Some of the convention proceedings will be broadcast over a national hook-up in

Mexico, which will be relayed by a number of American stations. Trips to the famous pyramids of the Aztecs, and the floating gardens of Zochimilco, a Mexican circus, and a trip around Mexico City are among the special features arranged for the delegates. The convention sessions will be held in the magnificent Palacio de Belle Artes, recently completed, while many of the evening affairs will take place in the newly erected foreign club. It is expected that a large portion of the delegates will take advantage of the post-convention tours through Central Mexico which have been arranged for them by the Lions Club of Mexico City.

A unique feature of this convention is the use of a "Pullman City," for the accommodation of the delegates who will not be able to secure hotel rooms during the convention. Every hotel room and available apartment, and a good portion of the accommodations available in private homes are already reserved. Hundreds, possibly thousands will therefore stay in Pullman City during the convention, where they will have their own lighting system, their own police force, a special cabaret, restaurant facilities, shops, baths, and even carefully laid out streets and boulevards lined with trees and flowers.

The convention will mark the close of particularly successful year for the Lions organization, during which sizeable increases in both the number of clubs and the total membership of the Association were made.

Copies of New Laws Costs Citizens \$1.75

AUSTIN.—Texans who want to know the new state laws that they must obey can now find out for \$1.75. Official copies of the laws of the regular session of the 44th legislature are ready for distribution.

Secretary of State Gerald C. Mann received them and started the distribution Saturday. The laws are in two volumes. No appropriation was made for furnishing copies free. The \$1.75 covers the cost of printing and postage.

Relief Clients to Register for Work Under PWA Plan

AUSTIN.—Relief roll clients in order to receive benefits of work

under the Works Progress Administration must be certified as to eligibility for work and be registered with the U. S. Employment Service, according to instructions received by Texas Relief commission officials from the Federal Emergency Relief Administration in Washington this week. The social service department of the Texas Relief commission will handle

certification of employables to the Works Progress Administration. The instructions pointed out that priority of workers within families shall be suggested by the social service department, based upon such considerations as health, disabilities, preservation of skills, and morale.

It was further provided that enrollment of a member of a family in the Civil Conservation Corps shall not preclude the employment of another member of the same family in whole or in part under the Emergency Relief Appropriation Act of 1935.

Certification of a client for eligibility to employment under the new program will not mean that the client will be dropped from the relief rolls, but as soon as the first paycheck for such employment is received, the case will be closed and relief stopped. The same regulation will apply

to non-resident transients, provided they have been registered in a relief center or camp, or more, and with that no certification for transients July 15.
