

TEXAS TO GET \$40,000,000 FOR HIGHWAYS

reminds me...

Tornado time seems to have extended over plus this year. Oklahoma is parts got one that wrecked property and twisted human bodies to serious injuries.

There is something always to take into consideration and worry about. The only thing that overcomes the griefs of this world, none of us would be worth a darn. Of course there are several kinds of griefs—deaths, unhappy homes, through domestic tangles and sickness.

All this comes from reading the records, news stories all over the nation of divorces, homicides and other casualties that are the fate of humanity's neglect of understanding.

Love is a great thing—no matter where it is bestowed, if properly so, it builds character, and preserves confidence, and understanding is the greatest method of combat against any invasion of minds who are likely to become distressed.

Seeking happiness and content is usually the procedure of those who come under the brunt of a jealous mate or sweetheart. There is of course a little jealousy in all humanity, but of a different nature.

After all it is said and done, folks can get along if they try in any capacity. Eastland now needs the cooperative spirit as a city more than ever. It has constantly been losing and recovering from the massive years of no bank and no banking business.

Famous Corsican Bandit Beheaded
PASTIA, Corsica, June 21.—Andre Spada, last of the famous Corsican bandits, was beheaded at dawn today in the prison courtyard.

L. A. Beard, Jess Williams and many of who as ited them as well depositors who cooperated a full credit for making a continued on page 6)

Installation of Eastland Masons Is Slated Monday

Installation of new officer elected last week by Eastland Masons is scheduled when the group meets in their temple Monday night, members of the lodge announced today.

FOUR DEATHS ARE ADDED TO FLOOD TOLL

WHARTON, Texas, June 21.—Another four deaths were added to the growing list of flood victims today as the crest of the Colorado river's worst flood in 22 years swept toward the Gulf.

The first death from the flood occurred last night when a negro was carrying bed springs from a home and scraped them against an electric switch. He fell into two feet of water and officers had not determined if he had died from the shock or was stunned and drowned.

Three persons were drowned three miles south of Eagle Lake when their boat capsized. Their bodies were recovered today. Residents made their way over the city today by wading and by the use of boats.

Anglo-German Naval Pact Agreed To By British

PARIS, June 21.—Capt. Anthony Eden of Great Britain appeared today to have achieved another diplomatic victory and diverted a rupture on the Franco-British political front by Britain's agreement to let Germany build a big navy.

At the end of the conversation today, Pierre Laval said: "We discussed with frankness the Anglo-German naval accord. Capt. Eden explains the reason which leads his government to take this stand. I did not fail to repeat the reserve of my government. My personal relations with Capt. Eden are sufficient to stress the friendly character of our conversation."

Frank Smith Freed Of Bribery Charge

LONGVIEW, June 21.—Frank Smith, son of Texas Railroad Commissioner Lon Smith, was acquitted today of charges he conspired to bribe a witness in an oil theft case to stay out of Texas.

Famous Corsican Bandit Beheaded

PASTIA, Corsica, June 21.—Andre Spada, last of the famous Corsican bandits, was beheaded at dawn today in the prison courtyard.

Henri Deibler, as famous an executioner as Spada was a bandit, dressed in top hat, frock coat and black gloves, pulled the cord which shot the triangular blade of his guillotine down its oiled grooves to sever the victim's head.

TORNADOES IN MIDWEST ADD TO DAMAGE

KANSAS CITY, Mo., June 21.—Tornadoes today added to the destruction caused by floods in the middle west. Communities in Oklahoma, Missouri, Kansas and Nebraska, some experiencing flood conditions worse than those of three weeks ago, were visited by high winds.

In the Joplin, Mo., area two persons lost their lives and two were injured. Property damage was great. One woman was killed when lightning struck her home and a section hand lost his life when floating logs knocked him into deep water as he worked to loosen a jam at a bridge.

Two men were hurt when a barn was demolished by wind. A woman suffered injuries when her house at Joplin collapsed and Joplin was in darkness for a time when the power lines were broken down.

Delegate Election Put Off Until Next Meeting On June 27

Election of delegates to the Mineral Wells American Legion 17th district convention July 13 and 14 has been deferred until June 27, next regular meeting date of Eastland Legionnaires, Percy Harris, post commander, stated today.

HIGHWAYMAN VISITS Wesley Hall, former resident highway engineer stationed at Eastland, now of Brownwood, was a visitor in Eastland Thursday.

Mr. and Mrs. Gredy Pipkin and sons, James, Raymond and Bruce, have moved from their residence at 403 Pershing to what is known as the Day home, at 201 Oak Lawn.

Calls Minstrel Meeting Tonight

Contemplated minstrel for benefit of an encampment this summer for the Eastland high school football team will be discussed tonight at 8:30 in the Chamber of Commerce building, H. C. Davis, secretary, announced today.

Tax Program Vote Sought In Senate

WASHINGTON, June 21.—Senate progressives of both parties today determined to force President Roosevelt's tax redistribution program to an early vote despite the lukewarm attitude of leaders toward action.

Senators Burton K. Wheeler, Dem., Montana, and Robert LaFollette, Wisconsin, were leaders of a bloc fighting to pass the measure. They claimed support from both parties.

Bruno's Last Fight Prepared Today

TRENTON, N. J., June 21.—Attorneys for Bruno Hauptmann prepared their last attack today on his conviction for murder of the Lindbergh baby. In 20 days the state court of errors and appeals will take under advisement the last legal plea he can make.

Products of Economy, Needlecraft Seen As Dresses Shown in Contest; Winners in Annual Event Are Named

Results of a small amount of money coupled with industry and needlecraft were seen by 200 women Wednesday at the Eastland Methodist church as 99 dresses were modeled by their makers in the annual 4-H and home demonstration clubs contest.

The event, annually sponsored by the county home demonstration agent, attracted a field of entries larger than in many previous years. Last year there were 38 entries. Fourteen of the 15 home demonstration clubs and all five of the 4-H girl clubs were represented in the contest.

Material cost of the dresses range from 20 cents to \$2.50. Miss Ruth Ramey, county home demonstration agent, estimated the dresses were duplicated in stores at a cost of \$3 to \$6. Entries in the contest were judged by Miss Mamie Pryor, Stephens county home demonstration agent. First place winners will receive a free trip to the annual week's short course at College Station. The group will leave July 28 by school bus. Others who desire to make the trip may arrange with Miss Ramey. All expenses will be covered for \$8.75, Miss Ramey stated.

GAS COMPANY OFFICIALS TO JOIN EMPLOYEES IN ANNUAL LONE STAR PICNIC SATURDAY

L. B. Denning of Dallas, president of the Lone Star Gas company and pioneer natural gas man, will join more than 1000 employees here tomorrow as they celebrate the Silver Anniversary of the company with an annual picnic and dance, according to word received by Frank V. Williams, manager of the Community Natural Gas company, Eastland division, this morning.

Refreshments for the ladies' bridge tournament were planned by the assistance of Miss Albertine of Dallas, home economics director for the Lone Star Gas System. Miss Berry will attend and assist in serving refreshments. Parties are expected from Ranger, Cisco, Strawn, Breckenridge, Albany and other cities in West Texas.

The management of the Lyric theatre at Eastland has arranged for the latest comedy by Wheeler and Wolsey, "The Nitwits," as a special feature for Lone Star Visitors. There will be a continuous show during the afternoon and evening.

Eastland Boy Scouts have been granted soft drink concession privileges at picnic and ball park, F. V. Williams, stated. The complete program for the day follows: Rocket tournament, 10 a. m.; R. A. Turner and Pirtle Robinson in charge; golf tournament at Eastland golf course, 2 p. m.; George T. Williams and Fred Driehof in charge; ladies bridge tournament, open to public entry, Connelley hotel roof, 2 p. m.; Mmes. S. M. Gamble, John Kindie, C. L. Wolford, E. K. Smith, Mrs. M. O. Atterbury, and J. A. Jarboe in charge; baseball tournament for Lone Star System championship at Connelley Park, 2 to 5:30 p. m.; John Kindie in charge; horned frog race for children under 12 will be staged between ball games at Connelley Park, J. A. Jarboe, Herman Kelley, Harry Henry and T. N. Jenkins in charge; fly and plug casting contest at Connelley Park, 4:30 p. m.; J. P. Hayne and W. C. Driehof in charge; joint band concert at Eastland City Park by Eastland and Lone Star bands under direction of C. W. Colham, 6:30 p. m.; introduction of speakers by Frank V. Williams, address of welcome by Mayor Hoffman, response by L. B. Denning, 6:40 p. m.; during concert intermission; basket lunch at City Park, 7:30 p. m.; dance on Connelley hotel roof for employees and their friends, 9 p. m., script \$1.00.

Roper Testifies In Department Probe

WASHINGTON, June 21.—Commerce Secretary Daniel Roper testified in a senate inquiry today that Edwin Mitchell, ousted assistant secretary, was "willing to wreck the public service through charges based on rumors of suspicion."

He said Mitchell's dismissal a week ago was "imperative in the interest of efficiency in the proper dispatch of government business."

County Rabbit Man To Meet Thursday

Meeting of the Eastland County Rabbit club scheduled for Thursday night in the Eastland Chamber of Commerce building has been postponed until the same date next week at 8 o'clock. Hugh Owen, member, announced today.

DRY MEETING A prohibition meeting will be held this evening at Bluff Branch schoolhouse, it was announced today.

MURDER TRIAL OF PASTOR IS TRANSFERRED

ORANGE, Texas, June 21.—The murder trial of Rev. C. Edgar Eskridge, who shot Police Chief Ed O'Reilly to death here, was transferred to the court of District Judge Langston King at Houston.

District Judge Pat Adams granted a defense motion for a change of venue after a parade of witnesses testified at a hearing it would be impossible for the crusading Baptist minister to get a fair trial in his home town.

Eskridge, a large man, smiled when Judge Adams announced his ruling, and said Houston was a "fine place" for the trial. "I have lots of friends in Houston. They are fine people. I know they will try me fairly and impartially on the law and evidence," he said.

Kills His Wife, Shoots Her Lover, Then Takes Poison

NEW YORK, June 21.—In keeping with the bizarre slaying of his wife and wounding of the man he believed to be her lover, Peter Christ, 32, pulled two poison tablets from his coat lining in homicide court today and gulped them down.

Christ's spectacular act showed the same cunning he displayed in forcing his way into his wife's apartment, killing her and setting up a home-made electric chair, allegedly to torture and kill the man who admitted himself to the apartment later. The intended victim escaped by a dash to the door, but was wounded.

Today Christ fell to the floor in pain. He was taken to the prison ward of Bellevue hospital, where it was believed he would recover.

Court to Attend Texas Bar Meet

Chief Justice W. P. Leslie and Associates Clyde Grissom and O. C. Funderburk of the Eleventh Court of Civil Appeals, are planning to attend the Texas Bar association convention in Houston July 4-6.

Striking Lumber Workers Riot And Kill Man

EUREKA, Calif., June 21.—One was killed and several wounded by gunfire today when striking Eureka lumber workers rioted. Six policemen were wounded. The riot occurred at the Holmes-Eureka mills. Twenty strikers were jailed and a roundup of those involved was started.

Police said trouble started when a police officer drove to the plant to relieve a night watchman. As he reached the plant pickets blocked the road and attempted to drag him from the car, but he escaped and sped into town.

Oil Belt Express Men to Convene In Ranger July 18

Express men of the Oil Belt will hold their next meeting in Ranger, July 18, it was announced today following a session of the group at Breckenridge last night.

H. A. McCanlies of Eastland and B. Harman of Ranger attended the meeting. Mrs. Harman accompanied Mr. Harman.

Membership in the organization is comprised of express men from Ranger, Eastland, Cisco and Breckenridge.

Reversed and Remanded: Firemens Insurance company of Newark, N. J., et al vs. Universal Credit company, Dallas.

Reversed and Remanded: Firemens Insurance company of Newark, N. J., et al vs. Universal Credit company, Dallas.

Motions Overruled: A. M. Ferguson, Temp. Admr., et al vs. Joe Lee Ferguson, appellant, et al vs. plaintiff in error's motion for rehearing; Harry Lee Hamilton, Admr., et al vs. Ruth S. Hill, et al, appellants' motion to dismiss appeal and appellee's cross assignments; Harry Lee Hamilton, Admr., et al vs. Ruth S. Hill, et al, appellants' motion for rehearing on appellant's contest of appellee's motion requesting permission to file amended brief; Maryland Casualty company vs. L. A. Bryant, et al plaintiff in error's motion for rehearing.

Motions Dismissed: Metropolitan Casualty Insurance company vs. Mrs. Bessie Woody, et al, appellee's motion to return mandate without payment of costs.

Man Identified At His Trial As Holdup Slayer

HENDERSON, Texas, June 21.—Identification of Carl Bartlett as the holdup man who killed J. T. Northrup at Turntown on May 24 was in the record today at his trial on charges of murder.

Bartlett was identified by D. C. Mahan, another victim of the holdup, who was shot and wounded by the robber who killed Northrup.

Mahan said the robber was masked by a handkerchief tied over his face but he believed the man was Bartlett because of his size, build and general appearance.

Eastland Boy On NTAC Honor Roll ARLINGTON, June 21.—Robert Martin of Eastland has recently compiled a total of 27 grade points to earn a place on the North Texas Agricultural College honor roll, Dean George L. Dickey has announced.

ANNOUNCEMENT MADE BY ROAD COMMISSIONER

WASHINGTON, June 21.—Federal funds of about \$40,000,000 will be made available to Texas for highway construction in the next few days, the state was promised today.

Thomas MacDonald, federal roads commissioner, made the announcement last night at a banquet given for the Texas congressional delegations by members of the state highway commission.

MacDonald said he had drawn up a plan which he expected would get administration approval today or tomorrow. Under the plan 15,000 men would be put to work. The money will come from several sources. Texas will get about \$22,000,000 from the \$40,000,000 allocated for roads under the \$4,000,000,000 works relief fund, MacDonald said.

About \$7,500,000 will be available under the Hayden-Cartwright act, which is matched by a similar amount of state money. In addition, a sum, still undetermined, will be granted for emergency flood relief.

By making use of the money derived from the Cartwright act and the emergency fund, the highway commission will be able to put 15,000 from relief rolls to work.

Company to Reward Careful Employees At Meet Tonight

CISCO, June 21.—One of the largest general safety meetings to be held by the Lone Star Gas system in this area will be held in Cisco tonight at 8 p. m., on the roof of the Laguna hotel. Arrangements are being made for more than 400.

The Eastland division of the Community Natural Gas company will be one of 16 divisions and plants of the Lone Star system to receive an accident prevention award for one year of continuous operation with no lost time accidents. The award will be received for the division by Frank V. Williams, division manager.

Piques for five years continuous service without a single lost time accident will be awarded to Lone Star Gas company compressor plants at Caddo, Ixeh, and Ranger plant 3, and the Lone Star Gasoline company plant 108-2.

S. P. Using Rails of Texas Pacific

Twelve to 15 Southern Pacific trains are routed through Eastland and Ranger over the Texas & Pacific tracks since recent bridge and track washouts over Texas, trainmen said today.

The Southern Pacific trains are transferred to the Texas Pacific at Sierra Blanca, to continue until they reach San Antonio, it was said. Contract of the two companies was made for 10 days and expiration is expected within five or six days, the trainmen said.

Italy's 'Own Problem' May Be World's, Too

Fifty thousand more Italian soldiers are about to depart for Africa, according to dispatches from Rome.

Mussolini has ordered their mobilization in connection with the Abyssinian dust-up; and the dispatches explain that, while he isn't exactly hunting for trouble, he "wants to show Europe that Italy can solve its own problems" without the aid of the League of Nations or anybody else.

This is a praiseworthy bit of individual self-reliance, no doubt, and should be accepted gratefully in a world where self-reliance is becoming a rare virtue. And yet this business of solving your own problems, in the field of international relations, is not quite as simple as it may seem—for the excellent reason that when you set out to solve your problems you are very apt to raise a new set of problems for somebody else to solve.

It is not hard to find illustrative examples from history.

For many years prior to 1914, the "Serbian question" was one of the most weighty problems confronting the government of Austria-Hungary. We can understand it best by pretending that California, New Mexico, Arizona, and Texas were almost solidly populated by Mexicans; and these Mexicans all wanted to get back under the Mexican flag; and that the Mexican government connived with them in a campaign of terrorism by which American governors in these states were assassinated and American buildings were bombed.

Such a situation would seem unendurable to us; and that is precisely the way an exactly similar situation seemed to the government of Austria-Hungary in 1914, so that, when the Archduke Franz-Ferdinand was killed, the government anticipated Mussolini's program and set out to solve its own problems without any outside assistance.

Well, there is not much use going into details about what happened next. For Austria-Hungary to solve her Serbian problem meant the creation of a new problem for Russia; for Russia to solve that gave Germany a problem; and after a few similar progressions, the whole world found itself with a series of interlocking problems which resulted in the death of some millions of men.

Discussing the affair at this length is just another way of saying that national relationships are so extraordinarily complex these days that no nation any longer has any external problems which affect itself alone.

The world has shrunk too much. Whether we like it or not, we shall all, eventually, sink or swim together.

NRA Breakdown Calls For Change in Plans

It is generally taken for granted that the administration and the business community must find a new method of bringing about business recovery, in view of the supreme court's NRA decision, and that this method must include some better system of applying those controls which fell to the ground in the sick chicken case.

Since most people agree that something in the nature of a constitutional amendment would be necessary to bring this about, it is apparent that any such program would take a very long time to put into operation. It might be more stimulating to look in an entirely different direction. The reversal of NRA fortunes unquestionably brings the New Deal program to a halt; but the field of government control of business is not the only one in which a fresh course could well be charted.

For it is worth remembering that the NRA was not merely a scheme for integrating the business world through government action. Its basic philosophy was the notion that recovery could not take place unless prices were kept up, and this, in the condition of the last few years, was possible only through restriction of supply.

As the NRA collapses, the chance of putting this policy into effect collapses also; and it is worth asking ourselves whether a change of course in this field might not be advisable.

When you try to bring about recovery by maintaining good prices you run the risk of mistaking the symptom for the disease. Falling prices, or a low price level generally, are not the cause of bad times; they are the result of bad times.

If you undertake to boost these prices by cutting down on the available supply of goods, you are not getting at the underlying trouble. The real trouble is the fact that production at a profit is not possible for the bulk of the producers.

In other words, it is the flow of goods itself, rather than the price level at which the flow is taking place, that is important. And the downfall of the NRA may give us an excellent chance to re-orient our policy so as to deal with the trouble itself instead of which its painful symptoms.

We have been trying, so far, to bring about prosperity through the control of an artificial scarcity. In some ways this has borne an unfortunate resemblance to the labors of a man who tries to lift himself by his own bootstraps. We may be better off if we get away from the notion that we can help ourselves by the use of scarcity, and turn to the idea of trying to work the trick by stimulating abundance.

PRIMER FOR CRIMINALS

Black Widow Spider Deadly as Rattler

Many people have found to their sorrow that the harmless looking little Black Widow Spider is extremely poisonous. Deaths have been reported from the effects of the poison and "dangerous as a rattlesnake" has become the manner in which people regard this spider.

In the west serious difficulty was caused because the grape growers could not get the Japs to go into the vineyards to pick the grapes, because of their fear of the Black Widow. In other sections of the country a similar deep feeling of fear has been felt and rightly so, for this spider has demonstrated its death dealing

qualities. Fortunately, however, the Black Widow Spider is easily destroyed if handled in the right way. This control was first brought to the attention of the public by Walter S. Cooke of Durango, Colo., who experimented with Fly-Tox spray as a means for destroying the Black Widow and found it 100 per cent effective. Mr. Cooke urges that all spiders be regarded with suspicion and points out that a whiff of Fly-Tox will kill them. This suggestion, says Mr. Cooke, will undoubtedly save lives this year.

Famous woman writer says college women are better for the important project that cannot be hastily carried out. Like getting hubby to finance a new spring coat.

By HARRY GRAYSON

FORD FRICK, president of the National League, is right. There'll be more night baseball in 1936.

"Players were not handicapped in any way that I could see," said Frick, commenting on the nocturnal major league inaugural between the Reds and Phillies that attracted more than 20,000 persons in Cincinnati the other night.

The Reds and Phillies would wait a long time to deploy before a crowd of that size in daylight. You can include Saturdays, Sundays, and holidays when you say that. And this first night game was played on Friday.

Will Harridge, whose American League voted against the venture, called the night game at Crosley Field the greatest spectacle modern baseball has offered in several years. He enjoyed it.

Harridge asserted that the illumination—634 powerful lamps, each of 1500 watts—was the best he ever had seen in operation.

"Playing under lights robbed the game of none of its color or thrills," added the American League's chief executive. "There is, of course, danger of overdoing it, as baseball essentially is a game to be played under sunlight. But night baseball has great possibilities."

Handicap to Outfielders

BILL KLEM, dean of National League umpires, explained that while players struck at more bad balls than they have in any other game he has officiated this year the umpires had no trouble

Packed like silks..it takes patience and care to prepare Turkish tobacco for Chesterfield Cigarettes

Size, color, texture, condition... all these have something to do with aroma and flavor

Leaf by leaf, the sun-ripened Turkish tobacco is selected or rejected to get just the right kind for Chesterfield's milder, better taste.

And just as much care is taken to pack the tobacco to preserve the delicate aroma during its 4000 mile journey to this country.

So important is the preparation of Turkish tobacco in making Chesterfields, that Liggett & Myers have their own modern leaf handling plants in seven important tobacco centers of Turkey and Greece.

"Selection station" in Turkey where Turkish tobacco leaves are weighed and classified to judge their quality.

MAVE TENSE ROMANCE IN "BREAK OF HEARTS" Really soul-stirring love scenes have been enacted for the camera.

THE SUNDAY SCHOOL LESSON PICTURES OF SILVER BEULAH K. HICKS

CHRISTIAN MISSIONS Acts 1:6-8; 13:1-12 Golden Text: Go ye into all the world, and preach the gospel to every creature.—Mark 16:15.

The Mount of Olives near Bethany, in the time May 18, A. D. 30, was the scene where Jesus spoke his last words before his ascension.

They did not understand. The dark hours that Jesus lay dead were forgotten in the glad hours of his resurrection and they thought surely now his kingdom would be established, hence the question, "Lord, dost thou at this time restore the Kingdom to Israel?"

How great was the patience and understanding of Jesus as he answered them, knowing that they would not fully understand until he was gone and the Holy Spirit dwelled in their hearts.

He declared, "I am debtor both to Greeks and to barbarians, both to the wise and the foolish."

Church history teaches us that only the churches who grasp the Mount of Olives, looking down the corridors of time, and said that all people in all places of the earth should be taught of him and his teachings, go forward in service.

How many in this sin-cursed world today seek power! All power in heaven and earth is locked up in Christ. He is waiting to give each a glorious task with mighty power that will build mansions in eternity.

"Ye shall be my witnesses." Is our religion worth giving to anyone else? Will it benefit the heathen? How can it be made worthy?

A life yielded to the teaching of Christ through the study of his word will bring visions of beauty that lead to the green pastures of fruitful service in kingdom work.

God be merciful unto us, and bless us; and cause his face to shine upon us; Selah. That thy way may be known upon earth, thy saving health among all nations.—Psalm 67:1-2.

ive genius for doing the wrong thing at the right time that enables them to be better cops than Captain Jennings and Private Detective Darrell.

The boys are seen as scientific sleuths who desert the magnifying glass, the double-peaked hunting cap and the calabash pipe for a lie detecting machine which Woolsey perfects.

No Wheeler-Woolsey show is genuinely entertainment without music, and "The Nitwits" ingeniously interweaves three popular melodies with the gripping melodramatic theme.

George Stevens directed Fred Keating, Erik Rhodes and Evelyn Brent in "The Nitwits," an RKO Radio picture.

Dog Vaccination Licensing May Be Obtained at Hall Your dog may be issued a license and receive inoculation for prevention of rabies at the city hall, officials announced Thursday.

CAMP REGISTRATIONS
Registrations for Camp Billy Gibbons are now being received at the Council office and as the scout sends in his registration he is sent a Camp Billy Gibbons cap free of charge. This offer will continue until July 1. After that time scouts will be asked to pay for same. So Scouts send in your registration fee now! We have estimated reports from scoutmasters of four troops. These four estimate that they will have 85 scouts in camp. With some 41 units on the rolls this should be a record breaking camp year.

There will be a number of new features in camp this year and some of the old features will be enlarged upon. For instance, the handicraft part of the camp this year will be the best and the largest in the history of Camp Billy Gibbons. In various work of this kind, will assist in the handicraft institute. The entire handicraft department will be under the leadership of C. L. Pouncey and Dan Gill.

Swimming—All old scouts will remember "Toots" Gillian, who was in camp in 1933. He has promised to be with us this year, conditionally. Of course the slogan at the swimming pool will be "Every Scout a Swimmer." Some 14 or 15 scouts were taught to swim at last year's camp.

Many have asked if we will have the same cooks this summer that were at camp last year. Both have already signed contracts to be there. However Bill says, "Will the Bull Gang please go down, a few days before camp opens, to scare off the rattlesnakes and the screech owls!"

NATIONAL JAMBOREE
Good news has just been received at the scout office whereby the Jamboree Scouts will not need to bother about cots and extra blankets because the government will furnish these.

Another welcome news item to these scouts is that these will be

no dish washing in camp. Paper dishes will be used exclusively. This will save much time and the necessity of having some scouts stay over for dishwashing, which might cause them to miss some part of the Jamboree or a sight-seeing tour.

NOTE

Scout Claude Gunn of Ranger has registered for the National Jamboree. His name should have been in the list of those Jamboree Scouts mentioned in last week's news.

Electrical Device To Tell Stratas Far Below Ground

By United Press

DALLAS.—How geologists and oil well drillers can form a picture of formations thousands of feet below the earth's surface through the use of an electrical device, was explained here by Dr. J. C. Karcher, inventor.

The device, Karcher explained, is known as an electric logging machine and it can be attached to rotary rigs.

Illustrating his explanation with stereopticon slides, Karcher showed the results of a large amount of core drilling in Texas and Colorado which he did especially to test the readings of his machine.

This fact and the immediate knowledge of any change in formation giving very accurate logs are among the advantages of the device.

The apparatus will be manufactured on a commercial scale before long, Karcher said. It is relatively simple, consisting of an insulating collar above the bit and an insulated conductor tube running down through the drill pipe to connect with the bit.

The bit is kept as stubby as possible to indicate as rapidly and as exactly as possible any change in resistivity, measured by the ohmmeter at the top of the hole. The machine also charts format-

Dr. Wheeler & Sherlock Woolsey

The Masters of Slapstick invade the sleuthing profession to detect a roving terrorist; and a howling affair results when Bert Wheeler and Robert Woolsey dabble in song-writing, hounding, romancing and dancing in "The Nitwits," their latest RKO Radio screen fete with Fred Keating, Betty Grable, Evelyn Brent and Erik Rhodes.

FIRST TIME TOGETHER

Ann Harding and Herbert Marshall in "The Flame Within"

Though Ann Harding and Herbert Marshall have worked at the same studios innumerable times they will be seen together for the first time on the screen when Edmund Goulding's production of "The Flame Within" at the Lyric Sunday. Other prominent players to be seen in this new Metro-Goldwyn-Mayer attraction are Maureen O'Sullivan, Louis Hayward and Henry Stephenson. The story, dealing with the life and loves of a famous psychiatrist, is an original by Goulding, who, it will be remembered, wrote and directed Norma Shearer's popular screen play, "Rip-tide."

Woman Is Good Samaritan To 600,000 Workmen In The State

By United Press

AUSTIN.—A Good Samaritan to 600,000 Texas workmen is Mrs. Espa Stanford, woman member of the State Industrial Accident board and only member of her sex to hold such a position in the state.

Hurt and maimed workers, their widows and children, pass in review before her seeking compensation for their losses.

"It's a fascinating job," admitted Mrs. Stanford, member since 1924.

"I think there should be a woman member on every industrial accident board in the country."

Seven states now have women accident board members. Massachusetts, one of America's leading industrial centers, requires by law that one member of its seven-member board be a woman.

Another lady, Mrs. Jewell Swofford of Kansas City, is chairman of the United States Workmen's Compensation commission.

The board meets each Tuesday for hearings. Members are Mrs. Stanford, appointed from the employees class; Earle Adams of Crockett, an attorney; and A. M. Graves of Clarksville, appointee of the employer's class. Make-up of the board was provided in the workmen's compensation law.

About 50 cases are presented to the board at each hearing. They are studied individually by board members.

While the board is quasi-judicial in character, its job is to administer the law. As such, Mrs. Stanford said, "The board must seem to lean a little toward the worker, usually unable adequately to represent himself, while the employers and insurance companies are well represented."

The cherry woman has won a 254,200 feet of sewer lines, 17,900 feet of water mains, eight sewage disposal plants, and 1,025 septic tanks.

In addition, repairs were made on 1,580 water wells, 106,170 feet of sewer lines, 11,220 feet of water lines, and 34 disposal plants.

Charles Boyer Woos La Hepburn

Principals in a tempestuous and spectacular romance, Katharine Hepburn and Charles Boyer are co-starred in "Break of Hearts," RKO Radio Picture. It is a story of a music student's sorely tried love for a dashing concert master.

South Plains Area May Become Big Dairying Section

By United Press

LUBBOCK.—The South Plains area of Texas is destined to become one of the leading dairying centers of the country, according to H. L. Wilson, cheese specialist with the Department of Agriculture.

Wilson said he believes branches of several large cheese manufacturers would eventually locate in this area.

In 1935 Texas cheese production will be approximately as large as in 1933, when this state led the South with 8,095,000 pounds of commercial cheese, ranking eighth among all the states, Wilson said.

Texas became important for cheese production in 1928 when 983,000 pounds of cheese was made. In 1929 2,202,000 pounds was produced and 1930, 2,621,000.

In 1931 the production figure jumped to 4,406,000 pounds and in 1932 8,095,000. No figures are available for 1934.

There are now 14 cheese factories in the state and the plant at Denison is reported to be the largest in the country.

"Nearly all Texas plants use pasteurized milk in making their cheese," Wilson said, "and I think that this makes a more uniform type of product."

"It is the only safe method of utilizing milk that is shipped in from over a large area."

Mosquito Fight Has Meant Much To Check Disease

By United Press

AUSTIN.—A fight on mosquitoes and other disease bearers has been of "immeasurable benefit" to Texas citizens and has increased the value of much property, state Relief Director Adam R. Johnson said today.

In Southeast Texas, relief work-

ers dug 525 miles of drainage ditches, drained thousands of acres of land, reclaiming the land as well as eliminating breeding places of malaria-carrying mosquitoes.

"I feel that these health and sanitation projects like our projects in school buildings, are a distinct contribution to the civilization of our state," Johnson said.

In drought-stricken West Texas, wells were dug and improved to insure healthful drinking water.

General sanitation, especially in rural districts, has been improved, Johnson said. In one East Texas county it was found that more than 50 per cent of the rural school children had hook-worm infections.

Cities also benefited in the relief program. Unemployed built

hospitals, and other medical aid. Mrs. Stanford considers the latter a most important item.

Livestock Ranges In Good Condition

By United Press

AUSTIN.—Extensive rainfall in May put Texas livestock ranges in the best condition in many months, the federal division of crop and livestock estimates reported today.

East and Southeast Texas had so much rain that damage resulted, but grass over the state generally was good on June 1. Only counties yet needing rainfall are those on the western edge of the Panhandle where the drought killed the grass roots.

Cattle ranges improved 13 points in May to 79 per cent normal, one per cent more than the same month last year. Sheep ranges also were 79 per cent normal on June 1, and 20 per cent better

than the preceding month. Good pastures and ample water aided improvement. Cattle conditions generally were 77 per cent normal on June 1, seven per cent less than their condition a year ago. Cattle losses have light since the first of the year. The condition of sheep ranges 9 points during May to 79 per cent normal, the same as a year ago. Calf and lamb losses have been fairly heavy this year, the said, due to poor condition stock.

Man Has Tyb Can Stolen

DALLAS.—W. W. George, oil operator, was put out he was informed that his truck had been stolen.

He was even more discouraged, however, when police informed him it had been recovered, but reported abandoned between Ney and Terrell.

George went to his garage to get his automobile to drive the stolen truck. When he found his garage he found it had been stolen, too.

Summer Sweethearts

By Mabel McElliot © 1935, NEA Service, Inc.

BEGIN HERE TODAY Katharine, unaware of this, believes he has deserted her. She plans to leave for New Mexico and her friend, Violet Messer, agrees to engage a lawyer in her absence to arrange an annulment of the marriage.

Dr. John Kaye, an old friend, sees Katharine off on her trip. He tells her he has always loved her. Sally Moon, who has snared Michael into a sort of engagement, plans for their wedding, unaware

of Michael's marriage to Katharine. Suddenly during a rehearsal of the ceremony Michael recovers his memory.

Now Go On With the Story CHAPTER XXXVIII Michael dashed out into the quiet street. Dusk had fallen half an hour before. There was the scent of bonfires in the darkness. A moon hung, poised uncertainly over the church steeple. There were clouds.

FRECKLES and HIS FRIENDS—By Blosser

names through every court in the land—

Michael's knuckles whitened. He could stand it. It wouldn't matter to him. But Katharine—he couldn't let her do this to Katharine. Sally's fishwife voice screamed on.

"You remember I told you from the start it was a mistake," Michael said quietly.

"That's right—that's right. Say I proposed to you!" the girl taunted him.

He released her, shrugging his shoulders. His imperturbability roused her to a fresh torrent of abuse. Her father appeared in the doorway.

"Listen, kiddo," he began pacifically, "you don't want them saying in the town you were jilted, do you?"

"Let them—if they dare!" Sally cried. Her bosom heaved. Her dark hair was in a fine disarray. Her dark eyes flashed lightning.

"But that's what they'll say if you go after Michael," the old man put in shrewdly. He had been thinking deeply as he sat in his study, within sound of her vehemence. This—this would never do! His business, his reputation in Inoclock would be ruined if Sally stormed through the courts with her untamed rage unleashed.

"They'll say it anyway," the girl flung at him, not to be put off so easily.

"No, they won't," the old man told her. "No, they won't. We'll give it out that Michael had a relapse. That he hadn't recovered from the illness—that the marriage is indefinitely postponed. Then you can go off to Paris; you've been wanting to do that for a long time. You know you have—"

"You mean that? You're not just trying to calm me down?"

"I mean it. You can sail as soon as you like. Stay all winter. Frocks and hats galore—"

Under her tempestuous airs Sally shrewdly estimated the situation. But she would not satisfy them.

"I'll think about it," she said, regarding the two men between narrowed lids.

"Someone's got to pay for this," she told them. "It's not going to be little Sally."

(To Be Continued)

Trip to Cinema Capital Awaits Contest Victor

An all expense trip to Hollywood and a contract for paid engagements at Radio Station WFAA, Dallas, will be awarded the winner of an amateur entertainers' contest sponsored by North Texas Chevrolet dealers, Mr. Harvey of Harvey Chevrolet company, announced today.

"The free trip to Hollywood will include a two-day stop over at the San Diego Pacific International Exposition and an audition at Warner Bros. Hollywood radio station," explained Mr. Harvey.

Entry blanks for the contest may be obtained from Mr. Harvey, local Chevrolet dealer, who will also furnish detailed rules for the competition.

"This contest is strictly for amateurs," said Mr. Harvey. "Winners of district, state, or national auditions previously held are excluded."

Preliminary auditions for contestants of the Eastland district will be held July 4, 5 and 6 at the Conlee theatre. Prizes for the local preliminaries winners will soon be announced.

Final preliminary auditions will take place at the Paramount theatre in Abilene, July 8, 9 and 10. Five winners will be chosen to appear in the district's final auditions on the Melba theatre stage July 14.

"Winners in the district final auditions at the Melba theatre will be assembled at the Melba the evening of Sept. 8, when the grand prize winners for the bone will be chosen.

"The contest will be one as important from the personal appearance standpoint as from the broadcast standpoint, thus giving all personalities and all types of entertainers equal handicaps," said Mr. Harvey.

The 10 Sunday night district final auditions in the Melba theatre stage will be broadcast over Station WFAA.

The various district final auditions, to be held at the Melba theatre, Dallas, on successive Sunday evenings beginning July 7, will be gala events. The audition broadcast will last 30 minutes and will be nucleus for a full program of entertainment with music by Hyman Charninsky's orchestra.

Students Now Woo Fancies of Luck

PHILADELPHIA.—Dr. Reese James, director of a course in Journalism at the University of Pennsylvania, finds that superstition rules many of his students just as it does savages.

He recently quizzed 100 students on their superstitious beliefs. He found that all had their pets and in great variety.

He learned that the cynical sophisticates of the younger generation still believe it is bad luck to break a mirror, permit a black

Babe Ruth, a strange figure in dark blue, has turned to calling balls and strikes that he used to watch buzz across the plate with scathing comment now and then. Ruth will umpire the New York World-Telegram high school baseball final at the Yankee Stadium on June 22. Here is the Bambino, who recently resigned from the Boston Braves, declaring a runner safe in the characteristic manner.

cat to cross one's path, throw a hat on a bed, give a knife to a friend and write an examination paper with a new pen or pencil.

Furthermore, Dr. James said they believe that when you return to a room after having just left it that you must count nine to break any unlucky spell. Also Friday is an unlucky day and 13 is an unlucky number.

Professors like to mull over the findings of quizzes like Dr. James'. Interesting survivals of primitive forms of magic and rudimentary religious practices are discovered.

Dr. James said the wide-spread superstition that breaking a mirror means bad luck is a survival of the savage's belief that the reflected image or picture of anyone is really that person's soul. And, of course, it is bad luck to shatter or crack one's soul. The falling picture-early death superstition belongs to the same class.

The belief that "new things" are unlucky goes back to the same class, Dr. James said, when primitive men learned by trial and error, experiments with "new" tools or utensils were often followed by painful results.

Good luck pieces are a survival of "fetichism."

"In fact," says Dr. James, "astrology still has many followers. People still believe in magic."

He described superstition as "the acceptance of beliefs or practices groundless in themselves and inconsistent with the degree of enlightenment reached by the community to which one belongs."

OAK GROVE

The health in this community is fine.

The crop prospects are fine but about 30 days late. The rains last week have put the farmers behind with their work and the weeds and grass are getting a good start and making it necessary to do a lot of hoeing.

A light rain and severe windstorm visited this community Monday afternoon at 6 o'clock, doing some damage to fruit trees that were heavily loaded with fruit by breaking off the limbs.

NO INTERRUPTION of YOUR GAS SERVICE

as Texas Streams Burst Banks!

With torrential flood waters swirling at many points between you and the gas wells, Lone Star Gas System again has met the threat of the elements. Bridging the gap between the gas wells and your gas appliances, this dependable system has conquered the hazard and kept your service uninterrupted.

The greatest and most widespread floods in the history of this company have threatened the gas pipe lines at many points. As the waters rushed on over the country-side, men stood by these lines day and night ready for any break. While bridges went down and roads were washed out and traffic was halted, the gas lines held intact.

This dependable service is not an accident. It is due to a quarter of a century of planning and huge expenditures of money. Seven pipe lines bridges across swollen streams, heavy steel pipe laid deep in the ground, a well trained organization, are among the facilities which have made this gas system able to meet the unprecedented flood conditions.

The ability of your gas company to serve you during emergencies is, after all, the supreme test of service. The significant fact is that the facilities and organization necessary to keep your service constantly dependable in such an emergency must stand by throughout every day of the year waiting your instant call.

Sub-Deb club meets 2 p. m.
Miss Mary Lou Harbin, hostess.

Slumber Party

Miss Frances Lane was a charming hostess to the Sub-Deb club at the home of her parents, Mr. and Mrs. W. I. Lane in Olden, entertaining with a slumber party. A jolly evening was greatly enjoyed by all, and ice cream and cake was served.

In the morning a lovely dip in the pool was enjoyed followed by a sunrise breakfast of bacon, eggs, doughnuts and fruit.

After the repast the balance of the day was spent in the pool and many interesting aquatic and other games were enjoyed by the merry group.

Guests were Misses Edith Rosenquest, Maxine Coleman, Katharine Garrett, Katherine Uitz, Ouida Sanderson, Doris Lawrence, Evelyn Collum, Gladys Davis, Jaymie Stover, and Miss Ila Mae Coleman, sponsor for the Sub-Deb club.

New Books Received at Eastland Public Library

The Eastland public library is a nice place to visit on Mondays, Wednesdays, Fridays and Saturdays from 2 to 5:30 p. m., for information contained in the comprehensive reference books, or solid or light reading in the many works of biography, travel or fiction found on its cleverly indexed shelves.

A number of new books have been received that are available to the patrons, including:

- "Young Renny," Mazo De la Roche.
- "Time Out of Mind," Rachel Field.
- "Now In November," Johnson Pulitzer.
- "Jornada," R. L. Duffield.
- "The Man From Yonder," Titus.
- "For Honor and Life," Raine.
- "Bill Had an Umbrella," Hauck.
- "Sunset Range," Keating.
- "The Dark Garden," M. G. Eberhart.
- "Strong Enchantments," Schumann.
- "Natives Return," Adamic.

Invitation Received

Invitations have been received from Dr. and Mrs. C. H. Robelen of Philadelphia, Pa., announcing the marriage of their daughter, Miss Lillian May Robelen, to Dr. Edwin S. Lunn of Houston, Texas, on Saturday, June 29, at 4 o'clock in the providence meeting house at Nedia, Pa.

Miss Robelen is a niece of Mr. and Mrs. W. K. Jackson of this city.

Visiting in Beaumont

Bill Creatham, who received his bachelor of arts degree at St. Edwards university at Austin, is visiting in Beaumont, the guest of his brother, Aubrey Cheatham, and family.

Dancing Pupils Are Presented at Cisco

Dancing pupils of Miss Maxine Francis were presented in recital Thursday night at Cisco High school auditorium.

The Cisco presentation marked the fourth this season, as previously the students appeared in recitals at Eastland, Strawn, and De Leon. Many Eastland students appeared on the program.

Oregon Fears Fires In Vast Timber Area

SALEM, Ore.—Forest fires may streak across Oregon's vast timberlands with unprecedented fury this summer, forestry officials fear.

The driest May since 1890 was recorded this year. To make it worse, spring vegetation—usually a valuable check to the dread forest fires—was months behind schedule after a cold winter.

Foresters—faced by this double danger—were tightening restrictions on timber areas. Many of the areas are "closed" now, which means that all fires started by campers are to be carefully watched, licensed and in some cases entirely prohibited.

ARIZONA TO PRESERVE RELICS

PRESCOTT, Ariz.—Treasures of "Arizona pre-history" are stored in the new Smoke Public Museum at City Park here. The building was erected with relief labor, and is designed to preserve for future generations and for tourists relics of the past, particularly of Indians and pueblo dwellers, left in this section.

IT WILL BE—

and ECONOMIC to Shop During Our CARNIVAL of BARGAIN SALES Thru Saturday
