ONE OF the bonuses for a surgery recuperation at home this week, of course, has been the televised Moon Circus of the Apollo 14 mission, and it certainly does a lot to improve regular daytime tube viewing... Regret missing the One Acts out at Eastland Civic Theater and hope that you'll be able to get to the Sunday matinee if you haven't already been out. Our scouts report that the plays are super first-class as always.

GLAD TO learn that Morris Jones had a good report down at Dallas where he had further tests this past week, and hope he continues to improve... We're still getting inquiries: 'Where is Old Rip?' and frankly, we don't know. Last possibility we'd heard is that perhaps his froggnappers may have mailed him to a foreign dignitary (The Queen of England?) in hopes of some international publicity. That's pretty far out, and unless Fleet St. starts cabling for Eastland dispatches soon, figure it might be a lost effort. Many fear that Old Rip was just plain vandalized in which case, we'll just have to have him properly 'returned.'

OUR OFFICES constantly are getting requests for the Cox History of Eastland County, and there aren't any left, so someone sure needs to be busy about getting another history in print. At one time Mrs. Jim Horton had one working, and hope she's still busy on it. Another person who could contribute so much because he is such an avid "clippier" of county history is Mr. Daves Fambrough. He's got a tremendous collection of material and we've been trying to get him to put it into history form. Mrs. Ed Castleberry is another who has lots of material and a natural ability to tell history well in writing. Mike Collins was doing research on cemeteries at one time, and all of this material certainly needs to be recorded permanently.

KEEP WONDERING if Eastland and Cisco folks shouldn't be getting together on planning billboard ideas and other projects to help promote the ten-mile stretch between the two towns on Old Highway 80, so that BOTH towns can pull as much traffic as possible off Int. 20. The highway interchanges are going to be such that both will likely benefit from any off traffic. R. P. Haun, Resident Engineer, reports. There's really a lot to exploit in the strip between the two towns: the Kendrick Easter Pageant Amphitheater and poultry and livestock interests increase, what with the Kendrick Egg Farm, the Rust Processing Plant and the new a-building turkey operation, with quite a number of key projects being talked. The old pottery plant is now a subsidiary of a major firm, Terra Firma, and busy making tiles, which could lend itself well to visitor attracting. Chamber of Commerces could meet jointly and talk of the Golden Nine Mile Run; the old oil derricks and livestock raising make it complete; and

\$691,078 Paid Veterans In Eastland County During '70

A total of \$691,068 was paid in benefits to Eastland County veterans during 1970, according to an announcement this week by the Veterans Administration.

Expenditures for Texas for the year were \$522,997,791, the announcement revealed. Jack Coker, director of the VA Regional office in Waco, said that the bulk of the money was \$311,680,001 in disability compensation and pension

payments for Texas veterans — \$489,338 for Eastland County veterans. Other VA expenditures in Eastland County for fiscal 70, Coker said, were for GI Bill and other VA education programs, \$98,675, and insurance and indemnities, \$68,005.

In announcing these figures, Coker invited Eastland County veterans to contact the nearest VA office for information on any program including the GI Bill.

D. A. Walton Is Lions Speaker on Responsibilities

County-District Attorney Emory Walton, who thinks of himself as a "peace-maker" and a "one-man legal aid society" described his responsibilities and duties for members of the Eastland Lions Club at their regular meeting Tuesday, January 26.

Explaining that he works in the five justices of the peace courts in the county on traffic and misdemeanors and cases where fines go up to \$200. In County Court his work is on misdemeanors and juvenile cases. Felonies (thefts of over \$50) are handled in 91st District Court, he reported.

His other work includes helping the Sheriff's Dept. and other law enforcement agencies investigate crimes. "We all went at least 36 hours without sleep on the Wiczett murder case," he said.

Praising Eastland County Sheriff L. E. Sublett, he said, "We've got one of the best sheriffs in the state of Texas, and you learn this by not only working with him, but from appraisals made by other enforcement officers in other parts of the state."

"Before I came down here (from Abilene) I was told there that I would be working with the best sheriff in the business."

Right now one of our most serious problems is livestock losses from thefts, he explained. With a high market, they're just backing trucks up and loading entire herds, he said. Asked by a member if the sheriff's dept. didn't need some more help, Walton said "That's a political question and I'd rather not say."

Asked about a trend to do away with capital punishment, the District Attorney said, "I'm in favor of capital punishment as a deterrent."

Parks Poe was program chairman and President J. B. Arther presided.

His "peacemaking" and legal aid service" duties come when citizens call his office for advice, and counsel regarding marital problems, debts, etc. I usually refer them to proper channels, he said. "And I've had some interesting trusts on my life over the years," he explained.

WHAT IS RUBELLA?

Rubella (German or 9-day measles) is a common childhood illness. It is an entirely different disease than "red measles." The measles immunizations that have been given during the past few years give no protection against rubella.

The danger of rubella is in an unborn child if the mother catches rubella during early pregnancy. Some of the defects are cataracts, heart disease, deafness, blindness, cerebral palsy and mental retardation. The last major epidemic occurred in 1964 resulting in 30,000 miscarriages or stillbirths, and 30,000 infants born with severe defects. It is estimated that the care and education of these 20,000 defective children, to age 18, will surpass three billion dollars (\$3,000,000,000) figured on present-day cost.

Who spreads rubella? School-age children are the most likely to catch and spread the disease. Unprotected, expectant mothers can acquire the disease from them. Who should receive the vaccine? To insure immunity, it is recommended all children, ages one thru ten, receive the vaccine.

Who should not receive the vaccine? Those persons who: Have already received the vaccine; are sensitive to chicken or duck eggs or feathers, or neomycin; are being treated by a physician; are pregnant or might become pregnant during the next three months; have received a live virus vaccination, i.e., smallpox, polio, measles within the past four weeks.

Why immunize children when it is the expectant mothers who need protection? Since it is not known what effects the vaccine might have on an unborn child it is best not to immunize women who are pregnant or might become pregnant during the next three months. With enough children being immunized against rubella the threat to expectant mothers is greatly reduced.

Should women of child-bearing age be immunized? The family physician can determine by HI tests whether or not a woman is protected against rubella, and can decide whether it is advisable for her to receive the vaccine. Is it possible to predict when a rubella epidemic may strike? Yes. The number of cases peak every six to nine years. With the last major epidemic occurring in 1964 we might expect another epidemic between 1970 and 1973.

DISCOVERED: another talent of our neighbor Mrs. Henry Parsons this week when she gifted us with an old-time snuff bottle, decorated by hand in gold, and fired in a kiln. We'll treasure it. Recalls the old days when such bottles were frequently used in the backyard sand as "cars." Mrs. P. has been sitting with her father Mr. Waverly Masengale who had a painful fall last week and is undergoing treatment. Think she said Mrs. Ed Layton may have been instrumental in encouraging her in china painting and other recreating.

RANDOM THOUGHTS from Editor & Publishers "Cate-Lines":

The "practical joke" humor of the Zuni Indians resulted in for city editor John Waliczek of the Gallup (N.M.) Independent when he arrived to learn the results of tribal elections. As he entered the council chamber, he was approached by a Zuni who was carrying a ceremonial axe and was told that "ancient Zuni tradition calls for the scalping of the first white man seen after an election." "But you can't do that to me," Waliczek protested. "I've been named an honorary Zuni." "Fine," replied another Zuni as he reached for a pocket knife. "Then we'll initiate you as a blood brother." Waliczek beat a hasty retreat, while the Zunis doubled up with laughter.

TIME OUT FOR HAPPINESS is the title of Frank B. Gilbreth's new book being published this month and scheduled for Reader's Digest condensation in March. Gilbreth, assistant publisher of the Charleston (S.C.) News and Courier and the Charleston Evening Post, has written a light-hearted story about his parents, motion study experts who pioneered in scientific management at the turn of the century.

IF GOOD NEWS WERE ALL: As suggested by the University of Arizona student newspaper Wildcat, these might be among headlines in a paper devoted strictly to good news:

No rioting by 7,250,000 college students
Most nations at peace this week
Americans have money left after taxes
Bible still best seller
Hippies are 00057 percent of population
Millions love, obey parents
Spring always follows Winter

"Cisco Made Significant Contribution To Conrad Hilton Success" --- Richardson

Conrad Hilton made a contribution to the history and character of Cisco, but Cisco, Texas also made a distinct contribution to the Conrad Hilton career, Dr. Rupert N. Richardson, president emeritus of Hardin-Simmons University, Texas historian and a former Cisco educator, told a large group of Ciscoans gathered Wednesday afternoon for the dedication of a historical plaque fixed to the exterior of the old Mobley Hotel.

The plaque, designating the hotel as the first to be owned by Mr. Hilton and the original of a chain of hotels now encircling the world was prepared by the Texas Historical Survey Commission.

Dr. Richardson was introduced by County Judge Scott

Bailey who reviewed briefly Dr. Richardson's outstanding academic career and his association with Cisco as an early day educator. He was a principal of Cisco High School in 1915 and 1916 and was also associated with the old Britton Training School and its founder, O. C. Britton, on the site where Cisco Junior College now stands.

Bailey told the group that what was being done there in recognition of the significance of the Mobley was in the true tradition of Texas History.

At the conclusion of his address Dr. Richardson presented Harold Martindale, Alaskan who now owns the Mobley, with a certificate attesting the significance of the plaque and signed by Gov. Preston Smith.

Among those gathered for the program, arranged by a committee headed by H. A. McCantles and sponsored by the City of Cisco and the Cisco Chamber of Commerce, were Mrs. J. S. Mobley of Cisco whose husband was a nephew of the founder of the hotel, H. L. Mobley, an Alabamian. The hotel was built in 1915.

Dr. Richardson sketched the career of Mr. Hilton, a native of a small New Mexico community, who served in the New Mexico Legislature, was a member of the American expeditionary Force in World War I, entered banking and came to Cisco at the age of 32 years to buy a bank in 1919.

Hilton ended up by purchasing the Hilton, "some say because he was able to find a place to sleep," and thus acquired his first experience as an innkeeper, Dr. Richardson pointed out.

"I have been unable to learn whether he had ever before studied hotel management but I am sure that the experience he gained in the few years he owned the Hilton was instrumental in the success of the great chain of hotels he went on to establish. "He dreamed, as the plaque says of a chain of Hilton hotels like a Texas necklace, and that dream became a reality in a world-wide chain," said Dr. Richardson.

So it is, he said, that Cisco has made a very important contribution to the career of the man who has become "innkeeper to the world."

The Hilton story, Dr. Richardson said, is in the tradition of small communities and go on to larger fields.

"We say that we have lost them," he said. "But that is not so. In the larger and more important sense we have given them to the world."

The speaker sketched a corollary account of Cisco's founding in the little community of Red Gap, near where the cemetery now stands, its growth into a bustling western town with the building of the Texas and Pacific and the Texas Central Railroads, its survival of the inflated oil boom conditions, its solution of the problem of a water supply and its steady growth into sound and prosperous community of today.

In a responsive gesture of appreciation following the program, Mr. Martindale, who owns placer gold mining interests near Nome, Alaska, presented Dr. Richardson with a small gold nugget "washed from under the polar ice cap in Alaska where it had lain for millions of years."

"I have been looking for gold all of my life," said Dr. Richardson, laughing. The crowd joined him.

DEDICATE MARKER—Dr. Rupert N. Richardson, president emeritus of Hardin-Simmons University, Abilene, and Harold Martindale, owner of the Mobley Hotel, are shown with the historical plaque, designating the hotel as the first of the world-wide Conrad Hilton chain, which Dr. Richardson dedicated Wednesday of last week.

21,000 Handicapped Texans Aided By Christmas Seals Sales in 1971

Because of the steady growth in numbers of crippled children and adults in Texas, the Easter Seal Society for Crippled Children and Adults of Texas has stepped up its rehabilitation services.

According to H. T. Wilson, who is the Easter Seal Representative for Eastland County, over 21,000 handicapped Texans received Easter Seal treatments during 1970.

"Despite medical scientific advances," he explained, "the ranks of the crippled are growing. This is because of population growth, increased number of accidents and medical treatment which saves victims of crippling diseases who might not have lived in past years."

Quoting the annual report of the Easter Seal Society for Crippled Children and Adults

of Texas, he said that 20 affiliated treatment centers are in operation in Texas. They include treatment and rehabilitation centers, sheltered workshops, recreation and educational programs, and many others.

"Through these programs, persons with a wide variety of handicaps receive the help they need to live normal lives," Mr. Wilson said.

The largest group served includes those with major deformities of bones and joints, severe speech defects, cerebral palsy, arthritis, muscular dystrophy and multiple sclerosis and stroke. The Easter Seal Campaign, which provides funds for continuation of these services, begins March 1 and continues through April 11, Easter Sunday.

3 Highways In County To Get Seal Coating

The work will be under the supervision of District Engineer E. M. Pritchard. The contract includes work in Stephens, Brown, Coleman, Comanche, Eastland, Lampasas, McCulloch, Mills and San Saba Counties.

W. D. Turner Construction Company of Lubbock was awarded the contract with a low bid of \$364,441.55. The work will take an estimated 60 working days to complete.

B. R. Russell of Brownwood is the Highway Department engineer in charge.

Projects located in Eastland county are 17.927 miles on State Highway 16 from Palo Pinto County line south to Comanche county line; 11 miles on Farm to Market 570 from IH-20 East to FM 571; and 8.828 miles on Farm to Market 2461 from IH-20 south to FM 2214.

And you can do it in one day. It just depends on how much you know. If you think you know as much as a student in college, here's your chance to prove it.

CLEP. A program that profits only you.

The program is called CLEP (College-Level Examination Program). It is a nonprofit program that has been in existence nationally for the last 3 years.

In that time hundreds of people have taken advantage of CLEP. Yet thousands more have never even heard of it. So we've designed this ad to tell everybody what CLEP is all about.

Basically, the program consists of two kinds of tests. The General Examinations measure your achievement in English Composition, Humanities, Mathematics, Natural Sciences and Social Sciences-History.

The 28 Subject Examinations cover all the subjects listed above, so you can test yourself in whatever areas you feel confident.

We can't tell you the tests are easy—they're not. But we can tell you that most people do a lot better on these tests than they think they will.

The cost of college and the cost of CLEP.

CLEP was founded on the assumption that people learn in a great many ways other than in a formal school setting. You've worked. Read. Traveled.

Maybe you've taken a correspondence course or two. Or been involved in a company training program.

Though most men wouldn't admit it, they learned much of value in the military. Then of course there is television.

Now, thanks to CLEP, all the knowledge you've acquired from these and countless other sources can be converted into college credit.

More than 500 colleges recognize the results of the tests, including such prestigious institutions as the University of California, Michigan State, University of Texas, and Cornell. Many award up to 2 years of credit toward a degree.

Getting ahead in business without going to college.

In addition, many more corporations and businesses are coming to accept the CLEP tests as the basis for determining college equivalency. (The Port of New York Authority, Pitney-Bowes, and Ford Motor Company, to name but a few.) They use the exams to give non-college men and women the opportunity to advance to professional positions. So even if they have no plans to go on to college, many people use CLEP to get a better job.

Of course, there are many others who take the night school route, holding onto their jobs while continuing their education in the evenings.

College credit for what you've learned in life.

CLEP tests are given 12 times a year in 60 centers throughout the country.

The General Examinations cost \$15 for the whole group. The Subject Examinations cost \$15 each.

(Which isn't bad, considering that the cost of a college education today can run as high as \$4,000 per year.)

For complete information, mail the coupon.

You may already know as much as a junior in college. And now you can have the college credits to prove it.

offerings has been set for \$3.00 per book per registration. If you feel like you can contribute more toward the camp please do so. To develop the camp for this summer will require all the funds we can raise. This offering it to be sent to Brother Bath, at Lubbock ministerial treas.

I read an article this month which stated that cancelled checks were no longer all the proof you need to show contributions to charitable organizations. The quarterly statements sent to individuals and the receipts sent to businesses will back up your contributions. This office retains a copy of your full years givings, and can supply any information required by the tax people upon request. You can be assured we will provide the kind of records to back up your donations.

I would like to request that you bring an outdated copy of your phone book to the camp for the district to use. If you have time to mark the church members names in it please do.

A record book has been placed at the camp to be signed each time that you attend a camp activity. This register will serve as proof of attendance for your deductions and help me to give your church credit for attendance.

Jaycees Return From District 11 Winter Convention In Wichita

Old Rip may not be back, but the Eastland Jaycees are. After a weekend of campaigning, working, competition, and fellowship with hundreds of other Jaycees and their wives at District 11 Winter Convention in Wichita Falls, Texas, the Eastland Jaycees left not entirely unknown.

Talented Jaycee musicians Robert McCoy, Paul Green and Richard Rossander kicked off their stay at the Tradewinds Motel Friday night with sweet sounds from the hospitality room, which was Rossander's campaign headquarters. Campaign chairman Don Baird kept procedures and caucus schedule running smoothly while the attending Jayceettes took charge of the refreshments for the many guests.

Not willing to rest on their laurels, Saturday morning found the newly formed Eastland Jaycee-ette club entered

in district competition while their husbands attended business sessions and clinics. Eastland's Wanda Baird, with the only perfect score, emerged winner of the SPOKE award, an award for Service, Participation, Orientation Knowledge, and Enthusiasm.

Saturday afternoon the group was once again caught up in the business of the State Vice President campaign. But at 9 p. m. time was found to join the other delegates for fellowship at the fine dance hosted by the Wichita Jaycees.

Business session and elections followed the prayer breakfast Sunday morning. After the smoke cleared and the last paper cup had been crumpled, the Eastland Jaycees and Jaycee-ettes found their time and effort rewarded by the election of Richard Rossander to the office of State Vice President, Region 202.

The Eastland Jaycees weren't quite through however. At the noon luncheon, attended by all delegates and present State Officers, Region 202 presented a much-needed riding lawn mower to the Texas Jaycee State office. This project was spear-headed by none other than the Eastland Jaycee chapter.

Back in Eastland, Old Rip is still dead and possibly gone, but the Eastland Jaycees are alive and proud that a living, breathing representative of the community they serve will be working with the Jaycees throughout their region during the next year.

All Eastland Jaycee members, whether active or associate, and their wives are encouraged to begin making plans to attend the State Convention in Amarillo, May 13, 14, 15 in order to have a good representation of the club for the annual installation of State Officers.

How to Overcome Anger to Be Told

A deeper and more dependable basis for overcoming anger and violence will be brought out in Christian science churches Sunday Services in Eastland will be at 11:00 a.m.

One of the Scriptural passages in the Lesson-Sermon in the 1st Church of Christ Scientist on the corner of Lamar and Plummer entitled "Spirit" reads: "He that is slow to anger is better than the mighty, and he that ruleth his spirit than he that taketh a city."

A related passage from Science and Health with Key to the Scriptures by Mary Baker Eddy states: "Rise in the strength of Spirit to resist all that is unlike good. God has made man capable of this, and nothing can vitiate the ability and power divinely bestowed on man."

Letters TO THE EDITOR

Dear Editor,

In regard to the theft of "Old Rip", I feel that not nearly enough is being done to recover our most famous resident. I am not one to cry over spilled milk, but it seems to me that measures should have been taken to prevent such a thing from happening. If it was the Jaycees, I believe they should be reprimanded for this. We, as the citizens of Eastland, could show our concern by offering a reward for the return of "Old Rip" or the arrest of those responsible. We cannot sit around doing nothing. Something must be done to recover Eastland's historic trademark. Thank you.

Sincerely yours,
Miss Margo Ladd
