Italy Takes Warlike Pose About Oil Embargo

Italy struck a warlike pose Wednesday night to discourage the League of Nations shutting off supplies of oil, cotton and metal—necessities for war with Ethiopia. Rome officials hinted Italy would regard such an embargo as cause for war, the official spokesman announced the furlough of 100,000 troops had been cancelled in view of the uncertainty created by reports of possibility of extension of sanctions. It was reported white troops were being withdrawn from front lines in Ethiopia to bases where they could be returned to Italy on short notice. It was understood in London the League "general staff" of 18 would meet Dec. 5 to vote an oil embargo. Such assurance reportedly was given the United States, which was annoyed at being "left out on a limb" by postponement of the League's action on oil. The United States "let off" oil sanctions by warning exporters to refrain from business with the warring nations. It is doubtful if Mussolini would declare war on all nations refusing to sell him oil, cotton and metals, but such an embargo probably would cause Italy's withdrawal from the League of Nations.

74 ANSWER TO K. P. ANNUAL CALL OF ROLL

Seventy-four responded when the annual roll call was made Tuesday night at the Knights of Pythias meeting. A turkey banquet with talks by many members was a feature of the meeting. Speakers included A. F. Taylor, vice president of the Eastland National Bank; Supt. P. B. Bittle, County Superintendent; C. S. Eldridge, C. A. Peterson, Associate Justice of the Eleventh Court of Civil Appeals; Clyde Grison, County Judge; Clyde L. Garrett, Chamber of Commerce Secretary; H. C. Davis, and C. S. Karkalits. D. B. Roark, 84, member of the organization for 50 years, was present. Visiting knights were present from Gorman and Baird. Reports showed that the lodge is in its best financial condition for years, an increase of 25 per cent in membership has been made recently, attendance is regular, and rank work is given at practically every meeting. The third rank was conferred on S. E. Hazard.

PEACEFUL THANKSGIVING

Why U. S. Should Be Grateful—An Editorial by Bruce Catton

If any American today wonders why his country should observe its annual Thanksgiving Day with especial fervor, all he need do is face the east and take a quick glance at the state of Europe. In hardly one country in Europe can the people look to the future with easy confidence. Over every prospect hangs the black cloud of war, ready to lash out with a civilization-destroying storm at a moment's notice. The last war took a frightful toll in human life, in treasure, and in all the spiritual graces that make civilization worth treasuring. The next war will almost certainly take a greater toll. And Europe has the dark knowledge that that "next war" is nearer, now, than at any other time since 1918. Contrast that with our own state—and you will discover that we in America are the most supremely lucky people of modern times. For we alone, of all the great nations on earth, have it in our power to avoid this next war. It will call for intelligent leadership, national self-control, and a good deal of self-sacrifice, undoubtedly, if a general war does come in Europe; but it can be done if we really want to do it, and there is where our luck lies. The people of England, of France, of Germany, or of neighboring countries know that when a major war breaks out they will be in it whether they like it or not. The decision has passed out of their hands. They are helpless in a current whose flow they cannot check. All are within easy striking distance of one another, and the complexities of modern life make their rulers follow courses in which a peaceful solution of their difficulties is almost impossible. But for America, the Atlantic and the Pacific are still great moats. Our rich soil, our vast mineral deposits, our unrivalled factories, assure us of plenty even though traffic across these seas should cease. If worst comes to worst, we can bang down the portcullis and live by ourselves. The greatest of all blessings is the blessing of peace. We are at peace now and we can stay that way. The best thing any American can do on this Thanksgiving Day is to return devout thanks to God for this profound blessing, and make a solemn vow in his heart that, in season and out of season, he as an American citizen will insist that the peace be made permanent.

MORE COUNTY ROAD PROJECTS ARE APPROVED

SAN ANTONIO, Nov. 27.—Works Progress Administration officials in Texas today authorized employment of 5,587 persons by ordering work to be started on 94 projects in the various districts. Projects authorized today will be financed by WPA grants of \$1,422,811 and sponsors' pledges of \$320,619. Largest grant made today was \$135,198 to Dallas county for malaria control, drainage of swamps, ponds, and other breeding places of mosquitoes is contemplated. Permanent improvements are expected in the countywide program. Other malaria control grants were received by San Saba, Runnels, Milam, McCulloch, Lee, Gillespie, Galveston, Fayette, Travis, Bell, Brown, Burtless, Burnet, Caldwell, Coleman, Falls, Hays, and Williamson counties. Largest farm-to-market road grant allotted today was \$133,309 to Taylor county. Grading, graveling and drainage structures will be realized on approximately 110 miles of county roads, bettering star mail routes and school bus routes. Work projects authorized to date total \$28,124,169, anticipating employment of 116,715 persons from Texas relief rolls, Robert J. Smith, deputy state administrator, announced. Projects authorized today, with WPA allotment, sponsor's pledge, and average number of persons to be taken from relief rolls, included: Eastland County—Lateral road improvement and repair; federal funds, \$59,616; sponsor's pledge, \$5,759.50; workers, 172. Farm-to-market road improvement and betterments of star mail routes and school bus routes; federal funds, \$18,605; sponsor's pledge, \$3,549.50; workers, 66.

Health Officer of State Says People Must Watch Health

AUSTIN, Nov. 27.—The first Thanksgiving Day was proclaimed for the colonists' health that had allowed them to survive the first rigorous year in America. Dr. John W. Brown, state health officer, asks that citizens of Texas give thought to their own health at this season of the year. Although we have experienced one of the longest depressions in history, the people have retained their health to a remarkable degree. Last year Texas was one of the few states to show a further decline in deaths among infants. During the last 50 years health departments have been established for the purpose of preventing disease. While their activities have been hampered by a lack of funds, a great improvement in the general health has resulted. During this period the life of the average person has been increased by 15 years. In other words a baby born now is expected to live 15 years longer than if he had been born in 1885. So let each give thanks for the methods that have helped in the conservation of life and, also, pledge to assist in furthering the work being done to improve health conditions throughout the nation.

ROME HINTS EMBARGO IS CAUSE OF WAR

Many Soldiers in Ethiopia Are Ready To Return To Italy If Necessary. Italy struck a warlike pose Wednesday night to discourage the League of Nations shutting off supplies of oil, cotton and metal—necessities for war with Ethiopia. Appeals Court Dismiss Case of Big Spring

Suit of the City of Big Spring for a writ of mandamus against J. S. Garlington, Howard county judge, has been dismissed without prejudice by the Eleventh Court of Civil Appeals at Eastland. Associate Justice Clyde Grison's opinion held the court did not have jurisdiction. This court's authority to issue the writ is limited to a situation wherein there is a cause pending in a district or county court where in the judge of said courts have authority to proceed to trial and judgment therein," said the opinion. "From the institution of condemnation proceedings and until after objection filed to the award of the commissioners there is no cause in the county court." The appellate court held that the action of the county judge in appointing appraisers did not constitute acts of his court, but in doing "such acts he is performing ministerial duties required of him by the legislature." The petition was filed after originally Judge Garlington had refused to appoint three special commissioners to appraise property inside the Big Spring city limits for damages which would occur by reason of Highway No. 1 passing through the property.

Colony Will Send Eleven Students to Texas Centennial

This is the plan by which the Colony school plans to send students to the Texas Centennial to be held in Dallas. Those receiving highest merit will be chosen. In order to reward merit, cultivate good school citizenship, and promote in your school a knowledge of and a patriotic feeling for Texas, your school board will send eleven students to the Texas Centennial Exposition in Dallas in the summer of 1936. All expenses of this trip will be borne by the Colony School Board. One student, and only one, will be selected from each grade. Method of Selection The student in each grade having earned the greatest number of points according to the method described below will be the student selected from that grade. Students earn points by: 1.—Attitude. Possible points 25. A student with a perfect attitude throughout a six weeks period. (Continued on page 2)

Hoover Speaks On American Liberalism

SAN FRANCISCO, Calif., Nov. 27.—The principal task of America's present generation is to "keep America American" and the first social idea is free men and women, former President Herbert Hoover declared today in a talk sponsored by the Junior Chamber of Commerce. Hoover pleaded for a return to real American liberalism, which "is not regimentation or repression and is never coercion by bureaucrats," and warned against important social philosophies of government.

Japan, At Least, Gains By Ethiopian War

Whether Signor Mussolini ever succeeds in getting his shoulder firmly under the white man's burden in Africa, he at least seems certain to give the Japanese a powerful boost in their drive across Asia.

This isn't at all what the Italian dictator set out to do, but the Japanese are great people for making hay while the sun shines; and the Italo-Ethiopian war constitutes, from the Japanese standpoint, one of the most noble outpourings of sunshine that has been seen since the World War.

The cables from China have been carrying significant little dispatches of late. Step by step, the Japanese have been edging forward in their plan to bite off another chunk of the world's most ancient nation.

The latest news is a flat prediction that a vast area of north China will go the way of Manchukuo within a month.

Now all this, as Nathaniel Peffer points out in the current issue of Asia Magazine, is a direct result of Mussolini's drive on Ethiopia.

The European nations don't want to see Japan subjugate China. Robbing the Chinese is a game traditionally reserved for whites. But Mussolini has given Europe something to think about much closer home.

The merry old game of robbing the African has always been a closed game, too, and when an outsider begins to muscle in on it, the players have no eyes for anything that may happen somewhere else.

This constitutes opportunity for Japan, and the Japanese have never yet been known to miss an opportunity when it was offered to them.

But the opportunity is even wider than that. Suppose that the league does finally work out a peaceful solution of the Ethiopian tangle. Every suggestion yet made for such a solution calls for the surrender by Ethiopia to Italy of much wealth in the way of land and resources.

The holdup, in other words, is to be stopped by having the victim hand over his watch and half of his bankroll, anyway.

The moral lesson in any such settlement as that would never be lost on Tokio. It would be definite proof that the way for a needy nation to get what it wants is to take a couple of hand grenades and go calling on the fellow across the street.

Obviously, if an aggressor is to be bought off by a tender of the loot he was after in the first place, the effort to restrain international banditry has collapsed utterly.

Mussolini may never conquer the Ethiopians, but he is making Japanese conquest of China a great deal easier and more certain. And Mr. Peffer, veteran observer of Oriental trends, remarks dryly:

"If I were a Japanese general, I should light incense before the Duce's portrait in one of the more furious presentiments he loves so well."

About the only thing the public can gather from the highly retouched communiques from the front is that the Ethalians are hurling back the Italiopians.

Noted Philadelphia author speaks on "Why do we laugh?" If he refers to radio jokes, we'll bite.

LOYALS ROUT REBEL TROOPS IN ARGENTINE

By BYRON TAVES United Press Staff Correspondent RIO DE JANEIRO (By Telephone to New York), Nov. 27.—

From the top of a cliff on Sugar Loaf Mountain, I watched federal troops blast rebellious soldiers from the barracks today with artillery, machine guns and bombs. The residential section was turned into a battlefield as troops deployed to shelter, opening with rifle fire from sheltered positions.

Reinforcements could be observed winding around the mountain, partly obscured by mist. Where I stood aboy had been killed shortly before, shot through the head by a stray bullet.

Residents of the suburb of Urta scurried through the streets for shelter, some carrying their most valuable possessions.

Others occupied vantage points on the side of the mountain or on the waterfront across the bay.

The fighting was vicious. The noise of machine gun and rifle fire was interspersed with heavier reports from artillery and airplane bombs.

The artillery proved most effective in reducing the barracks to ruins. Machine guns were placed under the trees in the wide street across the street from the barracks and the building was soon enveloped in flames, which obscured the scene.

Infantrymen advanced from the fortress at the end of the narrow peninsula. They scaled the foothills and raked the rebel stronghold with machine gun and rifle fire.

By United Press RIO DE JANEIRO, Nov. 27.—The widespread rebellion against the government of President Getulio Vargas appeared tonight to have been crushed following bloody fighting in this city in which from 100 to 250 soldiers were killed.

Authorities charged communists inspired the revolt here, as they did in the north. Silo Meireles, a former army lieutenant and fol-

ROOSEVELT TO ASK FOR ONLY BILLION FUND

By United Press WASHINGTON, Nov. 27.—President Roosevelt will ask congress to appropriate only \$1,000,000,000 at the next session for relief of unemployed for the next year, it was announced today by Senator Buchanan, chairman of the house appropriations committee.

The statement was made on his return here from a Warm Springs conference with the president. Senator Buchanan, who will steer the bills through congress, said he will:

1. Attempt to balance the ordinary budget.

2. Continue CCC camps.

3. Accept a \$500,000,000 appropriation for public works.

4. Oppose new funds for unemployed except on a direct relief basis.

Buchanan said he hoped the next budget can be held to around \$5,000,000,000. He hoped only half the \$4,000,000,000 for relief will have been spent this year.

He said he thought the only danger to balancing the budget will be the question of the soldiers' bonus. His remarks on the bonus followed by only a few hours a statement by Henry Morgenthau, secretary of the treasury, that "the bonus situation is unchanged."

DINOSAUR BONES FOUND

By United Press SPEARFISH, S. D. — Three tons of dinosaur bones—the remains of one prehistoric monster of another world—make up the most impressive collection on record after a season's digging by the South Dakota State College of Mines.

Lower of Prestes in the latter's five-year exile in Montevideo and Russia, was said to have started the uprising at Natal and Pernambuco. His arrest at a small railroad station in the interior was announced. He is in his early thirties, a member of an old Brazilian family.

Scientist Church Arranges Program For Thanksgiving

The Eastland Church of Christ, Scientist, will hold a Thanksgiving service today to which the public was cordially invited. This service includes the reading of a lesson-sermon, the topic of which is "Thanksgiving," as well as an opportunity for the individual members of the congregation to express their gratitude for the blessings which have come to them during the past year.

The Golden Text is: "Offer unto God thanksgiving; and pay thy vows unto the most High" (Psalms 50:14).

Among the citations which comprise the lesson-sermon is the following from the Bible: "Behold, God is mighty, and despiseth not any: he is mighty in strength and wisdom. . . He delivereth the poor in his affliction, and openeth their ears in oppression. Even so would He have removed thee out of the strait into a broad place, where there is no straitness; and that which should be set on thy table should be full of fatness" (Job 36:5, 15, 16).

The lesson-sermon includes also the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "In the scientific relation of God to man, we find that whatever blesses one blesses all, as Jesus showed with the loaves and the fishes, spirit, not matter, being the source of supply." (page 206).

Mrs. Victor Ginn will be presented in special songs at the Eastland church.

county contest. Points for participation in district, regional and state contests will be granted on the same basis; that is, 5 points for representing the school and additional points, 10, 8 or 6 for winning first, second or third place, respectively.

3. A student will receive five points for participation in any school program or play, exclusive of chapel programs.

Franklin Denies London Is Pushed By Standard Oil

OKLAHOMA CITY, Nov. 27.—Wirt Franklin, founder of the Independent Petroleum Association of America, today called absurd a reported charge Gov. Alf Landon of Kansas is a Standard Oil Company candidate for president.

The statement was accredited to Smith Brookhart, former United States senator from Iowa, in a New York interview.

"The statement by Mr. Brookhart is as erroneous as the Harry Hopkins misstatements of the Kansas relief situation," he said.

"Anyone who knows the private and business life of Alf Landon as I do knows the absurdity of the statement he is controlled or swayed by the Standard or any other interests."

Mav Team Leaves For Angelo Tilt

Coach Johnny Kitchen and the Maverick squad left Eastland Wednesday morning for San Angelo, where they will play the Bobcats this afternoon at 2 o'clock.

One position on the Maverick team was to be assigned from the reserves. Two ends, Pete Garrison and Truman Brown, sustained injuries last week that will keep them out of today's game.

It was reported Brown, who has been out the major part of the season because of an operation, sustained broken rib injuries in the game against Abilene last week.

The Eastland team, though confident, was aware that it was to meet one of the most dangerous high school grid machines in West Texas.

Ladies' Bible Class Study Church Finances The ladies of the Church of Christ assembled Monday in the church at 3 p. m. with Mrs. Loretta Herring bringing a lesson on church finances.

The session was opened with the singing of "The Old Rugged Cross," followed with prayer led by Mrs. P. L. Harris, with the closing prayer worded by Mrs. W. E. Moore.

The class will continue the study of church finances for two or three more lessons.

The 24 ladies enjoying the splendid lesson were Mrs. E. L. Pryor, Francis T. Cooper, Loretta Herring, H. E. Wood, C. L. Little, G. R. Pate, P. L. Harris, H. C. Gary, Dan Childress, J. E. Bills, Guy Sherrill, B. E. Roberson, W.

Thursday Club Sponsors Library Open House Mrs. R. A. Lerner, W. P. Leslie and Wayne Jones, the library committee of the Thursday Afternoon Club, were hostesses to the open house, held Monday from 2:30 to 5 p. m., in Eastland Public Library, which is sponsored by the Thursday Afternoon Club.

The affair was in honor of the donors of the library and the celebration of the 100th anniversary of the birth of Andrew Carnegie, the donor of the many libraries throughout the United States that bear his name.

There was a good attendance and cookies and tea were served by the hostesses.

Ladies' Auxiliary Works in Toy Shop The Ladies' Auxiliary of the Firemen's Association met in the clubroom at the city hall, 7:30 o'clock Monday night.

The session was opened by their president, Mrs. Johnny Hart, and minutes presented by Mrs. Argye Fehl, secretary.

Mrs. Aubrey Yeager, treasurer, reported that \$25 was cleared from their benefit dinner served downtown Saturday.

Mrs. W. A. Martin told of her trip to Austin to the annual convention of the T. F. W. C., with an interesting talk on "Texas."

There was a check of the nativity of the membership of those present, and all were found to be native Texans except two.

A motion was made to urge that everybody bring old toys to the shop for repairs, and if they are unable to bring them, call 627, and someone will call for them.

The Auxiliary has adopted a family, which they will take care of during Christmas, by furnishing groceries, Christmas dinner, Christmas tree with toys for the children, and also provide them the necessary clothing.

Mrs. C. W. Hoffmann was greeted as a new member. Adjournment was taken to the work shop where everyone went to work and the evening's activities resulted in a whole hall full of finished products.

The Ladies' Auxiliary and the firemen will be busy every day and evening from now until a week before Christmas.

Refreshments of sandwiches, pumpkin and mince pies, with whipped cream topping and coffee were served.

Guests for the evening were Messrs. and Mrs. Fred Michael, Ed Bills, Charley Fields, Raymond Webb, Noble Harkrider, Ed T. Cox Jr., C. T. Lucas, M. B. Griffin, Harvey Basham, L. O. El Paso Liquor Dealers Fear 'Wet' Law Is Too Dry EL PASO, Tex.—Texas is now a "wet" state—and still it isn't, El Paso bar and cafe operators have discovered.

With keen competition confronting them from Mexican cases of conviviality across the international bridge in Juarez, the El Paso bar-keepers regard Texas' new law against sales by the drink of "hard" liquors as a death blow to their business.

"I'm going to quit," one inn-keeper blurted out. "Why, I couldn't sell enough beer and wine to pay expenses. This place will be for rent."

El Paso officers indicated they might regard the new statute with one eyelid drooping.

"We'll have to try and enforce the law," Police Chief L. T. Robey remarked, "but I put a lot of emphasis on that 'try'."

Sheriff Chris Fox added, "I'll do the best I can with an apparently hopeless situation."

United States customs collectors, however, dampened the Juarez enthusiasm somewhat by decreasing that visitors from the United States to Juarez would have to bring across the bridge their \$100 worth of duty-free liquor between 8 a. m. and 6 p. m.

"For two weeks, President Roosevelt has been fussing with the budget." It's only a question of time until G. O. P. adherents dub him a fuss-budget.

Guy Quinn who never seems to sleep and is on the go all the time has been doing things worthwhile in what he calls East Eastland. He is making one of the finest cactus growing and shipping plants in the world right on the spot. Thousands of cactus varieties are now in the beds and hot houses. And he isn't near through yet. As he says, "Just wait—I'll show you something" and from the looks of things and judging by his plans by goshie he will. Guy receives orders from all over the world for his plants. And the varieties on hand come from all parts of the world. Guy says he is now working with the Honorable Tom Blanton to have a post-office established in East Eastland where he is located and hopes to get one before main Eastland gets theirs. He needs one to take care of his mail. And by the way, Guy Quinn is the biggest shipper over the American Express from Eastland to outside points in this section. That makes our good friend McCandless feel good.

Body of Woman Is Identified By Many

KANSAS CITY, Mo., Nov. 27.—The body of the unidentified woman slain Oct. 6, 1934, and believed by Oklahoma officials to be Chester Comer's first wife, was viewed by 15,000 and "identified" a dozen times.

A post-mortem examination revealed the girl was an expectant mother and would have borne a child five months after her death. The body was found on a country road. Police made several arrests. The girl was buried at the expense of the county.

Persian Minister To U.S. Arrested

By United Press
ELKTON, Md., Nov. 27.—The Persian minister to the United States, Ghassar Djalar, ran afoul of the law today on the main street of this town and after a scuffle with police was led in handcuffs to the county jail. During the skirmish police said the envoy pushed one officer from the running board of his automobile. After police learned the identity of the minister charges against him were dropped. However, his chauffeur was fined \$5.75 on charges of speeding and reckless driving. Later the fine was remitted but the chauffeur was required to pay 75 cents as costs.

"It's Ridiculous," Condon's Reply to Hauptmann Plea

By United Press
PROVIDENCE, R. I., Nov. 27. Dr. John F. Condon of New York explained "it's ridiculous" when questioned regarding Hauptmann's demand he "confess" something in connection with the Lindbergh kidnaping.

The intermediary in the Lindbergh case stopped at Providence on another of his trips to New England.

"He (Hauptmann) is appealing for his life. I mustn't do anything against him. Don't take that to mean I am for him. I am not," Condon said.

Less to the point was his reply, also to a question, regarding the meaning of Hauptmann's demand for a "confession" that: "I made a clear distinction in my testimony between identification and description. Identification is mental. It is a human conclusion. Description is purely physical."

Britain Testing A Swift Bomber

By United Press
LONDON.—Little by little details are coming out of Britain's new wonder plane, a twin-engined medium sized bomber which can fly at 270 miles an hour, faster than any scout plane now in regular commission.

The machine has been built by the Bristol Company. Tests by air force experts have revealed the plane is capable of attaining a speed of 270 miles an hour. This

figure will doubtless be reduced when the machine is fitted with machine guns and other war appliances, but it still gives Britain the fastest long-ranged bomber in the world.

Having to do nothing to satisfy any requirements but their own the Bristol Company made a number of startling innovations in planes of the type. The machine is a low-wing monoplane, with a retractable under carriage, fitted with two radial air-cooled engines

with a combined horse-power of 1,300. Instead of the usual longer-type of construction for the fuselage, the fuselage was made on the "monocoque system," thus saving weight and space, and making the machine much less likely to suffer damage by enemy fire.

The machine is of the all-metal type, and the wings have a metal skin covering which takes part of the load and thus permits a lighter construction of the wings.

No official description of the machine has been released, but it is known that in speed, weight-carrying, range, capacity for gun-fire, etc., it exceeds any similar machines now in service in any other air force. Possibly only the latest United States long-range bombers are in the same category.

HONG KONG.—The first group of more than 300 "simplified" Chinese characters has been made public by the Ministry of Education. The majority of the most commonly used characters have been "shaved down" to come under this new classification. The simplification consists chiefly in decreasing the number of strokes required to paint the character.

Poultry and Egg Shipments Down

AUSTIN.—Interstate shipments of poultry and eggs reach their lowest point of the year during late summer and early autumn, Dr. F. A. Buechel, statistician and assistant director of the University of Texas Bureau of Business Research pointed out in his monthly report on the poultry and egg trade. In addition to this normal seasonal characteristic, the number shipped during September this year almost reached the vanishing point, presumably because, first, the number of chickens was seriously reduced due to the drought last year and the consequent high cost of feed, and, second, the desire to increase flocks this year was greater due to favorable egg prices and the abundance and low cost of feed, he explained.

Only 11 cars of poultry were shipped out of the state, against 29 cars in September last year. But egg shipments increased materially—25 cars, against 16 last year.

Only three cars of eggs were brought into Texas from other states during the month, two from Kansas and one from Louisiana. During September last year 22 cars were brought in—14 cars

THANK YOU, AMERICA,

for more than a Million cars in 1935

Once more, at this Thanksgiving season, Chevrolet wishes to express its hearty appreciation of the friendship which America has given to this company and its products in 1935 and throughout the past quarter-century.

This year Chevrolet has two very good reasons for saying, "Thank you, America."

One reason is that people have bought so many Chevrolet cars that production for the year will reach 1,040,000.

And the other reason is that they have placed a record

number of orders for new 1936 Chevrolets during the first few weeks these beautiful new cars have been on display.

This is a double gift of friendship, representing, as it does, one of the biggest years in all Chevrolet history, and one of the most enthusiastic welcomes that any new automobile has ever received.

Chevrolet is indeed happy to say, "Thank you, America," and to pledge continued adherence to the manufacturing and service policies which have won and held this friendship. CHEVROLET MOTOR COMPANY, DETROIT, MICHIGAN

"I'd Better Ask Betty"

men know that their wives have sound and expert opinions on merchandise. Even the husband who would never admit his need for advice usually tries to ferret out HER views, wishes and desires before buying.

Why? Because most women seem to have an inborn interest in new things and better things... They are curious and alert... They ask their friends about this and about that... They compare values with great care... They read advertisements eagerly for the latest news.

It pays to keep ahead, by keeping up with advertising. Well-known products are definitely better products—if not, they couldn't be advertised month after month and year after year. The manufacturer and the merchant both know that the business that prospers is the business that promises satisfaction and keeps its promise.

The advertisements in this newspaper contain useful information about many things that concern you personally. Read every one that interests you... Read it carefully and take it seriously.

Texas Wonders If Rangers Are Going To Become Softies

By ROBERT WEAR United Press Staff Correspondent DALLAS, Nov. 27.—Texas is watching an experiment now and wondering—are the Texas rangers "going soft?" For more than a hundred years they have been Texas' final answer to desperadoes, to all who oppose law and order. Now they are merged into the Texas Department of Public Safety—a modern contrivance with radio connections, fingerprint experts and sub-machine guns. The public safety commission is trying to fit rangers into the picture. "He didn't fit," was the cryptic explanation of Albert Sidney Johnson, chairman of the commission, when the towering Captain Tom Hickman was given his walking papers a few weeks ago. Hickman's dismissal set off a bombshell of political repercussions and argument in the legislature. His name was practically synonymous in the public mind with "Texas Ranger." But Hickman had made a "water haul" raid on a notorious dining desert without finding gambling in progress there. He blamed a "tip-off" and made no further explanation, leaving for a deer hunting trip in the mountains of Southwest Texas. As Hickman went out, a grand jury in Fort Worth still was investigating a raid on the same resort, made a few nights later by two other rangers. The names they obtained from guests at the resort proved to be fictitious. Capt. L. G. Phares, director of the safety department, fumed. Hickman's friends took comfort in the situation. "Bunch of swivel-chair Johnnies," they labeled the safety department. Hickman's clean-up of the East Texas oil field during its boom days, in 1930, was cited as proof of the old-time ranger's ability to cope with modern conditions. Tom put aside his high-heeled boots, big sombrero and called on "bright spots" in Longview, Kilgore, Glade-water and Overton, attired in the horn-rimmed spectacles, checked suit and spats of a typical eastern "tenderfoot." The trick worked. He took so many prisoners an abandoned Methodist church in Kilgore was pressed into use as a makeshift jail. Similarly, when Clyde Barrow and Bonnie Parker, his machine-gun sweetheart, had terrorized the entire Southwest for several years and officers apparently were helpless, former Ranger Captain Frank Hamer was employed to track them down and kill them in a Louisiana by-road through the pines. Hickman and Hamer and their fellows had carried on the rangers' "two-gun" tradition for years, through cattle rustling days on the Texas-Mexico border in the moun-
