

RETREATING INDONESIANS BURN FOUR JAVA TOWNS

Relief Funds To Poland Are Canceled

WASHINGTON (AP)—Poland's share of the \$350,000,000 American relief program was canceled today, on grounds that the Poles have sufficient food, and State Department officials indicated Hungary likewise may be excluded from the program.

The action on Poland was taken on recommendation of a survey mission headed by Colonel R. L. Harrison. He reported to Secretary Marshall that Poland has food for minimum needs at least for the remainder of this year.

Better crop prospects in Hungary make likely that country also can get by without American assistance relief officials said.

Poland is within the Soviet orbit and Hungary is occupied by Red army forces.

The decisions on relief, however, were said to be based entirely on needs.

Relief shipments already have started to Italy, Greece, Austria and Trieste, under the program, and preliminary discussions are in progress with China. These along with Poland and Hungary were authorized by Congress to share in the relief program, which the House trimmed to \$332,000,000 in voting appropriations.

Harrison reported that "grain and other foods are available to meet the minimum food needs of the Polish people generally for the balance of this year."

He said imports of medical supplies and supplementary foodstuffs for special groups appear justified and that some imports of grain seed and fertilizer would be helpful.

The State Department said in its announcement however, that such special items could be supplied through private relief agencies and other sources, such as the International Emergency Children's Fund.

"In view of the above and of the fact that the funds available are sufficient to meet only the most urgent relief needs, it has been decided not to undertake a relief program for Poland."

Commission Calls For More Paving

Additional paving petitions to the City Commission by property owners were asked for yesterday afternoon by Mayor Huff near the close of the Commission's weekly meeting.

The mayor urged all property owners that want paving to get their petitions into the city manager's office not later than August 15 so that they could be set up in the first ordinance for September 1 starting of the paving program. These new petitions will be added with the original 11 blocks for immediate installation of 8-inch curb and gutter and base laying.

The Commission told Chief of Police Louis Allen and City Manager Steve Matthews to draw up plans for revised traffic signs, signals and school zoning, including speed limit signs and other traffic installations.

Recognition of transfer of the Lions Park in the Wilcox addition was made when the transfer was placed on the minutes.

Mathews reported the city was preparing to cash in \$16,000 of Series 'G2' War Bonds to meet current interest and sinking fund expenditures. This is a routine movement and the money has been set up for the purpose.

Other routine business was transacted at the session.

Pampa News

CENTURY PLANT—The only known century plant in Pampa is pictured above several days after it bloomed. The plant has been standing for 12 years in the yard of Edwin R. Southard, 568 N. Wayne St.

Russia Rejects U. S. Invitation To Treaty Talks

LONDON (AP)—Russia rejected a United States invitation to join in preparing a Japanese peace treaty and charged that American had acted in a "unilateral manner" in proposing a preliminary conference for Aug. 13 in Washington, the Moscow radio said tonight.

The broadcast Soviet reply to the Washington invitation declared that Russia "cannot agree" to the proposed Aug. 19 meeting of the 11 nations which fought Japan.

The Soviet note delivered to Washington yesterday declared that the Communist Foreign Ministers, representing the United States, Russia, Britain and China—should be entrusted with preliminary work in drafting a Japanese treaty in accordance with war-time agreements among the powers.

The text of the Soviet reply, as broadcast by the Moscow radio, said: "On July 11 of this year the United States Ambassador, Gen. Bedell Smith told V. M. Molotov, the U. S. R. Minister of Foreign Affairs, that the government of the United States proposed to call on Aug. 19 of this year, a conference for the preparation of a peace treaty with Japan, comprising representatives of 11 powers, members of the Far Eastern Commission."

"At the same time the U. S. government unilaterally began negotiations with this question with the governments of the remaining powers who are represented in the Far Eastern Commission."

"The Soviet Union is not prepared to enter into such negotiations with the governments of the remaining powers who are represented in the Far Eastern Commission."

Story of Capture Here Is Cleared

Conflicting reports on the capture of Thomas Binkley, Jr., 37, of Graham, on Monday night here by Sheriff Clarence Williams (F) Panhandle were smoothed out this morning by Williams.

Williams told the News that he had received a tip that his wanted man was in the area of White Deer, Texas. Williams got into his car and scoured that section of the country and then headed toward Pampa in the belief the man may have come in this direction.

Shortly before 10:15 p. m., Williams said he entered the Pampa police station in search of Chief Louie Allen. Allen was not in his office at the time and Williams left.

Williams added: "I drove around Pampa for a short time and later by a stroke of luck spotted Binkley on that road that leads to White Deer. I don't exactly know the name of the street, but I picked him up on the street, right back to Panhandle with him. I understood the rest of the gang was still somewhere south-east of White Deer and tried to get Binkley to tell me where they were, but he wouldn't talk."

Williams said he did not know how any story got out that Binkley was captured on the carnival grounds here on Monday night, but that the report was erroneous. He also quashed the story that the man had stolen a car in Pampa, adding that it was a pickup they stole near Pampa, but not in the city and the pickup was reported stolen in Panhandle.

The report of Binkley's capture on the carnival grounds here stirred up a genuine bit of a storm when peace officers and carnival affiliates declared that no disturbance was reported or seen Monday night on the carnival grounds.

Local Sheriff Jeff Guthrie and Deputy Sheriff Jett Bishop, 55, of Pampa, who patrolled the grounds that night, said they saw no capture or arrest of anyone there Monday night.

Contrary to their rumors, Williams said he was alone when he picked Binkley up on the street.

Body of Slain Man Identified

WICHITA FALLS (AP)—The body of a man found Sunday along railroad tracks a mile north of Burkburnett was identified yesterday as that of Walter Gray Bishop, 55, of Pampa.

Security Council Branded 'Perpetually Hung Jury'

Clark Urged To Call Off Opposition

WASHINGTON (AP)—Senator Ferguson (R-Mich) said today that "in justice to himself" Attorney General Clark ought to help clear the way for a senatorial investigation into his handling of Kansas City vote fraud charges.

Ferguson's call for a break in the solid Democratic opposition which has stalled Senate action on a pending inquiry resolution came on top of three other developments in the controversy:

1. Senator Hatch (D-NM) labeled as "politics" a charge by Republican National Chairman Carroll Reece that the opposition party's "frenzied efforts" to prevent an inquiry offer "conclusive evidence of Democrat desperation on the eve of the 1948 Presidential campaign."

2. Senator Langer (R-ND) denounced Clark's action in the Kansas City case, shouting to the Senate that "if a federal gettapo from Washington runs elections, we will soon have the same control over elections as they have in foreign countries."

3. With the GOP leadership still stymied in its efforts to get Senate action on the inquiry resolution sponsored by Senator Kem (R-Mo), Rep. Ploeser (R-Mo) stood ready to introduce a similar proposal in the House where Republican control is such that it could force speedy action.

Kem has sought a special investigation of Clark's order for a preliminary inquiry into vote buying charges in the 1946 Democratic primary in which Enos A. Axell won the Fifth Missouri District Congressional nomination. Axell, supported by President Truman, later was elected by Rep. Albert Reeves Jr., a Republican.

Clark first reported no evidence was found on federal law violations. Later he appointed a special prosecutor.

Body of Missing Man Is Located

MOUNT HOPE, N. J. (AP)—The body of a missing man was located in a sewer here yesterday, five bullet holes piercing the back of the man's neck and a heavy iron gate covering the catch basin where state police said the victim probably had been brought by a group of killers.

State Police Sgt. C. A. Vance identified the man as Santo Joseph Di Stefano, 34, father of five children who disappeared from his home at 32 Maryland Avenue, Paterson, just four months ago yesterday.

State Trooper Harold Lattimore, who is handling the investigation, said that several men probably were involved in the killing. No one man, Vance said, would have been able to lift the heavy iron gate which covered the basin where the body was stuffed.

Three children hunting frogs spotted the body in the sewer. The man's face was described as beyond recognition and all his fingers, police said, were gone.

Paterson police said the man was unknown to them and that his wife, Josephine, told them yesterday that he had walked out of the house four months ago and had not been heard of since. She did not report him missing at the time, police said.

Seaman applying for the benefits must bring along their identification papers, discharge, union cards, merchant marine certificates or other seaman's identification. To be otherwise eligible for the benefits a seaman must have been employed on a War Shipping Administration vessel during the past 18 months and also register for work with the employment office.

Second Round Spraying Will Begin Tomorrow

The city's second spraying of alleys, trash cans, water holes, drains and other insect and germ breeding places is expected to be started tomorrow or Friday.

The potent DDT spraying will again be done by the truck and sprayer owned by the city.

Carpenters Drive For New Contract

HOUSTON (AP)—Negotiations on a new contract between AFL carpenters and industrial contractors today was in progress, a move that may bring early end to a shutdown of an estimated \$150,000,000 in industrial construction here.

Pardons Board Hears Testimony By Mrs. Newton

AUSTIN (AP)—Mrs. Ruth Newton, wife of Dr. W. R. Newton of Cameron, testified before the Board of Pardons and Paroles yesterday that she and her husband were in Houston on the night of the attack on Dr. Roy Hunt in Littlefield, which Dr. Newton was convicted of.

"If you'll read the testimony, you will know we couldn't have been there (in Littlefield)," she declared in which Dr. Newton seeks a pardon from his two-year penitentiary sentence.

Dr. Newton's mother, Mrs. Mattie Drake Newton, a brother, the Rev. Frank Newton of Bucholtz, Texas; a sister, Mrs. H. F. Shieffer of Austin, and two of Dr. Newton's three small children were also before the board.

Mrs. Newton, earlier, told Chairman Abner Lewis she had "absolutely not" made the call which had attracted Dr. Hunt to a roadside rendezvous where he was shot twice about midnight on May 21, 1942.

Mrs. Newton had never been permitted to testify in her husband's trials since she was an alleged accomplice Dr. Newton told the board.

The physician's attractive brunette wife accounted to the board for the couple's whereabouts from the night before the attack (11:11 a. m. the next day when they were arrested).

She said they had left Cameron to go to Houston by way of Caldwell. In Caldwell they visited friends until "about dark," arrived in Houston about 11 p. m. and spent the night in an apartment at the Sterling National Life Insurance Company in which Dr. Newton then had an interest, she said.

Dr. Newton's mother told the board her son's wife had been before dark and couldn't have been in Littlefield, 450 miles away, by midnight.

Lewis said permission was granted for one more witness to appear before the board Thursday before the case is "finally closed" pending a decision. No name of the witness was given.

Youth Has Social Security Card, No Citizenship Papers

HOUSTON (AP)—Alec Stewart looked at his brand new social security card today and wondered if he could ever put it to use.

Only one thing stands in his way—The 18-year-old, French-born youth, who got to like America through U. S. soldiers he met overseas during the war, stayed away aboard a ship landing at Galveston earlier in the month.

He couldn't find his way to a citizenship officer he had him. He can't return to France because he is an orphan and his birth records were lost.

As a matter of fact, he doesn't even know his real name. He took the name of Alec Stewart from a story book soldiers gave him.

The social security card was issued to him yesterday by Fred L. Rogers, chief of the Houston Social Security Office, so that in case he did get to stay in the United States he would be ready to go to work.

City of McAllen Has Water Shortage

MCALLEN (AP)—Level of the water in the city reservoir today was so low that users were on a self-imposed restriction in order to maintain adequate supply to assure fire protection.

Some owners were asked to water lawns on alternate days.

Determined Dutch Army Drives Deeper

BATAVIA, Java (AP)—Four Java towns were in flames tonight as Indonesian troops retreating on two fronts, threatening their capital, adopted scorched earth tactics before a determined Dutch Army drive, an Indonesian communique announced.

Salatiga, important town south of Semarang and astride the highway to the Indonesian capital, Jogjakarta, was burning, the communique said. Armor-supported Dutch infantry had seized Salatiga and driven beyond it on the route to Jogjakarta.

The Republicans also put the torch to Lawang, 12 miles north of Malang, objective of another Dutch drive in East Central Java.

In the west, Soem-dang and Tjitjalangka, both 20 miles east of Bandoeng, also were fired, the communique added. It said both towns were levelled.

Another Indonesian bulletin said a Dutch column of 50 armored vehicles, including tanks, was less than 20 miles from the important north coast port of Cheribon.

This is the column which has spearheaded more than 55 miles northeast from Bandoeng since Monday.

In the Batawi area, the Indonesian said, a Dutch motorized column shied southwest for 30 miles, capturing a number of places.

The Indonesians reported strafing attacks by Dutch planes in central and western Java.

At the same time official Dutch dispatches from Sumatra said irregular Indonesian soldiers of "the People's Army" on the big neighboring island of Sumatra also were applying the tactics. These dispatches said the irregulars burned more than 100 homes before evacuating the town of Arnhem, a few miles south of Dutch-held Medan. Arnhem now is in Dutch hands, the dispatches said.

An Indonesian communique acknowledged that Dutch troops in east central Java were only 12 miles from the key Indonesian stronghold of Malanga, and were driving southward to a town only seven miles from the stronghold.

Other Dutch units threatened the Republican capital of Jogjakarta with a two-pronged drive.

On Sumatra the Dutch dispatches said, damage of at least \$200,000 was caused when Indonesians poured gasoline on Arnhem's homes and fired them.

Advices from Jogjakarta said the Indonesians had imposed a nightly 10 p. m. to 5 a. m. curfew in their capital as officials took an increasingly grave view of the military situation. The city remained calm, however, despite a bombing attack by Dutch planes at noon, the dispatch said.

A dispatch from Associated Press correspondent, Harris Jackson in Jogjakarta, quoted a Republican communique as saying that meanwhile, the Indonesians in a counter-drove were nearing the outskirts of Dutch-held Semarang, 27 miles north of Salatiga and the base for the impact of the Dutch drive toward Jogjakarta. Indonesian forces have been reported attempting to infiltrate Semarang, an important Dutch military base on the north coast of central Java.

A Dutch Army communique indicated that motorized columns and armor-protected troops were rushing deep into both Java and Sumatra on at least 10 fronts against sporadic resistance.

The Dutch Army today reported that American-trained marines moving south from north-coast beachheads had less than 10 miles to go to pinch off 2,400 square miles of east Java from the rest of Republican Indonesia.

The army, in its second communique since hostilities started Sunday, See INDONESIA, Page 4.

End of Wartime Credit Curbs Is Seen in Action

WASHINGTON (AP)—Decided specific executive authority to regulate time payment buying President Truman today takes a decision on when to lift present credit restraints on such items as automobiles, refrigerators and radios.

The President had recommended that the controls imposed by wartime executive orders be continued for a while with the approval of Congress as a curb against inflation.

But the House instead approved a bill late yesterday to end such controls immediately. The vote indicated a Senate approval is expected.

Chairman Wolcott (R-Mich.) of the House Banking Committee told reporters after the House vote.

"It is now up to the President to get rid of the credit controls, as he said he would do if he did not get specific authority from Congress. Because that World War I Statute carries no specific time limit, Mr. Truman could, if he chose, keep the restraints in force so long as the House bill did not become law."

The bill approved by the Senate would extend the controls to December 31, with no more than 20 percent required on down payments and installments to run two years.

Violent deaths were on the rise today in Texas with seven counted within the last 24 hours.

Traffic accidents claimed the lives of five, and shooting two.

A murder charge was filed in connection of one of the shootings. The other was termed an accident.

A shooting yesterday by a vacant farmhouse northwest of Emhouse left Bob Myers, 47-years-old farmer, dead. Police said a bullet from a German-made pistol struck him under the right eye.

Sheriff David Castles filed a murder charge against John Ayala, 47, neighbor of Myers, before Justice of the Peace A. E. Foster. Ayala is the father of 14 children.

In Amarillo Mrs. C. L. Ellis, 33, died yesterday as the result of the accidental discharge of a 22 rifle while on an outing with three of her children, among others.

Three Clarksville residents, all Negroes, were killed yesterday in a car-train collision at a grade crossing near Clarksville. They were John Austin, Omie Hoeker and Ralph Lindsey.

Everett Luke Jones, 24, of Kenedy, was killed yesterday in the collision of an oil truck and a milk truck near Clarksville.

Raymond G. Isbell, 29, of Scurry, Tex., met death when his car overturned yesterday five miles East of Truman.

Citizenship to Be Allowed Former Soviet

WASHINGTON (AP)—A House Judiciary Sub committee approved today a bill that would open the way to American citizenship for Victor A. Kravchenko, former Soviet official who has publicly renounced communism.

The measure, which would waive provisions of law forbidding a communist to become a citizen, still requires approval of the full committee. Its passage by the House and Senate is improbable before the next congressional session, beginning in January.

Kravchenko, who testified to the House on American Activities Committee yesterday that all responsible Soviet officials in the United States are spies, told the Judiciary group he fears for his life if he is not given the protection accorded American citizens.

"I can't live here one year," he said, "if you don't give me citizenship."

Kravchenko, a former Russian Army officer also served with the Soviet purchasing commission in this country before spitting with the Red regime.

The proposed bill specifically would declare that Kravchenko came to the United States for permanent residence as an immigrant, under the Russian quota, on Aug. 18, 1943 the day he arrived under diplomatic status.

He would be able to get final citizenship papers two years and 30 days after; the bill becomes law, prior to that he would be allowed.

Flood Damage in Erie Estimated At Million Dollars

ERIE, Pa.—(AP)—A state of emergency existed in this industrial town of 135,000 today in the wake of torrential rains that flooded the streets, leaving 75 families homeless and causing damage estimated at \$1,000,000.

The 75 Negro families evacuated yesterday from the Franklin Terrace housing project on the east side of town were housed temporarily in the City Hall Annex. Red Cross officials said they were seeking a schoolhouse in which to settle the families until their homes can be put in order.

Many of the evacuees swam to safety through 15 feet of water while others paddled to dry land in canoes and rowboats.

Ten hours of incessant, pounding rains from 9:12 a. m. to 6 p. m. yesterday simulated flood conditions not seen here since 1915 when Mill Creek overflowed and 30 persons lost their lives.

The freak flood, weather bureau officials emphasized, was caused entirely by the unprecedented rainfall which piled up 9.63 inches to break all records for any 24-hour period.

Telephone service was shut off in many parts of the city but electric power was unaffected.

Damage to business establishments and homes was unofficially estimated by various Red Cross and disaster committee sources at "about \$1,000,000."

Pampa and Clarendon Ropers to Match Arts

A matched roping contest between the Pampa Roping Club and the Clarendon Roping Club has been scheduled for tomorrow night at Recreation Park at 8 o'clock.

There will be 20 matched contests between the two clubs.

There will be a small admission charge to defray the expenses of the two Roping clubs.

Parents Say Son Not Involved in Deaths

MASSILLON, O.—(AP)—Six-year-old Roger Gue's parents steadfastly maintained today their son was not involved in the deaths of two infant girls at Massillon City Hospital last June 6.

Mrs. Roger Gue, the boy's mother, said Roger's earlier story he had seen a white-coated boy enter the hospital nursery was the truth—but a statement he made Sunday that he had dropped eight-week-old Diane Brand and 10-week-old Rosemary Morton while playing nurse was not true.

THREATENING

PAMPA AND VICINITY: Partly cloudy tonight and Thursday. Scattered showers with light temperature changes.

WEST TEXAS: Partly cloudy tonight and Thursday. Little change in temperatures. Moderate to occasionally fresh, mostly southwest winds on the coast.

OKLAHOMA: Partly cloudy tonight and Thursday. Occasional showers mostly in west and south portions tonight. Slightly warmer. High temperatures today 75 to 85. Night temperatures today 55 to 65.

near front end alignment, complete work service. Pampa Safety Lane, 811 E. Chrysler, Phone 101. (adv)

THIS TRACTOR AND COMBINE changed places in the course of an accident last week, near north of Berger. The tractor had been hauling the tractor (foreground) and towing the combine (background) when it was side-swiped by the combine-trailer truck. The impact side-swiped the tractor, rolled it on its side. The combine-trailer truck was undamaged and there was no serious injury.

Dallas Blanks Beaumont 2-0 As Buffs Beat Indians 12-10

Texarkana Runs Over Gainesville, in Big State League, 20-6

(By The Associated Press) The score sounds like football and the weather last night was suitable for this sport, but Texarkana won a Big State League baseball game from Gainesville, 20-6.

Playing on a muddy field after an all-day drizzle, the Bears rapped out 23 hits off three Gainesville hurlers, pushing over six runs in the first and again in the fifth.

Other scorers were milder. Greenville defeated Austin, 7-3; Sherman-Denison downed Waco, 11-8, and Paris beat Wichita Falls, 7-2.

Manager George Washington and John Berry passed Texarkana's 23 hits, attacking selecting three doubles and a single and a home run and three singles respectively.

Greenville chalked up its sixth straight victory and John Christie his 15th win of the year in defeating Austin.

Paris won its seventh game in a row by beating Wichita Falls. The Red Peppers jumped to a four run lead off three hits in the first inning and were never behind.

Another winning streak was Sherman-Denison's five-game affair, stretched on its way over at Waco. The twins tallied in every inning save the eighth. Waco's big inning was the fifth, when five hits were good for five runs.

Special Lubbock Game Honors Umpire Rabe

LUBBOCK—(AP)—Neal Rabe has been associated with the West Texas-New Mexico League since its founding and has been honored in his latest role—umpire.

Nearly four thousand fans turned out here last night to see the veteran baseball player, manager, owner and umpire presented a watch.

Milton Price, president of the League, praised Rabe for his efforts for organized baseball. "In the archives of the League there are many lines of who has done for the good of baseball," Price said.

Rabe was presented the watch in ceremonies preceding a game between Lubbock and Pampa.

Rabe has been associated with the West Texas-New Mexico League since its founding in 1937 as a player-owner and manager and umpire. He is now chief of the League's umpire staff.

Waco American Legion Club Gets 2nd Shutout

WACO—(AP)—The Waco American Legion club established itself as a strong contender in the state semi-pro baseball tournament today holding its second straight shutout.

Leroy Jarl gave the Waco nine a 9-0 victory last night over Goldthwaite, yielding just two hits. Waco defeated Corpus Christi, 15-0 in its first tournament appearance.

In other games yesterday, Speegleville eliminated Itasca 4-1, and Red River Arsenal (Texarkana) made its tournament debut by defeating Watahachie, 15-0.

Wagner's first great success in the operative field was based on a book by the Englishman, Bulwer Lytton, "Rienzi."

Waco American Legion Club Gets 2nd Shutout

WACO—(AP)—The Waco American Legion club established itself as a strong contender in the state semi-pro baseball tournament today holding its second straight shutout.

Leroy Jarl gave the Waco nine a 9-0 victory last night over Goldthwaite, yielding just two hits. Waco defeated Corpus Christi, 15-0 in its first tournament appearance.

In other games yesterday, Speegleville eliminated Itasca 4-1, and Red River Arsenal (Texarkana) made its tournament debut by defeating Watahachie, 15-0.

Hubbers' Powerful Defensive Play Gives Them 6-5 Win Over Oilers

LUBBOCK—(AP)—The Pampa Oilers bowed to the Hubbers here last night 6-5 after the Hubbers displayed beautiful defensive play to cut off the Oilers' scoring threats four times in the first four innings with double plays.

After Hub Shortstop Bill Serena committed two blunders in the first inning to allow the Oilers a tally, the agile infielder settled down to work three double mudders to quell early Oiler advances.

Right-hander Len Heinz was the winning pitcher allowing the visitors only eight hits, five of which were in the eighth inning, when the Oilers staged a rally that fell just short of the tying mark by a scant few inches.

Oiler right fielder Ray Bauer hitter out to drive that bounded high off the center field wall, that scored two runs and would have tied the score at 6 all, had it dripped over the fence.

Centerfielder Don Selby led the Oiler stickwork with a triple and two singles. Bill Chambers got a homer in the eighth, with no one on.

A RAW DEAL

At Indiana U. the football coaching staff is rather high on a freshman tackle named Wilfrid Rawl, who likely will take the place left vacant by Russ Deal's graduation.

One reason is that during spring practice Rawl smacked into a veteran player and really racked him up. They carried the vet off the field, revived him and the Doc asked where he was injured.

Replied the boy: "I hurt all over."

SHORTS AND SHELLS

Branch Rickey planned to put a soft rubber cushion on the Ebbets Field fence to protect Pete Reiser. After Pete's latest injury, it seems he'll have to pad the entire outfield.

Pete Pihos, who was one of the best ends ever developed at Indiana U. and just about as good at fullback, may play center in the Philly Eagle "T" this season.

Bob Wells, 17-year-old son of Cliff, the Tulane basketball coach, will be playing for his dad again next winter. Bob played two years for Logansport, Ind., a high school where Cliff coached there. He was All-State in Louisiana last season.

Clyde (Smackover) Scott, former Navy footballer who was the defensive star at Arkansas last fall, has been learning the tailback assignments and likely will be the key man in the Razorbacks' 1947 offense.

SUCH IS FAME DEPT.

Cliff Lewis of the Cleveland Browns threw only one touchdown pass all last season, but it earned him a spot on the All America conference honor roll and a picture in a prominent place in the league's office. That pass was completed to Mac Speedie for the first touchdown ever made in the new pro football circuit.

AAU Swim Meet Will Begin at Tyler Sal.

TYLER—(AP)—At least 12 Texas cities will be represented Saturday and Sunday in the State Amateur Federation Swimming Meet here.

Preliminaries in both the diving and swimming will begin Saturday afternoon with finals in 14 scheduled events that night.

Added to the meet is the 50-meter free style women's Junior National AAU outdoor event.

SAN ANTONIO GOLF

SAN ANTONIO—(AP)—The Texas Public Links Senior Golf Tournament moves into the second round today.

An upset turned up in the opening round sessions yesterday when Frank Roberts of San Antonio eliminated the tournament's medalist, Dr. B. T. Childress of Giddings, one-up.

Divorce Suit Filed

The divorce suit of H. V. Dickinson versus Marie O. Dickinson was filed yesterday in the office of District Clerk Dee Patterson.

Building Permits

The following building permits were issued yesterday in the offices of City Engineer Dick Pepin:

Hughes Pitts Inc., to construct an additional room and garage at 1143 Starkweather St.

Hughes Pitts Inc., to add porch and garage at 1301 Terrace.

Gertie and Her Monkeys Tidwell Show Feature

The T. J. Tidwell Shows and Carnivals are exhibiting here this week south of the Ball Park on Tuke St. Some new attractions and rides have been added since the show's last appearance here. The streamlined lighting effect is especially noticeable.

Tom Tidwell has been traveling the plains of West Texas with his caravan for 25 years. He is the only carnival owner in the west that has ever carried an elephant with his show and Gertie is better known to the youngsters of the area than many of our leading citizens.

Tidwell's feature attraction this year is Gertie and Her Monkeys. Gertie is a chimpanzee, now aged six and weighing 145 pounds. At the estimated age of three when she weighed 35 pounds she climbed in a fox hole with a wounded American soldier during a battle in Burma. It is presumed that her mother was killed in the battle. When the soldier was sent back to the U. S. a few weeks later he brought Gertie with him. Tidwell bought her and she has been reared and educated on his carnival. She sleeps in a room with her trainers and has the manners of a well bred child. Her performance is almost unbelievable.

LIGHT HEAVY BATTLE
EIGHT FASO—(AP)—Dolph Cuijano tonight defends his state light heavyweight crown against Marvin Liddell, Oklahoma City Indian.

It will mark Cuijano's first title defense since he annexed the title last April from Jimmy Webb.

Division Competition Starts in Junior Ball

(By The Associated Press) Texas' American Legion Junior baseball teams open action for a spot in the state tournament at Austin next Wednesday.

A tournament at Lubbock will determine a division champion from among district winners at Lubbock, Wichita Falls, Lamesa, and El Paso.

Four division champions will compete for the state title.

Adamsom (Dallas) and Paris open a three-game series to determine the division 2 champion at Paris Friday. Temple meets Bryan and Kilgore plays Stephenville to determine finalists in division 3.

Galveston and Houston play at Houston in a bi-district series in division 4 Wednesday. Austin and Laredo, other district champions of the division, will also meet in a series.

BATTING LEADERS

MAJOR LEAGUE LEADERS
By The Associated Press

NATIONAL LEAGUE

Batting—Walker, Philadelphia .344.
Home runs—Mize, New York 28.
Pitching—Blackwell, Cincinnati 17-2 .896; Spahn, Boston 13-4 .765.

AMERICAN LEAGUE

Batting—DiMaggio, New York .342.
Boudreau, Cleveland .339.
Home runs—Williams, Boston 18.
Death, St. Louis 12-4 .425.
Pitching—Harder, Cleveland 6-1 .857; Shea, New York 11-2 .816.

SEMI-PRO BASEBALL

WACO—(AP)—Itasca was eliminated from the state semi-pro baseball tournament here yesterday by Speegleville 4-1. Leon Vick pitched a three-hit game for the winners.

Houston, Dallas Are Both Near New Texas Loop Attendance Mark

DALLAS—(AP)—The Texas League's largest cities—Houston and Dallas—are in the midst of a hot attendance race with prospects that both will surpass the league record.

But of prime concern at this time is whether Houston or Dallas will have the most for a period of 62 playing dates.

Houston now leads with 257,304 but only because the Buffs have played at home more than Dallas. The Rebels through last night had drawn 214,261 for 47 dates. Houston has had 55 home appearances.

A little horse play has entered into the situation. President Allen Russell of Houston and President George Schepps of Dallas have waged a wheel-barrow ride on the outcome. If Dallas wins, Russell will give Schepps a ride when the clubs play at Dallas Aug. 22. If Houston wins Schepps will take Russell for a ride at Houston Aug. 14.

Houston has been averaging better than 4,700 at home; Dallas better than 4,600. At the present both will go over the 300,000 mark for home attendance for the season, bettering the record of 295,103 set last year by San Antonio.

Russell points out that if his average continues he can boast of nearly 350,000 for the season; Schepps isn't quite so optimistic, forecasting 315,000, but if the present Dallas average is maintained the total will be around 340,000.

Town Approves One Of Two Bond Issues

COLEMAN—(AP)—One bond issue was approved and a second rejected by Coleman voters yesterday.

Approval was given to a \$300,000 revenue bond issue for modernization of the city light plant. The count was 323 for and 171 against.

A proposed taxation bond issue of \$65,000 to finance construction of a new fire station was defeated 219 to 185.

Florida's Governor Visits in Del Rio

DEL RIO—(AP)—Florida's governor M. F. Caldwell passed through here yesterday en route to Tallahassee after attending the governor's conference in Salt Lake City, Utah.

His party, including two daughters, Sally and Susan Caldwell, was met here by state Rep. Charles B. Moore. They were informally entertained in Villa Acuna.

Vacation Gloves Easily Washed

American-made cream chamois "shorties" add smart highlights to a summer gabardine suit and veiled sailor hat.

FOR style dividends on your summer vacation take along a correct selection of leather gloves. No matter how informal the occasion, carefully groomed women have many opportunities to appear fastidiously gloved. She should always have at hand at least two pairs of white gloves, either doekin or capeskin. And for informal wear, motoring and sports, she will use several pairs of bright or pastel lightweights in chamois or doekin.

American-made leather gloves, of course, are easily washed—an advantage on vacations when luggage is crammed and packing space is scarce. Here's a practical fashion hint: wash your American leathers as you would your lingerie, keeping your handwear as dainty as your nylons. Never let white gloves get too soiled. Not only does dirt make them untidy, but it makes them more difficult to wash. Another advantage of prompt cleaning is that gloves "breathe" better when their pores are free of dirt. This is important during the hot months, when leather gloves actually help you stay cool and clean by circulating filtered air over your hands.

WE, THE WOMEN

Jeans, Shirts, Saddles—Don't Make a Beauty

By RUTH MILLETT
NEA Staff Writer
"How in heaven's name can I persuade my 17-year-old daughter to quit going around in blue jeans, dirty shirts and dirtier saddle-ox-fords which make her look like a freak when she is actually a very pretty girl?" asks the mother of a teen-ager.

Well, maybe it won't do the trick, but instead of ridiculing her, how about taking this line:

Repeat the remark of an older man who looked at a crowd of bobby soxers in their rolled-up blue jeans and said: "I'm certainly glad girls didn't dress like that when I went to high school and college."

Maybe that will show her that she and her friends are really typifying the boys of their generation, making the least of their looks, instead of making the most of them. And then, perhaps, you can show your daughter that she is cheating herself, too.

SQUANDERING HER LOOKS
After all, if she goes around

looking like a caricature, when her beauty is just beginning to bud, she is wasting an attractiveness that won't be hers for long.

Some day, she will regret it, when a new crop of teen-agers takes her place, when she looks enviously at their slim figures, fresh complexions and bright eyes and realizes that when she looked like that she distorted her assets just to follow an ugly fad.

Maybe you can't make your daughter understand that now. But it's worth trying.

Veterans Can Train By Correspondence

Many veterans are surprised to learn that when they study correspondence courses, only one-fourth time is charged against their enrollment under Public Law 348. Thus, if a veteran has one year of enrollment he may if he prefers study with a correspondence school for about four years.

If a veteran is pursuing full time on-the-job or apprentice training and takes a correspondence course as related training, no charge is made against time entitlement for the correspondence course. Nor does the correspondence course taken as related training affect the veteran's entitlement to subsistence.

A veteran is allowed to take correspondence courses up to \$500. This means he may take one course after another so long as the total doesn't

SOCIETY

China Is Theme For Calvary WMU Program Monday

Members of the Calvary Baptist Women's Missionary Union met at the church Monday afternoon for a Royal Service program. Mrs. S. L. Lowe, president, was in charge. Mrs. Jack Robertson led the song service with piano accompaniment by Shirley Lowe. Opening prayer was by Mrs. C. S. Boyd.

Mrs. Bert Mitchell was chairman for a program on China. Women taking part on the program were seated Chinese fashion around a tea table and were dressed in Chinese robes.

The devotion "A Poem of Universal Vision" was given by Mrs. H. C. Blackshear. For her topic, Mrs. Fred Ennis spoke on "Meet the Chinese." Mrs. W. J. Scott's subject was "Chinese and Their Religions." Mrs. Collins Webb gave an interesting discussion on "Chinese Baptist" and sang a Chinese chorus.

A special prayer that Christianity might prevail over all other religions in China was made by Mrs. J. M. Hill. She spoke on "Relief and Rehabilitation in China." "Good News From China" was Mrs. J. C. Willis' topic. Mrs. Boyd spoke on "American Chinese." A prayer petitioning God's blessings on all Baptist work in China was offered by Mrs. Collins Webb.

A musical selection "Throw Out the Life Line" was sung by Mrs. Webb and Mrs. Charles Graham. Closing prayer was by Mrs. Slaten. Others present were Mrs. Jack Williford, Buck Musgrove, B. F. Walker, Pearl Scarberry, N. Smart, Frank Staton, Misses Shirley Lowe, Sara Nell and Margaret Ennis, Dorothy Ann Mitchell, Barbara Blackshear, and Betty Graham.

The Social Calendar

- WEDNESDAY
7:30 Choir rehearsal at First Methodist Church.
7:30 B.O.K.'s will have a lawn supper at the home of Mrs. Larry Murray, 1395 Garland.
8:15 All church choir rehearsal at First Baptist Church.
8:15 "People's Power Night" at the Central Baptist Church.
- THURSDAY
10:00 Merton H. D. Club will have a called meeting to complete plans at the home of Mrs. Shirley Lowe, 2000 all visitation night at Central Baptist Church.
8:00 Rebekahs will meet in the IOOF Hall.
- FRIDAY
2:00 Skelly-Kingsmill Club will meet with Mrs. Richard Abbott, 937 S. Sumner.
2:00 Wayside H. D. Club.
2:20 Viernes Club.
2:30 Singing at White Deer Church of Christ.
- MONDAY

Gracie Reports

By GRACIE ALLEN
I see that a lady in Miami laughed so hard at a movie comedy that the theater management had to send her home in a taxi and give her a ticket for a future show. Well, when it comes to hearty, movie laughter, I've yet to hear the equal of my sister Hazel. Theater loss money when she goes to a comedy because her merriment causes the building to shake and they have to rule the balcony "out of bounds."

My sister Pearl also laughs quite a bit, but she has what might be called a delayed sense of humor. I was so embarrassed when I went with her to Bettie Davis picture and she burst out laughing during the death scene! She explained that she had just got the point of a joke in a laurel and hardy picture that she had seen the previous week.

pass \$500. The veteran's entitlement is charged so much a lesson. If he drops his course no charge is made for the part not completed. Of course, the Veterans Administration pays the bill under Public Law 348. A veteran may enroll in this manner only with correspondence schools that have a contract with the Veterans Administration. It is the veteran's obligation to find this out, or he may find he has enrolled with a school that doesn't have a contract and thus have to pay for the course himself.

We must make the federal government a friendly, vigilant defender of the rights and equalities of all Americans. And again I mean all Americans. —President Truman.

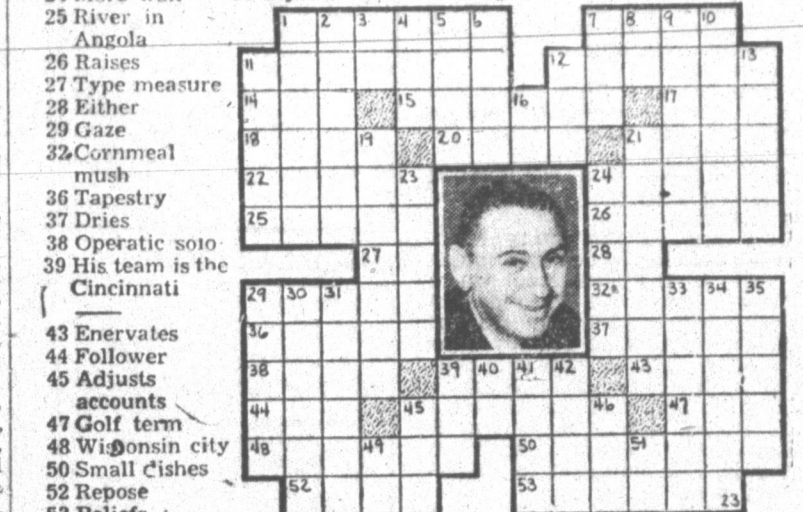

PRICE?

Making a selection is an exceedingly simple matter with our pricing system. Our display rooms contain a splendid price range—each service is clearly and reasonably priced. There need be no delay in deciding on the service you wish, for you can see the price and the type. This is our way of making it easier and more convenient for you during the trying time of bereavement.

First Organizational Meeting of Mooses Held

The first organizational meeting for the Pampa Lodge of Moose was held last night in the Palm Room, City Hall.

Officials of the Borger lodge of the fraternity took the initial steps in aiding to organize the local chapter and were assisted by Pampa members of the lodge.

Benefits of the lodge and its child city of Mooseheart, the city where children of the Moose and their mothers are taken when or if their father should die. The protection of Mooseheart, Fla., where old members of the Moose can spend the remaining years of their lives, another Moose supported city, were also explained.

Several applications for membership were made out at last night's meeting. The next meeting of the lodge will be held at 8 p. m., Tuesday, July 29, in the County Court Room.

Chicken Feed

"Folding Money" NOW

Poultry raising in our area has come a long way since Mother kept a few chickens for egg money and Sunday dinners.

Today there's a lot of good "folding money" in scientific poultry raising. It's not "chicken feed" any more, for more folks than ever before are making big money in the poultry business in the Panhandle-Plains-Pecos Valley Area.

We have so much confidence in the poultry industry—and all other industries we serve, that we are investing 35 million dollars in a building program. This expansion program in our territory will bring more dependable electric service to industry and farms and better living—electrically—to everyone.

HOEDOWN FIDDLER

Ozark Red, pictured above, of the "Korn's-A-Krackin'" show that is to appear in Pampa August 1-2 made the headlines for the umpteenth time when he became the first hoedown fiddler to ever have his picture taken with Fritz Kessler. Red is widely known as dean of the nation's hoedown fiddlers and when he sounds off with "The Gray Eagle" or "Pamper County Scrapings" you'll realize why this carrot-thatched fiddler is such a whiz.

Election Fraud

(Continued From Page 1) cator who obtained the indictment of five persons, including Ferguson, told a reporter this subsequent action "indicated there was something there all the time and the Attorney General should have known it."

Air Express Shipments Increase Over June '46

AUSTIN—(AP)—Air express shipments in Texas increased two percent in June compared with May, but increased 26 percent this June compared with the same month a year ago.

Health Officer Explains How To Use DDT

Insects are not killed immediately upon contact with DDT, Emmett J. Howard, county health officer, explained in an article for The News today.

As they crawl over it, however, the DDT is absorbed into the body through the feet and body wall, he stated.

Exceedingly small amounts in the insect body begin to affect the nervous system. The first symptom is a restlessness or excitement which may cause the insect to crawl or fly away. Later the insect is seized with tremors and convulsions, and eventually rolls over on its back. Soon it dies.

As much as there is widespread use of DDT, it might be well to familiarize the people with it, Howard said.

The following is a continuation of his article on the properties and use of DDT:

DDT has no fumigating effect and insects will not be killed simply by being in the same room where DDT has been used. They do not have to eat the material or be killed, but they must actually come in contact with it, although continuous contact is not necessary.

During the first brief contact with a DDT residue a fatal amount of it is absorbed by the insect, and it will die, even if it moves off to an untreated area.

There are several DDT sprays that may be used in the home and on the garbage barrels for the application of a DDT residual deposit. The most suitable one is a 5-percent solution of DDT in a deodorized kerosene. An emulsion containing 3 percent of DDT can be prepared from commercially available concentrates. If the concentrate contains 25 percent of DDT, mix one part of concentrate with four parts of water to form a 5 percent spray. Wettable powders are also available for the preparation of DDT suspensions. These powders have been specially prepared so they can be mixed with water, and usually contain 50 percent of DDT.

Firemen Learning To Prevent Fires

Firemen attending the Texas School for Firemen at A. and M. College here, are not only learning how to fight fires—they're finding out how to prevent them.

The firemen are learning it is far more important to get rid of fire hazards by inspection than to fight fires after they get started.

A. C. Hutson, assistant chief engineer of the National Board of Fire Underwriters, addressed the 500 firemen in attendance at the session's opening class yesterday.

Hutson, who made an official inspection of the tragic Winecoff Hotel fire in Atlanta, said "all over America there are other buildings as badly designed."

Reason so many persons died in the Atlanta fire, he said, was the central open stairwell.

He told the firemen it was their responsibility to educate the public to the danger of letting fire hazards go uncorrected.

Good state and city building codes are a help, but not unless they are backed up by public acceptance and understanding.

Hutson is a graduate of A. and M. He grew up at the college where his father was a professor.

Citizenship (Continued From Page 1) to leave the country and return. The Subcommittee acted after Reps. Coudert (R-NY) and Mundt (R-SD) testified for Kravchenko and said he has rendered "enormous" service to this country.

Chairman J. Parnell Thomas (R-NJ) of the Un-American Activities Committee said his group plans to give the Army Navy Medal of Honor to the testimony by Kravchenko that Soviet agents got secret wartime information on American planes and submarines.

His suggestion: Look into American history, where many unmovable characters with interesting and exciting stories are still hidden. But steer clear of the civil war, he advised, because there can be but one ending to such a picture. Even Hollywood can't change that.

The foreign market is a prime concern of American producers and they must eye colleague Walt Disney with envy. His films have universal appeal and can be readily dubbed into foreign languages. I saw a couple of reels of "Bambi" in the Indian version. Not only did the characters speak Hindustani, but the background music was created by native instruments, such as ocellular orchestras sound strange to the eastern ear. It is the first time this has been done on a U. S. film and "Bambi" may be the key to the vast Indian market.

A start has been made with the Maurice Chevalier film, "Silence is Golden." The actor will do a special prologue in which he sings the only song in the picture, then narrates the dialogue in English.

Sights and sounds on the Hollywood beat—Betty Garrett monopolizing interest at the beach by wearing a French bathing suit—Jane Russell being fitted for her high-necked costumes in "The Paleface"—Fred MacMurray donning spats and a derby to play a press agent in "Miracle of the Bells"—Jeffrey Lynn back on the Warner lot, but only to pick up a suit he left there.

Leaves From a Correspondent's Life Note Book

By HAL BOYLE NEW YORK (AP)—The most exciting family scrap on the horizon is the effort of 70,000,000 little brown people to say goodbye to their old Dutch Uncle.

The Uncle has had a lot of trouble in the last three centuries keeping them under his empire roof, where they've always paid a big share of the rent.

The American policy in the Philippines is one reason Holland—the Dutch Uncle—is confronted with its biggest crisis since it "adopted" the East Indies.

For, looking across the Pacific waters to their cousins in the Philippines the 70,000,000 little brown men of the Indies were heartened in their own quest for independence by the action of Uncle Sam in promising and delivering full freedom to his nephew Filipinos.

This United States policy was little to the liking of European imperialists. But there are other factors that helped put the Netherlands home government in Dutch with the inhabitants of its green and profitable Pacific paradise.

One was the growing power of the independence movement in India. Another was the loss of face the Dutch suffered when the Japanese army occupied the East Indies and indoctrinated the natives with its heady pie-in-the-sky prospect of the greater East Asia co-prosperity sphere.

The Japs also trained the Indonesians in modern warfare and turned over much of their own equipment to Japs to them after the end of the war.

With this dubious rusted armament the 200,000-man Indonesian army thus faces a Dutch army of 120,000 men well-equipped with British and American tanks, guns and planes.

But if full scale war develops, the Indonesians by guerrilla attacks and warlike destruction of Dutch productive property may make reconquest of the East Indies too expensive for the Hague's slim pocket-book.

They know that, historically, Great Britain faced a roughly similar problem with India and bowed to the situation despite the clamor of her more ardent imperialists.

Most Javanese are Moslems and traditionally good warriors. They led many savage revolts against their white masters until the Dutch government instituted notable reforms that finally won it the reputation of being the most enlightened of colonial powers.

Today Republican leaders demand full freedom for the 70,000,000 people in the rubber, oil, rice, and copra-rich East Indies, Holland's empire plum. They think they are at last in a position to get it.

DEATH of a DOLL

By Hilda Lawrence Distributed by NEA SERVICE, INC.

THE STORY: Ruth Miller, a salesgirl at Blackman's department store, has been looking forward to moving into her new residence club for girls. But the evening she arrives she sees something in the lobby that terrifies her. She wants to leave but gets entangled in a web of circumstances that prevent. Two days later, desperate for escape, she attends a costume party where all the girls dress as ragdolls, hoping to get away while in disguise. There is a minor accident and she is sent upstairs for iodine and bandages. Another rag-doll follows her.

MISS BRADY'S door was unlocked. Ruth went through the living room and bedroom to the bath beyond. The iodine and bandages were in the medicine chest. She collected them hurriedly and started back. She was hot and her face was wet, and she pushed up the cotton mask. Twin lamps burned on Miss Brady's dressing table, shedding their light on gold and ivory, tortoise and enamel. Shedding their light on gold and ivory, tortoise and enamel powder box. Her free hand went to her throat in a gesture that repulsed and she knew what she saw. She knew the box, she knew it had a bronze base, she knew the color and shape of the importer's mark on the under side, she knew the lid. Proof, proof, if she ever needed it. Sudden triumph shook her from head to foot and all caution fled. She raised the lid, and the room was filled with tinkling sound. "Believe me if all those enduring young charms that I gaze on so fondly today," she repeated the words under her breath. The music drifted out into the living room; it was entrance music for the second doll. The second doll moved slowly, lazily, silently across the floor to the bedroom door and led against it. For a while the only sound was the music. Then came a low chuckle. Ruth turned. The iodine and

bandage dropped from her stiff, gloved fingers. She backed to the wall with arms outstretched, her stiff, gloved hands beseeching. "Nobody knows," she pleaded, "nobody ever will know, ever, ever, I was going away, I want to go, let me go." Her mask slipped to the floor.

She could hear the musical box, but she could see nothing beyond her face. It wasn't her own hand. Something struck the side of her head. In Miss Small's suite, Mrs. Marshall-Gill adjusted her hat, which had been knocked askew too often, pinned back her straying hair, and washed her hands. That done she left and walked to the end of the hall where she rang for the elevator. She heard the preliminary buzz and waited for the active purr. Nothing happened. She rang again and again, and after the third ring the car came empty except for the operator. She got in, affronted. This, she said to herself, is what comes of letting the masses act like other people. "The party is no excuse, Jewel," she said. "You knew I was there and don't tell me you didn't. I rang three times—three. I call that deliberate insubordination. . . . Well, say something!" The masked head turned slowly to face her. No words came from the red, buttonhole mouth, nothing showed behind the round, black-fringed eyes. The car sank gently downward.

Mrs. Marshall-Gill discovered that her throat was dry and her knees unstable. Something like a cold wind was filling the small cage, wrapping its fingers around her heart, emanating from Jewel. The car lurched to a stop. Mrs. Marshall-Gill got out and went to her chair. When she was able to raise her glazed eyes, the car had gone up again. She watched the

years. Now she has reddish brown hair and she's still mighty cute. Alice will play a B-girl in the San Francisco bar where Jimmy Cagney, Bill Bendix and others are enacting the William Saroyan drama which Bill Cagney is producing for the screen.

MARRIAGE WITH REVERSES Alice has been married for the last 10 years to Jack Roberts, a film writer. "With a few intermissions," she said.

"I've really been retired," she said, "but there are still a lot of roles I think I can play. And if Hollywood wants me, I'm ready to go to work at once."

Fate once played a strange prank on Alice. At the peak of her career, she tried to talk Warner Brothers into sending to Broadway for Fred Astaire as her dancing partner.

The studio said: "Who wants to see a bald-headed guy dance?" Several years later RKO hired Astaire and paged Alice to co-star with him. Alice was in a play in San Francisco and couldn't get out of the contract.

So instead of Alice, an unknown girl named Ginger Rogers landed in Astaire's arms.

BIT AND BITTER Warner Brothers talked Kent Smith into playing a bit in "The Voice of the Gods." He finally saw the preview. "If I ever play a part as short as that again," he cracked. "I'm going to speak slower."

Brian Donlevy will get the role of the Chief of the Canadian Mounties in the film version of "Mrs. Mike." Dan Duraya is due for an all-out publicity campaign at U. I. Ruth Warrick will make an album of nursery stories for Decca. Carmen Miranda, of all people, is taking English dictation lessons.

Bruce Cabot is dreaming up a vaudeville tour, doing a streamlined version of a hit play. . . . Tony Martin turns on the spot for Nan Bennett at the Beverly Tropics. . . . Ida Lupino and Don McGuire a surprise twosome at Jack's at the Beach. . . . "Annie Oakley," filmed in 1935, and starring Barbara Stanwyck, is the next revival to hit the comeback trail.

Frenchmen Will Give Glider Demonstration DALLAS (AP)—Nine members of the French Aero Club, en route to France after competing in the National Soaring Meet in Wichita Falls will give a glider demonstration here today.

The demonstration, including aerial acrobatics, will be held over the Luscombe Airplane Corporation's field.

One of the Frenchmen, Eric Nessler, won the soaring meet's distance event with a 315-mile flight from Wichita Falls to Tucuman, N. M.

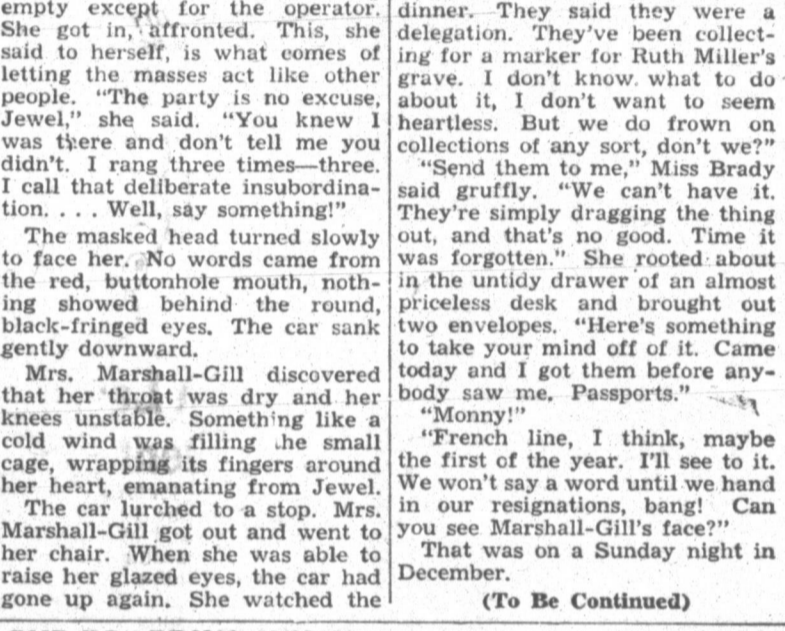

MUSICIAN SUGGERS DALLAS (AP)—Funeral services will be held Thursday for Dr. Andrew Hemphill, a veteran music instructor who died of a heart attack yesterday at his home.

EFFICIENCY A large car skidded to the curb in front of the Capitol in Washington, and a well-dressed tourist couple hurriedly got out. After quickly surveying the surrounding scene, the man said: "All right, dear, you do the outside and I'll take the inside. We should be through in a half-hour."

—Reader's Digest. First white man to set foot in California was Juan Rodriguez Cabrillo, in 1542.

THE UNPALATABLE TRUTH

The people of the United States have reached a point where they must face facts. We have been taught to look upon our country as a land of inexhaustible resources. We have lived in sort of a dream world created by our own wishful thinking. We have been told by so-called economists that wages could be raised almost indefinitely without increase in the cost of living. We have been told that we could go in debt almost indefinitely, on the theory that when government borrowed from the people it was not really a debt because the people merely owed the money to themselves.

Now we face the Frankenstein we have built. We have found that more wages for less production per man raises prices enormously. We have found that when we loaned money to ourselves in the form of government bonds, interest on that money has to be collected in taxes and paid to ourselves—this in turn adds greatly to the cost of living.

General Eisenhower has now told us in plain language that with the present conditions of the world it is possible we will be in another war within 12 months.

There is only one way the people of the United States can save themselves. As workers we must learn that an increased income can only be made permanent through increased production per man; we must learn that only by work and saving and economy can we maintain a solvent government, i.e., save the money we have "loaned" to ourselves. It makes no difference whether we allow extravagance in government or extravagance in our families—either will destroy our savings and capital. We must all learn that in a world economy largely devoted to a race for military supremacy and to the quickest and most efficient means for destroying the human race, we must be prepared to protect ourselves.

Today we are like a giant who has become soft due to his own excesses. Unless we correct our method of living, we are simply inviting trouble. We have had our warning. We have seen the inevitable results of policies we have pursued. Are we intelligent enough to correct our errors?

NATIONAL WHIRLIGIG

WASHINGTON

BY RAY TUCKER
EISENHOWER—Do the politicians at Washington, asks R. S. of Columbus, Ohio, "attach any seriousness to the Eisenhower-for-President talk which creeps into conversations and the newspapers every so often?"

Answer: They didn't at first. They likened mention of the popular military figure to recurrent discussion of General John J. Pershing as a possible candidate after World War I. He figured in curbside speculation every year until he became too old and ill for such consideration.

Lately, however, there has been a curious change in the politicians' attitude. It has been caused by General Eisenhower's decision to retire as Chief of Staff at such a troubled time in world history. They also wonder why he thought it advisable to announce so far in advance that as president of Columbia University, he would be a civilian at the time of next year's Republican convention.

NEW YORKISH—Moreover, General Eisenhower will then be a resident of New York State, which has forty-seven electoral votes and the largest quota of ex-G.I.'s in the country. He might not be a legal resident, but his background will be New Yorkish.

So, should Messrs. Dewey, Taft, Warren, Vandenberg and a host of favorite sons deadlock the convention for half a dozen ballots, with maneuvering and recriminations that might endanger the G.O.P.'s November chances, many politicians think that " Ike" might come along with a rush, as Wendell Willkie did in 1940.

It should be noted that the Kansas has said he would not seek the office, and that he has no intention of entering politics. But it is easy to decline or spurn a nomination before it has been offered, as our history reveals.

EXPANSION—E. C. G. of Los Angeles, as well as many other readers, wants to know why there is so much talk about preventing the expansion of "Communist" Russia on the part of British and American statesmen. They point out that Britain always blocked Russia's territorial and diplomatic aims under Czarist rule, and wonder whether the campaign against Communism is not motivated by London's

Our Educational System Turns Out Socialists

In an address before a convention of the New York State Bankers Association, Dr. Henry C. Link makes some very serious charges against our educational system. Dr. Link is vice president of The Psychological Corporation, New York City. He is author of several books among which are "Return to Religion," "Rediscovery of Morals" and "Rediscovery of Man."

In this address he cited some figures to show how college students believe more in government ownership than the general population believes. His organization made a nation wide survey. He says, "Last year we asked a cross-section of 5000 people this question: 'If the government owned and managed industries, would you get more or less for your money than you are now getting?'"

The results were in October, 1945 of the general population 43 per cent believed they would get as much or more under government ownership, 38 per cent said they would get less and 19 per cent were uncertain.

From college students, 63 per cent said they would get more under government ownership, 26 per cent they would get less and 11 per cent were uncertain.

There were over 46 per cent more college students who believed they would get more for their money under government ownership than people from the general population.

That is a natural result of the young being grabbed in his early life and taught by bureaucrats under a socialistic system of compulsory education. How could a socialistic institution like tax supported schools expect any other result?

When these students were asked why they would get more under government ownership, the two principal reasons given were that government ownership would eliminate profits and would eliminate unnecessary advertising. Dr. Link remarked, "In short, many millions of Americans believe that socialism or State Capitalism would be more efficient than the American system of private capitalism."

Of course these college students and citizens from the general population do not understand that profits are simply a reward for efficient service. There are no profits in a competitive system unless ownership benefits the consumer; that is, makes a profit for the consumer.

Neither do they understand that advertising which creates a demand lowers cost of production and thus benefits the consumer.

Then Dr. Link goes on with the following: "No, it is not in the economic or material realm that American capitalism has failed—even including its depressions—but in the realm of ideas, in the educational realm. It has almost completely failed to develop in the public mind the principles and morals which made that wealth possible. It has educated people in slogans about its products, such as 'ask the man who owns one.' When better cars are built, Buicks will build them! But it has not educated the public in the moral significance of such slogans. The thousands of brands and trademarks of American business are the very promises men live by, promises far more reliable than those in the fields of politics, government, or international relations. Its surplus wealth supports the largest, I will not say the greatest, educational system in history, but its lack of an adequate ideology encourages that system to turn its back on the very system which would destroy the very system which made their education possible."

Dr. Link should have said, which made their opportunity for education possible. He continues by saying, "That is one reason why I have described the American educational system in some of my writings as 'the most elaborate plan ever conceived for obscuring and even denying the elementary facts of life.'"

In the same address, Dr. Link has considerable to say further about the ideologies of the American system. I will quote in a later article.

R. S. V. P.
While at Dartmouth, my brother dated a girl from Smith College a few times. When some weeks passed and she hadn't heard from him, she took it upon herself to send a telegram reading: "Dead, delayed or disinterested?"

"Hunting, fishing or trapping?" my brother promptly wired back. —Reader's Digest.

Since we strain at gnats and swallow camels, give us a new standard of values and the ability to know a trifle when we see it. —Rev. Peter Marshall, chaplain, U. S. Senate.

So They Say

I don't think we're headed for another war, and I know we don't need to have another depression. A strong America can keep both those wild wolves from our door. A strong America and a productive America are synonymous.

—Eric Johnston, president, Motion Picture Industries.

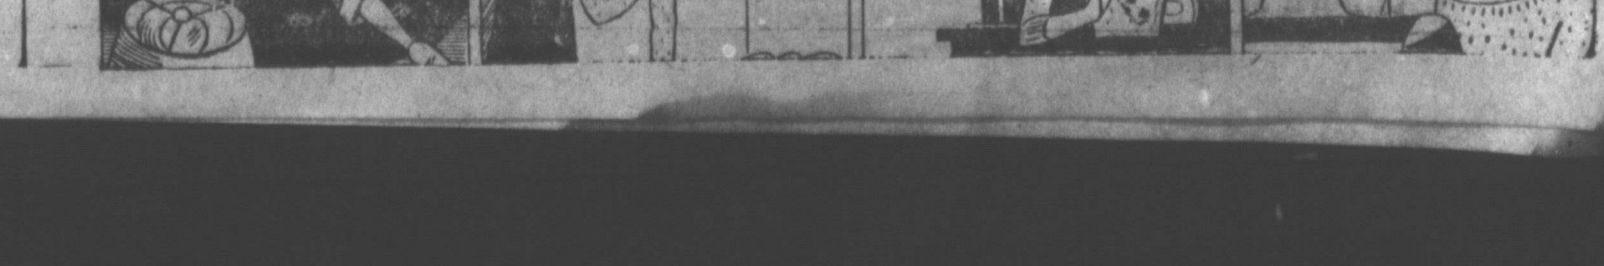

If the United States ever becomes involved in an atom war, or in any other kind of war of the future, a well-trained citizenry will mean the difference between victory and defeat.

—Robert P. Patterson, secretary of war.

the churches and pretended liquidation of the Third Internationale. But Mr. Roosevelt was moved by consideration.

First he thought that he could "handle" Stalin in the peace-making. Secondly, he felt it essential to keep Russia in the war, regardless of the after-effects.
