The Pampa Daily News

Serving The Top O' Texas 48 Years

PAMPA, TEXAS, MONDAY, JUNE 10, 1957

(10 PAGES TODAY)

WEATHER

TOP O' TEXAS—Partly cloudy and warm through Tuesday. Widely scattered afternoon and evening thundershowers. Low tonight, 62. High tomorrow, 92.

Hailstones Hit Pampa; Light Rain Reported

The edge of a thunderstorm moving north of Pampa at about 6 p.m. yesterday resulted in hail falling in Pampa for several minutes. Some of the hail stones were approximately two inches in diameter with the majority of the stones only marble size.

The hail was followed by a shower of short duration which left .06 of an inch of moisture, according to the rain gauge located on top of the News building.

This was the first appreciable amount of hail received in Pampa this year and only light damage was reported. Several neon signs were damaged in Pampa but no reports were received of broken windows.

Some people reported light damage to automobiles, mostly chipped paint.

The main body of the storm passed to the north of Pampa and the local hail was from a cloud on the edge of the storm. No high winds accompanied the part of the storm over town.

Reports from other areas indicated that the storm was accompanied by winds of 50 miles per hour.

The storm cloud moved in from the west and traveled in an easterly direction. The clouds were in the Pampa area for nearly an hour and were accompanied by loud thunder.

A hail stone that measured 1 1/2 inches in diameter was reported by Mrs. Brent Blankvist, who lives on the Sun Oil Company lease eight miles southeast of Pampa. She stated that the hail stone was found near her house and that a four-inch hole was made in the ground by the stone.

GOLF-BALL SIZED HAIL—Hailstones a little larger than a golf ball peppered Pampa late yesterday as a giant thundercloud passed. Here, C. W. Stowell, 815 N. Russell, displays a "plate full" of the hailstones which fell in his backyard. These measured approximately two and a half inches across. One hailstone 1 1/2 inches across was reported to have fallen on the Sun Oil Lease. (News Photo)

Ike To Stick To Guns In The Girard Case

By LEE NICHOLS
United Press Staff Correspondent
WASHINGTON (UP)—President Eisenhower sees no choice but to "stick to his guns" on the Girard case, it was learned authoritatively today.

Louis Girard, older brother of embattled G. William S. Girard, sped here aboard the Pennsylvania Railroad's "Liberty Limited" train from Ottawa, Ill., in a bid for a face-to-face appeal to Eisenhower not to let his brother be tried by a Japanese court.

The older Girard, accompanied by his wife Shirley, carried 325 protest petitions signed by almost 7,000 persons protesting the U.S. decision to let Japan try the 21-year-old Army specialist whose case has aroused an international furor.

Eisenhower was represented as taking the position that the United States has made its decision to turn William over to Japan for trial, and has given its word as a nation and cannot renege now.

The Girard case may be headed for a major court test in this country over confidential government documents. The United Press was informed the government will move in federal district court here Tuesday to quash subpoenas obtained by Girard's defense attorneys calling for production in court of all written records in the case.

Instead of the government will present affidavits containing only statements of law and facts in the case. These will be turned over to Federal Judge Joseph C. McGarrigly who has ordered the government to show cause on Tuesday why Girard should not be returned from Japan.

American attorneys in Japan said Girard had "shocking" advice when he agreed to being represented by a Japanese lawyer. One American attorney experienced in Japanese law said the appointment of an attorney is filed in a Japanese court along with the charges, and that constitutes an acknowledgement of Japanese jurisdiction.

Girard, in a telephone interview said he was "shocked" by the appointment of a Japanese lawyer. He said he was "shocked" by the appointment of a Japanese lawyer. He said he was "shocked" by the appointment of a Japanese lawyer.

In the other fatal accident at San Antonio, Blase Estrada, 7, was killed when he ran into the street and was struck by a car. Donald Dale Hertel, 17 months, was electrocuted when he touched a short-circuited evaporative cooler his father had just installed in their Wichita Falls home.

F. G. Blankenship drowned in Lake Lavon near Dallas, McKinney police said the man was from Greenville, but that no age had been determined. His body was recovered shortly after he drowned.

Three Others Missing Recover Two Bodies In Storm

Ike Has Upset Stomach

ST. PETERSBURG, Fla. (UP)—Searchers recovered the bodies of two fishermen and combed the waters 40 miles north of here for three other men missing since the first tropical storm of the year capsized their cabin cruiser Saturday night.

The Pasco County sheriff's office said the bodies of Charles Swann, 26-year-old packing house worker, and Cole Shearer, an elderly carpenter, both of Dade City, were found floating in shallow water this morning.

Shearer's body was still clad in a life jacket. Two survivors of the fishing party reached shore late Sunday and reported they had left four persons floating near the place where the cruiser was capsized and one other person still clinging to the 26-foot boat. The two men had spent 18 hours in the water trying to reach shore.

The Coast Guard dispatched a helicopter and an airplane from its station here at dawn to search for the missing men. The sheriff's office also combed the area in its cutter, the Sea Belle.

Storm Keeps Strength
The weather bureau said at 10 a.m. today the storm has lost its tropical characteristics but has maintained its strength. It is located nearly 200 miles southeast of Cape Hattiesburg.

The storm meanwhile had crossed into the Atlantic, causing some damage in northwest Florida and the southeastern tip of Georgia, and churned the sea some 250 miles off the east coast. The weather bureau Sunday night wrote of the storm, which never reached hurricane proportions, as "no longer a threat."

The Coast Guard searched an area off Anclote Key 40 miles north of St. Petersburg for the wreckage of the cruiser Kinneard and for signs of survivors. Ed Flicker, 75, and his son Jack, 33, both of Dade City, Fla., reached shore near a fishing camp at Hudson, Fla., at about noon Sunday.

Got Some Sleep
They said they immediately slept four hours before going into the camp and getting a ride to Dade City where they reported to authorities.

They said four of the men left behind appeared in good condition at the time but a fifth, identified as John DeWitt, also of Dade City, appeared to be foundering. All the men had life preservers, they said.

The others, all of Dade City, were identified as Cole Shearer, Sam Woods, C. W. Nodine, 76, and Charles Swann, 26.

The elder Flicker, who commanded the cruiser, said he gave an order to abandon ship when it hit a buoy in open water after running out of fuel during the storm. The buoy ripped open the bottom, he said.

Flicker said he and his son tied See BODIES, Page 3

Pickled One Is Saved By Pickles

MILWAUKEE, Wis. (UP)—A novel plea got Mrs. Margaret Renmeister, 49, out of a pickle Saturday. A judge, after finding Mrs. Renmeister guilty of drunkenness, waived a jail sentence and imposed a \$10 fine when she said that a barrel of pickles soaking at home would spoil if she went to jail.

Bids To Be Opened By Commission
Bids for the construction of a new bridge on Cook street and for the purchase of a new street sweep will be opened at 10 tomorrow morning by the City Commission.

The plans call for the removal of the present bridge on Cook street near Sam Houston School, and for the construction of a new bridge that will be wider.

The new street sweeper is being purchased so that the sweeping of the increasing number of streets in Pampa can be completed more often.

Other items scheduled for action by the commission tomorrow will include the third reading of Ordinance 474, dealing with the closing of the Charles - Russell alley and a portion of 24th street that are included in the property of the new junior high school; the approval of monthly bills of the city and of Lovett Memorial Library; and possibly the approving of a plat consisting of four additional blocks in the Jarvis - Stone addition.

7 Cases Are Tried In Court Here
A total of seven cases were tried in County Court today and Saturday, according to information received from County Attorney Don Cain's office this morning.

Today, C. K. McQuerry of Pampa pleaded not guilty to a charge of aggravated assault on a Pampa woman and his bond was set at \$1,000 by County Judge Bruce Parker.

Bobby Joe Fulcher of Pampa pleaded guilty June 4 to a charge of driving while intoxicated and, in judgment entered today, was fined \$100 and costs and sentenced to three days in jail. Fulcher was arrested by City Police on June 3.

Douglas Dean Leonard of Pampa pleaded guilty to a charge of driving while intoxicated today and was fined \$100 and costs and given three days in jail. He was arrested by city police Sunday.

Raymond Clark Bryant of Pampa was sentenced to 30 days in jail today by Judge Parker on a theft complaint. He pleaded guilty to a charge of stealing a hydraulic jack and other items from Steve Doenne of Pampa.

Also today, Hayden G. Hegdal of Borger was fined \$25 and costs on a charge of driving while intoxicated. He pleaded guilty to the charge.

Saturday, John E. McClaren of Stratford, Okla., was fined \$1 and costs and made restitution for a worthless check in the amount of (See COURT, Page 3)

No Hospitalization Plans, Says Hagerty

WASHINGTON (UP)—President Eisenhower is suffering from an upset stomach and was forced to cancel all engagements today.

Eisenhower vomited three or four times during the night, according to White House press secretary James C. Hagerty, but was feeling more comfortable this morning.

Asked if there was any thought of hospitalizing the President at present, Hagerty said, "None at all."

The President was under treatment and observation of the White House physician, Maj. Gen. Howard McC. Snyder, from 10:20 p.m. e.d.t. Sunday night.

Col. Thomas W. Mattingly, heart specialist from Walter Reed Army Medical Center, went to the White House this morning and tested the President by electrocardiograph "purely for precautionary purposes."

Hagerty said the President's condition apparently resulted from something he ate.

There was no indication that the "digestive upset" is related in any way to Eisenhower's 1956 ileitis operation or his 1955 heart attack, Hagerty said.

Year After Operation
The President's newest illness struck him exactly one year to the day after his ileitis operation.

After reporters noticed that scheduled presidential visitors were going in to the President's office by the front entrance but leaving through other doors this morning, Hagerty called the newsmen to his office shortly after 10 a.m. and made this announcement:

"The President had an upset stomach early this morning, apparently caused by something he ate which disagreed with him."

"Dr. Snyder recommended that the President's engagements be cancelled today and that the President remain in bed."

"The President's temperature is normal as is his blood pressure. Electrocardiograph tracings show no changes from the many that have been made since his recovery from his heart attack."

"There is no indication that this digestive upset is related in any way to the President's recent operation or to his heart attack."

Had Busy Schedule
The President has been exceptionally active recently.

Last week he flew to Florida to watch naval maneuvers off the Florida coast for two days. He flew back Friday afternoon and (See ILL, Page 3)

Stocks Dip On Report Of Ike's Illness

NEW YORK (UP)—Stocks lost more than a billion dollars in valuation of listed shares today on news of President Eisenhower's illness.

Tickers fell behind trading by nearly 15 minutes.

It was the sharpest drop since Feb. 11. The market made its 1957 lows on Feb. 12 and has been rising almost steadily since. It opened higher today and advanced further in the first half hour.

Then came news of the President's illness. Traders dumped stocks. Early gains running to more than \$2 a share were almost immediately turned into losses running to more than \$5 a share.

Oil shares, recent favorites on the upside, were the hardest hit. Rains, recent soft spots, turned in the best major group performance by moving narrowly.

Losses extended to more than \$4 a share in Amerasia Oil, a recent strong spot. International Business Machines in the high-priced group fell \$5.50.

Youngstown Sheet and Tube lost more than \$2, Gulf Oil nearly \$4, Texas Gulf Producing \$2, Du Pont \$2, and Texas Co. nearly \$2.

Today's ticker liveness was among the widest in recent years. On June 8, 1956, the day the President was stricken with ileitis, the tape fell behind at the most by five minutes and the industrial average closed with a loss of 7.7 points.

Cmdr. Crabb?

Mangled Body Of Frogman Is Found By Fishing Boat

PORTSMOUTH, England (UP)—British pathologists performed an autopsy today on the headless, headless body of a frogman in hopes of solving a major mystery of the cold war.

Many Britons were convinced the body was that of Cmdr. Lionel (Buster) Crabb, a monowheel-wearing war hero who vanished April 19, 1956 while making secret dives near the Soviet cruiser that brought Russia's top leaders to Britain.

The Russians were Communist Party Leader Nikita S. Khrushchev and Premier Nikolai Bulganin. The investigation that followed reached all the way up to Prime Minister Sir Anthony Eden—who refused to tell all to Parliament.

The Russians protested they had spotted a British skindiver between the cruiser Ordzhonikidze and an accompanying destroyer. Crabb was never seen again and there was speculation the Russians kidnapped him or sent out their own skindivers to kill him while he spied on the secret underwater lines of the warship.

Eden, pressed with parliamentary demands for an explanation, limited his answers to an apology to the Russians—that any such cloak and dagger mission had been undertaken without his knowledge.

The Navy was less informative. It said Crabb disappeared on a diving mission and was "presumed dead." There was no further word from Britain or Russia and the Crabb disappearance became swallowed up in mystery.

They mystery was revived Sunday when the body of a man wearing a rubber diving suit was found floating in Chichester Harbor, only 10 miles from the place where the three Russian ships were anchored. The find was made by the six-ton fishing boat Red Goose.

Pampans Injured In Auto Mishap
Mr. and Mrs. W. D. Waters of Pampa were injured yesterday in an automobile collision near Nashville, Tenn.

Texas Week-End Death Toll High

By UNITED PRESS
Millions of Texans flocked out in automobiles and boats over the weekend to enjoy the late spring sunshine and wrecks and drownings took a heavy toll of life.

A United Press survey showed at least 19 dead.

High Orlando Kirby, 35, was awakened early today in Waco and killed, presumably by a spurned woman who said: "If I can't have you, nobody else will."

Wylie D. Bartley, 31, a police character was murdered in Fort Worth. Eight persons were killed in wrecks. A plane crash killed two. Six were drowned and one was electrocuted.

A 16-year-old Negro was held in Waco for questioning about the drowning of Raymond Freeman, another teen-aged Negro, who was "wrestled" into the Brazos River.

Drowned at Waco
Karl Williams Jr., 24, was drowned while trying out a new boat on Lake Waco with his wife June.

Jack Hayes, 37, of Hardin, Tex., and his mother, Mrs. Robbie Hayes, 67, of Center, were killed in a wreck near Center Saturday.

At Houston 18-month-old Michelle Dawson was drowned in her parents' swimming pool.

4-H Club Member Is Honored
A member of the Gray County 4-H Clubs is one of the 16 youths selected by the Producers Grain Corporation of Amarillo as members of the company's Talent Club for this year.

The youth chosen from Gray County is Robert Anderwald, who lives west of Pampa.

Lebanese Premier Wins 'Big' Election

By WALTER LOGAN
United Press Staff Correspondent
Premier Sami El Solh of Lebanon and his pro-Western government won a major parliamentary election victory today that further isolated the Egyptian-Syrian axis from the other Arab nations.

Election of nearly all the government candidates in the Sunday balloting was seen in Lebanon as a rejection of leftist political attempts to the Lebanon to Syria and Egypt.

Belief that Lebanon was moving away from Syria and Egypt was heightened by a message from Lebanese President Camille Chamoun to King Hussein of Jordan and King Saud of Saudi Arabia in Amman asking God's guidance in achieving Arab aims.

Outlined Plans
The Saud visit to Jordan was expected to mean Hussein further from Egypt's President Gamal Abdel Nasser although there has been no official statement that the old Arab alliance had been broken or badly bent.

Egypt's semi-official Middle East news agency indicated a worsening of Egyptian-Jordan relations today with a dispatch from Beirut accusing Jordan of expelling two Egyptian officials in a "military plot."

The agency said the Jordanian government had expelled the Egyptian military attaché in Amman and the consul general in Jerusalem in a "Jordanian government conspiracy."

The Egyptian plot said a person—not named—visited Lt. Col. Fuad Hila, the military attaché, and outlined a plot against Hussein. It said Hila arrested the man and discovered a tape re-

Plans For Hotel To Be Talked

Preliminary plans for the hotel to be constructed by the Community Hotel Company of Pampa were to be discussed at 4 p.m. today at a joint meeting of the executive committee and the building committee of the board of directors of the company, George Cree Jr., told The News this morning.

The results of the meeting, this afternoon will be reported to the board of directors at a meeting to be held at 10 a.m. tomorrow in the conference room of the Chamber of Commerce, Cree reported. He stated that no information on the plans were available today but that after the meeting of the directors tomorrow, the plans and suggested corrections would be made known.

No date has been set for the letting of bids for the construction of the hotel. It will be built on Hobart, across from Highland General Hospital, on a quarter-section of land purchased from M. K. Brown.

Health Service Spokesman Sees No Danger Of Flu Epidemic In US
WASHINGTON (UP)—A Public Health Service spokesman said today there is no danger of a nationwide flu epidemic spreading to this country from the Orient. He said U.S. drug firms are convinced they can make a vaccine for the new "Oriental flu" bug in 2-3 months.

The Public Health Service scheduled a closed-door meeting today with its new advisory committee on influenza, composed of representatives of state and territorial health officers and medical groups.

A spokesman said the chief aim of the meeting was to discuss plans for development, production and distribution of the new flu vaccine.

While the spokesman did not say so, it was assumed one ques-

Health Service Spokesman Sees No Danger Of Flu Epidemic In US

tion discussed would be whether the federal government should subsidize development of the new vaccine as it did development of Salk polio vaccine.

No Outbreak Yet
The spokesman said there is as yet no "outbreak" of the new flu virus in this country "as far as we know." He said there may be "isolated cases" but the only information received by the Public Health Service is press reports from the West Coast.

The spokesman said all necessary precautionary steps have been taken in this country except for development of a vaccine.

Health officers and laboratories throughout the country have been given samples of the new virus isolated by the Public Health Service here, to check against samples taken from flu victims arriving from the Orient.

Health Service Confident
Arrivals from the Pacific will have their names and addresses for the next week to 10 days taken. If they have a respiratory infection during that period, and it spreads to others, local health officers will report the facts. A U.S. Public Health Service epidemic team will be rushed to the spot.

Antibiotics will quickly be administered to infected persons to kill "hitchhiking" germs such as pneumonia that provide the real danger accompanying the new flu virus.

The spokesman said the Public Health Service is "confident" any outbreak of flu in this country can thus be effectively localized.

Day Camping Programs Get Underway This Week For Over 250 Girl Scouts

By MRS. JOHN H. HOLT JR., President, Girl Scout Council
There are many hours, days, weeks, and months spent in preparing for a Girl Scout Day Camp. Day Camp is just what the name implies, the girls camp by the day. They leave early in the morning for camp to spend the day camping and playing under trees, learning the Girl Scout skills. It is a happy time for the girls for they learn many new activities and make new friends. Early in the evening, they return to town, tired, but happy.

Almost as soon as the camp comes to an end, plans are in the making for the next year's camp. Directors collect evaluations from leaders. These evaluations are studied so that improvements can be made.

The camp is not run entirely by the camp directors, it takes the Council and most of all the committees, working together, to carry on a good camp, as well as the executive director and secretary of the Girl Scout office.

The council has the responsibility of seeing that the girls receive the kind of camping that they need. A camping committee is appointed to fulfill this need. The committee appoints a camp director.

This year, Mrs. E. M. Keller, served as camp committee chairman. It has been her responsibility to see that the camp has enough cans for washing facilities; that there are enough hoses, rakes, shovels, hatchets, water coolers, first aid kits for each unit. One big problem of the camping committee is to find buses to transport the campers to the location each day, and then to find the drivers to operate the buses.

To be a camp director, a person must qualify with a camp directors' course. This year, six members of the local council attended a camping course in Amarillo, which was conducted by Miss Pat Harris. Mmes. James E. Hall, H. M. Brown, Calvin Duncan, F. C. Horner, N. G. Kadingo, and John Holt Jr. completed the four full-day course with some home study to complete it.

When the directors have been trained, it is then their job to train leaders, who will be working with the girls at camp. A lot of time and effort is taken by the directors to properly train leaders, who, when they have finished their training, have an 18-hour course credit on camp operation.

part of the directors' job, she must also plan the programs which are to be used at camp; then working with the assistant director or business manager, she must order and by the necessary things that the camp will need to carry out their program.

This year, the directors plan to make scrap - books and hot - pad mats, as the main camp craft. There will be many others, such as shadow boxes, spatter painting, bug cages, and articles made from plaster of paris. Wood belts will be made by the older girls.

There are many other things that the girls will do at camp, besides craft, they go on hikes, study nature, wade in the river, build a unit home in which they play-live for a week. The girls will also learn to cook out - of - doors. The older groups spend from one to two over - nights in tents and it is the thrill of their life to do so. The girls also learn to work together and get along with one another.

Leaders, who will be working at Day Camp this year are Mmes. T. R. Wilson, P. E. Phipps, E. J. Griffin Jr., A. B. Deer, Verlin Rice, Lynn Dawson, George Hillman, J. R. Bonner, J. A. McLain, Joe Donaldson, Don Rupert, Tony Smith, Cleo Todd, James Scholl, R. B. White, Warren Kiser, Harry Garrison, Fred Wall, Roy McKissick, A. D. Parsons, Charles Werley, R. C. Heaton, G. E. Huckins, A. W. Shubring, C. F. Richardson, Huston Chapman, L. J. Barker, J. L. Hampton, Howard Vanderlinden, Earl Champion, J. H. Trotter, Boyd Steward, Bryant Flowers, W. C. Coffee, Joe Cunningham, Charles Lyons, J. V. Patterson, Randall Gill; Misses Martha Skelly and Cecelia Fowler. There will be mothers and other leaders assisting during the camping period.

Each camp will have a registered nurse on hand and a doctor on call. Nurses, who will be assisting at the camp are Mmes. Wynne Vesle, and George Newberry, and will make daily rounds to check all girls. They will be available to take care of any emergency that may arise.

There will be two camps at Mel Davis. The Brownie Camp will be in session June 10-15 and will be directed by Mrs. Holt and Mrs. James E. Hall. Intermediate Camp will be held the next week under the direction of Mrs. N. G. Kadingo and Mrs. Herman Brown. Camps will also be conducted at Skellytown directed by

Mrs. Calvin Duncan and Mrs. F. C. Horner, Miami Camp will be directed by Mrs. Marian Osborne. The public relations committee, which is chairmanned by Mrs. E. J. Griffin Jr., play a big part in the camp's success by seeing that the public is well-acquainted with the camping program.

The Camp and Grounds Committee with Mrs. Joe Wells, chairman, have done a fine job in seeing that the camping grounds were ready for the young campers. The grass has been mowed, poison ivy has been sprayed; and the trees trimmed and dead limbs carried off. Many minor repairs have been taken care of, also, by this committee.

A big job really begins when the registration cards are given to the Scouts, and the registrations begin to come into the Scout office. This is the time the executive director, Mrs. Kadingo, and the secretary, Mrs. Fern Dawson, are really snowed under, as there will be around 250 girls registered for camp this year.

When all of the girls have been registered, their cards are sorted and placed in units. Two or three girls from each troop are placed in new units; this way all the girls are mixed up and have a chance to make new friends.

These names are then placed in a staff book, which will be given to the camp leaders. These staff books are made by Mrs. Dawson, which entails a lot of time and work in that she must type and mimeograph each page that goes into the staff book, which runs to about 50 pages per book. These books are very valuable to the leader, as it contains the information she will be teaching the girls. Special appreciation is extended to the finance committee, whose chairman is Mrs. H. O. Darby, and whose job is to provide the money necessary to carry out the camping program through the sale of Girl Scout cookies.

Mrs. J. A. Hoover will be in charge of the Day Camp nursery, which will be maintained at Girl Scout Little House for the mothers, who are working at Day Camp as leaders. She will be assisted by Mmes. George Grayson and Fern Dawson.

The Top o' Texas Girl Scout Council wishes to thank each and every person who has helped in any way to make the camps possible this year. We feel sure that you will be proud of the camps that we send our girls to this summer.

TO BE MARRIED

MISS MARGIE LEE MCKEE
Mr. and Mrs. B. L. McKee, Alanreed, announce the engagement and approaching marriage of their daughter, Margie Lee to Allen Alford, son of Mrs. Jessie Alford, Romero, and the late Mr. Alford. The wedding is planned for July 13 in the First Methodist Church in Groom. (Photo Call's Studio)

Beige Color Begs For Roman Pink

If "the mother of the bride wore beige" is to describe you in the local society columns, see that your make-up helps to put you over as one of the prettiest of her party.

Want to know how? Just listen to Max Factor, who says the one skin color a beige dress begs for is pink. Wear a make-up in the various subtle shadings of pink.

The subtlest, according to this Hollywood expert, should be your foundation: a pure cream color with a slight rosinness sifted in. If it is fluid and goes on meltingly to fade out any hint of lines or shadows, says Factor, it will put more bloom on your face.

For lips and cheeks, Roman Pink, the new pale pink high fidelity lipstick and fluid cheek rouge which brings you and any dress color to life, is suggested.

Eye accent? Use a stroke of one, then of the other automatic eyebrow pencils in black and brown. That'll vary the pigmentation, just as nature does. Blue or green eye-shadow and a lid-liner to match, drawn along your upper lashes will add more sparkle to your color scheme. If you want luxuriant thickness for your eyelashes or want to make them look as wide-spread as peacock feathers, use cream mascara for the build up.

Before you get ready to step behind the ribbon rope, make sure the corsage you pin on is pink, and move the unit about with you as you work.

A tube of chapped hand cream will protect your hands from the ravages of soil digging and allow you to have both fun and pretty hands.

MATURE PARENT

By MRS. MURIEL LAWRENCE
A mother writes: "Several days ago our 12-year-old girl was invited to the movies by a friend's parents. Soon after, I discovered that she'd left the iron on, scorching a hole in my ironing board cover. I made her break the date. Since then she's hardly spoken to me. All her life she's heaped to me of grudge after punishment..."

Maybe she knows how much her mother wants her to say, "I'm sorry. You were right to punish my carelessness."

Eagerness for a punished child's remorse is usually eagerness for his reassurance. It's then he can't feel remorse. He senses our uncertainty of the punishment's rightness. And what he resents is not the punishment but our pretense that we're sure we've done the right thing.

In the case cited, she knows that we're seeking comfort for ourselves, not her realization of the danger of forgetting to switch off the iron.

If we're uncertain that we have punished justly, it's wise to acknowledge this to ourselves—and release the child from the obligation to reassure us by saying "I'm sorry."

It's not necessary to give him this release in words. It can be done within ourselves through the realization that we have been romantic to look to the child for moral support. The moment we see this, resentment of this daughter's refusal of it will disappear—and her mother's reduced expectations of her will enable her to treat her kindly again.

No parent can always be sure he's given the right punishment. Sooner or later, we all have to learn to tolerate the possibility that we've done the wrong thing—and surrender our idea of ourselves as a person who must always do the perfect thing.

Until this kind of self-acceptance is gained, we remain as intolerant of children's mistakes as we are of our own. As we must have only perfect responsibility toward electric irons from our daughter, so we must have only perfect decisions from ourselves.

It's been deficiency in our own training that makes it necessary to seek a youngster's "I'm sorry" after we've punished him.

Our need of it tells us we have some growing up to do. A 12-year-old daughter is not our parent. It is not her business to judge goodness and badness for us. We only ask her to make it her business because we have not had enough experience in entrusting these judgments to our own conscience.

Self-exoneration is a discipline required of us all.

Manners Make Friends

If another mother frequently chaffeurs your child you should try to drive her child just as often. If you do not have a car, then figure out some other way of returning the favor, such as keeping her child while she shops.

If you put your mind to it you can usually return any kindness.

APRICOT-LEMON salad is light and airy and should brighten any family menu when warm days begin to dull appetites.

Brighten Family Menus With Light, Airy Salads

By GAYNOR MADDOX
NEA Food and Markets Editor
Warm days turn our thoughts to light and airy chiffon fruit salads. We think these two brighten your family menus.

APRICOT-LEMON SALAD (8 servings)

One cup canned apricot syrup (or apricot syrup and water), one 3-ounce package orange-flavored gelatin, 2½ cups canned pitted Bing cherries (one 1-pound 13-ounce can, drained), ½ cup chopped walnuts, 1-3 cup mayonnaise, 2½ cups whipped instant nonfat dry milk crystals.

Heat syrup to boiling point. Add gelatin and stir until dissolved. Chill until thickened. Chop cherries. Add cherries, walnuts and mayonnaise to gelatin mixture. Blend. Mix with whipped instant crystals. Spoon into 1½-quart mold. Chill until firm (about 3 hours). Unmold. BING CHERRY SALAD (8 servings)

One cup canned Bing cherry syrup (or cherry syrup and water), one 3-ounce package orange-flavored gelatin, 2½ cups canned pitted Bing cherries (one 1-pound 13-ounce can, drained), 1-3 cup mayonnaise, 2½ cups whipped instant nonfat dry milk crystals.

Heat syrup to boiling point. Add gelatin and stir until dissolved. Chill until thickened. Chop cherries. Add cherries, walnuts and mayonnaise to gelatin mixture. Blend. Mix with whipped instant crystals. Spoon into 1½-quart mold. Chill until firm (about 3 hours). Unmold. Garnish with crisp salad greens, as desired.

To whip instant nonfat dry milk crystals (makes about 2½ cups):

1. Mix ½ cup instant nonfat dry milk crystals with ½ cup ice water.
2. Whip until soft peaks form (3-4 minutes). Add 2 tablespoons lemon juice.
3. Continue beating until stiff peaks form (3-4 minutes longer).

Tomorrow's Dinner: Hot chicken - rice - tomato soup, cold sliced ham and tongue, relishes, potato salad, hot oven-ready baking powder biscuits, butter or margarine, apricot - lemon salad, iced tea or coffee, milk.

RUTH MILLET

Have you ever noticed — That the woman whose husband is obviously in love with her is usually a generous, tolerant, friendly person? The question is: Is she loved because she is that kind of woman, or does the knowledge that she is loved bring out the best in her?

That a man doesn't start confiding in other women that his wife doesn't understand him until she finally understands him too well for his own comfort?

That the man who goes the farthest in his career isn't as likely to be the man with a dynamo of a wife who is helping him elbow his way up as the man whose wife in a gentle manner lets the world know what a smart husband she has?

That the husband and children of a highly successful career woman — even the one who claims "My family always comes first" — are rarely as enthusiastic about her career as she is?

That the most efficient and hardest-working clubwomen rarely have happy faces?

That some women get so much satisfaction out of getting a bargain that they will buy almost anything at any price if it is marked "half price"?

That a man can help in the kitchen and not lose any of his masculinity — unless you see him automatically tie on an apron before tackling the dishes? Then he looks a little too house-broken.

That there's nothing like a pretty young thing joining a party to make the middle-aged men throw back their shoulders and start

telling anecdotes in which they starred as masters of the situation?

PARTYS And PICNICS

Outdoor cooking has become an accepted part of our American way of living. It takes the fuss and muss out of the kitchen and when combined with paper service, leaves Mom as well free as possible. Skillet Burgers are easy to prepare at the outdoor fireplace or grill, and will certainly make a big hit with all ages.

Plan a menu which can be prepared in the cool of the morning. Potato salad and relishes all can be gotten out of the way early. Refrigerator - stored in lidded paper containers, they go straight to the table, saving extra dishes. Serve a prepared beverage in paper cups and ice cream for dessert.

Ice cream surprises can be prepared in advance. Put two or three tablespoons of sweetened diced fresh fruit (peaches, raspberries or whatever is in season) in the bottom of each paper food cup. Fill with ice cream, cover and store in the freezer.

SKILLET BURGERS

- 3 large hamburger buns
- 4 tablespoons softened butter or margarine
- aluminum foil
- 2 tablespoons butter or margarine
- ¼ cup chopped onion
- 1 pound ground beef
- ½ teaspoon chili powder
- 1 teaspoon salt
- ¼ teaspoon pepper
- ¼ cup chili sauce

Spread hamburger buns with softened butter or margarine. Wrap in aluminum foil. While Skillet Burgers are cooking warm buns on back of grill or in oven.

Heat butter or margarine in skillet. Add onion and saute about 5 minutes until tender, not browned. Add beef. Break into small pieces with spoon and cook, stirring about 5 minutes longer until beef is lightly browned. Stir in chili powder, salt, pepper and chili sauce. Heat thoroughly. Spoon onto cut half of warm bun. Top with other half. Makes 8 servings.

Broiling Hint

Broiling is a fast and convenient method of preparing summer meals. As a precaution, use a moderate temperature when broiling. The broiling temperature is regulated by the distance of the meat from the heat.

MEAT FOR BROILING

Chops and steaks for broiling should be cut at least 1 inch thick. Thinner cuts are usually panbroiled.

Place your fragile curtains in a fabric bag tied securely — a flour sack will do — to insure their faring better in the washing machine.

For The Gardner, Portable Beauty

By ALICIA HART
NEA Beauty Editor
Gardening is one of the great joys of summer. But the girl who makes it her hobby must take steps to protect her hands or the end of the summer will find them cracked, chapped and roughened.

The trick is to keep a tube of hand cream handy so that you don't need to run into the house for it. It's also a good idea to have lip balm, lipstick, mirror, cleansing tissues, powder and small bandages handy. Then, if guests arrive unexpectedly in the middle of the afternoon, you needn't make a mad dash for the house to take cover.

One way to keep supplies handy is to have them in a sturdy cigar box mounted on a stick (an old broomstick will do nicely). To fit the stick into the box, drill or cut a hole the size of the pole into a onto the bottom of the box. Paint strip of wood and nail this strip onto the bottom of the box. Paint box and stick any color you like

Miss Lynda Kennedy has returned to her home in Sanford after visiting her aunt and uncle, Mr. and Mrs. Floyd Lassiter, 929 Powell, for the past week.

Waltress wanted at Blue Bonnett. Apply in person.
Mr. and Mrs. Alton Kennedy, Sanford, and Mr. and Mrs. Bob Calloway and children, Mike and Karen, of Berger visited in the home of Mr. and Mrs. Bill Calloway, 204 S. Faulkner, this past Sunday.

Mr. and Mrs. Frank Cox of Perryton were in the local Red Cross office this week to report on their trip to the National Red Cross Convention at Washington, D.C. The convention was attended by over 5,000 delegates, they said. They returned June 6.

Bob Andis, worshipful master of Pampa Masonic Lodge 966, reported this morning that he and the Lodge were "very appreciative" of the support Pampanas gave the circus here last Friday, which

was sponsored by the local DeMolay chapter.

Dr. and Mrs. Walter Purviance are leaving Tuesday morning for their summer home in Evergreen, Colo., where they expect to spend the greater part of the summer.

Mr. and Mrs. Dwayne Lyon and children are spending several days at their cottage in Evergreen.

Mr. and Mrs. Tex Evans and family left Saturday morning for a few weeks vacation in Evergreen.

Mrs. W. W. Mathews and children of Dallas, are visiting with her mother, Mrs. Glen Hagerty, Jim Hagerty, who had been visiting with his sister in Dallas, returned home with them.

Local Girl To Red Cross Camp

Sylvia Grider, local junior Red Cross representative, left yesterday to attend Camp Goodfellow in Kansas.

This is an instructional and recreational camp for Red Cross workers.

Eight representatives from this area will be there, according to Mrs. Libby Shotwell, local Red Cross executive secretary.

Miss Grider, who was elected to the post by her high school classmates, will return June 19.

COURT

(Continued From Page One)

\$20 given to the Dearen Gulf Service Station dated April 30, 1957.

Also Saturday, Jay Mills of Lowden, Iowa, pleaded guilty to charges of swindling with worthless check and was fined \$1 and costs. The check was made out to Furr Food for \$15 and was dated Aug. 21, 1956. He was to make restitution for the check.

IKE

(Continued From Page One) addressed a Republican meeting here. Saturday he played golf in a drizzle and Sunday night he received an honorary degree at American University here after participating in a ground-breaking ceremony in a slight rain.

Hagerty also took the occasion to say he was mistaken Saturday in stating that the chief executive had been taken off of anti-coagulant drugs which were administered because of his heart condition.

Actually the President has been taking anti-coagulants daily, but, recently his doctor eliminated one day from the schedule. This means the President is now taking anti-coagulants six times a week.

Hagerty said he misunderstood the doctors last week when they said the President was now getting less of the anti-coagulant than he had before.

Eisenhower recently seemed to be in good physical shape. He has been playing golf as much as three times a week on the Burning Tree Club course in nearby Maryland and he led a highly active life in his cruise on the Saratoga.

His nausea and the reaction to it recalled similar upsets Eisenhower suffered during World War II and later as President, particularly in times of crisis or pressing decision.

The ileitis operation performed at Walter Reed in 1956 involved the bypassing of a diseased section of the President's small intestine, allowing the section to remain in his body on the theory that it would atrophy and thus become not a factor in his physical well being.

Snyder remained at the White House throughout the night.

Mattingly, an expert on Eisenhower's heart, arrived during the early morning to take the electrocardiograph test.

Hagerty said he "would assume" that later in the morning Maj. Gen. Leonard D. Heaton, commanding officer of Walter Reed and a surgeon specialist on intestinal disorders, also would come to the White House "as a precautionary measure."

BODIES

(Continued From Page One)

themselves together with a belt and floated and swam about 15 miles to shore.

The weather bureau said the storm picked up top winds of 40 to 50 miles per hour before losing its punch in crossing the mainland and breaking up in the open Atlantic.

The storm brought heavy rain and spawned tornadoes in North Florida. One tornado tore roofs from three salvage sheds at the Jacksonville, Fla., Naval Air Station and another cut across Drayton Island in the St. Johns River.

Another twister hit Jekyll Island off Brunswick, Ga., damaging a small administration building.

The storm at its height kicked up a heavy surf on the Florida west coast as far south as Tampa, washing away 20 feet of seawall and flooding streets.

The surf cut the ground from under a row of beachfront cottages at a Tampa motel, despite a dam of sandbags, and one of the cottages tumbled into the water.

Successful Rodeo Held At McLean

Cowboys Ed Workman of Olton and Razz Ware of Floydada topped top honors yesterday at McLean's 66 Roundup and Rodeo. Fine weather and large attendance made for one of the most successful rodeos staged at McLean. The six-event show was held June 7-9.

Workman won a saddle for the best all-round cowboy of the rodeo, and the best roper was Ware. Each event winner was presented with a special belt buckle.

Winners, according to C. T. Hamilton, finance chairman, were as follows:

Barback Bronc Riding: Ed Workman of Olton winner. First go-round — Ed Workman, Charlie Barton, Dalhart; Red Berry of Amarillo, Second go-round — Teller Hanning, Amarillo; Wayne McMurry, Silvertown; and Cotton Pendergrast, Follette.

Saddle Bronc Riding: Charlie Barton of Dalhart winner. First go-round — Ed Workman, Charlie Barton, Dalhart; Red Berry, Amarillo. Second go-round — Charlie Barton, Dalhart; Cotton Pendergrast, Follette; and Jim Keenan, Dalhart.

Bull Riding: Lewis Erresmouste of Carrizozo, N.M., winner. First go-round — Malcolm Bryant, Amarillo; Bud Hintzgardt, Gruver; and Francis Bolin, Borger. Second go-round — Ed Workman, Olton; Lewis Erresmouste, Carrizozo; and Norwood Brubb.

Gait Roping: Won by Walter Arnold of Silvertown. First go-round — Doug Guynes of Shamrock; tie for second and third between Walter Arnold, Silvertown and Gilford Noland, Shamrock. Second go-round — Leonard Hampton, Dodge City, Kans.; Bill Wardlow, Duncan, Okla.; and Darrall Renfro of Dumas.

Double Mugging: Won by Razz Ware of Floydada. First go-round — Red Whately of Floydada; Razz Ware, Floydada; and Jim Jones, Amarillo. Second go-round — Razz Ware, Floydada; Elmo Ellison, Shamrock, and Tommy Flennigan, Crosbyton.

Bull Dogging: Won by J. L. Bell of Memphis. First go-round — J. L. Bell, Fred Newsome of Amarillo; and Roy Bevers, Canadian. Second go-round — J. L. Bell, Memphis; Badger Darden, Artesia, N.M.; Fred Newsome, Amarillo.

Rites Pending For Thomas A. Greer

Funeral services are pending for Thomas Arthur Greer, 68, a resident of Lefors for the past 18 years, who died at 12:10 a.m. today at Worley Hospital.

Mr. Greer lived with a niece, Mrs. C. D. Cain at Lefors and had been employed by Osborne Construction Company for the past 14 years as a machine operator.

He was born on Sept. 19, 1888, in Tennessee.

Survivors include two sons, Wesley and Donald, both of Cottage Grove, Ore.; three daughters, Mrs. S. B. Haddin and Mrs. Bob Lukens, both of Cottage Grove, Ore., (the name of the other daughter was not available this morning); and 14 grandchildren.

2 Mishaps Reported

Two collisions, occurring inside the city limits during the week end, were reported to the police department.

The first of the collisions was reported at 5:57 p.m. Saturday on Wilks, 15 feet east of Hobart. A '56 Cadillac, driven by June Wall Stans, 2320 Rosewood Lane, and a '55 Chevrolet pickup, driven by Herman Caldwell, 1216 Buckler, were in collision. Damages to the Cadillac were estimated at \$40 and the pickup encountered damages estimated at \$5.

The only collision reported Sunday occurred at 5:52 p.m. at the intersection of Cuyler and Tuke. A '55 Chevrolet, driven by Morris L. Spencer, 524 S. Cuyler, and a '57 Ford, driven by James Delon Nance, 838 S. Cuyler. The Chevro-

let met with damages estimated at \$150 and the Ford encountered damages estimated at \$175.

Six Persons Missing At Lake Lugert

ALTUS, Okla. (UP)—Three airmen and three nurses from Altus Air Force Base were missing and feared drowned on the choppy waters of Lake Lugert near this southwestern Oklahoma City today.

Both Air Force and civilian search parties began a search of the lake, which was filled by recent rains, after the party of six failed to return to the two cars they had parked at noon Sunday.

Don Baber, manager of the Quartz Mountain park state lodge on the shore, would not speculate on whether the six had drowned.

"All I know is that they went out on the lake at noon Sunday and didn't return," he said. "The sky was clear over the lake last night but the wind was blowing so hard you couldn't keep a hat on."

The lake, which serves both as a flood control and irrigation reservoir, covers an area of about 33 square miles.

New Engineer Seeking House

Monroe Moore, the new city engineer, was in Pampa today and reported to The News that he would be unable to start work for the city until he finds a place for his family to live.

He stated that he would be willing to either rent a house or buy one. At the present time his family is still living in Hereford and unable to move to Pampa until a house is found.

Moore was recently hired by the city as engineer to fill the vacancy created when James Cowan, former engineer, resigned.

Ready For 4th Atomic Blast

LAS VEGAS, Nev. (UP)—The Atomic Energy Commission today hurried to complete final preparations for the fourth nuclear blast in the 1957 test series scheduled for Wednesday at 5:45 a. m. est.

The shot had been set for Tuesday but was postponed for the second time because the AEC said it would take another day for technical preparations. It was believed the next detonation would be another balloon shot above the atomic test site.

Lines Under Road To Be Checked

The Texas Pipe Line Company here will check lines running under the proposed Farm - to - Market road from Lefors to Bowers City with state regulations to see if casing of the same will be necessary.

This was disclosed in a letter to Gray County Judge Bruce Parker from Hood D. Kizzier, superintendent of right-of-way and claims, of the Texas Co.

The state requires that, under certain circumstances having to do with the depth, diameter, and pressure on lines, pipes must be cased before highways are built over them.

This problem must be resolved before construction can be completed.

A report from the Texas Co. concerning this is expected soon.

let met with damages estimated at \$150 and the Ford encountered damages estimated at \$175.

48th Year

CASE

(Continued From Page One) with the United Press in Tokyo, said "I just don't know how Japanese law works. But, he said, "it sure helps to know I got some good people on my side."

Draw Up Affidavits
Army and Defense Department lawyers worked all day Sunday drawing up the affidavits for presentation to Judge McGarraghy. U.S. Attorney Oliver Gash said they will be "full and fair statements of the evidence available to the government."

He said the government would prefer to settle the issue on the question of law involved but will turn the evidence over to the court to decide whether they should be handed to Girard's attorneys. One of the GI's attorneys indicated the court will be asked to turn over all documents in the case to them.

This could cause a major legal clash. The Supreme Court recently ruled the FBI must turn over to

the defense reports from FBI informants it wants to put on the stand in criminal cases. Dayton M. Harrington, one of Girard's American lawyers, said the Supreme Court ruling was "related" to the issue of documents in the Girard case.

Secretary of State John Foster Dulles, Defense Secretary Charles E. Wilson and Army Secretary Wilber M. Brucker, all of whom were subpoenaed by Girard's lawyers, will not appear in court, spokesmen said. They said the subpoenas were considered demands for papers, not the persons of the officials.

HUSBAND CONFUSION
HOLLYWOOD (UP) — Broadway actor Ted Jordan's life has become complicated since Hollywood actor Ted Jordan married strip-teaser Lili St. Cyr. "Hardly a week goes by that someone doesn't call me or ask me about my wife, Lili," he said. Jordan, Broadway Ted, that is, is married to a brunette named Joanne Moore.

WHY THE BIG SWITCH TO THE MIGHTY CHRYSLER
Most glamorous car in a generation

You just can't match its value in the \$3000 price range!

The greatest ride on earth! A new driving experience! No brake dip! No more lean on turns! Chrysler's exclusively engineered Torsion-Aire Ride combines a rubber-isolated, ball-joint, torsion bar front suspension with outrigger rear springs to give you a new "feel" of the road.

TorqueFlite—simplest, most agile transmission ever built! Just touch a button on the (safe) left side . . . Push-button TorqueFlite* takes over! It gives you maximum smoothness and fuel economy. Chrysler Saratoga was class winner in Mobilgas Economy Run. *Optional at extra cost.

Biggest, longest-lasting brakes and surest stops! No "hot spots"! No uneven wear! Because the floating shoe contacts the drum uniformly at all points. Chrysler's Total-Contact brakes give you the surest, safest, smoothest stops in the business because they're the giants of the business—251 sq. in. of braking area!

Styling leadership that will be new for years! Record sales prove it! Chrysler's way ahead! It's the lowest (43½ ft.) and longest (219.2 in.) car in its price class, and roomier with more front seat shoulder room (61.0 in.) and leg room (45.5 in.). Why follow the fashion . . . when you can drive it?

Highest resale value of any car in its price class! It's at an all-time record high! And still going up! The answer is advanced styling and engineering . . . great sales success! You get more for your money when you buy a Chrysler . . . and more when you trade it in!

Compare these exclusive values with what you get for your money in other cars. You'll see clearly why the Big Switch to Chrysler in the medium price field. Then remember that you can actually own The Mighty Chrysler for as little as many models of the low-priced three. No wonder it's the greatest winner in Chrysler history!

COMING DOWN TO EARTH

Reds Regain NL Lead In Wins Over Brooklyn

Rhubarb Of Year As Carlsbad Takes Double From Plainview

By UNITED PRESS
The rhubarb of the year and the usual batch of home runs spiced Southwestern League action Sunday.
Carlsbad look a day-night doubleheader from Plainview. The first game, which contained the fireworks, was 6-5, while the Redlegs added insult to injury with a 17-5 win in the nightcap.
Hobbs beat Midland 11-3, and El Paso whipped San Angelo 4-1.
Indefinite Suspension
Hal Haddican got an indefinite suspension in the first game of the Plainview-Carlsbad set. He latched onto umpire Al Martin's neck and threw him to the ground but when the dust was cleared the Pony second baseman was on the bottom. Both received cuts. It happened in the third inning.

Rebels Win Another

Pampa's surprising American Legion Junior baseball team, the Rebels, took another win yesterday from last year's state champion Amarillo Chiefs, 6-4.
The Rebels, played the Chiefs in Amarillo Sunday afternoon after beating them here with a two-inning rally Saturday night, 13-12.
The Rebels, made three double plays in the game and gave their five pitchers good support in the field, committing only four errors in their second game.
Amarillo used only one pitcher, Bill Curry, who gave up only two bases on balls and struck out 15. Pampa's pitchers gave up nine bases on balls and struck out five Chiefs between them. Dale Lake was the winning pitcher for Pampa.

Cardinals Defeat Giants; Yankees Edge By Tigers

By MILTON RICHMAN
United Press Sports Writer
Only a baseball glutton could ask for more excitement than there was in the stormiest Sunday of the major league season.
No matter what happens to be your dish of tea, it was all there on the menu Sunday.
For those who like home runs, Don Hoak of Cincinnati hit one in each game to help the Redlegs sweep a "double" header from Brooklyn, 3-1 and 3-0, and recapture the National League lead.
For those who like to see the "little fella" knock off the "big guy," there were the Orioles two victories over the first-place White Sox, 7-5, 5-0.
And for those who prefer their baseball spiced with some fist-cuffs, there were plenty at Detroit as the Yankees defeated the Tigers, 5-4, in a game that almost resulted in a riot.
Babe Herman Steal
There was even a "Babe Herman" type steal of second with the bases full in the Detroit-New York game and what's more, it helped the Yanks win.
Elsewhere on the big league scene, the Cardinals climbed to within 3½ games of first place by defeating the Giants twice, 2-1, and 10-7; Milwaukee beat Pittsburgh in the first game, 2-1, in 11 innings, but the Pirates won the nightcap, 5-3, and the Cubs topped the Phillies, 7-3, in the opener, while the second game was called in the 10th with the score 4-4.
In the American League, the Red Sox took both ends of a double-header from the Athletics, 8-4 and 9-5, while Cleveland split with Washington, the Indians taking the opener, 7-2, and the Senators the second game, 7-6.
One-Man Show
Hoak put on a one-man show in helping the Redlegs move ahead of the pack in the N.L. race again by a game and a half. His two-run homer in the seventh inning

Probable Pitchers

Houston at Kansas City — Nixon (3-2) vs Kellner (2-3).
New York at Detroit — Turley (1-1) vs Lary (2-7).
(Only games scheduled.)

Milwaukee vs Brooklyn at Jersey City (night) — Buhl (4-2) vs Newcombe (4-5).
Cincinnati at Pittsburgh (night) — Nuxhall (1-3) vs Law (2-2).
(Only games scheduled.)

Tonight's Wrestling

Matches scheduled for tonight's wrestling at the Sportsman's Club will feature Sonny Myers vs. Alex Perez in the first event, one fall—20 minutes.
In the second event, Don Curtis is opposed by Ivan Kola in a two-out-of-three falls, 45 minute match.
The main event will pit Dory Funk against Iron Mike DeBaise. Matches are scheduled to begin at 8.

KANSAS CITY, Mo. (UP)—The Kansas City Athletics have recalled right-handed pitcher Jack Urban from Denver of the American Association. He won three games and lost two with Denver.

Second Round Of City Golf Begins Today

Second round play of the City Golf Tournament begins today. Winners of the first week's play and complete pairings for next round's matches will appear in tomorrow's paper.

DETROIT (UP)—The right knee of Ralph Terry, New York Yankee right hander, was "locked" when he awakened Sunday and trainer Gus Mauch said the 21-year-old rookie may be lost to the team for a week. Mauch will use heat treatment on the knee.

CONCORD, N.C. (UP)

Rain forced postponement of the scheduled NASCAR 100-mile convertible race Sunday at the Concord Speedway and also washed out the stock car races scheduled at the Tar Heel Speedway at Randleman, N.C.

BALTIMORE (UP)—Jack Harmon, a 188-pound rookie halfback from Eastern Oregon State College, today became the 35th player to sign with the Baltimore Colts for the 1947 season. He was Baltimore's eighth choice in the National Football League draft this year.

All-District 3-4A Baseballers

Pampa placed only one player on the All-District 3-AAA baseball team, outfielder Larry Cruise.

The "dream-team" was dominated by Amarillo High School, which placed five players on the team, catcher Billy White, pitcher Bill Curry, first baseman Jimmy Davis, third baseman Bill Fry and outfielder Kent Dalton.

Palo Duro of Amarillo placed one player, Lubbock got two and Borger one.

Pampa's Robert Langford, first baseman, got a spot on the second team, however, and John Lee, Mike Conway, Bill Brown, Benny Sparks, and Ray Stephenson, all of Pampa, got honorable mention nods.

FIRST TEAM
Catcher — Billy White, Amarillo
Pitcher — Kenneth Smith, Lubbock
First Baseman — Jimmy Davis, Amarillo
Second Baseman — Mike Lundy, Lubbock
Third Baseman — Bill Fry, Amarillo
Shortstop — Paul Hyatt, Palo Duro
Outfielder — Benny Hill, Borger
Outfielder — Kent Dalton, Amarillo
Outfielder — Larry Cruise, Pampa

SECOND TEAM
Catcher — Doyle Huckaby, Palo Duro
Pitcher — Jimmy Davis, Amarillo
First Baseman — Don Beck, Palo Duro
Second Baseman — Robert Langford, Pampa

HONORABLE MENTION
Catchers — John Lee, Pampa; Kenneth Smith, Burt Light, Lubbock; Jerry Blair, Monterey; Nealy Simpson, Borger.
Pitchers — Harold Snider, James Mowry, Lubbock; Art Whitaker, Fred Parsons, Monterey; Dale Gullett, Palo Duro; Don Grayson, Borger; Jesse McGuire, Wayne Sistrunk, Plainview.
First Basemen — Ronnie Arrington, Mike Shipman, Monterey; Ted Fritzier, Palo Duro; Jesse McGuire, Plainview; Mickey Miller, Borger; Darwin Hilliard, Lubbock.
Second Basemen — Ignacio Cruz, Amarillo; Eddie Scroggins, Palo Duro; Bobby Jack Frye, Lee Richards, Plainview; Dearl Temple, Borger; Ronnie Arrington, Monterey; Mike Conway, Bill Brown, Pampa.
Third Basemen — Mike McElrath, Jim Harris, Monterey; Roy Holloway, Palo Duro; Bill Floyd, Borger; Benny Sparks, Pampa; Harold Snider, Lubbock; Jay Laird, Plainview.
Shortstops — Bill Brown, Pampa; Soapy Sudbury, Harvey Compston, Jimmy Davis, Amarillo; Jimmy Hines, Borger; Teddy Pope, Lubbock.

Come in and "TRACTION TEST" a new Golden Anniversary INTERNATIONAL

Golden Anniversary INTERNATIONAL all-wheel-drive trucks range from 7,000 to 33,000 lbs. GVW. Other INTERNATIONALS, to 95,000 lbs. GVW, round out world's most complete line.

Here's the truck that makes its own roads—a new Golden Anniversary INTERNATIONAL with four-wheel-drive!

But seeing is believing. We want you to find out for yourself just how much extra pull those INTERNATIONAL-powered front driving wheels give you.

Come in for our "Traction Test." Take a Golden Anniversary INTERNATIONAL

four-wheel-drive truck to the grades you know are tough—to places you've never been able to get through with your rear-wheel-drive truck. And as the INTERNATIONAL carries you on through, remember this: Over the years, INTERNATIONAL Trucks cost least to own—cost records prove it!

Come take our test soon!

The Pampa Daily News

One of Texas' Five Most Consistent Newspapers

We believe that one truth is always consistent with another truth. We endeavor to be consistent with truths expressed in such great moral guides as the Golden Rule, the Ten Commandments and the Declaration of Independence.

Should we at any time, be inconsistent with these truths, we would appreciate anyone pointing out to us how we are inconsistent with these moral guides.

Published daily except Saturday by The Pampa Daily News, Atchison at Somerville, Pampa, Texas. Phone 4-2625. All departments. Entered as second class matter under the act of March 3, 1879.

SUBSCRIPTION RATES

By CARRIER in Pampa, 30c per week. Paid in advance (at office) \$5.00 per 2 months, \$7.50 per 3 months, \$15.00 per year. By mail \$7.50 per year in retail trading zone, \$12.00 per year outside retail trading zone. Price for single copy 5 cents. No mail orders accepted in localities served by carrier.

Practical Education

Such emphasis on the practical has now reached our entrenched government educators that nothing less than an intellectual earthquake seems likely to dislodge either their thinking or their practice.

Thus we cull at length from a number of publications that we may more readily ascertain the current mode in educational curriculum.

To begin our search we have discovered the practicality of today's government school education as depicted in a "female help wanted ad" which appeared recently (January 29, 1957) in the New York Times:

"Fabulous Flamingo Hotel in Las Vegas staging lavish productions built round 16 girls holding doctorates in any subject from accredited universities . . . girls with only master's degrees not acceptable."

The practicality of today's education is thus readily observed.

Then there are the following items: The Journal of Home Economics reports that 26,490 boys are taking home economics in high school, thus learning the fine arts of darning their own socks and ironing their own shirts.

The Washington Post reports that a Maryland school principal takes this position: "I tell my teachers if they are not interested in . . . whether a child eats a sandwich or a hot lunch, then I don't care to have them teach in my school. . . . And on the same page in the Post is this fascinating corollary including a photograph with second grade youngsters busy with pots and pans: "Tuesday, March 19, 1957. We will cook—fudge, popcorn balls, and candy apples."

The practicality of diet is thus revealed. As an extremely workable device employed in Saint Louis comes the news from one of the schools: "We have a 'built-in' drugstore, complete with juke box, at the school. If the kids have to let off steam, I'd rather they'd let it off there." This is clearly only scratching the surface of practicality. How about swimming pools for grade school youngsters and a race track at the high school for hot rod enthusiasts?

And to instill the proper practical attitudes in our young, here are some sample topics discussed in the "home and family living" course which is compulsory in many high schools: "My Duties as a Baby Sitter," "Clicking with the Crowd," "How To Be Liked," "What Can Be Done About Acne?," "Learning To Care For My Bedroom," "Making My Room More Attractive." Dandy discussions, these, and all intensely practical. Can you imagine the disastrous results if our children omit such erudite debate?

Then, the Stand Bell Adjustment Tests, given on a wide front in many schools, set up the teachers in a most practical way, as practicing psychiatrists. Here are some of the questions which a few reactionary parents seem to feel are in intrusion into both home and decency: "Do you feel that your parents have been unduly strict with you?"

"Does your mother tend to dominate your home?" "Is either of your parents very nervous?" "Have there been frequent quarrels among your near relatives?"

"Have you often felt that either of your parents did not understand you?"

But then, such parents must be wrong. How valuable and how practical to let the little ones recognize that parents are problems which must be "handled" by the astute moppets of today's pragmatic world.

In this same vein, the Johnstown, Pennsylvania Tribune-Democrat reports that a second-year high school classroom exercise turned a public speaking class into a public confession exhibition. The textbook used is called "Enjoying English"; its "Experience Unit 4" calls for discussion of "Home Troubles, Home Worries." Thus the children made speeches such as, "Nagging Me About Things," "Carelessness Around the House," "No Privacy at Home," "Not Enough Money."

Isn't it marvelous to realize, what wisdom is being drummed into the heads of our offspring by virtue of all the taxes we pay?

This all comes under the heading of today's emphasis on practicality. Perhaps we can be pardoned for asking what to us appears to be another practical question. If this is the kind of drivel going on in government schools, where does one send his children to acquire a basic education?

The Doctor Says

By EDGAR P. JORDAN, M. D.

Parents may have special problems with children who are exceptionally bright.

An excellent book on this subject (Teaching the Bright and Gifted, by Cutts and Moseley - Prentice-Hall, New York) while addressed primarily to teachers, contains much of interest to parents.

Among other things, the book points out that it is not always easy to identify the bright child, even by such well-known tests as the IQ. The IQ test alone, for example, does not make any allowance for the character and motivation of the youngster.

Nevertheless, it is important to identify all bright children and to see that they acquire factors which will enable them to progress as far and as fast as their potentialities permit.

The bright child does not always show his ability for everyone to see. Some are given to daydreaming or to aggressive disorders. Some get bored in school or at home because they are not given enough to do for their active brains. Others may have physical defects which may make

them appear stupid. Certainly the exceptionally bright child is rarely a "little angel."

One of the best clues to the identification of the bright child is in his out-of-school activities. The bright child is likely to be an ardent hobbyist and may carry at least some of his hobbies (even though he shifts rapidly) farther than other children do. This is something that parents can watch for.

There are problems, once they have been identified, in knowing how to handle bright children. For example, many bright children come from broken or unhappy homes. Some have poor discipline at home and some are simply handled improperly by the parents.

One bad but common procedure is for parents of a bright child to keep reminding that youngster of the superior accomplishments of some older brother or sister.

The results of standardized achievement tests show that bright pupils have the ability to do the 12 years of preparatory work (through high school) in nine years or less. If large numbers of bright children could be more

BETTER JOBS

By R. C. HOILEY

Religion And Evolutionary Progress

A friend of mine from the Foundation for Economic Education sends me many thought-provoking, stimulating addresses, pamphlets and books.

He recently sent me an address made by H. Bayard Phillips of the Mathematics Department of the Massachusetts Institute of Technology. The address was made at the Tuesday Evening forum of the Arlington Street Church in Boston, Mass. The subject was "Religion and Evolutionary Progress."

It is interesting how a mathematician handles religious subjects. From here on I am quoting from Mr. Phillips' address: "Life should not consist in mere living. It should have a purpose, or goal. We speak of nations, races, eras of civilization as 'higher' or 'lower.' To give meaning to such expressions we need an objective, approach to which measures success in life. Man's effort to attain that objective I call religion."

"It is to be noted that such a religion involves a kind of faith, namely, a belief that there is some earthly condition which is most desirable and most worth-working for, and that the world can be brought nearer to that condition through human effort."

"Adherents to orthodox faith may be shocked by a definition of religion which does not even mention God. A simple answer is that the Master of this universe certainly does not meddle arbitrarily in earthly affairs, like the Greek and Roman gods, but must act in accordance with a rational plan. Achievement of that divine plan may then be considered the objective of life, and religion, as here defined, becomes man's effort to aid in that work."

"From this point of view there are two fundamental questions. (1) What is the objective of life in terms of which all earthly success is to be measured? (2) How is that objective to be attained?"

"In seeking an answer to the first question, I shall consider a series of objectives each of which includes the preceding, leading finally to an ultimate one beyond which it does not seem possible to go."

"Many religious people would say the fundamental objective is the establishment of the good life - peace on earth, good will to all men. That this is a particularly high ideal no reasonable person can doubt. Universal good will would certainly make this a different world. By restricting attention to purely ethical features, religious people often, however, neglect the great practical advantages of rule by moral law. Under such rule army and navy, and most activities of government could be abolished, locks and jails eliminated, taxes greatly reduced, and only a few police would be needed for handling traffic. By transferring to productive work the energy and resources thus released, the output could be made sufficient to abolish hunger and want, and supply a high standard of living throughout the world. Universal good will would indeed work wonders. On looking a little deeper we are compelled to admit, however, that a people can have the best intentions and still be diseased and miserable. At the present time, for example, there are places where public morals differ little from those in the United States, and yet half the children die before the age of ten. Good will is not enough."

It seems to me that Mr. Phillips errs when he thinks it is possible to abolish hunger. The race will certainly have to change, to a great degree, if hunger can be abolished. In the meantime, however, we can reduce hunger by more nearly living according to moral law. Mr. Phillips continues: "Considerations such as these lead many thinkers to choose happiness rather than goodness as the objective of human life. It should be noted that any departure from good behavior decreases total happiness. If a people have greatest happiness they will then also be good. Greatest total happiness thus implies universal good will and is therefore a more fundamental objective."

"Many religions have looked askance at happiness as an ethical objective and, in fact, have considered physical pleasure as almost immoral. There is however much to be said in favor of happiness as an objective. Our senses of pleasure and pain have been developed in the long slow process of evolution. Those who enjoyed things that were beneficial found life easier. Those whose pleasures were harmful had greater difficulty. After ages, during which the race was barely able to survive, only those were left whose senses were best adapted to the conditions under which they lived. That most people enjoy a particular form of activity is thus the best evidence that in some way it is beneficial. Still there are fundamental reasons why human happiness should not be the ultimate objective of man."

(To be continued) rapidly advanced just think of the savings on school space and teachers. But there is the question of social adjustment and it would hardly be wise to let a few youngsters into college at 15 or 16 when most of the colleagues are considerably older. This is a problem for all of us to ponder.

Empty For The Summer

Down South

Confusion of Principles And Material Progress

By Thurman Sensing

"THE HORSE AND BUGGY AGE"

"The story is told of the little boy who said to his grandfather, 'I have to write an essay in school showing that the white man is smarter than the Indian. Will you help me?' The grandfather replied, 'Why, of course.' But then he got to thinking, and he finally said to his grandson, 'I don't know about that. Back in the days of the Indians there were no taxes, there was plenty of hunting and fishing, and the women did all the work. No, I'm sorry, but I can't help you write on that subject.'"

This, of course, is an extreme illustration, but it does serve to point up a fallacy in thinking that has permeated the country for at least the last twenty-five years, namely, that all past ways of doing things are necessarily wrong and are not applicable to present day living.

We saw this attitude crop out in the early days of the New Deal, when the Government threw honesty to the winds by going off the gold standard and began trying to spend itself out of a depression. Those who led this movement said that those not in agreement were "horse and buggy" age and were therefore not competent to pass judgment on this modern way of doing things. Instead of replying to honest criticism with facts, they simply said the critics were old-fashioned and out-of-date.

Many strange new theories were developed in those days - modern, up-to-date theories - such as "It makes no difference how much we owe so long as we owe it to ourselves" and "A large debt is a national blessing." Under the former philosophy, we have increased our national debt from \$19 billion to \$275 billion. Under the latter, we are apparently well on the road toward eternal bliss, as we have passed through some of the most prosperous years in our history increasing the debt instead of decreasing it and seem determined to pass it on to our children as if we were in no way responsible for it.

But those not in accord with these ideas and practices, say the proponents thereof, are just trying to "turn back the clock," they belong to "the horse and buggy age." Such comments are supposed to be devastating answers, but they are actually not answers at all; they just dodge the issue. However, this philosophy has been promulgated among us so long by the intellectuals of "modern living" that it has pretty well permeated the thinking of many people and is going to be hard to shake off. Just recently, in answer to criticism of his record peacetime budget, the President observed that "in this day and time we cannot . . . limit ourselves to the governmental processes that were applicable in 1890. We have got to adapt the great principles of the Constitution to the inescapable industrial and economic conditions of our times." In other words, the principles of 1890 belong to the "horse and buggy" age and do not apply now. Shades of Cleveland and McKinley!

These proponents of "modern living" seem to confuse principles with material progress. Our stand-

ard of living has increased greatly over the years, but our principles of living have not changed—and will not change. Thrift is just as much a virtue now as it ever was. Honesty is still the best policy. Living within your income is still something to be desired. Payment of debts is still to be commended. Just because all these fundamental principles belong to the "horse and buggy" age does not mean that they are to be abandoned during this modern age.

Some day our own age will undoubtedly be known as "a horse and buggy age," but the moral and economic principles by which we should be living will not have changed, any more than they have changed down through the ages. The Ten Commandments were laid down during one "horse and buggy" age. The Declaration of Independence was proclaimed during another "horse and buggy" age. We should adhere to these fundamental principles, not depart from them. That "old time religion" which was good enough for our fathers and our mothers is not something to be ashamed of and abandoned.

Lots of folks get credit for being cheerful when they're just proud of their teeth.

As the Santa Maria was tossing about in a storm, worried seaman approached Christopher Columbus. "Seaman, Captain Columbus, if the world is really flat like everybody says— (impatiently) — Stop fretting. I'm telling you the world isn't flat. — But what makes you so sure?" Columbus: "If the world was flat where would I have gotten the money to make this trip?"

The chap had just been operated on in a hospital. When he opened his eyes the first thing he noticed was that the window shades in his room were down. He summoned the doctor and asked why the blinds were that way. "There's a fire across the street," replied the doctor. "So I pulled the shades down, because when you awakened I didn't want you to think the operation had been a failure."

Hankering

The Two Unfailing Signs Of Summer: Heat, Advice

By HENRY McLEMORE

LONDON — There are two unfailing signs of summer — One is

the heat; the other is the advice on how to behave handed out to Americans who plan to spend their vacations abroad.

The American Way

By George Peck

Is there any hope that political action can halt America's drift toward socialism? Certainly not as long as the rank and file of voters are either misinformed or lethargic. What possible benefit can come from changing party or the leader in power, if the same old practices of government patrimony are simply continued under different names?

Some Americans feel that IF we can organize politically now with sufficient energy and enthusiasm, 1958 will see a change, not as to party name or leader personality, but a change in direction and policy. Others say it is too late; that we've gone too far in the direction of big government to reverse direction. Still others, not content with dragging their feet, prefer to take action now to remedy an intolerable situation.

But let us suppose that those who feel that problems created by politics can scarcely be solved by politicians, are correct. Then what? One cannot simply sit down and give up. Some action must be maintained unless we are to surrender docilely to communism, socialism or some other foreign ideology.

Fortunately, there is a method now available for those who wish to accomplish something and are disillusioned as to the effectiveness of political action in the immediate future. The answer is in The Freedom School.

In the lovely setting of the Rampart Range of the Rocky Mountains not far from the site of the new Air Force Academy, Robert LeFevre, his staff and a number of leading libertarian luminaries, have organized and built one of the most unique educational institutions in America.

The course of instruction is available to anyone 16 years of age or older, who has leadership potential and is dedicated to preserving "The American Way." One of the merits of the course is this. The guest instructors for 1957, including Leonard E. Read and Dr. F. A. Harper, both of the Foundation for Economic Education; Frank Chodorov, author of "The Incomplete Tenth of All Evil"; Fred G. Clark, head of the American Economic Foundation; Percy Greaves of the staff of Christian Economics; and Dr. James L. Doenges, an expert on socialized medicine and social security, are dedicated to helping Americans think.

I find the heat easier to take. The unflattering assumption that most of us Americans who travel are insensitive bores who trample on the feelings of others at every turn is getting a bit wearisome at best.

That this advice comes from fellow-Americans makes it no easier to swallow. Who are these Americans who take it upon themselves to lecture us on etiquette? Where do they get off telling us how to behave once we board a plane or boat? Are they an exclusive little group of gallants with a monopoly on sensitivity, dignity, and decorum? To read their advice, you'd think they were all descendants of Lord Chesterfield, and the rest of us were raised in a pasture with the gates wide open.

Don't be rude in foreign countries, they warn, just as if we went around our own country practicing rudeness. . . . Don't flaunt your money, just as if we made it a habit of waving our bills as if they were handkerchiefs. . . . Don't complain all the time, just as if Americans were a race of chronic grognahers. . . . Don't talk in a loud voice when you brag. . . . Don't be overbearing and demanding. . . . Don't laugh or sneer at the customs and traditions of other people.

Next thing you know, Americans going abroad will be cautioned against striking children, shoving elderly folk off the sidewalk, kicking dogs, and eating soup with their fingers.

I have been in Europe many times, and seen tens of thousands of Americans at play, but I'd have to stop and think to recall any act of grossness on the part of a countryman of mine. Sure, I've seen them noisy, and on several occasions belligerent, but after all Americans are members of the human race, and humans sometimes get that way.

The truth is, I honestly believe that Americans are the best behaved, most tolerant, most patient, most understanding, and most gracious travellers of all the nationalities I have seen. They put up with more, with less fuss, than any other people I know.

Certainly no traveller is more enthusiastic about what he sees in a foreign land than an American. He is an "Ook" and "Aht" visitor with a vengeance. We are exuberant folk, and when we like something we say so. Sophistication doesn't come naturally to us, and the few times we do get a bit out-of-line usually is the result of our having such a good time.

I never have heard Americans do all this bragging about their own country that they are supposed to do. We're proud of our country, that's for sure, but I have yet to hear any of us giving off with how much higher our buildings are, how much longer our bridges are, how much better our food is, and all that sort of thing.

Perhaps there are Americans who spend their time in Europe talking in this fashion but I don't seem to run across them. The type I am always running across are the ones who take a fleecing with a smile or a shrug, who accept ordinary accommodations, as de luxe without objecting, who go out of their way to say "Thank you" for routine service, and are as friendly as a next door neighbor.

As for us Americans being unpopular over here, that's nonsense. Even I get along fine, and goodness knows I don't have what is known as a winning personality. Come over and see for yourself.

NEW YORK (UP) — Evangelist Billy Graham said Wednesday night that men are bigger golfers than women — but with a difference.

THE BALD BOY Chapter 17

Psychosomatic Treatment No. 1

By ELMER WHEELER

Man loses his hair to make a fortune.

Then loses his fortune to regain his hair.

I have whipped my baldness. It was not of the permanent kind that is still incurable; but due to a run-down dietary condition, which I corrected, and nerves which are now O.K.

You can shoot a cannon under my bed and I won't budge.

In the old days, all you had to do was snap your fingers in traffic and I almost jumped out of my skin.

No wonder my system got knocked out, run down, and my nerves went cockeyed and I lost hair as I lost patience with life.

"O.K. doc," I said one day. "Now that I'm cured, tell me that psychosomatic treatment deal you were going to give me if I was a permanent baldy."

So the doc tells me there are two psychosomatic treatments, and he'll start with No. 1.

He says psychosomatic means you can sell yourself on anything you want, mind over matter, such as you won't have a cold, you'll be healthy, you will die or won't die.

Now doc is a clever guy at this "bedside treatment" stuff. He begins to show me how bald boys can become indoctrinated to the fact they will be bald, and capitalize on this baldness by being good sports.

"Being Bald, you are a likely member of Business Brains, Inc."

"Don't fight it—join it. In fact, encourage baldness when it is on the way," advised the doc, and when I asked him "why?" he told me to look around.

"Note how many chairmen of the board, presidents of big companies, sales managers are bald boys."

I hadn't thought of that. Baldness goes with big business.

"Every famous man in history, with, of course, some few exceptions, like Steinmetz and Einstein, had little or no hair," pointed out my doc.

I quickly reviewed my history from Caesar to Shakespeare, to Ike, and sure enough, there were enough bald boys of fame and fortune to prove the doc was right, and Mark Twain was a museum piece.

Didn't Caesar wear a dome doily? That crown of his.

How many other famous men were bald that we didn't know about?

"Make baldness big business, son," said the doc, "and write it up in a book so bald boys won't hide their fame and fortune under hats and carpets, but will show them to the world."

A great idea, I thought. Good psychosomatics, as the doc calls it.

If you are a bald boy, or if there is one in your family, tell him his chances of success are 10 to 1 over "Mr. Handsome Head."

"Give him some 'psychosomatic' shots.

Encourage the guy, don't break him down; prop up his spirits, make him proud to be bald, or on the way.

If you are bald, be sure you pick a boss who is bald, and like two lost souls, you'll find companionship.

Remember, the greatest of all loves is one bald boy for another.

So keep your hat off. Hold it in your hand. Maybe some president of some competitor's firm has only the "long haired" boys working for him, and he is lonesome for a baldy or two.

When he spots you, you may be "in."

Being bald, you are a likely

member of the great fraternity: Business Brains, Inc.

You never saw a dunce who was bald, did you?

Look around at the bald success that is everywhere. "Oh, sure," said my doc, "you'll find the exceptions that only prove the rule."

Some "long hairs," you know, married into the top job; but you can bet when their balding father-in-law walks through the plant, office or showroom looking at the "help," he'll not favor pretty boy.

So buy the toughest comb you have. And when it shows up with a handful of hair, be proud you are losing it.

You are on the road to success. A bald road that will end in the president's chair.

I'm glad doc told me this first of the two psychosomatic cures, even though I realize I may never be a chairman of the board.

He has made me wonder now what the second "cure" for the permanent bald boy will be. He promised to tell me tomorrow when I returned.

So if you are permanently bald, be a good sport.

Like once said, "Well, I haven't grown any hair." He took his loss philosophically.

Indeed, grass won't grow on a busy street. Hair may not grow on a busy head, either.

ROOM FOR ONE MORE?—This, believe it or not, is the inside of the massive South Weymouth (Mass.) Naval Air Station hangar. Seen from this high angle, giant transports and planes of virtually all description resemble toys. The neatly arranged planes share the storage place with blimps floating overhead.

Rhonda Fleming Proves Something To Herself

By ALINE MOSSBY
United Press Hollywood Writer

LAS VEGAS, Nev. (UP)—After a decade of trying to convince Hollywood she should be in musicals, Rhonda Fleming gave up and walked, knees shaking, onto the stage of the biggest hotel in Las Vegas "to prove something to myself."

The result was so startling that one critic noted it wasn't an atomic bomb that shook this desert city but Rhonda Fleming.

In a white lame-and-lace gown slashed to her waist, she is one of the most beautiful singers to grace a nightclub stage. She also has a fine voice of the musical comedy type. These nights the tourists come to Las Vegas with a show-me attitude only to be pleasantly surprised both at Rhonda and at Marie McDonald, singing at the Desert Inn down the street.

"Marie was a band singer years ago with Tommy Dorsey, after all, but I had sung only in a movie, 'The Connecticut Yankee,'" explained Rhonda.

"I wanted to be a singer when I was little and I started studying opera at 14. But David O. Selznick put me in movies as an actress, my first film being 'Spellbound.'"

Since then Rhonda's lush figure and bright-red hair have been a fixture in swashbucklers, adventure thrillers and big color westerns such as Paramount's west-

BILLS DUET PAY 'EMI' with \$620 CASH from S.I.C.!

Car payments, stove payments, refrigerator payments, house payment, department store bills—and THEN is when some member of the family has to have an appendix out! Sure, we know all about it. Man, it's happened to every one of us. But LOOK: can you repay \$29.87 a month? Well, \$29.87 a month (24 months) repays that \$620 S.I.C. loan. Subject to usual credit regulations, of course, but that's only good business. Get it all off your mind, man! Come down and—**SOS-SIC S.I.C. LOANS**

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dynex®)—discovery of a world-famous research institute. This substance is now available in the name Preparation H.* At your druggist. Money back guarantee.

It's got the heart of a lion

(but it's a lamb to handle)

Sweet, smooth and sassy—that's the new Chevrolet! You'll be hard put to find another car so alive, alert and eager for a full day's run—and yet so delightfully easy to control!

To know a Chevy in all its glory, head one into the open—the more mountains the better. You'll soon see why so many people dote on that smooth sure Chevrolet response and stout-hearted power. Chevrolet's performance and solid build make their dollars look big!

You don't have to urge this car along. The power—and there's plenty—is charged with gumption. The wheel responds in a twinkling to tight corners or turns. And on a back road a Chevy steps with ease over ruts that would look like barricades to lesser cars. In short, a Chevy shows "savvy." You can, too—by seeing your Chevrolet dealer!
