'Esther' Claims Lives Of Four

NEW ORLEANS (UP)—Tropical storm Esther was only a shallow low pressure area in Mississippi today, but four were dead in her wake and flooding was threatened in her path.

The storm passed Jackson, Miss., at 9 p.m. c.s.t. Wednesday with winds reduced to 17 miles an hour. It was "weakening rather rapidly," the Jackson Weather Bureau reported.

However, it was water, rather than wind, that figures in the four deaths and put Mississippi, Alabama, Tennessee and Louisiana on the alert for possible floods.

The New Orleans Weather Bureau said Esther was expected to move about 15 miles an hour through the northern portions of Mississippi and Alabama and into central and East Tennessee today, dumping up to six inches of rain along the way.

Storm warnings were lowered on the Gulf Coast, where the storm moved in from the Gulf of Mexico on a 300-mile front. Top winds around the center were clocked at 64 miles an hour and tides were only three to five feet above normal.

Coastal flooding was still feared, however, due to heavy runoff and possible overflow of rivers emptying into the Gulf.

New Orleans was hit by a flash flood as the storm moved by with eight-inch rains Wednesday, and two boys drowned after water rose to nearly eight feet in a canal normally only four feet deep. A New Orleans man

drowned also when his car skidded and went into the water near Donner, La.

The fourth victim was a woman from Meridian, Miss., killed when a truck skidded on wet pavement near Selma, Ala., and crashed into the car in which she was riding.

San Marino Commies Tossed Out

By LARRY COLLINS
United Press Staff Correspondent
SAN MARINO—The majority of the ruling council of Russia's smallest satellite decided today to toss out its Communist government.

Thirty-one members of this postage stamp-sized republic's 60-man grand and general council lined up against the Communist regime that has held power since the end of World War II.

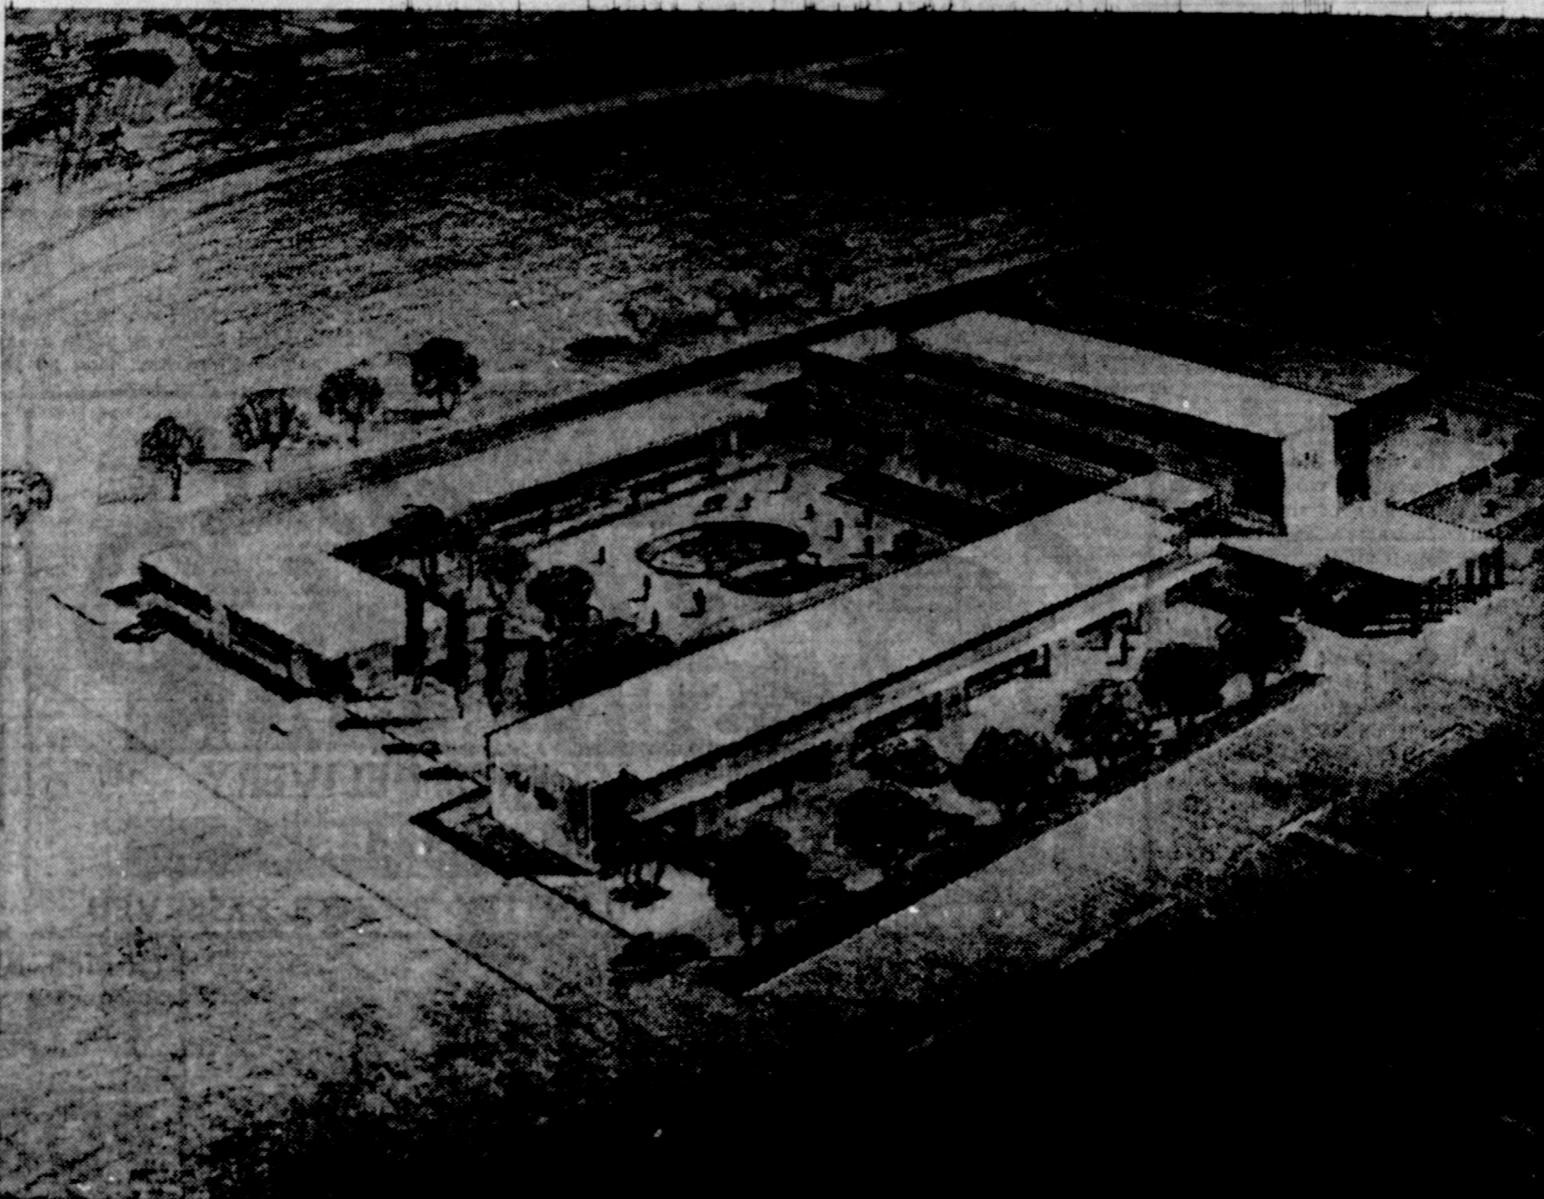

The 31-man Social Democratic and independent majority was ready to force its decision on the council in a meeting to elect two new men to the republic's top executive posts.

Their decision was hardly expected to panic Moscow. But it was giving San Marino its tensest day in the republic's postwar political history.

The local Reds were expected to fight for power with any means—including riots if necessary. Informed sources said San Marino's two main factories were closed this morning and their workers were preparing to march on the government office building where the council convenes.

Christian Democratic sources claimed several carloads of Red strongarm men crossed into the republic from Italy late Wednesday night.

Hotel Building Plans OK'd

NEW COMMUNITY HOTEL—Shown above is the architect's drawing of the new Pampa Community Hotel as it would appear, roughly, looking southwest across Hobart from the top of Highland General Hospital. The open part of the hotel courtyard will face Hobart while the main access road to the hotel, probably an extension of Somerville, across Hobart, will be located immediately north of the parking lot, lower righthand corner. A swimming pool will be located in the center of the courtyard.

Revisions Will Be Left To Committee

By FRED M. PARKER
Pampa News Staff Writer
The architect's plans for the 106-room Pampa Community Hotel were approved this morning by the board of directors of the Community Hotel Company at a meeting in the conference room of the Chamber of Commerce.

The approval of the plans by the directors of the hotel firm came after approximately one hour of discussion on the hotel itself. The explanation of the features of the hotel was made by Fred Neslage, member of the Architectural and Building Committee, in the absence of C. P. Buckler, chairman of that committee.

The main item of discussion by the directors was the advisability of changing the plans to provide for doors on ground-floor rooms, facing the patio area containing the swimming pool. The subject of outside doors on rooms on the north side of the first floor also came up for discussion.

NO DEFINITE changes in the plans were made by the directors and in approving the plans the motion included the provision to allow the Architectural and Building Committee to make changes in the plans for the building that were advisable.

The meeting this morning was attended by Stewart Kines, the hotel manager named by the American Hotel Company, which has been chosen to operate the hotel when completed, and Robert Walker, vice-president of the operating firm.

The two men reported that the features of the hotel provided for first-class service to customers. FOLLOWING THE explanation of the hotel features, Neslage said that the estimated cost of constructing the building was reported to be \$1,140,000. This figure does not include leveling the land, landscaping, paving parking areas, the swimming pool or furniture and fixtures for the hotel.

The representatives of the hotel operating firm estimated that the furniture and fixtures for the hotel would cost approximately \$225,000.

The Architectural and Building Committee was instructed by the directors to determine the cost of constructing the swimming pool, landscaping the 12-acre site of the hotel and the construction of curbs, paving and sidewalks needed around the hotel.

THE PROBLEM of leveling the site for the hotel and lowering the elevation has been given to the Site Committee and reports made this morning indicated that the cost of this work would be known in the near future. This committee indicated that work on plans for the leveling work were now being made by Wayland Merriman and he should have the estimated cost prepared by the next meeting of the directors.

Even though the hotel has 106 rooms, only 102 rooms will be rentable, Neslage explained to the directors. The remaining four rooms are reserved in the third-floor apartment provided for the hotel manager.

Neslage also reported that the hotel will feature a drive-in registering service where people can register without leaving their cars and then drive to the parking place outside the rooms on the outside of the two wings of the hotel.

The hotel will also have a registration booth in the lobby. The plans provide for only two businesses to be located in the hotel building, in addition to the coffee shop and cafe. The businesses provided for are a barbershop and a beauty shop. Both businesses will be located on the north side of the lobby.

The directors of the local hotel company also learned that the hotel design provided for future expansion. (See HOTEL, Page 2)

Governor Faubus Refuses To Appear In Federal Court

LITTLE ROCK (UP)—Gov. Orval E. Faubus today refused to appear in federal court at a hearing on the validity of four state segregation laws passed by the 1957 Arkansas General Assembly.

He said he refused "because of the obvious ulterior motives of those who obtained the subpoena."

The governor, in a letter to U.S. District Clerk Grady Miller, acknowledged a subpoena delivered to him Wednesday by U.S. Marshal Beal Kidd. He said, however, that he did not have to appear in court if he chose not to.

"While I have the utmost respect for your court and its valid processes, I must point out that almost from the beginning of our republic it has been uniformly held that the chief executive is

not compelled to comply with a subpoena unless he chooses to do so," the letter said.

"In this particular case, because of the obvious ulterior motives of those who obtained the subpoena, I do not choose to comply with it, and will thank you to so advise the court," the governor wrote.

Ten Negro ministers filed a suit in federal court asking for a determination of the constitutionality of four segregation bills enacted by the Arkansas legislature earlier this year. A similar suit by a "disinterested person" has been filed in a state court.

The Arkansas Sovereignty Commission, headed by the governor as chairman, will hear a petition in federal court today to throw out the suit by the ministers and

let the state courts determine the validity of the four acts. Faubus was under summons to testify this morning in a segregation case that has no connection with the federal injunction hearing scheduled for tomorrow.

Faubus was not expected to answer the summons and it was believed by many observers he will not be present at the injunction hearing Friday.

The motion to be heard today was filed by the state Sovereignty Commission, of which Faubus is ex-officio chairman. The commission is supporting a suit filed in a state court by a "disinterested person" to test the validity of four segregation laws passed by the 1957 Arkansas Legislature.

Ten Negro ministers, however, have filed a similar suit in federal court. The hearing today is on the Sovereignty Commission's motion which asks the federal court to throw out the Negroes' suit and leave the decision to the state courts.

Faubus was summoned amid these developments on the integration scene.

NEWPORT, R.I.—President Eisenhower agreed to meet with Rep. Adam Clayton Powell (D-N.Y.) and other Negro leaders to discuss the integration crisis in Little Rock where National Guardsmen are blocking Negroes from Central High.

OKLAHOMA CITY — Democratic National Chairman Paul Butler supported a strong civil rights stand despite threats of southern Democrats to organize a third party. He criticized Eisenhower's handling of the Little Rock incident and said "Harry Truman would have solved this a long time ago."

NASHVILLE—Segregation leader John Kasper was released from jail on \$2,500 bond put up by a fellow segregationist. Kasper spent a week in jail on a charge of inciting to riot shortly before a school ordered integrated was dismantled.

ALEXANDRIA, Va. — Postponement of the Sept. 23 deadline for admission of Negroes to all-white schools in Arlington County has delayed their entry until at least next February.

Satchmo Tells Government Off

MONTEVIDEO, Minn. (UP)—Jazz trumpeter Louis Armstrong today stood by his statement that the "government can go to hell" with its plans to send him on a good will tour of Russia.

Armstrong was quoted Wednesday by the Grand Forks (N.D.) Herald as saying he was abandoning plans for the government sponsored trip behind the Iron Curtain because "of the way they are treating my people in the South."

The famed ambassador of jazz, currently on a tour of one night stands in the Midwest, told newsmen after a performance here early today that he would say no more about the issue.

In an interview Tuesday night at Grand Forks, Armstrong told reporters for the Herald that "it's getting almost so bad a colored man hasn't got any country."

He charged President Eisenhower with being "two faced" in allowing Arkansas Gov. Orval Faubus "an uneducated plowboy" to run the federal government.

"But don't get me wrong," he added. "The South is full of intelligent white people. It's the bad lower class people that make all the noise."

He charged Faubus' action, in calling out the National Guard to prevent integration at Little Rock, Ark., was a "publicity stunt led by the greatest of all publicity hounds."

Armstrong, who once remarked he could "melt the Iron Curtain" with his hot trumpet, said incidents such as that at Little Rock have a bad influence on our foreign relations.

"If the people over there ask me what's wrong with my country, what am I supposed to say?" He said if he ever goes to Russia, "I'll do it on my own."

Patrol Will Use County Courtroom

County Judge Bruce Parker said this morning that he was loaning the County Courtroom to the Highway Patrol officers for a period of a week to 10 days beginning next Tuesday.

Due to the influx of many out-of-state families here recently, the local officers have been swamped with driver's license business. Most of the families have come with Franks Mfg. Co. here from Tulsa, Okla.

Two extra officers will arrive Tuesday to take care of the tests. Parker said that County Courtroom will be held in the District Court room when the District Court was not in session.

Architect Says It's Highway-Type Hotel

A "HIGHWAY-TYPE HOTEL," is the way B. R. Cantrell, architect in charge of drawing plans for the Pampa Community Hotel, describes the proposed structure.

According to Cantrell the \$1 million plus building will be a combination of a hotel and motel, similar in many respects to the Western Hills in Fort Worth.

Located on the high ground immediately west of Hobart street and south of Kentucky, the hotel will be situated on a "highly landscaped" 12-acre plot. Spacious parking lots will accommodate more than 450 automobiles. A 400-foot frontage off Hobart street has been allowed.

MORE THAN 100 rooms will be available in the "U" shaped building and other recreational facilities will be located in the patio formed by the "U."

The center wing is to be a three-story affair with one side wing two stories and the other wing a one-story structure.

In keeping with the combination hotel-motel idea, both the hotel-type rooms and the tourist court will be available to customers.

A 455-CAPACITY BALLROOM plus seven private dining rooms which seat from 20 to 100 persons each are included in the plans. Also in the plan is space for a barbershop, beauty shop and private club. It is possible that a laundry may be installed, depending on the operating company's desires.

The 70,000 square foot building will have a "contemporary design," Cantrell said, and semi-fireproof steel masonry material will be used in construction.

One passenger elevator and one service elevator have been drawn in the sketch. The club area, private dining rooms and the manager's suite are to be located on the third floor.

SEVERAL SUITES which include a living room, bedroom and bath, will be built according to the demand.

Suit Filed In District Court

One compensation suit was filed in District Court this morning against the American General Insurance Co.

Plaintiff in the suit is E. L. Smith, who is asking for \$25 per week for 401 consecutive weeks to be paid in a lump sum. Smith claims he suffered back injuries while carrying a sheet of steel on May 28, 1957. He was employed by Brown and Root Inc., which was doing construction work in Gray County at the time of the accident.

All rooms are to be air-conditioned and the central heating system will make use of the same ducts during the winter months. Television will be available in each room.

Kitchen facilities designed to serve a maximum of 600 persons are planned.

Cantrell estimated that bids would be let sometime during the latter part of this year and that the construction would take about a year.

THE AMERICAN Hotel Company was named earlier this summer to operate the new business. Stewart Kines of Oswego, N.Y., was designated to be the manager.

Four Fire Calls Are Reported

Four fire calls have been reported since yesterday to the Pampa Fire department, the first occurring at 1:07 p.m. yesterday 2 1/2 miles northwest of town. The blaze was a grass fire and was extinguished before any extensive damage was done.

At 6:33 yesterday afternoon, a tar pot at 110 N. Cuyler was burning which also resulted in no damage.

A short in the neon sign at Motor Inn caused an alarm to be given at 7:27 p.m., but resulted in no fire.

The final fire was reported this morning at 10:15 in the alley of the 700 block of Naida. The blaze was a trash fire and was controlled without causing destruction.

Charles Eagle Plume To Address Knife, Fork Club

Will Rogers used to say, when talking to full-blooded Whites, "My Ancestors were here to greet Columbus when they landed." The same might be said by Charles Eagle Plume for his ancestors on the distaff side.

This well-known scholar and anthropologist will be the honored guest speaker at the next meeting of the Knife and Fork Club here. According to J. W. Gordon Jr., the local president, the affair will be held at 7:30 p.m. on Tuesday, Sept. 24, in the high school cafeteria.

Eagle Plume is considered one of the foremost interpreters of Indian lore in the United States. Through his mother, he is a member of the Blackfoot tribe. Under his gay care-free manner, he has

a serious side and there is a wealth of valuable research material in what he has to offer.

He is a graduate of the University of Colorado, and he was studying for doctor's degree at Columbia when the Second World War broke out. His studies were interrupted by three years in the United States Army. Most of this time was spent in the Southwestern-Pacific theater where he served as a scout.

The White man owes much to the Red, he declares, pointing to the fact that thirty-two of our economically important vegetables came from the Indians.

Deadline for purchase of tickets, which are on sale at Thompson Hardware, is Monday, Sept. 23, at 1 p.m.

Rotarians Hear Talks By Scouts

Pampa Rotarians yesterday heard talks by four boys who attended the Boy Scout International Jubilee in England last month. The jubilee celebrated the 100th anniversary of Scouting itself.

Harold Smith, of Panhandle, related the experiences of the actual boat crossing, outlining the recreation as well as the sea sickness which overtook some of the party. Young Smith was dressed in a Belgian Scout uniform.

Fred Neslage Jr. talked on the jubilee convolve itself, telling of the encounters with other Scouts from over the world and giving a view of camp life. Neslage was attired in the uniform worn by the Boy Scouts of England.

Bill Neslage told of the parties' travel on the continent, covering mainly Switzerland and Holland. He wore the uniform of a German Scout.

The travels in Germany and France were the subject of Don Curry's address and he came dressed in a Norwegian Scout uniform.

Special guests for the day were Mrs. Fred Neslage, Mrs. and Mrs. Bob Curry, Mr. and Mrs. Harold Smith, Mrs. Mary Ann McClosky, Mrs. Iris Ragsdale, Mrs. Marietta Beard, Hollis Alford and Dale Stone.

Regular visitors and guests were Jim Heat, Norman Henry, Clyde Dickson, Lewis Kinney, Fred Sweezy, Pat Kinney, Homer Gibson, Fred Beam, Walter Ivry, Norman Motley, Jessie Scarbrough, Robert Denman and Kenneth Axelrod.

John Nutting, of Pampa High School, filled in the junior Rotarian spot for the day.

Asian Flu Outbreak Spreads In Texas

By UNITED PRESS
The outbreak of Asian flu expected with the beginning of school spread over the state today, with secondary schools the heaviest hit.

Many high school athletes were also suffering from the flu, or something like it. Football games were cancelled at some places for this weekend.

An "epidemic-sized outbreak" was predicted in Houston in a matter of days or a week by Dr. Fred K. Laurentz, city health officer.

The State Health Department reported an "unprecedented number" of requests from all over the state for laboratory analysis of cases of flu to determine if it was of the Asian variety.

Requests for vaccine Dallas physicians were flooded with requests for flu vaccine, and the Red Cross office reported a large response to courses in caring for the sick at home.

The Duval county health officer, Dr. E. E. Dunlap, informed the state health department 100 cases of flu had been diagnosed in Duval county.

Dr. J. V. Irons of the State Health Department said "suspectious but inconclusive" reports had been returned to Fort Worth, Harlingen, McAllen, Longview, Arlington, San Angelo and Cuero.

If it comes from a Hardware Store, we have it. Lewis Hardware. (Adv.)

In Fort Worth, officials at Texas Christian University cancelled plans for group activities to welcome new students and more than 500 of the college students affected with symptoms similar to those of the flu.

Students Stay Home
At Lufkin, 180 high school students stayed home with an illness described as "the flu." Some football players missed practice, but (See ASIAN FLU, Page 2)

100,000 Flu Cases In US

WASHINGTON (UP)—The Public Health Service reported today the number of Asian flu cases in the United States has climbed to more than 100,000.

A major outbreak is under way in Mississippi, where from 20,000 to 25,000 cases are reported, officials said.

Dr. Carl C. Dauer, influenza control officer of the health service, said the Mississippi situation "could be the beginning" of a true nationwide epidemic.

"The Mississippi flu epidemic is still regional," said Dauer. "But it has some of the characteristics of a break-out. Another week or two will tell the story."

"Break-out" is the term epidemiologists use. (See FLU CASES, Page 2)

Earth Quake To Be Created By Underground Atomic Blast

By COLIN MCKINLAY
United Press Correspondent
Atomic Energy Commission scientists planned to touch off a minor earthquake today with the firing of an underground nuclear device in a blast chamber beneath a barren desert mesa at the Nevada proving grounds.

Seismologists around the world were alerted to have recording instruments ready to register the nuclear jolt. The blast was scheduled for 10 a.m. p.d. for exact calculations of earthquake experts.

AEC scientists held a final technical evaluation meeting Wednesday night and announced that the atomic device, "Rainier," would be detonated barring unforeseen problems. They emphasized if even a two-minute delay arose the test would be postponed until 5 p.m. Greenwich Mean Time Friday.

"Rainier" was expected to uncoil a violence between one and three kilotons. (A kiloton is equal

to 1,000 tons of TNT).

Its estimated kick was far below the majority of nuclear devices fired here since 1951. However, it was billed as the "largest underground explosion" ever to be set off by man.

The "Rainier" device was placed in a 2,000-foot tunnel 800 feet below the surface. Scientists estimated that it might take 100 years before a person could enter the tunnel because of the deadly radiation.

The AEC expected the main force from the blast to be absorbed within the porous rock composing the tableland rising 6,611 feet above sea level. Scientists said the only visible signs of the blast would be a slight heaving of the surface above the blast chamber.

Seismic waves created by the blast were expected to circle the earth's interior and be recorded by seismologists for comparison with natural earthquakes. This phase of the experiment was

scheduled in connection with the International Geophysical Year.

"Rainier" was billed as the 21st shot of the summer test series. The AEC hopes to wrap up the series Friday with the firing of an atomic device from a 500-foot tower. This test, dubbed "Whitney," previously has been postponed three times because of adverse winds.

Cold Front Crosses Texas

By UNITED PRESS
A cold front crept across Texas today, and thundershowers were forecast for much of the top half of the state by late afternoon.

The front moved down the Panhandle and was expected to reach a line from northeast Texas westward through the South Plains by Friday morning, and continue slowly southeastward.

Considerable fog and low thin clouds covered the eastern portion of the state early today. Fair weather prevailed in West Texas. Mild and warm weather was in prospect for most of the state ahead of the front, with cooler weather forecast behind it.

CHICAGO — Burton Halstead, whose 16-year-old daughter, Marian, paralyzed from the waist down by polio, is believed to have eloped in her wheelchair with her boyfriend.

"He's a fine boy. This is so out of character for both of them."

Other states which have had "sizable" local outbreaks are New York, Texas, Utah and California, Daurer said.

M. F. Hardy Dies Today

Malcolm F. Hardy, 55, who resided at 516 N. Frost, died this morning at 4:30 in Highland General Hospital. Mr. Hardy, who was born Sept. 9, 1902, in Terrell, was a drifter for Keating Drilling Co. of Tulsa. He had been a resident of Chickasha, Okla., before moving to Borger, where he lived for five weeks. He moved to Pampa May 15.

He is survived by his wife, Lillian of Pampa; a step-son, Dale Brooks, Snyder; one sister, Mrs. Nola Tarr, Los Angeles, Calif.

Funeral arrangements are pending in Duenkel-Carmichael Funeral Home.

Leach's petrels, which feed as far as 100 miles off the Maine coast, never come to land except to nest.

Freight Train Crashes Truck Loaded With Deadly Cyanide

THAMESVILLE, Ont. (UP)—A fast-moving passenger train early today demolished a tractor-trailer loaded with 25 tons of deadly cyanide crystals, creating a state of emergency in this small community.

Ontario provincial police ordered residents out of a quarter-mile area around the scene of the collision. The trailer-truck was sliced in two shortly after midnight.

Police said the state of emergency was declared and civil defense and army reserves called out because eight policemen and the Thamesville police chief couldn't protect the danger area.

Even the smallest dose of cyanide is fatal if swallowed internally. Nazi leader Hermann Goering cheated the gallows following his conviction as a war criminal by swallowing a cyanide pellet only minutes before his scheduled execution after World War II.

Police said there was danger of fumes blanketing the area if the cyanide was not cleared away. Authorities feared dew early in the morning would worsen the situation.

Medical experts agreed there was greater danger and a professional chemist employed by Dow Chemical Co. rushed to the scene

from his home in Sarnia, Ont.

J. C. Sluder, driver of the tractor trailer, crawled from the wrecked vehicle, complaining of burns in his eyes. Doctors said he was undergoing examination at a hospital in nearby Chatham, Ont. to determine if he was poisoned.

The locomotive carried wreckage of the vehicle a mile down the tracks when the engine airbrakes failed. Pieces of the vehicle and a film of cyanide dust were on the train which slowly proceeded to Chatham, about 17 miles from Thamesville.

The accident happened on the east side of Thamesville, a community of about 1,200 located about 85 miles from Detroit.

Provincial Constable Donald Feir pointed out that any attempt to wash away the dust and pellets would only touch off deadly fumes. He said the cyanide was carried in metal drums and the impact scattered the chemical over a quarter mile area.

Authorities on the scene also said that washing the chemical down with hoses would let the chemical find its way into the sewage system which flows into the Thames River. They said it would also contaminate the Chatham water supply 17 miles from here.

HOTEL

(Continued From Page One)
panion. The design allows for the addition of another wing of rooms on the south side of the building. The site includes the necessary area for any needed extensions, the discussion also revealed.

The question of increasing the size of the ballroom located on the west side of the building, was also raised by the directors. It was pointed out that the ballroom extends beyond the main part of the building and that this can be extended a considerable distance if the need arises. The ballroom also has a large door on the south side which will allow automobiles or other large items to be moved into the large room. This will allow for auto shows or other displays, Neslage told the directors.

ASIAN FLU

(Continued From Page One)
a game with Freeport Friday night was not cancelled.

Other games were, however. Those called off included the Los Fresnos game at Premont, Sharyland at Buni, Rio Grande City at San Diego, and Santa Rosa at Odem.

The flu also threatened a game between Stephen F. Austin of Port Acres and Bryan Friday. The band cancelled plans to make the trip.

At nearby Port Arthur, Coach Clarence Underwood moved five sophomores up from the "B" squad so he would be able to go ahead with a game against Baytown Friday. At least 22 players were out with flu.

Other schools affected included those at Angleton, Rosharon, Compa and Trinity. The Jasper school system remained closed completely, with a third of the students out with flu.

At Temple, 34 of 46 members of the high school football team missed practice with the flu.

Wharton county reported 1,000 cases of Asian flu. Webb had 433, Jasper 240, El Paso 208, Jefferson 155, Travis 121, Fort Bend 108, Gonzales 100, Bee 73, Matagorda 66, Cameron 61 and Guadalupe 50.

In addition, there have been 40 cases of flu reported at the Dallas county jail in the last few days. Sheriff Bill Decker said 28 of the ailing prisoners were in the jail's isolation ward.

Hunt Infant Dies Here

Rex Allen Hunt, born Sept. 14, 1957, died at 4:30 p.m. yesterday, after living four days.

His parents are Mr. and Mrs. P. P. Hunt of 1112 Terrace. Other survivors are one sister, Robin, Hunt of Pampa; and grandparents, Mr. and Mrs. M. I. Luke of Yale, Okla., and Mr. and Mrs. H. H. Hunt of Tonkawa, Okla.

The body has been sent to Yale, Okla., for graveside services to be held at 2 p.m. tomorrow, with Rev. Kenneth E. Kinion, pastor of Yale Church of God, officiating.

Burial will be in Yale Cemetery.

Teamsters' High Command Gathers

By RON LEVITT
United Press Staff Correspondent
MIAMI BEACH (UP)—The high command of the troubled Teamsters Union gathered here today for a series of closed sessions which probably will decide whether the huge truckers' union will remain within the AFL-CIO.

The executive board meeting of the union, a preliminary to the Teamsters convention here opening Sept. 30, comes on the heels of an AFL-CIO ethical practices committee report that the union "has been and continues to be dominated or substantially influenced by corrupt influences."

As the executive board prepared to meet, there were these other developments concerning the teamsters:

In Washington, labor sources said highly-placed teamster officials have joined the campaign to

JET TRANSPORT PASSES TEST—The Lockheed Jetstar, a 10-passenger jet utility transport, takes to the air over Edwards Air Force Base, Calif., for its maiden flight. Built at company expense in just 34 weeks, the sweptwing plane cruises at 500 m.p.h. at an altitude of 40,000 feet. The jet, designed to meet U.S. Air Force requirements for a multi-purpose transport, is 58 feet long, has a wing span of 53 feet and a range of 1,700 miles. The range can be extended by the addition of extra fuel tanks.

Jack Lemmon Thinks Movie Stars Should Hit TV Swim

By Vernon Scott
HOLLYWOOD (UP)—Jack Lemmon, preparing for his new TV show, said today movie stars must jump into the video swim to become really famous.

"Think I'm kidding?" he asks. "Just watch what happens at a premiere."

"Movie stars like Gary Cooper and June Allyson are greeted by cheers and excitement. But let a TV personality like Jeannie Carson—who never made an American picture—show up and the crowd goes nuts."

Not Enough Exposure

"Actors don't get enough exposure in movies. I never make more than two films a year—and a guy isn't going to learn anything doing that."

Lemmon, a Harvard graduate

who appeared in some 600 TV shows from 1948 to 1952, will star in eight dramas for the revamped "Four Star Theater" series on NBC. He is one screen veteran who believes TV will help his career.

"Usually it's the other way around," he explained. "Almost all television actors think they're in the minor leagues unless and until they make a movie. But it's much more difficult for them to make the switch."

"Look at Liberace, George Gobel and Jack Webb. Their movies didn't set the world on fire. Even Eve Arden, a picture personality to begin with, bombed with her movie version of 'Our Miss Brooks.'"

"You've got to keep a balance," Lemmon pointed out.

"Loretta Young and Jane Wy-

man went all out for television. Now they're dead for pictures. Who wants to pay to see a star in a theater who can be seen for free 39 times a year in the living room?"

Jack says he will escape the TV hex by appearing as a different character in each of his programs—and that he will be making only eight shows.

"I have no intention of becoming a TV personality. The public pegs you as a certain type and won't accept you as anything else."

Lemmon, who has his pick (no pun intended) of comedy roles, next will be seen in a dramatic part with Glenn Ford in "Cowboy." This will be followed by "The Mad Ball, a riotous Army epic."

In his fight to escape being typed the youthful actor is looking for a Broadway lay. He also is cutting a record album. He sings and plays piano like an old pro. "Gotta keep busy," he grinned. "I want to touch all the bases—and then see what happens the next time I go to a premiere!"

PILOT RESCUED
Hahn, Germany (UP)—Airman on takeoff. Brooks ran to the burning plane and pulled the slightly injured pilot to safety.

Americans Will Buy Twice As Many Foreign Autos This Year

By JIM KLICKENKEMPER
DETROIT (UP)—Americans this year will buy twice as many foreign cars as they did last year—the little midgets that scoot around the suburbs and run from 30 to 60 miles on a gallon of gas.

Auto makers concede it is one of the most significant trends in the industry, but there is considerable disagreement whether American manufacturers should enter the field themselves.

Sales of small European cars in

1957 will total something like 180,000. It is interesting to note that is about the same figure the new Edsel will be shooting for its first year.

Hundreds of dealers who have American car franchises now are handling foreign car lines.

Foreign Names Now Familiar

Names that were unknown a few years ago are becoming familiar—Volkswagen, Renault, Anglia, MG, Metropolitan, Austin, Healy, Jaguar, Simca, Hillman Minx Mercedes-Benz, Triumph, Morris

Minor, Porsche, Volvo, Opel, Vauxhall, Citroen.

The big questions for auto executives are "why" and "what". Why are people buying them and what should American firms do about it.

One dealer who has talked about the "why" is Preston M. Marble, head of Sports Car, Inc., in Denver. Marble points out that the foreign cars must be broken down distinctly into the precision built (and not inexpensive) sports car and the economy car.

Imports Are Cheaper

Marble can sell an economy foreign car in Denver for \$1,800. That is \$400-500 under the very cheapest American model. The sports car buyer, on the other hand, is seeking styling and exclusiveness, and it is this "fadist" approach which perturbs American companies.

But economy is not a fad. It is what has led General Motors to start importing the Opel and a d Pauxhall from Germany and England. Ford brought in the Anglia from England and is reported bringing in the Taunus next year from Germany.

Chrysler Surveys Europe

Chrysler President L. L. Colbert has said his company also is studying a marketing tie-up with a European manufacturer.

Studebaker-Packard stripped down its Champion, used an economy six-cylinder engine and got the Scotsman, its best seller in several years.

George Romney, president of American Motors, decided in 1953 that the small car trend was underway and pointed his newly merged firm in that direction. AMC made Ramblers, now its biggest seller, and imports the small Metropolitan from England.

Science Finds Similarity Between People, Codfish

By DELOS SMITH
NEW YORK (UP)—Science has found a similarity between people and codfish which is no coincidence. Rather, it is a further indication that somewhere way, way back people and codfish have a common ancestor.

The similarity is in how codfish react when they get out of water and how people react when they dive into water. They act almost identically to preserve their very lives in a life-threatening situation. The facts as to codfish are newly discovered, by three Norwegian scientists.

Blood Closes Off

When the codfish is taken from the water he is threatened with oxygen starvation, just as people are when they submerge themselves under water. The codfish reacts by instantly reducing his need for oxygen. His blood no longer flows through his muscles—they're closed off from the circulation.

Down goes his heart rate, to half or less of what it is in the water. Since when he is out of water he is thrashing around and exercising his muscles like mad, it seems hardly possible. But it is possible because muscles are capable of acting for short periods without the free oxygen they obtain from the circulating blood.

Muscles Need "Fuel"

The Norwegians found that the "fuel" for muscular activity accumulated in the muscles the instant the codfish left the water. Its presence was indicated by an increase of lactic acid in the muscles and a decrease of it in the blood. When the fish were put back into water to recover, the blood was flooded with lactic acid, indicating that the muscles were no longer being by-passed.

H. Leivestad, H. Andersen, and P. F. Scholander, of the University of Oslo, in reporting their results to the American Association for the Advancement of Science, pointed out that when people dive

into water, their heart rates diminish greatly and that is true even while they are "swimming vigorously." So a cut-off of muscles from blood circulation is indicated.

Heart Rate Decreases

It has been proved in other diving mammals, for instance, the seal, and in diving birds. The scientists could only conclude their codfish "very probably" have "the same sort of protective mechanisms." They thought the decreased heart rate resulted from the restriction of surface blood flow. In at least some diving mammals the arterial blood pressure doesn't fall with decreased heart rate which suggests that normal blood flow is maintained in the organs not capable of functioning without free oxygen.

There was one curious sidelight. As in seals, a decreased heart rate could be brought about in codfish "simply by frightening the animals" without taking them from the water. This the scientists called "a diving reflex" which, they commented, "might seem to be an excellent idea for a flying fish but how it could ever benefit a codfish is an evolutionary puzzle."

Anthrax Hits 1,000 Head Of Livestock

OKLAHOMA CITY (UP)—Oklahoma cattlemen in three northern counties lost about 1,000 head of livestock during the recent anthrax epidemic, the state agriculture department reported.

Dr. M. N. Riemenschneider, state veterinarian, made the announcement as the general quarantine which had been applied to halt spread of the disease was lifted.

During the crisis, about 200,000 head of livestock were vaccinated. Deaths averaged only one head of cattle per ranch on 66 percent of the management units covered by the vaccination program, Riemenschneider said.

The quarantine lifting will enable about 1,800 farm and ranch managers to resume normal operations. About 2,000 to 2,500 premises must be cleared individually, the veterinarian said.

"The bulk of these premises will be cleared in about two weeks," he said.

Some farms in the area will be under quarantine for several weeks, however, or until cattle on them have been vaccinated for anthrax for at least six weeks or where a quarantine was imposed during the last six weeks because of deaths in herds not vaccinated.

Remove From Restrictions

Riemenschneider said farms still under quarantine will be removed from restrictions one at a time as records of vaccinations and deaths permit.

Riemenschneider said the quarantine in six Kansas counties has been eased, with restrictions still applying to individual farms.

Cattle from the Kansas areas could not be brought into Oklahoma quarantine area unless provided with state or federal veterinarian certificates.

Covered by the quarantine in Oklahoma was all of Craig county, the northwest part of Ottawa county and six sections of Mayes county.

into water, their heart rates diminish greatly and that is true even while they are "swimming vigorously." So a cut-off of muscles from blood circulation is indicated.

Heart Rate Decreases

It has been proved in other diving mammals, for instance, the seal, and in diving birds. The scientists could only conclude their codfish "very probably" have "the same sort of protective mechanisms." They thought the decreased heart rate resulted from the restriction of surface blood flow. In at least some diving mammals the arterial blood pressure doesn't fall with decreased heart rate which suggests that normal blood flow is maintained in the organs not capable of functioning without free oxygen.

There was one curious sidelight. As in seals, a decreased heart rate could be brought about in codfish "simply by frightening the animals" without taking them from the water. This the scientists called "a diving reflex" which, they commented, "might seem to be an excellent idea for a flying fish but how it could ever benefit a codfish is an evolutionary puzzle."

OKLAHOMA CITY (UP)—Gov. Goodwin J. Knight, in apparent reference to Sen. William F. Knowland, who is expected to announce his candidacy for California governor:

"No man with a reputation for belligerence, either in international affairs or domestic affairs, no matter how high principled he may be, is a safe man for executive office in the federal government today—and he is equally unsafe to be trusted with the governorship of California."

A parsec is a unit of astronomical measurement equal to approximately 19 trillion miles.

CHEAP AT TWICE THE COST—You can move your home across the Mississippi River for just 60 cents, provided you go by way of the Eads Bridge, and, if it will fit through the toll gate. The Crown Construction Co. of St. Louis found this out when they moved this home to East St. Louis, Ill. Workmen removed part of the eaves of the house and then they were held up by the toll collectors. The collectors checked their books, but couldn't find a specific charge for a house in transit. So they charged them four times the auto cost and sent them on their way.

Pea Soup Ham Balls Make Soup Spree Ideal For Youngster's Luncheon Treat

Split Pea Soup with Ham Balls
Luncheon Meat Sandwiches
Fruit Salad
(Bananas and Prunes)
Milk

Soup is an egicurean dish that has a unique history. In yesterday, homemakers prided themselves in the art of soup making. The distinctive cast iron stock pot on every coal or wood stove held a definite place in the home. But in the light of constant progress, the old soup pot has given away to canned, dried and frozen soups.

The principal roles of soups are actually two... first, served as appetizers; secondly, as the main entree. In either case, they can provide important nutrients.

Types of soups are numerous; combinations go on ad infinitum according to taste and imagination. They range from the thin consommé to the jellied consommé, cream soups, heavy chowders or bisques. There are also the famed vegetable and fruit soups.

However in this day, homemakers depend almost solely on the commercial canned or frozen soups.

They can be heated and served in minutes and lend themselves to some mighty good eating for lunches and suppers.

Sometimes, it isn't the soup alone but the added companions, or soup accompaniments which perk up the serving.

For example, what would onion soup be without croutons, and what would pea soup be without some type of ham, or ham bits?

Soup lends itself well to so many other accompaniments... why, soup is the perfect way to spark up the children's lunch.

Pea soup has a wonderful flavor and on crisp cold days puts warmth under your skin.

Talking about these extra companions, here is a super idea for putting meat into soups.

NEAT COMPANIONS
Ham balls in pea soup! It's so easy to get expert results. Here's how.

To a can of pea soup, add ham balls made from ground cooked ham. This is called leftover magic. The ground ham can easily be molded into bite-size balls and additional flavor add a bit of horseradish or mustard to the ham balls. Heat the ham balls right in the soup. Sliced frankfurters, bits of luncheon meat, crisp chopped bacon... these all add flavor appeal as well as texture and protein to the soups.

Soup, open-faced luncheon meat sandwiches, fruit salad and milk give your youngster a noontime meal that'll really keep him going.

HANDSOME HAM LEFTOVERS
If your problem is what to do with leftovers, worry no more. In the case of leftover ham here are a few suggestions. Cubed ham may be mixed with a cheese sauce and served over fluffy white rice. If you have a few slices of ham, simply broil them, top with a poached egg and Hollandaise sauce and serve.

HOW TO COOK STEAK
Broil thick steaks and chops at least 3 inches from the heat; thinner steaks and chops 2 inches from the heat.

ASPARAGUS TREAT
Deep-fat fried foods made with lard always taste just right, and are economical, too! Try these deep-fat-fried asparagus spears... they're a delightful treat for fall meals. Drain 1 can (1 pound) of white asparagus tips. Season with salt and pepper. Beat 1 egg slightly and combine with the asparagus liquid. Dip the spears in the egg and then in fine dry cracker crumbs. Chill. Fry in deep hot lard at 365 degrees F. until golden brown. Serve immediately.

September Is 'Better Breakfast Month,' Designed To Stress Meal's Importance

September is better breakfast month. Too many people skip this most important meal — perhaps because of lack of time — or the feeling that a breakfast is unimportant — some are convinced it's fattening — and to many it lacks appeal. Let's analyze these "excuses" and bring out some important breakfast facts.

1. LACK OF TIME?
It takes only about 10-15 minutes to prepare a basic cereal breakfast, such as this one, and only a few minutes to eat it.

2. BREAKFAST IS UNIMPORTANT?
Fruit or Fruit Juice
Ready-To-Eat Cereal
Milk or Cream
Whole Wheat, Rye or Enriched White Toast
Butter or Fortified Margarine
Milk or other Beverage

A good breakfast is far better for you than that extra forty winks.

3. BREAKFAST FATTENING?
It has been proved that foods eaten in the morning are more apt to be converted into energy than foods eaten later in the day. Breakfast skippers are often prone to mid-morning snacking, at high cost in calories, and are likely to eat more heartily than is desirable at noon and evening meals. Breakfast adds pep... not pounds!

4. LACKS APPEAL?
Breakfast can be the "fun" meal of the day. It could be the time of day when the family plans and discusses the activities of the day. Appetizing breakfasts are easy to prepare. By varying the ready-to-eat cereals — using tasty fruit toppings on the cereals — and surprises in the way of interesting breakfast breads, you can assure your family a speedy start for a delightful day. Here are two breakfast menus with special recipes to start you thinking:

Corn Flakes (Topped with Frozen Strawberries)
Bran Muffins
Milk or Coffee

Shredded Wheat (Pineapple Slice Topping)
Honey Crisp Coffee Cake
Milk or Coffee

BRAN MUFFINS
1 cup whole bran cereal
1 egg
1/2 cup soft shortening
1 cup sifted flour
2 1/2 teaspoons baking powder

HONEY CRISP COFFEE CAKE
1 1/2 cups sifted flour
2 teaspoons baking powder
1 teaspoon salt
1/4 cup shortening
1-3 cup sugar
1 egg
2-3 cup milk

Yield: 9 muffins, 2 1/2 inches in diameter.
Note: If buttermilk or sour milk is used in place of sweet milk, reduce baking powder to 1 teaspoon and add 1/4 teaspoon baking soda.

Sift together flour, baking powder and salt. Blend shortening and sugar; add egg and beat well. Stir in sifted dry ingredients alternately with milk, being careful not to overmix. Spread in greased 9 x 9 inch pan. Crush sugar coated corn flakes slightly. Blend butter and honey; stir in shredded coconut, pineapple and sugar coated corn flakes. Spread over batter. Bake in moderately hot oven (400 degrees F.) about 35 minutes. Yield: 9 3-inch squares.

SHRIMP CURRY HAWAIIAN—Shrimp curry Hawaiian with suitable accompaniments of chutney, chopped hard cooked egg, almonds and raisins is an interesting and delicious change of pace menu idea. The curry sauce for the shrimp is made with double rich evaporated milk to insure pleasing smoothness and richness.

Exotic Hawaiian Islands Brought Right Into Kitchen With Shrimp Curry Dish

Just the name of shrimp curry Hawaiian has a nice exotic lilt to it and the dish itself is every bit as enticing as its name.

With October being rice festival time it's only fitting that this delightful curry be teamed with rice — either in a rice ring or served over hot fluffy rice.

One of the intriguing flavors in this curry that you might not be able to put your finger on at first is that of candied ginger. It really is most tantalizing in combination with the shrimp and curry sauce.

Another interesting ingredient is coconut milk. No need to run out for a coconut — this milk is prepared very simply with flaked coconut and evaporated milk.

SHRIMP CURRY HAWAIIAN
1 2-3 cups evaporated milk (1 tall can)
1 can flaked coconut (4 oz.)
2 teaspoons minced candied ginger
2 cans veined shrimp (4 1/2 oz. each)
1/4 cup butter
1 tablespoon minced onion
1 tablespoon flour
1/2 teaspoon salt
1/4 teaspoon monosodium glutamate
1 teaspoon curry powder
1 tablespoon lemon juice

Heat evaporated milk in medium size saucepan almost to boiling. Remove from heat, add coconut, mix and let stand half an hour. Strain milk through a clean cloth twisting to remove all milk from coconut. Save milk for use in sauce. Discard coconut for it will be dry and all its flavor extracted.

Spinach Glamorized With Cheese Sauce

A simple sauce can do wonders in transforming a vegetable from "ordinary" to "special." For instance spinach becomes special with the addition of an ever so simple cheese sauce and a sprinkling of crumbled bacon over all.

The sauce is done quick as a wink by combining shredded process cheese and evaporated milk in a saucepan and heating until the cheese is melted. Evaporated milk is so rich and smooth blending that it produces a really marvelous sauce.

This is a good bet when you want to add a bit of extra imagination to your menu. It's a nice change with little extra work involved.

SPINACH WITH BACON AND CHEESE SAUCE
4 slices bacon
1 package frozen chopped spinach (12 ounces)
1 tablespoon lemon juice
Cheese Sauce

Fry bacon over low heat until crisp. Drain on paper toweling. Cook spinach according to package directions and drain well. Stir in lemon juice. Arrange in individual serving dishes and pour on Cheese Sauce. Crumble bacon, sprinkle over top. Serve immediately. Makes 4 servings.

CHEESE SAUCE
2-3 cup evaporated milk
1 cup shredded process cheese

Place milk in a small saucepan and heat, but do not boil. Add cheese and cook over low heat, stirring until melted. Serve hot over spinach.

Soak candied ginger in hot water to remove sugar, then pat dry with paper towel. Then mince. Drain shrimp and rinse with cold water. Melt butter in medium size saucepan over low heat. Add onion, and cook gently until onion is transparent. Blend in flour, salt, monosodium glutamate, curry powder and minced ginger. Stir in milk. Cook over low heat, stirring constantly until thickened. Add shrimp and heat just until shrimp are heated through. Stir in lemon juice just before serving. Serve over hot cooked rice. Makes 4 servings.

Nice Things Added To Baked Potatoes

It's surprising what nice things are happening to baked potatoes these days. The latest improvement to be made in one of America's favorite foods is the addition of shrimp and wine to the mashed and seasoned pulp.

The savory result, served as a luncheon entree or a buffet supper dish, focuses attention on two foods that brighten meals at any season of the year, but which merit special attention during the autumn. The reason, special "weeks" for each. First comes National Fish Week, September 18-25, accompanied by the Shrimp Fiesta, and followed shortly, as the grape harvest dictates, by National Wine Week, October 12-19.

The wines of California combine deliciously with fish or shellfish in many different recipes. All are enhanced when served with glasses of well chilled white table wine such as Sauterne, Chablis or Rhine Wine. Shrimp Stuffed Baked Potatoes are no exception.

SHRIMP STUFFED BAKED POTATOES
(Makes 6 servings)
6 medium-large baking potatoes
1/4 cup cream
3 tablespoons butter
1 teaspoon instant minced onion or, 1 tablespoon finely chopped raw onion
1/4 cup California Sauterne wine
1/4 teaspoon salt
1/2 cup grated American or Swiss cheese

1 tablespoon chopped pimiento
1 cup cooked shrimp

Scrub potatoes; oil skins and bake in a hot oven (400 degrees F.) until tender, about 1/2 hour. Cool enough so you can handle; then cut thin lengthwise slice off top of each potato. Scoop out potato; mash or press through sieve until free of lumps. Add cream, butter, onion, wine, and salt. If potatoes are dry, add a little more cream and wine. Beat until well blended. Stir in cheese, pimiento and shrimp. Re-fill shells. Sprinkle top of each stuffed potato with a little additional cheese, if desired. Reheat in hot oven.

Crab may replace the shrimp with equally delicious results.

HARVEST CASSEROLE
Sausage casseroles are usually a welcomed fall dinner entree. How does this combination sound? Combine bulk pork sausage with layers of sweet potato and tart apple slices. Bulk pork sausage also goes well with a lima bean casserole or scalloped potato casserole.

Walter Rogers Says: Foreign Policy Capabilities Of The United States

The foreign policy of this country is fast becoming a Number 1 issue. Until recent years there was no great need for this country to worry too much about foreign policy matters. Of course, there has always been a need in the world picture for all countries to be concerned with foreign problems and the solutions thereof. This has been a primary matter in all European countries for many hundreds of years.

Needless to say, those countries have become most skillful artisans in that particular political area. The United States being one of the youngest countries in the world, as well as the richest, and having progressed much faster than any other country in world history, occupied a rather enviable position insofar as foreign affairs were concerned. We not only had the resources and raw materials to make us self-sustaining, we also had the know-how to develop them.

This is all well and good, but as civilization continues to progress, new discoveries and new developments gradually reduce the size of the world. Air transportation has moved forward beyond the most fantastic dreams of most people. The development of the intercontinental missile has everyone frightened. These and many other developments increase the great need for international understanding and for peoples of different nationalities to be able to live together and get along together in the world. All of this means that this country, as the leader in world progress, must assume its responsibility to its own citizens in being adequately capable in world affairs.

In order to meet this responsibility it will be necessary to give much attention to our diplomatic service. Many feel that we presently have a very inadequate and ill-equipped diplomatic service. Some feel this is due to the appointment of people to ambassadorial posts simply because they make substantial contributions to political parties. To say that such a practice has not existed is to refuse to acknowledge the truth.

The truth is that many men have been appointed to ambassadorial posts in both Democratic and Republican Administrations who were not equipped by education or temperament to serve the best interests of this country. This practice is well known to foreign countries, and you may be assured they have taken advantage of these circumstances when dealing with this government.

Some people feel that our diplomatic service is not of the caliber it should be due to the fact that it is extremely difficult for young people to get into that service. There has been no concerted effort on the part of our government to train personnel for this service. It is most difficult to obtain information from any source, including the State Department, as to how one may enter such service.

People in government have complained to me that these foreign service posts are filled many times by the relatives and personal friends of those in the service. Complaints have reached me that many, who are supposed to be representing this country in foreign countries, have been in those countries so long that they inadvertently represent the interest of the country in which they are stationed, rather than the interests of this country. In any event, we do know there is a great deal of room for improvement and that something should be done about it.

It was with this thought in mind that ten members of the House of Representatives, including myself, from states all over the nation, introduced a Joint Resolution to study the problem and to report to the Congress on ways and means of expanding and modernizing the Foreign Service of the United States. We shall continue our efforts until some good results are accomplished. What is needed is a massive transfusion of "main street of the smaller towns of the United States" into the arteries of our Foreign Service. Through this medium better and more complete understanding between the peoples can be accomplished.

WALTER ROGERS
Member of Congress
18th District of Texas

GUN GIVEAWAY
CHICAGO (UP) — Thomas Levasseur, charged with armed robbery, discovered too late there is no rest for the wicked. Levasseur fell asleep in the lobby of the Palmer House Hotel only to be awakened by a policeman who saw a gun protruding from his pocket.

CONGO COMMUNICATIONS—In the dense jungle of the Belgian Congo, the tom-tom is still the quickest means of communication. Above, a "wireless" operator sends a message through the jungle on a hollowed-out wood-block. The two "lips" in the upper part give the instrument its "tune." It takes an experienced drummer to beat out a "readable" message on the tom-tom.

CARNEGIE HALL'S MOVE—The answer to that oft-asked question, "Whose move?" turns out to be Carnegie Hall's move. And this is an artist's sketch of the checkerboard skyscraper that will replace Carnegie Hall, which will be demolished. The colorful 44-story vermilion porcelain structure will become a part of the Manhattan skyline in 1959.

HIGH FLIGHT—Words in a poem—"High Flight"—by a World War II pilot best describe this beautiful scene caused by a prismatic effect of the sun on jet trainers' plastic canopies over Hulman Field, Terre Haute, Ind. These F-86 Sabrejets truly have "slipped the surly bonds of earth and danced the skies on laughter-silvered wings."

Pat Boone Will Carry Heavy Television Load This Fall

By WILLIAM EWALD
United Press Staff Correspondent
NEW YORK (UP) — Pat Boone, a singer who is hotter than Elvis Presley's guitar, will carry the heaviest load in TV this fall—one half hour on ABC and 18 hours at Columbia University.

Boone (his legit first name is Eugene), 23, hopes to complete his schooling this January with a B.S. in speech. What's more, if his mental sugars hold out, he'll wind up with an "A" average and a Phi Beta Kappa trinket.

The owner of six gold records, Boone, a Jacksonville, Fla., boy by way of Nashville, isn't fretting about the additional load he'll have to tote on TV. "I'm not going to have a high-pressure show," he said as he munched on a peach. "We'll probably have one guest each week and we'll just build a real relaxed show around the two of us."

Guests A Problem
However, landing guests for TV show is a major problem, Pat confessed. One way out is "swaps" — so far Boone has arranged to appear on the shows of Dinah Shore, Bob Hope and Gale Storm in return for their appearances on his opus.

"Actually, there are only a handful of really big names anyway who both add to a show and attract a wide audience," said Boone. "You can almost count

them on one hand — Elvis Presley, Harry Belafonte, Frank Sinatra and Perry Como.

"But you've got to pay fantastic prices to get them. And I just can't afford that sort of thing week after week. In fact, no one can."

"As for non-performing stars, well, I like watching them on other shows like Steve Allen or Perry Como. But I think you have to admit that most of the time stars don't add much to a show."

No Showcase
"Anyway, I've got a feeling that people will be tuning into the 'Pat Boone Show' because they want to see Pat Boone and not because they want to see Clark Gable. I don't mean to sound conceited by that — it's just that I don't think your own show should be a showcase for other people."

Boone, who has confined his TV activity to guest shots since leaving the Arthur Godfrey stable, isn't worried about over-exposure this fall.

"There are two viewpoints about exposure — Bing Crosby's and Frank Sinatra's," said Boone. "Crosby wrote me a letter

New Jersey Candidate Pulls No Double Talk

By LYLE C. WILSON
United Press Staff Correspondent
WASHINGTON (UP) — Republican Malcolm Forbes is campaigning for the governorship of New Jersey without any double talk to the leaders of organized labor in that heavily industrialized state.

Forbes appeared last month before the state council of the CIO

in Newark and told the assembled union officials: "I am not your man."

He also told them he rated as a phoney their invitation to him to appear before them preliminary to the CIO's public endorsement of a gubernatorial candidate. He said the choice already had been made.

Called "Window Dressing"
"The invitation to me to be present," Forbes said, "is merely intended as a bit of window dressing to imply that the decision of some of your leaders was reached with an open mind after due deliberation."

However that may be, the CIO heard Forbes and thereupon formally endorsed his Democratic opponent, Gov. Robert B. Meyner. Forbes says he nevertheless expects a lot of labor votes in November.

His blunt challenge to New Jersey's labor elite was in the tradition of the Robert A. Taft who based his last election campaign

on related political theories: —That stay-at-home Republican or semi-conservative voters could end would win elections if they had someone for whom to vote if they did go to the polls.

—That labor leaders could not deliver the labor vote.

—That no votes could be had by trimming and compromising principles into bait for independents already committed to the other fellow.

Strategy Brings Victory
From that general strategic position, Taft mowed down the opposition in Ohio's 1950 senatorial election.

Ohio and New Jersey are about equally industrial and Republican states. New Jersey returns next month may suggest to Republicans elsewhere a new approach to the perplexing problem of how to cope with the coalition of the leaders of organized labor and of the Democratic Party.

ALL THAT WORK!!
MIAMI (UP) — Police felt almost sorry for the safecracker who expertly peeled open an auto-firm's safe — a job that took at least an hour. Not only was the safe empty, it was unlocked in the first place.

A BAD START
SINGAPORE (UP) — Tan Kim Honk, 16, picked the wrong person Monday, literally. The fledgling pickpocket was arrested by one of his first intended victims — Constable Osman bin Ibrahim.

POTENTIAL HOT POTATO
DALLAS (UP) — The gift is in the giving, even when the bait on the attached card is spelled wrong. Gov. Price Daniel's name was misspelled on a card attached to a box of potatoes sent Monday by Idaho Gov. Robert Smylie.

STAMFORD, Conn. (UP) — Thieves who robbed a house under construction weren't satisfied with taking everything but the kitchen sink. They also took that.

PIN-UP PARADE—Going all out during Youth Day, one of the events in the Sesqui-Centennial celebration in Houlton, Maine, these teen-age, pin-up boys parade, dressed only in briefs and hats. They're proving that the town is still growing on its 150th anniversary.

Pays To Advertise; Even For Butterflies

By DELOS SMITH
United Press Science Editor
NEW YORK (UP) — Careful scientific experimentation has shown how very well advertising pays off for butterflies who have something to advertise—and also for butterflies who don't but are clever enough to advertise anyway.

What the monarch butterfly has to advertise is that his flesh doesn't taste good to birds, for an unknown reason since no scientist has yet interviewed a bird on the whys of his taste preferences. But the viceroy butterfly couldn't advertise that properly—he does taste good.

Yale Zoologist Experiments
Jane Van Zandt Brower, Yale University zoologist, gave 339 monarch butterflies to four Florida scrub jay birds, a kind of bird which is an avid butterfly eater and presumably a connoisseur as regards butterfly flesh. Of the 339, not one was eaten.

She gave the same birds 60 viceroy butterflies and not one of them was eaten, either. The monarch advertises with a coloration pattern so very conspicuous that even people know a monarch when they see one. The viceroy advertises by mimicking the monarch pattern to a faraway well.

Mrs. Brower's experiments were designed to give statistical proof to the presumed values of mimicry in the butterfly world, which is a well established phenomenon. But her's been a lot of omenon. But there's been a lot of guess work in explaining it and scientists naturally prefer facts over guesses.

She proved that scrub jay birds, and probably other butterfly eaters, have to learn by experience that monarchs don't taste good—that it isn't an inherited dislike. In preliminary trials with the four caged birds, she gave them a non-advertising butterfly each time she gave them a monarch. The former were inevitably eaten and the monarchs were pecked and tasted and then left alone.

"Controls" Prefer Viceroys
Four other scrub jays were in other cages, her "controls." They were never given an experience with monarchs, but were given the phony monarchs, the viceroys, and non-advertising butterflies, in all these "control" birds got 100 viceroys—and 60 of them were eaten.

Mrs. Brower also experimented with another advertising, distasteful (to birds) butterfly, battus philenor, and its tasteful mimics,

the papilio butterflies, but got similar results with them. She pointed out that her experiments were actually much more searching than any experiences scrub jays and monarch and other butterflies could have with one another under natural conditions.

The birds were in cages. The butterflies were put on the cage floors and the birds were given two minutes to do something or not do anything. Thus the birds were "afforded a closer and longer scrutiny than would usually be possible under natural conditions, where an attacking bird might get only a glimpse of a flying butterfly," she said.

WASHINGTON — The Democratic Advisory Council, in charging that President Eisenhower failed in his duty to exercise decisive leadership in the Arkansas school dispute: "President Eisenhower has lost an opportunity to exert leadership in behalf of law and order. He has failed to use the prestige and power of his office to rally the moral force of the country against the defiance of law."

MILWAUKEE (UP) — Pride in the home town is first—even when it comes to a virus. Mayor Frank Zeidler, in bed with what he diagnosed as influenza, said "I don't think it's Asian — it may be the other under natural conditions."

Quotes In The News

CHICAGO—Teamsters union official Thomas J. Haggerty, in claiming he is coming up fast in his race with James Hoffa for the huge Teamsters' presidency: "The way this thing is gaining momentum I feel more and more confident of winning."

"There is a distinction between self-government and independence... it is not the case that we have told (the United States) that independence is the right solution."

BONN—West German Chancellor Konrad Adenauer, in refusing to make any predictions before winning his landslide victory: "That would be too risky."

LONDON—British Foreign Secretary Selwyn Lloyd, denying that Britain plans to give full independence to its restive Mediterranean colony of Cyprus:

DAMASCUS—Syrian army Chief of Staff Afif Bizar, on whether

Syria would allow Russia to build a military base in Syria:

"Why should we? The United States kept asking us for a base every time we asked for arms, and we refused. The Soviet Union never made such a request."

LITTLE ROCK — Gov. Orval Faubus, when asked under what circumstances will National Guard troops be removed from around Central High School:

"Under a condition of tranquility and general acceptance by the people which would then lessen the possibility of disorder or violence."

Fabric Blends Are Prettier Than Ever

By GAILE DUGAS
NEA Women's Editor
NEW YORK (NEA) — Fabric blends get better every season. And, as we get used to them, we know that they won't perform miracles but do possess many advantages in both shape retention and wear.

This autumn, fashions cut from the fabric blends are prettier than ever. They belong in every wardrobe because they travel without wrinkling (if they're well packed) and at a moment's notice. Their pleats stay in. The jersey blend has a soft "hand" which means it's pleasant to touch and wear.

We show here the pleated skirt and the narrow line, both in a blend of orlon and wool. The dress with pleated skirt (left) is the kind of dress American women love because it goes so many places looking well. Tiny collar will take equally well to jewels or a silk scarf.

The sheath (right) is flower-printed, has Empire waistline with flat bow trim. Bateau neckline dips to a V in the back.

Women's Society Outlines Program

(Special to The News)
LEFORS — The Women's Society of Christian Service began its new year with a luncheon in the Fellowship Hall with twelve members present. A brief outline of the year's study, "Christ, the Church and Race," was given.

A new time has been set by the members of the W.S.C.S. It will meet at 1:30 p.m. each Thursday, instead of the former hour of 9 a.m.

Officers, who will serve through Mmes. W. C. Breining, president; Bill Teel, vice president; James E. Jinks, recording secretary; W. D. McBee, treasurer; Jerry Jacobs, secretary of mission education and service; Wesley Daniel, spiritual life secretary; L. R. Spence, promotion secretary; B. D. Vaughn, student work secretary; Ray Boyd, youth work secretary; Bill Watson, children's work secretary; W. T. Cole, supply secretary; Dan Johnson, social relations secretary; L. W. Upham, status of women secretary.

Mrs. James Angel Feted At Shower

(Special to The News)
LEFORS — Mrs. James Angel, the former Mrs. Imogene Steele, was honored with a post-nuptial bridal shower Thursday night in the Colfax Community Hall.

Hostesses for the occasion were Mmes. V. A. Cates, D. D. Lewis, Horace Blair, E. W. Ammons, J. L. Brumlow, A. C. Cates and Miss Carolyn Harvey.

A color scheme of blue and white was used by the hostesses throughout receiving room with the serving table covered in a blue cloth centered with an arrangement of cut flowers flanked on either side with blue candles in crystal holders. Table appointments were crystal and silver, and white napkins.

The blue and white decorated cake was served by Mrs. A. C. Cates with Mrs. V. A. Cates serving the punch.

The gifts were displayed on a table at which were seated the honoree with her mother, Mrs. R. L. Steele, and Mrs. J. W. Angel, mother of the bridegroom who assisted her in opening the gifts.

Guests were Mmes. Alvin Martin, Arnold Bogle and Ronny, Jay Chisum and Virginia, Joe Martin and Ricky Mack Harding, Boyd Beck, R. L. Steele, Alfred Cates, Vickie and Belinda; J. W. Angel, Charlotte Roason and Misses Ruby Denton, Carolyn Bogle, Laverne Steele, Marlene Cates, Barbara Blair, Anita Harvey, and Diane Boyle.

As the season of heat and humidity closes, mother prepares to store summer clothing. All garments should be laundered and dried thoroughly before being put away. Garments with perspiration on them, especially, need a dense solution of soap or detergent suds to get them clean.

April Bride Feted At Bride's Party

(Special to The News)
LEFORS — Mrs. John Jernigan, the former Miss Marietta Auclair of Amherst, Mass., was honored with a bridal shower recently in the civic center. The young couple was wed on April 15, in Amherst where the bridegroom was serving in the US Army. They have recently returned to make Lefors their home.

Hostesses for the occasion were Mmes. J. A. Davis, Bud Cumberland, Charles Earhart, Jake Leggett, W. B. Minter, Spencer Presley, Hugh Terry, J. V. Guthrie, and Marvin Moxon.

The honoree was seated at a table displaying the gifts, which she opened, assisted by Mrs. J. C. Jernigan, mother of the bridegroom and Mrs. Leggett.

Refreshments of coffee and sweet rolls were served buffet style.

Those attending and sending gifts were Mmes. Burl Davis, A. E. Dunham, F. M. Harkcom, L. W. Cates, L. B. Coleman, Bill Cody, J. C. Jernigan, H. L. Braly, Robert Howard, Sylvia Henderson and June, Charles Lisenbee, C. E. Fenno, E. G. Fenno, Henry Dunn, J. N. McPherson, Clarence Reeves, J. R. Sparkman, David Robinson, T. L. Adams, Charley Jordan, and Luther Berry.

First cup of tea sold publicly was served in Garroway's famed London coffee shop in 1857.

Study Of Japanese Conducted By Guild

Miss Minnie Allen was hostess when twelve members attended the second meeting of the year of the Wesleyan Service Guild in the church parlor on Sunday afternoon.

During the business session, conducted by the president, Miss Allen, plans were made for entertaining members of the District Wesleyan Service Guild. The local Guild will be hostess at a luncheon meeting on Sept. 22 in the Fellowship Hall.

Mrs. Malcom Denson gave the devotional, using scripture II Timothy 2:15 "Do your best to present yourself to God as one approved, a workman that has no need to be ashamed, rightly handling the word of truth."

The study leader, Miss Inez Clubb, gave the first lesson on study, "Cross and Crisis in Japan." She stressed the problem in Japan as being over population; the average yearly increase being 1,900,000. Sources of raw materials were discussed, as well as the ban and extent of commercial trading with other countries. Kinds and shortages of food and trends in clothing was brought out. Miss Clubb gave an informative discussion on the religions of Japan. She pointed out that the two main religions are Shintoism and Buddhism, both coming originally from Hinduism and were national and state religions. Shintoism means "The Way of the Gods." The principles of these religious beliefs were explained. As-

signedments were then made for additional sessions of the study.

Those attending, not already mentioned, were Mmes. J. A. Knox, Leo Harrah, Sherman White, J. M. Turner, Roy Kilgore, M. L. Carter, Ray Wells; Misses Lillian Mullinax, and Alma Wilson. The next regular meeting will be Sept. 30.

Durable, Colorful, Washable Screens Gaining Popularity As Versatile Piece

By KAY SHERWOOD
NEA Staff Writer

The versatility of the folding screen has entrenched it as a household accessory that survives years of use and lends itself to many changes in decor. As a decorative shield blocking the view of a kitchen or a study corner, or marking off a draftless nook for baby, its popularity is still going strong, especially among young apartment homemakers.

A good screen can be dressed up many times, in many ways.

One young decorator told me she'd revamped her tall, three-panel screen five times.

The last time she did it, she used vinyl fabric, a newcomer to screen coverings. It's available now in stores and mail order houses, comes in wide widths (34 inches, usually) and is firm-bodied enough for an amateur to cut and paste.

Clear, sparkling colors suggest contemporary treatments. And these vinyl fabrics have proved their practicality in soot-bound city apartments and places where kitchen fumes discolor other materials. They are durable, colorful and washable.

For her screen, my friend used three colors, one for each panel—pumpkin, raspberry and mustard. Both sides of each panel were covered. The scraps were turned into small suction coverings for foam rubber bench-table pads.

For the screen, you need a fabric-

ric-backed vinyl because paste won't adhere to unsupported vinyl sheeting.

Remove hinges from the screen and cover one panel at a time. Pasting should be done on a floor or work table, not vertically.

Cut vinyl fabric for panels with razor blade in holder. Allow about three inches extra in both dimensions. This will cover edges and also allow for slight shrinkage when paste is applied.

Use paste or adhesive recommended by the manufacturer of the fabric. If no particular adhesive is specified, the fabric-backed vinyl may be applied with a pure wheat paste.

Apply adhesive generously to back of cut fabric, leaving no unfilled areas. Allow it to set a few minutes.

Then apply vinyl fabric to screen surface. Work out air pockets and wrinkles thoroughly with stiff brush or broad knife, working a small area at a time to insure good adhesion. Bring vinyl around edges of panel.

Before adhesive is completely dry, use razor blade in holder to trim vinyl down center of panel edges and to cut out area where hinges will be replaced. Wash off the excess adhesive with sponge and clear water.

Repeat the process on the other side of the panel. When all panels are covered and dried, reset the things.

As a decorative finish, edges can be trimmed with metallic tape, brass-headed nails or both, before reassembling the screen.

AFTER-GAME DANCE—The Las Cresas Club will be entertained with a dance immediately following the Harvester-Arlington Heights football game on Friday night in the Episcopal Parish House. Recordings will furnish the music for dancing. Students from Fort Worth, attending the game, have been invited as special guests. High school students are cordially invited to attend. Displaying a colorful poster advertising the dance are, left to right, Misses Shirley Hankhouse, Carol Miller, and Nancy Bailey, Las Cresas Club members. (News Photo)

Fire Hazards, Flower Arrangements Are Varied Topics For Bell HD Club

The Bell Home Demonstration Club met recently in the home of Mrs. Joe Wheely, southwest of city.

Mrs. D. W. Swain gave the program topic, "Eliminating Fire Hazards in the Home." She said that fire prevention week is the oldest and most widely observed of all special weeks. "There are several causes of fire in farm dwellings; such as, electric faults, careless smoking, children playing with matches and gas explosions."

"Young children do not have judgment enough to manage alone. Therefore, they should not be left in the home unattended. They are completely helpless in case of fire or any other emergency."

"Residents should check the home frequently for possible fire dangers. Before winter, make certain your TV antenna is firmly attached to the mounting and is well-grounded. Never mount antenna on a chimney. That is one of the 'quickest ways to loosen the chimney; it may even pull it down,' Mrs. Swain stated.

Mrs. Carl Smith gave a program on flower arranging. Mrs. Smith said, "It takes practice to make a good flower arrangement. The needs are simple; a small sharp knife, flower holder, floral clay, sharp kitchen shears, and chicken wire." "You can use various shapes,

Makes Friends Manners

Unless you can get rid of flies and mosquitoes, don't plan to entertain guests out-of-doors.

They won't be comfortable if they are slapping at mosquitoes or trying to keep flies off food.

Towns In United States Bear Colorful, Legendary Names

By DOC QUIGG
United Press Staff Correspondent

NEW YORK (UP)—The parade of place names across America includes such terror and majesty as Jatteras, Monongahanna, Rappanock, Susquehanna, Chatta-oochee, Painted Desert, and Yosemite—but in the line of march there is humor and charm also.

Where else in the world can you find such town names as Slap Out, Ala., Bone Gap, Ill., Protection, Kan., Hambone, Calif., Cornucopia, Wis., Far Rockaway, N.Y., Jigger, La., and Chilly, Idaho?

Where else, for that matter, can you find people with such magnificent names as Quo Vadis Marie McGinnis, Naughtybird Kirksey, Eceehomo Thrapp, and Spengler Arlington Brough, of Filley, Neb.?

How Names Originate

When the poet wrote "Bury my name in Painted Post," he was speaking of a New York town named with us today we have Caleb Hammond, the big map and man, with some inside dope from his research department about how various town names got that way.

Take Esdelle, Wis., for instance. Hammond says this town near the Mississippi River is at the foot of an S-shaped valley, or dale, and hence the name — although how

The rather peculiar addition to spelling things backward shows as in Etah, Mo., Egnar, Colo., and Enola, Ark. Early settlers who found the Missouri spot a good stopping place allegedly gave it the reverse spelling of the German word "halte."

Names In Reverse

Egnar originally was "range," but there were so many other places of that name that the city fathers about-faced the spelling. As for Enola, a local legend is that an early-day heartick widower carved the word "alone" on a board and it later was read backward.

Tensed, Idaho, sounds as if it may have been founded on a nervous note. But no—the original name was De Smet.

A duplicate name in the state, the Post Office Department requested a change. The town fathers read with us today we have Caleb Hammond, the big map and man, with some inside dope from his research department about how various town names got that way.

Then, there are such grasp-at-it-all names as Chilly, Idaho, and Slap Out, Ala. A meeting to choose a name for the Idaho town of an S-shaped valley, or dale, and hence the name — although how

A similar meeting in Alabama was about to adjourn, "Slap out" of ideas, according to Hammond, when one member suggested they give up and name the town for the condition that prevailed at the naming session.

Pile of Bones

Bone Gap, Ill., was named for piles of bones found in an Indian tribal battleground, and Protection, Kan., got its name from a big bluff northwest of town which was used as a fort protecting against Indians.

Jigger, La., got its name when the postmaster submitted a 25-cent stamp to Washington and included the nickname of his five-year-old son—who was a tiny lad and thus was called a Jigger.

CAPE CANAVERAL, Fla. — A United Press cameraman, describing a rocket fired from the guided missile test center Monday:

"It rumbled and roared for several seconds like a big rolling clap of thunder. It moved so fast we could see only an indistinguishable black object on top of a big ball of fire."

Wheat, oats and barley prospects looked up after favorable moisture over most of East Texas and final preparation of small grain land, according to the U.S. Department of Agriculture.

On the High Plains, planting gained momentum and seeding opened in a few places on the low rolling plains, the USDA reported. But some spots on the high plains must have additional moisture to get the crop up.

Recent showers will enable farmers in many areas to make another cutting of hay, the USDA predicted.

Cotton development was slowed by rains and cooler temperatures while late crops in irrigated areas of the high plains were slowed in their race to beat early killing frosts. Active harvest moved into the Corsicana area with picking to open in Ellis county.

Fall vegetables and early winter harvest plants in irrigated South Texas areas speeded up, as did planting of winter vegetables in the lower Rio Grande Valley. Non-irrigated areas remained hampered by dryness.

Rain was needed to start grass in west, southwest and extreme southern counties, where dry grass was short and stock showed shrinkage. In other areas, however, cattle were in "very good condition," the USDA said.

BEE READY—Although they may seem to be members of some secret society, these are really cautious newsmen at Celle, Germany. Members of the Lower Saxonian Press Conference, they're outfitted in protective hats and veils during a visit to an institute for bee research.

Texas Crops Looking Up Says USDA

AUSTIN (UP)—Wheat, oats and barley prospects looked up after favorable moisture over most of East Texas and final preparation of small grain land, according to the U.S. Department of Agriculture.

Brawny Battlers Vie For Lead In Picture

By VERNON SCOTT
United Press Hollywood Writer

HOLLYWOOD (UP)—The biceps bridge vying for the title role in "The Jack Dempsey Story" has been narrowed to a couple of rough and ready actors scheduled to test for the coveted part.

They are Stuart Whitman and Bud Pennell.

Whitman, a look-alike for Dempsey as a youth, met the Manassas mauler this week and won an approving nod from the ex-champ.

Whitman, with jet black hair, has the added advantage of being an ex-boxer himself. During his years in the Army he fought 32 amateur fights, winning all but one of them.

"If it comes to a showdown between Pennell and me," Whitman said, "I'd like to see the producer put us both in the ring and let the winner play the role. Strange enough, Bud and I went to Hollywood High School together. "Playing Dempsey would mean stardom for whoever wins the part. And after 11 years of trying for the big time in movies, it's the answer to my prayer."

Actually, the six-foot one-inch Whitman spent most of those years jockeying a bulldozer. Whenever acting roles were sparse (which was most of the time) he'd hop on the 'dozer and hire himself out.

"I bought the machine myself," he grinned. "Bulldozing kept me in groceries when things were tough."

But for the past two years I've been doing more acting and less mountain moving. It's helped me keep in shape. I also work out in the gym every day with Johnny Indrisana — he's the boxing expert who works in most of the fight pictures.

"Johnny's been teaching me Dempsey's style — lots of bobbing and weaving, throwing hooks."

Producer Sam Wiesenthal admits either Pennell or Whitman would be good for the part. Both boys can handle the dukes. But he still is thinking of landing a major star.

Of the big box office attractions, he hopes to bag Burt Lancaster or Marion Brando. Both actors, however, are tied up with their own production outfits.

The Mongolian gazelle has been clocked at speeds up to 60 miles an hour in the Gobi Desert.

WHO IS THREATENING HIS NEIGHBOR?—The Soviet Union's pat answer as to why it is expanding its military strength is that it is necessary to protect Communist countries against "West German militarism." Boxes on Newsmap give the present known strength of armed formations in both parts of Germany. The figures show that the German Federal Republic, with a total population of 50 million, has some 120,000 under arms; in the Soviet zone of Germany, which has less than 18 million inhabitants, there are almost 400,000 under arms. The Federal Republic, which was rearmcd under NATO, has one soldier for every 415 inhabitants. The Soviet zone has one soldier for every 45 persons.

Thailand Upheaval Bad News For US

Foreign News Commentary
By CHARLES M. MCCANN
United Press Staff Correspondent

The military coup in Thailand in bad news for the United States and it sattles in the Southeast Asia Treaty Organization.

Premier Luang Pibul Songram, who was overthrown in the coup, has cooperated closely with Thailand's fellow members in the alliance.

Field Marshal Sarit Thanarat, the army commander-in-chief who overthrew him, is represented also as pro-Western, though he has not been very assertive about it. But there have been indications that there is a growing trend toward neutralism in Thailand.

Whatever happens, Thailand at the moment appears to be a somewhat weak link in the SEATO alliance.

Thailand is one of eight members of SEATO, an alliance was formed in 1954 to combat the expansion of Communism in Southeast Asia.

Bangkok, the capital of Thailand, is the headquarters of SEATO.

Only a few weeks ago, on July 1, Pote Sarasin, Thailand ambassador to the United States, was appointed to the new post of secretary general of SEATO. Hence any big political upheaval in Thailand is an unwelcome development.

One encouraging thing is that the new leaders as well as the old ones appear to be firmly anti-Communist.

Election Spokes Turbulent
The political situation in Thailand has been getting more turbulent since the parliamentary election of last Feb. 28. Pibul's Government Party won 85 of the 150 contested seats for the National Assembly, the single-chamber parliament. Under the Thailand election law, the government appointed an additional 150 members.

Pibul's political opponents charged that the election was stolen.

Last week a group of army officers led by Sarit demanded the resignation of the entire government. Pibul refused. His overthrow followed.

Wilson To Tackle Water Program

AUSTIN (UP) — Attorney General Will Wilson is preparing to tackle a policy program that may have far-reaching effect on multi-million dollar water projects now under construction or contemplated in Texas.

The State Board of Water Engineers moved Monday to obtain an opinion from Wilson setting out whether federal or other agencies must obtain a permit before water impounded for conservation may be used to generate power.

The decision by Wilson would be applicable to the McGee Bend dam, proposed to be located on the Angelina River near Jasper.

A board spokesman expressed belief that if Wilson's opinion should sustain the state board's authority to issue the permit, a long legal hassle might be precipitated.

Presents Master Plan
Otho Dent, member of the State Board of Water Engineers, said that if Wilson should hold that a state-level permit is necessary for the McGee Bend dam "Then the project would be heard just like any 'application for a permit... They would have to show the feasibility, just as on any project."

The board action came simultaneously with presentation by the Neches River conservation district of a master plan for development of a dam at the McGee Bend site.

No action was taken by the board on the plan.

The McGee Bend proposal has been the subject of long controversy.

The Lower Neches Valley authority has entered into contract with the federal government for construction of a dam at the McGee Bend site.

Differ on Power
At the same time, the Neches River Conservation district has put in its bid with the State Board of Water Engineers to build a smaller dam of about half the capacity at the same location. The Neches River Conservation district proposal does not contemplate using conservation water to generate power, Dent said. The federal proposal does.

A proposed constitutional amendment, creating a \$200 million bond fund, will be submitted to the voters this November. Approval of the proposal would offer an apparent avenue of financing the program for the tract which, under present law, Neches River Conservation lacks any taxing authority. The constitutional amendment would authorize low-interest rate, long-term loans by the state to local units of government.

A spokesman for the attorney general's office said it would probably be about two weeks before an opinion on the question was completed.

"It normally takes 10 to 15 days on a complicated question, and this sounds as if it might be one," he said.

ONE FOR THE BOOKS—Tokyo's new Hibuya Library is built in a triangular shape to add durability against earthquakes and typhoons. Air-conditioned and sound-proofed, it will house 300,000 books and accommodate 1,000 persons at a time. It will be opened in November.

EXPERIMENTAL CAR—The Rev. Alfred Juliano, left, points to the experimental car he developed and placed on public display for the first time at Branford, Conn. The car, which would cost \$300,000 to duplicate, features telescoping steering wheel, crash roll-over bars, padded dash and doors. The dream car will make a tour of 120 major cities.

THAT TRIP TO THE MOON—The space traveler of the 21st century may board a Lunar Lander, right, as casually as we now enter our automobile. Two travelers chat at left while a ground crew readies the spaceship for a regularly scheduled flight to the moon. Judging from the appearance of the travelers, we're in for some changes in dress styles, also. The imaginary scene is the work of Ford Motor Company advanced stylists.

Where Big Television Stars Will Be Seen This Fall

By WILLIAM EWALD
United Press Staff Correspondent
NEW YORK, Sept. 13 (UP) — Ed Murrow's "Person to Person" will make a hop into Cuba this season if technical knots can be ironed out. Ernest Hemingway would be the subject of Murrow's visit. The CBS-TV show also plans to telecast at least one interview from Canada.
Jack Paar will shepherd his NBC-TV "Tonight" show into Hollywood, Chicago and Miami for one week stands. Ann Southern is set as emcee of NBC-TV's first spec from Las Vegas on Nov. 16.
Steve Allen goes color on Oct. 6. Leonard Bernstein will turn out visual essays on the piano and perhaps, opera, on NBC-TV's "Omnibus" this year.

Honor Patti Page
Oklahoma is renaming a chunk of Highway 66 "Patti Page Highway" in honor of their native daughter and CBS-TV's "Big Record" star. Pat Carroll, the blonde comedienne who used to caper on the Sid Caesar show, is expecting her second child this semester.

Ethel Barrymore will be the subject of NBC-TV's second "Command Performance" spectacular this December. Stripper Lili St. Cyr will unmask for Mike Wallace on his Oct. 5 ABC-TV opus.

Polly Bergen is battling the flu bug—she went on CBS-TV's "To Tell the Truth" this week despite the wobbles. Robert Q. Lewis is living proof that radio is still remunerative—the CBS radio star rented an ocean-going yacht, complete with crew, for his current vacation on the Riviera.

CBS-TV had to rewrite Rex Harrison's entire part for their upcoming spec, "Crescendo," he said it was smelless. Associates of Sid Caesar say it'll cost \$100,000 per week to put a new Caesar half-hour show on TV—\$60,000 for time charges and \$40,000 for production. ABC-TV has pitched Saturday and Sunday night slots at the comic.

Tallulah Bankhead signed on for Desi and Lucy's second one-hour show on CBS-TV. CBS-TV plans to repeat the "Secret Life of Danny Kaye" this season. Charlie Van Doren comes back to TV this Sunday on NBC's "Wide World" — he'll make at least 10 appearances on the show during the year.
ABC-TV expects are thinking about going color in 1958—the initial shows to go rainbow would be "Disneyland," "Voice of Firestone" and the Saturday "Lawrence Welk Show". Lindsay Crosby, who'll appear with his dad, Bing, on the first CBS-TV "Edsel Show" this fall, is a private at Fort Ord, Calif.

The Oct. 13 "The Web" show on NBC-TV will be a sneak preview of a projected new series, "The Quill and the Gun"—it's about a frontier town newspaperman. Eli Wallach will star in the movie adaptation of TV's "The Line-Up."

Of Britannica Junior Encyclopedia
Of the five Great Lakes, only one lies entirely within the boundaries of the United States: Lake Michigan. Its 22,400 square miles makes it the fourth largest body of fresh water in the world, exceeded only by two others of the Great Lakes, Superior and Huron, and Lake Victoria in Africa.

IT'S THE LAW in Texas

Constitution Curbs Governmental Branches
September 17 is "Constitution Day." Each year a day is set aside in recognition of the importance of the federal constitution, which forms the basis of our national government. It insures a stable balance of powers between the legislative, executive and judicial branches of government by providing curbs upon the authority of each.

For instance, mighty as our Congress is, the Constitution does not give it certain powers:
1. Neither Congress nor anybody else can suspend the writ of habeas corpus (unless the public safety demands it during rebellion or invasion.) All officers or others must obey a court and bring in anyone in their custody to see whether he is held lawfully.

2. Congress cannot pass "bills of attainder," special acts to punish someone. Congress cannot bypass the courts.
3. Congress cannot pass an ex post facto law — a law which makes an act a crime which was not one when done, or which punishes the offender more than called for when done.

4. Congress cannot tax exports from any state nor by regulation favor one state's ports over another's, nor make one state's vessels clear or pay duties to another state in order to enter.

Besides these deitals from within, the constitution curbs Congress and the executive and judiciary in the amendments, especially the first ten.
Among other things, Congress cannot make a law respecting an establishment of religion or prohibiting its free exercise, or abridging the freedom of speech, of the press or the right of the people peaceably to assemble and to petition the government for a redress of grievances.
The constitution also curbs the courts (for example, they cannot

deny a person a fair hearing duly represented by counsel.) It curbs the executive (he cannot, for example, take private property for public use without just compensation.)
The constitution, which divides the work of the three branches of government, winds up by telling where the rest of the power rests — just in case anybody gets any fancy ideas of dictatorship. There are things no state can do, for instance, "make or enforce any law which shall abridge the privileges or immunities of citizens of the United States."
If there are any powers not given to the United States government or reserved to the states, they belong to the people. The constitution does not seem to limit the people.
(This column, prepared by the State Bar of Texas, is written to inform — not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

Braves Down Giants, 8-2; Cards Fall To Dodgers

League Lead Stretches To 4 Games With Card Loss

By MILTON RICHMAN United Press Sports Writer From Milwaukee owner Lou Perini right down to the Milwaukee bat boy there was a feeling today that the worst was over...

The Braves could almost feel the flag in their fingers after they beat the Giants, 8-2, Wednesday night for their third straight victory while the Dodgers defeated the faltering second-place Cardinals, 6-1.

The overjoyed Perini had his eyes and ears on both games from a New York hotel room where he watched the Brooklyn-St. Louis contest on TV while listening to the Milwaukee-New York tussle on the radio at the same time.

"I feel 100 per cent better now," he said happily, after both games were over. "It looks as if we're over our hitting slump and the World Series doesn't seem so far away now."

Burdette Wins 16th Obviously back in the groove at the plate, the Braves pounded southpaw Johnny Antonelli and four Giant relievers for 11 hits, including three by Johnny Logan and a homer by Andy Pafko.

The victory reduced Milwaukee's "magic number" to six with nine games left to play. Cincinnati edged Pittsburgh, 2-1, and the Cubs topped the Phillies, 6-4, in the other National League games.

The Yankees reduced their "magic number" to four and retained their 6-game lead in the American League with a 4-3 victory over the Tigers. The White Sox stayed alive with a 7-5 win over Baltimore; Kansas City licked Boston, 2-1, and Cleveland whipped Washington, 8-3.

Young Don Drysdale was credited with his 18th victory for the Dodgers although Ed Roebuck bailed him out in the ninth. Charlie Neal rapped Lindy McDaniel for a two-run homer in the third inning and the Dodgers added...

Cardinals Err Thrice Garcia trailed 3-1 until the fifth when the Indians batted around and routed Russ Kemmerer. Har-ditch' offer to help the Dodgers led to a 4-1 victory for the Cardinals.

Rockefeller's Offer May Be Accepted By Dodgers

NEW YORK (UP)—The Dodgers were inclined to accept Nelson Rockefeller's offer and stay in Brooklyn, but the city of New York may reject the plan and send the Dodgers scurrying to Los Angeles.

That was the situation as outlined to the United Press by a high source today while the Board of Estimate, top ruling body of this city, met for the second time to discuss the Rockefeller "last-ditch" offer to help the Dodgers get a stadium in Brooklyn.

Of the 16 votes in the board, only five were known to be in favor of the Rockefeller plan and seven against. The four remaining votes were seen as likely to be in favor, but a switch of even one would result in an 8-8 tie that probably would end the saga of the Brooklyn Dodgers.

Millionaire Rockefeller made his offer to Dodger President Walter O'Malley and Mayor Robert Wagner Wednesday morning; in the afternoon, the Board of Estimate discussed the offer for two hours in closed session.

The high source told the United Press that O'Malley "probably would accept the offer, with only some small amendments, but there's grave doubt the city will go for it."

There was no indication whether the board would reach a voting stage at today's meeting, but the pressure of time was expected to force a decision either today or Friday.

Lefors Pirates Battle White Deer In Friday's Area Game Of Week

The Lefors Pirates will clash with the White Deer Bucks Friday night on the Pirates home field in the contest designated as the "Area Game of the Week."

The Pirates won their season opener last Friday night against the Irishmen of Shamrock, 20-7 in close contested, but decisive victory. The Buccaneers look stronger for this season with a majority of their 1956 team back.

Sparking the Pirate team will be quarterback Tommy Johnson and end Stanley Coleman, who ran an Irish kick 90 yards for a touchdown in last week's game.

Head coach H. W. Callan, in five years at Lefors, has never been defeated by White Deer. Callan is assisted by Ed Lehnick.

Probable starters for Lefors will be Charles Dickerson, left end; Calvin Stracner, left tackle; Jimmy Gochter, left guard; Jerry Carpenter, center; Larry Blair, right guard; Mark Braly, right tackle; Stanley Coleman, right end; Tommy Johnson, quarterback; David Smith, left halfback; Billy Fulton, fullback; and James Warner, right halfback.

White Deer will be going hard for their third win of the season Friday night, having defeated Groom 26-7 in their first tilt and Clarendon 28-26 in the second. The powerful Bucks will carry a weight average of 170 pounds per man into the game in both line and backfield.

Probable starting lineup for the Bucks will be Joe Martinez, left end; Ronald Wrinkle, left tackle; Ronnie Cade, left guard; James McKernon, center; Bryan Coday, right guard; Bob McCreary, right halfback.

PITTSBURGH (UP)—Pitt Stadium, the home of the University of Pittsburgh football team, has been rejected as a possible temporary home for the Pittsburgh Pirates and Pittsburgh Steelers by the Public Auditorium Authority.

"If Basilio loses, promoter Herman Taylor is going to offer him a \$75,000 guarantee to defend a title against Gil in Philadelphia," Turner's manager George Katz said. "And if Basilio wins the middleweight title and vacates the welterweight, we're claiming the championship."

The next time around, against Fullmer, Robinson was a 1-3 pick to wind up second. He came home first to win the tiara again and now, for the fifth time, he is on the short end.

This despite the fact that Sugar Ray is the only man ever to win the middleweight crown while reigning as welterweight king. He also is the only champion ever to come back and regain his title after a long retirement. This, it would seem, puts him in a rather exclusive class.

Yet, while it's an ancient boxing axiom that you "always give the champion the benefit of the doubt," nobody has or is.

Boxing men will tell you that, aside from age, Robinson in this bout has the edge. He'll have the weight and the more illustrious career record and his age is not of creaking proportions. Basilio is only 30 but it is hard to believe...

Hampering the Bucks in the Friday game will be the loss of their strong defensive end, Bob Smith, from the starting lineup. Smith's hand was broken in the game last week against Clarendon, which will probably keep him out of the lineup for the next two weeks.

White Deer's head mentor is Otis Holiday, assisted by Sam Christy.

Predictions

Major Amos B. Hoople, the renowned wizard of grid predictions returns this week after the success of five correct forecasts with two errors last week for a percentage of 71 per cent.

Here are the way he sees them for this week: Pampa 19, Arlington Hts. 13, White Deer 15, Lefors 12, Canyon 13, Perryton 6, Wheeler 14, Stinnett 7, Panhandle 7, McLean 0, Clarendon 19, Shamrock 7, Groom 7, Gruber 0.

Basilio Is Given 13-10 Odds To Drop Sugar Ray For Title

By OSCAR FRALEY United Press Sports Writer NEW YORK (UP)—Carmen Basilio is in an uncomfortable spot today as he prepares to bomb the middleweight crown of Ray Robinson's ebony locks Monday night — because the oddsmakers like him.

Carmen is a 13-10 choice with the men in the back room and, in boxing, the so-called upset is nowhere near as rare as a day in June, or even one in December. Actually, the odds hold up with the irregularity of a two dollar alarm clock.

Sugar Ray personally has upset them in three of his last four title fights. This shapes up as one of the biggest betting fights in recent years and, with the odds predicated on the "action," a lot of people in addition to Carmen's onion farming neighbors in Canastota, N.Y., like him to win. This is not too difficult to understand.

Yet it is hard to fathom why the oddsmakers continually establish Robinson as the underdog when the "line" is first posted.

In his first bout with Bobo Olson, Sugar Ray was a 1-4 underdog and proceeded to put the slug on the man temporarily in charge of the throne room. Robinson's win convinced nobody, because the second time he was a 1-3 underdog. He won again.

Going in against Gene Fullmer, Robinson was on the short end of a 5-12 mark-up. This one he lost and there are people with suspicious minds who figure this proved that business is business.

Area Teams Poised For Six Grid Battles Tomorrow Night

As late week excitement gets into the air for a weekend of grid battles, 12 area teams are poised for action Friday night.

In the area game of the week, the White Deer Bucks travel to Lefors to battle the Pirates, with both teams having no losses for the season. White Deer has previously downed Groom and Clarendon, while the Pirates dropped Shamrock, 20-7.

Panhandle vs McLean The Panthers of Panhandle will try to recover from a 32-7 loss at the hands of the Childress Bobcats as they host the McLean Tigers, who won their opener over Shamrock, 7-6 and dropped last week to the Wheeler Mustangs, 20-0.

Wheeler vs Stinnett The mighty Mustangs of Wheeler will try to continue their winning streak when they journey to Stinnett in defending the State championship this year, and began two weeks ago by defeating the Clarendon Bronchos, 21-7. They had an open date last Friday night. Wheeler is defending a regional championship and is looking stronger each week to repeat their 1956 record.

Groom vs Gruber The Groom Tigers host Gruber for their third game of the season, with a record of one loss and one tie. Groom dropped to the mighty Bucks of White Deer 27-6 on their opener and tied Sunray last week, 6-6.

Harvesters Battle Arlington Hts. Tomorrow Night

FORWARD WALL — The Harvester offensive line is pictured above, left to right: Paul Brown, Gary Peterson, Bailey Clements, Dick Watkins, Gary Matlock, David Holt and DeWayne Glover.

The teams will swing into action tomorrow night against Arlington Heights, of Fort Worth in Harvester Field at 8 p. m. Average weight for the line is 157 pounds per man.

Pampa Gridders Ready For Second Encounter Of Season

The Pampa Harvesters go against Arlington Hts. of Fort Worth tomorrow night in Harvester Field at 8 p. m. for the second game of the season.

The team eased off heavy practice yesterday and will hold a light workout today in readiness for the clash tomorrow night.

Losing their first game to the Austin Panthers, the Harvesters proved effective and strong both offensively and defensively, and should be ready for a hard game tomorrow. The Austin team is picked to win the district I-AAAAA title this year, but were outshined on ground plays by the Harvesters last week.

Arlington Hts. also lost their first game of the season in a 6-0 battle with Texas City. The Fort

Worth line averages 170 pounds per man, and the backfield 156 pounds per man. The Harvester line average is 157 in the line and 150 in the backfield.

Probable starters for Pampa will be: Paul Brown, right end; Gary Peterson, right tackle; Bailey Clements, right guard; Dick Watkins, center; Gary Matlock, left guard; David Holt, left tackle; Jim Scott, left end; Don Bigham, left halfback; Robert Langford, fullback; Jess Ingle, right halfback and Gary Wilhelm, quarterback.

For Arlington Hts. will be Hudson, left end; Moon, left tackle; Chambers, left guard; Cropper, center; Danner, right guard; Brockmeyer, right tackle; Choate, left end; Burns, quarterback; Ausmus, left halfback; Robinett, full-

SW Squads Ready For Openers

Southwest Conference football squads today began working on the fine points of football and laid off heavy contact before their season openers this week end.

Baylor ran through its last scrimmage Wednesday, working on passes of the type the Bears expect from Villanova quarterback Billy Magee Saturday night.

Arkansas finished heavy workouts and scheduled light dummy scrimmage today before its Little Rock opener with Oklahoma State.

Coach Jack Mitchell said James Monroe Jr. of Texarkana, Tex., will be replaced at third unit quarterback by Freddy Akers of Blytheville, Ark. Monroe has 14 more years of eligibility and Mitchell said he plans to save them.

Texas A&M reviewed offensive and defensive formations and worked on its kicking game.

Coach Paul Bryant singled out sophomore second-stringers Allen Goehring of San Marcos, a guard, and quarterback Charles Milstead of Tyler for praise.

Bear Bryant Says: 'Greatest Guard In College Football Playing Fullback'

By ED FITE
United Press Sports Writer

DALLAS (UP) — Richard Gay, whom Texas A&M Coach Bear Bryant describes as "the greatest guard in college football playing at fullback," gets a chance before a national television audience on Saturday to live up to the praise Bryant has heaped upon him.

Gay is a 20-year-old junior who played behind the great Jack Pardee and reserve George Gillar last season when the Texas Aggies won the Southwest Conference title but couldn't play in the Cotton Bowl because they were under NCAA probation.

The Aggies again are picked as one of the favorites along with Baylor for this year's conference crown, but Bryant won't know until after this week's opener against Maryland in the neutral Cotton Bowl stadium in Dallas whether the ratings of Gay or his Aggies are in line.

"The three things that won for us last year were all-out team effort, team speed and aggressiveness," Bryant said, "and so far this fall we haven't had those things consistently except from this guy named Gay."

Bryant says he would like very much to play Gay at guard, but "If I did that, who in the heck could I use at fullback?"

The Aggies are shy in depth at all positions and fullback is one of the worst. Their pre-season reputation has been founded on the

strength of the known - quantity first team.

Bryant says Gay is "a helluva competitor, just like a frisky colt that runs and runs and seems just as fresh when he stops as when he started."

The humid Texas heat never seems to bother the Louisiana-born junior engineering student. He's one of the rare juniors on a squad made up mostly of seniors and sophomores because of the dearth of top-grade freshmen in 1955 during the height of Texas A&M's recruiting and probation difficulties.

Gay, who played his schoolboy football at Byrd High in Shreveport, La., once played against his halfback teammate, John Crow, who up to now has been the Aggies' most touted potential all-America candidate.

When Byrd played Crow's Springhill, La. team, the score was 20-20 and Gay and Crow personally accounted for all of the points in the game. Crow, a rugged 200-pounder, has never been knocked out, but he said that one of the tackles Gay threw on him in that schoolboy game came as near "cooking" him as any he's ever received.

While Texas A&M and Maryland are performing on television, Southern Methodist will be at Berkeley, Calif., trying to prove it isn't going to be the doormat of the loop everyone predicts it will be.

Three Grid Games Today As Pampa Teams Get Action

Three games will be played today by Pampa teams as the Shockers, Reapers and Planters all swing into action.

The Reapers go for their second win of the season this afternoon as they meet San Houston of Amarillo in Harvester Field at 3:45 p. m.

The ninth graders won their first game last Thursday in Amarillo with Bowie, 6-0.

Playing their opening game of

the season, the Shockers will battle the Dumas "B" team tonight at 8 in another home game. Coached by Weldon Trice and Deck Woldt, the Shockers are composed of high school sophomores.

In the third tilt of the day, the eighth grade Planters will travel to Borger for a game there to be played at 3:30. The Planters are coached by Frank Craig.

MORE PEOPLE DRIVE CHEVROLETS THAN ANY OTHER CAR

AIR CONDITIONING—TEMPERATURES MADE TO ORDER—AT NEW LOW COST. GET A DEMONSTRATION!

COAST-TO-COAST ECONOMY RUN PROVES IT—CHEVY COSTS LESS TO DRIVE!

Test run from Los Angeles to New York by the three leading low-priced cars showed Chevrolet costs less to operate, with up to 17% greater fuel economy!

When fuel and operating costs for cars are officially checked for 2,873 miles, from Los Angeles to New York, what happens?

In the certified findings of the NATA*, Chevrolet delivered up to 17% greater fuel economy, and lower total cost for the trip—proof that Chevrolet costs *least* to operate of the three leading low-priced cars that were tested!

This economy record only confirms Chevy's reputation for money-saving ways. You expect Chevrolet engines to wring extra miles out of a gallon of gas—just as you expect finer craftsmanship in the way a Chevrolet is built. Why wait to put new sparkle—and economy—in the miles you drive? See your Chevrolet dealer soon!

Oklahoma Given 8 Points In Game With Pittsburgh

NEW YORK (UP)—Coach Bud Wilkinson, a realist who remembers what happened to his Sooners the last time they played in 1957 schedule devoted mostly to Pittsburgh, isn't taking Saturday's game with the Panthers lightly, but Broadway oddsmakers, who seldom get caught short, have installed Oklahoma an eight-point favorite.

Back in 1953 when present Pitt head coach Johnny Michelosen was backfield coach under Red Dawson, the Panthers outplayed Oklahoma and held the Sooners to a 7-7 tie. Since then the Sooners

have ripped out 40 straight wins and Saturday's meeting figures to be their toughest in an "easy" 1957 schedule devoted mostly to Big Eight (formerly Big Seven) opponents.

Tommy Mont, trying to forget last year's miserable 2-7 record, takes his Maryland Terrapins to Dallas, Tex., for the week's nationally-televised game with highly-regarded Texas A&M. The Aggies, who had a 9-0-1 record last year, are rated 14 point favorites in the inter-sectional clash. In Saturday's other "big"

games, Georgia Tech is rated seven points over Kentucky, Duke is an eight-point pick over South Carolina and Oregon State gets the nod over Southern California by seven points.

Rats multiply so rapidly that one pair could conceivably result in a rat population of 40,000,000 in only three years.

GAMES TO BE PLAYED
FRIDAY, SEPTEMBER 20
SATURDAY, SEPT. 21

Guardians of Health

Confidence in the training, ethics and know-how of your pharmacist, and the prescriptions he prepares, is vitally important. We feel we can merit yours.

() SMU () Calif. Berkley

Cretney's

Name the HARVESTER OF THE WEEK

Each week we will feature in this space the outstanding Harvester Player of the week... selected by you. Regardless of whether or not you enter the contest, you may cast your vote by entering your selection in the space provided below and mail or bring it to the Pampa Daily News.

CONTEST RULES

All you do to be eligible for the prizes, is to read over carefully the ads on this page, check the winners of the games in each ad (be sure to fill in the tie-breaker), fill in your choice for the outstanding Harvester of the week, write your name plainly in the space provided... and bring or mail it to FOOTBALL CONTEST, Pampa Daily News, before Friday of this week at 5 p.m. All games on this page are scheduled to be played this week and awards will be announced the following week. The decision of the judges will be final. In the event of ties the prizes will be divided.

ENTER NOW! You are eligible to enter this contest unless you are a member or your immediate family is employed by the Pampa Daily News. Remember, please write plainly! You may indicate tie games if you wish by marking both teams. Do not cut ads apart. Do not indicate scores, except in tie-breaker game. Purchase of the Pampa Daily News is not necessary to enter this contest. If you desire just write your selections on a plain piece of paper.

FIRST PRIZE \$10 00
SECOND PRIZE \$ 7.50
THIRD PRIZE \$ 2.50
