

RUSSIAN TEACHER JUMPED FROM WINDOW TO ESCAPE

NEW YORK—(AP)—Mrs. Oksana Kasenkina said late yesterday she jumped from a third-floor window of the Russian consulate because she wanted to escape.

She said in an interview from her bed in Roosevelt Hospital "I jumped to escape, not to kill myself."

The 42-year-old Russian school teacher added she did not want to go back to Russia.

Mrs. Kasenkina said, "I don't agree with the policies of Josef Stalin. I love my people and my country. But I cannot agree with the regime in the Soviet Union."

Mrs. Kasenkina told reporters that when she was returned to the Soviet consulate here from the White Russian refugee farm at Valley Cottage, N. Y.

"I knew that since they did not permit me to leave the consulate, I would not be able to escape in Russian either."

"Therefore I jumped out of the window to escape."

She said that Soviet Ambassador Alexander Panyushkin and Consul General Yakov M. Lomakin "both told me what to say to reporters" at a press conference held in the consulate Friday she was taken from the farm.

They told her, she said, that "through my message I would become a heroine."

In answer to the question of what was in the letter she sent to Lomakin, she said she told the entire story of her life in Russia.

In discussing the letter, she said: "I love children. During the two years in America I found I was becoming more and more dissatisfied with Russia."

She added the Russians called her "an enemy of the state" and she was "persecuted in many picyune ways."

Mrs. Kasenkina said that in her letter she asked to be released from her teaching assignment and to move to a hotel.

"Since they wouldn't let me do it," she added, she decided, "I would, myself."

She said she wanted to talk to the Russians as human beings, but there were not and perfuriously they arrested me."

Asked what Ambassador Panyushkin discussed with her the day she was returned to the consulate, Mrs. Kasenkina replied, "I was with Panyushkin for five minutes. Panyushkin said he would not speak to me and that I would go downstairs and tell reporters this and that and this."

Beads of perspiration formed on Mrs. Kasenkina's forehead and she smiled wanly as questions were asked her. She lay in the hospital bed, head propped slightly, one leg injured in her leap suspended in a traction pulley.

Asked what motivated her to

ALLOW PHOTOS OF RUSSIAN TEACHER—This is the first picture made of Mrs. Oksana Kasenkina since the Soviet school teacher jumped from a third story window of the Russian Consulate in New York City two weeks ago. She is under treatment at Roosevelt Hospital where she was interviewed yesterday by newsmen. The nurse is unidentified.

denude not to go back to Russia, she said:

"When I was still in Russia I thought that if I got to America I would be able to remain there and not return to Russia."

"The reason I wanted to escape from Russia was that in 1937 they took my husband. I had no idea where he had gone to. I left Moscow in the Ukraine to visit my son in Moscow."

"He was a first year student at the University. When war broke out he was not a military man and not a member of the Communist Party. He was a young Communist in his political party. Therefore, the Soviets looked upon him as an enemy of the state. They took him into a storm trooper division without any training whatsoever. In Leningrad, on Jan. 12, 1942, he was shot."

Mrs. Kasenkina's voice was hesitant at times, she sighed frequently, and a nurse dabbed her forehead with a piece of gauze.

"Neither of the two were political people. My son was a student and my husband was a teacher. The interview lasted 21 minutes. Three reporters, including the writer, who represented news services, were present. Also attending were newspaper cameramen. A recording was made for re-broadcasting."

A hospital secretary, two nurses and a police guard were also in the room during the interview.

Mrs. Kasenkina, wearing a white nursing hospital gown and a yellow ribbon in her hair, was flanked by bright lights set up by news-wired men. On her dresser was a cardboard figure of the Madonna and Child.

Only four questions were asked her. Originally, 13 questions were submitted dealing with events occurring at the consulate and elsewhere.

Throughout the interview Mrs. Kasenkina seemed to be fighting exhaustion. Although her voice was weak, it was mellow and pleasant.

MONDAY 1ST DAY OF DRAFT

First registration under the new draft law will begin on Monday, it was announced today by Local Selective Service Board No. 52.

Board 52, with headquarters at the third floor of the County Courthouse here, has jurisdiction over four counties: Gray, Roberts, Wheeler and Donley. C. H. Walker of Pampa is chairman, and Miss Charlyne Jaynes is in charge as chief clerk. Dee Dodson has been named chief registrar.

All men 25 years of age will register on Monday. Registration will continue daily through Sept. 18, it was said.

Postmasters at Lefors, McLean, Miami, Wheeler, Shamrock and Clarendon will handle registration in their respective communities, it was announced. It was not known today, however, just where the registration would be held in each of those towns—whether at the postoffice or in some other building.

Here at Pampa, members of the Business and Professional Women's Club will handle registration. Local registration will be at the Courthouse office.

William Jarrell Smith, who was the former apparel agent here, has been recommended for reappointment, and C. P. Buckler and A. M. Teed, former members of the local board, have been recommended as advisors to registrants.

Here are the general dates for registration of different classes, as released by Governor Jester:

The days are as follows:

1. Persons born in 1922 after Aug. 30, 1922, will register on Monday, Aug. 30.
2. Persons born in 1923 will register on Tuesday, Aug. 31, or Wednesday, Sept. 1.
3. Persons born in 1924 will register on Thursday, Sept. 2, or Friday, Sept. 3.
4. Persons born in 1925 will register on Saturday, Sept. 4, or Tuesday, Sept. 7.
5. Persons born in 1926 will register on Wednesday, Sept. 8, or Thursday, Sept. 9.
6. Persons born in 1927 will register on Friday, Sept. 10, or Saturday, Sept. 11.
7. Persons born in 1928 will register on Monday, Sept. 13, or Tuesday, Sept. 14.

(See DRAFT, Page 9)

'29 Jalopy Sought to Aid in Clearing Red Spy Hearings

WASHINGTON—A Congressional spy probe gave chase to a 1929 jalopy today in a renewed attempt to prove whether Alger Hiss or Whitaker Chambers had a prewar Communist underground.

They also started writing a report on what they have found out so far.

No hearings were scheduled for today.

In a drama-packed encounter before the House Un-American Activities Committee yesterday, Hiss and Chambers told widely differing stories about a Model A Ford and about nearly everything else.

They traded charges of "lying" at a hearing that ran all day and into the night. Each stuck firmly to his main points, in the face of warnings that one or the other must sue to face a perjury trial.

Chambers, short, pudgy, 47 years old, former editor of Time Magazine, insisted that Hiss was a member of a Red underground in Washington a dozen years ago. He said he knew because he used to be a Communist himself and served in the underground.

Hiss insisted it wasn't so, that he doesn't even have any friends who were Communists that he knew of.

Formerly a policy-making official in the State Department, Hiss now is president of the Carnegie Endowment for International Peace. He is tall, wiry and more boyish-looking than his 43 years.

For nearly seven hours, the committee put Hiss through a grueling grilling. For 30 hours and 37 minutes, it questioned Chambers.

When it was all over, Chief Investigator Robert E. Stripling turned to reporters with one more question and an answer.

"Who was lying? I don't know."

In a formal statement, Hiss called Chambers a "self-confessed liar, spy and traitor" and asked, "Indeed, is he a man of sanity?"

To a direct question from Rep. Nixon (R-Calif.), Chambers replied, "I have never been treated for mental illness."

And as Hiss shook his head slightly from side to side, Chambers said, "Mr. Hiss is lying."

Nixon told reporters the old Ford had become a vital piece of evidence in this whole inquiry.

We have the motor number and we are going to trace it down, he said. "It might take a year, but we'll do it."

Hiss testified that the car was one he bought just before he was married. It was a roadster to which he attached some sentimental value.

Foreign Birth Gave Former Pampian Trouble With FBI

The trials and tribulations of a person born in a foreign country and naturalized American parents were graphically outlined yesterday by Walter Stein, former Pampian and former Army Intelligence Corps officer, at the weekly meeting of the Pampa Rotary Club.

Stein told Rotarians that his parents were born in Germany, moved to America, because U. S. citizens and were living in Mexico when he was born. The mixup caused him no end of trouble, beginning as early as World War I when he and his family, traveling in Europe at the time, were interned in Germany as enemy aliens. Later, in 1927, he returned to Germany to visit relatives and was without a passport.

The German police caught up with him and said he had to have a passport. Stein went to the American consulate and asked for a passport, showed his Mexican birth certificate, but the consul there couldn't read it because it was in Spanish. He was told he had to get a Mexican passport. At the Mexican consulate, they told him he was an American citizen and would have to get his passport from the American consulate. He went to the police and they claimed he was German but refused to give him a passport because of his natural citizenry in America. Finally, he got his passport, but ran into trouble during World War II when he, Matthews presided.

City's 11th Polio Case Is Reported

Richard Potter, 9-month-old son of Mrs. H. M. Potter, 220 N. Perry, in Pampa proper's eleventh polio case since July 31, his attending physician said.

The Potter infant has been ill for several days, but his case was not diagnosed as polio until noon yesterday. He was taken to a local hospital for a spinal fluid examination. When it showed positive, he was rushed to the Plainview polio clinic at 1:30 p. m. in a Clegg emergency ambulance.

Though the case was discovered early, Richard shows a weakness in his legs. His case is "moderately severe," his attending physician said.

Jimmie Parker, Pampa's seventh polio case, will be dismissed from the Plainview clinic in about a week and returned to Pampa, his mother, Mrs. W. R. Putty, 928 E. Francis, said yesterday.

The Parker youth was 17 years old Tuesday and received many packages and gifts from his Pampa friends, his mother said.

Mrs. Putty returned from Plainview yesterday, but will go back to Plainview Saturday to make arrangements to bring Jimmie home. He was admitted to the Plainview clinic Aug. 14. He has (See POLIO, Page 9)

Today

23rd Day of the Year

On this day, in 1928, the 19th Amendment to the Constitution, the woman's suffrage was declared effective.

On the same day, the "Great Zeppelin" landed at Los Angeles from Tokyo after a Pacific leg of its world-wide flight.

Today, in yesterday's "Eagle," 1947, FBI agents arrested a burglar, 1946—Russians were Out on Paris Conference.

From the Bible for today, "There is no power but of God, the powers that be are ordained of God" (Rom. 13:1).

U. S. Weather Bureau

PAMPA: Partly cloudy tonight and Friday with scattered, mostly daytime showers. Not much change in temperatures.

WEST TEXAS: Partly cloudy tonight and Friday with a few scattered mostly daytime showers. Not much change in temperatures.

OKLAHOMA: Partly cloudy tonight and Friday with scattered showers tonight and tonight.

With 10 months left to go, the Air Force is already within 53,000 men of its authorized strength of 453,000. The 453,000 figure is the quota for June 30, 1949, as the Air Force fights its way back from its weak point of May 31, 1947. Chart is based on returning Air Force Chief of Staff Gen. Carl Spaatz' report to Secretary of the Air Force W. Stuart Symington.

Texas Business Boom Continued On Rise During 1st Six Months

By Dr. JOHN R. STOCKTON

The University of Texas The boom in Texas business continued, with only one slight pause, through the first six months of 1948.

When commodity and security prices slumped sharply in early February, it looked for a while as if the downturn of the present prosperity had been reached. But the reversal of this dip was swift and decisive, so that June found practically all the important indexes of the Bureau of Business Research at new highs for the postwar period.

For the nation as a whole the same story prevailed. More people were working than ever before at the highest rate of pay on record. This has resulted in record-breaking personal incomes and has sustained high level consumer expenditures for all types of goods. The accumulated deficit of durable consumer goods has kept the volume of production at the maximum level possible with available resources. The goods have found buyers at ever increasing prices.

At the same time capital formation has been going on at an unprecedented rate as business construction of new buildings and installed new machines and equipment. Only the supply of labor, materials, and manufacturing capacity has limited the level of industrial production. The pressure

of the large volume of purchasing power on an inadequate supply of goods has forced prices up until in June the Bureau of Labor Statistics Wholesale Price index passed the former all-time high of May 1920. The cost of living has continued to rise, with food prices exceeding all other items in the family budget.

The Bureau's index of Texas business activity was 3 percent higher in June 1948 than it was six months earlier. The June level was slightly below the postwar peak of 217, reached in May 1948, and since this index is based on 1935-39 as 100, it means that the present level of business is more than double the prewar rate. For the first six months of 1948 the composite index was 13 percent above the first six months of 1947. Business activity has risen remarkably steadily since the fall of 1947. Electric power consumption was up 7 percent during the same period. Crude runs to stills rose 4 percent; employment, 1 percent; and department store sales, 1 percent. Only miscellaneous freight car-loadings declined 1 percent. In comparison with the first six months of last year, all six of the component indexes showed increases—employment, 3 percent; pay rolls, 15 percent; freight car-loadings, 7 percent; crude runs to stills, 22 percent; department store sales, 19 percent; and electric power consumption, 16 percent.

For the first six months of 1948 retail sales were 16 percent higher than for the same period in 1947. The greatest part of this advance in sales was from durable goods, rather than from non-durables. The sales of durable goods stores increased 25 percent over the first six months of last year, while sales of nondurable goods stores increased only 12 percent. The sales of eating and drinking places were lower by 1 percent in the first half of 1948 than in the same period of 1947. Some of this increase in dollar sales is due to the rising prices of the past year, but even after allowing for increasing prices there has been a substantial increase in the total volume of goods sold.

Industrial activity in Texas continued to expand its output during the first half of 1948; the Bureau's index of industrial power consumption increased 4 percent between December 1947 and June 1948. For the first six months of 1948 industrial power consumption in Texas increased 13 percent over the first half of last year.

The building industry continued to represent the most spectacular element in the expanding business picture. The total value of building permits issued in Texas cities was 68 percent greater in the first half of 1948 than in the first half of 1947. The total value of construction contracts awarded increased 51 percent for the same period; residential construction contracts were up 31 percent.

Sightless Scientist Negro Girl Enters Arkansas U.; Okla. Faces Problem

Although blind, Dr. Dilworth Wayne Woolley, above, has won the \$1000 Eli Lilly award in biological chemistry. The 34-year-old scientist, who is with New York's Rockefeller Institute for Medical Research, lost his sight nine years ago, but has continued his work with the aid of assistants.

LITTLE ROCK, Ark. —(AP)— A 10-year-old Negro girl had been admitted to the medical school of the University of Arkansas—without segregation.

Dr. H. Clay Chenault, the university's vice president in charge of medical education, said that Edith Mae Irby of Hot Springs will enter the school when the 1948-49 term commences next month.

Dr. Chenault explained that it would be impossible to set up any measure of segregation in the medical school.

"She will be a part of her class, just like any other member," the university vice president said.

He pointed out that the Board of Regents had established a precedent when it allowed a Negro to enter the law school in 1947. The law student, Silas Hunt of Texarkana, attended classes under a program of segregation.

The Irby girl, a graduate of Knoxville, Tenn., college, was 28th in an aptitude test given to determine the 90 students who will make up the freshman class. Dr. Chenault said 11 other Negro applicants were rejected.

OKLAHOMA CITY —(AP)— The State of Oklahoma was faced with allowing an aged Negro professor to attend its all-white University of Oklahoma, or hurriedly establishing a graduate school.

A special three-judge federal court heard G. W. McLaurin's suit against the state's college segregation laws, then emphasized Oklahoma should provide equal facilities for Negroes.

McLaurin tried unsuccessfully to gain admission to the University last January. He is seeking a doctorate in school administration.

The ranking member of the panel, Judge A. F. Murrah of the U. S. Circuit Court of Appeals, said:

"The duty of this state is unmistakably clear and we think you ought to get about it."

Attorney General Mac Q. Williamson, defending the state, said Oklahoma recognized its obligations to give Negro citizens equal education but said the state needed time to establish the schools.

MINER SUCCUMBS — C. Herbert (Bert) Poirier, 72, prominent in mining circles in Canada, Mexico and the United States, died at his home yesterday after an illness of several months.

KING PLANS TOUR — LONDON —(AP)— King George VI, Queen Elizabeth and Princess Margaret will tour New Zealand next March, Buckingham Palace announced.

"Old Folks at Home," popular American song, earned its author, Stephen Foster, only \$1,647.46 during his lifetime.

Hay Fever On Way Out

CHICAGO —(AP)— A new drug has been more than 90 percent effective in treating 112 cases of hay fever and other allergic conditions. An Illinois physician has reported. The best showing was obtained

with a group of 68 hay fever patients treated. The drug is the product of the United States Army Medical Research and Development Command, and is known as "Asthma Relief." It is a synthetic compound that has been found to be effective in 75 percent of the cases. All of the features were present, including bronchial asthma. The drug was 100 percent effective in pollen and grass asthma.

Anderson's Name Under the 'Jinx'

DES MOINES —(AP)— The shadow of tragedy seems to have fallen across the name Anderson in Des Moines.

Mrs. Harold N. Anderson, 49, Des Moines, died early Sunday of injuries suffered in a fall.

Robert Anderson, 16, Des Moines, drowned in a municipal pool here last evening.

G. D. Anderson, Boone, was engineer of the freight involved in a car-train collision here last night in which Mahlon Baldwin, 24, Cedar Rapids, was killed.

Mrs. Blanche Anderson, 34-year-old mother of three, is in a hospital after she was found Monday night with a bullet wound in her side.

The various Andersons are not related.

Things to Come

Get a grip on yourselves, men. While Paris fashion designers secretly guard details of their fall styles, this is one of the "tendency" sketches they've issued, hinting of things to come. Designer Crayen says this is the way the New Look is going.

Mainly About People

Mr. and Mrs. E. A. (Bud) Johnson and son, Gary, are vacationing in California and Oregon.

Services Honor 36th's War Dead

CAMP HOOD, Tex. —(AP)—The 36th Division soldiers who died at Salerno Beach, at the Rapido River and in Southern France during World War II were remembered by living T-patchers.

Memorial addresses were made Wednesday by Maj. Gen. H. Miller Ainsworth of Luling, commanding general, and Lt. Col. Bernard F. Roemer of Pasadena, Texas, division chaplain.

Captains Edward T. Pitt of Lockhart and John L. Herzog of Hillsboro assisted in the services, which included silver taps by the division band before troops standing at attention.

The 36th was the first Allied division to storm the beaches of Europe at Salerno.

Texas National Guardsmen of the 36th are going through field training here with guardsmen of the 49th Armored Division.

Navy to Enter Jets In Bendix Air Race

LOS ANGELES —(AP)—The Navy is taking a crack at the Bendix Air Race this year.

Race officials said six Navy P-51 Mustangs will enter the jet division of the 2045-mile Long Beach, Calif., to Cleveland, O., race Sept. 4, first day of the National Air Races.

There are no Air Force jet planes entered this year.

Wealthy Glenn H. McCarthy of Texas and Hollywood, is backing speed flyer Paul Mantz and Linton Carney, Houston. Both will fly Mustangs.

Soldier Grets 'Dead' Wife; Ill From Shock

INDIANAPOLIS —(AP)— Cpl. Marion Williams arrived home from Germany and wordlessly embraced the wife he had been told was dead. Then he went to bed to recover from shock and fatigue.

Confusion in names with another Cpl. Williams resulted in the military policeman being sent home on an emergency furlough, supposedly to attend his wife's funeral.

Market Briefs

WALL STREET
NEW YORK, Aug. 25 (AP)—The stock market just about managed to keep its balance today.
Closing prices showed a close mixture of small gains and losses, with the rail division doing better than others.
Rising tendencies in early trading failed to develop a carry-through. Turnover was at the rate of about 50,000 shares, below yesterday's sluggish 60,000.
The Russian news since more was blamed for a torpid market.
Higher a good part of the time were Santa Fe, Northern Pacific, Chesapeake & Ohio, Atlantic Coast Line, Illinois Central, Caterpillar, Tractor, Lockhead, Schenley, American Telephone, Consolidated Natural Gas, American Can, Owens-Illinois, American Woolen and Wheeling Steel.

BLUE SOX CONQUER EARLY LEAD TO NUDGE OILERS IN OPENER 10-9

Pampa News, Thursday, August 26, 1948

Big Boost

Dodgers' closing rush on National League pennant race has been helped no end by 21-year-old Carl Eiskene. Brought up from Fort Worth in Texas League, the young right-hander took four straight while Dodgers moved in on Braves.

ABILENE—The Abilene Blue Sox displayed some of their early season zip here last night to overcome an almost unmountable lead pitted up by Pampa in the second inning and come through to a 10-9 victory in the ninth frame.

DYKES PURCHASES BORGER GASSERS

BORGER—(AP)—Dr. Marshall Dykes was expected to sign a \$10,000 contract for purchase of Borger's Class C West Texas-New Mexico League baseball team franchise sometime today.

Sports Round-Up

By GAYLE TALBOT (for Hugh Fullerton, Jr.)

NEW YORK —(AP)—Davis Cup tennis, once one of the great events of world sports, has degenerated to the point where it scarcely seems worth while.

Because of the lure of professional money, the talent available for the international team match has become little better than second rate—that is, compared to the court giants who battled for the huge silver mug in the past.

Not one of the four players who will defend for the U. S. against the Australians in the challenge round Sept. 4-6 is in the same class with Jack Kramer, who helped overwhelm the Aussies twice before turning pro last winter.

Ted Schroeder was an exceptionally fine player at his peak, but he is devoting himself to business these days and is rusty. Frankie Parker, who doubtless will share the singles duties with Schroeder, isn't what he used to be, as he proved in losing to an average player as Lennart Bergh of Sweden in this summer's Wimbledon championships.

Fortunately, the Australians are no better off. Theirs is a makeshift team, too, so there is better than an even chance that the U. S. will keep the cup. But it will not be really high-class tennis by past standards, or even, by present professional standards.

The American four-man team, which includes Billy Talbot and Gardner Mulloy as a possible singles combination, probably is the best the selectors could have chosen. For all his victory at Wimbledon, Bob Falkenberg is too erratic and uncertain to be counted upon in Davis Cup play, where there is the added strain of competing for one's country.

DADDY OF SQUAD TUCSON, Ariz. —(AP)—Oldest player on the roster of the Arizona football squad is William Smetana of White Plains, N. Y., who is 28 and a senior. A left-halfback, Smetana has earned a letter with the Wildcats. Center Art Converse, also a letter-winner, is 27 and also a senior. Two other players on the roster are 26 years old.

NYAC CONTRIBUTES NEW YORK —(AP)—The New York Athletic Club, power in amateur athletics for 80 years, contributed a check for \$10,000 to the U. S. Olympic fund, before the Games in London. The money was divided among track and field, \$4,000; fencing, \$2,000; rowing, \$1,500; swimming, \$1,000; and wrestling, \$1,000. Eleven NYACers were members of the Olympic team.

The Hall of Fame for Great Americans is on the campus of New York University.

Front Runner

Fred Enke, Jr., is now a prized halfback of the professional Detroit Lions. The Arizona ace was the nation's leading ground-gainer in collegiate circles last fall, passing and running to 1941 yards.

HARVESTERS GO INTO 2ND WEEK OF WORK-OUTS

Coaches Tom Tipps and Aubra Nooncaster are continuing Harvester practice through their second week with 39 grid hopefuls working out daily at Harvester Park.

The footballers hold light sessions each morning and then return to the park at 7 p. m. for heavier work-outs and scrimmages.

Intra-squad scrimmages have been held almost nightly. The Gorillas will start their work-outs as soon as school starts under Coach John Bond. Some of the boys now working out with the Harvesters will be transferred to the Gorillas, according to the Harvester directors.

Local Sluggers Train for Match

Two young local heavyweights have been working out at the Sportatorium this week in preparation for their four-round curtain raiser tomorrow night when Promoters Arvis Woodring and Vic Burnett present Pampa's first professional boxing card.

Roy Fulcher and Kenneth Twigg, who are just over the weight in the heavy class will meet in the preliminary.

Two six-round matches and a 10-round main event make up the card.

Jimmy Boggs, Oklahoma City, and Jack Wortham, Amarillo, light heavyweights, meet in the first six-rounder, followed by Bill Pollard and Billy Rogers, welterweights.

The main event finds Jackie Blair, outstanding contender for the state featherweight crown, going against Trinidad Perez, who moves into the Southwest from a successful West Coast campaign.

FIRST BLUE IMPS DURHAM, N. C. —(AP)—Duke University this season is fielding its first freshman football squad since 1942 and the Blue Babies will play six game schedule. The yearlings will open on Sept. 24 against Wake Forest and will also meet Navy, William and Mary, East Carolina Tech, North Carolina State and North Carolina. John (Red) Hennemer, former Duke grid star, will coach the squad.

Lime dressing for the soil can be traced to the earliest records of British agriculture.

The newborn young of a large kangaroo is about the size of a peanut, yet may grow to be more than six feet tall and weigh 200 pounds.

Idaho's state flower is the syringa.

Braves Shutout Cardinals 2-0 As Spahn's Pitching Sparkles

By the Associated Press The comeback of Warren Spahn and the ability to win on the road have been primarily responsible for keeping the Boston Braves on top in the five-team National League pennant race.

No more striking example of this was given than last night when Spahn hurled the Braves to a 2-0 shutout triumph over the Cardinals in St. Louis. The victory put the Braves four games ahead of the second-place Dodgers and four and a half in front of the Redbirds.

Spahn, who has won only 11 games, got off to a poor start this year but he has pitched brilliantly the past two weeks.

The victory was Boston's 98th on the road compared to only 21 losses.

Cleveland's rebounding Indians regained first place in the torrid American League race, pushing the Boston Red Sox down into second place with a 9-0 lacing. The defeat dropped the Red Sox half a game behind the Tribe.

The third-place New York Yankees moved within a game and a half of first place, knocking off the Chicago White Sox 8-2.

Freddy Hutchinson gained his fourth triumph over the Philadelphia Athletics, pitching the Detroit Tigers to a 10-4 victory.

Unleashing their biggest attack of the season, the Washington Senators hammered out a 14-6 victory over the St. Louis Browns.

The Dodgers moved into second place, half a game in front of the Cardinals, as they outgassed the Pirates, 11-9, in Pittsburgh.

Scoring eight runs in the top of the ninth, the New York Giants came from behind to defeat the Chicago Cubs 9-4 and take over undisputed possession of fourth place.

Howie Fox pitched the Cincinnati Reds to a 5-1 triumph over the Philadelphia Pilots.

Austin Leaves For Sectional Baseball Meet

AUSTIN —(AP)—Austin, victor by an 8-5 score over New Orleans in the Region 6 American Legion junior baseball tournament, leaves tonight for the sectional tournament at Charleston, S. C.

The Buddies scored five runs in the seventh inning as they captured the first regional title ever won by a Texas team.

Tiny Jackie Brinkley held New Orleans to one hit in the first five innings and held on for a seven-hit job for the night and his third victory of the tournament. Sports writers voted him the most valuable player of the playoffs.

Three singles, two walks, and a triple by Richard Robertson accounted for Austin's five-run outburst in the seventh.

The Charleston tournament starts Monday and lasts four days.

Canada's newspaper production in 1946 was over five times that of the United States.

Mayeres to Play With Texans In Oil Bowl Tomorrow Night

WICHITA FALLS — Carl "Red" Mayeres, outstanding grid star from Pampa, with other stalwarts from Texas and Oklahoma, winds up practice here today for the annual Oil Bowl football game tomorrow night.

Mayeres, named all-district in I-AA competition last year and selected on several all-state teams, starred for the Harvesters last season under Coaches Tom Tipps and Aubra Nooncaster. The Pampa tutors worked from a "T" formation last year and the same type of offensive will be used by the Texans here tomorrow night.

In the annual North-South battle at Abilene, Bobby Dodd of Georgia praised Mayeres highly for his line-cracking abilities. The flaming haired athlete led District I-AA in scoring last season with 97 points. He was one of the top ground gainers for the North in the recent tilt, won by him and his teammates 4-0 on two safeties.

Mayeres has been under the guidance of Joe Golding of Wichita Falls and Cooper Robins of Breckenridge the past week. The Oklahoma coaches are Ed Brady of Enid and L. D. Bash of Dezey.

The 24 Sooner gridgers will find themselves playing boys younger than themselves, since the Oklahoma Intercollegiate League permits high schools to play boys until they are 21.

Loop Expansion Is Suggested by A. B. Chandler

HOUSTON —(AP)— Baseball Commissioner A. B. (Happy) Chandler suggests an expansion plan for the major leagues that eventually would create three loops of eight clubs each.

Here to attend "Happy Chandler Night" at Buff Stadium, home of Houston of the Texas League, Chandler declared that proposals for enlarging the big leagues are under constant study but that such expansion would be slow.

In an interview, he cautioned against optimism for including such cities as Houston, Los Angeles and San Francisco any time soon but said that the continued expansion study had resulted from the rapid growth of these cities along with Milwaukee, Montreal and others.

He plan would increase each of the two major leagues from eight to 10 clubs each and "then see if it works."

"If it works, then expand to 12 teams and then, perhaps, split the 24 teams into three major leagues," he said.

But, he added, "we must be certain new cities can support a major league team financially."

Chandler today went to Uvalde, to visit his old friend, John Garner, the former vice president.

Prize Pup

To celebrate his birthday, New York pet shop owner Billy Ross gave away 50 pups to children who wrote the 50 best letters on why they wanted a dog. Lawrence Levy, 8, author of the winning letter, meets his prize pup.

FOOTBALL BROWNS PACK 'EM IN

CLEVELAND —(AP)—The All-America Conference Champion Cleveland Browns, in the two years since the new pro grid loop was formed, have played before 1,440,819 fans.

The Browns, champs both years, drew 682,455 in 1946 and 758,364 last year. The 1947 total saw 392,760 witness the seven home games of the club, 270,619 the seven visiting tilts, 33,106 exhibition games and 61,879 at the playoff contest against the New York Yankees at Yankee Stadium.

WASH. INDIANS SIGN

WASHINGTON, D. C. —(AP)—The Washington Redskins are the only team in the Eastern Division of the National Football League to hold a double advantage over western members. Since they joined the loop in 1937, the Redskins have beaten western teams 23 times and lost only 16 times. The next best eastern team is New York, with 16 victories, 13 losses and four ties in inter-sectional play.

The Crown still owns more than 90 percent of Canada's forest areas.

6,000 Children to Attend Texas State Fair, Dallas

DALLAS — Sixty thousand 4-H Club members, Future Farmers and Future Homemakers long will remember Saturday, Oct. 16, at the State Fair of Texas here Oct. 9-24.

That will be a day dedicated to their honor. It will be a day set aside for their activities and the awarding of honor medals, the Fair's rural youth committee has announced.

Headed by James Aston, vice president of the Republic National Bank of Dallas, the committee already has started preparations to make Oct. 16 the greatest rural youth day in the history of State Fair. Last year, the day drew 25,000 4-H Club boys and girls, 10,000 Future Farmers and 10,000 Future Homemakers to Dallas.

"We are going to increase that attendance by 50 percent this year," Aston announced. "We've set a goal of 32,000 4-H Club members, 14,000 Future Farmers and 14,000 Future Homemakers. Every county extension agent is responsible for his share of the total."

Each county 4-H Club and each Future Farmer and Future Homemaker chapter that brings the largest group the most miles to the State Fair on Oct. 16 will receive an attendance prize of \$100.

Dallas business organizations will be host to the boys and girls at a noon luncheon. Another feature of the day will be the State 4-H Club dress revue. One hundred club girls will compete for honors in the revue at the Hall of State from 10 until 12 a.m.

D. A. Hulcy, president of the Dallas Chamber of Commerce, will present 50 of the outstanding boys and girls with State Fair of Texas Honor Award medals. Fourteen 4-H Club boys, fourteen 4-H Club girls, twelve Future Homemakers and ten Future Farmers will receive the medals at a luncheon in the picnic pavilion at Fair Park.

"The emphasis that the State Fair of Texas is placing on youth is the greatest and most important phase of the Fair's program," John W. Carpenter of Dallas, chairman of the Fair's Junior Livestock Auction Sale Committee, said. "It is one of the fundamental things in our life."

TOKENS TO 4-Hs
WASHINGTON — (AP) — Cards carrying the official Army and Air Force seals will be given as tokens of appreciation to volunteers rejected for physical reasons, military officials said today.

Mexico in Political Boil Again

MEXICO CITY — (AP) — Devaluation of the peso has stirred political and personal enemies of President Miguel Aleman and his associates into feverish activity.

Wild rumors of shootings and cabinet resignations have floated around for a month. So far as can be learned, most of the gossip is only gossip but there is uneasiness among many people. They don't fear armed revolution, but they wonder if ripples on the surface indicate a dangerous undertow in political waters.

Neither the President nor his associates have given substance to rumors of violence by denying them. One of these rumors was an attempt to kill the President.

Responsible men laugh at the stories. Aleman supporters put up "don't whisper" posters in an effort to halt rumors.

President Aleman, two years in office, seemed some months ago to have lost the strong but flexible leadership he had showed. Two weeks ago he appeared to be regaining strength in his swift, comprehensive plan to hold and then to lower the cost of living.

He got the public support of farm and labor organizations and the people for quickly established food markets where prices are fixed well below commercial levels. He made price raising a sort of disloyal act. For the present the markets function, but whether true or not there are complaints of short weight and poor quality.

Next week Aleman is to appear before Congress to read his annual report. Many people expect him to announce some cabinet changes. They count on his report to reassure the nation and to pull it together for some good teamwork in getting the country on its feet, stop luxury spending and inspire more people with the need—and the possibility—of diminishing corruption which Mexicans privately and publicly say exists.

The President has implied there is much corruption by his emphasis on the vital necessity of honesty. Many officials and scores of police have been kicked out for corruption.

At the fall of the peso from 4.85 to the dollar to 7.8 and even 9 in the black market there was an outburst of demands for reduction in the cost of living. Nearly all imported goods and such domestic things as the tortilla were marked up. Labor leaders engineered organized demands that "something be done." There was talk of many cabinet changes.

Ramon Beteta, secretary of the treasury, promptly denied he would resign. President Aleman supported him and declared conditions and not Beteta forced down the peso.

The end of July the peso was around 6.80 to the dollar and it

Leaves From a Correspondent's Life Note Book

By DON WHITEHEAD (for Hal Boyle)

WASHINGTON — (AP) — All during the war years, Allied soldiers thought they were listening to a young, beautiful woman when they tuned in on "Axis Sally" broadcasting from Berlin.

Axis Sally had that kind of voice—the kind that weaves an illusion for tired and lonely men who have been months and years away from home.

I remember the first time I heard Axis Sally. Montgomery's Eighth Army was chasing Rommel's Afrika Korps across the Western desert toward Bengasi and defeat in Tunisia.

One night at Halfaya (Hell Fire) Pass, tired British soldiers gathered around a radio after supper. A signalman tuned in a BBC program. It was a boreome discourse by a Mr. Heathstone Witherington, or somebody with a name, on dahlia culture in Kensington.

"Hell, Jock," a Highlander growled, "let's hear Axis Sally."

Jock spun the dials and in a few moments the soft, pulsing strains of an American melody floated across the desert.

When the music ended, a throaty woman's voice whispered words intended to stir longing and desire and homesickness in the hearts of those who listened.

The voice talked of home and wives and sweethearts—and how foolish it was to fight the Germans.

It was a voice that tried to seduce and break the hard spirit of the desert rats so far from home.

Oh, they liked Axis Sally—those tough men of the desert. They liked her American brand of music and her warm voice that made them forget for a moment the cold winds of the desert night—just because it was feminine.

But they laughed at Sally's commercials—the sloppy merchandise she tried to sell them.

And now they tell us Axis Sally is no glamor-gal at all. The government says she is American-born Mildred Elizabeth Gillars—a tired-looking, gray-haired woman of ordinary figure and features who is nearing the half-century mark in age.

If Mildred Elizabeth Gillars is

Shell Moving Office To Corpus Christi

HOUSTON — (AP) — An official of Shell Oil Company said Shell's division office in San Antonio "is time" will be moved to Corpus Christi but will be replaced by a district office.

"Some employees will be transferred to Corpus Christi," the spokesman said, "but it will take time. It is simply a matter of Corpus Christi becoming division headquarters and San Antonio becoming a district office."

The number of diesel locomotives in the United States increased from 1,267 before World War II to more than 8,000 in 1948.

Axis Sally—then a lot of men around the world are going to haul down that mental pin-up picture.

21 HURT BY BRONC

FUEBLO, Colo. — (AP) — Twenty-one persons were injured, three seriously, Tuesday night when a bucking horse threw its rider and crashed into the bleacher section at the Colorado State Fairgrounds.

30 CHILDREN DROWN

TOKYO — (AP) — Kyodo news agency reported today that 30 school children were believed drowned when water swept away a bridge they were crossing on Shikoku Island.

All men who have passed their 18th birthday, but not yet reached their 20th, begin registration on Aug. 30. Men in this country, Alaska, Hawaii, Puerto Rico and the Virgin Islands must register, according to President Truman's proclamation.

Man Robbed Of Car, Cash

Melvin McCabe, about 25, an employee of Warner Oil Company, was robbed of several dollars and his 1938 dark green Plymouth sedan by two hitchhikers in McLean early yesterday evening, Charley Nicholson, deputy sheriff at McLean, reported today.

According to McCabe's story, he picked up a man and a woman hitchhiker on the outskirts of McLean about 6:30 p. m. He told them he wasn't going far, but that he would take them across town as far as he was going.

About the middle of town, one of them pulled a pistol on McCabe and robbed him of three or four dollars cash. They took control of the car and drove out south of town, all the while threatening to kill McCabe if he should make any outcry to attract attention.

About two miles southeast of town, McCabe saw his chance and jumped clear of the car. He ran to a nearby house to call for help, and when he last saw the car it was headed southeast.

No very clear description of the hitchhikers was obtained, Nicholson said, except that the woman was dressed in man's clothes.

Nicholson said he found a place in the road about 5 miles south of town where the car had turned around. He believes the thieves hid in nearby bushes until dark and then returned back through town.

Pampa police and sheriff departments in Gray and surrounding counties have been alerted, but no word had been received of the hitchhikers or the car late this morning.

McCabe's car is described as a dark green, four-door, 1938 Plymouth sedan, license A-B 2285. Anyone seeing this car is asked to call the law enforcement agencies in Pampa or McLean.

Pioneer Resident Of McLean Dies

Funeral services were being held this afternoon at McLean for Mrs. Rebecca Lou Simmons, 76, resident of McLean since 1916 who died early Wednesday at the home of her sister, Mrs. J. W. Smith, McLean.

Mrs. Simmons was a native of Tallapoosa, Ala. She came to McLean in 1916 from Georgia.

Survivors included the sister and a brother, George Tapley, of Arlington, Va.

Burial was to be in Hillcrest Cemetery, McLean, under the direction of Womack Funeral Home.

Worry of FALSE TEETH

Slipping or Irritating? Don't be embarrassed by loose teeth slipping, dropping or wobbling when you eat, talk or laugh. Just sprinkle a little FASTEREEM on your plates. This pleasant powder gives a remarkable sense of added comfort and security by holding plates more firmly. No pummy, gooey, pasty taste or feeling. It alkalizes. Get FASTEREEM at any drug store.

A bowl of your favorite cheese whipped to creamy consistency with Morton Salad Dressing. . . And a generous supply of Morton Texas Corn Chips for a light, crisp, taste treat.

Alanreed-Lefors Road Progresses

The 10.5 mile long farm-to-market road from Alanreed north toward Lefors is in the final stages of being a paved reality and a contract for the job is expected to be let sometime in September, County Judge Sherman White said today.

Complete plans and specifications are now in the hands of the State Highway Department at Austin where, yesterday, according to an Associated Press dispatch, the S. S. Oldt Co., Dallas, was low bidder for the North McClellan and McClellan Creek bridges and approaches. The bridges are on the Alanreed-Lefors road.

Judge White said he believed the Highway Department would call for bids sometime in September and that a contract may be let the latter part of the month.

Four Local Horses Take Fair Honors

The Top o' Texas colors flew high this week in Pueblo, Colo., when four Pampa horses, all belonging to Dr. R. Malcolm Brown and Carl Bean, collected one first, two seconds and a third at the State Fair of Colorado.

Chubby III placed first in the aged stallion group in the quarter horse show. He was also grand champion at the Top o' Texas Quarter Horse show this year and.

Pulling second places, both in the Palomino show, were Calyla in the aged mares class, who was also reserve champion in her class here during the recent Palomino show, and Golden Bill, a yearling colt placed second in his Palomino division. Placing third in the two-year-old stallion class was Somy Boy.

Dr. Brown told The News all of these horses placed in the Colorado fair in practically the same order as they placed here in the Top o' Texas event.

Section Worker Killed by Train

Ysidro Garcia, assistant foreman of a section crew for the Santa Fe, died this morning en route to the Amarillo St. Anthony's Hospital in a Drenkel-Carmichael emergency ambulance.

Mr. Garcia was riding at the front of a section car three miles west of Panhandle about 7:30 a. m. today when it suddenly derailed and threw him on the tracks ahead of two other section cars.

The other two cars ran over him, cutting off his left leg, and causing skull fractures and internal injuries.

He had resided at Panhandle for the past 20 years. A member of the Catholic Church, he is survived by his wife and several children.

Utility wires hum because wind vibrates them like the strings of a musical instrument.

WEATHER

(Continued from Page 1)

of the corn belt but forecasters said none was in sight immediately.

The North-Atlantic and New England states got some of the high temperatures yesterday. Hartford, Conn., sized as the mercury zoomed to 108. In Huntington, W. Va., thermometers registered an even 100, the same hot mark reported at Alpena, Mich.

New York and Boston got a scorching 96 reading while Philadelphia felt no cooler with a mark of 95. Chicago's 95 was the hottest Aug. 25 in the Weather Bureau's history and the fourth consecutive day of 90 or above.

Detroit's high was 98 and Cincinnati wilted under the same torrid temperature. Cleveland was in the same condition with a high of 97.

At Hillsboro, Wis. the former Lillian Machovec of Elroy fainted twice as a result of the heat Tuesday during her wedding ceremony at St. Aloysius Roman Catholic church. She was carried out twice by the bridegroom, Raymond Pisha, but the ceremony was completed on her third trip to the altar.

CHURCHES

(Continued from Page 1)

Samuel McCrea Cavert of New York, in a paper prepared for a visitors' conference in conjunction with the assembly of the World Council of Churches.

"That this concern for unity should exist and be gaining in strength is all the more remarkable in view of our historic emphasis for freedom and diversity," said Cavert, who is general secretary of the Federal Council of Churches of Christ in America and a consultant at the World Council of Churches.

He said that although there are church groups in the United States in which the sectarian spirit is marked, the outlook for a world church has begun to capture the imagination and loyalty in most American churches.

Neither the Roman Catholic nor the Russian churches are represented here, nor are the Southern Baptist Convention of the United States and the Missouri Synod of the Lutheran Church.

The world council itself continued secret deliberations on the Christian stand toward such questions as communism, pacifism and Palestine.

BERLIN

(Continued from Page 1)

munist demonstrations were planned.

Police sought to reason with the crowd, telling them to disperse and point to a demonstration since the assembly meeting was put off. But the demonstrators charged ahead.

"I don't think they planned a real push to try to seize the city hall building," Dr. Friedman told reporters. "But they aimed at panicking us and scaring us out of the building, then they could say that we deserted and could not be relied upon to run the city."

POLIO

(Continued from Page 1)

the bulbar-type polio, which paralyzes the respiratory system. Only a week ago his condition was "serious." Jimmie now has reached the stage where he can swallow somewhat and talk with effort.

Jimmie Crowover, 19-year-old son of Mr. and Mrs. Morris Crowover, 607 S. Somerville, is in the same ward with the Parker boy. The Crowover boy's condition also is much improved.

DRAFT

(Continued from Page 1)

Tuesday, Sept. 14.

8. Persons born in 1929 will register on Wednesday, Sept. 15, or Thursday, Sept. 16.

9. Persons born in 1930 before Sept. 19, 1930, will register on Friday, Sept. 17, or Saturday, Sept. 18.

10. Persons born on or after Sept. 19, 1930, will register on the day they are 18 years of age, or five days after.

Of the major U. S. cities Washington with 115 persons for every theater seat, Chicago with 10.5 persons per theater seat and New York with 10.3, have the smallest number of theater seats per unit of population.

The Red Dean Denied Visa To Enter U.S.

LONDON (AP)—Dr. Hewlett Johnson, the Dean of Canterbury, said he had been refused a visa to enter the United States for lecture engagements.

Dr. Johnson, for years a defender of the Soviet way of life and known as "The Red Dean," issued his statement through the London Daily Worker. He is a member of the editorial board of that Communist newspaper.

The U.S. Embassy declined comment.

Dr. Johnson said the visa was refused because the embassy disapproved of the American-Soviet Friendship Society which was sponsoring his tour and an address at New York's Madison Square Garden Nov. 3.

(In Washington, Press Officer Michael McDermott said the State Department has no objections personally to Dr. Johnson. But, he added, "it would regard a visit under auspices of this organization as not in our national interest.")

(The Soviet-American council, McDermott said, is on the attorney general's list of subversive organizations.)

(McDermott said he believed Dr. Johnson would be granted a visa if he wants to come to this country "on his own hook," rather than "under sponsorship of the Soviet-American organization.")

Although he flies away for hours every day, "Chirp," a 2-month-old mockingbird, always comes home at night. Walter Blocker, 8, who feeds the bird bread from his mouth, adopted "Chirp" when he fell out of the nest in New Orleans, La.

Labor Shortage In Pampa Area

A labor shortage exists in the Pampa area at the present time, L. P. Fort, local manager of the Texas Employment Commission, said today.

Job openings have been on the increase during the present week, with a shortage of able-bodied men for all types of labor. Such jobs as pipe line laborers, auto mechanics, sales people and domestic help seem to need laborers immediately.

Few openings are being received for women except in domestic work. Future prospects, such as the demand for harvest help in gathering the feed and cotton crops, do not seem very encouraging. Even at the present it is difficult to get tractor drivers to plow wheat land, and about 12 cotton gin operators will be needed in the near future, Fort said.

In the coming months an increase for labor of all kinds may be expected when several million dollars in construction will get underway in and around Pampa, Fort concluded.

The Bunker Hill and Sullivan Mine in Idaho, one of the great zinc and silver producers, was discovered in 1886, when a prospector's burro stumbled.

Argentine Quake Kills One; Ruins Several Homes

BUENOS AIRES (AP)—A violent earthquake shook the mountainous region of Northwestern Argentina early Wednesday, but reports indicated damage was only slight. Only one death was reported.

The epicenter was about 40 miles north of Salta, where the residents fled into the streets in their nightclothes. One man died from a heart attack there, and a few one-story buildings collapsed. The shock also was felt in neighboring Tucuman, Jujuy and Santiago Del Estero provinces.

The quake, registered here about 3:12 a. m., equaled in intensity the one which occurred Jan. 15, 1944, in San Juan province and which caused heavy loss of life and property damage.

Pally Notes Urged Sent To Mexicans

AUSTIN (AP)—A barrage of "friendship letters" from Texans to people in Mexico was suggested by Tom Sutherland, executive secretary of the Good Neighbor Commission.

Sutherland, home from a trip to Mexico, said he was "shocked to find the picture of Texas painted so black in the minds of Mexicans who have never been here."

He said he thought it would help if Texans with friends and relatives in Mexico would bombard them with letters telling about "true conditions" in respect to discrimination and what Texas is trying to do to eliminate such practices.

Pampa News, Thursday, August 26, 1948 PAGE 9

Sutherland said that he could not understand why the press in Mexico would play up one news story about some business establishment here refusing service to Mexicans, and not emphasize the fact that there is no discrimination in thousands of establishments.

Friendship letters would help counteract that situation, Sutherland said.

The watch and clock industry was introduced into Switzerland by Voltaire.

Britons in Berlin Face Beer Rationing

Indirect result of the Berlin crisis is this scene, with Mrs. Mary Coleman of London, wife of a British soldier stationed in the German capital, getting her weekly ration of beer at the commissary. West Berlin's only brewery is operating only part time, since electricity is curtailed, and all British adult personnel are being rationed to four bottles a week. (Photo by NEA-Acme staff correspondent Jack Chitham.)

Church Council Lays United Plans

AMSTERDAM. The Netherlands —(AP)— The World Council of Churches, began formulating the churches' stand against world disorder, with the East-West clash uppermost in the discussions. Reporting on the section dealing with "the church and international disorder," John Foster Dulles, U.S. Presbyterian lay delegate and Republican Party adviser on foreign affairs, told the assembly that the Soviet Communist regime is not one of peace. On the other hand, Prof. Joseph Hromadka, of John Hus University in Western Communist-controlled Czechoslovakia, predicted the end of Western supremacy in the international order. Official quarters reported the Russian question will form an important part of the churches' pronouncement on world disorder Sept. 4.

CHINESE LOAN RATE UP
SHANGHAI —(AP)— The Shanghai Bankers' Association jarred the government's attempt to instill confidence in the new Chinese currency by setting the interest rates on loans at 15 percent a month.

Stalin Proposes Big Four Meeting On Berlin Money

LONDON —(AP)— An informed diplomatic source said Wednesday LONDON —(AP)— An informed diplomatic source said Wednesday Prime Minister Stalin has proposed a Berlin conference of Big Four financial experts to work out agreement on the control of the city's currency.

The United States, Britain and France, the source said, were considering the suggestion in talks this week and their envoys in Moscow have recommended acceptance.

Such a proposal could mean Russia has agreed in principle to Western demands for a share in administering the German capital's economy.

It also could mean Russia recognizes the Western Powers' right to continue occupying Berlin — a right Moscow has challenged since the decision to set up a West German government was taken.

The informant, who follows the East-West negotiations in Moscow from official reports, would not permit himself to be identified even by initials. By four power accord the Moscow talks are being conducted in secret, at least officially.

Stalin made the proposal at Monday night's nearly five-hour-long Kremlin conference, the source said.

Someone burns to death in this country once every 65 minutes.

Gas Company Ask Service Increase

WASHINGTON —(AP)— A geologist testified recent discoveries have added to the gas reserves from which the El Paso Natural Gas Company would draw to increase deliveries to California, Arizona and New Mexico.

The company wants Federal Power Commission approval for a proposed pipeline expansion to increase its cubic westward by 180,000,000 cubic feet daily.

J. Faison Dixon of Pelham, N.Y., geologist and engineering consultant, estimated gas reserves of the company in Texas and New Mexico are sufficient to meet the additional load for a minimum of 25 years. He testified a new discovery last week enlarged the proven area of the Keystone Field in Winkler County, Tex.

Grocer Rout Burglars With Empty Pistol

LEAVENWORTH, Kans. —(AP)— Charles Vanvey, a grocer, was locking up his store Saturday night.

Two men approached him, demanding money. Vanvey went back into the store with them, reached in a drawer and pulled out an automatic pistol instead of cash.

The two men fled. Vanvey told police, "I'm going to try to get some bullets for that gun."

Some 250 billion cigarettes are smoked a year.

Decision of Court Brings On Confusion

By MAX HALL (for JAMES MARLOW)

WASHINGTON —(AP)— The long, protracted campaign of the Immigration and Naturalization Service to expel people from the country on grounds of communism has been thrown into confusion.

Here is the reason: Federal Judge T. Alan Goldsborough has ruled that the service's method of holding hearings—presided over by immigration inspectors—is illegal under the Administrative Procedure Act of 1946.

He ordered it not to go any further in deporting Gerhard Eisler, Irving Potash, John Williamson, Ferdinand C. Smith, and Charles A. Doyle unless it changes its methods and starts over.

They insist that the Administrative Procedure Act does not apply to immigration hearings. For a time they stopped all hearings entirely.

They have no intention of changing their whole system unless forced to do it. They have appealed the ruling. But it will take more than a year to get a Supreme Court decision. Meantime, what should they do?

Apparently, they have resolved to proceed cautiously in other cases, following their traditional method—even though, if Goldsborough turns out to be correct—all their work will be overturned.

They were somewhat encouraged because of a ruling here July 28 by another federal district judge, Alexander Holtzoff. The case involved the legality of immigration hearings, and Holtzoff said the Administrative Procedure Act doesn't affect them.

Holtzoff's ruling does not change Goldsborough's injunction in the Eisler-Potash-Williamson-Smith-Doyle case.

Nevertheless, immigration officials have decided to hold a hearing Monday at New York in the case of a man known as J. Peters. It will be the first deportation hearing on communism charges since the Goldsborough ruling.

Peters, like Eisler and the others, is an alien. Against all these people the immigration service has charged: (1) That they are Communists; (2) That the Communist Party advocates the violent overthrow of the government.

The immigration law provides for the expulsion of aliens who belong to organizations which believe in violent overthrow. The immigration service has taken many setbacks in trying to prove its claim that Communist membership is sufficient reason to deport an alien from this country.

An iron ore field in Labrador is believed to be as rich as and larger than the fabulous Mesabi deposits in Minnesota.

Junction Ranch Entry Wins East Texas Horse Show

GLADEWATER, Tex. —(AP)— Major King took home to the M & M Ranch, Junction, Texas, the grand championship of the East Texas Quarter Horse Show.

The horse is owned by Mike and Millie Leonard of Dallas and Junction. The reserve stallion title went to Billie Mann, owned by Leonard Harper of Prosper, Texas. Miss Sissy Britches, owned by Betty Jean Bechtel of Fort Worth, was named grand champion mare. The reserve champion is Ward's Judy, owned by M. H. Ward of Alvin, Texas.

Top money in the 220-yard straightaway cowboy racing under stock saddles was paid Flying Dee, owned by D. E. McCauley of Center, Tex. The average time was 12.3 seconds. So-Slow, owned by B. G. Hooker of Teneha, Tex., was second.

The cutting horse title went to Cindy, owned by Red Albright, Knox City, Tex.; the roping title went to Billy Mann, owned by Leonard Harper, Prosper, and the cowboy obstacle race title went to Freddy Bailey, owned by L. E. Shawver, Millsap, Tex.

THURMOND SEES SUCCESS

WASHINGTON —(AP)— Gov. J. Strom Thurmond of South Carolina, the Dixiecrat nominee for president, says he believes the Dixiecrats will carry "most, if not all of the Southern states, and some others in addition." He made the statement Sunday night in a transcribed radio interview.

Pampa's Future

and after all, Pampa's future is your future

Shown above is Mr. Hugh Peeples, Manager of Store No. 1, Grocery Department and Mr. Frank Terhune, Manager Store No. 2, Grocery Department.

45 employees are employed at the **IDEAL FOOD STORES**. MOST OF THESE EMPLOYEES ARE HOME OWNERS IN PAMPA. **MR. VERL HAGAMAN** Supervisor

LOCATED IN PAMPA IN 1940

The Ideal Food Stores moved to Pampa eight years ago... back in 1940 and since that time, they have been serving only the best in foods and meats. Today, they're drawing people from a wide distance into the city of Pampa to take advantage of their values.

Shown above is Mr. Hansford Owsley, Manager Market No. 1 and Mr. Lewis Epps, Manager Market No. 2.

The two big Ideal Food Stores in Pampa are specializing in quality groceries, meats and produce, buying from local farmers when it is possible. The manager, supervisor and most of the employees are home owners in our city.

New! Breeze!
HARD WATER SUDS DISCOVERY!

Makes your pretty washables...and you **Look Younger!**

NEW, YOUNGER, GAYER FRESHNESS FOR YOU...

Here's Why:

1. No soap scum to gray or yellow your nice things... new Breeze freshness for all your pretty washables... Dresses, underthings, stockings and woolens—all stay fresher and gayer. And Breeze is milder than the mildest soapsuds.
2. New Breeze is the only fine-fabric product containing a Special Brightening Ingredient... lovelier, brighter colors... lovelier you!

Breeze gives colors amazing new brightness—more brightness than other suds—makes pretty washables and you look younger.

For that Breeze-Fresh Look from top to toe... say "Breeze, please!"

Breeze

New suds for that **Younger Look** —from Lever Brothers Company

Pasteurized Jelly Preserves Newest Wrinkle

By LOUIS FRANKE Extension Editor
Ran across a new wrinkle in food preservation the other day when I was served some raspberry jelly which had never been on top of a stove.

The new type of jelly is not heated at any stage, except for flash pasteurization as is used for milk.

This process was worked out by the USDA Regional Research Laboratory at Albany, Calif. Jelly by this method is already in commercial production on the West Coast.

As I got it, the fruit is mashed or ground into a puree, pasteurized, and stored in quick freezer plants. Sugar or acid is added to taste as needed.

It has a lot of advantages: No slaving over a hot stove for long periods is necessary. No failures—no watery jelly on time and sugared the next. You get pretty close to perfect jelly every time.

No boiling off of the gelatin. If you start out with a gallon of puree, you end up with pretty close to a gallon of jelly.

And most of all, it's a quality product. The thing I liked most about the jelly was its aroma. The jelly I ate not only looked like raspberry and tasted like raspberry, it smelled like raspberry. And fresh raspberry at that.

The people who are now making the jelly on the West Coast store it in freezer lockers. It's put up in paper cups, anywhere from quart sizes down to little individual servings for hotels and cafes. It will keep indefinitely in the lockers; and once it's sold for home use, it will hold up for several weeks in a refrigerator.

So far most of the fruits normally used for jellies have been successfully preserved by the new process. Plum, peach, cranberry, apple, quince, strawberry and apricot have done OK.

They haven't tried two Texas standbys—dewberry and blackberry but the people I talked with think they ought to go fine.

They found out one surprising thing, and that is that cantaloupe makes a swell jelly with the new process. Of course cantaloupes have always made a fair jelly, but few people used them, because it took about forty cantaloupes to make a pint of jelly by the boiling-down system.

So far the new process hasn't been adapted to home use, but by the Western Research Laboratory people said they were working on it. Louise Mason, food preparation specialist of the Texas A&M College Extension Service, is keeping in touch with developments.

She hopes that by the next jelly season—or anyhow by 1950—Texas county home demonstration agents will have details of the new system for home use. Farmers to apply conservation

Farm in Tucumcari, N. M. To be Remade on Labor Day

TUCUMCARI, N. M. — The remaking of the J. C. White 40-acre irrigated farm near here, between dawn and dusk on Labor Day, Monday, Sept. 6, is an event that can mean thousands of dollars to farmers of the Southwest. L. C. Strawn, supervisor of the Canadian River Soil Conservation District, said.

"Just about every soil and water conservation practice needed on irrigated land will be applied on the White farm during this spectacular demonstration, Strawn said.

"In planning the remodeling of this farm, Soil Conservation Service technicians have analyzed the capability of every acre and have designed conservation practices that will put each acre to its best use. It is expected that this demonstration will lead many individual farmers to similar practices on their own land," Strawn continued.

When the supervisors of the Canadian River Soil Conservation District decided to stage this demonstration, which will be the first complete remaking of an irrigated farm in a day in this section of the country, they selected the White farm because it is subject to severe damage by erosion and is convenient to reach, being only 8 miles northwest of Tucumcari.

White, a 25-year-old war veteran, plans to put most of his remodeled farm in irrigated pasture and hay for a dairy herd.

During the day, the spectators will see work done that would require years of labor on the part of an individual operating single-handed. All types of machinery, ranging from huge bulldozers to small farm-type equipment, will be used in order to give farmers an idea of what they can do to conserve soil and water and thereby increase crop yields on their own farms, according to Strawn.

Most of the equipment and labor will be donated for the remaking of the White farm, and the Tucumcari Police Department will serve an old-fashioned barbecue dinner at a nominal cost.

The demonstration is being sponsored by the Canadian River Soil Conservation District in cooperation with the Soil Conservation Service, Extension Service, and a Bureau of Reclamation.

Teen-Age Corn Detasselers To Receive Quarter Million

This summer hybrid seed-corn growers will pay out a quarter of a million dollars to a small army of teen-age corn detasselers. Capper's Farmer says that some 80,000 youngsters will earn cash for giving the growers a hand in the important detasseling job—the final step in the 10-year process of developing hybrid seed.

"During the detasseling season which lasts from three to five weeks," an article in the nationally-circulated farm magazine reports, "boys and girls from city and country make their headquarters at the camps of seed corn growers. They have lots of fun in the fields, but they also learn how to be careful workers. They have to do a good job or the whole field may be condemned by inspectors. Corn in such a field can't be sold for seed."

"Detasseling crews walk down the corn rows, or ride on spidery looking contraptions pulled around a tractor. Tassels are pulled or cut from the plant in six to eight local contractors, is building the

dams. Tom O'Bryan is preparing a site for a windbreak. Trees will be planted on a deep soil which is best adapted for their growth. The ground is being cultivated this summer. The types of trees the Richardson Grain Elevator District can order include Austrian pine, Chinese elm, apricot, catalpa, Mulberry and cedar. A limited supply of the trees may cause only a part of the orders to be sent at present.

The Richardson Grain Elevator at Wheeler has some superphosphate available, the Soil Conservation District said. If this substance is applied with a grain drill it will not have to be stirred. The fertilizer is slightly acid so the drill should be washed immediately after application to prevent corroding.

Soil Saving Plan Made by Farmers In Roberts County

Two Roberts County farmers are planning water and soil conservation measures in the near future, the Roberts County Soil Conservation District announced.

Harold Osborne is starting on the construction of three dams to be built for erosion control and stock water. When the dams are completed Osborne will be enabled to obtain better grazing results by having a more equal distribution of water. Willis Clark, practices on their own land," Strawn continued.

When the supervisors of the Canadian River Soil Conservation District decided to stage this demonstration, which will be the first complete remaking of an irrigated farm in a day in this section of the country, they selected the White farm because it is subject to severe damage by erosion and is convenient to reach, being only 8 miles northwest of Tucumcari.

White, a 25-year-old war veteran, plans to put most of his remodeled farm in irrigated pasture and hay for a dairy herd.

During the day, the spectators will see work done that would require years of labor on the part of an individual operating single-handed. All types of machinery, ranging from huge bulldozers to small farm-type equipment, will be used in order to give farmers an idea of what they can do to conserve soil and water and thereby increase crop yields on their own farms, according to Strawn.

Most of the equipment and labor will be donated for the remaking of the White farm, and the Tucumcari Police Department will serve an old-fashioned barbecue dinner at a nominal cost.

The demonstration is being sponsored by the Canadian River Soil Conservation District in cooperation with the Soil Conservation Service, Extension Service, and a Bureau of Reclamation.

rows, then two rows are skipped. Pollen from the tasseled rows falls on and fertilizes the silk of ears on plants which were detasseled. In one trip of the machine eight to 12 rows will be detasseled. The corn harvested from the stalks without tassels is the hybrid seed corn which farmers plant.

"A crew riding one of the machines," the article continues, "has to play a game of teamwork and rhythm so one worker doesn't hold up the entire group. A smooth, even pull does it. If you break the tassels off, a small piece stays to grow out and spread pollen later. Your technique will be bad too, if you pull off too many upper leaves with the tassel. But it isn't too hard to get the hang of it. When you can pull 500 or more tassels an hour, you'll be rated good."

"In many of the larger camps, beds are set up in huge seed store rooms. It's clean and it's comfortable. After supper you can climb into one of the company trucks and ride to the swimming pool, or to the movies. And the work pays good money. In most camps a bonus is given to all those who last the season out. A typical wage scale is 60 cents an hour for the first 40 hours and 90 cents for the remaining. On the seventh day a \$1.20 is paid."

Tom O'Bryan is preparing a site for a windbreak. Trees will be planted on a deep soil which is best adapted for their growth. The ground is being cultivated this summer. The types of trees the Richardson Grain Elevator District can order include Austrian pine, Chinese elm, apricot, catalpa, Mulberry and cedar. A limited supply of the trees may cause only a part of the orders to be sent at present.

The Richardson Grain Elevator at Wheeler has some superphosphate available, the Soil Conservation District said. If this substance is applied with a grain drill it will not have to be stirred. I'M IN TROUBLE - - - Deep Trouble - - -

Will the lady who so kindly came in and purchased my rod and reel from Jim Arndt—(while I was out of the office)—please come in and talk to me—I stand a chance to lose a lot of money on this sale—there's been a terrible mistake, and of course it no fault of yours—but the reel that you bought from Jim don't even belong to me—that reel belongs to the Thompson Hdw—and I had it borrowed—Im afraid to say anything to them about it, because if I don't get it back they'll sure charge me plenty—All Jim said he knew about the deal was that your husbands name was Troy—anyway if you will come in and have a man to talk with me, I'll tell you the actual facts, and Im sure you will understand this awful mistake—it's got to where Im afraid to leave the office anymore—it would't surmise me if they don't sell all my office furniture sometime when Ive got my back turned—So will you please come in and let me explain—I'll buy you the best 30 cent malt that Tom Perkins makes - - -

One out of three employees of U.S. airlines are World War II veterans.

Estimates of the time it will take to restore war wrecked Berlin range up to 50 years.

U. S. death rates from transport accidents rose only slightly from 1911 to 1946. In the same period death rates from other types of accidents were reduced sharply.

Sponsor of Dublin Rodeo

Miss Mary Ann Mayfield of Dublin, Texas, who is the cowgirl sponsor of the Dublin Pre-Madison Square Garden Worlds Championship Rodeo that will be held on Wednesday, Thursday, Friday and Saturday nights, Sept. 1, 2, 3, and 4. This is the Texas show that holds their rodeo just before leaving in a 24 car special train for Madison Square Garden, N. Y. The Worlds Championship Rodeo Corp. has rodeo ranches at Florence, Ariz., Gene Austy, Okla., Blackfoot, Idaho, and at Dublin, Texas, with headquarters at Dublin. The world famous Hardin-Simmons Cowboy Band will be here for each performance. This year will be their 9th year and according to professional cowboys "It is the best of them all."

Berlin was established as the capital of the united German empire in 1871.

Pardons by Coke Upheld

BEAUMONT —(AP)—T. N. Whitehurst of Beaumont, a member of the Texas Prison Board since 1945, made a public reply here to statements he attributed to a Houston attorney regarding former Governor Coke Stevenson's clemency record.

Whitehurst said he was "surprised and shocked" by statements he said Warren Cunningham, a Houston attorney, made in a radio broadcast.

"The thing which shocked me," Whitehurst said, "was that Mr. Cunningham said that Hon. Coke Stevenson in one 18-month period freed 5,829 felons."

Whitehurst said he investigated by writing State Auditor C. H. Caveness.

"He told me that many of the clemencies were a three or four count item on one prisoner."

Whitehurst listed other discrepancies he said were in Cunningham's radio statement.

Whitehurst said that Caveness reported that 5,829 was not the number of convicts released but was the total number of all forms of clemency proclamations, and that one convict would have been counted four or five times in the total."

Kaiser Obtains Ohio Steel Plant

WASHINGTON —(AP)—The Kaiser-Frazer Corporation said it has exercised its option to lease a government-owned blast furnace at Cleveland, O., for 20 years with the privilege of purchasing the plant for \$15,000,000.

Henry J. Kaiser announced the action as he arrived in Washington for a joint investigation by two Congressional committees of the negotiations by which his company acquired the \$28,000,000 plant.

Award of the property to Kaiser-Frazer by the War Assets Administration has stirred a storm of protests. Among those protesting have been Republic Steel Corp., which has been operating the plant since it was built during the war, and Preston Tucker, Chicago automobile manufacturer, who bid unsuccessfully for the property.

Under terms of the agreement with the WAA, Kaiser-Frazer is to take over the plant Sept. 1 from Republic.

Excavations at Pompeii were started about 1748 and the city has been about half dug out of the volcanic debris that destroyed it in 79 A. D.

The number of officers in the U. S. reserve army was reduced from about 68,000 in 1920 to about 5,000 at the outbreak of World War II.

A hide is composed of three layers, an inner, a middle and an outer. The outer layer is incapable of being tanned and is removed with the hair.
