

ROTTEN EGGS THROWN AT BROCKWELL AS HUBS EVEN SERIES WITH 10-8 WIN

Pampa News, Wednesday, August 25, 1948

Colored Movies Are Shown At Public Meeting in Park

The Pampa Sportsmen club held a public gathering last night at the city park where 1,680 feet of colored film was shown, displaying various means of hunting, fishing, and one travelogue.

David Patton, president of the Pampa Sportsmen Club of America, and "Slim" Davis, Pampa handle area game warden, were principle speakers. The meeting started at 8 o'clock with approximately 300 people attending. There were 400 feet of film showing geese hunting, 400 feet of marlin fishing, and 880 feet of travelogue taken throughout the Western part of the U. S.

The Pampa Sportsmen Club is currently sponsoring a fish rodeo at McClellan Lake. Only members are eligible to enter the rodeo. Pampa merchants have donated all prizes and any member catching a tagged fish will receive a prize.

Stephens May Become Star; Red Sox Win

By the Associated Press
Vern (Little Slug) Stephens is making a serious bid for the coveted most valuable player award as he strives to spark the Boston Red Sox to an American League pennant.

The timely hitting shortstop sent the Sox back into first place last night when he poked a ninth inning home run with one mate aboard to give Boston a 9-8 victory over the Cleveland Indians. The triumph pushed the Sox half a game in front of the Indians. The Red Sox knocked out Satchel Paige with a two-run rally in the third.

In the ninth, hits by Dale Mitchell, Bob Kennedy, Ken Keltner and Joe Gordon put Cleveland ahead 8-6. Dom DiMaggio lashed a double off Spec Kleiman to open the last half of the ninth. After Johnny Pesky singled, Ted Williams filed deep to left, scoring DiMaggio. Boudreau brought in Russ Christopher, a righthander, to pitch and Stephens wacked the first pitch high against the left field screen and the Sox were in first place.

The Boston Braves increased their first place hold to three and a half games over runner-up St. Louis, defeating the Cardinals at St. Louis, 9-3. The victory also put the Braves four games ahead of the third place Brooklyn Dodgers, who were whipped by the Pirates, 9-1, in Pittsburgh. Johnny Sain had an easy time winning his 16th game as the Braves pounded Harry Brecheen and three relievers for 18 hits.

Ralph Kiner walloped his 33rd home run and Wally Westlake his 13th to help the Pirates subdue the Detroit Tigers. Eddie Robinson, Dodger second baseman, was banished from the game for the first time in his major league career for heckling umpire Butch Herrline.

The New York Giants remained in a virtual fourth place tie with Pittsburgh, six games off the pace, by defeating the last-place Cubs in Chicago, 7-4. The third-place New York Yankees failed to better their two-game deficit in the American League when they were noosed out by the cellar-dwelling Chicago White Sox, 6-5, at Yankee Stadium.

The Detroit Tigers drove Lou Brissie from the mound with a six-run attack in the third inning and went on to defeat the ailing Athletics, 7-4, in Philadelphia. The St. Louis Browns checked a ninth inning rally after Washington scored four runs and beat the Senators, 6-5, in the Capital City.

Cincinnati and the Philadelphia Phillies were not scheduled.

Little Rock Loses to Austin Buddies

AUSTIN (AP)—Texas champions, the Austin Buddies, have reached the finals of the Region Six American Legion baseball playoff.

The Buddies used the three-hit pitching of Jackie Brinkley to down Little Rock here last night, 2-1, and gain the finals Wednesday.

Holy Cross of New Orleans knocked off Jackson, Miss., 18-11 to go into the semi-final round of the losers' bracket. The Louisiana champion plays Little Rock team.

Wally Holbrook, ex-senator hurler, and Wally Signer, ex-Cub, are pitching for the New York City Department of Sanitation team.

I speak the password of democracy. My God! I will accept nothing which all cannot have their counterpart of on this planet.

We Are Working Toward Progress

He was a wise man who first said that "if a man doesn't believe in himself, how can he expect anybody else to believe in him?"

This same philosophy of believing in oneself, within the bounds of reason and temperance, can be applied to our own community.

A group of merchants will run a series of advertisements between now and the end of October, advancing the idea that "Pampa's future is your future."

When these merchants say in their ads "You'll profit more if you shop Pampa first—it's true, and we can prove it!"

If we believe in ourselves, we will grow. Growth is progress. That is what all markets should be working toward—progress.

Gracie Reports

I see that the International Congress on Mental Health met in London and went on record as saying that the statesmen who are chosen to try and bring about world peace should have mental tests.

I don't see much future in this idea. Goodness, if a mental expert asked a statesman a simple test question, he would probably answer it in a confusion.

I think it would be a lot easier if the whole thing were handled like a big folkay information quiz, with prizes for everyone.

The first Atlantic cable was laid in 1858 between Newfoundland and Ireland.

ANTI-WALLACE WAVE by Peter Edson

WASHINGTON (NEA)—Thirteen cases of political pressure or intimidation against school, college and university teachers who have taken an active part in support of Henry Wallace's Progressive Party are now on record.

All such cases so far reported have been from the Eastern part of the United States, but 10 have been in the North, as against only five in the South.

This year's cases of faculty intimidation are by no means confined to backward institutions.

At Northwestern University, Evanston, Ill., 23 professors have been forced to withdraw from active work for the Wallace movement.

At Lycoming College, Williamsport, Pa., Dr. Clarence R. Athearn last March accepted appointment as Lycoming County chairman for the Progressive Party.

Fair Enough... by Westbrook Pegler

NEW YORK — The next time you hear that the Taft-Hartley law is a fascist law or that Pegler writes fascism in lambasting corruption and oppression wrought in the United States by unionism, say this:

Say that Roosevelt was the greatest American exponent of fascism. Roosevelt put a program into law and into action called the National Recovery Administration, or NRA, which was absolute fascism today. Or communistic. It would make no difference which.

I assure you that my purpose is not to roll a log for Mr. Flynn but to recommend a word which reveals the wild wilderness of the American people at that time and shows beyond doubt that Roosevelt really tried to give us fascism. Probably half of the citizens who are eligible to vote in this year's presidential election were too young then to know how near we were to delivering them into the hands of absolute fascism through Roosevelt's NRA.

The survival of fascism in Roosevelt's union movement and some of its fascist effects on the country will be studied tomorrow.

Property Damage Awarded by Court

A six-man Justice Court jury yesterday awarded Court Clerk Charlie Tuck \$66.41 property damage after deliberating less than ten minutes.

The suit, heard before Justice of the Peace Charles I. Hughes, arose out of an automobile collision on Feb. 8, 1948, involving Tuck and Curt D. Beck.

Counsel for the plaintiff was Arthur Teed; the defense was represented by Atty. Jerome J. Pope, Amarillo.

Mexican Gunmen Smash Print Shop

MEXICO CITY.—Police said 28 gunmen destroyed a printing plant here, beat two men and smashed equipment.

Police said the plant printed a number of magazines including "Present," which recently carried an attack on Jorge Pasquel, millionaire sportsman and president of the Mexican Baseball League.

Last Sunday Pasquel took a two-page advertisement in morning newspapers denying the criticism.

Police headquarters said it is investigating to see if there is any connection between the magazine article and the attack on the printing plant.

Fliers Killed on Way To Pilot's Breakfast

ADRIAN, Tex.—George T. McDonald, 34, Plainview, and Ira Jones, about 50, Tucumcari, N. M., were killed Monday when their light plane crashed near here.

James Seale, a ranchhand on the J. S. Birdwell ranch, found the wrecked plane Monday morning.

The plane, a Piper Vagabond, belonged to Hatcher B. Flying Service, Plainview.

McDonald chartered it to attend a flier's breakfast at Tucumcari.

Common Ground by E. C. HOLLES

"Mass Education" I have been quoting extensively for the past few days from the recently revised chapter "Mass Education" by John Rustgard taken from his book "The Bankruptcy of Liberalism" published in 1942.

In the last issue, Mr. Rustgard discussed the evil influence on our youth caused by forced association with the low element in the community.

I continue with this great masterpiece: "Briefly stated, the objection to public mass education is as follows: 1. It serves to throw together in a mass what nature intended to be segregated.

"2. In our public schools the children become the prey of Humanitarians bent on reshaping the world and society in contravention of cosmic laws.

"3. In our public schools the children become the prey of Humanitarians bent on reshaping the world and society in contravention of cosmic laws.

"4. In our public schools the children become the prey of Humanitarians bent on reshaping the world and society in contravention of cosmic laws.

"5. In our public schools the children become the prey of Humanitarians bent on reshaping the world and society in contravention of cosmic laws.

"6. In our public schools the children become the prey of Humanitarians bent on reshaping the world and society in contravention of cosmic laws.

"7. In our public schools the children become the prey of Humanitarians bent on reshaping the world and society in contravention of cosmic laws.

"8. In our public schools the children become the prey of Humanitarians bent on reshaping the world and society in contravention of cosmic laws.

"9. In our public schools the children become the prey of Humanitarians bent on reshaping the world and society in contravention of cosmic laws.

"10. In our public schools the children become the prey of Humanitarians bent on reshaping the world and society in contravention of cosmic laws.

"11. In our public schools the children become the prey of Humanitarians bent on reshaping the world and society in contravention of cosmic laws.

We Want Peace but Not Communism Thown at Us

By DEWITT MACKENZIE AP Foreign Affairs Analyst Dr. Hewlett Johnson, dean of Canterbury Cathedral, who long has had the sobriquet of "the Red Dean" because of his enthusiasm for Soviet Russia, announced in London that he had been refused a visa to enter the United States for lecture engagements.

The dean made his statement through the Communist news-papers, the London Daily Worker. He is a member of the editorial board of that organ. He said the American Embassy disapproved of the "American-Soviet Friendship Society" which was sponsoring his tour.

"It seems," Dr. Johnson added, "that no steps must be taken in the United States to cultivate American-Soviet friendship or understanding. America is said to be the land of free speech, but obviously speech about friendship with the Soviet Union does not come under that category."

The "Red Dean" is well aware that there is nothing we desire more anxiously than friendship with the Russian people. We have expended millions of words of "free speech" trying to achieve that friendship, but at every turn have found our efforts blocked by the explosive "Nyet" (No!)—not of the average Russian but of his Bolshevist overlords.

Dr. Johnson said he was flying to Poland to attend the congress of intellectuals in defense of "peace" at Wroclaw. If he wants to encourage friendship between America and the peoples of Eastern Europe, let him employ his free speech there and tell them we want peace and good will, but won't have communism thrust down our throats.

The 74-year-old dean is one of England's striking personalities. He long has been the most orthodox of church dignitaries, a modernist and a campaigner for social justice.

As a dress reformer he advocates shorts and open-neck shirts for chaps and young acolytes. He said he had spent the last 11 years, excluding three years spent in the Navy, 20 months of which he served overseas in the Caribbean as a chief petty officer.

Dr. Johnson was told that State Department Press Officer Michael McDermott said a visa probably would be granted the dean if he came to visit the United States "on his own hook." Said the doctor:

"I hope to go to America within three years when this has blown over—when Mr. Wallace is president, as I think he is sure to be."

Ranger Captain Admits Slapping Union Picket

CORPUS CHRISTI.—A Texas Ranger captain has testified he slapped a picket at the Bishop plant of the Celanese Corporation because "he had interfered with me in the discharge of my duties."

It was a "mild reprimand," Texas Ranger Captain A. Y. Allee said in describing the July 28 incident.

Striking members of Local 533 of the Oil Workers International Union (CIO) seek a temporary injunction enjoining Allee and Rangers under his command from "unlawfully" interfering with picketing and other union activities.

Allee, a Ranger captain 16 years, answered "absolutely not" when asked by Assistant Attorney General Ned Daniel if he had any intention of interfering with peaceful picketing.

The latest anti-boss threat—television—attracts the customers, municipal headquarters. President Truman and Governor Dewey may play to empty halls because of this innovation.

Another factor fights against the boss on the social and humanitarian front. Time was that when a family's breadwinner died, the boss or his next of kin was at the bedside with offers of a ton of coal, a beefsteak, a tidy fund for the widow, jobs for the children, and the boss made a donation to the orphanage.

Now, the bereaved may enjoy a war pension, Social Security benefits or other forms of federal or state aid. Or they may turn to the many private charities and foundations which have supplanted an improved upon clubhouse contributions.

SCIENCE.—Thus, in any wishful attempt to read a requiem over the sometimes lovable, charitable and picturesque ruffians of American politics, major credit for their downfall must go to austere and academic reformers.

It falls to Henry Ford (the flivver), Thomas Edison (the movies), Marconi (radio) and to other pioneers and builders of this age of applied science and economic progress.

Professors Flynn, Hague, Kelly and Pendergast may not agree with this theory, and they may yet master these anti-boss weapons. But, as of the moment, ain't science wonderful?

QUICKIES.—By Ken Reynolds "Hum-m-m! My wife must have bought that used car we saw in the News Want Ads—she just drove in the driveway!"

On a fight or baseball night, BOSS.—Home radio and neighborhood movies provide far more attractive entertainment than a dingy, dimly-lighted cuspidor-cluttered, all-male political clubhouse, where there is no nourishment of soul or body.

RUSSIAN TEACHER.—Mrs. Oksana Kaenkin, a Russian school teacher, was injured in a leap from third-story window of the Soviet consulate, continued in good condition at Roosevelt Hospital.

KNOW YOUR MAIL CARRIER

ENOCK BAUMGARDNER (EDITOR'S NOTE: This is the fourth in a series of short articles on Pampa's mail carriers. Other "biographies" will follow from time to time.)

Enock K. Baumgardner, better known as the "dogman," has been instrumental in planning the district meeting of the Texas State Association of Letter Carriers, which will be held in Pampa Sept. 4.

A Pampa carrier for the past two years, the "dogman" received his title because he likes dogs, his little because he likes dogs, his little because he likes dogs, his little because he likes dogs.

When he's walking his daily 10-14 miles covering Cuyler north of Browning, Christine, Mary Ellen, Charles and Russell, the canine Pip generally has his little pack of dogs following.

Baumgardner has been in the postal business for the past 11 years, excluding three years spent in the Navy, 20 months of which he served overseas in the Caribbean as a chief petty officer.

"The most unusual occurrence on my route happened to me in 1938," Baumgardner said. "A lady asked me to return a cup of sugar for her to a friend down the block."

Baumgardner is a member of the Mount Logan and Pampa Postoffice Club. His hobby is cabinet work.

The Baumgardners originally came to Pampa for Mrs. Baumgardner's health which necessitated a dry climate. "This is the best dry climate we ever could hope for," he said.

E. K., his wife, Ruth, and children, Jean, 15 and Bill, 13, live at 417 N. Ward.

The Nation's Press

TIMELY COUNSEL (Pacific Union Reporter) "With the months from June to September being the season when the everpresent threat of an infantile paralysis epidemic becomes most acute, the National Foundation has compiled 'When Polio Strikes'—a bulletin of suggestions to help fight the spread of poliomyelitis.

The general precautions include: "Avoid overting and extreme fatigue from strenuous exercise. Avoid sudden chilling such as would come from a plunge into extremely cold water on a very hot day.

"Pay careful attention to personal cleanliness, such as thorough hand-washing before eating. Hygienic habits should always be observed.

"If possible avoid small and crowded operations during epidemics. Careful study has shown that such operations, when done during an epidemic, tend to increase the danger of contracting infantile paralysis in its most serious form.

"Use the purest milk and water you can. Keep flies away from food. While the exact means of spread of the disease is not known, contaminated water and milk are always dangerous and flies have repeatedly been shown to carry the infantile paralysis virus.

"Do not swim in polluted water. "Maintain community sanitation at a high level at all times.

"Avoid all unnecessary contact with persons who are ill with this disease. This will mean a suspicious of infantile paralysis.

To these timely suggestions should be added regularity in the daily program in eating, resting and sleeping. A balanced diet is very important. This will mean a liberal amount of the protective foods in the daily menu—namely, fruits, vegetables, and milk. It is from this class of foods that we obtain our supply of vitamins and minerals which are the body regulators and protective substances so essential to our health.

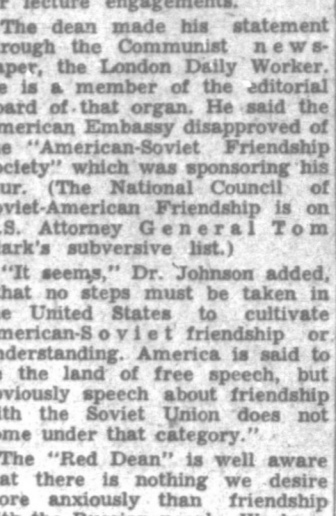

When the fuel foods, such as fats, starches and sugars, and excess, they tend to pervert the appetite and take away the desire for the more wholesome or protective foods, and the diet becomes unbalanced. This tends to break down the defense mechanism of the body and makes us more liable to invasion by disease germs. This is especially true in those children who are allowed to eat between meals and to indulge their appetite with candy, ice cream, rich dressings and soft drinks containing sugar and thus neglect the protective foods.

In the midst of these ill of the world in which we find ourselves, we should keep in mind this scientific truth: "Disease never comes without a cause. The way is prepared and disease invited by disregard of the laws of health." "Ministry of Healing," p. 224.

Fossil Remains of a 75-million-year-old plesiosaur found near Lake Waaco gets dressed up for display in the Strecker Museum at Baylor University. Bryce C. Brown, (foreground) assistant curator of the museum, and Richard L. Bronaugh, instructor of geology at Baylor, are shown separating the reptile from the shale in which it was found.

Clara Barton Subject of New Commemorative

Another three-cent commemorative postage stamp will arrive at the Pampa Postoffice during the middle of September. W. B. Weathered, postmaster, said today.

The stamp will commemorate Clara Barton, founder of the American Red Cross and will be put on sale first at the Oxford, Mass., postoffice Sept. 7. It will be 2 1/2 by 1 1/4 inches and it will be printed by the rotary process in red.

Issued in sheets of 50, the central design of the stamp will be a portrait of Clara Barton in an oval, ornamented by laurel leaves.

Stamp collectors desiring first-day cancellations may send a limited number of addressed envelopes to the Postmaster, Oxford, Mass., with postal note or money-order remittance to cover the cost of the stamps. Postage stamps and personal checks will not be accepted in payment.

For the benefit of collectors desiring stamps of selected quality for philatelic use, the stamp will be available at the Philatelic Agency, Postoffice Department, Washington, 25, D. C., on and after Sept. 8.

Falling Windows Kill Two Persons Who Forget Keys

By the Associated Press
Two persons died over the weekend in the same type of freak accident—they were pinned by falling windows.

In Shartlesville, Pa., a young mother attempting to enter her home through a cellar window after forgetting her key was strangled to death when her neck was caught between the window sill and frame, Deputy Coroner Peter Ricker reported.

And in National City, Calif., an attempt by William Williams, 65, to climb through a window when he misplaced his house keys killed him Sunday.

The window fell when Williams was halfway through and pinned him to the sill. The coroner's report blamed the death on a heart attack caused by the shock of the falling window.

Mrs. Gladys Marie Strickland, the Pennsylvania woman, apparently was crawling into the cellar when the window dropped on the back of her neck, pinning her against the sill and strangling her.

Met Opera Season Opens as Unions Shelve Demands

NEW YORK (AP)—There will be a 1948-49 Metropolitan Opera season after all.

Officers of the Metropolitan Opera Association announced the new decision after the employees' unions shelved demands for wage increases and other benefits. The plan to carry on reverses an announcement of three weeks ago cancelling the season.

Firemen Fight Oil Field Blaze

Local firemen spent approximately two hours Saturday night extinguishing an oil fire on the Texas Gas and Power Corporation lease, Ernest Wimborne, fire chief, said this morning.

It was necessary to hook the fire hoses to a storage water tank before the 300-pound fog applicator could be used to put out the fire.

One Slightly Injured In Highway Accident

One man was slightly injured and two cars heavily damaged as a result of a collision at the intersection of Farm Highway 294 and a county road near White Deer, Monday morning.

State Highway Patrolmen reported Lloyd Ewing, near Groen, driving a 1948 Fraser was traveling north on the highway and Winfield S. Berry, near White Deer, driving a 1937 Ford coach, was traveling east on the county road when the two collided at the intersection. Berry suffered minor cuts and bruises, but was not hospitalized.

Damage to Berry's car was estimated at \$350 or more and damage to Riggins' car was expected to run over \$300.

MINOR PLANETS

Eros is one of thousands of minor planets, or asteroids, traveling around the sun in eccentric paths which lie between the orbits of Mars and Jupiter. These tiny planets vary in size, with diameters of 30 miles up to 480 miles.

Keep the 'JOKER' Out Of This Young Man's LIFE

FIGHT T. B.

T. B. can and does strike in families of all classes . . . it may be hidden now . . . and the only sure way of finding out is to have a CHEST X-RAY. The Medical Association, Gray County T-B Association, the School, City and County Officials and Service Club of Pampa recommend this program to you. It is FREE and no charge whatever will be made.

T. B. Can Strike In Your Family!

T. B. is often times hidden and does not raise its ugly head till later in life . . . so be sure that your family is protected. There are four reasons why you should be X-Rayed during this time. They're: (1) Valuable health check-ups which we may enjoy . . . if you, the people, put this over. (2) Help to discover chest conditions early when they are most curable. (3) A very small per cent will be affected; others will have the satisfaction of knowing the chest is OK. (4) You owe it to yourself, family and your community to have this check-up.

HANG UP ON MR. TB— BY TAKING A CHEST X-RAY TODAY!

To Keep The HIDDEN JOKER of TB Out Please Come On One of the Following Dates:

- AUGUST 24th
McLean Dyart Motor Co.
8 A. M. to 5 P. M.
- AUGUST 26th
Pampa American Legion Hall
10 A. M. to 5 P. M.
- AUGUST 28th
Pampa American Legion Hall
8 A. M. to 5 P. M.
- AUGUST 27th
Pampa American Legion Hall
8 A. M. to 5 P. M.
- AUGUST 28th
Pampa American Legion Hall
10 A. M. to 2 P. M.

T. B. and Other Chest Ailments May Be Calling YOU NOW!

So if you are over 15 years of age, be sure you take this Chest X-Ray. It will require only 2 minutes and it is not necessary to undress. The X-Rays are FREE but it is not charity. Two minutes of your time now—may get you forty years later. You'll be notified if you are OK. . . . Otherwise a physician will notify you. Here is a chance folks, for you to see (without charge or charity) if you are free of TB. Don't let him (TB) make a date with you!

Get a FREE CHEST X-RAY TODAY

Some Like 'Em Long

AP Newsfeatures
New York City's Health Department has dug into its files and come up with some fascinating facts.

The most popular names this year for the city's children, said the department, are as follows:
Girls — Barbara, Joan, Carol, Diane, Judith and Margaret.

Boys — Robert, John, James, Michael, William, Richard, Joseph, Thomas, Stephen and David.

The department also produced the most popular names of 50 years ago and 20 years ago. It proved conclusively that there are fashions in first names as definite as there are fashions in clothes. Fashions in girls' names show a trend toward the fancy.

At the end of the Gay Nineties, fond city parents were conservatively naming their daughters Mary, Catherine, Margaret, Annie, Rose, Marie, Esther, Sarah, Frances and Ida (Dora and Helen also ran). In the middle of the Glorious Experiment, 30 years later, girls' names were still on the simple side, but fell gently on the ear. Mary, Marie, Annie (or Anne), Margaret, Catherine, Gloria, Helen, Teresa, Jean and Barbara. But not so with the boys. A half century ago it was John, William, Charles, George, Joseph, Edward, James, Louis, Francis and Samuel. Most of them were still in the running three decades later.

John, William, Joseph, James, Richard, Edward, Robert, Thomas, George and Louis.

A batch of New York City birth certificates doesn't necessarily show a nation-wide trend. But as far as the current lists of the top ten are concerned, I think they do. There's been a revolution in the troublesome business of naming one's offspring.

In the pre-historic days before talking movies and radio, most families used a pretty simple procedure in naming their youngster. The first man-child usually was Junior; the first girl was named after her mother. The only trouble with the system was that the beneficiaries of the names usually being called "Junior," "Bobby" or "Little John" all their lives to distinguish them from their namesakes.

Girls nowadays are being tagged with names that sound pretty to parents (and are, incidentally, the given- or taken-name of movie stars). Thus, even if Diane sounds pretty grim with a mandatory last name, chances are she'll acquire a new one in 20 years—attached to a wedding ring. A few years back it seemed that everyone was naming their boys either Peter or Michael. That phase has passed. And so, thank heavens, has the vogue of calling each chubby little future president, "Butch."

McKENNEY ON BRIDGE

POINT-COUNT SHOWS DEFINITE GAME BID
By WILLIAM E. MCKENNEY
America's Card Authority
Written for NEA Service

This is the third of a series of articles based on Fred L. Karpin's booklet, "The Point-Count System of Bidding in Contract Bridge."

It has been difficult, says Mr. Karpin, to interpret the precise significance of jump bids, but with the point-count system, the true meaning of jump bids is no longer ambiguous. To illustrate, he gives today's hand, taken from the national championships last year at Atlantic City, N. J.

In most cases, South bid two clubs over North's bid of one spade. Then North bid only three spades. South, who felt that he had shown the full value of his hand with the bid of two clubs, passed the three-spade bid.

Karpin points out that it is impossible to miss game on the hand when using the point-count system. South has only a count of 10 and therefore must pass, as it takes a minimum of 15 points to open the bidding. According to this system, 26 points in the combined hands will produce a game.

North, with a count of 16 points, makes the normal opening bid of one spade. (The count on North's spade suit is 12, that is, four for the ace, three for the king, two for the queen, one for the jack, and one each for the fifth and sixth cards in the suit.)

Any response at the two-level in a new suit shows a minimum of 9 points. Therefore, when South bids two clubs, North adds 9 points to his own 18 for a total of 27. Now he knows that there is a game in the combined hands, instead of bidding three spades.

Smart junior miss obtains most flattery from her summer make-up by using brilliant coral shade of lip rouge which holds its color in the sun. Frequent touch-ups keep lipline cleanly outlined.

By ALICIA HART
NEA Staff Writer
Do you know how strong summer sunlight affects the color of the lipstick you wear? Or the way you apply it? Or why more frequent touch-ups are needed in summer than in winter?

Because lipstick is usually the only make-up aid a sun-trenched young skin needs, a junior should know all the answers in order to obtain the most flattery from her cosmetic efforts.

Under the powerful rays of the summer sun, pastel lipsticks seem to become more pale. Deep bluish-toned lipsticks which are designed to hold their color under subdued lighting are apt to look harsh and garish when subjected to the searching light of the sun. Colors which stand up bravely to bright sun are the brilliant coral shades and the clear, true reds.

So much for lipstick shades. As for summertime application, you will be rewarded for taking a few extra minutes, if necessary, to define lips with a clean, sharp line of color. Nature's searching spotlight makes especially noticeable any uneven application or amateurish attempts to deviate from the natural lipline.

More frequent touch-ups are required because heat and perspiration encourage lipstick to melt to form spikes of color around the mouth. Before re-rouging, however, use a tissue to erase any residue left on your lips.

Miss Marie Mize Is Shower Honoree

A miscellaneous shower complimenting Miss Daudie Marie Mize was given on Wednesday afternoon, Aug. 18, in the home of Mrs. W. A. Carter. Co-hostesses with Mrs. Carter were Mesdames C. H. Godfrey, Jr., Leo Hall, Albert D. Childress, and Misses Royce Turpan and Miss Correne Mize.

Seasonal flowers were used in decorations throughout the entire house.

In the dining room the honoree's chosen colors of a white and blue were featured. The table was covered with a white lace cloth over blue. A crystal punch bowl at one of the table was encircled with white cosmos. Mrs. Childress poured.

Miss Mize, sister of the bride, registered the guests. Corsages of white gardenias were presented to the honoree, her mother, Mrs. D. Mize, and the bridegroom's mother, Mrs. R. K. Parsley.

Appropriate games were played and after which orange sherbet and cake were served. The guests were Mesdames Joe Looper, Jr., Paul E. Chambers, W. B. Turner, B. W. McCullion, Larry Parsley, R. K. Parsley, C. H. Munday, Mart Cunniff, W. H. L. Shirley, C. L. Weddington, W. P. Gains, C. E. Bond, E. N. Rawlins, and D. L. Brown and Miss Marcille Waters.

Like so many other thousands of American women during the war, she cooked lunches for the U.S.O. and rolled bandages for the Red Cross.

She has made two speeches on the record since she was in the White House. Both were about a paragraph long. Once she introduced Franklin D. Roosevelt, Jr. at a March-of-Dimes event. Once she christened a hospital plane. This second speech she read.

Mrs. Truman is reliably reported to have wept when events put her husband into the White House. How she feels about a second term is quite unknown.

The address has changed her not at all. She can still turn up in her Independence, Mo., home with no accompanying excitement among her neighbors except the grape-vine saying that "Bess is home."

Like so many other women with time on their hands, she has played bridge every Tuesday afternoon for 20 years. She keeps the same old set of Missouri friends here, and calls them up of a morning and gabs in the small town way.

She has made some dry remarks about her role. She has said that the job takes "good health and a sense of humor." She was asked once how she felt

about the criticism which naturally descends on the head of a President.

"After 25 years in politics I've learned to accept it—almost."

She appears to be an inseparable part of her husband's life. Hence the feeling in Washington that she'll probably go along on some of the campaigning.

He likes to have her give a speech the once-over before he makes it. The Trumans take their recreation together, and often enough it is a concert heard from the presidential box in Constitution Hall.

He said of her once, and he appeared to be paying her a compliment: "She looks like a woman ought to look who's been married for 25 years."

She's 63, short and plump. Like most other women who have come up through small town living, she likes orchids. She's economical about clothes, and she can cook and serve a good dinner.

Midland Matron Is Honored at Shower

Mrs. J. D. Atchley, of Midland, Texas the former Miss Margaret Jones, was honored with a surprise pink and blue shower Sunday afternoon at the home of Miss Lois Yoder whose co-hostess was Miss Betty Jeanne Reynolds.

The living room was decorated with a lovely bouquet of pink and blue carnations and the honoree was presented with a similar arrangement. Appropriate games and contests were conducted by the hostesses after which Mrs. Atchley was directed to find the gifts which had been carefully hidden throughout the adjoining rooms. Refreshments of sherbet and cookies were served to the guests.

Those attending were the Misses Edith Mas Morrow, Betty Mosley, Betty Myatt, Patsy Pierson, Betty Jean Walls, Nina Ruth Spearman, and Mesdames John Lee Walls, Herman Jones and H. A. Yoder.

White House or Missouri Home; It's All One and the Same to Bess Truman

By SIGRID ARNE
AP Newsfeatures Writer
WASHINGTON — Mrs. Harry Truman is likely to get aboard a campaign train at the last minute because her husband wants her along. If she does, her role will be that of the traditional, middle-class American wife — a quiet faithful helpmate.

No announcement has been made by the White House as to her plans during the campaign. A presidential adviser does say that whether she goes along "is simply a matter between the two of them and they'll probably decide when the time comes."

Left to her own decision, Mrs. Truman no doubt would like to stay at home. There is little evidence in her life — although her husband has held public office for more than 20 years — that she has taken any real interest in anything outside her home.

Like so many other thousands of American women during the war, she cooked lunches for the U.S.O. and rolled bandages for the Red Cross.

She has made two speeches on the record since she was in the White House. Both were about a paragraph long. Once she introduced Franklin D. Roosevelt, Jr. at a March-of-Dimes event. Once she christened a hospital plane. This second speech she read.

WE, THE WOMEN BY RUTH MILLETT

You can spot a newly married couple by other ways than the one used by a hotel information clerk, who says that if HE asks the questions, they haven't been married long.

They haven't been married long if HE notices when HER cigaret needs lighting and keeps coming back to her every few minutes at a party to be sure she is getting along all right.

They haven't been married very long if SHE listens enthralled when HE is telling a story, and refrains from helping him tell it. LIVE ON LOVE

They're not long married if they pay more attention to each other than to their food, when dining together in a restaurant.

The marriage is still new if HE doesn't look pained when SHE makes a dumb remark.

They haven't been married long if HE thinks her helpless at a cute.

They haven't been married long if SHE lets him do most of the talking.

Going away for the holiday?

To make sure you'll will be a carefree holiday, let your Conoco Mileage Merchant check and service your car. Above all, be sure he drains out contaminated old oil and refills with fresh, clean Conoco No. 4 Motor Oil.

That's the surest way we know to leave worry behind. Because the moment No. 4 Oil (Patented) enters your engine, an extra added

film of lubricant fastens itself so closely to metal that cylinder walls are actually OIL-PLATED! Because OIL-PLATING stays up... won't all drain down, even overnight, you're extra-protected against destructive "dry" friction, against metal-eating combustion acids, against power-choking sludge and carbon due to wear.

For an extra-happy holiday...

Make a date to OIL-PLATE!

Donkeys and Pampans Tie In Battles

The Pampa Jaycees and the Pampa Roping Club played to a diplomatic 4-4 tie in a five-inning donkey softball game at Recreation Park last night.

After Buck Hines, the first man up for the ropers, could not get his donkey to navigate the trip to first base, and after Hollis, Riley, and Watson, the first three Jaycees up, died on the sacks, the first inning ended with no hits, no runs, and plenty of errors.

A. F. Combs, the ropers' third sacker, was trapped between second and third, but it took the fielders—four of them—15 minutes to tag him out for the ropers' third out in the top of the second.

Chuck Hogan, Jaycees leftfielder, scored the first run in the bottom of the second, preceding Roy Webb, who patted one into the stands, but could get only to first. From the beginning of the third, there were usually two or three runners floating around somewhere in the infield, and at least one inning went to five outs before anyone recovered enough to call sides.

Ed Hollis, Jaycees centerfielder, scored one in the fourth when he stole from first to home. Hollis was on the ground more often than he was aboard his donkey. Sometime during the fourth, two more Jaycees crossed home. It was thought they were Murray Bealey and Chuck Hogan, but in the melee of man and donkey, it was difficult to tell which was which.

Leo Fry and Gene Cooper scored for the ropers to put the game on ice in the fifth.

Batteries for the ropers were Roy Burns and Alvin Reeves; for the Jaycees, Roy Webb and Don Foster.

Just to keep things even, Homer Taylor, of the roping club, was umpire, and Jim Arndt, Jaycees president, was scorekeeper.

A plane flying from New York to London is more than one third of the way to its destination before it loses sight of the Newfoundland coast.

Tom Rose Is Feted Here

Tom Rose, as head of the Ford Motor Co., here, last night received the Four-Letter Award of the Ford Motor Co. at a dinner at the Court House Ca.

The certificate, which it was said signifies the "highest badge of distinction a Ford dealer can earn," was presented by C. J. Robinson, assistant district sales manager, Oklahoma City.

Only 29 dealers out of 174 in the Oklahoma City District, it was announced, have received the award. The four letters—FMSF—represent "Ford Must Stand First." The award was based on these qualifications: sound finances, efficient management, competitive spirit, and modern facilities.

Also present from Oklahoma City were J. A. Pipkin, district representative, and E. P. Chasholm, manager of the Business Management Department of the district office.

Rose and other townspersons, including Mayor C. A. Huff and city manager J. Matthews, were at the dinner.

Jester to Seek Tax Study Group

AUSTIN — Gov. Beauford H. Jester said he would ask the next legislature to create a commission to make a thorough study of the entire question of taxation.

He said he thought it should include a study of possible new sources of revenue for Texas municipalities which have been hard-pressed for operating funds.

Jester told his press conference he was not yet ready to give an answer regarding possible need for new state taxes in the face of requests by state departments for increased appropriations.

The Board of Control is still holding pre-budget hearings before making its recommendations to the Governor.

Clearing by Burning Damaging Woodlands

AUSTIN — (AP) — New legislation is not the answer to the East Texas forest fire problem, Gov. Beauford H. Jester said.

"The real answer lies in educating the people of that area that the practice of clearing land by burning the woods is damaging their present and future economy," Jester told his press conference.

Jester said he had been informed that the present control laws are inadequate, but officers have had great difficulty in enforcing it. It has been hard to get convictions, he said.

Nice Trick

Bruce Parker zooms across Newport, R. I., bay at 40 miles per-hour carrying Miss Muriel Schard along with him. Parker is U.S. Water Ski champion.

BURNS CASE—James J. Burns demonstrates the model airplane contraption he built in his St. Louis home for the entertainment of his son, Larry, 20 months old, who has everything to live. Born with cancer on an arm, doctors say his case is one in a million.

Egg-Laying Hen Adopts Assembly Line Methods

HUNTSVILLE — (AP) — A four-pound white Wyandotte hen has Walker County residents shaking their heads.

Her owner, eight-year-old William Kennedy and his parents, Mr. and Mrs. C. V. Kennedy, claim the hen went on a two-week egg-laying spree that began with 14 eggs in one day.

Two weeks ago William saw his hen lay an egg in the yard of the Kennedy home, three miles from here. A short time later the hen laid another egg.

Mrs. Kennedy came out to investigate — and stayed. In the next four hours, she says, the little hen laid 12 more eggs.

William and his mother kept a close watch on the white Wyandotte after that.

The next day the hen laid seven eggs, then she skipped a day. The day after that she came through with four eggs. After that she laid one and two eggs each day until a week ago Sunday when she laid three. Last Tuesday it was six.

On Wednesday, only one egg was laid and the little hen looked tired and worn out.

"I was worried about her, so I took her to a feed store in Huntsville," Mrs. Kennedy said. "Since then the hen hasn't laid a single egg but she seems to be picking up strength and the Kennedys have hopes of another egg-laying spree.

BOND VOTE

(Continued from Page 1)

ture \$100,000, plus approximately \$37,500 interest of bonds the first year. Actually, according to Roy McMillen, business manager for the school district, it would have taken over the \$1 maximum at the district's present valuation.

He added that it would not necessarily mean the maximum \$1.50 would have been assessed by the board, but that the question was seeking only the authority to levy a tax higher than the \$1 limit set by state law.

Comment around town last night and this morning indicated most voters approved of additional classrooms, extension of the Negro school facilities, but were not in favor of the combination auditoriums and gymnasiums for the grade schools, nor were they too anxious for the field house at the high school.

Some who voted against the bond issue said they would have voted for it if the program would have called for the erection of a school in the Fourth Ward, expansion of Negro school facilities to the other grade schools.

Another bloc of voters had different views. They felt the expansion program could be postponed until building costs go down.

Legal notices for the election were posted in the Junior High School, Court House and City Hall.

CONTEMPT

(Continued from Page 1)

Association on behalf of more than 800 newspapers which have contracts with the century-old ITU.

The ITU for decades has fought for closed-shop conditions in its working establishments. The Taft-Hartley Act, however, forbids employers to discriminate against a worker for not belonging to a union.

RED PROBE

(Continued from Page 1)

involve in the two espionage rings the committee is investigating.

But Thomas said it did deal with a Communist underground, and that the committee is determined to get at the truth of the conflicting statements of Chambers and Hiss.

The examination turned then to Hiss' past relations with Chambers.

Hiss said he thought it was last Aug. 16 that it came to him that he had known Chambers under the name of Crosley.

Hiss went on to say that "according to my best recollection" he first met "George Crosley" when the latter visited him when Hiss was counsel for the Senate Munitions Investigation Committee.

He said Crosley represented himself as "a freelance writer."

Hiss then was asked about his real estate transactions, particularly about the houses in which he had lived here and an apartment he let Chambers have.

Hiss said he has been unable to check all the lease and real estate records but still is doing so.

It is probable that some of the old leases were discarded as the Hiss family moved from one apartment to another, Hiss said.

But there never was a lease to Crosley, he emphasized, and the arrangement whereby Crosley once occupied Hiss' home was "an oral arrangement."

The time of this arrangement was not pinned down immediately in the testimony, but Hiss has said previously that it was in 1934 or 1935.

GRAY FAIR

(Continued from Page 1)

be put in quart jars with the exception of pineapple, for which pints must be used. Awards of \$1 and blue, red and white ribbons will be presented to the first three places in the canned fruit division.

Preserves must be exhibited in pint jars and jelly in regular jelly glasses, Mrs. Cudney said.

Special bits in diamond drills may contain as many as 2,000 diamonds.

Iron Lung Mother Has a Baby

Confined to an iron lung with polio, Mrs. Maurine Luker of Los Angeles, Calif., is introduced to her baby son. She was removed from the lung for 45 minutes under special anesthesia while the child was delivered by caesarian section.

Society Takes Up the 'Pop' Gun

One of New York society's most fabulous figures is Mrs. Frank C. (Betty) Henderson. At a birthday party for her mother, Mrs. Henderson sticks up Frank (Bring 'Em Back Alive) Buck with a champagne bottle. Last year she posed for a "cheeseecake" shot at the opera.

RUSSIAN

(Continued from Page 1)

building had made it impossible for Soviet consulates to fulfill normal functions.

"In view of these circumstances," the note continued, "the Soviet government has taken the decision:

"A. To immediately close both Soviet consulates in the United States—in New York and San Francisco.

"B. In correspondence with the principle of reciprocity, to consider as immediately closed the American consulate at Vladivostok.

"(C) To affirm the agreement between the governments of the United States and the Soviet Union on the establishment of a consulate at Leningrad is to be considered as having lost its force."

The note repeated Soviet accusations that the Federal Bureau of Investigation was implicated in the Samarin and Kasenkina cases.

"The American government," the note said, "has at its disposal a sufficient quantity of information to affirm the facts of the kidnaping of (Mrs.) Kasenkina and M. I. Samarin, the participation in this affair of the bandit white guard organization — the Tolstoy Fund — and also the connection of the Federal Bureau of Investigation with this affair."

The note added: "Inasmuch as Kasenkina at the present time is being held in a hospital, factually under conditions of a prison regime and free communications with her by Soviet representatives are not permitted, declarations ascribed to her cannot be recognized as deserving any attention whatsoever, especially taking into consideration the serious condition of her health."

The Russians further protested that "up to the present time we cannot receive any information on the fate of Samarin and family."

The note demanded access to both Samarin and Kasenkina and rejected accusations by the State Department that Lomakin had abused his diplomatic prerogatives in dealing with the Kasenkina affair.

"The actions of Consul General Lomakin," the note said, "were directed exclusively in defense of the rights of Soviet citizens."

POLITICS

(Continued from Page 1)

than Coke Stevenson and Lyndon Johnson," the statement said.

"Both Johnson and Stevenson are trying to prove to the voters of Texas that the CIO is supporting the other. They are making the CIO and the Taft-Hartley Law paramount issues.

"Actually, neither is an issue. The position of both candidates on the Taft-Hartley Law is substantially the same. Both of them think it is a good law."

Hickman said also: "CIO members will take their choice like all other Texas citizens. Some will vote for one, some for the other. For many, it will be like going to the meat counter late on Saturday—a sorry choice."

Johnson told reporters he had forced Stevenson to change campaign tactics completely the last week.

"The best evidence I know that the man is beaten and desperate is his conduct since his speech at Conroe last week," Johnson said.

Stevenson addressed the Kiwanis Club at McAllen just before he left the valley for Austin yesterday. He urged voters to go to the polls and "bust up machines that control the minds of the people."

CONFERENCE

(Continued from Page 1)

does not purport to be, it may not, and I hope that it does not, want international war. But if so, that is a matter of expediency, not of principle. Violence and coercion are the accepted methods, class war being, however, usually preferred to national war."

"So we must arrive at the conclusion that any agreement about Berlin or Germany as a whole will be merely a truce, and not a step towards general peace."

Why a truce at all? Well, the Russians aren't in a particularly happy position. Their offensives aimed at the conquest of Western Europe has bogged down. They are up against determined democracies, reinforced by the Marshall Plan.

The Soviet Zone in Germany is suffering from a shortage of food and fuel. The Red revolution in Greece is being crushed. Marshal Tito of Yugoslavia is openly defying Russia. There is anti-Communist ferment in numerous satellite states.

Then, of course, the rock-ribbed stand which the Western Allies have been making against Red hostilities has had its effect. Russia doesn't want war and intends to halt short of anything which might cause it.

So the Muscovites "pause for consolidation" in Europe. Meantime they suddenly launch a widespread offensive in Southeast Asia. It looks as though Eastern Asia might be the armageddon for the stand against communism.

SURVEY

(Continued from Page 1)

Friday, 8 a. m. to 5 p. m.; Saturday, 10 a. m. to 2 p. m. The hall has been reserved for the county colored residents from 1-5 p. m. Friday. The service costs individuals nothing. However, the cost of the survey is taken from State Health Department funds allotted for this purpose.

Residents are urged to take advantage of the service even if they have had an X-ray recently. Chest conditions are much more easily cured if caught early, Dr. Julian M. Key, county health doctor, said.

If Gray County residents do not turn out in mass to be X-rayed, the unit may not make the county an annual stop. If the service is successful, it is probable that all food-handlers in the county may be required to have an annual chest X-ray.

The survey is jointly sponsored by Gray County's Medical and Tuberculosis Association. A young one who is 15 years of age and over may take the test.

It is not necessary that persons taking the test undergo the X-ray service takes but two minutes, and all Gray County residents have been urged to participate.

BRAHMAN JUDGE NAMED

DALLAS — (AP) — Frank Scofield of Austin will judge the National Brahman show at the 1948 State Fair of Texas, Ben. E. Cabell, chairman of the fair's Livestock Committee, has announced. The show will be judged Saturday, Oct. 16.

Step right up and ask for...
"Lubri-tection"!

I'll Know You're Talking About
The Product That Makes Me Proud—
Phillips 66 Premium Motor Oil!

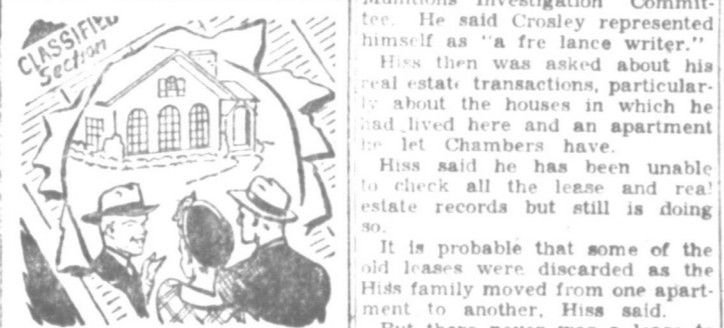

Mean this "Lubri-tection" is something to boast about!
It means the two things you get with Phillips 66 Premium—lubrication plus protection! Here's a motor oil with all the great lubricating qualities you just naturally get from fine base stocks and expert refining, plus additives and inhibitors that protect by helping to lick sludge, carbon and varnish deposits.

That's a lot in one quart of oil but Phillips 66 Premium's got it! Why don't you switch to "Lubri-tection" today!

PHILLIPS 66
LIUM
MOTOR OIL

"Lubri-tection"—the protection rendered by an oil of fine base stock containing special detergent and oxidation inhibiting ingredients.

Monroe Mansion To Be 'Marshaled'
LEESBURG, Va. — (AP) — Oak Hill Palace, once the home of President James Monroe, was being prepared for sale at auction. The 1,726-acre estate with its 20-room mansion was taken over yesterday by U.S. Deputy Marshal from its 25-year-old owner, Frank C. Littleton, in bankruptcy proceedings.

Problem on Highways Is Very Serious

By MAX HALL

WASHINGTON—(AP)—The truck swerved against the line of oncoming automobiles. It battered five of them with a series of frightful crashes and overturned on top of a sixth...

This problem is connected with inflation and the housing shortage. Traffic in America, only three years after the war, has become far heavier than ever before in our history...

Problem on Highways Is Very Serious

But not enough. And one reason is inflation. State governments, with some help from the federal government, are probably spending more money on roads this year than ever...

There are other highway headaches for states, counties and cities. Here is one of them: every city needs divided expressways that will keep auto moving at a reasonable speed, undisturbed by cross traffic and red lights...
