

President Skirts Church-State Issue in Aid Message

By LOUIS CASSELS
WASHINGTON (UPI)—President Johnson has come up with a new formula for avoiding religious controversy over federal aid to education.

His solution is to keep federal aid funds under the administrative control of public educational authorities, but require that they be used in a way that will benefit all the poor children of a community, including those who attend parochial schools.

The practical effect of the formula will be to encourage so-called "shared time" arrangements, under which parochial school students attend public schools for part of each day.

Some In Operation
Shared time programs are already in operation in about 200 school districts across the nation. The usual plan is for a child to attend a church-related school for courses such as religion, history, literature and civics—which have a high educational content—and attend a public school for such relatively neutral courses as science, math and foreign languages.

Catholic and Protestant leaders previously have indicated a willingness to experiment with the shared time concept as a possible way out of the deadlock over including parochial schools in a direct federal aid program.

Protestants have opposed direct aid to parochial schools on the ground that it would violate the constitutional principle of church-state separation. Catholics have opposed any federal aid program that did not benefit the one-eighth of America's children in parochial schools as well as those in public schools.

The net effect of the religious controversy has been to paralyze congressional action on education and make it impossible to get any previous federal aid bill enacted.

Initial reaction indicated that Johnson may have succeeded in sidestepping the church-state issue in the \$1.5 billion education aid package which he presented in congress yesterday. The President earmarked \$1 billion for assistance to schools serving low income neighborhoods. Funds would be dispensed exclusively through public school channels, but each recipient school district would have to show that it planned to use the money "for the benefit of all children within the area served, including those who participate in shared services or other special educational projects."

Two U.S. Fighter Planes Shot Down in Central Laos

One Pilot Rescued, Missing Flyer Sought

WASHINGTON (UPI)—Two U.S. Air Force supersonic fighter planes were shot down in Central Laos today, the Defense Department announced. It said one of the pilots had been rescued.

Assistant Defense Secretary Arthur Sylvester said search and rescue operations were under way to recover the other pilot.

U.S. Opposes Early General Assembly Leave

UNITED NATIONS, N.Y. (UPI)—The United States opposes any move for an early adjournment of the General Assembly to get around the U.N. financial deadlock, U.S. sources said today.

There were increasing reports that the six-week crisis over Russia's \$61 million U.N. debt was leading to a move to adjourn the assembly this month and resume business in September.

Afro-Asian and Latin American nations were reported urging that the assembly meet only briefly next week, finish its general debate, take care of a few items of essential business, and then put everything off until fall.

The Soviet Union was believed in rare agreement with the United States in opposition to the move. No official comment from either side was available, since there has been no formal proposal to cut short the assembly's work.

The U.S. sources said adjournment without resolution of the deadlock would mean "we could not get on with the work of the United Nations at all."

Under a temporary arrangement adopted Dec. 1, assembly business has been enacted by acclamation to avoid a formal vote. The United States says that the first time a ballot is taken, Russia automatically will lose its General Assembly vote under provisions of Article 19 of the U.N. charter, which provides for such action against members two years in arrears.

The downing of the two planes — one an F100 and the other an F105 — brought to six the number of American fighters and reconnaissance planes shot down by Communist forces over Laos since early last June.

In contrast with previous announcements, today's Pentagon report did not make any claim that the planes were on a reconnaissance mission.

Sylvester would not comment on the planes' mission.

This gave rise to speculation that American Air Force planes probably have begun in recent weeks attacks on Communist supply routes leading into South Viet Nam via Laos.

While Sylvester would not give any details of the mission today, he did say that the two airplanes were not flying over the Plaines des Jarres in Laos when they were shot down.

Sylvester said he was "not aware" of any retaliatory action that might have been taken after the two U.S. planes were shot down.

Soviets Display Big Medical Tech Exhibit

KANSAS CITY, Mo. (UPI)—The Soviet Union's finest medical technology went on display today in a cultural exchange exhibit that is a protest group called "an operation in political warfare."

Anatolov F. Dobrynin, Soviet Ambassador to the United States, formally opened the USSR medical and public health exhibition Tuesday.

Savior Complex Led to Gambling Club Shootings

GARDENA, Calif. (UPI)—A 70-year-old man with a savior complex was being held by police today on charges he shot 29 poker players and employees in three clubs to "save a lot of innocents and good people."

Louis Koullapis' reason for the mass shootings early Tuesday was made clear in a poorly spelled letter police found in his room here.

"Tonight I am sacrificing my life just to see if the clubs will be closed forever. I am old and very sick man. Is nothing left for me in this world.

"What I am doing tonight... could save a lot of innocents and good people."

"These joints destroyed lots of homes. Thousands of divorces and many good thoughts of children are without good homes."

"Many young women become prostitutes just to have enough money to play cards."

Koullapis, a retired machinist from Crete, also was reported to have said two days ago that he was going "to take 20 or 30 people" with him when he died.

Police officers Louis Purcell and Donald Williams, who disarmed

Comms Voice Strong Warning Over Viet War

TOKYO (UPI)—Communist China pledged today to stand unwaveringly behind North Viet Nam to crush "U.S. imperialist aggression" in South Viet Nam.

The pledge came in a statement by Marshal Chen Yi, Peking's foreign minister, in a note to the Hanoi regime in which he condemned a plan by the American-supported South Korean government to send 2,000 non-combat troops to South Viet Nam to help fight the Viet Cong Communist guerrillas.

Yi said this move "should be frustrated with firmness." He added that the Peking government and people would "forever stand together with the fraternal Vietnamese people" to "completely defeat" the United States.

Yi's note was supplemented by a parallel statement broadcast in English over Peking Radio. But neither specified what action Communist China might take to bring about American defeat in Viet Nam.

It was one of the strongest Chinese statements on Viet Nam since the Gulf of Tonkin crisis last August.

Today's threat of Chinese intervention was contained in a government statement distributed by the New China News Agency. It commented on plans by South Korea for sending 2,000 non-combat troops to the assistance of the South Vietnamese government.

"If U.S. imperialism continues (See COMMIES, Page 3)

Major Overhaul on U.S. Immigration Laws Asked

By HALE MONTGOMERY
WASHINGTON (UPI)—President Johnson asked Congress today for a major overhaul of U.S. immigration laws. He proposed abolishing the 40-year-old system of national quotas which he called "incompatible with

our basic American tradition." Johnson's special message to Congress carried out his State of the Union pledge last week to seek an immigration law "based on the work a man can do and not where he was born or how he spells his name."

The President told the lawmakers today that correction of "serious defects" in the law was long overdue. He urged that the program be given "priority consideration."

Except for technical refinements the proposed legislation is essentially the same as sought by the late President John F. Kennedy in 1963. Kennedy's proposal failed to clear either the House or Senate Judiciary Committee.

Introduce Legislation
Sen. Philip A. Hart, D-Mich., announced that he would introduce legislation Friday to carry out Johnson's recommendations.

The heart of Johnson's plan is a recommendation for gradual elimination of the quota system which has been in use since 1924 to determine the number of foreigners permitted to enter the United States from each country.

The President asked that the promise of America be opened to others based on their skills

and ability, and on their relationship to relatives in this country so families could be reunited — not on the basis of a person's country of origin.

"We are not merely a nation, but a nation of nations," Johnson declared. "Violation of this tradition by the national origin quota system does incalculable harm."

Have No Right
"The procedures imply that men and women from some countries are, just because of where they come from, more desirable citizens than others. We have no right to disparage

(See LAWS, Page 3)

Republicans Rally To Give Bliss Solid Support

WASHINGTON (UPI)—Warring factions of the Republican party rallied today behind Ray C. Bliss, an old pro from Ohio, as the man to restore peace in the GOP and to rebuild it for victory.

Most party leaders applauded the choice of Bliss as a step toward unity, but Alabama Chairman John Grenier said he thought Burch's resignation was unnecessary. Ed Broyles, North Carolina committeeman, said the party chairmanship would move from the conservative to the liberal wing, "and that's not going to harmonize anything."

Goldwater bowed to the inevitable Tuesday and announced from his Phoenix, Ariz., home that Dean Burch, the controversial national chairman he picked last July, would resign, effective April 1. He nominated Bliss for the job and reported that former President Dwight D. Eisenhower and Richard M. Nixon concurred.

Reaction from national committee members suggested that Bliss probably will be elected unanimously when the committee meets at Chicago Jan. 22 and 23. A party-splitting vote over deposing Burch had been in prospect.

Anti-Goldwater Republicans and critics of his campaign have been yelling for Burch's ouster since the Republican

election disaster Nov. 3. The 57-year-old Bliss, Ohio GOP chairman since 1949, was the man most mentioned as a replacement.

But Mississippi GOP Chairman Wirt Yerger Jr. called Bliss "a hard-working conservative" who would bring to the national chairmanship the talents it needs.

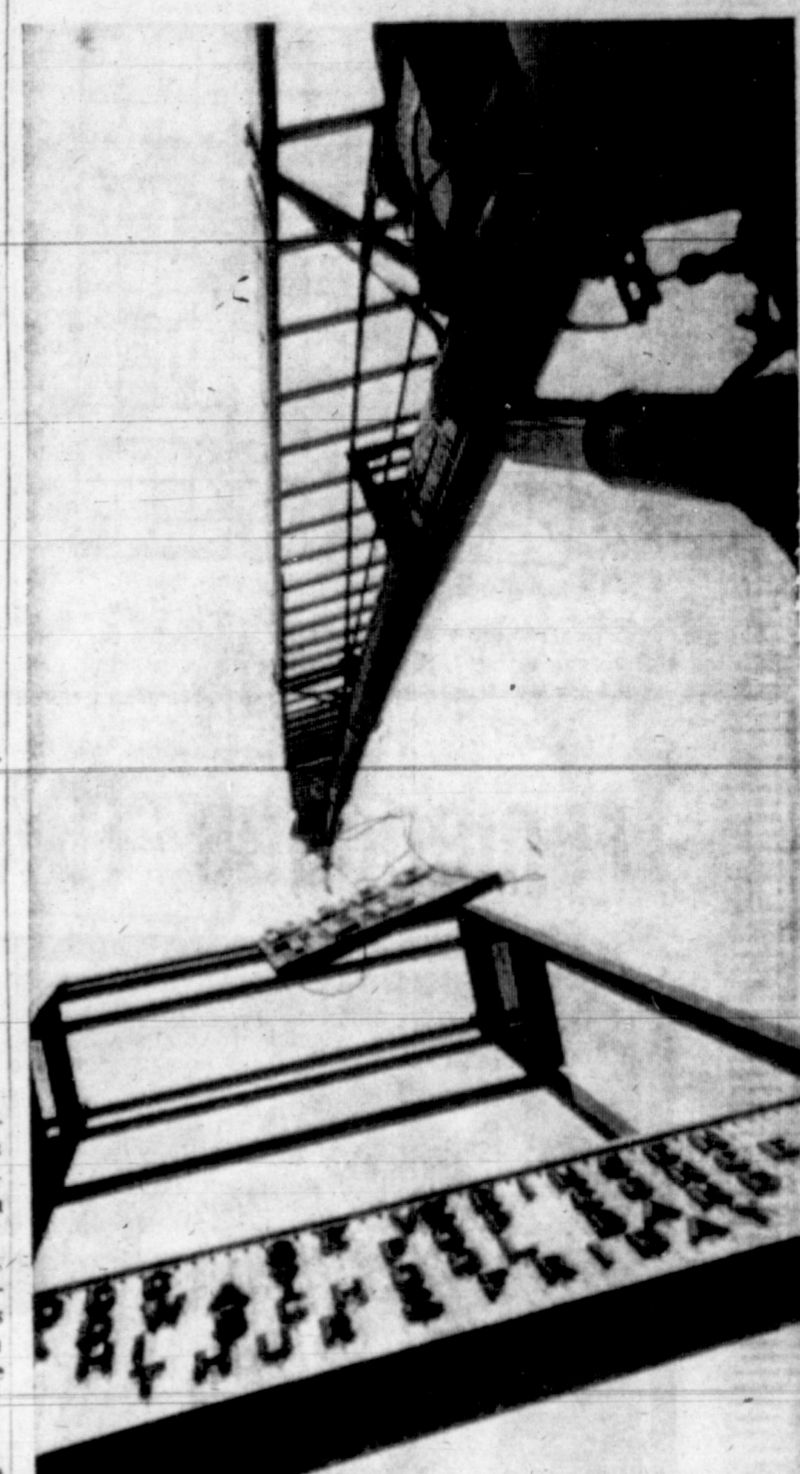

Bliss has acquired a reputation as a skilled political mechanic, an organization man who stays neutral during most of the arguments about Republican philosophy. He works as a backstage operator and not as the star of the show. He refused the national chairmanship in previous years when it could have been his.

A legal technicality forced a continuance Tuesday in a St. Augustine, Fla., hearing that could affect around 500 sit-in demonstrators. St. Johns County Judge Charles Mathis told eight of the demonstrators to prove they were not under federal jurisdiction before he would hold the hearing.

The demonstrators' attorney had sought to ask for a dismissal of the trespass charges under the 1964 civil rights law which, under a Supreme Court ruling, makes sit-in cases moot. Elsewhere:

Huntsville, Ala.: Dr. H. F. Drake, one of four Negroes named last week to Huntsville's Community Relations Committee, resigned Tuesday with the explanation that his membership would be incompatible "with the best interests of the people I represent."

New Orleans: The local branch of the National Association for the Advancement of Colored People Tuesday supported the action of 20 Negro professional football players who refused to play in an All-Star game here because of discrimination by taxi drivers and nightclub operators.

Daily News Staff Photo
HIGH SIGN — Coronado Center's main sign located on the west side of N. Hobart was decked out with giant letters yesterday spelling out Coronado Center. Perched on the top of the extending ladder is an employee of a New Mexico sign company who is installing half of the sign in place. The illuminated plastic letters cover the top of a giant steel structure that stands on a narrow mall at the center.

Seagoing Unions Back Dock Strike

NEW YORK (UPI)—The decision of seagoing unions to observe longshoremen's picket lines marooned luxury liners at their piers today and heightened the economic impact of the Atlantic and Gulf coast dock strike.

Two passenger cruises were cancelled immediately when the seamen's unions notified shipowners they would support the strike of the International Longshoremen's Association (ILA). In effect, the entire U.S. passenger fleet operating from ports in the East and South was left high and dry while its foreign competition faced only minor inconvenience at the docks.

Moore-McCormack Lines called off today's sailing of the liner Argentina to the Caribbean with 180 passengers and the United States James cancelled the superliner United States scheduled voyage to Europe Thursday with 800 passengers.

William B. Raad, president of the United States Lines, said the strike forced cancellations represented "another nail in the coffin" of the oceaning U.S. Merchant Marine Foreign-flag liners, whose crews are not represented by American unions were free to come and go although passengers had to carry their own luggage.

The National Maritime Union (NMU) and the Seafarers International Union (SIU) which represent American licensed seamen, pledged Tuesday not to cross the ILA picket lines and

other unions representing non-licensed crewmen went along with the decision.

Additional U.S. passenger liners will be affected later by the strike which will prevent them from sailing from the strike-hit ports. Already more than 100 dry cargo vessels were stranded in ports from Maine to Texas by the IFA walkout. The tie-up was costing the economy an estimated \$25 million a day.

GOP Drafting Health Plan

WASHINGTON (UPI)—House Republicans are drafting their own health care plan in an effort to check the steamroller drive for President Johnson's proposal.

The administration's measure to provide hospital and nursing home care for the elderly under the Social Security system already appears headed for almost certain passage.

But Rep. John W. Byrnes, Wis., top Republican on the House Ways and Means Committee, said today he was preparing an alternative and would present the proposal to the entire House GOP membership.

Byrnes would not reveal details of his plan, other than to say it would offer a choice to those opposed to the Social Security concept.

Presumably, the Byrnes proposal would be similar to a bill offered in the Senate Tuesday by Sen. Leverett Saltonstall, R-Mass., and five other GOP senators, to set up a health care program financed through general revenues rather than through Social Security on payroll taxes. It would provide federal funds under a state matching formula.

If it comes from a hardware store we have it. Lewis Hdw. Adv.

Foreign Commentary

By JOSEPH W. GRIGG
PARIS (UPI) — President Charles de Gaulle of France has given orders to roll out the welcome mat for President Johnson whenever he comes to Europe.

That does not mean U. S.-French frictions suddenly have been forgotten or their relations brought out of cold storage. But De Gaulle has decided it is time for him to sit down and talk with Johnson. He wants to give the U. S. President his version of how U. S. relations with Europe, and specifically with France, should develop during the rest of this century.

The fact Johnson has accepted gracefully De Gaulle's position that their meeting should take place on the French leader's home ground in Paris and that Johnson would be coming here specifically to see him remove the last roadblocks on the French side for such a get-together.

them more and more in their historical perspective. De Gaulle is relatively uninterested by this or that minor source of U. S.-French friction. His mind is working on a broad blueprint for the future. It is this blueprint he hopes to expound to President Johnson that the 190-year-old U. S.-French friendship and their alliance spanning two world wars and the East-West cold war are something basic and indissoluble so far as France is concerned.

Shuns Domination
De Gaulle concedes that in the final instance Europe must continue to depend for its safety on the gigantic American nuclear umbrella. But, with this limitation, he insists that Western Europe must be completely free from American control or "domination"—in every field.

The "Europe of the Six," which he seeks to weld together into a loose confederation of independent states today, he regards as the nucleus for a broader European union tomorrow—perhaps a quarter-century or a half-century from now.

That is the essence of the picture he is likely to paint for President Johnson.

Blueprint For Future
As he advances in years—he is now 74—De Gaulle concerns himself less with day-to-day housekeeping details of international relations. He thinks of

Pampa Delegation To Attend Shrine Meet in Amarillo

Pampa will send a delegation of 50 Shrine Club members to Amarillo tonight for the annual election of officers of the Khiva Temple Shrine.

Shriners from the entire Panhandle from Lubbock north will attend tonight's meeting which will be presided over by Potentate Bill Holmes of Lubbock, outgoing head of Khiva Temple.

The Pampa Shrine Club will take its new bus to Amarillo tonight. Other members will go to the meeting in private cars.

A fellowship oyster supper is scheduled in the Khiva Temple at 6 p.m. The supper will be followed by a business meeting and election of officers.

Charges Pending For Shoplifter

Charges of shoplifting were filed today against a 24-year-old Pampa Negro arrested yesterday at a Pampa grocery store.

Court action against Carter (Bobo) Hunicutt, 519 Oklahoma, was pending shortly before noon.

Hunicutt, according to police, was witnessed by two employees of the IGA Food Liner, 600 S. Cuyler, shoplifting two packages of meat. When they approached him, police said Hunicutt ran out the front door. The employees caught him on the store's parking lot and held him until officers arrived.

Bids on Pampa Aqueduct Asked

Congressman Walter Rogers announced today the Bureau of Reclamation will issue invitations for bids on completion of 35 miles of 20-36 pipelines in connection with the Canadian River project east aqueduct, which will run in Pampa.

The estimated contract is \$2,368,000 and will include excavation to lay pipe and other concrete structures with the job.

Time allowed for completion is 750 days. Interested parties may get in touch with the Chief Engineer, Bureau of Reclamation, Denver Federal Center, Denver, Colo.

Pampa Host City to Municipal League

Pampa will be the host city when Region II of the Texas Municipal League meets Thursday night, Jan. 21, in the Crystal Ballroom of the Herring Hotel in Amarillo.

Former Mayor Fred Thompson of Pampa will be the principal speaker at the dinner session.

City Commissioner L. P. Fort will give the address of welcome. The invocation will be by City Secretary Stanley M. Chittenden and the speaker will be introduced by Aubrey L. Jones, Pampa tax assessor-collector.

The meeting will attract city officials from 50 cities and towns in the region embracing the Texas Panhandle.

Mayor H. R. Thompson and Acting City Manager R. B. Cooke are expected to lead a delegation of Pampa city officials who will attend the affair.

Commiss

(Continued from Page 1)

...to prosecute its scheme for expanding its aggressive war in South Viet Nam and even internationalizes that war. The Chinese government and people will have to give further consideration to the duties incumbent on them for the defense of peace in this area," the statement said.

It called the South Korean plan "a dangerous development" and called upon the Soviet Union and Britain, co-chairmen of the 1954 Geneva conference on Indochina, to take "prompt action" to check it.

The news agency said Peking's position was made known to North Viet Nam in a note sent to Hanoi by Foreign Minister Chen Yi.

Chen said the South Korean move was an "exceedingly grave" action which "should be treated with firmness."

"I wish to take this occasion to reaffirm that the Chinese government and people will forever stand together with the fraternal Vietnamese people and carry through the struggle so as to completely defeat the U.S. imperialist aggression in Southern Viet Nam."

Warm Trend Due Thursday

A weak Canadian cold front brought slightly cooler temperatures to Pampa and the Panhandle Tuesday. Pampa's weather was predicted for the rest of the day and tomorrow.

Lower temperatures were recorded in most areas of the Panhandle than Tuesday. Pampa's overnight low was 22 degrees. The high yesterday reached 47 and at dawn this morning the temperature stood at 28 degrees.

Light rain and drizzle was reported in extreme South Texas, and the forecast called for more light rain in southern portions of the state.

The U. S. Weather Bureau said the cooler air will continue to spread southeastward, reaching the coast Thursday.

The forecast for Pampa and vicinity calls for mostly fair skies through tomorrow. Little warmer today and tomorrow. Low tonight around 20, high for tomorrow low 50s. Winds northerly 10-15 m.p.h.

Pampa Teacher New Coordinator for NSTA

Elaine Ledbetter, head of the science department at Pampa High School, has been selected as National Science Teachers Association coordinator for an eight-state area.

The association will be represented at Houston's Manned Space Center by 17 gifted high school students at a student congress to be held April 15 and 16.

Semester Tests End At School Thursday

First semester testing at Pampa High School will wind up at noon tomorrow, with make-up tests scheduled to be administered during the afternoon.

Friday school will be dismissed while teachers grade and record the semester exams.

Monday will begin the second term of the nine-month school year.

(Continued From Page 1)

...the ancestors of millions of our fellow Americans in this way."

Under the proposal, existing country-by-country immigrant quotas would be gradually eliminated over five years. The quotas would be reduced by one-fifth in each year until abolished, thus avoiding an abrupt change in the pattern of immigration.

The ceiling on the number of persons admitted would be about 165,000 a year under the program, only about 8,000 more immigrants than now allowed under the quota system.

As numbers are released from national origin quotas, they will be added to a central pool at the rate of about 32,500 immigrants a year. Eventually, all under the program would be in a single pool.

With quotas eliminated, first preference — regardless of nationality — would be given to those persons with exceptional skills who would improve American society, such as scientists, artists and skilled craftsmen.

Other preferences for admission to this country would favor foreigners who are close relatives of U.S. citizens or U.S. resident aliens, and immigrants with skills who could fill the needs of a particular labor shortage in this country.

Parents of U.S. citizens could obtain admission without waiting for a quota number.

Administration sources said that an average of about 300,000 immigrants enter this country each year, including those admitted under the quota system and under a complex of special immigration laws.

This would be increased to about 350,000 annually under the bill, they said.

The increase would result from the fact that some Western European nations — notably Britain, Germany and Ireland — fall short by about 50,000 persons a year of filling their quotas.

Under the administration proposal, these numbers would be pooled and parceled out to countries with large waiting lists. Experts estimated that at the end of five years, Italy would be the only country with a waiting list of preferential applicants.

Bellmon to Seek \$1 Hour Minimum Wage

OKLAHOMA CITY, (UPI)—Gov. Henry Bellmon said he would probably seek a rate of full-time adult workers who are \$1 per hour in his proposed state minimum wage law.

Bellmon said he had not decided on final language of the law and recommendations of poor quality organized labor would be well-

COMPLETES SALE

SAN FRANCISCO (UPI)—Foremost Dairies, Inc., said Tuesday it has completed the sale of its southeastern regional companies to Home Town Foods, Inc., a new company for \$21 million. The Foremost Bahamas are included.

turn were eliminated by the 1964 Revenue Act. These are the tax on cigarettes and alcoholic beverages and fees paid for auto license tags and drivers' licenses.

The Treasury Department also has reviewed the sales tax allowance charts in the 38 states having state, county or city sales taxes. For each state Internal Revenue Service now has a chart showing the optional amount of sales tax which may be deducted without any proof being required. These automatic allowances are based upon total income and the number of persons in the family.

In most of the states the sales tax allowances for 1964 returns are not as liberal as those permitted in former years. There is this saving grace: Unlike the experience of past years IRS will now permit taxpayers who purchased an automobile in 1964 to add on to the allowance in the state schedule for sales tax the actual amount of state sales tax paid on an auto purchase.

This probably will mean that the taxpayer who buys a car every year or two will have in

the aggregate a higher allowance for sales tax than formerly. Those who buy a car no more often than every three years will have a smaller deduction.

Also deductible in the tax column are real estate taxes (but do not include special assessments for roads or sewers), state and local income taxes and state and local income taxes and personal property taxes which many states have on investments and revenue-producing securities.

It is well to remember that no federal taxes such as those charged on transportation, utilities, admissions and the various excise taxes are deductible.

Here is the gas tax for the various states:

5 cents — Illinois, Kansas, Missouri, Texas, Wyoming

5 1/2 cents — Massachusetts

6 cents — Arizona, Colorado, Connecticut, Delaware, District of Columbia, Idaho, Indiana, Iowa, Michigan, Minnesota, Montana, Nevada, New Jersey, New Mexico, New York, North Dakota, Oregon, South Dakota, Utah, Wisconsin

6 1/2 cents — Arkansas, Georgia, Vermont

6.58 cents — Oklahoma

7 cents — Alabama, California, Florida, Kentucky, Louisiana, Maine, Mississippi, Nebraska, New Hampshire, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Virginia, West Virginia

7 1/2 cents — Washington

8 cents — Alaska

Maryland was 6 cents to June 1, 1964, 7 cents thereafter.

(NEXT: The Only Time Sickness Pays Off.)

IT VARIES — Gasoline taxes are deductible, but amount varies by state.

LBJ's Message At a Glance

WASHINGTON (UPI)—President Johnson's immigration message at a glance:

Quotas—Gradual elimination over five years of existing national origin quotas on an estimated 166,000 immigrants a year.

Preference—Preference to be given to immigrants with special skills and to those with relatives in the United States.

Safeguards—Bill would not alter limits in existing law which prevent influx of undesirable or excessive or unregulated immigration immigrants still must satisfy all U.S. security requirements plus rules designed to exclude those likely to become public charges.

Montgomery Ward Catalog on Way

Montgomery Ward this week is starting to send its 130,000-item spring and summer general catalog to more than 7,000,000 customer families — one out of every eight families living in the United States. More than 5,000,000 of these families — 80 per cent of those receiving the catalog — live in major cities.

"The catalog business is big business today, and continues to grow. Ward's sales through catalogs in 1964," according to Bill McComas, manager of the Pampa Montgomery Ward store, "exceeded \$50,000,000 for the biggest sales year in the 93-year history of Montgomery Ward, the oldest catalog merchandising organization in the world."

"Aimed as a program of something for everybody, the new Montgomery Ward catalog is compact, yet provides for the interest of suburban and city families as well as those of the farm community," McComas said.

Admission Prices Go Up at New York Fair

NEW YORK (UPI)—The New York World's Fair will increase adult admission prices from \$2 to \$2.50 for this year's season.

The announcement came Tuesday from Fair President Robert Moses and Chairman of the Executive Committee Thomas J. Deegan.

No More Driving

CARDIFF, Wales (UPI)—Thomas John of Newport, Wales, 34, a truck driver, Tuesday was sentenced to jail for four years and his driving license was suspended for 80 years after he pleaded guilty to charges of drunk and dangerous driving.

Wall Street Chatter

NEW YORK (UPI)—Spear and Staff, Inc., says the long range outlook for stocks is favorable and "we would not disturb investments that are statistically conservative."

However, the advisor letter comments that on a near term basis "we would avoid making substantial new commitments on margin until the technical picture improves."

International Statistical Bureau advises its clients not to disturb their stock holdings at present. The bureau says the performance of the market in

the past week "justified our optimism and clearly negated the misplaced pessimism of some investors, speculators and advisory services."

Alexander Hamilton Institute comments that the market rally of last week may continue somewhat further but says the recovery may be only temporary. The advisory service says "we believe the market has pretty well discounted the current strength in general business, particularly in automobile sales and the steel inventory buildup."

"What's new at the Uhlmann Office?"

"Our name! Now we're H. Hentz & Co."

And that's not all that's new. When the Uhlmann operations were acquired by H. Hentz & Co. on January 1, our local office benefited in a number of ways.

Through the Hentz facilities, we now have a wider membership in the nation's leading stock and commodity exchanges, including partners on the floor of the New York and American Stock Exchanges.

We have a private wire to the Hentz main office at 72 Wall Street, New York, as well as to H. Hentz & Co. in the Board of Trade Building in Chicago.

We have the services of the seasoned and well-rounded Hentz Research Department.

And we have the experience gained by Hentz through 108 years of service to investors large and small.

But although our name has changed, our people haven't. You'll find the same friendly faces and warm welcome as always. Stop in and see us—soon!

Congressman Talks Of Party Punishment

There is an old saying, "Politics makes strange bedfellows." The truth of this statement has certainly been proven by the recent actions of both the Democratic and the Republican Parties in the House of Representatives. The Democrats punished two of their Members for failure to support the Presidential and Vice Presidential nominees in the last election, and for supporting the nominees of the Republican Party. On the other hand, the Republican Party kicked out their Leader in the House of Representatives in spite of the fact that he had been one of the most vigorous supporters of the Republican nominees for President and Vice President. This created a situation where all three were pretty well stripped of seniority rights with regard to committee assignments. Seniority is of great importance to every Member of Congress, hence the loss of it is a substantial blow.

Press reports indicate that the Republican Party had a number of defectors among the Members of the House of Representatives. There was no discussion as to punishment of these defectors for bolting the party; on the contrary, there was some talk that they may be the leaders of the new "image" of the Republican Party.

Summed up, it would appear that the two Democratic defectors stripped of seniority because they bolted the party, and the Republican Leader stripped of his powers even though he vigorously supported the party nominees, are in the same political bed — outcasts from their own parties for completely reverse reasons, but political bedfellows nevertheless.

I would not presume to pass judgment on the actions of the Republican Party or its Members in the House of Representatives. However, I do not occupy the same situation with regard to the Democratic Party. I vigorously disagree with the action of the Democratic Caucus in punishing John Bell Williams and Albert Watson.

I do not agree with what these two men did, but I would never defend their right to do it. Whether or not they should be punished should depend entirely upon the law and the rules applicable at the time the action was taken. The Constitution of the United States in Section 9 contains the following provision: "No bill of attainder or ex post facto law shall be passed." It is undeniable that there were no rules or requirements in the Democratic Party applicable to Members of Congress that if

Economists Agree With President on Need of More Money for Higher Education

By JESSE BOGUE
UPI Financial Editor
NEW YORK (UPI) — In his message to Congress on education President Johnson spoke of the pressing need of colleges for trained and competent faculty members, and none may be quicker to agree than economists who have studied the market for their services in the educational field.

The President noted that colleges must be prepared to add 50 per cent more enrollment to their already overcrowded facilities by 1970 — on the portion of his message dealing with proposals for regional education laboratories, he spoke of the need to extend research and development to all stages of learning and to the field of economics among others.

An article in the December New England Business Review, issued by the Federal Reserve Bank of Boston took up in detail the demand for economists and the lag in supply of trained men to fill the needs in this field.

The article cited findings of two surveys made in the middle of last year, one in a sample group of American Economic Association members, the second among 1,250 employees and employers registered at the clearing house of a December, 1963, meeting of the association.

House meeting between the President and a group of businessmen backing the aid program. The businessmen urged Johnson to take a "hard look" at aid to Egypt and Indonesia, where U. S. libraries have been wrecked by mobs.

APPROVE SALE
NEW YORK (UPI) — Stockholders of Holly Stores Inc. have approved sale of the company's assets to S. S. Kresge Co. and the subsequent dissolution of their company.

Terms provide for the exchange of four Kresge shares for each 8 1/2 shares of Holly held. Arnold Bachner, president of Holly, said the company would operate autonomously as a Kresge subsidiary.

Beatle Haircut War Hits Tulsa

TULSA, Okla. (UPI) — The "beatle haircut war" already fought on the East and West Coasts, spread to Oklahoma Monday.

The casualty was John Stanley, 16, a high school sophomore, whose bushy locks dangle on his head in imitation of the British singing quartet.

Carl McCafferty, principal of Tulsa's Central High School, sent John home last week with orders "to do something" about his hair.

But the boy's parents, Mr. and Mrs. John L. Stanley, backed their son.

"You can just say he intends to keep his beatle and that's all there is to it," said Mrs. Stanley.

Dear Abby... This Deer Hunter Can't Win 'em All

DEAR ABBY: Ten years ago I married what I thought was a sweet, understanding country girl. I was a city boy. Now we have three children. I have always loved to hunt. Before I got married, five buddies and I used to go out of state to hunt deer for a week every year. My buddies are all married now, too, and their wives let them go on these hunting trips, but my wife won't let me go. She says killing deer is inhuman and we are a bunch of savages. She refuses to cook wild game and she absolutely forbids our sons to play with toy guns. What do you suggest?

ABOUT HAD IT
DEAR ABBY: If you can't persuade your wife that deer hunting is neither inhuman nor savage (and good hunters are familiar with all the arguments), you had better hunt yourself up another hobby. You can't win 'em all, and it would appear that your wife has "about had it" on the hunting issue, too.

DEAR ABBY: The manufacturers of men's clothing saved money when they took away the vest, a very handy garment. Then they raised the price of men's suits. How come?

DON'T GET IT
DEAR DONT: Where have you been? The vests are coming back. But don't wish for the "good old prices" on men's clothing unless you want the "good old wages" that went with them.

DEAR ABBY: How often I have heard that my husband and I are the happiest couple in town! Yet, after 27 years of marriage, two fine, well-educated children, plus three grandchildren, I found out that my husband has been unfaithful to me with a woman who works for him. Before making any accusations, I hired a lawyer and a private detective to get the facts. The evidence they brought me (photographs and tape recordings) was a blow I shall never get over. My soul is dead. I have repeatedly asked my husband to confess his guilt, but he responds with more lies. (He doesn't know I have the ev-

dence.) It has been six months and I am still waiting for him to tell me the truth. The hurt and humiliation is more than I can bear. How much longer shall I give him? Please answer before I do something foolish to him or to myself.

DON'T USE NAMES
DEAR DONT: Quit punishing yourself and confront your husband with the evidence.

DEAR ABBY: About 15 years ago I was given a recipe for old-fashioned Swedish meatballs. I have used it often, improving upon it by changing the proportions a little here and there, and adding some special spices to suit my taste. Every time I serve my Swedish meatballs someone asks for the recipe. I have been giving out the original recipe, just as it was given to me. Is this dishonest?

GOOD COOK
DEAR COOK: Yes. Your friends wanted the recipe for the meatballs you served them. Since you were unwilling to share it, you should have said "No."

Problems? Write to Abby, Box 69700, Los Angeles, Calif. For a personal reply, enclose a stamped, self-addressed envelope.

Hate to write letters? Send one dollar to Abby, Box 69700, Los Angeles, Calif., for Abby's booklet, "How To Write Letters For All Occasions."

Deana Rogers Is Birthday Honoree

CANADIAN (Sp) — Deana Rogers celebrated her third birthday recently with a party in the home of her parents, Mr. and Mrs. Garlon Rogers.

Birthday cake, ice cream and punch were served.

Attending were Robin Mitchell, Melinda Mathers, Laurie Mathers, Ricky Waterfield, Jeffrey Rogers, Lisa Rogers, Keith Schoenhals, Matt Krebhiel, Christy Rogers, and the honoree's grandmother, Mrs. Mark Rogers.

A Preview of Spring!
It's never too early to take a look at the coming season's style! Here is a charming knit suit for the young lady — an ideal costume for Easter!

No. 338-N has knit directions for sizes 4, 6 and 8, inclusive. To order send 50 cents for each pattern to:
CREATIVE WOMAN, Pampa Daily News, Box 438, Midtown Station, New York 18, New York. Add 10c for 1st class mailing. Print name; address with zone, state number and size.

Gardening News

By THELMA BRAY

Hyacinths will flower with short stems unless the bud is made to develop in the dark. As soon as the young leaves start to unfold, and the buds appear, cover the plant with a cornucopia of paper or an inverted pot. If the latter is used keep it on until the spike has nearly reached the top.

"Tulip bulbs are not poison when eaten, as was once believed", says Gustave Springer, director of the Netherlands Flower-bulb Institute. The Dutch who ate tulip bulbs during World War II can attest to this fact.

Springer stated, "Tulip bulbs are not for eating; they are for growing spring flowers. Frankly, they don't taste very good, but at least gardeners need not worry about having them around."

Overwatering of the crab or Christmas cactus at this time will make the flower buds drop off. However do not let the plants go dry.

Branches of Christmas trees may be used as a mulch over roses, bulb beds, the rock garden, perennials which have evergreen foliage, and plants in the coldframe. The boughs make a light, airy mulch which is most desirable.

Christmas trees may be bound together, set up like a tepee, and securely fastened to make a shelter for birds. Bird food may be scattered under the evergreens where it can be eaten with security.

It is especially important to feed the birds, during and immediately following a heavy snow storm. Grain, sunflower seeds, nuts, fruits such as apples, peanut butter, meat scraps and suet find favor with different kinds of birds. Food should be put out twice a day for the birds.

Save hardwood ashes from the fireplace for gardening, but store them in a dry place. Each pound may have the value of limestone with minor amounts of fertilizing elements.

During a heavy snow, prevent damage to evergreens by shaking or brushing the snow off the branches before it becomes wet and heavy and before it freezes into solid masses. A wooden rake or a broom are useful tools for this work.

Printed in a recent issue of "The Lone Star Gardener," the official publication of Texas Garden Clubs, was the following item of interest on the size of Texas. If we gave each man, woman and child in the world a tract 20 x 200 feet of Texas, all the armies in the world could still march five abreast around the edges of our state. All the people in the United States could move into Texas without making it more densely populated than Massachusetts.

Use paper clips to hold plastic material instead of basting which will leave pin marks.

Lee Cops Pair Over Pampa JH

Robert E. Lee Junior High took a double triumph over Pampa Junior High in a twin basketball bill at Harvester Fieldhouse yesterday.

The 9th grade Rebels used a hot first and third quarter to withstand a second-period rally by the Reapers and take a 55-39 victory in the opener.

The Reapers were ice-cold in their shooting the first frame despite the all-around efforts of Al Gomez. Dickie Henley set the pattern of the game as he opened up with three fast breaks, and then, as the taller Rebs dominated the rebounds, led by lanky Carl Long and Beattie Bailey, Lee broke it wide open as Johnny Marsh shot the opening shot for an 18-6 quarter lead.

Little Alvin Achord and Johnny Carlos put on a tremendous second-period rally. Danny Stokes and Don Whitney started getting a piece of the boards as the Rebs picked up foul troubles, and the left-handed Achord closed the gap to five points, with Lee holding a 29-21 lead.

Henley started hitting 33-1 to open the third frame and the Reapers put on the press. Bailey broke it wide open by hitting from outside and shot the Rebs to a 45-30 bulge.

The fourth quarter saw the Reapers miss numerous free throw opportunities as both sides cleared the bench.

Bailey had 18 points, Henley 14 for the Rebs; Achord 12 and Carlos 11 for Pampa.

Pampa 8th grade had the height and the rebounding advantage, but couldn't find the bucket, while the Johnny Rebs, paced by Jim Hollis and Gary Parrish could for a 28-15 difference. Lee held a slim 6-4 quarter lead, stretched it to 12-6 at the half and 20-9 in the third frame.

Hillis had 12 points, Parrish 10 and Dopey Sublett five. Larry Karr had six for Pampa.

The two 7th grade teams, both undefeated, meet tomorrow at 7:30 p.m. at Pampa Junior High.

Lefors Gals Win First District Tilt

By KEITH GEISLER, News Sports Correspondent

LEFORS — A near-capacity crowd went hysterical as the Lefors Pirettes came from behind to win their first district basketball game in over five years last night, 42-41 over Mobeetie, while the rapidly-improving Pirates rolled up their highest offensive total of 119 in taking their district 2-b opener over the Hornets, 76-40.

Lefors girls opened up a 16-7 quarter lead as Vicki Stone slammed in 14 points but the Mobeetie guards, led by Judy Uzzle, stopped her cold in the second frame while Judy Bailey hit free throws as if there was a law against missing to pull Mobeetie into a 21-18 halftime lead.

Vicki found the range again in the third quarter, aided by Terry Bryant and Frances Clarke, but it wasn't enough to stop Judy Rowell from the floor and Judy Bailey with nine of 11 free throws to maintain a 38-33 Mobeetie edge.

The Lefors guards, with Charlene Lisenbee all over the floor and Cynthia Howell backing her up, put the clamps on Mobeetie, holding them to three points in the final frame while Vicki and company slowly drew nearer, with Vicki canning the winning bucket with 1:30 to go. Vicki had 28 points, Bailey 20 (18-26 free throws) and Rowell 19.

The Pirates were never headed as a combination of shooting by Ace Roberts and Larry Prude, backcourt control by Danny Hill and Dickie Archer and wholesale theft by Billy "Midge" McBea led Lefors to 19-7, 31-14 and 50-28 quarter stops. Pruett and Roberts each hit 25 points, their season high, taking turns to keep the pressure on the Hornets, as Larry got 15 of his points in the first half and Roberts got 18 of his in the second half. Hill and Archer did a tremendous job on the rebounds over the taller Pirates who rarely got the ball downcourt as the quarterpoint McBea stole everything but the Mobeetie jerseys, hawking the ball constantly.

Archer added 10 points to Lefors' total, Billy Whitten led Mobeetie with nine Lefors is in Miami-Friday, Mobeetie hosts Allison.

SWC Roundup

By United Press International

Defending Southwest Conference basketball champion Texas A&M still held a threadbare chance to repeat as champions today—thanks to Big John (the Bomb) Beasley, their 6-9 center who discovered it takes rebounds to win ball games.

Beasley popped in 19 points with his low-trajectory set shot, but more important, hauled in 11 rebounds as the Aggies survived a dogged and scrappy Texas Christian team Tuesday night 72-71 at College Station.

The important victory gave the Aggies a 1-2 mark. In other conference games, Texas clobbered Baylor 95-74 at Austin and Arkansas ripped Rice 79-61 at Fayetteville.

The Razorbacks (2-1) climbed into third place with the victory behind SMU and Texas Tech who have 2-0 records. Five conference teams have 1-2 marks. Besides the Aggies, they are Texas, Baylor, Rice and TCU.

Beasley had problems with his rebounding in the first two Aggie conference games although his shooting was excellent. His return to form came just in time Tuesday night for the Aggies who were outshot by the Horned Frogs from the field 45.9 per cent to only 32.9 per cent. Overall A&M had a 53-47 rebound edge and made more free throws than TCU.

Texas blitzed Baylor with a sizzling 64.9 per cent shooting effort from the field to Baylor's 36.8 per cent. The Longhorns scored 17 straight points midway through the final period to bury the Bears.

Mickey White and John Paul Nutz of Texas tied for scoring honors with Winston Moore and Ed Horne of Baylor—each player made 16 points.

Ricky Sugg hit for 23 points in Arkansas' easy victory over Rice. The Owls' Doug McKendrick had 13 points.

The Razorbacks had a hefty 46 to 26 halftime lead.

The next conference activity will be Saturday when Baylor meets Arkansas at Waco, Rice enters A&M at Houston, and Texas Tech plays a non-conference game against the Phillips Oilers at Lubbock.

Wheeler Welts Kelton Twice

KELTON — Wheeler had little trouble taking a pair of district games from Kelton last night, the Mustangs romping 76-40 and the Mustangettes cooping 49-38.

Richard Wallace led a fast break that ran Kelton to death in the first half as Villard Hunter and Mike Gandy dominated the backboards, and Wheeler roared in an 18-7 quarter lead and 32-16 halftime bulge, racking to 59-30 in the third quarter.

All five Wheeler starters scored in double figures; Wallace belting home 29, Hunter 11 plus 17 rebounds, Danny Eberman, Dunk Porter and Mike Gandy 10 each, with Gandy getting 14 rebounds.

The Wheeler Fillies played one of their poorer games of the season, but still had too much for Kelton, taking 8-7, 19-18 and 24-28 quarter leads, finally locking it up in the final frame.

Sherry Barnes had 17 points, Donna Sue Ford 14 and Beverly Clark 12. Lafern Walser had 20 and Linda Bradley 18 for Kelton.

The Fillies are now 3-1 and the Mustangs 2-2 in 2-B play. Wheeler hosts undefeated Briscoe Friday night.

Colleges Make Peace With NFL

NEW YORK (UPI)—The National Football League apparently has made its peace with the National Collegiate Athletic Association over the premature signing of college football players, and now all that remains is the application of principle to common practice.

As a result of a request made to both professional leagues Tuesday by the NCAA's Pro Relations Committee, NFL Commissioner Pete Rozelle issued a statement designed to stiffen the league policy toward such transactions.

"No (college) player will be signed to a contract or any form of document, of intent, directly or through an agent, until after the completion of all his team's football games, including bowl contracts, in which he is available to participate during his senior year," said Rozelle.

The pledge, which was released within an hour after the NCAA request for such a policy statement, also included "collegiate football players who actually compete in seasons beyond the graduating date of their original class."

Joe Foss, Rozelle's counterpart in the American League, said that the entire matter would be presented to the AFL meeting opening in Houston this week. He said that since the AFL meeting is so close at hand, he felt there was no urgency for him to issue a statement at this time.

James J. Corbett, chairman of the NCAA committee, said in Chicago he was "very pleased" with Rozelle's statement, which the commissioner said would be implemented "by appropriate language providing for disciplinary measures to be placed in the league constitution at the annual (NFL) meeting next month."

ARMY-NAVY SIGNING

CHICAGO (UPI) — Representatives of the U.S. military and U.S. Air Force academies were to sign a contract today in the office of Mayor Richard Daley to play a football game at Soldiers Field on Nov. 6.

Colleges Make Peace With NFL

Cyclones Set Back Canadian

CANADIAN — Memphis fast-broke their way over Canadian last night to take a 79-69 victory in a district 2-A opener.

Trailing throughout the game, Canadian rallied to within three points in the last quarter on a full-court press, only to have Memphis pull ahead again as they broke the press with a two-man fast break.

The hot-scoring game saw Memphis take a 19-14 quarter lead on the shooting of Jim Odom, despite Butcherboy Eckles canning 10 points for the Cats. The two teams played even in the second quarter, 6-1 soph Bobby Carroll hitting for the Cyclones and Bob Hext and Gary Harrell for the Cats, and it was 39-34 at the half.

Memphis picked up another five-point bulge in the third quarter as Odom slammed the nets, picking the margin as high as 11 points, and it was 56-46 going into the last quarter.

Nine players hit double figures. Odom had 28, Carroll 19, James Waites and Hoot Jones 11 each and Larry Helm 10 for Memphis; Eckles had 22, Hext 15, Gary Harrell 14 and Kenny Harrell 10 for Canadian.

Canadian took the F game, 13-38. Butch Nicholson led Canadian with 14, Kenneth Seale celebrated his return from California with 11 points.

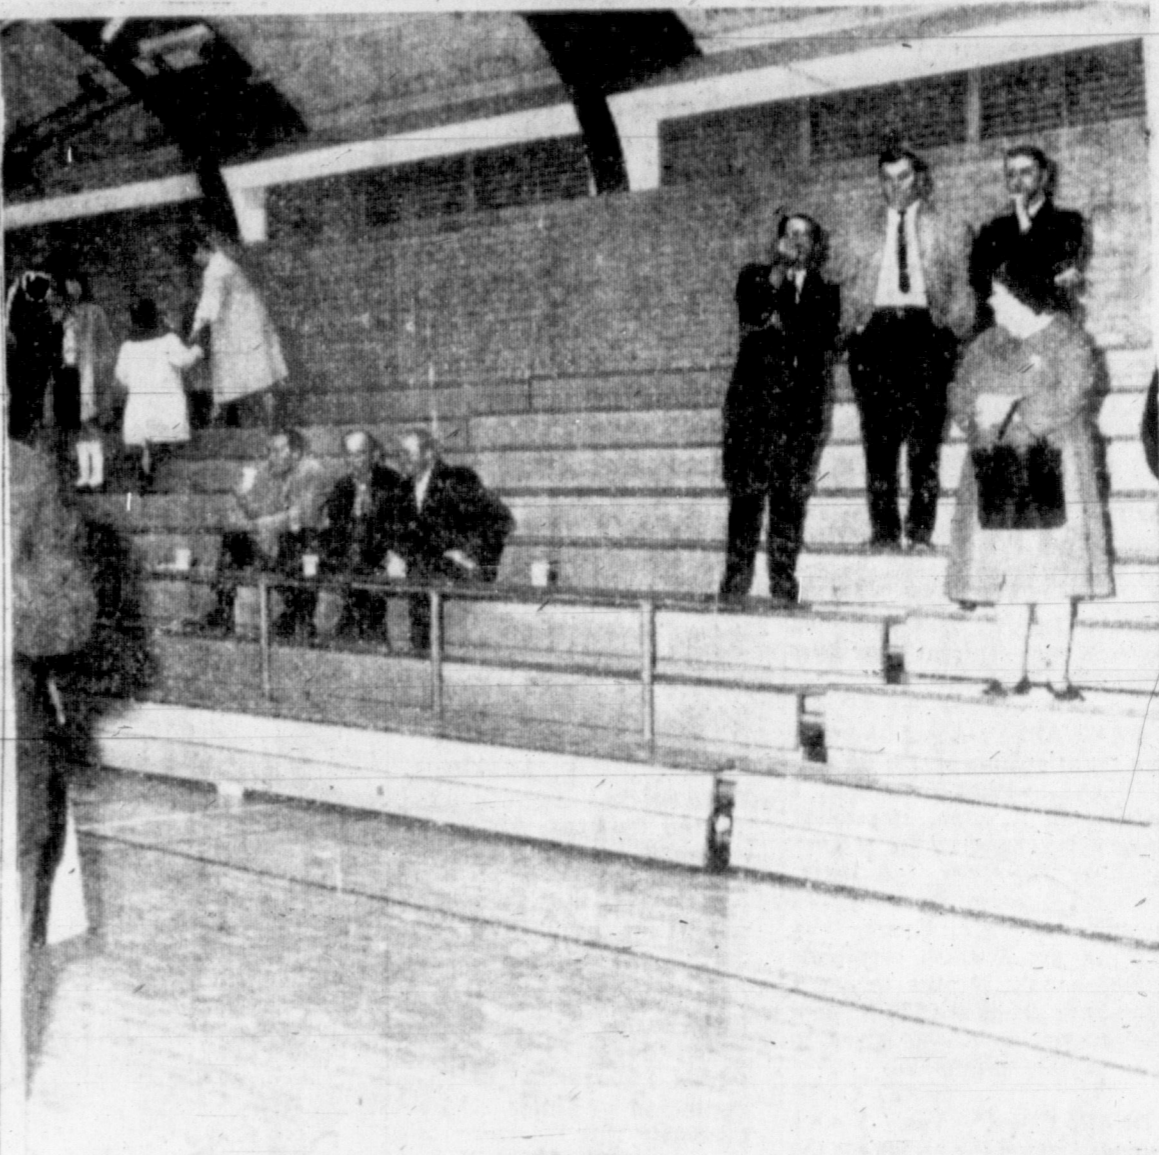

Steinle, freshman sprint champ last year and his brother Tony, varsity cager last season, have moved back from the Pacific Coast. Tony, a top ball-handler last year, will be eligible for varsity play again next month, and will make a big difference to the Cats in district.

Canadian boys and girls are at McLean Friday.

Cage Tickets On Sale Now

Tickets are now on sale at Richard Drug for the double-header basketball exhibition at Harvester Fieldhouse Monday night, Jan. 18, when Boyd Bue's Harlem Stars play the Pampa All-Stars and the Pampa Newsboys meet the Borger Misprints.

Advance tickets will sell for \$1.25 for adults, 75 cents for students and 50 cents for children under 12. Tickets purchased at the gate will cost \$1.50, \$1 and 50 cents. All proceeds will go to the Pampa Optimist Boys Club.

UNBELIEVING — A handful of astounded fans still sit forlornly in the stands as the rest of the packed house disappointedly files out. For the first time in many years, a game was postponed, because one of the referees was late! The Tascosa-Pampa game will be replayed tonight.

Deacons, Wilt-Russell Duel Duels Tie For ACC

Wake Forest had the Atlantic Coast Conference top spot all to itself but now, through no fault of its own, must share honors with another.

The Deacons eased by independent Georgia Tech 97-78 Tuesday night but the Duke Blue Devils beat conference foe Clemson 106-81 to tie Wake Forest for the ACC lead with a 4-1 slate.

The Deacons held a slim 45-44 edge at halftime but the Yellow Jackets knotted the score at 56-56 with 13 minutes left in the game. Then Wake Forest, which had trouble rebounding in the first half, began dominating the boards and pulled away. Bob Leonard paced the Deacons, who are now 8-5 overall, with 29 points.

The 11th-ranked Blue Devils (9-2) built a 51-36 margin at the half and were never threatened throughout the contest. Bob Verga netted 29 points for the winners while teammates Bob Reidy had 19 and Steve Vancendak 18.

Seventh-ranked San Francisco defeated Portland 86-59 for its 11th victory in 12 starts this season and its 18th straight success at home. The Dons trailed 25-23 with less than four minutes remaining in the first half but went on a scoring tear that carried them to a 39-30 advantage at intermission.

Erwin Mueller of San Francisco led all scorers with 20 points while Cincinnati's Powell had 17 for Portland.

Cincinnati was just too hot to handle for Dayton as the Bearcats hit better than 70 per cent from the floor after intermission for a come-from-behind 76-65 triumph. Cincinnati trailed by 12 at halftime but a 21 for 27 second-half shooting streak evaporated the Flyer lead. Ken Cunningham, who hit seven for seven in the torrid second half, led the Bearcat attack with 26 points.

Temple won its 26th straight at home with a 76-65 decision over Hofstra; Boston College riddled Rhode Island in a scoring free-for-all 107-105. Yale upended Ivy League foe Brown 87-55; Texas whipped Baylor 95-74; Arkansas defeated Rice 79-61; and Rutgers beat Delaware 91-77.

AFL Opens Meeting

HOUSTON (UPI)—Owners of American Football League clubs open their annual meeting in Houston today, beset by the hassle over signing college players and the race issue.

Colleges handed them the ball on early signings Tuesday night when a NCAA committee voted to recommend that the owners agree not to sign college players until their eligibility has expired. The move came after three days of intensive consultations with AFL Commissioner Joe Foss.

Harvesters Try Again At Tascosa

AMARILLO — Basketball games have been postponed due to bad weather, sometime because of widespread illness, but rarely because one of the officials failed to show up. However, that is what happened last night as the crucial district 3-A AAAA game between Pampa and Tascosa was postponed until 7 p.m. tonight, when Bob McAllister of Oklahoma failed to appear to call the game.

A disgruntled crowd of over 1,500 waited until 8:30, when Amarillo athletic director De Walker called the tilt off. McAllister, on route from calling a game in Louisiana, and Pete Cook were supposed to officiate the game, but McAllister failed to show.

Walker, coach Terry Culley of Pampa and coach Ace Perter of Tascosa all agreed to postpone the game. Although there were several qualified officials in the stands, Culley pointed out that in the game, which decided the district first-half title, neither team would agree on a home-town official from either Pampa or Amarillo.

Results in Lubbock last night made the win a must for Pampa, as Lubbock defeated Monterey, 50-46. Lubbock thus finishes the first half with a 7-1 record, and the Harvesters must defeat Tascosa to tie for the crown.

The crowd saw an exciting B team game however, as the Tascosa squad came from behind in the fourth quarter to edge the Pampa Shockers, 54-50. Roy Harper had 13 points and Robert Karr 12 for the Shockers.

Hedley Hits Past Groom

HEDLEY — Dee Morgan led a hot third quarter to break open a deadlocked ball game and give Hedley a district 1-B opening victory over Groom last night, 58-48.

Towering Pat Chesser and the outside shooting of Bob Weatherly jumped the Owls into a 14-9 quarter lead, but jumping Jerry Roberts and Larry Lamberson battled Groom back into a 26-16 halftime tie.

Morgan hit consistently from inside in the third frame and pushed Hedley to a 42-35 third-quarter edge, and the Tigers could never get closer than eight points in the final frame. Morgan had 25 points and Weatherly 17, Roberts had 19, his low of the season, and Lamberson 15.

Hedley girls led all the way in taking their victory, 9-6, 22-17, 31-24 and 43-35. Brenda Wynn had 17 for Hedley, Evelyn Burgen 18 for Groom.

Groom hosts Samnorwood in a district clash Friday.

White Deer Splits Pair at Clarendon

By ROGER SIMMONS
News Sports Correspondent
CLARENDON — The Clarendon Bronchos used the freshest throw as a deadly weapon to take a 57-46 victory over the White Deer Bucks last night, while the White Deer Does upset the district co-champion Bronchettes, 48-43 in a 2-A opener here.

Clarendon got 25 free throw chances while WD got only six in the whole ball game. The Bronchos hit 21 of 25 to the Bucks' four of six for the difference, making 14 of 14 in the last quarter to come from behind.

Lewis and Thornberry jumped Clarendon into a 13-6 quarter lead, but Monte Hawpe and Red Mike Reynolds came roaring back to close the gap to 26-21 at the half.

Jack Dunivan hit for the Bucks in the third frame to put them ahead momentarily, but Clarendon held the edge going into the last canto, 37-35. Reynolds opened the fourth quarter by putting the Bucks ahead again, but quickly fouled

out, and the game then became a Clarendon parade to the foul line for the winning margin.

Thornberry had 17 points, Smith 16. Reynolds had 19 and Hawpe 12 for WD.

A tremendous Doe defense which limited 6-0 Sue Rampey to seven points was the difference as the Does took a giant step toward the loop title. Freshman Sheila Berry, 5-11½, replaced Pat Freeman, out with an injured foot, and joined Carolyn Young and Linda Stump in putting the clamps on the Bronchettes big girls.

Clarendon jumped to a 14-9 quarter lead on the shooting of Nancy Richey, but little Cindy Hubbard hit the nets from outside to propel the Does into a 26-23 halftime lead and the visitors held the margin at 35-31 going into the final frame.

Cindy hit 21 points, Kay Schultz 15 and Linda Hawpe 12. Sheila Fredericks had 20 and Nancy 17.

White Deer hosts Wellington in another loop game Friday.

Photo by Jeff Cohane

TIME RUNNING OUT — A worried conclave of coaches and officials gathers at Tascosa last night, awaiting a referee who never showed up and forced the postponement of the Pampa-Tascosa game until tonight. A perturbed Waldon "Birdog" Trice, Pampa athletic director, checks his watch as (from left) Pampa coach Terry Culley, PHS principal Cameron Marsh and Amarillo AD De Walker look troubled.

Faulty Faculty Takes On Pampa Cagers Thursday

WHEELER — Loaded with talent and with the officials in their "hip pocket," the "Faulty Faculty Plus Four" of Wheeler await the coming of the Pampa Newsboys tomorrow night.

The Newsboys, a ragtag and bobtail conglomeration made up chiefly of old, out-of-shape has-beens and never-wases employed by the Pampa Daily News, were formed as a cage unit by coach Jeff Cohane to play a charity basketball game with the Berger Misprints.

Wheeler basketball coach "Sweet William" Harle seized the opportunity to challenge the Newsboys on behalf of the Wheeler High athletic fund. Picking up a crew of ex-college and high school stars from Wheeler and Allison, Harle's team will be composed of Mendall Hunter, 6-1, greatest all-around athlete ever to come out of Wheeler and a four-time all-district cager; Harle, 6-2, a former AAU player; Tooter Helton, 5-6 and his brother Jack, 5-10, both former college players; 5-11 Kelly Miller and 6-1 Hiram Begart from Allison; coach J. T. Hill, who claims 5-7 and coach Richard Gaines, 6-2, who last played against the Original Celtics and still thinks they have a center jump.

The cherub-checked Wheeler coach has cinched the game by naming the high school principal and three of the Wheeler players as the referees.

Coach Jeff Cohane will counter with a special surprise for the Faculty Faculty, one or two new recruits just signed away from the AFL player draft, to counter Wheeler's big over-11 height advantage.

Otherwise the Newsboys will go with their regular aggregation, two-platooning Ray Rogers, 5-11½; Corky Snow, 6-0; Mike Velasquez, 6-0 and Bill Nichols, 5-10 at forwards; Long Larry Wingert, 6-4 at center; with Ronnie Oler, 6-0; Jim McClusky, 5-10; Ron "Double" Cross, 5-8, Chico Ramirez, 5-5 and coach Jeff Cohane (as a last resort) at guards.

Harle has made it plain that the Faulty Faculty doesn't plan on fun and games, but will be out to win. Sweet William said that the team will press throughout the game.

Cohane, protesting bitterly both over the inclusion of Hunter and the home-town officials, expressed confidence that the Newsboys would still win.

"I can just see Wheeler playing a foul on their coaches," he said. "Furthermore, I never saw any team stop Hunter before, I can't see how we can do it unless our secret weapon works. We're getting in a real share for the game though. Wheeler has cut down to two packs of cigarettes a day. Chico has put elevator lifts in his sneakers and Ray Rogers is on a diet... he's down to 220 pounds already!"

Cohane also announced that he is taking advantage of his adopted home town, Miami, and the Newsboys will wear the Miami uniforms, with the Miami cheerleaders rooting them off. Wheeler High students have announced their intention of hanging him to the flagpole if he does.

Briscoe Turns Back Miami In District

By MIKE MCHONE
News Sports Correspondent
RISCOE — Briscoe took a giant step toward the district 2-B basketball title last night by turning back Miami twice, the Bronchos rolling over the Warriors, 55-46, while the Bronchettes came from behind over the defending district champ Warriorettes, 41-38. Both Briscoe teams are now 3-0 in loop play, Miami is 2-1.

Marvelous Mickey Fulks scored 12 points in the fourth quarter, four in the last five seconds, to pull the Bronchettes from far behind.

Jo Lynn Flowers racked up eight points in the first frame to jump the Warriorettes to a 15-12 lead. Patches Dodson took over the shooting to hold the margin at 23-20 at the half and up it to 34-26 going into the last quarter.

The tall blonde Mickey then slammed home the points to even it up, putting Briscoe ahead, 37-36 with two minutes left. Lou Meadows added a free throw, but Patches hit two charities with 25 seconds left to cut the edge to 39-38. Mickey then made two free throws with five seconds left and wrapped it up with a basket at the buzzer.

Mickey had 25 points, Lou 11. Patches had 21, Connie Ratliff nine.

Relatively unknown Mack Sides took the spotlight away from Orville Atherton and Tommy Hays in leading the Bronchos to an easy win. Atherton, the 6'2½" jumping jack, dominated the backboards while Sides and Hays each hit six points to jump Briscoe to a 21-11 quarter lead. Sides kept gunning for a 35-15 halftime margin.

The Pampa Daily News

A Watchful Newspaper
EVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

Aid to the Enemy

Quite a number of Americans, along with many Europeans, have been slaughtered during the turmoil which has gripped the Congo. Congolese rebels, and possibly some troops loyal to the established government, have reverted back to barbarism and cannibalism, and the so-called civilized nations of the world have chosen to look the other way and act like they don't know what is happening. Just as in the French-Indian wars in pre-Revolutionary America, savages have been incited to do the dirty work for those who seek to spread their influence by any means possible. In the name of people's government, agrarian reform, socialism, communism or whatever you want to call it, the work of thousands of humanitarians over a period of many decades appears to have been undone in a few short months. But here is the most startling and ironic twist to the whole mess. We, the United States of America, are actually helping to promote this monstrous crime against humanity by providing the facilities which makes it possible for Russia to airlift large quantities of arms to the Congolese hostage-murdering rebels.

We have, and continue to install and operate the latest type flight control and communications equipment at two of Egypt's largest airfields being used by Russian transports which are hauling the arms to the rebels. U.S. experts in Egypt are actually supervising the landing and take-off of the Russian jets loaded with weapons for the cannibalistic rebels. Certainly we are being a party to the bloody mess which we deplore. We are holding the coat of the villain who furnishes the guns and bullets necessary for the overthrow of the Congolese government which we support. While we struggle to save the lives of those caught in the crossfire, and spend millions to support the Congo government we permit our money and public servants to be used to aid those who are our avowed enemies in Africa.

We think it is long past due that President Johnson picked out our marbles in Egypt and Algeria and crossed them off our shopping list. They have made their leftist leanings well known and our continued presence and spending in those countries is embarrassing and plain stupid.

Thorn in Whose Side?

Recent far-out decisions from the National Labor Relations Board naturally agitate employers, but it would be a mistake to think that only those among us who employ others are adversely affected by them.

In the Reilly Tar and Chemical case, the Board's examiner held it to be an unfair labor practice for a father who was also a supervisor to advise his son who was also an employe to leave the union and to hunt another job.

This incident is not too important in its immediate consequences, because it was merely one element in a case with many elements, and probably did not affect the examiners' recommendations very much.

But it does mark the first time we can remember that an agency of the Federal Government has asserted that it has the right to determine what members of a family may talk about to each other.

Staying in or getting out of a union both are lawful courses of conduct. A father who recommended that junior commit a crime might be guilty of something, but can Washington now

step in and dictate what you may advise your son about the general business of earning a living?

In another recent case, the Board upheld the right of a union to fine its members if they produced more in a day than the union wanted them to. The work was paid for on a piece-work basis. If a worker produced a given amount, and then had to quit, expensive machinery would idle, increasing the cost of the product which the public must pay.

In still another case, the Board seems to have taken the position that an employer must offer less than he is really willing to give in collective bargaining, so that the union can get credit for wangling more money and benefits.

Of course, this would increase the prestige of unions mightily, and workers presently indifferent might be eager to join. New sources of power would then be available to unions to force costs and prices up even more, and to influence elections in favor of candidates who vote deficit spending which unions favor and which so burdens the rest of us.

This May Hurt Just a Little

The income tax honeymoon is over — temporarily, at least. And there is now being heard throughout the land the wail of the taxpayer as he begins to read the fine type in the tax cut that pleased him so much last year.

The joker in the tax deal is that when the cut took effect last March the withholding rate was reduced, more than the tax itself.

This had the delightful effect of making the increase in take-home pay more than the actual tax cut justified. But it is now bringing about a distressing discovery by many people as they sit down to figure out their 1964 tax bills.

They are finding that in reality they have been advancing themselves money each pay day, and that they now have to make it good as Uncle Sam wipes off that smile and becomes all business.

For millions of taxpayers the 1964 tax refunds will be smaller or the tax bills greater than anticipated. Researchers have found this does not make for dancing in the streets.

In all fairness to Uncle Sugar, who never wants to make a taxpayer (voter) mad if there is a way to avoid it and still get the money, there was no attempt to conceal the fact that the withholding rate was cut more than the actual tax was cut. This

angle just wasn't played up as much, and those who weren't paying attention too closely let it slide by.

The worrisome thing about the situation is that it is likely to bring forth more than mere screams from John Q. Public. John Q. may have to cut back some on his buying when he gets the facts of life from the Internal Revenue Service.

Perhaps the moral is never to be too happy or too worried over something until we have dug into all the facts.

But when the carrot dangled in front of your pocketbook is a nice, juicy tax cut, the tendency is to become a little giddy and stop reading the rules and regulations before you come to the "however" part.

And it was fun while it lasted. Many happy returns.

HOW TO ADDRESS OUR LAW MAKERS

You may want to write your senator and representatives in Washington and Austin. Here are their addresses:

(FEDERAL)
Rep. Walter Rogers, House Office Bldg., Washington 25, D. C.
Sen. Ralph Yarborough, Senate Bldg., Washington 25, D. C.
Sen. John Tower, Senate Office Bldg., Washington 25, D. C.

(STATE)
Rep. Grainer Melham, House Office Bldg., Austin, Texas
Sen. Grady Hazelwood, Senate Office Bldg., Austin, Texas

Halleck Was Too Cold on Hot Ideas

By BRUCE BISSAT
Washington Correspondent

WASHINGTON (NEA)—Charles Halleck really lost his job as House Republican leader on Dec. 16, when he proved unresponsive to new ideas being tossed out by some of his fretting colleagues in a full GOP conference.

That parley had not been summoned to consider a change in leadership, but instead to talk over new techniques of leadership and other means of lifting the Republican party ultimately to majority status in both Congress and the country.

Says one "activist" who was pushing for change: "We were watching Halleck that day to see if he would generate any new approaches. He did not."

The seven-hour conference left many Republicans convinced that a new outlook would come only with a new face. That very night, Dec. 16, several of the self-styled activists met in the office of Rep. Charles Goodell of New York to plan for Halleck's ouster.

Among those present, besides Goodell, were Reps. Robert Griffin of Michigan, Donald Rumsfeld of Illinois, Albert Quie of Minnesota.

By the next day, the leadership candidacy of Rep. Gerald Ford of Michigan was in the making. Ford announced for the post Dec. 1.

The activists' Dec. 16 night meeting in Goodell's office was not their first. Augmented by one or two others, including Rep. Thomas Curtis of Missouri, they had met in Griffin's office about two weeks after the election.

That earlier session was sparked by a series of round-robin telephone calls, not the least being one from Rumsfeld in a Florida vacation spot to Curtis in Washington.

The bonds among some of these men are sturdy. Goodell and Griffin are good friends. Rumsfeld used to work for Griffin. They found it easy to talk. At that time, in mid-November, the talk centered not on ousting Halleck but on what Curtis calls "restructuring the party." Curtis, in fact, let it be known he would not then join any effort aimed at Halleck's removal.

The whole effort of the group, then, was to get a party conference under Ford's chairmanship scheduled, and see to it that major matters of party reform dominated the agenda. As the activists see it, the need in the House is for good professional staffing for Republicans on key committees, better means of drawing together the reduced GOP House membership (down 38 to 140 after the election), more participation in floor debate and party councils by all the Republican members.

The Goddell-Griffin-Rumsfeld-Quie group rated the big Dec. 16 party parley a failure—and blamed it heavily on Halleck.

In the limited time after Ford's Dec. 19 announcement, these four, a backup squad of about equal size, and occasionally some two dozen more Republican lawmakers worked like beavers to round up the votes for victory. They insist no nose count was taken before Ford jumped in.

The fight was a thing of long hours and shifting numbers. As late as the morning of the final vote on Capitol Hill, two of Ford's supposedly solid 67 votes were known to be lost. One or two others later slipped away. But a good harvest from the "leaners" and a slight pickup from Halleck's "solid" total put Ford over.

Ford gives House Republicans the new face. What they now expect from him is strong initiatives toward a new party posture that can help win national support for the GOP in 1966 and beyond.

Soviet Development of Strong Marine Force Suggests Switch to Do-It-Themselves 'Liberation Wars'

PAUL SCOTT

WASHINGTON — Russia is adding a powerful new fighting force to its growing military machine.

A Marine Corps of more than 250,000 elite troops — considerably larger than that of the U. S. — is secretly being organized for future use outside of the Soviet Union.

This unannounced military development, underway since last summer, is believed to be tied closely to an ominous shift in the Kremlin's political-military strategy, according to the latest U. S. intelligence estimates.

In a confidential briefing of U. S. British, French and German experts at a CIA-sponsored intelligence conference in Geneva, Raymond Garthoff, high-ranking State Department adviser on political-military affairs, revealed this revolutionary change in Soviet policy, warning:

"The new Soviet strategy involves a shift from complete reliance on proxy wars in undeveloped countries toward reliance on the capability directly to commit Soviet troops."

The creation of a Marine Corps during the summer of 1964 is a significant example of increased Soviet interest in providing the capability to intervene with Soviet troops in revolutionary situations in Africa, Asia and Latin America."

Garthoff told the U. S. and European experts that "the Soviets have not rejected, but rather increasingly will emphasize the political role of the advanced weapons they are developing."

He declared that the new role of these advanced nuclear-missile weapons in Soviet strategy is "the purely political one of deterring any counter-intervention by the U. S. in revolutionary situations" such as those developing in the Congo and Cyprus.

FROM HALLS OF MOSCOW — Although intelligence still lacks full information on the Russian Marine Corps table of organization, U. S. military experts say the new amphibious force is being patterned after the U. S. Marine Corps that now has a force of approximately 196,000.

Evidence has been uncovered that the Soviet Navy air arm, which only a year ago numbered 1,200 planes, is being vastly expanded and modernized to include several wings of a new fighter-bomber jet to support the newly created Marine Corps.

Since Russia does not have aircraft carriers, its Navy air force is being supplied with jets and tanker planes that operate very much like the tactical air wings of the U. S. Air Force's long-range striking force.

Several Russian-made amphibious landing tanks, captured from the Communist Pathet Lao by pro-U. S. forces in Laos, are being carefully examined by Navy and Marine experts in light of the Soviet Marine Corps' appearance.

WASHINGTON:

U.S. to Take Chance Again On Pro-Reds

By RAY CROMLEY
Washington Correspondent

WASHINGTON (NEA)—President Johnson has two aims in "exploring ways to increase peaceful trade" with Eastern Europe and the Soviet Union as announced in his State of the Union message.

First aim — to give Eastern European countries more options in deciding what to do domestically and internationally.

State Department advisers say commercial expansion with the West will enable Eastern European nations to develop themselves economically along lines not approved by the Soviet Union. These men argue that the more economically independent these lands become, the more they will be able to decide things in their own national interest rather than be forced to act solely in the interests of Soviet Russia.

As one U. S. official put it, "They can't act independently if the Russians, by pushing a button, can cut off their livelihood."

Neither White House nor State Department advisers expect trade expansion will turn Eastern European satellites away from communism.

But there is some hope here that (as in the case of Red China and the Soviet Union) the Communist countries will not always see alike on all issues. It will be helpful, officials say, if in such cases the Eastern European countries know they can vote their own interest without fear they'll be strangled by Moscow.

The U. S. trade drive will be aimed principally at Romania, Hungary, Poland, Czechoslovakia and Bulgaria. East Germany will be excluded. American officials see no advantage in building relations with the East Germans.

Of late, the Eastern European countries have been feuding with the Russians over their domestic economic development. Moscow had a master plan whereby the satellites would produce for the Soviet bloc. They would not be allowed independent industrial-economic development. Instead, they would turn out the things the Red bloc needed, buy from and sell to Russia or each other in the quantities and at the prices the Russians dictated.

This program kept Eastern European living standards low. It angered Eastern European leaders, including many native Communists, who wanted to develop their own countries in their own way. Some satellites began to build up domestic industry along national lines and to seek foreign trade with the West to bolster that industry.

Some Eastern European countries have been in the forefront of the new thinking which suggests that not all Western economic ideas are bad and argues that Communists would do well to study and adopt some capitalistic ideas.

The Johnson program is a gamble, of course. In encouraging commerce and economic deals in which U. S. companies sell their know-how (with Export-Import Bank credits) to Red nations, the United States is taking the calculated risk of strengthening the economies of the Red regimes.

An example is the proposal to build a catalytic petroleum cracking unit in Romania by the Firestone Tire and Rubber Co. of Akron, Ohio, and the Universal Oil Products Corp. of Des Plaines, Ill.

This gamble is somewhat the same as the gamble the United States has taken over many years in helping Yugoslavia. There is disagreement whether that U. S. aid has been profitable or unprofitable to U. S. interests.

The American Way

THE UNIVERSE IS BEAUTIFUL
By Harry Browne

America is beset by a sickness called "something for nothing."

People support political programs they hope will bring them unearned benefits. They hope to obtain "something" while giving "nothing" in return.

But that's only one symptom of the disease. Individuals expect others to respect them — even though the respect hasn't been earned. They act as if they have a right to the friendship of others, even when that friendship hasn't been earned.

Husbands believe that wives have a duty to love them. They overlook the fact that no one can be forced to love anyone — that love must be earned by living up to the standards and values of the lover.

Even religion — to many people — has become a "something for nothing" game, and escape from individual responsibility. These are the people who have turned God into Santa Claus. They look at him as a source of unearned gifts. They expect God to do for them what they won't do for themselves. And they expect him to disrupt natural law and turn the rain on and off for their own benefit.

Individual Worth

What's the cause of all this "something for nothing" business? The answer is very simple: the afflicted individual has no understanding of his own worth. He believes himself to be incapable of earning his own living — or earning the respect of friends — or earning the love of his wife — or honestly obtaining the good things of life. So he demands them.

He wants them "for nothing" because he believes he has "nothing" to give for them.

We live in a beautiful universe. Nature's laws are unchanging, inflexible. This means that when the right climatic conditions exist, it will rain — no matter how much we demand or plead otherwise. So if we can discover nature's laws, we can predict the presence of rain by recognizing the conditions that cause it.

Benefits of Realism
And since nature's laws are orderly, consistent and practical it means that we can use those laws to earn what we want. Every time a scientist discovers a new fact about the orderly universe, we have more knowledge with which to control our own destinies.

The human being is capable of living a happy, fruitful life — if he's willing to accept nature as it is.

The men who invented television, the telephone, automobiles and electric lights were not looking for "something for nothing." They faced the reality of nature

and developed their own countries in their own way. Some satellites began to build up domestic industry along national lines and to seek foreign trade with the West to bolster that industry.

Wearing themselves from the Soviet economy has been difficult. But in the case of Romania, this separation has been much more rapid than Americans would have dared to predict two years back.

Second aim — to broaden the economic thinking in both Eastern Europe and the Soviet Union, to encourage their current slow, timid steps toward interest, profits, competition and other capitalistic ideas.

Some Eastern European countries have been in the forefront of the new thinking which suggests that not all Western economic ideas are bad and argues that Communists would do well to study and adopt some capitalistic ideas.

The Johnson program is a gamble, of course. In encouraging commerce and economic deals in which U. S. companies sell their know-how (with Export-Import Bank credits) to Red nations, the United States is taking the calculated risk of strengthening the economies of the Red regimes.

An example is the proposal to build a catalytic petroleum cracking unit in Romania by the Firestone Tire and Rubber Co. of Akron, Ohio, and the Universal Oil Products Corp. of Des Plaines, Ill.

This gamble is somewhat the same as the gamble the United States has taken over many years in helping Yugoslavia. There is disagreement whether that U. S. aid has been profitable or unprofitable to U. S. interests.

and used it. Our lives are better because of their realism.

What about you? Are you looking for "something for nothing"? Are you expecting your happiness to come from political action? Do you earn the respect and friendship of your associates? Do you earn the affection of your beloved? Do you face reality and use it to better your life — or are you praying that nature will be repealed? Yes, the universe is beautiful. Let's start using it.

Straight Talk

By Tom Anderson

DEAR SECRET SERVICE
Washington, D. C.
Dear Secret Service:

The newspapers report that you are gathering information on all individuals, organizations and groups posing a "potential physical threat" or "embarrassment" to President Johnson.

Vice President Humphrey or members of the Cabinet. All government agencies and local police authorities have been told to cooperate in this gigantic dragnet, the like of which has never been conducted by our government in peace time history; or by any other government in a free Republic. The Warren Commission has recommended closer relations between the Secret Service and other government agencies, including exchange of information on all persons regarded as "potential threats" to the President.

Now let us consider who it is who is a "potential threat or embarrassment" to the President. There are an estimated 40,000 American Comrats, among whom are doubtless many potential Lee Harvey Oswalds. Are they the threat to the President?

How about the Comrats who recently led the students in riots which took over the University of California? Under the guise of free speech, these anarchists, with the backing of the faculty by an 825 to 115 vote demanded the right to freely advocate on campus any cause — legal or illegal, violent or non-violent. Will the Secret Service chastise those students and faculty members, or will you concentrate on the John Birch Society, one of whose leading programs is to "support your local police"?

In 1958 the late Congressman Francis Walter, chairman of the House Committee on Un-American Activities, published a report saying: "... The Kremlin has succeeded in enlisting, as a conservative estimate more than one million Americans. ... There are at this moment the equivalent of some 20 combat-ready divisions of enemy troops on American soil." Are the "liberals" fellow-travelers, Comsymps, aliens, misguided clergymen and teachers, who are paying footsie with the Communists, the potential threat to the President and our government? Communism is the most diabolical criminal conspiracy in the annals of man, and the Communists' unswerving goal is and always has been to overthrow our government, by force if necessary.

Yet "our" Supreme Court has ruled that it is not unlawful for Communists to plot the overthrow of our Republic by force, so long as they don't actually try it. Are these the guilty? Or, are people who write books like "The Gravediggers," "A Texan Looks at Lyndon," and "None Dare Call It Treason" causing the "embarrassment"? Has it become unlawful to plot the overthrow of socialists like Hubert Humphrey, by peaceful means through the education of the American people? Have we reached the point now where those who are trying to save and restore our Constitution are the subversives? "Treason doth never prosper, what's the reason? For if it prosper, none dare call it treason."

I intend to continue to embarrass the President whenever I believe it is my moral and patriotic duty to do so. It is my opinion that he is a power-mad, ruthless and vindictive man who is converting our once-free constitutional Republic into a socialist labor-welfare, skinny-dipping dictatorship. All I ask is a free trial. If convicted, I would want permission to leave. Or are we beyond that stage?

Sincerely for God and Country,
Tom Anderson

College Students To Profit From Education Bill

WASHINGTON (UPI)—President Johnson forecasts up to \$1 billion a year in private loans to college students if Congress approves one phase of his far-ranging education program.

A high administration source said the government would be ready to spend up to \$15 million annually to pay part of the cost of interest payments on guaranteed loans to make such a program possible.

The Chief Executive, in his message to Congress Tuesday, asked that new federal aid be provided to help students meet rising college costs.

"We should assure greater availability of private credit on reasonable terms and conditions," he said. "This can best be done by paying part of the interest costs of guaranteed loans made by private lenders—a more effective, fairer and far less costly way of providing assistance than the various tax-credit devices which have been proposed."

Johnson's message drew solid praise from most lawmakers and educators Tuesday. The House manager of the legislative package, Rep. Adam Clayton Powell, D-N.Y., predicted it would hurdle the touchy church-state issue to become law.

Powell, who is chairman of the House Education and Labor Committee, said, "we have the votes to win this year... we have the votes in the committee, the House and in the nation."

In previous years, opponents to such aid have charged that federal funds for church-connected schools is a violation of the constitutional separation of church and state. This argument has repeatedly killed similar aid programs for elementary and secondary schools.

COMMENTS ON DRAFT

WASHINGTON (UPI)—Lt. Gen. Lewis B. Hershey, national draft director, says that Americans have "got enough along without" the Selective Service to know we can't get Service system.

Hershey told a news conference Tuesday that universal military conscription is the only "practical way" to provide manpower for the armed forces. He said "we can't get people any other way."

Car Wreck Victim Remains in Coma

(Editor's Note: Dorsey Earnheart, 17, was thrown 64 feet in an automobile accident last Oct. 17. He lived but not to tell about it, because he may never regain full consciousness. This is the story of Dorsey Earnheart's tragedy and the grief and financial strain it has brought his family.)

By PRESTON MCGRAW
United Press International
DALLAS (UPI)—As she has every week for 12 weeks, 17-year-old Dorsey Earnheart's mother drove 350 miles to Burnet, Tex., and back Monday just to see him move his legs a little, twitch his left arm, and stare a blank stare.

Mrs. Marvin W. Earnheart or her pastor husband may make the trip the rest of their lives. Dorsey, who loved to sing, may never sing, or see, or comprehend again.

"We just don't know," the Rev. Mr. Earnheart said at his Oak Cliff Baptist Temple. "He has made some improvement. He is moving his legs a little. His eyes are open but his right eye does not focus with his left eye. He looks at us. But whether he recognizes us, I don't know. He moves his right arm; his left arm is paralyzed.

"It's an injury at the stem of the brain. Doctors say he will be like this for the rest of his life."

Dorsey, an avid horseman, was on his way to a meeting of the Cockrell Hill Saddle Club on Oct. 17 and started to pass another automobile. A tire blew out. He was thrown 64 feet. His right shoulder blade was broken and his skull fractured.

Drugs and calls from a physician run the weekly bill for taking care of him to around \$120 a week.

The family had a small insurance policy. Members of Oak Cliff Baptist Temple contributed \$1,300. Other churches

FLIP-TOP TEST

STAMFORD, Conn. (UPI)—American Beverage Corp. says it will test market the flip-top bottle crown developed by United States Crown Corp. American Beverage bottles Pepsi-Cola in Akron, Youngstown and Dayton, Ohio, Houston and Miami.

have sent a total of about \$1,300.

The Cockrell Hill Saddle Club, his old club, had what it called a "pay day" of eight riding events Sunday and contributed the proceeds—about \$500. The bills go on.

"The doctors told us," Pastor Earnheart said, "there is nothing medicine can do. But we have not given up hope. It is in the hands of God."

Pampans Elected To Panhandle Foundation Board

Mrs. Albert Knox and Tom L. Webb of Pampa were elected as new members to serve one year on the board of directors of the Panhandle Heritage Foundation as its annual meeting in Canton, Okla., will start within the next week.

The 1965 summer program also will be designed to explore the possibilities of sound and light equipment preparatory to the staging of the Paul Green shows later.

It was also decided at the annual meeting that the title of the main building will be the "Pioneer Amphitheatre."

Mrs. Raymond Harrah and C. P. Buckler of Pampa also were elected to serve two-year terms as board members.

It was announced that work life.
