Civilians Regain Control as Peace Reigns in Zone

Threat of Violence Lessens But Discussions Still Complex

PANAMA CITY (UPI) — The S. Army returned control of the Panama Canal Zone to American civilian authorities today as peace and order returned to the area after days of violence.

The Army had taken control of the zone shortly after the start of rioting last Thursday in which 21 persons were killed and an estimated 500 injured.

The turnover was announced in a statement signed by Gen. Andrew P. O'Meara, commander of the U. S. Southern Command in the Canal Zone.

Frederick Baldwin, Canal Zone public information officer, said Gov. Robert J. Fleming Jr. resumed control at 8 a.m. and that 42 U. S. Army troops had returned to their bases.

However, even as the threat of violence eased, the diplomatic discussions grew more complex.

The Republic of Panama pressed the United States to promise to renegotiate the treaty governing the Panama Canal as a prime condition for resumption of diplomatic relations.

The United States had agreed after a 90-hour negotiating session Wednesday that all outstanding issues between the two nations would be discussed once relations were resumed. Panama, in turn, said it would restore the diplomatic break.

The agreement did not mention the canal specifically, but the implication was clear, since the issue of Panamanian sovereignty in the Canal Zone brought about last week's rioting and the break in relations.

President Roberto F. Chiari Wednesday night demanded that the United States promise new negotiations on the 1903 canal agreement.

Presidential Press Secretary Fabian Velarde released the text of a statement Chiari made to an anti-American crowd of 2,000 to 3,000 students who had marched a mile and a half to the Panamanian "White House" chanting "we don't want (diplomatic) relations."

"The government of Panama will not resume diplomatic relations with the United States until the U. S. government gives the Panamanian government assurances that it will begin negotiations for a new treaty to replace those existing," the statement said.

This was a clear reference to the 60-year-old treaty giving the United States permanent control of the Panama Canal and a zone extending for five miles on both sides of the inter-ocean waterway.

The United States agreed early Wednesday to begin negotiations on "all existing matters" at issue with Panama — undoubtedly including the canal treaty — 30 days after relations are resumed. It was not certain immediately whether Washington would yield to Chiari's new demand.

(The U. S. State Department declined comment.)

The student marchers echoed the opposition to renewed ties with the United States which was voiced Wednesday by the popular Socialist (Communist) party and various newspaper columnists.

The anti-American demonstration was noisy, but there were no reports of violence.

'Sit-In' Group Getting Drowsy But Won't Quit

DENVER (UPI) — A small group of drowsy demonstrators were "sitting in" at the Colorado State Capitol today, determined to keep up a 24-hour vigil in support of fair housing laws.

The sit-in started at 2 p.m. Wednesday at the office of Gov. John Love. When the building closed in the evening, the demonstrators were allowed to stay but were moved out in the hall, where they lounged on chairs and slept in sleeping bags during the night.

Mrs. Barbara Jensen, 32, action captain for the Congress of Racial Equality (CORE), said members of the Denver chapter of the group would stick it out until the legislature quits for the week-end Friday.

"We won't give up," she promised.

Promotions Announced By Loan Firm

Three promotions were announced following the annual meeting and election of officers of the Security Federal Savings & Loan Association in the Pampa offices Wednesday afternoon.

Roy C. Sparkman, who has been assistant secretary, was elected vice president. J. E. Sweet was made comptroller and Kenneth R. Peoples was elected assistant secretary.

All other officers were re-elected, according to Aubrey Steele, executive vice president and manager of the Pampa office. Those included:

S. Wayne O'Keefe, chairman of the board; C. P. Buckler, president; Steele, executive vice president and secretary; P. E. Carlson, executive vice president and Amarillo branch manager; Robert W. Hare, assistant secretary; Amarillo, and Mrs. Irene Cox, assistant secretary, Pampa.

The annual board meeting and member meeting was followed by a regular monthly directors' meeting.

Sneak Storm Brings Snow

A sneak snowstorm slipped in the backdoor from the Gulf of Mexico and cloaked North Texas with a 14-inch blanket of white today. Driving conditions were hazardous and numerous schools were closed.

The small community of Aledo between Fort Worth and Weatherford reported 14 inches of snow. Weatherford received 12 inches. It was the heaviest snow in Weatherford since 1914. The west-bound sector of U.S. Highway 80 was closed.

The surprise snow whipped in to North Texas Wednesday when the forecasters were predicting only light rain or snow.

The soggy flakes began to fall about 1 p.m. and by nightfall hundreds of motorists, unaccustomed to driving in icy weather, had abandoned their cars.

A low pressure area moving out of the Gulf triggered the snow from the south instead of the normal northern route.

The snow was mixed with rain in much of East and Central Texas and reported as far south as San Antonio.

Snow drifted as much as two feet on U. S. 81 between Waco and Temple. Three inches of snow fell in Waco and practically all McLennan County schools were closed.

The U. S. Weather Bureau said the storm would continue until late afternoon.

Youth Shot by Police After Escaping Jail

Glenn to Quit, Try Congress

HOUSTON (UPI) — The Federal Space Agency will announce the resignation of astronaut John Glenn today, freeing him to run for the U. S. Senate of Ohio.

Earlier, a high Democratic source in Ohio and the American Broadcasting Co. both said Glenn would announce from Columbus, Ohio his candidacy for the U. S. Senate on the Democratic ticket.

Glenn will make his announcement at 10 a.m. EST Friday in the ballroom of the Neil House Hotel in Columbus, a hotel spokesman said. Arrangements for the news conference were made this morning.

The Ohio Democrat said the spaceman would go to Columbus to make the official announcement within a few days. Reports began to circulate in Ohio last week that Glenn would run for the seat now held by Sen. Stephen M. Young of Cleveland.

ABC Science Editor Jules Bergman said Glenn told him by telephone from Houston that he thought his days as an astronaut were numbered because of his age.

Bergman said Glenn told him he thought one way he could help his country would be to enter politics.

Glenn's spokesman at the National Aeronautics and Space Administration Manned Spacecraft Center said "Glenn has no comment to make on any statements coming out of Ohio," and added "he will not be available to talk to anyone tonight."

Glenn secluded himself in his home south of Houston last weekend to spend a "quiet, contemplative" two days—presumably to decide whether to run.

Both the Democratic and the Republican parties had bid for his senatorial services.

Rumors about Glenn's running for office first began to circulate last summer. At that time, informed sources said space was "still his first love."

They said he would leave the nation's space program only if he was refused a guaranteed return trip out of this world.

LONG JUMP — Police Chief Jim Conner looking at the window from which two California youths supposedly jumped following their escape from the city jail where they were being held last night for "minor in possession of alcoholic beverages." The window on the second floor, shown by the arrow, is approximately a 35-foot drop to the steps below.

Pair Leave City Cell Jump From Building

Shooting of a 15-year-old California youth climaxed a wild chase through Pampa streets today after the youth and a companion broke from the city jail.

Police Chief Jim Conner said Billy Wayne Morris of Los Angeles was shot in the hip by Patrolman Preston Bailey when Morris attempted to run Bailey down with an automobile on Cook St. near Somerville St. about 8 a.m.

Morris was taken to Wesley Hospital where attendants described his condition as satisfactory at noon.

The shooting ended a chase that began at 7:30 a.m. today when Morris and Stevel Michael Caldwell, 16, Durango-Palms, Calif., were spotted driving a stolen automobile on the Borger highway.

The apprehension of the boys led to the solution of a burglary just outside the city limits on Alcock St.

Sheriff Rufe Jordan said a number of items taken from Reed's Service Station at 2307 Alcock were found in the car.

Deputy Sheriff D. L. Day, who investigated the 6 a.m. burglary, said sunglasses, a flashlight and canvas gloves were discovered inside the youths' automobile.

Conner said the car was stolen shortly after the boys' break from jail. It was owned by the Welex company and operated by Damon L. Runyon, who works for the firm on Price Rd.

After the shooting, Conner, Bailey and District Attorney Bill Waters went into closed door talks to take statements and determine what charges would be filed in Pampa as a result of the incident.

Conner said Caldwell was on parole for burglary in California at the time of his arrest Wednesday.

Caldwell, who was not hurt, was placed in a maximum security cell awaiting decision of officers here as to transferring him to county jail or to Amarillo to the Potter County juvenile center.

Both boys' parents were notified of the shooting by telephone, Conner said.

Jail Break

Pampa police had been seeking the two boys after they escaped from their cells at city police headquarters about 3 a.m. today and leaped from the top floor of city hall.

Conner said the youths were being held for California officers

in connection with the theft of a 1960 model Ford station wagon. Both had been charged here with minor in possession after officers found two bottles of whiskey in the stolen automobile.

The two teen-agers were arrested at 12:40 p.m. Wednesday in the 600 block of Jupiter St. when someone called to report a California automobile parked on the street for several days.

Patrolman Charles Lefever located the car and the youths, found the liquor and brought them to police headquarters.

Chief Conner said that the boys told Capt. Dennis R. O'Connell and Conner they had stolen the automobile. A telephone call to the Los Angeles police department auto theft bureau revealed that authorities were seeking the boys.

"We placed them in a cell and locked the door, we thought," Conner said.

Oil Allowable Due Increase

AUSTIN (UPI) — The Texas Railroad Commission today increased the February allowable for Texas crude oil to 29 percent of potential production.

The January allowable was based on a factor of 28.5 percent. Today's increase was the third in as many months, and raised the allowable to its highest level since last February.

The commission estimated the new allowable would result in production of 2,557,662 barrels daily. The calendar-day allowable was set at 2,919,770, an increase of 28,823 daily.

Seven of the 13 major companies making purchase nominations recommended market demand factors of 28 or 29 percent.

Government OKs \$286 Million in Sale of Wheat

WASHINGTON (UPI) — The government has issued licenses for the sale of \$286.3 million worth of surplus wheat and rice to the Soviet bloc.

The Commerce Department Wednesday issued the latest licenses that permit a company to make a sale but do not mean that a deal has been closed.

Two licenses were approved for 182,000 tons of wheat to Russia, worth \$13 million, and 20,000 tons, worth \$2.4 million, to Czechoslovakia. It did not disclose the name of the American firms involved.

Another 50,000 tons of rice worth \$7.4 million was approved for Russia, the first rice involved in the current round of grain and flour sales to Russia and her Eastern European satellites.

Royal Refuses Oklahoma Post

AUSTIN, Tex. (UPI) — Coach of the Year Darrell Royal of Texas definitely took himself out of consideration for the vacant University of Oklahoma head football coaching job today.

Royal telephoned his office here from Fort Worth with the following statement:

"I am pleased to have been considered by the University of Oklahoma but I am definitely going to be at Texas."

Lawmaker Hits Rights Issue

WASHINGTON (UPI) — A leading Southern enemy of the civil rights bill backed by President Johnson charged today that the measure is the biggest "grab for power" in U.S. history.

Rep. Edwin E. Willis, D-La., said the bill, designed to eliminate discrimination in voting, education, employment, public accommodations and use of federal funds, should be sent back to the House Judiciary Committee for "calm and deliberate" consideration.

Willis, top-ranking Southern Democratic member of the judiciary committee, was the first opposition witness at rules committee hearings on the long-pending bill.

Bobby Kennedy Set For Sukarno Talks

TOKYO (UPI) — Atty. Gen. Robert F. Kennedy arrived today for talks with Indonesian President Sukarno on the Malaysia crisis but stressed that the dispute "must be decided and resolved by Asian countries, not by outsiders."

He will meet Friday with Sukarno to give him President Johnson's view on the Indonesian campaign against Malaysia, which is threatening the peace in Southeast Asia.

Indonesian Foreign Minister Subandrio hinted on the eve of Kennedy's arrival that the dispute over the new British Commonwealth federation bordering Indonesia might force Indonesia to seek military ties with the Communists.

Kennedy is expected to tell Sukarno that Indonesia is losing support in the United States, particularly in Congress, which has threatened to cut off its economic aid.

The attorney general, in his first diplomatic mission since the assassination of his brother, thanked the Japanese people for the sympathy they expressed to his family. He visited a monument to the late President Kennedy built by Japanese employees of the U.S. Kyoto Air Base, where the Kennedy party landed.

The talks with Sukarno will be held Friday afternoon.

The United States considers Malaysia a strong bulwark against the spread of communism in the area. But neutralist Indonesia charges that it is a new form of British colonialism and that it threatens Indonesia, with which it shares the island of Borneo.

Kennedy is expected to tell Sukarno that his policy of "confrontation" against Malaysia, which has taken the form of terrorist raids and attacks on British and Malaysian aircraft and ships, endangers peace in Southeast Asia and could mean a cutoff of U.S. economic aid to Indonesia.

If it comes from a hardware store we have it. Lewis Hilde. (Adv.)

INSPECTS BULLET HOLE — Pampa Patrolman Preston Bailey points to a bullet hole in the car of two California youths stole here after their escape from city jail. Bailey fired at the pair when they attempted to run a roadblock. One of the youths was wounded, but not seriously.

NO JOKE — The Eastland city council's anti-cigarette ordinance is no joke, Mayor Don Pierson says. The ordinance, expected to become effective Feb. 20, calls for a \$1,000 fine or three years imprisonment for smoking, selling or giving away cigarettes in the municipal limits. To stay on the safe side, a television cable crew, Roy Thacker, H. D. Bellinger, and Raymond Thacker, left to right, take a smoke break just outside the city limits of Eastland.

Langdon Seeks Railroad Post

AUSTIN (SpI) — Texas Railroad Commissioner Jim C. Langdon announced today that he will be a candidate for the remaining four years of the unexpired term to which he was appointed by Governor John Connally last May.

He will be on the Democratic Primary ballot from El Paso County, where he was serving as Chief Justice of the Eighth District Court of Civil Appeals when Governor Connally named him to fill a vacancy on the Railroad Commission.

At that time Judge Langdon announced he would run in 1964 to fill the balance of a six-year term that began in 1962.

"Service on the Texas Railroad Commission has proved to be an inspiring experience for me," Judge Langdon commented today. "Regulating the vital oil, gas and transportation industries of Texas in the public interest, and at the same time with fairness to the people in those industries, is a challenge and an opportunity for important public service. I will continue to do my very best in both respects."

In announcing Judge Langdon's appointment May 28, 1963, Governor Connally said it was "... the culmination of several weeks of searching for a person of outstanding ability, integrity and honor."

Judge Langdon, said the Governor "... is a man I can unhesitatingly recommend to the people of Texas — a man in whom I have utmost confidence."

Judge Langdon holds the unique distinction of having been appointed to three different offices by three Texas governors. Allan Shivers appointed him as a district judge; Price Daniel named him Chief Justice of the El Paso Court of Civil Appeals, and Connally appointed him to the Railroad Commission.

After his first appointment he was elected to two four-year terms as district judge and was elected without opposition to a six-year Court of Civil Appeals term.

JIM C. LANGDON
... seeks re-election

Western Calves Get California OK

SACRAMENTO, Calif. (UPI) — California feed lots have been given the go ahead to receive calves from Harding, Quay and Union Counties in New Mexico.

A 1961 California order required dipping of all cattle from New Mexico because cattle scabies was discovered in a herd from northern New Mexico. Last May, the quarantine was lifted for all of New Mexico except in the three counties.

California this week declared all New Mexico cattle free from the disease. Dipping no longer is required.

Jesse James Seeks Treasurers' Office

AUSTIN (UPI)—State Treasurer Jesse James Wednesday officially announced as a candidate for re-election and paid his filing fee. He will be on the May 2 Democratic primary ballot.

YMCA SMOKER
BISMARCK, N. D. (UPI) — Gov. William Guy said he picked up the smoking habit during his college days when he was given free cigarettes at a YMCA mixer.

"I hate to blame it on the YMCA," he said, "but I've been smoking ever since." Guy said he probably would quit smoking "whenever I get up enough courage."

Vegetable Output Due to Be Down

AUSTIN (UPI)—Texas is expected to produce 6 per cent fewer commercial winter vegetables this year than last season, the crop reporting service of the state and U. S. Agriculture departments reported.

A heavy frost in the Rio Grande Valley and South Texas on Dec. 24 caused little damage to winter crops but killed practically all the fall tomatoes, peppers and cucumbers.

The cold weather slowed harvest of all vegetable crops. December rainfall ranged from one to three inches in South Texas.

Production of broccoli, cabbage, cauliflower, lettuce and spinach was expected to be higher than last year but the carrot crop was expected to be 22 per cent below last year.

Rice, Beef Warm Appetites

By GAYNOR MADDOX
This chili rice and beef casserole is one of those winter night meal-in-a-dish recipes that every homemaker treasures. It comes from Mrs. K. A., who lives where winters are cold and long.

"My family says this is one of my best dinners. I serve an assortment of crisp Melba toast with it to add texture to the meal. The toast comes in varied flavors—white, rye and pumpkinseed—and the Melba rounds in white, garlic and onion. I toss several kinds in a basket. Crunchy and for fat people like me especially good because it's easy to enjoy without butter."

CHILI RICE AND BEEF CASSEROLE
(8 generous servings)
1 tablespoon shortening or salad oil
1 pound lean ground beef
1 small green pepper,

seeded and diced
3 medium-sized onions, thinly sliced
1½ c. sliced celery
1½ c. long grain rice
1 T. salt
¼ t. dried basil
2 T. chili powder
1 c. (1 lb. 3-ounces) tomatoes (2 cups)
2 c. water
¼ c. sliced pimentos
stuffed green olives
Heat shortening in a Dutch oven. Add beef, breaking it up into bits. Stir to brown beef lightly, about 2 minutes. Add green pepper, onion and celery. Cover and cook over low heat 5 minutes. Stir in rice, salt, basil, chili powder tomatoes, water and olives. Heat oven to 375 degrees (moderately hot). Pour rice mixture into a 2-quart casserole. Cover and bake in preheated oven 30 minutes or until all moisture is absorbed.

HERE'S something for those cold, cold winter nights.

STUFFED ACORN squash—a "lowering" delight.

Stuffed Squash Is Out of This World

By GAYNOR MADDOX
Crunch out of this world—or at least 48 floors above the sun-drenched streets of New York—that was our experience recently. Tom Margittai, director of The Tower Suite atop the Time-Life Building, was our host at this fabulous meal served from noon to 4 every Sunday.

Believe it or not, here are some of the dishes offered: brisoles, croissants, many jams and jellies, a platter of fresh fruits and a seafood platter (Nova Scotia salmon, oysters and clams, whitefish steaks, etc.), hot soup, then a choice of kippered herring with potatoes, mushrooms stuffed with chicken livers or baked Irish bacon. Oh, yes—omelette, caviar and sour cream, crabmeat, fines herbes, etc.

Vegetables were given particular attention at this deluxe brunch. Margittai said the patrons enjoy them. We chose Stuffed Acorn Squash with Tomato Concasse. Then came an interesting cheese tray, and after that a choice of sweets, including Marshmallows Whipped Cream Horns and Lemon Crepes, Flambé. There were mixed nuts in shells and dried fruit and a silver coffee service. After that we took a long walk in Central Park. You can easily understand why.

STUFFED ACORN SQUASH WITH TOMATO CONCASSE
(8 servings)
3 small acorn squash
Boiling water to cover
4 fresh tomatoes
1 teaspoon cooking oil
1 tablespoon minced onion
½ teaspoon salt
1-½ teaspoon ground black pepper
8 teaspoons butter or margarine
3 slices crisp bacon
Wash squash. Place in a large saucpan. Cover with

boiling water. Bring to boiling point and cook, covered, 30 minutes or until squash is about ¾ done. Remove from water. When cool enough to handle, cut into halves and remove seeds. Place halves on a baking sheet. Dip tomatoes in boiling water, then in cold water and remove skins. Place in a saucpan with oil and onion. Saute 7 minutes. Add salt and black pepper. Chop mixture fine and spoon into squash cavities. Top each with 1 teaspoon butter or margarine and ½ slice crumbled crisp bacon. Bake in a preheated moderate oven (350 degrees) 15 minutes.

Apples Are Dated, Use Great Number

By GAYNOR MADDOX
With so many apples around we were pleased to get this recipe from Phyllis MacDonald, a highly skilled food expert. She says it is for glorified baked apples, not the old-fashioned kind her grandmother made.

DATE-STUFFED BAKED APPLES AU GRATIN
6 large baking apples
1¼ cups sugar
1 cup water
Few drops red food coloring
¼ teaspoon ground cinnamon
½ teaspoon ground nutmeg
¼ cup chopped pitted dates
1 teaspoon butter or margarine
1-3 cup grated Cheddar cheese

Wash and core apples. Starting at the stem end, pare them about one-third of the way down. Put the peelings and cores into a medium-sized saucpan. Add 1 cup of the sugar, the water and food coloring. Bring mixture to a boil rapidly, stirring constantly until sugar is dissolved. Reduce heat and simmer, uncovered, for 10 minutes. Heat oven to 375 degrees (moderately hot). Arrange apples, stem-end up, in a shallow baking dish. Combine the remaining ¼ cup sugar, cinnamon, nutmeg and dates. Spoon mixture into the center of each apple. Dot each with butter. Strain syrup. Baste apples with some of the syrup and pour the rest around them in the pan. Cover and bake 40 to 45 minutes or until apples are almost tender. Remove cover, baste with syrup in pan and sprinkle with cheese. Continue to bake, uncovered, until apples are tender and cheese melted—about 5 to 8 minutes longer. Serve warm with or without cream as desired. Makes 6 servings.

Manners Make Friends

Taller than your dancing partner? Stand up straight. This attracts less attention than banding like a pretzel.

Try Vanilla-Chocolate Duo

By GAYNOR MADDOX
A reader who was born in Switzerland sends us her particularly good recipe for hot chocolate. The addition of vanilla gives it a delightful difference.

SWISS VANILLA HOT CHOCOLATE
2 squares unsweetened chocolate
1-3 cup sugar
1-16" teaspoon salt
¼ cup hot water
3 cups top milk or light cream, scalded
1 teaspoon pure vanilla extract
Vanilla Whipped Cream
Melt chocolate in top part of double boiler. Add sugar, salt and water. Mix well. Bring to boiling point over direct medium heat, stirring constantly. Add hot top milk or light

cream. Heat thoroughly. Stir in pure vanilla extract. Serve hot in mugs or coffee cups, with Vanilla Whipped Cream.
VANILLA WHIPPED CREAM
¼ cup heavy cream
1½ teaspoons sugar
½ teaspoon pure vanilla extract
Whip cream until almost stiff. Add sugar and pure vanilla extract. Top each cup of hot mocha with 1 teaspoonful.

Like muffins for breakfast? Then try this simple recipe using fresh cranberries:
FRESH CRANBERRY-ORANGE MUFFIN
(15 muffins)
1½ cups coarsely ground fresh cranberries
1 tablespoon grated fresh orange rind
¼ cup sugar
2 cups sifted all-purpose flour
¼ teaspoon salt

1½ teaspoons double-acting baking powder
½ teaspoon soda
1 teaspoon pure vanilla extract
¼ cup shortening, melted
1 egg
¼ cup milk
Combine cranberries, orange rind and ¼ cup of the sugar. Set aside. Sift together flour, salt and baking powder. Set

aside. Blend soda and pure vanilla extract with shortening. Gradually mix in remaining ¼ cup sugar. Beat in egg. Add flour mixture alternately with milk. Stir in cranberries. Line 2½-inch cupcake pans with paper cupcake liners or use well-greased lightly-floured cupcake pans. Add batter, filling pans ¾ full. Bake in a preheated moderate oven (375 degrees) 25 minutes or until done. Serve for breakfast, lunch, supper or tea.

TALL, FAST DRINK—Remarkably detailed view shows a KC-135 tanker, left, giving a F-105 jet a long drink of fuel over Florida. The F-105 is equipped with a new fitting which allows it to "drink" via the boom method, above, or through the trailing hose-type operation performed by other types of aerial tanker.

Washington Window

By LYLE C. WILSON
United Press International
The alarmingly simple strat- by which anti-administra- Democrats in the South did arouse a voter rebellion against President Johnson as it is aroused against the late m F. Kennedy is all too ob- us.
The strategy would be to pel Johnson to use federal onets or marshals to com- integration or to maintain peace in some Southern munity. That would arouse thern opinion against John- as it was aroused against nedy by riotous events in ford, Miss.
Governors such as George C. illace, Alabama, Orval Faub- Arkansas, and Ross E. Bar- t, Mississippi, well know the hnique. Faubus forced the end of President Dwight D. enhower in Little Rock. th Wallace and Barnett de- ed Kennedy and federal law, determined mayor could do much.

White Southerners were bitter ainst John Kennedy. The Re- blican party mounted a cam- gn to help the South in get- g rid of the Kennedys. "The nneys" was a bitter phrase aning John F. and his o- ther, Atty. Gen. Robert F. nedy. A Newsweek poll re- ted in October, 1963, indic- ated that John F. Kennedy had t since 1960 about 4.5 million site Southern voters. It was imated that he had picked since 1960 about 1 million gro voters.

Play For South
This civil rights political bal- ce sheet encouraged the Re- blicans to make their biggest ay for Southern support. It ousaged such governors as allace and some other South- n politicians to organize for a ass bolt from the Kennedy 64 presidential candidacy. is was to punish JFK and a brother for their aggressive

Mystery Duo n Legal Test

WASHINGTON (UPI) — Two ystery men known only as "rv" and "Cousin" are cast in ading roles in a politically aged legal contest between the merican Medical Association d United Steelworkers Union. Steelworkers' District 16 Di- ctor Paul Normile has ac- sed the AMA and American edical Political Action Com- ittee (AMPAC) of circulating record that falsely portray m as urging strong-arm meth- s in seeking political dona- ons from union members. Normile, backed by his union d encouraged by AFL-CIO resident George Meany, is eeking \$400,000 damages in a leral court suit.
Not far below the surface is a bitter rivalry between MPAC and the AFL-CIO's mmittee on Political Educa- on (COPE) to elect congress- on who share their views on administration-bill to pro- vide medical care for the aged der Social Security. Organized r is backing the administra- on measure and the AMA is elling the opposition.

civil rights policies.
The Newsweek poll reported that 67 per cent of white South- ern voters were dissatisfied with Kennedy civil rights poli- cies. Only four of ten Souther- ners believed last October that President Kennedy was doing a good job.
President Johnson did not in- herit that unfavorable position. He is more like a Southern fa- vorite son. But the signs are up for a break in the Johnson ad- ministration's romance with the South. It is obvious by now that Johnson means to keep the pressure on the South to inte- grate its way of life. The new President could not do other- wise and hold the big cities and big states.

Urgent Political Question
Legislative priority in this new session of Congress goes automatically to the tax reduc- tion program which already has passed the House. The political questions now becoming urgent are these:
Will there be further sub- stantial delay in enacting civil rights legislation?
Would delay bring the Ne- groes storming again into the streets?

Can President Johnson avoid forceful action in behalf of civil rights which might inflame Southern whites against him.
President Johnson is trapped in a bad spot. Southern hot heads on either side—white or black—are in a position to de- stroy his election chances. He has no alternative to a hard- nosed enforcement of all-out in- tegration. He cannot retreat; must advance.

'Flying Pogo-Stick' Harnessed in Houston

By ALVIN B. WEBB JR.
HOUSTON (UPI) — U.S. sci- entists and engineers have just about harnessed the "flying pogo-stick."
And the nation's astronauts should feel a little more com- fortable and a lot safer when they take over the reins a year or so from now.
"Pogo-stick" was the dubi- ously distinctive nickname dreamed up by an anonymous but imaginative critic for the Air Force's Titan-2 interconti- nental ballistic missile (ICBM). The tag was descriptive of the missile's tendency to vibrate from nose to nozzle at the rate of 11 times per second while flying through space.
The Air Force was unper- turbed. A few vibrations, more or less, do not matter to a rug- gedly built nuclear warhead.
The National Aeronautics and Space Administration (NASA) was scientifically horrified. It had selected the Titan-2 to boost its Gemini astronauts into orbit. And astronauts are not built on the durable scale of warheads.
One space agency official said the astronauts would be "shaken to the teeth" and "rat- tled to the eyeballs" by the in- tensity of the "pogo-stick vibra- tions."
That was perhaps overstating the case. Nevertheless, the vi-

Mexican Auto Makes Debut

MEXICO CITY (UPI) — The first 100 per cent "made in Mexico" automobile is expect- ed to roll off the assembly line at Monterrey before next month.

The government has been steadily campaigning for several years for cars with a major- ity of parts made here; and has issued stiff regulations to bring this about.

The Borgward plant, bought in West Germany and carted across the Atlantic in several shipments, was expected to be- gin assembly operations within two weeks.

Borgward is expected to pro- duce a variety of compact cars. The Mexican firm which pur- chased the former German plant also bought Borgward as- sets including trademarks.

It is reported that Borgward has invested close to \$24 mil- lion in its Monterrey installa- tions. When the plant reaches full capacity it is expected to turn out some 6,000 units per year. The plant has been re-as- sembled at Monterrey during the past eight months.

Texas Tourist Plan To Cost \$200,000

AUSTIN (UPI)—The state of Texas will spend \$200,000 for advertising over a two-year period to boost tourist trade. The Texas Tourist Development Agency announced it will choose an advertising agency Jan. 17 to handle the promotions.

Quotes From The News

By United Press International
COLUMBIA, S.C.—State Sen. John D. Long, attacking the federal government's report linking smoking with cancer: "I hope South Carolina will be big enough to stand on its own two feet, drink a little, smoke a few cigarettes and tell that damn crowd in Washington to go to hades."

DENVER—Gov. John Love, indicating he resented the sit-in at his office in support of fair housing laws: "I was assiduously working to find means by which this law could perhaps be strengthened. This demonstration has made it somewhat less likely I will recommend the legislation. I don't like to respond to force."

FLINT, Mich.—Jack Wagner, president of United Auto Workers Local 599, commenting on an agreement reached with Buick officials aimed at ending the first auto strike of the year: "We think the membership ratifies as we feel we have won an overwhelming victory."

WASHINGTON—Rep. Steven B. Deronjian, R-N.Y., criticizing Atty. Gen. Robert F. Kennedy's trip to the East for talks with Indonesian President Sukarno: "We have many cases against the Communist party pending. We are in the midst of a civil rights battle in which Kennedy reportedly is vitally interested. There is plenty for him to do in Washington."

Yarborough Sets Mailmen's Talk
WASHINGTON (UPI)—Sen. Ralph Yarborough, D-Tex., reported Wednesday he will make a speech on foreign affairs to the Dallas Letter Carriers Association at Dallas Saturday night.

TEMPORARY DRESS
HOUSTON (UPI)—Cold weather and a broken-down stitching plant Wednesday gave a school an excuse to wear blue and red sweaters and pedal pushers. Bill Powell, principal of the school, which is under heavyaker influence, said the garb is all right until heating equipment arrived from New York. "I'm wearing pajamas for my clothes, myself," he said.

Avocado trees have very shallow roots.

L. J. FLAHERTY ... files for sheriff

Pampan Files For Sheriff

A 49-year-old Pampa salesman today filed as a candidate for sheriff in the Democratic primary May 3.

L. J. Flaherty of 939 S. Hobart signed a request that his name be placed on the ballot by Bob Baker, secretary of the county Democratic executive committee.

Flaherty set a formal announcement of his candidacy for Sunday.

He is a former city policeman and special officer for the Santa Fe Railroad Company and currently works for Montgomery Ward's in Pampa.

He has lived in the county 42 years and attended Pampa schools. He is married to the former Mary Haiduk of White Deer and they have two children.

Flaherty's candidacy is the first time the man has sought public office.

Sandblom's Dealings Compared to Estes

CORPUS CHRISTI (UPI)—The \$21 million empire of Paul Amos Sandblom was built in the shifting sands of promissory notes, high interest and quiet dealings.

Not since Billie Sol Estes has the word "wheeler dealer" come so easily to the lips of Texans.

Sandblom, 39, a lawyer and accountant, built sand castles of get-rich-quick hope for at least 147 investors—from preachers and housewives to shrewd insurance companies. Like the castles that children build along Corpus Christi's gleaming beaches, those hopes have crumbled.

Still in Jail
Sandblom was in jail this week. His last public appearance was in handcuffs. The smooth talking promoter had failed to raise \$25,000 bond.

Robert Burke, the court-appointed receiver in his bankruptcy case, said he had found \$17 million in debts and learned of another \$4 million owed "from people talking directly to me."

The only physical assets are the insurance agency and

his interest in Hendrix Nursery," Burke said.

What did he do with the \$21 million?

Investors said Sandblom told them he was lending it to road contractors who needed quick cash. But, bankers said, road building contracts are prime collateral for loans costing only five per cent interest. If Sandblom was paying 36 per cent interest, it was difficult to understand how he competed with banks.

Live Topic
Corpus Christi was alive with talk. The Rev. Glenn Norman's sermon Sunday touched on Sandblom. Norman admitted he gave money to Sandblom with promises of a 36 to 50 per cent annual return. Norman said the profits paid a local college professor's salary and were used to improve the church.

"Paul," Norman said, "I'm praying for you."

A hearing was set Friday before James M. Easterling, federal bankruptcy referee, where all of Sandblom's records are to be unveiled. Sandblom could testify or plead the Fifth Amendment.

Court Orders New Trial for Judge

AUSTIN (UPI)—The Court of Criminal Appeals Wednesday reaffirmed its earlier decision that former Houston probate Judge Clem McClelland must be given a new trial on charges of converting money from an estate in his court.

McClelland was convicted by a jury in Belton last fall and sentenced to 10 years in prison. But the Court of Criminal Appeals ruled that the evidence showed him to be an accomplice, not a principal, in the conversion of \$10,000 from the estate of Clara L. Currie, and reversed the conviction.

Attorney Says No Comment on Estes

AUSTIN (UPI)—Attorney Hume Cofer of Austin, who teamed with his father John Cofer to defend Billie Sol Estes, said he would have no comment on the Court of Criminal Appeals decision affirming the eight-year sentence of Estes for swindling.

"It has been our policy since the first of the case to make no statements," Cofer said. He learned of the ruling by the three-judge court this morning, Cofer added, but had not seen the lengthy 22-page opinion.

Texas Court Rules Against Taxpayers

AUSTIN (UPI)—The Texas Supreme Court ruled Wednesday against taxpayers in a case involving ad valorem taxes on property.

In a suit brought by Robert Runyon and family against the city of Brownsville, the court refused to review a lower court ruling that upheld a jury decision holding Runyon's property valuations reasonable.

Moon Trip Depends On Congress Action

By JOSEPH L. MYLER
WASHINGTON (UPI)—The U. S. commitment to land men on the moon before 1970 is in jeopardy.

The Johnson administration appears determined to save it, if possible.

According to the National Aeronautics and Space Administration (NASA), everything depends on Congress.

What Congress thinks about this will be seen later in the appropriations it votes for space exploration.

Dr. Robert C. Seamans Jr., associate NASA administrator and general manager of the space program, told reporters at a budget briefing Wednesday that the lunar landing will slip into the 1970s unless Congress gives NASA \$141 million more for the current (1964) fiscal year which started July 1.

—Also votes it \$5.3 billion for the 1965 fiscal year starting next July 1.

Needs Both
Seamans said NASA must get both to meet the moon target date set by the late President Kennedy in May, 1961—a target which President Johnson has endorsed for his own administration.

Wednesday's briefing and the circumstances which prompted it were unusual. Normally, no agency publicly discusses its new budget until the President has sent Congress his annual budget for the whole government. Johnson won't do that until Tuesday.

But Seamans said the President had put pressure on the space agency to submit its money requests to Congress ahead of the normal schedule in order to get committee hearings started as early as possible.

The \$5.3 billion bid for fiscal 1965 was sent to Capitol Hill Wednesday. The \$141 million supplemental request for fiscal 1964—which Seamans said was vital to the lunar landing commitment—won't go to Congress until next week.

Date Set Back
Once upon a time space officials thought it might be possible to get a couple of men on the moon in 1967. Two years ago they would have settled for 1968. To meet that target date, they said, they would have to get \$11 billion from Congress for fiscal 1964 and 1965.

They asked \$5.7 billion for the current year and got \$5.1 billion. That \$600 million cut, Seamans said, would force NASA to cancel some projects.

mans said, set NASA back a year. Even if Congress puts up everything now being asked, he said, the lunar landing can hardly be accomplished until early 1969.

There are a lot of things in the space program besides the projects aimed at putting men on the moon. There are unmanned scientific probes of the moon and planets.

STREET SCENE—Angled camera gives this unique knothole view of a building designed by Frank Lloyd Wright which spans a street on the ground floor. It is the Civic Center of Marin County, Calif. The four-level structure, both inside and outside, has a suggestion of a ferry boat design.

Foreign Commentary

UPI Foreign News Analyst Atty. Gen. Robert F. Kennedy is back in the foreign policy trouble-shooting role he formerly played for his brother, the late President John F. Kennedy.

This time he has been asked to deal with the troublesome President Sukarno of Indonesia whose threats to "crush" the new Malaysian Federation have been of increasing concern to the United States.

The new state was formed on Sept. 16 when the self-governing state of Singapore and the former British Crown colonies of Sabah (British North Borneo) and Sarawak joined Malaya to form the independent Malaysian Federation within the British Commonwealth.

Sukarno has attacked it as British neo-colonialism and an attempt by the British to continue their economic domination of the area.

Against it he has declared a policy of "confrontation" with tactics similar to those by which with not much more excuse than proximity, he was able last year to wrest West New Guinea from the Dutch.

Military Incursions From the Indonesian-held portion of Borneo, Indonesian-trained guerrillas have stabbed into Sarawak. Java-based pirates have attacked Malaysian shipping and Indonesian planes have violated Malaysian air space.

In the course of events, Sukarno has taken over British firms in Indonesia valued at around \$500 million and Jakarta mobs sacked and burned the British Embassy.

Economically, he declared a trade embargo against Malaysia despite the fact that Malaysia annually took 27 per cent of Indonesia's products, a move scarcely designed to help Indonesia's already shaky economy.

Against this background, President Johnson dispatched his attorney general to confer with the vacationing Sukarno in Tokyo.

United States concerns arise not only from its already-deep involvement in nearby South

Viet Nam but also from the fact that it is committed to oppose aggression anywhere in Southeast Asia.

The U. S. already has taken a number of steps to discourage Sukarno.

Aid Reduced Sharply U. S. military aid to Sukarno has been reduced almost to zero including shipment of spare parts for the Hercules airplanes Indonesia uses to ferry guerrillas to the jungles of North Borneo.

Previous plans for the United States to participate in a \$300 million development program for Indonesia have been dropped.

In his brief case Robert Kennedy also has a potent weapon. It is a clause in the new foreign aid bill which would prohibit further aid to Indonesia unless President Johnson deems it necessary to United States interests. U. S. aid last year amounted to close to \$80 million.

To make up for the loss of the Malaysian trade Sukarno has made a deal to divert rubber to Communist China and has expanded his trade relations with the Philippines and the Dutch.

Sukarno never has been too much troubled by his economic problems. But militarily, Malaysia will prove no such easy plum as West New Guinea.

The Malaysian government already has shown its determination to resist and it is backed by Britain, Australia and New Zealand.

Prices on Heating

Oil Hiked in State HOUSTON (UPI)—A price increase reported in Houston this week will affect the frozen and snowbound northeast, more than 1,000 miles away.

The Oil Market Pricing Service announced that all major Gulf Coast refiners have raised the price on home heating oil tanker lots and on kerosene and diesel fuel.

The service said prices on home heating oil went up from 8.25 cents a gallon to 8.5 cents a gallon.

COMMUNAL VEHICLE

LONDON (UPI)—Bookie John Pallett, 21, charged with possession of a stolen pickup truck, was discharged Tuesday after he told the court the apparently ownerless truck had been parked in his street for six months and was used as a kind of "communal vehicle" by residents all along the street.

OUT OF HORSE

SAN FRANCISCO (UPI)—The San Francisco Police Department is temporarily out of horsepower, with its 27 horses under treatment for sniffles, runny noses and other respiratory ailments.

Members of the mounted patrol detail have been assigned to radio cars and foot patrol duty on a temporary basis.

Yemen Conflict Settled by Talks at Arab Meeting

CAIRO (UPI)—Informed sources said Wednesday the Arab summit conference, originally called to counter Israeli plans to divert the waters of the River Jordan, has produced a settlement of the civil war in Yemen.

But Tuesday night King Saud of Saudi Arabia, who has been backing Yemeni royalists in their bid to recapture the government, met with two of his bitterest opponents in the Middle East—President Gamal Abdel Nasser of the United Arab Republic and Abdullah Sallal,

president of the Republican regime in the Yemen.

Later the sources reported that "the problems in the Yemen are virtually over."

Nasser has supported the Yemeni Republicans with men and arms since the civil war broke out when Sallal overthrew Yemeni Imam El-Radi.

The sources also said talks between King Hassan II of Morocco and President Ahmed Ben Bella of Algeria has led to the "actual liquidation" of their border dispute. Fighting along the ill-defined boundary broke out last October.

Before plastics came into use, one Austrian piano maker used the tusks of over 100,000 elephants in the manufacture of piano keys.

Supreme Court Vetos Oil Case

AUSTIN (UPI)—The State Supreme Court Wednesday refused to consider an appeal from 40 oilmen who contend the state's slant hole oil well penalty suits should be tried in their home counties rather than in Travis County.

The court dismissed for want of jurisdiction two suits which incorporated the pleas of oilmen in more than 100 penalty suits.

The oilmen had appealed a ruling of the 3rd Court of Civil Appeals, which said Atty. Gen. Waggoner Carr had a right to file all the suits in Travis County if he chose to do so.

Most of the suits are pending in Travis county 33rd District Court. One has already been tried and resulted in penalties of more than \$100,000 against four East Texas oilmen. Another was settled out of court earlier this month.

Rice Allotment Bill Reaches Johnson's Hand

WASHINGTON (UPI)—A bill permitting farmers to transfer rice allotments when they sell rice-producing equipment without selling their land went to the White House Wednesday.

The bill, which will affect mainly the large rice producing areas of Texas, California and Louisiana, was passed Tuesday in the House on a voice vote.

Rep. Clark W. Thompson, D-Tex., author of the bill, said it would correct an inequity caused by previous changes in the rice acreage allotment law.

At present, the rice producer who owns his own farm and wants to quit the rice-producing business is compelled to sell the land and equipment in order to pass on the allotment.

On the other hand, the tenant rice producer could get out of the business and transfer the allotment by selling his equipment.

The legislation was attacked by two Republican members of the House agriculture committee, Reps. Paul Findley of Illinois and Robert Dole of Kansas. They said, "If the trend indicated in this bill continues, we can expect to see the right to grow commodities bought and sold like the commodities themselves with Uncle Sam serving as chief broker."

POLLY'S POINTERS The Time You Save May Be Your Own

By POLLY CRAMER

DEAR POLLY — I want to thank you and all the neighbors who will or have already taken the time to write in and share their good homemaking ideas with us. Like the lady who wrote in the other day I, too, use liquid car wax on my metal cupboards. I also use it on my refrigerator, stove, deep freezer, automatic washer and dryer and even on the plastic tile in the bathroom. The upkeep is certainly easier as these cleaning tasks need not be repeated so often. Another timesaving idea is to turn an electric fan on your kitchen floor to speed up drying time so it can be waxed sooner. After applying the floor wax, turn the fan on again to speed up drying time.

When I iron, I hang all the garments together that are to go in each closet and when they are ready to put away this eliminates sorting. I also sort my mending in the same manner and put it aside as I come to it. Then I just sit down at the machine with an assortment of threads and do it all at once.

MARGE
DEAR POLLY — I use sterile cotton swabs as applicators when applying a soothing lotion to my two teething tot's gums. This eliminates bitten finger, the chance of snapping off a glass applicator and there is less danger of hurting baby with too much pressure.

MRS. R. E. T.
DEAR POLLY — I made a plastic cover, shaped like a giant toaster cover, for my little daughter's playhouse. This keeps it dust free when not in use.

GIRLS — This good hint I just in time for all those new doll houses Santa left for little girls. This cover would also keep all the house's interior furnishings intact.

POLLY
DEAR POLLY — Yesterday when I roasted a chicken I discovered a help in getting the chicken out of the pan and safely onto the platter in one piece. Before putting it in the pan, I tied a wide strip of clean white cloth around the middle of the fowl and when time came to lift it out of the pan I just lifted by the strip of cloth and the bird was not pulled to pieces as sometimes happens.

My nutcracker is the handiest tool in my kitchen. It is wonderful to open a bottle of flavoring that sticks, or other tightly capped bottles. The cracker will handle quite a large mouthed bottle.

MRS. A. C.
GIRLS — Do have the cloth band loose enough around the chicken or turkey so the bird will brown all over.

The Doctor Says

DR. WAYNE BRANDSTADT

Can you imagine being allergic to, of all things, yourself? Amazing as it sounds, this is one explanation for the cause of collagen disease.

Actually, this is just a fairly new term for a group of illnesses that have been with us for a long time.

Collagen disease chiefly involves connective tissue, skin, muscle tendons, bones, cartilage and small blood vessels. All of these tissues are rich in collagen, a gelatinous protein.

These diseases include lupus erythematosus, rheumatic fever, periarteritis nodosa, rheumatoid arthritis, erythema nodosum and purpura. It is now thought that all are caused by a sensitivity similar to an allergy that develops against the victim's own cells, the so-called autoimmune reaction. In all of these diseases, there may be prolonged bouts of fever and varying degrees of painful involvement of the joints.

Since the diseases listed make up a formidable array, I am not surprised that some readers are concerned about preventive measures. There is not much that can be done in the way of true prevention because heredity is believed to play a large part in the cause. Often, however, there are periods of remission in which the victim may be free of his disease, sometimes for several years at a time.

Much can be done to bring about such remissions. Rest and salicylates are often all that is needed, but most victims sooner or later require prolonged treatment with ACTH, cortisone or some other corticosteroid. Because of the danger of undesirable side effects from such treatment, close supervision by a physician is essential. This is another example of a group of diseases that cannot be cured, but can be controlled with skillful treatment.

Q — My doctor says I have cutaneous periarteritis nodosa. Will this disease abate after running its course? If so, how long does it take? What is the usual treatment for it?

A — Periarteritis nodosa (also called polyarteritis nodosa) is one of the collagen diseases. It may affect the

Dear Abby... Don't Mope! Start Working Harder!

By ABIGAIL VAN BUREN

DEAR ABBY: I am a 17-year-old boy and I have been wanting to quit school for over a year, but my parents won't let me. I hate school and I want to quit now and get a job. I failed two subjects last term, and know I won't do any better next time. My parents found out I was smoking and they ordered me to quit. I told them if they wouldn't let me quit school I wasn't going to quit smoking. My Dad made a deal with me; he said if I quit smoking and continued with school, he'd buy me a car I wanted. I said okay. He got me the car and I really have been trying harder at school, but he caught me smoking. Well, he took the car away from me and I'm grounded until June. They said if I flunk anything I'll have to go to summer school. How can I get my parents to be more human?

MAD
DEAR MAD: I think your parents are superhuman. And far more generous than most parents would have been. You made a deal and welched on it. Work hard in school and quit feeling sorry for yourself.

DEAR ABBY: Maybe I am overly sensitive because I've had gray hair since my mid-twenties, but I do not like to be called "Grandma" by anyone except my own grandchildren. The moment I became a grandmother, everybody started calling me "Grandma." Even people who hardly knew me well enough to call me anything but "Mrs. —" started calling me "Grandma." I resent it. While waiting in my doctor's office, his nurse had the gall to say, "Come on, Grandma, you're next." I am only 59 years old. Would I be out of line to correct these rude people? Or should I just sit there and burn?

DEAR "GRANDMA": Many people are not aware that pet names (and that's what they are) are not always appreciated. So I suggest that you tell whoever incurs your displeasure by calling you "Grandma" exactly how you feel about it. It takes nerve to be outspoken. But it's better than burning.

smaller arteries anywhere in the body.

Symptoms vary widely depending on the part of the body involved. It is more common in men than in women and is often seen in persons who have hives, asthma or some other allergic disease.

When, as in your case, it involves the skin, nodules the size of a pea or smaller may occur singly or in groups. They disappear after a short time, but new ones keep forming. Some victims have

DEAR ABBY: I read the letter from "Likes It Peaceful" with much interest. I agree with her husband, who refused to drive the carload of children to school because he thought the walk would do them good. When I was a boy nobody chauffeured us to school and we didn't expect it. We walked two miles there and back every day in all kinds of weather and we didn't live in California, either. Not only that, but when I was six years old and had to have my tonsils out, my mother gave me a nickel and put me on the street car and told the conductor to drop me off at the hospital. She came to get me that night. I lived through it and am none the worse for it. I think our kids today are so pampered it's pitiful.

Xi Theta Iota Chapter, Beta Sigma Phi, Volunteers for Mothers March

The March of Dimes sponsored film, "At the Edge" was shown to members of Xi Theta Iota Chapter, Beta Sigma Phi recently by Norman Henry and Mrs. R. A. Mack, representatives of the Gray County March of Dimes.

Mrs. Mack stressed the importance of the tremendous work and amount of research provided by the March of Dimes, and explained that arthritis and birth defects were being studied as well as polio. Xi Theta Iota volunteered to aid in the Mothers March scheduled for Jan. 20.

Mrs. Bill Tarpley opened the business meeting by calling for committee reports. Mrs. Jim Terrell reported the number of Christmas baskets distributed in December, and announcement of the Carrell theater production, to be sponsored by the chapter the first week in April, was made.

The closing ritual adjourned the meeting which was followed by a social hour. Mrs. Chester Huff, assisted by Mrs. H. L. Meers and Mrs. Peggy Touvier acted as hostesses. Members were served coffee, soft drinks and tidbits.

no nodules but, instead, a series of red or purple spots which may or may not itch.

The disease may run a course of several months or several years. Treatment is often unsatisfactory. Aside from cortisone or a related drug, there is no known remedy.

Fur is Flying at Resorts

This is the biggest fur season in years. Fun furs and luxury furs meet and mingle for every occasion, and the winter resorts will see their share of this new trend toward glamor. White circular ermine Tovarich-style jacket with high cardigan neckline (left), sash is detachable. White Tibetan lamb shepherd's three-quarter coat (right) by Andre Faith has side slits, two-button closing and red jersey lining. These designs were created for Coopchik-Forrest.

Visit to Holy Land Discussed

Mrs. John Haggard gave an account of her recent visit to the Holy Land to members of the Lois Sunday School class as they met Tuesday in the parlor of First Baptist Church.

She described the day-to-day customs of the people in that country; briefly outlining their livelihood and worship. She stated that small children beg in the streets for food, and stressed the importance of Americans realizing that they should be thankful.

Mrs. Mack Harmon, president, opened the meeting and gave the prayer and devotion on the life of Christ; crucifixion and ascension; prayer in the Garden of Gethsemane; long talks with the disciples; teaching; healing of the sick and the visit in Jerusalem.

Mrs. Nell Baird was reported to be ill and confined to Highland General hospital. The next meeting will be held in the home of Mrs. Gladys Edmundson, 401 N. Russell Feb. 11.

New Swimsuits Are Resort Bound

By HELEN HENNESSY

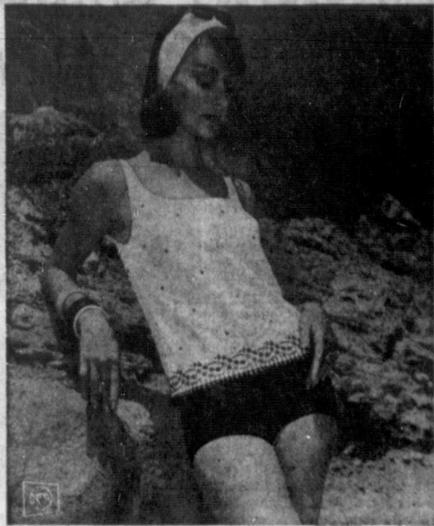

NEW YORK (NEA) — Friends will see more of us on the beaches this resort season. Swimsuits are either strapless, backless or scooped out at the sides.

The new, strapless suits turn up in a variety of styles. Shoulders will swim nude (and tan with no strap marks) in classic one-piece sheaths that are nearly backless, and in soft jersey suits either cinched at the waist with string belts or belted low over brief shorts.

The epitome of the strapless group is the "swimsuit." It's a simple and provocative as a wrapped towel, but shrewdly designed with an inner fit that no towel could possibly achieve.

Frankly aimed at would-be sirens is a sliver of black velvet, strapless and bare-backed. The girl who fits inside needs to be in full command of the situation.

The little-girl look is represented in a dot-embroidered net bodice, with braided straps, that relaxes modestly over maillot pants. In white, with a pale blue lining, the

High on the list of bright plumage for resort preening are these new swimsuits by Rose Marie Reid. Hip-length overblouse (left) is of white dacron tricot, embroidered with spaced dots of color. Brief maillot pant is knitted. Massive flower print on white (center) gives vivid dimension to the strapless swimsuit that ingeniously mates the bare-shoulder look is unmistakably demure. But in black, one isn't so sure. Colorful prints run riotously through all the swimsuit

dered look with near backlessness. The new outer cut of the bra is straight and unoutlined at the top for a "swathed" look. Lycra taffeta is printed in two contrasting tones on white (right) to give a divided look to the one-piece classic sheath. Pink and white strokes on white are joined at the waist to moss on white below.

resort collections, and flattering, drapable jersey is a fabric favorite this season. Even mohair takes to the

beach in a brief jump suit done in a yellow and white hound's tooth check. If you're lucky enough to

be headed for warmer climates this winter, you'll find bright plumage indeed in the new crop of swimsuits.

There is a tradition in the Shenandoah Valley that only young courting couples can stir the boiling apple butter.

Amber, a fossil resin, is found in many colors ranging from blue to the usual golden amber.

Give Him A Helping Hand

By ALICIA HART

Ever catch your fellow taking a surreptitious look in a mirror? This proves most men are as interested in their personal appearances as are women.

It's the wise wife who pampers her husband and encourages better grooming habits. You can start your husband on this road with a weekly manicure.

In winter, sportsmen and men who work with their hands often develop cracked, dry fingertips that break off to the quick. Generally, men tend to use harsher soaps than women and these boost the possibility of dry, roughened hands and nails. A manicure repairs this damage.

For your home manicure you need emery boards, petroleum jelly, hydrogen peroxide, cuticle scissors, cotton swabs, a buffer, a small bowl of soapy water and a warm hand towel.

To begin have him dip his fingertips in the warm, soapy water for a few minutes to soften the cuticle on each nail. Dry his hands and work a small amount of petroleum jelly into the cuticle.

When the cuticle is softened, push it back gently with a cotton swab. Clip any hangnails and bits of dead skin with a cuticle scissors. Next,

FAMILY RELATIONS: A little pampering goes a long way.

shape the nail straight across or slightly rounded, for filing with an emery board.

Discoloration of fingernails and fingertips is a big masculine problem. Remove stains with cotton swabs dipped in hydrogen peroxide and apply to discolored nails.

As a final touch, buff his nails 10 times in one direction. This brings out a natural gloss.

Those recent pictures of Nikita Khrushchev going on a hunt with a Tartar shepherd's fur casque show he's finally caught up with American fashions. Women's Wear Daily reports, Yankee doodle daisies have been wearing the likes of the hat for several seasons. One designer, Sally Victor, stocks it in lynx, lamb, mink and leopard.

Scientific Approach to New Raincoat Passes Acid Test With Flying Colors

By JERRY SHEEHAN

NEW YORK (NEA) — Here at this news organization's headquarters is a department known as the Little Gemm Testing Lab. It is like no laboratory anywhere else in the world.

Full-scale analysis has been run on everything from paper gliders to pep pills for chubbards. What the operation lacks in scientific approach it often makes up for in enthusiasm.

Take the case most recently of the armor-plated raincoat.

Well, Little Gemm couldn't lay hands on a new raincoat, but the staff did have in its possession a good-sized swatch of appropriate cloth. The armor in question is a chemical which is built into the fiber.

Such chemicals (this one happened to be Du Pont's Zepel) are now being widely used in men's garments to protect against stains.

Attack ingredient "A" was coffee, a strong concentration of the instant variety poured from the laboratory pot. Attack ingredient "B" was a bottle of the blackest ink this side of bankruptcy court—bor-

rowed from a staff cartoonist who likes people to read his signature easily.

In addition to the treated fabric, Little Gemm possessed a sample of the same raincoat fabric which was unprotected.

Attack ingredient "A"—the black coffee—beaded up on the treated fabric and rolled off like small aggie. Attack "B"—the ink—did likewise.

It was a different story when Little Gemm's experts doused the plain fabric. In an unscientific word, it was a mess. Washing with plain water took off what little residue remained on the treated material, but the other was left looking like a piece of marine helmet camouflage.

Chemical protection is now being added to a wide variety of outerwear—not just raincoats. Winter garments can now provide warmth and can shed water and those other nasty substances as well.

Today's armor-plated fabrics, we are proud to announce, have received the Little Gemm smudge of approval.

Read The News Classified Ads

Garbed against snow, rain and stain are these men. Dacron and cotton poplin all-weather coat (left) features zip-out liner and detachable pile collar. Trench coat (right) sports yoke detail in front and scalloped, tapered slash pockets. Both are treated with protective chemical to inhibit a variety of stains.

Daring décolletages, wasped waistlines, glimmering gems and fabulous fabrics for the season's black-tie galas have inspired Charles of the Ritz to advance the dolled-up look in make-up and hair styles. Hair for after dark is a baby-doll crown of curls that narrows to a sleek, ear-framing cut. Makeup is chosen in colors that hold their true brilliance under artificial lighting. Since ears are in view, it is suggested the ears be lathered with a foundation base, too.

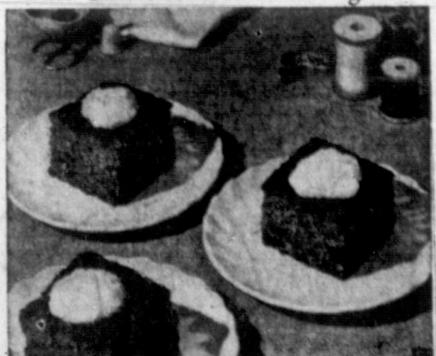

Manners Make Friends

A polite listener appreciates a chance for rebuttal.

Amber has been found in coal mines in Maryland, Virginia and New Jersey.

Date Cake Snack At A Sewing Bee

Spicy Date Cake is the perfect dessert to serve when the ladies in your neighborhood come over for a sewing bee! During the afternoon of mending and stitching, offer your guests this delicious, moist Date Cake. It's highlighted by the nut-like flavor of rolled oats and is chock full of spices.

DATE CAKE

Makes one 8-inch square

- 1/2 cup butter or margarine, softened
- 1/2 cup granulated sugar
- 1/2 cup firmly-packed brown sugar
- 1 egg
- 1/2 teaspoon vanilla
- 1-1/2 cups sifted all-purpose flour
- 1 teaspoon soda
- 1 teaspoon salt
- 1/2 teaspoon cinnamon
- 1/4 teaspoon ground cloves
- 1/4 teaspoon nutmeg
- 1 cup milk
- 1 cup rolled oats (quick or old-fashioned, uncooked)
- 1 cup chopped dates

Heat oven to moderate (350°F.). Beat butter and sugars together until creamy; add egg and vanilla. Sift together flour, soda, salt and spices. Add alternately with milk to creamed mixture. Stir in oats and dates.

Four batter into greased and floured 8-inch square pan. Bake in preheated oven (350°F.) 50 to 55 minutes. Serve warm with hard sauce.

For hard sauce, beat 1/2 cup butter until creamy. Gradually add 3 cups sifted confectioners' sugar; beat until light and fluffy. Stir in 1-1/2 teaspoons lemon juice and 1/2 teaspoon vanilla.

Ronnie Curlee Becomes Eligible For Varsity Basketball Today

By GLENN McCASLAND
A year ago, Ronnie Curlee lost the right to play basketball when he received his semester report card.

After spending some two to three weeks in the doldrums over his grades, Curlee set forth to improve his scholastic marks and regain his basketball eligibility.

About 8 p.m. Saturday night he will have accomplished both goals when he suits up in the Pampa Harvester varsity uniform gear for the first time this year.

Curlee, who stands at just a little over 6-feet and weighs some 130-140 pounds, will have become scholastically able to play basketball on the varsity and coach Terry Culler will be glad to see him aboard.

The lanky junior may not see much action against Phillips Saturday night, but he'll be with the squad, ready to do what he can when called upon.

Since his grade breakdown last year, Curlee hasn't let his basketball ability go to pot. The boy has been playing with coach Roy Kieval's Stockers and doing a bang-up job on the floor.

"I hate to see him graduate, but he'll do a good job with the varsity too," Kieval declared recently. "He's been working for this move all year and I wish him success."

Curlee has hit some 18.3 points per game with the undefeated Stockers and on many occasions been the chief reason the club has won close games by showing experienced playing because of his extra year with the team.

His highest point production in one game was with Peryton in the opening game of the year as he blazed home 28 points.

Kieval has worked with Curlee on his rebounding as well as the aggressive "go-get-the-ball" style of basketball which has featured both Harvester and Stocker games this year.

Culler has spent numbers of hours with the lad, keeping an eye on his over-all improvement on the floor and watching his grade card with the other eye.

"I know I've got to make a spot for myself on the varsity, but as long as the Harvesters win, and I'm with the team, that's fine with me," Curlee explained while talking about the switch in squads.

The junior will have a full year's eligibility as a senior next year.

Besides basketball, Curlee plays baseball, having pitched with the American Legion team here and done an outstanding job on the hill.

"I hope to be back on the mound this spring, too," he declared. "I like baseball almost as well as basketball."

The boy has no hobbies, other than sports, but is active in the youth work of the Fellowship Baptist Church, of which he is a member. He is the son of Mr. and Mrs. A. C. Curlee, 822 S. Schuster.

RONNIE CURLEE
... becomes eligible

Top Pros Teeing Off Today in Bing Open

PEBBLE BEACH, Calif. (UPI) — Arnold Palmer, Jack Nicklaus, Art Wall and Paul Runyan ruled as co-favorites today as a colorful field of nearly 350 golf pros and celebrities teed off in the opening round of the \$60,000 Bing Crosby National Pro-Amateur championship.

Nicklaus, the PGA and Masters' champion of 1962, was making his first start of the new year while Palmer, bothered by a slight cold, is out to defend his title as golf's leading money-winner.

The lacquered Wall and long-limbed Runyan were the two jackpot winners on the first steps on the winter tour—Runyan in the Los Angeles Open and Wall, back on his stick again, at San Diego.

The Crosby, sponsored by golf ball Bing himself, over the years has come up with about every type of weather imaginable — snow, sleet, hail, rain and wind. But this year, at least for opening day, the forecast is for sunshine.

All three courses are in perfect shape — particularly Pebble Beach, a 6,742-yard mon-

ster which bends and twists along the cliffs and beaches near Carmel Bay.

For galleries who would rather see celebrities than golf pros swing, they can watch pro football stars Jimmy Brown or Del Shofner, Dodger pitcher Don Drysdale, Tennessee Eminent Ford, comedians Bob Newhart or Phil Harris or Donald O'Connor, musician's James Garner, baseball managers Alvin Dark or Bill Rigney, movie star Fred MacMurray, dancer-comic Ray Bolger, baseball outfielder Albie Pearson, or singers Howard Keel, John Raitt, or Dennis Morgan.

Aided by liberal handicaps assigned them by host Crosby, they'll be out to help the pros in the pro-amateur teams.

The Crosby, sponsored by golf ball Bing himself, over the years has come up with about every type of weather imaginable — snow, sleet, hail, rain and wind. But this year, at least for opening day, the forecast is for sunshine.

Pampa Second in District In Cage Point Production

Lubbock High took back undisputed possession of first place at the halfway mark in district 3-AAAA Tuesday night with a 70-46 victory over second-place Monterey, while Plainview grabbed sole ownership of third with an 84-63 pounding of Palo Duro.

Pampa headed a four-way scramble for fourth place by knocking off Tascosa, 67-40, while Berger evened their loop record with a 30-57 win over Amarillo. Collier-Sweetser Caprock was idle.

With the first round of district play finished, Lubbock will find their lead still in jeopardy as they play at tough Tascosa tomorrow night, while Monterey will visit hot-and-cold Berger. Palo Duro can take over fourth by themselves with a win at Amarillo, as Pampa is idle, and Plainview should romp at Caprock.

Pampa's tremendous team scoring effort Tuesday, which saw all five starters tallying in double figures, boosted the Harvesters up to second in team scoring in the loop, but dropped individual averages down with the even point spread.

Rudely Fulgham of Lubbock put out a 29-point production to hold off Bill Bogan of Tascosa for the league lead, although Bogan's 21 points pushed him past Ronnie "Duck" Perret of Plainview, who canned 18.

Charlie Price of Pampa stayed in fourth place with 132 points, although his average dipped slightly, to 18.3. Kenny Hebert dropped to ninth place, despite his 18 points, as all the leading scorers hit in double figures.

Major change was the moving up of Amarillo's Sammy Gast to sixth place with a 21-point game against Berger. Teammate Ronnie Walker dropped out of the top circle as he was limited to six tallies. Ropes Roper dropped out of a tie for 10th to 13 place as his 10 points tallied 47 markers, with Manuel Nagar of Plainview moving to 11th as he went with 32 points against PD.

District Standings

W	L	Pts.	Op.	
Lubbock	7	1	528	421

Time Catches Up With Cincinnati

By MARTIN LADER
UPI Sports Writer
Time is finally catching up with the University of Cincinnati.

The Bearcats have been the most successful college basketball team in the last six years, winning a total of 161 games against 36 losses. And although they don't show any signs of old age, they're definitely not what they used to be.

Cincinnati lost another link from its great past Wednesday night by dropping an 87-77 decision to Bradley. While losing one game isn't cause for alarm, it did mark the Bearcats' first loss over a Missouri Valley Conference foe on their home court. Cincinnati had compiled 41 straight successes against league opponents at home dating back to 1947.

Another streak was barely kept alive Wednesday night when 10th-ranked Davidson squeaked out a 32-49 victory at Richmond. The unbeaten Wildcats employed a surprise freeze when they led by only one point with 12 minutes to play and they just managed to salvage their 14th triumph.

Cincinnati, ranked eighth in the country, was the victim of two red-hot Braves from Bradley. Lavern Tart heaped Bradley to a 46-45 intermission lead by scoring 22 points in the first half and Joe Strawder picked up for his teammates with 25 points in the second half. Strawder, who hit on 19 of 33

shots during his streak, took game scoring honors with 38 points.

Ron Bonham led the Bearcats with 25 points.

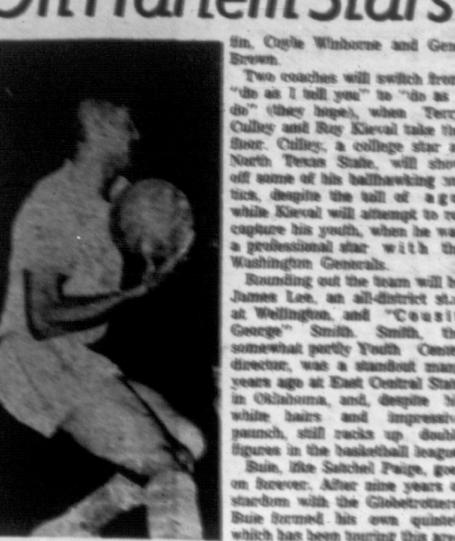

Ancient Pampa All-Stars To Take On Harlem Stars

"We're out for revenge" was the promise of coach Dwain Orr, whose Pampa All-Stars meet Boyd Bue and his Harlem Stars in a benefit basketball game Monday night at Harvester Fieldhouse.

"The Stars have beaten us three years in a row," said Orr. "We're going to see if we can break their streak."

Bue, the fabulous one-armed ex-Harlem Globetrotter and his crew have tangled with the locals for three years now, with their closest win being by five points, victorious last year by 12. To combat them, Orr has gathered together an awesome aggregation of former college and All-State basketball players, although some of them are definitely suffering from a tendency to gray hairs, paunchiness and shortness of breath.

Four men who were All-State of Pampa High and college stars, now playing in the YCC League, will head the Pampa team: Sam Condo, Gary Grif-

BOYD BUE

fin, Cagle Winborne and Gene Brown.

Two coaches will switch from "do as I tell you" to "do as I do" (they hope), when Terry Culler and Roy Kieval take the floor. Culler, a college star at North Texas State, will show off some of his ballhawking antics, despite the toll of age, while Kieval will attempt to recapture his youth, when he was a professional star with the Washington Generals.

Rounding out the team will be James Lee, an all-district star at Wellington, and "Cousin George" Smith, the somewhat portly Youth Center director, was a standout many years ago at East Central State in Oklahoma, and, despite his white hairs and impressive paunch, still racks up double figures in the basketball league.

Bue, like Satchel Paige, goes on forever. After nine years of stardom with the Globetrotters, Bue formed his own quiet, which has been touring this area regularly ever since.

Proceeds will go to the Pampa Evening Optimist Club.

Tickets at the door will cost \$1.50 for adults, \$1 for students and 50 cents for youngsters under 12. Advance tickets at \$1.25 for adults and 75 cents for students can be purchased at Richard Drug.

AL Owners Figured To Say No to Finley

NEW YORK (UPI) — Kansas City owner Charles O. Finley gets the word today and it'll be a loud "no" — with one provision: He can come back and try again next year.

Without mincing any words, Finley's fellow American League owners will tell him point-blank he can not possibly transfer the Athletics to Louisville, Ky., now and he somehow must work out his current park problems with Kansas City's municipal officials.

Finley will get the message twice. He'll hear it the first time at a meeting of the American League's board of directors, which will start at 10:30 a.m. (EST), and concern itself with details of his negotiations with Kansas City's city council.

The second meeting, in which each of the 10 AL clubs will cast a vote on Finley's projected move, is scheduled to begin at 1 p.m., but that first one could run over especially if Charley gets to talking, as the grand finale may not start until 2 or later.

Sure Of Result
Even before they went in for the first session, most AL officials felt the issue on whether or not Finley would be allowed to move the A's might not even reach the point of a vote.

But if a vote is taken, all were sure of the result.

"There isn't a chance his request for a transfer will be granted," said one AL owner. "If it does come down to a

AL Owners Figured To Say No to Finley

vote, Finley will receive one-third of the proceeds.

Rather than let it come to a vote, AL officials are hoping they can persuade both Finley and Kansas City municipal officials, who also will be present, to work out some kind of agreement so that the Athletics can return to Municipal Stadium.

"The American League may solve its problems with Finley, pointed out one Kansas City source, but a new one-year contract — and that's what it looks like it will be — won't solve ours."

Face Ordeal Again
"We'd like to keep the Athletics in Kansas City and now it looks like we'll have to go through this entire ordeal all over again next year."

Finley has dropped broad hints that there would be dire repercussions if he did not gain approval for his move to Louisville today although he has headily denied he intends going into court over the matter.

"We don't want to go into court," said an AL owner, "but if we must we will."

Four West Texans Sign Pro Pacts

West Texas State University should be well represented in the pro football leagues next fall. Four members of the 1963 Buffalo varsity have inked contracts, two with the NFL and two with the AFL. Halfback Jerry Richardson and fullback Otis Ross signed with the L. A. Rams and the San Francisco 49ers of the NFL while tackle John Varnell and halfback "Pistol Pete" Pedro have signed with AFL members — Houston Oilers and Boston Patriots. They will be joining two former Buff stars already established in the pro ranks — Jerry Don Logan (Baltimore Colts, NFL) and Bob Fetrick (San Diego Chargers, AFL). Both had outstanding rookie seasons in 1962.

Colt Ticket Sales Boom

HOUSTON (UPI) — Although Houston's domed stadium will not be ready for baseball until 1965, it has spurred ticket sales for Houston Colt games in 1964, club officials said today.

Sales manager Kemper Kaiser said season ticket sales were already over the half million dollar mark and ahead of last year.

"The prospect of having top priority on seat options in the domed stadium seems to have placed more demand on season tickets," Kaiser said.

Season ticket holders in Colt Stadium this year get first choice of seats in the domed stadium next year.

MSU 'Pokes Defeat OCU

By United Press International
The Hardin-Simmons Cowboys' paced by a 28-point performance by Nabe Madkins, defeated Oklahoma City 47-24 Wednesday night — the Cowboys first basketball win over OCU since 1967.

The win came on the Chief's home court.

The Cowboys scored on a treacherous 53 per cent of their shots, hitting on 25 of 47 tries.

Henry Peacock was another big gun for Hardin-Simmons, scoring 20 points.

OCU's all-American candidate Bud Kaper tallied 23 points, but took a hard spill in the final of play. He was taken to an Oklahoma City hospital where stitches were taken to close a cut on his forehead.

Welcome aboard Amigos!

Now on Chico's new **BARGAIN FARES** —travel round trip for only 40% more than one-way fares through April 30th

Now the entire Santa Fe is a terrific travel bargain through April 30, 1964.

Here's how Chico's travel bargains will save you money: If the one-way fare is \$10, you can travel round trip for only \$14. When the one-way fare is \$25, you travel round trip for only \$35. On one-way fares costing \$50, the round trip is only \$70.

Round-trip bargain fares will apply for all trains between all Santa Fe stations, making it easy for you to enjoy a trip at special savings. And you have a 30-day return limit on those bargain-fare tickets.

Remember, family fares are even lower than Chico's bargain fares, making Santa Fe the most economical way for husband and wife, or family groups to travel.

Let your hometown Santa Fe agent furnish complete information

Vilkinson Urges OU to Appoint Gomer

OKLAHOMA, Okla. (UPI)—The coach for a coaching successor Bud Wilkinson at Oklahoma is on possible political overtones today.

Wilkinson retired last Saturday as coach but stayed on as athletic director even while advising that he was considering national politics as a U. S. Senator.

University regents went into a session following the resignation to consider a successor to the highly-successful Wilkinson, but so far have rejected little progress.

Following a day-long session Tuesday, during which Wilkinson urged speed in filling the position in order to keep from hurting the recruiting program, the regents announced they would be interviewing candidates today.

Wilkinson does not enter the race but is probably working as a Republican opposing Howard Edmondson, a democrat who stepped down as regent last year to accept an appointment as senator following the death of Sen. Robert Kerr.

Wilkinson sought to break the jam Wednesday when he urged the regents to name his side of 17 years, Gomer Wilkinsons said.

Wilkinson said Gomer's coming to a school because he has no head coach.

ROYAL WON'T TAKE OKLAHOMA POST

DALLAS (UPI)—Texas coach Darrell Royal will not move to the University of Oklahoma, the Dallas Morning News said today. He had learned today from a reliable source.

Royal was in Fort Worth Wednesday night to speak at a banquet at Paschal High School. Royal would not comment.

The News said it learned that at least one member of the Oklahoma board of regents contacted Royal and told him he was the top choice to replace Bud Wilkinson.

The newspaper said Royal was withholding comment in an effort to be considerate of his Oklahoma friends.

However, Laredo Times sports editor Felix Garcia said a Laredo oil executive who has close ties with the Texas team said that Royal "has definitely accepted the job at Oklahoma."

The oil man, who asked that his name not be used, said Royal will receive \$25,000 per year salary and a \$100,000 contract for a television show in Oklahoma.

THOMAS ENTERS MEET
NEW YORK (UPI)—John Thomas of the Boston AA Wednesday entered the Millrose Games at Madison Square Garden, Jan. 30.

Making an excellent start in his comeback, Thomas, who was the first to reach the seven-foot mark in an indoor meet five years ago, will head the list.

MOSCOW BEATS CANADA
MOSCOW (UPI)—The Russian national hockey team defeated Canada, 2-1, Wednesday night in a pre-Olympic game at the Moscow Sports Palace.

LEE REBELS — The Lee 9th grade Rebels basketball team, bottom row, from left to right: Tommy Capps, Butch Miller, John Kirk, Tommy "Monk" McDonald, Smision Goodlett, Rick "Schnee" Foster, Teddy McVain. Second row: Coach John Hale, Lee Hollis, Mike Osborne, Barry Price, Myron Porter, Steve Williams, Mike Porter. Third row: Larry Cox, Windie Harper, Jack Williamson, James Matney, Doc Cornutt, Bruce Raines. Fourth row: Manager Mike Carr, Mike Stone, Schuyler Stuckey. Not in picture: Bobby Chase, Rick McClosky.

Carambal No Fight Tonight

REYNOSA, Mexico (UPI)—The first fight of the evening was just about to start Wednesday night. There were 42 fans on hand for the first bout, with many paying four pesos (22 cents) to watch the action.

But then the police appeared and hauled the spectators and the fighters down to jail.

The fighters were roosters and cockfighting in the Mexican state of Tamaulipas is illegal.

Willie Mays, Cepeda Sign New Contracts

By United Press International
The San Francisco Giants have satisfied two very important people — Willie Mays and Orlando Cepeda.

Mays, the highest paid active player in baseball, signed for an estimated \$105,000 Wednesday. A few hours later, the Giants also received a signed contract from Cepeda, who is in the \$50,000 bracket.

Mays regards his contract signing as a necessary chore and seldom balks, but Cepeda is a lot different and Giant officials were pleased with his early signature.

Last season, Cepeda held out until March 2 but had his best season since 1958. He led the team with a .326 batting average, hit 34 home runs and had 87 RBIs. His slugging percentage of .563 was fourth in the National League.

The contract was the seventh Cepeda has signed with the

Giants. For Mays it was his 24th.

The St. Louis Cardinals announced the signings of veteran pitchers Roger Craig and Lou Burdette.

Craig, the hard-luck pitcher of the New York Mets the past two seasons, came to St. Louis for George Altman last fall. He was 5-22 last season and had a 15-46 record over a two-year period for New York.

Burdette, who joined the Cardinals last season after being traded by the Braves, had a 9-13 record for the two clubs.

The Chicago Cubs also had two signings in outfielder Ellis Burton and pitcher Paul Toth. Burton hit .331 in 93 games with 12 home runs and 41 RBIs. Toth had a 3-9 record and a 3.09 earned run average in 27 appearances.

The Minnesota Twins received signed contracts from pitchers Dwight Sibley and Fred Lasher. Sibley, obtained from Philadelphia last season, had a 2-1 record and a 2.77 ERA for Minnesota. Lasher was 3-5 with Charlotte of the Sally League.

Rumored Battle At AFL Meeting

SAN DIEGO, Calif. (UPI)—The annual American Football League director's meeting opened today amid rumors that President Joe Foss' administration might have a fight on its hands to maintain control of the league.

Foss said Wednesday that he "wouldn't be a bit surprised" if someone tried to oust him from office. "It might be someone real close to you people down here," he said, referring obviously to San Diego Charger Coach Sid Gillman.

Foss and Gillman have been at odds since the AFL championship game in San Diego between the Chargers and the Boston Patriots.

Gillman is understood to be perturbed at Foss for not trying to keep the game from being televised in Los Angeles since San Diego residents are able to pick up the show on their sets.

Under the contract, Foss is to remain president of the league until 1967.

Gillman late Wednesday denied that he was behind any movement to oust Foss.

"I am not leading any such move," he said. "I have had disagreements with Foss just like anybody else, but I think he has done a good job. Besides, any move to oust him would have to come from the Charger president."

Joe Kerbel Praises NCAA Rules Change

CANYON (Spt)—"I couldn't be more pleased with the decision of the football rules committee of the NCAA," said Joe Kerbel, head football coach at West Texas State University.

Kerbel was commenting on the new substitution rules change made by the executive NCAA group on Monday. Kerbel is a member of the American Football Coaches Association Advisory Committee that presented recommendations for changes in the substitution rules to the NCAA last week.

"We recommended free and unlimited substitution as long as the ball was not alive — almost the same as in the old free substitution days before 1953. Our secondary recommendation was exactly what the NCAA rules committee came out with."

A poll was taken at the American Football Coaches convention in New York last week and it was found that over 90 percent of the coaches wanted a return to an unrestricted substitution.

"The NCAA group came as close as we could ask for with its new ruling," said Kerbel. "Problems were created with last year's rules that made it almost impossible to administer the substitutions during the game with all the other responsibilities a coach has on the sidelines. I think the game will benefit from the new rules on these points: (1) The best players and specialists that should be in the game at a particular time will now be able to be in when needed. (2) Players who are injured may now be removed from the game immediately without sacrificing a time out. This is very important to my way of thinking. Last year's rule was very bad for the safety of the players. Often a boy would say he was all right and stay in the game when he should be on the sidelines where a coach or trainer can determine the extent of his injury. (3) We can now rotate the players easier so that no one man will become too tired and increase his chances for injury."

When asked if he felt coaches will be able to return to coaching full offensive and defensive platoons, Kerbel said, "I don't believe so, but it is not entirely impossible. I'm sure the new rules will result in partial platoons, meaning that the coaches should be able to go back to the three team style of attack and defense. We should see the return of the Chinese Bandits and other specialist teams on defense and offense."

"I feel very sure that this move by the NCAA is a strong step in the right direction," Kerbel added. "The rule can now be administered from the sideline and the coach can still concentrate on the other phases of the game he is most responsible for without worrying about being charged for a time out or receiving a penalty for improper substitutions. And more boys will get to play under the new rule. The committee wanted a more liberalized substitution system without returning to complete platoon football as is now used by the pros. I believe the college coaches now have what they have been after since 1953."

YCC Basketball
Panhandle Packing and the First National Bank took wins in YCC Basketball League action last night, while the Pampa Jaycees continued undefeated in Jaycee League play as they smashed Memphis, 19-15.

In the most lopsided basketball game of the season, the Jaycees cleared the bench as they put a trio in double figures, Gene Brown with 27, Cousin George Smith with 19 and Roy "Gunner" Pool with 12.

The Panhandle Packets led all the way in a high scorer over White Deer, 61-45. Ellis Knight canned 15 and Coyle Wimborne and Carroll Russell 14 each. Gerald Michael had nine for WD.

The Bankers also led all the way as they took Ceanese into camp, 43-29. Bob Branscum had 14 and Dale Pletcher 12 points for the winners, Marlen Mills eight for the losers.

GETTING READY — Bo Brown, right, is working out with Johnny Ironmonger in preparation for the three-day boxing tournament scheduled to begin in Liberal today. Ironmonger will travel to Liberal tonight, but as yet it is not known whether he is matched. Ironmonger won a three-round unanimous decision over Eddie Gonzalez, former Golden Gloves National semi-finalist, in Amarillo last week.

Pan American Ranked 12th

NEW YORK (UPI)—The rivalry between two old basketball breeding grounds — Kentucky and Indiana — will be rekindled next week when Evansville, the top-ranked small college team in the United Press International ratings, hosts last-rising Kentucky Wesleyan.

Kentucky Wesleyan made the only advance in the top 10 group during the past week, jumping from 10th to seventh, despite losing its second close decision to major college rival Louisville. Kentucky Wesleyan has won its other nine games, five against university division teams.

Evansville, ranking No. 1 for the fifth straight week, broke the century mark twice last week and the 35 coaches on the UPI rating board awarded it 28 first-place ballots for the impressive victories. Evansville (9-2) also has faced five major college opponents and owns victories over four of them.

Evansville, seeking to repeat its small college title championship of 1959-60 season, meets Kentucky Wesleyan next Wednesday and again to close its season Feb. 28. The two contests could be pivotal in the race for the crown.

Grabbling continued its runner-up role, stretching its victory skin to 13 without a defeat and grabbing five first-place ballots.

Holding their positions from last week included third-ranked Western Illinois (10-1), fourth-ranked Pan American (12-2) and fifth-standing Puget Sound (9-1), which had its unbeaten streak ended at nine by Pacific Lutheran.

Record Price For Rodeo Steer

DENVER (UPI)—Cowboys piled up aches and pains yesterday in the 11th and 12th performances of the 1964 National Western Rodeo in Denver, and a record price was paid for a reserve champion steer at the stock show.

The Denver Hilton Hotel bought the 1,216-pound reserve grand champion Angus owned by Kenneth Eitel of Green Castle, Mo., for \$3,100 per pound, or \$3,789.60.

The price record, set last year, was \$3 per pound.

The National Western's grand champion steer was sold to the Brown Palace Hotel of Denver for \$3.75 a pound. The 1,050-pound hereford bred by Bill and Alice Brown of Kremmling, brought \$6,937.50.

The steer, Nobby, was the first Hereford to win the top honor since 1960. It brought 30 cents a pound less than that for last year's grand champion.

Wednesday afternoon's rodeo results:

Bareback riding: 1. John Hawkins, Twain Hatte, Calif., 63. 2. Guy Weeks, Abilene, Tex., 56.

Steer wrestling: 1. Bill Linderman, Denver, 6.1. 2. Bob A. Robinson, Tuttle, Idaho, 6.8.

Calf roping: 1. Bud Curwin, Arampco, Calif., 12.3. Sunny Worrel, Altosna, Kan., and Mill Simon, Limon, Colo., 15.0.

Girl's barrel racing: 1. Fay Ann Horton, Kligore, Tex., 18.2. 2. Alene Gaynor, Colorado Springs, Colo., 16.3.

Saddle bronc riding: 1. Clyde Frost, LaPoint, Utah, 55. 2. Bob Robinson, Tuttle, Idaho, 52.

Bill riding: 1. Vern Chipman, Pleasant Grove, Utah, 57. 2. Del Hathawa, Robey, Texas, 51.

CHEVY-VAN!

Chevrolet's new low-cost quality delivery truck!

This introduces you to Chevy-Van—our new economy delivery truck.

It has a low price tag, over 40 sq. ft. of completely usable flat floor 7½ ft. long, the engine up front, and a lot of quality features which make it a better buy. The body and frame-floor are welded together. The truck is strong, rigid, stable. Doors are double-wall construction.

Chevy-Van has unusual resistance to rust and corrosion. Especially vulnerable areas such as front stepwells are galvanized. Sealers are used at all critical joints inside and out. Certain sections are treated with high-zinc-content primers; others with an aluminum-wax preservative.

The windshield is a big flat practical one-piece unit. The big 90-hp 4-cylinder standard engine is more powerful than some 6s, yet is remarkably economical. If you need more power, Chevy-Van offers a 120-hp 6-cylinder at extra cost. Side doors and rear windows also cost extra.

Last but not least, it's a Chevrolet. Which means that it is built to work for you a long time at minimum cost.

Telephone your Chevrolet dealer about Chevy-Van or any type of truck!
