Five Die; Aid Lands In Cyprus

NICOSIA, Cyprus (UPI) — British troop reinforcements arrived in Cyprus today "to protect British families and bases on the island" following a New Year's Day of violence in which five Cypriots were killed.

An artillery regiment landed by air during the night and 700 paratroopers prepared to leave England at midnight today for duty in Cyprus, where fighting has flared between Greek and Turkish Cypriots since Dec. 21.

There were unconfirmed reports in Athens that Turkey and Greece were alerting their armed forces for possible action on the island.

Diplomatic talks continued over President Makarios' announced intention of ending Cyprus' threats with Britain, Turkey and Greece, the three guarantors of its independence.

Three Greek Orthodox monks were killed Wednesday by men identified by survivors as Turkish Cypriots. Another Greek and a Turk were killed in an exchange of shots near the west coast town of Paphos, police said.

Informed sources in Athens said the Greek government had received reports of Turkish military movements and feared the Turks might invade Cyprus, which is less than 50 miles off Turkey's shores.

The sources said Greece put its armed forces in a state of immediate readiness and was prepared to launch a counter-invasion if Turkey attacked.

Turkey, Greece, and Britain, all members of the North Atlantic Treaty Organization (NATO), were the co-sponsors of the 1960 agreement giving Cyprus independence within the British commonwealth.

In the past 12 days, that agreement has come unstuck in a dispute over the minority guarantees to the Turkish population, which makes up about 20 per cent of the total on the island.

More than 200 persons have been killed in the Greek-Turk fighting.

The latest incident brought tensions to high pitch again and observers here feared large-scale fighting could result.

Four Turks shot and killed three monks to death in a monastery 25 miles south of Nicosia. One of the dead was a 14-year old novice. The cause of the quarrel appeared to be the killing of the Turks' goats by dogs owned by the monks.

SHOT IN HEEL

OMAHA, Neb. (UPI) — Ezell Henderson was nursing a sore heel today — and all because he wanted to really whoop it up on New Year's Eve.

Henderson, 25, dashed from his home at the stroke of midnight waving a .22 caliber revolver. The gun fell from his hands, hit the porch steps and discharged a bullet which struck his heel.

Depressed Berlin Man Takes Own Life After Visit to East

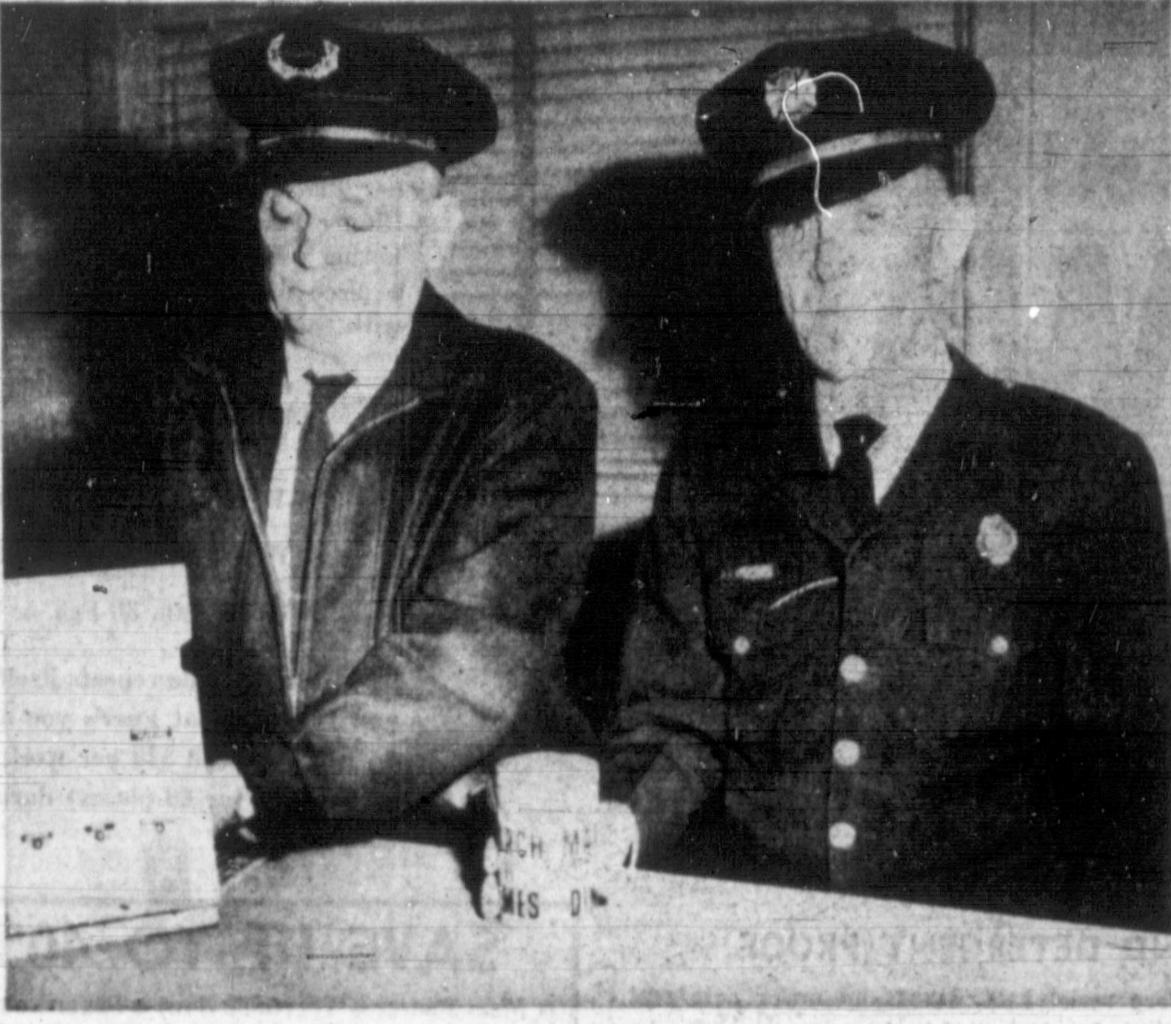

BERLIN (UPI) — A young West Berliner, apparently depressed by having to leave his relatives in East Berlin, committed suicide on his return trip to the Western sector, West Berlin police said today.

Police said the youth threw himself in front of a train at the Friedrichstrasse elevated railway station Wednesday. This is the border station where Communist police check Berliners who cross the border by train.

It was believed the youth killed himself in a fit of despair at parting with loved ones in the Communist zone of Berlin.

He was one of about 100,000 West Berliners who entered East Berlin with a Christmas bass Wednesday, but he was not otherwise identified.

In another incident, Western border officials at Bad Hersfeld

MARCH OF DIMES BANKS — Fire Chief J. E. Winborne left and Fireman J. V. Pirke are shown on the annual job firemen undertake in placing March of Dimes Banks in locations throughout Pampa. The placement of the banks started this morning. (Daily News Photo)

Opposition Sought on Payroll Deduction Plan for Charities

Members of the board of directors of the Pampa-Lefors United Fund today were studying a request asking them to oppose a plan by the federal government to establish a solicitation and payroll deduction system for meeting Community Fund quotas.

The protest comes from the United Community Funds and Councils of America following announcement of a proposal by the chairman of the U. S. Civil Service Commission for the new type of welfare fund-raising among federal employees.

Plans already have been made to carry on "demonstrations" in eight local United Fund and Community Chest campaign areas in the fall of this year.

Copies of the proposed federal government campaign plan have been received by Herschel V. Wilks, president of the Pampa-Lefors United Fund, and J. C. Wilks has in turn sent copies to all 13 local board members.

Also sent to the local board is a copy of a resolution from the United Community Funds and Councils of America. The resolution registers an official protest to the federal payroll deduction plan and asks local United Fund and Community Chest boards to take action to urge the federal government to call off its plan and to refuse to participate locally if the plan finally is adopted.

Wilks, who made no comment in calling the matter to the attention of local board members, said it probably would be discussed at a meeting of the Pampa-Lefors United Fund board within the next week or so.

George Newberry, chairman of the nominating committee for new officers and directors of the local fund, said today he was

planning to hold a meeting of the committee next Monday.

Newberry said he had not had a chance to study the government plan. Other members of the board received their copies of the plan in today's mail.

The national Community Fund organization declares in its resolution that the plan is unsound because "it arbitrarily takes from the local community the right of self-determination as to which agencies may solicit and what campaign plan will be used."

The statement added that it also would set up a new avenue of government control over local authorities.

Liquor Violations Top Crime Report for City

Liquor violations headed the list of major crimes in a survey of the first 11 months of 1963, prepared today by Pampa police investigators.

With December's report in the final stages, Police Chief Jim Conner said that a total of 369 intoxication cases were handled in the city from Jan. 1 to Dec. 1 of 1963.

This was one over half the total number of arrests, other than traffic violations, handled by city officers, Conner said.

He said possession by minors and driving while intoxicated arrests were high. He reported 78 minors had been arrested in 1963, excluding December, on liquor violation; not counting one for purchasing liquor. Nine consuming cases were also filed during the year.

A total of 55 DWI arrests were logged by city officers. Disturbing the peace and affray cases totaled 66 while miscellaneous cases totaled 70 for the year.

Records showed 28 burglaries, 26 theft cases, including theft under \$50 and under \$5, both of which are misdemeanors.

Conner was proudest of the fact that the city police worked only one murder case and one suicide during the year. The slaying occurred in June and the suicide in April, he said.

A total of eight assault cases were reported and there were no sex crimes logged during the year. There were four arms charges and one contributing charge filed.

Conner said of the 739 cases

"The decisions would be made in Washington," the statement says. "By outside federal administrative ruling a plan is introduced that is incompatible with the painstakingly developed traditions of most committees."

Newberry said today terms of five board members expire this month and will have to be filled by the nominating committee. These include President Wilks, J. C. Roberts, first vice president; John Gikas, second vice president; Mrs. Mack Harmon, secretary; and member Vernon Watkins. Floyd Imel will con-

Fidel Starts Sixth Year With Parade

MIAMI (UPI) — Premier Fidel Castro starts his sixth year in power today with a speech and a "gigantic" parade, probably featuring his regime's made-in-Moscow military might.

The 37-year-old premier marks each anniversary of his seizure of power in January, 1959, with a Soviet-style parade through Havana's "Revolution Square."

Castro, apparently confident he cannot be overthrown as long as he has solid Russian support, faces a possible new diplomatic challenge later this month.

A five-nation investigating committee is expected to make public the results of its probe of charges that the Castroites smuggled 3 tons of arms into Venezuela for use by Communist terrorists.

Latin American diplomatic quarters say substantiation of the charges could lead to limited hemisphere sanctions against Castro. Five Latin nations still maintain relations with his revolutionary regime.

Top Communist leaders reaffirmed Russia's pledges to aid Castro against "U. S. imperialism" in year-end statements from the Kremlin.

The government is mobilizing "hundreds of thousands" of officially-controlled Cuban workers in revolution square for the parade which starts about 10 a.m. EST.

Castro is expected to deliver what the Communists in China describe as a "major policy speech" about 1 p.m. EST.

Jobless, Tax Cut Top LBJ Worries

Gray Jury Will Hear 15 Cases

A total of 15 felony cases will be presented to the final meeting of the fall Gray County grand jury Friday, the district attorney's office said today.

District Attorney Bill Waters said jurors would hear information on three burglary cases, three forgery and passing complaints, one theft over \$50 charge and eight driving while intoxicated, second offense, complaints.

Following the hearings, the present grand jury will be dismissed, Waters said.

Another grand jury will be impaneled Monday. Waters reported, and another series of cases may be brought before the new jury.

A list of prospective grand jurors for the new term was released today by the District Court clerk's office.

Asked to appear for service on the grand jury are: Ray Chastain, Lefors; Sam A. Haynes, McLean; Robert Sailor, Route 4, Pampa; John Spearman, Route 2, Pampa; Vincent Edwards, Lefors; Don Alexander, McLean; Glen W. Courtney, 1170 Sierra; Homer L. Craig, 2143 N. Faulkner; Mrs. Paul Appleton, 1319 E. Francis; Mrs. J. D. Bearden, 2300 Aspen; Fred Tinsley, 1916 Evergreen; Curt B. Beck, 821 N. Gray; Mrs. Paul Carmichael, 1122 Charles; William L. Ellis, 921 N. Somerville; John Lee Bell, 2111 Charles; and W. E. Gething, 2217 Williston.

The 12-man grand jury will be selected from the 16 persons called.

Slaying Count Filed in Death Of Policeman

AMARILLO, Tex. (UPI) — Martinez Arrendondo, 23, today faced murder charges in Wednesday's slaying of patrolman Jerry Cawthon.

Witnesses said Arrendondo jammed Cawthon's own pistol down the patrolman's throat and shot him.

They said Cawthon had stopped Arrendondo and another man for running a red light, and the scuffle which led to the shooting followed.

Police said Cawthon's gun had been wiped clean and placed in his left hand. A paraffin test showed Arrendondo had fired a gun, police said.

Cawthon was the father of three.

Two nurses who work in an osteopathic hospital across the street from the shooting said they saw Cawthon running and moments later heard a shot. They ran out of the hospital and found the patrolman slumped in a corner of a porch of a nearby house.

Police found the police dog which normally works with Cawthon locked up in Cawthon's patrol car.

First Candidates File for Office

The Gray County political pot started to simmer today with the filing of the first two candidates for the May 2 primary.

Joe K. Clarke of Lefors and J. M. McCracken of Groom signed requests with Robert Baker, secretary of the Gray County Democratic executive committee, for their names to be placed on the ballot.

Clarke seeks re-election to a second term as commissioner of Precinct 1 and McCracken is running for a fourth term representing Precinct 3. Candidates have until Feb. 3 to file for the primary. Run-off voting will be June 6 and the general election is Nov. 3.

'Must' Label Also Given Rights Issue

By MERRIMAN SMITH
JOHNSON CITY, Tex. (UPI) — President Johnson headed into 1964 today deeply concerned about chronic unemployment and convinced that the \$11 billion tax reduction bill before Congress was a "must" for the economic vitality of the nation.

The Chief Executive applies the same "must" label to the pending civil rights bill. He also wants the medicare program for the aged enacted by the Congress which resumes its deliberations Jan. 7.

In the international field, the President plans an "unrelenting peace offensive" in the new year to improve relations with Soviet Russia. According to associates, Johnson says the United States cannot "drag its feet a year until after the election" before pressing the peace offensive and exploring the peaceable promises held out in a year-end exchange of messages with Soviet Premier Nikita S. Khrushchev.

Fire Razes Nursing Home, Killing Three

COLUMBIA, Miss. (UPI) — Fire destroyed a nursing home for elderly men early today and trapped and killed three of the aged occupants in the old one-story frame building.

Authorities said three bodies were found in the charred remains of the building that housed 17 or 18 men.

The occupants who escaped were either rescued by firemen or stumbled blindly out of the building and into the freezing weather.

Fire Chief Allen Dobson said the fire broke out at about 5:45 a.m. He said he believed the fire may have been caused by a faulty furnace.

The temperature was in the low 20's when the fire began. A hard layer of frozen snow about seven inches deep covered the ground following a violent winter storm that moved across southeast Mississippi New Year's Eve.

Marlin Fortenberry, a witness to the fire shortly after it started, said he went to the scene and found "old men standing outside in the snow without shoes and partially clothed. None of them was fully dressed. Smoke was everywhere," he said.

Clyde Bourne, owner of a local feed mill, said the building housing the nursing home was built in 1940. He said it had been used as a nursing home for the last five or six years. The building was a total loss.

A Negro woman who lived near the nursing home took in several of the elderly patients from the freezing cold.

The fire was reported under control by 7:15 a.m.

The building was located on South Main Street near the City Jail in this southeast Mississippi town of about 7,000 persons.

Advance Party for Pilgrimage Leave Vatican Before Pope

VATICAN CITY (UPI) — An advance party of Vatican officials, prelates and newsmen headed for Amman, Jordan, today to prepare for Pope Paul's historic pilgrimage to the Holy Land.

The Pope leaves Saturday on a three-day trip to Jordan and Israel to pray "most humbly and briefly" on the land where Christ walked. He will be the first Roman Catholic pontiff in history to make such a pilgrimage.

The 66-year-old pontiff's pilgrimage will be doubly historic because it will provide the occasion for a meeting in Jerusalem with Patriarch Athenagoras I of Constantinople (Istanbul), leader of the Eastern Orthodox Church which split with Rome more than 900 years ago.

They are scheduled to meet Sunday at the residence of the apostolic delegate on the Mount of Olives and Monday at the Orthodox patriarchate.

There has been no such meeting since Patriarch Joseph of Constantinople came to Italy in 1438 to see Pope Eugene IV in an unsuccessful attempt to end the split.

The papal trip posed innumerable problems of physical arrangements, protocol, security, diplomacy and press coverage. Every department in the Vatican faced unprecedented tasks associated with the trip.

Reports from the Israeli sector of Jerusalem said the most intense security measures in Israel's history are under way for the Pope's two-hour Sunday visit to Nazareth, the ancient settlement where Jesus

Traffic Accidents Take Lives of 180 Over New Years

By United Press International
New Year's traffic accidents claimed the lives of more than 180 persons—a new record for death on the nation's highways during the 30-hour holiday and a toll in excess of the most dire prediction by the National Safety Council.

The official period started at 6 p.m. local time New Year's Eve and ended at midnight New Year's Day. Americans continued to add their names to the tragic toll right down to the waning minutes.

A United Press International tabulation showed 188 traffic fatalities.

The breakdown:

Traffic	188
Fires	29
Miscellaneous	26
Total	243

California led the nation with 18 traffic deaths. Michigan had 14 and Wisconsin and New York each had 13. Pennsylvania had 10 and Illinois and Florida had 9 each.

MAID OF COTTON — Sue Meredith of Andalusia, Ala., a home economics major at Alabama College, was named 1964 Maid of Cotton in ceremonies in Memphis, Tenn. As Maid of Cotton she will tour the world for the cotton industry. One of her first official appearances was at the Dallas Cotton Bowl football game. (NEA Telephoto)

PLEASES BOTH

STONEWALL, Tex. (UPI) - The chorus from St. Mary's parochial school in Fredericksburg, Tex., had the assignment Sunday of pleasing both President Johnson and West German Chancellor Ludwig Erhard with a song.

Other Highlights

Other highlights from this authoritative report on the President's outlook and plans for 1964: -Now is the time, the Chief Executive feels, to push new break-throughs on peace. He is acutely sensitive to the fact that East and West stand on a nuclear precipice. This being so he cannot wait until after the election to mount a peace offensive. He thinks it would be "middle-headed" for the United States to fail to seek peace simply because we are afraid of being taken in by Communist tactics. He is confident the nation is fully alert to such tactics after 15 years of cold war.

AMERICAN SERVICEMEN AROUND THE WORLD

WEATHER SWITCH

LONDON (UPI)—A year ago today, Britain was suffering its worst winter storms in centuries and cold and snow records were being broken across the nation. Temperatures today were in the 50's in most British towns, outdoor cafes and tennis courts were crowded and the weatherman said the mild weather was expected to continue for several more days.

IDEA REBOUNDS

LONDON (UPI)—A British manufacturer of air refresher said today that a can of "swear-word eraser" it put out as an advertising gimmick has become a big seller. "The idea rebounded on us," the firm said, "and we have had so many requests for the cans that we have put the swear word eraser on the market at three shillings, six pence (49 cents) apiece."

PHILLIPS GETS POST

WASHINGTON (UPI)—Air Force Brig. Gen. Samuel C. Phillips has been named deputy director of the Apollo manned space program.

The National Aeronautics and Space Administration (NASA) announced Monday that Phillips, now vice commander of the Air Force Ballistic System Division, would join 200 other military officers serving in key posts with NASA.

SNOW FOR EAST

WASHINGTON (UPI)—The weather bureau predicts colder and snowier weather than usual for the eastern part of the nation in the first month of the new year.

The bureau's forecast for January says that western half of the country should have temperatures ranging from "warming to prevailing above normal levels" except in California where near normal is expected.

Oswald Widow Plans TV Thank You Note

PORT WORTH (UPI)—Mrs. Lee Harvey (Marina) Oswald, widow of President Kennedy's accused assassin, hopes to go on national television early this year and thank Americans for kindness extended to her, her lawyer said Tuesday.

Mrs. Oswald, the mother of two, does not want to answer questions, but simply will make a statement, the lawyer said.

John M. Thorne, the attorney, confirmed that the Russian-born woman will testify this month before the Warren Commission. He said she is rapidly learning English, but probably will testify in Russian through an interpreter.

Thorne also confirmed that Lee Harvey Oswald gave his wife a note the night before a sniper fired on former Maj. Gen. Edwin A. Walker.

The note outlined what the woman should do if he was arrested or dropped out of sight. Thorne said Mrs. Oswald kept the note and threatened to turn it over to police "if he ever did

such a thing again." Thorne said Oswald told his wife that Walker was "an extremist who should be killed." The former general was narrowly missed last April 10 when a rifle shot drilled into his home.

Thorne said Jim Martin, in an interview with Carl Freund of the Dallas Morning News, said that Mrs. Oswald believes her husband was mentally ill when he allegedly shot at Walker and assassinated President Kennedy.

Mrs. Oswald was watching television when President Kennedy was shot," Thorne said. "Like millions of Americans, she was shocked. She told me she never dreamed at the time that officers would arrest her husband and charge him with the assassination."

Thorne said Mrs. Oswald "knows of the evidence against her husband, but I don't know whether she is convinced in her mind that he pulled the trigger."

Police Ponder Ashes For Clue to Painting

LONDON (UPI)—A handful of ashes that may have been a stolen Goya painting worth \$392,000 was being analyzed Wednesday by Scotland Yard scientists.

Police said a preliminary examination of the ashes Tuesday night showed no trace of canvas. But the box and its contents were taken to the Forensic Science Laboratory for examination today, they said.

Police said the ashes were found in an 8 by 10-inch box in a luggage room of London's Victoria Station Tuesday. Also in the box was a note which said, "the last of the Goya."

Detectives found the box of ashes after an anonymous caller said the remains of the painting, "cut up in pieces," would be found in the luggage room. The painting of the Duke of Wellington was stolen from the National Gallery in August, 1961, and since then periodic offers have been made to return the painting for ransom. "The ashes could have been

of a burned painting," a railway police spokesman said. "They were thick and crumbly."

Police, however, believe the ashes are only a handful of rubbish from a compost heap. Scotland Yard also was investigating a possible connection between the caller who directed police to the box of ashes and another anonymous person who earlier Tuesday offered to return the painting if a "ransom" would be paid to charity and if he would be granted an amnesty. That offer was made in a 500-word letter to Exchange Telegraph Company, a London news agency.

Court to Split Blast Insurance

INDIANAPOLIS, Ind. (UPI)—Two insurance companies representing a firm which provided propane gas to the Indiana State Fairgrounds Coliseum have asked a federal district court to divide a million dollars among the victims of a Halloween blast.

The legal procedure is considered without precedent in Indiana. It may set the pattern for action by other insurance companies involved in the tragedy in which 73 persons have died.

The suit filed by Continental Casualty Company and Commercial Union Insurance Company listed the names of 363 dead and injured. However provisions were made for other names to be added if any were missed.

EULOGIZES KENNEDY
CARACAS (UPI)—President Romulo Betancourt eulogized the late John F. Kennedy Wednesday as "the first U.S. President who ever took a sincere interest in the problems of Latin America."

In a New Year's speech at the Venezuelan "White House," Betancourt said the memory of the assassinated U.S. Chief Executive "will live on in the hearts and minds of Venezuelans."

Party Ends For British Sex Figure

LONDON (UPI)—The party may be over for Marilyn (Mandy) Rice-Davies, the 19-year-old British playgirl who was one of the key figures in the Profumo sex and security scandal.

She rang out the old year with a cocktail party after months of virtual isolation following the death of Dr. Stephen Ward, who took an overdose of drugs shortly before a jury convicted him of living off the immoral earnings of Mandy and Christine Keeler.

The party was a complete flop.

Mandy invited 150 guests, including Lord Astor, Bob Hope, Douglas Fairbanks and Lord Denning, to launch a magazine called "The Mandy Report," which is her story of the Keeler-Profumo affair.

"Only the press and my publishers seem to have turned up," the long-legged blonde beauty remarked sadly Tuesday night. "Many of the others didn't even reply."

Pretzels Put Punch in Crunch

By GAYNOR MADDOX
Newspaper Enterprise Assn.
Everyone likes pretzels. But did you ever use them with apples, now so plentiful, in a baked apple crunch? Try it. It's fun.

BAKED APPLE CRUNCH
(Serves 6 or more)
1½ pound cooking apples
1½ c. light brown sugar
½ t. cinnamon or nutmeg
1 t. grated lemon or orange rind
2 c. coarsely crushed pretzels (about 3 dozen twisted regular or thin pretzels)
½ c. melted unsalted butter or margarine

Wash, peel, core and slice apples to measure six cups. Place in large shallow casserole (1½ to 2 quarts). Blend 1 cup sugar with cinnamon and grated rind; sprinkle over apples. Combine pretzel crumbs with remaining ½ cup sugar and melted butter; blend well. Sprinkle evenly on top of apples. Bake in moderate (375 degrees) oven for about 45 minutes or until apples are tender. Serve either hot or well chilled, with or without cream or milk in separate dish. The "salty balls" are a treat.

We used an old recipe from friends in Pottsville, Pa., and adapted it to pretzels instead of salt-tasty-chocolate candy. Pretty good, we think.

SALTY BALLS
(About 10 balls)

Place 3 dozen twisted thin pretzels between waxed paper or in plastic bag; crush with rolling pin into coarse crumbs, the size of finely chopped nuts. Meanwhile melt ½ lb. semi-sweet chocolate and 2 tablespoons butter over hot water; add 2 tablespoons honey and blend. Add pretzel crumbs and mix well. Cool slightly. Using two metal teaspoons (dipped in cold water) form mixture into balls; drop piece by piece on waxed paper; cool until firm.

For a tasty treat, dip drained canned apricot halves or peach slices in well beaten egg, roll in sifted dried bread crumbs, then saute in hot fat in skillet. Serve piping hot.

LIVELY FLAVOR and new consistency is the result of using pretzels in baked apple crunch.

Sophisticated Teen-Agers Seem to Be Turning to Coffee Recipes for Parties

By GAYNOR MADDOX
Newspaper Enterprise Assn.
Sophisticated teen-agers seem to be turning to coffee recipes. Particularly at parties they say they enjoy coffee drinks.

This Mocha-Frosted Punch is a perfect party concoction—a combination of instant coffee,

chocolate syrup, milk and ice cream, topped up with sparkling club soda.

Just to make doubly certain all your teen-age guests have a wonderful time, serve a platter of brownies, too.

MOCHA FROSTED PUNCH
(Makes about 2½ quarts or 30 servings, 4 ounces each.)
2 cups cold water
1 cup instant coffee
1 cup chocolate syrup
1 quart milk
½ gallon vanilla ice cream, softened
2 large bottles (3 or 2½ ounces) club soda
Add cold water to coffee. Stir until dissolved. Blend in chocolate syrup, milk, and ice cream. Just before serving, stir in the club soda. If desired, additional vanilla ice cream may be floated on the punch.

BROWNIES

(About 30 Brownies)
2½ cup sifted flour
½ teaspoon double-acting baking powder
¼ teaspoon salt
2½ cup butter or other shortening
2 squares unsweetened chocolate
1 cup sugar
2 eggs, well beaten
½ cup broken walnuts
1 teaspoon vanilla
Sift together flour, baking powder, and salt. Melt shortening and chocolate over hot water. Gradually add sugar to eggs, beating thoroughly. Blend in chocolate mixture. Add flour mixture and mix well. Then add nuts and vanilla. Spread in greased 8-inch square pan. Bake in moderate oven (350 degrees F.) about 25 minutes. Cool in pan; then cut into squares or rectangles.

New Veal Recipe Holiday Switch

By GAYNOR MADDOX
Newspaper Enterprise Assn.
A switch from holiday turkey? Mabel Singer, a friend with great cooking talents, sends us this delicious recipe. The combination of veal and sour cream is more pleasing than you would imagine.

VEAL STEW WITH SOUR CREAM

(6 servings)
2 lb. boned veal shoulder, cut in 2½-inch cubes
¾ cup cooking oil
2-cup water
2 teaspoons salt
¼ teaspoon thyme
1 cup thinly sliced celery
1 cup (8 oz.) sliced bearded mushrooms
1 can (1 lb.) small whole potatoes
1 can (8 oz.) small onions
¼ cup cornstarch
¼ cup water
1 cup sour cream, optional
Paprika or chopped parsley
Brown veal in oil in large skillet or saucepan, about 10 minutes. Add water, salt and thyme; then cover lightly and simmer until meat is tender, about 1½ hours, replenishing liquid if necessary. Add celery, mushrooms including broth, potatoes and onions, drained. Bring to a boil then simmer, covered, for 10 minutes. Add cornstarch and water which have been blended together and cook, stirring constantly, until liquid thickens. Stir in sour cream which had been brought to room temperature and stirred smooth. Serve in individual casseroles or soup bowls. Sprinkle with paprika or chopped parsley.

When comparing meat prices, be sure to consider the amount of inedible parts, the weight that will be lost in cooking and the protein content of the ready-to-eat meat.

Squash, Fixed Any Way, Always Good

By GAYNOR MADDOX
Newspaper Enterprise Assn.
Did you know that the vegetable we call "squash" in America is called a "pumpkin" in Australia and in England is known as "marrow"? And do you realize that so-called "summer squash" is always eaten while immature? The rind should be tender enough to be punctured with a fingernail. Seeds should be soft and the whole fruit edible. Even though these are called summer squashes, they are on the market during the entire year. In this category come Yellow Crookneck, Yellow Straightneck and Zucchini, among others.

"Winter squashes" have a growing period almost twice as long and are always mature when harvested. Having hard shells, they are excellent keepers and are on the market in late summer and fall as well as winter. Two varieties, Acorn and Butternut, are available all year.

SPICED SQUASH PUDDING

(8 servings)
½ cup sugar
1 tablespoon flour
¼ teaspoon salt
1 teaspoon ground ginger
¼ teaspoon ground nutmeg
3 eggs
1½ cups mashed cooked butternut or Hubbard squash
1½ cups milk
2 tablespoons light, mild molasses
2 tablespoons melted butter or margarine
Whipped cream
Combine sugar, flour, salt, ginger and nutmeg. Beat in eggs. Stir in squash, milk, molasses and butter or margarine. Mix well. Pour into a buttered 1½ quart casserole. Bake in a preheated moderate oven (350 degrees F.) 1 hour and 15 minutes or until firm in the center. Serve with whipped cream.

Hearty Tea Loaf Hails from Oregon

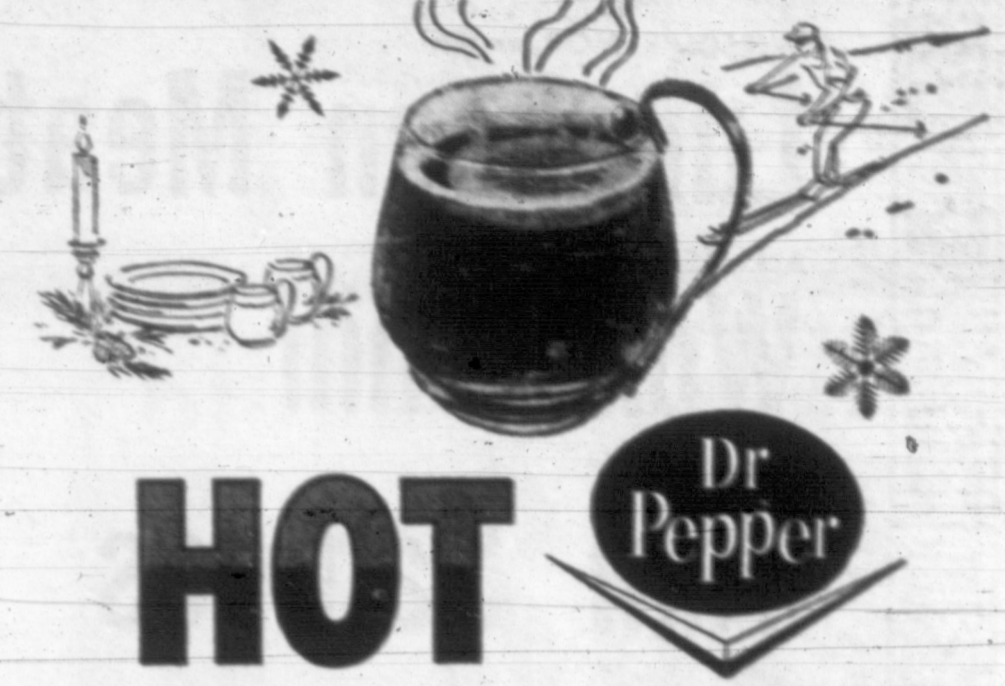

By GAYNOR MADDOX
Newspaper Enterprise Assn.
A reader asks, "what is a filbert nut?" Here's the answer and an easy recipe:
The filbert is a cousin of the hazelnut. They are larger and some say more flavorful, due in part to specialized care and the rich Oregon soil in which they grow. Filberts are rich in nutri-

ents.

OREGON FILBERT TEA LOAF
(1 loaf)
¾ c. chopped filberts
3 c. biscuit mix
¼ t. cardamom
½ c. milk
½ c. honey
1 egg, beaten
½ c. sherry wine or ½ c. milk

Grated peel of 1 lemon
Toast shelled filberts at 275 degrees for 30 minutes. Stir filberts and cardamom into biscuit mix. Mix together milk, honey, egg, wine or milk and lemon peel. Combine the two mixtures only until blended. Pour into 9 x 3-inch greased loaf pan. Bake at 350 degrees for 45 to 50 minutes. Remove from oven and let stand on cool surface for 5 minutes. Turn out on rack to cool.

WINTER WARMER

HOT Dr Pepper

Clever people who enjoy something different—devilishly different and delicious—will welcome this exciting Winter Warmer... Hot Dr Pepper! Easy to prepare—simply heat Dr Pepper in a saucepan until it steams and pour into a glass or cup over a slice of lemon. Perfect for the family or when friends drop in—and take along a thermos of Hot Dr Pepper when enjoying outdoor activities. Hot Dr Pepper!

Foreign News Commentary

By PHIL NEWSOM
UPI Foreign News Analyst

In the dark hours before dawn of Jan. 1, 1959, the skies over Havana were clear and calm.

At 2:30 a.m., UPI manager for Cuba Francis McCarthy returned to his home in suburban Miramar from a New Year's Eve party. He still wore his black tie and dinner jacket when the telephone rang.

"Batista is packing," a voice said.

It was the first word that resident Fulgencio Batista, an island cut in two by the rebel forces of Fidel Castro, was preparing to flee.

McCarthy, still in dinner jacket and black tie, left for his office, where he was to remain the next 13 days. As the day flowed out of Havana on that first day, a pillaging mob moved forward. McCarthy and his office staff before the office plate glass windows on the ground floor.

"Scram, ya bums," he told his leaders. And, surprisingly enough, they did, although they reeked all other of the 21 offices in the Sevilla arcade.

Visits U.S.
Three and a half months after a victorious Castro visit to the United States.

"We are not Communists," he said in a speech in Washington. The veil of hypocrisy covering the face of the Castro regime long since has been drawn aside.

The year 1963, fifth of the Castro government, did not go so well as the United States had wished. But it was worse than Castro.

It began on a note of humiliation with the Russian withdrawal of their rockets and bombers, a move on which Nikita Khrushchev did not even bother to consult Castro.

And it closed on a further note of defeat when pro-Castro terrorists failed to prevent free elections in Venezuela, Castro's No. 1 target in his attempt to export his revolution throughout Latin America.

In between times there was one bad news for the Cuban state.

Sugar Crop Poor
Last June he was forced to limit to the Cuban people that sugar crop, backbone of the Cuban economy, would be the worst since his advent to power.

He blamed the bad harvest on drought and "our insuperable deficiencies and our lack of resources."

But the worst was yet to come.

With the Cuban trade debt to the Soviet Union already in excess of \$100 million, Hurricane Vera hit in early October, destroying up to half of Cuba's sugar and coffee crops seriously damaging the cotton, cocoa and rice crops.

And as the regime pressed "voluntary" rationing of food, led reluctant workers and their regimented Cuban spies, rebels against his rule fought him from the same side that once sheltered him, Cuban exiles struck in hit-and-run raids from the sea.

Courts Red Chinese
Castro squirmed under Khrushchev's rocket slight and his knowledge of his total dependence upon the Soviet Union for economic aid. Politically, he moved closer to the Red Chinese and opened diplomatic relations with Albania, Russia's erstwhile enemy among the satellites.

But as 1964 dawned, Castro must face unpleasant reality.

His dependence upon the Soviet Union has increased rather than declined.

And there are signs the Russians are lifting both of him of their burden.

New Year Know
United Press International among the more famous rumormongers smugglers of the period were such names as John Hancock and Samuel Adams, according to the United Beverage Industries.

COAL YEAR
WASHINGTON (UPI) — The U.S. Department reports 1963 was the best year for coal production since 1958. It said soft coal output increased from 422 million tons to 432 million tons in 1963.

SPACE AGE "COVERED WAGON"—Covering on this barge approaching Cape Kennedy, Fla., recalls the canvas hoods of the pioneers' Conestoga wagons. In this vehicle for pioneers of the space age, however, is the S-1 first-stage booster for the Saturn, mightiest of Uncle Sam's rockets.

Texas Barbecues Not as Rugged As Appear but Johnson's Fine

By MERRIMAN SMITH, UPI White House Reporter, JOHNSON CITY, Tex. (UPI)—Backstairs at the Texas White House:

Some of the rootin' tootin' Texas barbecues are not quite as rugged as they appear.

Take the barbecue given last Sunday by President Johnson at Stonewall, Tex., for West German Chancellor Ludwig Erhard.

The big slabs of beef which dripped so succulently over charcoal fires outside the school gymnasium where the party was held actually were pre-cooked at a commercial plant which specializes in this sort of thing.

The barbecue cooks, colorful in their levis, checked shirts, broad-brimmed hats and boots, said the meat was "about 65 per cent cooked at the plant" and then quick-frozen. On the morning of the barbecue, the meat was trucked to the site of the party and placed over the charcoal.

By the time we get the meat warmed-up, the other 35 per cent of the cooking is done," a cook said. There was nothing pre-cooked or frozen, however, about the

big spareribs barbecued on the Johnson Ranch for about 200 guests last week. The LBJ Ranch spareribs were cooked over wood fires and the slow process took from early morning until almost four o'clock in the afternoon.

The brand on the President's cattle is JO. In addition, his registered Herefords carry serial numbers tattooed in their ears, as well as on their horns. When Johnson first set up his herd, he wanted—(bar-jay-bar) as his brand. It turned out, however, that this brand had been registered years before by another cattleman. Whereupon Johnson borrowed the JO brand from an uncle.

Seldom has a president had such words of praise for associates as those employed by Johnson at last Sunday's barbecue when he pulled out all stops in talking about Secretary of State Dean Rusk and White House Press Secretary, Pierre Salinger.

Of Rusk, the President said: "Keen, analytical, patient, kind, courteous and courageous—one of the greatest men of our time—my strong right arm."

And he applied this accolade to Salinger: "One of the most trusted, able and loyal people working for the government. I don't know what I would have done without him, day and night, for the last month."

Fifteen business firms will also donate their coffee money during the day, Terry said.

Included in the day's activities will be a March of Dimes Dance in the American Legion Hall Saturday night.

Mrs. Creed Lamb, president of McLean P.T.A., announced that the MOD "Mothers' March" will be held between 6 and 8 p.m. on Wednesday, January 8th.

Among buildings planned or under construction are the 17-story Otani Hotel and a 24-story office structure for the Tokyo city government.

Nikita Offers Ghana Students Trip Home

MOSCOW (UPI)—Premier Nikita S. Khrushchev offered Ghana students exit visas to leave the country if they do not like their treatment here.

Toasting the newly emergent African nations at a gala New Year's Kremlin party, Khrushchev referred to the African demonstration in Red Square Dec. 18 protesting alleged mistreatment in the Soviet Union and the sudden death of Ghana student Edmond Asare-Addo.

Another sensation at the reception was the reappearance of deposed Soviet Premier Nikolai Bulganin, who has not been seen in public since 1961. Bulganin chatted with Khrushchev and Mrs. Khrushchev for nearly an hour, while Mrs. Bulganin talked with Soviet President Leonid Brezhnev.

Referring to the Africans' Red Square protest, Khrushchev criticized the foreign press for exaggerating the incident. He said sternly, "If they (the students) want to stand on their heads and shake their legs in the air at home, they may do so if their government allows. But we will not permit it."

He continued, "our people do not distinguish between you and I, but only between classes. If you are a black worker you are my brother."

Rockefeller Planning Appeal on Marriage

WASHINGTON (UPI)—The Washington Post said Wednesday that Gov. Nelson A. Rockefeller of New York intends to make a nationwide radio television speech later this month to ask for "tolerance and understanding" toward his divorce and re-marriage.

The newspaper described the planned speech as an impassioned "Edward VIII" appeal on behalf of the "woman I love" by Rockefeller, only announced candidate for the Republican presidential nomination.

The Post, in a story signed by Maxine Cheshire, quoted sources close to Rockefeller as saying the governor had decided he had "nothing to lose and everything to gain" by taking his case directly to the public.

Local Student Due PhD at Texas A&M COLLEGE STATION (SOL)—Robert E. Carlile of 2408 Rosewood, Pampa, is among the 557 Texas A&M University students who have applied for degrees to be conferred at the Jan. 18 Commencement.

President John A. Hunter of Louisiana State University will be the commencement speaker. A&M President Earl Rudder has announced.

The degree candidate listing released by H. L. Heaton, Texas A&M registrar, shows 46 candidates for doctorates, 101 for the master's, 1 applicant for the professional degree, 55 for the doctor of veterinary medicine degree, and 346 for the bachelor's degree.

Carlile seeks the doctor of philosophy degree in petroleum engineering.

and "letting them decide whether he ought to be denied the right to serve his country."

According to the Post, Rockefeller was reported to hope that the majority of men and women would be "broadminded enough to reserve their judgment and treat him no differently than they would a friend or neighbor under the same circumstances."

The Post story added: "His advisers have been divided all along on whether to bring the matter out into the open. He has been persuaded finally that he cannot cope with the situation as long as it is only something whispered behind his back. By facing the issue forcefully and matter-of-factly he has decided he yet may rally sympathetic support."

The newspaper said that Rockefeller's plan was reoriented to have the blessing of his first wife, Mary Todhunter Rockefeller. The first Mrs. Rockefeller is said to still be on very friendly terms with her former husband, the Post said.

The story said that the former Mrs. Rockefeller had given her approval for the governor to say "anything within the bounds of good taste" that would convey an honest evaluation of their parting and the years that preceded it.

The Post said that negotiations reportedly were underway for all three major networks to carry the Rockefeller broadcast, which would be one of a series of five interviews.

The Rockefeller's announced Tuesday that they are expecting the birth of a child in June. Rockefeller had five children by his first wife.

Wall Street In Review

NEW YORK (UPI)—Shearson, Hammill & Co. says the most likely course for stock prices in general will be upward, but in a range that will seem quite narrow by historic standards.

The firm feels that with such an outlook, investors may have to lower their sights and settle for smaller percentage gains than they have seen in past bull markets.

L. O. Hooper of W. E. Hutton & Co. feels it is dangerous to draw too many conclusions about the underlying trend of the market in the closing days of the year, since there are too many cross-currents caused by tax inspired transactions.

Spear & Staff Inc. says that a broad move carrying virtually all stocks with it is highly unlikely. The firm says the most important factor for investors to remember is that the market will by very mixed and safety and capital gains during 1964 will be attained mainly by unusually astute individual stock selection.

Oppenheimer, Newberg & Neu continues to believe that the market still has considerable upside scope.

Bache & Co. says that since the market leaders have successfully withstood the Dec. 26 tax selling deadline for 1963, the closing of the year should spell an end to the selling pressure evident in many depressed issues.

Hunt on for Sweetheart

MANOR, Tex. (UPI)—Two fugitives Wednesday disarmed the city marshal and fired three shots at him. A manhunt was launched.

Marshal Curtis B. Haygood said he was attacked early today while trying to arrest a man known as Sweetheart Hunter on suspicion of burglary and theft. Two women and a man identified as LeRoy Young assaulted the officer and his deputy.

Haygood said Young knocked his pistol to the ground. The assailant grabbed the weapon and fired at the two officers while they ran toward their car. The two men ran from the scene after the shooting but officers arrested the women.

Five Texas Rangers and four Travis County deputies sheriff aided the local officers in the manhunt.

'Bucket Brigade' Set at McLean

McLEAN (Spi) — The 1964 March of Dimes in McLean goes into full swing Saturday when the "Bucket Brigade" will be conducted at street intersections throughout the city.

The Lions Club will be in charge of the "Brigade", assisted by the Boy Scouts, according to city drive chairman George W. Terry.

Fifteen business firms will also donate their coffee money during the day, Terry said.

Included in the day's activities will be a March of Dimes Dance in the American Legion Hall Saturday night.

Mrs. Creed Lamb, president of McLean P.T.A., announced that the MOD "Mothers' March" will be held between 6 and 8 p.m. on Wednesday, January 8th.

TO BUILD SKYSCRAPERS

TOKYO (UPI)—Plans for the construction of several "skyscrapers" in this earthquake-prone city were announced today. The tallest will be only 24 stories, but this will be higher than any previous building in Japan.

Among buildings planned or under construction are the 17-story Otani Hotel and a 24-story office structure for the Tokyo city government.

Dear Abby....

Those We Can't Educate We Can Pray For

By ABIGAIL VAN BUREN

DEAR ABBY: I know there isn't one chance in a million of getting this in the paper, but I am going to write it anyway. I am eleven years old and I feel terrible. I live in Dallas and I want the whole world to know that not everybody in Texas is like the man who shot our wonderful President. It isn't fair that Texas should get a bad name because of one crazy mixed-up killer. Both Abraham Lincoln and James Garfield were assassinated in Washington, D. C. and nobody held it against that city. McKinley was shot in Buffalo and they didn't blame everybody in the State of New York. Please print this, Abby, because it will mean a lot to so many good people.

DAVID IN DALLAS
DEAR DAVID: I'll print your letter, but intelligent people all over the world already know that what you say is true. The ignorant we can only hope to educate. Those we can't educate we can pray for.

DEAR ABBY: What do you think of a lady who asks her dates to pay her baby sitter and she tells the dates that her sitter charges 75 cents an hour, but the sitter charges only 50 cents an hour, and the lady keeps the extra 25 cents herself?

THE BABY SITTER
DEAR SITTER: Not much!
DEAR ABBY: I recently attended a large church wedding and I saw something I had never seen before. When the bride came down the aisle, everybody in the church stood up and faced her! Now, I have attended many weddings in my lifetime, but I have never seen anything like this. Is this a new style, or did everybody stand up to get a good look at the bride because a few started it?

BAFFLED
DEAR BAFFLED: There are so many variations on wedding ceremonies and all are correct.

rect") that one does not dare to say that there is only one proper procedure. I personally have attended only one wedding where all the guests rose and faced the bride when she appeared.

CONFIDENTIAL TO "B. B." IN SALT LAKE CITY: Sometimes the easiest way to get around something is by going through it!

Get it off your chest. For a personal, unpublished reply, write to Abby, Box 3365, Beverly Hills, Calif. Enclose a stamped, self-addressed envelope.

Hate to write letters? Send one dollar to Abby, Box 3365, Beverly Hills, Calif., for Abby's new booklet, "How To Write Letters For All Occasions."

Soviet Nurses Play Role Similar to U.S.

NEW YORK (UPI) — "Medical sisters," Russian counterparts of the American registered nurse, have educational preparation and general working conditions similar to nurses in the United States, reports Rose Ernsberger in "Nursing Outlook," journal of the National League for Nursing.

The systems differ in one major regard. In Russia students enter nursing schools after eight-year primary school and complete nurse training as part of their secondary education. American nurses begin professional training only after high school.

To cut down on serving time, form ice cream into balls with a scoop ahead of time and roll in chopped nuts, coconut or cereal. Wrap securely in freezer wrap and keep frozen until ready to pop into serving dishes.

Pre-travel precautions make a winter vacation more enjoyable. Beauty and health aids such as moisturizing suntan lotion, first aid creams for cuts and burns and aspirin for aches and pains are only a few to pack for a trip. The models (left) know value of soothing eyedrops (top) and first aid cream (bottom) as companions in sunny climates. These also are good for winter sportsmen such as French comedienne Mireille Granelli (right) who tries her skiing luck at the French Alpine resort of Megeve.

Play Safe With Beauty

By ALICIA HART
Beauty Editor
Newspaper Enterprise Assn.
The family hearth is spending more time without a blaze these days as the number of winter vacations increases.

An estimated 17 million annually scoot off to other climes from December to March. Split vacations — summer and winter — also are on the upswing. According to the American Society of Travel Agents, the sun states lead in popularity with Florida and California out front.

While fun-in-the-sun enthusiasts head for palm trees and sandy beaches, some 2½ million

skiers head hopefully for snow-covered slopes.

Although these vacation spots may seem poles apart, there are some beauty travel tips that fit both snowbunnies and the bikini set.

Sunglasses go whether it's Aspen, Antigua or along the fast-developing Texas - Louisiana Gulf Coast. The sun glinting off the sea is just as blinding as snow glare. It is suggested that you carry an extra pair if you wear prescription lenses.

Also take along eyedrops in a handy squeeze bottle to wash out foreign particles and soothe the eyes.

A good moisturizing suntan lotion and lip balm are true companions for the swim-and-snoorkeling vacationers and the winter sports enthusiasts.

With all your activity, fatigue is going to hit at times. After-ski aches and pains, headaches from a long day in the biting cold or hot sun. Aspirin is the answer here. Also, tuck in a vial of bath oil. Taking these items with you helps save money since resort prices are always slightly higher than at home.

Another pre-travel tip: give your hair a body permanent and you will spend less time with pin curls and rollers after a day of play.

Business Brisk The Whole Year

By KAY SHERWOOD
Newspaper Enterprise Assn.
Our daughters may be marrying earlier than we did but enthusiasm for the large wedding with all the trappings seems undiminished. And, in our little town at any rate, parents do a brisk business all the year now, not just in June.

Recently, from invitations received, I noted a compromise between the small, private wedding and the big productions. That is, the church or religious service at home or in a church is limited to the family. The reception, however, is a lively affair with guest lists of 100-200 not uncommon. The clubhouse where many of these receptions are held is booked months in advance.

Cautious inquiry about whether or not a gift is required if the invitation is for the reception only was answered by a firm "yes" from some experts and an "advisable but not essential" from others. Direct questioning of some brides I know well backed up the "yes" stand. In fact, I think they thought I was a little kooky to be asking.

At the same time, having visited newly marrieds in their wee off-campus apartments and city flats, I can't imagine where they expect to put 100 to 200 separate gifts. In some cases they are left in mom's attic (if they're lucky enough to have a mom with an attic in the old family manse). Because their life for the next several years is apt to be lived in many towns and a variety of small apartments, it may be a while before they are reunited with all that lovely loot.

Dinner Honors Grayco Employees

LEFORS (Sp) — Northern Natural Grayco employees and their families were honored with a dinner recently in the Lefors Schools cafeteria. Clifford Hill acted as master of ceremonies and introduced the speaker, J. L. Mills, plant superintendent, who gave a brief discussion on new company insurance.

A group, including Bob Clemmons, Ray Dickerson, Walter Kingham, Clifford Hill and Joe Archer, were recognized. They will be transferred in the near future.

There Is Iron-y In Being Female

By GAYNOR MADDOX
Newspaper Enterprise Assn.
— Is it true that women need more iron in their diet than men?

A — Yes, it is definitely true. The Recommended Daily Allowances of The National Research Council show that women, no matter of what age, need more iron than men. Among foods rich in iron are: lean meat, liver, egg yolk, green leafy vegetables, enriched bread and cereals.

There Is Iron-y In Being Female

Q — My neighbor says I should use only home-ground wholewheat flour because it is very much richer in food value. I hope she is wrong because I'm too busy to grind it myself.

A — Good news—your neighbor is wrong. Thorough studies show that commercially ground wholewheat flour has the same food value as home-ground wholewheat flour. When you pass along this news to your neighbor, ask her if she grinds her own coffee every morning. It is more healthful than dishing up the goodies in chipped mugs and discolored mismatched flatware.

For every Pampa News family!

FOUR DAYS:
The Historical Record of President Kennedy's Death
The AMERICAN HERITAGE — UPI Book For Pampa News Readers

Four painful days... from Dallas to Arlington National Cemetery... captured in United Press International news coverage and pictures — and now made available by the Pampa News. You relive the full unforgettable, unbelievable story from the first shot, to the race to the Dallas hospital, to the arrest of the alleged assassin, to his own televised death, to a nation and a world mourning, to a government suddenly under the new leadership. It's a grievous chapter in American history, put between hard covers by UPI in collaboration with American Heritage Publishing Co. Printed on coated stock, with dramatic photos in color and black-and-white, with a preface by noted historian Bruce Catton.

The supply is limited.

Sporting Sidelines

by JEFF COHANE

A SOMEWHAT SUNBURNED Ol' Swami returned yesterday from the wilds of the Gulf Coast with the scoffers somewhat convinced, we hope, as fishing picked up considerably before our exit, paying off to the tune of a six-pound speckled trout.

Two days after a fishless debut in the water, fishing buddies Bobby Weisman and Rich Wolf called to report that large trout were being caught within sight of my parents' home. With no further ado, we set sail the next day, in perfect 70-degree fishing weather.

Rich started the action off with a nice three-pounder on a red-and-gold Mirrolure, and shortly afterwards, the Ol' Swami tied into a monster which gave a 15-minute fight, and practically pulled me out of the boat. The three-foot-long speck weighed in at six pounds and made the vacation a success on the spot.

The following day we lit out for Indian Point across the bay, where reports said they were sacking them in, and for once, found the reports to be absolutely correct. Although most of the fish in question were small ones, about one to two pounds, they were biting everything

Seek Giants Fan After Grid Killing

CHICAGO (UPI)—Police searched today for a disgruntled New York Giants fan whose needling of Chicago Bear football players sparked a New Year's Day brawl that resulted in the death of former Bear Tony Parrilli.

Parrilli, 24, who played college football for Illinois, was shot to death and Bear fullback Joe Marconi was belted over the head with a revolver in the men's room scuffle at a plush suburban bowling alley partly owned by Bear end Mike Ditka.

Capt. Herbert Mertes of the Du Page County sheriff's office said Parrilli and an unidentified man started arguing in the washroom of Ditka's bowling alley in suburban Willowbrook. "As I understand it," Mertes said, "the man was a fan of the Giants and they were arguing about the Bears-Giants championship game."

The Bears defeated the Giants for the National Football League championship last Sunday, 14-10.

The shot that killed Parrilli was fired accidentally by Willowbrook Police Chief Robert Winthers, Du Page County authorities said. They said Winthers told them he belted Marconi over the head with a revolver in an attempt to break up the brawl—and the gun discharged, striking Parrilli in the left eye, killing him instantly.

Eight stitches were required to close Marconi's wound, but he was not hospitalized.

State's attorney William J. Bauer said he planned to file no charges against Winthers, and there would be no action in the case until the grand jury convenes the week of Jan. 20. Deputy Coroner James Clark indicated an inquest would have been held this week—but he delayed it after learning some of the Bears players who were called to testify planned to leave Chicago Wednesday for the pro bowl game in Los Angeles Jan. 12.

MATCH UNDER FIRE

HAGERSTOWN, Ind. (UPI)—A proposed return flyweight title bout between Hiroyuki Ebihara of Japan and Pone Kingetch of Thailand has come under fire from the World Boxing Association (WBA). Arch Hindman, WBA executive secretary, said wired boxing groups in the two countries that Kingetch, who lost the title to Ebihara on Sept. 18, would fight his way back into contention.

thrown in the water at them, lures, plugs, spoons, live and dead bait, and everyone present filled up on specks, sand trout, redfish and drum.

★ ★ ★ THE TRIP BACK was livened by a pleasant stay in my old stomping grounds of Houston and Pasadena. Don't be surprised if the most fabulous player in Texas high school football today turns out to be a member of the Cougars frosh next year, as the San Antonio All-State flash, Warren McVea, was a visitor to the U of H while I chewed the fat with head coach Bill Yeomans. Can you imagine a backfield with Kenny Hebert, Gray Benson and McVea in it? Incidentally, mentioning to the Houston coaches the terrific razing I had received from Texas Tech alumni especially on the Cougars' poor showing this past grid season, I was told "Tell Tech we'll play them anytime!"

★ ★ ★ BOB BARFIELD of Pasadena, who in my humble opinion is the finest high school coach in the country, reported that this year's state quarterfinalists were not as talented as the 1962 team, which I thought one of the finest ever produced, but that they got the breaks. Cinderella team or no, Barfield is famed for making raw teams into smooth, polished machines, and despite graduating two All-Staters and an All-American, will probably have another powerhouse next year. Couldn't happen to a nicer guy or a nicer team.

★ ★ ★ ALTHOUGH MISSING most of the college gang from the area due to our vacation, we got to see Clark Clark of McMurry before we left, with his brand-new and lovely fiancée. Heartiest congratulations to the blubber and may he continue knocking down opponents on the gridiron. Other visitors in such as Randy Matson, Donnie Ayres and Wayne Kries were nicely greeted by Glenn McCasland and Rocky Randall. Any of the visiting gang that we missed, happy new year, and we'll see ya come Easter.

★ ★ ★ BEFORE we forget, congratulations to Phil Woodring of LeFors, Bob Patton of McLean and Gray Benson of Shamrock for winning all-state honors. Although all-state teams are usually way off the mark, in this case the awards went to boys who earned them.

★ ★ ★ WE WOULD like to sincerely thank Glenn and Rocky for the fine job they did of covering sports while the Ol' Swami was basking in the Corpus sun. Glenn, newest member of the News staff, will be popping up at sports events whenever Hal Gamble, the ol' horned frog, unchains him from the news desk, while Rocky again will be fitting around and about covering basketball tournaments and the like.

★ ★ ★ CAPSULE COMMENT on the Bowl games: If Roger Staubach is All-Everything in college football this year, what does that make Duke Carlisle? After comparing the two, we get the impression that Staubach is a thrower... Carlisle is a quarterback. Will admit that on Scott Appleton's performance, maybe the Pittsburgh Steelers weren't so crazy after all.

A very red face after Alabama's win, but who would imagine that a foot could replace Joe Namath? The Rose Bowl finished up well, but was marred by the poorest showing of fumbleitis and sloppy football in the first half that we ever saw two supposedly top teams produce.

★ ★ ★ STIRLING NAMED ADVISOR OAKLAND, Calif. (UPI)—Sports writer Gordon (Scotty) Stirling of the Oakland Tribune, who has covered the Oakland Raiders of the American Football League since their inception in 1960, today was named Raiders' public relations advisor.

★ ★ ★ PASADENA, Calif. (UPI)—Rival coaches shuddered today as they thought of facing two more years of Jim Grabowski after watching the sophomore fullback pulverize the Washington Huskies in leading Illinois to a 17-7 victory in the Rose Bowl. The 19-year-old Chicago youngster was voted "player of the game" and drew the praise of both his own coach and rival Coach Jim Owens for gaining 125 yards rushing, more than the entire Washington backfield was able to pile up. "Grabowski certainly had himself an outstanding day running and deserved the 'player of the game' award," said Illinois Coach Pete Elliott. "Douglas Was Injured" Although Owens would not admit one player could make the difference between winning and losing, Washington's hopes for an upset victory were dashed when quarterback Bill Douglas suffered a dislocated knee with the game only four minutes old. Bill Siler, who missed nine games because of illness, tried valiantly to fill the gap but was rusty after only two weeks of practice. The Huskies also lost

BIG FISH STORY—Pampa News sports editor Jeff Cohane proves Gulf Coast fishing is no "fish story" as Richard Wolf helps him display three trout, including a six-pounder, caught in Corpus Christi Bay last week. (Daily News Photo)

Nebraska Win Has Bowl Officials On Defensive

MIAMI (UPI)—Big Eight officials have a straight flush to spread before the Orange Bowl Committee today in the high stakes negotiations for the football classic.

Nebraska, the school that "couldn't win a major bowl game," dealt the 13-7 winning cards over Auburn in the game that grossed about \$192,000 per team in Wednesday's 30th annual New Year's spectacle before 72,647 sun-warmed fans.

After 10 years, the Orange Bowl moguls have been thinking seriously about ending their ties with the Big Eight to furnish the conference champion

as one of the competitors. The decision whether to renew the Big Eight contract which expired Wednesday night could come in the next couple of days.

Nebraska's burly Cornhuskers stepped into the 70-degree heat as one-point underdogs to Auburn and with an 0-2 record in major bowls, including an ignominious 34-7 defeat by Duke in the 1955 Orange Bowl.

Made Record Run But on such little things as a play designed to gain only two or three yards are victories and big stakes won: Nebraska quarterback Dennis Claridge

belated a record 68 yards for a touchdown on just such a play and it threw the Auburn Tigers into fumbling ineptitude for the entire first half.

The play came on the second crack from scrimmage and Claridge "admitted at game end, "it surprised Auburn."

Soon after, halfback Frank Selich broke loose for a 22-yard punt return that set Nebraska on the track for a 31-yard field goal by Dave Theisen, who had kicked the extra point after Claridge's touchdown gallop.

A punt fumbled by halfback George Rose deep in Auburn territory set the stage for Theisen's 36-yard field goal in the second period that gave Nebraska 13-0 halftime lead.

Auburn Stormed Back Auburn, led by lean and hungry quarterback Jimmy Sidle, found itself to make the second half a different ball game. His running and passing carried the Alabamans on a 71-yard touchdown march in the third period. Sidle swept 13 yards around his left end for the score, and Woody Woodall booted the extra point.

Sidle got Auburn's Tigers going again in the final period. His passes featured a 69-yard thrust but at the Nebraska 11, the Cornhuskers rose to knock down a fourth down pass and take possession with 1:30 minutes remaining. Claridge easily managed to run up the clock for the victory that may mean more than just prestige for the Cornhuskers and the Big Eight.

JIMMY SIDLE

Illinois Fullback Only Sophomore

PASADENA, Calif. (UPI)—No. 2 fullback Mike Kuklenski with a broken leg minutes after Douglas was hurt.

If there was a turning point in the game, both coaches agreed, it came when Siler fumbled in the closing seconds of the first half and Bruce Capel recovered on the Washington 15. With two seconds remaining, the Illini got on the scoreboard on Jim Plankenhorn's 32-yard field goal to make the halftime score 7-3.

Recover Fumble Washington had scored midway in the second period after Fred Custardo fumbled and the Huskies' center John Stupey recovered on the Illini 27.

A Siler to end Joe Mancuso pass gained 18 yards and halfback Dave Kopay ran seven yards to score around end.

George Donnelly's first interception in the third period opened the door and the Illini drove 32 yards to score the go-ahead touchdown with Jim Warren racing the final two yards. Then at the start of the fourth period after Donnelly made his second interception, Grabowski led the Illini 85 yards in 17 plays and plunged over from the ones.

Washington also makes an out of state trip to tackle Western New Mexico at Silver City, N.M.

Action picks up slightly Friday night, and will turn into a flood Saturday night when the Southwest Conference begins its league race.

Champs to Head Skellytown Card Three state champions from Liberal, Kans., will be available for action at 8 p.m. Friday at Skellytown Lodge Hall.

Providing competition for the Liberal, Kans. boxers will be teams from LeFors, Amarillo and Skellytown.

Line Play Key Factor In Cotton Bowl Game

DALLAS (UPI)—The backs made the headlines, but both coaches agreed today that the other team's line was the key factor in Texas quarterback Duke Carlisle's architecture of a 28-6 victory over Navy in the 28th annual Cotton Bowl.

Texas deserted its usual ball control tactics and took to the air-lanes to lay the foundation for victory and the coach of the nation's national champion Longhorns, Darrel Royal, said, the change in strategy was forced by Navy's defense which "jammed up on us."

Navy's heralded All-America Heisman Trophy winning quarterback, jolly Roger Staubach, had a fine day statistically, but his effectiveness was humiliatingly unsuccessful because of a Texas line that, in Middle Coach Wayne Hardin's words, "simply kept coming and coming."

Carlisle was the hero of the game offensively by throwing 58 and 63-yard scoring passes to fleet wingback Phil Harris and darting nine big yards for another touchdown to boost Texas into a 21-0 lead that smothered Navy's hopes before halftime.

Work Well Offensively But, the same crew of line-

SCOTT APPLETON

men which held Navy to a minus 14 yards rushing was performing an equally magnificent chore on offense by giving him ample time to throw or work his run-pass options to a new Cotton Bowl record total offense of 267 yards.

All-America tackle Scott Appleton, who shared "outstanding" honors with Carlisle by overwhelming vote margins, led this Longhorn line stampede. But, at best, his play was just a shade better than that of such

teammates as tackle Staley Faulkner and guards George Brucks and Tommy Nobis.

Saubach, who was thrown for 53 yards in losses by this ragging front foursome, wound up with a deceptively impressive looking passing record of 21 hits in 31 tries for 228 yards—both Cotton Bowl records. Ed Orr caught nine of them for another bowl high.

Satisfaction Limited But, his moments of satisfaction were limited to one 75-yard drive in the fourth period—after Texas had a 28-0 lead—when he passed the Middies down to the two-yard line from where he ran it over.

Texas, which Hardin and his once-skeptical players admitted had convinced them it really was the nation's No. 1 team, collected its fourth touchdown after Carlisle had gone to the sidelines with 19 minutes left in the game.

It came on a two-yard surge by fullback Harold Phillip after reserve quarterback Tommy Wade had passed the Longhorns to within that range.

Unsung Tim Davis' Toe Replaces Namath's Arm

NEW ORLEANS (UPI)—You won't find his name listed on the first three teams. The only thing to set him off from the multitude of other subs is the notation "K.S."—kicking specialist—beside his name.

He is Tim-Davis of Alabama, and you can bet that Coach Johnny Vaught and his University of Mississippi team know who Davis is today.

Davis' record shattering performance in the Sugar Bowl football game Wednesday gave Alabama a 12-7 upset over Southeastern Conference champion Mississippi. His four field goals of 48, 46, 31 and 22 yards literally shook the Southern football world.

Never before had anyone kicked four, or even three, field goals in the 30-year history of the Sugar Bowl. Never before had anyone kicked a 40-yarder, much less a 46 and a 48 yarder, in the Sugar Bowl.

NFL Grabs Bowl Stars After Play

By United Press International Pro football teams moved fast to sign up stars who competed in the New Year's Day bowl games as soon as their amateur careers were over, and the National Football League's Philadelphia Eagles landed a big one in All-American guard Bob Brown of Nebraska.

The 6-foot-4½, 175-pound Brown came to terms shortly after playing a major role in Nebraska's 13-7 victory over Auburn in the Orange Bowl. Terms were not announced, but it was believed the Eagles topped \$18,000 per year plus a liberal bonus to outbid the Denver Broncos of the American Football League.

The NFL grabbed the lion's share of the bowl stars who signed on the dotted line.

Three of Brown's Nebraska teammates signed with NFL teams—tackle Lloyd Voss with the Green Bay Packers, 253-pound tackle Monte Kiffin with the Minnesota Vikings, and linebacker John Kirby, also with the Vikings.

The Vikings also picked up two Auburn players—halfback George Ross, their No. 3 choice, and end Howard Simpson.

The Dallas Cowboys of the NFL signed their No. 4 choice, quarterback Perry Lee' Dunn of Mississippi, who also had been drafted by San Diego of the American Football League, and also signed Ole Miss tackle William W. Hall.

Three stars of Alabama, conqueror of Mississippi in the Sugar Bowl, signed pro contracts—two in the NFL.

Fullback Mike Fracchia signed with the St. Louis Cardinals of the NFL and Steve Wright, a 241-pound tackle, with the Green Bay Packers. The Houston Oilers of the AFL signed Alabama halfback Benny Nelson.

Fite Elected TSA President

DALLAS (UPI)—The Texas Sports Writers Assn. Wednesday selected Ed Fite, Southwest Division Sports editor of United Press International, as its 1964 president.

Fite, who served as vice-president during 1963, succeeded Bill Whitmore, sports publicity director for Rice University.

Walter Robinson, sports editor of the Dallas Morning News, was picked as vice president and Jim McLemore, sports publicist for the Houston Oilers of the American Football League, was re-elected secretary-treasurer.

Press box facilities at all Southwest Conference schools were commended by the association. The sports writers also praised press boxes at Rockdale, Marshall, Conroe and Lubbock's Lowery Field.

It listed seven high school press boxes as not measuring "up to standards." They were located at Fort Worth Brewer, Quannah, Ballinger, Muleshoe, Mexia, Temple and Beville.

YCC Basketball

Malcolm Hinkle, Inc. dropped La-Bonita Beauty Salon from the ranks of the unbeaten, 36-23 in the women's division Monday night at the Pampa Youth and Community Center.

Both teams were resuming action following a layoff for the Christmas holidays.

The win moved Malcolm Hinkle into a first place tie with La Bonita with both sporting records of 4-1. La Bonita held the lead at half-time but saw their victory fade with a third and fourth period rally by Malcolm Hinkle. Sandra Davis was high point girl with 22 for Malcolm Hinkle while Dorothy Moring dropped in 11 for La Bonita.

In the men's division the White Deer Jaycees pushed their season record to 2-3 with a 56-29 wallowing of Wards. Gerald Bishel paced the winners with 19 while Mark Collins had 13 for the Jaycees. George Gantt led Wards with 16 points.

The 18 1/2-acre man-made "dish" nestles in the rugged mountains of Puerto Rico.

Largest Radio-Telescope Opens New Window on Universe for Man

Receiver hangs spiderlike 435 feet above the reflector.

NEWSPAPER ENTERPRIZE ASSOCIATION

The world's largest radio-telescope has gone into operation in a sparsely settled region of Puerto Rico, near the town of Arecibo.

Called the world's most impressive scientific installation, the telescope, which took four years to build, consists of a 1,000-foot-diameter reflecting dish resting in a scooped-out bowl in the island's picturesque mountains.

A 500-ton power feed and receiver hangs 435 feet above the dish on a net of cables stretching from three towers erected on the surrounding hills. The telescope will be used to study the ionosphere around the earth, explore the moon's crust to a depth of several feet, possibly bounce the first radio signals off Jupiter, investigate the planets of the solar system and probe deep space in the Milky Way and beyond.

The \$9-million U. S. research project will be operated by Cornell University.

The Lighter Side

Writer Gives Honors For Top Performances

By DICK WEST
WASHINGTON (UPI)—As my first act of the New Year, I would like to hand out a number of awards and citations for outstanding performances in 1963.

The first award is for "creative, if illegal, thinking in the field of new careers." And the winner is—may I have the envelope, please?—Frank Joseph Sherman of five Florida and seven California addresses.

Sherman opened up an entirely new occupational classification: "Professional job seeker." He showed it is possible to earn a living simply by applying for jobs.

From his Florida addresses he would apply for jobs on the West Coast, and from his California addresses he would apply for jobs on the East Coast.

Gets Expense Money
Then he would describe his qualifications in such glowing terms that the prospective employers would send him expense money to cross the continent for an interview. He thus collected \$15,000 in two years without ever going on a payroll.

Unfortunately, however, Sherman cannot be here to accept the award in person. He is currently serving time for mail fraud.

The second award, for "the most amazing discovery in entomology," goes to Joe P. Hollingsworth and two associates in the U. S. Agricultural Re-

search Service. By dint of arduous investigation, they were able to establish that a boll weevil's favorite color is blue-green.

The next citation is for "exceptional modesty on the part of a member of Congress (press release division)." It is bestowed jointly upon Sen. Wallace F. Bennett, R-Utah, and Rep. Compton I. White Jr., D-Idaho.

Restraint Is Commendable
Bennett's winning entry was a press release in which he described himself as "a top Republican spokesman on fiscal matters." Such restraint is commendable.

A typical senator, being unencumbered by the burden of self-effacement, undoubtedly would have described himself as "the" top spokesman.

White displayed similar humility in attributing his appointment as a delegate to the international lead and zinc study group to his "astute knowledge of the lead-zinc problems."

Finally, we come to the first annual "Bobby Baker memorial award for fiscal ingenuity." It was a tough decision, but my nominee is Rep. Paul G. Rogers, D-Fla.

Rogers is the architect of a debt-reducing plan of sheer inspiration. It would require the government to cut the national debt by 1 per cent each year, even if it had to borrow the money to do it.

TVA Report Reveals New Approach Helps

KNOXVILLE, Tenn. (UPI)—A comprehensive and unified approach to the problems of the Tennessee Valley is responsible for the major changes and accomplishments in the region during the past three decades, the Tennessee Valley Authority (TVA) said Wednesday.

In its annual report, TVA outlined progress in a vast spectrum covering such diverse activities as power production and fertilizer development.

"The underlying principle on which the TVA operates," the agency said, "is that there is a unity in a region's resources, an interrelationship among them, and that hence the fullest and most effective use of resources can be achieved when they are developed in a unified or integrated program."

"Fast changes have taken place in the valley region in the past three decades; the harnessing of a major river system to an extent never known before; the reversal of a downward spiral of erosion and soil depletion on farms and in forests; the improvement of agriculture, and the inauguration of modern forestry."

Epitomizes Progress
This progress, the agency said, is epitomized by the Muscle Shoals, Ala., area where the late President Kennedy on May 18 commemorated the 30th year of the TVA.

In 1933, the year TVA was formed, the World War I chemical plants at Muscle Shoals were idle. Wilson Dam captured only a small supply of the river's power potential. Jagged shoals hindered navigation.

Now the plants form the hub of TVA's national fertilizer development center which last year supplied fertilizers used in 43 states and one territory. Wilson Dam has an installed capacity of 596,000 kilowatts, extracting near-maximum hydroelectricity from the river. It is part of a system which provides 650 miles of channel for two boats and 12 million acre feet of storage space for floodwaters.

It is indicative of the myriad

of TVA programs — multiple-use water control, navigation, flood control, production and use of electric energy, chemical fertilizer research and experimental production, conservation of soil and water, agricultural improvement, forestry and water protection, and tributary area development.

Highlights Of Year

During 1963 TVA:

—Took in a record \$268.8 million in power revenues and sold an all-time high of 63.8 billion kilowatt hours of electricity, yet reduced the average cost to the residential consumer for a kWh from 10.05 to 9.94 cents.

—Brought \$161 million worth of equipment, materials, supplies and services, including about \$88.3 million worth of coal and coke. TVA said about \$75 million of the total purchases were made in the United States outside the seven Tennessee Valley states. Purchases from abroad totaled about \$1.4 million, less than 1 per cent of the total.

—Accepted settlements totaling \$7,096,165 from 11 of 14 companies against which it had filed antitrust suits.

CARGO SHIP SINKS

GOTEBORG, Sweden (UPI)—One man was drowned and seven others were missing Monday in the sinking of a French cargo ship after a collision with a Danish tanker in heavy fog off Sweden's west coast, maritime radio reports said. Rescue ships picked up 19 crewmen.

STOCKPILES SHOW DECLINE

WASHINGTON (UPI)—Federal stockpiles, including strategic materials and farm surpluses, were valued at \$14.4 billion in October, a decrease of \$119 million from September.

The stockpile report was issued Monday by the House-Senate committee on reduction of non-essential federal expenditures. The group is headed by Sen. Harry F. Byrd, D-Va.

Chinese Told Party First, Love Second

HONG KONG (UPI)—Red China's young Communists have been warned not to take love too seriously.

Love can be corrupting, declared an article published in the magazine China Youth, a copy of which was received recently from behind the Bamboo Curtain.

The article suggested that any young Communist who forsakes the party for his personal love life might just as well commit suicide.

"The idea that love is supreme can only bring harm to the revolutionary ranks at the present stage of the socialist revolution and will seriously impair the progress of youths," said the article, which was written for discussion at a young Communist league forum.

Communism-Will Suffer
"If anyone nowadays upholds the viewpoint that love is supreme, puts love in the primary position in life, regards love as the greatest happiness, and is ready to sacrifice everything for the sake of love, he will then lose interest in the cause of socialism and behave contrary to Communist morality."

"The immediate outcome is that both his study and work will be seriously undermined. He will go so far as to renounce principle, abandon work, and commit errors politically, for the sake of upholding individual love."

"The articles scoffed at the love theme of 'bourgeois literary work,'" and said, "these literary works think that leading a just life and enjoying the comforts of life are the things that really count."

The article lamented that some youth of China are being infected with these same ideas. "Since the bourgeoisie have often interpreted love as something transcending classes, era and personal achievement, something everlasting above and beyond morality and politics, and in a word something free from all restrictions, this way of describing and interpreting love has, indeed, captured the imagination of some of our present-day generation of youths."

"This is dangerous thinking, the China Youth article emphasized. Youth who are infatuated with

bourgeois ideas of love and "aspire after the romantic relations and way of love of the exploiting classes depicted in bourgeois literary works, even to the point of looking for the blueprint of future life from the spirits of the dead and finding it a source of 'fun'" are heading down the wrong road, it said.

Times Science

Editor Retires

NEW YORK (UPI)—William L. Laurence, science editor of the New York Times, retired Wednesday.

Laurence, 75, had been with the Times as a science reporter and editor since 1930 and previously worked for the New York World for which he covered the transatlantic flight of Charles A. Lindbergh.

The veteran science writer covered the world's first atomic explosion at Alamogordo, N.M. He twice won the Pulitzer prize.

The Times announced he would be succeeded as science editor by Walter Sullivan.

Laurence plans to continue to write and lecture on science subjects and serve as a consultant to the New York World's Fair.

FAR OUT—This secretary is answering a telephone call by remote extension. That's right, remote. She can receive a call with this new invention up to two miles away from the call's source in her New York office.

Midwest Demos Plan Session On New Program

MINNEAPOLIS (UPI)—The executive committee of the 14-state Midwest Democratic Conference will meet here Saturday.

State Democratic-Farmer-Labor Party state Chairman George Farr said the meeting will be held to discuss party plans for 1964. Minnesota Gov. Kral Rolvaag will be host.

The committee is composed of state chairmen and chairwomen and national committeemen and committeewomen from North and South Dakota, Iowa, Nebraska, Wisconsin, Illinois, Missouri, Indiana, Ohio, Michigan, Kansas, Oklahoma, West Virginia and Minnesota.

Also attending will be Cliff Carter of the Democratic National Committee.

Farr said the session will be a preliminary meeting to plan for a full-scale conference set for next spring in Iowa. He said the group is expected to pledge support to President Johnson and specific parts of his program.

"The Midwest conference states play an important role in any presidential election since they represent a total of 169 electoral votes," Farr said.

Washington Lifts Housing Bans

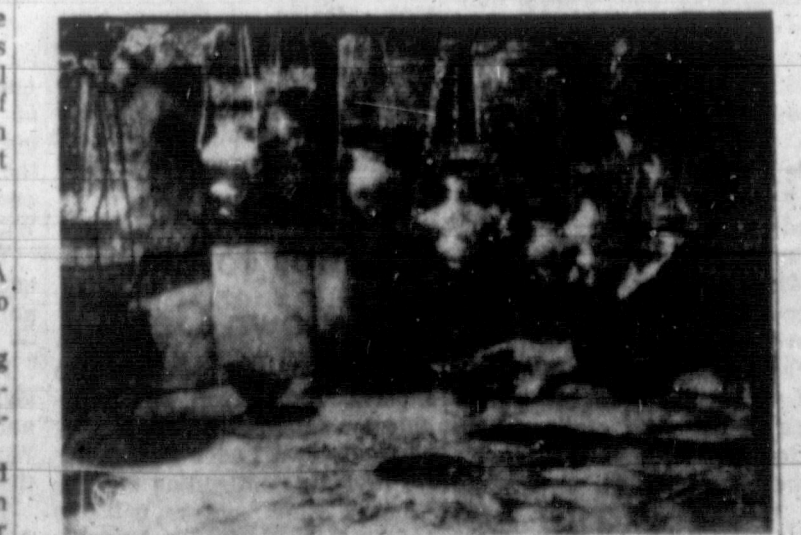

WASHINGTON (UPI)—The commissioners of the District of Columbia have issued an ordinance banning housing discrimination in the nation's capital. The ban goes into effect Jan. 20.

About 58 per cent of Washington's 765,000 residents are Negroes. According to figures presented to the U. S. Civil Rights Commission, nearly half of them are forced to live in neighborhoods that are at least 90 per cent Negro.

SPIDER WEAVES TROUBLE

COLUMBIA, S. C. (UPI)—A spider almost knocked a radio station off the air Sunday.

Station WQXL was operating at about one-fourth power Sunday morning and three engineers investigated the cause. They found that a spider had spun a web in the housing on a pole outside the transmitter holding the program signal. The web apparently got wet and shortcircuited the line, reducing broadcasts to nearly a whisper.

VENITE ADORAMUS—Star in grotto in Bethlehem, Jordan, marks spot where, tradition maintains, the Child Jesus was placed after his birth. This hallowed shrine of Christendom may be visited by Pope Paul VI on his visit to the Holy Land.

THAT'S THE BREAKS—Knowing that this photo was taken in sunny California, one might be led to think that Paul and Julie Arms were looking through pieces of glass. But once it is learned that Son Rafael had a 23-degree night, it can be guessed that it's not glass at all, but a few icy chunks from a large frozen puddle.

Turkish Leaders Seek Way to Solve Crisis

By DAVID L. DUGAS, United Press International

ISTANBUL, Turkey (UPI)—Turkey's erratic drive to match a militant anti-communism with the creation of a Western-style democracy has once again stalled, and the country stands at another crossroad.

The nation's political leaders are currently seeking a way to replace the government that fell Dec. 2 when Ismet Inom resigned as premier. Inom has since rejected a bid by President Cemal Gursel to form a new coalition built around his Republican People's party.

Gursel asked Justice Party leader Rappi Gumuspa to Tuesday to try to forge a cabinet out of the bitterly divided political factions. No deadline was set. Few observers, however, believe the 67-year-old retired general can work out a lasting arrangement.

"No Coalition Possible"

"In fact, no coalition is possible. If one is formed it will be because the army insists," one veteran observer of the local scene told UPI.

There is a strong feeling that the negotiations going on in Ankara are designed as a holding tactic until the 80-year-old Inom can be persuaded to return.

If Gumuspa fails as predicted, observers believe, an appeal will be made to Inom on the grounds that the nation needs him and that failure to form a government could force the army into taking over.

The key to all moves in the sometimes bewildering Turkish political picture is the well-trained and efficient army.

Since General Gursel led the overthrow of the dictatorial regime of Adnan Menderes May 27, 1960, the Turkish army has performed the double task of guarding a 1,100 mile frontier with the Soviet Union and making sure its own politicians govern the country along democratic lines.

Dedicated to Democracy
The older officers are dedicated to promoting democracy and to observe the legendary Mustafa Kemal's (Ataturk) injunction to "stay out of politics."

Both tasks are trying.

A group of young lieutenants officers feels a more authoritarian method is the only way to bring Turkey, an economically precarious nation, into the 20th century.

Two attempted military revolts have been quickly crushed because the army stood firm and the man behind both, Gen. Talat Aydemir, is under a death sentence.

Now the scene is set for a third unless the politicians can settle their differences.

Quotes From The News

By United Press International

JOHNSON CITY, Tenn.—President Johnson, after two days of consultations with West German Chancellor Ludwig Erhard, "Others have been writing and talking about the new diplomacy. The Chancellor and I have been practicing it."

WASHINGTON—Vice Adm. Hyman G. Rickover, father of the nuclear submarine, criticizing the defense industry for seeking "undue profits" from government contracts.

"I am all for a free enterprise system, but freedom to set a price is not license to make undue profits from your own government."

MOSCOW—Premier Nikita S. Khrushchev, claiming there is no racial discrimination in the Soviet Union despite recent demonstrations here by African students.

"Our people do not distinguish between color but only between classes. If you are a black worker, you are my brother. But if you are white and an exploiter, then you are not my brother."
