GRAY LADY HONORED — Richard J. Strayer, field representative from Wichita Falls, left, and Gray County Chapter Chairman E. B. Pemberton, at right, jointly hand Mrs. O. F. Kreimeyer, who was honored Tuesday night as Gray Lady of the Year for her work this past year in Red Cross programs, a plaque honoring her. Strayer was speaker for the annual meeting of the Gray County Red Cross chapter and Pemberton was master of ceremonies.

5.5 Million Words Spoken in Debate On Rights Issue

WASHINGTON (UPI) — Civil rights log: Status: House approved bill Feb. 10 by vote of 290 to 130. Measure now before Senate. Length of debate: 48 days. Estimated words spoken: 5,511,000. Previous record civil rights: 30 days on 1960 bill. Previous record general: 2 1/2 months on ship subsidy bill in 1952. Purpose of bill: To end racial discrimination in voting, education, employment, unions, privately owned lodgings, eating establishments and places of amusement, and in use of taxpayers' funds.

Reds Building Big Nuclear Sub Fleet

WASHINGTON (UPI) — The Soviet Union is building 7 to 10 nuclear-powered submarines a year and is letting them be seen with increasing frequency on the surface of the seas, it was learned today. Russian submarines no longer dive and disappear when spotted on the ocean surface but proceed unflustered on their courses or in their exercises. As far as is known, they rarely, if ever, come anywhere near American shores. Expansion of the Soviet nuclear submarine fleet and the boldness of its operations point up the major problems, facing American military planners in upgrading anti-submarine warfare forces and devising defenses against submarine-launched missiles. The Russian nuclear subs are of both the missile-firing type and the attack type which fights other submarines and destroys shipping. While the United States currently has a lead in numbers of nuclear submarines of all types and is building at about double the Soviet annual rate, the situation could change or even be reversed, in another two or three years. At present, the U.S. Navy is buying Polaris missile subs at a rate of about one a month. The last of these atom-driven ships, however, will be launched in April, 1966. At the present rate, projected to continue for several more years at least, the Navy is building six attack type subs a year. Thus the Russians conceivably could force ahead in the annual rate once the U.S. Polaris program is completed. The authoritative British publication "Jane's Fighting Ships" credited the Russians last December with having 26 nuclear-powered submarines, both attack and missile-launching types.

Quiet Prevails At Home of Missing Tot

CHICAGO (UPI)—The home of Mrs. Dora Fronczak was deathly quiet today. The pretty, black-haired wife of an aircraft mechanic had looked forward to the day for a long time — her first day home with her first born. But her baby did not come home with her. The infant, Paul Joseph, was kidnapped from his mother's arms in Michael Reese Hospital the day after his birth one week ago Sunday. Police and federal agents have failed to turn up any trace of the baby or the woman who posed as a nurse to steal him.

Wallace Gets Big Vote in Indiana

President Assails Rights Opponents

WASHINGTON (UPI)—President Johnson today assailed opponents of the Senate civil rights bill who claim the legislation is only a political gimmick. Johnson said those who make this claim "are doing a gross injustice to the basic convictions of a democratic society." The President made the remarks in an address prepared for delivery before the annual meeting here of the influential Advertising Council. The speech started a heavy day for the President, including a 4:30 p.m. EDT, open-air, televised news conference at the White House. Johnson told the advertising council, which last year donated more than \$100 million to public service advertising, that the most dangerous threat to America is public apathy.

Says Economy Healthy Stressing the health of the nation's economy, the Chief Executive said that "almost every day brings more good news about the economy, and many people have been surprised by what this fee enterprise system is doing." "I am concerned, however, with some other aspects of America today," the President said. It was in discussing various phases of the economic picture that he mentioned the civil rights bill.

Johnson said he did not want Americans to "retreat from their responsibilities." He said that if citizens burn their energy "on irrelevant and trivial causes—on purposes that serve only their own narrow interests—democracy will inevitably suffer." **Urges Participation** For that reason, he urged the Advertising Council members to devote themselves this year "as private citizens to specific programs which will raise the quality of life in America."

He said that if citizens burn their energy "on irrelevant and trivial causes—on purposes that serve only their own narrow interests—democracy will inevitably suffer." **Urges Participation** For that reason, he urged the Advertising Council members to devote themselves this year "as private citizens to specific programs which will raise the quality of life in America."

Both Parties Plan Saturday Parleys

Two political conventions on a county level will be held in Gray County Courthouse Saturday as Democrats and Republicans alike put finishing touches to the May 2 Primary election. The GOP convention will convene in the District Court room at 10 a.m. Saturday with Clayton Husted, county chairman, presiding. The purpose of the convention is to set its policy regarding the forthcoming state Republican convention later in June. The court room will be invaded by a different brand of politicians at 2 p.m. Saturday when the Democrats move into its benches for the same purpose. Democratic Party Chairman Jim Thompson called the "convention in a public notice placed on the courthouse bulletin board this morning. The Gray County Republicans will select 14 delegates to the June 16 state convention, scheduled for Dallas, and they will also name 14 alternates. The GOP will set up the machinery for the June 6 runoff election to select a nominee to do battle with Sen. Ralph Yarborough in an effort to send a second Republican to Washington as Senator from Texas. On the GOP ballot will be George Bush and Jack Cox, both from Harris County, both of whom led the field in the Senate election but failed to have clear-cut majorities to avoid a runoff election. Husted said the GOP would have only two polling places in the run-off vote. Precincts 1, 4 and 5, will be centered at the McLean City Hall while all others will be centered at Pampa Junior High School. Democrats are expected to have one polling place in the election, but its site has not been selected as yet. The Democrats will also name delegates to the state convention during their meeting Saturday. The two-convention dates were scheduled after the election ballots from Saturday's primary were canvassed by officials of both parties and certified with County Clerk Charles Thut. Only the Democrats saw any real change in totals as the figures for Governor John Connally moved from an unofficial 1,832 to 2,151 votes. Sen. Ralph Yarborough wound up with 1,742 votes to Gordon McLendon's 1,348 total in the U.S. Senate. (See PARLEYS, Page 3)

Snakes to Be Targets for Law Officers

CLAIREMONT, Tex. (UPI)—West Texas law enforcement officers will get out their six guns Thursday. Only instead of badmen, the targets will be rattlesnakes. The event is the 16th annual Rattlesnake Rodeo sponsored by the Caprock Peace Officers Association. It will be at Clairemont in Kent County. Some 400 sheriffs, deputies, policemen, highway patrolmen and Texas Rangers will draw a bead on the poisonous reptiles to see how good their aim is. A bull's eye is a hit in the head. Rattlesnakes will be furnished by the Lubbock Rattlesnake Club, which has been collecting them for the past several months.

PAMPA'S ANNUAL CLEAN UP DRIVE

City trucks continued picking up trash in Ward 1 today and will finish the job in that area Thursday. The annual clean up drive will move into Ward 2 Friday for four days. Householders are urged to have trash in receptacles ready for the trucks and pick up crews.

BARRY GOLDWATER wins easily

Jurors Called for Hoffa Fraud Trial

CHICAGO (UPI)—A new vendor constant supervision of U.S. marshals. The possibility that to appear in court today for the trial may last four months possible jury selection in the or longer has caused most prospective jurors to seek dismissal. The majority contend that U.S. District Court Judge Richard B. Austin's ruling that the jury be looked up for the duration of the trial would work a hardship on them. Tuesday's session was one of the quietest since the trial started. The defense, which has moved three times in an attempt to get a mistrial ruling, did not act Tuesday. Hoffa and seven associates are accused of fraudulently obtaining \$20 million from Teamster union pension funds and diverting more than \$1 million of the amount to their own pockets. They have pleaded innocent.

Guard Units Patrol Towns Hit by Storms

By United Press International National Guardsmen today patrolled battered towns in the Midwest where tornadoes killed two persons, injured scores and destroyed hundreds of buildings. A storm dumped 8 inches of snow on Reno, Nev., and Utah and Nevada stockmen were warned to protect livestock from continuing cold rain and locally heavy snow. Nebraska Gov. Frank Morrison ordered nearly 200 National Guardsmen into five central and southeast counties where tornadoes Tuesday caused millions of dollars damage. Two persons were killed and three injured near Bradshaw, Neb. Morrison made an inspection flight over the region today to assess damage for application to President Johnson for federal assistance to the communities. National Guard troops also were ordered out in North Dakota, where a tornado leveled the eastern end of Fairmont and injured at least 11 persons. At least 60 farm homes were destroyed or damaged by tornadoes in northwest Iowa, and 105 National Guardsmen were ordered to duty to prevent possible looting. Several persons were hospitalized in Iowa.

Goldwater Gains 32 Tallies

By RAYMOND LAIR WASHINGTON (UPI) — Gov. George C. Wallace of Alabama jarred the national Democratic party again today with a declaration of independence in his home state and an impressive but second best vote in the Indiana presidential primary. As expected, Sen. Barry Goldwater of Arizona easily defeated Harold E. Stassen in the Indiana Republican presidential primary. By adding Indiana's 32 national convention votes on the first ballot, Goldwater's headquarters claimed 264 of the 653 votes needed to win the presidential nomination. Party primaries to nominate candidates for various offices were held Tuesday in Alabama, Indiana, Ohio, Florida, Oklahoma, New Mexico and the District of Columbia. Echoes of the national debate on civil rights were heard in contests in Ohio and Florida as well as in Alabama and Indiana. Wallace made himself the symbol of opposition to the Johnson administration's civil rights program. In the Alabama primary, a Wallace-backed slate of unpledged presidential electors won a runaway victory over a slate pledged to support the nominee of the national Democratic party. Thus Alabama's 10 electoral votes can be withheld from President Johnson after the election next November. In the Indiana primary, Gov. Matthew Welsh ran as a favorite son candidate and stood in for Johnson to defeat the segregationist Wallace. In other major contests: Ohio: Sen. Robert Taft Jr. won the Republican nomination for a seat in the Senate, where his father was once a dominant figure. Sen. Stephen M. Young was renominated in the Democratic primary but Lt. Col. John H. Glenn Jr., the astronaut who withdrew because of an injury, polled a sizable vote. Oklahoma: Bud Wilkinson, former Oklahoma football coach, easily won the Republican senatorial nomination. Sen. J. Howard Edmondson was in a three-way fight with former Gov. Raymond Gary and state Sen. Fred Harris for the Democratic nomination and a runoff contest between the two leaders was indicated. Florida: Sen. Spessard L. Holland easily won the Democratic nomination for a fourth term. Mayor Haydon Burns of Jacksonville led in the contest for the nomination for governor but faced a runoff May 26 against Mayor Robert King Hieh of Miami, the only candidate among six in the Democratic primary to endorse the civil rights bill in Congress. New Mexico: Rep. Joseph M. Montoya was nominated without opposition in the Democratic senatorial primary to oppose Sen. Edwin L. Mechem, who was unopposed for the GOP nomination. Primary voters in the District of Columbia elected party officials, a Johnson delegation to the Democratic National Convention and an uncommitted delegation to the Republican convention.

WEATHER

PAMPA AND VICINITY — Fair this afternoon, tonight and Thursday. Cooler this afternoon, but warmer Thursday. High today in low 80s. Low tonight mid-60s. Thursday high in mid-80s. Westerly winds 15 to 25 mph, gusting to 30 mph, diminishing tonight.

Red Cross Gray Lady of Year Honored at Dinner

Mrs. O. J. Kreimeyer was named Gray Lady of the Year by the Gray County chapter of the American Red Cross during the organization's annual banquet at First Baptist Church Tuesday night. Mrs. Kreimeyer was awarded a plaque denoting the amount of time she has spent with the Gray Lady program in the past several years. She was one of five women honored for their untiring work in the Red Cross effort.

Others introduced to the some 150 persons at the banquet for their Gray Lady work were Mrs. Jesse Beard, Mrs. Jess Hatcher, Mrs. E. W. Voss and Mrs. O. G. Smith. Mrs. Voss was one of the original Gray Ladies in 1943 when the county first began the program and she returned to the program when the local unit was reorganized several years ago. E. B. Pemberton was re-elected chapter chairman during the election of officers and Wes Langham was named vice chairman. Mrs. Mark Heath was re-named secretary and Mrs. Robert Imel was elected as treasurer.

NAACP Asks Talks With Auto Makers

By United Press International Negro civil rights leaders turned their attention Tuesday to the American automobile industry. The National Association for the Advancement of Colored People (NAACP) sent telegrams to the industry's big three — General Motors, Ford and Chrysler — calling for meetings to discuss alleged discrimination in the hiring and promotion of Negroes. The wires were dispatched by NAACP Labor Secretary Herbert Hill in Detroit. General Motors had no comment immediately on the request but Ford and Chrysler said meetings would be arranged with NAACP officials. About 500 persons demonstrated in front of General Motors headquarters in Detroit Monday. In Pittsburgh Tuesday, the general conference of the Methodist Church ordered continuation of talks regarding merger with three American Negro churches, and it stipulated that any union with the Evangelical Brethren Church must carry with it the immediate abolition of the Methodist Church's all-Negro central jurisdiction. At Memphis, Tenn., more than 100 restaurants have quietly opened their doors to Negroes — despite the risk of loss of business — in an effort to keep the city free of racial violence. Chamber of Commerce President Wallace Witmer announced Tuesday night the res-

BERMUDA SHORTS SHAKE DECORUM

If there were any doubts that spring has arrived, they were brushed aside this morning in 31st District Court. Judge Lewis Goodrich played host to the 35-member business law class of Pampa High School with teacher Melvin Cardwell sponsoring the field trip. All was well when Judge Goodrich strode to the bench to open the first jury trial on this month's civil court docket. He did a double take when he reached the bench. Sitting in the crowd of students were a couple of young men who came dressed for the 93 degree weather being enjoyed in Pampa at present. They were dressed in Bermuda shorts.

"It's spring, I guess," quipped the judge. If it comes from a hardware store we have it. Lewis Howie, Adv.

Opinions Sought on Proposed Dog Laws

Citizens for and against Pampa's proposed dog control ordinance today were invited to appear before the City Commission at its meeting at 8:00 a.m. next Tuesday and voice their approval or disapproval. The ordinance has passed on two readings and will be up for final reading Tuesday. City Manager Harold Schmitzer said he hopes the public will attend and let commissioners know how they feel about the legislation. City Commissioner L. P. Fort, who proposed the dog legislation,

CoC Breakfast At Coronado Inn Cancelled

Don Lane, chairman of the legislative and national affairs committee of the Chamber of Commerce, announced that due to lack of a program, the Congressional Action Breakfast scheduled for tomorrow at Coronado Inn has been cancelled. Lane explained that the committee was striving to obtain only top speakers for the event and was reluctant to stage a program that might not hold the interest of the group. If a suitable program can be arranged, the next breakfast will be May 22, he said.

ODDS? — Sons of Jack Robinson, 1045 Neal Rd., who are serving in the U.S. Navy arrived in Pampa last weekend without having made any plans to be home together. Marvin Kelly Robinson, left, is an airman apprentice stationed at Memphis, Tenn., and Sammy Young, Robinson's stepson, is a radarman at Jacksonville, Fla. The youths arrived on the same train and will both be home for 17 days before returning to their respective bases. The two youths were amazed at the luck that brought them together.

NASA to Join White Sands for Summer Institute

UNIVERSITY PARK, N. M. (UPI)—The National Aeronautics and Space Administration (NASA) will join White Sands Missile Range as a co-host for the 1964 Junior Engineers and Scientists Summer Institute at New Mexico State University.

NASA is building a large installation between New Mexico State and White Sands for testing phases of its Apollo man-on-the-moon program. High school students attending one of the two, two-week institutes to be held at New Mexico State is coeducational. Because of its growth to 170 students from throughout the U. S. last summer, it will be held in two sessions at NMSU this summer. The first is scheduled June 14-27, the second July 5-18. Students spend two weeks in a college-type situation of lectures and laboratories. The object is to show them what they must do to prepare for science and engineering careers.

Quotes From The News

By United Press International INDIANAPOLIS — Gov. Matthew Welsh on the politics of Alabama Gov. George C. Wallace, his opponent in today's Democratic primary: "He's farther to the right than Barry Goldwater and he's running in a Democratic primary."

WASHINGTON — NAACP general counsel Robert L. Carter of the Supreme Court's decision not to review a lower court ruling on de facto segregation: "It is our intention to continue to press this issue in the courts."

ROCHESTER, Mich. — Student Wolf Metzger on his suspension as editor of the Oakland University student newspaper for refusing to suppress a "Kinsey" type report on the student body: "I took the position that we are not acting as a public relations medium for the university and should be free to publish news, even if it is not always in the university's interest."

Mrs. Urbanic's sons are Charles, an A&M student; Air Force Capt. Frank Urbanic Jr. of Valdosta, Ga., and Navy Chief Petty Officer Simon Urbanic of Norfolk, Va.

10th Anniversary Noted Of Dien Bien Phu Seige

EDITOR'S NOTE: Ten years ago Thursday the French garrison at Dien Bien Phu fell to the Communists after a long siege at the end of the Indochina war. The siege made a heroine out of the "Angel of Dien Bien Phu," a nurse who attended the wounded. In the following dispatch, a UPI correspondent reports that the heroine now is a Paris housewife who wants to forget the war.)

By ALINE MOSBY
PARIS (UPI)—The housewife in the simple gray skirt and sweater opened the door of the new apartment house with a shy smile.

It was the same smile remembered by many from newspapers of 10 years ago—the round face with heavy eyebrows and gentle expression, the dark brown hair parted simply on one side.

But a decade ago the background was so different. The woman was Genevieve de Gaulard, the "Angel of Dien Bien Phu," a French army nurse who for 47 days endured the siege of the Communist Vietnam in the surrounded French garrison during the last days of the Indochina war.

It was 10 years ago Thursday that the Communists finally took the Dien Bien Phu garrison, located in what is now North Vietnam.

Worked in Mud
The nurse was brought out of a smoking valley in faded, oversized paratroop uniform, her feet thrust into muddy sandals.

Instead of worrying, as now, about an apartment with modern furniture and pale gray walls, she was working ankle deep in yellow mud in an "operating room" that was a steaming underground shelter in the French garrison.

Genevieve, then 29, joined the air force as a nurse in 1952 to fly into battle areas to bring out the wounded. Other nurses shared the hardship but Genevieve became famous because, by chance, she was marooned at Dien Bien Phu when it fell under siege.

The nurse emerged from the war as a heroine, her courage and bravery heralded by the wounded she tended. The French gave her a triumphal return to Paris and the Croix de Guerre medal.

Toured U.S.
She was invited by Congress to tour the United States. She

was honored with a ticker-tape reception in New York. President Eisenhower pinned the Freedom Medal on her white nurse's uniform.

In 1956, in a Paris chapel lined with battle flags, she married a paratroop captain she met in Indochina before flying to Dien Bien Phu. Many heroes

Dinner

(Continued From Page 1)
George, Mrs. Ruth Alexander, Mrs. Irvin Cole, and Mrs. Jack Foster for their work in Red Cross activities over the past year.

Larry Hollis, president of the Pampa High School Red Cross chapter, gave a report on activities of the high school group, reporting that some \$400 was raised during the current membership drive.

The teen-ager told of a chest being packed for shipment overseas by the Pampa High group and reported on two classes in care of sick and injured persons, plus an additional class in mother and baby care which were held this year at the school.

He introduced Mrs. Floyd Sackett and Howard Graham, Pampa art teacher and Red Cross sponsor at the school, describing their work. Mrs. Sackett helped the Red Cross with an art exhibit and for the first time in history, Hollis said, several pictures would be entered in the national competition in Washington.

Richard J. Straver of Wichita Falls, who is field representative for the Red Cross there, gave a vivid account of the recent tornado and described what steps his unit took in caring for the victims of the twister.

His address on disaster work highlighted the program which had followed a meal served by members of First Baptist Church.

Music was furnished by Tracy Cary while Hugh Carson sang two solo numbers.

KHRUSHCHEV'S VISIT COSTS
OSLO (UPI)—Finance Minister Andreas Cappelen said Monday that Soviet Premier Nikita S. Khrushchev's visit to Norway in June will cost the taxpayers about \$125,000. The money will be spent to refurbish the royal summer residence at Bygdoy and to set up communications and security facilities.

Damage Suit Filed In District Court

A personal damage suit in the amount of \$2,300 was filed Tuesday afternoon in 31st District Court against Willard Le Roi Ogden in connection with an automobile accident which occurred Dec. 30, 1963, in Pampa. Plaintiffs in the suit are Sue and Kay Hubbard, minor children of Inez Hubbard, who filed the suit on their behalf.

The \$2,300 claim is for payment of doctor bills, repairing an automobile and personal damages to the two children according to the petition filed.

Pioneer Declares Quarterly Dividend

AMARILLO (Spl)—Directors of Pioneer Natural Gas Co., at a meeting Tuesday, declared a quarterly dividend of 29 cents per share on the outstanding common stock, payable June 4, 1964, to stockholders of record on May 22, 1964.

TO SUPPLY RADIOS

WASHINGTON (UPI)—The Department of the Army announced the award of an \$8 million contract to General Dynamics Corp. for delivery of 500 radio sets.

Other Army contracts included a \$5,565,474 award to Singer Co.'s H.R.B. Singer Inc. subsidiary for delivery of surveillance systems, and a \$3,480,000 award to Raytheon Co. for additional radar modification kits.

(Continued From Page 1)
The Democrats showed a total of 3,239 votes cast while GOP officials recorded 1,495 votes in Gray County, an increase of better than 100 votes from the last election.

Republicans indicated they felt many possible GOP votes were cast in the Democratic primary because of the interest in the sheriff's race, the only contested election in the county.

The canvassed totals in the two-party primaries from Saturday's election follows:

DEMOCRATIC PRIMARY	
Governor	
Banks	42
Gonnally	2,151
Heckwörthe	22
D. Yarborough	992
Lieut. Governor	
Fuentes	298
Smith	2,707
Senator	
McLendon	1,348
R. Yarborough	1,742
Congressman-at-Large	
Baker	520

By LYLE C. WILSON
United Press International

It may be safe to say with- out fear of contradiction that the votes cast in Indiana Tues- day for Gov. George C. Wal- lace were not cast in favor of racial integration or in support of the civil rights bill now pending in the Senate.

This negative interpretation of the Indiana presidential pri- mary is about as far as the in- terpreter is likely to get with- out protests. The trend, even in advance, was to downrate Wal- lace's vote in Indiana as was downrated the 260,000 votes he took in last month's Wisconsin primary. A Republican cross- over into the Democratic pri- mary was credited with Wal- lace's big Wisconsin showing.

The pollsters were not agreed on Indiana. The well regarded Harris Survey reported to the Washington (D.C.) Post that not more than 10 per cent of Indiana's Democratic vote could be attributed to white re- sistance against civil rights developments. All voters for Wallace beyond that 10 per cent limitation should be al- located, according to the Harris Survey, to other than racial considerations.

Unhappy With Welch

Among these other considera- tions was Indiana's disenchant- ment with Democratic Gov. Matthew Welch, largely be- cause of a new sales tax for which he is held responsible. Welch was the Democratic Fa- vorite son stand-in for Presi- dent Johnson in Indiana. In- diana has a history of racial bit- terness. It was notable in the 1920s for the state-wide political power of the Klu Klux Klan. Indiana has been called the most southern in tradition of the northern states. All of these factors might be cited more or less to support the Harris Survey contention that recent race relations were not a major concern of more than a tenth of Democratic voters.

Samuel Lubell is another pollster with a respected re- cord of knowing what he is talk- ing about. Lubell reported that one-third of the Democrats in the great industrial centers such as Gary, South Bend and Indianapolis said they would vote for Wallace. He found that Wallace was being helped somewhat by Gov. Welch's un- popularity.

Both Not Wrong

It is no disgrace for a poll- ster to be wrong, which is the good fortune of both Lubell and the Harris survey. Although they do not submit comparable figures, it is obvious that Lu- bell and Harris got opposing impressions of what has con- trolled the minds of Indiana voters. They both cannot be right.

The average citizen, but more especially the Negro lead-

ers of civil rights demon- strations, must make their own interpretations of the Wisconsin and Indiana votes. The Negro leaders have a special and most urgent need to obtain an accurate interpretation. It is they who must decide whether civil rights pressures shall be eased or increased.

If the Indiana and Wisconsin elections showed evidence of rising white resentment and lessening of sympathy with Negro aspirations, the Negro leadership will need to be aware of that. Civil disobedience was a mighty weapon in colonial India. The vast Indian majority disobeyed the ultimate helpless British minority. An America minority even a large one, cannot hope for such suc- cess in disobeying the great majority.

Notes From Wall Street

E. F. Hutton & Co. reports that mutual funds and invest- ment companies are indicating a tendency to favor "pale blue chips" as against the estab- lished leaders in the market. Interest was shown, it says, in the near-blues in aircraft and missiles, sulphur, aluminum, tires and rubber, steel and to- bacco groups.

Martin Gilbert of Van Al- styne, Noel & Co. forecasts a rising market "for quite a while ahead without any serious in- terruption." He says he bases his optimism on the fact the marketplace had taken in stride a batch of adverse busi- ness news and uncertainties "with buyers taking over even at slight concessions."

James Dines & Co. looks for a new high to be made by the Dow-Jones average. Provided the "public still remains pes- simistic at that time," it adds, "then a huge new advance will begin that will ultimately drive the large short position to the wall." Short sellers are traders who sell stock they do not own in the expectation the market will go down and they can buy the shares at a cheaper price.

Bache & Co. states that de- spite the fact the Dow Jones industrial average appears to be outdistancing the over-all market it feels that the market generally is performing "cred- itably." Bache adds that "look- ing ahead we continue to envi- sion an erratic pattern over the near term and believe the fun- damentally attractive issues should be purchased on dips."

IT'S THE LAW in Texas

NEW LAW TIGHTENS HOT CHECK PROSECUTIONS

The 58th Texas Legislature passed H. B. No. 457 dealing with the use of worthless checks to defraud. It has practical as- pects for both the collection of such checks and the prosecu- tion of offenders that were not available before.

It makes it unlawful for any person or firm to make, draw or deliver a check with intent to defraud, knowing that the maker does not have sufficient funds on deposit to cover its pay- ment. It is no longer required that the check be given in ex- change for property in order to subject the maker or drawer to punishment.

The new Act, similar to the old law, provides that the re- fusal of payment by the bank shall be prima facie evidence of intent to defraud and of knowl- edge of insufficient funds, "pro- vided such maker... shall not have paid the holder thereof the amount due thereon within ten (10) days after giving of such notice that such check... has not been paid...."

New notice provisions state that notice shall be given in writing sent by registered or certified mail or telegram to the place listed on the check. Penalties are provided which increase with each offense and depend upon the size of the check. First conviction on a check under \$50 shall be punish- ment in the county jail for not to exceed two years and by fine not to exceed \$1,000.

If the check is over \$50 the penalty can be fixed at con- finement in the penitentiary for not less than two years nor more than ten years.

In order to avoid turning law enforcement agencies into mere collection agencies, the Bill provides that anyone who has furnished information concern- ing a worthless check which has resulted in the acceptance by the District or County Attorney of a complaint and who shall thereafter suggest or request that such case be dismissed, shall be guilty of a misdemea- nor and upon conviction fined not less than \$100 nor more than \$500.

(This newsfeature, prepared by the State Bar of Texas, is written to inform -- not to advise. No person should ever apply or interpret any law with- out the aid of an attorney, who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

In the U.S., outbreaks of grasshoppers are most common in the northern Great Plains, where there are more than 100 varieties.

Beef Delegation Sent to Europe by LBJ

WASHINGTON (UPI)—Presi- dent Johnson has sent a dele- gation to Europe in a search for new markets for American beef, Agriculture Department sources said Tuesday.

A spokesman said the step was taken in hopes that export sales would drain supplies

away from the U.S. beef mar- ket, currently burdened with record production, and help lift U.S. beef and cattle prices.

The delegation, which left Monday, included assistant Ag- riculture Secretary George L. Mehren and a number of cattle and meat industry leaders. The

group was scheduled to return May 1. U.S. cattle prices dropped sharply about a year ago and have been comparatively low ever since. The Agriculture De- partment predicted recently that prices for 1964 would aver- age below 1963.

The attempt to find new beef export business may have been partially aimed at strength- ening the administration's stand against proposed legislation im- posing stiff new beef import quotas.

Washington Visitors Setting New Record

Miss Martha Diane Toles, a happy young lady from Happy, Texas, was in Washington this week to be honored as the Texas winner in the annual Betty Crocker Search for the "American Homemaker of Tomorrow." With 50 other girls (the winners from the 49 other States and the District of Columbia), Miss Toles was feted at a reception in the Senate Office Building where she was privileged to visit with her and her charming faculty adviser, Mrs. Karleen Moore, a teacher at Happy High School.

I told Martha Diane that the honor she'd received (accompanied by a \$1,500 scholarship from General Mills) should permit her to be graduated from Happy High School without further study, class attendance, or examinations. But she told me that she'd have to study all the harder to keep up with her classmates after having taken time to go on the Homemaker of Tomorrow tour to Williamsburg, Washington, and New York City. The objective of the Betty Crocker Search is to assist schools in their important work of inspiring in our young people a deeper awareness and understanding of the American home in our society and economy and to increase the prestige and acceptance of homemaking as a career. Martha Diane Toles is a grand representative of these high ideals and I greatly enjoyed visiting with her.

Records are being set in Washington this spring for the number of tourists and visitors. This is a lovely time of year here; the azaleas and dogwood are in bloom, the grass is green from prolonged April rains, and shirt-sleeve weather has arrived. School groups from as far away as California have come by bus to see the Capital's attractions. Cars parked around the Capitol display license plates from virtually every State. Two weeks ago, I attempted to obtain a hotel reservation for an Amarillo couple who wanted to stay one more day than they'd planned but every hotel in downtown Washington was filled to capacity and all had lists of persons hoping for cancelled reservations.

I believe there are two special reasons for the unusually large number of visitors to the capital this spring. One is that many Americans want to take the opportunity to pay their personal respects to the late President John F. Kennedy at his grave in Arlington National Cemetery. An almost constant procession of Americans files past the grave each day, and I know that for many visitors to Washington this call to Arlington takes priority over any other plans. The other reason, I think, for the large throngs is that the New York World's Fair has opened and Washington is

Pampa Student Makes Williams Dean List

WILLIAMSTOWN, Mass. (sp) — Homer D. Johnson Jr., son of Mr. and Mrs. Homer D. Johnson Sr., 2373 Aspen St. in Pampa, has been named to the dean's list at Williams College here.

The all-student average grade at Williams in the first semester was 7.07 on a scale of 10 — just three-tenths of a point below the all-time high for the college.

CLASSIFIED ADS GET RESULTS

SECOND THOUGHT LONDON (UPI) — Eric Hart threw out four volumes of drawings which had laid in the attic of his home near Bideford for more than a century. But Hart had second thoughts about the volumes and he recovered them from the garbage collectors. The volumes of old-master drawings were sold Monday for \$28,000.

STRICTLY AIR FARE NEW YORK (UPI) — The publishers of American Heritage and Horizon announced today that their new publication, Sky, will not be available anywhere on earth.

The monthly magazine will be distributed only aboard U. S. airlines.

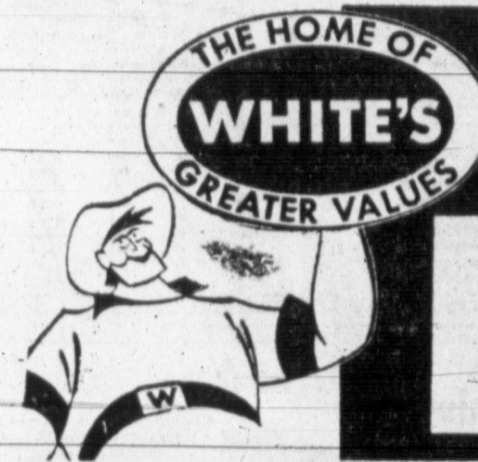

RED, RED, RED IS THE TROLLEY—When they're not riding in Moscow's sumptuous subways, Muscovites do their commuting in trolley buses, first introduced some 30 years ago. A new wrinkle is the tandem trolley with an accordion bellows coupling. This bus can carry 180 passengers.

Some 70 U. S. manufacturers make 20 million toy guns each year.

Plagued Day And Night with Bladder Discomfort?

Bladder aching or stinging may be a source of mild, but annoying bladder irritations—making you feel restless, tense, and uncomfortable. And if restless nights, with nagging backache, headache or muscular aches and pains due to over-exertion, strain or emotional upset, are adding to your misery—don't wait—try Doan's Pills. Doan's Pills act 15 ways for speedy relief. 1—They have a soothing effect on bladder irritations. 2—A fast-acting reliever of action on nagging backache, headache, muscular aches and pains. 3—A wonderfully mild diuretic action thru the kidneys, tending to increase the output of the 15 miles of kidney tubes. So, get the same happy relief millions have enjoyed for over 60 years. For convenience, buy the large size. Get Doan's Pills today!

SCIENCE SKETCHES

THE MILKY WAY, observes the Boston Museum of Science, is made up of 100 billion stars, one of which is our sun. And by way of educating you to the immensity of that figure, the Museum suggests that should you start counting at the rate of five numbers a second, you would reach 100 billion in something more than 600 years.

ONE HUNDRED students who become extremely tense when called on to speak in public are the subject of a one-year study at the University of Illinois.

THE NURSE SHORTAGE continues to be a national problem. In Dallas, Texas, for example, there will be a shortage of 4,600 nurses by 1965 unless "positive action" is taken. Nationally, reports Chemtron Corp., Chicago maker of medical equipment which polled a thousand U.S. hospitals, there is a shortage of 100,000 nurses.

Glue Sniffing Habit Nipped in Bud

Airplane glue, homemade paste, water-soaked terry cloth rags, nail polish, lighter fluid and butane fumes. These are the basic elements that for awhile had juvenile and police officials worried about the fad of "glue sniffing" which had reached into Pampa from California and New York.

However, some six months after a mother came to Juvenile Officer Bill Leonard with her son and told Leonard that she had found her son, 15, "drunk on glue fumes," the problem seems to have died.

Leonard told newsmen recently that most people had complied with a very "quiet request from me and (police chief) Jim Conner" to take the articles from display windows and shelves.

"We asked when, after some investigation, we discovered that some 20 youngsters were actually engaged in the glue sniffing business," Leonard explained. "The Pampa Evening and Morning Optimist Clubs have helped on this by assisting in contacting merchants and urging the removal of the glue."

Leonard said that most of the cases had dwindled down to a mere handful and the fast action by merchants in helping police combat a situation where a youth's mind might be endangered was the basic reason.

Doctors report that "glue sniffing" causes harm to portions of the brain, if the practice is prolonged or done excessively. Information, while highly technical in some respects, is available from Leonard's office upon request.

School officials have helped in the matter by assisting the officers with the program of education regarding the dangers of the glue.

Recently four youths were arrested as drunks, but upon further investigation, the boys were released by officers because they were not drunk on liquor, but instead had been smelling glue fumes.

Officers checked and discovered three other places where the glue could be obtained that had not been talked with. The merchants agreed to move the glue from easy-to-reach racks and place it near cash registers where anyone needing it would have to ask for the glue by brand name.

GETS NAVY PACT
NEW YORK (UPI) — Beech Aircraft Corp. won a \$8,977,085 Navy contract for delivery of missile targets.

Al Jolson, musical comedy entertainer, was born in Russia in 1886, according to the Encyclopaedia Britannica.

The thing that has pleased officers about the problem has been the full co-operation that they have received from merchants and parents.

"This type of help has done much to nip a situation in the bud," Leonard declared recently. "For it, we are deeply grateful and the youngsters involved, although they may not know it right now, will be, too, in a few more months."

Austin Highlights

Governor Moves Into Plush Layout

By VERN SANFORD
Texas Press Association
AUSTIN (Sp1) — Gov. John Connally has moved into the plushest working quarters ever occupied by any of this state's governors.

Last week workmen put finishing touches to the first overall remodeling of the offices in 76 years. Until now Texas governors have been tending to state business in cramped and poorly arranged offices.

Construction has been under way since January. Capitol visitors once again are welcome all day in the mirrored and flag-draped gubernatorial reception room.

The governor occupies a large, gold-carpeted, crystal chandelier-hung office. He also has an adjoining conference room, small kitchen unit and shower cabinet.

Gold carpeting runs throughout the second floor suite. Modern ceilings, lighting and air conditioning have been installed, and the fine old-woodwork sanded and refinished to its original state.

Redecoration of the governor's downstairs offices will not be complete for 30 days. Meanwhile, part of his staff will continue temporary quarters on the Capitol's first floor.

Appointments — Mrs. Richard M. Kieberg Jr. of Kingsville and Dr. Hesiquio Rodriguez of Harlingen were named by Governor Connally to six-year terms on the Texas A&I College board of directors. Connally re-appointed John F. Lynch of Houston to a new term on the board.

Mrs. Kelberg and Dr. Rodriguez succeeded J. H. West of Bishop and the late O. E. Van Berg of Mercedes.

Screwworm Eradication — The financial fate of the Southwest screwworm eradication program should be apparent by Friday. That's when the appropriation bill embracing eradication plans is supposed to come out of the agriculture subcommittee of the U.S. House appropriations committee.

Pierce Johnson of Austin, attorney for the Southwest Animal Health Research Foundation, says the bill was written to provide \$2,750,000 in federal funds, to be matched by local funds. But SWAHRF officials have asked Congress to put up all \$5,500,000, since the screwworm has been eradicated in Texas, and maintenance of a barrier to prevent migration of screwworm flies from Mexico is an international program.

Soil Conservation — Planning costs for watersheds on Upper Bosque River, Hondo Creek and Donahoe Creek cost the Texas State Soil Conservation Board \$134,938, according to State Auditor C. H. Cavness' report on the past two fiscal years.

Cavness said the Board spent a total of \$552,930 on its continuing efforts to conserve state soil resources and reduce effects of flooding in small watersheds.

Legislative appropriations of \$572,579 were provided during fiscal 1962 and 1963. Biggest outlay was \$215,001 for almost 200 soil conservation districts which the board administers around the state.

Tourism Expanding — Two Texas officials predicted tourism in the state is going to start booming.

Governor Connally said tourism will become the "fastest-growing Texas industry." He called the state's new advertising program "one of our soundest investments in the economic and recreational future" of the state.

Tot Pronounced Dead Comes to Life at Morgue

DENVER (UPI) — Bobby Glen Choate was born and died on the same day—but he is still living.

Bobby's young mother, Mrs. Betty Choate, 17, of Broomfield, Colo., went to her doctor's office Tuesday evening for an examination. Minutes after she arrived, Bobby — three months premature — arrived. The doctor worked over the child for nearly an hour, but finally ruled the baby was dead.

After it was taken to the morgue, however, Adams County Coroner Jack St. Germaine thought he "noticed breathing" by the time he reached Brighton Community Hospital, Bobby verbally let everyone know he was alive with a loud wail.

The child later was taken to Colorado General Hospital in Denver where he was reported in very good condition. The coroner said that when he notified the doctor of what had happened, the doctor was "flabbergasted."

Pampan Elected As Committeeman

John S. Skelly of Pampa was elected committee member of the Texas Rehabilitation Center of Gonzales Warm Springs Foundation at the annual membership meeting and open house Sunday.

Elected president was Edward Badouh of New Braunfels and Col. Harlan Hodges of Lubbock was named chairman of the executive committee. Mrs. H. H. Weinert of Seguin was named as a new member of the executive board.

Dear Abby....
Obtain Counseling and See
If You Can Play it Straight

By ABIGAIL VAN BUREN

DEAR ABBY: We were married 14 years and I never dreamed that anything was wrong with our marriage. Suddenly my husband started to take an interest in poker. Last March he went to a poker game that lasted all week. At the end of the week, a woman called me three times in one day telling me that she and my husband were "in love" and he didn't have the nerve to ask me for a divorce. I told her if my husband wanted a divorce he would have to ask me for it. He still hasn't asked me, and I am keeping my mouth shut. But he still "plays poker" all night twice a week. I am 33, she is 29 and my husband is 35. If he gets up the nerve to ask me for a divorce, it will tear up two sets of children. Ours are 5, 7, 10, and 12. Hers are 4, 3, and 10 months old. What should I do?

wise, she can (through a lawyer) replevy the ring by legal process. It all depends on how far the girls wants to go in making things uncomfortable for her father. In my book, anyone who locks property he does not own is no better than a common thief.
ANONYMOUS LAWYER
(HARTFORD)

DEAR ABBY: I agree with your answer to "PUNISHED ENOUGH." Twice I've had to call my parents because I was going to be home later than I said I would, and it sure helped to give them confidence in me. One night I ended up an hour and a half late, because of car trouble. But just because I called home and told them, they weren't even mad! I shudder to think of what would have happened if I hadn't called them.

DIME-A-TIME

WAITING

DEAR WAITING: Get some counseling from either your clergyman or your family service association and try to put your marriage back on the track. Find out why it became necessary for your husband to seek female companionship elsewhere. You may not like what you learn, but it could save your marriage. Good luck.

Get it off your chest. For a personal, unpublished reply, write to ABBY, Box 3365, Beverly Hills, Calif., 90212. Enclose a stamped, self-addressed envelope.

Hate to write letters? Send one dollar to ABBY, Box 3365, Beverly Hills, Calif., 90212, for Abby's new booklet, "How To Write Letters For All Occasions."

TOPS Members Receive Awards

DEAR ABBY: When I had my marriage announcements printed, I had the following message placed at the bottom: PLEASE - NO GIFTS! I did it for three very good reasons: (1) I do not need anything. (2) I have no room in my small apartment to store anything. (3) I have no time to write "thank you notes." In spite of this, the gifts poured in. Why can't people be more considerate and oblige?

WHEELER (Spl) - Mrs. Peggy Ford presented the program for Wheeler Whittlers TOPS Club in a recent meeting conducted in the Library. Nine members were present and recorded a total weight loss of 14 1/2 pounds.

Two members received prizes for reaching their goal during the past two-week period. The club meets each Monday at the Library and persons wishing to join may attend meetings.

ANNOYED

DEAR ANNOYED: Aw c'mon. Ingrained responses aren't easily changed. Surely you can find something other than your friends' generosity to "annoy" you.

WEARS WELL

You hear about wood having a deep and lovely patina, or beauty. The longer wood wears and is rubbed, the more character and charm it acquires.

DEAR ABBY: If that 16-year-old girl, whose drinking father hooked her boy friend's ring, wants to get the ring back, all she has to do is go to the pawn shop and demand it. If they do not deliver up the ring, she can get the co-operation of the police in recovering stolen property (her father DID help himself to the ring, she stated). Other-

CLUB DONATES PLANT - Mrs. Katie Vincent, charter member of the Civic Culture Club, broke the ground for planting a snowball bush donated by the club, in her honor, at the site of the Pioneer Cottage, Mrs. Vincent's first Pampa home. Mrs. K. A. Sorenson, Mrs. George Neef, Mrs. Carl Axelson, Mrs. Dudley Steele, Mrs. G. B. Townsend, Mrs. Emmett Gee, Mrs. G. F. Pennington, Mrs. Irvine Cole and Miss Lou, Ella Patterson attended the ceremony.

Social Enjoyed By T.E.L. Class

Central Baptist Sunday School T.E.L. class met Tuesday afternoon for a business meeting and social. Mrs. Maggie Deal, 617 Carr, was hostess for the event.

Mrs. L. A. Baxter gave the devotional from the Book of Isaiah and read "Going Home" by Vance Haver. Mrs. Pearl Erwin and Mrs. W. G. Gooding offered prayer at the opening and close of the meeting.

Mrs. Lelia Gomer conducted the business session and Mrs. Deal was in charge of entertainment.

Other members present were Mmes. M. E. Tucker, Dora Poe, Nettie Young, Della Tucker, Henry Taylor, R. E. Warren, Dovie Miller and two guests, Brenda Parrish and Mrs. Dru Allen of Dallas.

COZY CORNER

If you have a cozy corner in your garden where a high fence is needed to provide maximum privacy, consider a solid board fence with top, middle and bottom 2x4 frames exposed as shelving for display of small flower pots.

Rickey Claims Rookie Has Greatest Potential

By United Press International
Who's the pitcher with the greatest potential in baseball today?
Most people would automatically say Sandy Koufax. Others might name Juan Marichal, Jim Maloney or Al Downing.
But Branch Rickey passes over all of them and singles out Ray Washburn, a 25-year-old right-handed perfectionist whom the St. Louis Cardinals called back up from the minors only last week.
Rickey, the 83-year-old special consultant for the Cardinals who has seen them all from Walter Johnson on down to the rawest rookies in the game today, claims Washburn owns "the greatest, natural gifts" of any pitcher who has ever worn a toe-plate.
Cardinal Manager Johnny Keane goes along with Rickey to this extent: Whenever anyone asks him how the Cards will do this year, he replies: "A lot depends on Washburn."
Washburn boosted St. Louis into fourth place Tuesday night with a 2-1 victory over Philadelphia even though he needed a bit of help from Ron Taylor in the ninth inning.
Taylor Finishes
Washburn, a conscientious sort who worries when he walks a batter or gets a pitch in the wrong place, checked the Phils on seven hits Tuesday night but yielded to Taylor after giving up a single to Bobby Wine in the ninth.
The Cardinals handed Jim Bunning his first loss after three straight victories by clipping him for two runs in the fifth on a double by Johnny Lewis and singles by Phil Gagliano, Curt Flood and Bill White.
Washburn shut out the Phils until the eighth when Tony Gonzalez tagged him for a home run.
The Giants maintained their one-game hold on first place with a 2-1 win over the Colts. The Reds defeated the Pirates, 5-4, and the Braves blanked the Mets, 6-0, in the only other National League games scheduled.
Even though Willie Mays and Orlando Cepeda sat this one out because of injuries, the Giants still rolled to their fourth straight triumph with a 10-hit attack against the Colts.

A single by Willie McCovey, Duke Snider's double and a sacrifice fly gave San Francisco its first run off loser Don Nottebart (0-3) in the fourth inning and they pushed across the winning run in the fifth when Jesus Alou singled, stole second and came home on another single by older brother Matty Jack Sanford won his third with Bob Shaw's aid in the ninth.
Robinson Homers Twice
Pete Rose's single with the bases lead in the ninth capped a three-run rally by the Reds that overtook the Pirates. Frank Robinson tied the score in the same frame when he socked his second homer of the game with one aboard. Earlier, Gene Freese hit his third homer of the year for the Pirates and Donn Clendenen his second. Reliever Jim Dickson was credited with his first major league victory while Vern Law, who shut out the Reds through the first six innings, suffered his second defeat.
Warren Spahn was just too much for the Mets as he stopped them on four hits and also contributed a two-run double to the Braves' attack. The victory, Milwaukee's fourth in a row, evened Spahn's season record at 2-2 and was the 352nd of his career as well as his 63rd major league shutout.
Only Eddie Plank, with 64 shutouts, is ahead of Spahn among all-time left-handed major league pitchers. Tough-luck Tracy Stallard went down to his fourth loss compared with one victory. For the Mets, it was 15 out of 18. Losses, that is.

Hartack Dislikes Sports Writers

NEW YORK (UPI) — Bill Hartack today was nursing (a) a sore foot and (b) additional contempt for sports writers.
The tempestuous jockey injured his left foot just before the start of the second race at Aqueduct Tuesday.
Hartack's mount, a fractious filly named Gee Judge, swerved suddenly in the post parade and fell. Hartack, unable to get his foot out of the iron, also went down, suffering abrasions of the left foot.
Even so, Hartack climbed back on Gee Judge and finished fifth. After winding up eighth aboard Gen. Counsel in the next race, Hartack canceled his remaining mounts.
"I can't put any pressure on the foot, and it wouldn't be fair to keep on riding," he explained.
Hartack, who is scheduled to ride Sparkling Johnny in today's Youthful Stakes, is in a bit of a slump at the Big A. He has failed to win with his last 31 mounts at the Long Island track.
Asked Tuesday to explain why he kept reporters waiting an hour to interview him after he rode Northern Dancer to victory in last Saturday's Kentucky Derby, Hartack said, "I had something more important to do."
Signing autographs? "Yes," he said.
"I really feel sorry I kept them (the reporters) waiting," Hartack said. "And I say that facetiously."
The 31-year-old Pennsylvanian conceded, "we're getting better newspapermen now... they're actually learning manners."
"Anything I've done to newspapermen is a reciprocity," he added. "The provocation came from them. They insist on provoking, and as long as they insist I'll insist on reciprocation."

Rice Prexy Tells UofH 'Get Lost'

HOUSTON (UPI) — Rice University president Kenneth S. Pitzer suggested Tuesday night that the University of Houston join other state-supported universities in a new conference rather than joining the Southwest Conference.
The suggestion came after Pitzer announced Rice would not sponsor Houston in its bid to join the Southwest Conference.

Set New Hitting Records

PHS Slugs Sandies, 11-7

By JEFF COHANE
Pampa News Sports Editor
AMARILLO — Gusts, dust, wind and extra-base hits were the order of the day as the Pampa Harvesters outslugged the Amarillo Sandies, 11-7 here yesterday.
Forty-mile-an-hour and up winds made doubles out of singles and home runs out of doubles as the Harvesters established a hatful of new slugging records in making their district record 6-5 and taking a stranglehold on fourth place.
The Pampans set a team record for most home runs in one game-five; most home runs in consecutive at-bats and also in consecutive innings—two by Kenny Hebert; most home runs by consecutive batters—two by Claude Middleton and Kyle Vann; and coupled with their five ground-rule doubles which hopped over the fences, most extra-base hits in a district game—10.
Jim Arthur, battered by the batters and buffeted by the wind, staggered through to victory, going the route as he gave up 12 hits, including two home runs to shortstop Bob Pitts and struck out 13 batters. Big Jim added a home run of his own for three hits in the game, matching battery-mate Shotgun Gregory who slammed out a pair of doubles and a single. Arthur held behind in the early innings, giving up a homer to Pitts and a triple to Mickey Vaclav for two runs in the first and then the Harvesters came back with one in the top of the second on Gregory's double and Arthur's single.
Pampa then went crazy in the third inning for six hits and five runs, driving starter Stan Dodge to the showers. Center-fielder Hebert made his farewell to Sandie fans as memorable as any of his assaults on

RECORD-SETTERS — Claude Middleton and Kyle Vann, usually a pair of slick-fielding infielders, showed the other side of their natures yesterday, in Amarillo when they hit back-to-back home runs for the Pampa Harvesters, the first time two PHS batters have accomplished the feat and also the first time either

their athletic ability has been in the past three years with a home run over the center field fence, following shortstop Vann's leadoff single. Molberg and Gregory singled, Arthur doubled and Ricky Maynard greeted reliever Jerry Hunt with a two-run single.
Ben Hankins' triple, a walk, hit batter and Don Howell's single got two of the runs back for Amarillo in their half of the frame, but the Harvesters broke their backs in the fourth.
Claude Middleton, who had belted one to the centerfield fence in the second inning, proceeded to clear the left field fence this time, the first home run of his baseball career. Vann then made it two in a row and his first four-bagger in high school over the left field fence. Hunt managed to get one out, but Hebert then came through with the third slammer of the inning, a line drive over the right field fence, which was too much for the dispirited Hunt.

10th Anniversary Of Miracle Mile

LONDON (UPI) — Ten years ago today at Oxley Road Stadium in Oxford, Roger Bannister astounded the world by becoming the first man to run a mile in less than four minutes and he marked the anniversary by forecasting that eventually someone will do it in 3:45.
Now a consultant neurologist at a London hospital, Bannister recalled how he felt after his record breaking performance.
"I remember thinking at the time what a great thing it was," he said, "then, I also recall thinking that once broken, there would be a lot more to follow me. The four minute mile was a psychological barrier."
Since May 6, 1954, 42 men, including Bannister, have broken the once seemingly insurmountable barrier a total of 142 times, with the current record of 3:54.4 owned by New Zealand's Peter Snell.
Bannister is not surprised at the number of men who have run sub-four minute miles and believes that "with better training, times will go on improving. I have no difficulty in forecasting a mile being run in three minutes and 45 seconds."
"There is no absolute limit," the 35-year-old physician went on, "in the sense that someone will always come along to cut a tiny fraction off the previous best. But there must ultimately be a maximum to man's ability to incur oxygen debt."

Spahn Says Shutout 'Matter of Survival'

MILWAUKEE (UPI) — Warren Spahn, the 43-year-old dean of major league pitchers, held court in the Milwaukee Braves' locker room after posting his 63rd career shutout Tuesday and frankly admitted the effort may have been one of "survival."
"Do you know," he said, "this is the first time I shut these guys out. I think I've shut out every club in baseball, but these guys—all of them—have really given me trouble."
Spahn, 6-0, four-hit victory over the New York Mets was the 352nd win of his career. It evened his season record at 2-2. Spahn, the major league's all time winningest lefthander, now needs just one more shutout to be tied for the southpaw lead in that department. Eddie Plank, who played with the old Philadelphia A's and the St. Louis Browns between 1901 and 1917, has 64. Despite his performance, Spahn would rather talk about the young pitchers on the Milwaukee staff. The rest of the starters range in age from 23 to 26.
"We don't need any outside help," Spahn said, referring to rumors the Braves were dicker-ing for another pitcher. "Let's get this straight. I think we've got a staff that is as tough as any in the majors."
When asked if the young pitchers' efforts in the last week—a one-hitter, two two-hitters, a three-hitter and a five-hitter—might have caused him to feel it was his "duty" to pitch a good one, Spahn answered: "Duty? No. Survival? Yes. I've said all along I've got to look on this as a matter of survival."

Polly Riley Tops Field

FORT LAUDERDALE, Fla. (UPI) — Six-time champion Polly Riley of Fort Worth, Tex., meets co-medalist Barbara Faye White today in a featured match of the second round of the Southern Women's Amateur Golf Tournament.
Other top pairings had Nancy Roth of Hollywood, Fla., facing Marge Burns, Greensboro, N.C., and Phyllis (Tish) Preuss, Pompano Beach, Fla., meeting Mrs. Jimmy Brass of Orlando, Fla.
Miss Riley won her opening match Tuesday over Mary McCutcheon, Jasper, Ala., 6 and 4, and Miss White, Shreveport, La., advanced at the expense of Ellen Gery, Miami, 5 and 3.
Miss Roth won over Mrs. Robert Monsted, New Orleans, 2 and 1, and Miss Preuss defeated Mrs. Maurice Friedland, Coral Gables, Fla., 6 and 5.
Other notable victories were posted by co-medalist Mrs. Robert Mac Claurin, Savannah, Ga., over Mrs. R. G. Martell, Bossier City, La., 2 and 1, and defending champion Mrs. Paul Hendrix, Tyler, Tex., over Susan Gregory, Pine Bluff, Ark., 6 and 5.

Who Is New Center for Green Bay?

GREEN BAY, Wis. (UPI) — The Green Bay Packers raised an important question Tuesday night when they announced the trade of veteran center Jim Ringo and Earl Gros, a promising fullback, to the Philadelphia Eagles for linebacker LeRoy Caffey and the Eagles' first draft choice next year.
Who is going to play center for the Packers?
Ringo, 32, a perennial All-Pro, hasn't missed a game in the middle of the Packer offensive line in 10 years and was considered the best center in the National Football League.
The only man on the squad with experience at that position is Bob Skoronski, a 6-foot-3, 245-pounder who outweighs Ringo by 20 pounds. The Packers acquired former University of Wisconsin center Ken Bowman and think a lot of him, but it is doubtful the No. 9 draft choice last year can break the lineup of a contending team.
Gros, 24, who played behind the great Jim Taylor, saw little action in his two years with the club. He was the Packers' No. 1 draft choice in 1962, but was relegated to Taylor's stand-in and the kickoff return squad.
Coach Vince Lombardi could not be reached for comment on the trade, but veteran observers saw the deal as the wedge opening the way for more trades.
Caffey, 23, who became a starter on the Eagles' defense last season as a rookie, could be the replacement for Packer linebacker Bill Forester who announced his retirement.

Baltimore's Bunker Typical Teenager

By United Press International
Teen-agers can drive you crazy.
They like to do the twist, drive souped-up cars and listen to the Beatles all day.
There's really no telling what they're going to do next as 19-year-old Wally Bunker of the Baltimore Orioles proved Tuesday night when he calmly walked out and pitched a one-hitter to beat the Washington Senators, 2-1.
Bunker, strictly a thrower yet, missed a no-hitter by the slim margin of Chuck Hinton's fourth-inning single, which he actually got his glove on but couldn't stop. It didn't faze him a bit.
"I had no chance," he said. "There was no time for me to react. It was by me 'like a shot.'"
Called "Bo" by his teammates because they claim he's a dead ringer for Bo Belinsky of the Angels, Bunker struck out four and walked three Tuesday night.
Norm Siebern provided Baltimore's winning margin with a two-run homer in the seventh off Jim Hannan after Washington scored a run in the fourth on Bill Skowron's forceout with the bases full.
Bunker started only one other game for the Orioles and that was on the final day of the 1963 season when he lasted only four innings and was charged with a 7-3 loss against Detroit.
The Yankees moved into fourth place with a 4-3 victory over the Tigers in 10 innings, the Angels ambushed the Athletics, 8-1, and the Red Sox blanked the first-place Indians, 4-0, in the only other American League games.
The Yankees dealt Tiger reliever Larry Sherry his first

AL defeat when they tied the score in the ninth and went on to win in the 10th on Tony Kubek's triple and Bobby Richardson's single. Reliever Steve Hamilton as the winner. Dick McAuliffe homered for Detroit; Joe Adcock hit his first two homers of the season and Dean Chance hurled four hitless innings in relief to lead the Angels to their victory over the A's. Chance saved the victory for Barry Latman, who ran into trouble in the sixth. Bobby Knopp also homered for Los Angeles.
Dave Morehead struck out 10 and limited the Indians to five hits in gaining his first win for the Red Sox after two defeats. Carl Yastrzemski singled home a run off loser Pedro Ramos (1-1) in the first inning and that was all the margin Morehead required.

Glover Wins 7th for AC

LEVELLAND (Sp1) — Jerry Glover coasted to victory behind a double-figure run budge as the Amarillo Badgers took their fifth straight doubleheader victory yesterday, 20-4 and 7-6, over South Plains.
The Badgers' all-conference pitching pair of Glover and Mike Westbrook made the Western JUCO baseball lead even firmer with a 12-2 district mark. Glover was never in trouble as he won his seventh game against a single loss, but Westbrook was forced to go nine innings before recording his sixth win against no losses.
Glover struck out eight and scattered seven hits as his mates got him four runs in the first inning of a loosely-played game and nine more in the third, Jerry helping the rally along with a three-run homer. The Pampa ace added a double in his game, then an RBI single while playing third base in the nightcap. Ronnie James pulled the second game out of the fire as he drove in the winning run with a sacrifice fly.
Amarillo hosts NMMI Saturday in a twin bill postponed from last weekend.

BILLS SIGN BACK

BUFFALO, N.Y. (UPI) — The Buffalo Bills of the American Football League announced Tuesday the signing of Hagood Clarke III of the University of Florida, a 6-foot, 190-pound defensive back picked 18th in the 1964 draft.
A native of Miami, Fla., Clarke was seventh choice of the National League San Francisco 49ers.

Sporting Sidelines

by JEFF COHANE

JERRY GLOVER, the former great Pampa High, Pampa Rebel and Pampa Colt pitcher, spent some time visiting in the press box last Friday, as his Amarillo College Badgers had the weekend off due to the Western JUCO track meet in New Mexico.

JERRY GLOVER

Big Jerry, who has compiled a 6-1 mark in leading the Badgers to the top of the conference heap, was high in his praise of teammates and his coach, Bob Carter. "Coach Carter really knows his stuff," said the big boy, "and it's a fine team. Pitcher Mike Wesbrooks (5-0) and I make a pretty good team, and it's a great gang behind us. Most of them played in district 3-A last year and it's like old home week." Glover and Wesbrooks were named All-Conference pitchers last week.

Jerry is expected by dad Tom Glover to again be the mainstay of the Pampa Colts this year. He was the number one hurler for the Colts when fresh out of high school, and outpitched several of Liberal's and Woodward's aces from the University of Oklahoma.

Incidentally, another Colt hurler, Royce Harnsberger, also sent his regards along. Royce's basketball teammate at Wayland College, Andy Hubbard, stopped by for a visit while seeing about the Lefors basketball coaching job, and sent the best wishes of the Harnsbergers. Andy says that with Wayland having dropped baseball, Royce is on the golf team! The elder Harns, brother of Harvester hurler Carl, is expected to be back in action for the Colts this summer.

A FACT SHEET from the Big 33 Football Classic, matching Texas and Pennsylvania All-Star teams, on which Pampa's Kenny Hebert will play, reports that this is the seventh annual interstate game for Pennsylvania, although the first time they are meeting Texas. If memory serves correctly, Texas teams used to play Illinois all-stars some years back before the UIL clamped down. As far as this game is concerned, Dr. Rodney Kidd, president of the Texas Interscholastic League, has said "We neither approve or disapprove of the game." This actually gives an okay, otherwise they would loudly disapprove. However, since the team is limited to seniors, only NCAA sanction would be necessary, and this has been given.

Although the roster cannot be officially released until players complete their high school eligibility (example: Kenny and Stan Robinson of Tascosa are still playing baseball), all but two nominations have already been made. The team has been handpicked to suit coach Bobby Layne's plan of attack—the pro-type offense. Recommendations from college coaches were sought to fill this need. The committee reported that Hebert's strongest college recommendation, in addition to his chosen school Houston, was from SMU.

THE HORNED FROGS of TCU lead in placing on the team, with six futures on the roster, followed by Houston and UT with four each. Three are from Baylor and two from Texas Tech and also OU, plus one each from most of the major southwestern schools, including one from West Texas State.

IT'S COMING ON youth baseball time as the Babe Ruth and Little Leagues gird their loins and prepare for their respective seasons. A word of forewarning: please do not blame the News for any misspelled names. All names on rosters, report sheets and line scores are spelled exactly as they are given by the coaches and leagues, unless the sports department has a personal acquaintance with the youngster and the proper spelling of his name.

SPEAKING OF youth baseball, a prominent worker in that field and News photog Bill Treloger are no longer speaking. Seems Red Dog (oops, sorry, no names) called a runner in a high school game and when Froggy's camera clearly showed the boy to be out. Said red-headed ump has threatened to kick dust in Bill's face before every call from here on in. . . .

FAITHFUL CORRESPONDENT Ralph Palmer reports that his OU freshman track team continues undefeated in relays, having won the 440 at Drake in 41.8 and the mile in 3:20.5. Rapid Ralph is also high on the abilities of Jim Jackson, former Lubbock Dunbar star who may run for the Pampa Track Club with Ralph this summer. Jackson was released from

spring football training in time to get three days practice for track before the meet, won the 100 in 9.8 and ran the anchor leg for the sprint relay team.

DUGGAN SMITH was in complaining that he doesn't get his name in the column lately. Sorry, Dug, you haven't been getting in trouble.

Quail Grabs District Flag

MOBETTIE (Spi) — Deadly Dale Morris clinched another district baseball pennant for Quail yesterday as he hurled them to a 13-2 victory over the Mobettie Hornets.

Morris was touched for eight hits, but came through in the clinches to kill Hornet threats, while his mates got two home runs and five doubles among their nine hits, being helped along by seven Mobettie errors.

The Hornets opened the game with two runs on singles by Gerald Gudge and Eddie Vowell and a double by J. L. Gudge. Quail went ahead in the third on three straight doubles and then wrapped it up with a three-run homer by Kennedy and a two-run four-bagger by Harris.

Quail (5-0) plays Samnorwood (2-3) next Tuesday while the Hornets figure to grab second place as they (2-3) play at Hedley (0-5).

The Pampa Daily News

A Watchful Newspaper EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing.

What Are You Leaving?

The following was sent to the Le Sueur (Minn.) News-Herald by one of its readers, with the request to reprint it. We think it good enough for Pampa News readers to think about, too.

You just sit still and listen. I'm not very smart yet, but I'm smart enough to see what you are doing to the country in which I must grow up and support my family.

When I do that, will I be allowed to be myself or will I be a social security number in a government file?

When I get sick, whose doctor can I go to, my doctor or the government doctor?

When I go to school, who is going to decide what I learn, my mother and father or a government bureau?

When I am able to afford a house, will I be able to build one just as good as I can make it, or will it be a government-built house, worth only part of what the government taxed me for housing?

What makes you think it would be "bad" for me to have to make my way in competition with others?

No Risk—No Progress

Writing in the Dayton, Ohio, Daily News, Oliver W. Brown Jr., says: "Dr. Thomas P. Sharkey of Dayton believes mountains of governmental paper work and red tape may greatly delay the use of helpful new discoveries for the treatment of diabetes."

Dr. Sharkey is president of the American Diabetes Association. And the reason for this somber attitude is found in new regulations imposed by the Food and Drug Administration some months ago.

"The regulations put a penalty on the conscientious investigator. There's no elasticity in this. It's an all or none law."

These regulations, needless to say, are not confined to research in the field of diabetes or any other ailment. We cross the entire spectrum of drug development and experiment. And they are the sort of regulations which, in all probability, would have prevented the

production of such valuable drugs as the cortisones, penicillin, and others had they existed in past times. The problem, basically, is this: Absolute safety and effectiveness in drugs cannot be guaranteed—there is some element of risk in every forward looking human endeavor. And if we attempt to achieve that absolute, progress will inevitably come to a stop.

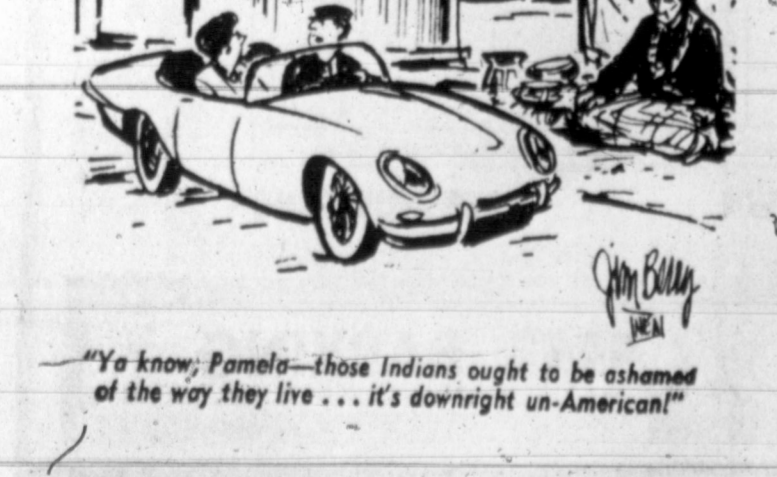

The drug industry, in full cooperation with the interested government authorities, seeks the highest possible level of safety that is commensurate with research and experiment. It is this policy that has led to the production of drugs which, literally, have done wonders for millions of people. They have alleviated untold misery and pain, and prolonged life. We must not allow a regulatory policy—no matter how well intended—to stand in the way of this vast and continuing effort.

Will History Repeat Here?

The average age of the world's great civilization has been 200 years. These nations progressed through this sequence:

From selfishness to complacency
From complacency to apathy
From apathy to dependency
From dependency back again to Bondage

In 16 years our United States will be 200 years old. This cycle is not inevitable—it depends upon YOU! — Reprinted from Manage Magazine, January, 1961.

Straight Talk

By Tom Anderson BRINGING THE UNIONS IN LINE

Ask your congressman to support a law to: 1. Guarantee to all Americans the right to join—or not to join—a labor union.

2. Provide secret ballots by union members in selecting their officers and deciding union policies. (No other votes to be counted.)

3. Provide for election every two years, with provision that 51 percent of membership can call an election any time.

4. Make all secondary boycotts illegal and subject to heavy fines and imprisonment.

5. Insure real two-way bargaining at the local levels.

6. Make union dues, fees and assessments be protected, audited and accounted for publicly. Union health, welfare and pension funds should be protected the same way as bank deposits and insurance funds.

7. Allow strikes to be ordered only by a majority of members balloting secretly.

8. Make unions subject to the same anti-trust, taxation, restraint-of-trade and monopoly laws as are corporations.

9. Protect union members in a minority from retaliation by those whom they have opposed.

10. Make Reds and racketeers unwelcome in unions by denying them the right to hold office.

11. Prohibit employers from deducting union dues or assessments from wages of employees (the "check-off").

12. Make it illegal for unions to collect fees and assessments from members for political activities.

13. Make unions subject to the same limitations on political contributions and expenditures as are corporations.

14. Make featherbedding and showdays illegal.

15. Make picketing activities illegal by any except workers from the struck plant, whose future jobs could depend on legal, peaceful picketing. Regulate lawful picketing, and prohibit anyone from interfering with a worker's right to work; prohibit use of force, threats of violence or intimidation, subject to fine and imprisonment.

16. Prohibit national officers from taking over local unions without membership approval and from creating "paper locals" to perpetuate themselves in power.

Threat to Freedom Huge monopolistic unions are a far greater threat to American freedoms than are business monopolies. The AFL-CIO marriage should be annulled. It's no more legal than a merger of Chrysler, Ford and G.M.

The government has questioned the merger of numerous businesses, some of them doing not more than 3 percent of the total business in their industry. But the government didn't have the guts to prohibit the AFL-CIO labor monopoly. The 17-million member AFL-CIO is a merger led by bloody-handed conspirators who have killed, maimed, robbed, pillaged and pilloried citizens and governments and thrived on it.

Labor likes Big Government, because it can trade with Big Government more effectively and vice versa—and the little people (the great unorganized majority) get hurt. Big Labor, Big Business, Big Government and Big Spending go together like muttniks and poison. They feed on each other until Freedom is put agonizingly to sleep and Liberty sputters out.

THE MISSING WITNESS — This unexpected good news was given President Johnson when the committee decided to wind up its hearings this week without requesting the return of Ambassador Henry Cabot Lodge to testify on ways of stepping up the war in South Viet Nam.

Representative Morgan ruled against Lodge's recall after a series of private consultations with the President and Secretary of State Rusk.

They advised Morgan that Lodge had not asked to return, and saw no reason to seek his testimony as requested by Representative Edna F. Kelly, D-N.Y. Mrs. Kelly, who isn't happy with the way the war is going, asked that Lodge be brought back so committee members could question him first-hand.

As a compromise solution, the President and Morgan agreed that if Lodge should want to brief Congress later, he would be recalled and given a hearing at a special session of the House committee.

The question of whether Lodge will be recalled to testify before the Senate Foreign Relations

Allen-Scott Report

President Promised House Victory on Foreign Aid Bill in Committee and Probable Swift Passage With No Major Cuts

WASHINGTON — President Johnson's resounding effectiveness in persuading Congress to approve his legislative proposals appears to be doing equally well for his highly controversial foreign aid program.

House Democratic leaders have assured the White House of a smashing first-round victory when the Foreign Affairs Committee votes on the administration's \$3.4 billion foreign aid authorization request next week.

Representative Thomas Morgan, D-Pa., chairman and the leaders' foreign aid spokesman, told the President his committee will vote an estimated \$3.2 billion—keeping the program cutbacks at the smallest amount in the past five years.

He stressed that the \$200 million reductions would be limited to the \$2.4 billion economic assistance, with the administration's \$1 billion request for military aid being left untouched.

The minor cutbacks in economic aid will be made in the President's contingency fund, which will be cut from \$150 to \$75 million. Other reductions will be voted in the Development Loan Fund and the Supporting Assistance Program, which total \$1.8 billion.

According to Morgan, committee supporters of the President's program have the votes to block any cutbacks in the Alliance for Progress Fund (\$600 million); Technical Cooperation & Development Grants (\$224.6 million); International Organization & Programs (\$134 million); and the other smaller aid programs.

He advised the President that once his committee clears the bill, the Democratic leaders plan to push for swift passage in the House, as their polls now show they can beat back any efforts to make major reductions.

They announced probes show that millions of dollars in U.S. funds and surplus food were mishandled or are missing. In Greece one high official fled the country after AID probes learned that \$13 million could not be accounted for after being turned over to that country for the development of a central food and vegetable market. The project was never begun, and the Greek official is now believed to be in either Switzerland or France.

In South Korea authorities running the local version of the Central Intelligence Agency have helped themselves to several million dollars of U.S. surplus military vehicles and other equipment without U.S. approval. They began their self-help program when the State Department abruptly cut off their supporting funds.

Secretary of State Rusk is the "high government authority" who revealed that the Soviet Union has "assured" President Johnson it has never helped Communist China build a nuclear weapon. Rusk reported that the Soviets claim their help was limited to providing guidance in constructing peaceful nuclear reactors. The Russians also contend the Chinese will not have the capacity to explode a nuclear device for at least another five years. That estimate conflicts with the CIA's time-table, which holds the Chinese will detonate their first nuclear device within the next 18 months.

"Charge!"

Pull Up A Chair

By Frank J. Markey

A metallurgist tells us the reason you get more shaves from the new stainless steel razor blades is because they are coated with a water and heat resistant lubricant, fluoro-carbon compound, that keeps the edge sharp longer.

Now that spring gives us an opportunity to swing a golf club again we're delighted to possess a little device called the Jan-D-Caddy, which holds three golf balls. It clips onto the back of the user's belt, and if you lose a ball you have one instantly. Unlike the golf cart, which we rate on a par with the electric toothbrush, this golf gadget is helpful to all sufferers.

Today's smile: We liked the one about the rural preacher who told his flock: "When you get to Heaven, don't be shocked at seeing a lot of folks there you didn't like when they were living around here. Remember, they're going to be surprised to see you there, too."

The Daily Californian, undergraduate paper at the University of California in Berkeley is the only college newspaper in the country to carry a race track column, complete with handicaps. That place knows the meaning of a "liberal" education.

Science has a new promise for tired mothers, a new way to eliminate shoe polishing. It's a compound that gives leather super-resistance to scuffs and cracks and keeps shoes in good condition indefinitely.

Reported in the New York JOURNAL-AMERICAN: "He said he put up a tight and was hot—one in the right arm and twice in the abdomen." Might have done better if he had kept cool.

Thoughts while shaving: Citizens and business concerns in only six states paid more than half the Federal taxes collected last year. The wealthy states are New York, California, Michigan, Illinois, Pennsylvania and Ohio. They paid \$58 billion out of the \$106 billion collected.

There have been a lot of long-distance swimming records but for endurance we have to tip our bathing caps to Mrs. Myrtle Huddleston, who set a record in 1931 which has never been broken, by keeping afloat for 87 hours. No man ever tied it.

The national debt of the U.S. in 1962 reached more than \$300 billion. If you started piling one dollar bills that amount would make a pile 17,000 miles high. And speaking of money, glance at a \$10 bill and see if you can identify the lone automobile pictured before the Treasury Building. Some say it's a 1927 Hupmobile.

A recent survey shows that during the past 5 years 55 per cent of the 30 million back yard gardens in America have been taken over by men. Prior to that women did the work.

Just to show you what American know-how can do, more coal is mined in Ohio than in India and Pakistan combined, although both of those Asian countries have more manpower and greater natural resources.

H. G. Wells always contended wars resulted from bad teaching of history to

The Clearing House

Articles for this column are preferred to be 300 words or less in length. However, longer articles may be printed. All letters must be signed.

WALK UP STREAM Editor: In a recent letter to Clearing House, yours truly sharply criticized the immorality continually displayed in movies and magazines.

The response to that letter has been most gratifying. It seems that a great many people are aware of this problem and are upset about the lewd suggestive movies now being offered as entertainment.

Many people are also aware of the trend of sex and still more sex which is filling a big percentage of magazines these days.

It is not my wish or purpose to heap abuse upon the heads of local theater owners or magazine stand operators. My own father once gave me this advice: "Son if you want to find out why a stream is contaminated, just walk up stream a piece and see where the filth is coming from."

If we wish to find out why it is often difficult to find a decent family type movie to go to, then perhaps we can use my father's advice and walk up stream a little way, where the movies are made.

When you get to the head of the stream and ask the movie makers why they offer this steady stream of immorality they will say in chorus, "We are giving the people what they want." They will then offer box office figures to prove it. I believe that statement to be erroneous. I believe that there is a spark of divinity in all humanity and if given a fair choice between good and evil, a majority of people will choose that which is good.

Last Friday evening my family attended Walt Disney's, "A Tiger Walks." The theater was jammed with people who had laid their money down for a movie with decency in it, with a promise of good over evil, that virtue is rewarded. I am acquainted with many families who eagerly look forward to the next Walt Disney movie.

Now in my opinion Walt Disney is a fine man, but perhaps what is more important to think about here, is the fact that he is also one of the most successful business men in America. Every movie he makes is financially successful. People lay their money on the line to enjoy the morally clean shows he produces proving that Americans do not demand filth in entertainment, but rather hunger for that which is clean and decent.

HOW TO ADDRESS OUR LAW MAKERS

You may wish to write your senators and representatives in Washington and Austin. Here are their addresses:

(FEDERAL) Rep. Walter Rogers, House Office Bldg., Washington 25, D. C. Sen. Ralph Yarborough, Senate Bldg., Washington 25, D. C. Sen. John Tower, Senate Office Bldg., Washington 25, D. C.

(STATE) Rep. Grainger McIlhenny, House Bldg., Austin, Texas. Sen. Grady Hazzard, Senate Bldg., Austin, Texas.

of that government becoming a nuclear power; it would eliminate the problem of Red China getting into the United Nations; it would solve our Loatian crisis; it would resolve the impasse of the 38th parallel; it would relieve India's fears of invasion.

Before we go too far into 1964 and begin reaching for strained and bloody solutions in South Viet Nam, let us be realistic. Chiang wants to go home. Let us remove our restraining hand. Permitting him to return to the mainland will solve our own problems and be a stroke for freedom that will resound all the way back to Moscow.

HIM AND HER

WASHINGTON (UP)—President Johnson went for those beagle ears again Monday, but all he got was a wag of the tail, no yelps.

The Chief Executive was out for another of his talk-and-stroll tours of the White House south lawn with newsmen when "Him" and "Her," the family beagles bounded out to meet him.

Johnson reached down and gently tugged at "Him's" ears. He did it deliberately, he said, to show that he was not hurting the dog but merely being affectionate.

THE FAIR IN FIERY GLORY—Bursts of fireworks high in the sky create a visual ob- ligato to the water and light display on the ground as the New York World's Fair shows its glamorous nighttime trappings to the public.

Save \$20... Beautyrest Long Boy Sets

- You get unique Beautyrest pocketed coils
- You get 5 extra inches of length
- You get the world's finest mattress comfort
- You save \$20 if you buy now!

Yes, here's your grand opportunity to end barefoot hang-over and save a welcome \$20 in the bargain. And believe it or not there's even more advantages in sleeping on a Beautyrest Long Boy, an advantage such as single bed comfort even in a double bed made possible by those independently acting coils, or such as Beautyrest durability, proven time and time again to outlast other mattresses by 3 to 1. So shop now, save now on Beautyrest Long Boy mattress-boxspring sets.

Twin or full size. Quilted or tufted. Normal or extra firm.

REGULARLY \$179.00 NOW \$159.00 per set during this sale only!

BEAUTYREST by SIMMONS

ORDINARY MATTRESSES have 200 to 300 wired-together springs. Push one down... and the other nearby springs sag down too. They can't support body hollows... give a "hammock" kind of sleep.

BEAUTYREST has over 800 individual springs... not tied together... each is in separate cloth pockets. Each spring works independently to push up under the back... give firm, buoyant support to all parts of the body.

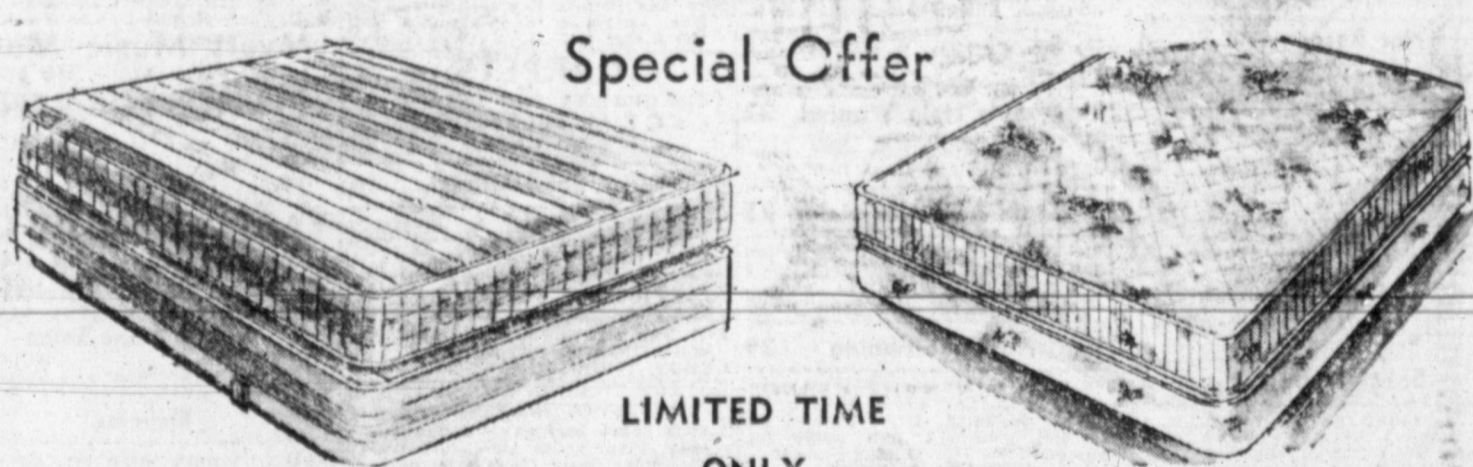

New Bed-Stretcher Rails lengthen your present bed for use with Long Boy Sets.

Engineered by Simmons for fast, easy installation. Pair \$4.88
