DEATH CAR — This Texas Highway Patrol car sits where it came to rest Monday night after it struck a pedestrian, killing him outright, six miles east of Pampa on U.S. 60. The arrow indicates where the body of Billy Mack Wilson, 37, of 809 E. Murphy went through the windshield of the car. Flying glass cut Patrolmen Vernon Cawthon and Stanley Schneider, both of whom were taken to Highland General Hospital for treatment. The patrol car struck a parked car with four other persons inside, but no one was injured. Wilson's death was the first on Gray County roads this year.

Pampa Man Killed When Struck by DPS Patrol Car

By GLENN McCASLAND
A 37-year-old Pampa resident was killed about 7:50 p.m. Monday when struck by a Texas Highway Patrol car six miles east of Pampa on U.S. 60. Billy Mack Wilson, 37, of 809 E. Murphy was dead on arrival at Highland General Hospital after being hurled into the air and through the windshield of a Highway Patrol car driven by Stanley Schneider of Pampa. The death was Gray County's first traffic fatality for 1964. Schneider and his partner, Patrolman Vernon Cawthon, were both injured, but not seriously enough to require hospitalization. They were treated for cuts about the face and eyes and released.

Sgt. J. W. Wilson, who investigated the collision along with Patrolmen Bill Lusk and David Croslin, both of Shamrock, Deputy Sheriff Jim Bowers and City Police Lt. Bill Robinson, said the mishap happened while the officers were on a call. The patrol car also struck another automobile, which was parked on the pavement of U.S. 60, causing damage estimated at \$650 to the patrol car and \$150 to the parked car.

Wilson died of extensive injuries. Justice of the Peace Nat Lunsford said, including a severed leg and crushed chest. Sgt. Wilson, who is not related to the dead man, said the dead man apparently was walking from the parked car to another vehicle, operated by Ben Loveless, a nurse's aid at one of the Pampa hospitals.

The patrolman pieced this story together. Cawthon and Schneider received a call from Pampa police headquarters that an automobile occupied by a "number of intoxicated persons" was proceeding towards Miami, after being pulled from a ditch by a farmer in the area. The officers proceeded from the downtown Pampa area to U.S. 60 in an effort to overtake the automobile.

Decker said Glass walked into the district attorney's office and asked "what can you tell me about this guy, Jack Ruby?" An assistant in the office called officers and found the pistol.

"I think Glass needs a psychiatric examination," Decker said. "His answers didn't make sense." Ruby, who was in the process of moving from the court room to his jail cell when Glass was arrested, was closely guarded and persons entering the court room are searched.

Man Arrested At Ruby Trial

DALLAS (UPI) — A pistol-packing Oregon lumberjack who mumbled incoherently about the Jack Ruby murder trial, was held today by Sheriff Bill Decker on charges of carrying a concealed weapon. David Conrad Glass, 39, of Beatty, Ore., was arrested Monday in the Hall of Records, next door to the Dallas County court house where Ruby's trial for killing Lee Harvey Oswald is being held.

Decker said Glass walked into the district attorney's office and asked "what can you tell me about this guy, Jack Ruby?" An assistant in the office called officers and found the pistol.

"I think Glass needs a psychiatric examination," Decker said. "His answers didn't make sense." Ruby, who was in the process of moving from the court room to his jail cell when Glass was arrested, was closely guarded and persons entering the court room are searched.

Demonstrators to Go Before Judge Today

By United Press International
About 150 civil rights demonstrators, amid evidence of growing dissension among their leaders, were scheduled to appear in a New York City court today on disorderly conduct charges. More than 350 others arrested during sitdown demonstrations last summer at a construction site in Brooklyn faced a judge Monday. There was apparent disagreement over whether the group should plead guilty or innocent.

Reds Wage Campaign Of Fear in Viet Nam

By NEIL SHEEHAN
UNITED PRESS INTERNATIONAL SAIGON, South Viet Nam (UPI) — A campaign of Communist terrorism was said to be causing widespread fear and apprehension today among the 1,800 American dependents here but U.S. officials said they do not plan to ship the dependents home. Informed sources said 20 American civilian government employees have asked that their families be removed from South Viet Nam following terrorist incidents Sunday and Monday that left three Americans dead and 49 injured, including women and children. A U.S. Embassy spokesman indicated permission probably would be granted to dependents who want to leave but they will have to pay their own way.

Stringent security measures were taken wherever Americans congregated in the city. Barbed wire barricades manned by U.S. and Vietnamese guards with carbines and submachine guns were thrown around the American school, bowling alley, embassy, hospital and military barracks. Joint American-Vietnamese military patrols circled through the city in jeeps and trucks. Vietnamese and American observers said that any mass departure of U.S. dependents would be a blow to American prestige in the war against the Communist Viet Cong guerrillas.

The latest terrorist attack occurred Monday when a grenade was hurled at the car of a U.S. Army officer. The grenade bounced off the car's windshield and exploded nearby and the officer received only minor scratches.

Red Korea Wants Admission by US On Truce Break

SEOUL, Korea (UPI) — Communist North Korea today told the United Nations Command (UNC) it would deal "leniently" with two U.S. Army helicopter pilots it has held for nine months if the UNC admits they violated the Korean truce. In a letter to U.S. Gen. Hamilton H. Howze, UNC commander, the Communists said the United States must "admit grave criminal acts on its part" in order to get the "lenient" treatment. The letter, which did not offer to release the men, was under study by UNC officials.

Dallas' King of Diamonds Takes Another Trick

DALLAS (UPI) — The infamous King of Diamonds apparently is back on the job. The thief, who allegedly has been responsible for the loss of hundreds of thousands of dollars in jewelry in north-west Dallas' "diamond belt," was believed to be the one who struck Monday at the A. O. Phillips home. Monday's thief rifled a jewel box of about \$15,000 in precious stones. "This burglary follows the pattern of the other major jewel losses," said detective C. R. Dellinger.

Commission Delays Decision on Sewage

No decision will be made on steps to remedy Pampa's inadequate sewage system until work on cleaning tanks at the sanitation plant is completed. City Engineer Harold Foreman told the city commission this forenoon that work has been resumed after having been delayed by the weather.

Survey Set For Hobart Street Area

A survey of traffic control lights along Hobart St. along with a count of automobiles near the Coronado Shopping Center was recommended Monday by the Pampa Traffic Commission.

Preston Fowlkes, a member of the commission, told its members that a complete study was needed in order that his committee bring recommendations to the group about directional lights at various corners.

At the same time, Harold Foreman, city engineer, said that the traffic problem at the shopping center would not be solved until a complete count could be made of traffic along the street in that area. He suggested the commission defer any recommendation until this survey is made.

A report was heard from Police Chief Jim Conner about traffic education, for the public (See SURVEY, Page 3)

Conferees Seek End Of Spilt on Amount

WASHINGTON (UPI) — House and Senate negotiators were expected to reach agreement today on a compromise bill providing for the biggest tax cut in U.S. history. Only a few loose ends remained to be tied as the conferees scheduled a closed session to iron out differences between the House's \$11.2 billion bill and the Senate's \$11.8 billion measure.

Rep. Wilbur D. Mills, D-Ark., chairman of the House Ways & Means Committee and head of the 14-member conferees group, said the negotiators could finish their assignment sometime today.

The conferees, in two previous sessions, rushed through tentative agreement on provisions designed to channel benefits from the tax cut to the consumer as soon as possible. The first bulge in paychecks could show up in about three weeks.

President Johnson eagerly awaited their finished product. He has vigorously urged passage of the tax cut as a means of stimulating the economy to a new record-breaking growth rate.

The tax bill, originally requested by the late President John F. Kennedy, would cut the federal income tax bill of most Americans by an average of 20 per cent.

Two-thirds of the rate cuts for individuals would be effective this year, retroactive to Jan. 1. The remainder would go into effect Jan. 1, 1965.

The legislation would cut individual income tax rates from the present range of 20-to-91 per cent to a lower range of 16-to-77 per cent retroactive to Jan. 1. This would drop further to 14-to-70 per cent on Jan. 1, 1965.

The bills also would cut corporate income tax rates from 52 to 50 per cent this year, then to 48 per cent when fully effective next year. None of these issues was in conflict in the two bills.

Mrs. Oswald Claims New Evidence

NEW YORK (UPI) — Mrs. Marguerite Oswald, mother of the man accused of killing President Kennedy, says she has "additional documentation" to prove her son was a "government agent" who died an "unsung hero" at the hands of Jack Ruby.

Mrs. Oswald said Monday that her son, Lee Harvey, gave his life for his country as a federal agent, possibly with the top-secret Central Intelligence Agency (CIA).

In reference to Ruby's murder trial in Dallas, she said he "should be given a life sentence if he is proved guilty. By that I mean a life sentence without parole. That is a real sentence."

WHICH ONE'S THE CHOICE? — Barry Peterson, center, is like most Pampa High School male students today. He's torn between choices as TWIRP Week continues at the school. Here Julie Hofess, left, and Patsy Holloway attempt to pull Peterson apart in a "fight" to claim him as a date during the week. TWIRP stands for "The Woman Is Requested To Pay" and boys at PHS are taking full advantage of the week. The battle for boys will end Friday night with a Hootenanny party at the school.

Supreme Court Rules In Redistrict Case

WASHINGTON (UPI) — The Supreme Court ruled Monday in a precedent-setting Georgia case that congressional districts must be as nearly as equal as possible from a population standpoint to avoid unfair voting apportionment.

The decision held that Georgia had discriminated against city dwellers voting for House members and overruled a lower court opinion that the issue was one for Congress to settle.

In general, the ruling applied the voting apportionment doctrine of "one person, one vote" to the election of U.S. congressmen.

Six of the justices joined in the majority opinion. Two dissented on grounds that there was no constitutional mandate on the courts to rule that congressional districts within a state must be equal in population. Justice Tom C. Clark filed a separate opinion in which he differed with both sides.

Speaking for the court, Justice Hugo L. Black said it may not be possible to draw con-

gressional districts "with mathematical precision", but he said "that is no excuse for ignoring our Constitution's plain objective of making equal representation for equal numbers of people the fundamental goal for the House of Representatives."

"That is the high standard of justice and common sense which the founders set for us," the opinion said.

The case now goes back to a special three-judge federal court in Atlanta for a decision on what steps should be taken to correct the situation.

HIS WIFE TOO

ETON WICK, England (UPI) — Eric Hughes, an ex-burglar who stole more than \$840 cash from Ernest Lynch, apparently was not content with the loot only.

He was cited Wednesday as co-respondent in the divorce case brought by Lynch, who also accuse Hughes of making love to his wife after robbing him.

LBJ's Conference With Mateos Will Include Ike

WASHINGTON (UPI) — President Johnson's conference this week with President Adolfo Lopez Mateos of Mexico will include a meeting with former President Dwight D. Eisenhower, the White House announced today.

The President and Lopez Mateos will meet in Los Angeles and Palm Springs Friday and Saturday. Their business talks will be held in the desert resort of Palm Springs with a joint communique scheduled for late Saturday morning.

The two chief executives will meet Eisenhower Friday afternoon at the Eldorado Country Club in Palm Desert, Calif., about 18 miles from Palm Springs. Eisenhower is spending the winter at the club.

Aside from saying that Johnson definitely would be back in Washington Monday, Feb. 24, White House Press Secretary Pierre Salinger declined to give his destination out of Los Angeles until later this week. There has been some speculation Johnson might fly to Austin, Tex., to spend Saturday night and Sunday on his ranch at Johnson City.

ACCEPTS RESIGNATION

WASHINGTON (UPI) — President Johnson Wednesday accepted the resignation of August Heckscher as White House consultant on the arts.

But the President said the White House would continue to be interested "in this important field." Johnson recently named a committee to review the relationship between government and the arts.

Man Hospitalized For Stab Wound

Pampa man was admitted to Highland General Hospital with a stab wound which police said was inflicted by his wife during a fight at their residence morning.

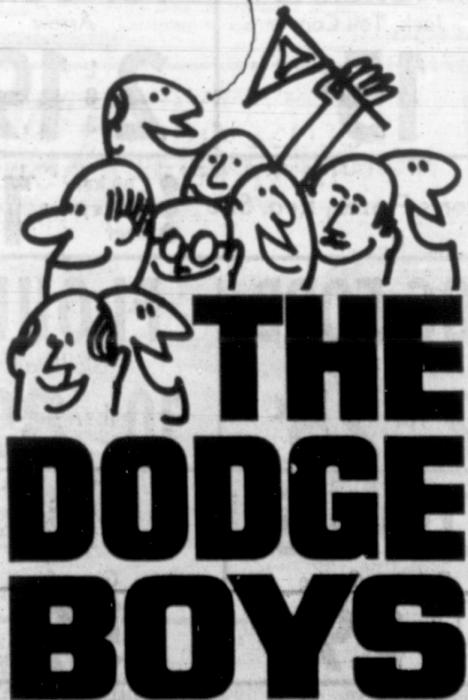

Police Chief Jim Conner said T. Johns of 1500 Alcock was "good" condition at the hospital after suffering a wound to the lower left chest, just below the rib cage.

Patrolman Vance Munday, who investigated, said a paring knife was used and no vital organs appeared to be damaged.

Conner said Mrs. Johns was released from the hospital after treatment for a cut lip which she told Munday was inflicted during a fight with her husband upon his return from a bar about 1:30 a.m.

Conner's said Mrs. Johns was not being held and charges would not be filed until further investigation can be made.

Celanese Man Files for Board

An eight-year resident of Pampa, who is the father of four children, filed late Monday as candidate for the Pampa Board of Education subject to the April 4 election.

Bill McDonald, 38, who resides at 2134 N. Nelson, appeared at the school business office about 4 p.m. to officially place

BILL McDONALD seeks board post

his name on the ballot. He is seeking his first elective office.

McDonald, who is employed by Celanese, told newsmen: "I am running on my own decision and have not been asked to seek this office by another member of the board or individual."

The former Ardmore, Okla., resident said, "I am strongly in favor of open meetings, except when personalities are being discussed, and then the press should be trusted with good judgment and allowed to sit in on these meetings."

McDonald said he had considered making the school board race twice before, but made his decision this year due to what he called "the intense interest" shown locally in board affairs.

A member of First Presbyterian Church and the Evening Optimist Club, McDonald is active in civic affairs.

He lists his children as Cecilia, 18, a freshman in college; Tommy, 14, a ninth-grade student; Tressa, 9, a third grader; and Shelia, 8, a second grader.

McDonald said a formal announcement would be forthcoming within a few days.

Terms of two members of the present board, R. D. Wilkerson and John Gikas, expire with this election. Neither have indicated if they will seek new terms or withdraw from the race.

Obituaries

Susan Alice Baker
 McLEAN (Spl) — Funeral services for Susan Alice Baker will be conducted tomorrow in the Harvester - Mary Ellen Church of Christ at 2 p.m. Guy Caskey, minister of the church assisted by Jay Chancel, minister of the McLean Church of Christ, will officiate. Burial will be in Hillcrest Cemetery, McLean, under direction of Lamb Funeral Home. The body will lie in state at the Duengel-Carmichael Funeral Home in Pampa until service time.

Surviving are her husband, George F. Baker, Sr., of the home; three daughters, Mrs. Goldie Reynolds, San Angelo; Mrs. Elva Preston, Muskogee, Okla.; and Mrs. Sice Christi, Pampa; five sons, G. W., Ervin and G. F. Jr., all of Pampa; Vernon of Wichita, Kan.; and Arthur B. of Corvallis, Ore.; two brothers, two sisters, and 30 grandchildren.

Earl R. Johnson
 CANADIAN (Spl) — Funeral services for Earl R. Johnson, 72, will be conducted tomorrow at 10 a.m. in the First Presbyterian Church here. Burial will be in Canadian Cemetery under direction of Stickley Funeral Home. Masonic graveside rites will be conducted by the Canadian Lodge.

Mr. Johnson died at 10 a.m. yesterday after a long illness. He retired from the Santa Fe Railroad in 1959 after 47 years of service as a telegraph operator and was a member of the First Presbyterian Church and the Masonic Lodge.

Survivors include his wife, Flo; one daughter, Mrs. Dorothy Taylor, Lubbock; two grandchildren; one brother, Perry Johnson, San Angelo; three sisters, Mrs. Hazel Raymond and Mrs. Viola Gillock, both of Pampa; and Mrs. Mabel Williams of Gary, Ind.

Quezon City replaced Manila as the official capital of the Republic of the Philippines in 1948.

Resident

(Continued From Page 1)
 Schneider was taken to Highland General by Miss Loveless after officers called Pampa police to send an ambulance to the scene. Cawthon stayed at the accident until Wilson and Pampa Police Lt. Bill Robinson arrived. He was taken to the hospital by Robinson.

Occupants of the parked car Sgt. Wilson said, were identified as Myrtle Moore of Pampa, Peggy Biard of Pampa, Tomm Kent of Miami, and Mrs. Melb Wilson, wife of the dead man.

Wilson requested Deputy Bowlers to take the four occupants of the parked car into custody and they were charged with intoxication shortly afterwards.

Mrs. Melba Wilson was released to the custody of her husband's relatives shortly after midnight.

Patrolmen said the investigation into the accident was continuing today.

Wilson was born June 17, 1927, in Pampa and was educated here. He was a veteran of World War II.

Survivors include his wife, Melba; his mother, Mrs. Eula Wilson, and one sister, Mrs. M. Roberts, all of Pampa.

Funeral arrangements are in charge of Duengel-Carmichael Funeral Home.

56TH YEAR THE PAMPA DAILY NEWS TUESDAY, FEBRUARY 18, 1964

GOP Candidate To Speak Here

Bob Price, Republican candidate for Congress from the 18th district, will speak tonight at a meeting of the Young Republican Club of Gray County.

The session is scheduled at 7:30 p.m. in the Hospitality Room of the Citizens Bank & Trust Co.

Calvin Hall, club president, announced that the meeting is open to the public.

Business on the agenda tonight, Hall stated, will include the election of six delegates and six alternates to the G.O.P. convention March 20 in Galveston.

Peace Corp Man To Speak at Church

R. L. Studebaker, Pampa Peace Corps representative in El Salvador and Central America, will address a Ladies Night meeting of the Methodist Men of St. Pauls Church Thursday.

The meeting will begin with a 6:30 p.m. supper at the church and reservations may be made by contacting Bill Teacher at MO 5-4368.

Theft of Jacket Reported to Police

Marvin Turner of 1136 Juniper St. told police today that a jacket valued at \$40 and a number of automobile papers were taken from his car in the 700 block of West Brown St. last night.

Survey

(Continued From Page 1)
 and in the schools, with a number of recommendations regarding education in the school system about traffic safety.

Conner told the commission that a series of pictures, showing possible accident causes and correct procedures regarding approaches to intersections and other traffic problems had begun in the Sunday Pampa Daily News. He said he wanted to thank the paper for its interest in aiding the traffic education program.

Plans to ask radio stations in Pampa to carry safety spots as well as safety slogans for schools were discussed.

The commission will hold another meeting next month at the Pampa Hotel at which time Fowkes and Foreman expect to be able to bring definite recommendations regarding the Hobart St. traffic flow before the group.

The tonsils may be OK, but what about the tonsures? The artist has doodled in Beatle hairdos on photos of some of the more popular U.S. singers so you can see what the ragmop touch would do for them.

Labor Plans Big Drive on Voting

WASHINGTON (UPI)—The man who heads the AFL-CIO's register-and-vote drive this year is hoping to recruit thousands of volunteer workers and encourage millions more to cast ballots in the November elections. Roy L. Reuther, national director of the campaign, says door-to-door canvassing in the precincts will be emphasized in labor's drive. Although billed as a non-partisan endeavor, the AFL-CIO unions which are expected to contribute \$750,000 to the drive believe it will aid labor-backed candidates for Congress and, presumably, President Johnson.

DOG DEPOSITORY

WICHITA FALLS, Tex. (UPI)—The Wichita Falls dog pound has opened a night depository. Residents can drive to the pound and drop unwanted pets through an opening and into a cage.

Ex-Chief of UP Bureau Dies at 73

LONDON (UPI)—Clifford L. Day, 73, former European manager for United Press and a foreign correspondent for 42 years, died today. From 1945 to 1949, Day was European manager for United Press, becoming general European administrator in 1949 and European coordinator in 1952, a post he held until his death.

GETS ARMY CONTRACT

MINNEAPOLIS (UPI)—Minneapolis - Honeywell Regulator Co. has received a \$4.29 million Army contract to provide ammunition components.

More Comfort Wearing FALSE TEETH

Here is a pleasant way to overcome loose plate discomfort. FASTEETH, an improved powder, applied on upper and lower plates holds them firm so they stay fast, more comfortable. No gummy, gooey, sticky taste or feeling. It's alkaline (non-acid). Does not sour. Checks "plate odor" breath. Get FASTEETH today at drug counters everywhere.

Trial Postponed in Election Case

AUSTIN (UPI)—Trial of the second of two Starr County men charged with absentee ballot stuffing today was postponed until March 23 to give his lawyer time to study the case.

Filberto Salinas, 55, a former deputy sheriff in Starr County, was to have gone before County Judge Travis Blakeslee today on charges filed in 1962 by former Atty. Gen. Will Wilson.

Salinas and Alonzo Hinojosa, 42, both were indicted for allegedly inducing Starr County farm workers to sign absentee ballots, then voting them illegally. Some 1,500 absentee ballots were cast in the South Texas county during the 1962 elections.

Judge Blakeslee granted Salinas a postponement in the case to give his new attorney, J. G. Hornberger of Laredo, time to study the case. Hornberger took the case last week.

Foreign Commentary

By PHIL NEWSO M UPI Foreign News Analyst

Red China's tireless traveler, Premier Chou En-lai, is on the road again, first to Burma, then to Pakistan and on to Ceylon.

As on his just-completed tour of Africa, one purpose of Chou's trip is to promote another Afro-Asian Bandung Conference such as was held in 1955 and was billed as "the first inter-continental conference of the so-called colored peoples in the history of mankind."

Such a conference ardently is desired by Red China and Indonesia, is opposed by India and receives only lukewarm support from Egypt which would prefer a conference of non-aligned nations not limited by color.

Both Egypt and India are said to feel that another Bandung Conference now, far from promoting unity, simply would emphasize differences existing

among Afro-Asian states, such as Ethiopia's quarrel with Somalia, the Indonesia-Malaysia dispute and the deep split between India and Red China. For the Red Chinese the greatest benefit would be the opportunity to press their campaign dividing the world between white and colored peoples.

Burma Uncommitted

Burma, up to now, has been one of the nations uncommitted.

In Burma, glamorized by Rudyard Kipling, Chou was dealing with one of the most individualistic of all Asian leaders.

Kipling, as a foreign reporter, now would be allowed to remain in Burma just 72 hours. In a manner not unlike Indonesian President Sukarno's pursuit of "guided democracy," Burmese leader Gen. Ne Win, is pursuing what he calls the Burmese road to socialism.

The route has included the arrest of some 1,400 political opponents, including former Premier U Nu, and more recently open warfare against so-called "white flag Communists" aligned with Peking.

It has included swift nationalization of both Burmese and foreign business enterprises, the latter mostly British but also numbering among its victims the Bank of (Communist) China.

Limit Propaganda

Distribution of propaganda by various national embassies including Peking's, has been strictly limited. Western contacts, through travel or education are discouraged on grounds that they "subvert the Burmese character."

Meanwhile, foreign aid is welcomed from all quarters. U.S. money is building a junior college, enlarging a Rangoon hospital and helping to build a sewage system. Soviet Russia is contributing a fertilizer plant and assisting in land reclamation.

The Red Chinese have promised \$84 million to go into sugar mills, textile factories, bridges and roads.

Japan is paying \$20 million in World War II reparations and has provided another \$120 million in grants.

Ne Win's foreign policy is based almost entirely on his awareness of Burma's close proximity to Red China. But he is supported by both the United States and Britain on grounds that he is struggling to prevent his country from becoming another Red satellite.

A weakness is that Ne Win has cut the grounds from under popular support, that his military regime lacks the training to handle all the enterprises it has taken over, and that if he falls, the Communists are there waiting to take over.

LBJ AIDE—Dr. Eric F. Goldman, professor of history at Princeton University, has been named by President Johnson to serve as co-ordinator for the reception of the work of the nation's scholars and specialists.

The scanning spot on a television screen travels 342 miles a second.

Amber has been found in coal mines in Maryland, Virginia and New Jersey.

by LYLE C. WILSON
 ted Press International
 best argument in favor
 king a Goldwater-type
 vative the 1964 Republi-
 presidential nominee is
 ned in the election re-
 since 1936.

best argument against
 ics nominating a
 iled or liberal candidate
 in the same returns but
 e more simply stated, like

voters won't elect 'em.
 1936 through 1960, the
 ics nominated and
 with soft boiled nominees.
 won in 1952 and '56 with
 t D. Eisenhower. But like
 neither political fish nor
 tal fowl. Ike was a true-
 popular hero, with a grin
 melt hearts and an en-
 g conviction that politics
 ury business above which
 tended to be.

ers C. Dunn of the Dunn
 y, McLean, Va., has com-
 state charts of the 1936-60
 on returns comparing the
 ntage of the vote for Re-
 an congressional candi-
 with the percentage cast
 Republican presidential
 dates.

Don't Make Image
 are soft boiled Republi-
 in the House of Represen-
 s but they make neither
 policy nor the party
 e. A Republican Congress
 be a conservative Con-
 capable, as in the 80th,
 assing a Taft-Hartley Act
 f putting the brakes on
 ng, so vigorously that the
 nment occasionally lives
 in its income.

urvey charts will show
 Republican congressional
 dates can outrun Republi-
 presidential candidates at
 polls. Consider, for exam-
 Pennsylvania.
 ngressional and presiden-

tial candidates were about even
 in 1936 with 42 and 41 per cent
 of the vote respectively. Republi-
 can congressional candidates
 got 53 per cent of the total
 vote in the 1938 off-year elec-
 tion. With Wendell L. Willkie in
 1940, the congressional take
 was down to 48 per cent. Will-
 kie got 41 per cent of the total
 vote.

Republican congressional
 candidates in 1942 ran unencum-
 bered by a presidential candi-
 date, soft boiled or not. They
 won 54 per cent of Pennsylvan-
 ia's total vote. Two years later,
 1944, the Republican con-
 gressional were severely han-
 dicapped by the presidential
 nominee, Thomas E. Dewey,
 and dropped to 48 per cent of
 the total Pennsylvania vote.
 Dewey scored 46 per cent.

Don't Recover From Dewey
 On their own again in 1948,
 Republican congressional
 candidates took 58 per cent of
 the total Pennsylvania vote. Dewey
 headed the Republican ticket
 again in 1948. The congressio-
 al Republican vote slumped
 to 51 per cent. L. ey's score
 was the same. Republican
 congressmen never recovered from
 Dewey and the 1940-48 presi-
 dential elections.

General Ike carried Penn-
 sylvania in 1952 with 53 per cent
 of the vote but congressional
 candidates were a full percent-
 age point behind him. Ike
 zoomed to 56 per cent in 1956
 and the congressmen got 53
 per cent of the total Pennsylvan-
 ia vote. That was the exact
 point to which they had beat
 back in 1938 from the depths
 of their 1936 despair.

After Ike's modern Republi-
 can administrations, Republi-
 can congressional strength
 slumped fast. On their own
 again in 1962, congressional Re-
 publicans were on top with 51
 per cent.

Much of this should be sweet
 music to the Goldwater-for-
 president fan clubs. If teaming
 a soft boiled presidential nom-
 inee with Republican con-
 gressional candidates doesn't
 work, how about an all-conserv-
 ative team? Might be worth a
 try, anyway.

FROM THE PAST—A touch of Cambodia's rich past is provided by traditional dancers in a parade in downtown Phnom Penh. Cambodia was the site of a flourishing Khmer empire in medieval times.

Wall Street In Review

NEW YORK (UPI) — "The market is rising. The market is falling. Both statements are correct," says Indicator Digest, Inc.

"The Dow-Jones industrial average has made one new high after another, the intra-day high is just below the much-heralded 800 mark. At the same time, more stocks on the big board are in full scale bearish downtrends than are moving up. The appearance of great strength in the industrials last week was due chiefly to the weight of Du Pont. Such strength is highly deceptive and cannot be trusted unless other stocks used in compiling the Dow-Jones average catch the Du Pont fever."

Standard & Poor's says "The stock market has continued to maintain a firm undertone although further adjustment may be needed before it is ready to resume its upward trend. Investors should be on the alert for buying opportunities in sound but relatively unexploited issues."

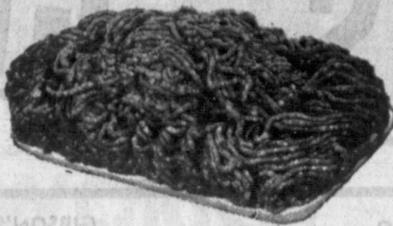

United Business Service says that "after an interval of pause and rest, we believe the market could well extend its gains in coming months, helped by a favorable business picture and added stimulation of a tax cut."

For the near term, Spear & Staff, Inc., looks for a "highly mixed market with no clear-cut over-all trend either in the averages or in most stock groups. Pending further developments, we would continue to remain conservative in investment programs."

FRUSTRATING DEVICE

NEW YORK (UPI) — A theft-prevention device may drive automobile thieves crazy due to frustration, according to a report today in a McGraw-Hill publication.

When the unit is installed, any tampering with the ignition wires locks the brakes. If the brakes are released the fuel supply is cut off. If the fuel supply is adjusted the brakes will lock again and the ignition system becomes grounded.

NOW YOU KNOW

By United Press International
 The Metropolitan Museum of Art in New York is the largest museum of its kind in the Western Hemisphere, housing about 365,000 works of art, according to the World Almanac.

"Where You Always Buy The Best For Less"
2211 Perryton Highway Pampa, Texas

The Pampa Daily News

A Watchful Newspaper

EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better protect and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities. We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself, no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

Near-Sighted Americans

It has come to our attention that Undersecretary of State W. Averell Harriman wants to be more secure. At the age of 72, he has applied for social security even though he is a millionaire and also on the federal payroll at \$22,500 a year.

Under the social security law, an individual is entitled at the age of 72 to full benefits with no restrictions on what he otherwise earns.

So Harriman, if he qualifies, could get the top monthly social security benefit of \$127 plus \$63 for Mrs. Harriman without regard to his State Department salary.

In June, 1934, President Franklin D. Roosevelt in a message to Congress called for legislation to safeguard men, women and children against misfortune. As later set forth by the lawmakers, the main purpose of the social security plan is to provide insurance against interruption and destruction of earning power and protection against those hazards of life which threaten health or economic existence.

Aside from the fact that the taking of money by force is to be another, as provided for in the social security plan, is immoral and a violation of freedom, it is to be wondered in which of the above categories Mr. Harriman places himself. What economic hazards could possibly be threatening his existence?

The Harriman example concies in a nut-shell the reason we have as much government as we do.

It is caused primarily not by socialists, who as a political group are not strong, but by men who do not think through or understand the nature of the taxpayer's burden they believe should come to them.

When it comes to handouts, most Americans seem to have a sort of split vision. They see with great clarity things at a distance. When the other fellow is asking for a handout of some kind, they scream in protest. But when it comes to the benefit they think they are entitled to, their far-sight changes to near-sightedness.

This is the reason socialism is so hard to lick. It isn't that it is desirable or even that re-

For 'Punctuating' Sober Reflection

Maybe you've been so preoccupied with the grim news from trouble spots around the world that you've overlooked such fascinating items as:

- New York City has passed a law making it illegal to smoke in a hotel bed. (Its still legal to burn yourself up in your own bed at home.)
- At least one major airline is now permitting passengers, including the ladies, to smoke pipes and cigars in the planes. (And cigarettes, too, of course.)
- An educator says the naughty child is the creative child. (Makes being good sound pretty stupid, doesn't it?)
- A survey shows that at least 5,000,000 Americans are playing guitars - and that most of them are amateurs. (That may be why it sounds like 10,000,000.)
- Americans spent more than \$530 million for dog and cat food in 1963 - two and a half times as much as was spent for baby food. (Any comment?)
- For the person who just has to brush after every meal, a thoughtful inventor has come up with a dental tablet that you pop in your mouth wherever you are, crush with your teeth, and, then brush. (Of course, you have to run home for your toothbrush.)
- Just-wanted you to know. Now you can go back to worrying about things in Panama, the Congo, etc., etc., etc.

Pull Up A Chair

By Frank J. Markey

Many of the Eastern and Middle Western States have ancient Sunday Blue Laws which are rarely enforced. Most date back to Colonial times, or the period of settlement. Originally they forbade all Sunday activities except works of necessity or charity. Here are a few Sunday prohibitions, but there are a thousand others, equally as humorous to today's society. In some states you can sell your house, but not your furniture. In New York you can attend a ball game, but not a bicycle race. In others you can buy milk, fruit or bread, but no vegetables. And in other places it's lawful to buy pipe tobacco, but no pipe. You break the old-time Sabbath law in Connecticut if you kiss your wife outside your home. So, be careful on Sunday because some officious badge wearer can rightfully accuse you of breaking the law.

Today's smile: A young bride complained to her parents about her husband's drinking. "Well, why did you marry him if you knew he drank so much?" her father demanded. The bride said: "I didn't know he drank at all until he came home sober one night."

Durable and diligent are the words that best describe Ruby Vallee, star of the hit musical comedy, "How To Succeed In Business Without Really Trying," now in its third year as a "hard ticket" on Broadway. The show recently chalked up its 900th performance and Vallee, the star, is the only member of the cast who never missed a performance. "Hard ticket" on Broadway means the show is doing SRO business and tickets are hard to get.

Thoughts while shaving: The American discount house is spreading to many parts of Europe. In Sweden they are called "Obs," an abbreviation of "observer" or observe. Not too long ago Swedish economists said because of the fierce retail competition their country would not be invaded by the discounters, but they were wrong. . . . Lobbying is a big business today in Washington and State capitals, but its origin dates back to Biblical times. The boy David of the Bible brought rich gifts to the young lawyers of that time, and these were not always valuable trinkets, but frequently were highly prized foods such as cheese. No doubt he would have given hi-fi record players and vicuna coats if he had 'em. A headline in the Miami (Fla.) News: "Stay Up And See Nocturnal Bloomers."

Have you seen any of these since great-aunt Eppie wore a mid-dy blouse. . . . A numismatic friend recently showed us one of the few remaining yellow seal currency notes. They were issued in many denominations during World War II and were originally confined to overseas military zones, but later the restriction was lifted and they were distributed freely in the U. S. Few are in circulation today, and most are owned by collectors. When one of the yellow seal bills does come into the Treasury, it is retained there and destroyed.

Allen-Scott Report

Deals Signed for \$90 Million Sales to Poland On Long-Term Credit; Johnson O.K. Starts New Red Trade Policy

Clearing House

Articles for this column are preferred to be 300 words or less in length. However, longer articles may be printed. All letters must be signed.

Editor:

WASHINGTON - The Johnson administration is extending large-scale credit to Russia's Eastern European satellites for the purchase of U.S. grain.

Under a new policy approved by the White House, Undersecretary of State George Ball negotiated this month for the sale of \$90.9 million in U.S. agricultural commodities to Communist Poland on credit terms ranging from 18 months to 30 years.

The U.S.-Polish grain accords, which the State Department plans to use as a model for similar deals with Rumania, Hungary, Bulgaria, Czechoslovakia and Russia, involve sales of wheat, cotton, edible oils, rice and tobacco.

The first agreement provides for interest-free grain sales of \$30.7 million with a 10-year deferment of repayment and a 30-year period of reimbursement.

The second covers credit sales of \$90.2 million with repayment by Poland in three years with no interest charge. In addition, Poland has agreed to purchase another \$30 million in agricultural products from private U.S. traders in 1964.

These latter sales will be financed by private U.S. bank loans, guaranteed by the Export-Import Bank, a government lending agency. The loans are to run for 18 months and can be renewed at the end of that period. The interest rates on the private loans are to be negotiated.

The two agreements, signed for Poland by Deputy Foreign Trade Minister Franciszek Modrzewski, also carry a statement of policy "recognizing the desirability of expanding trade between Poland and the U.S."

These credits are the first of their kind extended by the U.S. to Communist countries. They break ground which could have far-reaching consequences.

In addition to entering into a new type of trade relations with the Soviet bloc, these transactions lay the basis for undermining our long-standing policy of opposing long-term credits to Red-nations.

They also strike directly at this country's vehement objections to trade with Cuba.

CLEARING THE WAY - President Johnson personally cleared the path for the State Department's granting of the "no-money-down, easy-term credit" to the Communist nations when he notified Congress recently that this new policy was in the "national interest."

The President's decision was transmitted in a letter to Speaker John McCormack, Mass., to meet a requirement written into the foreign aid appropriation by Congress last December. The aid rider makes it mandatory that the President rule that the extension of U.S. credit to a Red-ruled nation is in the national interest before it can be granted.

In addition to the Polish grain deal, the President's rul-

ing covers all future grain sales the U.S. is now negotiating with other Soviet satellites and Russia.

The White House ruling already is causing a traffic jam at the Export-Import Bank and the State Department of representatives of other Communist governments seeking details of Uncle Sam's new-easy credit terms.

Negotiations for the extension of credit for grain sales to Russia, Rumania, Czechoslovakia and Hungary are now underway, and agreements may be announced at any time.

A reliable State Department source reports that Russia, after paying cash for its initial grain purchases, now wants credit terms in all future grain deals.

FIFTH COLUMN - A suppressed Defense Department report indicates evidence of a fifth column operating against U.S. soldiers during the recent riots in the Panama Canal Zone.

Prepared for a House Military Appropriations Subcommittee by Deputy Secretary of Defense Cyrus Vance, the report reveals that one sniper who shot at U.S. troops was a Panamanian citizen employed by the Panama Canal Company, stating:

"Ernesto A. Harrison, a Panamanian citizen employee of the Panama Canal Company who served with the U.S. Army July 8, 1952 to July 7, 1954, was reported by reliable sources to have been involved in the disturbances in Colon, January 9 to 12.

"When questioned on January 13, Harrison submitted his resignation. His personnel Action Form SF 50 states that he resigned while being investigated as a sniper in the border disturbances. Harrison has never acquired U.S. citizenship."

Four U.S. servicemen were killed in the riots and more than 40 others injured by sniper fire. Since the incident, the Panamanian government has freed all snipers arrested during the riots.

SUDDEN EXIT - The sudden U.S. departure of Ronnie Ricardo, one of the girls involved in London's Profumo scandal, came within six hours after Representative Michael Feighan, D-O., called the Justice Department's attention to a story in this column stating: "A 'call girl' involved in the Profumo scandal has unexpectedly shown up in the nation's capital." British and U.S. diplomats reportedly "encouraged" the 22-year-old redhead to depart for London immediately, although the Immigration Service had given her two weeks to prepare for a deportation hearing. The diplomats offered their help to keep the Profumo affair from breaking out in print during the White House visit of Prime Minister Sir Alec Douglas-Home.

Consider the greatest man that ever lived; a man about whom more books, stories and songs have been written than any other man. A man whose life has been a symbol of love and consideration, of tolerance and friendship, and of perfect gentility. A man who had rather suffer wrong than to do wrong; to be abused than to abuse; and like a sheep before the slaughter, opened not his mouth. Tell me, if He had fought back, killed, or kept from being killed,

CAPITOL EYE:

U.S. Getting Ready for Nuclear Hit

By RAY CROMLEY

WASHINGTON (NEA) - Below the surface of debate over reliability of U.S. missiles lies a definite scientific problem we are moving with all possible haste to correct.

Responsible missile scientists question after a strong Russian nuclear attack how many missiles we are certain will be usable and accurate. The damage they fear is from radiation and neutrons which would be liberated by enemy blasts.

With conventional circuitry, high-intensity radiation pulses from a nuclear explosion can scramble the memory of a missile guidance computer, prematurely trigger a decision circuit and cause other equipment malfunction.

A one-megaton explosion in space will produce a crippling 10-million-roentgen-per-second pulse more than 110 miles away. Effects of these pulses have been measured through almost a quarter of a mile of earth.

Steps are being taken to correct these difficulties. The Defense Department is installing circuits, tubes, insulation and sensing devices better able to withstand this electromagnetic pulse.

Some components are being sealed in vacuum so there is no air to be ionized and cause stray currents. Components made of metal-ceramic combinations are being substituted for components made of radiation-susceptible organic materials.

Some circuits will be kept at high temperatures to defeat the effects of sudden electromagnetic pulses. Some parts of the missile control system are being rejiggered to operate at higher frequency levels less likely to be affected by the electromagnetic pulse sent out by a nuclear explosion.

Missiles and their sites are being hardened against radiation as well as blast. Shielding is being inserted to protect sensitive components.

The nuclear test ban makes full-scale tests of the new equipment impossible. Small-scale tests have been satisfactory. By mathematical interpolation, the defense scientists reason, the Minuteman and Titan missile complexes probably will stand up - when refurbishing is completed - against electromagnetic pulses sent out by all nuclear explosions, except those that are large and close by.

"But we're not certain beyond all doubt," says one scientist. "And in defense we must be absolutely certain; that's why we're keeping the intercontinental bombers, too."

The reason for lingering doubt is simple. It isn't always possible to know what big-scale pulses will do simply by making small-scale tests and applying mathematics.

Therefore the Defense Department is pushing a series of experimental projects aimed at working out new techniques for testing the effects of nuclear explosions and electromagnetic pulses on the complex electronic

shed blood to keep HIS own from being shed, would you have loved and respected Him as you do? He was a real "He Man" by every standard of measurement.

The Nation's Press

NATIONALISM AND COMMUNISM (Christian Economics)

There are still fine people among us who abhor communism, but have faith in socialism. We commend to their serious consideration the following quotations from authorities in that field:

"Society cannot leap into communism from capitalism without going through a Socialist stage of development. Socialism is the first stage to communism." Nikita Khrushchev.

"Striving for socialism, we are convinced that it will develop further into communism." Lenin.

"Communists work for the establishment of socialism as a necessary transition stage on the road of communism." John Strachey, former Minister of War, British Labor Government.

"From capitalism to communism, through the intermediary stage of socialism; that is the way American society, like society in general, is headed." William Z. Foster, former chairman of the Communist Party of America.

HOW TO ADDRESS OUR LAW MAKERS

You may wish to write your senators and representatives in Washington and Austin. Here are their addresses:

- (FEDERAL)
- Rep. Walter Rogers, House Office Bldg., Washington 25, D. C.
 - Sen. Ralph Yarborough, Senate Bldg., Washington 25, D. C.
 - Sen. John Tower, Senate Office Bldg., Washington 25, D. C.
 - Sen. Grady Hazwood, Senate Bldg., Austin, Texas.
 - Rep. Grainger McIlhenny, House of Representatives, Austin, Texas.

ics of our missile systems. By this same test of reliability, bombers would seem to be even less reliable than the big missiles. That is, a smaller percentage of intercontinental bombers would probably live through an all-out Soviet nuclear attack. Fewer would get through Red defenses.

Polaris submarines should be in better shape. If they're hidden in the sea, far from targets, it's unlikely that large nuclear weapons will explode nearby. The water also helps damp any electromagnetic pulse.

The Pentagon theory, therefore, is that a combination of Minutemen, Titans, Polaris submarines and intercontinental bombers should guarantee there will be enough missiles and bombers workable to defeat the Soviet Union if Khrushchev should attack - or to deter him from doing so.

The original horror story of "Frankenstein" was written in 1818 by Mary Shelley, wife of the poet. During a sojourn in Switzerland, the suggestion was made that members of the house party should write a romance dealing with the supernatural. Byron, who was also present, wrote a tale about a vampire, "Frankenstein" was published in 1818 when Mary Shelley was about 21 years old.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif.

The Doctor Says

Temper gets the best of most of us at times. And the preschool child who has not learned how to handle the ordinary frustrations of life will normally have an occasional tantrum.

He isn't up to doing battle with his parents, so he reacts in the only way he knows how: blind fury directed at himself or the floor. The tantrum may take the form of screaming, stamping, kicking, breathholding or head-banging...

An occasional tantrum is a normal part of your child's discovery of his own individuality. Parents often attach undue importance to these outbursts and are especially resentful if they occur in a public place.

This mother should determine, if possible, what it is that usually triggers such outbursts and then tactfully try to avoid provoking them...

If the tantrum takes place in public, get the child to a quiet spot if possible. Let her know you love her but not the way she is behaving. Don't reward her by capitulation...

KENNY HEBERT
... second team

By JEFF COHANE
Pampa News Sports Editor

Forward Charlie Price of Pampa was named to the first team and Harvester guard Kenny Hebert to the second team on the Pampa News Second Annual All-District 3-AAAA basketball team, selected by the district coaches.

Price finished in a tie for the fifth spot on the honor team and Hebert was knocked out of a chance for the first team on the last coach's ballot, that of Caprock coach Cliff Mehrtens. Although Pampa had set a district record in defeating the Longhorns, 111-47, and although Price and Hebert had both scored over 20 points in each of the two wins against Caprock, Mehrtens did not see his way to naming any Harvester to either the first or second all-district teams, although the pair had been named by every other district coach to one of the two teams.

Other coaches voting were Tom Gilley of Palo Duro, Bob Clindaniel of Plainview, Max O'Hanion of Lubbock, John Ethridge of Amarillo, Tex Hanna of Borger, Ace Parker of Tascosa, Gerald Myers of Monterey and Terry Culley of Pampa. Each coach voted for five players for the first team, awarded 10 points for each vote; and five for the second team; awarded five points each vote. Coaches could not vote for their own players.

Two players were unanimous choices, receiving eight of eight votes, Plainview's 6-8 1/2 junior center Ronnie "Duck" Peret and Amarillo's ball-hawking ace, Sammy Gast. Both were second-team all-district choices last year.

Bill Bogan of Tascosa, second only to Peret in district scoring, was a near-unanimous choice, receiving seven first-place and one second-place ballot. Joe Dobbs, Lubbock's big boy, received five first-place and three third-place votes. Price, third-leading scorer in the loop, and Bob Schmid, Monterey's tall man, deadlocked for the fifth place, Schmid getting five firsts and a second and Price four firsts and three seconds.

The first team actually had four forward-centers and only one guard, as most of the loop's coaches felt that there were more outstanding front-court men this year than ever before and that the five (in this case, six) best boys in the loop should be named regardless of position.

The second team, curiously enough, has four players who ordinarily would be labeled guards, and one center. Buddy Fulgham, Lubbock's leading scorer edged Hebert, two firsts and four seconds to one first and five seconds. The Flying Frenchman, seventh leading scorer in the loop, makes Pampa history by becoming the first Harvester to ever make all-district in three sports, having been named to the all-district football team this past season and to the all-district baseball team as a junior.

Following in order in the second five are Borger center Joe Shelton, sharp-shooting Paul Aday of Plainview and Terry Simpson of Palo Duro.

Two other Harvesters received honorable mention, guard Rick Stewart and center Kerry "Ropes" Roper.

HEADED FOR HOUSTON — Phil Woodring (lower left), Lefors All-State, signs a pre-enrollment application while Cougar assistant coach Melvin Brown smiles happily over the acquisition of the big Pirate. Smiling proudly above Phil is his high school coach, Dunny Goode, next to Phil's parents, Mr. and Mrs. Earl Hendricks. "Slim" Hendricks appears pretty proud, but Mrs. Hendricks appears a little worried about losing her boy.

Phil Woodring Signs Up For University of Houston

LEFORS — All-State end Phil Woodring of Lefors signed a pre-enrollment application to the University of Houston late yesterday.

The 6'3", 185-pound four-sport athlete was signed by Cougar assistant coach Melvin Brown, who rated the tall Pirate as one of the top gridiron prizes in the Panhandle.

Woodring, all-district offensive end his junior year and two-year

all-district his senior year, was named to the Texas Sports-writers Association second team All-State this past season, on the strength of his smashing blocking, accurate pass-receiving and tremendous speed, which caused special end-and-outside plays to be created for him and also had him seeing part-time duty as a halfback. Lefors football coach Dunny Goode said "Phil has been one of the toughest boys I

ever coached. He is a fine player who gives it everything he has, and I know the University of Houston is getting a prize."

In addition to his gridiron ability, "Ferocious Phil" was an honorable mention all-district basketball player as a junior and is in the running for another cage award this season; ran off both the mile relay and the district champion sprint relay team in track, and was an outstanding American Legion pitcher. He is a former Pampa resident, and played in junior high and Little League in Pampa.

Woodring has been interested in the University of Houston since his junior year, and plans to major in Business Administration. He visited the Cougar campus this past weekend and indicated to coaches Bill Yeoman and Brown his plans to attend the school.

His parents, Mr. and Mrs. Earl Hendricks of Lefors were happy that Phil was going to the school of his choice, but "Slim" Hendricks was worried about one item. "I've never missed a football game Phil has played in yet. Guess I'll have to buy a plane now."

Although a number of Pampa boys have attended the University of Houston on athletic scholarships, Woodring is the first Top O' Texas gragger to attend the South Texas school in several years. Brown added however "there is a tremendous amount of fine football talent in this area. Phil is one of the first boys to come to Uoff, but we certainly hope he isn't the last."

NCAA Nabs Top Teams For Post-Season Games

By United Press International

It's open season on basketball teams.

The two major post-season basketball tournaments cast their lines Monday and once again the NCAA came up with the best catch, nabbing last year's two tourney champions, its own Loyola of Chicago and the NIT 1963 champ, Providence.

In addition, the NCAA filled seven other slots with Villanova, Louisville, Creighton, Texas Western, Oregon State, Utah State and Seattle. New York's National Invitation Tournament corralled three schools—DePaul, Pittsburgh and New York University.

The NCAA tournament consists of 26 games, 10 selected on an at-large basis with the remaining 16 being conference champions. The only at-large berth yet unfilled is in the Midwest regionals, which already has Creighton (19-5), and Texas Western (20-2) plus the Southwest Conference winner (probably Texas A&M or Texas Tech).

Eastern Tripleheader

In an Eastern regional tripleheader, Villanova (19-2) ranked fifth in the UPI ratings will tackle Providence, currently on a 14-game winning streak and 18-3 for the season. The Fr'ars won the NIT last March beating Canisius 81-66, for the title.

On the same bill, Temple (15-5), which last week clinched the title in the Middle Atlantic division, will meet the Yankee Conference winner (Connecticut leads by two games) and the Southern Conference winner (Davidson or West Virginia) will play the Ivy League victor (Yale, Princeton and Pennsylvania are co-leaders).

Loyola of Chicago (15-5), which last year upset Cincinnati, 60-58, in overtime, in the finals will be one-fourth of the Mid-East regionals along with Louisville (14-6) and the Mid-American and Ohio Valley Conference champions. These two smaller conference races are still very much in doubt, the Ohio Valley race is a three-team affair between Murray State, East Tennessee and Tennessee Tech. The Mid-American duel involves Ohio U. and Miami of Ohio.

In the Far West regionals, Oregon State (21-3), Utah State (17-3) and Seattle (16-4) battle in first-round play with the Western Athletic Conference titlist (a three-way fight be-

tween New Mexico, Utah and Arizona State).

First Round Ryes

Several conference champions have drawn first-round byes: They are the Atlantic Coast, Southeastern, Big Ten, Missouri Valley, Big Eight, Big Six and West Coast champions. Dates, sites and pairings of first-round games will be announced at a future date.

The NIT's 12-team field will begin action March 12 in Madison Square Garden, where all the games are played.

DePaul won its first 13 games and is now 16-2. The Blue Demons are former champions of the 27-year-old tournament having won in 1945 with big George Mikan leading the charge.

New York is 11-5 after a mid-season slump and Pittsburgh has a 14-6 record.

Spearman-WD Does In Girls Showdown

By RICHARD ULRICH and SUSIE HUGHES
News Sports Correspondents

SHAMROCK — White Deer split a doubleheader here last night, with the WD Does setting up a showdown race tonight with Spearman for district 1-AA honors, as they beat the Lassies, 45-26, while the Irish took a 32-29 victory as Clell Tarbet hit two key free throws in the last 40 seconds of the game.

Breaking open a first-quarter tie, the Does went on to win their eighth game in nine starts, leaving them only one game behind tonight's hostesses, Spearman. A win by the Lynettes gives them the loop title, a win by the Does throws the girls' bracket into a playoff.

Diane Gragg held Shamrock even in the opening quarter, 11-11, but then the entire White Deer team took over to break the game open. Eva Jo Duncan and Coleen Crawford covered Diane like a blanket, holding her to 10 points, her lowest total of the season, while Linda Davis and Carolyn Young alternated stopping the rest of the Lassies' offense. Meanwhile Cindy Hubbard belted in six points and Sammy Denny and Betty Peters four each to move the Does into a 25-16 halftime lead.

The defense continued their stonewall tactics in the second half while Cindy and Betty continued rattling the nets, for a 39-22 third-quarter margin. Cindy finished with 19 points, Betty with 12.

Clutch free throws won a cold-shooting ball game for the Irish, as each team could hit only 11 buckets, WD out of 48 chances as they controlled the rebounds, and Shamrock out of 42. The Bucks could make only seven of 22 free throw attempts while Shamrock hit 10 of 19 for the difference.

White Deer led through most of the first quarter as Dan Simmons put them into an 8-6 lead. Midway in the second quarter, Dickie Reeves pushed Shamrock ahead and they held the margin, 16-13 at the half and midway into the third quarter. Monte Hawpe and Cal Turner hit for the Bucks, and then Simmons put them ahead again on free throws, 39-22 at the three-quarter mark.

White Deer held a one-to-three point lead through the first 7:20 of the stanza, but Tarbet, the oddly-named Irishman, then came through with two one-pointers for a 30-29 lead. Billy Don Riddis clinched the game with two more charities.

Simmons had nine points for WD, Reeves 12 for the Irish. Turner had 15 rebounds and Hawpe 14.

WD, now 3-6, finishes its season at Spearman tonight.

ATLANTA (UPI) — Luke Appling, baseball's newest Hall of Famer, is a 55-year-old grandpappy but he feels as chipper as that day 34 years when he began the major league career that earned him his latest honor.

It didn't take long Monday for word to spread that "old Aches and Pains" had become the 101st member of the Hall of Fame — a position of status awarded him in a special runoff election among the nation's baseball writers.

"It's wonderful, just wonderful," the balding, former Chicago White Sox shortstop said as friends and family poured into his rustic white frame home in North Atlanta.

"I was worried when I heard that only one of the runoff fellows could get in. I was afraid that something might go wrong."

Beat Out Ruffing

Appling, who starred for the White Sox for 21 seasons, won by five votes over former Yankee pitcher Red Ruffing in the runoff ordered after the writers failed to select a Hall of Fame entry in their biennial voting Jan. 22.

Appling, who made no effort to conceal his pleasure, got 189 out of a possible 225 votes. That was 20 more than the 75 per cent needed to have his best placed in the Cooperstown, N.Y., baseball shrine.

Ruffing, with 184 votes, also topped 75 per cent but missed election to the Hall of Fame under a rule that only the winner in the runoff would be chosen.

Roy Campanella, the paralyzed former Dodger catcher, was third with 138 votes. Joe Medwick was fourth at 130 and broadcaster Peeewe Reese a distant fifth with 47 votes. The top five finished in that same order in last month's regular ballot.

"It's the greatest thing that ever happened to me," Appling said, hugging his pretty wife with whom he celebrated his 33rd wedding anniversary last Thursday. "In all those years, I never got to play in a World Series. So this just has to be the greatest."

Won Two Titles

Appling, who coached at Baltimore last year and will be with Kansas City this year, won two American League batting titles — in 1936 with a .388 mark and again in wartime 1943 with .328. Only the fourth shortstop named to the Hall of Fame, he had a lifetime batting average of .310.

"I always loved playing baseball," Appling said. "Even as a little kid I wanted to play baseball more than anything else. It's always been a pleasure to me. I think that if it ever became just work — back then or now — I'd quit."

Appling pointed out that although he acquired the nickname "Aches and Pains" for the many injuries in his career, he seldom missed much playing time. "One year I broke my leg — and still I managed to get into more than 80 games."

Appling Into Hall of Fame

LEFORS — Phil Woodring celebrated his signing with the University of Houston by completing dominating the rebounds last night as Lefors rolled to an easy 77-49 win over Clarendon.

The Pirates, who had won a close four-point tussle at Clarendon, made a shambles out of the ball game, with the second team in for the entire second half, outscoring and outplaying the Broncos. The win clinches third place in district 2-A for Lefors with a 6-3 mark and gives them a chance for a tie for second with McLean if they can beat the Tigers (7-2) in their finale at McLean tonight.

Woodring led a one-man assault on the backboards, scoring on tip-ins on the rare occasions when Terry Bromlow missed a jump shot or Squash McCool a driving layup, and Lefors soared to a 21-12 quarter and 43-22 halftime lead. The starters retired for the evening. Bromlow with 19, McCool 10, and Woodring 10, and the reserves took over, with Larry Pruett, Bill Nichols and Tank Todd leading the way with six markers apiece, pushing it to 64-30 after three quarters.

Tall and talented Clarendon girls opened a 9-0 quarter lead and went on for a 47-21 victory over the Pirettes. Betty Bourland pumped in 23 points for the winners, Wilma Earles hit 10 for Lefors.

Bucs Batter Clarendon, Near McLean

By United Press International

It's 12 in a row now for those sizzling Cincinnati Royals who have decided to try for six more and an all-time National Basketball Association record.

The present NBA record is 17 straight victories, held jointly by the Boston Celtics and Washington Capitols, when they still were in the league.

Oscar Robertson brought the Royals within five wins of that mark Monday night when he scored 45 points in a 129-113 triumph over the San Francisco Warriors before 11,965, largest crowd ever to see a professional basketball game in Cleveland.

The Big O and teammate Jerry Lucas, who picked off 20 rebounds, combined to offset a brilliant performance by Wilt Chamberlain, who not only scored 52 points for the Warriors but also grabbed 23 rebounds.

The St. Louis Hawks ended the Baltimore Bullets four-game winning streak when they overcame a 16-point deficit in the last quarter for a 115-110 conquest.

St. Louis' last quarter spurt was paced by veterans Richie Guerin, Chico Vaughn and Cliff Hagan. Guerin led his team with 24 points although Walt Bellamy of the Bullets topped all scorers with 37 points.

Iron Man Loses In Semifinal Bout

FORT WORTH (UPI) — Veteran slugger Floyd Molina of Fort Worth successfully defended his Texas Golden Gloves crown Monday night edging plucky Ray Garay of Houston in the featherweight division.

The 125-pound Molina will be the only Texas pug to qualify for a second trip to the national finals.

John Phillips, 203-pound heavyweight from Houston, became the first Negro to win a Texas Golden Gloves title. He smashed Phillip Paris of Odessa.

Houston took the team trophy, tying at 14 points with Fort Worth. The host team relinquished its claim to the trophy. Dallas was third with 12 points. There were only decisions in the finals.

Other championship results:

Flyweight — Jessie Rodela, 110, Odessa, dec. Doug Orsbaugh, 118, Fort Worth.

Bantamweight — Manuel Navarro, 117, Waco, dec. Joe Ramirez, 116, Dallas.

Lightweight — Pat Bishop, 132, dec. Freddie Caram, 135, Fort Worth.

Welterweight — Jesse Valdez, 142, Houston, dec. G. B. White, 148, Fort Worth.

Middleweight — Eugene Meek, 159, Corpus Christi, dec. Henry Rodriguez, 154, San Antonio.

Light Heavyweight — David Harman, 167, Waco, dec. Mark Tetsman, 165, Houston.

In semi-finals, Orebaugh dec. Paul Dimarco of El Paso and Rodela dec. Angelo Rosendo of Amarillo in the Flyweight class and Navarro dec. Joe Mata of San Antonio and Ramirez dec. Johnny Ironmonger of Amarillo in the bantamweight division.

Valdez, 16, one of the outstanding fighters in the meet, punished White throughout the finals but took a left hook in the third that staggered him onto the ropes. He recovered quickly and renewed his poised attack.

Senate Looks Over Finley

WASHINGTON (UPI) — American League President Joe Cronin may face Senate questioning today about the baseball loop's running scrap with owner Charles O. Finley on the Kansas City Athletics.

Cronin and National League President Warren Giles were scheduled to testify before the Senate antitrust and monopoly subcommittee on legislation to give all major team sports the same favorable antitrust exemptions now granted baseball.

Although Cronin and Giles were prepared to endorse the bill sponsored by Chairman Philip A. Hart, D-Mich., the subcommittee has shown more than a passing interest in Finley's fight with Kansas City officials over a stadium lease and his attempts to move the A's to Louisville, Ky.

RED RAIDERS SCORE

LUBBOCK, Tex. (UPI) — All-state halfback Gary Lloyd of Petersburg, Tex., Monday signed a pre-enrollment application to play football at Texas Tech. The Red Raiders also nabbed guard Joe Brown of Sulphur Springs, and Pat Knight of Vernon, and backs Gray Benson of Shamrock, Kenneth Baker and Dennis Pratt of Smiley High School, Houston.

GIBBS ON TCU LIST

TYLER, Tex. (UPI) — Donny Gibbs, all-district quarterback at Robert E. Lee high school, yesterday signed a football letter of intent with Texas Christian.

when you call Grandmother... YOU DON'T EXPECT TO REACH TIMBUKTU... Naturally, when you call Grandmother's phone, that's the one you expect to get, and you do. But that's not as easy as it sounds. Your call must work its way through all sorts of interconnections, wires, cables, switches and so forth until, finally, it picks the right phone out of some 83 million in the U.S. Yet, out of all the possible chances for mistakes, your call goes where you sent it... in town or out-of-town, to Grandmother, wherever she is. This sort of reliability is the result of service improvements that keep increasing the convenience and personal value of your telephone.

Foreign News Commentary

By PHIL NEWSOM
UPI Foreign News Analyst
Notes from the foreign news
cables:

Taipei vs. Peking:
Nationalist China does not expect to lose its seat in the United Nations this year, but beyond that the future is clouded. So far, six African nations have pledged support against China in the United Nations, and the Taipei regime also is assured the powerful support of the United States. But the Nationalist fear that the United States might go along with a proposal to seat both Peking and Taipei in the United Nations. It would be a way of buying time since the Chinese Reds would be unlikely to accept the suggestion. But for the Nationalists it would mean giving up their claim to be the rightful government of all China and recognition of the fact they govern only Formosa.

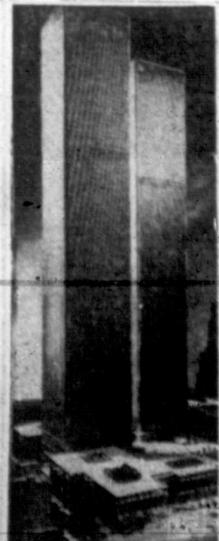

De Gaulle to Moscow?
Former French Premier Edgar Faure, who did the spade-work leading to French recognition of Red China, will visit Russia on another "private" mission this spring. The purpose of his trip is being kept secret. But unconfirmed reports say he may pave the way for a visit to Russia by President Charles de Gaulle in 1965.

Paris Eyeing Albania:
Other reports from Paris, equally unconfirmed, say that France is considering a trade treaty with Red China's little European satellite, Albania. France is said to be ready to offer industrial equipment, wine and perfumes. Chief problem: What Albania could export in return.

Portugal in the Act:
Secret, informal talks are continuing between Portuguese and Communist Chinese officials over possible recognition of the Peking regime by Portugal. The talks are being carried on in Macao, Portugal's tiny enclave on the Chinese mainland, and "another European capital." The Portuguese have been eager for some time to formalize their cordial but business-like relations with Red China, and the idea has received a boost from Spain's reported intention of establishing relations with the Soviet Union. Reliable sources said the Portuguese are sounding out the Reds on whether they would accept recognition from Portugal, and at the same time go along with Portugal's continuing relations with the Chinese Nationalists.

The Common Market and EFTA:

Trade relations between Europe's two economic blocs—the Common Market and the seven-nation European Free Trade Association—are deteriorating. Denmark has asked for retaliation against the Common Market group because of new levies which are costing Denmark \$13 million a year in egg exports. Increased steel tariffs imposed by the Common Market also are decreasing chances that the two groups may form a common front at the spring-time tariff negotiations with the United States and other GATT nations.

WORLD'S TALLEST—The proposed World Trade Center buildings in New York City will be the tallest and largest in the world, soaring 1,350 feet into the air with 110 stories. Total cost is set at \$350 million and the project, which is expected to get underway early next year, won't be completed until 1970. The twin towers will house customs facilities, exhibit areas, trade associations and other world trade services.
