

Johnson to Reiterate Our Determination to Fight

WASHINGTON (UPI) — President Johnson goes before Congress and the nation tonight prepared to express new determination to fight on two fronts—for peace in Southeast Asia and to achieve the domestic goals of his Great Society.

The Chief Executive, grave and at times tense about the Viet Nam war, will deliver his State of the Union message before a joint session of the

House and Senate. It will be televised in color across the country.

The live message will broadcast at 8 p.m.

The nation was anxiously awaiting the report from the President, particularly in view of his campaign to bring the Communists to the conference table in the war.

But the highly delicate peace offensive, which has reached the point of direct contact with

the government of North Viet Nam, was forcing Johnson to tread carefully.

Delicate Balance

For this reason his message was designed to stress reality without sounding too grim to the home audience or overly anxious to the Communists.

Moreover, with the peace offensive still in progress, Johnson could speak of it only in generalities.

Those close to him said no

major surprises would be in the message. Should some important word come from Hanoi during the day, there was little chance it would be reflected in his address. Any such communication would have to be examined with great care before a public response.

At the same time, Johnson was well aware his remarks before Congress would be given microscopic study in Hanoi, Peking and Moscow, although

the speech was drafted primarily as a message to the American people.

Great Society Stays

Johnson tipped his theme Tuesday when he told AFL-CIO President George Meany he was determined to keep building his Great Society programs while meeting increased costs of the U.S. war effort. This idea will be expanded tonight.

Later this month, the administration will follow up the

message with a request for a supplemental appropriation of about \$13 billion during the current fiscal year to meet higher war costs; the 1967 budget which is expected to run close to \$115 billion, and then the annual economic report which will carry a blueprint for combating inflation in 1966.

Johnson's speech, his third State of the Union message, was a long time in preparation.

The President and his chief advisors have spent much of the past several nights working over section after section into the early morning hours.

While this sort of effort is somewhat customary, there seemed to be a greater degree of care and caution this year as Johnson undertook the task of expressing himself simultaneously on fighting a war and still not letting up in his expensive domestic programs.

DISMAL PROSPECT — Roy Kretzmeier shows deep concern for his wheat crop as he checks the dry soil on his farm a mile and half northwest of Pampa. Kretzmeier, who has farmed his 500 acres for 42 years, is but one of the many Panhandle farmers who are hoping that rain or snow will bring moisture to the soil before a hard freeze ruins the crop. Storms and storm centers have passed above, below and through the Panhandle, but there has been no appreciable precipitation for well over a month.

Soviets Offer Hanoi Additional Firepower

Red Viet Cong Headquarters In Saigon Found

SAIGON (UPI) — Australian troops reported today they had captured a three-story underground Viet Cong labyrinth believed to be the main Communist political headquarters for the city of Saigon and a guerrilla regimental command post.

The major discovery barely 25 miles northwest of Saigon came as B52 bombers from Guam struck two Viet Cong areas in western Pleiku Province and in central Quang Nam Province 15 miles southwest of Da Nang.

U.S. Marines immediately launched an attack in the Da Nang target area.

Other Marines striking only four miles south of the Da Nang airfield ambushed a group of Viet Cong and then used a tank to wipe out the unit. Five Viet Cong bodies were found and there was evidence from trails of blood that 12 other bodies had been dragged away.

In another Da Nang development a U.S. Air Force Canberra B57 jet bomber exploded into flames on takeoff

BEAR FACTS

DENVER (UPI) — The image on the camera was graphic and the choppers were whoppers, according to a Denver repair shop.

The Rocky Mountain Camera Repair Co. received a damaged camera from a member of the U. S. Coast Guard in Juneau, Alaska.

Attached with a request for repairs on the camera marked with vivid teeth marks was this brief notation: "Camera bitten by brown bear."

Showdown Between US, Russia Brewing

MOSCOW (UPI) — The Kremlin appears ready to offer Hanoi still more firepower to meet any new U.S. escalation of the war in Viet Nam, diplomatic observers said today.

They attached this significance to a speech Tuesday night in the North Vietnamese capital by Alexander N. Shelepin, an ace Soviet trouble-shooter who is heading a high-level Kremlin mission to Hanoi. The mission which arrived in Hanoi Friday included top rocket and armament experts.

In his speech, Shelepin delivered a stern warning to the United States about Viet Nam, which underlined the Communists' negative response to current American peace overtures.

"If the United States imperialists do not stop their aggressive actions in Viet Nam," Shelepin warned, "still sterner retribution lies ahead of them."

While the Kremlin's second ranking party official did not spell out what he meant by "sterner retribution," observers here said today Shelepin presumably referred to more North Vietnamese firepower to be supplied by the Soviets.

At the same time, Shelepin took what was considered a mild slap at the Communist Chinese when he called for the need of "unity" and "cohesion" in the ranks of the world Communist movement.

In Kremlin jargon, this was an unmistakable reference to Peking, especially in the wake of a statement by Hanoi Premier Pham Van Dong that his country wanted "friendship" with Russia and other socialist countries.

The Shelepin mission to North Viet Nam has sharpened the Sino-Soviet feud with Red China which has expressed public distaste for Soviet motives.

The Chinese have indirectly accused Shelepin of trying to make a deal with the United States to push a negotiated settlement in Viet Nam, despite Russia's tough stand.

Sides Still Studying Strike End Proposal

NEW YORK (UPI) — Mayor John V. Lindsay said today there was still a chance his proposals for ending the city's 12-day-old bus and subway strike had not flatly rejected his three-point proposal. He said replies to his plan by the city Transit Authority (TA) and the striking 36,000-member Transport Workers Union (TWU) were "not definite, nor conclusive."

The new Republican mayor offered the three proposals for getting the buses and subways moving again in a television report Monday night. He suggested the three mediators offer suggestions of their own on ending the strike, bringing in an outside fact-finding panel to draw up proposals, or having both sides submit the matter to arbitration.

Lindsay, accompanied by the blustery waltz to his office only by his personal detective, said he had talked with the mediators this morning. He would not disclose what was said.

The TA and the TWU reported Tuesday night they would not accept Lindsay's proposals. But the mayor held out hope for his plan, saying that the information given him by both sides and by the mediators was "very complicated" to provide funds for domestic programs.

Impact of New York Strike Felt Nationwide

By United Press International

As New York City's crippling transit strike wears on, the rest of the nation is gradually beginning to feel its economic impact.

For the nation's largest city is also its major distribution center. And as a mountain of unfinished paperwork piles up on the desks of workers who never make it to the office, the orders, deliveries and the goods are slowed up, too.

San Francisco and Columbus were worried whether their spring dresses will arrive on time. Air freight traffic was down sharply. Apparel catalogs for Lane Bryant in Indianapolis were delayed. Checks, money orders and a myriad of financial transactions that are cleared through Wall Street were slowed. The Federal Reserve Bank of New York said the daily average of checks in process at New York banks was down \$347 million.

Fortunately, for many businesses, the transit strike came at a slack time, between Christmas and the spring buying season. Chicago's Marshall Field & Co. and Carson Pirie Scott & Co. department stores said they weren't bothered by the delays of goods.

But Macy's of San Francisco said if the strike keeps up, "shortages will develop. Everybody has enough in stock so they won't be discombobulated." Harry Orbelian, superintendent of Gump's, a San Francisco art and gift store, said, "No effect now, but we will begin to feel it in a few days if shipment of merchandise cannot start in transit."

In Detroit, the Florist Telegraph Delivery service was hurt. "People just aren't phoning orders for New York delivery," said a spokesman, Truman Fossum.

Jaycees Will Name Outstanding Pampan

Pampa's Outstanding Young Man of 1965 will be named Tuesday night at the Junior Chamber of Commerce Bosses Banquet.

The Distinguished Service Award will be presented to a young man of Pampa, between the ages of 21 and 35, who has been an outstanding citizen during the past year.

Selection for the award is made by a group of citizens outside the Jaycee organization and the award does not necessarily go to a Jaycee.

Previous winners of the award and the year in which they were selected are: Johnny Campbell, 1956; Warren Hasse, 1957; Clyde Dickerson, 1958; Gene Hollar, 1959; Melvin Jayroe, 1960; Jerry Sims, 1961; Hugh Sanders, 1962; Duggan Smith, 1963; and A. J. Carubbi Jr., 1964.

Also at the banquet, to be held at 7 p.m. Tuesday in the basement of the First Methodist Church, the Jaycees will present their Boss of the Year award. This award goes annually to the employer of a Jaycee who has done the most to promote the Jaycee movement in the past 12 months.

The banquet will be the highlight of the local Jaycees' observance of national Jaycee Week, Jan. 16 to 22. Featured speaker at the banquet will be Dr. Jim Granbury of Lubbock.

The Bill Swift Travel Trophy will be presented to the member who has traveled the most Jaycee miles in the past year. This award is named for Bill Swift, who died in 1963 while a

US Uneasy Over Possible Effects Of Shastri Death

WASHINGTON (UPI) — Diplomatic authorities here are uneasy over the possible effects of the sudden death of Indian Prime Minister Lal Bahadur Shastri.

They said today that Shastri's death Monday from a heart attack came at a particularly critical point in India's history. It was difficult to foretell what the eventual consequences would be either in the international sphere or on the Indian home front, the diplomatic authorities said.

The concern expressed in official and diplomatic quarters applies to long range developments rather than the immediate future. It stems from two persistent perils in the situation on the Asian subcontinent:

—Strong forces for "Balkanization," or fragmentation, in a sprawling country with 10 language groups and bitter regional animosities. This situation is aggravated by a famine which is being avoided only through huge imports of American grain.

—The possibility the conflict with Pakistan over Kashmir may erupt again and add to the flames of war in Asia. The struggle was temporarily eased by the Tashkent agreement Shastri signed just a few hours before his death.

American officials are relatively certain the new regime of acting Premier Gulzairil Nanda will abide by the terms of the Tashkent agreement. However, the agreement is limited in nature and does not eliminate the basic conflict of issues which have kept India and Pakistan at each other's throat for 18 years.

LBJ Determined To Forward Great Society Programs

WASHINGTON (UPI) — President Johnson was reported today determined to keep Great Society antipoverty and education programs moving forward, despite rising costs of the war in Viet Nam.

AFL-CIO President George Meany said he received assurances from the chief executive that the new federal budget will provide for social progress at home and still meet U.S. commitments in Viet Nam.

"I am determined to press ahead in building the Great Society," Johnson was quoted by Meany as saying in a letter to the AFL-CIO leader.

The President said that while the budget for the year starting July 1 is not complete, only that the information given him by both sides and by the mediators was "very complicated" to provide funds for domestic programs.

Rainfall Cripples Rio De Janeiro

RIO DE JANEIRO (UPI) — The heaviest rainfall in the 401-year history of this "city of the sun" pounded Rio today, threatening new tragedy in a disaster that may already have taken 500 lives.

Massive mud and rock slides, caused by a downpour which had drenched the city with 14 inches of rain since Monday, swept away houses, killing people by the scores. The fire department reported that houses were still coming down at a rate of 30 an hour.

There were 182 bodies in the city morgue. Hospitals were attending an estimated 1,000 injured persons, and 8,000 persons were homeless.

"Another 300 persons are missing," a police spokesman said. "The death toll from this could reach 500."

The city's hillside slums were particularly hard hit by the massive mud and rock slides caused by the downpour.

Great masses of hillside broke away and thundered down, carrying away or burying the hillside shanties of the poor.

One landslide in the fashionable Santa Tereza district hit the Norwegian Embassy. The wrought-iron front gates were smashed, four towering palm trees were cut off like matchsticks and two automobiles were crushed, but there was no report of casualties.

Area Farmers In Bad Need Of Moisture

"No precipitation is in sight," the weatherman said emphatically today as Pampa area farmers looked in vain to the skies for rain or snow which might bring moisture to dryland wheat crops.

Moisture is desperately needed before the next freeze, Gray County Agricultural Agent Foster Whaley said Tuesday.

Although a low of near 20 degrees is predicted tonight, a high in the mid-50s this afternoon and tomorrow will prevent a hard freeze.

Without moisture, the wheat will dry up and leave no pasture land for cattle. Whaley and Deaf Smith County Agent Justin McBride were quoted as saying.

A storm center, which passed through the Panhandle last night and this morning brought rain and snow over a wide section of the Central and Northern Plains.

There were some showers forecast for the Gulf Coast and a heavy fog blanketed South Texas from the Red River to the Gulf and from the Louisiana border to Midland.

The fog closed airports at Fort Worth, Dallas, Houston and in the lower Rio Grande Valley.

If it comes from a hardware store we have it. Lewis How. Adv.

Texas May Have To Adopt State Income Taxes

SAN ANTONIO, Tex. (UPI) — Texas might have to use a state income tax "if a federal tax bill pending in Congress spending and got a reply Tuesday afternoon.

Carr spoke to the San Antonio Bar Association. He said conference on other labor matters. Meany read parts of it proposed in Congress would let an out-of-state corporation compete with local businesses and not share the same tax burden. The bill is sought by interlocking state corporations complaining in Viet Nam and they have many different tax forms and tax laws in the various states in which they do business.

Don Yarborough Declines to Run

HOUSTON (UPI) — Don Yarborough, who ran for governor unsuccessfully in 1964, has "no plans at the present" to seek any political office.

Yarborough, a Houston lawyer, said Tuesday friends had urged him to run for governor or the U.S. Senate.

Yarborough, a liberal Democrat, said he admired the candidate Rep. Jim Wright, D-Tex., showed in announcing he will not oppose Sen. John G. Tower, R-Tex. Wright admitted on television he did not get the support he had sought.

Area Indians Getting Land Claim Help from Local SIO

Public domain land claims of Panhandle area Indians are getting significant assistance by the Pampa chapter of the Southwest Indian Organization, according to Marland P. Hays, chief of the local chapter.

Indians may trace their genealogy in roll books provided through the chapter and obtain the necessary forms to establish their Indian ancestry.

Hays explained that under a federal act of Feb. 8, 1887, In-

dians and those of Indian ancestry up to one-thirty-second, are eligible for grants of land from the public domain of 160 acres each.

As originally written, the act provided this land to Indians then living and to each of their descendants. In practice, Hays said, the government has not honored this right in respect to descendants.

The Southwest Indian Organization (See INDIANS, Page 3)

WEATHER

PAMPA AND VICINITY—Fair through Thursday. Cooler tonight. Low tonight near 20; high Thursday in mid-50s. Northerly winds 20 to 30 miles per hour. Outlook for Friday: fair to partly cloudy and mild.

LAST MONTH—IN HISTORY

DEC. 1 All-white jury in Anniston, Ala., sentences a segregationist to 10 years in prison for the night rider slaying of a Negro foundry worker.

DEC. 7 President Johnson dines with displeasure, but can do nothing as the Federal Reserve Board moves to raise bank discount rates.

DEC. 20 Washington says U.S. forces can go into Cambodia in self-defense to prevent the country from becoming a Viet Cong sanctuary.

DEC. 14 British calls for an oil embargo designed to break the economic back of the rebellion in Rhodesia.

DEC. 15 Anastas Mikoyan steps down as Russian chief of state, sets the stage for first big Kremlin shuffle since Khrushchev's ouster.

DEC. 17 Washington buzzes with reports of peace feelers from Hanoi, but no action is taken to start Vietnamese talks.

DEC. 18 Gemini-6 and Gemini-7 fly in formation 6 to 10 feet apart about 185 miles above the earth as the U.S. successfully completes man's first rendezvous in space.

DEC. 19 Fighting breaks out again in the Dominican Republic. At least 11 dead, including former rebel chief of staff.

DEC. 20 French President De Gaulle captures runoff election against Francois Mitterrand to win another seven-year term.

DEC. 21 Pope Paul closes Vatican Council in Rome, asks Roman Catholic prelates to return home to work for peace.

DEC. 4 More than 100 people wounded in Saigon as a Viet Cong bomb is exploded outside an American military hotel.

DEC. 12 Anti-Communist Gen. Abdul Harris Nasution is named to head Indonesia's Supreme Operational Command as Reds continue to lose power in that country.

Walter Rogers Reports: Management Controversies Will Mark Historic Congress

Congress will have reconvened domestic expenditures. A few months ago it appeared that this second Session of the 89th Congress might be able to concentrate, as a principal task, on seeking corrections in programs enacted in past sessions and which need to be improved. However, the priority of Congressional attention has shifted to problems associated with the war in Viet Nam.

With one exception, my committee assignments will be the same as they were during the First Session of this Congress. The new responsibility was imposed by my appointment as Chairman of a special House subcommittee to investigate the recent electrical power "black-out" in the Northeastern United States and other such power failures occurring elsewhere in the Country. The subcommittee held meetings in December to plan the investigation and to receive testimony from the chairman and members of the Federal Power Commission following their initial study. I feel that our subcommittee's assignment is one of the most important projects of this Congress. It is vital to national security as to the health and well-being of residents of all sections of the Country that the cause of these power failures be determined with certainty and that steps be taken to see that they cannot happen again. The last phase of our subcommittee's work may be to shape legislation to accomplish this goal.

I will again in this Session preside as Chairman of the Subcommittee on Communications and Power, one of the five subcommittees of the House Committee on Interstate and Foreign Commerce. The subcommittee has initial House jurisdiction over legislation affecting interstate and foreign communications, including the Nation's radio and television industry and telephone and telegraph systems; petroleum and natural gas including the interstate oil compact; interstate electric power; and the U. S. Weather Bureau. A problem of continuing interest before the Communications and Power Subcommittee is the extent and nature of regulation that should properly be applied to community antenna television (CATV) systems. Hearings began in the first Session of this Congress will be resumed this year.

Again this year I will serve as chairman of the Subcommittee on Irrigation and Reclamation, one of the six subcommittees of the House Committee on Interior and Insular Affairs, and the subcommittee which during my tenure of service has shaped such important legislation as that providing for the Canadian River Dam and Aqueduct and the recreation development at Lake Meredith. The jurisdiction of the Subcommittee includes multiple purpose development of the Nation's water resources and related policies; the saline water program; water pacts relating to apportionment of irrigation waters.

I will also be serving this year on the newly formed Public Land Law Review Commission, a 19-member body composed of Members of the House and Senate and citizens appointed by the President. The Commission was established by Act of Congress to study Federal laws and policies affecting our vast public land holdings and to determine policies for the future that will insure wise utilization and development.

I'm looking forward to the challenges and work of the year ahead.

Recent Visitors: Mrs. Laura Jo Skaggs, White Deer; Charles L. Ford, formerly of White Deer now of Wilmington, Del.; Ray Civer, Amarillo.

Walter Rogers
Member of Congress
18th Dist. of Texas

The Rottweiler is a German breed of dog. Originally a cattle dog, it later was developed in Hungary as a sled dog.

Rockefeller to Oppose Faubus Sukarno Orders Expulsion of All American Reporters from Indonesia

LITTLE ROCK, Ark. (UPI)—Republican Winthrop Rockefeller planned to pay another \$1,500 filing fee today for a second try at unseating the nation's longest-term governor, Democrat Orval E. Faubus.

Rockefeller would be fulfilling the promise he made the night of his defeat Nov. 3, 1964, in which he polled the most votes of any Republican in Arkansas history but still lost to Faubus.

Rockefeller has actually never really stopped campaigning.

He became first chairman of the Arkansas Industrial Development Commission (AIDC) in 1955 and helped bring thousands of industrial jobs and hundreds of factories to the state.

After he lost the last election, he sent GOP field workers across the state to investigate reports of voting irregularities and in the last several months, he has almost toured Arkansas promoting regional development agreements between counties.

Faubus, considered a racial extremist in 1957 when he blocked desegregation of Central High School with armed troops, has not officially announced it but is expected to seek a seventh term.

Faubus, 56, has been ill lately. He spent two days in a hospital resting last month. But he said he was well enough for another campaign.

Rockefeller, 53, conducted perhaps the most extensive campaign of any Arkansas gubernatorial contest in 1964. He criticized Faubus for what he said was a "formidable machine" that kept him in office.

Faubus talked of Rockefeller's millions and charged he knew nothing about government.

The evening stars are Venus, Mars, Jupiter and Saturn. American painter John Singer Sargent was born on this day in 1858.

Today is Wednesday, Jan. 12, the 12th day of 1966 with 353 to follow.

JAKARTA (UPI)—Indonesian President Sukarno today ordered the expulsion of all American newsmen from Indonesia.

He issued the order while attending ceremonies appointing a new ambassador to Syria at the Merdeka Presidential Palace in Jakarta.

He complained about coverage of Indonesia that appeared in American magazines in general and U.S. News and World Report and Newsweek Magazines in particular.

He said he had warned the foreign press that he would expell American newsmen if they did not report properly and added that he was fed up with "lies" in the U.S. Press.

Sukarno then turned to Foreign Minister Subandrio and said, "I order you to throw out all American correspondents!"

Sukarno repeated, "All correspondents out!" when UPI correspondent R. E. Stannard asked whether he meant to expell the Jakarta representatives of only those organizations which had allegedly given offense.

McDonalds Thank Residents For Contributions

Tommy McDonald and his parents today expressed their thanks to the many Pampanas who have contributed time and money toward helping Tommy, who was paralyzed in an auto accident in August.

A Tommy McDonald Fund Drive, conducted by the Tru-Tens Club netted \$2,650 toward Tommy's recuperation and care at the Gonzales, Texas, Warm Springs Foundation. Tommy left this past weekend for Gonzales.

In their message of gratitude, the McDonalds singled out the Tru-Tens for their conduct of the fund drive and the Pampa High School junior class, of which Tommy was a member. The junior class raised more than \$800 for the fund.

The thank you note from the McDonalds reads in part:

"We would like to thank the many people, clubs, youth organizations and the students of Pampa High School for the contributions, time and tremendous efforts that you put into the Tommy McDonald Fund Drive.

"It takes a great team and determination to reach so large a goal and you did this in less than four weeks time.

"We are also grateful to the many people who have been so kind and helpful since the accident last August."

Mrs. McDonald said that many of Tommy's friends have expressed a desire to write him while he is under treatment at Gonzales. His address there is, she said, Tommy McDonald, Gonzales-Rehabilitation Center, Box 58, Gonzales, Texas.

Hazlewood Will Ask Re-election

AMARILLO (Sp) — Senator Grady Hazlewood will seek re-election to the Texas Senate post for the 31st Senatorial District.

The district has been enlarged by four counties so that it is comprised of the 20 upper Panhandle counties. Additions are Armstrong, Collingsworth, Deaf Smith and Donley Counties.

Hazlewood's tenure in the Texas Senate is exceeded by only one member, Senator A. M. Aikin, Jr. of Paris. The veteran Panhandle legislator has served for a quarter of a century.

For many months, Hazlewood supporters in the Panhandle district have sought his announcement of candidacy, recognizing that redistricting of Texas legislative boundaries has placed large power in the downstate cities, and emphasizing the necessity of keeping an old hand as representative of the 31st District.

RIGHTS REVIEW

WASHINGTON (UPI) — The House Judiciary Committee probably will investigate the need for new civil rights legislation this year and determine how well recently passed laws are working.

"The continued insistence that the Negro wear a badge of inferiority forces Congress to direct its attention to the problems of civil rights," Celler said Tuesday.

Atheists and Traitors White Knight Target

WASHINGTON (UPI) — Members of a Mississippi Ku Klux Klan group were ordered to "physically destroy" if necessary "any atheists or traitor" in the community, a Congressional investigation disclosed today.

The instructions were given to the White Knights of the KKK in a March 1, 1964, directive to local units of the militant white supremacist organization.

The White Knights were described by one lawmaker as "the meanest bunch yet."

The directive and other literature of the White Knights came to light as a House Committee on Un-American Activities investigation swung its spotlight on operations of the Klan in Mississippi.

The directive, labeled an "executive lecture," told Klansmen that "an atheist or a traitor in the community"

Fewer Accidents More Injuries, Report Reveals

Pampans racked up 582 auto accidents in 1965 resulting in 167 personal injuries, according to a preliminary report released today by city police.

The figures show a decrease from the 1964 total of 654 accidents, but injuries increased from 1964's total of 154.

"Most significant is that we had two deaths in 1964 traffic, but none in 1965," Chief Jim Conner pointed out.

The figures were part of the December accident report. This report showed that during the holiday month, there were 73 accidents compared to 91 in December 1964.

Pampa drivers were responsible for 17 personal injuries this past December with \$24,243 in property damage resulting from accidents.

Persons driving to or from work on Fridays were most likely to have an accident, the figures show. Twenty-five of the 73 December accidents happened on Friday. The hours of 7 to 9 a.m. and 4 to 5 p.m. accounted for more than a third of all accidents.

Of the 123 drivers involved, 75 were men and 48 women. Thirty-four of the drivers were 20 years old or less. The type of road seemed to make little difference. There were 38 accidents on two-lane pavement and 32 on four-lane highways.

There were 51 accidents on dry road compared to only 15 on wet pavement and seven in snow.

Thirty-eight accidents occurred in daylight hours, 29 in darkness and six at dawn or dusk.

Improper driving habits figured in almost every accident. Leading factors were speeding (18 accidents), Failure to yield (16), Following too closely (7), improper turn (5) and other improper driving practices (18).

Red

(Continued From Page 1) Vietnamese military spokesmen in Saigon today reported nationwide decrease in Communist attacks and acts of sabotage and terrorism last week.

Neither attached any particular significance to the decrease, however, nor did they link it to President Johnson's current peace offensive. The U.S. moratorium on bombing raids against Communist North Viet Nam went into its 19th day today.

usually could be destroyed by social or economic pressures. "If they continued to resist," the directive went on, "they must be physically destroyed before they can damage our Christian civilization further to destroy us."

SS Office Will Observe Late Thursday Hours

The Pampa Social Security Branch Office will begin staying open to the public Thursday night until 8:30 and will continue to be open until 8:30 p.m. each Thursday for the next few weeks, Virgil J. Holloway, officer-in-charge announced today.

The extended hours are for those people who work or for some other reason cannot take care of their social security business during the regular daytime hours, he explained. The office will continue to remain open from 8:30 a.m. to 4:45 p.m. Monday through Friday except national holidays.

All persons 65 or older not now eligible for social security or railroad retirement benefits and not receiving State Old Age Assistance should contact the social security office to sign up for the new medicare program.

Even though a person is not retired and does not plan to retire for sometime, he or she should sign up for the medicare program now, Holloway said. People who were 65 or older before Jan. 1, 1966 have only until March 31, 1966 to sign up for the medical insurance under the new health insurance program, which is commonly referred to as medicare.

In addition to the new medicare program the 1965 changes in the social security law make it possible for unmarried full time students under age 22 to receive benefits on the deceased or retired parent records.

Also widows can now start receiving widows' benefits on their deceased husbands' accounts, as early as age 60 by taking a reduced benefit.

The office is located on the ground floor of the Hughes Bldg., 400 W. Kingsmill.

Obituaries

Eli Casada

Funeral services for Eli Casada, 79, longtime Pampa resident who died Tuesday in a Wichita Falls hospital, will be at 2 p.m. tomorrow in Carmichael-Whately Colonial Chapel with Rev. J. S. McMullen, pastor of First Assembly of God Church, officiating. Burial will be in Memory Garden under direction of Carmichael-Whately Funeral Directors.

Mr. Casada was born March 24, 1886, in Somerset, Ky. He was a retired rig builder.

Survivors include two sons, D. E. Casada and Elmer Casada, both of Vernal, Utah; one brother, Elmer Casada of Pampa, and four sisters, Mrs. Winnie Stevens of Collinsville, Okla., Mrs. Zona Sharp of Swayzee, Ind., Mrs. Ava Atkinson of Guymon, Okla., and Mrs. Zena Ponton of Ottawa, Kan.

Pampans Serves As Student-Teacher

DENTON (Sp) — David Welch of Pampa is among 370 North Texas State University students serving as student teachers in Dallas-Fort Worth-Denton area schools during the present semester.

Welch, son of Harold E. Engle, 445 Hughes, is a physical education teacher at Hurst Junior High School, Fort Worth.

An estimated 1,100 NTSU students are expected to participate in the teacher training program during the 1965-66 school year, according to Dr. C. M. Clarke, director of teacher education.

Hamilton Funds Declare Dividend

DENVER (Sp) — A quarterly dividend of 3 1/2 cents per share from ordinary income, and a year end distribution of 15 1/2 cents from securities profits has been declared by the Board of Directors of Hamilton Funds, Inc. The distribution is payable Jan. 17, 1966, to shareholders of record January 3, and totals over \$15 1/2 million. The Fund has normally distributed only 3 1/2 cents per share during January.

In announcing the dividend, Fund President A. R. Tyrone said, "This unusually large dividend distribution is due to the change of the Fund's fiscal year to coincide with the calendar year. The securities profits distribution represents realized capital gains from May 1, 1965, the beginning of the old fiscal year, to Dec. 31, 1965, the end of the new fiscal year."

Resident Slightly Hurt in Accident

An estimated \$1,150 damage to two automobiles, and injury to one person, resulted from an accident at 7:33 p.m. Tuesday at Tyng and Cuyler.

A car driven by Larry Marshall Day, 220 W. Craven, was stopped at the traffic light when it was struck from behind by a car driven by Ray Lawrence Gattler who gave his address as 320 N. Somerville, according to city police.

Sharon Marie Day was taken to Highland General Hospital after the accident when she complained of a possible back injury.

An estimated \$700 was done to the rear of Day's car and \$450 to the front of Gallier's car.

Indians

(Continued From Page 1) zation has launched a campaign to have these rights recognized. The key to the act, so far as the Indians are concerned, is a paragraph that specifies that they must settle on the land "in good faith" and remain there for at least two years, as under the Homestead Act.

"We are not seeking charity," an organization spokesman said, "only those things promised to Indians long ago in treaties."

The roll books which are circulated by the local chapter are copies of those made in the period 1887 through 1900 establishing the eligibility of Indians then living on the 160 acre land grants. From these books a person now claiming Indian blood can legally check his ancestry.

Under one interpretation of

the law, step-children under the guardianship of an Indian are also eligible for the land.

The organization is not only helping in the land matter, Hays said, but in any other fashion that it can be of service. This includes education, sanitation and general living conditions.

The Pampa chapter meets on the first Sunday of each month at 2 p.m. in the hospitality room of the Citizen's Bank and Trust, 300 W. Kingsmill. The next meeting will be held Feb. 6.

Hays said that 40 Indians in the area have now signed for land claims with more calling each day. He urges all Indians in the area to contact the Pampa chapter or Amarillo chapter of the Southwest Indian Organization as soon as possible to establish their rights to public domain land.

Hays lives at 334 N. Rider. He may be called at MO 9-9692.

Television in Review

Television in Review
By RICK DU BROW
HOLLYWOOD (UPI)—Television's busiest week of mid-season replacement series premieres gets under way tonight. And what with several major public affairs programs coming up as well, the viewer will have a choice of subject matter in the next few days that ranges from President Johnson to Ulysses to Batman.

CBS-TV replaces the long-running "Rawhide" tonight with a new one-hour weekly series entitled "Daktari" (the Swahili word for doctor), which revolves around the activities of an animal study center that has an African setting.

"Daktari" is based on the movie "Clarence, the Cross-Eyed Lion," but the television series will emphasize adventure more than the comedy motion picture did. The stars are Marshall Thompson, as the jungle doctor-scientist, and Cheryl Miller as his daughter.

There are, in addition, a cross-eyed lion named Clarence and a chimpanzee named Judy, and the advance word is that the animals in the series have been simply stealing the show from the human actors, who, it is said, haven't been blessed with the best of scripts. The executive producer is Ivan Tors, whose "Flipper" series on NBC-TV, about a dolphin, has made him much in demand.

In the public affairs area tonight, CBS-TV presents a much-touted one-hour special entitled "The Search for Ulysses," which retraces his legendary journey through the Mediterranean and, in the network's words, "considers the possibility that (he) may have been a real man."

The program is based on the book "Ulysses Found," by Ernie Bradford, and Mr. Bradford and Lawrence Durrell, author of the Alexandria Quartet, are participants. Excerpts from "The Odyssey" of Homer are spoken by actor James Mason.

On Wednesday, President Johnson's State of the Union address before a joint session of Congress will be carried by all three networks, live and in color (for the first time), at 9 p.m. EST.

Also on Wednesday, ABC-TV finally launches what it has been advertising euphemistically as its "second season" which the network describes as a group of shows so great that they couldn't wait until fall. Translated, this means that the network was replacing shows so bad that it couldn't wait to get rid of them.

At any rate, one of ABC-TV's Wednesday premieres is "Batman," a twice-weekly, half-hour, live-action series based on the old comic book hero, and attempting a combination of straight-adventure (for the brat audience) and droll humor that might be described as "pop TV" (for the grownups).

The other ABC-TV premiere Wednesday is called "Blue Light," and stars Robert Goulet in a half-hour straight adventure series as a double agent in World War II who pretends to be a traitor to America and operates behind German lines to undermine the Nazi regime. Yet another new half-hour Life of Henry Phyfe," bows in

ABC-TV series. "The Double" by a counterintelligence director to impersonate a foreign bear a striking resemblance."

58TH
YEAR

Dear Abby...

You Need Help, Not Husband's Permission

DEAR ABBY: I have been married for six years and it seems like 60. We have three beautiful children, five, three and 13 months old. My husband is a steady worker and makes a good salary, which he turns over to me as I am a thrifty shopper and a good saver. He doesn't drink or run around. Those are his good qualities, but — when he comes home he always greets our children with a slap in the mouth. He always finds some excuse to hit one of them. He uses me as a punching bag if he feels like it, too. He tells the kids, "Don't put any dirt on the driveway, my car has to run over it." And, "Don't touch the car. It's mine!" (Everything is his.) He doesn't talk, he yells. The kids are scared to death of him and so am I. He hasn't taken me anywhere in two years. I begged him to go to the priest with me and he refused. He says if the priest comes here he'll throw him out. He won't take me to church so I pray at home, but I have to hide when I pray or he'll say I'm cracking up. Maybe I am. Am I?

spirit of generosity and sharing. And it costs something in time and money to compose, print and mail them. When one receives a book as a gift, he should appreciate the thought, but he doesn't have to read it unless he wants to.

DEAR ABBY: The problem of "adoptive parents" in your column recently was one we faced many years ago.

When we brought home a beautiful little baby girl, many of our friends and neighbors were inquisitive and wanted to know the details. On the advice of our pediatrician, we stood our ground and told them nothing.

When they asked, "Where did you get her?" we looked them in the eye and replied, "She's ours. And we have the papers to prove it."

Or when they asked, "Do you know anything about her parents?" we replied, "We are her parents, and we know each other very well."

They may have been momentarily offended, but they understood that to question us further was useless.

DAYTONA BEACH, FLA.

CONFIDENTIAL TO "RIGHT OR WRONG?" IN MEMPHIS: Any animal can have a sex life. Your wife is talking about a love life. That takes understanding, patience and unselfishness.

Troubled? Write to Abby, Box 69700, Los Angeles, Calif. For a personal reply, enclose a stamped, self-addressed envelope.

For Abby's booklet, "How To Have A Lovely Wedding," send 50-cents to Abby, Box 69700, Los Angeles, Calif.

Protein for Healthier Hair: Protein is being added to more hair sprays to help keep hair healthier. Protein is essential to hair health as it is to general body health and wards off splitting, brittleness and other hair problems.

AGAINST XMAS LETTERS: DEAR AGAINST: Some Christmas newsletters are new and interesting. Others are boring. But all are sent in the

Italian Flair Popular in Hand-Knits

by Helen Hennessy
Women's Editor

Newspaper Enterprise Assn. NEW YORK (NEA) — Knitting — Italian style — is the newest fashion import from abroad. If you knit, you can have a Roman holiday right here at home with a wardrobe filled with Italian accents.

The ready-to-knit Italian designs are a many-splendored mixture of posh patterns and bold, new textures.

Big-needle knitting points the way to eye-catching patterns. There are great ridges of ribbing, checkerboard patterns, plaids, stripes and embroidery-like prints.

For the sporting set pattern-on-pattern sweaters in richly textured, lightweight yarns are a smart choice. Sweaters are slightly longer this season with lean, easy lines. And the poncho returns with a wide turtle neck and deep side slits.

For daytime or dress-up the Italian designs are slender and understated, giving full view of the brash new textures. Dresses have skimmer shapes tied above or below the waist with knitted cords. Coats and suits are collarless, topped with matching shawls or tams.

Continental fashions to knit and big-needle yarns for the season's new play on pattern and texture are available at yarn shops and art needlework departments across the country — a first stop for knitters on the Italian route on fashion.

DESIGNED FOR KNITTERS — Hand-knit sweaters with the Italian look are important fashions this season. The classic plaid over (left) is in plaid knit. Two light and bright shades of super angora form the V-stitched plaid on a combination of shetland and mohair. The patterned sweater (right) is designed for big-needle knitting. The top is a happy combination of two quick-knitting hearty yarns—one a soft, silky blend of mohair and nylon, and Fuzilli, with a thistle-look texture. Bernat yarns are in designs from Misro of Italy.

Miss Patterson Gives Program For HD Club

A program on "Clothing and the New Fabrics" was presented by Miss Lou Ella Patterson to members of Worthwhile Home Demonstration Club when the group met Friday afternoon in the home of Mrs. J. L. Carlton, 426 Crest.

Miss Patterson told the group "When buying clothing one should notice what the material is and how it is to be cleaned and cared for. It is a good idea to keep the information attached to the clothing purchased in order to know whether to have the garment dry cleaned or washed."

Mrs. O. G. Smith, president, presided at the business session at which the Jan. 20 trip to Hereford was discussed. Members planning to make the trip are to be at Gray County Court House Annex at 7:45 a.m. Miss Patterson announced that the County Council will meet at 2 p.m., Jan. 24.

Members and guests attending included Mrs. R. M. Barrett, L. M. Bryant, Boyd Brown, Pearl Ferguson, W. G. Kinzer, Lester Reynolds, Ray Robertson, C. B. Rogers, O. G. Smith, Roy Tinsley, P. G. Turner, Stella Wagner, N. L. Welton, J. C. Payne, H. L. McCaughey and Misses Yvonne Reynolds and Lou Ella Patterson.

Astrological Forecast

By CARROLL RIGHTER

FOR THURSDAY, JAN. 12
GENERAL TENDENCIES: A day and evening to take care of your health and to refrain from any use with those in power, but it's fine to mentally seeing new methods and means by which you can make your ideas workable by getting more cooperation from usual allies with whom you have any sort of contact of importance.

ARIES (Mar. 21 to Apr. 19) — If you discuss your plans with a partner, he or she will assist you to put them in operation, but a bigwig could be disappointing today. Be co-operative with associates. Do all in your power to protect holdings.

TAUROS (Apr. 20 to May 20) — If you forget about going off on tangents, you find it easy to get labors done in record time. Be loyal to coworkers you have had for sometime. New ones may be rather on the dreamy side and slow you down.

GEMINI (May 21 to June 21) — Get your talents working nicely by yourself without depending too much on high-priest who regard be on the grating side. Get out to amusements that are not too expensive. Much enjoyment is possible there, too.

MOON CHILDREN (June 22 to July 21) — Be more attentive to whatever is needed at home instead of following at the heels of some overly dynamic associate. Start instead toward success by being more independent. Work harder, too.

LEO (July 22 to Aug. 23) — You can pick up any piece of information you require quite easily now, so be sure to go after it once you have completed dull work. Try to take in some good lecture "bits," etc. Be on the go tonight.

VIRGO (Aug. 24 to Sept. 23) — Concentrate upon increasing holdings, abundance instead of wasting time on pleasure during the day. Look to experts in business for ideas. Be alert since they are apt to be quite specific and you want to digest all that is said.

LIBRA (Sept. 24 to Oct. 23) — Bringing out your finest talents will convince others that you are worthy of getting financial support you may need. Dashing about socially for awhile tonight is fine. Then be with family, make, as you desire.

SCORPIO (Oct. 24 to Nov. 21) — You are able to get personal matters attended with wisdom today, but don't confide in others. Then give all help you can to the needy. Use your intuition and not bother others for advice.

SAGITTARIUS (Nov. 22 to Dec. 21) — Kind friends will do almost anything you ask for today, so don't be so worried about money matters or other inhibitions. Some one you have admired for some time can be very responsive now.

CAPRICORN (Dec. 22 to Jan. 20) — Put aside any personal grudge and seek for greater prestige, even fame. Others will come to you for favors, and you should be very helpful. Seek to be very co-operative with allies.

AQUARIUS (Jan. 21 to Feb. 19) — Instead of sticking to those small and unimportant tasks, accept the line big opportunities all around you. Be sure to write to those from out-of-town who can be helpful in your career. Be specific.

PISCES (Feb. 20 to Mar. 20) — Rely on your hunches plus your logic today instead of on some ally who does not do your type of work or is not cognizant of all the facts in some problem of yours. Forget pale tonight. Be kind to make.

Rebekah Lodge To Host District Meet, Instruction School

Plans for a Joint School of Instructions and meeting of Districts Two and Three of the Rebekah Lodge, to be held in Pampa on Feb. 17, were completed by Pampa Rebekah Lodge 355 when the group met Thursday evening. Mrs. May Braden of Borger, will be in charge of the school.

Presiding as noble grand was Mrs. Eunice Maddox and Mrs. Alice Chitwood served as vice grand. A report was made of all members with eight visits made.

Announcements were made concerning the practice for installation of officers to be held Jan. 13. The installation services to be held Jan. 22; the Panhandle Circle meeting to be held on Jan. 20 in Rainbow Lodge 193 of Amarillo, and the Monday meeting of the Esther Club in the home of Mrs. Colleen Neal.

Mrs. Alta Mae McElrath's name was drawn from the Friendship Fund. Meeting was adjourned with the 34 members present forming the Friendship Circle.

Foreign Commentary

FRANCE NEWS
Foreign New Analyst
President Charles de Gaulle took to the hustings to win the presidential run-off elections last month, it was because he had learned with some dismay that his own image of himself as the personification of France was not shared by all Frenchmen. Particularly unhappy were French farmers and members of the business community forced to live under the rigid austerity measures of Finance Minister Valéry Giscard d'Estaing.

To correct that situation, De Gaulle just has completed a cabinet shake-up which also could affect the line of succession to De Gaulle himself.

Wall Street Chatter

By United Press International
 The International Statistical Bureau says the 1966 highs have not yet been seen and that any decline that occurs will not be very marked or protracted.

Newton D. Zinder of E. F. Hutton & Co. Inc., says that the Viet Nam situation and the upcoming State of the Union message are major near term uncertainties and that at the current advanced-market level some additional allowances should be made for other unforeseen developments.

BURUNDIAN EJECT

WASHINGTON (UPI) —The United States, realigning for the ouster of U.S. diplomats from Burundi, Tuesday ordered the African nation's ambassador to leave the country. The ambassador, Leon Ndenako, was called to the State Department and handed a note which demanded he be recalled by his government. It "protested strongly" Burundi's action Monday in ordering the expulsion of U.S. Ambassador Donald Dumont and two of his staff.

OBSCENITY VETO

TRENTON, N.J. (UPI) — Gov. Richard J. Hughes of New Jersey Tuesday vetoed a tough anti-obscenity bill which many of its opponents said was itself obscene. Hughes cited a question of the measure's constitutionality as his reason for killing the bill, but sources close to him said he also feared it would result in legal "chaos."

premier and one of De Gaulle's oldest and most loyal supporters.

It was a loyalty which in 1962 seemed to have cost him his own political future. As premier since 1959, Debre had served to ward off blows aimed by a rebellious French assembly at De Gaulle.

But in 1962 when De Gaulle accepted Debre's resignation in the apparent belief he had outlived his usefulness, Debre could not even win election to the assembly from his own home district. In 1963 he came in via the backdoor as deputy from Reunio n, a remote French possession in the Indian Ocean. His comeback has not been all the way, but as a super-minister in De Gaulle's new cabinet, with authority reaching into all fields of the French economy, his influence almost equals that of Premier Georges Pompidou.

Eventually, Pompidou and Debre could become rivals for the presidency. Achieves Prosperity, Stability Critics of De Gaulle admit the country's prosperity and that he has achieved political stability out of chaos.

On the credit side, France has more automobiles per capita than any other country in Europe. She has atomic power and her own independent oil supplies. She also has \$6 billion in foreign exchange in the bank.

But French industry still is overly protected and not particularly competitive on world markets.

Anti-inflationary measures under d'Estaing have slowed inflation to two-and-a-half per cent but they also have slowed economic development. The last year saw no increase at all in investments.

While the government deplores an invasion of American capital into French industry and has taken steps to limit it, original blame for it is cast upon failure to provide adequate financing at home.

As French industry chafed under price controls, French farmers became alarmed when a crisis precipitated by De Gaulle threatened their access to the European Common Market.

As a result of the opinion poll provided by the presidential elections, it will be Debre's job to find means of liberalizing the economy while preventing a return of inflation and maintaining a position of strength.

Within the Common Market De Gaulle is expected to maintain his rigid position against any surrender of French sovereignty. On the other hand he is expected to be more amenable to a settlement of the crisis over agriculture.

State Senators to Appeal Filing Ruling

AUSTIN (UPI) —Two state senators wanting to run for Sens. Franklin Spears of San Antonio and Galloway Calhoun of Tyler on the ballot for legislative term, will appeal to the State Supreme Court. State Democratic chairman Will D. Davis said he would

his legislative term for a job whose pay was boosted during his term. Salary of the attorney general's job was raised from \$20,000 to \$22,500 a year in the 59th Legislature. Calhoun and Spears said they feel they can run, and Spears

59TH YEAR THE PAMPA DAILY NEWS WEDNESDAY, JANUARY 12, 1966 7
 said the question about his eligibility was an attempt "to take the decision on who shall be Texas' attorney general away from the voters." Spears said his term ends Nov. 6 technically, four years after his election. Calhoun's case is different. He is in a term that is cut short by re-districting. All Senate seats are up for election this year, but the redistricting bill did not say when sena'ors' terms end. If Spears and Calhoun lose their fight, they may run for something else, perhaps the U.S. Senate.
CHOLERA OUTBREAK
 BANGKOK (UPI) —Authorities have warned Thai citizens to take proper precautions against cholera following reports of an outbreak of the disease in Paknam and Korat.

Over 65? Three Ways to Save

By RAY DE CRANE
NEA Special Writer

Taxpayers who reached their 65th birthday by Dec. 31, 1965, have three opportunities for major tax savings on their income tax return. They are:

1. Dollar-for-dollar deduction for all medical expenses, including all prescribed drugs, hospital and health insurance, doctor and dentist fees, cost of dentures and hearing aids. This means that on a joint return — even if only one of the spouses is 65 — medical expenses are fully deductible without reference to the three per cent and

Gain on sale	22,500
Am't realized on sale	25,000
Less Fix-up Expense	2,500
Adjusted sales price	22,500
Ratio of \$20,000 to \$22,500	88.9%
Portion of \$12,500 gain to be excluded (\$12,500 x 88.9%)	\$11,112.50
Remaining gain subject to tax	\$1,387.50

To take advantage of the retirement income credit the taxpayer must have been 65 by Dec. 31, 1965, or be retired under a public retirement plan. Furthermore, the taxpayer must have had more than \$600 of earned income in each of any 10 calendar years before 1965. (They need not be con-

amounts received under Social Security, Railroad Retirement Acts and certain other exclusions from gross income. For taxpayers under 72 years of age there is a further reduction in this amount based upon the amount of earned income. A husband and wife may file a joint return and use the combined limits of \$2,286 even though only one of them meets the prior earned income test. Follow the illustration step by step of how a married couple filing a joint return received a retirement income credit of \$106.65 which they used to re-

OVER SHE GOES—ALMOST—It looks like a long, wet way down for the young lady as her canoe appears to shoot over the lip of a waterfall, left. Actually, she's held safe and secure at the brink, above. It's all for location shooting of a possible new television series, "The Perils of Pauline."

one per cent rules which apply to under-65 taxpayers.

2. No tax to be paid when they sell their home for \$20,000 or less, regardless of how much profit was made on the sale. There is no requirement that they buy another home.
3. A joint retirement income credit which could exempt, in effect, an additional \$2,286 in income from tax at a 15 per cent rate if husband and wife are each 65 and they file a joint return or each one can compute separate credits beginning with \$1,524.

To get the benefit of the complete medical deduction the only requirement is that such expenses be paid by the taxpayer or his wife. The maximum medical deduction is \$10,000 on a separate return, \$20,000 on a joint return.

The special privilege on the sale of a home carries these requirements:

1. The taxpayer must have reached his 65th birthday before the sale.
2. The home being sold must have been owned and used as his principal residence for at least five of the eight years before the sale.
3. To be completely tax-free, the gain must be on a home sold for \$20,000 or less.
4. If the selling price was more than \$20,000 the part of the gain to be excluded is that part which bears the same ratio to the amount of gain as \$20,000 bears to the adjusted sales price.

REPORT TO MOSCOW
TOKYO (UPI) — Russia's ambassador to Japan, Vladimir Vinogradov, will leave for Moscow Wednesday, a Soviet Embassy official said Tuesday. It was believed Vinogradov would report on his talks with Prime Minister Eisaku Sato in which Sato urged the Soviet Union to play an active role in arranging a conference for a peaceful solution of the Viet Nam conflict.

JEWELS MISSING
LONDON (UPI) — Post office officials said Tuesday they were investigating the disappearance of \$560,000 worth of jewels mailed to Holland and Belgium Dec. 17. A London newspaper said the jewels—diamonds, sapphires and emeralds—were mailed in 15 packets but never arrived.

On The Record

Highland General Hospital does not have a house physician. All patients, except severe accident victims, are requested to call their family physician before going to the hospital for treatment.

Business Highlights

By United Press International
PITTSBURGH—Steel production last week gained 5.8 per cent to 2,312,000 tons, the sharpest week-to-week gain in two years. The impact of mounting defense contracts, meanwhile, lent buoyancy to new steel orders.

NEW YORK—Radio Corp. of America disclosed that it proposes to pay \$37.7 million in RCA stocks for the publishing firm of Random House, Inc. The Justice Department said it wishes to review the acquisition plan.

NEW YORK — A federal grand jury in New York has indicted nine match manufacturers making 95 per cent of the book matches sold in the United States on charges of illegal price fixing.

CHICAGO—Caterpillar Tractor Co. has sued the United Auto Workers for \$10.35 million plus \$6.5 million a month, charging that the strike being waged against its plant Decatur, Ill., violates no strike pledges in the union's contract.

It costs the federal government \$27,872 to educate a student at the Naval Academy in Annapolis.

Quotes From The News
By United Press International
WASHINGTON — AFL-CIO President George Meany, commenting on the arrest of Union chief Mike Quill during the New York transit strike: "I have a feeling the Transit Workers' Union feels it's some advantage to have Mike in jail."

WASHINGTON — Rep. Charles Weltner, D-Ga., assessing the violence committed by the White Knights, a Mississippi Ku Klux Klan group: "They're the meanest bunch yet and they make the least effort to hide their readiness to do violence."

WASHINGTON — Rep. Emanuel Celler, D-N.Y., chairman of the House Judiciary Committee, predicting the probability of more federal civil rights legislation: "The continued insistence that the Negro wear a badge of inferiority forces Congress to direct its attention to the problems of civil rights."

WASHINGTON — A Southern congressman, withholding any predictions about the second session of the 89th Congress until after President Johnson's State of the Union address: "I believe I'll just wait until Wednesday night to play God."

CONGRATULATIONS
Mrs. and Mrs. Roy Brewer, 331 Davis on the birth of a girl at 1:35 p.m. weighing 7lbs. 14 ozs.

NEW YORK (UPI) — P. W. Brooks & Co. Inc., says that, without trying to hedge its bullish confidence for 1966, it feels that immediate prospects favor a more laborious climb than has been recently experienced and looks for mild profit-taking to produce price irregularities that are a part of any bull market.

A thought for the day: King George VI: "the highest of distinctions is service to others."

The Lighter Side

By DICK WEST
United Press International
WASHINGTON (UPI) — The first issue of the Congressional Record published after Congress reconvened this week contained the latest reports and registrations of lobbyists.

It is a rather bare bones listing. The law does not require lobbyists to disclose any of the details of their activities. In many cases, however, the names of the organizations they represent indicate the field in which they operate.

For example, the legislative interests of the Lightweight Aggregates Percentage Depletion Committee are immediately apparent. It obviously opposes any legislation that adversely affects the percentage depletion of lightweight aggregates.

We may surmise that the American Committee for Flags of Necessity retained a lobbyist to exert influence against any legislation favoring flags of luxury.

It is easy to deduce that the Single Person's Tax Reform Lobby works at cross purposes with the lobbyist for the Family Tax Association. And so on.

Nevertheless, there are some lobbyists whose aims are less than self-evident. One such is a gag writer named Jim Atkins, who recently registered as a lobbyist for something called the National humor exchange network.

Rambling With Red

RON CROSS

Groom fans and school officials are sad this week and well they should be with the resignation of basketball coach Bill Dalton, another trans-planted Okie.

To Job Corps

Bill, who hails from our part of the Sooner state, in fact only 16 miles from our home and a man that was one of the better high school players, is going to work for the U.S. Government in the Job Corps, instructing high school dropouts.

His last day at the Tiger school is Friday and he hasn't been coaching since the first of January, dropping the task to successful football coach Ronnie Mills.

Dalton, 29, will take his wife and three children with him when he reports to Cottonwood, Idaho, January 17. Quite a fer piece from home for the successful cage coach.

The Carter, Okla. and Southwestern State College grad will be ending a three and one-half year tenure Friday.

His job will be instructing dropouts from ages 16-21, in business, he hopes.

Add another honor for 'Superman' that dashing Texas Aggie who hails from Pampa.

Now throwing basketballs, Randy Matson has been honored by Sport Magazine as the Top Performer in Track and Field for 1965.

The award is based on Matson's heave of 70 feet, 7 inches to set the world record for the shot put.

The 1966 Harvester baseball schedule is out and first year coach Bobby Stephens has his work cut out.

Pampa opens on March 2 at Dumas in a doubleheader, starting at 1 p.m., then host Borger in a non-league game March 15.

McAdams Returning

Other non-conference attractions follow with Shattuck, Dumas, Borger, Shattuck, Nazareth and Borger again.

The 3-4A war opens April 1 with Pampa traveling to meet the Westerners then meet the Monterey Plainsmen following day at Lubbock.

Then comes Amarillo, Palo Duro, Borger, Caprock, Coronado, Plainview, and Tascosa, the second round action begins April 22.

Stephens is faced with the problem of having but four lettermen back, Gary Moiberg, Jimmy Moore, Corky Dodd and Bud Hammons.

Hammons and Roy Harper, ineligible for varsity competition last year, will share mound duties and give Pampa a strong one-two punch.

Get ready to buy you're tickets for the White Deer All-Sports banquet, date uncertain as yet, because they'll go fast when put on sale.

One of those 'reliable' sources says that Buryl Huffman will be the speaker and Carl McAdams is special guest.

McAdams will be so busy signing autographs I wonder if he'll have time to attend the banquet?

Wally Lemm, resigned coach of the St. Louis Cardinals, who believed that, "Even pro football should be fun," found that true only when you're winning.

Halas Goes to Court to Keep Coach

CHICAGO (UPI) —Owner-coach George Halas of the Chicago Bears goes to court today to try to keep the Los Angeles Rams from hiring away his prize defensive coach and his apparent, George Allen.

Halas was due before Judge Cornelius Harrington in Cook County Circuit Court this morning for a hearing on his demands that Allen be compelled to serve out his contract with the Bears.

The Rams announced two days ago that Allen had been signed as head coach—but they haven't talked since. Allen flew back to Chicago to be present at the hearing, and said, "I was stunned to learn of coach Halas' action, and I still will not believe that George Halas would hurt me."

Papa Bear also had the

worry of perhaps losing another assistant from his staff which molded what many thought was the strongest team in the National Football League last season—and a possible titlist in 1966.

Chuck Mather, former head coach at Kansas, said he had got permission from Halas to talk with another NFL club about a head coaching job.

NFL Commissioner Pete Rozelle, who had said he saw "no cause" to interfere with the Rams' signing of Allen, said after the suit was filed, "I have nothing to add at this time."

The record for the 1-1-16 mile Pimlico Futurity at Baltimore, Md., was set by Count Fleet in 1942 at 1:43 3/5 and equalled in 1964 by Sadair.

TW COACH NOT PESSIMISTIC

Miners Defense Still Best in Nation

By DENNE H. FREEMAN DALLAS (UPI) —It's hard for Don Haskins to be pessimistic these days. That means double trouble for Texas Western foes.

The basketball coach of the unbeaten Miners (12-0) has a reputation for being something less than an optimist.

But now he is being overheard making such statements as "We could be a great ball club" and "Boy, for 15 minutes there against Iowa (crushed 86 to 68) I never saw a better basketball team."

The Miners from El Paso, averaging 79 points a game, snared a large chunk of national publicity when they knocked the Hawkeyes (6th rated) in the Sun Bowl tournament during the holidays. They shot into 8th place on the ratings of the UPI Board of Coaches.

Thursday night the Miners whipped a good Seattle team. They appeared destined for post-season competition. Has-

kins doesn't like to talk about that right now.

"That First Half"

"If we could just play all our games like we did that first half against Iowa then we would be all right," Haskins said. "Why, we were ahead of them 21-4 at one time."

Haskins said his team is probably the quickest he has had, and has balance. "Most of the starters are in the double figures every night and we have a pretty good defense (No. 1 in the nation last Monday)," Haskins said. "I've got two guards I wouldn't trade for any in the country."

The guards are 5-10 Bobby Joe Hill, a junior from Detroit, Mich., and 5-6 Willie Worsley, a sophomore from New York City.

"Don't let Worsley's height fool you," Haskins said. "He can dunk the ball."

More Non-Texans
The other three starters on the tandem post offense are

Pampa Ends Two Game Skid, Rip Rebels, 54-42

By RON CROSS
News Sports Editor

Spunky Pampa, getting smaller every game, broke a two game skid Tuesday night by soundly whipping Tascosa, 54-42.

In running their season record to 14-4 the Harvesters finished first half play in district 3-4A in fourth place with a 5-3 record.

Amarillo won the first half outright with a convincing 79-45 victory over Borger and Mon-

terey got second place with a 47-41 victory over Lubbock. Amarillo is 8-0, Monterey, 7-1 and Lubbock, 6-2.

Pampa coach Terry Culley started the two smallest men on his squad at the guard spots. 5'11 Doug Altom and 5'9 Gary Crossland and the Pair responded with 10 and nine points respectively, with Altom's 10 being second only to ever-improving David Cain who finished with 13, high for both sides.

Not only did Altom and Cross-

land help a sagging Harvester offense but their ball-hawking and "keep-your-hands-in-their-face" defensive work kept Tascosa off balance throughout the contest.

The Johnny Rebs started things off like "shades of Monterey" scoring two straight baskets to go in front 4-0.

But Crossland hit a long one

Tascosa (42)	fg-fg ^a	ft-ft ^a	r	tp

(Daily News Photo)
SURROUNDED — Tascosa's 6'9 John Burkhalter (45) is surrounded by Pampa players Mike Wise (44) and David Cain (54). Cain took the ball away from Burkhalter and scored. The 6'5 senior scored 13 points and paced Pampa to a 54-42 victory over the Rebels.

Aggies Win Third in Southwest Conference

By United Press International
Texas A&M stayed atop the Southwest Conference basketball race Tuesday night on the thin edge of three points—The Aggies' 75-72 victory over Arkansas.

Baylor whipped Texas 89-74 for the Bears' first victory over the Longhorns in Austin in seven years. Texas Christian smashed the Rice Owls 97-79 at Fort Worth. Rice's 12th consecutive loss this season.

The Aggies, 3-0 in the conference chase, skipped to a 24-10 lead over Arkansas and watched it disappear to a 39-39 halftime tie. In the second half the Aggies went ahead again, this time to a 10-point cushion. Again, Arkansas came back.

With less than a minute left, the Aggies clung to a one-point

lead. Then Dick Stringfellow got a free throw for A&M for a tiny bit of insurance, and Arkansas missed a chance to tie it with a basket. The Aggies added a final free throw for the 75-72 victory.

John Beasley scored 29 points and took 18 rebounds, one key to the Aggie victory.

Randy Matson, held to five points on two field goals and a free throw, got 16 rebounds. Stringfellow had 17 points.

For Arkansas, Wally Freeman had 14, J. D. McConnell 13. The Razorbacks are 1-2 in conference play.

Near Loop Lead
Baylor pulled to a 2-1 conference record with its victory over Texas, leaving the Bears one game behind A&M for the lead.

LOOSE BALL — An unidentified Tascosa player battles Pampa's David Frasier (40) and Steve Williams (24) for a loose ball in the Harvesters, 54-42 victory over the Rebels. The victory enabled Pampa to windup first half 3-4A play in fourth place with a 5-3 record.

WARRIORS COME CLOSE

Broncos Outlast Miami In District Game, 67-55

Miami gave Briscoe a scare for two periods Tuesday night but the Broncos rallied their forces for a convincing 67-55 victory, their 22nd in a row without defeat.

The Briscoe girls edged Miami 33-32 in the final second. Diane Dodd upped her 21

point per game average with a 23 point output and Beverly Weiss scored 25 for the Warriors.

Miami led 10-8 after one period and 18-10 at halftime but Briscoe came storming back for a 25-23 third period lead. Miami managed but 10 of 23 from the charity line.

The Broncos had a cold first half and trailed 14-8 after the first period and went into halftime with a slim 30-28 lead.

But the Broncos hit 17 of 29 from the field in the final two periods and took a 50-44 third period lead.

Lee, Pampa Jr. High Divide Pair of Games

Pampa Junior High and Lee split a twinbill Tuesday in the first meeting of the two schools this year.

Lee ninth downed P.J.H. 53-36 and Pampa Eighth took the Rebels, 56-43, after trailing, 14-11 after one period.

Jim Hollis paced Lee's ninth grade with 17 points, Gary Parish scored 14 and Jay Johnson hit 11.

Bill Thomas scored nine and Dan Carlton 11 for Pampa Junior High.

The P.J.H. eighth grade got a 17 point effort from Larry Kotara and 16-point out put from Cliff Gage and Jackie Gindorf and Jerry Brumfield scored 10 each to pace the Reaper scoring.

Lewis Brankley led both teams with 19 points for Lee and Hawkins added nine.

Lee led 14-11, then fell behind 30-28 at halftime and trailed 45-32 after three periods. The Reapers hit 49 per cent of their shots from the field and pumped in 16 for 28 from the charity line with Lee making 21 of 30 charity tosses.

Lee's ninth graders out-scored P.J.H. 25-6 in the second period, hitting 70 per cent of their shots from the field, to break a 9-9 first period tie and go in front 34-15 at halftime.

The Rebels led 46-28 at the close of the third period.

The seventh grades from the two schools meet Friday.

Rifle, Pistol Club Holds Meet

The Pampa Rifle and Pistol club held their regular weekly meeting Monday night with a large turnout.

Scores in the .22 caliber shoot were Ralph Day 259, Paul Geizer, 252, Kenneth Williams, 277, Fred Brown, 268, Fred Caruthers, 243.

In Center fire J.B. Goad, 257, Paul Geizer, 248 and Kenneth Williams, 266.

The Pampa Daily News

A Watchful Newspaper
EVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities. We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

Baptists Refuse Handouts

We've had reason before to commend the Baptists for their refusal to accept federal funds, and federal control, for their schools and hospitals.

The recent Baptist General Convention heard appeals by three Baptist leaders, including the head of Baylor, oldest college in the state, who called upon their fellow delegates to set aside the traditional ban against accepting federal handouts.

The matter never even came to a vote. The editor of the Baptist Standard of Dallas said, editorially, he felt that if it had come to a vote, it would have been defeated 3-1.

The publication Church & State takes note of the Baptists' (and Seventh Day Adventists') continued refusal to be taken over by the federal government. In its January, 1966, edition, the magazine says:

"You can't tell Baptists anything. They have their own ideas. They do what they think is right.

"We have never known Baptists to be unanimous on anything. But on this issue of accepting government money for their colleges they come about as close to it as you will ever find this side of heaven. One convention after another rejected the proffered Federal aid in thunderous crescendo.

"It cost them money, bushels of it, which the Federal Government was begging them to take. They turned down millions—not casually, for their schools need

support—but after prolonged and grim debate. They will cut their institutions back if necessary rather than accept government financing and control.

"The Seventh-day Adventists have done the same. They did it deliberately, with their eyes open. They knew very well what a bonanza government aid would have been. They looked the thing in the eye and said, 'No'.

"The Baptists and the Adventists will renew the faith of many who were about to lose it. One hardly expects ordinary groups to reject the government gold so universally available. Their leaders are only human. Money will not lie around long without takers.

"But the churches ought to be different. There should be in them that which refuses to be bought or bribed. Where others should hold firm.

The Baptists and the Adventists have now done just that. They have rejected the easy money for their institutions in order to keep them free and voluntary.

"What if all other churches would do as these have done? What if they all told the United States Government to take the money and help some other poor folk? We believe that the churches would instantly gain a large measure of popular respect and esteem.

"It would rather neatly demonstrate that the churches are interested in something else besides money."

Drop Out and You're In

We thought that just about the ultimate in whatever-you-want-to-call it had been reached when we learned several months ago that a federal anti-poverty project in Alexandria, Virginia, across the river from Washington, was rewarding youngsters for dropping out of high school by paying them \$1.25 an hour to cut grass, pull weeds, rake leaves, and such like. But now the drop-outs are to receive an additional bonus: they can attend night school to complete their high school education, with tuition and textbooks furnished by the taxpayers of the city of Alexandria.

Even a student who has flunked out ought to be able to add this up without difficulty. Why go to that stuffy school, with its bells and cafeteria lines, when one can get paid a buck and a quarter an hour for not going? Night school should be much more fun, plus an excellent excuse for being out late at night and for leaning on the rake handle a little more often during

the day. Surely no one can expect a guy to work real hard in the daytime when he's going to school at night. Besides that, the books are free at night school—for day school dropouts, that is. Ordinarily in the State of Virginia, students must buy most of their textbooks for use in the regular public schools.

It occurs to us that all students—including those with passing grades—should be given the same opportunity to get the hang of the Great Society. For their daytime jobs the kids could pick up pop bottles, beer cans and sandwich wrappers from the road sides as part of the highway beautification program. Their snacks on the way home from night school should ensure there'd always be some trash to pick up. And if they get nothing else education-wise out of the arrangement, they would have a practical understanding of the Great Society ethic just from having lived it.

Now that we've suggested it, that all sounds so silly we're afraid it might be accepted.

A Great Place for What?

There is a story, probably apocryphal, that when Henry Hudson was piped aboard the Half Moon after his first stop-over at Nieuw Amsterdam he muttered: "Well, it's a nice place to visit but I'd sure hate to live there."

People have been saying pretty much the same thing about New York City every since that time, but in recent years there have been variations on the old theme. These have been supplied by businessmen forced to flee the city because of the pyramiding cost of doing business there. Some interesting comments have been made by people beaten and robbed by the muggers and punks who infest the streets and subways. Bitter references to the city's economics can be picked up at any of the many shopping centers, just outside the city limits, supplied by New Yorkers who go there to escape a 5 percent sales tax levied by politicians

who never think of cutting expenses, their bloated bureaucracy or their own salaries.

And, as of this writing, there is no reason for even visiting Bedlam-on-Hudson. Traditionally, New Yorkers have always been more than willing to accept currency delivered to them by visitors from the hinterland, but now the Mayor himself has pulled in the welcome mat with a proclamation that means: "Amis, stay home!"

The reason, of course, is because that old-labor-wizard Mike Quill uttered the magic word "Shtrike!" and the mammoth metropolis ground to a halt. Which doubtless comes as a cruel blow, indeed, to the new Mayor, dapper John Lindsay, who during the election campaign had put himself on the record as a forward-looking liberal, at least 100 percent in favor of labor's gains.

Anyway, as we were saying: "It was a nice town to visit..."

Another Giant Topples

Word comes from Outer Mongolia that, for reasons best known to Communist theoreticians, that country's sole claim to fame—Genghis Khan—is being given the de-Stalinization treatment.

The official Communist journal describes him as a reaction-

ary and an aggressor. Most serious charge of all is that he fostered a "cult of personality."

As everyone knows, you can't hardly do a worse thing than that.

In 1961, Alabama seceded from the Union.

Pull Up A Chair

By Frank Markey

Many visitors to Fort McHenry, overlooking the harbor at Baltimore, Md., consider the 1812 military drill, performed weekly by a crack Marine Corps unit, more impressive than the changing of the guard at Buckingham Palace. One of the nation's top historical attractions, Fort McHenry is where the gigantic Star-Spangled Banner, flying during the battle of Baltimore in 1814, inspired Francis Scott Key to write the words of our National Anthem.

Today's smile: Many Williams, the funniest magician in show business, tells the story about the fellow who arrived home very late one night and said to his wife: "Guess where I've been." His mate said: "I can, but get on with your story."

Amos Alonzo Stagg is the only man in sports history to be named to both the football and basketball Halls of Fame. Although best known as one of the greatest of all football coaches, Stagg was named to the basketball Hall of Fame for his work in helping James Naismith invent the game in 1891, and for later helping to standardize the rules throughout the country.

... If someone asks you on a quiz program to name a word that has seven syllables, you'll win the prize if you tell them it's "individuality."

When we hear of astronauts orbiting the earth in a few hours and the speed with which commercial jets circle the globe, it makes Wiley Post's pioneer feat of flying solo around the world in 1933 look slow. It took him seven days, 18 hours and 50 minutes to complete his journey.

Thoughts while shaving: Alcoholic liquor has been known to every age of history. We saw a picture recently of an old Egyptian carving showing distilling apparatus and as far back as 800 B.C. the Shahs of India sipped liquors made from flowers.

Aristotle mentions liquor and Alexander the Great is credited with inventing the loving cup as a peace gesture between Macedonians and Persians...

Country Editor speaking:

"Not so many people would be afraid of big dogs if they would tell when they are friendly."

Country Editor speaking: "Not so many people would be afraid of big dogs if they would tell when they are friendly."

Country Editor speaking: "Not so many people would be afraid of big dogs if they would tell when they are friendly."

Matter of Fact

The Saturnalia was the most popular of all the Roman festivals and its influence is still felt throughout the western world, especially around Christmas and New Year. Saturn was the god of sowing. The holiday was held in December, was the gayest festival of the year and lasted several days. Slaves were temporarily freed, presents were exchanged and the streets were filled with the air of a Mardi gras madness.

With Democratic congressional leaders hoping to adjourn by August 15 so members up for election can campaign, every delay in bringing up 14(b) reduces its chances for passage this year.

Freshman Democrats, who helped edge the measure through the House last year, already are urging the White House to shelve the controversial labor issue.

They point out that if a full-scale Senate debate takes place, the bill will become a major

Rear Guard Action

Backstage Washington

Prospects for 14B repeal Dimmed As Congress Faces Immediate Viet Nam Budget

ROBERT ALLEN

WASHINGTON — The first major legislative casualty of the intensifying Viet Nam war apparently is labor's demand for repeal of Section 14(b) permitting states to enact right-to-work laws.

Although the AFL-CIO's priority proposal is still not being rated as "dead" for this session of Congress, its prospects are drastically dimmed by the contemplated high-powered drive to put through President Johnson's \$13 billion emergency Viet Nam appropriation.

In conferences here this week, members of the AFL-CIO Executive Committee are being frankly told their No. 1 legislative proposal will not be the first order of Senate business as originally planned.

Instead, the controversial 14(b) repealer is being sidetracked to clear the way for immediate consideration of the huge Viet Nam fund bill to avoid delay in winning congressional approval of it.

This backstage strategy, worked out by White House, Labor and Democratic congressional leaders, calls for cannonballing the emergency money measure through both the House and Senate before the legislators take up the controversial domestic legislation.

According to word congressional leaders are passing to colleagues, AFL-CIO chiefs bowed to this unannounced strategy for two compelling reasons:

The union leaders' fear that a prolonged debate over 14(b) would block action on war funds and backfire against their repeal efforts; private polls showing that the pro-labor forces in the Senate lack the votes to force an early showdown on this issue.

TIMING IS IMPORTANT — Labor and administration leaders are privately saying they can muster only 55 votes to cut off Senate debate — 11 short of the 66 needed to compel a vote on repealing 14(b).

In December the AFL-CIO launched a \$1 million publicity campaign in newspaper and TV ads to present the argument that the real issue in the 14(b) battle is the right of the Senate to vote.

As the drive has made little evident headway, the labor leaders propose to use the interval required to pass emergency Viet Nam funds to "build up a new head of steam" behind their stalemated measure.

With Democratic congressional leaders hoping to adjourn by August 15 so members up for election can campaign, every delay in bringing up 14(b) reduces its chances for passage this year.

The Doctor Says:

By DR. WAYNE BRANDSTADT

Q—What could cause an unmarried 17-year-old to get mastitis?

A—A mild mastitis or inflammation of the breast preceding each menstrual period is a common occurrence. It is caused by a periodic stimulation of the breast tissues by female hormones. In some girls the inflammation fails to subside with the onset of the menstrual period and the mastitis becomes chronic. The underlying cause of this failure is not known.

The breasts in these girls become lumpy and painful, often more so on one side than on the other. When this occurs a small specimen of breast tissue should be removed for microscopic study to rule out cancer. The breasts should be rechecked every six months by a physician.

Hormones that counteract the female hormones have been tried as a remedy without success. The only treatment at present is to wear a tight brassiere.

Q—I am a 64-year-old housewife. For years I have been taking Darvon for sinus headaches. Is it habit-forming and are there any harmful side effects?

A—Dextropropoxyphene (Darvon) is not habit-forming. It is widely used as a mild depressant and pain reliever. In the recommended dosage there should not be any side effects.

Q—What is Darvo-Trans given for?

A—This is a combination of Darvon, saprin and phenylglycolol, a mild tranquilizer. It is recommended for persons whose pain is accompanied by anxiety.

Q—During my first pregnancy, the placenta began to separate in the sixth month. The baby was born dead at 7½ months. Why did this happen? Will it happen if I get pregnant again?

A—This complication is relatively rare. It occurs when the placenta is too close to the outlet of the uterus. This is entirely dependent on chance and almost never happens twice to the same woman.

Q—So many different diets have been recommended for arthritis that I am confused. Is there any diet that has been found helpful?

A—Your confusion is understandable. Write to the Arthritis and Rheumatism Foundation (10 Columbus Circle, New York, N. Y. 10019) for "Diet and Arthritis" by Gaynor Maddox. This pamphlet contains sound advice and should set you on the proper course.

Q—I am fond of milk but am taking medicine for high blood pressure. I have been told not to drink milk because I am on a salt-free diet. What do you think?

A—A strict low-sodium diet would not permit milk. This type of diet is often prescribed for high blood pressure with good results.

Straight Talk

By TOM ANDERSON

SALISBURY, Rhodesia: The world press has stated that any foreigner who enters Rhodesia without a British visa and later comes to Britain might find himself in trouble for dealing with an enemy. Well, here I am in Rhodesia without a British visa. Next stop, Britain. And I do accuse Britain of dealing with an enemy of the United States—Viet Nam. Britain will trade with anybody, for a profit. If nobody were looking, Britain would sell to Rhodesia, while urging others not to, for a profit. Britannia waives the rules.

Rhodesia's northern neighbor, Zambia, is a racially integrated nation of 80,000 whites and millions of blacks. On the Zambian-Rhodesian border is the fabulous Kariba dam, completed only five years ago, which flooded about 2,000 square miles of Rhodesian bush country and created the largest man-made lake in the world — 175 miles long and up to 20 miles wide. If anybody ever did blow up the dam, it would be one of the most sensational sights and dastardly deeds in history, for the dam connecting Rhodesia and Zambia holds back 41 million gallons of water! Ten thousand men worked four years to complete the dam. Two hundred of them died from the steaming heat and accidents at the remote site, which required millions of gallons of fuel, cement, machinery, and food to be carried in along elephant trails.

The Kariba dam is vital to the economy of Rhodesia as well as Zambia. It is ridiculous to speculate that the Smith government might destroy the dam. It is her only source of power. Rhodesia wants and needs Zambia's friendship, since Zambia is her best export market.

Zambia's government is black. But more than 50,000 whites are the brains, the cement and the nervous system of Zambia's economy, which rests mainly on its indispensable and strategic copper mines. Many of the whites working in Zambia are Rhodesians and South Africans. Their loyalty lies with Rhodesia.

Ninety percent of the officer corps in Zambia's 2,500 strong army are white. They have close friends and even brothers in the Rhodesian officer corps. Informed sources here believe Zambia will not allow military action from Zambia against Rhodesia for the following reasons: 1. Enmity between black and white in Zambia is a greater threat to the mines and to the state than "white supremacy" in Rhodesia. 2. Zambia wouldn't trust black troops from other nations on Zambian soil. 3. Having watched "international crimes" in the Congo, Zambia has no desire to be saved by the U. N.

If the Smith regime is toppled it won't be from within and it won't be from the black nationalists. Only the big powers, or the United Nations, can defeat the Ian Smith government and bring chaos to Southern Africa. Boycotts and embargoes won't destroy Rhodesia — but one-man-one-vote would.

As any honest fool could understand, western "democracy" is a miserable failure among the newly-freed African nations, as well as many other places.

Hunt for Truth

BY H. L. HUNT

TWENTY-SECOND AMENDMENT

The Constitution of the United States sets up a structure of limitations on the power of government which is one of the most carefully designed, and for a long time was much the most successful, in all history. This was the main purpose of the founders, and they achieved it.

Still, many Americans of 1788 who voted on the ratification of the Constitution were not satisfied that its system of checks and balances alone would suffice to rule out tyranny. So they insisted on the adoption of a Bill of Rights which would specifically protect individual liberty. Several states made this an ironclad condition for their approval of the Constitution.

The Bill of Rights was put in the form of the first ten amendments to the Constitution and was adopted without significant dissent. Since then, there have been fourteen additional amendments to our Constitution.

Several of these later amendments have set limits on the powers of state governments. The effect of this, through decisions by federal courts, has been to extend the power of the federal government. Only one amendment since the Bill of Rights has set an additional limit on the powers of the federal government: grown so gigantic in the twentieth century.

That one is the Twenty-Second Amendment which limits the length of time any man may serve as President of the United States to two elected four-year terms. That amendment stands as a firm barrier to any would-be American dictator. I take great pride in my success in getting the last twelve state legislatures to ratify.

H.L.H.

The Nation's Press

BIG LABOR PASSING ITS PEAK? (N.Y. Daily News)

Sen. Everett M. Dirksen (R-Ill.) engineered defeat of the proposed repealer of the Taft-Hartley Act's Sec. 14-B in the recent session of Congress—with startling results.

Sec. 14-B permits the states to outlaw compulsory union membership by enacting right-to-work statutes—which 19 states have done.

Encouraged by the Dirksen victory, the National Right-to-Work Committee is steaming up its campaign for such laws in all states.

The group reports a 25 percent membership increase in one year, with many members of labor unions joining up. It is full of zip and zingo—and full of hope to defeat the 14-B repealer again, and again, and again. Maybe Big Labor already is passing its power-peak.

We wish the right-to-workers well. We believe the labor movement would be far better off if labor leaders in all the states had to work to sell and resell unionism to workers, rather than rake in automatically check-off dues and assessments in the 31 union-shop states.

Wit and Whimsy

An amateur gardener had made up his mind to have the best lawn in the county. Each spring his big problem was dandelions. Repeated letters to the agricultural center brought little help. In desperation the gardener sent one final plea for advice.

Their letter of reply: "We suggest you learn to love them."

A boy hoeing in a cornfield said,

Boy — Dad I'm thirsty.

The father replied,

Father — Well, son, keep on hoeing, you know the prophet says, "Ho, every one that thirsteth."

Rich relatives live longer than anyone.

The trouble with a welfare state is that it costs too much to get something for nothing.

A minister woke up in the middle of the night to find a burglar ransacking the house. Minister—Well, if you'll turn on the light, I'll help you hunt.

Billy — Why did you put that mud turtle in your sister's bed? Bobby — Because I couldn't find any frogs.
