WITH A ROPE tied around his ankle, a 14-year-old member of the Viet Cong waits to be interrogated in the Da Nang area. The boy led several American Marines through a mine field he had laid himself. The boy told the Americans he was going to lead them to a secret Viet Cong cave, then lured them into the mine field. Several of the Leathernecks were wounded.

Communist Leaders Give Different Views

WASHINGTON (UPI) — If their remarks were taken at face value, Communist China's foreign minister and its ambassador in Warsaw could almost have been speaking for different governments.

Foreign Minister Chen Yi was quoted by Japanese parliamentarians who interviewed him in Peking as saying China did not want a "clash" with the United States and was "not necessarily dismissing" the idea of Viet Nam peace talks.

But in Warsaw, Poland, Red China's Ambassador Wang Kuo-Chiang denounced what he called the U.S. "peace talk swindle" and warned that if the United States started a war with China, the Chinese would pursue it "to the end."

Both of these statements, perplexingly different in tone, were being studied today by U.S. officials. In response to Chen's reported statement, the State Department said Wednesday that if he really said it "we would welcome that statement."

"Certainly we have no desire for a clash with China and would want to avoid one," a U.S. spokesman said. As to possible Viet Nam news said it was interested in peace talks, the State Department said that Chen's remarks signaled a change in Chinese policy, which up to now has rejected all peace proposals.

Second Soldier Refuses Viet Duty; May Face Same Sentence As First

FT. DIX, N.J. (UPI) — A second Army private who refused to go to Viet Nam is going before a court martial today facing the same charge that brought a sentence of three years at hard labor for another draftee.

Pfc. James Johnson, 20, was being brought to trial on the heels of the conviction of Pvt. Dennis Mora, 25, who was found guilty of disobedience Wednesday by a 10-man court which deliberated only 25 minutes on its verdict after a two-day trial.

Johnson and Mora, both New Yorkers, and Pvt. David Samas of Modesto, Calif., had joined together with the backing of left wing organizations to refuse to serve in Viet Nam. Samas is awaiting trial at Ft. Dix.

Johnson will have the same civilian defense lawyer who represented Mora — Stanley Faulkner of New York. There will be a new 10-man panel on the court martial.

Mora, who told the court he considered the Vietnamese war illegal and immoral and with the purpose to "kill as many Asians as we could" will appeal up through the military courts. The court martial, which could have given him a maximum sentence of five years, had been scheduled by

F.B.I. To Investigate Local Man's Murder

By RON CROSS
News Staff Writer

Federal Bureau of Investigation agents have entered the case of a Pampa truck driver, Walter Kucker, 43, of 1506 Wiliston, who was murdered early this morning in Indianapolis, Ind.

According to detectives in Indianapolis, Kucker was found dead about 3:30 a.m. today on a parking lot in the Indiana city.

FBI agents entered the case because Kucker was slain on government property. The parking lot where he was found is to become the site of a new federal building.

Police said Kucker had a two-inch gash in his head and tire marks on his back and chest, indicating he had been run over by a vehicle.

Indianapolis officers said the Pampa trucker was definitely not a hit-run victim. "It is murder pure and simple," one officer said, adding, "We have no suspects at this time but we are checking out several leads."

One theory police are checking out, according to the detectives, is robbery. The police said Kucker had only \$2.50 in cash on his person when found. They said it is believed he had cashed a \$100 check at a bar.

Police also said Kucker was last seen late Wednesday night in a downtown Indianapolis tavern. Another trucker, whom Kucker checked into the Warren Hotel with, informed police Kucker told him he was going to another bar, but apparently never got there.

A clerk at the hotel told police Kucker had checked in Wednesday about 8:30 p.m. and had left about 9 p.m. Kucker was a driver for American Red Ball lines and had been away from Pampa approximately two weeks. He had (See PAMPAN, Page 3)

Senator Tower is being accompanied on the three-day trip by his wife who is scheduled to make a tour of other Panhandle towns Sept. 13 and 14. The Tower campaign got its official kickoff at a breakfast this morning in Wichita Falls, his home town. He will appear on a statewide television broadcast from Dallas tonight, go to Fort Worth for a short airport stop and then into Amarillo for the night. He is scheduled for an airport (See TOWER, Page 3)

General Sees No Limit To Viet Troops

TOKYO (UPI) — Gen. Maxwell D. Taylor said today he saw "no limit" to U.S. troop commitments in Viet Nam and that it was "indispensable" for the United States to continue bombing Communist North Viet Nam.

"The hope of the enemy is no longer in a military victory but rather in a collapse of our morale or a break in our determination," said the former U.S. ambassador to Saigon and onetime chairman of the Joint Chiefs of Staff.

Taylor, who spoke at a Press Research Institute gathering, declared that little progress had been made in the past year on the political and economic front in South Viet Nam but that he was optimistic about the military situation.

"At the present time, about 54 per cent of the population of South Viet Nam is securely under government control and something over 20 per cent of the population is clearly under Viet Cong control," he said. "The remainder of the population is in those zones where the security of the population ebbs and flows with the changes in the military situation. These figures represent relatively little progress over the past year, a fact which emphasizes the need for more security and, hence, for increased United States troop strength."

WEATHER
PAMPA AND VICINITY—Clear to partly cloudy and mild through Friday. Chance of isolated thundershowers. High in mid-90s. Low in mid-50s. Probability of rain: less than 10 per cent. Southerly winds 10 to 20 m.p.h. Outlook for Saturday: partly cloudy and continued mild. If it comes from a hardware store we have it. Lewis Hildebrand. (Adv.)

Astronauts Are Preparing For Friday's Gemini

CAPE KENNEDY (UPI) — Astronauts Charles (Pete) Conrad and Richard F. Gordon eased up their training today while ground crews began final preparations for Friday's flight of Gemini 11.

Space agency spokesmen said it would be generally "a light day" for the eager astronauts, already pronounced fit for their three-day assignment. They did plan more work in a Gemini mission simulator to keep themselves in fine tune and were scheduled to meet with project officials for status briefings on the flight.

At launch Complex 19, ground crews were making final checks of the Gemini spacecraft and its Titan 2 booster, paying particular attention to the guidance system.

Several hundred yards away at Complex 14, fueling of the big Atlas booster rocket began. The final countdown for the launch starts late tonight. The Atlas is scheduled to start the Friday space show with blastoff at 6:48 a.m. CST — carrying an Agena satellite into orbit for Gemini 11 to chase down for a tricky rendezvous assignment.

Conrad and Gordon are due to be launched 97 minutes later. The mission got a go-ahead from mission director William C. Schneider Wednesday following a 75-minute meeting to review all phases of the flight, which will be the next-to-last in the two-man Gemini flight series. In December, three-man Apollo missions begin.

With everything else clicking smoothly, the weatherman forecast satisfactory conditions for the double launch.

F.D.R. Jr. Agrees to Run In New York On Liberal Ticket
NEW YORK (UPI) — Franklin D. Roosevelt Jr., was all set today to accept the New York gubernatorial nomination of the party of his choice. His second choice, that is. Rebuffed by the Democrats, who sent his father to Albany 38 years ago in what proved to be the stepping stone to 12 years of presidential power, FDR Jr., agreed Wednesday night to run for governor on the Liberal ticket. The Liberal party, which normally endorses the Democratic candidate, is pursuing an independent course in this year's election and will place Roosevelt's name in nomination at its state convention here tonight. He is expected to win the nomination easily. The chief victim of Roosevelt's decision to run as a third-party candidate is almost certain to be Frank D. O'Connor, who was nominated for governor by acclamation on the first ballot Wednesday night at the Democratic party's state convention in Buffalo. Political observers estimate that FDR Jr., endowed with a name that still commands great respect in heavily Democratic areas, could draw as many as 600,000 votes, the vast majority of which would otherwise go to O'Connor. Various polls have indicated O'Connor has a sizable lead over Gov. Nelson A. Rockefeller, who will be nominated for a third term tonight at the Republican state convention in Rochester. But the entry in the race of Roosevelt, who once was elected to Congress on a liberal ticket, could change things decisively. In still another state convention, at Saratoga Springs, the

DeGaulle To Watch A-Bomb
PAPEETE, Tahiti (UPI) — Some of the adventures enjoyed by HMS Bounty's Fletcher Christian during the fabled Pacific era of wind-driven frigates and uncharted paradise were on tap today for visiting French President Charles de Gaulle. The 75-year-old French leader was to feast on pit-roasted suckling pig and breadfruit at a "tamaaraa" and watch the shapely brown wahines of this island paradise undulate to the hollow rhythms of wooden drums. Then past and present were to quickly unmerge. Following an afternoon nap, De Gaulle was to awaken back in the nuclear age and prepare to sail off to watch France explode above a Pacific atoll; a weapon Christian and his 18th century mutineers would never have comprehended — the atomic bomb. There was, however, only a 25 per cent chance the A-bomb suspended from a balloon over the Mururoa test center 800 miles southeast of Tahiti would be detonated as scheduled on Saturday. Prevalent bad weather also threatened to ban the blast Sunday. De Gaulle's final day in the Pacific before winding up his three-week worldwide tour via Mexico and Guadaloupe on route to Paris.

New Trial Set For Dr. Sheppard

CLEVELAND (UPI) — Dr. Samuel H. Sheppard, whose 1954 conviction and life sentence in the slaying of his wife were overturned by the U.S. Supreme Court, was recharged today with second degree murder and released under

\$10,000 bond to await retrial. He pleaded innocent. Sheppard's attorney, F. Lee Bailey of Boston, immediately asked Cuyahoga County Common Pleas Judge Roy F. McMahon for a change of venue. McMahon, who did not indicate when he would set a date for a new trial, recessed the hearing to confer with attorneys for both sides on the change of venue request.

The indictment, read by County Prosecutor Johnson T. Corrigan, said Sheppard "unlawfully, purposely and maliciously, killed" his first wife, Marilyn.

Sheppard has been free since 1964 on a \$10,000 federal bond while the Supreme Court considered his appeal. That bond, which restricted him to the state of Ohio, was revoked and state bond in the same amount was set.

The new bond will permit him to travel anywhere in the continental United States.

Sheppard appeared with his second wife, Arianne and teen-aged son, Chip, his only child by his slain first wife. They watched the proceedings in the same courtroom in which Sheppard was convicted 12 years ago.

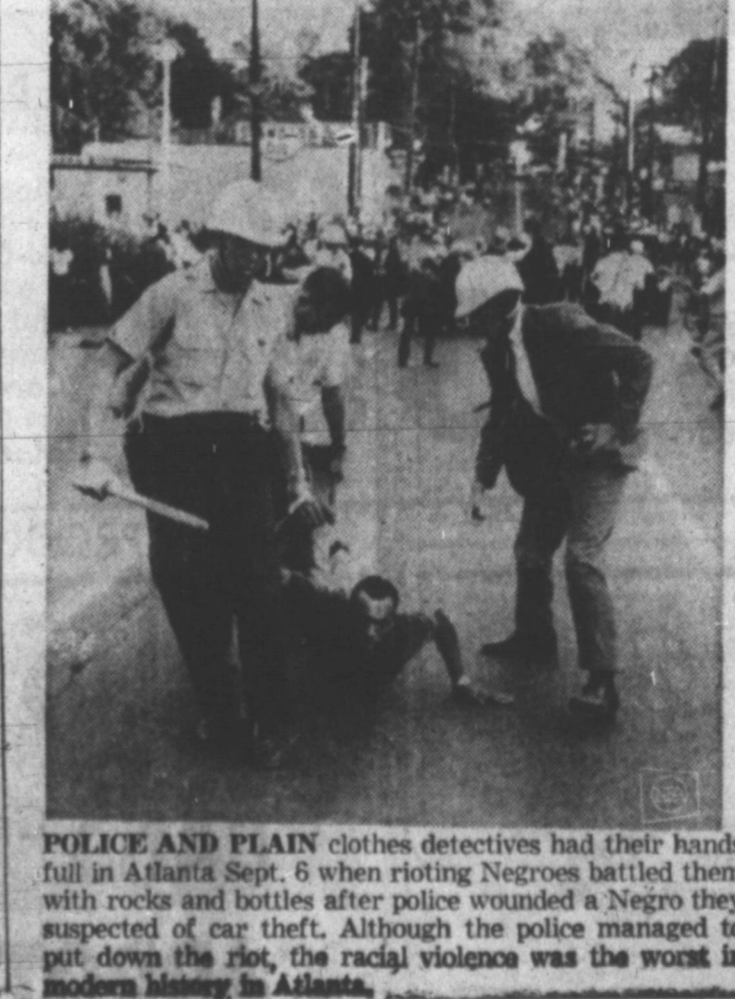

The Supreme Court ruled that Sheppard's first trial was marked by prejudicial news coverage and bedlam in the courtroom.

In a landmark decision last June, the U.S. Supreme Court held Sheppard did not receive a fair trial when he was convicted and sentenced to life imprisonment. The court said (See TRIAL, Page 3)

Viet Toll Of U.S. Soldiers Passes 5,000

SAIGON (UPI) — The number of Americans killed in action in Viet Nam was officially placed today at 4,998. U.S. military spokesmen said it was a "safe assumption" that the toll had passed 5,000.

In the air war American planes flew 122 missions against military and communications targets in North Viet Nam Wednesday and destroyed a surface-to-air missile (SAM) site 35 miles northwest of Vinh. Pilots reported six huge explosions and said, "We left the site a raging inferno with brown smoke towering over the entire area."

The U.S. Military Command said 74 Americans were killed, 570 wounded and 10 were missing or captured last week. The figures cover the seven-day period ending Sept. 3.

Spokesmen would not comment on the number of U.S. troops killed in the past five days but the average is at least 10 Americans killed in combat daily, even in weeks of light action. The military spokesmen said they presumed that more than seven Americans had died this week.

Communist losses for the week ending Sept. 3 were placed at 885 men, which made the "kill ratio" 4.7 to 1 for the Allies. Spokesmen said 100 South Vietnamese soldiers were killed, 309 wounded and 23 missing. Other Allied forces had 4 dead and 15 wounded.

Viet Cong mine squads meanwhile early today tried for the fifth time in recent weeks to blow up a vessel on the Long Tao River, major channel in the 40-mile link between Saigon and the South China Sea.

A mine floating just under the water and apparently detonated by an electrical charge from the river bank exploded only 40 yards from a U.S. Navy minesweeper, The (See VIET NAM, Page 3)

Verwoerd's Body Flown to Capitol
PRETORIA, South Africa (UPI) — The body of Prime Minister Hendrik F. Verwoerd was being flown today to South Africa's administrative capital for a state funeral Saturday.

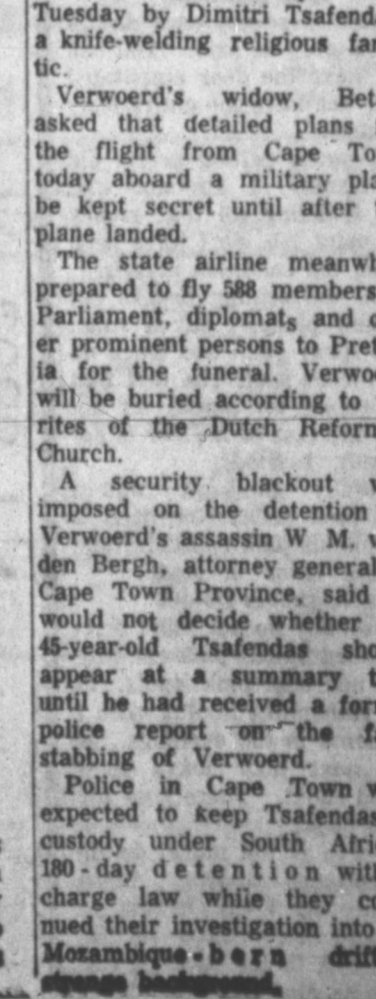

Verwoerd, who would have been 65 today, was assassinated in Parliament at Cape Town Tuesday by Dimitri Tsafendas, a knife-wielding religious fanatic.

Verwoerd's widow, Betsy, asked that detailed plans for the flight from Cape Town today aboard a military plane be kept secret until after the plane landed.

The state airline meanwhile prepared to fly 588 members of Parliament, diplomats, and other prominent persons to Pretoria for the funeral. Verwoerd will be buried according to the rites of the Dutch Reformed Church.

A security blackout was imposed on the detention of Verwoerd's assassin W. M. van den Bergh, attorney general of Cape Town Province, said he would not decide whether the 45-year-old Tsafendas should appear at a summary trial until he had received a formal police report on the fatal stabbing of Verwoerd.

Police in Cape Town were expected to keep Tsafendas in custody under South Africa's 180-day detention without charge law while they continued their investigation into the Mozambique-born drifter's strange background.

POLICE AND PLAIN clothes detectives had their hands full in Atlanta Sept. 6 when rioting Negroes battled them with rocks and bottles after police wounded a Negro they suspected of car theft. Although the police managed to put down the riot, the racial violence was the worst in modern history in Atlanta.

The Lighter Side

By DICK WEST

United Press International WASHINGTON (UPI)—Five days a week I am confronted with a new type of moral dilemma. As far as I know there is no precedent for resolving it.

It came about from parking my car on the grounds of the U.S. Capitol under some large trees. About two years ago the car caught an incurable case of Dutch elm disease.

The main symptom is a scaling of paint on the right front door. I took the car to a garage but it never got past the admitting room.

"You don't need a mechanic," I was told, "You need a tree surgeon."

It was examined by a tree surgeon. The prognosis was not good.

Two Solutions

"There are only two things you can do," he said. "You can either have the door amputated or you can have the entire body repainted."

The car is getting pretty old and, frankly, I am not wild about spending all that money for a paint job. So I have been treating the condition myself.

When the scaling breaks out in a new place, I buy a small can of spray paint and touch up the afflicted spot. The fact that the touched up places do not match the rest of the car is not my fault. I tried.

Originally the car was a bilious pink color. Now it is a faded bilious pink enamel. None had that color in stock.

Neighbors Object

I personally do not mind driving a faded bilious pink car with bright neurotic pink spots. In fact, I rather like it. But when I drive home in the evenings, the people next door wave their fists and shout, "There goes the neighborhood."

Now here is the moral dilemma mentioned above. Almost every day as I am driving to and from work I have several seat cushions in the traffic pattern. Some clown changes lanes without looking and only alert defensive work on my part prevents a collision.

Serve Whole Baked Red Snapper

Food Page

STUFFED RED SNAPPER - This succulent herb-seasoned stuffed snapper is perfect for Fall dining. It is easy to prepare, fun to cook and delicious to eat.

If you've never served a noble whole baked red snapper dressed with a savory mushroom stuffing, now is the time to try. It will be a conversation piece and as delicious as any gourmet fare.

If you have a flair for outdoor cooking, you'll find it barbecued to perfection. Or, if you prefer, you can bake it inside in the oven. Either way the mouth watering aroma of a stuffed fish roasting will excite the appetites of guests and family alike.

The secret of the stuffing is in the delicate blend of herbs and spices. For convenience use packaged herb-seasoned stuffing, the fine-particle kind, which already has this delicious blend.

Large fish, such as red snapper, sea bass, cod, and striped bass are best for this feast.

HERBED MUSHROOM STUFFING

- 4 to 5 pound red snapper
- 2 cups packaged herb-seasoned stuffing
- 1.3 cup melted butter
- 2.3 cup hot water
- 1/2 pound fresh mushrooms
- 1 tablespoon snipped chives
- 1 tablespoon snipped parsley
- Wash and clean fish
- Thoroughly dry inside of fish and lightly season with salt and pepper.
- Wash and slice mushrooms. In

Save 100 Calories

Newspaper Enterprise Assn.

Q - I want my husband to lose some of his fat stomach. He is a compulsive eater. Can you suggest a painless way for me

to cut calories in his meals without angering him?
A - Here are some easier way to cut around 100 calories from each meal.

For a chocolate éclair, 316 calories, substitute 1 cup sliced bananas, 1/2-cup milk, total 12 calories.

For 1-6 quart chocolate ice cream with 1 tablespoon chocolate sauce, 245 calories, substitute 1 cup blueberries with 1-ounce cream, 141 calories.

Famous Steak House Reveals Sauce Recipe

By GAYNOR MADDOX
Newspaper Enterprise Assn.

For those charcoal broiled steaks you are planning to serve the crowd, try this remarkable sauce. It comes from Gallagher's Steak House, a New York institution for years.

For tastiest results, Dick Conlan, the manager, advises, first pour some vegetable oil (corn or

cottonseed) into a flat shallow dish. Add a shake or two of salt and pepper. Put the raw steaks in this oil prior to cooking. This helps seal the juices in. To turn the steak when it is over the charcoal, use tongs, never a fork which would pierce the meat.

GALLAGHER'S MUSTARD SAUCE

- 1 bottle (7 ounces) catsup
- 1 pound butter
- 1/4 bottle Worcestershire sauce
- 3 tablespoons powdered English mustard

Blend all ingredients in a double boiler. Beat with wire whisk until smooth. Serve warm. Serves 15 to 20.

Here's another "little recipe" you'll like. Danish-ham with Italian salad and cress sandwich.

Italian Family Gives Cabbage Roll Recipe

By GAYNOR MADDOX, Newspaper Enterprise Assn.
The Italians who settled in California added greatly to that state's reputation for good eating. Among them was the DeDomenico family, who began as produce and poultry storekeepers and later became experts in pasta making.

It was Lois DeDomenico, however, who thought up the idea of combining thin vermicelli with rice (another California product) and packaging it as a mix. Here's her suggestion for using it in cabbage rolls.

DeDOMENICO CABBAGE ROLLS

(Makes 6 to 8 servings)
1 package (8 ounces) beef flavor vermicelli and rice mix
1 pound ground chuck steak
1 onion, chopped
1 carrot, coarsely grated
1 large head green cabbage
2 cups tomato puree (two 8-oz. cans)
2 cups chicken broth, canned or made with chicken bouillon cubes.

Prepare vermicelli and rice mix according to package directions. Cool. In a deep saucepan or in the bottom section of a Dutch oven, saute beef, onion and carrot in a little butter or margarine until beef is brown and crumbly. Drain off any excess fat from the beef. Stir in cooked vermicelli and rice.

Remove core from cabbage and carefully pull off about 12 leaves, keeping them whole. Pour boiling water over leaves and allow to stand until cabbage leaves are wilted. Use vermicelli-rice mixture to fill cabbage leaves (more leaves may be needed, depending on their size). Roll up leaves, tucking in ends, and fastening with a food pick.

Pour tomato puree into the saucepan or Dutch oven in which meat mixture was cooked. Put in cabbage rolls. Shred two cups of the remaining cabbage and sprinkle over rolls.

Add chicken broth. Cover tightly and simmer, stirring occasionally, about one hour, or until cabbage is tender. Add more chicken broth, if necessary, to keep rolls from sticking.

Food Buying Guide

EDITORS: The following guide to the nation's food shopping buys for this coming weekend was prepared by the U.S. Departments of Agriculture and Interior for UPI.

WASHINGTON (UPI) — The food picture for weekend buying brightens with the news of more produce, broiler-fryers, and beef and pork for the nation's markets. Turkeys are nationally plentiful.

In vegetables, carrots have the spotlight this week, followed by green peppers, cucumbers, lettuce, potatoes and radishes.

In good supply among fruits are grapes, pears, melons, and bananas. Many areas report cantaloupes still in abundance.

Nationally, fish sticks and portions, and canned tuna are the all around plentiful in the fish department. Add them to the weekend shopping list.

Honey Dew and Cheese

By GAYNOR MADDOX, Newspaper Enterprise Assn.
September, along with August, are the peak months for melons with "the sweetness of honey and the freshness of dew."

LAYERED HONEYDEW AND CHEESE SALAD

(Makes 6 servings)
2 envelopes unflavored gelatin
1 cup cold water
1½ cups hot water
½ cup sugar
½ teaspoon salt
¼ cup fresh lemon juice
1½ cups fresh honeydew balls (3 oz.) package cream cheese, softened
½ cup diced celery

Soften gelatin in cold water. Add hot water, sugar and salt. Stir to dissolve gelatin. Add fresh lemon juice. Divide into 2 equal portions. Place one part in refrigerator to chill until as thick as fresh egg whites. Leave the remaining half at room temperature until ready to use. Stir honeydew balls into chilled gelatin and pour into a quart mold. Chill 30 min. Chill remaining gelatin until as thick as fresh egg whites. Add cream cheese and beat mixture until frothy. Stir in celery and pour into mold over firm honeydew layer. Chill until firm and ready to use. Unmold on serving plate and garnish, if desired, with honeydew balls and fresh mint leaves.

6 THE PAMPA DAILY NEWS THURSDAY, SEPTEMBER 4, 1966 50TH YEAR

Dear Abby... Remember and Don't Let it Happen to You

DEAR ABBY: Last night I went to sleep with the pillow over my ears to drown out the noise of my parents' quarrel. I am the oldest of six and I feel sort of responsible for the younger ones. My folks have been fighting ever since I can remember.

They fight about little things, like who out gas in the car last, and also over big things like money, and my father's not spending enough time with my little brothers.

Abby, this is giving me a nervous stomach because they fight a lot at the supper table. What can a 14-year-old girl do?

SICK OF FIGHTING
DEAR SICK: The only thing you can do, honey, is to remember it. And make sure you don't give your children the same kind of unpleasant memories.

DEAR ABBY: Your answer to "insulted" wasn't fair. It was in response to guests who complained because the guest room they were offered was poorly furnished. "They obviously do not want guests," you stated. After all, some families can't obtain everything at once. We have a \$500 bed (I am six feet, seven inches tall and weigh 250 pounds), but we have a \$17 roll-away bed in our "guest room," which also doubles as a study with books stacked in every corner. We enjoy having guests but have not had the funds to furnish our

guest room as we would like. Someday we will have better accommodations. But in the meantime, I hope our visits together will make up for their having to sleep on a roll-away bed in a crowded room.

ONE OF YOUR EDITORS
DEAR EDITOR: Sorry about that, boss, but the guest wrote, "They have a beautiful, push-button home with every modern convenience imaginable. There is nothing too good for them or their children." From that, I inferred it was not so much a shortage of cash, but consideration. I could have been wrong.

DEAR ABBY: Although we are past 60, we have been married only a few years. This question has come up several times and we are both rather puzzled about what is proper.

When my husband and I take a single woman in our car for a ride, where should she sit: Between my husband and me: Or next to the car door and let me sit by my husband? Also when we are walking down the street, should my husband walk between the two of us, or should he walk on the outside with me next to him, and the other lady on the inside, next to me?

PUZLED
DEAR PUZLED: In the car, you should sit next to your husband. While walking, be a little more generous and "share"

Bath Treatment Tones Skin

EVERY WOMAN WHO CARES how she looks is searching for a way to make her skin soft and supple. A carefree, sun-filled summer exposes your skin to the drying effects of the elements. To combat these comes a complete bath treatment collection by Savon Clair catering to individual skin types and personal bathing preferences. Lightweight, unbreakable tube (left) holds a foam formula which is a relaxing bubble-bath treatment. It can also be applied directly to the body in the shower. Its softening ingredients are effective in both soft and hard water. Body toner and moisturizer (right) when used after bathing or before re-tinting, will help keep elbows, heels, knees and hands soft. It's also a good leg treatment for after shaving.

your husband with the other lady. It will enable him to assist both of you, should either stumble.

CONFIDENTIAL TO "A FAN ON MUNICH STREET": When a man has done you wrong, immediately consider with what opinion about good or evil he has done wrong. For when you see this, you will pity him, and will neither wonder nor be angry. (Marcus Aurelius)

Hate to write letters? Send \$1 to Abby, Box 69700, Los Angeles, Calif., 90069 for Abby's booklet, "How to Write Letters for All Occasions."

Astrological Forecast

By CARROLL RIGTER

FOR FRIDAY, SEPT. 9
GENERAL TENDENCY: This is a great day to put your ideas and whatever your talents or merchandise are across and in the market of world trade very constructive conditions can exist especially if leaders of finance and industry are aware of the potentials for making big headway towards a greater cementing of world trade conditions.

ARIES (Mar. 21 to Apr. 19) — Home and family bring your finest rewards today, so be sure to concentrate on them even if you have to be outside business world. Greater security can be yours thereby. Be sensible in all that you do.

TALIBES (Apr. 20 to May 20) — Others are in a very expensive mood and can give you the information you need. Finishing that letter you started is a good idea. Plan a little trip for later in the day that is really necessary.

GEMINI (May 21 to June 21) — You want to increase your income but find you have to be very practical in order to do so. Study your assets carefully and know where to invest. Avoid any routine that will be burdensome and boring for you.

SCORPIO (Oct. 23 to Nov. 21) — Concerning these out-of-town can see you starting on that new project very soon with fine results following. Be very alert to what is going on around you. This determines pretty much what your success can be.

SAGITTARIUS (Nov. 22 to Dec. 21) — Retire more on your intuition in dealing with others and you find you can handle them very much better. Once you have affairs in order, you can give your time to romance in p.m. Be happy.

CAPRICORN (Dec. 22 to Jan. 20) — By cooperating fully with partners you now can make all those plans very workable so that excellent benefits can be yours. New contacts can be made, but you have to tell them what you want, be aggressive.

AQUARIUS (Jan. 21 to Feb. 19) — Attending to all those duties ahead of you requires vitality and enthusiasm, so that you can start your week-end on a happy note. Have a new attitude toward co-workers. Be more willing to go along with their ideas.

PISCES (Feb. 20 to Mar. 20) — Ideal day and p.m. for receiving others in your home or going out for fun in a happy mood. Show that you are truly fond of them. You are able to show that you have special talents that can be appreciated.

IF YOUR CHILD IS BORN TODAY...
...he, or she, will be one of those remarkable people who will know exactly how to be successful in life, without making a great deal of fanfare about it or expecting adulation. However, there is a tendency toward over-emotionalism, and this should be curbed early for best results and greater popularity among others. An excellent chart for the actor or actress, the writer or sales person.

Make Hair Subordinate
Avoid trying to make your hair the most outstanding feature. Doing this takes away from the overall appearance. Elaborate hairdos can overpower your face and personality.

Headlines Tell Grim Story of Highway Hazards of Motorcycles and Scooters

By GAY PAULEY
UPI Women's Editor

NEW YORK (UPI) — The headlines tell the grim story of a new hazard of the highway. Singer Richard Farina, dead in a motorcycle accident in April, hospitalized for two months to recuperate from a neck fracture, concussion and severe face and back cuts when his cycle's rear wheel "froze," flipping him off onto the pavement.

A report to the division of accident prevention of the U.S. Public Health Service, during a recent safety conference expressed alarm at the increase in motorcycle and scooter accidents and deaths — more than doubled in the last few years, expected to total 1,500 for 1965, expected to increase substantially in the immediate future.

The rising toll was cited in the Congressional Record July 14, 1965. "What can be done? There are those who call for special licensing of cyclists as one means — the Automotive Safety Foundation representing 600 safety organizations promoting safety, said only seven states so far require it. They are Oregon, Delaware, Maine, Vermont, New York, Hawaii, and New Jersey.

Observing all areas of safe cycling is of course a must. In talks with safety experts in the insurance, medical and other fields, the consensus was that these should be rules of the cyclist's road:

—Get to know your motorcycle before taking it into traffic. Be familiar with how it steers, accelerates and brakes.

—Be sure the engine is thoroughly warmed up before driving. If the engine is cold, it could misfire and cause an accident.

—Equip the motorcycle with adequate horn and light assemblies. You must be able to alert other drivers of your presence if they don't see you, so be sure your horn is loud enough. Your headlamp should project far enough ahead for the speeds you attain, but never have it aimed so high that it blinds other drivers.

—Always wear a helmet and heavy clothing. Head injuries cause a high percentage of cycling deaths each year. And if you are thrown from the cycle, you may avoid serious cuts and abrasions by wearing protective clothing.

—Remember that all vehicular laws apply to cycles as well as to cars. Signal all turns. Obey traffic signs and lights.

—Always ride single file. Riding two or more abreast increases chances of an accident and doesn't allow room for other traffic.

—Make all turns moderately. Centrifugal force is stronger when acting on two-wheeled vehicles. Before making a U-turn (if allowed), come to a complete stop and look around to see that the road is clear. Then check again to be sure.

—If your helmet has a faceplate, don't let line of vision be obstructed by splattered insects or condensation.

—Allow plenty of distance between you and the car ahead. —Always apply the rear brake first. Then ease down gently on the front one. This will bring you to an even controlled stop.

—Approach sand and wet leaves on the road slowly, and steer a straight course until you've passed them. The

UNUSUAL EARRINGS worn by lovely Elizabeth Lewis, wife of the famous English opera and concert tenor, Richard Lewis, look luscious enough to eat. Mrs. Lewis who has been accompanying her husband on his current nationwide American tour, has chosen the earrings of vinyl plastic in a variety of colors to wear with her beach clothes. By American designer, Miri, the plastic grazes are attached by wires and hung to ear clips.

slightest deviation of wheels can throw you out of control. The same care is needed to avoid skids during or after a rain.

—Remember that a passenger's extra weight creates new demands for controlling the cycle. Have the rider wear helmet and hold on tightly especially when you are starting and stopping. Don't take him by surprise with a sudden change of speed or direction. Safety experts recommend that the passenger have a separate seat and foot rest.

Bride-Elect Honored At Lingerie Shower

GROOM (Sp) — Miss Susan Britten, bride-elect of Keith Black, was honored recently with a lingerie shower in the home of Ann Homer with Evelyn Burgin and Ann Homer serving as hostesses.

Refreshments of punch and cake were served to Misses Eldred Wayne Jones, Tom Wagner, Richard Crump, Kenneth Wayne Jackson and Misses Mariellen Britten, Mary Ruth Scott and Patti Ward.

Truthful Mirror Is A Boon to Beauty

FORMER ACTRESS and now wife of Frankie Laine, Nan Grey demonstrates her eye make-up technique, using her own invention. It is a combination close-up mirror with lens. Originally designed to help far-sighted women apply eye make-up quickly and accurately, the mirror also helps women spot complexion faults because it magnifies.

Keep Makeup Fresh
Always keep your make-up fresh. To prevent cracking, touch the fingertips to the fine lines under the eyes on occasion during your evening out. That keeps the skin under the eyes moist and smooth.

Ruth Millett Flat-As in Men's Flattery of Women

Newspaper Enterprise Assn. Memo to men:
You'll never flatter a woman by telling her:

That she thinks like a man. (Any woman knows that the only way to outthink a man is to think like a woman.)

That she and her mother look more like sisters than mother and daughter. (Save that remark for the mother — when the daughter isn't around.)

That she's a good sport. (Any woman would hope a man could find something more glamorous than that to say about her.)

That she is so sensible. (Any woman knows something unpleasant is likely to follow that remark. Such as: "You are so sensible I know you'll understand why we can't become engaged right now.")

That she looks so much like some other woman. (You may

think the other woman is as good looking as she is—but she won't. And, besides, what woman wants to look just like another woman — unless they are identical twins?)

That she's so brave. (No woman wants to have to live up to that idea. She would rather let you be brave — if it's all the same to you.)

That she's so dependable. (A woman likes to fancy herself as being a bit unpredictable. She thinks it is more feminine than being "good, old dependable Sue.")

That the reason you never take her out to dinner is that her meals are so much better than anything you can get at a restaurant. (She isn't likely to fall for that old line.)

That she deserves someone better than you. (Any woman knows that's a brush-off.)

Industries Submit Final Designs For Nation's Supersonic Airliner

WASHINGTON (UPI)—Private industry laid down a multi-billion dollar bet on America's continued supremacy in commercial aviation recently by submitting final designs for the nation's supersonic airliner.

From Boeing and Lockheed came 16,000 pages of engineering data on the airframe design.

From General Electric and Pratt & Whitney came slightly less voluminous proposals for the mighty engines that will power the supersonic transport (SST) at speeds of up to 1,800 miles an hour.

The massive material was submitted to the Federal Aviation Agency (FAA), which turned it over to a 235-man government evaluation team comprised of technical experts from FAA, the National Aeronautics and Space Administration, and the Defense Department.

Duplicate proposals were given to a similar evaluation team representing more than 30 U.S. and foreign airlines. The two evaluation groups will work

separately, but the airline verdict is expected to play a major role in the government's final decision—particularly if the competing designs are razor-close in merit.

The White House has yet to announce final plans for financing the \$4.5 billion project it will take to develop, build and test two prototypes. But it is known that present plans call for the government to foot up to 90 per cent of the bill, but with the manufacturers and airlines eventually paying all of this back in royalty payments.

The timetable calls for flight-testing an American SST by 1971 and putting it into passenger service by 1974.

Both evaluation teams expect to finish by Oct. 31. They will report their findings to FAA Administrator William F. McKe. By the end of November, McKe will submit to President Johnson his recommendations.

The President, guided by advice from a Cabinet-level SST committee, will announce late in December or early next January whether the government will give the SST

Rural Carriers To Assist With Acreage Reports

Rural mail carriers will begin distributing 1966 acreage survey cards to patrons on their routes about Sept. 14. Postmaster Lynn Boyd has announced.

Rural mail carriers working on this project are L. E. Byars, Route One; C. W. Coffin, Route Two; Truett Behrens, Star Route Three; Marvin Tibbets, Star Route Four; and Mrs. V. T. Alexander, Star Route Two.

To be sure this community is well represented in the survey, Postmaster Boyd urges each patron receiving a card to fill it out and return it to his mailbox.

The Post Office Department assists USDA in making this survey each year. These reports, directly from farmers, are the basis for the official estimates for Texas acreage of all crops harvested in 1966.

program final clearance.

The FAA's goal is an SST that is safe, efficient and profitable to operate. And most experts are willing to bet that the nation's aeronautical genius will come up with an SST superior to the British-French "Concorde" and the Russian TU-144.

National Window

By LYLE WILSON

The Ivy League mayor of New York City and the Viet Cong in distant Southeast Asia are pursuing identical strategy to impose their will on their fellow citizens. The strategy is to prevent by such means as may be available a resort to the revered democratic process of voting to determine a vital matter of public policy.

The Viet Cong tactic is murder and other intimidation in an effort to nullify the forthcoming balloting for a constituent assembly in South Viet Nam. The Viet Cong are attempting to prevent a vote they cannot otherwise control. So it is with Mayor John V. Lindsay in New York City.

Of course, His Honor would never resort to violence. He and his associates turned instead to the courts to prevent New Yorkers from voting on department civilian review of the question of a police board to receive complaints against New York cops. Most especially to receive complaints of police brutality.

Although their methods are wholly different, Lindsay no less than the Viet Cong is attempting to frustrate the democratic process. Moreover, the motive of Lindsay and of the Viet Cong seems to be the same. The motive in New York and in Southeast Asia is to prevent a balloting which cannot be controlled. That is a perversion of the American way.

That is a strange spot on which to find the charming, young politician who took office last January as mayor of New York. Lindsay squeaked into office with the assistance of votes in the ghetto of Black and Spanish Harlem. These unhappy citizens complained that the police were brutal and that there must be a civilian review board to make them behave. Lindsay committed himself to name a civilian board if he were elected. But the campaign turned on many basic issues. Lindsay's election surely should not be accepted as a meaningful expression of the voters on the sole question of whether civilians should dip into problems of police discipline.

The Conservative party of New York and the Policemen's Benevolent Association combined to challenge the civilian board. Both alleged that such civilian review would destroy the department's morale and ability to maintain order in the trouble-bubbling city. The Conservatives and the organized policemen proposed that the question be put to the voters in November.

Lindsay and his associates went all out to prevent that. The mayor and his friends did not want an expression of the popular will. Lindsay's position is, never mind what the people want, Big Brother knows best.

ACA Ratings Show Texas Congressmen Are Not As 'Conservative' As Thought

"Conservative" ratings of the Americans for Constitutional Action indicate that Texas congressmen are not very conservative.

Pampa's Rep. Walter Rogers was listed as 75 per cent conservative, much higher than the 42 per cent average of all Texas members of the House.

The conservative ACA based its rating on voting records during first six months of the present session of Congress, but did not indicate which votes were considered in the ratings. The ratings were released Tuesday.

They listed Sen. John Tower, R-Tex., as a 54 per cent conservative and Sen. Ralph Yarborough, D-Tex., at 6 per cent. This put Texas senators at 3 per cent more liberal than New York's Robert F. Kennedy and Jacob Javits.

They also were listed as more liberal than the senators from such states as Ohio, Illinois and Massachusetts.

Our Texas representative, Mrs. L. M. Thomas of the eighth district, received a zero conservative rating. She was

one of only three representatives to be so rated.

Texas' 23 representatives averaged out to a 42 per cent rating, a full 20 per cent more liberal than Ohio.

Individual ratings were: Pool, 70 per cent; Patman, 19; Brooks, 12; Beckworth, 23; Roberts, 61; Cabell, 52; Teague, 81; Dowdy, 91; Thomas, 0; Thompson, 30; Pickle, 45; Poage, 50; Wright, 22; Purcell, 37; Young, 16; De la Garza, 12; White, 35; Burlison, 77; Rogers, 75; Mahon, 40; Gonzalez, 8; Fisher, 74 and Casey, 36.

SHARP WARNING

Japan has drawn back abruptly from any talk of recognizing Outer Mongolia because of a stern warning from Formosa. Nationalist China considers Mongolia a part of its own territory and has warned Japan privately that even if it thought of such a move the Taipei government would create a worse crisis than it did over the proposed sale of a synthetics plant and a freighter to Red China two years ago, diplomats report in Tokyo.

Greek Royal Guardsmen proudly wear bouffant skirts, tasseled garters and white lights.

October Draft Call Increased

WASHINGTON (UPI)—The October draft call is being increased from 46,200 to 49,200 men, the Defense Department announced Wednesday. It already was the highest monthly call since the Korean war.

The department also issued a draft call for 43,700 in November. The November quota will be the second highest monthly total since the buildup for the Vietnamese war began.

The new October quota will be the highest monthly draft since 53,000 men were inducted in May 1953.

The Defense Department said the October draft was revised upward to include the first of 40,000 "sub-standard" men who are to be accepted during the current fiscal year from among former rejectees.

Defense Secretary Robert S. McNamara said last month that the services would accept 40,000 men this year, and from among potential draftees with a fifth grade education, aptitude in at least one specialty such as mechanics, and only slight physical ailments.

The Defense Department said "all inductees in the October and November calls will be assigned to the Army."

The department's announcement said the December draft was expected to be "substantially lower" than recent months.

"Army training operations during December will be scheduled to avoid the entrance of new inductees into active duty during the Christmas holiday season," the department said.

Youth Beat

THE NATIONAL REPORT ON WHAT'S HAPPENING

TV TIME IS HERE AGAIN

Rolling across your television screens this season, there'll be lots more of the same—mysteries, movies, westerns—shined up with more razzle-dazzle and with more shows in color. The networks will increase adventure-mystery, westerns and variety shows, but cut down on comedy. One other downtowned continues—teen musicals are just about out... "Hullabaloo" on the air in summer re-runs, goes this fall... An exception is Dick Clark's "American Bandstand"—it'll beat steadily on. This season, one show in three will be new... Here's a smorgasbord report on them—

The Girl From U.N.C.L.E. will out-derring-do The Man From U.N.C.L.E. if she can... The Green Hornet will smash down the same track as Batman... tree swinging Tarzan will swim back on the screens, but with no Jane on the show... and The Monkees, a zany rock 'n' roll quartet will flip through misadventures more offbeat than the Beatles', in a new free-wheeling comedy. Dial outside this big-time television and there are your programs for the new season on local stations... and the daytime shows... Some with more serious television fare—for instance, College Bowl, battle of intercollegiate brains, hits its ninth consecutive year this fall... and It's Academic, the high school brain-buster, will continue as a late afternoon program.

YOUR EYES AND YOU

EYES—about 50 million of them—will be the busiest sense organs put to work this school and job year. They're valuable—eyes bring you 80 per cent of your knowledge, guide 90 per cent of your physical action. Human eyes are superior—for example, animals usually see only things that are moving, you see them moving or standing still... you see close-up things in print or faraway hills, animals only see one or the other. Of course, some animals, like cats, opossums and raccoons, see 10 to 20 times better in the dark than you do... but, then, most animals are color blind (except monkeys and

apes). More boys are color blind—girls who like to use a lot of cosmetics may sometimes be wasting it... because eight boys out of 100 are color blind (only one girl is), and their chief confusion is they can't tell red from green. Blinking and crying—both are natural. Blinking is a way you rest your eyes every 10 or 15 seconds, with a temporary blindness... when you cry you're the only animal that does (honest, this is

what scientists say!) except for bears who have been known to shed real tears of grief. So take good care of your eyes.

GIRLS' EYES AND GUYS

It's nothing new that girls use their eyes for other purposes than to see with. But something new is the way girls have moved into the use of eye make-up. Three-quarters in the older brackets now use mascara, half of them eyeliner, eyebrow pencil and eye shadow, says a new survey. In fact, the drug industry gives young people the major credit for doubling the national sales of all these eye beauty products over the last five years. This means—a lot more girls' eyes will be lit up for boys than ever before—with the use of make-up!

WHAT ABOUT ALLOWANCES?

—Specialists in the youth field say that the question parents ask them most is—"What kind of an allowance should I give?" See what you think of this advice from the experts—Start younger teen-agers off with a reasonable sum, about \$3 to \$4 a week, and increase this with their need and how responsibly they handle it. Allowances usually should cover daily expenses like bus fares, supplies for school, lunches—but parents should agree that the extra money left over should be spent as a teen-aged boy or girl chooses. If there's foolish spending, allowances should be kept small rather than large. And parents shouldn't give an advance against allowances ahead except in a real emergency. The experts acknowledge that grownups don't always handle money too well... So they point out the big aim of an allowance should be to encourage those receiving it—right up through college age—to train themselves to handle money well. And you can quote the experts as agreeing that what has got as an allowance is "out", today.

Canadian Has 665 Enrolled in School

Three hundred and thirty-three students have enrolled here in high school and junior high. Enrollment by classes are: Senior class, 50; Junior class, 56; Sophomore class, 50; Freshman class, 54, eighth grade, 66 and seventh grade 57. The elementary schools, first grade through the sixth, enrolled 332 students, making a total enrollment in all schools of 665.

Ex-Pampan Named As D.A.

It seems that when Potter County (Amarillo) needs a district attorney, it goes shopping and winds up with a man from either Pampa or Borger.

At least, that is the case with 33-year-old Gene Compton who recently was named district attorney for Potter and Armstrong Counties.

Compton is a former Pampan who attended public schools here and was graduated from Pampa High in 1951.

He attended Frank Phillips College two years, received an undergraduate degree from Oklahoma U in 1957, worked during 1957 for Continental Oil Co., returned to school and received a law degree from Southern Methodist University in 1961. He also served a two-year hitch in the Army.

Compton first became an assistant in the district attorney's office in Dallas. He began private practice and in 1963 went to Amarillo as assistant district attorney.

After three years in the district attorney's office, Compton

was appointed senior judge of Amarillo's Corporation Court in March of this year. He served there until his Aug. 25 appointment as district attorney to succeed Dee Miller who resigned to become a congressional candidate. Miller is a native of Borger.

Compton, the former Pampan, is the son of the late L. D. Compton and Mrs. A. A. Grof of Amarillo. He is the grandson of Mrs. C. L. Casteel, 919 E. Francis.

Compton's wife is the former Barbara Mee of Phillips. They have one daughter, Barbara Ann.

Ky Will Visit US in November

Accused Killer Will Be Judged By Grand Jury

EL PASO, Tex. (UPI)—The case of a "kind and considerate" 27-year-old hospital technician charged with killing one of four persons whose bodies were left in a burning rooming house will go directly to a grand jury.

Leopoldo Morales was held without bond today, charged with murdering Pvt. Michael Artz, 23, one of the four other tenants of the rooming house, early Sunday.

Although Morales was charged with one killing, police said they knew almost nothing about the crimes. The victims, besides Artz, were Artz' 20-year-old bride, landlord Albert Mearse, 72, and Mrs. Mearse, 75.

"We haven't found anything missing from the homes of any of the people involved except the things destroyed by fire," said Detective Sgt. W. R. Bain. "The man (Morales) won't talk on advice from his attorney. He seems to be pretty normal mentally. But we can't talk to him."

A hospital spokesman described Morales as "kind and considerate."

Bain said neither of the slain women had been sexually molested.

Mearse and his wife had their throats slashed and the young soldier and his wife had been shot to death. The slayer covered the bodies with sheets and blankets and set them afire.

Police said an unidentified soldier spending the weekend with Mr. and Mrs. Artz escaped by hiding in a closet.

The debating society organized by Benjamin Franklin was known as the Junta; this developed into the American Philosophical Society in 1743.

Former Pampan Shares Memoirs Of East-West Girl Scout Meet

(EDITOR'S NOTE: The following article is a report of the East-West Girl Scout Conference held in Hawaii in August submitted by Margaret Ann Brewer, formerly of Pampa, daughter of Mr. and Mrs. John Brewer, now residing in Tulsa, Okla. Brewer is the former Boy Scout Executive.)

One hundred forty-three Girl Scouts and Guides left Honolulu, Hawaii, Tuesday, August 23, with sadness in their hearts and awareness in their minds. It was the end of the three week Girl Scout Conference for the Mutual Appreciation of Eastern and Western Cultures. One hundred and four girls from the mainland United States, 16 girls from Hawaii, and 23 girls from Asian and Pacific countries participated in this event for Senior Girl Scouts and Guides.

The first seven days of the conference was hospitality week in which we spent all our time with a local family. We saw the sights of the Islands and got acquainted. On August 7, we reported to the East-West Center on the University of Hawaii Campus and the Conference actually began. That evening, we had an orientation program and welcome by the Council of the Pacific, which included native singing and dancing.

In my group was Hoori from Pakistan, Helen from New Zealand, Roberta from Hawaii, and three girls from the States. Living with these girls and learning their ways, likes and dislikes was most interesting.

The next two weeks were crammed full of large and small discussion groups on such subjects as youth and cultural change, religion, courtship and marriage, youth and voluntary organizations, and personal interests. These discussions were held in the morning with a guest speaker and later in the afternoon as small buzz sessions with the young adults leading. These young adults were girls, age 18-25, from all countries represented, and who had participated in previous Juliette Low World Friendship Fund Projects.

One day a week we toured the island and visited such places as the Bishop Museum, Honolulu Art Academy, Polynesian

Your Child And School

BY DAVID NYDICK
ULI Education Specialist

There are many ways to help your child develop into a successful adult. One way is not to help him. This may sound peculiar, but too many parents fail to give their children an opportunity to develop initiative and responsibility.

An infant needs constant help from his parents. As he grows, he should develop an increasing ability to think and act independently. Too often, parents are unable to accept this change and as a result their children remain overly dependent.

As a child becomes physically and intellectually capable, he should be given increasing responsibilities. A 3-year-old should help put his toys away at the end of the day. By the time he is four, he will probably be able to do it by himself.

Wall Street In Review

NEW YORK (UPI)—Tessell, Patrick & Ostrau Inc. says that while it is yet too soon to say that the lows of the year have been seen, it can be said that the market is probably no more than two or three weeks away from an important bottom.

Bache & Co. says the market is probably in a position to respond to action of a positive nature but as long as vacillation is the policy "from on high," genuine upside enthusiasm cannot be generated.

DOPED BOMB: The test explosion French President Charles de Gaulle is to witness in the Pacific next Sunday will be what is known technically as a "doped" atomic bomb—that is, something halfway between an A bomb and a hydrogen bomb. The first true H bomb tests by the French are not planned until early 1968. French officials in Paris say the Sunday test will take place only if weather conditions are perfect.

The city of Ephesus, Turkey, claims to have been the home of Mary, mother of Christ.

Experts to Report On Whitman Case

AUSTIN (UPI)—The world will learn Thursday whether pathology and psychology experts have found any clue in Charles Whitman's brain or Gov. John Connally said Dr. Lee Clark of M. D. Anderson Tumor Institute, who headed a blue-ribbon study group will report.

Who killed his wife and mother, then climbed the University tower and shot 46 persons, killing 14.

Does your child fight with his friends? At one time or another most every child does. Most parents have had the experience of trying to stop fighting only to find that the children in a few minutes are best of friends. Unless there is some physical danger involved, parents should not interfere at the first sign of teasing or a battle. Again, this is part of the experience of growing up. It is a part of learning to be with other people.

We all learn from experience. If parents pave every step of the way, the child doesn't have the opportunity to develop from his mistakes. He doesn't have the opportunity to develop his own skills for solving his problems.

Perhaps this approach sounds somewhat cold and unfair. No one is suggesting negligence. It is the extreme of too much help or not enough which causes problems. Help should be given in the form of guidance and assistance when needed. However, parents should not become slaves to every request and desire of their children. The child must learn to make some decision on his own.

If a 10-year-old boy has an opportunity to play baseball or go swimming, the choice should be one for him to make. The parent should not immediately tell him which to do. Perhaps he has a cold and the parent feels he shouldn't go swimming. Rather than saying no, the parent can ask if it's a good idea to go swimming when one has a cold. If this is not sufficient, it might be pointed out that the cold could become worse and this might mean confinement to the house.

Naturally, wise decisions are needed if parents are going to help their children. Always remember that your own good judgment should lead to the development of your child's ability to make wise decisions.

Steel Bathtubs
NEW YORK (UPI)—Jew porcelain-on-steel bathtubs are manufactured with self-leveling support brackets that eliminate the need for special blocks, shims and other leveling devices, according to United States Steel researchers.

The new bathtubs also can be installed without additional floor braces because they weigh one-third less than other tubs, say the researchers.

Such plants should be watered thoroughly and then not watered again until the soil's surface is dry. This allows time for necessary air to reach the roots. The plants need good light—but not the sun.

Yankees Slip To 10th Place Spot In Senior League

By United Press International
The fate of the 1966 New York Yankees will be remembered long after their predecessors' 29 pennant championships are forgotten for today the mighty Bronx Bombers are in last place.

While most Yankee teams of the past were fighting for an American League flag along about September, the current edition is battling for its prestige alone.

The Yanks, whose 20 World Series titles may never be matched, fell into 10th place Wednesday night after losing 3-2 to Baltimore and only two days after the league-leading Orioles eliminated them from the race.

Elsewhere, Detroit blanked Washington 4-0, Boston shaded Cleveland 5-4, Minnesota downed Chicago 6-4 and Kansas City ripped California 6-3.

The Orioles, who reduced their pennant-clinching magic number to 12, further humbled the Yankees by taking the

season series 15 games to three. Baltimore snapped a 2-2 tie in the eighth inning. The Orioles loaded the bases on two walks and a fielder's choice and Brooks Robinson drove in Luis Aparicio with a smash off Clete Boyer's chest.

New York starter Mel Stottlemyre limited the Orioles to four hits—one a homer by Robinson—but nevertheless suffered his 17th loss against 12 victories.

The second-place Tigers remained 10½ games off the pace on the three-hit hurling of Earl Wilson, who won his ninth straight and 18th of the season. Wilson, not permitting a Washington runner past second base, was provided with three runs in the first on four straight singles.

Knocks In Two
George Scott singled in two runs during a four-run sixth inning that lifted the Red Sox out of the cellar. Boston starter Jim Lonborg (9-8) yielded 13 hits in eight innings before

John Wyatt replaced him after Jim Gentile pitched hit a home run in the ninth.

Harmon Killebrew scored the tie-breaking run in the eighth inning when Ken Berry's throw from rightfield went into the Chicago dugout. The Twins tallied four runs in the stanza. Jack Lamabe, winless against Minnesota in six decisions, held the Twins scoreless until the seventh.

Danny Cater doubled home a run during Kansas City's three-run first inning and singled across two runs with a bases-loaded single in the seventh. Jack Aker scored his 24th save of the season by hurling 3 2/3 innings to preserve Lew Krause's 12th victory in 20 decisions. Joe Adcock slammed his 18th homer for the Angels.

Tide Looks Strong Again

ATLANTA (UPI)—The secret of becoming the top college football team in the Southeast is simple enough; all you have to do is outplay Alabama's Crimson Tide. The tough part is figuring out how.

The Crimson Tide has been in the top 10 nationally for the past half-dozen years, winning UPI's national title in 1961 and 1964, and there appears to be no turning in the road.

Only 10 of 44 lettermen departed from last year's fourth-ranked team which went unbeaten after suffering a one-point (16-17) upset at the hands of Georgia in the opening game of the season.

Sure, Coach Paul Bryant has a few replacement problems with the loss of All-America center Paul Crane, quarterback Steve Sloan and fullback Steve Bowman. But the Bear always seems to find the troops he needs.

Kenny (Snake) Stabler, an impressive sophomore understudy to Sloan, appears ready to provide the necessary quarterbacking and 215-pound halfback Les Kelley should take up most of the slack caused by the loss of Bowman, leading

rusher in the Southeastern Conference.

Tennessee, which had a surprising 3-1-2 mark last season, and Mississippi, reputed set to regain its place among the Southeast's elite, head the posse which will try to head Alabama off at the pass.

Tennessee's only loss last year was by a single point (14-13) to Ole Miss and that came when quarterback Charlie Fulton was injured on the first play. The Vols battled Alabama to a 7-7 tie and outslugged Rose Bowl champion UCLA (37-34), winner again if Graves meets Fulton and Dewey Warren, expectations.

Sonics, Austin Square Playoff Series at 1 Each

By United Press International
Amarillo and Austin evened the Texas League Playoffs Wednesday night. They both, along with Albuquerque and Arkansas, have won one game and lost one in the "Best of Three" playoffs.

In the first game of the series, Tuesday night, Albuquerque downed Amarillo 4-2 and Arkansas whipped Austin 6-0.

Clay, German Rest for Fight

FRANKFURT, Germany (UPI)—Cassius Clay and Karl Mildenerberger today rested up for their heavyweight championship fight in Frankfurt's Wald Stadion (Forest Stadium) Saturday night.

The undefeated heavyweight champion wound up his training Wednesday afternoon with four slam-bang rounds against two of his sparring partners.

Clay, who prefers to be called Muhammad Ali, looked sharp in the brisk workout in a downtown gymnasium. He landed solid lefts and rights on the chin of imported British heavyweight southpaw Jack Bodell and Willi Johnson, another left-hander.

"He's as ready as he will ever be," proclaimed Clay's manager, Angelo Dundee. "The next punch the champ throws will be at Mildenerberger Saturday night."

The promoters were encouraged by a late spurt of ticket sales and they were confident that 50,000 seats of the 80,000-seat stadium would be sold.

Wednesday night it was the other way around. Amarillo overcame Albuquerque 9-2 and Austin defeated Arkansas 4-1.

Tonight's deciding games pit Albuquerque at Amarillo and Arkansas at Austin. The two winners will move into the final 2 out of 3 series.

George Gerberman was Amarillo's winning pitcher. He held the Albuquerque Dodgers to six hits.

Leo Possada started the Amarillo scoring with a bases empty home run in the second inning. The Sonics added seven runs in a big third inning and put on the ninth run in the seventh for the overwhelming victory.

John N. Purdin was the losing pitcher.

Arkansas jumped ahead of Austin on a second inning homerun with no one on base. But Austin's three pitchers gave the Travelers only one more hit and no additional runs.

The Braves evened the score in the seventh inning with a bases empty home run.

Austin then went ahead to win when Bobby Cox hit a ninth inning homer with two men on base. The Braves then added one additional run for insurance.

Arkansas came out on top in regular league play. Amarillo, Albuquerque, Austin, El Paso and Dallas-Fort Worth followed in that order. The top four entered the playoffs.

The Pampa Daily News

A Watchful Newspaper

EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less.

The Red Thrust for Legality

A couple of months ago in New York City the Communist Party, U.S.A., held a convention that had been postponed for five years.

The convention, according to Hoover "laid the foundations for an aggressive, extensive and massive party campaign to infiltrate American life in many fields."

The party in the United States presently is engaged in a "thrust for legality" and a "determined, purposive effort to be accepted by the American people as a legitimate element of our society."

Mountaineer Is Up a Tree

A man who lives in the Blue Ridge Mountains is facing a problem that really has him stumped. Or at least stumped.

His wife received an advertising folder from a big department store in a big city, offering a fancy line of exclusive creations by an exclusive dress designer.

Furthermore, he said, both he and his wife realized that when a woman is climbing a tree, or even just sitting high up in one, she is apt to be noticed and wants to be presentable.

Weaving a Harmony

What won't they do next with computers? When he was commissioned to create a special carpet for the Delta Hotel in Vlaardingen, Holland, designer Cor Aldershoff was seized by an inspiration.

Aldershoff analyzed a Bach fugue and fed the mathematical pattern of the music into an electronic computer. The computer was then set to control a weaving loom.

The result, naturally, was a harmonious design. A thought for the day—British writer and playwright George Bernard Shaw said: "Silence is the most perfect expression of scorn."

Tax Hike Is Unlikely in '67—If Then

By BRUCE BLOSSAT Washington Correspondent WASHINGTON (NEA)—Despite the endless talk, there is still no real likelihood that President Johnson will propose general income tax increases before 1967—if then.

The reasons go beyond the old and obvious bit about no tax hikes in an election year.

In fact, though there is official discussion of some less than general tax increase which might be slapped on quickly by the dying 89th Congress, even that has serious drawbacks.

Tricky aspects are involved in the move most often mentioned—temporary suspension of the 7 per cent investment credit given businesses which invest in today's overheated economy.

In the matter of general individual and corporate income taxes, it is a very good bet that if the President should ultimately ask for increases, they will be tied tightly to the rising requirements of the Viet Nam war.

Economists and government officials debate continuously the use of tax boosts as a weapon against inflation. But the truth is that in the whole post-Hoover era of big government they have never been broadly applied solely and specifically for that purpose.

Since World War II ended two decades ago, there have been four separate reductions in individual income levies and just two increases. These latter came back to back in 1950 and 1951 and were justified officially by the vast outlays of the Korean war.

Consensus of that history: Lyndon Johnson will not move on the general tax front (if he does at all) until he can point to the Viet Nam war's extra demands.

Unfortunately, Mr. Hoover's warning will have no effect on many Americans, who will continue to be deluded by Communist propaganda.

The theme of Hall's address to the convention was that the United States is ripe for radicalism. Tribute was paid to the new leftwing student movements, which the party sees as the ripest fruit of radicalism, ready for picking.

Among the young people playing an active role at the convention was Miss Bettina Aptheker, who was prominent in the "free speech" riots at the University of California at Berkeley.

She is the daughter of party theoretician Herbert Aptheker, and shortly after the Berkeley uprising publicly identified herself as a Communist.

As in all previous conventions, stated Hoover, "the 19th convention showed utter disdain for American traditions, speaking in the language of hypocrisy and deceit, and serving—as the party always has since its founding in 1919—as the arm of the Soviet Union inside our nation."

The convention adopted a resolution noting that the peace movement "should be utilized to build a new radical movement."

Hoover said, adding, "We can expect the party to keep hammering at peace (meaning of course, the betrayal of American interests to the cause of the Soviet Union), all the time trying to enlarge the party's immediate and long-range influence. By allegedly standing for peace, the Communists hope to make contact with other groups, such as pacifists, church organizations and students."

Q: "But you would prefer to be in Russia?" Hall: "I prefer America with a Soviet government."

Q: "And you are willing to fight and overthrow this government?" Hall: "Absolutely."

Q: "And you are willing to take up arms and overthrow the constituted authorities?" Hall: "When the time comes, 'Yes'."

Q: "You can understand," the man went on, "that if we were to pay \$250 for a dress for our wife to climb trees in, we would not want her to get up there and discover she was wearing the wrong thing. We mountain folk are proud, gentlemen—real proud."

Q: "You can understand," he asked, "a good place in this area for my wife to take a refresher course in tree climbing? She hasn't climbed a tree in years, she tells me—not since she was a little girl. And she seems a little uncertain as to how well she could do it."

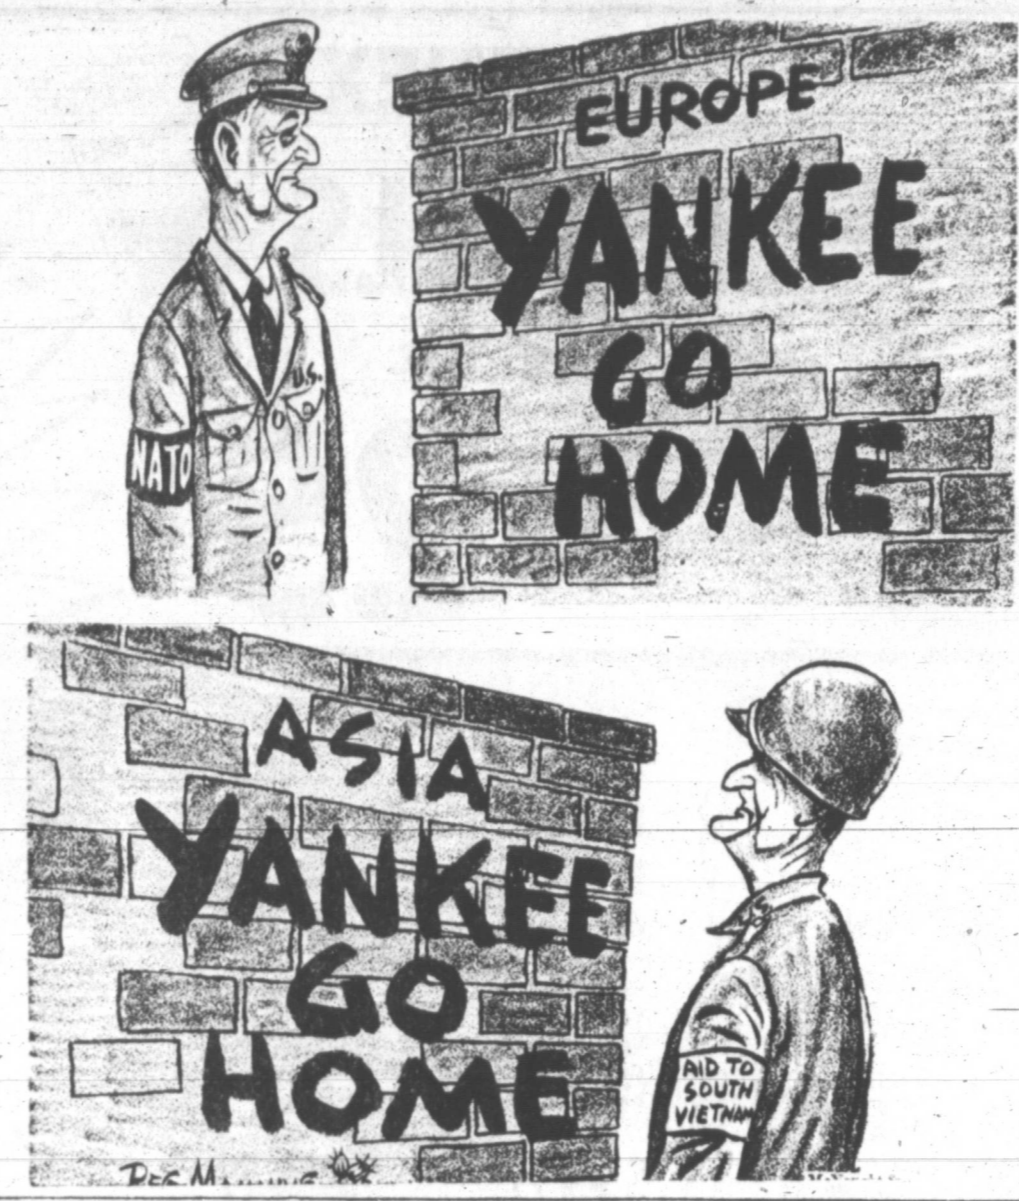

Q: "She says that so far as she can recall, she never climbed a tree in a \$250 dress when she was a kid. And she can't remember anyone else who did."

Q: "Well, the man has received no answer from the department store. And he has come to the conclusion that the folks who make and sell those dresses DON'T KNOW what to tell him. He just can't understand it."

Rep. Walter Rogers, House Office Bldg., Washington 25, D. C. Sen. Ralph Yarborough, Senate Bldg., Washington 25, D. C. Sen. John Tower, Senate Office Bldg., Washington 25, D. C. Texas.

Rep. Granger McInnis, Wheeler, Sen. Gray Hazelwood, Amarillo, Texas.

DeGaulle Was Here

The American Way

By HARRY BROWNE A close friend of mine recently surprised me while telling me of his earlier work in real estate speculation. He said, "Then I went into industry and I really earned my pay there. I was producing tangible wealth instead of just maneuvering pieces of real estate."

NEW YORK (NEA)—It was with a tremor of foreboding that we came across a story in the newspaper the other day which began with the following headline: BEATLES AGAINST WAR IN VIET NAM

Not that we object to foreign visitors having an opinion about U.S. policies. After all, if citizens of one country couldn't criticize the affairs of another, what would Joseph Alsop do for a living?

Nor do we have any quarrel with quoting public figures on matters of public controversy. Some of our happiest hours have been spent taking notes while generals and senators and corporation presidents charged, claimed, denounced, scored, urged, appointed, demanded, and denied all sorts of things for the daily press.

But when the Beatles get away with the same thing, we must confess to being rather worried for the future of public affairs.

In fact, our mind's eye is already blinking in horror at the lines—and the narrow escape of yesterday's. MELBA APPROVES FOOD & DRUG LAW

The Almanac By United Press International Today is Thursday, Sept. 8, the 251st day of 1966 with 114 to follow. The moon is between its last quarter and new phase. The morning stars are Saturn, Jupiter, Mars and Venus. The evening star is Saturn, United States Sen. Robert Taft was born on this day in 1889. On this day in history: In 1563, the first permanent settlement of what is now the continental United States was founded at St. Augustine, Fla. In 1855, the Crimean War ended. In 1900, some 5,000 persons were killed when a tornado and tidal wave struck Galveston, Tex. In 1934, the United States liner Morro Castle burned off Asbury Park, N.J. taking 137 lives.

The Doctor Says:

By DR. WAYNE BRANDSTADT Leg Ulcers Possible Result Of Varicose Vein Neglect Q—I have a large varicose ulcer on my leg. What treatment do you recommend? A—Varicose ulcers are the result of neglecting varicose veins. In most victims treatment is useless unless the underlying cause is removed.

Pull Up A Chair By FRANK JAY MARKEY Every now and then some literary character comes along and captures the public imagination and makes a fortune for his creator.

Q—My doctor says I have tonsil tags. Are they serious? Could they ever disappear completely? A—Sometimes a small remnant of a tonsil remains after the tonsils are removed. Such tags may even grow to be almost as large as the original tonsils but they are not likely to become cancerous or have any other serious consequences except that sometimes they may get so big that they, too, must be removed.

Q—A friend's doctor told her that her tonsils would disappear after the age of 25 or 30. Is this true? A—No, but the tonsils are very inconspicuous when they have not become enlarged through repeated infections of the throat.

Q—Every once in awhile I cough up little cheesy balls from my tonsils. What causes them? A—Normal tonsils often have deep crypts. Particles of food may lodge in them. This with an accumulation of dead cells cast off from the lining of the crypts will produce these small masses.

Q—Is it possible during the removal of tonsils to cut a nerve that would partly paralyze the vocal cords? A—No, but this may occur during removal of a tonsil.

Q—I am 42 years old. My doctor says I have Buerger's disease. What is it and what can I do to relieve the numbness? A—Buerger's disease is an inflammation of the arteries in the extremities that interferes with the circulation of the involved parts. It is essential to stop smoking (practically all victims of this disease are heavy smokers).

Q—If you have wondered why there are so many U. S. cities and towns named Canton (such as Canton, Ohio, and Canton, Massachusetts), don't wonder about it any longer. The name derives from the Chinese city, which is the capital of the province of Kwang-Tung. It was known in one of the many dialects as Kuangchou and "Canton" is the garbled English version of that word.

Q—Thoughts while shaving: Just when we thought everyone was happy with daylight saving time, the movie theatre owners registered a gripe against that extra hour of daylight. Seems as though it is keeping prospective patrons away from the indoor theatres and on the golf links, forcing the drive-in theatre operators to start their shows later, thus losing family groups who don't want to watch a movie show until the wee hours after midnight.

Q—A man wearing a rather frayed suit entered a tailor's shop. Man—I hear that my son has owed you for a suit for three years. The tailor's face brightened. Tailor—That's right, sir, have you come to pay the bill? Man—Certainly not, I want one myself on the same terms! Women (not all of 'em) hope their perfumes will tell a man something they wouldn't dare say. It took safety engineers to come up with the solution to what to do about back seat drivers. Give them a belt.

Country Editor speaking: "The best things to put off until tomorrow are the mistakes a little care would help you avoid making today."

Earthquakes are natural disasters which have plagued man since primitive times and which he cannot control. The world was recently stunned by the great horrors wrought by the earthquakes in Iran. Although man cannot subdue earthquakes, he has learned to make the earth tremble with nuclear bombs. The word coined to describe these man-made tremors is "earthshake."

Escaping Red Officer Says China Has Sent Battle Troops Into North Viet Nam

HONG KONG (UPI) — A former Red Chinese army officer who fled to Hong Kong last month to escape China's Red Guards, Wednesday said the Chinese Peoples Army has sent some combat troops to North Viet Nam.

The ex-officer, Cheung Chung-Yiu, said in an interview with a local newspaper that the army also has moved many troops into the Viet Nam border region to bolster defenses there.

Some of the Chinese soldiers have already crossed the border into North Viet Nam to fight alongside Viet Nam soldiers," the Morning Post quoted him as saying.

Cheung said Red Guards were being used to take over internal security duties of troops moved to the border region.

Intelligence reports have estimated previously that about 50,000 Chinese troops have been in North Viet Nam for some time, working on railway and road repairs. But there has been no indication that any combat troops has been sent.

The communique stressed that the revolutionary youths must "go to the countryside to assist the peasants in producing more and better crops," not to impede the crucial farm harvest now under way.

The communique was joined by the appearance of posters on Peking's streets calling on the Red Guards to leave the city by Saturday.

In 1919, almost the entire Boston police force went on strike to demand recognition of a new union. It ended Sept. 12th, but Gov. Calvin Coolidge ruled that strikers would not be permitted back to work.

The first automatic gas water heater was made in 1889.

Government Is Willing to Support Sex Education

WASHINGTON (UPI) — The U.S. Office of Education is willing to support public sex education programs from preschool to college and adult levels, according to Education Commissioner Harold Howe II.

Howe said his office would provide funds through existing federal school aid programs to assist local school districts and communities in financing sex education courses.

Funds also are available for the training of teachers and health and guidance personnel "at all levels of instruction."

And the government is willing to allocate funds for programs for parents to help them "carry out their roles in family life education and sex education," he said.

FURTHER ESCALATION

The respected Far Eastern economic review in Hong Kong believes the situation in South Viet Nam may be about to enter a new stage in which the voices of restraint will be heard no longer. On the basis of a survey from correspondents in Saigon, Washington and Hong Kong, the review believes escalation has brought no results and that President Johnson has no other choice than to go along with those who want to move the war to a higher stage.

Three states outrank Kentucky in bluegrass seed production—South Dakota, Iowa and Missouri.

Estimated desert area of the world is about 31 million square miles.

First Union victory in the War between the States was the battle of Philippi, June 3, 1861.

Filter Facts

MILWAUKEE (UPI)—A dirty filter can make you hot under the collar — and hinder a central air conditioning and heating system's efficiency.

During the summer months, filters in central air conditioning units should be changed at least three times, says Lee Miles, customer education manager for Worthington Corporation's Air Conditioning Company.

In these months the unit is moving more air than it does during the heating season. This makes it necessary to filter out more dirt. When a filter is dirty or completely clogged, it can place a heavy burden on the machinery and sharply reduce its cooling effectiveness.
