

# Pampa School Athletic Facilities Are Below Par

By RON CROSS  
Sports Editor

**EDITOR'S NOTE:** In a meeting of the Pampa School Board on Nov. 2, 1967, an athletic committee made up of Ben L. Sturgeon, Lee Fraser, Ray Thompson, Bud Hogan, Buddy Cockrell and Chairman Buz Tarpley was created.

The board charged the committee to investigate and develop a comparative analysis of the Pampa System and several successful athletic programs in the area.

This is the first in a series of articles on the report submitted by the committee to the school board on Tuesday, Dec. 19, 1967.

It might be best to point out first of all that the athletic committee's report did not state one way or the other whether Pampa football coach Eural Ramsey should have been given an extension on his contract or not.

This was erroneously reported in another newspaper.

The purpose of the committee

was to give school board members an idea on how Pampa's athletic program could be improved.

Their report was, in a word, tremendous.

The report contains invaluable information.

Getting the board to act on the recommendations of the committee is something else.

Thus far, at least all that has been done, is fire the football coach.

As we have said the committee neither said this should or

should not be done.

To gather their information for their report committee members visited eight schools: Tascosa, Borger, Dumas, Brownwood, Hereford, Monterey, Perryton and Plainview were the schools visited.

All investigations were directed along the same lines as a result of a standard survey form designed by the athletic committee. In almost every case the individual taking the survey received complete co-operation from the school administrators and coaches.

Interviews were conducted with the principals of each Junior High and the High School in the Pampa system. Also, an interview with both the football and basketball coaches of Pampa High School.

This was a critical part of the committee's analysis in that it reflects the intangibles of a successful program, to-wit: present program, coaches' attitude, administrative restrictions and the necessity of overall co-operation in the school system.

Included in the report is the

past athletic history of the Pampa School System. Some of the charts included pointed out the successes and failures of Pampa's athletic contestants. Also included is the gate receipts of varsity teams and it must be pointed out there is a definite relationship between the success of the teams and gate receipts of the program.

The committee came up with four specific findings, conclusions and recommendations.

Let's first examine Physical Facilities.

The Pampa school system needs several additional facilities if they are to develop and

maintain several sports to a level of successful competition.

Modern and expensive facilities alone will not generate a successful athletic program. They will, however, provide needed space for proper physical development; display the school system's interest in and encourage interest in athletics and attract the most qualified coaches by providing space and facilities most conducive to a well organized sports program.

On their trips to other schools the committee found that we are substandard in space and

facilities available both in our high school and Pampa Junior High.

The committee recommended that a five-year building program be established immediately to provide the following items listed according to their priority:

- (1) Hard Surface Track.
- (2) Additional dressing room facilities with the medical and training area, coaches' offices, equipment space for Harvester and Shocker football.
- (3) All-weather exercise and development area.

### 32 Jr. College Presidents Okay CCB Master Plan

AUSTIN (UPI)—The first junior college segment of the College Coordinating Board's master plan for Texas higher education won approval Wednesday from presidents of 32 public junior colleges.

The Association of Public Junior Colleges, comprising presidents of the 40 existing two-year schools, pledged its support to a plan to expand junior college education.

The plan was drawn up by the Coordinating Board's staff and recommends that the state be divided into 52 junior college districts. Thirty-four of these districts now have junior colleges, and six have two institutions. The other 18 do not have a community college.

The staff said each of the 18 districts "does offer the possibility and potential for establishing and maintaining a community college within the forthcoming decade, although they will not all need colleges immediately."

# Heart Transplant Patient Washkansky Loses Battle

## Exact Cause of Death Not Known by Doctors

CAPETOWN, South Africa (UPI) — Louis Washkansky, who gambled for life with the world's first heart transplant, died today in a battle against forces still only dimly understood by medical science.

The 55-year-old grocer lived for 18 days with the heart of a young woman killed in a traffic accident beating firmly in his chest.

Doctors overcame the fantastic hurdle of transplanting the heart. They failed in their attempt to make Washkansky's body accept it.

"I don't know what I'm dealing with," said Dr. Christian Barnard, head of the transplant team, as Washkansky's life ebbed away. "I don't know what the prognosis is."

Even toward the very end, the heart of Denise Darvall continued to beat vigorously. Washkansky's blood pressure remained normal.

But, somehow, his body's rejection mechanism — which normally would attempt to slough off a foreign organism such as the heart — apparently ran wild and attacked his lungs and other tissues, choking him.

Washkansky died in a respiratory, unable to breathe properly.

Doctors said it seemed as though Washkansky's body reactions had turned against the lungs and, only toward the very end, against the heart. But they

## 10 ABOVE TONIGHT Baby, It's Cold Inside and Out

Although winter is not scheduled to make its official debut until tomorrow, it sneaked in an icy preview by dropping the temperature 15 to 20 degrees within a few minutes in the Panhandle early today.

The mercury flipped from around 33 degrees to 18 above zero about 7:45 a.m. When the sun came up at 7:35 it started a slow and gradual climb toward the mid 20s this forenoon.

That was blamed on a Pacific front that swept through about 20 miles an hour.

Another cold front on its way into the Panhandle and the Pampa area is expected to send the mercury dipping to a low of around 10 above zero by Friday morning.

According to almanac statistics, yesterday and today were of equal duration—the shortest days of the year with the sun rising each day at 7:35 a.m. and setting at 4:21 p.m.

The official opening of winter is set for 1:20 a.m. Friday, Pampa time. Today was —the final day of fall.

The noonday weather forecast from the Amarillo weather bureau contains a warning of cold wave conditions by Friday morning. After a high in the mid-20s this afternoon, it was expected to drop to 10 degrees tonight, coldest of the winter. It will be fair and warmer with a predicted high of 40 Friday afternoon.

Pampa had a light snow flurry late last night but the weatherman says little or no snow is in the offing for the next two or three days. In fact he said it will be warmer on Friday.

Dalhart is expected to be one of the coldest spots in the state tonight with a low of 8 above tonight.

A tornado watch was issued for North Central Texas early today, but there was no report of twisters sighted in the area. The watch was lifted at 6 a.m.

On the shortest day in the year, temperatures ranged from a low of 26 at Dalhart to 73 at College Station.

CANVASSING VOTES — Joe Fischer left, and J. Richard Hankins, counted ballots this morning from which five new directors were elected to the board of the Pampa Industrial Foundation, Inc. The ballot counting took place in the Chamber of Commerce office. (See story, page 3.)

### Bridge Collapse Starts Surveys In Other States

By United Press International

The tragic collapse of the Silver Bridge at Point Pleasant, W.Va., turned the spotlight on the rest of the nation's bridges this week.

President Johnson ordered a national survey. Officials of 11 states took steps to upgrade or review their inspection policies. Others, satisfied with their procedures, assured motorists their bridges were safe.

"If you're worried about some bridges you've been on which vibrate, remember there are some bridges which just do that," a Virginia highway engineer said. "They're rarely in danger of falling."

C. C. Barthelemy said Virginia's 13,625 bridges are inspected annually. He said overloading was common and while a hacksaw was an unusual threat, one disgruntled truck driver recently tried to saw off some of a bridge's superstructure so his rig would fit under it.

Initiate Bridge Census

Illinois began an immediate bridge census to determine just how many the state does have.

Kentucky and Florida governors ordered immediate inspections of all bridges.

Pennsylvania, Minnesota, Alabama, Missouri, Michigan and Maine reviewed inspection procedures while Louisiana ordered all bridges inspected twice instead of once a year.

A UPI survey of 30 states showed testing procedures varied widely from state to state, running the gamut from the use of an X-ray machine to an annual "look."

In Maryland, the state road commission announced it would ask the legislature to double its appropriation for inspecting and maintaining bridges.

Senate Investigation Slated

Sen. Jennings Randolph, D-W. Va., said there were 1,500 bridges in the United States over 40 years old and 11 of them spanned the Ohio River. He said his Senate Public Works Committee will begin an investigation of what federal and state agencies are doing to prevent another tragedy.

Gov. Warren Hearnes — of Missouri suggested a bi-state cooperative be formed with Illinois to inspect bridges over the Mississippi River.

The Texas highway department has inspectors who keep a close watch on older bridges, particularly old I-bar suspensions with a steel superstructure.

### GETS POLICY ENDORSEMENTS

## LBJ May Go to Vietnam

CANBERRA (UPI) — President Johnson got Vietnam policy endorsements from allied leaders today before attending last rites for Australian Prime Minister Harold Holt and flying off on a Shangri-la journey that might take him to Vietnam, Thailand or Vatican City.

Fatigue etched itself deeply on the President's face after a day-long flight from Washington and something of a bit-by-bit summit in rounds of allied talks.

Crowds of several hundreds clapped and cheered Johnson, whose October 1966 visit unleashed a flood of riotous applause in the streets. Today Australia and the U. S. leaders were almost solemn, in honor of Holt who vanished swimming in shark-infested waters Sunday.

Confers With Leaders

Johnson moved quietly through Texas-like heat-tupper 80's for talks with acting Prime Minister John McEwen.

In his day, the late President New Zealand Prime Minister Franklin D. Roosevelt referred to a meeting place with British President Park Chung-hee and Prime Minister Winston Churchill other leaders preparing for ill only as Shangri-la. Today the

### Only 19 of 157 Cities Have Turned Down 1% Sales Tax

Voters representing more than 70 per cent of Texas' population have approved the 1 per cent city-sales-tax in the past three months. That adds up to a king-sized Christmas present for the Texas Municipal League and the Texas Legislature.

Of 157 cities voting on the tax so far, 19 have turned it down.

The sales tax has other battles to fight before the end of the year but the next major test will not come until Dec. 7. Eight towns will go to the polls then. Five San Antonio suburbs are included in the group.

Balloting this week will be held in Hamlin and Henderson.

Most of the metropolitan areas of Texas have already approved the measure including Austin, Dallas, Fort Worth, Houston, San Antonio, El Paso, Lubbock, San Angelo, Waco, Wichita Falls and the majority of the Rio Grande Valley.

No large city has defeated the tax but several suburbs of Dallas and Fort Worth have turned it down soundly.

BIKE WINNER — Ronald Gallagher, a 12-year-old student at Baker School, was named winner of the Pampa Daily News promotion contest last night in a carrier boy party in the News office. He is the son of Mr. and Mrs. Herman Gallagher, 336 Anne Street.

# Hereford Sale, Show Set Here For March 4-6

Directors of the Top O' Texas Hereford Breeders Association, at a luncheon meeting held yesterday in the Coronado Inn completed plans for the 1968 show and sale to be held in Pampa March 4, 5, and 6. James Grote, prominent Hereford breeder of Llano, was selected to judge the show, and Col. Walter Britten, of College Station, will again serve as auctioneer.

A total of 66 head of cattle have been indicated for the sale. A deadline for certificates was set for Jan. 15, and Ralph Thomas was appointed to be in charge of the sale catalogue.

Earl Breeding, vice president of the association, was named show superintendent and will be assisted by Richard Kiker, of Allison, another member of the board.

A. B. Carruth and Frank Carter were appointed to be in charge of buildings, grounds, and straw.

Kenneth Wyatt of Tulla was selected to speak at the banquet which will be held Tuesday evening, March 5. Wyatt is a noted humorist and is very popular at this time in the Southwest. He is presently speaking as a member of the Knife and Fork organization.

Other business at hand included the scheduling of advertising and the appointment of other show committees.

Officers of the association are Gordon Whitener, Wheeler, president; Earl Breeding, Miami, vice president; and E. O. Wedgeworth, secretary.

## Obituaries

**John Wesley Morse**  
John Wesley Morse, 91, died at 10 p.m. Wednesday at Southern Memorial Hospital, Las Vegas, Nev.

Funeral services are pending with Duenkel Funeral Home. Survivors include four sons, D. A. Morse, W. G. Morse, both of Las Vegas, Nev.; J. G. Morse of Barry; and J. A. Morse, Pampa; two daughters, Mrs. Lillian Hundley, Port Arthur and Mrs. Myrtle Hopper, Houston.

Mr. Morse moved here in 1925. Five years ago he moved to Las Vegas to make his home with his sons.

## Five Elected As PIF Directors

(See PICTURE PAGE 1)  
Bill Power, Norman Henry, Veri Hagaman, Clinton Evans and Crawford Atkinson were elected to serve three-year terms on the Board of Directors of the Pampa Industrial Foundation Inc.

Ballots were counted this morning in the Chamber of Commerce office by members of the election committee, Joe Fischer, J. Richard Hankins, Roy Sparkman and Jerald Sims.

Joe Donaldson and Paul Crossman are retiring directors with Power, Atkinson and Henry re-elected to new terms. Directors will meet after the first of January and new officers will be elected at the meeting.

## Pampan's Father Dies in Oklahoma

Funeral services for Fred Stuckey, 95, father of Vernon Stuckey, 2323 Christine, will be held Friday in Arnett, Okla., First Methodist Church.

Mr. Stuckey died Tuesday in a Woodward, Okla., hospital after a lengthy illness. Survivors include three daughters and six sons including the Pampan, Vernon Stuckey.

**CHRISTMAS SACKS** — Carol Campaign, right, president of the Truteens and Dinah Elder, Truteen member, present Captain Jess Duncan, of the Salvation Army, with a gift sack prepared by the Truteens for the needy children in the Pampa area. The sacks are made up of a toy, a clothing article, and assorted candies and are made up by age groups.

## AFS Student Arrives Here

Carlos Caballero, 18, of Villarrica, Paraguay, will be the 1968 American Field Service student at Pampa High School. He arrived Wednesday and will live with Dr. and Mrs. Julian M. Key, 1840 Fir. He will enroll Jan. 2 for the second semester of Pampa High School.

The son of Mr. and Mrs. Wenceslao Caballero, he has completed the first semester of the 12th grade and attended high school in Hyattsville, Md., the first semester of this school year.

In Paraguay he attends Don Basco High School and the Central Center Paraguay — America to study English.

He plans to specialize in electronic engineering and is studying physics, chemistry and mechanics.

Eugene Key, son of Mr. and Mrs. Julian Key, is a Pampa High School junior and will be Caballero's American brother. Caballero will be a senior at PHS.

He has four sisters, Carmen, 22, who is studying in Buenos Aires; Teresa, 21, a high school graduate planning to be a chemist; Rosa, 19, and Ramona, 16.

## School Census Starts Jan. 1

Mrs. L. H. Anderson, school census taker the past 18 years, will direct the 1968 school census enumeration beginning Jan. 1.

"We will call at every home in the Pampa Independent School District and enumerate all children between the ages of 6 and 18. Children born on or before Sept. 1, 1950, or after Sept. 1, 1962, will not be enumerated. We will need ages, dates of birth of children and the parent's signature," Mrs. Anderson said.

This year Mrs. Anderson and her assistants will take all preschool children for an estimate of first graders for the next five years, she said.

Mrs. Anderson's assistants will be Mrs. H. R. Allen, Mrs. Ray Barnard, Mrs. Jewel Hayes, Mrs. Calvin G. Hogan, Mrs. Clifford Davenport, Mrs. Kenneth Dwight, Mrs. I. T. Goodright, Mrs. H. R. Jennings, Mrs. John Paul McKinley and Mrs. Billie Phea.

kansky a massive transfusion of new cells, to no avail. The decline continued.

## Fights Dim Yule Spirits in Pampa

By JEFF HOLLADAY  
Daily News Staff Writer

The Christmas spirit was not altogether present during the past two days in Pampa. Good cheer was noticeably lacking in four cases on the police blotter — theft of a Christmas decoration, an affray between a minister and a member of his church, a fight between a father and his son, and a spat between a man and his wife.

One other case involved a man with too many spirits. He was arrested and charged with driving while intoxicated.

And yet another case involved what at first appeared to be the theft of seven Christmas gifts from under a tree.

Mrs. B. J. Lambright's faith in the season of good cheer plummeted somewhat yesterday when she discovered a thief had stolen the Santa Claus decoration on her front porch.

And the season of good will also failed to prevail at one Pampa Church last night. Police said an angry church member, whom the pastor called a "troublemaker," slugged the minister after a verbal altercation. No charges were filed.

In another case, the holiday spirit was absent when a fight broke out between a Pampa man and his stepson over who was going to use the telephone. The argument was resolved when the stepson, who claimed his step-father had been drinking, hit him several times and knocked him out. The altercation was resumed two hours later when the step-father went back to his home from a local hotel. A Pampa police report says he came home drunk and tried to "whip the boy again." "He didn't have any better luck this time," the report continued. The father was unconscious and being taken care of by the son when the police arrived the second time.

A disturbance between a woman and her husband was broken up by Police Officer Dorman Lewis after someone called in the disturbance to police. The woman, according to a police report, said she had been kicked and beaten by her husband, Henry Harrison Orr, 57, of 301 S. Barnes, according to police, was the man with a little too much Christmas cheer. He was arraigned before Justice of the Peace E. L. Anderson this morning and charged with driving while intoxicated. Bond was set at \$500.

But all is well that ends well — as it did yesterday for a Pampa man whose good spirit suffered somewhat when he discovered seven Christmas presents missing from under his tree. He later discovered there had been a misunderstanding with his mother-in-law in Amarillo. She had misunderstood instructions to pick up a certain present from under the tree and, instead, had taken them all with her to Amarillo.

# Washington Window

By RAYMOND LAHR  
WASHINGTON (UPI)—Like happy wildcatters who have brought in a gusher of oil, the Democrats and their allies in the labor movement have discovered that there are a lot of votes in the suburbs. They also know that their Republican rivals already have tried to establish claims in the same territory. Evidence of this belated interest in suburbia can be found in a recent announcement by Democratic National Chairman John M. Bailey and the AFL-CIO Executive Council report to the labor organization's biennial convention. Bailey announced at a regional party conference at Charlottesville, W.Va., Dec. 1 that his headquarters was establishing a suburban activities division. He urged party regulars to concentrate on creating confidence in the Democratic Party's ability to deal with local problems. "If you succeed in this," he said, "most of the new suburbia

will go with you all the way voting for the Democratic Party straight up to the top." The AFL-CIO Committee on Political Education (COPE) noted that the big cities, long Democratic bastions, "are increasingly becoming Negro ghettos." "More and more of our white members, with the rest of the white population, will live in suburbs," the report said. It said COPE's organization had been based in the central cities but that a poll had shown that nearly 50 per cent of the AFL-CIO union members lived in suburbs at the end of 1966 and 75 per cent of those under 40 had suburban homes. So COPE has accepted advice from former Sen. Paul H. Douglas, D-Ill., who was defeated last year, to "go where the members live." "In extending and accelerating plans for suburban organization, no single set of rules can be adopted," the labor report said. "Each area must develop its own format to define areas of responsibility and authority and to maintain a cooperative relationship with the existing structure."

# Wall Street Chatter

NEW YORK (UPI)—E. F. Hutton and Co. says year-end transactions are clouding the market's technical picture and points out that the market rarely begins a significant decline this late in the year. Still, the analyst says, "it is beginning to look" as if the bulls will soon have their work cut out for them again.

Hayden, Stone Inc. notes that the general market is contending now with the usual year-end cross currents caused by tax selling and reinvestment switching. Yet, the company says, attractive buying opportunities still are prevalent among stocks with sound or improving fundamentals and strong technical background patterns.

Abraham & Co. says the current market atmosphere is favorable to equity investment despite the continuing uncertainties regarding the international monetary situation, the Vietnam war and domestic fiscal and monetary policies. For the immediate future, the company advises traders to take advantage of depressed prices for many issues which apparently are under pressure from tax loss selling.

**CANCEL STRIKE**  
ROME (UPI)—Roman veterinarians Tuesday cancelled a scheduled five-day strike insuring plenty of meat for Christmas tables. The veterinarians threatened to go on strike when the Italian government refused to listen to their demands. But the government agreed to consider their grievances and the veterinarians called off the strike. Italian law requires veterinarians to visit slaughter houses to inspect meat.

**ANNOUNCE AMNESTY**  
ATHENS (UPI)—The ruling Greek military junta Tuesday announced a general amnesty of minor traffic violators to celebrate the failure of King Constantine's attempted counter-coup. The Transport Ministry said all traffic offenders up to those whose licenses have been suspended for six months would be pardoned "on the occasion of the crushing of the anti-national plot of Dec. 13."

**FLU HITS SCHOOL**  
EVERMAN, Tex. (UPI)—A flu epidemic that had nearly 600 of the district's 2,710 pupils out of school caused the Everman schools to start their Christmas holidays two days early Tuesday.

**CONGRATULATIONS:**  
To Mr. and Mrs. David Hutton, 332 Lefors St., on the birth of a boy at 1:37 p.m., weighing 7 lbs. 12 ozs.

**FIFTH MAN DIES**  
HOUSTON (UPI)—A fifth man died today of burns suffered Monday when a huge ladle of molten metal tilted, and its white hot contents splashed on 21 workmen at the Armo Steel Co. plant.

The latest victim was Willie Miller, 39. Two men died Tuesday and two Monday night. Twelve remained hospitalized three in critical condition.

# Asia Scholars Say War Fought at Home

WASHINGTON (UPI)—Fourteen leading American scholars on Asia have concluded that the Vietnam war is "being decided on the streets and in the homes of America as much as in the jungles."

In a joint statement Tuesday, the group, including Edwin O. Reischauer, former U.S. ambassador to Japan, said North Vietnam will continue the war so long as it believes the United States will grow weary and pull out of Vietnam.

The scholars said the U.S. presence in Asia has been of crucial importance to the political fate of the region. This, they said, "has bought time for some two hundred million people to develop without their being ceaselessly confronted with combined external-internal

Communist threats of growing proportions." The statement said Hanoi was "placing considerable hope at present upon the theory that the United States will end in Vietnam as did France—forced to accept defeat by a combination of internal political considerations and external pressures."

"As long as the Communists believe in this likelihood, they will take their present hard line position," the group said. "Only when they decide that the internal political resources of the United States match in some degree its external military power will any solution other than our unconditional surrender become feasible."

Signing the statement with Reischauer were: Leo Cherne, executive director of the Research Institute of America; Guy J. Pauker of the Rand Corp.; Chancellor Harry D. Gideonse of the New School for Social Research; Professors A. Doak Barnett, Columbia University; Oscar Handlin, Harvard; William W. Lockwood, Princeton; Richard L. Park, and Robert E. Ward, University of Michigan; Lucian Pye, Massachusetts Institute of Technology; Milton Sacks, Brandeis; Robert A. Scalapino and Paul Seabury, University of California at Berkeley, and Fred von Mehden, University of Wisconsin.

# CHARGED IN SHOOTING

DALLAS (UPI)—Three men were charged Tuesday with the gangland-type shooting death Sunday night of 16-year-old Gilbert Martinez as he and three other youths sat in a parked car. The three were Refugio Bustos, Juan Ignacio Garza and Jessie Constanicio Garza. Bustos also was charged with the shooting death last November of Natalio Valdez in a tavern.

## Cups That Cheer During Holidays

By GAYNOR MADDOX  
NEA Food Editor

Every holiday season we get letters asking how to serve champagne and how to make special holiday drinks and party punch. A wine expert, just back from France, answers some of these questions for us.

The French say a champagne glass should never be more than three-quarters filled. Also the cork should never be popped.

In opening a bottle, hold the cork firmly in one hand and twist the bottle with the other, but maintain a tight grip on the cork and ease it out gently.

Your champagne should be properly chilled; 40 to 50 degrees is ideal. You may keep it in your refrigerator for a few hours, on the bottom shelf and on its side, if you don't intend to serve it immediately. For quick chilling, fill a bucket, half with ice, half with water. In 15 or 20 minutes, you're ready to celebrate.

**CHAMPAGNE PARADISE**  
3 ounces of orange juice, fresh or frozen  
Dash of orange liqueur (Grand Marnier)  
4 ounces of chilled French champagne. . . .

Serve in 8-ounce water glass or wine goblet.

## Edible Christmas Wreath

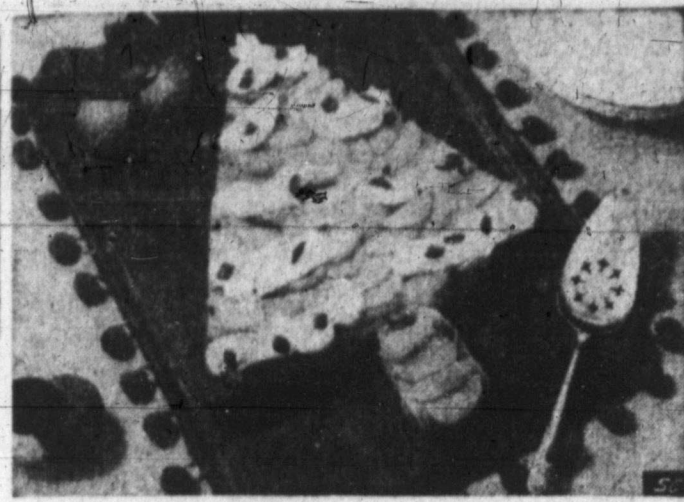

Eggnog is delicious to drink, equally delicious to eat as a gelatin mold. Into the mixing bowl go the time-honored eggnog ingredients and unflavored gelatin. There's little cooking involved, only the few minutes required to dissolve the unflavored gelatin. Prepare as directed, turn into a ring mold, and simply chill until firm.

To unmold, dip the mold into a bowl of warm water to the depth of its contents and run a small paring knife around the rim. Invert on serving platter and shake. If it does not unmold readily, repeat. Garnish with cherries and bits of green angelica to simulate Yuletide berries and leaves.

**Eggnog Wreath**  
1 envelope unflavored gelatin  
1/4 cup sugar, divided  
1/2 teaspoon salt  
2 eggs, separated  
1 1/2 cups milk  
2 teaspoons rum flavoring  
1/4 teaspoon nutmeg  
1 cup heavy cream

Mix together gelatin, 1/4 cup of the sugar and salt in medium saucepan. Beat together egg yolks and milk; stir into gelatin mixture. Place over low heat; stir constantly until mixture thickens slightly and gelatin is dissolved, about 5 minutes. Remove from heat; stir in rum flavoring and nutmeg. Chill until mixture mounds slightly when dropped from a spoon. Beat egg whites until stiff, but not dry. Gradually add remaining 1/4 cup sugar and beat until very stiff. Fold into gelatin mixture. Whip heavy cream; fold in. Turn into a 5-cup mold; chill until firm. YIELD: 6 to 8 servings. (Recipe may be doubled, if desired.)

## Christmas Apple Tree Cake

What could be merrier for the Yuletide season than this Christmas Apple Tree Cake? The recipe comes from the home economists at Comstock Foods and uses their versatile canned pie-sliced apples and a prepared yellow cake mix for a delicious treat whose festive appearance belies the ease with which it's made. The natural flavor pie-sliced apples are arranged to simulate tree branches. Already cored, pared, and sliced, they save both preparation and clean-up time, allowing you to devote creativity and ingenuity to the pleasures of baking and happy holiday details such as the whipped cream and glacé fruit decoration which makes its serving so festive.

**Christmas Apple Tree Cake**  
1/4 cup butter or margarine  
1/2 cup light brown sugar, firmly packed  
1/2 teaspoon cinnamon  
1 lb. 4 oz. can pie-sliced apples, drained  
1/2 package yellow cake mix  
1/2 cup heavy cream, whipped  
glacé fruits

Select a Christmas tree-shaped pan with 2-quart capacity and 2" depth; or make your own from double-thickness of heavy-duty aluminum foil folded, with corners tightly mitred, into a triangle with sides 12" long and 2" high. For base of tree, make a similar pan of double-thickness, heavy-duty aluminum foil that is 2" x 3" with 2" high sides. Combine melted butter, sugar, and cinnamon and blend well. Spread brown sugar mixture evenly in bottom of baking pan. Arrange remaining apple slices in pan, curving upward to resemble tree branches. Prepare 1/2 package of yellow cake mix according to package directions for a single layer. Pour over apples. Bake in a moderate oven (350° F.) for 20-25 minutes or until done. Remove from oven; let stand 5 minutes. Invert onto serving plate. Cool and garnish with whipped cream and glacé fruits.

## Year-End Buffet Needs Ruby Mold

By GAYNOR MADDOX  
NEA Food Editor

If you like to splash your buffet suppers with bright colors, then here's your recipe. Serve it with sliced turkey and relishes, caraway rolls and good wishes to all, and you'll have a delightful Christmas Eve.

**RUBY MOLD SALAD**  
1 (6-oz.) package strawberry gelatin  
1 1/2 cups boiling water  
2 (10-oz.) packages frozen sliced strawberries  
1 (13 1/2-oz.) can crushed pineapple  
1/4 teaspoon salt  
1 (8-oz.) package cream cheese  
1/2 cup sour cream. . . .

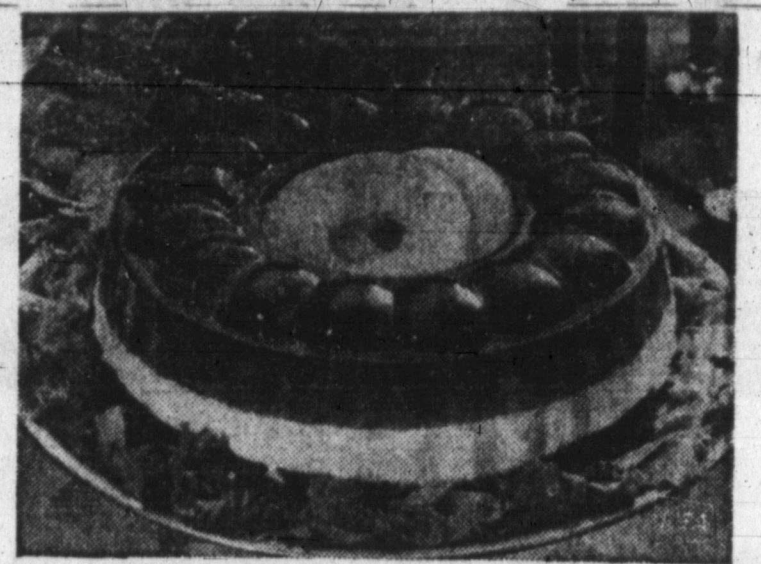

—Dissolve gelatin in boiling water. Mix in partially defrosted strawberries, pineapple and salt. Pour half of gelatin into 8-cup ring mold. Refrigerate until firm. Keep remaining gelatin at room temperature. Beat cream cheese until softened; add sour cream and beat until smooth. Carefully spread in even layer over firm gelatin in mold. When remaining gelatin begins to thicken, spoon over cheese layer. Chill at least four hours or overnight. Unmold and garnish as desired. Eight to 10 servings.

County Official Recommends Deer Meat for Cooking

Texas hunters bring home about a half million pounds of deer meat each year, representing recreation for the man of the house as well as an economy boost for the meat bill, Miss Jimmie-Lou Wainscott, Gray County Home Demonstration agent, said.

But what does it mean in terms of food value? The nutritional value of deer is similar to that of beef, Miss Wainscott said.

"Deer meat, however, is leaner and contains a little more protein and a little less fat than beef. Venison offers variety to the family meal with its unique flavor. For venison roast season the meat with salt and pepper and place it fat side up on a roasting rack. Do not add water. Leave the roast uncovered and cook at 300-350 degrees for 20 to 25 minutes a pound.

"Try venison as stew, chili, pot roast, barbecued or in sausage," she said.

Contact Miss Wainscott at the Pampa extension office for more information on care and cooking wild game to help your family make the best use of this crop.

### Spice Yule Season With Date Candy

Put aside your spice cakes and your fruit cakes this holiday season, and make room for homemade candy that carries with it all the goodness and richness of imported dates from the holy land.

What could be nicer than a gift from your own kitchen; especially when it's a very special candy treat to be remembered all year round. (H-m, maybe you'd best keep this candy handy in your own home for Christmas' serving!)

**DATE FUDGE**  
1 12-oz. package semi-sweet chocolate pieces  
2 3 cup sweetened condensed milk  
1 tablespoon water  
1 teaspoon vanilla  
1 8-oz. package Bordo diced dates. . . .

Melt chocolate pieces in top of double boiler over hot, not boiling, water.  
Remove from heat.  
Stir in remaining ingredients and mix until smooth.  
Pour into greased loaf pan, approximately 8x4 inches.  
Cool, and cut into squares to serve.

## POLLY'S POINTERS

Treated Pine Cones, Logs  
Burn With Colored Flame

By POLLY CRAMER

By POLLY CRAMER  
DEAR POLLY — I have an answer for Mrs. R. V. W. who wanted to know how to treat logs and pine cones so they burn with colored flames. The following was prepared by the Brevard County, Fla., Extension Service: Paint shellac on the item to be burned. Pine cones may be dipped in it, if you prefer. While the shellac is still wet, sprinkle generously with any one of the listed chemicals. Shake off excess, let dry thoroughly. For a green flame use copper nitrate; for a yellow flame, sodium chloride (table salt); for an orange flame, calcium chloride and for a violet or blue flame, potassium chloride.

—KITTY  
DEAR READERS— Do not use a metal vessel to hold any of these chemicals (purchased at a drugstore), use glass or wood. Wear rubber gloves and keep out of the reach of children and pets. Use the chemicals separately, do not mix. Work out of doors, if possible, and do not inhale any fumes.

POLLY

### Polly's Problem

DEAR POLLY — What will remove rust from white crocheted dollies without harming them?

—MARGE

DEAR POLLY — Old jars make practical and economical kitchen table mats for hot pans used during canning season. Use seven rings or 14 if you want a thicker pad. Tie the rings firmly together with one around it to make a circle.

—CORA

DEAR POLLY — Christmas is almost here and everybody is busy wrapping gifts, or thinking about it, and we will all have tags enclosure cards and

## Pianists Perform Christmas Programs

Mrs. Lois Fagan presented piano students in three Christmas programs for parents recently.

Kindergarten students, ranging in age from four to six presenting their program were Kelly Bob Russell, Brent Nail, Frandle Kay Smithers, Misty Neef, Karen Meador, Lori Ann Harr and Renessa Cardwell.

Davy Eubanks was accompanist with Mrs. Fagan on the second piano for the group singing of "Silent Night." Mrs. Fagan read the history of the carol, written in 1818, and explained why it was written.

The class presented a two-piano duet of "The Drum Song," and "The Cricket Song," and pantomimed a musical version of "The Mulberry Bush." Rhythm band numbers were "Jingle Bells," "Winter Wonderland," "Santa and His Rocketship," and "Jolly Old Saint Nick."

A special program feature was the children's singing of "Supercalifragilisticexpialidocious" from Mary Poppins.

Parents and guests present were Messrs. and Mmes. J. G. Russell, Wilburn Nail, N. B. Smithers, J. A. Harry, Russell E. Neef, George Meador, Melvin Cardwell, Gary Don Meador, R. L. Eubanks and Chester C. Holman.

Mrs. Fagan's second group which presented a musical program for parents were Jeanie Goff and Lodema Cole playing "Joy to the World," and a piano duo for group singing.

Piano solos were played by Jody Harris, "O Christmas Tree," Kathy Brown, "Rain on

the Roof," Benita Bryan, "From a Prairie Flower," Carolyn Ford, "White Christmas," and Linda Ford, "Silent Night."

Piano duets were played by Mary Johnson and Patricia Johnson; Mrs. Fagan and Diana Thompson; Terresa Willis and Lodema Cole. A piano trio, Natalie Reue, Pamela Britton and La Donna Thompson also performed.

Other students performing were Michelle Courtney, Renel Tigrett, Sonya O'Keen, Tawny Cole and Pamela Pritchard.

Berita Willis accompanied the group singing of "Santa Claus Coming to Town." Playing the "Bells" were Kathy Brown, Renia Bryan and Michelle Courtney.

For the third program presented recently Linda Bevel and Brenda Wilson played the piano duet, "Joy to the World," for group singing.

A piano quartet performing included Nancy Woolridge, Janette Bevel, Cassandra Mangold and Mrs. Fagan. "Deck the Halls," and "Jingle Bells" were played in a quartette with the Rhythm Band, bells by Debbie Huffines, Jody Lankford, Becky Sanders and Barbara Floyd.

A piano duet featured Lynn Green and Gary Davis on "Silent Night" Davy Eubanks performed "Jolly Old Saint Nicholas," and Deanna Davis, "The Sleigh."

Another piano quartet performing the composed of Rainelle Kempa, Linda Bevel, Kathy Huffines and Brenda Wilson.

Soloists were Pam Ramirez and Rory Manning, Kathy Huffines sang a solo accompanied by Brenda Wilson.

Guests were Mmes. J. R. Manning, L. R. Woolridge, David E. Green, Dean Davis, J. A. Wilson, Jack Lankford, O. A. Huffines, Lindon Sanders, Roy G. Floyd, C. O. Mangold, L. C. Bevel and Frank Kempa.

After each program gifts were exchanged and refreshments served from a table decorated in a Christmas motif.

THE PAMPA DAILY NEWS  
THURSDAY, DECEMBER 21, 1967

by Abigail Van Buren

DEAR ABBY: My husband and I have long been faithful readers of your column and as I have no one to turn to in my hour of despair, I must talk to someone.

How does one go on when his faith in prayer is shattered and the bottom has fallen out of everything? I feel my life is over and even my prayers are useless now.

We adopted a little boy when he was just one week old. We loved that child more than our own flesh and blood. We prayed for him constantly. Yet, between the ages of 15 and 18 he went from skipping school to robbery to rape!

Our hearts are broken. Our son was raised in a good Christian home. We went to church every Sunday and have always set a good example. We never had tobacco or liquor in the house.

Where have our prayers gone? We cannot understand it. We are numb, sick and broken-hearted. God bless you if you can help us.

HIS MOTHER  
DEAR MOTHER: You speak of "prayer" as though it were the premiums you paid for insurance against all ills and evils. It is not. Prayer is simply "a talk" with one's God. No amount of praying will protect another, in this case your adopted son, from the consequences of his own behavior.

Each man must do his own praying just as each man must accept the consequences of his own acts.

I do not know where your son went wrong. But your faith in prayer should not have been shattered because he did.

DEAR ABBY: Recently my wife and I spent a night in To-

peka, and I bought a copy of the Topeka Capital Times. I was amused by a letter in your column from a wife whose husband was a millionaire who went around looking like a hobo. He wore suits for months without having them cleaned and pressed, didn't change his shirt for three or four days, bought the cheapest socks and underwear, etc. If my wife had not been traveling with me, I'd have sworn she wrote that letter.

Your answer was good, considering you didn't know the other side of the story, but since I do, and can speak from experience, let me back you up. The millionaire who goes around looking like a hobo does so out of protest. All he hears at home is, "Why don't you wear a freshly pressed suit? You've got a drawerful. Why don't you shave? Why don't you get some new shoes? Do this, do that, do this, do that..." In other words, he is nagged to death, and the only way he can punish the wife is to ignore her and go around looking like a hobo.

ANOTHER MILLIONAIRE HOBO

DEAR ABBY: Please tell "DOG Tired" for me that if her dog is a slob, there is a good reason for it. The animal is owned by a slob. And if he is unwanted and unloved by the family (with the exception of the kids who like to play with him, but refuse to care for him) she should get in touch with the Humane Society (or Society for the Prevention of Cruelty to Animals) and let them take him off her hands.

And if the dog has suddenly become valuable, moneywise, she should place a "For Sale

# Southlands Hit by Flu

ATLANTA (UPI)—Flu or flu-like outbreaks have spread from the nation's Southland and Eastern Seaboard to the Midlands, closing schools and curtailing holiday activities, health authorities have reported.

Reports of the disease—actually confirmed as Asian flu in many cases—poured in Tuesday from New Jersey, New York, Michigan, Indiana, Illinois, Florida, Alabama, Georgia, Tennessee, Maryland, the District of Columbia, Oklahoma and Kansas.

In most cases the outbreaks have been mild. But school absenteeism has run as high as 30 per cent in some areas and a number of schools shut down for the holiday early in hopes of stemming the spread of the disease.

The National Communicable Disease Center here warned of the outbreak as early as last summer, especially along the Eastern seaboard, and indicated it may get worse before it gets better.

**Isolated Outbreaks**

Some of the outbreaks appeared patternless. More than 2,000 Bartlesville, Okla., residents were stricken with the disease last week to make up the largest single outbreak of the Asian flu in the United States this year.

In Muskogee, Okla., public school officials reported Tuesday that more than 25 per cent of the city's school children were absent.

But they were the only cities in Oklahoma with reported outbreaks of the flu.

At Dubuque, Iowa, Clarke College dismissed classes three days early for the Christmas holiday vacation because of the flu outbreak and at Springfield, Ill., an Illinois State Department of Public Health official said Tuesday a "flu-like" virus is expected to spread statewide during the holidays.

## President Wants Informal Talks

WASHINGTON (UPI)—President Johnson believes that informal talks between the Saigon government and the Viet Cong would be a useful starting point toward finding "a way to stop the war" in Vietnam.

The Chief Executive's statement, stressed several times during a wide-ranging radio and television interview Tuesday night, marked the first time he had endorsed the idea of discussions between the South Vietnamese government and the National Liberation Front (NLF), the Viet Cong's political arm.

Johnson emphasized that the talks, first proposed by South Vietnamese President Nguyen Van Thieu last September, would imply no recognition of the Viet Cong as a government or as a political entity. Etc. he added, "We would hope that out of that (discussions) some understanding could be reached."

### Letters to Santa Claus

Dear Santa, I surely do thank you for what you gave me last time. This time I want: Snow-Sand, Captain Action, Tootsie Toy, Traveler Set, Camper, Bulldozer, pickup, Dinky 1, Hot Rod low truck and Incredible Edibles. I have been pretty good. Love, Stephen Carter 1822 Lynn

Dear Santa, I have been good. For Christmas I want a Mrs. Beakley. I also want some silly sand and a snow cone machine and a knit-matic and some clothes. Rebecca O'Neal 780 N. Astoria

Dear Santa Claus, I have missed my mother and father sometimes. I want a shirt and a Johnny Express and a Major Matt Mason and his space crawler. With Love, Bryan McCrley 2133 N. Zimmerman

Dear Santa, I have been a good boy this year. I wish you would bring me a B.B. gun, a watch and some G. I. Joe things. How is Mrs. Santa Claus doing? And how are your reindeer. Kevin Dougherty 1828 N. Duane

Dear Santa, I want a major Matt Mason, Incredible Edibles, radio, dare devil, trick track, B. B. pistol, and a wood burning set. I have been a good boy. I hope to get these things. How are you and Mrs. Santa doing? I hope you have a Merry Christmas. Love to you and the Mrs. Kevin Rutledge 2129 N. Seneca

Dear Santa, I am a little girl five years old, and I have a little brother, three years old. We have tried very hard to be good

**No Cheap Peace**

Until peace is achieved, Johnson said, "the great problem we have is not

**NEW BUS SERVICE**

FORT WORTH (UPI)—Direct bus service has been started for pupils of the Dunbar Junior-Senior High School living in the Eastwood area of Fort Worth. The new service will eliminate a 15-mile public transportation ride for some pupils who lived only two miles from the predominantly Negro school.

Calling on American businessmen to find work for some 500,000 hard-core unemployed in the nation's ghettos, Johnson said that if jobs are not forthcoming "we are going to have to find jobs in the government for them... I think that will have to be done, as expensive as it is."

UP AND AT 'EM — Alvin Achord (13) of the Harvesters goes up and after a rebound during Pampa's 90-81 victory over Amarillo. At left is the Harvester's George Bailey. Pampa hosts Tulla tonight.

# PHS to Test Hornets Sting

By Ron Cross  
Pampa will try, and most likely be successful, tonight to turn the Tulla Hornets into a Christmas gift, when the two teams go to combat in Harvester Fieldhouse, beginning at 8 p.m.

Unless Santa Claus thinks the Harvesters have been bad little boys Tulla should become a yule gift for Pampa, who will be shooting for their 12th victory in 13 starts and 11th in a row.

Tulla would have to do sev-

eral things tonight to beat the Harvesters.

First and most important they would have to score more points and only San Angelo has been able to do this.

Second they would have to hold George Bailey, Bo Lang, Boyd Bond, Johnny Carlos, Jim Cornutt and five of the ball-hawkingst fellows you've ever seen to less than 75 points.

In conference play, in which Pampa staffs 4-0, good enough for the loop lead, the Harvesters are carrying a 78.2 scoring aver-

aging and for the season Pampa is averaging 84.5 points per contest.

Although they've falter a bit the past couple of games on defense the Harvies have a 63.2 conference defense reiding and 52.4 season defensive average.

Pampa has scored .314 points in conference play and 1.013 for the season. They've given up 254 in league competition and 628 through 12 season games.

Three players are averaging 10 points per game or better and three others are close.

George Bailey leads the Harvesters and the district in scoring with a 23.2 average on 94 points in the four league games.

Bailey has totaled 302 points in 12 games for a 25.2 average.

Bo Lang is next. Lang is second in the district in scoring with 83 points and a 20.3 average and for the season has 181 points and a 15.1 average.

Beau Bond is carrying a 9.1 conference average on 37 points and has scored 120 for the sea-

son good for a 10.0 average.

Guards Johnny Carlos and Jim Cornutt have improved since district play opened.

Carlos has a 10.1 league average on 41 points scored but is averaging just 8.4 points for the season on 101 points poured in.

Cornutt has a 10.2 league mark on 42 points and a 8.9 season average on 107 points.

Jim Hollis, who hasn't seen action in every game has a 7.7 league average and the same season mark.

## Wilt Hits 53 Against New Pro Cage Club

Match a seasoned NBA team against one of the expansion outfits and sooner or later a couple of records will be broken—by the old pros.

Two were shattered Wednesday night in Seattle where the Philadelphia 76ers destroyed the Supersonics, 160-122. Wilt Chamberlain showed the way as the 76ers broke one record with a 53 point burst in the third quarter and rolled up 95 for a new NBA halftime standard.

Wilt himself had 53 points for the night for one Coliseum record and set another by grabbing 38 rebounds.

The old team mark was 52 points in one quarter jointly held by Boston and Baltimore while the Celtics, the old Syracuse Nats (now the 76ers) and Los Angeles Lakers had held the other mark of 91 points for one half.

In other NBA games, New York bested Los Angeles 138-131, Boston downed San Diego, 126-116 and San Francisco defeated Detroit, 113-109.

Baltimore is at Chicago tonight in the only league game. The Sonics never had a chance against Chamberlain and Co., "Wilt," who has been hot after a slow start this season, got stronger in the third period when he netted 16 points and snatched 10 rebounds for a 107-83 lead by the end of the period.

In the meantime, Willis Reed of the Knicks tore things apart again at the Los Angeles arena where he bucketed 33 points against the Lakers. In his previous visit there, the big man from Grambling had hit a career high of 53.

The Celtics made it four in a row over the San Diego Rockets, another expansion club, which was hosting Boston for the first time. Larry Siegridd did most of the damage with 33 points while player coach Bill Russell added 23.

Fred Hetzel and Jeff Mullins accounted for San Francisco's last nine points of the game to carry the Warriors past Detroit. They held an eight point lead with five minutes to go and then Detroit pulled even with an eight point burst to tie the score, 104-104. A jump shot by San Francisco's Fred Hetzel broke the tie and the Warriors stayed ahead the rest of the way.

DOMINANT FIGURE in college basketball for the next two years will be 7-1 Lew Alcindor of UCLA who led Bruins to national championship and an unbeaten season. Lew is only a sophomore.

## Birds' Robinson Nears Third Base Fielding Record

BOSTON (UPI)—Brooks Robinson, acclaimed by his contemporaries as the best defensive third baseman they have ever seen, may soon be listed in the record book as the best anybody ever has seen.

The release of the official American League fielding statistics Wednesday disclosed that the Baltimore Orioles' 30-year-old star was the leader at his position for the seventh time in his career. The major league record for a third baseman leading in fielding is eight years, set by Willie Kamm of the Cleveland Indians and Chicago White Sox between 1924 and 1934.

The 6-foot, 1-inch, 190-pound Robinson committed 11 errors in 563 total chances for a .990 percentage that was two points better than the .978 average of Don Wert of the Detroit Tigers. Robinson was credited with 147 putouts and 405 assists.

The other defensive leaders were catcher Joe Azcue of the Cleveland Indians with 999, first baseman Norm Cash of the

Detroit Tigers with 995, second baseman Horace Clarke of the New York Yankees with 990, shortstop Ed Brinkman of the

Washington Senators with 879 and outfielder Ted Uhllander of the Minnesota Twins with 992.

## Hawks Flying High in NHL

The Chicago Black Hawks are flying high again in the National Hockey League on the wings of Bobby and Dennis Hull.

Battling to stay out of the NHL's Eastern Division cellar only two weeks ago, the Black Hawks beat the Boston Bruins 6-3 at Chicago Wednesday night to extend their unbeaten streak to eight games and take over first place.

D. Hull, the NHL scoring leader's younger brother, scored the first two goals of the game for the Black Hawks and then Bobby added his 26th and 27th of the season. The victory gave the Black Hawks a two-point lead over the Bruins, who have been such a surprise leader in the league that Boston fans have been comparing them to the 100-to-1 shot Boston Red Sox.

The New York Rangers defeated the Detroit Red Wings 2-0, the Montreal Canadiens beat the Toronto Maple Leafs 5-0 and the St. Louis Blues defeated the Oakland Seals 2-1 in Wednesday night's other NHL games.

# The Pampa Daily News

EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license, nor anarchy. It is control and sovereignty of oneself. No more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

## The Boldness of Evil

Many persons these days are astounded at the boldness of evil.

They see it vaunt itself in public places, lying in public parks, marching on the academic campuses, infesting the press, radio and TV, preaching violence from the pulpit. So the unusual conclusion is that the whole country is so to speak going to pot.

We cannot deny the facts upon which such a conclusion is based. However, we will offer some observations which may provide a degree of comfort for some.

First, we will say there is nothing new about evil, it has been here all the time. Heretofore, it has hidden behind a shield of hypocrisy.

Where formerly evil confined its behavior to the dark corner, evil now parades in broad daylight.

Where formerly evil plotted in secret meetings, and continues to do so, it now also manifests itself by open displays on campus and street.

Where once evil mined words in the press, it now blares its vulgar message without resort to euphemism.

Where evil once infiltrated the pulpit behind a veil of theological refinement, of which only a few understood the consequences, it now forthrightly proclaims violence.

To sum up this first point, we can say it is no longer necessary to spend time unmasking evil. For evil has unmasked itself! In a sense therefore, there is less hypocrisy in the country than before.

Second, we would venture an opinion that evil struts about so openly because it conceives itself to be so socially acceptable that hypocrisy no longer is required.

We cannot predict what the outcome of the blatant, brazen parading of violence and vulgarities will be. But we do know this: there continues to be a remarkable number of fine, decent people in this community and in this country.

They are working quietly for healthy, wholesome, constructive objectives. Their response to the worsening appearance of the environment is to search their own lives, to seek improvement with greater earnestness avoiding conformity by the renewing of their minds.

Thus, we have a constructive movement and a constructive effort going on at the same time. One is blatant. The other is quiet. The population is torn between them. By and large, older people already have made a decision where they stand, negative, positive or neutral.

The fate of the country, therefore, depends largely on which side the young people choose.

## Hippies Unwelcome in Taos

The hippies have migrated to a mountain spot about 60 miles north of Taos, and according to the Denver-Post, residents of the picturesque art community don't like it.

In contrast to San Francisco where the Haight-Ashbury district was quickly put on the tourist sight-seeing list, in Taos the Chamber of Commerce Manager Natalie Cherry Baca complains that the hippies are hurting the town. "Tourists who might have stayed... have been repulsed and moved on."

Mrs. Baca is not only concerned with the hippies' unfortunate influence on the town and the increase in hepatitis cases since they came, she is distressed about the attitude of the young people themselves. Their apparent withdrawal from society, to her, is no way to solve the very problems they are protesting and wonders what's wrong with kids who just "give up." Their poor sanitation habits and bad nutrition are not liable to contribute much either to themselves or to the community.

"We have serious artists here," she said. "They are substantial members of the community and, I might add, very forward looking. One or two of them are a little strange in dress and manner and I imagine some of them are sympathetic with the hippies. But I doubt many of them take the hippie art seriously."

It would be a shame for the captivating town of Taos, steeped in Indian culture and filled with fine art, painting the scenes and telling the story of its history, to be in any degree blighted by the hippies. The damage seems sadly double when it is inflicted by those whose desire is "to be left alone" yet do not see that their kind of freedom or "having their way" is injurious to others' freedom.

## Syrupy Space Shower

One obstacle standing in the way of long-duration space flights has now been more or less washed away.

The question was, how could astronauts keep clean? Would it be possible to bathe in zero gravity, or would water disintegrate into a mist of tiny particles? Or would it just bounce off the astronaut without wetting his skin?

To get the answer, Martin Marietta Corp. built a special shower stall, which was put inside an Air Force plane and flown in a special maneuver that briefly simulates zero gravity.

A test subject, strapped in the stall, sprayed water on himself and found that it flowed thickly—like syrup—over his body. When scraped off, the water floated around in globules like soap bubbles, some as large as two inches in diameter.

Bacteria test patches, taken before and after the shower, indicated that it is possible to keep clean in space.

Astronauts won't be bothered with bathtub ring, but after taking a shower in space, they will have to collect the water with some sort of modified vacuum cleaner.

## Giving Us A Crew Cut

(Industrial News Review)

Many appear to think that the steady broadening of governmental paternalism and spending on an ever-increasing scale are evidence per se of an approaching better life.

Mr. C. L. Sulzberger, writing for the New York Times News Service, tells quite a different story. Mr. Sulzberger recently visited Uruguay, where he found a welfare state "gone wild" and in a state of emergency. He reports that: "One out of three adults receives some kind of pension. Forty per cent of the labor force is employed by the state. Political parties compete to expand a ridiculously swollen bureaucracy which works a 30-hour week. The system maximizes

The system maximizes

## Pull Up A Chair

By FRANK JAY MARKEY

Saint Nicholas, one of the most popular saints in Christendom, is the original Santa Claus. He's the patron saint of Russia (where they don't observe Christmas anymore), and of the clerks, scholars, sailors, children and even pawn brokers. He was the Bishop of Lycia in the early 4th century and must have been a robust person for he bopped another clergyman, who disagreed with him, at the Council of Nice, the first ecumenical council of the Christian Church, sponsored by Constantine the Great in Asia Minor in 325. The custom of distributing gifts to children is attributed to the jolly saint and was observed in Germany at Christmas for centuries. It was introduced in England in 1840 and soon spread to other parts of the North American continent to this country. No doubt the reason St. Nick is the patron saint of pawnbrokers is the fact that everyone's in hock after his annual visit.

Today's smile: A woman was being examined by a motor vehicle inspector for her driving license and he asked: "Look at this picture of a highway and tell me what that white line going down the middle is there for?" The woman studied the picture and said: "That's for bicycles."

It can't be a fact that everyone's "lost" but this year the U.S. gasoling stations distributed more than 250 million road and street maps to motorists. The maps are free, but it cost the oil companies about \$12.5 million to produce them, and although they cost about a nickel each no company will dare charge for them since the motorist has become accustomed to the belief they are a "free" service of the gasoline dealer.

Thoughts while shaving: We don't know what the art critics thought about it, but the San Francisco Zoo recently held an art show, that exhibited exclusively oil paintings done by some of the monkeys, chimpanzees and other simian inhabitants of the place. Must have been something to see, and we dare say it rivaled some of the modern art we have seen done by humans. . . You're getting along in years if you can remember when General Motors made the LaSalle car, and you are in the same category if you can remember when Stutz turned out the famous Bearcat, perhaps the earliest of all sports cars and certainly one of the greatest to be remembered so long. . . We'll bet you never knew the famed Eiffel Tower in Paris grows as much as six inches taller on hot days because the heat expands the metal of which it is made. . . Have you noticed the TV movie cowboys don't wear the flashy turrellion hats of the western heroes in yesteryear's movies? Tom Mix, Buck Jones, Ken Maynard and Jack Hoxie always wore big hats in their films. And if memory serves the hats were seldom knocked off their heads during a film fight. . . The Lowell (Mass.) SUN headlined a story: "Wed 58 Years After Proposal." No one can say they married in haste.

Country Editor speaking: "Back in the good old days a towel rack in a bathroom was for towels and not nylons."

All of this shows how necessary it is for the American people to come to an understanding on what government should do, and what private enterprise should do. (To highlight the difference between the two, let us call government the Tax System and private enterprise the Price System.)—Amazingly enough, there is no such understanding. The line between the two has never been sharply drawn.

We desperately need a central principle on which we can decide whether a given project should be carried on by the Tax System or should be left to the Price System.

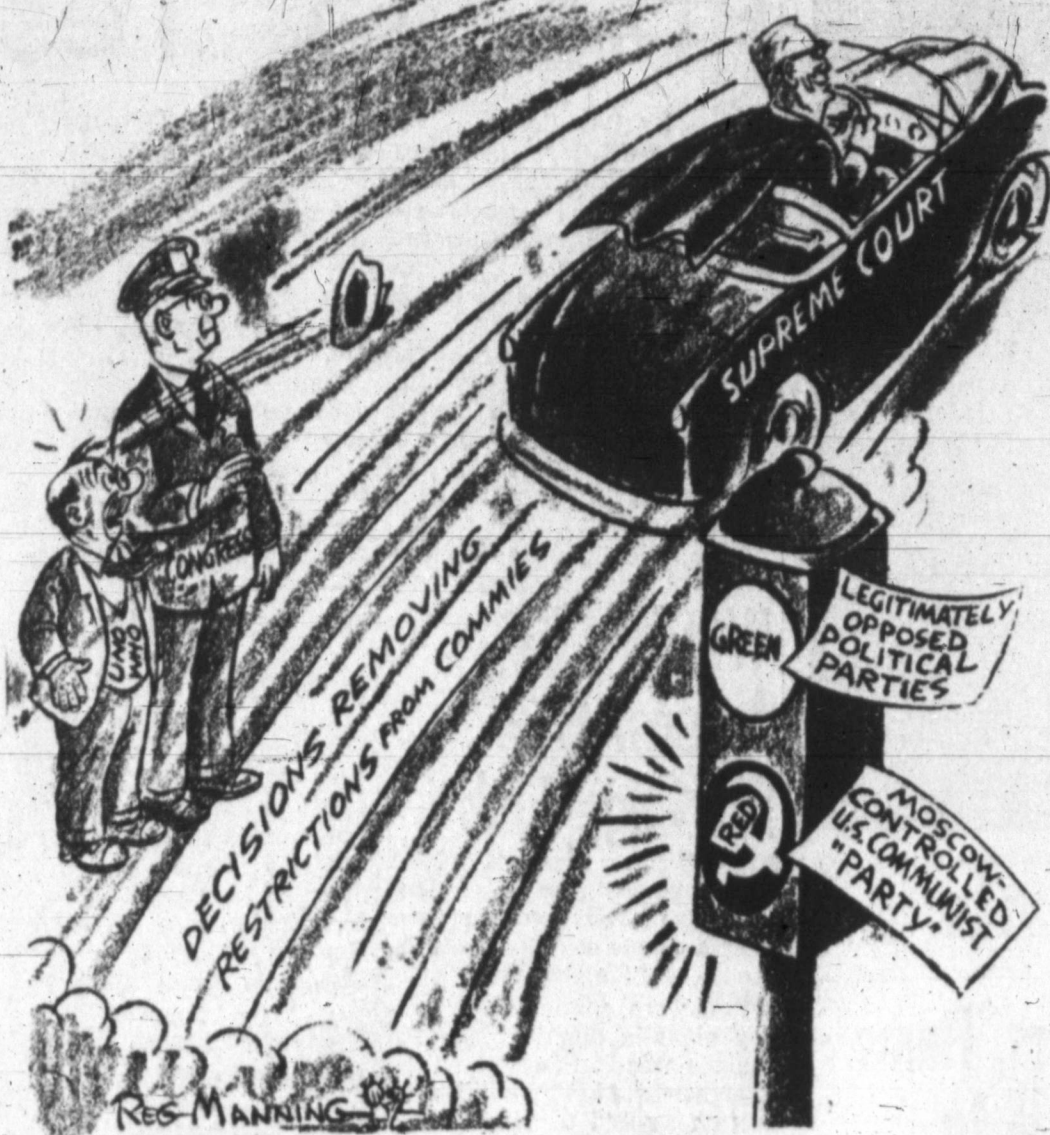

Now, when we need something done, we are prone to say, "let the government do it. They have a lot of money, and they can always get more." We even turn to Washington to run

rights of the citizen and minimize his obligations. As a result, Uruguay is going bust. . . the cost of living has multiplied 32 times in the past decade. Gross national production has actually declined 9 per cent and this year will take a nose dive".

Mr. Sulzberger goes on at length to describe the state of chaos in Uruguay. Uruguay is a small nation, but the irresponsible policies of welfarism that have brought it to collapse can work the same havoc elsewhere—even in the United States.

rights of the citizen and minimize his obligations. As a result, Uruguay is going bust. . . the cost of living has multiplied 32 times in the past decade. Gross national production has actually declined 9 per cent and this year will take a nose dive".

## Reckon The Judge Has Gone Color Blind?

## Time Is Here to Fence In An Expanding Government

By OSCAR W. COOLEY, Assoc. Prof. of Economics, Ohio Northern Univ.

The government seldom retreats. Having taken over a given area of the economy, it digs in to stay.

This is exemplified by President Johnson's stubborn reluctance to slash the budget as a price for a tax boost. He has expanded the "public-sector" all over the map and he does not want to pull it back even an inch. In fact, he is determined to keep on expanding. The contest between him and the House Ways and Means committee is a battle of giants.

The economic fact of life is that this nation's resources are limited. If more of them are commandeered by the government, less of them are left to the people in their private capacity.

At present, competition for the nation's limited resources is keen, almost to the point of being fierce. The government under its ambitious leaders demands more resources with which to fight the war against Communism in Vietnam simultaneously with its fighting against poverty, etc., at home. At the same time, the American people and their private firms are expanding production as never before and are reaching eagerly for resources with which to do this.

This struggle is what the headline writers call a "crunch," which roughly resembles a contest between two dogs for one bone. The price of the bone is interest, and the "crunch" is commonly described as a rise in interest rates. This rise, however, is not the crunch but the result of it.

All of this shows how necessary it is for the American people to come to an understanding on what government should do, and what private enterprise should do. (To highlight the difference between the two, let us call government the Tax System and private enterprise the Price System.)—Amazingly enough, there is no such understanding. The line between the two has never been sharply drawn.

We desperately need a central principle on which we can decide whether a given project should be carried on by the Tax System or should be left to the Price System.

Now, when we need something done, we are prone to say, "let the government do it. They have a lot of money, and they can always get more." We even turn to Washington to run

rights of the citizen and minimize his obligations. As a result, Uruguay is going bust. . . the cost of living has multiplied 32 times in the past decade. Gross national production has actually declined 9 per cent and this year will take a nose dive".

Mr. Sulzberger goes on at length to describe the state of chaos in Uruguay. Uruguay is a small nation, but the irresponsible policies of welfarism that have brought it to collapse can work the same havoc elsewhere—even in the United States.

rights of the citizen and minimize his obligations. As a result, Uruguay is going bust. . . the cost of living has multiplied 32 times in the past decade. Gross national production has actually declined 9 per cent and this year will take a nose dive".

## The Doctor Says:

By DR. WAYNE BRANDSTADT, Christmas Is All-Year Giving of One's Self

Nobody knows exactly how old Santa Claus is but all agree that he has had a long and useful life. What then is the secret of his longevity? I believe it is his kindly disposition, the fact that he never gets angry, his sense of humor (who else would give a tie to a clergyman?) and his wish to please others rather than himself. Despite his obvious years, he is young in heart and has an admirable zest for living. He welcomes change and never fails to come up with a new line of toys.

Too many of us waste valuable time worrying about material things and, as a result, become prematurely old. The chief value of Christmas should be to make us realize that there is more satisfaction in giving than in getting. The spirit of Christmas can, however, be spoiled if our gifts are thinly disguised bribes given in the hope of undeserved favors from the recipient.

The frantic last-minute shopper is more often than not a person driven to desperation by the necessity to make an unwilling gift. It is far better to give more of yourself throughout the year than to try to save your conscience by doling out a few expensive gifts at Christmas.

Q—What is a syndrome? What causes it? Is there any cure?

A—A syndrome is a group of symptoms which occur together but are not characteristic of a definite disease. It is sometimes called a symptom complex. It is generally differentiated from a disease in that the latter is typified by a specific group of symptoms. Chills, fever, headache and vomiting make up a syndrome seen in the onset of many acute infectious diseases. Add to these symptoms a certain type of rash and you have a disease such as measles; chickenpox or scarlet fever.

There are several hundred syndromes many of which bear the name of the man who first described them. A thick book, Durham's "Encyclopedia of Medical Syndromes," has been compiled to help doctors identify them. They have many causes and many of them, but not all, can be cured.

view to voluntary, not compulsory, performance. The questions to be asked are: Who wants this service? At what price? Will some one produce it at that price? Can it be divided into "packages" which can be allotted to buyers through price? In short, is it priceable? If it is, let it be provided by the economy. If it is not, it may be assigned to the Tax System.

It is time to fence government in.

SUCCESSOR NAMED LONDON (UPI)—Charles British Hope, 54, of the British mission to the United Nations, will succeed Sir Nicholas Cheetham as ambassador to Mexico. Sir Nicholas is retiring.

## HUNT FOR TRUTH

By H. L. HUNT

"CULTURAL EXCHANGES" The appearances of the Moscow State circus in the United States in recent weeks have once again called attention to the question of "cultural exchanges" between the United States and the Soviet Union.

The most important fact to remember in evaluating the "cultural exchange" programs is that the Soviet Union is an enemy of the United States. No reasonable person can deny that the Russian communists are actively supporting the Viet Cong and the North Vietnamese. No one suggested during World War II that we have "cultural exchanges" with Nazi Germany or Imperial Japan, yet as evil as any in those two countries and just as opposed to the United States.

Once we have acknowledged that the Soviet Union is our

enemy, it becomes clear that "cultural exchanges" work against the best interests of the United States. The Soviet economy is strengthened by these programs and Americans are encouraged to develop a favorable or at least neutral attitude toward the Soviet communists.

A State Department official defended "cultural exchanges" by claiming that the program "provides us with a unique opportunity to observe the Soviet scene at first hand and to meet directly with Soviet citizens." The Russian people, however, are not represented by the Soviet government. Those permitted to go abroad are very carefully selected in advance by Soviet authorities. No one considered "politically unreliable" is sent. The American people should refuse to support "cultural exchanges" and should urge their government to cancel the program.

Back in the days when there was "illegal gangsters" they used to have something called the "protection racket." Today they run the same racket "legally" and call it "social security."

The way it works is, if you make 7800 dollars you pay 290 of it for "security." That was last year. This year it is going to jump to 343 bucks.

Like all rackets, once the gangsters get their foot in the door they won't stop until they take hide and all.

In 1969 you will have to pay 374 dollars on the same 7800, in 1971, 405, then 460 and on and on. Not only that, the feller who hires you has to pay the same amount too.

Why compared to the little leeches of yesteryear these guys are octopuses. It wouldn't take long before they would be sucking more blood from you than the income tax.

Now, you know the bureaucrats can't let that happen. That's why they want a strait-jacket. It will never do to let the "protection racket" get ahead of the "welfare racket."

Do you think you'll ever get your money back? Does a octopus keep a blood bank?

### Troops to Leave Germany by April

WASHINGTON (UPI) — A armored cavalry regiment and long-planned withdrawal of four fighter squadrons, 35,000 American soldiers and airmen from Germany will begin in April, the Pentagon announced today.

The deployment will include two infantry brigades, an

## The Lighter Side

By DICK WEST

WASHINGTON (UPI) — The trouble with many Christmas songs, poems and stories is that they no longer fit the times.

Most of them were written telecasting football games on the holiday weekend.

To rectify this situation, I have taken the liberty of revising a few of the familiar favorites to bring them more in line with modern yuletide observances.

Deck the halls with Green Bay Packers.  
Fa, la, la, la, la, la, la, la, la.  
'Tis the season for linebackers.  
Fa, la, la, la, la, la, la, la, la.  
Watch the games in living color.  
Fa, la, la, la, la, la, la, la, la.  
Black and white sets are much duller.  
Fa, la, la, la, la, la, la, la, la.  
On the twelfth play from scrimmage Paul Christian gave to me twelve passers passing, eleven flankers flanking, ten safeties blitzing, nine punters punting, eight z-out patterns, seven interceptions six beer commercials, five goal line stands, four pulling guards, three time outs, two split ends and a wingback with a bum knee.

'Twas the weekend of Christmas.  
She wanted to party.  
But I wanted to be with Coach Vincent Lombardi.  
And I tried to ignore her hysterical laugh.  
When I refused to wrap presents.  
Except during the half.  
On Gabriel on Lundy on Schafrath and Neely!  
On Perkins on Kelley on Andrie and Lilly!

## Television In Review

By RICK DU BROW

HOLLYWOOD (UPI) — Art for art's sake is a rare thing anywhere, and especially on commercial television, so Wednesday night's one-man enactment of Gogol's "Diary of a Madman" on CBS was a special sort of occasion.

The story followed the progressive disintegration of the mind of a lowly government clerk in Russia, and, on strictly commercial terms, I guess you'd have to call it art for art's sake because hardly a sponsor was on the premises.

For the viewer interested only in the theatrical magic of the star of this monodrama, French actor Roger Coggio, 33, the absence of advertising clutter was a blessing that enabled one to savor his rendering of the adaptation of Gogol's world-famous classic of literature.

One felt at times that the telescoping of the work was a bit compressed because of the shortness of time allotted to it on the home screen, and that the universality of some of the madman's thoughts were lost in favor of dramatizing his individual situation.

Nonetheless, some of the universality did indeed get through, and, more than that, the home viewer was the recipient of a gift of superb acting doing justice to an author's fantastic way with words.

Coggio's one-man performance has been delivered more than 1,500 times in theaters throughout Europe and the United States in the past few years, and CBS-TV's one-hour production was quite different from, say, the solo video readings of a Sir John Gielgud.

"Diary of a Madman" was an acted-out drama, complete with settings and costumes, but with only Coggio on screen. Except

There still is some question. But we'll learn in due course whether football at Christmas is grounds for divorce.

for his final minutes in a room in an asylum, where he has been taken, the play took place in his simple flat—with an occasional view to the hallway outside.

There in his flat, one watched the clerk as his mind indulged in one fantasy after another. These fantasies encompassed a night at the theater and his reaction to it; a conversation with dogs; a yearning for his boss's daughter; and, finally, the growing belief that sent him to the asylum—the belief that he was the king of Spain.

Throughout everything, however, was the inner cry that here was a man for whom life was too much, who wanted more and better things but didn't know how to cope with the world to get them. There but for the grace of God, one knew, go many of us. And Mr. Coggio was masterful in the subtleties of his delineation which touched us at this point of recognition.

## Johnson Widening Split Within Democratic Party?

By MILTON R. BENJAMIN

WASHINGTON (UPI) — President Johnson's decision to link the peace candidacy of Sen. Robert F. Kennedy with the Kennedy-McCarthy move, "I do know of the interest of the peace candidate of Sen. effect upon the American people," appeared certain today to widen the split within the Democratic party.

Johnson said in a nationally televised interview that

McCarthy "have had some meetings and some discussions" and added that he was not prepared to predict the effect upon the American people of these maneuverings.

PARIS (UPI) — France has no intention of banning arms sales to the apartheid government of South Africa as Britain has done, official government sources said Tuesday.

A Kennedy spokesman said today Johnson's remarks were "certainly not very helpful to party unity."

## Canadian Credit Group Announces Five Promotions

CANADIAN (Sp) — H. H. Keahey, former president of the Canadian Production Credit Association, has been promoted to chairman of the board. The change in title was announced following a recent meeting of the association's board of directors. Other promotions announced were Wallace N. Hamker to vice chairman of the board; Erbin Crowell to president of the association; and Larry Albin and Lynn Futch to vice presidents of the association.

Crowell stated that the new titles more accurately reflect the image of a corporation with \$10,250,000 in assets.

In his position as president, Crowell will remain as chief executive officer of the association.
