FAREWELL TO CHARLIE — The maids of Brigadoon bade Charlie farewell on the morning of his wedding day during performances of the musical. "Brigadoon" staged Friday and Saturday to full houses in M. K. Brown Auditorium. The musical drama, spiced with comedy and shaded with romance, was the major 1974 presentation of the PHS Choral Department.

Brigadoon Captivates Pampa Theater Goers

By ALETHA DAVIS
The 1974 Pampa High School Choral Department musical production is all over... except the shouting. Performers were awarded standing ovations by full houses Friday and Saturday night after the final curtains of "Brigadoon", a dramatic and romantic musical produced in association with Tams — Witmark Music Library.

Douglas, an insensitive, happy-go-lucky bloke, carried the show during both performances with his unique quirks of countenance displayed along with an exceedingly funny and dry wit. Debbie Lebnick portrayed "Meg Brockie" the half-gypsy milk maid of Brigadoon. The roll called for a saucy snip of a girl, and Debbie executed the roll without a flaw, tantalizing the audience with lyrics and mimics of a gal with a goal. Jeff Douglas, in sight, the pair delighted theatergoers in the lighter moments of the show. Serious leads were played by Eddie Roby and Sandra Vance. The romance of Tommy and Fiona was presented with a delicate touch, carrying the plight of the two to a dramatic ending with Tommy following his true love, Fiona, across the bridge into Brigadoon, leaving the less serious and insensitive Jeff behind in a modern world. Dancers and village

people presented just the right background for the setting. Each member of the cast was carefully costumed in the 18th century fashion of a Highland village in Scotland. Bright plaids accented the solid colors of peasant costumes, transporting viewers into another time and place. John Hollar presented the countenance of dejection and woe as the rejected suitor of Jeannie, played by Lori Perilloux. Gary Sanders portrayed Charlie, the prospective bridegroom and lately lad about town in Brigadoon. The pit band composed of the Pampa High School Band, directed by Jeff Doughten, rounded out the staging, setting the mood and providing background for players and audiences alike. Like "Westside Story", "Music Man" and "Hello Dolly", this PHS musical, directed by John Woicikowski, choir director, will long be remembered by Pampa choir patrons.

Officials Identify Bodies Found In Burned-Out Car

Officials have identified the charred remains of a man and woman found in a burned-out car south of Pampa Friday as A.W. Earles, 43, of White Deer and 31-year-old Mrs. Susan Carol Parks, mother of five, Pampa. The bodies were found early Friday morning by authorities who had been alerted a "car wreck" had occurred two miles south of Pampa on State Highway 70 shortly after 6 a.m. Officials arriving at the scene found the burned vehicle containing the bodies. Identification was not determined until late Friday. Justice of the Peace G.L. "Nat" Lundsford, acting as coroner, ordered autopsies to determine the cause of death of the two. Investigating officers and the coroner said the car had apparently become stuck in a ditch after the driver had attempted a U-turn on the narrow dirt road. The exact

cause of the fire and deaths of the couple were still under investigation late Saturday. Judge Lundsford said he would not rule a cause of death before receiving a pathologists' report.

Mrs. Parks, a native of California, had lived in Pampa about two years and was employed as a waitress at Pampa Country Club. Mr. Earles was an employe of Flint Drilling Co. and resident of White Deer. (See Obituaries, Page 4)

Wallace Plans '76 Democratic Races

WASHINGTON (UPI) — Gov. George C. Wallace of Alabama is planning to enter almost every major Democratic presidential primary in 1976, according to his senior staff aides. Several of them said in interviews this week that they are certain he will announce for President early next year, others said they are "90 per cent sure" he will. Wallace himself told reporters this week at the Democratic governors' conference at Hilton Head,

S.C., "I haven't quite decided what to do but I expect to be making an announcement in the first months of next year." Wallace still is partially paralyzed from a 1972 assassination attempt and his lieutenants say he will use TV heavily in the campaigns. "All the governor needs is a blue curtain and a TV camera and he can conduct a fine campaign, and reach a lot of people who know him by name," one aide said. name, "one aide said.

Middle East, Nuclear Arms Dominate Talks

VLADIVOSTOK (UPI) — Launching the most important part of his Far East trip, President Ford met Saturday for the first time with Soviet leader Leonid I. Brezhnev to pursue detente in the frozen reaches of Siberia. The two superpower leaders struck an immediate, jovial rapport. Their first "deal," made jokingly over a table laden with fruit and mineral water, was for Russian snowplows to solve the winter problems of Washington, D.C. But serious topics — efforts to agree on nuclear

arms limitations, the tense Middle East situation and European security: all part of the quest for world peace initiated in earlier summits between Brezhnev and Richard M. Nixon — promised to dominate the planned day and a half of intensive negotiations. The arms negotiations, which were expected to pave the way for a 1975 agreement rather than produce an immediate treaty, were expected to be the major topic. But Ford also planned to urge Brezhnev to exercise restraint in the Middle East. Observers found the tone

of the meeting much more relaxed and friendly than that of the final Nixon-Brezhnev summit last summer, when the Soviet leader was unyielding and appeared to feel Nixon had lost his effectiveness because of Watergate. Asked whether he expected his maiden summit with Ford to be a success, Brezhnev told a reporter: "Yes, I do." He paused, then said summit diplomacy "is very important. I attach great significance to it." Secretary of State Henry A. Kissinger, who schooled Ford carefully before the

trip and predicted his pupil would be a "tough" bargainer, was equally optimistic about the outcome of the talks. Ford started his discussions with Brezhnev aboard a 13-car railroad train crossing the bleak, snowy, zero-degree plains and hills of far eastern Russia. The two leaders were accompanied by Kissinger, U.S. Ambassador to Moscow Walter Stoessel, Soviet Foreign Minister Andrei Gromyko, and Soviet Ambassador to Washington Anatoly Dobrynin. After a two-hour train

ride, the talks continued at the resort spa of Okeanriki 11 miles outside the secret city of Vladivostok near the Chinese border. Ford's greeting when he arrived in the Soviet Union after a four-hour flight from South Korea was informal but cordial. There was no 21-gun salute, but a sign written in English said: "Welcome President Ford." One Soviet official wearing a fur hat and collar said: "It is just too cold to stand on formality." Ford arrived aboard Air Force One clad in thermal underwear, a heavy coat and a fur hat.

Udall Will Try For Election By House Of Representatives

BEDFORD, N.H. (UPI) — Arizona Democrat Morris K. Udall announced Saturday he will try to be the first President elected directly from the House of Representatives since 1801. Udall became the first Democrat to give formal notice of his presidential candidacy when he told a news conference he would run in the 1976 New Hampshire primary, the first in the nation. President Ford has already said he will seek the Republican nomination. Udall's decision nearly two years before the election reflected the growing trend of the last 15 years to start campaigning soon after the inauguration. Sens. Edward M. Kennedy, D-Mass. and Walter Mondale, D-Minn., have already withdrawn from the

race, which they had never formally entered. "Udall told newsmen Kennedy's withdrawal meant the nomination was 'wide open.'" He did not mention Mondale, but Udall is a liberal in the Kennedy-Mondale mold and contrasts sharply with the more conservative politics of Sen. Henry Jackson, D-Wash., who is expected to announce his candidacy early next year. No member of the House has been elected directly to the presidency since James A. Garfield was inaugurated in 1881. Garfield, a Republican, was a senator-elect when he was nominated. The 52-year-old congressman said a five-month tour of 25 states revealed he had "enough support to justify an

expanded effort" for the nomination. He said he has raised about \$25,000 for his presidential campaign, in contrast to other major Democratic aspirants who have raised more than \$300,000. Sen. Lloyd Bentsen Jr., D-Tex., said last month in New Hampshire he has raised \$365,000 so far and has not yet decided whether to run. Jackson also has raised more than \$300,000. "It's my judgement that it's in the best interests of the Democratic party and the country that we have the widest possible field in 1976," Udall said.

Udall started campaigning in May after 30 House members said it was time for the Democrats to seek a wide range of candidates, including those in the lower chamber. Udall warned that "the struggle for the 1976 nomination ought to begin for the Democrats with a dose of realism the realization that we cannot hope to win the presidency unless we can put behind us the kind of divisiveness which is responsible for two successive defeats" in 1968 and 1972.

The President and Brezhnev chatted about sports at the airport. Aboard the train, in a forest-green car with yellow trim and interior walls paneled with wood and leather, Ford looked out at the snow-covered landscape and told Brezhnev snow was a problem in Washington.

"We don't get too much, but it is a problem when it comes," the President said. "It really handicaps the city, but we don't have the equipment to handle it. We don't have enough snow plows. And we don't have people who know how to drive in the city snow." Brezhnev laughed, gestured with the cigarette in his left hand, and said: "Ah! That will be our first deal! We send you snowplow."

UF Appreciation Luncheon Planned

The Chamber of Commerce will sponsor a United Fund appreciation and awards luncheon at its monthly meeting Monday, Dec. 9, in the Coronado Inn Starlight Room. The special event will honor local UF officials and fund workers for sending Pampa over the top on its 1974 campaign.

Chamber President Gene Steel issued the following statement Saturday concerning the awards luncheon: "In recognition of the outstanding job done by the United Fund volunteer workers, and the communities support of the recipient agencies, I extend to each member of the Chamber of Commerce a special invitation to attend this luncheon. "As many of you may know, the Chamber of Commerce was instrumental in establishing the United Fund here in 1954. Let's reaffirm our support of the United Fund concept in 1974." Reservations for the luncheon may be made now by contacting the chamber office at 669-3241. Luncheon tickets will be \$3.00 each.

Commision Sets Short Tues. Meet

Only three items are on the agenda for consideration at Tuesday morning's semi-monthly meeting of the Pampa City Commission. Commissioners will consider staff recommendations for awarding of bids for the purchase of 18 items of automotive equipment for city departments. An ordinance will be given first reading for two zoning changes from agricultural to retail and from agricultural to multi-family categories. Third item for consideration will be final reading of an ordinance prohibiting parking on N. Ballard St. between Browning St. and Sunset Dr.

Mercury Plunges With Cold Front

United Press International Cold weather, preceded by showers and thunderstorms, pushed eastward across Texas Saturday. Daytime temperatures in the Panhandle dropped into the 40s and the area was due for an overnight freeze. Strong southerly winds pushed humid air from the Gulf toward the advancing cold and wind warnings were issued for many lakes in West, North Central and Southeast Texas. Warm, dry wind and clear to partly cloudy skies were reported in West Texas. The cold spell will continue to spread through the state Sunday, with the rain tapering off.

Pampa Ready For Santa's Debut

Santa Claus is coming to town! Old St. Nicholas will make his pre-season visit to Pampa tomorrow afternoon when he boards a city fire truck and rides in the annual Santa Day parade. The various bands and float entries will form in parade position at 2:30 p.m. in Coronado Center from where the pageant will move promptly at 3 p.m. It will proceed south on Hobart to Ward, south on Ward to Francis, east on Francis to Cuyler and south on Cuyler to Craven where it will disband. Cash prizes of \$100, \$50 and \$25 will be awarded to

the first three winners in the non-commercial parade division, plaques to the winners in the commercial division, one prize of \$50 in cash to the winner of the individual or family division, and \$15, \$10 and \$5 in cash to the winners in the decorated bicycle and motorbike division. Prizes will be awarded to parade winners at 4 p.m. Tuesday in the Chamber of Commerce office in the Hughes Bldg. There will be a special judging for the Pet Section at 2:30 p.m. Saturday, Dec. 7, at the corner of Cuyler and Francis Sts. Three cash prizes of \$15, \$10 and \$5 will be awarded at the Chamber

of Commerce at 4 p.m. Monday, Dec. 9. Santa Day will be a big day for the children of Pampa and the surrounding area. Santa Claus will distribute free candy and talk with them at Coronado Center before the parade and at Santa's House in downtown Pampa after the parade. The Santa Day Parade is an annual affair which officially kicks off the Christmas holiday shopping season. Pampa stores are stocked with everything needed to make Christmas Eve and Christmas Day a happy time when families gather around the Christmas tree.

SANTA CLAUS IS COMING TO TOWN — Getting ready for the arrival of the little 'ole gentleman from the North Pole, T.E. Bradstreet, Pampa, worked along with crews Friday, garlanding the city with Yule Season ornaments. Santa's arrival for preliminary visits to Pampa area tots is set for 3 p.m. Monday. use of year-round forage, support merchandising efforts to gain more consumer acceptance of grass-fed beef, and try to come through the next 12 to 48 months with as little economic loss as possible.

These are some of the recommendations after two days of study and discussions by some 100 cattle industry leaders and educators at the recent Interregional Extension - Industry Beef Cattle Seminar at Shreveport, La., according to L.A. Maddox, Texas Agricultural Extension Service beef cattle specialist.

Predictions of continued cost-price squeeze for cattlemen and global oversupply came during the Seminar, one of four held across the nation by the Extension Service, USDA.

Authorities said that operating at a loss will be a fact of life for most cattlemen for many months, but recommended steps to

minimize losses. Included in the many technical herd and pasture management recommendations was one worldwide in scope, urging that accurate inventories of cows and calves be kept not only on U.S. herds but in all major beef-producing nations of the world.

Sharply rising feed grain prices were another major factor in the cattlemen's dilemma, but little relief is expected here. High grain prices have hit all segments of the beef industry and have caused feedlot operations to be greatly reduced.

Objective of the Seminar was to brief beef industry leaders, agri-finance executives, beef research personnel, and Extension educators on ways to maintain a satisfactory supply of beef at a reasonable cost to consumers and a reasonable return to producers, said Maddox.

Meredith Center Tour Set

The National Park Service is holding Open

House. Area residents are invited to tour the new Fritch headquarters for Lake Meredith Recreation Area and Alibates National Monument.

The headquarters building will be open for public inspection from noon until 4:30 p.m. today. Joseph Rumburg, Regional Director of the National Park Service, will be present to welcome guests. Also assisting in the festivities will be the Women's Organization of the National Park Service and the Fritch State Bank.

A special exhibit of scenic photographs by Woodridge Williams will be exhibited for the opening. An exhibit on National Park Service areas in nearby states will also be presented. Both exhibits will remain on display through November.

The headquarters building is located at 419 East Broadway in Fritch. It was built under General Services Administration contract by J.B. Coe Lumber Company of Amarillo.

On Nov. 18, 1936, Germany and Italy recognized Francisco Franco's government in Spain.

Texas Murder Suspect Held In Louisiana Jail

KINGSVILLE, Tex. (UPI) — Law officers Saturday said a Texas Ranger would be sent to Bossier City, La., Monday to return to Texas Tommie Lee Case, a drifter and oil roustabout charged with the murder of one Texas teenager and the assault and robbery of three others.

Case, who spent three years in a Texas prison in the 1960s on a variety of convictions, was arrested Friday in the northwest Louisiana city by four shotgun carrying deputies. He surrendered peacefully.

He didn't have time to do anything, Bossier Parish deputy Bill Gray said of the capture. "There were four

deputies right on top of him with shotguns and it wasn't too wise for him to try anything."

Case, 35, was charged with murdering Thomas Turner, 19, one of four persons who were camping last Sunday on Padre Island just south of Corpus Christi. The teen-ager's girlfriend, Frances Gardner, 18, was abducted following Turner's death, but was released unharmed near Denton, Tex., 24 hours later.

Two other youths involved in the camping trip were locked in the trunk of their own car, but escaped unharmed a short time later.

Case was held in lieu of \$175,000 at the Bossier Parish jail. Deputies said he had agreed to sign a waiver of extradition proceedings.

"I'm sure it will be taken care of Monday," Gray said.

Case became the object of a five-state search this past week when Miss Gardner gave police a description of the car she was abducted in and picked Case's picture out of police identification files.

"We had known since Thursday that the car was in our area," Gray said. "We had quite a manhunt going all day."

Realtors Set Installation

The annual installation banquet of the Pampa Board of Realtors will be held at 7 p.m. Tuesday in the Pampa Country Club.

Mrs. Mary Lee Garrett will be installed as president by Frank Jeffers of Amarillo, president of the Texas Board of Realtors.

Mrs. Garrett will succeed O.K. Gaylor, outgoing president. Other officers to be installed include Mrs. Marcia Wise, vice president; Paul Coronis, secretary-treasurer, and one new director, Mrs. Dorothy Jeffrey.

Council Says Buckle Up!

CHICAGO (UPI) — The National Safety Council Saturday estimated 525 to 625 persons will die in Thanksgiving weekend traffic accidents. The estimate was the lowest the council has made in the six years.

Last year's pre-holiday estimate was 625 to 725 deaths but only 542 were recorded. The council credited the nation's energy crunch, with its lighter traffic and slower speeds, for the low toll in 1973.

Obituaries

A.W. EARLES — Funeral services for Aldredge Weldon Earles, 43, of White Deer, will be at 2 p.m. Monday in Carmichael-Whitley Colonial Chapel.

James Douglas, minister of the Shamrock Church of Christ, will officiate.

Graveside services will be at 4 p.m. Monday in Shamrock Cemetery.

Mr. Earles died of apparent carbon monoxide inhalation early Friday morning.

Born June 14, 1931 in Thrifty, Tex., he had worked for Flint Well Service for a year.

Mr. Earles served in Germany with the Army of Occupation.

He was a member of the White Deer Church of Christ.

Survivors include two daughters, Mrs. Theresa Kathryn Dull and Lisa Karen Earles and a son, Kevin Weldon Earles, all of White Deer; his father, Frances Earles, Lefors; two brothers, M.L. Pampa, and W.B. Lefors; three sisters, Mrs. Lavada Gaffney, Gilford, Conn.; Mrs. Juanita Oakley, Detroit, Mich.; and Mrs. Lanora Ryan, Magic City, Tex.

MRS. SUSAN PARKS — Graveside services for Mrs. Susan Carol Parks, 31, of Bowers City, will be at 10:30 a.m. Monday in Memory Gardens Cemetery. The Rev. Mitchell Phillips, pastor of Calvary Baptist Church, will officiate.

Mrs. Parks died of apparent carbon monoxide inhalation early Friday morning.

She was born Aug. 12, 1943 in Orange, Calif., and moved to Pampa two years ago from Sacramento, Calif. She was a member of the Baptist Church.

Survivors include her husband, Raymond E. Parks; three daughters, Irene J., Laurie S. and Tammy, and two sons, Raymond E. Jr. and Bobby B., all of the home; her parents, Albert Chapman and Mrs. Gladys Martin.

TALL PINES — The Douglas fir reaches nearly 100 per cent of its maximum height in about 150 years, with 70 per cent of that growth coming during the first 60 years. — CNS

both of Long Beach Calif. and a stepbrother, Carl Johnson, Santa Anna, Calif. Arrangements are under the direction of Carmichael-Whitley Funeral Directors.

Defect Caused Crash, Deaths

FRANKFURT, Germany (UPI) — The Lufthansa West German national airline said Saturday that the flaming crash of its Boeing 747 at Nairobi, Kenya, Wednesday was probably caused by a technical defect.

But Lufthansa's chief pilot, Werner Utter, told a news conference the final result of the investigations of the crash, which claimed 59 lives, would not be available before the next three days at the earliest.

Utter came from Nairobi where he headed Lufthansa's investigation team at the crash site.

Utter said that the Jumbo jet's flight recorder, or "black box," had been shipped to United States. But he said it would take at least three or four days until experts will have evaluated the flight recorder's results.

On Friday an airline spokesman said that on the basis of preliminary investigation, the leading edge of the wing flaps was found to be completely retracted into the wings at the time of the crash.

"This would explain that the plane could lift off the ground after normal acceleration, but was not completely capable of becoming airborne because of too little thrust," the spokesman said.

The spokesman said he had no immediate explanation for the flap's apparently improper positioning.

Alaskan Oil And Gas Nearer Consumer Use

TULSA, Okla. (UPI) — The pace of oil activity in Alaska is rapidly picking up speed, the Oil and Gas Journal said Saturday.

The weekly magazine said the first pipe on history's most expensive pipeline project will be laid this winter, possibly before year's end.

A big tanker terminal is under construction at Valdez on the state's southern shore, the journal said.

Operators are readying Prudhoe Bay field for production when the \$5.9 billion oil pipeline from the north slope to Valdez is finished in 1977, the magazine said, and the slope is undergoing a wildcat boom to find still more oil reserves.

The journal said the pipe laying this winter will be

limited to river crossings in the southern sector of the 798-mile trans-Alaska line, with line laying on major portions of the system to get underway in earnest in the spring.

Meantime, right-of-way will be surveyed and cleared, and drilling will begin on the first of 70,000 shallow holes for pilings to support elevated portions of the 48-inch line.

Part of the system must

be laid above ground to keep warm oil in the line from melting the permafrost and causing environmental damage, the journal said.

Alaska Pipeline Service Co. officials were quoted as being confident construction timetables could be met to start oil flowing south by the fall of 1977. Initial capacity will be 1.2 million barrels a day, destined for the U.S. west coast via the pipeline and tankers.

Fear Of Shortage Booms Food Sales

WEST PALM BEACH, Fla. (UPI) — Fear of uncontrolled inflation, an economic depression and food shortages has resulted in a boom in the dehydrated food business in Palm Beach County, several store owners report.

Three stores in the county, two of them new, are doing a thriving business in such items as dehydrated prunes, beef chunks and sour cream.

Some buyers are contracting for as much as a year's supply of the dehydrated and freeze-dried food items, sellers said Friday.

Many of the buyers take elaborate precautions to keep their identities secret, fearing that if their names were known, their food hoards would be raided by the hunger rioters during what the buyers believe is a coming period of severe social unrest in the U.S.

One of the stores is a subsidiary of one of the John

Birch Society's American Opinion-book stores. The other two opened just recently.

Former Deputy Sheriff Jim McCarthy, who opened the largest of the three stores two months ago in partnership with unemployed construction worker Ward Culver, said, "You must realize that these people are buying for an economic disaster. They certainly don't want their neighbors to know there's \$1,000 worth of dehydrated food in their garage."

La. Election Dispute Target

BATON ROUGE, La. (UPI) — Democrat Jeff Lacaze said Saturday he would ask the Louisiana Supreme Court to take over all court duties pertaining to the disputed 6th district congressional race in an effort to block a re-run of the Nov. 5 general election.

Lacaze said he was prepared to run in the second election, ordered Friday by District Judge Melvin Shortess, but he would file an appeal with the supreme court "because it is essential that there be no question about the legality of the election ordered by the district court."

Unofficial counts showed Lacaze trailing Republican Henson Moore by less than 50 votes.

Lacaze, who had said he would prefer a re-take of the election in the one precinct that had a faulty voting machine, said he would file writs with the high court, before Wednesday. Experts said the one machine could have swallowed as many as 144 votes.

"We will oppose what they're trying to do," Moore said. "We feel like this matter ought to be left in the hands of the people and I think that this continuation of the court fight is an obvious attempt to keep this out of the hands of the people."

"We could argue in this case that we have irregularities that have proven that we lost more votes than he (Lacaze) possibly could have lost in that one voting machine."

"But that's not the way it really ought to be settled—in court. It really ought to be settled with a new election because this thing is so confusing. There are so many irregularities that the will of the people has been thwarted."

Robbery Victims Win In Lubbock

LUBBOCK, Tex. (UPI) — Four Arkansas Razorback cheerleaders and the broadcaster for the Razorback radio network Saturday received \$1,000 in donations from the residents of Lubbock and police announced the man who stole that amount originally from them had been arrested.

The robbery occurred Friday night as the five persons sat watching television in a motel room prior to Saturday Texas Tech-Arkansas football game in Lubbock.

The broadcaster, Bob Carter, said they were watching television with the door open when the man entered and held a pistol on them. He took about \$550 from Carter and \$450 from the cheerleaders, Paula Marinoni, Sara Schreit, Lyle Hartz and Scott Biggs.

The robber dashed out and they called police and then chased him, but the five officers—using police dogs—lost the man in a field near the motel. He was captured early Saturday and the five identified him in a police lineup.

Police Chief J. T. Alley said charges would either be filed Monday or the case would go directly to the grand jury. He said it was the third robbery of the same kind at the motel in recent weeks.

On The Record

FRIDAY Admissions

Mrs. Lois Cates, Pampa.
Mrs. Susan Bromlow, 1100 S. Christy.

George Dunn II, Mobeetie.
Baby Boy Bridwell, 513 S. Russell.

RANDY CAIN

Area VI DECA To Meet

About 20 members of Pampa Distributive Education of America Club were planning to attend an Area VI seminar today at Amarillo High School. Dona Cornutt, advisor was to have traveled with the group.

Special speaker for the meeting will be Randy Cain, National President of DECA, and a former student of PHS. His speech topic will be "Making Your Year in DECA."

Eleven members of the Pampa club attended an employer-employee banquet in Liberal, Kan., early in November.

DECA representatives from high schools across the Panhandle will travel to the Amarillo meeting today.

Briscoe

Favors Nov. 11

AUSTIN, Tex. (UPI) — Gov. Dolph Briscoe's office announced Saturday he will urge the 1975 Legislature to restore Veterans' Day to its original date, Nov. 11.

"I believe Texas should join the 42 other states which have already enacted legislation which re-establishes Nov. 11 as Veterans' Day," Briscoe's statement said.

DEPRESSION ART "FOUND" Public Offered 1937 U.S. Gov't Art Prints

Imagine, if you can, finding several thousand sets of antique prints of the world's greatest paintings that were lost for more than 35 years! It actually happened—and this is the true story of the discovery of that lost treasure.

Eleanor Roosevelt
Back in 1937, immediately following the depression years, Mrs. Eleanor Roosevelt and a select group of a dozen nationally prominent people formed a voluntary national committee for art appreciation to create an art program that would give the public a well-needed moral lift. It was the committee's decision to select the world's most famous paintings from the 16th, 17th, 18th, 19th, and 20th centuries—the best paintings of Matisse, Van Gogh, Renoir, Picasso, Gauguin, Titian, etc.—and to reproduce them in full color as perfectly as humanly possible and make them available to the public at a price within the reach of nearly everyone.

Abandoned in 1937
For some unknown reason, after a quantity of these beautiful reproductions were made, the entire project was abandoned and this collection of perfect reproductions was stored in a Brooklyn warehouse, where they remained undisturbed since 1937.

Through a series of rare coincidences, the lost collection was "rediscovered" and leading lithographers and art critics agreed that the subject matter and quality of detail and color reproduction was incredibly accurate. Over \$500,000.00 was spent to make finely engraved glass printing plates. It would be impossible to reproduce prints such as these under existing methods, and for that reason these prints are literally collector's items. Once they have been sold, there will be no more available. A truly excellent art "investment" that makes a fabulous gift.

Available to Public
These authentic original 1937 prints have been appraised by the American Appraisers' Assoc. at \$7.00 each print. Now, these full color 11"x14" prints are finally available to the public at \$19.95 for a collection of 18 prints. Send cash, check or money order to: U.S. Surplus, Dept. F15 P.O. Box 605, Tarzana, Calif. 91356. Fully GUARANTEED. Certificate of authenticity given with each set. Mastercharge and Bankamer card OK (give card number). Adv.

Pirates Win 1st Bi-District Tilt Since '49

By PAUL SIMS

HALE CENTER — "They showed a lot of character," was about all a choked-up coach Leonard Tolbert could say immediately after his Lefors Pirates battled back from a 15-0 first quarter deficit to belt the previously once-beaten Sundown Roughnecks, 28-15, in a Class B bi-district contest here Friday night.

The victory earns Lefors the right to play Bronte, which downed Sanderson, 32-0 in bi-district play Friday night. The time and place of the regional game were not available Saturday evening, although coaches from both teams met with officials in Lubbock to decide when and where the game would be played.

It looked like a long evening for Lefors early in the game when Sundown unleashed an awesome running attack and struck for two quick touchdowns.

Halfback Glen Faught set up the first by rambling 36 yards around right end, giving the Roughnecks first down on the Lefors 11. On the first play from that point, all-state candidate Mike Waygood burst up the middle for the touchdown. Waygood booted the extra point to make it a 7-0 game.

After a Phil White punt, giving the Roughnecks possession on their own 32, it took only three plays, the last a 64-yard jaunt up the middle by Waygood, to

score with 15 seconds gone in the second period. Quarterback Phillip Smith, holding on the extra point attempt, picked up the ball and threw to fullback Randy Wood for the two-point conversion.

After another Lefors punt, Sundown had possession on its own 20. Three plays later, Waygood fumbled after being poked by Lynn Allison and the Pirates' Barney Sawyer recovered on the 28.

"I'd have to say that was the turning point of the game," Tolbert said Saturday morning. It took Lefors only four plays to score with Sawyer going four yards on the last, which came with 9:09 left in the half. Quarterback Greg Beck scored on a keeper for two extras.

Sundown punted on its following possession, and the Pirates marched 40 yards in six plays as Sawyer ran the ball five times and scored on a one-yard dive. Beck threw incomplete to Bobby Dunn on the conversion try.

The touchdown came at 4:47 in the second quarter, and the half ended with Lefors in possession on Sundown's 20 with the score 15-14.

The Pirates totally whipped Sundown in the final two periods. Sawyer scored on a nine-yard off tackle scamper with 1:49 left in the third quarter, giving Lefors the lead.

Halfback Jim Hix added another TD with 6:41 left in the game on a one-yard shot, followed by a pass from Beck to Dunn for two more points.

The Lefors defense was equal to the offense in the

second half as Waygood, who gained 92 yards on only six tries in the first half, managed only 20 yards on eight carries in the latter two quarters. In fact, the Roughnecks gained only 18 yards on 20 rushes in the last half.

Waygood had rushed for 1,410 yards and scored 18 touchdowns prior to the game. Faught, who gained 956 yards and scored 13 TD's during the regular season, was held to 45 yards on six carries, most of it coming in the first half.

Surprisingly, quarterback Phillip Smith only passed twice in the game, completing one to Waygood for 12 yards in the fourth quarter. Through Sundown's first 10 games, Smith amassed 612 yards through the air.

Sawyer and Hix were awesome carrying the football against what had been a solid defense during the regular season. Sawyer, Beck and Sawyer also who might earn all-state fullback honors to go along with his all-state linebacker accomplishment, gained 169 yards on 33 carries to lead

Sports Page

all rushers in both categories. Hix added 91 yards on 16 rushes, followed by Rick Jennings, 21 on seven, and Beck, 12 on seven.

Jennings stood out defensively from his linebacker spot. The senior tackled Smith for a three-yard loss late in the game to force a Waygood punt and was in on several tackles throughout the evening.

Beck and Sawyer also shined defensively. Tolbert Saturday said he was worried after the Roughnecks jumped out to their 15-0 lead.

It shows a lot of

character to be 15 points down and then come back. We just had some weak spots there in our defense. And our kids will tell you that we weren't ready to play mentally.

"We made some defensive adjustments and moved some techniques around and stopped them after that."

"I was very proud of them. They have a lot of character," added Tolbert, who had said the same thing right after the game.

Tolbert, comparing Sundown to Groom, which Lefors edged, 13-7 for the 1-B title two weeks ago, said, "Groom had a tougher ball club. A whole lot better defensively."

Beck hit on three of seven passes for 62 yards. "We're starting to go to the short

pass a little more. We'll have to from now on. "Their secondary was getting back real deep, so we tried the short passes. At first we tried to hit 'em deep because they weren't getting back on us."

Jennings caught one pass for 18 yards. Sawyer, one for 10, and White, one for 34.

The bi-district championship was the first for a Lefors team since 1949. That year, the Pirates lost to Littlefield in the regional playoffs.

Sooner Whip Huskers, 28-14

LINCOLN, Neb. (UPI) — Oklahoma's mighty Sooners overpowered Nebraska 28-14 with a devastating ground attack Saturday to win their second consecutive Big Eight conference title and 19th straight victory.

Sugar-bowl bound Nebraska, even with the golden passing arm of Dave Humm, was no match for the furious Oklahomans in a jarring last half in which the Sooners overcame a 14-7 Husker lead with their wishbone attack.

The deft ball handling of quarterback Steve Davis, who scored two of the Sooner touchdowns, and the running of fullback Jim Littrell and halfback Joe Washington, accounted for 482 yards rushing as Oklahoma stayed almost entirely on the ground.

But Davis, Washington and Co., with the monstrous Sooner line opening gaping

holes, needed no aerial assistance as the Sooners rolled to three touchdowns in the last half, two in the final period. Davis scored the clincher from the three to cap a 61-yard drive.

The score followed a one-yard dive by Elvis Peacock which broke a 14-14 tie. Peacock's blast was the final play of a 57-yard march.

Nebraska took its only lead of the game on a bit of razzledazzle which caught the Sooners napping early in the third period.

Back John O'Leary took a pitch from Humm and then flipped a short pass back to Humm, who skipped 11 yards untouched into the end zone.

The Pampa Shockers placed four men, including Winslow Ellis with 16, in double figures and blasted the Miami varsity, 65-45, in the season opener for Pampa Friday night in Harvester Fieldhouse.

Rayford Young and Pee Wee Steele scored 14 each for the winners and Henry Williams added 10. Ellis, Young and Steele hit on eight, seven and six field goals respectively.

Other point men for the Shockers were Mark Ebenkamp with four points

and Roby Mallard with two. "We looked real good," said Shocker coach George Bailey, in his first season at the high school. "Winslow Ellis played a good game and so did Pee Wee Steele. Henry Williams came off the bench and did a real good job."

"It's hard to single out just one player. We had one bad little stretch in the third quarter; we hit a cold spell and missed about 10 shots in a row."

Williams, with his outstanding game, earned a starting spot in Tuesday's game at Perryton, according to Bailey.

Miami connected on 18 of 52 field goal attempts for 45 per cent and nine of 25 free throws for 36 per cent and managed 27 rebounds.

In a prior contest Friday, the Pampa C-team

(sophomores) whipped the Warriors' junior varsity, 70-24, as five sophomores hit in double figures for Bailey's Pampa team.

Pampa scorers were Brent Bailey, 16; Stanley Brown, 15; Phil George, 12; Keith Fisher, 12; Ebenkamp, 11, and Chris Skaggs, four.

Scoring for the visitors were Phillip McCullough, eight; Dewayne Childress, six; William Jackson, four; Barton Bean, four, and Juan Segovia, two.

"We looked real good in this game. I was really surprised. The kids were real aggressive and they pressed real well," said Bailey.

Pampa's Shockers and varsity will play at Perryton Tuesday. The game will open the Harvesters' 1974-75 season.

Amarillo Defeats Netters

Pampa managed seven wins but Amarillo High exhibited superior overall strength and downed the Harvester tennis team, 11-7, in a dual match Friday at the Pampa High School courts.

The loss drops Pampa to a 1-9-1 fall record, which includes the matches in the West Texas State tournament.

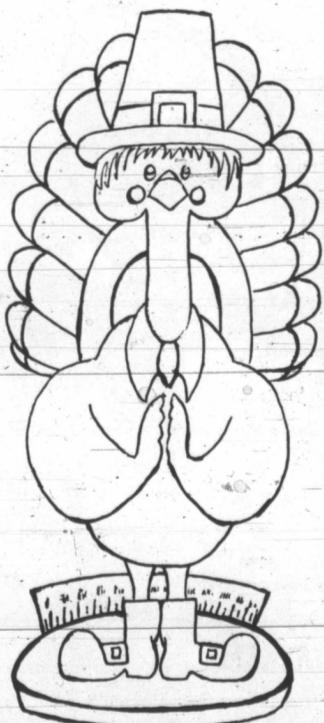

"Even though we've won only one match," said Pampa coach John Michie, "we've improved so much. That's evident in our last two matches. Everyone's improving this fall and I hope they keep improving."

Probably Cathy Carpenter has improved the most of our girls. This is the first year she's ever played. All the girls have improved, but I think she's improved the most. I'm proud of all of them.

Carpenter was the only girl winner for Pampa, stopping Mendy Golston, 7-5, 7-6. Other Harvester winners were Eugene Laycock, E.B. Ellis, Steve Knox, Dough Hughes, Ellis and Allen (doubles), Laycock and Scott (doubles), and Knox and Hughes (doubles).

Several of Pampa's players will compete in the Turkey Day Open this week, and in Amarillo.

Baylor Nabs Win Over Mustangs

DALLAS (UPI) — The artistic aerial antics of Neal Jeffrey set up three touchdown runs by Steve Beaird Saturday that started bowl-anxious Baylor to a 31-14 win over Southern Methodist, moving the Bears to within one step of their first Southwest Conference title in 50 years.

The win, helped along by a 59-yard field goal from Don Bockhorn, brought Baylor even with Texas A&M at 5-1 in a league race and the startling Bears will make their first Cotton Bowl trip in history if Texas defeats the Aggies next Friday in a nationally televised game.

Baylor's victory also insured that the Texas Longhorns will not be making the Cotton Bowl trip

for the first time in seven years.

Jeffrey connected on his first seven passes and Beaird, the squatty tailback who leads the league in rushing, bolted over on runs of 19 yards in the first period and 7 yards in the second to give the Bears a 14-0 lead.

The Mustangs narrowed the deficit with 16 seconds remaining in the half on a 14-yard pass from Rickey Wesson to Freeman Johns. But Bockhorn's field goal returned the momentum to the Bears.

Pat McNeil scored for Baylor on an 8-yard run late in the third quarter to clinch the game and Beaird added a 2-yard run with seven minutes remaining in the

contest. SMU's final touchdown came on a 1-yard run by Wayne Morris.

Baylor's normally stingy defense led by linebacker Derrell Luce, end Tom Black and cornerback Ron

Burns allowed SMU to cross midfield only three times all day. On one of those occasions Burns made a touchdown saving tackle on a kickoff return.

Jeffrey connected on 11 of

17 passes for 166 yards and Beaird carried 26 times for 133 yards, including 68 yards of Baylor's 80-yard opening touchdown drive.

It was the seventh win against three losses for

Baylor, already owning its most successful season in 11 years; while SMU ended its season with a 6-4-1 record and a 3-3-1 conference mark.

Jeffrey hit Ricky Thompson with a 12-yard pass to set up Beaird's first touchdown run and in the Bears' second touchdown drive, Jeffrey found Thompson with an 11-yarder and also completed passes of 12 and 23 yards to Phillip Kent.

In the final Baylor touchdown march Jeffrey hit Alec Jackson with a 35-yarder.

Not only did he throw with excellent accuracy, Jeffrey ran the triple option with high effectiveness as well.

BOWL BOSSES SICK Arkansas 'Ikes' By Peach-Bound Tech

LUBBOCK, Tex. (UPI) — Speedy fullback Ike Forte, who opened the season as wishbone halfback, Saturday scored twice in the fourth quarter to lead Arkansas past Peach Bowl-bound Texas Tech 21-13 in a Southwest Conference football game.

Forte scored the go ahead touchdown with 9:30 left in the game on a 17-yard dash, then struck again with 42 seconds remaining on a nine-yard run for the clinching touchdown.

Texas Tech, out but not down, used the final 42 seconds to move 61 yards and pull within one touchdown on a 26-yard pass

from Don Roberts to flanker Larry Williams.

Steve Little added field goals of 47 and 32 yards for the Razorbacks' scoring and halfback Vaughn Lusty scored on a two-point conversion. Little booted the final razorback point.

Texas Tech scored on a twoyard run by tailback Billy Taylor in the third quarter for the Raiders' only other score.

Little's second field goal on the first play of the fourth quarter pulled Arkansas within a point of the host Raiders. His 47-yard three-pointer against the wind had given Arkansas a 3-0 halftime lead.

HENRIETTA RUSH — Bearcat defensivemen Randy Dodd (21) and Glen Schaffner (72) pressure Spearman quarterback Jimmy Harper Friday night in Pampa. See story, opposite page. (Photo by Gary Meador)

Rice Overrides Texas Christian

HOUSTON (UPI) — David Houser's 51-yard punt return picked up sluggish Rice and quarterback Tommy Kramer threw two touchdown passes Saturday leading the Owls to a 26-14 Southwest Conference win over Texas Christian University.

The loss handed the Horned Frogs, 1-10, their first season ever without conference victory.

TCU scored first on Lee Cook's 11-yard pass to Gary Ferguson, but Houser's punt return late in the first quarter got Rice in position for Alan Pringle's first of two field goals.

John Coleman's 10-yard scoring run midway in the second quarter put Rice in the lead. And in the second half, Pringle kicked a school-record 50-yard field goal and quarterback Kramer threw scoring passes of six yards to Ken Roy and 55 yards to Eddie Lofton.

TCU scored again with three minutes left in the game on Mike Luttrell's one-yard run.

The victory, the Owls' second of the season, sent Rice into its 1974 finale with Baylor next Saturday with momentum.

PD Captures Regional Berth

By LES GILES Special Correspondent

AMARILLO — Palo Duro advanced to next week's regional playoffs against El Paso Coronado, despite the fact that the Dons were held to a 0-0 standoff Saturday before nearly 5,500 fans at Dick Blivins Stadium in a Class AAAA bi-district clash.

The Dons earned their regional berth by virtue of leading Monterey in penetrations, 5-1.

The regional playoff will be held next Saturday at 2 p.m. in Amarillo, and offers a rematch of the 1970 regional battle, won by the Dons, 56-22.

Monterey District

4-AAAA champion, had a chance to beat the Dons but Mark Morgan's 26-yard field goal attempt sailed wide to the right with 2:17 left in the game.

A costly 15-yard penalty for having an illegal receiver downfield dearly hurt the Plainsmen. That penalty came after Monterey had reached Palo Duro's nine with 1:19 to play.

After being penalized back to the 24, the Plainsmen were able to make it back to the Don nine in three plays, but Morgan's fourth-down field goal attempt squibbed off the side of his foot.

Palo Duro came right back and drove to the Monterey two as the game ended.

The Dons held the edge in every department

statistically. PD had a 13-7 edge in first downs, a 198-49 edge in rushing, a 22-2 edge passing, and a 218-53 bulge overall.

A strong 20-25 mile-per-hour wind from the north was a key factor as far as both teams' punting was concerned. The Dons punted five times for a 25.6 average, while Monterey kicked seven times for a 34.6 average.

Monterey punted three times into the wind. Those three kicks were good for 7, 19 and 11 yards. PD punted four times into the wind with kicks going for 28, 23, 26 and 10 yards.

Monterey had 11 possessions during the game, and only once started in Palo Duro territory. The Dons had 10 possessions and on four occasions started in Monterey territory.

Monterey, in fact, crossed midfield only twice during the game.

PD placekicker David Pinales missed a 30-yard field goal with the wind at his back in the opening moments of the game after a seven-yard punt by Monterey had given Palo Duro field possession at the Plainsmen 19.

Greg Sellmyer led all rushers with 18 carries for 83 yards. Glen Stallings paced Monterey with 81 yards on 20 attempts. PD's alert secondary limited Plainsmen Gardner to one completion in 11 tries. Stambaugh faré little better, completing two of seven.

The 0-0 tie was the first ever in playoff competition by an Amarillo school since there have been four high schools.

Ironically, Palo Duro was shut out in bi-district play for the third time in four appearances. The Dons previously lost to Abilene Cooper (17-0 in 1969) and Monterey (21-0 in 1972).

Palo Duro will carry a 10-0-1 record into next week's regional playoffs. El Paso Coronado is 10-1, having won its last 10 in a row.

Ohio State Decisions Wolverines

COLUMBUS, Ohio (UPI) — Soccer-style kicker Tom Klaban booted four field goals to catapult third-ranked Ohio State to a 12-10 come-from-behind win over and previously unbeaten Michigan Saturday, giving the Buckeyes a share of the Big Ten title with the second-ranked Wolverines.

The victory, Ohio State's 10th in 11 games, throws the decision of the Big Ten's representative in the Rose Bowl to the league's athletic directors, who will meet in Chicago Sunday to vote.

Michigan missed a chance to win with 18 seconds remaining in the game when a 33-yard field goal attempt by Mike Lantry was wide to the left.

Ohio State, which trailed 10-0 at the end of the first quarter, took the lead early in the third period on Klaban's record-breaking fourth field goal, a 45-yarder.

The Buckeyes fell behind early the first period when Michigan quarterback Dennis Franklin tossed a 42-yard touchdown pass to wingback Gil Chapman. A 37-yard field goal by Lantry made it 10-0 with about five minutes remaining in the first quarter.

Klaban, a Czechoslovakian immigrant who had hit 50 out of 51 extra points going into Saturday's game but only four field goals, connected three times in the second period from 47, 25 and 42 yards out.

His game-winning kick came on the Buckeye's first possession of the second half after they had driven to the Wolverine 28.

Wanna Coach? Call Amarillo

AMARILLO, Tex. (UPI) — Applications for the head football coaching position at Amarillo High School are being accepted, school officials said Saturday.

Athletic director De Walker said the school must find a successor to Kenneth Clapp. Clapp asked for reassignment in the school system at the end of the current season after seven years as the head coach. He had a career 33-33-3 record.

by Gil Wuest
Manager, Harvester Lanes

The Columbia Industries line for this season includes bowling balls with broad range of shell hardness. The extra soft Sur-D (formerly called the Shore-D) has a durometer range of 65 to 72 and comes in 14, 15 and 16 pound weights. The new 16 lb. scarlet ball with a distinctive yellow dot has a 75 to 82 hardness rating. The regular Columbia continues in the 80 to 86 range while the Titeline tests out at 85 or higher on a durometer. I have found that the 80 to 86 to be the most acceptable ball for good all around performance.

There is a vast range of balls to pick from but I carry the best of the line. The color range is good and I feel you'll be quite satisfied with the Columbia ball. Next time you're at Harvester Lanes I'll be glad to help you with a ball.

Now the scores:
Men — J. Reynolds 202-202-570, 5299, H. Gideon 221-554, 2-4-8-10 split, B. Jack 236-557, W. Waggoner 237-570, D. Wallace 203-529, S. Cowan 540, P. Blanda 232-211-603, M. Mayes 230-578, J. Clifton 204-205-566, 205-210-583, D. Wortham 208-551, 217-558, 211-202-569, B. Herman 206-529, J. Graham 539, C. Westbrook 202-213-556, L. Yearwood 213-582, 201-551, 202-538, E. Maxwell 550, L. Harris 554, J. Smartt 206-596, 224-564, R. Taylor 249-568, 558, C. Pettit 228-593, 202-214-203-619, J. Simpson 230-598, 224-592, H. Musgrave 212-587, 209-592, B. Women — I. Downey picked up the 7-8-9 split, P. Baker 2-10, V. Breese 3-6-7, A. Nolte 3-7, J. Jill 5-10, S. Clark 7-4-9, V. Lewallen 527, J. Robertson 527, N. Fugate 202-528, B. Wortham 552, A. Wuest 523, C. Furrh 513, W. Partick 215-553, 528.
This is all for this week. Bye now Gil!

Oiler Host Dallas

HOUSTON (UPI) — For only the second time since teams from Dallas and Houston slugged it out for the old AFL title, NFL clubs representing the two rival Texas cities will meet Sunday in a regular season game.

But if past exhibition clashes are any indication, it won't be a pretty sight. Fight time is 1 p.m. in the astrodome.

Houston Oiler officials said security will be tightened to prevent altercations in the stands. When the two teams met in preseason 1973 at least six fights were reported.

Houston won that one 27-24, and before this season, Dallas scored a thrilling 19-13 victory in overtime to hold a 6-2 preseason series edge over the Oilers.

After all, as Oiler assistant coach Ed Biles

said, "This game is for the braggin' rights."

Since the Oilers started playing the Cowboys, Dallas has owned all those rights. The Cowboys easily won the only previous regular season encounter, wrapping up its 1970 division championship season with 58-10 win.

But the stakes riding on Sunday's outcome have gone the way of sugar prices — sky high.

Whether it is true that the revamped Oilers (5-5) under Sid Gillman are on the upswing and Dallas (5-5) is backsliding, each team faces certain elimination from the NFL playoffs with a loss.

"We're not out of it, but we can't think about a rematch with Washington or anybody else," Cowboy quarterback Roger Staubach said.

Besides the scrambling Staubach, who Gillman said has won the Cowboys "three or four games each season," Dallas brings plenty of offensive firepower to the Astrodome. There's running back Calvin Hill, the second leading NFC rusher with 734 yards, and NFL leading wide receiver Drew Pearson.

The closest breakaway threat Houston can counter with will be flashy rookie Billy Johnson, who has 885 yards on 40 kickoff and punt returns and 264 yards receiving.

Houston, which has won four straight, boosts one of the hottest quarterbacks in four-year vet Dan Pastorini and the most fired up defensive pass rush.

The past two weeks, the Oiler rush has hurried Ken Anderson, Joe Ferguson and Joe Namath, but they were all pocket passers.

HARVESTERS OF THE WEEK — Sam Anderson talks with defensive end Kelly Baker (center) and offensive tackle Craig Hill after the two were named Harvesters of the week for their exceptional performances against Amarillo High in Pampa's 6-0 win Nov. 15. Baker will be among the Harvesters returning next season.

(Photo by Jim Williams)

Spearman Destroys 'Cat Hopes

Donnie Davis and Kent Hargis combined for 251 yards and six touchdowns and carried the Spearman Lynx to a 50-19 rout over the Henrietta Bearcats in a AA bi-district clash Friday

night in Harvester Stadium. The win sends Spearman, 10-1, to the regional playoffs against either Olton or Lockney which played last night in a bi-district game in Plainview. Henrietta suffered its only loss of the season and is 9-1-1 for the year.

with 3:17 left in the third period. Davis, a shifty, quick halfback, did the honors with a four-yard run. The Bearcats came back after kickoff, marching 61 yards and scoring on a six-yard burst by Corley.

made by Hargis, came on runs of two yards. Both came in the fourth period. Tucker ran for the extras after the first touchdown.

HENRIETTA	SPEARMAN
22 First Downs	24
136 Rushing Yds	216

NT Quits

DENTON, Tex. (UPI) — North Texas State University, with Athletic Director Hayden Fry calling the shots, took the necessary steps Friday to withdraw from the Missouri Valley Conference.

MVC Commissioner Mickey Holmes said North Texas' exit, while disappointing, would not damage the conference. He said several schools were waiting to get into the league.

The North Texas board of regents voted unanimously to withdraw from the conference next August. The Eagles will participate in this season's basketball race and in next year's spring sports schedule.

Fry, hired two years ago by North Texas after he was fired by Southern Methodist University, has an ambitious program of elevating North Texas to a higher level of football competition and he has said he feels he can do that only if the school is an independent.

Bengals Fighting For Lives Today

United Press International
Two months ago, the Cincinnati Bengals were all but conceded a playoff slot. It was just a question of whether they'd go as champion or wild card team.

Now they're fighting for their lives.

The Bengals were upset by Houston for the second time this season last Sunday and fell 1 1/2 games behind Pittsburgh in the American Conference Central Division race with just four to go. Even worse, it dropped the Bengals to 6-4 and left them a game behind Buffalo for the wild card slot which goes to the best runner up.

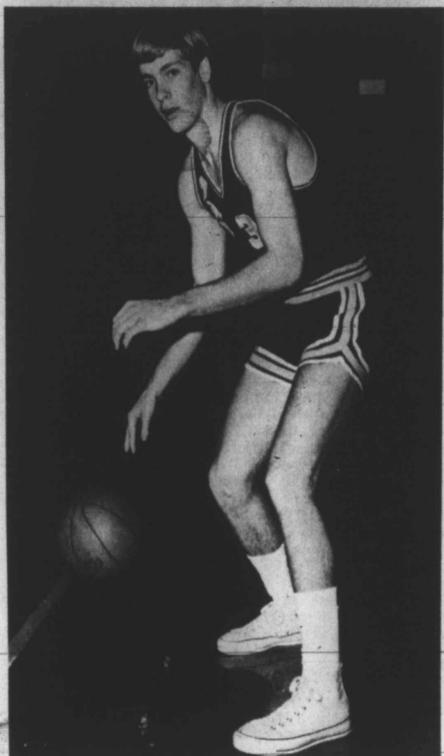

Cincinnati plays host to Kansas City today and must win or virtually forget about the playoffs for this year. The loss of star center Bob Johnson for the season

with a broken ankle won't help the Bengals, who earlier in the year lost running back Boobie Clark for the season with a broken arm.

The Bengals catch Kansas City after a 42-point outburst Monday night against Denver's supposedly strong defense in which they racked up 364 yards total offense.

"Things don't look bright for Paul Brown's Bengals. After Kansas City, they are at Super Bowl champion Miami, play host to Detroit and go to Pittsburgh, where they have never won.

"I've never seen a season where we have lost so many key performers," moaned Brown. "And this week we take on another tough, veteran team. They are big and physical and rugged in every respect."

MEET A HARVESTER — Six-two sophomore Brian Bailey will be one Harvester in action Tuesday night when Pampa travels to Perryton. Bailey was a standout for the Pampa Junior High Blue team last season and is expected to give Robert McPherson's Harvesters outstanding depth at guard.

Your Horoscope

By Jeane Dixon

SUNDAY, NOVEMBER 24
Your birthday today: Brings you to a new frontier of activity, in which fresh adventures turn up in everyday experience. These conditions continue as long as you make constructive adjustments and apply what you learn. Relationships are variable and have many poignant, memorable moments. Today's natives have good imaginations, persistently experiment in matters that concern them.

Aries [March 21-April 19]: Get to the point early; decide how to best use your time. Straighten out whatever snags develop. Fresh contacts are intriguing and promising.

Taurus [April 20-May 20]: Be alert and effective in fulfilling your share of Sunday's customs. There may be many things to do for friends, family or relatives. Begin promptly and in good spirits.

Gemini [May 21-June 20]: Make your rounds bright and early. Catch up on the news of your community. Meet and welcome newcomers. Romantic thoughts occur.

Cancer [June 21-July 22]: Demands on your time are numerous. Remind others that you can't be in more than one place at once. Set your schedule fairly early, then stick to it!

Leo [July 23-Aug. 22]: Expectations of your formal achievements prove higher than results. Technical and professional advice turns out to be more conservative than you expect, but is apt to be valid.

MONDAY, NOV. 25
Your birthday today: Comes in the midst of changing world conditions that place your efforts in a special setting. This year includes a wide range of opportunity from which you must make choices or confirmations day by day. Relationships drift, eventually turn positive. Today's natives strive for maximum efficiency, get personal satisfaction from what they do, even if it appears less than perfect.

Aries [March 21-April 19]: You're in top form to begin another week's round of work, despite a probable minor inconvenience due to incomplete arrangements at home. Patience, put in a long day.

Taurus [April 20-May 20]: Make a list of things that have to be done. Finish long-overdue jobs before taking on new ones. Seek outside help for the problems of those you love.

Gemini [May 21-June 20]: Decide early what you want to do. You will accomplish more using standard procedures. Financial changes aren't practical—get the entire story first.

Cancer [June 21-July 22]: A down-to-earth attitude promotes success today. Pause for extra meditation if you find yourself irritable or tense. Set the evening aside for new preparations, planning.

Leo [July 23-Aug. 22]: Easy does it! Let people have a fair chance to make their own corrections before you push them. Stay clear of any binding agreements or formal promises.

Virgo [Aug. 23-Sept. 22]: It's quite all right if you do very little, but the difference is in how you do it and where it's directed. Check for areas of neglect, then remedy the situation.

Libra [Sept. 23-Oct. 22]: Cheer up and make the best of it all! Disagreements needn't last—you can charm your associates into a pleasant mood. Share favorite pastimes with everyone.

Scorpio [Oct. 23-Nov. 21]: Express your self a bit more than usual, particularly where sentiment is involved. Lively social events are set into motion by almost any initiative from you.

Sagittarius [Nov. 22-Dec. 21]: Appeal to the intelligence of friends rather than to their sympathy. Be truly yourself, know what you want and seek direct approaches in getting it.

Capricorn [Dec. 22-Jan. 19]: It's more of a "stay home" Sunday. Invite old friends to your house or drop in on those less able to get out than you. Leave shoptalk out.

Aquarius [Jan. 20-Feb. 18]: Stick to familiar things and close to home base. Unexpected moments of strong feelings and opinions are indicated. Its easier to assume a general, impersonal attitude.

Pisces [Feb. 19-March 20]: Don't make promises or trust the offers of others where money is concerned. Practically any reasonable approach is lucrative on this busy, pleasant Sunday.

Virgo [Aug. 23-Sept. 22]: Money is tight all around. The rainbow has no more gold at its foot than usual—be skeptical! Lend others a hand where it's possible without impairing your own finances.

Libra [Sept. 23-Oct. 22]: Nobody seems to accept reality today—including yourself. Try to gain insight and find serenity. Go ahead with what is convenient on your own, but expect little or no cooperation.

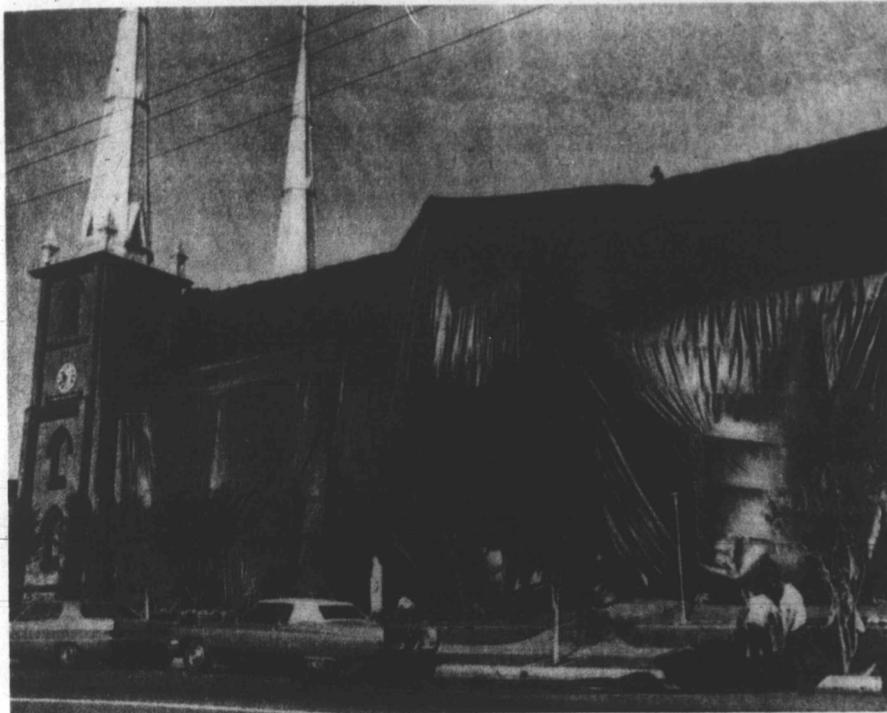

Scorpio [Oct. 23-Nov. 21]: Avoid forcing issues or entering a situation where others may do so. Give yourself extra time where possible. That extra break gives you a moment of vision.

Sagittarius [Nov. 22-Dec. 21]: Plodding is normal for today; proceed without complaint. Conservative methods still work, but speculative moves are less successful than usual.

Capricorn [Dec. 22-Jan. 19]: Mark time while you dig out full information on pending negotiations, rather than hastily involving yourself in new schemes.

Aquarius [Jan. 20-Feb. 18]: Think about what you're doing; take one detail at a time. There's no better patience than yours, and you'll need all of it to wade through today's complexities.

Pisces [Feb. 19-March 20]: Previous actions yield long-term results this week, some of which are less than glowing today. Learn what you can, resolve to improve.

TERMITE BATTLE—A huge tarp is pulled into place over St. John's Cathedral in Fresno, Calif., in preparation for ridding the city's oldest active church of termites. The battle was expected to take at least a week and services will be conducted in a parish hall across the street until the job is completed. The exterminating company used a helicopter to help wrap the tarp over the church. (UPI Photo)

DRIVE TO SAVE FUEL
 "With gasoline costs at record levels, fuel economy has become a necessity for American motorists," says Stirling Moss, the world's foremost race driver. "But we can all cut back on the amount of fuel we use by knowing a few basic driving and maintenance tips."

Cut down unnecessary mileage. Have a gasoline budget and a shopping list so you avoid unnecessary trips.

Watch your step on the gas pedal. Keep a steady pedal pressure with speed increasing or decreasing with the terrain.

Maintenance helps. Clean out filters every 15,000 miles. Replace spark plugs every 12,000 miles. This can add as much as one mile for every gallon of gas.

Check your tires. Tires should always be inflated to manufacturer's recommendations. Underinflated tires can seriously reduce fuel mileage on any car.

You can also make a significant contribution to energy conservation by recycling your tires with 2/32 of an inch of tread left. Last year enough casings were discarded to encircle the earth four times at the equator. And each took about seven gallons of crude oil to produce.

Recent statistics show that it takes four and a half gallons less to retread a tire than to manufacture a new one. By these figures, retread shops conserved millions of gallons of crude oil last year. This is a great way for motorists to make a direct contribution to fuel conservation while getting their bald tires off the road.

U.S. averages 300 fires an hour
 Within a single typical hour an average 300 fires will occur somewhere in the United States, according to the National Commission on Fire Prevention and Control.

These blazes will kill an average of one person, injure an additional 34 and destroy more than \$30,000 worth of property. — CNS

Youth Center

SWIM LESSONS — Mothers, the Youth Center teaches swim lessons to children and also adults the year round. At present during the school year the swim lessons are given from 4-5 and 5-6 p.m.

Classes meet on Monday, Wednesday, Thursday and Fridays for 10 meeting dates. This gives each child 10 hours of instruction. Periodically during the year we teach all of the classes offered by the American Red Cross.

These are beginners, advanced beginners, intermediates, swimmers, and Jr. and Sr. Lifesaving.

All classes are taught by our very qualified water safety instructor, Ruth Carter. Lessons are free to Youth Center members and \$5 to non-members. Memberships are always available for purchase.

Nov. 11-27
 4:00 Beginners
 5:00 Adv. Beg.
Dec. 2-18
 4:00 Beginners
 5:00 Inter.

VOLLEYBALL FINALS — The fall volleyball season ended last week with champions being crowned in each division.

In the women's division Harold Barrett Ford 9-0 was first with Shoe Nail Supply 8-1 second. In the mixed Carlson - Craddock took first with a 9-0 record followed by Charlie's Furniture Co. 7-2. In the men's league First Baptist Church 8-1 was first with First National Bank second at 7-2.

BASKETBALL LEAGUE STARTS — The 1974-75 men's basketball league will begin competition on Monday, Dec. 2. Games will be played on Monday, Wednesday and Thursday nights. Teams entered are First National Bank, First Baptist Church, First Baptist Church Youth, Pampa Warehouse and Transfer, Malcolm - Hinkle - Jim McBroom, Rotary Club, Pampa Independents, Pampa Blue, Mayo's Champlin, Pampa News and Celanese.

Each team will play each other in a round robin bracket with winners and runners-up receiving trophies according to their final record. Eight of these teams are currently playing in the Youth Center pre-season tournament which will end on Nov. 27.

YOUTH CENTER MEMBERSHIPS — Participation in the Youth Center's programs are through a membership plan. Selection is made from two distinct types of memberships. These are limited and unlimited memberships and run for a year or six months according to the purchase.

The limited membership entitles the holder to use the gym, recreation hall, swimming pool and dressing room facilities. Such games as basketball, volleyball, trampolining, tumbling, wrestling, pool, ping pong, foosball, pinball, chess, and checkers are some of the activities that you can participate in on this membership.

The cost of the limited membership is \$8 for six months and \$10 a year for an individual. This may be paid out at \$18.50 the first month and \$10.50 each of the other five months.

For a husband-wife combination membership the cost is \$95 for six months or \$175 a year. This may be paid out at \$29.87 the first month and \$13.87 each of the other five months. Other combinations are also available with each six month play being financially.

WOMEN'S EXERCISE CLASS — The Center sponsors a women's exercise and swim class in the gym on Monday and Friday mornings. At 9:30 a.m. the women meet in the gym and exercise to synchronized recordings. Then at 10:10 the women have an informal swim time until 11:30 a.m.

To participate you need be or be willing to become a Youth Center member. A baby sitter is also available at a nominal charge.

Pathology Chief Will Address Heart Assoc.

Dr. Victor Trammell, Chief of Pathology and Director of Laboratories at both Highland General Hospital and Worley Hospital in Pampa, will speak to the Gray County Division of the American Heart Association, Tuesday, Nov. 26, at 6:45 a.m. in the Conference Room of Highland General Hospital.

The subject of Dr. Trammell's talk is "Pathological Conditions Affecting the Heart."

Although the Heart Association's monthly meetings are primarily for the board members and members of the Heart Association, the public is invited to attend this meeting.

Personnel who have recently completed the twelve hour instructors' course in Cardio-Pulmonary Resuscitation, taught by Dr. C. Forrest Sparger will receive their Instructors Cards at this meeting.

DPS Reports Rural Mishaps

The Texas Highway Patrol investigated 12 accidents on rural highways in Gray County during the month of October, 1974, according to Sergeant D.E. Womack, Highway Patrol supervisor of this area.

These crashes resulted in no persons killed and five persons injured. The rural traffic accident summary for this county during the first ten months of 1974 shows a total of 137 accidents resulting in 167 persons killed and 72 persons injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for October, 1974, shows a total of 502 accidents resulting in 19 persons killed and 216 persons injured as compared to October, 1973, with 664 accidents resulting in 31 persons killed and 377 persons injured. This was 162 less accidents, 12 less killed, and 162 less injured in 1974 at the same period of time.

The 19 traffic deaths for the month of October, 1974, occurred in the following counties: three in Hale; two each in Haskell, Lubbock, Palo Pinto, Wise; and one each in Clay, Briscoe, Hall, Ochiltree, Oldham, Roberts, Swisher, and Wheeler.

Wives need life insurance, too

Two-thirds of the public believe it "makes sense" to insure the life of the wife even if the husband is the breadwinner, according to the Institute of Life Insurance.

Women should be insured, they say, including working wives and housewives whose spouses couldn't afford housekeeper, cook and child care in case of the wife's death. — CNS

Ohio scientist wins award

Dr. James D. Idol Jr. is 1975 winner of the American Chemical Society's Award for Creative Invention.

Dr. Idol, research manager for Standard Oil of Ohio, invented a single-step process to make a special chemical used worldwide to make acrylic fibers, oil-resistant rubber and assorted plastics. — CNS

Elderly people accident prone

The older you get the more likely you are to have a fatal accident.

Government figures cite that persons 65 years or older account for one in four accidental deaths in the United States, with some 28,000 people in this age group killed by accidents each year. — CNS

Card of Thanks

MARTHA LINDA WALKER
 Many thanks to the friends of Martha L. Walker who were so thoughtful during her illness and death. Thank you everyone for the many flowers and food to Rev. Courtney and Rev. Palermo, the pallbearers, the beautiful songs and accompanist. May God go with you each and everyone. The Walker Family and Densmore Family

CECIL WESLEY WALKER

We wish to express our sincere appreciation and deep gratitude to our many friends, especially Rev. Mitchell Phillips, for their words of comfort and deeds of kindness at the loss of our darling husband, father, son and brother. May God's richest blessing rest upon you.

Mrs. Cecil Walker, Daniel and Jennifer Mr. and Mrs. Paul Walker Charles Walker

Television In Review

NEW YORK (UPI) — Are lesbians and homosexuals chic this year on TV?

One of the fashionable themes for TV has been rape. This year and last, we saw women abused on camera while others were assaulted off stage. Rape chic was an attention getter.

Now, we have gay chic.

Earlier this year, ABC offered a glimpse of male child abuse in an episode of "Marcus Welby," entitled "The Outrage." Although ABC and the show's packager, Universal, said the episode was about a molester and not about homosexuals, gay groups mounted a vociferous campaign against the program.

Whether or not this show was an honest portrayal of child abuse or homosexuality is now academic. But what was important was that pressure groups tried to ax the show before its broadcast. After the showing, they tried to obtain guarantees about the future of gay life on ABC.

Now, NBC is embroiled in a dispute with lesbians. On Nov. 8, NBC aired a segment of "Police Woman," entitled "Flowers of Evil." It depicted some lesbians as criminals. Although the show had been scheduled for telecast Oct. 25, it was pulled back and re-edited because of the lesbian theme.

Following the telecast, gay groups met with NBC officials to iron out the future of homosexuality and lesbianism on the network. Ultimately, they want pro-gay themes aired and offensive ones dropped.

Thus, we have the problem of pressure groups

wanting to silence broadcasters.

If the networks cave in to these protests, TV could take a step backward. There would never be any gussy documentaries or dramas, just mush. The TV industry, which has ducked issues before, would have the backbone of a wet noodle.

But the arguments of minority groups have validity. Should they be exploited for ratings, should they be treated cavalierly because they are generally voiceless, should stereotypes be allowed to persist on the most powerful medium that has ever existed in the history of man?

In the opinion of this reporter, television, like newspapers, should be free to air what ever it wants. That is the best safeguard for a democracy.

One only has to look at public broadcasting to see the effects of political pressure. Certainly one solution to the problem is self-policing by the networks. The German philosopher Emmanuel Kant said the most free people are also the most responsible.

This reporter is not too much of a Pollyanna to believe the TV industry has lived up to its responsibility. But unless the level of responsibility increases, the squeeze from pressure groups will get tighter and tighter.

ATHLETICS TRANSFER

On Nov. 8, 1974, transfer of the Philadelphia Athletics baseball team to Kansas City, Mo., was approved 6 to 2 by American League owners.

TO YOUR GOOD HEALTH

Chewing Gum Doesn't Fool Secretion Of Saliva

By G.C. THOSTESON, M.D.
Dear Dr. Thosteson: When a person chews food, don't the cheek glands secrete a fluid to help break down the food? If one constantly chews gum, doesn't this "fool" the glands?

On an empty stomach couldn't this gland fluid cause a stomach ache? This is my own theory. — D.J.D.
An ingenious theory — but wrong.

The parotid glands in the cheek produce ptyalin, an enzyme that starts digestion of starch, converting it into dextrose and maltose.

Chewing gum promotes secretion of saliva but it hardly fools the glands. If you want to try an experiment, put a small morsel of bread in your mouth. It will gradually disintegrate and finally disappear even without any chewing, although of course the bread will break up more rapidly if you chew it.

Chewing gum wouldn't produce a stomach ache. If it did — there'd be a lot of stomach aches.

Dear Dr. Thosteson: I am a girl, 14, and weigh 125 pounds, every bit of it fat. Recently I took up jogging. A friend told me jogging would do nothing to reduce weight. It would turn fat into muscle and then I would never get any weight off.

I quit jogging because I don't want to be a muscle-bound fatso, but I hated to quit because while I was jogging I felt like the healthiest kid in the world.

Please don't tell me to diet. I eat like a horse and dieting is a physical impossibility. — M.L.M.

Don't let your nutty friend

mislead you. Jogging — or any exercise — will burn up some calories, and the reason you are fat, of course, is that you consume too many calories. For another thing, fat does not "turn into muscle."

But don't mislead yourself, either. You are fat and it means you are eating more food than you need.

It's not true that dieting is a "physical impossibility."

Your answer, or at least part of it, may be learning which high-calorie foods to avoid and which low-calorie foods you can eat instead. For that purpose, you'll get some help from my booklet, "Lost Secrets of Reducing." If you want to try, send 35 cents and a long, stamped self-addressed envelope to me in care of Dr. George C. Thosteson, Box 1400, Elgin, Illinois 60120.

Dear Dr. Thosteson: I'll be finished with high school

in three more years. I plan to go to college and would like to be an anesthesiologist. Nearly all physician-anesthesiologists are men.

I'd like to know if women can be just as good as men. The only woman I have seen do this is a licensed nurse. How long does it take in college and medical schooling? — N.M.

There may not be many women who are physician-

FISHER AWARD

NEW YORK (UPI) — Lincoln Center is seeking the first Avery Fisher Artist Award recipient, probably to be designated in 1975. Nominations will be made by a recommendation board. Nominees must be U.S. citizens who, as instrumentalists, had demonstrated outstanding professional ability and are deserving of wide public attention.

EON E-11

THE ONLY MOTOR OIL THAT GIVES PERFORMANCE UNDER ADVERSE CONDITIONS

AVAILABLE AT:
HARALSON OIL CO.
516 S. GRAY
665-1606

anesthesiologists but there are some. I know at least one woman who is head of the anesthesiology department in a big hospital, and she is so good that other doctors (mostly men) want to take specialty training under her guidance.

It takes a long time to become any type of doctor — usually four years of college, four more in medical school, and then a year as an intern. After which another year or more as a resident before taking

an examination for special rating.

Some schools are struggling to reduce the time by a year or so, but the plain fact is that medicine isn't an easy profession to learn. And even when you've been through the mill, you never know it all. It's worth the effort, though, if you want to be a doctor.

Note to O.L.B.: No amyotrophic lateral sclerosis is not a contagious disease.

Unless properly treated, both glaucoma and

cataracts can lead to blindness. If you are afflicted with either of these ailments, or know someone who is, write to Dr. Thosteson in care of Dr. George C. Thosteson, Box 1400, Elgin, Illinois 60120 for his booklet, "Cataracts and Glaucoma." Enclose a long, self-addressed, stamped envelope, and 25 cents.

THE ELECTRIC HEAT PUMP

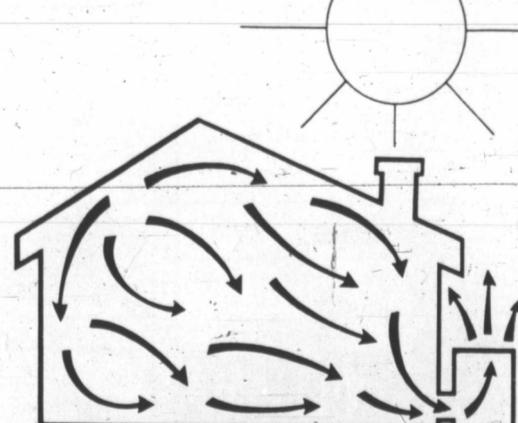

It's Reversible...

Just one unit for heating and cooling your home? Sure! The electric heat pump does both and it's more than 100% efficient at the point of use. The heat pump uses the warmth that is always present in the outside temperatures and electricity to provide an atmosphere inside your home that's comfortable and clean.

in the winter...

the heat pump squeezes ever-present warmth from the outside air and converts it to cozy heat in your home...

in the summer...

the heat pump removes heat from your home... turns it into cool, clean air and recirculates it, dehumidifying all at the same time. For full details on the heat pump... and a free personalized heating survey for your own home, call us this week!

Golden Anniversary

Hospitality Room of Citizen's Bank Building will be the scene Friday, Nov. 29 at 7:30 p.m. for a 50th wedding anniversary celebration, honoring Mr. and Mrs. George Kilcrease, 1135 S. Nelson. Hosts for the reception are children of the honored couple, Mr. and Mrs. J.M. Harmon and Mr. and Mrs. George Kilcrease, Jr., of Pampa, and Mr. and Mrs. S.J. Meyer, Findlay, Ohio and Mr. and Mrs. Kenneth York, Duncan, Ariz. Other hosts for the occasion will include 16 grandchildren as well as 13 great-grandchildren. Married Dec. 13, 1924 in Seymour, Tex., the couple have resided in Pampa since 1931, when they moved from Alanreed. Mrs. Kilcrease is the former Hazel White. Friends are invited to the event.

Winter Fashions Highlight Event

The Petroleum Engineers Wives Society met recently at the Coronado Inn Crown and Shield Room for their monthly luncheon. Pampa models showed winter fashions for '74 and '75. Mrs. Jimmie Jordan narrated the showing of the latest styles by models. Mmes. Bill Rice, Ali Zargar, Erving Chase, J.C. Smith, John King, and Miss Monte Kimbell.

Mrs. Jordan pointed out that fashions for fall and winter are soft, fluid, and figure flattering. Along with their feminine qualities, they feature the practicality needed for modern women. Co-ordinates and switchable separates are bigger than ever this year, along with fuller skirts and drapery dresses, with cardigans rating the top of the fashion list. There are also sweater suits, coats and jackets, and sweaters with fur trim.

A variety of fashions were shown including the holiday line, two and three piece pajama suits, evening wear, lounge wear, dresses, skirts, sweaters, coats, pant suits, jewelry and handbags. Fashions of yesteryear were shown with Mrs. G.B. Hogan as commentator. Modeling

styles from 1920 to 1960 were Mmes. Erving Chase, Larry Jones, John King, J.C. Smith, and Bill Rice. These styles were provided by Mrs. Leslie Rush and Mrs. Helene Hogan; as were the hats from by-gone years which decorated the room.

Preceding the program, Mrs. Ray Streeter, president conducted the short business session. New yearbooks were distributed to members and Mrs. Don Kimbell was elected vice-president due to the resignation of Mrs. Streeter who is moving out of the city. Her office will be filled by Mrs. N. W. Little of Borger. Mrs. Reimond Linville was appointed card chairman for the Pampa group.

Hostesses for the occasion were Mmes. G.B. Hogan, Ervin Chase, W.T. Lytton and J.C. Smith. Thirty-three members and guests attended the event. Eight door prizes were presented by the hostesses. The December meeting will be held in Borger.

QUEEN DIES
Isabella I, queen of Castille, died at age 53 on Nov. 24, 1504.

PHI EPSILON BETA
Phi Epsilon Beta Chapter of Beta Sigma Phi held a bake sale recently in the Combs - Worley Building. Proceeds from the event will finance various chapter projects.

All members contributed bake goods for the sale, and members helping at the bake sale were Sandy Altman, Nelda Savage, Debbie Stubblefield, Jamilou Garren, Susan Richardson, Karen Skaggs, and Susan Buchanan.

The group held annual Preferential Tea on Sunday, Nov. 10, in the home of Kay Newman. Thanksgiving decorations were carried out in a Thanksgiving theme, and pledges present and accepting the bid to membership were Brenda Little, Starla Tracey, Kathy Topper, and Darla Pulse. Not present, but accepting the bid to membership is Debbie Michi.

Members present to welcome new pledges were Lynda Newman, Karen Skaggs, Susan Buchanan, Joyce Pulse, Susan Richardson, Jamilou Garren, Debbie Stokes, Sandy Altman, and Kay Newman.

Rho Eta Hosts Party

On Nov. 18, a farewell party in the home of Joyce Barrett was given in honor of Betty Fuller, who has resigned from Rho Eta Chapter of Beta Sigma Phi. Mrs. Fuller's family is moving to Tyler.

As a tradition of Rho Eta, members brought coffee mugs as going away gifts.

Members present were Linda Aftergut, Joyce Barrett, Jenny Dorman, Cathy Green, Diane Grooters, Vicki Hayes, Ramona Houseman, Sharron Hurst, Jan Morris, Martha Porter, Pat Rich, Pat Wilkleblack, Nita Hill, Lisa Maddux, Marilyn Mitchell, Connie Holland, Debbie Callison, Clara Mae Sailor, Carolyn Maxey, Lucy York, Hedy Clark, and Nancy Sowers.

United Press International

Remind the hunters in your family that game birds should be drawn, cleaned and cooled as soon as possible. Ideally, they should be drawn in the field. This helps retard spoilage, partly by cooling the carcass quickly.

Once feathered game has been drawn and cleaned, it should be washed in cool water and chilled overnight in ice water.

Party planners take note: liquor bottled in fifths will make 17 highballs per bottle or 21 per quart, allowing a jigger—one and a half ounces—per drink.

BANQUET SPEAKER — Judge Mary Lou Robinson, Amarillo Court of Civil Appeals, 7th District, is scheduled guest speaker for the Tuesday, Nov. 26 Civic Participation Banquet at First United Church Methodist Church, Pampa Business and Professional Women's Club will sponsor the event beginning at 7 p.m.

'America, Our Land' Is Lefors Civic Club Topic

Recently a Newcomers Welcoming Tea was hosted by Lefors Art and Civic Club at the Civic Center. The program was entitled "America, Our Land." A fashion show was given by club members modeling fashions they made to portray our American Heritage. Fashions were the Indian, pilgrim, pioneer woman, the 1900's and America's Gibson girl, then came women's rights, followed by the roaring 20's, then the depression of the 1930's. In the 1940's nylons were considered a luxury item. and the 1950's remembered Elvis. The 1960's brought the assassination of JFK, then our present day, 1970's and the pant suit. The business meeting was called to order by Mrs. Joe Watson and roll call was answered by 21 members and five guests. Door prize was won by Mrs. Bass.

Library Notes

By MARY FATHEREE

For anyone who might like to ride the receding wave of the great F. Scott Fitzgerald revival, there is a fine representation of that author's works on the shelves of Lovett Library. His major novels "The Beautiful and Damned," "The Great Gatsby," "Tender is the Night" and "The Last Tycoon" are all there, as are many of his best "short stories," represented in numerous anthologies.

The latest biography of the Fitzgeralds, "Exiles from Paradise," by Sara Mayfield, is also available. Since Miss Mayfield was a childhood friend and admirer of Scott's wife, this book could come under the heading of "Zelda apologetics."

Although it sheds little new light on the character of that complex woman, this biography is still well-researched, concise and written with warmth and wit.

Miss Mayfield's portrait of Fitzgerald the man is less sympathetic than that of his other biographers, but her appreciation of Fitzgerald the writer is evident throughout the book.

A renewed interest in the works of C.S. Lewis seems to be spreading from England to the United States, and the library has a nice collection of the late Cambridge don's books.

His well-known "The Screwtape Letters" and "Mere Christianity" are available, along with "The Four Loves" and "Till We Have Faces." Those of you who are interested in Medieval and Renaissance literature can find a

sampling of Lewis' works in that area, too.

Our non-fiction feature book for this month is reviewed by Mrs. James T. Brown: "The Philippines" by Keith Lightfoot. Nations of the Modern World Series, Praeger Publishers.

In September of 1972 Ferdinand Marcos, President of the Republic of the Philippines, placed that nation under "martial law." Since that time little has been written outside the Philippines about the current situation there in terms of a full-length book. Now Keith Lightfoot has written such a book, and it is available at Lovett Library.

Colonel Lightfoot takes an historical approach to his study of the Philippines, tracing its development through Spanish colonization and Christianization of its hybridized Malaysian peoples; then American tutelage, involvement in World War II, independence in 1946, and finally to the martial law.

The author analyzes the Philippines in terms of East-West dualism, pointing out its seemingly innate longing for freedom; its universal knowledge of English; the maturity and sophistication of its political institutions and its long-standing loyalty to the United States.

He also points out its stultifying lack of a middle class; nepotism and petty corruption in administration; an hysterical and sensationalist press and the dangers of its continuing population explosion.

Lightfoot, too, speculates on the future of "America's

show window of democracy in Asia," as he describes the Philippines in the world today.

The fact that Marcos availed himself of that provision and set himself up a virtual dictator only two years before the relinquishing of all power by Presidnet of the United States, Richard Nixon, makes this a propitious time for Lightfoot's book. — Betty Brown

HIGHLAND CLUB
Highland Hobby Club met recently in the home of Mrs. A.W. Calvert.

Games were played and Mrs. Alvie French won the door prize.

The club made plans to provide Thanksgiving and Christmas baskets. Pumpkin pie and punch were served to Mmes. French, R.D. Holmes, Carl Cantrell, Thomas Fisher, H.T. Nail and Lee Mills. The next meeting will be with Mrs. Wills.

Pampa, Texas 68th Year Sunday, Nov. 24, 1974 15

ENTERTAINER — Heidi Allen, 12, will highlight the Business and Professional Women's banquet scheduled for Tuesday, Nov. 27 at 7 p.m. in First United Methodist Church. Singing since age four, Miss Allen, the daughter of the Rev. and Mrs. Gene Allen, is a sixth grade student at Travis elementary school. She recently performed for the "Up With People" group at the Heritage Room for their welcoming dinner and has entertained local and area civic clubs. (Photo by Jim Williams)

Sharp-Wisenbaker

The engagement of Nancy S. Sharp and John Vernon Wisenbaker, III, is being made by her parents, Mr. and Mrs. Jack Sharp, 1605 Fir. Parents of the prospective bridegroom are Mr. and Mrs. John Vernon Wisenbaker, Jr., Amarillo. January nuptial vows in St. Vincent's de Paul Catholic Church will be solemnized. The bride-elect, a 1972 Pampa High School graduate, attended West Texas State University in Canyon. Her fiance, a 1972 graduate of Tascosa High School, attended Pace University, New York.

Club News

ESSA SORORITY
The Epsilon Sigma Alpha sorority of Pampa met at the City Club room recently and announced their annual Christmas project will be to make gowns for Girlstown.

Members will also bring canned good for a Christmas basket and the club will furnish the meat. Members will donate \$50 for clothing items for a girl at Genesis House.

A program, written in the form of a skit, was presented by Naida Yoast and members.

Attending were Mmes. Roy G. Floyd, Ken Shearer, Margie Prestige, Milton Jones, J. M. Mitchell, Mark Russell, Joe Miller, Leon Taylor, Gund Vauzhn, Irvin Hungerford, Bob Yoast, Darrell Lain, Norman Sublett, W. R. Warnock, John R. McBride, Maxine Dunham, and K. R. Dod.

HOMEMAKERS NEWS

By MRS. ELAINE HOUSTON
County Extension Agent

The Gray County Home Demonstration Council will meet Monday morning at 9:30 a.m. in the Courthouse Annex meeting room for their regular business meeting.

CAULIFLOWER PLentiful, PRICE GOOD
Now is a good time to include cauliflower in your menus - supplies are plentiful and the price attractive. Fine quality cauliflower has an almost creamy, white curd that is clean, heavy, firm and compact. The outer leaves should look fresh and green.

The size of the head doesn't indicate maturity. Large or small heads may be equally mature, so you can let your serving requirements determine which you choose. A head weighing two and a half pounds will generally serve five-six people.

Storage should be in a cool, moist place. This vegetable is quick and easy to prepare. Mildred Prince with Southwestern Public Service showed the Home Demonstration Clubs a delicious way to prepare cauliflower.

Cook a head of cauliflower until tender. Top with a sauce made of one can tomato soup, 2 cups cheddar cheese, 1/4 cup chopped green onion tops. Heat the sauce until the cheese is melted. Then pour over the cauliflower.

The "You Can Do It!" series began yesterday on KAMR-TV. The series is a fun-to-follow series on money-saving home care and maintenance techniques. The six part series will be shown each Saturday. Watch your TV listings or contact our office for the schedule. We do have some very good booklets for those who do watch the series.

Richard Hill served his brother as best man and Kurt Fisher seated wedding guests.

MOTHERS
The bride's mother was attired in a two-piece pink pleated dress and wore a beige and pink carnation corsage.

Steve Eastham was ringbearer and flower girl was Amy Bichsel. Penny and Jody Hooper, twin cousins of the bride, lighted candles.

RECEPTION
The bridegroom's mother was attired in a two-piece blue and white dress and wore a white carnation corsage.

ATTENDANTS
Shelia Montgomery, was matron of honor and bridesmaid was Nicki Fletcher, both of Pampa. They wore identical floor length empire gowns of blue and white dotted Swiss and carried nosegays of blue and white carnations and baby's breath.

THE BRIDE
The bride, given in marriage by her father with the "her mother and I" avowal, wore a formal empire gown with flowing chapel train. The long sleeves and bodice of the gown was overlaid with Chantilly lace and accented with satin covered buttons. She wore a blue garter and heirloom necklace, a black and white cameo, belonging to her mother.

Miss Warren Becomes
Bride Of Aaron Hill

Miss Debra Ann Warren became the bride of Pvt. Aaron Clark Hill, at 5 p.m. Tuesday, Nov. 5 in Central Church of Christ, Pampa.

The bride is the daughter of Mr. and Mrs. B.W. Warren, 1921 N. Sumner, and Mrs. Betty Jo Hill, 636 N. Dwight, is the bridegroom's mother.

THE CEREMONY
Officiating for the double-ring ceremony was Robert L. McDonald, minister.

A group of eight church members sang "Whither Thou Goest," and "O Perfect Love."

A 21-branched candelabrum entwined with ivy, flanked by two large urns of white pom poms mums, large mums, and gladioli accented with blue ribbon bows, completed the church decorations.

THE BRIDE

The bride, given in marriage by her father with the "her mother and I" avowal, wore a formal empire gown with flowing chapel train. The long sleeves and bodice of the gown was overlaid with Chantilly lace and accented with satin covered buttons. She wore a blue garter and heirloom necklace, a black and white cameo, belonging to her mother.

Her waist length veil of bridal illusion, fell from a coil of lace and seed pearls, and she carried a colonial nosegay of blue and white carnations and baby's breath with blue and white ribbon streamers.

ATTENDANTS

Shelia Montgomery, was matron of honor and bridesmaid was Nicki Fletcher, both of Pampa. They wore identical floor length empire gowns of blue and white dotted Swiss and carried nosegays of blue and white carnations and baby's breath.

Steve Eastham was ringbearer and flower girl was Amy Bichsel. Penny and Jody Hooper, twin cousins of the bride, lighted candles.

RECEPTION

The bridegroom's mother was attired in a two-piece blue and white dress and wore a white carnation corsage.

Mr. and Mrs. C.F. Hooper, 709 E. Francis, hosted the wedding reception for their niece.

The serving table was covered with a lace cloth over blue and was decorated with the three-tiered wedding cake and a blue and white carnations and baby's breath centerpiece. The traditional cake was topped with a miniature bride and groom.

Kelly Hill served cake and Marilyn Ballard assisted at the punch bowl. Guests were registered by DeAnn Davis at the church and by Sherry Warren, sister of the bride, at the reception.

For the short wedding trip to Amarillo, the bride wore a long two-piece blue and white poka dotted dress and her flowers where white carnations.

The couple will make their home at Fort Bragg, N.C. where the bridegroom is stationed with the U.S. Army.

AFFILIATIONS
The bride is a junior at Pampa High School and was employed at Duckwall's Store. The bridegroom attended PHS and is a Pvt. First Class, paratrooper division.

PRE-NUPTIAL EVENTS
A wedding shower at Citizens Bank Hospitality Room was recently hosted by Mmes. Vergie Ballard, Lois Thrasher, Vest Lee Hicks, Norma Morrison, Jo McDonald, Juanita McCarthy, Eva Hawley and Oleta Farber.

OUT-OF-TOWN GUESTS
Guests from out-of-town were grandparents of the bride, Mr. and Mrs. Drew Warren, Hollis, Okla.

Where Does All
The Money Go?

COLLEGE STATION — How often have you wished you had a record of where all your money goes? You don't have to keep track of every penny spent, but to get the most for your money, it's wise to have a plan, one expert advised this week.

She's Mrs. Lillian Chenoweth, family resource management specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

"The first step in making a spending plan is to figure exactly how much income you have — from job, pension, investments, or other sources. Be sure to consider your take-home pay after deductions, not your total salary," she advised.

Start listing your regular expenses such as mortgage or rent, regular medical expenses, insurance and installment payments.

Then figure how much you usually spend for groceries, including cleaning products and other non-food items.

The food budget for a family of four usually averages 20-25 percent of the total budget. But what your family spends may be quite different, so don't

accept that figure as a rigid rule," she suggested.

Decide how much you usually spend for clothing during the year. Averages are usually about 15 percent of a family's budget for this.

Add gasoline bills, car repair bills and related expenses such as insurance or license fees.

"This will give you an idea of how much to allot for transportation."

Allow some money for recreation, including magazine or newspaper subscriptions, club dues, movies or entertaining.

"Some expenses on your spending plan, can be estimated from last year's figures. These would be taxes (income, property and local) and household maintenance (repairs and upkeep)," she noted.

The specialist pointed out that one of the most important parts of a plan is to allow some money to meet emergencies.

"Have some amount that you save regularly. Treat this savings as a regular bill and always pay yourself," she said.

"After getting all your figures together, add the expense and subtract that total from your income — making sure everything was considered on an annual basis.

The Lighter Side

By DICK WEST
WASHINGTON (UPI) — One of the most interesting phenomena in all of nature is the biennial migration of congressional lame ducks. Nobody seems to know exactly what triggers it. But it always follows the same pattern. In the early part of November in even-numbered years, immediately following a congressional election, lame ducks begin flying off in all directions. These curious, far-flung peregrinations then continue sporadically until some time in January when the new Congress convenes. Only two days after this year's election, for

example, two lame ducks were spotted winging their way to Africa to study drought conditions. Meanwhile, several others were flocking to London for a NATO parliamentarians meeting. These were but the harbingers of the hejira that in the next six weeks will see lame ducks heing to all corners of the earth, and points in between. By early December, the sky will be black with them. Their jaunts have even inspired a song, "My Heart Knows Where the Lame Duck Goes." The thing that puzzles naturalists about the migration is its apparent futility. In his book "Lame Ducks East, Lame Ducks West, Lame Ducks Over the Cuckoo's Nest," the famous naturalist Audie Bonjunkt writes:

"Insofar as our observations have established, lame duck migrations are not made for the purpose of mating, nesting or finding new feeding grounds. 'Any or all of these things may occur, but that is not what prompts the lame duck to venture forth. It appears, rather, that they have some sort of instinctive urge to make one last trip at public expense.'"

Some naturalist classify lame ducks as ostensible factfinders, but Bonjunkt disputes that grouping. "While lame ducks usually are sighted in formations with ostensible factfinders, they are not of the same genre," he writes. "The ostensible factfinder purportedly has some legislative objective to justify treks to Paris and other remote areas in quest of enlightenment. The lame duck, on the other hand, has no opportunity to use any data he might collect."

Seeing them flapping off to faraway places with strange sounding names, we realize we need to know more about the care and feeding of these curious footloose creatures. Although plentiful this season, it wouldn't take much for lame ducks to wind up on the list of endangered species.

SUFFRAGE MEETING
On Nov. 24, 1869, women from 21 states met in Cleveland to organize the American Women Suffrage Association.

Last Week On Wall Street

By BOB HILL
Lentz, Newton & Co., Amarillo

Well, it has finally arrived. That point in our society for which the bankers have yearned for many years is now at hand. Starting this month the government begins a pilot project of handling Social Security retirement checks in Georgia to 700,000 old-age pensioners, by asking them to permit the government to send their checks directly to their banks instead of mailing them to the recipient. More than 1,500 of the Georgia pensioners have said "yes" to the direct deposit program.

The Treasury Dept. mails out millions of checks regularly and is almost choking on the huge volume of paperwork. Making payments through the banking system eliminates a tremendous work load, both for the Treasury Dept. and the U.S. Postal System.

By 1979 the Treasury plans to have over 16 million regular federal payments transferred directly to the recipient's bank account. To do this, the deposit instructions would not be sent by mail, but by computerized tape over the direct wires of the Federal Reserve which cover all parts of the country.

Banks are so enthusiastic over the potential that the Treasury has had to warn certain ones not to jump the gun and talk old-age pensioners into the new procedure before the Treasury forms and promotional materials are ready.

The Air Force is asking its personnel to agree to direct deposits of payroll checks under a separate program while the state of Pennsylvania is getting a similar program under way by having banks disburse state welfare checks instead of the state mailing them out as in the past.

One Amarillo business has been depositing payroll checks for employees in a local bank, handing the employee a deposit slip instead of a check.

Acceptance of the direct deposit program will be slow at first. There's just something nice about being able to hold that check in your hand before cashing it or depositing it.

FOR SUMMER PERIOD Local Area Families Sought To House European Guests

Pampa area families are needed to entertain English-speaking European teachers as guests in their homes for a 10-day period next summer. It was announced today by the American Host Program.

According to J. Stuart Perkins, board member of the Host Program, American Host is one of the few non-governmental programs designed to show the American way-of-life to foreign teachers by pairing them with American families.

Now in its 13th year, American Host has opened doors to better understanding for more than 5,500 European teachers who have passed on their new understanding

of America to their students, colleagues and friends. Perkins said being a "Host Family" is open to anyone who has the desire to increase understanding and friendship between Americans and Europeans. Host Families are required to provide a private room, meals for their guest, the opportunity to meet their friends, neighbors and perhaps fellow teachers and to see places of interest in the area.

American Host arranges all transportation. Host Families are asked to meet their guest upon arrival in their area. Teachers and Host Families have an opportunity to correspond for at least a month before meetings.

Arrangements for participating as a Host Family can be made by writing to: The American Host Program, Hotel Commodore, Suite 2100, New York, New York 10017, or call (212) 683-6567.

VA Offering Tutorial Assistance

Few of the 727,000 veterans and servicemen enrolled in GI Bill college courses this fall will need tutorial help, but the Veterans Administration will pay for it if needed. Jack Coker, VA regional office director, said today.

Under a program not available under the World War II and Korean GI Bills, VA pays costs of tutoring, not to exceed \$50 in any month, up to a maximum of \$450. The benefit is not charged against the

veteran's or serviceman's basic educational entitlement. Coker pointed out.

Any post-secondary trainee is eligible if he trains half-time or more and has a deficiency in a subject required in an approved program of education.

In order to receive payment for tutorial assistance, the agency advises eligible GI Bill trainees to complete a VA application and have it certified by the school.

Applications should be sent within a year of the tutoring to the VA regional office which has the veteran's claim folder, Coker said.

Total GI Bill enrollments, including other schools, flight, apprenticeship and on-job training, stood at 1.3 million in September.

Only the 727,000 college trainees are eligible for tutorial assistance. Since it became available in March 1970, 48,000 trainees have received tutorial assistance at a cost of \$4.7 million.

Need S.S. Number For Holiday Job

Students, housewives, and other people planning to get holiday jobs should apply soon for a social security number if they don't have one, according to information received from the Pampa social security office.

Applications from people who don't recall having had a social security number before generally are screened against central files in Baltimore to make sure a second number isn't issued to the same person.

Screening takes time so you should apply for your number at least several weeks before you need it for a job covered by social security.

People can get information about applying for a number by calling or writing any social security office. More than nine out of 10 jobs are covered by social security.

A worker builds retirement, disability, survivors, and Medicare protection by work and earnings credited to his social security number. Your social security number is yours alone and remains the same for life.

When you get a job covered by social security, be sure your employer copies your name and number correctly from your social security card to his records.

People applying for a social security number for the first time may be asked to prove their age, identity, and citizenship, according to information received from the social security office.

For more information contact the Pampa Social Security Office, 1541 N. Hobart, Pampa, TX 79065 or call 806-669-3381.

KENYA'S TRIBES

Italian priest helps them help themselves

By MIL CHIPP
Copley News Service

LAKE RUDOLF, Kenya — Jomo Kenyatta, Kenya's president, has called on Kenyans to strengthen their "development consciousness" through self-help.

He failed to mention that this self-help has to be activated in many cases by idealistic foreigners. A typical case is the recent development of the tribes in the empty watershed of northern Kenya close to Lake Rudolf's shores and the part an Italian missionary played in saving them from extinction.

Named after Archduke Rudolph, the lake is an oasis in the desert and its vast expanse of green water has earned it the nickname of the "Jade Sea."

The surrounding land is desolate with an annual rainfall of about four inches, sometimes less, to put agriculture out of the question. Even livestock, with the exception of the camel, struggles for survival.

The occasional sporadic

burst of public interest in the area (in 1973 Richard Leakey, the noted paleontologist, discovered human fossils that may be the oldest ever found) has little effect on the people of the lake. There is a tough existence and, until recently, little in the way of government assistance found its way along the stony 300-mile road to Lake Rudolf from Kenya's capital, Nairobi.

But Father Giuseppe Polet, who runs the Consolata Mission at Loivengalani near Lake Rudolf, took the area development in his hands in 1965, when he took over from his predecessor who had been murdered by "shifty" — wandering bands of marauders from across Kenya's borders with Somalia.

Father Polet found, on his arrival, scenes of disaster. The Samburu, Turkana, Rendille and El Molo tribes were hovering on the brink of starvation. The situation of the El Molo was particularly serious.

One of Africa's smallest and poorest tribes, the El Molo

numbered a mere 75 and were in real danger of disappearing altogether.

With Father Polet's aid, the crises were weathered. Though still far from prosperous, the tribes are no longer in danger of starving. The priest built a dispensary from which he could counter malaria, pneumonia and trachoma, once responsible for the deaths of thousands of Africans, and which remain a serious threat even today.

The El Molo, who were in imminent danger of extinction, have thrived. Some younger members of the tribe married members of the Turkana tribe, thus revitalizing the tribe's fecundity. Numbering now about 230, their most serious complaint is the rheumatism they contract through hours spent fishing in Lake Rudolf's cold waters.

Although Father Polet admits that his first priority in the area was not to convert to Christianity, his success in that direction — he now has over 150 regular communicants — has pleased him.

MAINLY FOR SENIORS

Much could be done by city

By JOHN T. WATTS
Copley News Service

Dear John:

In one of your recent columns you suggested that senior citizens write to you about what we do not care for in our city.

A lot of us feel that the news media, especially TV, could use a little common sense and restraint in the news releases and not make such a disaster out of everything that they don't approve of.

I realize that it is impossible to print nothing but good news since that would require a lot of hard work.

But we do feel that the media could do a little more investigating and use a little more judgment before crying "wolf."

Regarding the area here (East San Diego) we feel badly neglected since about the only time that anything in the way of street improvement repairs (some holes are left open for months) is when an election is due. One of my business friends has never had his district city councilman in his store.

We all realize that the city covers a lot of territory and there are lots of things to be taken care of.

If the district councilman would take the trouble to drive slowly around the area he would be able to (learn) lots of things apparently he does not know about.

In view of the rise in crime etc. there was a time when we could leave our doors unlocked all day. We feel that the police department should be allowed to do the job the people pay them for and spend less time trying to make their quota of traffic tickets.

There are other things I could write about, also a lot of good things — I very much appreciate the fact that you for one are willing to listen to us. You may possibly be able to help us make our city better for our grandchildren. — Fred W. Hengel

Dear Fred:

First, to set the record straight, I didn't ask readers to write about the city. But if that is what worries them most, so be it.

The things you write about are common to many cities — worse in many others. Keeping the city neat and the streets promptly repaired costs money, your tax money. Let's hope things can be improved.

Law enforcement is another thing, a quite more serious thing. It's something that the best minds in the country are grappling with. One of the biggest problems is how tight

law enforcement can be made and still not infringe on civic liberties. But for your grandchildren's sake, and mine, it has to be solved.

Dear John:

I enclose a copy of my letter of 10 Jan. 1974, addressed to the director of operations, Department of Health, Education and Welfare, San Francisco.

If anything more is required to illustrate indifference to my wants I can supply it. For instance, my whole problem stemmed from the fact that I established residence in Victoria, B.C., and was advised that I could not obtain the services of the Department of Health, Education and Welfare there and, because my Medicare payments had to be made by cash from me every three months, I was advised to drop my subscription until I returned to the states when I could reapply at the first applicable date.

This I did at San Francisco where I was waited on reluctantly by a gal who evidently threw my application in the waste basket, for it has never been found.

Before they would apply my August, 1973, application for reinstatement I had to pay all the back fees which I did on 27 Aug. 1973. Up to this date I have heard nothing from them except, of course, they wanted two quarterly payments since then. — Freeman Alling Davis

Dear Freeman:

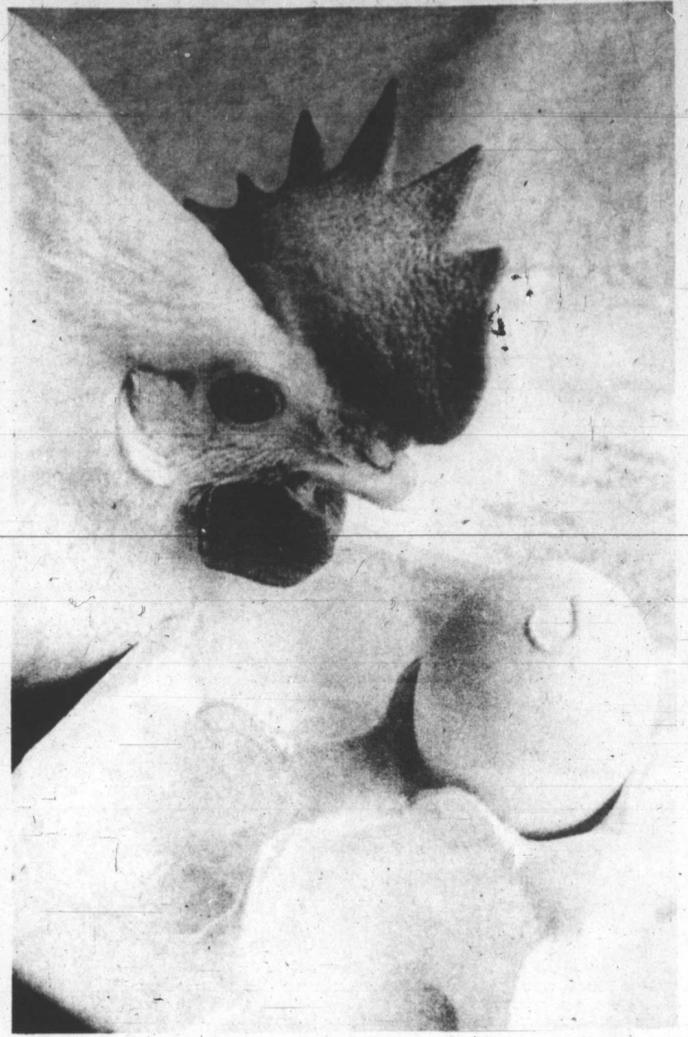

Better chalk it all up to bureaucracy. And hopefully you have had some action before now.

Letters may be sent to John T. Watts, Mainly for Seniors, Copley News Service, in care of this newspaper. Volume of mail prohibits individual replies.

SCIENCE FINDS

NEW YORK (UPI) — Tobacco smoke is a very complex mixture of gases, liquids and particles, says the American Lung Association.

Research has shown there are hundreds of chemical compounds in tobacco and hundreds more created when tobacco burns. Some of the most hazardous compounds are tar, nicotine, carbon monoxide, cadmium, nitrogen dioxide, ammonia, DDT, benzene, formaldehyde and hydrogen sulphide.

BIRTHDAY PRESENT — For the man who has everything, this white Leghorn hen presented her owner, Jay Weems of Vancouver, Wash., with a shiny egg personalized with the letter "J." complete with period, Nov. 18. The timing couldn't have been better, as Weems' birthday was Nov. 20. Now how can you top this gift?

(UPI Photo)

Most Grains Less Than Last Year

AUSTIN — Latest reports on Texas grains show all stock except corn to be below a year ago. Agriculture Commissioner John C. White recently announced.

Total Texas grains stocks in all positions, both on and off farms, were reported 101,524,000 bushels Oct. 1, compared to 135,508,000 bushels at the same time last year.

Stepped up exports sales, coupled with uncertain weather conditions, have contributed to the decrease in stocks, Commissioner White said.

Nationally, wheat was the only grain stock reported up, some 6 percent, over a year ago, according to the U.S. Department of Agriculture. Crop Reporting

Board. Stocks of the four feed grains (corn, barley, oats, and sorghum), in all nation-wide positions, totaled 33.7 million tons, 25 percent less than holdings on Oct. 1, 1973.

In Texas, reports showed wheat stocks at 60,023,000 bushels Oct. 1, down some 26,580,000 bushels from 1973.

Shelled and ear corn, the only stocks to show an increase in the state over last year, were reported at 10,166,000 bushels.

representing an increase of 6,955,000 bushels in a year's time.

Stocks of the other three feed grains, sorghum, barley, and oats, totaled 30,880,000 bushels in Texas, compared to 48,410,000 bushels in 1973.

Rye and flax stocks in the state totaled 155,000 bushels this year, with an increase in complete figures available for 1973.

Social Security Q's & A's

(Have you a question about social security? Address it to Howard L. Westher, Branch Manager, Social Security Administration, 1541 N. Hobart, Pampa, Texas 79065. You will receive an answer in this column or by mail.)

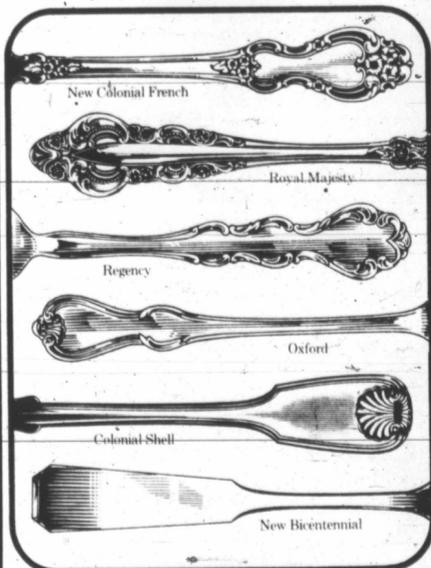

By HOWARD L. WESTHERLY

Q. I applied for social security disability benefits and my claim was denied because social security did not consider my condition severe enough to preclude further gainful work. Are the requirements for Supplemental Security Income disability payments less stringent than for regular social security disability?

A. The requirements for disability payments are basically the same for both social security and Supplemental Security Income. Therefore, if your condition is not severe enough to meet the requirements for a social security payment, neither will it qualify you for SSI.

Q. My doctor has advised me to stop work for at least 6 weeks or maybe even two months. Since I have no savings, I need some income to see me through my unemployment.

Brucellosis, Again... New Regulation Proposed...
Remember Beef Clubs?... Feed Grains Dwindle

HARRISON, HASKELL, Hill and Hunt Counties have joined Grayson and Leon Counties on the list facing additional brucellosis testing before shipping beef and dairy breeding cattle, according to the USDA. Grayson and Leon had previously been on the list. However, Jefferson and Navarro Counties have been restored to the modified-certified status. Brucellosis regulations are administered by the Federal and State governments. The regulations require that cattle in counties not modified-certified be tested and found free of brucellosis within the preceding 30 days before they are shipped; and the herd from which such cattle came must also have been tested and found free of disease within the past year. Texas Animal Health Commission is the cooperating Texas agency in the brucellosis program.

ANOTHER PROPOSAL that may, if adopted, affect Texans has been made by the USDA. It would require custom slaughterers and processors of meat and poultry to register with the USDA. Those are the slaughterers and processors who slaughter and process meat and poultry brought to them and which is for use solely by the person who brings them in and by his family. Custom operations are not required to have full-time inspection but are subject to federal sanitation and labeling requirements. The new proposal would require registration of each owner of a custom operation and each establishment he owns. Those who want to comment on the proposal should send duplicate copies to the Hearing Clerk, USDA, Washington, D. C. 20250 before May 2, 1975. Copies of the proposal may be obtained by writing APHIS, Room 1166-S, USDA, Washington, D. C. 20250.

OLDTIMERS can recall that beef clubs used to be common in rural communities. Several families would form the club and would take turns each month in butchering a calf or other animal. The meat would then be divided among the family members. The Texas Department of Agriculture used to be active in helping organize beef clubs, or Baby Beef Clubs. This was in the early days of TDA. (It came into existence in 1907.) And Baby Beef Clubs-fitted in with the Farmers' Institutes program which used to be a responsibility of TDA. However, that was in the days before refrigerators and deep freezers, when it was difficult to save meat more than a few days in the summer time. There would be a greater food shortage today if it were not for refrigerators and deep freezers, and, probably, there would be less cattle-stealing today if there were no deep freezers.

TEXAS CROP and Livestock Reporting Service has come up with some interesting figures on four feed grain stocks that are of the most value to Texas: corn, oats, barley and sorghum. The Service states that grain sorghum stocks are down to 20 million bushels, 19 per cent below a year ago. A decrease of six million bushels was noted in off-farm stocks but farm-held stocks were almost more than twice what they were a year ago. Wheat stocks in all positions are estimated at 60 million bushels, which is 31 per cent below a year ago. There are an estimated 10,200,000 bushels of corn, and that is more than three times last year's reserves. Farm-held corn was slightly less than a year ago, but off-farm stocks accounted for the increase. There were an estimated 10.7 million bushels of oats, compared to 22.5 million last year; and barley stocks are estimated at 477 thousand bushels, compared to 1,693,000 bushels a year ago. In the nation, stocks of sorghum, corn, oats, and barley are estimated at 33.7 million tons, 25 per cent less than a year ago.

HOBBY, ANYONE? NEW YORK (UPI)—The hobby industry has grown rapidly since the 1940s. The growth can best be told in retail sales statistics. In 1971, for example, sales volume was estimated at \$1 billion plus. By 1973, the figure went to \$1.2 billion and in 1974 that record is to be exceeded. Back in 1949 sales of hobby kits and material was \$100 million. By 1961 sales hit \$450 million.

WATERWAY AND LAND LEVELING — The photo shows preparation for waterways and leveling on land to increase efficiency. This field on Fred Vanderburg Jr. farms south of Pampa is being prepared for highest yield at lowest cost. (Photo Courtesy Gray County SCS)

Irrigation Land Leveling Upgrades Farm Efficiency

By **JIM ROACH**, Soil Conservation Service
Inflation!!! As equipment, fuel and labor continue to increase, this means the cost to produce crops is increasing too, according to Jim Roach, who is with the Soil Conservation Service. The irrigation farmer must operate at maximum efficiency. The irrigation farmer cannot do this if he has lakey spots. Old turnrows, and land that is sloping. These trouble spots can be eliminated by land leveling or borders.

Ag Economist Outlines Future In Bean Planting

PINTOS ON THE HIGH PLAINS
LUBBOCK — Retail prices for dry pinto beans have soared over the dollar a pound mark, causing many High Plains farmers to think seriously about switching to this premier income producer. "But hold on," says an agricultural economist. "That lowly frijole probably will not produce that \$1,000 per acre net profit. And there are sound reasons for this gloomy speculation."

Marvin Sartin, area specialist with the Texas Agricultural Extension Service, lists these facts: The dry edible bean crop last year was poor. The acreage in the U.S. was down slightly from the previous year and yields were below average. Consumer interest in protein alternatives was spurred by high meat prices and meat scarcities. Foreign trade in dry beans was surging until the last few months. "These factors spell increased demand and short supplies, which always create high prices," he says.

THIS YEAR
The March Planting Intentions Report showed dry bean acreage in the U.S. up almost 300,000 acres from 1973, a 20 percent increase. Sartin points out. With a return to normal yields and in spite of reduced carryover, the 1974-75 market season could see total supply of dry beans 15 percent greater than last year. "Simultaneously, we are currently experiencing low farm prices for both beef and pork. Some reduction in retail meat prices and consumers' adjustment to meat price levels will serve to decrease the demand for protein alternatives. Export of beans has slowed recently, and imports of beans, though small, have risen. "The ultimate impact of

NFU Says Sources Sacrificed

WASHINGTON (UPI) — Administration farm spokesmen, stung by charges they used farm subsidies to prevent the planting of crops which could have eased hunger abroad, now are asserting they have been promoting full production for several years.

The charges came recently from the National Farmers Union (NFU) which said in a report the Nixon administration sacrificed "enormous amounts" of potential food production between 1969 and 1973 by paying farmers to hold land idle. The NFU, historically an advocate of tight "supply management" farm controls, charged that in 1973 alone the government "paid \$1.163 billion more to hold land out of production than the value of the lost crops."

Agriculture Department officials have not issued direct replies to the NFU report. But in two speeches this week, Assistant Agriculture Secretary Clayton Yeutter maintained that the administration has been consistently following an anti-inflation, high-production farm policy. "We have had full farm production for three years now. There has been no holding back of acres," Yeutter said in a speech prepared for delivery today to the National Grange at Sacramento, Calif.

In another speech to a group of North Carolina extension homemakers in Washington earlier in the week, Yeutter said flatly: "The government has not paid any farmers to hold cropland out of crops for three years." Agriculture Department records, however, indicate that the agency did make heavy subsidy payments to farmers in connection with acreage retirement for grains and cotton in 1972 and 1973.

In 1972, Department technicians said farmers held 61.5 million acres of major crops out of production and collected grain and cotton subsidies of over \$3.5 billion. In 1973, acreage-idling programs were scaled back sharply as the government moved to boost production in the wake of big grain sales to Russia and other overseas buyers — but records showed 19.5 million acres were idled for \$2.4 billion in payments.

This year, no acreage retirement features were included in major crop programs. One Agriculture specialist said in an interview that while the government did in fact pay subsidies linked to acreage retirement in 1973, the land idled last year was mostly marginal, low-quality soil which would have added little to actual output. The expert insisted that all major new farm program policy decisions put into effect since the middle of 1972 were aimed at increasing food production.

Panhandle Water

By **FELIX W. RYALS**
On Nov. 7 and 8 a workshop on ground water management, was held at Garden City, Kan., sponsored by the Kansas Agricultural Extension Service. It was co-sponsored by the Kansas Water Resources Research Institute and the Nebraska Water Resources Research Institute. The workshop involved the Great Plains State of Texas, New Mexico, Colorado, Kansas, Nebraska and South Dakota. All of these states have similar problems as all are pumping out of an underground fresh water formation called the Ogallala. Throughout this area the fresh water reservoir sets above red clay beds we call triassic and permian that protects the fresh water from saline waters below. In all of these states the water level is declining rapidly since the advent of irrigation and rapidly growing cities. This has of necessity brought on regulation of water with conservation and protection as the goal.

Dwayne E. Konrad, Extension Irrigation Engineer, of Colorado State University at Burlington was one of the speakers for the workshop. His topic was "Ground Water Management and Agriculture on the Northern High Plains of Colorado." He gave the following address:

Introduction To The Area
The Northern High Plains of Colorado comprises a strictly agricultural area of over 9,000 square miles in eastern Colorado. The basin's west boundary, using a north starting point, roughly follows a line from Julesburg - Genoa - Holly, Colorado. The Basin extends into Nebraska and Kansas. The Ogallala formation contains the only significant usable aquifer in the Northern High Plains (NHP) basin. The basin is split by and isolated from the South Platte and Arkansas River drainages. Several important tributaries originate with the NHP: Frenchman Creek, North and South Forks of the Republican River and the Arikaree River. These tributaries may be either influent or effluent, depending upon water levels and the relative position of the water table to the stream bed. Generally upper reaches are intermittent, influent and offer aquifer recharge potential. Lower reaches are effluent and usually provide small continual flow. All surface and ground water flow is generally westward.

Early Ground Water Use
Windmills and sod houses are part of the NHP history. Early domestic wells were drilled just deep enough to tap the Ogallala, usually 80 to 180 feet. Nobody foresaw that technology would cause water table declines and that these wells would go dry. Irrigation from ground water had a slow but early start in the NHP of Colorado. The first deep

irrigation well on record was drilled in 1912. By 1950, less than 100 irrigation wells were in operation. Unavailability of power sources, pipeline materials, and financing were severe limitations on development. Irrigation innovators got their share of ridicule as they tended their siphon tubes or plodded thru cornfields with sprinkler pipe, knee-deep in mud. Irrigators were accused by neighbors of throwing their money down the hole. Returns on irrigation investments were unimpressive, to say the least. The early fifties were "dry" years in an area where normal annual precipitation is about 16 inches. This, coupled with improvements in aluminum pipeline and improved knowledge of irrigation proved impetus for more development. Along with this, there was more effort put into improved irrigated crop varieties and better use of agricultural chemicals. By the end of the fifties, 700 wells were pumping from the Ogallala formation. By 1960, irrigation had grown from a novelty to a method of farming. The years 1963 and 1964 were extremely dry and the well drilling pace quickened. The High Plains was primarily winter wheat and rangeland but farmers needed irrigated farming stability to diversify operations and hold their cattle herds together in drought periods. Apparently, lending institutions finally got the same view. Over 500 irrigation wells were drilled in 1963-64.

4-H'ERS GOING TO CONGRESS — Forty of the state's top 4-H members will be representing Texas at the 53rd National 4-H Congress in Chicago, Dec. 1-5. They will be among 1,600 4-H youth from all 50 states, Puerto Rico and Canada. The national event annually honors those 4-H boys and girls who have outstanding records of achievement according to a 4-H and youth specialist for the Texas Agricultural Extension Service. Those attending have earned the trip through their 4-H accomplishments as evidenced by record books completed in a wide range of subjects.

TURKEY IS TOPS — The turkey is an All-American bird, and it's looking its best this year. Turkey offers an excellent value, both in nutrition and in price, contends a poultry specialist for the Texas Agricultural Extension Service. Turkey is high in protein and low in fats. It is also high in riboflavin and niacin — two important B vitamins. Although turkey is common fare for holiday meals, it deserves more use the year-round. Both raw frozen turkey or cooked turkey can be cup up, wrapped and refrozen for delicious meals. The key to roasting turkey is keeping the meat moist.

SENIORS DRINK
REDWOOD CITY, Calif. (UPI) — A San Mateo County Department of Health and Welfare survey shows that 44.8 per cent of the boys in high school senior classes in this area have used alcohol 50 or more times.

TERRY BRANDVIK
...District I

Farm Queen Named

Hansford County Farm Bureau queen, Terry Brandvik, will represent District I in the upcoming Texas Farm Bureau Queen Contest. Miss Brandvik, daughter of Mr. and Mrs. Ray Brandvik of Gruver will compete with 10 other district winners for the state crown in the Monday, December 2, event to be held at the Convention Center in Dallas.

Selection of the 1975 queen is one of the activities scheduled for Texas Farm Bureau's 41st annual convention. The state winner will receive expenses for herself and a matron escort to attend the American Farm Bureau Federation convention to be held in New Orleans, Louisiana, during January.

Miss Brandvik is 5' 8", and has blue eyes and brown hair. An 18-year-old freshman at West Texas State University, she is a graduate of Gruver High School. During high school, the young beauty was active in FFA, FHA, band, choir, track, and was a member of both junior and senior play casts. Other interests included Harmony Club, Pep Club, and Spanish Club.

Among her past high school honors were serving as delegate to Texas Girl's State, being named outstanding speech student, and winning the UIL Girl's State Informative Speech Contest. The girl's biography was included in the 1974 edition of "Who's Who Among American High School Students."

Miss Brandvik is presently majoring in sociology at WTSU, and holds tentative career plans to be a guidance counselor in a high school or college.

Top Pay For Experienced Drilling Personnel

First, take a look at our OLD salaries:

- Toolpusher \$21,300 to \$26,400
- Driller \$18,900 to \$24,000
- Asst. Driller \$17,700 to \$22,800
- Derrickman \$15,000 to \$18,900
- Crane Optr./Roustabout Foreman \$17,100 to \$23,400
- Heavy Duty Diesel Mechanic \$20,000 to \$25,200
- Diesel-Elec. Electrician \$20,000 to \$25,200
- Welder \$17,100 to \$23,400

Now, call our Personnel Department for our NEW salaries (free of foreign taxes).
