PAMPA, GRAY COUNTY, TEXAS, SUNDAY MORNING, JUNE 19, 1927.

PRICE FIVE CENTS.

## MOBEETIE MAIL TO BE DAILY SOON

### Harvest, Now Under Way, Reveals Fifteen-Bushel Crop

#### CROP BELIEVED GREATER THAN FIRST THOUGHT

Local Elevators Have Received 25,000 Bushels

#### CUTTING EARLIER THAN USUAL

Pampa District To Produce About Million Bushels, Belief

Wheat cutting started generally through Gray county late this week, but some was cut and brought to the elevator last Monday, said to be the earliest in the history of Gray county, and probably in the Panhandle.

While far from cheerful, the wheat outlook is not as bad as expected. The recent rain and cool spell was a blessing to farmers, although coming at this late time. It is noticeable that the heads have filled considerably in the past few days.

Up to this time the grain elevators in Pampa have received approximately 25,000 bushels of wheat, and reports are that the average production is 15 bushels to the acre. This is much more than formerly estimated. The stock is short and the heads light but thick. Last year the production in the Pampa district was 1,750,000 bushels, compared with estimate of 1,000,000 bushels this year.

Five Elevators Here. The Pampa elevators have a storage capacity of about 60,000 bushels, and were taxed to their capacity last year. There are five elevators in the city and several at Kingsmill.

Shipping facilities will be better this year than ever before on account of the Santa Fe double line of track from Canyon to Pampa, which is nearing completion. The line should be completed by the time the peak of shipping is reached. Last year the oil situation was such that building material had preference over wheat and also there was a bumper crop. Trucks play an important part in the cutting and drawing of the wheat. They can draw larger quantities and at a greater speed than the old horse drawn wagons.

Little Acreage Drop. Wheat acreage has shown very little decrease in the Pampa area during the past few years. Oil has been found in several of the wheat (See ELEVATORS—Page 8, Col. 3)

#### Some Plans!

(By The Associated Press.)  
BERLIN, June 18.—Otto Koennecke, German pilot who plans a non-stop flight from Berlin to San Francisco, believes he can reach the Pacific coast in 60 hours. He plans to hop off July 25, reach San Francisco July 28 and to remain there only four days before starting the return flight.

#### New Fire Truck Supplies City With Water for Day

Pampa's new fire truck, replacing a booster pump while new water-works machinery was being installed, gave the city ample water and put several feet in the storage tank besides.

Pumping steadily through two hose, with only short intervals out while workmen went to their meals, the big engine gave a fine exhibition and kept the local water users from noting the absence of the usual booster pump.

The work-out is regarded as beneficial to the new truck.

#### HERE'S TO DAD!

(An Editorial)

They have wished a day on father, and this is it.

It's no snap, being a father the family can be proud of. But lots of fathers, indeed, most of them, perhaps, never are enough appreciated.

This day should have a beneficial effect—it should cause us to look close at father; to note the stoop of his shoulders, his slackened pace, his thinning, graying hair, his tired voice—honorable scars of time. Veterans of memorable battles is he—battles to keep the family ship afloat, to finance his little corporation, and enable the "kids" to do and look their best.

Whatever may be father's weaknesses, he is a pretty fine entry in the pageant of man. You may have to look twice at the beloved "old man" to see in him a character of romance, but look again, you children, and do not be ashamed if your eyes dim and your voice grows husky. Honor him.

It is no time for sentiment of a day, and dad, with his manly soul, hides the emotions he feels. But appreciate him, every day. If he has emerged from his struggle in life with a clean character and a heart of love there is none greater. Dad is king today; here's to him.

#### District Court Adjourns Friday

With disposal by conviction in a few criminal cases marking the progress of the week, the 84th district court adjourned Friday evening.

One civil case was transferred to the court at Panhandle and about 40 old cases were dismissed.

Walter Garrett, negro, was given a two-year penitentiary sentence on his plea of guilty to a liquor charge.

A conviction on a forgery charge resulted in a suspended sentence of three years for Clarence Neilan.

C. S. Rudisil, alias, C. S. Dolan, was given a two-year sentence for forgery.

The criminal docket was very well cleared, but the civil cases, many of them continued, will make a heavy line-up for the next court term, to start the first Monday in August.

#### Instructor For Home Talent Play Arrives for Work

Miss Mary B. Brent, representative of the Wayne P. Sewell Production company, arrived in the city yesterday to instruct the cast taking part in the play, "Rosetime" to be presented under the auspices of the Chamber of Commerce. The entire cast will be home today.

Miss Brent is a competent instructor having been connected with the Rogers Production company for four years and with the present company more than a year.

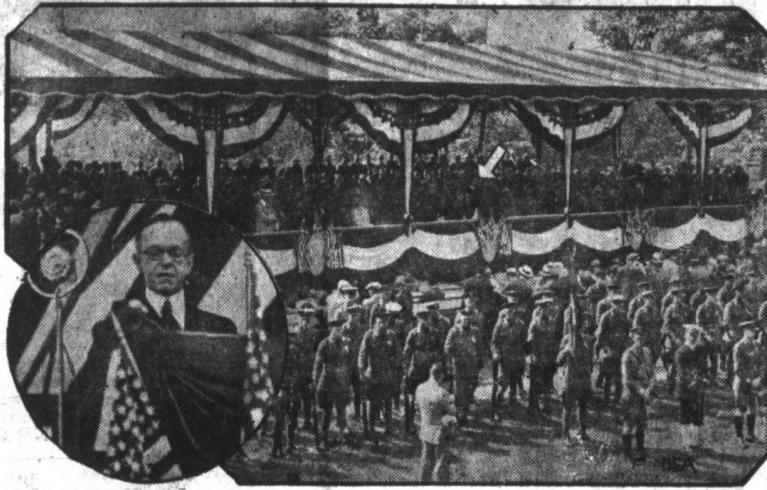

Rehearsals will commence Monday night at 7:30 o'clock in the high school auditorium, where the play will be given June 27 and 28.

#### Shot Brings Flow of 500 Barrels Hourly

The First National company's well in section 4, block Y, in Hutchinson county has been making about 185 barrels a day, since it was brought in a few weeks ago. The company decided to use a shot to see if an increase in production would result and the well came in yesterday with a flow of more than 500 barrels an hour.

It is one of the largest in the Panhandle and is situated in the McElroy pool.

#### PRESIDENT DEDICATES INDIANA PARK

On his way to the Black Hills President Coolidge stopped at Hammond, Ind., to dedicate Wicker Memorial Park, a township's unique testimonial to its World War dead. The arrow points to the president above, the inset showing the chief executive before the microphone. A crowd estimated at 200,000 people attended the ceremonies.

#### Coolidge Dons Ten-Gallon Hat and Boots and Then Goes A-Fishing

(By The Associated Press.)

RAPID CITY, S. D. June 18.—President Coolidge put on a ten-gallon size hat that would make a movie actor of cowboy justly envious, slipped on a pair of rubber hip boots, and went to Squaw creek early today to angle for mountain trout.

(By The Associated Press.)

SPEARFISH, S. D.—Uncle Sam has made it his business to see that trout fishing does not become relegated to the class of buffalo hunting and other vanished sports.

President Coolidge will have an opportunity to see how effectively the United States bureau of fisheries does its work of propagating game fish when he comes to this section for his vacation.

A trout hatchery is located here, with D. C. Booth as superintendent. More than 2,000,000 baby trout are contributed by this station every year to the gratification of anglers, and it is probable that fish reared under government care will become ensnared on the presidential hook.

(By The Associated Press.)

STATE GAME LODGE, S. D., June 18.—Where the game Loch-laven idles in the shadows of limpid pools, to flash from obscurity in sparkling arc after taunting spinner or fly—to leap from the rainbow spray of the glistening rapids—

There is President Calvin Coolidge, conqueror of brook and lake trout of New England, trying skill against the fighting mountain beauties of the Black Hills.

Eight pounds—22 inches long, they've been taken. All whip-steel, fighting action, till landed.

President Coolidge is assured the privacy he desires through the designation of 12 miles of "the best fishing" (See COOLIDGE—Page 8, Col. 5)

#### Bank Robbers Overpower Jailer and Get Away

(By The Associated Press.)

VINITA, Okla., June 18.—After knocking Jailer J. L. Disney on the head with an alarm clock and overpowering him, three alleged bank robbers today broke from Craig county jail, ran down town afoot, leaped into a car driven by Frank Russell, and forced him to drive them to Bernice eighteen miles away.

The escaped men were under charges of robbing a Bluejacket, Okla., State bank of \$1,200.

#### LeFors Test to Spud In Monday

The LeFors Petroleum company's No. 1 townsite, located a short distance from the Gray county courthouse, will be spudded in tomorrow, according to plans of the drilling contractor, Victor Wegner of Enid.

The contract calls for a 3,500-foot test.

#### Important Meeting Of Hospital Stockholders Is Called

Stockholders in Pampa Hospital, Inc., will meet at the institution tomorrow evening in a session expected to be vitally important.

The hospital has been completed to the greatest extent possible without further capital, and is ready to open its full facilities when the building is finished and equipped properly.

Since the burning of the Marland hospital at Borger, oil companies of the Panhandle are looking to the Pampa hospital to care for their men and their families. Under these conditions, it is believed the hospital will be a great city asset from the standpoint of out-of-town trade, in addition to its importance as one of the best institutions in North Texas.

All of the stockholders are being urged to be present. Officers will be elected at the meeting.

#### Lindy a Scout

(By The Associated Press.)

SAINT LOUIS, June 18.—"Slim" Lindbergh is a Boy Scout now and he is tickled about it. Looking more boyish than at any time since he flew into renown. The flier received the honor at the hands of three khaki clad lads who looked not a bit younger than he.

#### Bad Weather

ROOSEVELT FIELD, June 18.—Predictions unfavorable to trans-Atlantic flying weather yesterday and probably today kept Commander Richard Byrd's monoplane, America, land-locked again.

The outlook was that the America would not take off for Paris before tonight or tomorrow.

Paul H. Gray, representing the Weber Engine company, in the Texas district, with his family has moved here from Kansas City.

#### British Aviators Forced Down on Flight to India

MARTLESHAM, England, June 18.—The British long-distance aviators, Lieutenants C. R. Carr and P. H. MacWorth, who hopped off from Cranwell this afternoon for a flight to India, were forced down here. The aviators were forced down because of a minor defect in their machine.

Martlesham is about 100 miles from Cranwell.

#### New Papers Appear In Country Field

The country newspaper field has had several additions in the Panhandle in the last few days.

In Pampa J. D. Sugg as editor and Mrs. Sugg as society editor issued Friday the first copy of The Times, which was of eight pages.

Alanreed read the first copy of a paper published there a few days ago.

The Channing Sun is now in its second week. William E. Moore is the editor and publisher.

Most of the townsites communities have small papers, some of them printed in the larger towns.

#### Mayor Rogers Better

LOS ANGELES, June 18.—Will Rogers, film cowboy humorist, spent a fairly good night following a major operation yesterday here for gall stones. Nurses said his condition appeared favorable and that he was resting comfortably.

J. M. Carlisle and family left yesterday for Clayton, N. M., where they will visit M. C. Haley, cousin of Mrs. Carlisle, and spend several days fishing.

#### Rotary Attendance Contest In Four Cities Arranged In Meeting In Pampa

Details of an attendance contest for the Pampa, Panhandle, Canadian, and Dalhart Rotary clubs were worked out at a committee meeting of representatives Friday afternoon at the Pampa Chamber of Commerce office.

The contest will begin Monday July 4, and will continue 12 weeks through September 24. A Rotary gong will be awarded to the club making the highest attendance, and the losing club will entertain the other three clubs.

The gong will be purchased at once and will be awarded for one month to the club making the highest record for the first four weeks. It will be

#### SERVICE NOW THREE TIMES EVERY WEEK

Reid and Crawford Worked Long For Change

DAILY NEWS TO COVER ROUTE

Congressman Jones Made Request of Postal Department

The Pampa-to-Mobeetie mail route, now tri-weekly, will soon be operated six days a week, giving it the daily classification, it was announced yesterday by Postmaster Crawford and F. P. Reid, who have been working on the matter.

Mayor Reid began efforts to obtain the daily delivery five years ago, and was happy to learn that it had been granted by the postal authorities.

Marvin Jones, Congressman from this district, offered valuable assistance. The grant was further hastened by the publication of the Pampa Daily News, which goes daily into the rural communities. People of Pampa, Mobeetie, and those living along the route have long been anxious for the daily service, and the oil development has greatly increased that demand.

Pampa will have four daily routes when the Mobeetie service is increased. The others are the one to Clarendon, the LeFors route, and a rural route on the Miami road.

#### St. Louis Has Big Holiday to Welcome Lindbergh to City

ST. LOUIS, June 18.—The Spirit of Saint Louis soared to its zenith today in its formal and official welcome to Colonel Charles Lindbergh.

The day was an official holiday and despite threatening weather, which however early turned into a typical June day, St. Louisians began to line the streets at dawn.

Lindbergh, accompanied by his mother and a number of prominent persons of the nation, started the day off by being driven through the streets of St. Louis filled with cheering crowds.

ST. LOUIS, June 18 (AP)—St. Louis gave Colonel Charles Lindbergh after he had ridden two hours through eighty miles of unbroken cheering men, women, and children packed two to twenty deep on the sidewalks along the route.

# In the Realm of Women

SOCIETY

A. T. McDannald of Electra is here transacting business.

Mrs. C. Westfall, who has been visiting Mr. and Mrs. Alex Schneider and family, has returned to her home in New York.

James Vicars of San Jose, Cal., is visiting his nephews, Edwin and De Lea Vicars, and other relatives.

Mrs. Porter Malone's sister, Miss Pollard, of Amarillo, is here visiting her for several days.

Mrs. El Johnston of Amarillo, Mrs. Thomas E. Noel of Memphis and Leon Montgomery of Memphis spent Friday here visiting W. C. Montgomery.

Mrs. O. E. Cowser and children, who have been visiting Mrs. George Woodhouse left Friday for Follett to visit with her mother before returning to her home in Gage, Okla.

Mr. and Mrs. Charles Luthi of Gage, Okla., spent Sunday here with relatives.

Mr. and Mrs. Roy Mills spent Sunday in Amarillo visiting relatives.

Miss Hazel Penland is spending Sunday with friends in Amarillo.

Victor Hunter is here from Elk City on business.

Riley Strickland of Amarillo is here on business.

Otto Studer and Curtis Douglas left Sunday for Wichita Falls to attend the marriage of James Allred.

Mrs. Winnie Brown of Hallettsville is here visiting her sister, Mrs. J. C. Perkins.

W. D. Martin spent Thursday and Friday in White Deer visiting his sons.

Mrs. W. Hoskins of Miami spent Saturday here shopping.

Miss Laura V. Brown and father of Amarillo are visiting friends here.

Curtis Douglas, district attorney of the 84th judicial district, spent Saturday here.

Mrs. W. M. Craven was a visitor in Amarillo Friday.

Mrs. George Walstad spent Friday in Amarillo.

Mr. and Mrs. W. L. Woodward were Amarillo visitors Friday.

## TEA TASTER SHORTAGE HURTS MINCING LANE

LONDON (AP)—So seriously does Mincing Lane regard the shortage of tea tasters that the London County Council is to be asked to establish tea-tasting classes in night schools. "The other day," said a prominent broker, "a job was advertised at a salary of 1,000 pounds a year, plus commission. It was not filled, for not a single suitable applicant could be found. Yet before the war there would have been fifty first-rate men waiting for that job.

"Parents are not willing to send their sons into a business which requires a seven-years' apprenticeship without pay. On the other hand, the tea trade cannot afford to pay even the smallest wage to a boy who has to have another boy teach him everything. Eighty thousand chests of tea come through the Lane every week on the average. They are worth a half million or more, and the commission at 1 1/2 percent works out at 8,000 pounds. Isn't that a trade which should attract the youngsters?"

## QUEEN MARY'S HOBBY IS COLLECTING FANS

LONDON (AP)—One of Queen Mary's hobbies is the collecting of fans, which she inherited from her mother, the Duchess of Teck. Princess Mary, her daughter, is also a fan collector but has nothing like the quantity or the valuable specimens which Queen Mary shows to her most intimate friends. There are jeweled fans, painted fans, lace and feathered fans of all shapes and sizes.

One of the most remarkable fans in the collection was made in England some years ago. The sticks are of red tortoise-shell with a crown and the Queen's initials "V. M." on the outer stick. The fan is covered with special feathers from the wings of woodcocks. As only one such feather is found on each wing 3,600 woodcocks, shot by the King and his friends, were required to make the fan.

## Japanese Ask Police To Curb "Flappers"

Upper left—Miss Natsu Kawa, impersonating a real modern Japanese "vamp." Center—Miss Takita Shizue in another pose. Right—Miss Tsunada Komiku, with bobbed hair and short skirts. Lower—Miss Okada Hoshi.

TOKYO, June 18. (AP)—Japanese "flappers," bobbed hair, short skirted and rouged, are frowned upon by the metropolitan police department as a result of numerous letters from "indignant citizens."

The police while agreeing with the protest against western styles being adopted by Japanese maidens, are at a loss to know just what they are to do about it. Their only course is to keep their eyes on the most conspicuous "flappers" and, if the latter are detected flirting or otherwise misconducting themselves, to hale them before the juvenile authorities.

A writer in the Chuwa expands on the "flapper" subject as follows:

"At the sight of a caricature of the modern girl which I recently saw I burst out laughing at the ridiculous figure. The modern girl gets herself up with bobbed hair, rouged lips and cheeks, a short skirt and high-heeled shoes. Just to think of such a sight is painful enough, but

when you actually see a live specimen on the street the feeling is much worse."

The Japanese generally believe that girls should be seen and not heard, and seen very obscurely at that. That any young woman should wish to discard the kimono and the obi is unthinkable to the majority of the natives, who themselves are many years behind the times and resent the numerous modern improvements, which are slowly but surely creeping on Japan.

## Girls Club Formed Here

The "Girls Entertainment" club was organized Friday afternoon when several of the young girls of Pampa met at the home of Miss Francis Finley.

At the business session the following officers were elected: president, Virginia Rose; vice-president, Dorothy Doucette; secretary, Lorena Quall; treasurer, Pauline Barnard; reporter, Francis Finley.

"Foreign Countries" will be studied by the club at the meetings, which will be held every Thursday afternoon at 2:30 o'clock. The next meeting will be at the home of Pauline Barnard next with Dorothy Doucette as leader.

After the business was disposed of, a social hour was enjoyed and dainty refreshments were served.

## F. L. Robinson Gives Dance

F. L. Robinson, manager of the Adams hotel, gave a dance in the coffee shop of the hotel Friday evening and about 75 couples enjoyed the evening very much.

Excellent music was furnished by the Black Bottom Five orchestra.

Subscribe for the Daily News now.

## Wright-Back Wedding Announced

Miss Faye Wright and Jack Back were united in marriage Wednesday evening at 8 o'clock in Panhandle. Rev. Johnson of the First Baptist church performing the ceremony.

Mrs. Back is the daughter of Mr. and Mrs. J. E. Wright of Pampa and has many friends here that wish her much happiness and success.

Mr. Back was formerly of McLean but has lived in Pampa for the past three years. Mr. and Mrs. Back will make their home here.

## NEW FIRE LAW

HOUSTON, June 18. (AP)—A recently enacted state law will compel Houston's fire department to change water connections on 3,750 pieces of hose, 1,500 fire plugs and on 21 pumpers each with three to four outlets.

The law requires that every city in the state have fire fighting equipment of the same standard and size, which means, officials here said, that the diameter of the connections must be three and one-sixteenth inches with seven and one-half threads to the inch.

Sir Oliver Lodge, one of England's foremost physicists, says that the artificial creation of life is almost sure to come soon.

## GELATINE DISHES

DENTON, June 18.—Gelatine dishes have few equals as summer foods. They may be prepared in the cool of the morning and used later in the day. They are little trouble and are quickly prepared. The suggestions were made by an expert in the household department of the College of Industrial Arts. Gelatine desserts are cold and refreshing. They save much time in preparation as compared with frozen mixtures such as creams and ices. Both fruits and vegetables may be used in gelatine dishes in a variety of pleasing combinations. Jellied meat loaf offers opportunity for using left-overs and for "extending the meat flavor." The amount of gelatine used in each recipe is so small that in itself is negligible in food value, but serves a very useful purpose as a carrier of other foods and of flavors.

Breakfast—Cantaloupe, Bacon, Coffee, buttered toast.

Luncheon—Jellied vegetable salad, graham bread, cup cakes, orangeade.

Dinner—Fried chicken, milk gravy, boiled potatoes, green peas, hot biscuits, butter, sliced peaches with cream, coffee.

Jellied Vegetable Salad

Soak two tablespoons of gelatine in one-half cup cold water five minutes. Add two cups boiling water and stir until the gelatine is completely dissolved, then add one-half cup mild vinegar, two tablespoons lemon juice, one-half cup sugar and one teaspoon salt. Strain, and set in a cold place. When mixture begins to stiffen add three cups of chopped vegetables and

two pimientos cut in small pieces, or one-fourth cup sweet red or green peppers. Various vegetable mixtures may be used, such as: one cup shredded cabbage, and two cups celery cut in small pieces, or one cup cucumber cubes and one cup cooked green peas and one cup chopped tomato.

Other combinations will readily suggest themselves to the resourceful housewife. The sugar may be omitted. Beef or chicken stock may be used instead of all or part of the water. Turn into a mold (a loaf bread pan) that has been dipped into cold water and chill. Remove from mold and cut in thick slices. Serve individual portions in nests of crisp lettuce leaves with Mayonnaise or boiled dressing.

Why not double the recipe for the plain gelatine foundation and use one-half of it to make the molded fruit gelatine to be served for lunch the next day? In that event the stock would be omitted in making the foundation recipe. Diced pineapple, oranges and peaches or any other desired combination of fruits may be used.

## FROM THE COUNTRY

AUSTIN, June 18. (AP)—A man from the outlying districts visiting the state capitol put the elevators in the same class of public service as street cars.

Reaching the second floor, the visitor fumbled at the top of the elevator and went out.

TAKES MORE THAN A NAME TO MAKE A BILL

Out of the Moody-Legislature situation comes an idea which explains, to a large degree, the inability of Texas legislators to make real progress along lines of complex self-government.

First, Moody reprimanded, straight from the shoulder, the special session for not reforming the civil service, highway department and prison system.

Naturally, some of the legislators took offense and struck back. They charged that Moody failed to take his friends into his confidence, and hinted that his youthfulness led him into disrespectful attitudes toward his administration.

There may be a measure of truth in both attitudes. But it appears that a Moody supporter has touched the vital problem in the words: "It takes more than a label on a measure to make a good bill."

Think that over. On the big issues of the times Moody has pointed out the need, and bills supposed to be remedial were introduced. They failed, partly for lack of time, but more especially because they were faulty, perhaps dangerous measures dignified by the titles they bore.

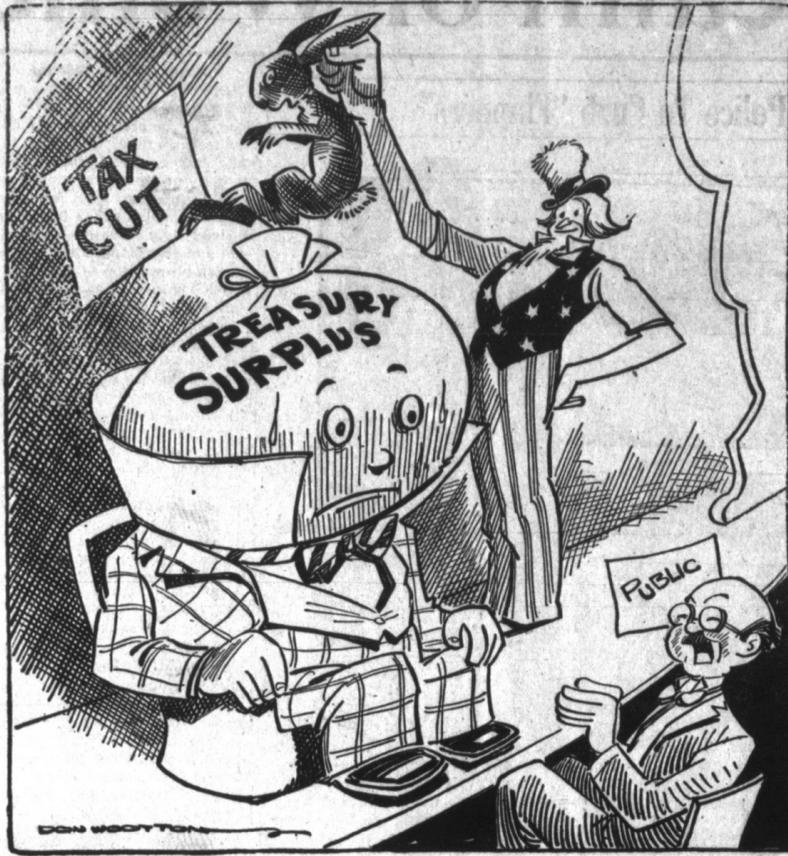

In big reform problems, the greatest lawyers and students of government are not able to write bills worthy of permanency, yet many people expect legislators — often unskilled through lack of experience — to make a trip down to Austin and in a few weeks write and pass measures reforming institutions it has taken decades to build up.

Doubtless some of the bills contain commendable ideas, yet unless they are compiled through careful work of governmental experts, they are not apt to escape much amending and perhaps fatal criticism.

State legislation needs more scholarship than the individual member of the legislature has. This is realized by the members themselves, who refuse to be stampeded into faulty measures of their own making.

State departments need reforming, but it should be done rightly or not at all.

This Act Always Gets a Hand

PRESS FORUM

People who have worked in movements and organizations for civic and business progress, find that the great difficulty in the way is to find a few people who are willing to take the responsibility of leading the lines of work that are to be carried on.

If you want a certain line of work done, you will find plenty of people who are willing to serve on a committee for that purpose. In fact they may be rather aggrieved if they are not named on some of these committees. But when it comes to finding some one man or woman who will take the lead for a certain task, and accept a certain degree of responsibility for making it a success, such folks are scarce.

It seems unfortunate that people are so terribly reluctant to take a little responsibility in promoting civic movements. In that way they limit their own personal success and achievement.

But if they are willing to go ahead and assume such responsibilities to some extent, they acquire a reputation for activity and efficiency which helps them in their own occupation or personal aims.

The man who will serve as chairman of a committee in a good local organization, and who actually gets some work done on that committee, makes a reputation for himself. Such service has been the foundation of the success of many people in business and the professions. They make friends in that way, and they create a reputation for activity and enterprise and public spirit.

It is the same with women in their clubs and such organizations. Those who are willing to take responsibility make

many friends, and are rewarded for their personal effort. — Perry (Okla.) Journal.

The Dallas News, which is advocating adoption of the city-manager plan in Dallas, has been publishing a series of articles from Texas cities in which the manager plan is in force. Tuesday's issue had an article from Amarillo, anent the workings of the manager plan in this city.

"Even critics of the city manager plan, and Amarillo has some, are frank in admitting the city city has prospered and progressed under the plan," says the article, "the only genuine criticism that they have to make is that municipal politics in Amarillo has almost died, and at the last election only 400 votes were cast; two of the three men have held office for some time and the three are the real rulers of the city. Their rule is friendly and accepted."

That ought to appeal to Dallas. Folks there take their municipal politics so seriously that regular "tickets" are placed in nomination. They have had "democratic" tickets, "non-partisan" tickets, "independent" tickets and all such foolishness. It is illustrative of the kind of results that such things produce that a good many thoughtful Dallasites want the city manager plan adopted there. It will, sure enough, put a crimp in municipal politics, but what the city loses in political excitement it should gain in business efficiency. — Amarillo News.

TWINKLES

Mussolini is getting old; he no longer defies his unfriendly marksmen by courting public acclaim, and bullets.

Suicide could hardly be called a short-cut to education, as far as we know.

So far no one has referred to Lindy's "other half" as the "better" one. He seems a staunch bachelor.

King George has two men to guard his crown, but they seem to have no control over the halo.

Doyle has announced the "death" of Sherlock Holmes, so they can have another successful funeral in his town.

Advice taken from current events: to succeed, keep the propellers moving.

Russia is big and awkward, and wicked, but the League of Nations, not robust itself, tries to maintain friendly relations.

Enrollment Of Young Men This Summer Increases

(By The Associated Press.) COLLEGE STATION, June 18.—More young men are going to summer school than usual, according to figures compiled at A. and M. college here.

The opening week showed an enrollment of 51, which was a 14 per cent increase in registration over last year.

Enrollment at the end of the first week showed the college division leading with 359, including 61 in the course of teachers of vocational agriculture and industrial education. Forty-five of them are teachers of agriculture.

Enrollment in the summer school of cotton was 106 and in the short course for public utility men 45.

The course for industrial education teachers is to continue for six weeks, the course for agricultural teachers three weeks, cotton classes

six weeks and for public utility men only one week.

The first session continues through July 16. The second term opens July 18 and classes close August 27. Dr. C. H. Winkler, dean of the school of vocational teaching of the college, is director of the summer session.

BRIDGE PRIZES TO GO TO FLOOD AID

COLEMAN, June 18. (AP) — Money for Mississippi flood sufferers will take place of prizes at bridge and "42" parties given in Coleman, according to Mrs. Lella Johnston. At a recent meeting of Thursday Bridge club it was decided to abandon for a time the giving of prizes and each of the 16 members instead will donate \$5 to the flood relief fund. The Entre Nous, a "42" club, will follow the example, and each member give \$2.50 to the fund instead of prizes for successful playing.

Comic strip titled 'MOM'N POP' by Taylor. It shows a man talking to a woman about money and a car. The man says: 'I WANT TO TALK TO YOU ABOUT THAT MONEY SHE WANTED TO BORROW — MOM SEEMS TO THINK IF WE CAN'T KEEP UP THE PAYMENTS ON THE CAR WE SHOULDN'T HAVE ONE, AND I DON'T KNOW BUT WHAT SHE'S RIGHT!' The woman replies: 'THAT'S GREAT, I HOPE SHE KEEPS ON IMPROVING!' The man says: 'I CAN'T SIN I AGREE WITH HER — DOT'S SICK NOW AND YOU MAY NEED THE CAR ANYTIME — KEEP IT BY ALL MEANS!' The woman says: 'THEN THERE'S ANOTHER ANGLE, TOO — I CAN'T AFFORD SUCH AN EXPENSIVE APARTMENT AS WE HAVE NOW — I'LL HAVE TO CUT OUR EXPENSES, AND THAT MEANS — MOVE!' The man replies: 'YOU'RE WRONG THERE, TOO! THE NICE, LIGHT/airy PLACE YOU HAVE IS JUST WHAT DOT NEEDS TO HELP HER GET WELL — BETTER STAY WHERE YOU ARE!' The woman says: 'I KNOW, MR. GUNN, BUT THATS EASIER SAID THAN DONE — I'VE PROMISED TO DROP IN AND SEE THE AUTO AGENT AND LANDLORD TODAY — I JUST DON'T KNOW WHAT TO TELL THEM!' The man replies: 'THAT'S EASY! TELL 'EM TO GIVE YOU RECEIPTS FOR THE MONEY DUE — I SENT THEM BOTH CHECKS YESTERDAY!'

# FASTEST CRAFT OF NORTH AMERICA GATHER FOR REGATTA AT HOUSTON

Above, new home of the Houston Yacht Club and Henry Falk, president of the Mississippi Valley Power Boat Association. Below, entrants in the regatta—Dixie Baby, Little Star, Hoosier Boy and Helen M. IV.

HOUSTON, Tex. (AP)—Seventy of the fastest small craft in North America are expected to enter the annual regatta of the Mississippi Valley Power Boat Association, which will be held here July 2, 3 and 4. Preparations are being made to accommodate 10,000 visitors.

The Southern Yacht Club of New York will make Houston the objective of its annual cruise. The equivalent of five carloads of competing craft will be brought here on ships direct from New York. Two boats have been entered from Canada and negotiations are under way for the entry of a number from England.

Twelve main events will be run. Eight trophies and \$3,000 in cash prizes are offered. The regatta will be held on the bay 30 miles from Houston, where the \$200,000 clubhouse of the Houston Yacht Club is just being completed.

Dixie Baby, owned by L. A. Layne of this city, which was first in the 725 class at Louisville, Ky., last year, is one of the entrants. Another is the Helen M. IV, owned by Jerry Mitchell of Houston, holder of the world's record in the same class. The record was made at the Louisville regatta last year, although Dixie Baby won the race.

Another entrant is Hoosier Boy, owned by J. A. Whitlock of Rising Sun, Ind., holder of the Webb trophy in the hydroplane class. It was at Louisville that the Helen M. IV pushed Hoosier Boy to a new record and battered 61 miles an hour. The Helen M. IV will make a bid for the trophy this year.

The Mississippi Valley Power Boat Association is a national organization. Henry Falk of this city, passed commodore of the Houston Yacht Club, is president.

## Feminist Resents Term 'Surplus Women'

LONDON (AP)—Mrs. Corbett Ashby, the new president of the Women's National Liberal Federation, resents the use of the term "surplus women" in describing the two millions of British women who cannot hope to marry because of the lack of men.

"The only people who are surplus in a country are the drones," Mrs. Corbett Ashby declares. "No woman working for a living and contributing to the support of the country can be considered surplus. She is part of the brains and wealth of the country and should be treated as such. The standards of happiness in marriage depends upon being able to refuse an unhappy marriage."

Mrs. Ashby, now a candidate for election to the House of Commons, is also president of the Women's International Suffrage Alliance.

## Tulia Expects To Have Gas In City By November 1

TULIA, June 18.—Five carloads of gas piping, meters and other equipment are to be shipped to Tulia within the next few days, and, according to City Manager Huckabee, gas will be available to local people by November 1.

Huckabee also says that more street lights about 40 in all, will be placed in various parts of the city.

## U. S. Naval Strength Depends On Outcome of Geneva Parley

By JOSEPH E. SHARKEY (Associated Press Correspondent) GENEVA, June 18.—Whether Great Britain and Japan are ready to agree on limitation, if not reduction of their naval strength is the question which the American government desires to see answered at the three-power naval conference which opens here June 20.

The answer—affirmative or negative, as the case may be—is expected to determine whether the United States will be content with keeping up her present naval power, or pushed into preparedness, decide to develop considerably her fleets, perhaps, indeed, entering a naval armament race, which President Coolidge has indicated he wishes to avoid.

The forthcoming conference, convoked by President Coolidge, is vital for the three participants, the United States, Great Britain and Japan, but in a wider sense its result is expected to influence the problem of world disarmament in its entirety.

If satisfactory, experts are convinced it will help forward the projected general conference for reduction of armaments—sea, land and air—which the League of Nations is preparing. If the tripartite parley falls they believe it will weaken the general league movement, already enfeebled by the failure of the preparatory disarmament commission to

secure accord on big issues, including that of the best method of reducing navies.

The object of the three-power conference is to evolve a treaty of limitation of reduction of naval strength in cruisers, destroyers, and submarines. The Washington conference has already taken care of the battleships and air-craft carriers and limited the size of individual cruisers to 10,900 tons, though it in no way restricted the total number or total tonnage of cruisers which the great powers may build. Since the Washington conference both Great Britain and Japan have jumped far ahead of the United States in cruiser strength.

Counting ships built, building, or projected, American figures show that the United States has 18 cruisers, Japan 32 and Great Britain 71. Naval technicians think, however, that a fairer way of estimating naval power is by comparing the total tonnage in a given type of warship. Using this system, we find that the United States possesses a total cruiser tonnage of 155,000, Japan 211,055, and Great Britain 454,910.

In destroyers, the American position is more favorable. The United States has, or will have, 234 destroyers as against 201 for Great Britain and 115 for Japan, but many of the American destroyers have been out of commission since the war. American submarines number 126 as against 90 for Great Britain and 76 for Japan.

### NOTICE

I am opening my studio, April 21, at Mrs. Ed Wrights, Browning and Frost avenues. For information or enrollment please call from 2 to 4 p. m.

Nina C. McSkimming. (87-2tc)

## Poisoners?

Her husband (below) threatened to kill her unless she poisoned Clifford Cox, her first cousin, Mrs. Dorothea Walsler, 16 (above), related in a signed statement to police at Fairmount, Ind. Mrs. Walsler had taken out a \$440 insurance policy on the 12-year-old boy's life a few weeks ago and the boy died of poison at the Walsler home.

## Urges Same Training For Daughter As Son

(By The Associated Press.) MANCHESTER, Eng.—An appeal to take daughters into business for a training similar to that given to sons was made to the business men of England by Miss J. P. Strachey, principal of Newnham College, Cambridge, addressing the Gentlemen's Employment Association.

Miss Strachey deplored the lack of genuine openings in business for educated women and expressed the hope that as women come within sight of being full citizens their sex will count against them less in the business world.

## Radio Prolongs Career President May Hook Government's Fish

(By The Associated Press.) SAN FRANCISCO—The old saying "a woman is as old as she looks," no longer applies to actresses, believes Miss Emelie Melville, one time famous actress, who at 78 still has her youthful voice and now keeps her public via the air.

Miss Melville made her debut in Philadelphia. In 1868 she was "The Grand Duchess" in the first English presentation of the French opera. She was leading lady for Edwin Booth and once had her own theatre in Australia.

### A SHAVIAN NAY-SAYE

LONDON—George Bernard Shaw either has a remarkable double in London or is playing a practical joke on London Journalists. A man looking like Mr. Shaw has been stopped a number of times recently by reporters anxious for a chat.

When asked if he is Mr. Shaw the man invariably says, "No." Simply the one word, and nothing more. The question before the Fleet street brigade is whether the irrepressible Shaw could limit himself to one word.

### HORSESHOERS SCARCE

SPRINGFIELD, Ill.—There aren't many horseshoers any more. Only 65 of them applied for licenses in Illinois last year, so the state senate has passed a bill which would permit them to operate without licensing.

### LEADS HER KITTEN ASTRAY

HOUGHTON, Mich.—The pet cat of the Duluth, South Shore & Atlantic roundhouse disappeared recently. Investigation showed that she had taken her kitten for a ride on the rods to Thomaston, 228 miles away. Some time later she returned alone, riding in the caboose in grand style.

### FUNERAL TOO COSTLY

CHICAGO—A \$10,000 casket and \$1,175 for funeral flowers is a bit extravagant in any instance, the Cook county probate court believes. It has under advisement the allowance of such a sum from the estate of a late Chicago labor leader.

### BOY SKATES 84 MILES

RALEIGH, N. C.—Ernest Hicks, 13-year old school boy, is out for a roller skating championship. He skated from here to Greensboro, 84 miles in six and one-half hours. His destination was 102 miles further on, but his skates wore out and he had no spares.

### HOT DOG!

MINNEAPOLIS—A college prank has given to the world the electrically roasted wiener. Placed in a fuse socket by engineering boys at the University of Minnesota, the wiener swelled up and turned a delicious brown. The boys figure that at costs fourteen hundred-thousands of a cent to roast one wiener.

## India Imports Old Newspapers; Merchants Wrap Wares In Them

WASHINGTON, June 18. (AP)—Second-hand newspaper as wrapping paper has a very low social position in America, but in India necessity and custom have nourished a different viewpoint. If women go shopping there, particularly in the interior towns, they have no choice but to accept their parcels wrapped in old newspapers.

Responsibility for this condition is attached to American and British newspaper plants, whose overissuance papers are shipped to the Orient in great quantities. Especially large markets for this type of wrapping material have been developed at Bombay and Calcutta. Virtually no other kind is used in the bazaars and native shops in the interior, while the innumerable street hawkers and vendors of seeds, nuts and other delicacies are equipped with the old newspapers torn into convenient sizes for wrapping their wares.

ROSTOV-ON-DON, U. S. S. R.—A record for bureaucracy has been set by the local branch of the Gronzi Naptha Syndicate. After four months work costing \$5,000 the bureau delivered to the Department of Public Economy a report weighing exactly a quarter of a ton.

## Buys Tennyson Home

LONDON—Mrs. Alice Hunt Bartlett, American editor of the Poetry Review, contributed 5,000 pounds to the Poetry Society's fund for the purchase and preservation of "Aldworth" former home of Tennyson.

### FORGET NAMES

SHENANDOAH, Iowa—A seed company here constantly gets orders from customers who forget to sign their names. So it says on the back of its order envelopes: "Make sure you have signed your full name and address. Of course you wouldn't leave it off—but lots of very smart people do."

League are: Harris, Pittsburgh, .451; Barnhart, Pittsburgh, .440; P. Warner, Pittsburgh, .389; Farrell, Boston, .383; Hornsby, New York, .363; Frisch, St. Louis, .361; Harper, New York, .356; Traynor, Pittsburgh, .351; Gooch, Pittsburgh, .343; Lindstrom, New York, .340.

### Averages Dropping

The batting marks of the American association leaders shriveled terrifically this week until only Bevo Lebourveau of Toledo was left in the .400 class. The withdrawal of Pick, purchased by the Chicago Cubs, from the first ten made rooms for Witt of Kansas City, the only one in the ten who held his own this week, with a mark of .357.

Lebourveau dropped only 11 points, but Lear, the Milwaukee second baseman, who had been chasing his stick mark, fell of 38 points, dropping to fourth place. With the Giants in a batting slump just now, McGraw may be wondering why he sent Lebourveau back for "further seasoning."

Kirkham, the Columbus sensation, did not fall quite so far as Reb Russell of Indianapolis, with whom he was tied at .407 last week, when the batting slump hit the leaders, and these two are now tied in second and third place.

### Homers Scarce

The home run leaders, Kelly and E. Smith gathered no round trips this week, holding steady at ten and nine respectively.

Hausser of Kansas City maintained his average of stolen bases two more bringing him up to thirteen for the association leadership. Haas and McMillan of St. Paul and Bohne of the Millers are closest to him, with ten each.

Eddleman of Milwaukee went into double figures among the pitchers with his tenth straight victory Wednesday, continuing the Brewers winning streak, with Louisville as the victim. He has been beaten but once this year. Moon of Minneapolis, the workhorse of the league, has won nine but is charged with seven defeats.

Leading association hitters are: Lebourveau, Toledo, .413; Kirkham, Columbus, .389; Russell, Indianapolis, .382; Lear, Milwaukee, .375; Orwoll, Milwaukee, .374; Meving, Toledo, .367; McGowan, Kansas City, .366; Grimes, Toledo, .361; Hausser, Kansas City, .360; Witt, Kansas City, .357.

### Casey Was Leading

Pete Casey, beamed a few days ago, has a safe margin for the Western league batting average leadership, with a count of .424, more than twenty points ahead of Wingfield, his Tulsa teammate. Casey tied Munson, his fellow gardener on the Oilers, in circuit smashes at 17, before the accident. These three Oilers, with Bennett and Porter, constituting half the ten leading stickmen of the Western league, the keeping the Tulsa team batting mark well over .300.

Denver passed Amarillo this week for second place but their mark is only .294, and Reagan, the Denver third baseman, is their only member of the select list at the top.

For some obscure reason, Joe Rabbit, the Omaha sprinter, failed to get a stolen base in his last four games, although he combed four hits, among them a double and a home run, so perhaps he has decided to get around by slugging instead of sprinting. Anyway, he still has 21 thefts, a lead of 21 thefts, a lead of several weeks on the other base line sprinters.

### Compton Slips

Compton of Denver dropped out of the ten leaders this week and F. Griffin of Des Moines moved up to the vacant place.

Two more victories have started George Blaeholder off on another winning streak, with 14 wins and only one defeat, on the hill for Tulsa this season. He ran 12 before a setback. Day of Wichita has nine wins, the next highest figure, but six losses against him.

Leading hitters, of the Western league are: Casey, Tulsa, .424; Wingfield, Tulsa, .402; Langford, Des Moines, .396; Bennett, Tulsa, .385; Comorosky, Wichita, .379; Reagan, Denver, .363; F. Griffin, Des Moines, .358.

### "BIG FOUR" IS HOPE OF AMERICAN POLO

NEW YORK, June 18. (AP)—Unless injuries or the flash of some new and hard-riding star upsets present prospects, it seems almost certain that America's polo "Big Four" which kept the historic International Cup safely at home in 1924, again will take the field to meet a formidable British challenge this September.

No definite selections will be made in advance of the trials slated to begin at the Meadow Brook club on Long Island around the first of July. About a dozen picked players will answer the rallying call. Eyes will be focused chiefly on these veteran stars: Devereux Milburn, chair-

# OUT OUR WAY

—By Williams

### Soft Drinks Flourish Where A E F Unloaded

ST. NAZAIRE, (AP)—A "stall of temperance" has been erected by the French league against Alcoholism on one of the wharves where the A. E. F. first disembarked.

It is a modest affair, for the league has little money. It is, moreover, modest in its designs, because it retails cider, beers and light wines. The French prohibition movement, for the present, is limiting its objectives. It draws the line only at the "hard."

The stall's only customers now are Scandinavian, Dutch and British sailors, arrived from the north on cargo ships and coastal craft, who subdue their thirst on the docks before proceeding to other establishments up-town.

Right across from the "temperance booth" is the old and disused A. E. F. cold storage plant.

### BILLS VALIDATED BEFORE WERE DECLARED INVALID

AUSTIN, June 18. (AP)—The legislature in special session just ended passed an act validating bonds which were not then invalid, investigations here shows.

In the closing days of the session, the supreme court held that the state law authorizing creation of fresh water districts was unconstitutional and declared such bonds invalid.

Before that time, however, a bill to correct the defect had been passed by both houses.

### RACING WHIPPETS GET BEST THERE IS

LONDON, June 18. (AP)—Whippets, the little racing dogs, are fed on the very best beef steak. If there was anything better the dogs would get it. So says an official of the Custom House course, where whippet racing is held. He says it costs \$2.50 a week to keep a whippet while it is in training. The best is none too good for them and they have to be looked after as carefully as a child.

Most of the owners of racing whippets at the Custom House course are poor people living in the East End of London. And some have no money to bet with after they have paid for their dog's keep. All are extremely enthusiastic. The few women owners who regularly attend the meetings are perhaps even more enthusiastic than the men.

### WEDDINGS IN GRETNA GREEN HELD ILLEGAL

LONDON, June 16. (AP)—The old village blacksmith of Gretna Green is still doing business now and then in joining romantic couples, but his wedding ceremony does

man of the Defense Committee, captain of the team and generally ranked as the greatest "back" polo ever produced; Tom Hitchcock, intrepid No. 2 man, sharing with Milburn the exclusive 10-goal ranking; J. Wharton Webb, accurate-hitting No. 1 and a southpaw; and Malcolm Stevenson, No. 3, defensive star and one of the best "pitchers" in the game.

not always count, it has been decided here in the divorce court.

Before Justice Hill, Mrs. May Celine Bach, of Cheltenham, petitioned for annulment of her marriage to William E. Bach, a commercial traveller of Birmingham, basing the action on the ground

that the condition of 21 days' residence, imposed by the marriage of Scotland act of 1856, had not been complied with. Mrs. Bach testified that she went through a form of marriage with Bach on April 3, 1924, at the old blacksmith shop in Gretna Green, having gone from

Justice Hill held that it was quite clear there had been no marriage, in view of the law, and he granted the decree of nullity.

### French Paper Keeps File of Yank Pranks

ST. NAZAIRE (AP)—The weekly paper of St. Nazaire, "Le Courrier," which hardly a single doughboy or gob could read in 1917, has a war-time file that is in itself a historical monument.

Its numbers of 10 years ago tell all about the A. E. F.'s arrival, their first pranks, and their first stiff inspection by the "C-in-C."

The censor, however, would not allow the reporters to indicate that the Yanks were in St. Nazaire itself. The ingenious editor thereupon delineated his dispatches from the American camp at "Negoeville." Consequently nobody in the "city of commerce" which is St. Nazaire was misled, and the censor was satisfied.

"The Gangplank," one of the numerous A. E. F. periodicals, was printed on Le Courier's presses.

### Market Abroad For Many Texas Export Products

(By The Associated Press.)

HOUSTON, June 18.—Texans may have goods to sell that the world wants.

Ernest L. Tutt, Houston, manager of the Southwest division of the federal commerce department, has just received queries about specific sales openings for American products ranging from tooth picks to stump pullers and including gardening implements, automobiles, disinfectants, electric dishwashers, sporting goods, sewing machines, hair nets, shaving brushes, fountain pens, neckties, scouring soaps, binder twine, ciga- rettes, bird cages, alligator skins, water wagons, ready made clothing, piano players, garden hose, toys, cosmetics, wheelbarrows, re- built typewriters, iron buckets, insecticide and phonographs.

Mr. Tutt announces that he will be glad to furnish any prospective Texas exporter with the names and addresses of inquiring foreign merchants without charges upon application to him at 402 Chamber of Commerce building, Houston.

# LAND OF EVANGELINE YIELDING TO FIRST STEPS OF MODERNISM

Top—Hotel Castillo and Evangeline Oak on Bayou Teche at St. Martinville. Lower left—A descendant of the Acadians using an ancient spinning wheel. Right—Miss Mildred Dessens, direct descendant of Acadians, posing as Evangeline.

ST. MARTINSVILLE, La., June 18. (AP)—Modernism is making inroads into the Land of Evangeline, blending with the picturesqueness and romance of the Teche country, where the brave Acadians settled more than a century and a half ago.

Good roads bisect the fertile basin of the Bayou Teche, banked in flowers of blue and gold and crimson, of Louisiana's summer-time, and old school buildings are giving way before the march of progress. Even the ancient Catholic church here, built in 1765, only 10 years after the French were deported from Nova Scotia by the British, has not been immune.

A few years ago the church, second oldest in the state, was remodeled, but the building remains in the shape of a cross and the replica of the Grotto de Lourdes is retained.

In the towns along the Teche old structures with their mixed French and Spanish architectural lines are surrendering to modern buildings. Paved streets are replacing rutted, dusty roads. With reconstruction work from the Mississippi flood underway, modernism will gain more ground.

But beside the placid Teche here, the Evangeline Oak, beneath whose moss bearded branches lies the grave of Emmaline Labiche, the Evangeline of Longfellow's immortal poem, stands as a living monument to the past, as does the Old Castillo hotel.

In the hinterland, old spinning wheels and hand looms still are in use, and yellow cotton, the seed imported many years ago from Siam, is grown for use in making home-spuns.

Among the older residents, French, the mother tongue of the Acadians, is the universal language, but the younger generation is swinging to English. Off the beaten tracks, the quaint Evangeline costume defies the knee skirt of the flapper, and many of the men are garbed in sturdy clothes modeled after those of their forefathers.

## Kansas Expands First Home Ec School

(By The Associated Press.)  
MANHATTAN, Kans.—The first class in home economics in America has advanced in the half century since its organization here on the plains of Kansas, until instead of the original 12 girl students there are 600. The meager equipment has expanded so that the class is housed in a building with complete and modern conveniences. Dr. Margaret Justin is director.

Mrs. H. C. Cheseldine originated the first class 52 years ago as a trial, offering practical work in sewing and cooking for the young housekeepers of the time. The work was started at Bluemont College, on the site of the present Kansas State Agricultural college. Kedsie Hall was the first building in the United States erected for the exclusive use of domestic science students.

## KIMES GANG PRESENTS NEW TYPE OF OUTLAW TO THE SOUTHWEST

OKLAHOMA CITY, Okla., June 18. (AP)—Oklahoma, the one time stamping ground of such picturesque bad men as Henry Starr, Al Spencer and the Dalton boys, is seeing the rise of a new type of outlaw in Matthew Kimes, the most wanted man in Oklahoma today.

Kimes, a slick-haired youth of 21, who graduated into bank robbery from hold-ups at country dances and small town poker games, is formally charged with three bank robberies and the slaying of two peace officers, and is suspected of having played a leading role in virtually every major robbery of a bank in Oklahoma during the last year.

A reward, which members of a bankers' association believe will total \$50,000, is being raised for his capture.

Officers who have studied his habits and career declare Kimes is not the usual type of western desperado. He is short and stocky and affects the metropolitan dress of a modern "drug store cowboy."

George Kimes, a brother of Matt, is serving a long sentence in the penitentiary for participation in one of the crimes.

The Kimes boys are alleged to have picked their home town of Beggs, Okla., for their first venture in major crime. That was in August, 1926, when three young men robbed the Farmers' National bank of \$5,000, locked a half dozen persons in the vault, and escaped. In May, this year, Matthew Kimes was identified as the leader of a gang of nine bandits who invaded Beggs and robbed two banks of nearly \$18,000, killing the chief of police.

Five days after the first robbery at Beggs the Kimes brothers participated in the robbery of two banks at Covington, in the north-western corner of the state.

From Covington the Kimes boys and three companions sped eastward in a motor car. They were intercepted by officers at Sallisaw, near the Arkansas state line, and in a gun fight Perry Chuculate, Cherokee Indian deputy sheriff, was fatally wounded and another deputy injured. J. C. Woll, police chief at Sallisaw, and Will Ross, civilian posseman, were overpowered and captured.

Hurrying into the Ozark hills of western Arkansas, the bandits carried on a running fight with other officers. Finally, surrounded by a large posse, the Kimes brothers attempted to escape on foot. They were wounded and captured. Woll and Ross had been released previously.

Matt and George Kimes were returned to Sallisaw and tried for murder in connection with Chuculate's death. George was sentenced to 25 years in the state prison and Matthew was given 35 years. Matt and the prosecuting officers shared dissatisfaction over the sentence—Kimes because he thought it

too heavy and the prosecutors because they believed it too light.

W. C. ROUNTREE, M. D. Pellagra a Specialty, Texarkana, Texas

If you have any of the following symptoms, I have the remedy, no matter what your trouble has been diagnosed: Nervousness, stomach trouble, loss of weight, loss of sleep, sore mouth, pains in the back and shoulders, peculiar swimming in the head, frothy like phlegm in the throat, passing mucus from the bowels, especially after taking purgative, burning feet, brown, rough or yellow skin, burning or itching skin, rash on the hands, face and arms resembling sunburn, habitual constipation, (sometimes alternating with diarrhoea), copper or metallic taste, skin sensitive to sun heat, forgetful, despondent and thoughts that you might lose your mind, gums a fiery red and falling away from the teeth, general weakness with loss of energy. If you have these symptoms and have taken all kinds of medicine and still sick I especially want you to write for my booklet, Questionnaire and FREE Diagnosis.

W. C. ROUNTREE, M. D. Texarkana, Texas

## AMERICANS AND GERMANS ALIKE WELCOME IN FRENCH WAR ZONE

(By The Associated Press.)  
PARIS, June 18.—"American Legion" is a magic password into many sacred corners of France, but doughboys who return this summer to attend the Legion convention will find themselves in a vastly changed land. The war is distinctly a thing of the past, even at Verdun, where 400,000 German and Allied soldiers are buried within a radius of 25 miles. Buses bear signs equal in prominence reading, "Man Spricht Deutsch" and "English Spoken."

"Even 'Petit Michel', a canine prisoner of war captured at Fort Vaux after the retreat of the crown prince's forces, has capitulated to friendliness. For more than a year after the Armistice Petit Michel sulked, refusing to respond to food and caresses. He is reconciled at last, but still looks for his master when there are German visitors.

But the war is fresh in the recollection of soldiers. A Moroccan soldier who halted a Legionnaire on advance business for the convention was scolded by an officer and told, "American Legion is the countersign here any day". The officer stood at attention, saluted, and said, "Pass, American Legion."

There are changes also at the first port of American debarkation. St. Nazaire is now in the hands of the British. Shipwrights and mechanics from over the channel are putting the finishing touches on the French Line's huge new liner, the "Ile de Lape" huge new liner, "Ile de France". The "money exchanged" and "English Spoken" signs put up for the A. E. F. have been retained for them.

The most important reminder of the Yanks and their coming to St. Nazaire is a huge water reservoir, with accompanying filters, built by American engineers. Before the war St. Nazaire was often threatened with drought, but the American water works has a capacity of 7,000 cubic meters a day, while the town's normal needs are only 3,000 meters.

and he was granted a new trial. While he was being held for the second trial a mysterious band of six men invaded the town, overpowered the jailers and liberated him. This was in November, 1926. Since then the bandit has been a will-o'-the-wisp figure. He is frequently seen, but he disappears before officers can act.

## Outdoor Code Urges Tourists To Behave

(By The Associated Press.)  
CHICAGO—"Everything belongs to somebody" is the first commandment in an outdoor code of ethics for vacationists and city folk who flock to the country in the summer months.

The code was drafted by the Isaac Walton League of America, and Seth E. Gordon, extension director is sure its observance will eliminate much of the animosity engendered in farmers by careless urban vacationers.

Other points in the code: "Never leave a gate open, permitting cattle and livestock to roam from their pastures.

"Don't disfigure or displace natural resources.

"Be a hiker, not a 'ride caddie.' "Don't trespass on forbidden ground, or hunt or fish on posted land.

"Don't roam across planted fields; walk around them.

"Build a camp fire, not a roaring inferno.

"Drown the fire with water when camp is broken, and do not scatter the embers.

"Be courteous: Leave a note of thanks in any wilderness shelter used."

## O'SULLIVAN WINS THE MISSOURI TROPHY

COLUMBIA, Mo., June 18. (AP)—The season for selection of the most valuable athletes in the colleges has brought a wreath to the brow of Ted J. O'Sullivan, senior at the University of Missouri. He has been awarded the Norris trophy in recognition of athletic ability.

For three years O'Sullivan was a star halfback for the Tigers. Last

season he captained the basketball team. "Teddy" graduated from Manual Training high school in Kansas City, where he starred as a prep athlete.

A municipality of western Norway has introduced prohibition against cigarettes, oranges, chocolates and other sweets, as well as American apples.

Canada says that the United States could easily stop the smuggling of liquor over the northern boundary.

## Expert Stone Carver Began Work In Jest

(By The Associated Press.)  
CLYDE, N. Y.—Work begun in jest less than two years ago has made Mrs. William T. Long of this town an expert stone carver.  
A monument manufacturer of Clyde jokingly told Mrs. Long he would give her a job if she learned to carve. A few days later Mrs. Long appeared at the shops, announcing she was ready to begin her apprenticeship. Somewhat surprised, but taking her at her word, the skilled carver began his instructions.  
In six months she was entrusted with a piece of polishing and engraving and her first monument was given a place in a cemetery.

## Donates To Museum

(By The Associated Press.)  
ATLANTA—Mrs. J. M. High, who gave her luxurious home on Peachtree Road to the Atlanta Art association, has just contributed a room of antique furniture in memory of her daughter, Mrs. Elizabeth High Goodrum. The museum has become the center of study and work of many young artists of the southern states.

## BIDDING ON GAS

AUSTIN, June 18. (AP)—Possibility that the Lone Star Gas company may pipe natural gas into Austin is seen by the local city commission.  
F. L. Chase of Dallas, vice-president of the company, has requested—and been granted—a conference on the matter.  
Other companies also are understood to be bidding tentatively. The city is served with artificial gas.

HELP WANTED—White woman to do house work. Must have fair education. See Mrs. Z. E. Morice at Morice's Dry Goods store. 84-4tc

## Movie Presidents Willing To Run Again

Top—Left to right—Charles Edward Bull as Lincoln; Francis X. Bushman as Washington; Frank Hopper as Roosevelt. Lower, left to right—Lucien Littlefield as Coolidge and Russell Simpson as Andrew Jackson.

## HOLLYWOOD, Calif. (AP)

Hollywood has many residents who have played the role of chief executive of the United States in movie make-up.

Some of them have served second terms in front of the camera, and practically all of them are willing to run again if the people insist.

In recent months presidents have been numerous in the big, barn-like stages where pictures are made. Francis X. Bushman played George Washington in "The Flag;" Frank Frye was Thomas Jefferson in "Old Ironsides;" Frank Hopper was Theodore Roosevelt in "The Rough Riders;" Harry Holden was Zachary Taylor in "The Yankee Clipper;" Walter Rogers was Ulysses S. Grant in "The Flaming Frontier" and "The Bugle Call;" Russell Simpson was Andrew Jackson in "The Frontiersman;" William Moran was James K. Polk in "California," and Charles Edward Bull was Abraham Lincoln in "The Heart of Maryland."

Joseph Henabery, who was the Lincoln of Griffith's "Birth of a Nation," is a director at First National now. Others who have played Lincoln on the screen include George Billings, Ralph Ince, C. W. Herzinger and Omar Whitehead.

Frank Ross has played William Howard Taft, Joseph Dowling has been Woodrow Wilson, William McKinley has been impersonated by John McKinnon, and E. J. Radcliffe and E. W. Borman have played Theodore Roosevelt.

One of the characterizations among the make-believe presidents has not yet been seen on the screen it is the Calvin Coolidge impersonation of Lucien Littlefield.

## New Trans-Atlantic Flights Planned in U. S. and Germany

(By The Associated Press.)  
NEW YORK, June 18.—Lieutenant Berndt Balchen, former Norwegian naval officer, has been chosen as a fourth member of the crew of the Fokker monoplane "America" on a trans-Atlantic flight.

The big plane was in hanger tonight ready to take off for Paris soon. The weather bureau reports favorable flying conditions over the Atlantic. Commander Byrd said there is no chance that a start will be made either tonight or tomorrow.

BERLIN, June 18 (AP)—Inspired by successes of trans-Atlantic flights, interests in Germany are now planning to establish new world's records for crossing west to San Francisco and return.

The name of Anton Koennecke, German war ace, is definitely linked with the project.

## CHEMIST DIES

CAMBRIDGE, Mass., June 18. (AP)—Dr. Henry Talbot, dean of Massachusetts Institute of Technology, and one of the leading chemists of the country, died in the city hospital at Boston today.

## ELEVATORS

The wheat situation in the Pampa area is much brighter than is predicted. W. A. Taylor and sons have about 2,000 acres of wheat that will average nearly 20 bushels to the acre, and Charlie Thomas has an excellent crop in the same district.

sections and it is figured that about two per cent of the wheat lands of the county is being used for oil drilling and tank farms. An estimate (there are no actual figures) shows that approximately 35 per cent of agricultural land in the county is producing wheat.  
Panhandle wheat tests high, being from 55 to 65 dry. The wheat now being delivered to the elevators is ranging around 60. Chemical analysis reveal that Panhandle wheat contained 17 per cent protein in 1925 but dropped to 11 per cent last year. The 1927 percentage is estimated to be 14. The grade of wheat grown in the Panhandle is at a premium with many millers and in great demand throughout the country. Pampa wheat took first prize at the State fair in Dallas in 1925.

Most Wheat Is Hard.  
Most of the wheat raised in the Panhandle is of the Turkey Red and the Kanred varieties. It is a hard, red winter wheat and is especially fine for making bread, being heavy with the necessary starch and proteins. Very little spring wheat is grown in the Panhandle. That grown is of the Durham variety.

The price of wheat at the present time is \$1.25 per bushels but a small increase was reported today. If the Pampa section produces 1,000,000 bushels of wheat this season it will mean a revenue of \$1,250,000. Then, the price of wheat is apt to advance when it is taken into consideration that several thousand acres of land capable of producing wheat has been inundated by the recent floods throughout Oklahoma, Kansas, Louisiana and Missouri. Thus, Pampa will profit from other states' failures.

Soil Very Fertile.  
The soil around Pampa is of a blackish, deep, fertile quality, and extremely suitable for the production of wheat. The shipments of wheat from Pampa since 1908 were in bushels as follows: 1908, 60,000; 1909, 120,000; 1910, 81,000; 1911, 204,000; 1912, 450,000; 1913, 200,000; 1914, 750,000; 1915, 1,250,000; 1916, 700,000; 1917, 500,000; 1918, 400,000; 1919, 2,225,000; 1920, 1,200,000; 1921, 1,000,000; 1922, 350,000; 1923, 850,000; 1924, 1,250,000; 1925, 700,000; 1926, 1,750,000.

Combines are a great asset to the farmer today. His wheat is cut and threshed at the same time and trucks take it to the elevators as fast as it is threshed. In ancient times the cradle was used. Then came the binder, which necessitated a long delay between the cutting and the threshing, and also several men were employed; whereas now a minimum number does the work. After the binder came the header, but the delay was there also. The combine has become the universal machine on the farm.

Many Combines Sold.  
Dealers in combines in the city report the sales numerous this year, over 15 being sold by local dealers.

## NOTICE

An Ordinance repealing Ordinance No. 40, and Ordinance No. 89 and re-enacting both with amendments and regulating traffic during fires, and prohibiting the drivers of automobiles, wagons, motor vehicles, etc., from driving over the fire hose while the same is in use and prohibiting the parking before fire plugs or hydrants and providing a penalty. Be it ordained by the City Council of the City of Pampa:

1. That hereafter, after the fire alarm is sounded, and at any time during the progress of a fire within the corporate limits of the City of Pampa, Texas, which the fire department is attempting to extinguish, all drivers or operators of automobiles, motor vehicles, carriages, wagons or any other kind of vehicles shall immediately upon hearing said fire alarm, or upon hearing of or discovering said fire, drive their automobiles, motor vehicles, carriages, wagons or any other kind of vehicle they may be operating at the time, to the curb or edge of the street where they are then situated, turning to the right, and remain stationary at said place until the fire engine or fire fighting apparatus has passed on said public street.

2. That it shall be unlawful for any person operating an automobile, motorcycle or motor vehicle of any character, or any wagon, carriage, buggy or other kind of vehicle whatsoever, to pass over or drive over the fire hose belonging to the City of Pampa, Texas, at any time when the same is in use by the Fire Department or any other person in fighting fires or watering the public streets of the city of Pampa, Texas.

3. That it shall be unlawful for any person or operator of any automobile or motor vehicle of any kind whatsoever, or any wagon, carriage, buggy or any other conveyance or vehicle whatsoever, to park the same before or within ten feet on either side of any fire plug or hydrant within the corporate limits of the City of Pampa, Texas.

4. Any person violating any provision of this ordinance shall be guilty of a misdemeanor and upon conviction thereof, shall be punished by a fine not to exceed \$100.00. Passed and approved this 18th day of June, A. D. 1927.

F. P. REID, Mayor  
C. H. FISHER, City secretary  
(SEAL) 84-4tc

## COOLIDGE

ing streams in the hills" for his sole use during his vacation at the Game Lodge in Custer State park.  
Readily accessible to the summer white house, two miles of foothills streams, abounding in brook or Lochlaven trout, have been set aside, as have 10 more miles high in the hills where the rainbow bite the best.

"Ed" Rhoades, cattleman and former prospector, has donated the foothills course of Squaw creek flowing through his property. These waters, together with others in the hills, have been patrolled by state game warden and fishing prohibited since last week in May.

C. B. "Pat" Adams, rancher northwest of Custer, highest town in the Black Hills, has offered the streams through his lands, as have Leo Bender, Glenn Oatman and J. M. Lynch. The Adams property, approximately 20 miles from the game lodge, noted for rainbow trout fishing, was set aside with a view providing for all day fishing trips.

The catch illustrated was taken from Squaw creek, on the Rhoades property, by a Rapid City Waltonian. Mrs. Rhoades "the real fisherman of the family," Rhoades confided, took one 20-inch beauty from the stream early in April.

In addition to these streams, characterized as "the finest trout streams in the Black Hills" by O. H. Johnson, state director of game and fish, there is French creek, in the park proper, coursing rapidly from springs high in the peaks. This stream is celebrated for its rainbow and brook trout.

Professor J. L. Lester is confined to his home with an attack of influenza and tonsillitis.

Norma Talmadge sailed last week for a vacation in Europe.

## RENT SPACE FOR GAS LINE MATERIAL

Booth and Flynn, contractors on the Empire gas line from Pampa to Kansas City, have rented warehouse space in the Pampa Grain company's building. Their first load of material has been ordered and is expected to arrive here this week. The first shipment will consist of welding rods, pipe fittings and carbide.

## "Thanks",—Lindy

(By The Associated Press.)  
WASHINGTON, June 18.—Secretary Wilbur today received a letter from Charles Lindbergh thanking the navy for the courtesy and hospitality in placing the cruiser Memphis at his disposal for his return from Europe.

Rod LaRoque and Velma Banky, two popular romantic stars, are to be married June 26.
