VOL. 1, NO. 83.

PAMPA, GRAY COUNTY, TEXAS, TUESDAY EVENING, JUNE 14, 1927.

PRICE FIVE CENTS.

BOND ELECTION TO BE JULY 19

IDEALS NAMED BY PRESIDENT FOR COUNTRY

Human Welfare Cited As Great Need Of Present

"TOO MANY ARE VOTE SLACKERS"

More Religious Devotion Also Desirable, Says Coolidge

(By The Associated Press.)

HAMMOND, Ind., June 14.—President Coolidge, on his way to South Dakota for his vacation, was greeted today along the route of his train by large crowds.

He dedicated the Wicker Memorial park this afternoon at Hammond, Ind.

HAMMOND, Ind., June 14.—Greater attention to human welfare in America so that it will equal the nation's material prosperity was urged here today by President Coolidge in dedicating the Wicker Memorial park to the World War veterans of the Calumet region.

The park, which is surrounded by the cities of Hammond, Whiting and East Chicago, was declared by Mr. Coolidge to represent "practical idealism," and America, he added, "amid all her prosperity has not forgotten her ideals."

But "too many of us," the President said, neglect to vote; too many, "are unprovided with the advantages of education;" and "the number lacking in religious devotion is altogether too large."

Labor Should Share

"While we have reached the highest point in material prosperity ever achieved, there is a considerable class of unskilled workers who have not come into full participation in the wealth of the Nation," Mr. Coolidge continued. "Although our Government is sound and our courts are excellent, too many disregard the obligations of citizenship by neglecting to vote, and violence and crime are altogether too prevalent. Our delinquencies are sufficient to require us to put forth all our efforts to work toward their elimination."

"But we should not be discouraged because we are surrounded by human limitations and handicapped by human weakness. We are also possessors of human strength. Intelligence, courage, fidelity, character—these, also, are our heritage and our mark of the Divine Image."

Mentions Lindbergh

Once more Mr. Coolidge took note of the flight of Colonel Charles A. Lindbergh from New York to Paris, declaring "when one of your western young men is the first to fly from America to Europe our country hails him with a popular acclaim so spontaneous, so genuine, as to disclose the true values of our national character."

(See IDEALS—Pg. 4, Col. 5)

Levine Averts Attachment of His Plane by German

(By The Associated Press.)

BERLIN, June 14.—A conference between legal representatives of Charles Levine and Doctor Puppe, German financial promoter, today brought a satisfactory provisional compromise, definitely removing the possibility of attachment to the trans-Atlantic monoplane, Columbia.

The German had threatened attachment if a sum were not paid him for work which he claimed to have done in promoting negotiations for a loan on behalf of Levine with various steel mills in Germany two years ago.

Under terms suggested by the lawyer, both parties will make apologies and Levine will pay the sum to Puppe.

TODAY--OLD GLORY'S DAY

Today is Flag Day throughout the United States—the day when Old Glory once more commends itself to our attention and recalls to our minds the things for which it stands. This unusual picture, showing the flag waving over the quarter deck of one of America's biggest battleships, was taken during the recent naval maneuvers off the New England coast.

Council Discusses Additional Paving

Kingsmill and Acheson paving at the intersections was accepted last night by the city council, which discussed at length the extension of the paving contract and petitions for additional work.

Residents desire the paving of Ballard street to the railway station, and their petition was again taken up. A decision in the matter will be made later.

The present water extensions also were accepted.

Alderman Baker Saulsbury, in charge of police, was authorized to employ needed members of the force and fix their salaries. Two places were mentioned.

Judge Clements Of Plainview Is Now At LeFors

Charles Clements, district judge of the 64th judicial district at Plainview, is presiding as judge at LeFors this week in an exchange of benches with Judge Newton P. Willis.

Judge Willis is at Childress this week.

Judge Clements was formerly district attorney of the 64th district, and was attorney for the state in certain cases—which disqualified him as judge and brought about his exchange with Judge Willis. Judge Reese Tatum of Dalhart as presiding officer of this administrative district under a law passed by the last Legislature, ordered the exchange.

The new judge at LeFors has lived in Plainview for the last 27 years. Yesterday he expressed his appreciation of the opportunity to be in this fast developing section for a time.

ENGLISH AUTHOR DIES

NORTHAMPTON, England, June 14.—Jerome K. Jerome, noted British author, died here today.

J. M. Carlisle and family have returned from a vacation trip downstate. Mr. Carlisle frankly admits he didn't have any luck fishing, but states that he will try again soon where the bait is more tempting.

McLean Road Bond Election Set For July 16—Pampa Vote Will Be Near August 15 Following Hearing

Gray county commissioners yesterday set July 16 as the date of the \$250,000 road bond election in the special district of which McLean is the center.

No protests to the formation of the district were heard, and it is said McLean people expect the issue to carry with little opposition. Bond buyers already are opening negotiations for the purchase of the paper.

Pampa's special road district election petition was heard, and the commissioners set 15 days for any objections to the district to be presented.

Lindbergh Looks At Weather, Then Postpones Trip

(By The Associated Press.)

GARDEN CITY, N. Y. June 14.—Charles Lindbergh made an unexpected visit to Mitchell Field today, apparently with the intention of flying to Washington to get his trans-Atlantic plane.

But he left the field again when a study of the weather may have convinced him that flying conditions were unfavorable.

NEW YORK, June 14. (AP)—The Evening World says it learned today from Harry Bruno that Col. Lindbergh had slipped away from the city today on his way to Washington.

Bruno, who is an associate of Richard Blythe, Lindbergh's representative, is quoted as saying that Lindbergh intended to fly his trans-Atlantic plane back to New York this afternoon.

Cotton Consumption Shows An Increase

(By The Associated Press.)

WASHINGTON, June 14.—Cotton consumed during May totaled 6,330,24 bales lint and 72,766 bales of linters, compared with 5,162,76 bales of lint and 65,199 bales of linters in May of last year, the census bureau announced today.

At the end of that time a hearing will be held, and the election presumably will be called for 30 days after that date. This would make the vote come soon after the middle of August.

The McLean district has gone through the preliminaries, and awaits only the necessary legal publication. Two bridges on the North Fork and a small one over McLellan creek are included in that district.

The county commissioners will sit at an equalization board June 23 and 24.

Byrd May Hop Off Tomorrow Night—Is Ready

(By The Associated Press.)

MITCHELL FIELD, New York, June 14.—A man close to the flying camp of Commander Richard Byrd who asked his identity to be shielded, told the Associated Press here today that weather permitting, Byrd would hop off either tomorrow night or Thursday morning for a round-trip European flight stopping in Paris only a few hours.

Family Disappears In Flogging Case

(By The Associated Press.)

MARSHALL, June 14.—Search for W. A. Straps and family, who disappeared from home Sunday, held the attention of authorities here today in the flogging case which resulted in Rangers being sent here and the promise of a federal investigation, possibly from the poonang angle.

Straps and his wife were two of four victims of a masked band which last Wednesday visited two homes in the western part of Harrison county.

VETERAN VERY ILL

MAGNOLIA, Miss., June 14. (AP)—General Wroten, commander-in-chief of the United Confederate veterans, who has been ill several days, is in a serious condition at his home here.

TEXAS BANK IS ROBBED TODAY

Masked Man Gets \$700 Loot and Escapes In Automobile

(By The Associated Press.)

BROWNWOOD, June 14.—A masked bandit robbed the First State bank of Zephyr near here, today and escaped with a companion in an automobile. He obtained about \$700.

D. A. Johnson, assistant cashier, was alone in the bank at the time of the hold-up.

Rev. Truhitte Is Called To Baptist Church As Pastor

Rev. D. H. Truhitte, for the past four years pastor of the Baptist church at Oilton, Okla., has been called to the Baptist church here and will arrive in the city tomorrow.

Rev. Truhitte conducted evangelistic services in Pampa for two weeks, commencing May 3. Rev. Truhitte is a powerful speaker and will conduct the services at the Baptist church Sunday.

Seek 21 Mexicans Who Escaped From Texas Prison Farm

(By The Associated Press.)

HOUSTON, June 14.—An extensive search is being made in territory around Houston today for 21 Mexican convicts who escaped from the Blue Ridge state prison farm Monday night.

The break was made while 64 convicts were eating supper. Two dozen dropped one at a time through a hole in the floor under the table, with a guard standing nearby.

CITY COUNCIL ISSUES CALL IN RESOLUTION

Funds Would Extend Sewer and Water Systems

DEBT REFUNDING CONTEMPLATED

Three Propositions To Be Submitted To People

Pampa voters will go to the polls July 19 to decide whether bonds shall be issued for water and sewer extensions and to refund the outstanding debt of the city.

The amount of the expenditure contemplated is \$230,000, of which \$70,000 is for water extensions and \$160,000 is for extensions and improvements in the sewer system.

The city debt would be converted into bonds totalling \$125,000, for which a sinking fund would be provided for their ultimate redemption.

The election call resolution was passed last night by the city council, but as of June 9, when it was approved with the exception of minor details.

The ballots will enumerate three propositions:

1. For or against the issuance of waterworks extension bonds.
2. For or against the issuance of sewer extension bonds.
3. For or against the issuance of refunding bonds.

The failure of one proposition would not affect the others.

The election will be held at the city hall, with D. W. Osborne as presiding judge and L. C. McMurry, Otto Rice, and W. H. Thomas assisting.

The bonds to be issued would be 40-year serials, with interest not exceeding 6 per cent.

Thirty-Nine Pupils Have Enrolled In Summer School

Thirty-nine pupils have enrolled in the summer school classes at the high school and are taking their studies under members of the school staff.

Miss VeLora Reed and Verde Dickie are in charge of the high school classes with 22 pupils enrolled.

Miss Mellie Bird Ritchie is in charge of the intermediate classes with an enrollment of 10 students. Miss Ellen Smith, formerly of Childress, is teaching the elementary classes with seven pupils.

All classes are under the supervision of the superintendent of the high school.

BANK REPORTED ROBBED
OILTON, Okla. June 13. (AP)—Five men were reported to have robbed the Oilton State bank today after shooting one man. Details of the affair have not yet been learned.

News Ad Finds Man's Lost Shoe

G. V. Gossett recommends Pampa Daily News want ads for 24 hour service—or less.

He lost a shoe out of his car, and having no use for the one remaining, decided to try a want-ad to retrieve the loss. The shoe was brought to the News office soon after the ad appeared and Mr. Gossett is now a strong believer in the "pull" of the ads.

This is merely one instance of the service the News is giving through the want ad column. A wrist watch was returned to the loser the day following a "Lost" ad, and there are daily instances like this one.

Let the little ads work for you, too.

Pampa Daily News

LINDBERGH HASN'T MADE FLYING SAFE

The intrepid young flyer who through exceptional ability and, it cannot be denied, a bit of luck, conquered the Atlantic does wisely in warning that accurate, scientific navigation is necessary in trans-ocean flying.

The fact of his success should not obscure in the public mind the tragedies of the two French ships which utterly disappeared. Other tragedies will mark the course of flying, just as hundreds have occurred during the land flights.

Yesterday's dispatches carried the information that Lindbergh had to use an auxiliary gas tank in the Washington-New York flight. Had that happened in mid-Atlantic, Paris might never have welcomed the young American.

Lindbergh's success should not inspire an orgy of disasters by inexperienced or poorly equipped fliers.

TWINKLES

Pampa automobiles ought to be marked some way other than with splashes of oil. A name plate on all our fine cars would be fine advertising.

Discipline is old fashioned, but a lot of people think too much petting is hurting this generation.

Most of those who think some other place is better than Pampa do not really know what is here.

We think it is about time people quit saying this big gas line goes to Amarillo, whereas it stops in our back yard.

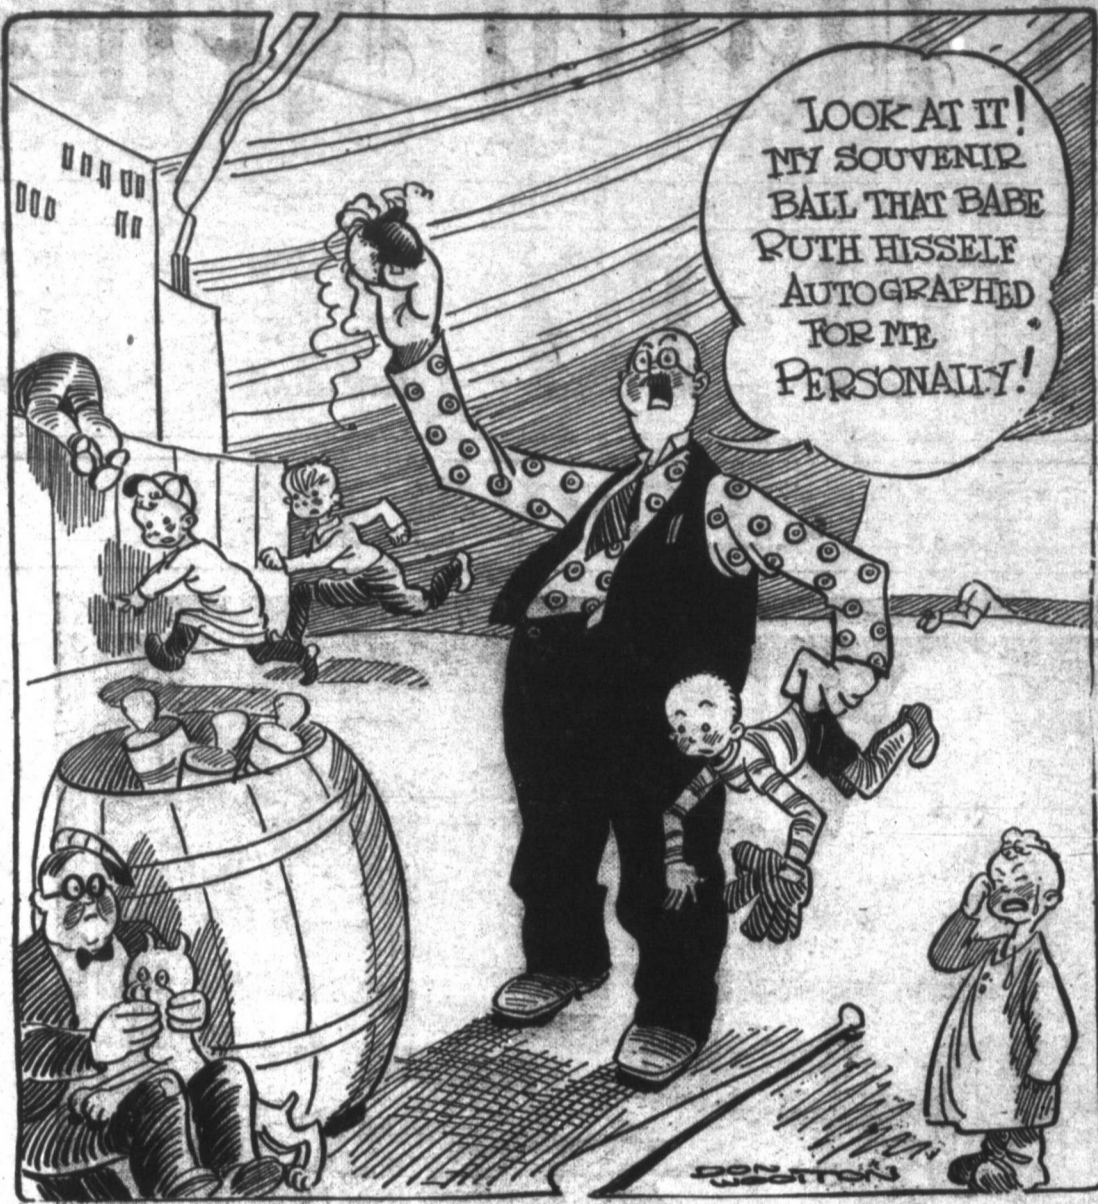

It is probably true that a lot of husbands consider themselves pikers after hearing some of these love letters read in court.

New photography shows how a bullet bursts a bubble. And maybe soon we can see how one of these political bubbles collapse.

Some of these Panhandle bank robbers are termed "Amateurs," but if not apprehended soon they will demand professional status.

Kimes may never be a "King of the Ivories," but it is about time to nominate for the honor or some of those trying to capture the youth.

Can You Imagine That!

WASHINGTON LETTER

BY RODNEY DUTCHER
NEA Service Writer.

WASHINGTON. — One of the most astonishing things about life in Washington is the fact that no man in public life can ever perform a gracious or meritorious act without hearing all the smarties brand it as inspired by politics.

At any rate, it seems rather a shame that this stuff could not have been kept out of the picture with Lindbergh's return and triumphant reception.

Instead, many of the anti-administration folk long since began to voice the suspicion that President Coolidge had finally decided to take care of Lindbergh's home-coming lest he be nosed out of some important publicity and national good will by Governor Al Smith of New York, who might otherwise have done the honors in company with Tammany's mayor, little Jimmy Walker.

Somehow, Calvin Coolidge's reputation as a good politician simply won't let his ill-wishers keep off his neck whenever he speaks or acts.

On the other hand, one correspondent here wrote seriously the other day that no man in the United States was more excited and thrilled over Lindbergh's feat than the president. This was quite absurd, for Mr. Coolidge hasn't been genuinely excited over anything whatever in recent years.

The fact that stands out just now is that Mr. Coolidge has done the correct thing by Lindbergh and has done just what the country wanted him to do. More could hardly be asked.

The court action which threatens to complicate the activities of the Federal Radio Commission was predicted by Congressman Sol Bloom of New York in a recent conver-

PRESS FORUM

No one should make a statement like, "Youth is the happiest time of life," without being prepared to accept its intellectual consequences. Now, if it were really true that youth is the happiest time of life nothing would be a more tragic spectacle than young men and maidens; for they would in their present state have attained the pinnacle, the climax of existence; before them would lie 50 years of diminuendo, of decay, of accumulating loss, of descent into everdarkening days.

The belief that youth is the happiest time of life is founded on a fallacy—on a false definition of happiness. Many people think that to be free from physical pain and mental worry is perfection; knowing that as we grow older our physical pains and mental worries are apt to increase, they assume that youth is the happiest time of life. We are, of course, all animals; but we ought not to be merely animals. I suppose that in the case of animals youth is the happiest time of life; a puppy is happier than an old rheumatic hound; a young jackass braying in the pasture is presumably happier than an old donkey laboriously drawing a cart; but these are merely animals and lack man's great gift—the possibility of development.

Those who say that childhood is the happiest time are unconsciously postulating the

sation. Bloom expressed the belief that the courts would decide broadcasting to be a matter for set regulations and that the radio law, based on the idea that broadcasting was interstate commerce, would be cast out because in broadcasting there is no buying and selling. Bloom said he was in thorough sympathy with the commission's work, but feared that it had no right to interfere in broadcasting unless it was really interstate commerce.

animal definition: A child is happiest because he is healthy and has no worries; when he is cold somebody covers him; when he is hungry somebody feeds him; when he is sleepy somebody puts him to bed. There is the shadow on the sunny years; there is the fly in the ointment. Personally I had rather have a few worries and aches and go to bed when I choose. A child is as dependent as a slave. If you would rather be a healthy well fed slave than an independent man, you will prefer childhood to maturity. — William Lyon Phelps.

COMMON RED CLAY USED TO TAKE GLOSS OFF BALL

BIRMINGHAM (AP)—Bill Brennan, former National league umpire and now umpire-in-chief in the Southern Association, has discovered what he believes to be an ideal dressing to take the gloss off new baseballs.

It is common red clay found at Rickwood Field, home of the Birmingham Barons. Brennan made the discovery when he rubbed a new ball in the clay. Subsequent experiments showed the cover was not injured and now each umpire in the Southern loop carries a small sack of the mixture and all balls are given a clay bath.

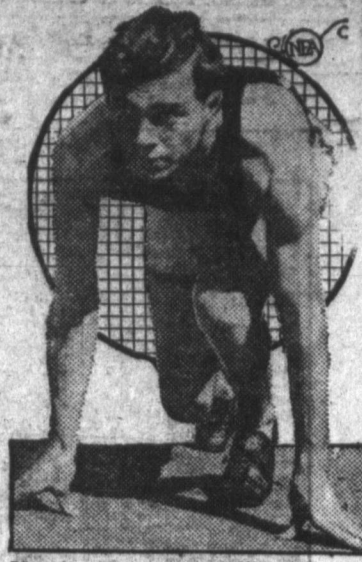

ON-MAN TRACK TEAM

ST. LOUIS, June 14. (AP)—A one-man track team is Buddy Sample, high school phenom of Webster Groves, St. Louis suburb. Single-handed among 600 athletes from 67 schools in six states, Sample won the Missouri Valley relay carnival at Manhattan, Kan., for Webster Groves with firsts in the discus and the shot-put and seconds in the javelin and broad jump events. A few weeks earlier he won fourth place for his school by taking 23 points at the University of Iowa, intercollegiate meet. He can do almost everything but run a relay race.

SHOUSE IS GRATEFUL

W. S. (Shorty) Shouse is able to be up and is very grateful to local people for the help they gave him during his recent illness. He was given hospital care and other aid for himself and two small sons.

Best Sprinter

Here's Charley Borah, the outstanding sprinter of the year. The Southern California star was the only man to win two events in the big I. C. 4-A meet last month, capturing first in the 100 and 220-yard events.

Denton Wheat Yield Is Heavier Than Other Type

According to the 1925 Yearbook of the United States department of agriculture, 1,365,000 acres of wheat were harvested in the state of Texas in the year 1924. Denton wheat, a variety developed by the Denton Substation of the Texas Agricultural Experiment station, has produced an average yield of 26.8 bushels to the acre for the four-year period in which it has been tested; while the best one of three other Mediterranean wheats, with which it was compared, produced 25.68 bushels to the acre, showing Denton wheat to have produced on an average over a four year period 1.12 bushels to the acre more wheat than the best Mediterranean grown.

This gain of more than a bushel of wheat to the acre on the 1,365,000 acres of Texas wheat would mean a total gain of 1,528,800 bushels of wheat to Texas farmers, if Denton wheat were generally grown. Valuing this wheat at \$1.00 a bushel, this means a money value of more than \$1,500,000. Assuming that only one-fifth of the wheat growing region would be adapted to Denton wheat, there is opportunity for an annual increase of over 300,000 bushels of wheat, worth \$300,000, as a total

gain to those farmers who can take advantage of this superior producing strain. Denton wheat has been shown to have exceptionally good milling qualities. The development and distribution of this wheat, of which the Experiment Station made a large distribution last year, and of which there is available for distribution this year 1,000 bushels from the Station and other sources is worth, as an accomplishment figured on the most conservative basis, more than \$300,000 and is quite possible that much more than one-fifth of the wheat-growing region can and should grow this variety.

The production of this wheat is only one of the many accomplishments of this Station and in which it is yielding up to the people money values running into the hundreds of thousands of dollars as against the small amount of money spent on it each year.

Why be a Tire nurse? When a tire gets old and weak, there's a choice of two things for the wise motorist to do— (1) Bring it in and let us see if our repair methods can put new vim and vigor into it (2) Retire it on a pension and let us put on a sturdy new Goodrich Silvertown.

Sport Columns

Cahill K. O.'s McMillan With 3rd Round Blow

"Rusty" Cahill, Pampa boxer and baseball player, won a K. O. Victory in the third round of last night's scheduled 10-round bout at the Pampa Athletic club. Cahill was too clever for Tuffy McMillan of Breckenridge and the end came in the third round after Cahill had landed a two fisted barrage from the beginning.

The newsboy preliminaries were fast and furious, the kids standing toe to toe and hitting and missing to the best of their ability.

The semi-final was a real fast affair with Paul Pone a little faster than Dutch Hust, who put up a real battle against a faster and more experienced boxer. Hust took a count in the third round but was up before the count and gamely finished the bout with a rally that nearly earned a draw.

In the final, after one minute and ten seconds in the third round, Cahill connected with his hay-maker and McMillan took the count. McMillan is a clever boxer but Cahill is faster and can stand more punishment. Cahill has boxed some of the best and in a hard man to hit in the ring, being shifty and fast on his feet.

A large crowd of ring enthusiasts were on hand when the bell rang for the first go, and were entertained with fast and clever bouts.

Golden Bears Train On Beef and Chicken

BERKELEY, Cal., June 14. (AP)—California's rowing crew is going to Poughkeepsie trained on meat and imbued with the idea it has the Navy to beat to win the regatta.

The diet of the Golden Bears before and after the defeat of Washington—traditionally formidable on the water—is not so scientific as to take account of the number of vitamins but it is regulated strictly by training rules tested over a period of years.

Prime ribs, chicken and steak are the main dish day in and day out, varied only by an occasional beef stew. There is virtually no check on the quantity or the speed with which it goes into the 35 hungry stomachs.

When chicken is served it is a half of a fryer weighing not less than two pounds. The steak—usually Porterhouse—had to weigh at least 17 ounces to qualify for a place on the menu. Serving of prime ribs and beef stews are equally generous. Sweets and condiments are banned.

There is no enforced Fletcherizing. The average time is 10 minutes for disposing of a rich meat or vegetable soup. Porterhouse steak, fruit or vegetable salad without dressing, ice cream or custard and a glass of

SPORT TALK

It has been rumored that several members of the Pampa Grays have accepted positions in Berger and will move to that town to work and play baseball. If that is so, it may be goodbye baseball for Pampa.

Now that the Oilers have found themselves, the few faithful fans of Pampa can see them play winning ball. Claude will be here Sunday and the home club is practicing every day to get revenge.

Shreveport is still on the warpath. They won another yesterday to make their winning streak nine games. Wichita Falls will be next in line for a trimming.

Is Hack Miller hitting the pill this year? Sunday's long homer brought his total to 20 for the season which equals Babe Ruth's big year. The Babe is after his twenty-second today to hold even with his big year.

The Pampa Daily News big score board has been completed and is ready to be put up in front of the office. Scores can be read from across the street or in a car at the curb. Come around and see what your favorites are doing.

TOM CAT AT NOTRE DAME

SOUTH BEND, Ind., June 14. (AP)—Because a jinx has clung to every Irish terrier initiated as mascot of Notre Dame, Knute Rockne's minions have dismissed the terrier and have chosen a tom cat as their new symbol of athletic fortunes.

The very first terrier mascot at Notre Dame died—some wag said it was when the pup sighted an auto license plate from Nebraska, football nemesis of the Rocknemen. Others followed in quick succession, but never lived long.

"So now," says Rockne, "we're going to try a cat." He thinks Notre Dame the first school to choose that humble domestic animal as its emblem. Of course it's a Kilkenny cat.

GERMANS IN LONDON SWIM

LONDON, June 14. (AP)—After the appearance of German boxers in London, a team of German swimmers are to engage in a number of contests with British teams this month.

Entrants include Erich Rademacher, holder of the world's breast stroke record; Gustav Frolich, who holds the European record for back swimming; Emil Benecke, Germany's champion side-stroke swimmer, and Otto Cordes, international water-polo player. They make their first appearance when they engage in a series of races with the London "Penguin" swimming club on June 15.

milk: Coffee is occasionally permitted at breakfast at which fruit and bacon and eggs predominate.

Harvard's Captain

GEOFFREY PLATT

CAMBRIDGE, Mass., June 14. (AP)—One of those misfortunes that assume a tragic aspect to a college athlete overtook Geoffrey Platt of New York, captain of the Harvard crew in this, his senior year.

Persistent sinus trouble kept him out of practice until mid-April and left him in the disheartening role of a captain who could not row with the first varsity during the early season. Platt rowed No. 5 against Yale last year.

Washington Hopes Shake-Up Will Win

SEATTLE, June 14. (AP)—The University of Washington varsity and junior varsity crews have a chance to defend successfully their intercollegiate rowing titles at the national regatta at Poughkeepsie, N. Y., in the opinion of Coach Russell Callow—the Gil Dobie of crew.

Callow's hopes are based on probably the greatest shakeup given any title-holding eight in the country. When the Huskies returned from their disastrous trip to California early this year only four of the 16 oarsmen in the two crews were fortunate enough to retain their seats. Both the varsity and junior varsity eights lost to the University of California, the varsity trailing the Bears for the first time in six years. Every day after their return home Callow shifted the men from boat to boat in search of the best combination.

Five weeks before the national event the varsity eight was training with both its two lettermen out of the shell. Two other regulars were shifted to other boats. The juniors fared even worse. Not one of the men of this squad who rowed against California sat in the jayvee shell at that time. Some of the juniors were shifted to the varsity squad while others were transferred to the third, fourth and fifth boats.

"If we row at Poughkeepsie as we rowed against California we will come in last, and we don't intend to come in last," Coach Callow declared. "I was forced to shake up the two crews. The spirit was broken. New blood was needed. We could never get anywhere with the crew I took to California, so the shakeup was the only alternative."

THE PERSONALITY GIRLS

Amusements
THOSE BANJOISTS

A curtain break last night at the Crescent did not ruffle the Hollywood Trio, three young men who rendered a pleasing, snappy program and will be heard again tonight.

The California boys, products of Warner Bros. studio, are out on their second tour of the county, and are working their way back home. They will arrive about July 10. Ralph Prest, the manager, and Kenneth Jones are the original banjo boys, while Richard M. Buckley is a leading singer and thumbs a fast banjo himself.

Prest was here last year, and expects to return again with a troupe of five.

"The Flame of the Yukon," is today's picture at the Crescent.

EXHIBITS SCULPTURE IN SALON BUT MAKES HATS FOR LIVELIHOOD

ABOVE—JANE BLANCHOT MAKING A HAT IN HER SHOP
BELOW—JANE BLANCHOT WORKING IN HER STUDIO

PARIS, June 13. (AP)—Felt or clay, marble or straw alike are artistic mediums for Jane Blanchot, who when she is tired of sculpturing rests herself by making hats. Millie Blanchot's hats are among the famous millinery of the world, and her sculpture is exhibited at the spring salon in Paris.

A good milliner is not necessarily a good sculptor, but a good sculptor ought to make a good milliner, she believes, because both arts are based on a knowledge of line, mass and proportion.

The Paris way of building hats is employed by Jane Blanchot. She takes a large floppy piece of felt or straw, a few hundred pins and a long look at her subject in the mirror. Then she starts to create a piece of millinery which will answer all requirements. A pat here and a pull there and the hat emerges from under her hands as symmetrically shaped as a sculptor's eye can make it.

SOCIAL NEWS Phone 72 Mornings

Mrs. Tufa Cullers and daughter, Miss Ada, of Henrietta are here visiting Mr. and Mrs. John Andrews.

Mr. and Mrs. Howard Meyers are in Oklahoma City visiting with relatives and friends.

S. M. McGehee is here from Denver on business.

Several parties are to be given in their honor this week. Wednesday Mrs. W. A. Adams will entertain with a luncheon at the Adams Coffee shop. Thursday morning Mrs. Finney will entertain the Thursday Bridge club with a breakfast at the Adams Coffee shop.

The Amusu Bridge club will entertain the husbands of the club with a supper at the Adams Coffee shop this evening.

Cattle Grazing In Osage Hills Is Very Heavy

(By The Associated Press.)
OKLAHOMA CITY, June 14.—More cattle are grazing in the Osage pastures of Oklahoma and the Flint Hills of Kansas this year than for several years past, Carl H. Robinson, federal statistician said in a report released by the Oklahoma crop reporting service.

Robinson said that the number of cattle grazing in the Osage pastures is about 13 per cent greater than the number last year. In the Kansas Flint hills, more cattle are grazing than in any year since 1922, says a report released by E. C. Paxton, statistician for the Kansas department of agriculture.

While the Osage and Flint hills pastures are in two states, they virtually comprise an area, Robinson says. Although the Flint Hills pastures extend into fourteen counties and Osage county alone contains the Osage grazing area, more than half as many cattle are grazed on the Oklahoma side as in Kansas.

There are 181,000 head of cattle grazing in the Osage Hills this year, compared with 251,000 in Kansas.

"The movement this year is earlier than last year," Robinson's report said. "Shipments from South Texas were smaller in proportion than usual but increased shipments were received from West Texas, Western Oklahoma and the open markets at Wichita, Kansas. A shipment report shows a decided increase in steers and calves on Osage pastures and a decided decrease in cows and heifers. Osage cattle will be ready for market much earlier this year than last year. A few early shipments of grass fat cattle can be expected to move about the third week of June if prices are attractive, but the general movement will not start until about the first of July.

"Pastures are in excellent condition being rated at 100 per cent of normal on June 1 compared with 94 per cent of normal last year. Cattle are putting on flesh rapidly. No complaint is heard of flies."

"Contrary to early expectations, more cattle were shipped into the Kansas Flint hills for the 1927 grazing season than were received in the spring of 1926," said Paxton's report. "A very complete check of the railroad movement into the counties comprising this district shows that eight per cent more cattle were unloaded in the blue stem pastures from January 1 to June 1, 1927, than the same period in 1926. Total receipts for the five month period this year are estimated at 251,000 head as compared with 232,000 in 1926; 248,000 in 1925; 229,000 in 1924; 219,000 in 1923, and 270,000 in 1922.

LADY ASTOR APPEARS WITH SHINGLED HAIR

LONDON (AP)—Lady Astor, American born member of Britain's parliament, has had her long hair shingled.

Now the number of British women M. P.'s who are bobbed and unbobbed are even. Mrs. Hilton Philpott and Miss Wilkinson are the other two who have "had their hair off". The Duchess of Atholl, Miss Susan Lawrence and Miss Margaret Bondfield are the three who have kept it on.

Lady Astor's head has not been cropped closely and she has adopted a curly effect. Now more than ever, surprise is expressed that she is the mother of five children, for her new coiffure makes her appear still younger.

Mayor and Council Will Be Guests Of C. of C. Directors

The Mayor and members of the city council will be guests of the directors of the Chamber of Commerce at a luncheon at the new Schneider hotel tomorrow evening in a get-together meeting.

The Chamber of Commerce plans to assist the city government in any way possible to improve the city. At the meeting tomorrow evening the coming bond issue election will be discussed, as well as other city improvements where the Chamber of Commerce can assist the city government.

There will be no meeting of the Chamber of Commerce Thursday night because of the regular monthly meetings to be held soon at the new Schneider hotel, which will take the form of a luncheon. The first luncheon meeting will be announced in the near future.

Akers-Dean Wedding Announced

Miss Florence Akers and S. J. Dean were married here at 6 o'clock Thursday afternoon by the Rev. Tom W. Brabham, pastor of the First Methodist church.

Miss Akers, who formerly lived in Lubbock, was accompanied by Mrs. Roy J. Gillispie.

Mr. Dean formerly lived in Wichita Falls.

The couple will make their home here.

LEAGUE BY-LAWS WILL BE READY IN AUGUST

AUSTIN, June 14.—Revised copies of the constitution and rules for the interscholastic league contests for 1927-28 will be issued in August, according to Roy Bedichek, chief of the League bureau at the University of Texas. There will be 9,000 copies of the 75-page book printed, said Mr. Bedichek.

The most important change in the publication is the interpretation of the 20-year-age rule which has been explained to mean that any boy or girl who is 20 years old on or before September 1 is ineligible.

HARD LUCK VICTIM

BORGER (AP)—R. L. Daugherty is claimant for the title of champion hard luck victim. While stanching off a string to oil tools in Hutchinson county he was severely burned and jumping from the truck he broke his leg.

IDEALS—

The spirit and ideals which developed the Calumet region from a wilderness in half a century has been instrumental in the nation's advancement, the President continued. That these ideals might continue to dominate the course of humanity America entered the World War, he said, and helped to perpetuate them through its victorious conclusion.

"When America has drawn the sword it has always been the people who have won," he declared.

Many False Hopes

"While a very large emphasis is entitled to be placed on imperfection, after all it is the progress we have made which is of chief significance," he said. "The conclusion that our institutions are sound, that our social system is correct, has been demonstrated beyond question by our experience. It is always very easy to promise everything. It is sometimes hard to deliver. In our political and economic life there will always be those who are lavish with unwarranted criticism and well supplied with false hope. It is always well to remember that American institutions have stood the test of experience.

"The estimation which we, as a nation, set upon the patriotic efforts of those who have served us in time of war revealed not only in the untold treasure which we have lavished upon them and their dependents, but also in the highest possible honors which have constantly been conferred upon them by their fellow citizens.

To The Unseen

As a people, we stand in respectful reverence before the things that are unseen. It is but a passing glance that we bestow upon wealth and place, compared with that which we pour out upon courage, patriotism, holiness, and character. We dedicate no monuments to merely financial and economic success, while our country is filled with memorials to those who have done some service for their fellow men.

"It has been said that the war was fought to make a world fit for the abode of heroes. I want to see our own country first to make that expectation a reality. But if it is to come true, it can only be through the industry, the devotion, and the character of the people themselves."

Striking Furriers Dispersed Today By N. Y. Police

(By The Associated Press.)
NEW YORK, June 14.—One hundred fifteen policemen today dispersed crowds of striking furriers and arrested 150 men and women, who

Accident Nearly Results As Cars Are Double-Parked

A serious accident was narrowly averted today when double-parked cars on Cuyler street obstructed the passage of the new fire truck, which was taking a corner at a good rate of speed.

The siren had blown in sufficient time for the cars to have taken the curb as the law provides—omitting mention of the ordinance against double parking.

The fire was at the Mason and Cohen tourist camp on the south side, and the siren sounded at about 11:15 a. m. The blaze was extinguished before the truck arrived, although the new machine, out on its third run, made a good start and fast time.

DALEAS (AP)—Dallas is planning to install the tallest fire drilltower in the South. An appropriation of \$7,000 for the project is being asked.

were charged with disorderly conduct.

Long lines of strikers paraded despite rain. Some of them wore steel helmets which they said were for protection from police clubs.
