## SEARCH FOR PLANES FRUITLESS

### Borger Slayer Given Five Years By Jury In Miami

#### DEFENDANT IS MAN LEFT FOR DEAD ON PLAIN

#### Man Killed Said to Have Beaten Him Severely

#### DEPUTY ALSO WAS INJURED

#### Case Is Culmination of What Was Nearly Reign of Terror

(Special to The News.)  
 MIAMI, Aug. 19.—J. W. Popejoy was found guilty and given a five-year penitentiary sentence here last night on a charge of murder in connection with the shooting at Stinnett last spring of Bill Parks.

The jury was out about four hours, returning a verdict at 9 p. m. The trial started Monday.

BORGER, Aug. 19. (Special)—Bill Parks, Pantex and Electric City dance hall owner who was killed by J. W. "Shine" Popejoy, whose trial opened Monday in 31st district court at Miami, was shot March 26 of this year at the townsite office in Stinnett.

A full load of buckshot tore a huge hole in his left side. Popejoy, shotgun in hand, walked to Sheriff Joe Owenby's office and surrendered while Parks was gasping "You got me!" as he staggered into the street and fell dead.

Mrs. Parks was a witness to the tragedy.

**Parks Not Armed**  
 According to bystanders, no words passed between Popejoy and Parks prior to the shooting. Parks had gone to Stinnett to provide bail money for Bob Hanna and associate, (See DEFENDANT—Page 8, Col. 2)

#### German Scientists Aid Turk Farmers

(By The Associated Press.)  
 ANGORA, Turkey, Aug. 19.—That the "new" Turkey is not slowing down on the ambitious farm program which it inaugurated with the establishment of the republic three years ago is evidenced by the arrival here of two German agricultural specialists, Herr Oldenberg and Herr Schmidt, officials of the German Ministry of Agriculture.

They have been engaged by the Turkish government to organize an agricultural institute in the Turkish capital.

Measures taken to aid the condition of Anatolian peasants include the suppression of the tithe, the war waged on brigands and on the overlords who kept the peasants in a feudal state of bondage, the introduction of farm machinery, especially American tractors, the free distribution of seeds and the sending of Turkish students to European agricultural schools.

#### Twelve Harvesters Go Through Pace

Twelve members of the Pampa high school football team were out for punting and catching practice last night. The boys are taking a great interest in the team this season and hope to place the Harvesters at the top of the list.

Members of the team will leave about September 1 for a two-weeks' camp on the Canadian, where they will get in condition for the coming season.

The first game of the season will be in Amarillo August 23. This will be an exhibition game and the season will not start until a later date.

#### McConnell Well To Be Shot Again

The Southern Exploration company intends shooting its No. 1 McConnell in section 174, block 3, sometime today.

The well was shot last Sunday with 100 quarts from 3,260 to 3,290 feet, and after cleaning out made 175 barrels. Before the shot it was making 125 barrels.

The shot today will be of 80 quarts and will be from 3,267 to 3,260 feet.

The Pollard and others' No. 1 Bowers in section 119, block B-2, had a showing of oil this morning at 2,895 feet.

#### Sacco-Vanzetti Pleas Denied by Supreme Court

(By The Associated Press.)  
 BOSTON, Aug. 19.—The full bench of the Massachusetts Supreme Court today overruled exceptions of the Sacco-Vanzetti defense counsel to decisions by Justice Sanderson of that court and Judge Thayer of the Superior Court, and refused to grant a writ of error.

The exceptions were to the refusal of Justice Sanderson to grant a writ of error, and to the refusal of Judge Thayer for a new trial, a revocation of the sentence, and a stay of execution.

These legal steps by the counsel for Sacco and Vanzetti, whose respite from execution for the murder expires at midnight August 22; were based chiefly on allegations of prejudice on the part of Judge Thayer, who presided at the trial, and whose previous refusal to grant a new trial was upheld by the Massachusetts supreme court last fall.

BOSTON, Aug. 19. (AP)—Counsel for Sacco and Vanzetti announced today that they will apply to the United States Supreme Court for a writ of certiorari in behalf of the condemned men.

It will be based upon points involving the United States constitution, they said.

NEW YORK, Aug. 19. (AP)—Two hundred sympathizers met Miss Lucia Vanzetti on her arrival here today aboard the Aquitania on her way to Boston to visit her condemned brother.

BOSTON, Aug. 19. (AP)—A statement that Bartolomeo Vanzetti had become insane was made by Attorney Michael Musmanno today to Warden William Henry after he had visited Vanzetti and Sacco and informed them of today's court decision.

The attorney said that Sacco received the news calmly but that Vanzetti began shouting when he approached his cell.

#### King George's Yacht Second in Race

(By The Associated Press.)  
 PLYMOUTH, Eng., Aug. 19.—King George's yacht, the Britannia, was beaten by four minutes in a special race for a trophy put up by King Fuad during the Plymouth Regatta.

His Majesty competed with the Westward of Mr. F. T. B. Davis, the Shamrock of Sir Thomas Lipton, the Luithworth of Sir Mortimer Singer and the White Heather of Lord Waring. The Westward won. The Shamrock was third, being 45 seconds behind the Britannia.

The five yachts had to cover a triangular 29-mile course twice.

Mr. and Mrs. T. K. Underwood arrived home this morning after a visit in Oklahoma City and the Ozarks.

### THE START OF THE BIG RACE

This aerial photo shows the starting point of the Frisco-Honolulu race. The circle was the spot from which the planes took off; the dotted line indicates the runway along which they sped on their way to the air. Planes waiting their turn at the starting circle can be seen along the side of the field.

### No. 2 Saunders Is Good Producer

Developments of the last 24 hours places the Saunders area of Gray county again to the forefront of interest.

The Gulf No. 2 J. M. Saunders, section 40, block 3, a west off-set to the original well, is making a steady 20 barrels an hour after being brought under control.

Late yesterday accumulated gas blew out the bridge which followed a shot given the test a few days ago, and oil went over the derrick for several minutes. One workman was slightly injured as debris from the bridge blew out of the hole.

The casing crew, finding it advisable to draw the string before trying to drill out the bridge, had drawn all but eleven joints when the bridge suddenly gave way. The result was a deluge of rock and oil and shaking of the derrick as the pent-up energy ran wild.

It is estimated that the well flowed at the rate of 1,200 barrels an hour for three hours, then the control head was placed and the flow settled down to 20 barrels an hour, impelled by the heaviest gas flow encountered in the extension area.

#### Names Submitted for New School

Names are coming into the office of the Daily News for the designation of the new ward school building being constructed in South Pampa.

Mrs. W. E. Davis was the first to submit names. She suggested Edgemere and Sunnyside. Anyone interested may make suggestions, and the names will be given the school board for use in selecting a suitable designation.

#### BY-LAWS ADOPTED

Members of the volunteer fire department last night accepted the additional proposed by-laws.

J. M. Dodson last night was selected treasurer of the department, and J. D. Sackett, H. Huff and Jack Clemmett were elected as a board of trustees.

#### West Virginia Policemen Feud Fatal to Two

(By The Associated Press.)  
 WILLIAMSON, W. Va., Aug. 19.—Two factions of Williamson police met in a street early today and a gun battle ensued, during which two officers were killed.

D. W. Deerfield and Harvey McGuire were victims of the shooting. Julius Lawson and James Kirkpatrick surrendered to county authorities.

Strife in the police department had existed for some time, with one force claiming to be regulars while others were known as deposed officers who had continued to function as privates.

#### First Boy Scout Troop Is Formed By Methodists

The first Boy Scout troop in Pampa was organized last night at the Methodist church.

The boys in organizing decided on the name of Wolf troop, with the Flying Eagle.

This troop will be known in the Scout organization as the National Troop No. 141 of Pampa with Jimmie D. Sackett as scoutmaster, and Berton Doucette as patrol leader.

There are nine members of the Flying Eagle patrol and more will be received. Any boy over the age of 12 who wishes to become a member of this patrol may get in touch with the Rev. Tom W. Brabham, pastor of the Methodist church.

Members of the troop, and other boys who are to become Scouts, will spend three days of next week at the Boy Scout camp near Claude.

#### BARCUS LEAVES

Scott Barcus, manager of the Pampa Chamber of Commerce, left today for Chicago, where he will attend the National School for commercial organization executives, to be conducted at the Northwestern University at Evanston, Ill., from August 22 to September 3.

R. G. Griggs left yesterday on a business trip to Odessa.

#### Miner's Pigeon Outpaces Peer's

LONDON, Aug. 19. (AP)—Pigeon racing is said to be one of the most democratic of sports. This was clearly illustrated this year when the bird by W. Ashman, a Welsh miner, nosed out that of Lord Dewar in the annual King's Cup race from Sebastian, Spain. The miner's pigeon, which won the \$500 prize, beat 1,575 of the best pigeons from England, Ireland, Scotland and Wales.

Capers, or the liquid in which they have been bottled, chopped pickle, lemon juice, tomatoes, or currant jelly added to lamb or mutton chop gravy is suggested as a change and an improvement to flavor.

#### ERWIN TO HOP OFF TODAY TO SEEK MISSING

#### Fear Held That the Doran Plane Is Demolished

#### NAVY USING EVERY FACILITY

#### Present Methods Will Be Continued to Tuesday

(By The Associated Press.)  
 SAN FRANCISCO, Aug. 19.—The Pacific ocean today was the scene of a renewed search for the brown-eyed girl of 22 and four men who may still be afloat upon its limitless leagues.

Mildred Doran and her pilot and navigator, John Pedlar and Vilas Knope, have been down approximately 48 hours, and according to the most helpful estimates the time limit set by the builder of the plane on its ability to withstand the buffeting of the seas, was only 24 hours.

The plight of John Frost and Gordon Scott is considered possibly less acute, as their plane was the last word in sea-worthiness in disabled aircraft.

(By The Associated Press.)  
 WASHINGTON, Aug. 19.—The present elaborate searching operations in the Pacific for the missing Dole aviators will be continued until next Tuesday by the Navy department.

If at that time the fliers are still missing, other plans will be made.

(By The Associated Press.)  
 WASHINGTON, Aug. 19.—Two submarines have been ordered from the island of Hawaii to investigate reports about an object in the water on the route of the Dole Hawaiian flight, in which two planes are missing, Rear Admiral McLean, commander of the submarine division, reported to the navy department today.

OAKLAND, Aug. 19.—Captain William Erwin announced today that he will hop off today in his Dallas Spirit for Honolulu in search for the planes Miss Doran and Golden Eagle.

#### Injunction Asked To Halt Salaries of Tax Commission

AUSTIN, Aug. 19. (AP)—A petition for an injunction to restrain Comptroller Terrell from paying further salaries and expenses to members of the state tax commission, on allegations that the body was illegally formed and constituted, was filed in the district court here today by Representative King Throckmorton.

**HINTS FOR FARM and HOME**  
By THE DEPARTMENT OF AGRICULTURE

Eggs of an estimated value of \$620,000,000 and poultry with a value of \$561,000,000, or a grand total of \$1,181,000,000 were produced on the farms of the United States in 1926. Iowa led all other states in chicken and egg production. Specialized egg farming is particularly important on the Pacific coast and in the northeastern states.

Unless intended for windbreaks, forest tree plantations should be located on the poorest soil of the farm, that least suited to production of agricultural crops. Hillsides, poorly drained land, or rocky, or sandy, situations if possible should be selected. Corners of a farm cut off by a stream or railroad may be chosen. If there are no such places, the plantation should be located near the farm buildings, where it will not only be convenient, but will serve as a windbreak.

Windows of a dairy barn should be evenly distributed so as to permit light to reach all corners of the stable. From the standpoint of sanitation it is not possible to provide too much light, but, because of the rapid radiation of heat from glass, it is necessary to make the area compatible with local climatic conditions. In no case should the window glass be less than four square feet per cow.

Bull calves should be given the same kind of feed as heifer calves. However, they should receive more because their growth is faster. It also is a good plan to delay their weaning a month or two longer than that of heifers.

The best method of abating the fly nuisance is the elimination or treatment of all breeding places. During the summer it is desirable that stable manure be scattered thinly over fields in need of fertilization, or stored in fly-tight pits or bins immediately after voided. Otherwise, the manure pile should be treated with some kind of chemical to kill the eggs and maggots of the house fly. Either powdered hellebore or powdered borax, applied in water, is satisfactory.

A well-planned and equipped barn saves time and labor for the farmer, and provides comfortable quarters for livestock, while the poorly-planned barn is a daily source of annoyance and of wasted time and energy.

"Crop insurance" is a new idea advanced by Sir John Russell, director of the Rothamsted Experimental Station, Harpenden, England. It is now possible, he said, to draw up tables for the expectancy of crop yields, corresponding to the tables for the expectancy of human life which form the basis of life insurance. He believes the farmer's crops can be insured against the hazards of the weather.

**HOUSEHOLD HELPS**

A wire basket is a good accessory in canning tomatoes or peaches. As these fruits must be scalded to get the skins off, the wire basket is used to lower the material quickly into boiling water and out again.

Iron stains on white materials often respond to lemon juice. Spread the stained place over a vessel of actively boiling water and then squeeze lemon juice on the stain. After a few minutes rinse the fabric and repeat.

Bacon sandwiches may be made wherever the picnic party happens to be. Each person can cook his own pieces over a fire with the aid of a forked stick. Many persons enjoy a piece of crisp lettuce in a bacon sandwich.

Slip covers on upholstered furniture not only save the covering of the furniture, but actually make the room seem cooler. They brighten the rooms so that it loses its winter look.

To make children's shoes wear longer buy strong shoes with heavy soles. Keep them well repaired. Grease about once a month, oftener in wet weather, with a mixture of neatfoot or fish oil and tallow.

Fruit gelatins are easy to prepare. The proportion usually is one envelope of gelatine to one quart of liquid, a little less in warm weather. An ounce of gelatine will soften in about two minutes in one half cup of cold water. Heat one cup of water with three-fourths cup of sugar or less, depending on the acidity of the fruit to be used. Add the softened gelatin. Take 2 1/4 cups of strained fruit juice, the juice of half a lemon to intensify the flavor, mix with the

**FRENCH PILOTS READY TO HOP; PLANE EQUIPPED FOR 5,000 MILES**

Experienced fliers in war and peace, Leon Givon (left) and Pierre Corbu now plan to hop across the Atlantic from Paris to New York. Givon will pilot the plane Drouhin abandoned for Levine's plane Columbia.

dissolved gelatine and sugar, and pour into a mold.

"Club" sandwiches are easily made at home. All of them include bacon as one ingredient. A chicken club sandwich commonly is made with three pieces of toasted bread as a basis, and between them two fillings of lettuce, bacon, tomato, and sliced chicken with salad dressing.

**Texas Leads Nation In Church Bodies**

(By The Associated Press.)  
AUSTIN, Aug. 19.—Latest available statistics show Texas in the lead in church organizations with 14,516, and second only to Pennsylvania in the number of Sunday schools, Former Governor O. B. Colquitt, Dallas, reveals in a report filed with the state tax survey commission, of which he is chairman.

Mr. Colquitt recognizes that this information "has nothing to do with investigation of the tax question", but included it in a summary of the cost of education, as a matter of pertinent interest, he said.

Pennsylvania is second in church organizations. The figures showed that latest recapitulation of Texas Sunday School pupils to be 942,739, as compared to the 1926 public scholastic enrollment of 897,356.

**"Spider Law" On Handling Cotton Being Broken**

(By The Associated Press.)  
AUSTIN, Aug. 19.—Investigation of violation of the "spider law", designed to protect workmen handling cotton from injury, is being made by the state labor department.

The law provides penalties for those held responsible for protruding points on cotton bale ties, otherwise known as "spiders."

Within the last six months, Labor Commissioner Charles McKemy said, out of 12,358 bales of cotton inspected, 1,160 "spiders" were found. Responsibility in these cases was determined and agreement reached without prosecution.

**PERRYTON WILL BE HOST ON BIRTHDAY**

PERRYTON, Aug. 19.—Perryton will celebrate her eighth birthday anniversary here August 22 and 23 when she will be host to thousands of visitors and citizens of Ochiltree county. An elaborate program of entertainment and features is be-

ing worked out. Good will motor trips have been made to many points, inviting attendance at the birthday party.

Among the towns which will visit Perryton on the celebration day will be Canadian, Glazier, Higgins, Shattuck, Follett, Darrouzett, Booker, Beaver, Forgan, Liberal, Tyrone, Hooker, Guymon, Goodwell, Spearman, Waka and Farnsworth.

PARIS, Aug. 19. (AP)—Flying in good weather and bad, day after day, is an old story to Leon Givon and Pierre Corbu, two of the Frenchmen who are preparing to hop across the Atlantic from Paris to New York.

Each of them had many hours in the air during the war, and each has added hundreds more in piloting regular commercial airplanes between European capitals.

The plane they are preparing for the ocean voyage is a two-motored Farman with a cruising radius of 5,000 miles, more than enough for the extra-long route they have charted across the Atlantic. By dipping down towards the Azores and then turning toward Halifax they hope to find favorable westward winds and avoid possibly bad weather off Newfoundland. The route is a few hundred miles longer than the Great Circle, followed by Lindbergh, Chamberlin and Byrd.

Givon's flying companion, Pierre Corbu, is a former military aviator, employed since 1926 by the Farman company as a commercial flyer on the Paris Berlin and Paris Amsterdam routes. His commercial flying totals 1,265 hours, although he is only 25 years old. Corbu's military pilot's license was granted when he was 19. He was cited for his daring flights with the Orient Army in Morocco.

Their plane will be equipped with French instruments exclusively. Instead of the earth induction compass, they will use an ordinary French aerial compass. The plane has been christened The Blue Bird. Each of its two Farman motors, set tandem-fashion, develops 600 horsepower. Each propeller has four blades, one motor acting as a propulsive engine, the other as a tractive one. They will carry enough fuel for 60 hours.

**VALUES!**

Such as listed here on known brands of merchandise is one reason why this great chain of stores is the fastest growing in America. Only nationally advertised brands such as the famous Hart Brand canned foods, Del Monte, Heinz, Beechnut, Quaker and many other famous brands. At prices no more than you are asked to pay for unknown brands.

## SPORT TALK

Have you been out to see any of the games at Magnolia Park? The boys in the city league are playing some real baseball and a trip out will convince you that they should be supported.

The Grays will not play ball Sunday, as a pitcher and catcher are needed on the team. Manager Ed Guber is trying to secure positions for a battery he can get here, and if anyone wants to give the two-men work, notify him at 43.

In twelve innings the Yankees beat the Cubs while Washington losing to the Browns gave the New Yorkers a better hold on first place.

Sanders pitched the Amarillo Texans to a sensational win yesterday when Lincoln bit the dust.

The Dallas Steers won the longest game in the Texas league this year yesterday when they started off with a four-run lead but lost it in the ninth. The two teams battled until the fifteenth, when Turkey Gross hit a Texas leaguer, scoring the winning run.

## Gaither Pitches Washrites to Win Over Merten Team

Red Gaither pitched the Washrite ball team in the city league a 2 to 0 win over the Merten team last night at the Magnolia field. Both teams played sensational ball, each pitcher allowing only three hits, but the laundry boys took advantage of the breaks.

Johnson scored in the second inning after a walk, and Gaither crossed in the fourth on a single, two stolen bases and a passed ball. The red-topped pitcher for the Washrites had ten strike-outs, while Ellis had six to his credit.

Johnson was the pick of the Laundry nine, while Sutton showed up well for the men from the lease.

Batteries: Washrites, Gaither and Culpepper; Merten, Lease, C. Ellis and Caldwell, McLunford.

Game tonight—Oilers vs Magnolia. These teams are tied for first place and should put up a real battle.

### City League Standing

Team	G	W	L	Pct.
Oilers	11	7	4	.736
Magnolia	11	7	4	.736
Washrites	9	4	5	.445
Merten Lease	11	3	8	.273

## Texans Lose No Time in Defeating Lincoln, 2 to 0

AMARILLO, Aug. 19.—It required just 73 minutes for the Texans to defeat Lincoln here yesterday, 2 to 0.

This is believed to be a record in the Western league for the last few years of play.

Sanders pitched a great game, and some youngsters being given a try-out gave him good support.

The Texans are resting today, and will tackle the mighty Tulsa Saturday.

## Philippine Fighter After Bantam Title

CHICAGO — Ignatio Fernandez, the latest Filipino bantamweight to invade America, can neither read nor write, even in his own language.

He never went to school. A thumbprint accompanied by the letter "X" is his signature on a contract.

But Fernandez never makes a move without consulting his friend and advisor, Senor Tomas Cortez, graduate of an American university in Manila. Cortez supplies the business sense for the combination.

Fernandez, in his American debut, knocked out Abe Attell Goldstein, winning a mile wide decision by whipping over a finishing blow in the seventh round.

## South Atlantic Hurler To Report to McGraw

(By The Associated Press.)

CHARLOTTE, N. C.—While six scouts looked on at one game and four at another recently, Jack Leroy of Charlotte, leading pitcher of the South Atlantic Association, blew up and was batted out of the box—once by the tall-end team.

All the scouts, with one exception, so the story goes, turned down Leroy, but John McGraw, manager of the New York Giants, bought him with the understanding he is to report at the end of the South Atlantic season.

FLOWMAN FINDS COIN

FORT LARAMIE, Wyo.—Harry Latta, plowing near the old fort, turned up a half dollar, little worn and dated 1808. Old timers are speculating on whether Jacques La Ramie, trapper, after whom the fort was named, might have had a hole in his pocket. La Ramie came here in 1815.

## LOOKS 'CROSS THE CHANNEL

Millie Hudson, young South African natatrix, hopes to be the next woman conqueror of the English Channel. Note her mannish bob.

## Polo in Spain Played by Army

(By The Associated Press.)

MADRID, Spain, Aug. 19.—Although King Alfonso on advice of his physicians, has been compelled to give up his favorite sport of polo, he continues to take an intense interest in the game and its development among Spanish army officers.

Since 1924, through the king's encouragement, the number of regular army players has increased from seven to 60. Nearly every cavalry regiment now has a team. The Ministry of War has acquired a number of ponies in the Argentine for distribution among the teams. Grounds are now available for matches in Madrid, Jerez, Cordoba, Barcelona, Valladolid and Sevilla.

Spain suffers from a lack of civilian players, of whom there are less than 20, most of them personal friends of the King. These play only in Madrid and in Santander. Besides the King the leading civilians are the Marquis de Villabragima and the Duke of Penaranda. Both have an international reputation.

One of the chief promoters of the game is the Marquis de Villavieja, who, although past taking an active part in the game, shows great enthusiasm and energy.

# BILLY EVANS Says

## THIRTY WINS IN YEAR

It has been a long time since a major league pitcher has been able to win 30 ball games in a season.

Charley Root of the Chicago Cubs is the only hurler who has a fair chance to turn the trick this year. Root has already passed the 21st milestone.

If my memory serves me correctly, Jim Bagby was the last American league pitcher to turn in so remarkable a performance. In 1920 he helped Cleveland win a major league pennant with his 31 victories.

Grover Cleveland Alexander was the last National pitcher to win 30 ball games. That was in 1917. At that time Alex was at the height of his game. His 30 wins of 1917 were preceded by 33 victories in 1916, and 31 in 1915, a matter of 94 games won in three consecutive years. Some pitching!

The ball has been getting livelier every year since those days and the 30 mark hasn't been seriously threatened, unless you care to consider 27 victories as such a threat.

## Root Has Chance

Despite the remarkable ball which Root has pitched for the Cubs this year his chance to reach the mark is just a remote one.

The day that Root won his 21st ball game of the year, there remained to be played 48 games on the Cub's schedule of 154 contests. Figuring Root to work every fourth day, he is due to start twelve of those 48 games. That means he must win nine of the 12 starts to win 30 games.

However, if Manager McCarthy is pressed and Root can stand the work, he may be used oftener than every fourth day. In all probability, he will be pressed into service as relief pitcher in some close score games.

While the chance is rather remote, Root can make the grade if he continues to pitch in the home stretch as he has in the first 100 games of the season. Here's hoping he does. It would be a fitting climax to a great year.

To win 30 ball games a pitcher must get more than his share of

## Major League Player Also is News-Writer

DETROIT, Aug. 19. — Johnny Neun, Detroit Tiger first baseman, is a baseball player in the summer and a reporter in the winter.

As soon as he doffs his Tiger uniform, he hurries to his desk on the Baltimore Sun. At odd times he referees and writes about soccer games.

Neun has been in many spectacular plays this season. He turned in the only unassisted triple play in the American league. In a seven-inning game, he stole five bases and made five hits, all singles. During a double header with New York, he stole home in each game, the second time under the eagle-eyed Herb Pennock.

September 4 and 5 will see some real baseball in Pampa when either Lubbock or Lone Wolf, Okla., will be the opposition for the Grays, over Labor Day. The teams will probably play a three-game series.

pitched, the Cleveland bats were always silent and usually an error or two would prove costly.

The season of 1920 when Bagby won 31 games, showed perhaps a dozen other pitchers equally effective, but Dame Fortune didn't smile on them as on Jim.

## Have you ever made good on one job.. for 39 years?

THE extra mileage you get from Dunlop tires starts with the fact that Dunlop has had thirty-nine years of tire-building experience—more than any other tire maker.

Each part of each Dunlop is built right. Dunlop owns its own cotton mills to spin selected long-fibre cotton into the special Dunlop cable-twist cords.

These cords mean extra strength—an added factor of safety against constant load and pounding of roads—longer life and greater mileage.

They mean extra "stretch"—so the tire carcass will give under blows, and come back to its original shape without the slightest injury.

Every Dunlop you buy has extra miles built into it because Dunlop knows each part of its job. That is why we recommend you put Dunlops on your car.

SUBSCRIPTION RATES

Table with 2 columns: Rate (By Carrier in Pampa, By Mail) and Price (One Year, Six Months, Three Months, One Month).

NOTICE TO THE PUBLIC

Any erroneous reflection upon the character, standing, or reputation of any individual, firm, concern, or corporation that may appear in the columns of the Pampa Daily News will be gladly corrected when called to the attention of the editor.

Telephone 100, all departments

DRESIDENTIAL — One of the disagreeable things about being president, it is said, is the need for always being informed on any question that may arise.

The latest presidential speech was before 7,000 Indians of South Dakota. True to form, the Great White Father promised a lot, admitted the injustice from which the Indian has often suffered, and declared sentimental appeal can have no beneficial effect.

HEALTH FATAL — No other class of people with as valuable information as physicians and hospital attendants possess are so reticent about passing it on from day to day to those who need it.

BUNK, FINE! — Asked if he had accepted, as reported, an offer to coach baseball at the University of Wisconsin, Prof. W. J. (Billy) Disch of Texas university declared the report was "all bunk."

Let's Give the Lad a Rest

with pleasure by his many admirers. Not only is he an unusual coach, but his long, successful tenure has been built upon the ideals of play and character which Texans like to see promulgated in the state institutions.

Another fine old character is Dr. Penick, called the greatest doubles coach in tennis in the country. His teams go on year after year winning consistently and turning out occasional stars of the first magnitude.

OUR TAXES — Tax reduction is something most of us can applaud, but tax refunds never get down to the small fry, who don't care much whether the melon is cut or not.

TOO BIG — Borger, like Pampa, has found it no longer advisable to operate as a city under the old general law. Borger has something of an innovation in the way of a charter—a plan to make the mayor the city manager and pay him \$4,000 a year.

STEEL — The collapse of Elbert H. Gary, queerly enough, comes at a time when his successor was already being discussed, together with the menace, real or perhaps

TWINKLES

We think those deluded foreigners who think a reign of terror will aid justice in this country should be given enough terror to change their minds.

Well, we could have a hog-calling contest if we had enough hog raisers.

Now that we have a new jail nearly completed, those who want to try it out should do so before the covies migrate from the older roosts.

What has become of the old-time editor who was forever pulling gags about the hairpin?

imagined, of a coalition between the U. S. Steel Corporation and General Motors.

Alfred P. Sloan Jr., head of General Motors, was said to have become something of an understudy to Gary. Since the death of the latter, however, Pierre S. Du Pont has been frequently mentioned. It seems inevitable that the giant industries will become more closely affiliated as a result of the death of that remarkable man, Gary.

Known as one who treated his employes "white," Gary was a figure who in himself represented one of the mightiest industries, and of whom it could be said that his decisions swayed the financial structure of the nation.

It does look sometimes like some good-hearted philanthropists with nothing to do are trying to make idlers out of folks who can't be philanthropists.

CHOOSE AGAIN — Lindbergh's "We" has been surpassed by the president's "Choose." We cite Ambassador Herrick as authority for a new interpretation of the Coolidge's statement "I choose rather to live."

Is it true that Coolidge realizes the man-killing strain of being president, and is unwilling longer to sacrifice his own welfare? It appears possible.

WASHINGTON LETTER

BY RODNEY DUTCHER, NEA Service Writer.

WASHINGTON.—The Hon. Joseph C. Grew, our new ambassador to Turkey, comes from an aristocratic and wealthy family, but the Hon. Mr. Grew encountered many hard knocks as he clambered up the promotion ladder to his recent post as under-secretary of state.

You sometimes hear of the career service in diplomacy as a sort of graduate school for tea hounds, but Grew, graduated from Groton and Harvard, would have found things much softer had he heeded the family urge to enter business.

The family came in handy when Bellamy Storer, ambassador to Austria-Hungary and a friend of the Grews, asked President Roosevelt to make the young man second secretary to Vienna. But Roosevelt refused. Then an assistant attorney-general, a friend of Grew's brother, went to work on Roosevelt. After two or three unsuccessful attempts—Roosevelt pleaded "political pressure"—this official told Roosevelt about Grew's tiger-hunting in China. Roosevelt immediately appointed Grew as third secretary at the embassy in Mexico City.

Grew cites his own experiences as evidence that the service is no bed of roses.

While serving at Cairo he married and had a large consignment of valuable wedding presents shipped to Cairo. The ship went down off the Barbary coast. When the Grews started for Mexico, Mrs. Grew became ill in Italy enroute, Grew took her to France and left her to recuperate. As he stopped off in Washington, a kind assistant secretary of state told him to go right back to France and stay with his wife until she recovered.

Meanwhile their trunks remained for months on the Vera Cruz docks because the embassy hadn't moved them to Mexico City as requested. When Grew arrived an claimed diplomatic free entry for the baggage, customs officers ripped open and ransacked

the trunks and before they got to his residence he had lost half the family silver and all of Mrs. Grew's wardrobe. He sued the Mexican government and paid the costs of the suit.

Six months later, the altitude made Mrs. Grew seriously ill and she was carried out of Mexico on a stretcher, completely paralyzed. Transferred to St. Petersburg, he telegraphed the embassy at Mexico City to forward baggage and a lot of fine old furniture he had collected there. Some of the baggage arrived five months later, but the furniture was never heard of.

Grew's early troubles make a story which isn't at all isolated. Other members of the foreign service tell even more harrowing tales.

Grew happened to be a man of means. Less fortunate members of the service in his care, dependent on their salaries, have been forced out of the service or sorely crippled by similar complications.

Political pull is not now so necessary in entering the service and salaries are somewhat higher, but men without private means find the business of diplomacy virtually impossible. Even if they have no such hard luck as Grew's, they can't meet the entertainment requirements for which the government provides no allowance.

A New Jersey little boy cruised five miles out to sea on an automobile inner tube. Maybe he had heard that Lindbergh crossed the ocean on a sandwich.—The Detroit Free Press.

Thrice is he armed who hath his quarrel just inside the city limits of Chicago.—The Los Angeles Times.

MOM'N POP Slim Chances By TAYLOR

Comic strip panel 1: Why so quiet, Pop? Thinking about your trip—afraid? What? Me afraid? I should say not!—on the contrary I'm all enthused about it—

Comic strip panel 2: Gee! I wish there was some way you could get out of going. What—me back out now? No sir! I've signed an agreement and I'm going to stick with it.

Comic strip panel 3: But, Pop, you should have thought of the children and me—how will we feel—what will we do if anything happens? Well, Mom, if the worst comes, you can at least face the world and say—my husband was a hero—he sacrificed his life in the performance of duty—his word was his bond and he met the end rather than be a coward in the eyes of his fellowmen—

Comic strip panel 4: Doggone it—I wish there was a way out of this!

# CHURCHES

**Church of Christ**  
 Services are held at the new church on the corner at Francis and Warren streets, six blocks east of the high school.  
 Bible study, 9:45 a. m.  
 Preaching, 11 a. m.  
 Communion, 11:45 a. m.  
 Preaching, 8 p. m.  
 Evangelist T. L. Gray will preach at both morning and evening services, and also at each evening at 8 p. m. during the week.  
 We want you to come and enjoy every service.

**Methodist Church**  
 Last Sunday was a great day for us. Two large crowds were present, and the Sunday school had a good attendance. We are expecting even greater things this Sunday. There is a special program for each service.

Sunday school starts promptly at 9:45 a. m. Bring your Bibles with you. Get in some class. We will make a place for you.

The pastor will preach at both hours. The morning theme will be "Serving God with What We Have," and for the evening, "God's Worry, or Does God Care?"

These two sermons will be for the Christian people, and messages that every Christian should hear. There will be special music at all services. The orchestra will play at each. Every member of the church is urged to be present.

Our doors are open to all — come and worship with us at the church with a glad hand.

**Christian Science**  
 Christian Science services are held in the First National bank building.

The subject for Sunday at 11 a. m. is "Mind." Sunday school is held at 9:45 a. m., and the Wednesday evening service is at 8 o'clock.

You and your friends are invited to attend these services.

## Menus for the Family

**BY SISTER MARY**  
 Breakfast—Orange juice, cereal cooked with dates, cream, egg toast, milk, coffee.

Luncheon — Creamed celery on toast, caramel custard, graham cookies, lemonade.

Dinner — Stuffed shoulder of lamb, eggplant fritters, succotash, curly endive with bacon dressing, apple snow with boiled custard, sponge cake, milk, coffee.

These are simple menus that should meet the needs of the average family with small children under school age as well as older ones. With the exception of the fritters in the dinner menu there are no dishes unsuitable for children as young as four years of age. If the stuffing is not too highly seasoned and rich a small amount can be served even the four-year-olds.

**Eggplant Fritters.**  
 One eggplant, three eggs, grated cheese, dried bread crumbs, 1-2 teaspoon salt, 1-2 teaspoon mustard, 1-4 teaspoon pepper, 1-1/2 cups flour, 1 teaspoon baking powder, 3-4 cup milk, 2 teaspoons melted butter, 1-2 teaspoon salt.

Paré and slice eggplant. Sprinkle each slice with salt, pile on a plate and cover with a weight of one pound or more. Let stand one hour, drain and throw away juice. Saute as usual. Put yolks of eggs into a bowl without beating. Use half as much bread crumbs as there is grated cheese and add enough of this mixture seasoned with salt, pepper and mustard to the egg yolks to make a stiff paste. Spread one side of half the eggplant slices with the mixture. Cover with remaining slices. Press firmly together and dip in the batter. Saute in a hot well-greased frying pan until nicely browned on both sides. To make the batter mix and sift flour, salt and baking powder. Add milk

## HOME HARDER TO RULE THAN STEAMER, SAYS WOMAN CAPTAIN

CAPT. BLANCHE LEATHERS

Speedboats and oil burning liners have been a stronger force than family tradition, ousting Mrs. Blanche Leathers from her profession of river pilot. Now that she is a land-housewife, she regrets the days when the "Natchez" of which she was captain, rolled down the Mississippi.

NEW ORLEANS, La., Aug. 19. (AP) — Piloting a household is much more difficult than directing the progress of a Mississippi river steamer, declares Mrs. Blanche Leathers, who has done both successfully.

Mrs. Leathers is the only regularly licensed woman captain of a Mississippi river steamer.

"The worst I ever heard of on the river in my years of association with men was a little clean cursing," she says. "Women are much worse than men."

Capt. Leathers directed the activities of the steamer Natchez, fourth of that name. It was a direct "descendant" of the Natchez which made the memorable race up the river with the Robert E. Lee.

Jefferson Davis was a passenger on her boat on his last trip to his Mississippi plantation. He gave her a bottle of rare Madeira wine with the parting injunction the wine should be opened in honor of her first child.

River steamboating was in its heyday during the period in which the Natchez moved majestically up and down the stream. Gamblers made regular trips with the cotton planters, who were their greatest

prey. Capt. Leathers saw fortunes won and lost aboard the boat. Plantations were mortgaged, she says, to pay debts to the "gentlemen of the green cloth."

The Natchez also had its bar. Here Southern gentlemen sipped mint juleps or drank their whiskey straight. Many dinner parties with dancing to the accompaniment of banjos and guitars took place on the Natchez.

But there was a serious side to the life too. Passengers, sometimes numbering 500, had to be looked after as well as crew and boat. Once she brought the Natchez into New Orleans with 5,500 bales of cotton aboard. Wracks and near wrecks came into her experience.

With the demand for more speedy transportation and the growing popularity of railroads, business slumped and the Natchez finally went under the auctioneer's hammer. After the death of her husband, son of the captain of the first Natchez, Mrs. Leathers quit the river. She now regards the world quite from the comfort of her home. But times are not like they once were on the great, rolling Mississippi, she regrets.

and melted butter slowly, stirring vigorously to make smooth. Fold in whites of eggs well beaten.

One of the prettiest parties of the season was given yesterday afternoon by Mrs. W. L. Woodward.

Bridge was the favorite pastime, with Mrs. Carlock winning high score and Mrs. Bratton low score.

The color scheme was carried out in a profusion of yellow and white daisies, which were placed in beautiful vases over the room.

A delicious ice course was served on plates fashioned like daisies.

The guests included Mrs. J. S. Wynne, Mrs. DeLea Vicars, Mrs. C. L. Thomas, Mrs. J. C. Walstad, Mrs. W. A. Bratton, Mrs. Marion Howard, Mrs. J. M. McDonald, Mrs. L. N. McCullough, Mrs. C. T. Hunkapillar, Mrs. Lynn Boyd, Mrs. J. M. Dodson, Mrs. A. H. Doucette, Mrs. Carlock, and Mrs. Howell.

### Amarillo Visitor Honored Here

Mr. and Mrs. I. B. Hughey entertained delightfully Wednesday evening complimenting Mrs. Alice Crawford of Amarillo.

At bridge, Mrs. J. D. Sugg won high score for the ladies and Ivy Duncan for the men. Low scores were credited to Mrs. Vicars and Siler Faulkner.

The guests included Mr. and Mrs.

Lewright, Mr. and Mrs. DeLea Vicars, Mr. and Mrs. Lester Sills, Mr. and Mrs. O. K. Baker, Mr. and Mrs. Edwin Vicars, Mr. and Mrs. C. P. Buckler, Mr. and Mrs. J. D. Sugg, Mr. and Mrs. Carson Loftus, Mr. and Mrs. Siler Faulkner, Mr. and Mrs. Henry Thut, Mr. and Mrs. Guy Carrington, Mr. and Mrs. Ivy Duncan, Mr. and Mrs. Fred Cary, Mrs. J. E. Murfee, Mrs. Parks, Mrs. Alice Crawford, and Miss Jackson.

### Mrs. S. A. Hurst Is Hostess

Mrs. S. A. Hurst entertained the Ace High Bridge club this week at her home on North Somerville Thursday.

Mrs. W. A. Gray won high score, Mrs. Ed Gober second high, and Mrs. Bryson the guest prize.

Guests included Mrs. Billy Lang, Mrs. Kelly Holt, Mrs. Joe Manson, Mrs. W. A. Gray, Mrs. Ed Gober, Mrs. Ed Bryson and Mrs. Ed Waters. Refreshments included a delicious ice course.

### Mrs. Gatton Is Club Hostess

The Thursday Bridge club met this week with Mrs. W. O. Gatton.

During play, Miss Elva Killingsworth won high score, Mrs. Raymond Harrah second high, and Mrs. C. Holloway the cut.

Delicious refreshments were served to Mrs. John Willis, Mrs. John Cram, Mrs. Raymond Harrah, Mrs. W. E. Coffee, Mrs. J. D. Sugg, Mrs. Van Carter, Mrs. John Studer, and Miss Alma Willis and Miss Elva Killingsworth.

### FINE SUDAN CROPS

CHILDRESS—Idle pastures are being converted into Sudan grass fields for milk profits in Childress county. Dairy farmers in this region have learned that one acre of Sudan grass equals about 20 acres of native grass as a milk producing food, and are sowing the plant to make their pasture yield the greatest return.

## Slenderizing

A narrower heel than the usual, that slenderizes the ankle, is a new and practical note in hosiery.

A new crowd of homeless children, recruited from the families of peasants, are roaming the streets of Moscow, organized into thieving gangs.

Claire Windsor won a divorce from Bert Lytell on the charge of cruelty.

Try a Daily News Want Ad First.

## Days of Small Farms Declared Numbered

(By The Associated Press.)  
 MADISON, Wis., Aug. 19.—Vast farms, operated with motorized equipment and with farm homes as modern as city dwellings, is the inevitable future of American agriculture, believes F. W. Duffee, University of Wisconsin agriculturist. Rural population will continue to decrease, he thinks. "As a mechanical equipment becomes more general, small farms will not be prosperous," he says. "Acreage will be consolidated and farms operated as an industry."

## SWEETWATER BAND IS REORGANIZED

SWEETWATER, Aug. 19.—The Sweetwater Gold Medal band, official music makers for the West Texas Chamber of Commerce, has reorganized and elected B. E. Robinson as manager and assistant director. The organization is now housed in the beautiful new municipal auditorium of Sweetwater, which is recognized as one of the finest such structures in the west.

Claude Henderson, director of the band, has announced that regular rehearsals will be held each Wednesday night in the new home.

### PARIS CAT MAGAZINE HAS SOCIETY COLUMN

PARIS (AP)—A society column for cats has been included in the new Paris magazine, "The Feline World." The magazine is devoted only to "literary, artistic, scientific and other news concerning the feline tribe and its biped friends."

Short stories, verse, announcements of weddings, births, and deaths among four-footed furred pets and similar information is published in this new monthly, edited by "The Cat Without a Name."

Eminent cat-lovers discuss "whether animals' sufferings entitle them to compensations in another life," cat psychology, plans for a free animal hospital and like subjects.

### SAYS AIRPLANE LIMIT IS FIFTY FIVE TONS

PARIS (AP)—Commercial airplanes eight or ten times as large as those now built are practical, says Leon Kirste, an expert. Beyond that, he believes, the laws of science will call a halt.

Kirste's calculations were presented recently to the Academy of Sciences. He deduced that the limit of practical total weight of a fully loaded commercial airship is 55 tons. The load limit was put at a little more than nine tons. He estimated the practical flying range of such a plane at about 1,000 miles.

### FEWER FRENCHMEN BUY GARLIC AT FAIR

PARIS (AP)—The Frenchman, because of the economic crisis, is apparently putting less garlic in his stew.

The traditional Garlic Fair, one of the events of the year in the Tours region, has just closed. It was much livelier than usual. Growers expected a heavy sale. The crop was abundant and prices were low, varying from 25 to 50 cents a hundred head, according to pungency. But while there were plenty of spectators, there were few buyers, and only in small lots.

### BUYERS HAVE CLOSER VIEW OF MODELS

PARIS (AP)—Beauty standards for Paris mannequins have been so raised in the past few years that some of the girls would now do credit to the first row of the Ziegfeld Follies. Most of the customers, therefore approve the closer view which is afforded them by the greater intimacy of the modern showrooms.

One dressmaker has ripped out the little theatre which has been a characteristic of his salons, and substituted a long low runway, which permits closer view of the styles. The change, made at the sacrifice of 50 seats, is necessitated, he says, by the new models, who require very close scrutiny for maximum appreciation.

### GENTLE JURIES BLAMED FOR MANY LOVE CRIMES

PARIS (AP)—Sentimental juries and French sympathy with "crimes of passion" are creating quite a stir among those who think a few executions and plenty of long prison terms would make life safer.

It is even suggested that murder cases be taken from juries and tried by judges who generally pay more attention to the law and the evidence than they do to the anguished heart-throbs that move many.

J. H. Rosny, novelist, is among those who feel French criminal jurisprudence has about broken down. Juries, says Rosny, citing recent instances, are more lenient toward those who kill than those who wound. He gives it as his observation that assault is more severely punished than murder, on the average.

Some defenders of the jury system say juries frequently acquit because the penalties are too heavy and that if juries could fix sentences they would convict more often.

### FRENCHMAN DEVISES SHORTER "LONGHAND"

PARIS (AP)—Shorter "longhand" said to be adaptable to all languages is offered by a blind Frenchman.

Paul Remy, blinded thirty years ago, says his experimental teaching has produced in two months' study stenographers capable of writing 120 to 180 words a minute.

Remy describes his system as being fundamentally the elimination of all vowels, the use of ordinary letters for consonants and the substitution of periods, accents and similar marks for diphthongs, accents and whole syllables.

### OLD ROYAL EDICT BARS PARISIANS FROM RIVER

PARIS (AP)—River bathing in the open is forbidden in Paris, but only lately have the police learned that they are enforcing a decree of Louis XVI, adopted in 1688.

When a woman and her husband, both in bathing suits, were arrested

recently the loud protests they registered caused the authorities to dig up the ordinance they were enforcing.

The police had orders not to permit bathing in the river Seine but they did not know why. They know now that the rule is absolute and that costume has nothing to do with it.

In scores of entirely enclosed bath-houses along the river, however, thousands bathe daily. Much family linen is washed in the dozens of big laundry boats moored to the banks in the center of the city.

### Stocker Cattle Higher On Market In Fort Worth

FORT WORTH, Aug. 19.—Receipts of cattle have been lighter this week, and prices have regained some of the losses of last week. Fat steers are about steady with the close of last week, while stockers are selling 10 to 15c higher.

All classes of butcher cows, including canners and cutters, are 15 to 25c higher than the mean close of last week, while in some instances grass heifers have sold 25 to 50c higher.

Strictly choice cows are selling from \$6@6.50, with a few fancy fat cows a little higher; good cows bringing \$5.50@5.75, with medium kinds \$5@5.25. Cutters \$4.25@4.75; canners \$3.75@4. Anything on the baby beef order in good demand at prices steady to strong with any time. Fat suckling yearlings are selling from \$8.50@10.

The calf market continues strong and active this week, best heavy and medium weight calves selling from \$9@9.50, though good medium weights, averaging around 250 lbs, sold this week from \$10@11. Medium to good kind of calves bringing \$8@9; fair kinds \$7@8. Choice veals advanced Tuesday to a top of \$12.25, bulk of the best veals selling from \$10.50@12.25, with the fair to good kinds from \$9@10; half-fat veals \$7@8. Fat butcher bulls selling from \$5.75@6; heavy hologna bulls \$5@5.50; light weights \$4.50@5.

Hog market Tuesday was 10 to 15c higher, top at \$10.85 for one load of 170 lbs. hogs. Bulk of the best light butcher hogs quotable from \$10.65@10.80. Best packing sows \$7.50@8; rough, heavy sows \$7.00@7.50. Heavy hogs in very poor demand are selling about \$1 per hundred under light butchers.

Sheep are steady, best wethers selling from \$7.75@8; fat yearlings \$10@10.50. Strictly fat lambs around \$11.50.

### Inspector of Game Wardens Appointed

RAYMONDVILLE, Aug. 19.—Game Warden Robert Snow, brother of Sheriff Luther D. Snow of Willacy county, has been appointed inspector of game wardens of the state game commission, Will J. Tucker.

He left here for the Davis mountains, carrying with him the famous pack of lion-hunting dogs belonging to Sheriff Snow, and will hunt there, endeavoring to reduce the number of bears and mountain lions which are said to be depreeding on livestock in that section.

Snow stated that he would make either Raymondville or Kingsville his headquarters, but that most of his time will be taken up in traveling about the state. His particular work will be that of organizing and correlating the energies of the state game wardens, in order to get better results from their work.

He has held the position of game warden for Kenedy and Willacy counties for some time. Recently he lassoed and captured a mountain lion, and without assistance, bound and carried him on his shoulder into camp.

### Houston Chorus Girls Can't Single Out Individuals

(Special to The News.) HOUSTON, Aug. 19.—Girls of the chorus and soubrettes may no longer single out a bald headed man in the front row at Houston theatres and sing a "dady" song to him. Mrs. Thomas Eggert, secretary of the Houston censor board, says such songs are not nice and has banned them.

All Houston theatre managers have been warned not to permit the practice. Jesse Warden, manager of a small theatre, said he "could not understand it," and Eddie Bremer, head of one of the largest houses, said he had been "warned against girls singing to individuals."

### Pay-Day Law Is Declared Too Limited

(By The Associated Press.) AUSTIN, Aug. 19.—The "semi-monthly pay day law" providing punishment for employers failing to pay off their workmen at regular intervals, is inadequate because it renders only an indirect service for the wage claimant," Charles

McKemy, state labor commissioner, charges. "This law does not directly authorize the labor department to act in behalf of the claimant but imposes a penalty on the defendant, thus making it possible to punish the violator and only indirectly serves the claimant. It supplies a need but is not broad enough to protect all wage earners."

"The number of cases in which

wage earners are not paid is surprisingly large and is growing from year to year." Only one complaint charging violation of the semi-monthly law has been filed by the present labor department. It involves around \$20,000 and now is awaiting trial.

Bills of sale for transfer of automobiles can be secured at the Pampa Daily News office.

RALEIGH, N. C. (AP)—Being a cripple has not prevented Clifford Sipe, Catawba county farm lad, from raising a prize flock of chickens. Clifford, who is 13 years old, makes his rounds about the farm in a wagon, the motive power of which is furnished by a billy goat. Last year he made a net profit of \$100 from a flock of Dark Brahmas. Clifford and the goat also attend school regularly.

# What Doctors Say About Smoking and Throat Protection

An advertisement based on the opinion of 9651\* physicians

Mary Lewis, Famous Metropolitan Star, writes:

"Because they never irritate the throat and because of their finer flavor, Lucky Strikes are my favorite and of all whose voices are precious."

"Can I really smoke without irritating my throat, even if my throat is unusually sensitive, and even if I smoke as much as I please?"

A number of physicians, many of them leading physicians, in various parts of the United States, were recently asked these two questions:

Q1—In your judgment is the heat treatment or toasting process applied to tobaccos previously aged and cured, likely to free the cigarette from irritation to the throat?

9651 doctors answered this question "YES".

Q2—Do you think from your experience with LUCKY STRIKE cigarettes that they are less irritating to sensitive or tender throats than other cigarettes, whatever the reason?

11,105 doctors answered this question "YES".

You have noticed in the newspapers and magazines the opinions of many whose voices must be maintained unpaired—opera singers, actors and actresses, men prominent in public life, radio announcers. These opinions are confirmed by the opinions of those whose business it is to know.

## "It's toasted"

No Throat Irritation - No Cough.

\*WE HEREBY CERTIFY that we have examined signed cards answering Questions One and Two and that there are 9651 affirmative answers to Question One and 11,105 affirmative answers to Question Two.

### Bigger and Better Tri-State Fair Is Promised This Year

AMARILLO, Aug. 19.—Not only has every effort been made to make the Tri-State exposition in Amarillo, opening Monday, September 11, a necessity from an educational point of view, but the amusement features of the fair will be of such a calibre as to command the interest and respect of every patron.

It isn't stretching the truth any to say that the Tri-State exposition this fall will be "bigger and better than ever". Reports just made by exposition superintendents to the fair directors indicate that every foot of available space will be filled.

The livestock and agricultural exhibits will be the equal or superior to similar exhibits in the past. The home economics, textiles, fruits and the like, will be greatly enhanced in value this year, the fair board has been informed.

Chief among the amusements for the week of the Exposition will be an extravaganza to be presented under the auspices of the World Amusement company, recognized as one of the soundest firms dealing in outdoor attractions. This extravaganza will be given evenings and there will be more than 80 performers in it.

In the afternoon there will be open air theatrical review stunts in the exposition grounds. There will be a change of program twice during the week; there will always be band music, matinee and evening.

Two days during the week will see automobile racing of exceptionally high calibre. The one-half mile dirt track driver of the world, Dick Calhoun, were to be here. The fair management is assured that the class of drivers and cars will far surpass anything of the sort ever presented in the Panhandle country.

It has been the aim of the reorganized fair association to make the exposition this year outstanding in every respect, and the word is being broadcast by the fair management that it will be well worth the time of every man, woman and child in the plains country to spend at least two days in Amarillo during the week of the Exposition.

Enlarged premium lists have increased interest in presenting exhibits, and by adding one or two classes in almost every division where premiums are to be presented, the fair management believes it is assured of record-breaking entries in every department, from cattle to corn and from needlework to books and literature.

### Railroads Pay Fourth As Much As State's Revenue Fund Totals

AUSTIN, Aug. 19.—The principal railroads of Texas paid ad valorem taxes totalling \$6,962,720 to the state, counties and local districts last year, figures compiled by former Governor O. B. Colquitt, chairman of the state tax survey commission, show.

This sum is more than one-fourth of the total appropriation from the state's general revenue fund to be spent for support of the state during the fiscal year beginning September 1.

Some small railroads have not reported their tax payments, but their position is not enough to make much difference in the total. The railroads reporting paid more for state taxes than for any other single purpose, the total being \$1,784,354.

The remainder was divided as follows: counties, \$1,507,677; cities and towns, \$1,428,166; school districts, \$1,064,004; road districts, \$1,108,768; drainage districts, \$69,751.

### Capitol Bath Tubs Populist Survival

TOPEKA, Kans. — Bath tubs, installed in the office suites of the governor, the secretary of state and the state treasurer at the Kansas statehouse when the Populists were in power a third of a century ago, are still kept clean and polished by janitors.

But they are never used, for since the Populists went out of power plumbing facilities have been extended to all the houses in Topeka.

Frank J. Ryan, present secretary of state, chided the Populist administration 20 years ago because use of the bath tubs was abandoned. He is now nearing his fifth year as secretary of state and has not yet bathed in the tub.

Reindeer skins from Alaska are being used by furriers as an imitation mink fur in the manufacture of coats.

### It's the Punch that Draws the Crowd

By ALAN J. GOULD  
(Associated Press Sports Editor)  
NEW YORK (AP)—It's a habit among the "wise ones" of the ring to string with the fighter who has the better punch.

It's the wallop that wins, as a rule, and it's the "sock" that appeals to the crowd nowadays, whether it is delivered with a fist, a tennis racquet, golf club, baseball bat, or polo mallet.

Look over this list of "heavy hitters" and you will realize why they are all at or near the top, drawing the bulk of popular interest and figuring in the main melees of 1927:

Helen Wills, the hardest hitting among all women tennis stars.

"Big Bill" Tilden of the 'canonical' service and "Little Bill" Johnston of the booming fore-hand drive.

Babe Ruth and Lou Gehrig, twin battering rams of the diamond, the mightiest hitting combination the game has ever known.

Devereux Milburn and Tommy Hitchcock, polo's heaviest hitters, the top-ranking players at the game.

Jack Dempsey, aiming at a heavyweight come-back with fists that pack much of their old-time dynamite.

Molla Bjurstedt Mallory, the present national tennis champion, won the title seven times on sheer power alone until Helen Wills came along to dethrone her in 1923. The California girl had developed even greater power of stroke than Mrs. Mallory. Miss Wills' come-back this year, after a period of illness, has been marked by the most sensational stroking "punch" any woman has ever shown.

Similarly Tilden and Johnston, although they have passed the peaks of their greatness, ruled international heights chiefly on the tremendous power in their games. Both are versatile, but in a pinch it has been Tilden's booming service and Johnston's blazing fore-handers that have proved the main weapons.

The lively ball has put a premium on the wallop in baseball. The crowd prefers the home run to the "squeeze play," or "inside stuff." Ruth's tremendous hitting opened up a new era in a game in which the resounding smack of the circuit blow now echoes from one end of the baseball front to the other. Gehrig has come along this year to give the Babe a

spectacular race for long-range honors, a tussle of titans that is furnishing even greater interest than the pennant chases.

On the polo field, Milburn and Hitchcock are the twin long-hitting aces upon whose prowess America is banking heavily for the International Cup matches with Britain in September. Milburn, 46-year-old veteran, is the hardest hitter this thrilling game has ever known. His long, looping wallops at the willow ball have turned the tide of many a game. Hitchcock, younger, and a brilliant forward, isn't far behind the "old master" at getting range to his shots.

Jack Sharkey probably will testify that Dempsey still packs a mighty wallop with either fist, regardless of how much speed of finesse the veteran Manassa Mauler may lack. The come-back of the heaviest hitter the modern ring has ever known is one of the high spots of the year. The former champion may not turn the tables on Gene Tunney, who beat him so badly last September, but his wallop will be dangerous as long as he is upright and charging in.

**KILLING PREDATORY ANIMALS**  
STEPHENVILLE—Efforts are being made to organize Erath county for concerted action in ridding the section of predatory animals that prey upon sheep, goats, turkeys, and chickens here. Representatives of the United States department of agriculture and bureau of biology have been in Stephenville conferring with business men and farmers in regard to this work.

### West Texas Notes

**GOLDTHWAITE**—The first unit of a series of contemplated-cheese factories to be established over Texas is under construction here. Ground has already been broken on the factory site, which was donated by the city, and work is being rushed to completion.

The plant is being built by the Texas Cheese and Butter company, Fort Worth, at the cost of four thousand five hundred dollars. The factory will perform all the operations necessary for making common cheese, excepting the curing process which requires 90 days and which will be done at a central storage plant at Brownwood.

The project is expected to be worth millions of dollars to stock farmers of Mills county. The section is already on the road to successful diversification, and with a cheese factory locate there, it is thought more attention than ever before will be devoted to dairying. The plant will be in operation within from forty to sixty days.

The ideal kitchen floor is durable, comfortable to walk and sand on, smooth, but not slippery, easy to clean and not injured by grease and water, and is attractive in color and appearance. The wooden floor finished with oil or paint, or covered with a good quality of plain or in-laid linoleum, meets any of these requirements.

### Literary Treasures Discovered on Riviera

(By The Associated Press.)  
GRASSE, France—The Riviera antiquarians have decided they must perfect their knowledge of English books.

A case of seventy books offered for sale at the settlement of the estate of an eccentric English woman was

bid in by a French collector for less than a dollar. Finding that he could not read the books he sold them to a local dealer for ten dollars.

They were purchased the same day by an English book-buyer who estimates their value at many thousands of dollars. The lot includes first editions of Fielding, Smollett, John Milton, Sterne, Goldsmith, Lamb, Shelley, Keats, and Dickens.

## Quality Food FOR LESS!

It is VALUE connected with QUALITY FOOD that has made our store the headquarters for the thrifty buyer. Housewives everywhere are learning of the big money-saving values offered every day.

Our policy of SELLING FOR CASH allows us to pass the savings on to you in better bargains in better food.

**First Draft of Charter to Be Made**

At a meeting of the Charter commission last night it was decided to make the first draft of the proposed city charter for a report the first week in September.

The State laws are being studied by members of the commission for the purpose of learning all advantages that the city may receive through the charter, with the idea of incorporating these things in the charter.

After it has been prepared, each member of the commission will receive a copy for the purpose of studying the charter for improvements.

**OUT OUR WAY**

—By Williams

**DEFENDANT**

who had been jailed the previous day. Search of Park's clothing revealed, officers said, that he was unarmed. He was later found to have left his guns in his automobile when he walked into the townsite office, where he met Popejoy. The two were said to have scuffled a little either before or after the fatal shot was fired.

Parks, with Hanna, were under \$10,000 bond on a charge of assault in connecting with the beating of Popejoy and Deputy Sheriff Tom Wilson near Electric City on the night of February 25. No bond had been allowed the two for some time, but finally after several attempted jail breaks alleged to have been engineered by their friends, they were released following habeas corpus proceedings at Pampa.

The attack which culminated in the shooting of Parks occurred on the night of February 25 when Popejoy and Deputy Sheriff Tom Wilson of Electric City were beaten, Popejoy was shot through the head, and the two were left lying for dead on a prairie. Bill Parks and Bob Hanna, the latter a partner of Parks in conducting the two dance halls, were arrested the following morning after Sheriff Joe Owenbey and a posse searched the canyons and Canadian river country for six men. The other four men were never found.

**Phone Lines Cut**  
 Developments came thick and fast in the ensuing hours after telephone lines had been cut from Stinnett by the gangmen preparing for their escape. An attempted jailbreak the next morning was but one of the many problems confronting the sheriff's department in the sensational night's happenings.

According to deputy sheriff Wilson, he had been kidnaped from his home early in the evening by six men and carried to a place near Pantex, where he was beaten, kicked, and whipped to near a point of death. Gasoline was then used to soak his clothing in an attempt to burn him, the gangmen, however, losing heart in this.

A short time later Popejoy was abducted from his place of business at Electric City and taken across the river for the same treatment. He was beaten and shot at close range through the forehead. The bullet grazing his skull. Popejoy was then hurled from the car and left on the prairie for dead.

Sheriff's men captured Parks as he stepped from his dance hall at Electric City, taking a .45 calibre pistol from his pocket. There were four empty shells in the chamber. Hanna was found near daylight hidden in a hotel room.

**Gangmen Threatened Sheriff**  
 Gangmen from outside the jail the same morning attempted to break in and kidnap Parks and Hanna. The jailer heard them and fired several shots through the window. The men disappeared.

According to sheriff's men, Popejoy was believed to have caused raids conducted on the dance halls where liquor was found. Out of revenge, they said, the two proprietors and their men meant to "get even." Pope-

**POOR LAND PRODUCES FINE CROP OF GRAPES**

COMANCHE, Aug. 19.—An acreage set almost solid in Johnson grass, and which had seen no cultivation for three years in succession, is now producing \$90 worth of grapes to an acre for a Comanche county farmer.

In August, 1925, J. B. Alcorn, with a handful of cuttings and a heart full of hope, set the vines which were to become the basic stock of his vineyard, five miles east of Comanche. By the spring of 1926, he had 4,060 vines on 14 acres of land. Today those vines are well fruited with grapes and promise at least 50 bushels per acre in yield. Four hundred and fifty bushels in orders have already been booked, and daily inquiries from buyers are received in addition.

**PLAN CAREFULLY FOR CANYON COLLEGE BUILDING**

CANYON, Aug. 19. — Architects are at work on the plans for the new \$300,000 education building to be constructed at the West Texas State Teachers college, and hope to have them completed by the first of September.

President J. A. Hill has just returned from Greeley, Colo., where he made a study of the training school building, which is considered one of the best in America. He feels that the trip gave him many helpful ideas.

Construction will begin just as soon as plans are completed and bids called.

Joy said he had overheard the pair threaten to "get" Sheriff Owenbey and his deputies.

**Chief's Out**

Chief Flying Wolf of the Cheyenne Indians, landed at the Oakland (Calif.) airport in a biplane and tried to enter the Frisco-Honolulu race, feathers and all. His application was rejected, however, because he had no entrance money, no backer and a plane insufficiently sturdy for so long a hop.

**Soviet Plans Group of Jewish Republics**

(By The Associated Press.)  
 MOSCOW—Nuclei for a group of Jewish soviet republics within the Soviet union have been laid in the regions of Kherson, Kharkov, Minsk, and Odessa.

The Bolshevik government intends ultimately to give these regions full local autonomy, allowing the Jewish settlers to create their own district soviets and administrative bodies. The dream of thousands of Jews for a "National Home" of their own within the boundaries of their native Russia is thus made a reality.

The colonization of Jews in the new areas will include, of the 3,000,000 Hebrews in Soviet Russia, only about 1,000,000 whose extreme poverty and social situation makes it desirable to give them opportunities for agricultural and industrial development in the new "republics." To date, the government has allotted more than 250,000 acres of free lands to the Jewish colonists in the Kherson, Kharkov and Odessa regions.

"We want the Jews of Soviet Russia to form a nation by themselves," says Michael Kallnin, president of the Soviet Republic. "We do not desire the assimilation of Jews by Russians." He deplored the emigration of Jews to the United States and Palestine, saying the Soviet Union had a place for all the ethnical elements composing its population.

With the hope of their entry into the United States killed by the Johnson bill, thousands of Russian Jews are flocking to the new areas. The American Joint Distribution Committee is actively assisting the colonists. In the Kherson region, under the direction of Dr. Rosen, of New York, Jewish settlers have erected 550 new homes, built water supply and drainage systems, established agricultural schools, and installed several hundred American tractors.

**3 Train Men Killed As Engine Explodes Today**

(By The Associated Press.)  
 TEXARKANA, Aug. 19.—Charles Mills, engineer, of Texarkana, W. C. Hughes, fireman, and C. Burns, brakeman, the latter two of Bonham, were instantly killed early today when the Texas and Pacific locomotive pulling a mixed train from Texarkana to Shreveport blew up about three miles north of Shreveport today. The cause of the accident was not learned. All other members of the train crew escaped injury.
