PAMPA, GRAY COUNTY, TEXAS, THURSDAY EVENING, AUG. 11, 1927.

PRICE FIVE CENTS.

## 7-STORY OIL EXCHANGE PROPOSED

### All Supreme Court Justices Will Review Italians' Case

#### PROPOSAL HAS BACKING THAT IS SUFFICIENT

Sharpe and Reid Are Instigating Plans For Building

FIRST FLOOR ALREADY TAKEN

Only Leases Hold Back Immediate Work

Proposing to rear another tall structure into Pampa's growing skyline, a group of local men now propose to erect a seven-story office building to be known as the Oil Exchange.

Tentative plans have been drawn and longtime leases on the first floor have been secured. Those behind the project also have many assurances that the upper floors will be in demand, and they confidently expect that the fine structure can be built.

Chas. H. Sharpe, local contractor, who built the Adams hotel, Schneider hotel, Pampa hospital, and other fine structures, is in charge of plans for the Oil Exchange, and would like to confer with all firms and individuals who would be interested in taking a lease on part of the new building. Mayor F. P. Reid and Mr. Sharpe are instigators of the project, and they declare that the building can be started as soon as sufficient leases are obtained.

#### For Oil Capital

Pampa as the oil capital of the drilling territory has made the demand for such a building very keenly felt, and the proposal would be carried out to fill this need and to enable Pampa to more fully realize its possibilities. It is asserted that many companies will establish district headquarters here when office space is available.

It is planned to erect the Oil Exchange on the northwest corner of the intersection of Foster avenue and Cuyler street. There is a 75 by 140 foot space there which can be utilized for a building of any height desired.

A suggestive sketch shows a beautiful, modern, fireproof brick building which would grace the business center of any city. Frontage would be 75 feet on Cuyler and 140 feet on Foster. The main corner entrance would lead to a business space of rare location. Beyond this on the west would be a south frontage store space with a basement beneath.

#### An Arcade Effect

On Cuyler there would be a wide corridor, north of which, in arcade effect, would be a row of store spaces 20 by 45 feet in size. These would have inside exposure along the broad corridor, and would be especially desirable for certain types of business.

On the second floor would be a large community hall, 45 by 90 feet in size. A wide corridor would surround this hall on the east, south,

(See OIL EXCHANGE—p. 8, col. 3)

#### Moody Grants Respite So Negro May Test Sanity

(By The Associated Press.)

AUSTIN, Aug. 11. — A respite from execution until September 9 was granted Pete McKinney, a negro under a death sentence for murder from Fort Bend, by Governor Moody today.

McKinney originally was to have been electrocuted July 15, but was granted a 30-day reprieve until August 15. The stay today was allowed so the negro may have an insanity trial.

#### Klan Magazine Plant Wrecked

The plant of the Fellowship Forum Publishing Co., organ of the Ku Klux Klan at Washington, was mysteriously wrecked in the middle of the night, and police are trying to determine whether it collapsed accidentally or was destroyed by a bomb. In the ruins was found a note protesting the Sacco-Vanzetti execution and threatening to "blow hell out of Washington."

#### Judge Willis Speaks to Lions And Amarillo Man Leads Songs

##### Oldtime Sheriff Preferred Dagger To a Six-Shooter

(Special to The News.)

CANYON, Aug. 11.—A dagger of unusual historical interest has been added to the Gough collection in the museum of the Panhandle-Plains Historical society. It was given by Marcus Gough of Roxton, Texas.

This dagger, ivory handled and some 10 inches long, was carried by his uncle, Joshua Gough, in preference to a six-shooter, when he was serving as the first sheriff of Graves county, Ky., in 1822.

Sixty years ago people were using eye-cups, made in concave form exactly in the shape of eye ball. The theory existed that when in old age one's eyes began to flatten, these cups could be fitted over them to produce a suction and draw the eye back to its normal shape. One of these cups, a relic of days when optometrists were scarce, has been given to the museum by Mrs. Annie Gothran of Paris.

##### Water Extension Materials Here

Four car loads of material for the extension of the present water system has arrived in the city and more is expected this week. The material is being rushed to Pampa so the work can be finished before cold weather.

The McCall Construction company, who has the contract for laying the extension, expect to commence the work Monday morning when enough material will be on hand to go ahead without delays. They would have started the work sooner but weather conditions have held the work back.

Recollections of Pampa as a "whistling post" at which the Santa Fe negro porter declared his train did not even "hesitate" were given at the Lions club luncheon today by Judge Newton P. Willis, who contrasted the Pampa of old with the Pampa of today.

Citing history, the judge recalled that in 1852 Captain Marcy of the U. S. Army explored Gray county for the source of the Red river. With him was George B. McClellan, who discovered the creek which Marcy named for McClellan, a topographical engineer. Previously, Indians who abounded in this section had assured the explorers that there was no water in this vicinity. Marcy buried a bottle near LeFors containing the names of his men, but it has never been found.

Judge Willis' grandfather founded the first Sunday School and the first church in the Panhandle, at Mobeetie, and his father, Frank Willis, Sr., became the Panhandle's first district judge. The orator-judge from Canadian declared Pampa has a wonderful opportunity at this time. He sketched the city's history through the era of the cattle king, the wheat king, the cotton king, the oil king, closing with a clever poem of his own writing, in which he recited the romance of the wildcatter.

The club enjoyed a period of singing led by Albert Brown of Amarillo, song leader of the Amarillo Lions club. With him were Lions C. S. Makeig, Willard Smith, and C. B. Ritzenberry.

Chas. H. Sharpe, F. M. Culberson, and Judge Willis were local guests. John T. Willis was chairman of the meeting.

By agreement, a district court non-jury case is being heard today in the office of Cook and Lewright, local attorneys.

#### CENTENNIAL IN 1936 REGARDED AS CERTAINTY

Permanent Board Has Plans For Publicity Campaign

GOOD-WILL TOUR IS GREAT HELP

Will Require Several Years To Plan the Celebration

(By The Associated Press.)

CORSICANA, Aug. 11.—Renewed activities looking forward to the holding of the Texas Centennial celebration, a projected exposition of international scope in 1936, are in prospect for this fall, according to Lowry Martin, Corsicana, executive secretary of the centennial governing board, in an interview given the Associated Press.

Mr. Martin discussed a revival of plans recently with Jesse H. Jones of Houston, president of the centennial board, and with Theodore H. Price of New York, editor of Commerce and Finance, originally proposed the idea during a district convention of the Associated Advertising clubs of the World sometime ago.

There is intact at this time a well set-up, permanent organization of one hundred representative Texans constituting the governing board. This permanent board was authorized at a well attended state wide conference at Austin called by a proclamation issued by Governor Pat M. Neff. The board was perfected according to resolutions of this conference by a temporary committee, of which Cato Sells of Fort Worth was chairman and Mr. Martin, secretary.

#### Trip Renews Interest

"Since the return of the all-Texas good-will special train from the important centers of the north and east there has been created throughout Texas a strong and growing sentiment for a follow-up campaign of constructive and educational publicity for the state through which Texas will be kept prominently in the limelight in the years to come," said Mr. Martin. "Hundreds of congratulatory letters and telegrams have been received from all over Texas commending the good Texas will derive from the tour and have resulted in a renewal of public interest in the proposed Texas Centennial.

"Texas should not lose any time in capitalizing on the fine spirit of co-operation demonstrated in the All Texas Good-Will tour, and work to the fullest extent with the centennial governing board in making plans to give Texas and the Southwest one of the greatest Centennial expositions the nation has ever had.

"While this might sound ambitious yet it is not impossible—with united support any enterprise can be put over successfully.

#### To Convene Board

"Discussing future plans for the centennial celebration, Mr. Jesse H. Jones said, while the Texas good will party was in New York, that he contemplated calling a conference of

(See CENTENNIAL—p. 8, col. 2)

#### Woman and Man Shot to Death Near Texarkana

(By The Associated Press.)

TEXARKANA, Aug. 11. — Mrs. John Vogel, 45, was found dead in an automobile near here today with a knife or bullet wound through her forehead.

H. J. Mood was found about 75 yards away with a bullet wound through his head. He is believed to be fatally wounded.

Two revolvers were found in the car, one with all the cartridges discharged.

#### Too Strong

Because, she says, she preaches "too strong" for her parishioners, Miss Garnett Gunter, 21, the southwest's youngest woman evangelist, is temporarily out of a job. A big revival meeting in Piggott, Ark., that she had been scheduled to conduct has been cancelled. "They wanted me to preach smoothly and not trample on anybody's toes," she says.

#### Tri-State Fair Is Refinanced And Fully Reorganized

Scott Barcus, manager of the Pampa Chamber of Commerce, has received the following telegram from R. T. Emmett, secretary and manager of the Tri-State exposition.

"The Tri-State fair opened its gates September 11 completely reorganized and refinanced. May we depend upon your county for a farm exhibit? I am mailing catalog showing 22 prizes ranging from \$50 to \$300. Let's show the world we can raise it, wet or dry."

Citizens of Amarillo have raised \$25,000 to guarantee the financial success of the fair.

The Tri-State fair will be held for the fourth time this year. It is recognized as one of the great fairs of the Southwest. The first showing was in 1923 in temporary quarters. In 1924 a 120-acre tract was purchased for the Exposition's permanent home. Seven large buildings were erected. The next step was the purchase of the plant by Potter county, assuring the permanence of the institution.

Mayor F. P. Reid is a member of the board of directors.

#### Liquid Ice To Be Piped Along Main Thoroughfares of Dallas

(By The Associated Press.)

DALLAS, Aug. 11. — Liquid ice will be piped to the business houses on the main thoroughfares in Dallas when the warm weather season opens next year, according to plans made by F. O. Stevenson of Fort Worth, president of the Stevenson Engineering company, which is promoting the project.

A \$1,000,000 downtown refrigerator system will be installed. Site for a central plant is now being selected. Pipelines will be laid within three months on Main, Elm and probably Commerce streets, Mr. Stevenson announced.

This system, which will be the only one in Texas, is the first to be installed west of St. Louis. Several eastern cities use this system.

The downtown systems will be the first unit of a great network of "piped ice" throughout the city. Year after next a \$750,000 unit of pipes will be added in the residential section, according to plans.

#### EXCEPTIONS TO BE HEARD ON ERROR DENIAL

Respite to August 22 Granted by Fuller Last Night

SACCO STILL REFUSES FOOD

Bomb Explodes In U. S. Embassy In Bulgaria

(By The Associated Press.)

BOSTON, Aug. 11. — Judge Sanderson of the Massachusetts Supreme court today announced he would allow the bill of exceptions to go before the full bench on his denial of a writ of error in the Sacco-Vanzetti case.

It was said that four justices of the Supreme court would probably hear the exceptions Tuesday.

The prison physician, after a daily visit to the three condemned men, said that each appeared much better in spirits today. Sacco is now in the twenty-fifth day of his hunger strike. He refused food today, although Vanzetti drank his breakfast coffee.

SOFIA, Bulgaria, Aug. 11. (AP) — A bomb exploded last night in the garden of the American consulate here. No one was injured and a very little damage was reported.

The explosion is believed to have been connected with the Sacco and Vanzetti case.

BOSTON, Aug. 11.—Twelve more days of life have been assured Nicola Sacco and Bartolomeo Vanzetti.

Fifteen minutes before their march to the death chair was to have started, Warden Charleson of the prison brought them word that Governor Fuller and his council had announced a respite until August 22. The delay was ordered to permit a ruling on a writ of error by state supreme council of justice, which if in approval, will take the case before the full bench.

There was some inference today that the ruling would be favorable. The third respite was signed less than an hour before the current would have been switched on for the first of the triple executions. For the same 12-day period, death of Celestin Madeiros, convicted of another murder and identified with the other two, has been stayed.

Vanzetti showed pleasure at the news of the governor's action, but the other two men showed little concern.

Ice, ice water and iced air will be supplied at a minimum cost to all business houses. City officials have already granted the company permission to lay the pipes under the pavement on Main and Elm streets.

Refrigeration, according to the announcement, will be piped in pipes as gas and water is piped. It will be generated at the central plant. Ammonia, which is a gas, will be compressed to liquid ice and forced into pipes from the central plant. When it reaches the refrigerator in each building it will be converted into gas and the expansion will result in frigid air, even as low as zero. The gas will return to the central plant where it will be compressed into liquid form again.

"This system, as has been proven in other cities, has no equal from the standpoint of hygiene, service, efficiency and economy," Stevenson said.

### National Affairs Before Institute

(By The Associated Press.)

CHARLOTTESVILLE, Va.—Aviation, farm relief, and prohibition will be discussed in the light of their importance as national issues at the Institute of Public Affairs, to which the University of Virginia will be host August 8 to 20.

Edward Dunford of the Anti-Saloon league and Senator William Cabell Bruce of Maryland will debate prohibition, Gov. Harry Flood Byrd of Virginia will speak on "Reorganization of State and County Governments," and General H. M. Lord, federal budget director, will talk on "The Nation's Business." Treasury financing will be discussed by Ogden L. Mills, assistant secretary of the treasury.

Commander Richard E. Byrd and Col. Charles A. Lindbergh have been invited to speak in the future policy of aviation. John H. Clark, former justice of the United States supreme court, speaks on "The League of Nations as it is Today," and Gov. Albert Ritchie of Maryland on the "Relation of State's Rights to the Industrialization of the South."

### Department Code Of Czar Is Found

LENINGRAD—Surveys of the official archives of the famous Winter Palace here resulted in the discovery of a novel "Code of Department" by Peter the Great. Intended for young men "who wished to succeed at court and in every day life," Peter's Code embraces ten quaint commandments, the violation of which rendered the social delinquent liable to banishment from polite society. This is the Decalogue:

Never emulate the rustic boor by getting drunk in the daytime.

In conversation with a group of others, refrain from spitting in the middle of the group, spit to one side of it.

In the church, theatre or other public place avoid blowing the nose loudly, or picking the nose with the finger, or drawing the hand across the mouth, or leaning the elbows upon a table, or allowing the hands to stray or shuffling the feet, or licking the fingers, or gnawing a bone, or picking the teeth with a knife, or scratching the head, or crunching your victuals like a pig or speaking with the mouth full.

Don't walk along the street with head poked forward, eyes cast down, or features attuned to superciliousness. Rather preserve as you advance an air at once cheerful, polite, urbane and firm.

On being introduced to a young acquaintance, doff the hat at a distance of three paces. On passing an old acquaintance, see to it that you don't overlook that acquaintance.

Cultivate courtesy, ease of manner, and the ability to refrain from wrath.

Render yourself nice of speech, well-read, capable of taking part in a conversation without either disclosing the nature of your thoughts, or allowing anyone else to forestall your remarks.

Be free from diffidence and want of initiative.

Acquire foreign languages, master the arts of riding, dancing, and fencing.

Refrain from dancing in boots.

### Boys In Business Have 12 Concerns

(By The Associated Press.)

OMAHA — In a single year four Omaha boys have bought, operated and sold twelve businesses. Now they are running their thirteenth venture and it is a striking success.

The boys are Louis and Jack Drew, twins, and their brothers Clyde and Howard, and they range in age from 11 to 18 years. Their father gave them a start, encouraged them to try a number of business ventures and to dispose of them one by one when they could do so profitably. He says it is giving them a lot of good experience.

"It's fine training for them," says Drew senior, "and they get a big kick out of it. They have lost some money by short-changing themselves and they have learned to be cautious about checks."

Right now the foursome is in the department store business.

### BERLIN STEEPLE SERVES AS AIRMEN'S BEACON

BERLIN (AP) — Berlin's latest curiosity is a church steeple serving as a lighthouse to aviators. The church of Gennesaret, 600 yards east of Templehof flying field, has been equipped with a beacon light.

The steeple is perforated with illuminate pipes so as to produce four red crosses gleaming toward the four points of the compass. Besides the church steeple a number of high factory chimneys around the Templehof tirdrome have also been converted into auxiliary lighthouses.

### From College To Radio

MISS BERNICE ALSTOCK

PORTLAND, Ore., Aug. 10. (AP)—Miss Bernice Alstock, contralto radio singer of a Portland station, started her singing career in a campus serenade while in college. She is blond and answers all her fan correspondence personally.

### FEATURES FROM OTHER LANDS

#### HALF MILLION BERLINERS LEAVE FOR HOLIDAYS

BERLIN (AP)—An exodus of more than 50,000 Berliners took place during the first four days of the summer school vacation.

On the first day alone, according to the official records of the federated railways, 150,000 of the city's population left for the sea-side, the mountains of foreign parts.

#### BERLIN STREET RAILWAY LAYS NEW ROADBED

BERLIN (AP)—The Berlin street railway company, now replacing in certain streets rails that have become worn, is for the first time making the interesting experiment of laying the rails on wooden ties. Heretofore the rails have been laid on a rolled stone foundation on which the asphalt layer was placed. Experience has shown that the vibration gradually caused the rails to become loose. Now the stone foundation is being made somewhat deeper, the ties are laid on this and ballasted with the crushed stone and the asphalt covers ties, ballast, and the base of rails.

#### GERMAN FILM FEATURES EARLY AMERICAN SCENES

BERLIN (AP)—America's backwoods with battles between "redskins" and "palefaces," has come to life in the Black Forest.

A German film company has accepted a scenario based on a story by the German author, Karl May, entitled "Winnetou," and has laid the scenes in the Black Forest near Briesach.

Winnetou is the name of an Indian chieftain who is for the German youth what Chingachgook or Uncas is for American boys. The conflicts described in the book take place in about the same territory as that in which James Fenimore Cooper lays the scenes for his "Leatherstocking Tales."

#### GERMAN CRITICS DISLIKE AMERICAN OFFER

BERLIN (AP)—The offer by an American concern of a prize of \$10,000 for completing Schubert's unfinished Symphony does not meet with favor among the German critics.

Paul Zschorlich of the "Deutsche Zeitung," one of the best known musical writers in Germany, brands the offer as "a nuisance" and as "a business trick—a typical American go-getter stunt."

"To finish Schubert's B-minor symphony we need a Schubert," Zschorlich comments. "But he no longer lives among us, and even the American magic wand won't discover him. Under the most favorable conditions there will be an imitation of Schubert's style. But it will differ from the real Schubert as false diamonds differ from genuine."

The critic of the "Taegliche Rundschau" finds that \$10,000 is a sum which, "had Schubert had but a little part of it, would have saved him from many an embarrassment. We fear, however, that even if this sum were to be increased ten-fold, it could not call to life a new Schubert."

### GERMAN LINERS USE SPECIAL MESSAGE BLANKS

BERLIN (AP)—Tourists on German liners, to whom friends or relatives send wireless congratulations, are now handed these messages on artistic blanks especially designed for this purpose.

At the head of the blanks there is a lithograph of a Brandenburgian frigate from the seventeenth century with all sails set. In the corners are the coats of arms of the large German steamship companies. At the top of the sheet is printed in Medieval German, "Gode Wint, glatte See" (favorable breeze, smooth sea). The design is by the Berlin artist, Carl Prinz.

### PRINCE ALBERT COAT OCCASION SARTISTS FEUD

BERLIN (AP)—A prince Albert coat is the cause of a feud between two groups of Munich painters.

The Cooperative Union of Munich Artists and the New Secessionists occupy opposite wings of the Glass Palace, the scene of art exhibitions. Former Crown Prince Ruprecht of Bavaria recently dropped in unexpectedly on the Cooperative. At the end of his visit he said he wanted to see the Secessionists' exhibition also.

Fritz Behn, director of the Cooperative, telephoned Professor Caspar, director of the Secessionists. Caspar said he must don his Prince Albert before he could receive the prince. He took the fastest taxi home. But Repprecht insisted he must see the pictures at once. Behn guided the prince through the Secessionists' exhibit also.

By the time Caspar returned with his Prince Albert the royal visitor was gone. Caspar blamed Behn and accused him of failing to pay admission for himself and his guest. Behn replied by sending him two marks and an ironical letter.

Now neither speaks to the other. Neither will their followers speak to one another.

### Farm Gully Reclaimed For Trees and Vines

(By The Associated Press.)

NASHVILLE, Tenn.—A gully is not simply a gully to State Forester R. S. Maddox. To him it is the prospective site of a grove of trees which may earn money for the farmer, halt the erosion of his lands, and hide an unsightly spot.

For twelve years he has carried on a campaign of "gully camouflage" in which Tennessee has been unique among other states. His method is to plow off the gully banks, build a few brush dams to check the sliding soil and set out black locust, a fast-growing tree with "fence post" possibilities. Grass and vines are also used.

The United States department of agriculture became interested in his reclamation work and as a result other states have followed Tennessee's lead.

MINNEAPOLIS—Frederick Trump cannot fly an inch, but he has built a plane which fliers say is a perfect ship. The 23-year-old youth made the plane in his father's garage. "Speed" Holman, mail pilot, took it on its maiden trip. It is but 14 feet long from tail to propeller and has a wing spread of 19 feet.

### Sharpshooter

M. P. TOMSKY

MOSCOW, Aug. 10. (AP)—Michael Tomsky, chairman of the All-Russian Council of Professional Unions, an organization of eight million members, has been elected as "honorary sharpshooter" by the Supreme Council of Physical Culture.

Tomsky has contributed to the "militarization" of Soviet Professional Unions during the present war scare of Russia, particularly by promoting rifle practice, by an energetic campaign in the press and by fiery speeches.

### Bees On Spree With New Still

CYNTHIANA, Ky. (AP)—John Smith of Danville is wondering whether his bees are liable for indictment under federal prohibition laws.

The bee fancier noted a peculiar condition in one of his hives. The bees appeared in a semi-dormant state, and at the same time a fragrant odor was discernible near their quarters.

Opening the top of the hive, he found a section of the honey-comb had not been sealed by the bees and water had dripped into the honey. Summer heat served to ferment the mixture, which Mr. Smith said more nearly approached the strength of distilled spirits than that of fermented wine.

A workman in Rome uncovered a cache of golden coins of the time of Trajan, Hadrian, and Marcus Aurelius.

# FIVE MONTHS OLD TODAY

---

Pampa's first and only Daily Newspaper appeared for the first time five months ago. At that time the publishers forecast the need of a daily newspaper in Pampa. Nothing has been spared to make Pampa's official newspaper a leader in its class.

To have continued a weekly or semi-weekly newspaper here would have been like having but one train through Pampa a week. The people of Pampa and community have shown their appreciation of having the "news while it is news." No one has to wait until the end of the week before they are given a review of the week's news. The Pampa Daily News brings the news to your home each and every evening.

Our rapid growth is but a reflection of the rapid growth and prosperity of the entire community. Our goal in the future is to keep a step ahead of the growth of Pampa.

We wish to thank the people of this community for the splendid co-operation we have received in making the "Pampa Daily News" Pampa's own daily paper.

From time to time you may look forward to small additions to our paper, such as new comics, serial stories, etc. Let the Pampa Daily News bring the news to your home every evening.

---

The **PAMPA DAILY NEWS**

Pampa Daily News

Published every evening except Saturday, and on Sunday morning by the Pampa-Warren Publishing Company, Inc., at 155 West Foster avenue.

The only newspaper adequately covering Pampa and Gray county events and the Pampa oil field.

PHILIP R. POND
Manager
OLIN E. HINKLE
Editor

Entered as second-class matter March 25, 1917 at the post office at Pampa, Texas, under the Act of March 3, 1879.

NOTICE TO THE PUBLIC

Any erroneous reflection upon the character, standing, or reputation of any individual, firm, concern, or corporation that may appear in the columns of the Pampa Daily News will be gladly corrected when called to the attention of the editor.

Telephone 100, all departments

LOGICAL—The proposal to align the state highway commissions in interstate road building in the West Texas and Southeastern New Mexico areas should be given much consideration. Too often states, like counties, neglect through traffic movements in building their roads.

ONE PLAN—It should be understood that the city-manager form of government explained by E. V. Spence of San Angelo is not necessarily like that which would be adaptable to Pampa.

WRONG — O. B. Colquitt, chairman of the state tax survey commission, says it is "awful" to contemplate the amount of property in Texas that is escaping taxation.

REGRETS—If Lindbergh is as shy as he looks, acts, talks and poses in pictures, he must find it an awful bore to be famous.

Sam's Ace In The Hole

respect to his eligibility. But the Prince is the treat-em-all-alike social lion, while Lindbergh is of the same type in a negative way.

RIGHT — News dispatches are carrying the information that floggers are being convicted and sentenced in several states. In some cases trials have been held under conditions approximating martial law, but justice has prevailed.

LIVESTOCK—Carson county has dairy work underway, with an expert employed to advise farmers. Results may be expected. White Deer men are interesting themselves in the bull ring idea.

We'll forgive Henry Ford just about everything if he will apologize for the peace ship and the eagle boats. We'll even overlook the fact that he named the boy Edsel.—The Fort Wayne News-Sentinel.

Wreck car races have been possible, and it will be just like some little places to stake a wreck plane race.

WASHINGTON LETTER

BY RODNEY DUTCHER
NEA Service Writer.

WASHINGTON.—The very next time you start to say something mean about members of Congress or the Cabinet, stop a moment and think of the strain they are under.

Think of the great perils they must face! Worst of all their dangers and quite in a class by itself, is the condition of insecurity resulting from the astonishing enthusiasm of the District of Columbia police force for chasing bootleggers.

These Washington cops know their movies. Hardly a day passes without a thrilling newspaper account of a wild police automobile chase after a bootlegger.

No one will object to the cops chasing and catching bootleggers except regular customers, but these wild pursuits on wheels have become positively disquieting if not actually menacing to the ordinary peaceful citizen.

It may be comedy to some folks, but it has been no less than tragedy to others. And the fact that senators and other government officials are not immune to danger from reckless shooting and automobile crashes with cars going as high as 60 miles an hour was definitely proven when Senator Frank L. Greene of Vermont was shot in a gun duel between police and bootleggers near the Capitol three years ago.

Since that occasion, at least four persons have been shot dead and four badly injured in

the strenuous police efforts to stop transportation of liquor. Two other persons have been killed in collisions resulting from bootleg chases and at least five very seriously injured. Figures for wrecked cars and hairbreath escapes from death or crippling are not available.

All this in the quiet, beautiful capital of the United States, birthplace of prohibition and seat of its enforcement. The facts stand out in vivid contrast here because the lawless element of the capital is not normally large.

Cotton is up; rah, rah for the boll weevil.

PRESS FORUM

Except for the merest formalities Governor Al Smith now is ready to enter the White House on March 4, 1929. The last of the major arrangements were completed when the Upholsterers' International Union gave him a "presidential chair," hand-carved from "the same variety of walnut that is used by the government in rifle butts" upholstered in French frieze with a raised flower design on a green background.

It seems to answer all the requirements for a presidential chair that won't be moved immediately into the White House, especially as regards the hair stuffing; hair without a permanent wave might cease to be buoyant, light and curly—like the Smith hopes—before the date rolls round.

The French frieze material and its design is above criticism, and would be so anyway for us because William Kohm, president of the union and designer of the chair, says Mrs. Smith picked it out herself; and showed good judgment, too; it is the very thing he would have occur and show us there is a wider diffusion of good judgment than some pessimists would have us believe.

"The chair is so comfortable that if placed upon wheels it might be used as an ambulance." That was a thoughtful provision. If everything doesn't go well in the Democratic national convention Governor Smith can be taken back to Albany in it.

TWINKLES

There is little separating the "finished" athlete and the finished athlete, unless some good training methods are followed.

The Sacco - Vanzetti case should well illustrate the dozens of ways one may delay culmination of a trial if he has the wherewith.

Well, if the bobbed hair passes the cave men will feel more at home.

It would take a lot of urging to make the average patriot miss a good meal "in sympathy" for anything. An army marches on its stomach, but a mob doesn't.

ner of a Coney Island roller coaster." Ingenious, but perhaps a trifle too suggestive of the way presidential booms sometimes come to earth. Lines of this sort are graceful, of course, and suggest soaring, but perhaps something a little more solid, even if heavy, something in the empire style, might have been more reassuring.

With this detail out of the way Governor Smith can now go ahead and prepare an inaugural address that will quiet the ku klux klan and remove all apprehension from the minds of the dregs without too much disappointing the wets.

MOM'S POP Breaking The News By TAYLOR

### Menus for the Family

By Sister Mary

**BREAKFAST**—Grap fruit, broiled fish, potato cakes, rye muffins, milk and coffee.

**LUNCHEON**—Cold boiled tongue in aspic, potato salad, corn muffins, blackberries and cream, plain cookies, milk, tea.

**DINNER**—Vegetable plate, watermelon, salad, caramel custard, milk, coffee.

In this dinner menu the protein-rich dish is found in the dessert. Often a poached egg is served on a bed of spinach or any creamed vegetable on toast but for this "plate" the addition of the egg is unnecessary. When planning a vegetable dinner always choose vegetables of contrasting color and arrange them attractively.

#### Cold Boiled Tongue in Aspic

Two tablespoons granulated gelatine, 1/2 cup cold water, 2 cups boiling water, 2 bouillon cubes, 2 tablespoons minced carrot, 1 tablespoon minced onion, 2 tablespoons minced celery, 1 tablespoon minced parsley, 1/2 teaspoon salt, few grains of pepper, 1 cup diced cold boiled tongue, 1 head celery.

Soften gelatine in cold water for five minutes and dissolve in boiling water the bouillon cubes. Add carrot, onion, parsley, celery and salt to the dissolved bouillon cubes, cover closely and simmer 20 minutes. Remove from fire and stir in softened gelatine. Strain through wire and then through cheesecloth. Place a spoonful of the aspic in the bottom of each individual mold. It will stiffen very quickly. On this place a slice of crisp celery. Cover with a thin layer of aspic and a layer of diced tongue. Continue layer for layer of aspic, celery and meat until all is used. Put on ice for several hours to chill and become firm. Unmold on a bed of lettuce hearts and celery curls.

To unmold wrap each cup in a towel wrung out of hot water. Invert and the aspic will slip out easily.

This is an excellent way to use up the end of a tongue that is too small for slicing.

Mr. and Mrs. S. A. Neal departed Thursday for their home in Hillsboro, after a several days' visit with Mr. and Mrs. C. B. Barnard.

Mr. and Mrs. H. E. Florey are in Austin this week. They expect to return Friday.

### Social Calendar

Baptist Circle No. 1 will meet with Mrs. T. H. Barnard, and Circle No. 2 will meet with Mrs. J. R. Henry.

Catholic Altar society with Mrs. Henry Pohl.

Presbyterian Auxiliary—no meeting.

Women's Missionary society—no meeting.

Christian Missionary society—no meeting.

Ladies Aid society—no meeting.

Amusu Bridge club—no meeting.

Entre Nous club—no meeting.

Coterie club—picnic at Mrs. R. S. McConnell's Thursday.

### White Berries

A navy blue georgette frock which has a distinctive note with its wattle of white berries worn in the deep "V" of the white georgette collar.

### Darns Socks On African Jungle Motor Tour

African natives (upper left) astonished at their first sight of a white woman. Mrs. Stella Court Treatt (upper right) and "Kama," the monkey. Below—Mrs. Treatt plays the gramophone for the natives.

BOSTON, Aug. 11. (AP) — A bobbed haired young woman, honking a horn and driving an automobile, gave to some women members of a few central African tribes their first lesson in modern civilization.

She is Mrs. Stella Court Treatt, first white woman to penetrate some of the remote districts of that continent, and feminine chauffeur for a party of five, led by her husband, Major C. Court Treatt, F. R. G. S., F. R. C. I. Their journey exclusively by automobile was from Capetown to Cairo, a distance of 2,000 miles. As Mrs. Treatt records in her book, "Cape to Cairo," the tours through unsurveyed wilderness brought their mileage to 13,000 in 16 months.

Mrs. Treatt was second in command. Her special titles, however, were "the three-D's"—doctor, diarist and darnier. One entry in her diary reads:

"I hope never to darn another stocking in my life." Later she writes:

"I am trying to forget I am a woman; it isn't always easy, but I am sure it is the only way to get through. But how I would love a big bath and some silky clothes to wear just once!

"I dream of missing hairs as a fox does of his lost tail!

"But women explorers can't have everything, and I am beginning to be rather expert in doing without luxuries."

In many of the inland districts the group gained favor with the natives because Mrs. Treatt gave first aid to ailing babies. These white people, especially the woman in her boy's clothes, were a source of amazement. Native Dinkas turned out to stare at the machine and its occupants, but never did the natives give any real trouble or seriously hinder their progress.

Despite the lack of traffic regulations—the bane of a motorist's existence—Mrs. Treatt shows clearly that a journey through Africa by motor car is by no means exclusively a "pleasure trip."

Roads that ran into river beds bordered with swamps; streams where new bridges had to be built to bear the cars' burdens; jungle lands with lions' eyes for traffic lights; hostile native pedestrians—these were some of the difficulties encountered on the trip.

A complete motion picture record was kept from the day they left Capetown, Sept. 15, 1924, until they reached Cairo, Jan. 26, 1926.

They paid tribute to Cecil Rhodes, famous explorer, when they passed his grave in Bulawayo.

#### HENRY TAKES RIDE

DETROIT, Aug. 11. (AP)—Henry Ford took his first airplane ride today with Colonel Charles Lindbergh in the Spirit of Saint Louis.

Misses Ruth and Marjorie Snyder of Canadian are guests of Miss Elizabeth Corson of this city.

Mr. and Mrs. Loris Hill left Thursday for their home at Snyder, after a visit with Mrs. Ruth Hill and family.

### SOCIAL NEWS

Mrs. Fred Young and little daughter of Amarillo arrived Thursday to visit her mother, Mrs. R. E. Williams, and sister, Mrs. T. H. Barnard.

Miss Pearl Wilson is ill.

### Baptist Circles Have Meetings

Circle No. 1 of the Baptist church met Wednesday afternoon with Mrs. T. H. Barnard. The devotional was led by Mrs. D. H. Truhitte, and the mission study was conducted by Mrs. T. B. Solomon.

At the close of the meeting refreshments of ice cream and cake were served the fourteen members present.

Circle No. 2 of the same church met Wednesday afternoon with Mrs. J. R. Henry. Mrs. Harvey Haynes led the devotional and Mrs. S. L. Anderson conducted the mission study. Later refreshments were served to fifteen members and one visitor.

Bills of sale for transfer of automobiles can be secured at the Pampa Daily News office.

Mr. and Mrs. J. L. Stroope, Miss Donnie Lee Stroope, Mrs. J. E. Fulgham and daughter, Maxine, spent Thursday in Miami visiting relatives and friends.

### Mr. and Mrs. Hughey Entertain Friends

The beautiful home of Mr. and Mrs. I. B. Hughey in West Pampa was the scene of a lovely party Wednesday evening, when they entertained a number of friends with the favored pastime of bridge. Cut flowers were tastily arranged in the spacious receiving rooms, where seven tables were placed for bridge.

High score for the ladies was won by Mrs. P. O. Sanders, and for the gentlemen by J. D. Sugg. Mrs. L. C. McMurtry received consolation for the ladies and A. H. Doucette for the gentlemen.

At a late hour a delicious ice course was served to the following guests: Mr. and Mrs. W. M. Craven, Mr. and Mrs. G. C. Walstad, Mr. and Mrs. Alex Schneider, Jr., Mr. and Mrs. DeLea Vickers, Mr. and Mrs. L. C. McMurtry, Mr. and Mrs. Bradford Griffin, Mr. and Mrs. W. L. Woodward, Mr. and Mrs. L. N. McCullough, Mr. and Mrs. P. O. Sanders, Mr. and Mrs. A. H. Doucette, Mr. and Mrs. C. T. Hunkapillar, Mr. and Mrs. J. D. Sugg, Mr. and Mrs. Joe M. Smith, and Miss Lillian Manning, the latter of Dallas.

### Merchants Bureau To Meet Tonight

The Dry Goods and Clothing Merchants' bureau of the Chamber of Commerce will have its first banquet since organizing at the new Schneider hotel tonight at 8:30 o'clock.

The chief business to be discussed at tonight's meeting will be the recommendation of the officers and advisory board for a regular monthly trade day.

A short entertainment will be given during the banquet, and will be in charge of Bob Rose.

### Will Visit McLean About Fair Exhibit

J. L. Lester and Scott Barcus will visit McLean tomorrow to meet with the agricultural representative and the secretary of the Chamber of Commerce there. They will discuss the Gray county exhibit at the Tri-State fair in Amarillo next month.

Although conditions have been poor in Gray county this season, a good exhibit can be sent in to represent the county.

### 79 Kiwanis Clubs Will Convene In Denton Convention

(By The Associated Press.)

DENTON, Aug. 11.—Seventy-nine clubs will be represented at the annual convention of the Texas-Oklahoma district, Kiwanis International, at Corpus Christi September 5 and 6, according to A. M. McDonald of Denton, lieutenant-governor of the district.

The largest attendance in the history of the organization is expected, arrangements being made to accommodate 1,200 persons at the Gulf town. The lure of Corpus Christi as a summer resort is an added attraction, Mr. McDonald explained.

Two Kiwanis International officers will address the convention. They are, Fred C. W. Parker of Chicago, international secretary, and Charles Rinehart of San Diego, international trustee. Henry Heinz of Atlanta, Ga., international president, and Roe Fulkerson of Washington, editorial writer for the Kiwanis magazine, have been invited to attend.

Most of the work of the two day session will consist of making reports and outlining plans for the coming year's work. Frank C. Smith of Houston, district governor, will preside. Mr. Smith was elevated at the international convention at Memphis recently to the international board of trustees.

The numerous entertainment features for the Kiwanians and their wives and friends include a religious musicale with all church choirs in Corpus Christi participating Sunday evening preceding the opening

### Interstate Road System Proposed

STAMFORD, Aug. 11.—The ribbon-like length of interstate connecting highways of West Texas and Eastern New Mexico may be improved through co-ordinate efforts of the highway commissions of both states. Correspondence instigated by the West Texas Chamber of Commerce to highway officials of the Lone Star State and New Mexico find both groups entirely agreeable to forming some definite move toward co-operative work.

Arrangement for a joint meeting of the Texas Highway commission and the New Mexico Highway commission is being contemplated by the West Texas chamber for some time this fall. W. C. Davidson, state highway engineer of New Mexico, has written Manager Homer D. Wade of the West Texas organization, that he is taking up the proposition of improving interstate connecting highways with members of the New Mexico commission and that he is finding them ready to act at any time.

A telephone communication with Walter Ely, Chairman of the Texas Highway commission, indicated his favor in the matter, and since both commissions have expressed themselves as being agreeable to action along this line, it is thought that a joint conference will be called at an early date at some convenient point.

It is believed that a concerted move on the part of the two states to improve the line-up along their border would be of mutual advantage, not only to the particular districts of West Texas and Eastern New Mexico, but to the entire territory of both states.

### Officers Search Paymaster's Slayer

(By The Associated Press.) NACOGDOCHES, Aug. 11.—Officers continued the search in the woods near here for the bandit who yesterday killed Dave Patterson, 35 years old, paymaster for the Forest Lumber company and wounded Harold Williams, 17.

The bandit overlooked \$1,300 the paymaster was carrying.

of the convention Monday, September 5. A barbecue will be given by the Corpus Christi club. Dancing, surf bathing, luncheons, golf and automobile rides will keep all delegates and visitors occupied during the time the convention is not in session.

# Navy, With Glendon Coaching, Hopes to Enter Olympic Rowing

(By The Associated Press.)  
ANNAPOLIS, Md. — "Will the Navy represent the United States in the Olympic in 1928?" That is the question that is being asked here, since Richard A. ("Old Dick") Glendon consented to return to the Naval Academy as chief mentor of the Navy crews.

"I hope to have some real news for you within a year," was his somewhat cryptic remark upon his return. Although "Old Dick" refused to go into details on his statement there was basis for believing that he referred to the 1928 Olympics, which the Navy has hopes of entering in spite of the crushing defeat suffered at Poughkeepsie this summer.

"Old Dick" is backed by a great deal of sentiment here because of his long association with the Academy and the splendid crews he developed. The most notable of these was the eight of 1920 which won the world's championship from all comers in the Olympics, and also gained Poughkeepsie honors the next two years.

Glendon took charge of rowing at the Naval Academy in 1904 and served continuously until 1922 when he went into retirement. His son, who succeeded him, later became coach at Columbia. The two joined forces this year to send Columbia to a remarkable victory at Poughkeepsie.

Asked why he returned to Annapolis, the elder Glendon said: "Love for the Navy and the old surroundings is the reason, I suppose."

A tremendous task faces Glendon. He must match his son's great sophomore eight in the Poughkeepsie races next year and meet the best of western shells. He will have this year's great plebe crew as material. He must change the stroke of the present Navy oarsmen, and therein lies his greatest task. The Washington stroke must be supplanted by the long, sweeping pull known as the Glendon stroke. That is what he is teaching the new freshman class this summer.

Commander Jonas H. Ingram, director of athletics at the Academy, rates "Old Dick" as the greatest crew coach that ever lived.

# Farm "Hard Times" Reported In Britain

(By The Associated Press.)  
LONDON—British farmers, as well as American, have experienced difficult times during the past few years.

The average level prices of agricultural produce is lower than in any year since 1915, says a report on the prices and supplies of agricultural produce and requirements in England and Wales issued by the Ministry of Agriculture.

Wheat shows the least change in price among the cereals. Barley and oats have fallen sharply compared with 1924-5, but whereas barley has shown some recovery, oats were only 18 percent above pre-war level. Potatoes, owing to short crop in 1926, have recovered during the present harvest from the low prices prevalent in 1924-25.

Both fat cattle and fat sheep have fallen heavily in price. Fat pigs, on the other hand, are well above 1924-25 prices, and in view of the low prices of feeding stuff, the prices of fat pigs have proved remunerative. Milk has declined somewhat after being virtually stationary for three years, butter has fallen steadily and cheese after showing an improvement in 1925-26, has fallen sharply to the low level of 32 per cent above pre-war.

Poultry and eggs are both lower. The index numbers for fruit and vegetables both showed an improvement in 1925-26 but have fallen heavily since.

The general declining tendency is more marked during the first months of this year. For the six months ending in March the average has been below the corresponding months of the previous year. These low averages have been due very largely to the reduced prices of fat stock and milk, which constitute more than half the output from British farms.

The decline in the price of fat cattle has been relatively very sharp, prices of these during the past six months have been about 11 per cent lower than a year earlier.

Agricultural wages have remained at a standstill for some time, the average being about \$8 per week,

# KING ALBERT BACKS CONGO FLIGHT, SEEKS BELGIUM-AFRICA AIR LINK

BRUSSELS, Belgium, Aug. 11.—(AP)—Out of a king's vision of 48-hour air service between Brussels and Leopoldville, in the Belgian Congo of Africa, has come a plan of two Belgian aviators, Lieut. G. Medaets and Lieut. Jean Verhaegen, to fly from Belgium to the mouth of the Congo river. The nonstop flight to the land of the heart of darkness is being made at the request of King Albert, one of commercial aviation's most enthusiastic patrons.

Lieutenants Medaets and Verhaegen have already flown the 5,589 miles from Brussels to Leopoldville, taking 12 days for the flight. If they can span the jungle and the Brussels boulevards in a nonstop flight, King Albert believes that much of the world's fear of Africa's wilds and isolation will vanish.

The king and queen are giving unstinted support to the project. A member of the royal family is expected to christen a Breguet plane for the flight. It is considered possible that Princess Astrid will give her name to the plane.

Although the distance of the contemplated flight is just about the same as that covered by Byrd and his crew in the America, the scientific data resulting is expected to be entirely different in character because of the wilderness over which the Belgians will fly. The effect of the equatorial heat on atmospheric conditions is something about which aviators know very little. Mail planes now operating in the Belgian Congo have supplied the bulk of what is known of African flying conditions. Extension of the African air mail and eventual establishment of a direct air service with Europe is the dream of King Albert for the Belgian Congo.

Medaets, who is 31, flew a military plane for many months during and after the war. His companion, Verhaegen, is the ace of Belgian navigators. He is only 29. Recently

which is 75 percent above weekly wages paid in 1914.

**FOOD SALE**  
The Win One Class of the First Christian church will hold a food sale at the Piggly Wiggly store Saturday morning. 132-2tc

Lieut. G. Medaets (above and Lieut. Jean Verhaegen.

he had a narrow escape from death when his plane crashed at the inauguration of a new aerodrome near Nivelles. The pilot with him was killed.

NORFOLK, Va. (AP)—A complete collection of Virginia law reports is to be presented by the state to Middle Temple, the English barrister's library, of London. Governor Harry Flood Byrd has directed Ivor A. Page of this city, a native of England, to convey the gift.

# Highway Division Moves From Alpine To Balmorhea City

(By The Associated Press.)  
BALMORHEA, Aug. 11.—Division headquarters of the state highway department is being moved from Alpine to Balmorhea because of the accessibility to highways in this Southwest Texas section.

An office building will be erected and arrangements for shops for the machines have been made.

The relocation was brought about by the West Texas chamber of commerce motorcade to Balmorhea, when State Highway Engineer Thompson and commissioners inspected the region. Balmorhea is on the Old Spanish Trail and the proposed international highway and is midway between the Bankhead and the Border highways, with good roads in all directions connecting these highways.

# Big Alligator Is Killed With Rifle Near Eagle Lake

(By The Associated Press.)  
EAGLE LAKE, Aug. 11.—G. B. Skelton of this city drew a throng about him when he brought to town an alligator 12 feet long and weighing 440 pounds which he had killed in one of the lakes near here.

He shot it with a rifle. A photograph of the saurian, suspended by its head, showed that it was almost twice the length of the slayer, who is six feet one inch tall.

An alligator is no novelty in the lakes hereabouts but a 12-foot reptile seldom has been seen in this vicinity.

# Humble Burros Used To Train Wild Horses

(By The Associated Press.)  
SAN ANGELO—The meek and lowly burrow or donkey, still plays an important part in training wild horses.

Yoked to a complacent burro, the horses after a few hours learn to stop, halt, turn and in general to obey the wishes of someone else.

A rope is placed about the horse's nose and the neck of the burro and they are allowed to run together. After a few hours the wild horse may

# Swenson to Organize Poultry Association At Big Barbecue

SWENSON, Aug. 11.—Col. R. L. Penick of Stamford and Exhibit-Agricultural Manager B. M. Whitaker of the West Texas chamber of commerce, will be in Swenson Thursday to attend the big barbecue and basket dinner planned here for that day as a part of the movement for organization of a poultry association in this district.

The gathering was planned by Reece Ward of this place after a conference with Col. Penick, who is chairman of the poultry and dairy committees of the West Texas chamber of commerce, and who is perfecting details for creation of such a bureau in the regional organization. The Swenson meeting will mark Penick's first date in a series of engagements connected with organizing poultry work and poultry movements in the west.

The Swenson chicken gathering is expected to start the "ball rolling" in the matter of renewed activities in that field. It is thought that a widespread move for development of the poultry industry will be apparent this fall when the West Texas chamber of commerce poultry and dairy bureau begins to function. Personnel of the department is being made up at this time by Col. Penick and Manager Wade, and will consist of representative leaders in all districts of the West Texas chamber territory.

be down and unable to get up, but the burro usually will be able to travel.

SPORT TALK

The Pampa Grays will get out to their first recent practice this afternoon. Rain has halted the workouts for the game with Berger Sunday afternoon, when lefty Fuller and his Pacers will be seen at the home lot. Gober will have a few surprises for the local fans.
The Amarillo Texans won a close game yesterday and Connelly was the boy who saved it. He made a sensational shoe-string catch in the ninth. It was a good game, mud and all.
Gus Ketchum, former Pampa Grays pitcher, got into action yesterday in Beaumont after Townsend had been chased to the showers. Ketchum held the Dallas Steers after he went in the box, but the game had already been lost. "Hook" Shaw will probably get in the game today.
After a three-day batting slump, Babe Ruth came back yesterday and drove in all the Yankees' runs. He hit his 36th home run with two on in the third inning.
The Giants effectively stopped the Pirates' race for pennant honors when they defeated them again yesterday, 8 to 3. The Waner brothers had six hits between them, but the rest of the team wasn't hitting.

BRITISH WOMAN NET STARS BID FOR LEAD IN WIGHTMAN CUP PLAY

KITTY MCKANE, GODFREE, HELEN WILLS

BILLY EVANS SAYS

Moore Is Liked in Gotham
Pitcher Wilcy Moore of the New York Yankees is a big favorite with the Gotham fans.
The Yankee lineup fairly bristles with outstanding stars, names like Ruth, Pennington, Gehrig, Lazzari, and so on down the line and often among them is Wilcy Moore.
At the opening of the American league season, Pitcher Wilcy Moore was given little or no consideration as a regular. If any of the critics had ventured the opinion that he would be a valued member of the Yankee pitching staff by the middle of May, his sanity would have been questioned. Yet such a thing has come to pass and it wouldn't surprise me in the least if the unknown Wilcy Moore of 1926 got a fair share of votes in the most valuable player in the American league contest of 1927.
Since the opening of the season it has been just one tough spot after another for Wilcy Moore and he has seldom failed to make good as proved by his record.
He Never Cries in Pinches
Some years ago the late "Silk" O'Loughlin created much discussion by insisting that there were no close decisions, the runner was either out or safe.
Of late years, Bill Guthrie, umpiring in the majors and minors at various times, came forward with about the same sizeup of the so-called critical plays in a game by saying:
"Too me they are either 'Dis' or 'Dat,'" meaning out or safe. Bill would purposely use the rather ungrammatical expression to make his opinion more forceful.
Recently, when I asked Wilcy Moore, doing his first year in the big show, if he didn't get a lump in his throat occasionally when he was dropped into a tight game with the bases filled, he laconically replied in his peculiar southern drawl:
"Not me. What's the use of worrying? I just say as I walk into the box, 'Well, here is where I do or I don't.' Maybe I haven't any nerves, but it's no strain to me."
Moore is one of those pitchers who depend almost exclusively on a one style delivery for success.
While he dabbles with a curve and is learning a change of pace, his one best bet is his fast ball. It is a most unusual one.
A fast ball delivered with a side-arm motion and kept low, has enabled Moore to baffle the best batters in the American league. Ernie Shore, for years a member of the Boston Red Sox, is the last pitcher I can recall who used a similar delivery.
Moore's fast ball sinks as it nears the plate, much after the manner of

a spitball. The batter usually tops it, driving the ball into the ground for easy rollers to the infield.
Moore won 30 games and lost four in the South Atlantic league last season, yet all the scouts passed him up. This year he will win 15, possibly 20 in the American league. No wonder they sing the blues when he registers a win for the Yankees.

Texans Beat Demons In Mud Battle By 7 to 6 Score

AMARILLO, Aug. 11.—Despite a long home run over the right field fence by Langford of the Demons, the Texans annexed yesterday's baseball game, 7 to 6.
Langford's terrific blow tied the count in the seventh, and Sanders yielded four runs, but Fred Newton came to the rescue and Connelly shoe-stringed to shut off the danger.
The box score:

Kyle Field At A. & M. No More

COLLEGE STATION, Aug. 10.—The old historic Kyle baseball field of A. and M. college is no more.
The grandstand has been moved more than 100 yards south and a new diamond will be laid out in the near future, which will be the scene of A. and M. Baseball classics.
On the old diamond many of the game's greatest players have performed, and A. and M. baseball stars, many of whom have flashed in the big time, reached their greatest heights there.
Old-time fans recall that on this field the late "Bugs" Raymond, the former New York Giants' star, one

JOAN FRY

NEW YORK, Aug. 11. (AP)—Leadership in competition for the Wightman Cup, international women's team tennis trophy, will be at stake when America defends the prize against a British challenge on the courts of the West Side club at Forest Hills, Long Island, August 12 and 13.
Each nation has won the cup twice since it was put up for play by Mrs. Hazel Hotchkiss Wightman of Boston, former American women's champion, in 1923.
America regained the trophy last summer at Wimbledon by the close margin of four matches to three without the services of Miss Helen Wills, who was convalescing from an operation for appendicitis. The return of Miss Wills, whose Wimbledon triumph has revealed her in better form than ever, considerably strengthens the chances of an American victory. On the other hand the defending teams will not include the No. 2 ranking player, Miss Elizabeth Ryan, who is remaining abroad this year after playing a leading part in the American team victory of 1926.
The native forces, however, muster a strong lineup with such stars as Miss Wills, Eleanor Goss, Mrs. Molla Mallory and Helen Jacobs, as well as the cup donor, Mrs. Wightman, to depend on.
In quest of the trophy Great Britain has sent over a team composed largely of young players but headed by the experienced internationalist, Kitty McKane Godfree, twice Wimbledon champion.
Miss E. H. Harvey, another member of the team, figured in the 1925 matches in this country as did Joan Fry but Miss Betty Nuthall, the sensational 16-year-old girl star, and Miss Gwendolin Sterry are newcomers to the cup competition.

of the greatest and most eccentric pitchers of all time, threw his smoke ball. The late Christy Mathewson, whom John McGraw recently said was the greatest pitcher of all time, threw his famous "fade-away" on this diamond. Jack Coombs, an ace of the Philadelphia Athletics staff fifteen years ago, made his fast ball whistle there, Bryan Harris, the lath-like flinger of the Boston Red Sox, exhibited his side-arm delivery, and Rogers Hornsby, who led the Cardinals to their only pennant in this century, played on the old turf.
Local fans admit that two of the best pitched games seen on that field were played this year between the Longhorns and the Aggies when Neil Baker, now with the Philadelphia Athletics, defeated the Aggies, 2 to 1, while H. A. Hillin, now with Palestine, blanked the Longhorns the next day, 3 to 0.
It was on this field that Bib Falk, the former Longhorn pitcher and outfielder did his greatest playing as a collegian. The Chicago White Sox outfielder, when a member of the Longhorns, used to go to bat, doff his cap, and announce to the Aggie students that he would slam out a triple. The Aggies would commence to ride him, but a few moments later he would pull up at third and again he would tip his cap.

It was on this diamond that Pat Olson and Barnyard Henderson of A. and M., Teddy Lyons of Baylor, and Eddie Dyer of Rice showed promise of being big league material. Olson afterward had a trial with the Yankees, while Henderson is now pitching for Joe Dunn at Baltimore in the International league. Lyons, the White Sox pitcher, is now rated as one of the best boxmen in the big time, while Eddie Dyer, who is the property of the St. Louis Cardinals, is hurling great ball for Syracuse.

The burning question in millions of American homes - HOW can we reduce food costs? (Illustration of a horse's head)

**Whippet Sets Terrific Pace**

Traveling 100 miles at an average speed of 66 2-3 miles per hour is the latest mark hung up by a Whippet collegiate roadster in a stock car race at San Antonio, Texas, a few days ago in competition with 13 other cars, 13 of which were six cylinder models of various makes.

In this gruelling grind over a two mile dirt track, the Whippet roadster finished second to a six cylinder car which won at an average speed of 67 miles an hour. The Whippet finished three minutes behind the winner.

The Whippet roadster in this race gave a remarkable exhibition of speed, stamina, and economy despite the fact that it was in competition against higher priced and more powerful cars. The Whippet roadster was the only car in the race that was not forced to visit the pits for gasoline, oil, water or for mechanical repairs. At the end of the race its gasoline tank was still half full, the radiator water supply was nearly the same as at the start and the oil gauge showed better than a half-gallon remaining.

**Commissioners In Session Today**

Inability of a county commissioner to cross a swollen creek in the south part of the county caused postponement yesterday of the scheduled meeting of the commissioners to consider bids on McLean's road bonds. Two bond buyers stayed over for a session with the commissioners today.

Dr. and Mrs. W. F. Nicholas, in writing to have the Daily News sent them, speak of an enjoyable vacation trip in Colorado. They have been in Denver several days, where Mrs. Nicholas has been taking work in hair dressing. They have purchased beauty parlor machinery, of the latest type. Their return will be about the middle of August, after a trip to Nebraska.

**Thrice Champ**

Here's Lillian Copeland, warming up a bit with the shot, for a defense of her title as champion shot-putter of her sex. She also is the best in the hundred-yard dash and the javelin throw. The Pasadena girl will defend her titles at the coming national track meet for women at Eureka, Calif., in September.

**CENTENNIAL—**

The centennial board this fall at which time he hoped some plan of procedure might be developed which his committee can carry out in getting the Centennial started in a substantial manner. As it will take several years to bring this project to a successful realization it is very important that a definite program be arranged as soon as possible.

Theodore H. Price, of New York, who was with the Texas good-will party in New York, was very solicitous of the progress being made on the centennial plans. Mr. Price conceived the idea of such a celebration to commemorate the centennial anniversary of the heroes of the formative period of Texas.

"If the recent tour shall inspire other good will trips and follow up publicity campaigns, I believe the interest they create in Texas development should be focused toward a huge centennial celebration as a fitting climax."

"The success of the centennial celebration does not rest upon President Jones and his governing board, representing Texas in the matter, but in reality depends upon the wholehearted, unselfish and patriotic cooperation of all Texas."

**Honolulu Flight Derby Postponed For Two Weeks**

(By The Associated Press.)  
SAN FRANCISCO, Aug. 11.—A postponement of tomorrow's Dole \$35,000 prize flight from San Francisco to Honolulu for two weeks because the entries thus far presented are not now properly equipped or qualified, was ordered today by the flight committee and the department of commerce.

It was subject to the approval of the Honolulu chapter of the National Aeronautic association.

**Anderson Joins Sanders In Firm**

Sam L. Anderson, better known as Uncle Sam, has sold his interests in the Pampa Land company to W. A. Taylor and is in partnership with P. O. Sanders, dealing in real estate, oil leases, royalties, farm sales, ranches and city property.

Their office will be in the present office of P. O. Sanders on West Foster avenue.

**OIL EXCHANGE—**

and west, giving access to a number of double, outside offices. The community hall, which would have many uses, would have a ceiling extending through the central part of the third floor so that north windows and skylights would give ample lighting. The upper floors would be arranged to provide an abundance of desirable offices.

Those promoting the building believe it is easier to gauge the needs of the city and build rightly now than to attempt a small project which would have to be extended within a short time.

The hearty response which the announcement of the plans to the Lions club today and a few other persons caused has confirmed the opinion that a good office building is one of Pampa's greatest needs. Plans for the structure are in the office of Chas. H. Sharpe at his new office in the New Schneider hotel, and he is ready to discuss the matter with anyone interested.

Other buildings for the city are being planned, and definite announcements are expected to be made soon.

**Stuckey Is Awarded White Deer Paving Contract Wednesday**

Stuckey Construction company of Wichita Falls, which is doing the Pampa paving, yesterday was awarded the contract for three blocks of paving in White Deer.

Paving in the neighboring city will begin at the highway and extend southward two blocks. Two half-blocks will be laid at the intersection in the center of town.

The paving will be of 5-inch base with a 2 1/2 inch brick. The price is \$3.35 per square yard for the paving, 95 cents a linear foot for curbing and gutter, and 60 cents per square yard for excavating. Cross walk removal will require an expenditure of \$200.

The work will start in about 60 days, or when the legal details have been completed.

W. A. Stuckey also bought the \$20,000 bond issue in White Deer, paying par at 6 per cent on a flat basis. The bonds are of the 40-year serial type.

**Good Pay Hit In Gray County**

The Gulf Production company's No. 2 Sanders, in section 40, block 3, sprayed 125 barrels from 3,110 to 3,150 feet in the granite wash.

The Roxana Petroleum company's No. 1 Worley, in section 39, block 3, was shot with 360 quarts from 2,910 to 3,010 feet but bridged. The company is drilling through the bridge and cleaning out. This well had more than 500 feet of oil in the hole before the shot.

The Majestic Oil company's No. 6 Bowers, formerly No. 2, in section 92, block B-2, made 200 barrels in 18 hours from a granite wash, topped at 2,885 feet and now at 2,963 feet. The well may be shot later, but it is thought it will come in without a shot.

The Southwestern Petroleum Exploration company's No. 1 McConnell in section 174, block 3, reached first oil at 3,207 feet, and the second showing from 3,245 to 3,268 feet. It flowed 210 barrels the first 24 hours in lime pay from 3,268 to 3,282 feet.

**Man and Woman Die In Suicide Pact Near Jackson**

(By The Associated Press.)  
JACKSON, Miss., Aug. 11.—The bodies of Wade Smith, 45 years old, of Livingston, Okla., and an unidentified woman about 25 years old, were found in a patch of woods near here today.

The condition of the bodies showed that the couple had been dead several days, and a note indicated that suicide was the cause of the tragedy.

**Preliminaries In Tennis Tourney To Start Today**

The first matches of the tournament planned by the local tennis club will be run off this afternoon—if it doesn't rain.

Recent heavy rains have forced postponement of preliminaries for the past three days, but with clear skies yesterday and today it is expected that the courts will be in shape by this afternoon.

Considerable interest in the sport appears to have been aroused by announcement of the tournament and several new members have signed up with the expressed intention of "taking the cup."

The management announces that there is still room for one more player in the bracketing and that it would be glad to accept one more player to avoid issuing a number of "by's".

**Atlantic Flight Is Ready; Erwin Has To Make Landing**

(By The Associated Press.)  
PARIS, Aug. 11.—Leon Given, pilot of the Farnum Blue Bird, announced today that he would begin his trans-Atlantic attempt at 5 o'clock tomorrow morning.

DALLAS, Aug. 11. (AP)—Captain William Erwin, Dallas-to-Hong Kong flyer, was forced down at Beaumont, Cal., this morning according to word received here by William Easterwood, donor of the prize.

Failure of the gas tank to function properly was given as the reason for the descent.

**English Body To Define Fresh Egg**

(By The Associated Press.)  
LONDON — When is an egg bad? That is what a committee appointed by the Minister of Agriculture is trying to ascertain. The committee has had sittings with the National Farmers' Union and the National Poultry Council on the application for an order making the marking of imported eggs compulsory.

Many poultry dealers said they agreed that the age limit for a fresh egg was fourteen days. A. Leith, im-

porter, however, said that he had frequently eaten Russian eggs, cooked in various ways, which were six weeks old, but were quite fresh.

Then said the chairman of the committee:

"I don't suppose you'd say you bat them from preference, but rather by way of experience."
